General Comment

It is good that the department is trying to make allowances for religious beliefs. As far as I can tell, however, these accommodations are inadequate. Where are the allowances for right-to-life organizations, and religious hospitals and radio stations?

On a broader note, where is the protection from citizens being forced to pay for abortive contraceptives because they do not have a choice of a different insurance plan?

Thank you for attempting to address the issue. Please take a much broader view of protecting our right to freedom of conscience.
