Dear Sir or Madam:

I am against the Conflicts of Intrest Proposal regarding rollover IRA's. I do not want the federal government taking over IRAs with this rule.

When the federal government took over health care, my 78 year-old parents lost the health care supplement that Dad's former employer had been providing for years. In light of the Affordable Care Act, his former employer re-evaluated their health care offerings and withdrew from my parents a supplemental plan they were very happy with.

With this new proposal, people may also lose the adviser they have or may have substantial difficulty finding an adviser to help them.

Thank you.
