General Comment

I strongly support the new policy requiring health insurance plans to cover birth control without a copay, CMS-9992-IBC2. Thank you!

I am concerned about religious employers being able to opt out of this. All women should have access to contraceptive coverage, regardless of employer. This policy should finally make near universal access to birth control a reality for all women who use it.

Thank you for following science based recommendations and making women's health a priority!
