RE: Auto Insurance ID Cards
5/1/2013 Renewal

Dear Mary:

Enclosed are the auto insurance ID cards for the 2013 renewal. I've run through them so they should all be here per the enclosed list. Let me know if I missed any. They have been batched in groups 1-99, 100-199, etc. It made it easier for me to check. Hope this helps you out as well.

With our new agency management system we are no longer able to use the pre-printed card stock. The information now prints out on plain paper.

Please let me know if you need any additional information.

Best regards,

Joanne Manion

Enclosure

PERMIT # | MEMORANDUM RECEIPT # | VIN INSPECTION: DATE / INITIALS: LEV COMPLIANT: YES NO | DEALER TRANS | PRE CHECKER

VEHICLE INFORMATION

① NEW PLATE # 593 GJZ | STICKER # 50386655 | VEHICLE IDENTIFICATION NUMBER (VIN) 1FBNE3BL1ADA31269 | OREGON TITLE #

② PRESENT OREGON PLATE # | EXPIRATION DATE 06-24-15 | YEAR 2010 | MAKE FORD | STYLE VAN | REG WEIGHT / LENGTH | GVWR OVER 26,000 LBS. YES / NO (NO)

③ FARM ID # | FLEET ACCOUNT # | EQUIPMENT # 185 | GAS (✓) ELECTRIC | DIESEL PROPANE | HYBRID NATURAL GAS | PLUG-IN HYBRID OTHER: | TRAILER OVER 6,000 LBS. YES / NO (NO)

④ **ODOMETER:** Federal and State laws require that you state the mileage when you transfer ownership. Failure to complete an odometer disclosure or providing a false statement may result in fines and/or imprisonment. Under Oregon law, the offense for submitting a false odometer disclosure is a Class C felony (ORS 815.430). Use this odometer certification for motor vehicles 9 years old or newer and when you are unable to obtain the proper disclosure from the seller. I certify the odometer disclosure listed is true and correct. A disclosure is not complete on the required form from the seller. I agree to hold DMV harmless for any action resulting from my not submitting the seller's disclosure.

ODOMETER READING (NO TENTHS)	DATE OF READING (MM/DD/YYYY)	I certify that, to the best of my knowledge, the odometer reading is actual mileage UNLESS one of these blocks is marked:
58070	06/20/2013	☐ the mileage stated is in excess of its mechanical limits (has rolled over); or ☐ the odometer reading is NOT actual mileage. WARNING – odometer discrepancy.

OWNER or LESSEE / ADDRESS

Complete Line 5 with the owner whose address will be used for all DMV mail regarding this vehicle. List additional owners on Lines 8 and 9. (This in no way determines a priority of ownership.) If any owner listed uses a work address on DMV records, that owner must be shown on Line 5. See reverse for more information.

⑤ PRINT FULL LEGAL NAME: LAST, FIRST, MIDDLE OR (check one) (✓) OWNER OR ☐ LESSEE | DOL / ID / CUSTOMER # UTL | DATE OF BIRTH (MM/DD/YYYY)

⑥ RESIDENCE / BUSINESS ADDRESS - (address will be used to update your DOL / ID card) 3003 S.W. 153 rd. DR. SUITE # 205 | MAILING ADDRESS (if different from residence – will be used to update your DOL / ID card)

⑦ CITY, STATE, ZIP CODE BEAVERTON OR. 97006 | COUNTY OF RESIDENCE WASHINGTON 34 | CITY, STATE, ZIP CODE | COUNTY OF MAILING

⑧ JOINT OWNER OR LESSEE - PRINT FULL LEGAL NAME: LAST, FIRST, MIDDLE (See "Change of Address" on reverse) | DOL / ID / CUSTOMER # | DATE OF BIRTH (MM/DD/YYYY)

⑨ JOINT OWNER OR LESSEE - PRINT FULL LEGAL NAME: LAST, FIRST, MIDDLE (See "Change of Address" on reverse) | DOL / ID / CUSTOMER # | DATE OF BIRTH (MM/DD/YYYY)

⑩ ONE-TIME MAILING ADDRESS (will not change your customer record) ☐ Reg. Only ☐ Title Only ☐ Both | VEHICLE ADDRESS - (Location of vehicle if different from residence)

⑪ CITY, STATE, ZIP CODE | CITY, STATE, ZIP CODE | COUNTY (of vehicle address or use)

⑫ **SURVIVORSHIP:** Joint Owners or Lessees agree that title will show joint ownership with right of survivorship. ☐ YES ☐ NO
Joint Security Interest Holders agree that title will show joint security interest with right of survivorship. ☐ YES ☐ NO

SECURITY INTEREST HOLDER and/or LESSOR/LESSOR

⑬ SECURITY INTEREST HOLDER (Bank, Finance Company, Person, etc.) | DOL / ID / CUSTOMER # | DATE OF BIRTH (MM/DD/YYYY)

⑭ SECURITY INTEREST HOLDER ADDRESS - INCLUDE STREET / CITY / STATE / ZIP CODE | TELEPHONE #

TRANSACTION ACCEPTED
JUN 24 2013
BEAVERTON #44

⑯ SECONDARY INTEREST HOLDER ADDRESS - INCLUDE STREET / CITY / STATE / ZIP CODE | TELEPHONE # ( )

⑰ LESSOR (Complete only if lessee is shown as owner on Line 5 above) | DOL / ID / CUSTOMER # | DATE OF BIRTH (MM/DD/YYYY)

⑱ LESSOR ADDRESS - INCLUDE STREET / CITY / STATE / ZIP CODE | TELEPHONE # ( )

CERTIFICATIONS

The owner must certify by completing all applicable statements and signing the application to apply for title and registration in Oregon. By signing this application, I acknowledge the ownership or interest shown. Under Oregon law, it is a crime to knowingly make any false statement on an application for title or registration (ORS 802.090 and ORS 807.620). Penalties include Class A misdemeanors and are punishable by a jail sentence of up to 364 days or both. Commercial motor vehicle violations are punishable by a jail sentence of up to 6 months or both.

⑲ **INSURANCE:** I certify to one of the following: 1) If this application is for title registration, and this motor vehicle is subject to financial responsibility laws, I am in compliance and will remain in compliance until the vehicle is transferred; or 2) If this application includes a registration renewal for a motor vehicle, this vehicle is covered by the motor vehicle liability insurance policy listed below.

INSURANCE COMPANY (Not agent) T.H.E. Insurance Company | POLICY # CPP010115604

DOMICILE / RESIDENCY: My place of domicile (home) is in Oregon, or I am otherwise eligible or required to register the vehicle under Oregon law (ORS 803.380, 803.540 and 803.560).

VEHICLE USE: If the ownership of this vehicle has not been transferred and the registration is being renewed as a farm-use, farm, manufactured structure dealer, or state/state-political vehicle, I certify the vehicle still qualifies for special registration and the use still conforms to the law as previously applied. I certify that my special use trailer, if over eight feet one-half foot in width, is used temporarily on a construction site for office purposes only.

I understand that the Payoff amount(s) shown in the Trade Payoff is only an estimate of the payoff of the vehicles I am trading in. Should the actual payoff exceed the estimate, I will pay the difference in cash, check or money order on demand. Should the payoff be less, Dealer will refund the difference in the same manner. I agree to sign any documents necessary for Dealer to obtain proper title to the Trade-in(s).

April 15, 2019

RESPONDENTS' DISCLOSURES FOR HYBRID FACT/EXPERT WITNESSES

Pursuant to the Scheduling Order and 29 C.F.R. § 18.50 (c) (2) (iii) Respondents provide the following disclosures:

1. Identification. Plaintiff identifies the following individuals as hybrid fact/expert witnesses who may present expert opinion evidence and whose duties do not regularly involve giving expert opinion testimony:

Mr. Michael Brajevich

Mr. Steve Nittler

2. Subject matter. Mssrs. Brajevich and Nittler may address the following subject matters pursuant to expert opinion testimony:

- Industry custom and practice in the mobile amusement industry.
- Respondents' conformance to industry custom and practice.
- Determination of back wages based upon hours worked in various job codes and areas of intended employment.
- Determination of credits to which Respondents are entitled by virtue of providing housing, relocation travel, local convenience travel, and income tax payments.
- Prejudice to Respondents from late filing.
- Rebuttal of the Administrator's evidence once those theories are identified and elaborated.

3. Opinions and facts. A summary of the facts and opinions to which Mssrs. Brajevich and Nittler are expected to testify include:

Respondents conformed to industry custom and practice in 2013 when providing bunkhouses, relocation travel, and local convenience travel, as well as using a prepayment plan.

Respondents' pay practices conformed to industry custom and practice in 2013.

It is common and customary in the mobile amusement industry in 2013 to provide bunkhouses, relocation travel, and local convenience travel for a wage credit.

It is customary in the mobile amusement industry that the employer is entitled to rely upon his agent to discuss and recommend appropriate job codes.

Respondents are entitled to the credit for

- Bunkhouses reflected in Respondents' Exh. 31 and 47.
- Relocation travel reflected in Respondents' Exh. 34 and 47.
- Local convenience travel reflected in Respondents' Exh. 36 and 47.
- Income tax payments reflected in Respondents' Exh. 37 and 47.
- Overpayment for hours worked reflected in Respondents' Exh. 45, 46, and 47.

Back wages, if any, are calculated and reflected in Respondents' Exh. 47.

Respondents' exemption from the FLSA is determined and reflected in Respondents' Exh. 21.

Respondents were prejudiced by the unnecessary delay in filing the determination letter because of the loss of documentation, witnesses, and memories.

The grounds for these opinions are the discovery conducted in this case; the anticipated trial testimony of the witnesses; Mssrs. Brajevich and Nittler's knowledge regarding industry custom and practice; their factual involvement with Respondents' employment practices and documentation; and his investigations related to the case.

4. Reservation. These disclosures are not intended to be exhaustive or complete in every detail. Respondents reserve the right to amend or supplement these disclosures in light of further discovery, as well as any information provided by the Administrator.

Combined Witness Statement
Declaración Combinada de Testigos

We, the undersigned H-2B workers for Butler Amusements, Inc., submit this combined witness statement:
Nosotros, los trabajadores H-2B abajo firmantes de Butler Amusements, Inc., presentamos esta declaración de testigo combinada:

1. I am an adult and more than 18 years old.
1. Soy adulto y mayor de 18 años.

2. In addition to working for Butler Amusements currently, I also worked for them in the 2013 season.
2. Además de trabajar para Butler Amusements en la actualidad, también trabajé para ellos en la temporada 2013.

3. During the time that I have worked for Butler Amusements, I understood that I would be paid the prevailing wage as determined by the Department of Labor. Not only was this well known among the workers, but we were told this by the recruiter, Mr. Jim Judkins, or individuals who worked for the recruiter, when we were being processed for consulate appointments.
3. Durante el tiempo que trabajé para Butler Amusements, comprendí que recibiría el salario vigente según lo determinado por el Departamento de Trabajo. No solo esto era bien conocido entre los trabajadores, sino que nos lo dijo el reclutador, el Sr. Jim Judkins, o las personas que trabajaban para el reclutador, cuando nos procesaban para las citas del consulado.

4. During the time that I have worked for Butler Amusements, I also knew that I regularly received valuable benefits that went beyond the prevailing wage. These valuable benefits included such items as housing in a bunkhouse, local transportation to Wal-Mart and other places, travel in and out of the United States, processing fees at the consulate or the border, food, and so on. I knew that the value of these benefits meant that I was receiving more than the prevailing wage, and that Butler Amusements would be entitled to receive a credit for paying those expenses because they were paying more than they had agreed to pay.
4. Durante el tiempo en que trabajé para Butler Amusements, también supe que recibía regularmente valiosos beneficios que iban más allá del salario prevaleciente. Estos valiosos beneficios incluyen artículos como vivienda en una barraca, transporte local a Wal-Mart y otros lugares, viajes dentro y fuera de los Estados Unidos, tarifas de procesamiento en el consulado o la frontera, alimentos, etc. Sabía que el valor de estos beneficios significaba que estaba recibiendo más que el salario prevaleciente, y que Butler Amusements tendría derecho a recibir un crédito por pagar esos gastos porque pagaban más de lo que habían acordado pagar.

DEPOSITION OF
CARRIE AGUILAR
TAKEN ON
FRIDAY, APRIL 19, 2019
10:10 A.M.

THE REPORTER: You do swear or affirm under penalty of perjury the testimony you will give will be the truth, the whole truth, and nothing but the truth?

THE WITNESS: Yes.

EXAMINATION

BY MR. PIERCE:

Q. Good morning, Ms. Aguilar.

A. Good morning.

Q. I'd like to begin by asking you some questions about your personal background. This deposition that we're starting now is being taken in your personal capacity. We will deal separately in a follow-up deposition regarding your corporate capacity. And you understand what I mean by that?

A. Yes.

Q. Okay. So --

MS. GORMAN: I'm going to object because she's not here in her personal capacity. It's just

6

a non -- it's just her capacity as an employee of the Wage & Hour Division, but not -- but not as a person. I mean --

MR. PIERCE: Well, okay. I'm not sure what you think you're getting at, but the deposition that I'm proceeding under now is noted as an individual deposition of Ms. Carrie Aguilar. There will be a separate time frame for a separate deposition for a corporate representative, which I understand will also be Ms. Aguilar.

MS. GORMAN: That's fine. Thank you.

BY MR. PIERCE:

Q. Ms. Aguilar, have you yourself ever been deposed before?

A. Yes.

Q. How many times?

A. One.

Q. Was that a Wage & Hour case?

A. Yes.

Q. Can you give me a real basic understanding of what the issues might have been in that case?

A. It was an FLSA overtime case.

Q. And you were working in the Portland office at that time?

A. Yes.

7

Q. Did it have any H-2B issues?

A. No.

Q. Are you sufficiently familiar with how a deposition works so that I don't need to explain any of that to you?

A. I think so.

Q. Can you state your name for the record, please?

A. Carrie Aguilar.

Q. And what is your office address?

A. 620 Southwest Main Street, Room 423, Portland, Oregon, 97205.

Q. This case is currently scheduled for hearing on May 8, 9, and 10. Is it your plan to be at the trial?

A. Yes.

Q. Do you believe that you are fully prepared for your deposition today or is there things that you know that you still are hoping to get accomplished before we get to trial?

MS. GORMAN: I'm going to object because it calls for speculation. The witness can answer.

THE WITNESS: I'm sorry, what was the question?

BY MR. PIERCE:

8

Q. Whether or not you believe you are fully prepared?

A. Yes.

Q. All right. Did you in your capacity for this particular file serve as the lead investigator?

A. Yes.

Q. How would you describe the responsibilities of the lead investigator?

A. I coordinated the activities of the other investigators at the on-site visit.

Q. And are you also the one that's primarily responsible for preparing the file?

A. Yes.

Q. Did your file include an investigative summary report?

A. I don't know what -- no.

Q. Why not?

A. That's not part of a traditional -- part of a case file.

Q. I may not be using the right term but every case that I've ever been involved in, the investigator does some kind of a report. It's typically 10 to 30 pages long, summarizing the file. Did you do something like that?

A. I created a narrative report.

9

Q. I see. And it serves the same function as what I've just described?

A. I don't -- I don't know what you're describing.

Q. The purpose of your narrative report was to summarize the file?

A. The narrative discusses the issues of the case and the findings.

Q. And it also contained your calculations for back wages and civil monetary penalties?

A. Yes.

Q. Let me get your background out of the way. Could you explain your educational background to me?

A. Yes. I have a master's degree in public administration and an undergraduate degree in foreign languages, Spanish.

Q. What were the years on those?

A. My undergraduate I think was from 1999, and my graduate degree was probably 2002.

Q. Okay. And what institution?

A. Both degrees are from Portland State University.

Q. And after your school work, did you go seek employment?

A. Yes.

10

Q. Could you sketch for me your employment history?
A. Yes. After graduating with my master's degree, I started work for the State of Oregon at the Employment Department, and I worked there for seven years. And after that, I started with the U.S. DOL Wage & Hour as an investigator.
Q. When did you start with Wage & Hour?
A. June of 2009.
Q. What were your duties when you were working with the State agency?
A. I started as a business and employment specialist, which is helping job seekers write resumes, giving them referrals to a job bank. And I also worked writing job listings for the job bank, job descriptions, minimum qualifications, coding them so that they would be searchable. After that I worked as an analyst trainer for the department -- employment department, training on the job duties that I have just explained and doing policy review. Yeah.
Q. Did any of those state duties include Wage & Hour type of issues?
A. No. It was working for the job -- you know, the Employment Department, the job side. So

11

it was helping people find work and posting job listings.
Q. All right. Once you started working for Wage & Hour in 2009, could you sketch for me what positions you've held?
A. I was an investigator from 2009 to summer 2015, where I became my current position as an assistant district director.
Q. Same office?
A. Yes.
Q. During your, sounds like, about 10 years or so with the Wage & Hour Division, how many H-2B cases have you been involved with?
A. I couldn't tell you the number, several.
Q. Several. And have any of them, other than the one that we're here for today, involve the amusement industry?
A. No.
Q. Have any of them -- any of your other H-2B cases involved misclassification issues?
MS. GORMAN: You're asking just about misclassification in the H-2B context or misclassification throughout?
MR. PIERCE: In H-2B.
THE WITNESS: I don't think so.

12

BY MR. PIERCE:
Q. Could you now sketch for me the training that you have undergone in order to be proficient in H-2B investigations or H-2B related issues?
A. I've attended several trainings that were put on by our national office and our regional office, like formal classroom-style trainings. We also receive updates from the national office and the regional office regarding any changes in the law or enforcement policy.
Q. Okay. Could you quantify the amount of training that you've had that was H-2B related?
A. Well, as far as classroom training, there were at least three sessions that were, like, off-site, formal classroom training that were multiple day stints. The other -- other trainings and updates that I've received I'd have difficulty telling you, like, the number of hours or frequency. I don't know.
Q. Did you go through training that was -- I've heard it described as, like, a level 1 and a level 2. And level 1 might be two or three days and include many topics, one of which would be H-2B. Was that the sort of training you went through?
A. No. No.

13

Q. So all the training that you just indicated a couple of answers ago, that was all H-2B specific, correct?
A. Of the three session that I discussed, two of them were H-2B only, and the other one was part of a multi-week training in which we discussed H-2B as part of that training.
Q. Okay. Have you experienced any what I would call frustration being trained one way, and then the program gets subject to an injunction or something and you have to relearn a whole new set of rules? Has that occurred to you?
A. No.
Q. You've not had to be retrained in the H-2B program?
A. I have not experienced frustration as a result of any changes.
Q. Okay. But you had to be retrained?
A. As I mentioned, updates, yes. As things change, we stay abreast of that.
Q. And did the injunctions cause any turmoil in your personal practice there as an investigator?
A. No.
Q. Did it cause you to have to, like, put files to the side for a period of years or anything

14

like that?
A. Not that I recall.
Q. Did you -- during your time with the Division, have you received any awards or anything that speaks highly of you and the work that you have done?
A. Yes.
Q. Could you tell me about them?
A. One that I can remember specifically is an award for work in agriculture, working with child labor laws in agriculture. I think it was a Secretary's award as part of a group.
Q. Okay. Do any others stick out?
A. Not that I can recall right now.
Q. All right. Could you summarize for me what you understand Butler's defenses are in this case?
MS. GORMAN: I'm going to object to the extent that it calls for a legal conclusion, but the witness can answer.
THE WITNESS: I recall from our final conference and from the letter that you sent, there was questions about jurisdiction, questions about credits. I don't know.
BY MR. PIERCE:

15

Q. Are you finished?
A. Yes.
Q. And what is it about your jurisdiction that you think Butler was contending?
A. I think at one point you said that we couldn't enforce H-2B. I don't remember.
Q. Do you regard yourself as an expert in the H-2B program?
A. No.
Q. Do you regard yourself as an expert in job coding as it is commonly performed by the Office of Foreign Labor Certification?
A. No.
Q. Have you ever received any specific training in job coding as it is commonly performed by OFLC?
A. I don't know how it's commonly performed by the labor certification guys.
Q. All right. Have you ever been involved in the job coding process?
A. I coded jobs when I worked for the Employment Department using SOC codes.
Q. How much of your work with the State of Oregon involved working with SOC codes?
A. Quite a bit as far as writing job

16

listings. Every single job listing that I would write or that I would train people how to write involved coding it with a SOC code.
Q. You weren't actually enforcing it. You were just determining how to code it for purposes of posting the job?
A. It wasn't an enforcement agency. Yeah. It was to post it on a job board.
Q. Other than my trial exhibits, did you bring any other documents with you today?
A. No.
Q. Can you describe for me what you did to prepare for the deposition today?
A. I met with Jeannie yesterday.
Q. Anything else?
A. No.
Q. Did you review the file?
A. Yes.
Q. Okay. Obviously, that would have been to get prepared for today, right?
A. Yeah, for today.
Q. And other than meeting with your lawyer and reviewing the file, was there anything else that you did to get prepared?
A. No.

17

Q. No phone calls, no tracking down of extra information or anything like that, correct?
A. No.
Q. Do you as part of your job participate in the Division's system by which you track the amount of time that you have invested in a particular investigation?
A. As an investigator, I had to do that. As a manager, thankfully, I don't have to do that anymore.
Q. All right. Could you tell me as specifically or as approximately as you need to how much time you had invested in the Butler investigation?
A. I don't know. I didn't look at the case diary. I don't know how many hours were on that case.
Q. You have no idea if it's one or a hundred or a thousand?
A. Well, I would guess around a hundred, but there were other investigators charging time to that case also.
Q. All right. How many other investigators?
A. I think, if I remember correctly, there were four or five total who were there.

18

Q. And I saw quite a few names --
THE WITNESS: Oh, no, he dropped.
(Whereupon, call disconnected.)
MR. PIERCE: Are we back on?
THE REPORTER: Yes.
BY MR. PIERCE:
Q. Ms. Aguilar, I saw lots of names in the witness statements. How many investigators played a role in the on-site investigation?
A. Like I said, I think it was four or five.
Q. So all the other supplemental agents you believe were those who happened to participate in the on-site?
A. The additional investigators would have been on site during the site visit.
Q. Okay. And during the course of your investigation your focus was on what is known as Butch's unit within the Butler Amusement operation, correct?
MS. GORMAN: Can you repeat the phrase again?
BY MR. PIERCE:
A. Your investigation really focused on what's known as Butch's unit which --
MS. GORMAN: Butch's unit. Yeah, I

19

couldn't understand.
BY MR. PIERCE:
Q. Okay. Yeah. The former owner, now deceased, Butch Butler had the unit named after him.
A. Oh, I wasn't aware of that. It's the unit that we visited in Santa Barbara, but I've never referred to it or heard it referred to as Butch's unit.
Q. Okay. All right. But it was just the one unit. You're aware that there are multiple units within Butler and your focus was on the unit that was there at Santa Barbara?
A. That's correct.
Q. Your file -- excuse me, your trial exhibits also include about maybe about 150 pages of witness statements. Do you believe that all of the witness statements that were generated are included in that exhibit list?
MS. GORMAN: Objection; calls for speculation.
BY MR. PIERCE:
Q. Do you know?
MS. GORMAN: You can answer if you can.
THE WITNESS: If the statements that we supplied are -- I'm sorry, please repeat the

20

question.
BY MR. PIERCE:
Q. The trial exhibits that have been produced for your side, there's about 150 pages worth of witness statements in there. Do you believe that all the witness statements are included in that exhibit?
MS. GORMAN: Same objection.
THE WITNESS: I don't know.
BY MR. PIERCE:
Q. Okay. Have you reviewed that collection of witness statements?
A. I paged through it and I saw that they were redacted statements.
Q. That's correct. Were there any that as you were paging through it that appeared to you were missing?
A. I didn't look that closely.
Q. Okay. There were three witness statements that had names that were not redacted. There was a witness statement of Kirk Bomburg, B-O-M-B-U-R-G. There was a witness statement from Gina Tuttle, T-U-T-T-L-E, and there was a witness statement from Marilu Zepeda, I believe spelled M-A-R-I-L-U, Z-E-P-E-D-A.

21

Are there other witness statements that you're aware of from management or somebody that you believe was associated full-time with the Butler operation?
A. Not from management that I know of. And associated full-time, the other folks were employees there. Or I think there are statements from applicants too, so that's not true, they weren't all employees.
Q. Yes. Okay. And are you aware of any reason why Marilu Zepeda's statement was not redacted?
A. No.
Q. Okay. Do you agree, then, all violations at issue in this case are captured or expressed in the determination letter?
A. The determination letter describes the violations that we cited and we assessed a civil money penalty for.
Q. Well, the judge made a ruling last Friday indicating that all violations are expressed in the determination letter. Are you saying that you disagree with that?
A. I think there are issues that we found in the case that we could have pursued as violations,

22

but ultimately didn't include in the determination letter.
Q. And based on that choice, they are not part of this case and I don't need to spend time asking you about them, therefore, correct?
A. They're not part of the determination letters.
Q. Okay. Are they -- is it your intention to bring them up at trial?
A. No.
Q. What are these other violations that were contemplated but did not make their way into the determination letter?
A. We looked at possible issues with recruitment directly related to the misclassification. Or lack of recruitment for those specific occupations.
Q. Okay. Were there other potential violations that were not pursued?
A. We looked a little bit about the uniforms, that the employer provided just one uniform and then later charged employees for additional shirts that they would be required to wear.
Q. Any other violations that were contemplated?

23

A. Nothing I can think of right now.
Q. And those two violations that you just referenced, recruitment issues and uniform issues, they're not part of the determination letter, correct?
A. Correct.
Q. And you don't have any plans to bring those up at the hearing, do you?
MS. GORMAN: Objection; asked and answered.
Go ahead.
THE WITNESS: No.
BY MR. PIERCE:
Q. And is there a reason that you're prepared to testify as to why the recruitment violation was not pursued?
A. I'm having difficulty hearing your question.
MS. GORMAN: You just got very much more muffled.
BY MR. PIERCE:
Q. Is there a reason why you're prepared to tell me that the recruitment violation was not pursued?
A. I think we just went with a

24

misclassification violation and didn't expand on it. The recruitment would be part of the misclassification issue in that if there was other work these folks were performing, it wasn't advertised or recruited for, but we just decided to go with the fact that they were misclassified and were underpaid.
Q. Okay. In the trial exhibits produced by Ms. Gorman, there's a set of calculations for back wages that are marked as Exhibit I. And they have a total that's $23,000 and some change. Are those the final calculations that you're aware of?
A. I don't have Exhibit I in front of me. If it were ones that are the most recent, not the ones that were provided to you after the final conference, then, yes, those are the latest calculations and they would be the final ones.
Q. They're the only ones that I'm aware of that would fall in that time frame.
A. Okay.
Q. At this point in time, you have no plans for new violations to be charged, do you?
A. No.
Q. And at this point in time, you have no plans for changing the calculations of back wages as

25

requested in the $23,000-and-some figure, do you?
A. No.
Q. During the investigation --
A. It's really difficult to hear you.
MS. GORMAN: We can't understand you, Wayne.
MR. PIERCE: Okay.
THE WITNESS: Oh, that's better.
BY MR. PIERCE:
Q. During the investigation, I sent you well over a thousand pages of timekeeping and payroll material. Do you remember receiving that?
A. Yes.
Q. And you recognize that a lot of those documents were gathered as part of Exhibit 26 that is there in front of you?
A. Should I open it?
Q. Yeah. If you look at the first page, you'll see some Bates-stamped numbers at the bottom, BUTLER00001.
A. Yes.
Q. And that was the form in which I produced them to you, correct?
A. It looks familiar, yes.
MS. GORMAN: The witness is just rifling

26

through the pages.
MR. PIERCE: That's fine.
BY MR. PIERCE:
Q. And you're aware that there are many pages in there where the employees were actually signing off on the number of workers -- excuse me, the number of hours worked and how much they were being paid during that particular week?
A. Yes.
Q. And it was your understanding from your investigation that the hours worked were being reported and countersigned, and the amount paid was being reported and countersigned on those numerous documents included in the payroll material?
A. Yes, I can see here on these documents that there are hours and what appears to be employees' signatures and pay rate.
Q. Do you have any reason to question the reliability of those numbers as they are reflected?
A. The hours, yes. I got different reports of how hours were tracked by different people that I talked to and different information that we gathered throughout the investigation. The pay, I believe, is accurate.
Q. And other than the information that

27

appears in the witness statements that have been produced, do you have any other factual basis for saying that there was other evidence as to how hours were tracked?
A. Yes.
Q. What evidence would that be?
A. Observations from the on-site visit.
Q. All right. Why don't you tell me what that means?
A. Well, we checked what time people were working when we were there.
Q. On that particular day --
A. Correct.
Q. -- right?
A. I think we did two different days. I don't remember.
Q. Are you saying that you're not sure if you were there on one day?
A. I don't remember if we were -- I know we were there for one day, and I believe we may have gone back the following day, but I'm not a hundred percent sure on that.
Q. And other than your witness statements and your personal observations during your on-site, do you have any other information regarding the

28

reliability of the hours worked as reported in the timekeeping material that we produced for you?
A. No.
Q. There were some initial communications, sort of a flurry of activity when your investigation started in the latter part of March 2013. You and I actually met. You remember there were a lot of emails back and forth. You remember all of that?
A. Yes.
Q. And that sort of ended once you did the on-site, April 23 or 24 of 2013. And there wasn't much communication until you came back in November of 2013. Does that sound familiar?
A. Yes.
Q. All right. And then there was some communication that you and I had from November 22 of 2013 through your revised figures on February the 26th of 2014. Do you remember that?
A. Yes.
Q. And then from February the 26th of 2014, through the determination letter, the original determination letter of January 29, 2018, do you recall any communication at all between yourself and anyone on behalf of Butler?
A. No.

29

Q. What happened during that four-year time span? Why did communication stop?
Are you still there?
A. Yeah, I'm just trying to think. There was -- from the final conference, as an investigator, I would have -- after you responded and we had that activity that talked about after that final conference, I would have turned in the file to my supervisor for review. And at that point, it was out of my hands as an investigator and I don't know what happened. And then even as a supervisor, I didn't do anything with the file until we were -- well, then my boss, Tom Silva, issued the determination letter. I signed for him but it was picked up again. I don't know why.
Q. Okay. Nothing sticks out in your mind as to why it took four years for the communication to resume, correct?
A. Correct.
Q. All right. There are many, many pages in the Exhibit 17, in the witness statements that were produced to me that are essentially completely redacted.
A. Okay.
Q. Do you know why -- I would say at least 50

30

percent are completely redacted.
A. I didn't do the redacting. I don't know what the basis for the redactions is.
MS. GORMAN: And I'm going to object to the extent that it calls for a legal conclusion.
BY MR. PIERCE:
Q. Well, some of them have a stamp about being in an original language. Do you know what that might have meant, Ms. Aguilar?
A. Yeah. Witness -- or excuse me -- when we take employee interviews, we would take them in the language in which they were conducted. So a lot of those interviews would have been conducted and written in Spanish.
Q. Are you able to estimate for me the total number of witness statements that were obtained as part of the investigation?
A. I think there were, like, 15, maybe. I don't know.
Q. Do you have any reason to doubt whether any English language witness statements have not been produced?
A. You kind of cut out. Do I have any reason to what?
Q. Do you have any reason to doubt whether

31

there are any English witness statements that were not produced?
A. No.
Q. Do you recall the 9142, in particular, there were several references to the fact that Butler was going to follow industry practice. Do you remember those references?
A. Yes.
Q. Do you know what that term meant?
A. No.
Q. Had you ever been involved in any other carnival Wage & Hour case of any type?
A. No.
Q. Do you have any knowledge regarding prevailing industry practice in the amusement industry on any topic at all?
A. No.
Q. The reference in 9142 specifically talks about salary housing and transportation. You, therefore, would have no knowledge regarding industry practices for those topics as well, correct?
A. Correct.
Q. Do you have any information or knowledge as to whether or not Butler failed to comply with

32

industry custom or practice?
A. I don't know what that is, so, no.
Q. Do you have any information as to whether Butler failed to comply with any prevailing industry practice?
A. No.
Q. Did you as part of your investigation attempt to reach anyone at OFLC or somewhere else to see what they may have thought that term meant?
A. No. It doesn't -- it wouldn't have any impact on my investigation.
Q. How do you know that if you don't know what it means?
A. Because it's not part of what we would enforce which would be the wages and the hours and the other components of the TEC. It doesn't matter if there's a practice that, you know, in any industry, not just the carnival. If there's a -- we would just look at the letter of the law that we're enforcing under any act and determine compliance that way.
Q. Would you agree with me that as far as the OFLC was concerned, Butler was approved to follow industry practice on those topics?
MS. GORMAN: Objection; calls for

33

speculation.
THE WITNESS: I don't know what the OFLC practice is.
BY MR. PIERCE:
Q. Well, what in your opinion was Butler to conclude once they were approved having used language like that?
A. I have no idea.
Q. Are you familiar, Ms. Aguilar, with the term "offered wage"?
A. Yes.
Q. And you're aware that the 2008 regulations have definition for that term?
A. The regulations have what?
Q. A definition for the term "offered wage"?
A. Yes.
Q. Could you -- are you able to recite what the definition of offered wage is?
A. No.
Q. Would you agree with me that the offered wage is the highest amount among the various state, federal or local minimum or the prevailing wage?
A. Yes.
Q. In this particular case, what was, in fact, the offered wage?

34

A. I don't have the TEC in front of me. It would be whatever was listed on the TEC.
Q. Well, you'll see a copy of the 9142 that is, for example, Exhibit number 7.
A. Okay.
Q. Can you look through there and tell me what would you regard as the offered wage?
A. Okay. The offered – the basic rate of pay offered is 323.60 to 368.40.
Q. And you're reading that from page 7 within Exhibit 7?
A. Yeah, Butler's Exhibit page 7, uh-huh, yes.
Q. All right. Flip now to what's Exhibit 10.
A. Okay.
Q. Does I-129 play a role in determining what the offered wage is?
MS. GORMAN: Do you want to point her to a specific page or you just want her to do –
MR. PIERCE: Not – not yet. Actually, it was a general question before I got specific.
BY MR. PIERCE:
Q. Does the I-129 play a role in determining what the offered wage is?
A. Well, the itinerary is on the back and it

35

has the different prevailing rates for the different areas.
Q. Okay. Well, I'm not asking you to look at the exhibit yet.
A. Oh.
Q. I'm just asking –
A. Too late.
MS. GORMAN: She's in Exhibit 10 now.
BY MR. PIERCE:
Q. Hold on a second. We're not ready to go there.
A. Oh, I thought you said turn to Exhibit 10. Sorry.
Q. I got a little bit ahead of myself and created my own problem. I'm speaking very generally right now. Does the I-129 play a role in determining the offered wage?
A. To determine compliance, I look at the certified 9142, what the rate of pay is.
Q. Okay. And you, therefore, think that the I-129 plays no role in determining what the rate of pay or the offered wage is, correct?
A. No. You have – well, I'm already looking at it. Sorry. I don't know.
Q. Your answer to my question is that you

36

don't know?
A. What's the question?
Q. Does the I-129 play a role in determining the rate of pay or the offered wage?
A. I don't know. That's my answer.
Q. Okay. Now look at Exhibit 10.
A. Okay.
Q. On page 6, do you see towards the top where there's a line that says question number 8, wages per week as per attached? Do you see that?
A. Yes.
Q. And then go to page 8, same exhibit. Do you see the line towards the top that says employer will pay the variable prevailing wage as per the 9142 and the itemized itinerary? Do you see that language?
A. Yes.
Q. All right. And then flip to page 14, do you see towards the top that the employer will be paying a variable weekly wage as follows, and it lists both a wage by the hour and by the week?
A. Yes.
Q. Do you see that?
A. Yes.
Q. So having now seen and looked at the 9142

37

and the I-129, has your answer changed as to what the offered wage was?
MS. GORMAN: You're asking if her answer to your previous question has changed?
BY MR. PIERCE:
Q. Yes. Previously you said the offered wage was $323 and change through $368. The I-129 refers to both and hourly and a weekly figure.
A. Well, I think that the range listed on page 7 of the 9142 – your page 7 on the 9142, is the range of the weekly pays for the different localities.
Q. Okay. If you look at, now, Exhibit 7, page 14, do you see in the third bullet – are you with me?
A. Yep.
Q. Do you see the third bullet where it says wages to be paid as either weekly or hourly salary? Do you see that?
A. Yes.
Q. Okay. Does that suggest that Butler has a choice of using the hourly rate or a weekly rate?
A. Choice. Well, the way it's written it says depending upon applicable wage laws, wage to be paid as either weekly or hourly. I would take that

38

as it's going to depend on what the applicable wage laws are whether or not they pay weekly or salary, not just a choice.
Q. But what does that mean if it doesn't mean that Butler gets to choose?
A. I would assume they're trying to be in compliance with the applicable wage laws and, therefore, would pay either weekly or hourly, depending on those applicable wage laws, but I don't know.
Q. So you're suggesting that if there's a requirement somewhere, that they must pay weekly then they will do that, otherwise they have a choice?
A. Depending -- the way I'm reading this bullet, depending upon applicable wage laws, wage to be paid as either weekly or hourly salary. So they would pay that either weekly or hourly, depending upon the wage laws in the place where they are at that particular time.
MS. GORMAN: I'm going to object to this line of questioning. This calls for speculation.
BY MR. PIERCE:
Q. Ms. Aguilar, have you ever heard of a prepayment plan?

39

A. No. Only for a phone.
Q. I promise I'm not asking you about your phone.
A. Okay.
Q. That term doesn't mean anything to you at all?
A. No.
Q. Have you heard of the Wage & Hour Division Field Operations Handbook?
A. Yes.
Q. That's sort of like the bible that you all work with, correct?
A. It's guidance.
Q. It's authoritative and it's something that you apply routinely in your job, correct?
A. It's guidance that we use in conjunction and with other guidance to enforce the laws that we enforce. Yes.
Q. Do you know what a Wage & Hour Division opinion letter is?
A. Yes.
Q. And you would regard those as authoritative and something that you from time to time must rely upon and deal with in your job?
A. Yes.

40

Q. Correct?
A. Yes.
Q. And are you aware that the Field Operations Handbook and well over a dozen opinion letters have endorsed the propriety of a prepayment plan? Does that mean anything to you?
A. No.
Q. Okay. Are you familiar with -- I'm going to now use some colloquial terms to try and get the idea across. Are you familiar with the concept where employers pay a predictable amount but they are tracking the hours and as the -- if they are overpaying, that becomes credit that is available to them later in the season --
A. No.
Q. -- if hours -- if hours increase?
A. Was your question if I'm familiar with that?
Q. Yeah. Are you familiar with --
A. No.
Q. -- a concept like that?
A. Yeah. No.
Q. All right. But certainly if it was endorsed by the Field Operations Handbook and the Wage & Hour Division's own opinion letters, you

41

would accept that as authoritative would you not?
A. I would have to look at that in conjunction with other guidance.
Q. What other guidance are you aware that has a bearing on whether or not an employer can pay -- overpay in advance and then have that money available in the future in the event that more hours are worked?
A. Never heard of that before. I would have to research it. I would be highly suspect of that practice and I would definitely research it.
Q. And given that you've not heard of it -- I'm going to ask the question even though the answer should be obvious -- you're not aware of whether that is a common practice in the amusement industry are you?
A. No.
Q. Flip if you would to Exhibit 14.
A. Okay.
Q. Do you recognize Exhibit 14 --
A. Give me one second.
MS. GORMAN: Hold on.
THE WITNESS: This binder is not cooperating.
MS. GORMAN: The binder is falling apart

42

so she's having trouble flipping the pages.
THE WITNESS: Okay. I'm there.
BY MR. PIERCE:
Q. Do you recognize Exhibit 14 as the original back wage calculation that you provided to me on November 22 of 2013?
A. Yes.
Q. And in the middle of the page under the column marked period covered by workweek pending, you have the folks working -- beginning that season on February the 2nd of 2013?
A. Yes.
Q. All right. And then -- so that's the workweek that ended on February the 2nd, correct?
A. That's what it says here. And I would have to check in our electronic system that produces this document where the actual day in which we started the pay period. So it could have been -- or the calculations. It just will pull the week ending dates depending on -- like, for example, if it was computed -- the back wages were computed, like, from 1/31/2013, it would just pull whatever the workweek ending date is. So it doesn't necessarily mean there's a full workweek. Does that make sense?
Q. Yes.

43

A. Okay.
Q. But you would agree that folks were working at least by February the 2nd of 2013, for that season, correct?
A. That's what the back wages computed on this document.
Q. And so if I then direct you to Exhibit 26 --
A. Okay.
Q. -- do you see on the second page --
A. Yes.
Q. -- at the top, Gustavo Gamero, he's one of the individuals involved. It actually shows him, in fact, with an hour worked on that very day, February the 2nd of 2013, correct?
A. Well, it's actually -- it says breaks -1, total hours 1, so I'm kind of confused.
Q. Right. And then total hours --
A. And then it says out -- it also says off for in and out.
Q. The total hours of 1 and 6 --
A. Yes.
Q. -- then are added up as 7 hours total.
A. Yes.
Q. Do you see that?

44

A. I do.
Q. Okay. So that would suggest that he did work -- shortly, but he did work on February the 2nd of 2013, and it was consistent with the information that you were reporting on your -- my exhibit 14, page 1.
A. Well, so, your Exhibit 14 says that there were back wages computed for that time period including whatever days or hours for workweek ending 2/2/2013.
Q. Okay. But that -- I think you've said already, and I'm just going to ask you to clarify to be sure that the pay period ending on February the 2nd would have been the six days prior plus February the 2nd, they could have worked any number of those days in order to qualify for a pay entry that begins with that February the 2nd date, correct?
A. Yes.
Q. Okay. Now, did you actually take the occasion to go through the payroll information to determine the number of hours that each of these individuals that are at issue worked during the weeks?
A. No.
Q. Why not?

45

A. As I stated before, the hours that were reflected on these little copies of slips of paper were not determined to be as accurate as they could be. And also the back wages were computed based on the 40 hours that is listed on the 9142.
Q. One moment.
Let me ask you to look now at Exhibit 19.
A. Okay.
Q. Do you recognize this as the determination letter dated February the 6th of 2018?
A. Yes.
Q. In the first paragraph, your boss, I assume Thomas Silva, indicates that there was a prior letter that was sent in error. Do you see that?
A. Yes.
Q. He's referring to the letter that you sent, correct?
A. Oh, the letter that I signed on his behalf. Yes.
Q. All right. And that paragraph indicates that his letter dated February 26th rescinded and replaced the letter that you had signed a week earlier.
A. Correct.

46

Q. Do you see that?
A. Yes.
Q. What does it mean to rescind and replace your letter?
A. That the error -- or the letter that was sent in error is to be disregarded and this is to be the determination letter. That's what that means.
Q. And the prior letter that you had sent in error effectively doesn't exist anymore. It doesn't have any impact. Do you agree with that?
A. Yes.
Q. Now, in the second paragraph of the determination letter it indicates that the period covered is February 1 through April 24. There's no change in that. That continues to be the case, correct?
A. Yes.
Q. And the fact that the covered period is February 1, does that mean that anyone actually was working on February 1 or that's just the time frame that your investigation included?
A. That's correct.
Q. Which one? It was an either or?
A. Oh, it's the period of investigation.
Q. All right. And it doesn't tell us whether

47

anyone was actually working on February 1st.
A. Correct.
Q. We know that somebody was working February 2nd and possibly earlier because that's how it shows up in your back wage calculation in Exhibit 14, and because we saw the pay slips for Gustavo Gamero. Those -- that's some indication as to when the season started; agreed?
A. That -- so I'm sorry, what was your question?
Q. You agree that we know that the season started no later than February 2nd because that's the date that shows up in your back wage calculation and we looked at Gustavo Gamero's timesheet that same day, February 2nd?
MS. GORMAN: Objection; calls for speculation.
THE WITNESS: We determined when the season started when people were working based on a lot of information, also employee statements.
BY MR. PIERCE:
Q. Well, I read all those employee statements and there was a gentleman who claimed that he had started working in January. Do you remember that?
A. No.

48

Q. There was several others that said they started in February but they never actually gave any specific dates. Do you remember that?
A. Possibly. Yeah, I'm not saying that the employee statements were the only source that we used to determine when the season started, but it was one of the sources.
Q. Okay. Well, having now looked at some of this, what is your opinion as to when the season started then?
A. I think the season started around -- I mean, when we computed back wages, so I don't know how many days prior to the 2nd. But clearly we were assuming people were working and so we computed back wages for them because they were working outside of their classification.
Q. They were at least working by February 2nd, and it may have been earlier; is that what you're saying?
A. Yeah.
Q. Okay. And if you would look again at Exhibit 7.
A. Okay.
Q. Specifically, page 1 and page 14. You would agree with me that the 9142 was submitted on

49

November the 7th of 2012?
A. These are both dated that. I have no idea when it was submitted.
Q. Okay. And you would agree that whatever date the 9142 was submitted, it was certainly submitted some period of time before the labor certification itself was issued? You would agree with that, right?
A. I don't know their process but I would assume to issue it, they would have to have received an application. I don't know.
Q. Right. And the labor certification is marked as Exhibit 8, indicating that the labor certification issued on December 14th of 2012, correct?
A. You lost me. I'm sorry. What document are you referring to?
Q. Exhibit 8 indicates that the --
A. Eight. Okay. I'm sorry. I thought you said
A. Okay. Okay. I'm there, Exhibit 8.
Q. Exhibit 8 indicates that the labor certification was issued on December 14th of 2012?
A. Yes.
Q. Are you aware of any evidence that would

50

have prevented the 2008 regulations from applying as soon as the labor certification was issued on December 14th of 2012?
A. No.
Q. And can we agree that this case is governed solely by the 2008 Department of Labor regulations?
A. Yes.
Q. The violations don't have anything to do, for example, with the current 2015 regulations, correct?
A. Correct.
Q. Next topic. Can we agree that –
THE WITNESS: Can we take a little break?
MS. GORMAN: Before you ask your question, the witness is asking for just a small break, Wayne.
MR. PIERCE: Yeah. Let's go off record.
(Whereupon, recess taken.)
MR. PIERCE: We're back on the record.
BY MR. PIERCE:
Q. Ms. Aguilar, can we agree that Butler Amusement was exempt from the Fair Labor Standards Act during the 2013 season that's at issue in this case?
MS. GORMAN: We're having a really hard

51

time understanding that. I mean, you were just going in and out when you were asking the question.
MR. PIERCE: Okay.
THE WITNESS: I turned up the volume too, so that might help. Go ahead.
BY MR. PIERCE:
Q. Can we agree that Butler Amusements was exempt from the Fair Labor Standards Act during the 2013 season?
A. So the – I looked at exemptions under the FLSA and it appears – and I concluded in my findings that they did meet the exemption requirements for the seasonal minimum wage and overtime exemption.
Q. Okay. All right. So there's nothing – there's no dispute or I don't need to go through any exhibits with you to reprove what we have already agreed on, correct?
A. Well, to the extent that I determined that the exemption applied, no, we're in agreement.
Q. Okay. And I'm going to not show you some other exhibits that would have further solidified that and move on to the next topic.
Could you tell me what the term "credit" means in the Wage & Hour view?

52

A. Well –
MS. GORMAN: Objection; overbroad. I mean, it's a non-specific question, but the witness can answer.
THE WITNESS: A lot of times, for example, in back wage computations employers will take a credit for maybe an advance they provided the employee or – I don't know. I'm not quite sure how to answer the question.
BY MR. PIERCE:
Q. All right. You're aware that there is a distinction between a deduction, a credit, and a kickback. Would you agree with that?
A. Yes.
Q. All right. Could you try as best you're able to distinguish what those three terms mean, what the difference is?
A. A deduction would be something that was removed from wages for, like, taxes are a good example of a statutory deduction. A credit might be a credit towards minimum wage, like a tip credit. We see that in a lot of cases. So that would be something the employer could take toward their obligations to pay minimum wage. And a kickback would be, as we see it, like, employees are issued

53

back wage checks and the employer demands that they sign the check over back to the employer.
Q. Okay. What rules apply for credits when an H-2B employer is exempt from the Fair Labor Standards Act?
A. I don't know.
Q. Normally section 531 has rules related to credits?
A. Correct.
Q. But that only applies if you're covered by the FLSA, correct?
A. I'm not sure. I don't feel comfortable answering that without having a lot of time to research it.
Q. As you sit here today, are you aware of anything that would suggest that Fair Labor Standard credit rules apply to the Butler operation?
A. Can you give me an example of what you're talking about?
Q. Well, I'm going to get you some examples in a moment. I'm just trying to think if I can rephrase that. Given that we've agreed that the Butler Amusements was exempt from the Fair Labor Standards Act –
A. Okay. So I'm going to stop you. That's

54

not what I agreed to. I said that the seasonal amusement and recreation -- I don't remember the title -- exemption applied to Butler Amusements.
Q. And, therefore, what conclusion are you drawing?
A. That they were not obligated to pay minimum wage and overtime.
Q. Okay. And are you suggesting that section 531 applies?
A. I'd have to look at it.
Q. So as you're sitting there today, you're just not sure if section 531 applies?
A. I'd want to look at it, correct.
Q. All right. And I'm talking about 29 CRF Section 531. You know what I'm referencing, correct?
A. 3(m) credit, yes.
Q. Okay. And are there any reasons that you're aware of today that would prohibit Butler Amusement from taking a credit for providing a bunkhouse in which the employees were able to live?
A. Well, typically for housing, if it's not - - we would very closely look at any employer who is taking any credit, right? And in regards to housing or anything they want to take a 3(m) credit for we

55

have to determine whether it's for the benefit of the employer or the employee, along with a host of other things.
Q. Are you finished?
A. Yes.
Q. All right. But the primary benefit rule that you're referencing, that's a concept under Section 531 that applies to FLSA employers, correct?
A. It applies -- the 531 is talking about 3(m) credit, which is directly from FLSA.
Q. Is there anything in the 2008 regulations that suggest that Section 531 applies to FLSA exempt employers?
A. No.
Q. You agree with me, do you not, that all of the violations at issue in this case are governed by the 2008 Department of Labor regulations for the H-2B program?
MS. GORMAN: Objection; asked and answered.
THE WITNESS: Yes.
BY MR. PIERCE:
Q. And if there is nothing in the H-2B regulations requiring an exempt employer to comply with Section 531, what is left for you to go

56

research?
A. Not every single issue that could possibly come up with every investigation is going to be specified in the regs.
Q. All right. I think this is my turn to ask you, could you give me an example on that?
A. The regs don't specifically say that employers need to provide -- oh, I don't want to -- I can't. No, I'm not going to give you an example. Sorry.
Q. All right. Other that the primary benefit rule that is contained in Section 531, can you think of any other reason why Butler would not be entitled to take a bunkhouse credit for providing of that service to the workers?
A. We'd have to determine if the housing was required or optional and if it met all safety standards based on wherever the housing was.
Q. Any other reasons?
A. That's all I can think of at this point.
Q. All right. And three things that you've pointed to now, the primary benefit rule, whether it was optional or required, and whether it met safety standards, those are all actually included in Section 531, are they not?

57

A. I don't know.
Q. Okay. You're not aware -- you're not aware of where those came from, the requirement for optional versus required and complying with safety standards?
A. I'm not sure if it's in 531 or it's in other guidance material that I've looked at throughout my job here.
Q. All right. Well, in the event that I am wrong, which has happened, are you able to specify where else this optional versus required and must meet safety standards could be found if it's not in 531?
A. Not without going and researching.
Q. Okay. So your testimony is that as long as Butler either meets or is exempt from Section 531's primary benefit rule, the optional versus required, and complies with safety standards, therefore, Butler would be entitled to a credit for providing of the bunkhouse?
MS. GORMAN: Objection; mischaracterizes the witness' previous testimony.
THE WITNESS: I'm not sure I followed that entire train, sorry.
BY MR. PIERCE:

58

Q. All right. Well, I'll try to restate it.
Setting aside whether Butler can show whether or not it's covered by the primary benefit rule, setting aside whether the bunkhouses were optional or required, and setting aside whether they met the necessary safety standards, you're not aware of any other reason why Butler could not have obtained a credit for providing the bunkhouse, correct?
A. Yes.
Q. Okay. Bear with me for a moment.
We covered this in a general way and I now want to ask a similar question in a specific way. Do you have any information as to whether the prevailing industry practice would change any of the answers you've just given on the ability to claim a credit for providing of a bunkhouse?
A. No. I don't know what the -- sorry, what was the question again?
Q. Well, let me ask it a different way.
A. Okay.
Q. Look in Exhibit 7.
A. Okay.
Q. And going now to page 14.
A. Okay.

59

Q. About right in the middle of the page, underneath the third bullet, do you see the sentence that says if the wage to be paid is higher than the variable prevailing wage determination, the employer reserves the right to charge a fee for housing and transportation. Do you see that?
A. I do.
Q. Are you aware of any reasons that would prohibit Butler for charging a fee for the bunkhouses?
A. It's the same reasons that I had mentioned before.
Q. The same three regarding primary benefit, whether it's required, and whether it complied with safety standards, but no other reasons, correct?
A. Correct.
Q. Okay. Bear with me.
In Exhibit 31, which counsel were discussing during the break, which is not the most legible of exhibits.
A. Okay.
Q. At the very top of the first page of the Exhibit 31, there's a box where the CPA has stated his summary indicating that the bunkhouse cost basis per employee was $134.39.

60

A. Yes.
Q. Do you have any basis for disputing the cost basis as calculated by the CPA?
A. I don't know what -- I can't really read what any of the things on which that number is calculated, so I don't know.
Q. Okay. Well, setting that aside, are you aware of anything else that would dispute how the cost basis was calculated by the CPA?
MS. GORMAN: I'm going to object to the extent that it calls for speculation. I don't think this witness is aware of anything calculated by the CPA.
MR. PIERCE: Well, that's fine. She can just say that and I'll take it.
THE WITNESS: What was the question again, please?
BY MR. PIERCE:
Q. Were you aware of any factual basis for disputing the amount of bunkhouse credit as calculated by the CPA in Exhibit 31?
A. I'm not aware.
Q. Okay. All right. Next topic.
Who paid the income taxes for the workers?
MS. GORMAN: Objection; calls for

61

speculation.
THE WITNESS: I don't know.
BY MR. PIERCE:
Q. Okay. Are you aware of any evidence that would suggest that Butler did not pay the income tax for the workers involved in this case?
A. No.
Q. And just to show you one example, if you look on Exhibit 26, page 60.
A. Okay.
Q. Do you see the gentleman at the top of that is Omar Lopez who is one of the individuals involved in the case?
A. Yes.
Q. All right. And indicating that he was paid $525. That's the amount that his planned payment was for, you agree with that, it was $525?
A. Planned payment? What does that mean?
Q. That's the amount that he was being paid under his plan each week and the same amount that you have reflected in your Exhibit I. Do you remember that?
A. I don't know about a plan, but I believe that was his gross weekly wages.
Q. Okay. And then there's -- you've got $20

62

draw for whatever reason. He took an advance or something. And his net pay in task is $525, correct?
A. That's what's reflected on this paper, yes.
Q. Okay. Do you have any reason to think that Omar Lopez paid any income tax on that $525?
A. I have no idea.
Q. Our witnesses will testify that the company paid for the employees' income taxes. Do you have any evidence to dispute that?
MS. GORMAN: Objection; asked and answered.
THE WITNESS: No.
BY MR. PIERCE:
Q. Do you have any evidence to dispute that Butler is entitled to recoup the amount of income taxes that was paid by them on behalf of these individuals?
A. I don't know.
Q. And when you say you don't know, you can't think of anything?
A. I don't know anything about taxes.
Q. All right. Let's move on to in-and-out-of-country travel. What are the rules that govern the employer under the 2008 rules for being able to

63

recoup in-and-out-of-country travel related to an H-2B worker?
A. It's my understanding, not looking at the regs in front of me, that employers are required to pay for transportation from the point of recruitment in their home country to the job site.
Q. Okay. That's certainly the way it is now in the 2015 regulations, and how it is for FLSA employers.
A. What?
Q. Do you have any basis for believing that exempt H-2B employers are covered by that rule?
A. Can you we repeat the question?
Q. There's -- it's certainly the case that the 2015 rules require H-2B employers to pay in-and-out-of-country travel and that's a facet of the FLSA if covered by the FLSA.
My question is are you aware of anything specifically in the 2008 H-2B regulations that require an FLSA exempt employer to pay for in-and-out-of-country travel?
A. I don't think the 2008 rules discuss FLSA exempt employers specifically.
Q. And, therefore, what conclusion are you drawing?

64

A. That we would require employers to pay for transportation from the point of recruitment.
Q. Right. But what's the basis for that? Where are you getting that from?
A. I think it's from the regs.
Q. Are you able to point to it or are you just --
A. I don't have the regs in front of me.
Q. Well, if you are, a copy is marked as Exhibit 76.
A. What number exhibit did you say?
Q. Seventy-six.
A. Okay. I'm at Exhibit 76.
Q. Well, I'm only showing that to you in case you think that you can put your finger on this responsibility that you think might be in there. I don't think it's in there so I don't have any page to point to. I don't think it's in there so I don't have any page to point to?
A. (Reviewing.)
Q. And you're looking now, correct?
A. Yeah. I don't -- I can't point to anything in the regs right now.
Q. Okay. So you have a memory that there may be something in there, you're just not sure where it

65

might be?
A. Yes.
Q. All right. So let's move on now to Exhibit 35.
A. Okay.
Q. Have you seen this collection of expenses related to getting the guys out of the country?
A. No, I've never seen this.
Q. All right. And then if you look at Exhibit 34, this is a chart, a summary that was prepared by the CPA for the company indicating that getting the guys out of the country was about, oh, close to $25,000. Do you see that?
A. Well, it shows -- I'm just looking at this for the first time, and it looks like there's a total for airfare, 18,000, and bus fare 8,000.
Q. Right.
A. Is that the same document? Okay. Yeah.
Q. Yes.
A. Okay.
Q. And this is only to get them out of the country.
A. Okay.
Q. Do those numbers seem fair and reasonable to you?

66

MS. GORMAN: Objection; calls for speculation.
THE WITNESS: I don't know.
BY MR. PIERCE:
Q. All right. Well, they're intended to measure the cost documents that are found in Exhibit 35. He simply took the documents that are found in 35 and put them into a chart form.
Okay. Do you have any basis to dispute that the calculation reflected in Exhibit 34 is not the cost basis for getting the guys out of the country?
A. No.
Q. Looking now at Exhibit 30 -- excuse me, Exhibit 24. Are you with me?
A. No. Hold on.
Okay. Yes.
Q. This is an Excel spreadsheet showing the 187 H-2B employers -- H-2B employees as they were arriving for the 2013 season.
A. Yes.
Q. Does that number, 187, sound about right to you?
A. Sure.
Q. All right. And then you see that the

67

various individuals, for example, line 19 on the first page is Saul, S-A-U-L, Espudillo, E-S-P-U-D-I-L-L-O. He's the first individual that you had calculated back wages for. If you take that 187 employees, would it be a fair and reasonable basis to take them and divide them into the $25,000 and change of out-of-country travel reflected on Exhibit 34 in order to determine a per-employee cost?
A. Yes.
Q. And similarly, in order to have in-country travel, you would expect that in-country travel and out-of-country travel would be more or less the same?
A. Yeah.
Q. And therefore, if you do the math, 187 employees competing -- or contributing to $25,000 expense, that's about $143 and change per employee. Any reason to dispute that?
A. No.
Q. And then similarly, you see from the cost item there, you would expect that getting them into the country would generate a per-employee cost similar to getting them out of the country, correct?
A. Yes.
Q. Okay. Now, have you heard the term "local

68

convenience travel"?
A. Yes.
Q. What are the rules regarding an H-2B employer's ability to recover for local convenience travel under the 2008 regulations?
A. I don't believe the regulations speak to that. I don't know if they do.
Q. You don't know if they speak to that as a specific item?
A. Correct.
Q. But do they have a rule that would apply?
A. I don't know.
MS. GORMAN: Did you say "rule"?
MR. PIERCE: Rule, I did say that.
BY MR. PIERCE:
Q. Let me just restate that so I make sure we're on the same page. You're not aware of whether or not the 2008 regulations placed any restrictions on the ability of an H-2B employer to recover for providing local convenience travel, correct?
A. Correct.
Q. All right. So now look at Exhibit 35. You see a bunch of expense items related to providing of local convenience travel. Do you have any basis to dispute the relevance or authenticity

69

or anything else for these expense items for providing of local convenience travel?
A. No.
Q. All right. And flip now to Exhibit 36.
A. Yes.
Q. This is a chart also prepared by the company's CPA, which is hopefully much more legible than one of those charts, indicating on the first page that the cost for an employer to provide the various items that are necessary to provide local convenience travel, he calculated at $50.25; do you see that?
A. I see it.
Q. Do you have any basis to dispute that that is a proper calculation for the cost basis for Butler to provide local convenience travel?
A. No.
Q. Okay. All right. Let's move to another topic. Could you give me your understanding of the difference between a misrepresentation and a substantial failure?
A. Yes. Misrepresentation would be something that was known at the time of filing to be an error or incorrect. And a substantial failure would be failing to comply substantially with the terms and

70

conditions outlined in the TEC.
Q. And so the misrepresentation occurs when?
A. When the TEC is signed before the workers are actually in the country.
Q. Signed and filed, right?
A. Sure. Yes.
Q. All right. And when does a substantial failure occur?
A. After the workers are here and the terms and conditions of the TEC are not complied with.
Q. All right. In this particular instance you have not charged that a misrepresentation occurred, correct?
A. Correct.
Q. Nor is there any factual basis for believing there was a misrepresentation, correct?
A. Well, on the determination letter, it was – the violation was cited as a substantial failure.
Q. I agree with that, but my question is a little bit different. You agree that there was no factual basis for charging of a misrepresentation, correct?
A. I don't know – the way we cited the violation was under substantial failure not under willful misrep.

71

Q. Therefore, you're not contending that a misrepresentation occurred, correct?
A. That wasn't cited as a violation in this case, correct.
Q. All right. Now, in the case of a substantial failure, the allegation in the determination letter is that there was a single substantial failure. Do you agree with that?
A. Let me look at the determination letter. Can you tell me what exhibit that's under?
Q. Nineteen.
A. Thank you. What was the question again, please?
MR. PIERCE: Court reporter, can you help me out?
(Whereupon, record read as requested.)
THE WITNESS: Yes. It says what was the - - the failure was improper job classification.
BY MR. PIERCE:
Q. Okay. So if I use the term "misclassification," that would be one way of saying that somebody was working outside of what they were approved to do?
A. Yes.
Q. Correct?

72

A. Yes.
Q. Are you aware of any belief within the Wage & Hour Division that a misclassification marked or should be charged as a willful misrepresentation under the 2008 regulations?
A. I'm not aware of that belief. I can tell you that's how it was cited in this case.
Q. Okay. And given that it was charged as a substantial failure, when did the failure occur?
A. When the employees were not performing the job duties of the amusement and recreation attendant. They were performing job duties of different occupations.
Q. And based on the calculations, that would be as soon as they started working the 2013 season, correct?
A. Based on the calculations, that's what they were doing during that season. Based on interview statements, they had been doing misclassified work for many seasons.
Q. Okay. But it started as soon as they started work there?
A. Yeah.
Q. All right. What are the relevant duties imposed on Butler Amusement found in the immigration

73

statute? Are there any?
A. Can you repeat your question? It's difficult to hear you.
Q. Are there any relevant duties imposed by the immigration statute itself on Butler Amusement that Butler Amusement violated?
A. I don't understand. The violation was because they were approved to have recreation and amusement attendants work. And the work that these particular individuals that we found back wages for were not doing that kind of work. They were doing very different work.
Q. Okay. But I think you're agreeing with me. The immigration statute doesn't say anything about this classification. You have to go to the regulations to find that. Do you agree with that?
A. I don't know that I'm familiar with the statute.
Q. Okay. And under the – in order to be able to bring the citation that is found in the determination letter, you would agree that Butler Amusements must have been obligated to perform some sort of duty by a regulation, correct?
A. I'm confused.
Q. You would agree that in order to bring

74

this particular citation --
A. Which citation are you talking about?
Q. The one found in Exhibit 19.
A. Are you talking about the summary of violations?
Q. Yes.
A. Okay. So what citation are you talking about?
Q. Well, I'm not -- I don't think it matters.
Actually, let me ask you this: You have a line there related to the I-129.
A. Okay.
Q. Is that a serious part of the case?
A. Serious part of the case? I don't know what you mean by that.
Q. Well, I've had other cases where, basically, your peers have told me I don't know even know why we cited to that. I was just told to put it in there because we were required to put it in there.
Is the reference to I-129 a serious part of the case?
A. It's serious enough to be referenced in the determination letter. And it explains here that the findings are that Butler was in violation of

75

both the I-129 requirement and the corresponding 9142 application requirement.
Q. Understood.
A. Okay.
Q. Okay. And have you actually looked at part 5, question 1 that is referenced?
A. Not recently.
Q. Okay. And, therefore, you don't know what it specifically asks for?
A. Correct.
Q. Okay. You will find that at Exhibit 10, page 5.
A. Okay.
Q. And it asks for the title of the position.
A. Okay. Wait. Hold on, let me get there.
Got it.
Q. So my question is -- I'm trying to see if I can narrow down some of my questions.
A. Thank you.
Q. Since the alleged violation is in title of the position, is that a serious part of the case that I need to ask you about, or is that just sort of pro forma?
A. Well, you can ask me whatever you need to ask me. I'm not sure if I want to qualify any of

76

the information in the determination letter as not serious.
Q. Okay. That's fine. That's fine.
On that page in the determination letter all the way over --
A. Can you -- I didn't --
Q. -- on the left-hand side --
A. I didn't mark it. What exhibit is it?
Q. Nineteen.
A. Thank you. Go ahead.
Q. On page 5, under the first left-hand column.
A. Yes.
Q. You see in the verbal description it references occupations?
A. Uh-huh.
Q. What is the definition of an occupation?
A. The job.
Q. Okay. And what's your basis for answering that way?
A. Common sense.
Q. Would you agree with me that occupation is not a defined term under the 2008 regulations?
A. I don't know. I'd have to go through the regs and see if occupation is defined.

77

Q. But you would look in the definition section within the 2008 regulations to define the definitions, correct?
A. That's the first place I would start, yes.
Q. Okay. And no reason to think it would be found somewhere other than in the definition section in the 2008 regulations, correct?
A. I don't know. Typically, definitions are their own section.
Q. Well -- and I can send you back to Exhibit 76, and you can look at the definitions section, but will you accept that it's not in there?
A. Sure.
Q. And other than workers working outside of their occupations, there are no other factual allegations in the determination letter to support a violation, correct?
A. This is the only violation charged. Yep.
Q. Right. And is a violation of the 2008 Homeland Security regulations being charged in this case?
A. The determination says that it was found that Butler Amusements violated both an I-129 requirement and the corresponding 9142 requirement.
Q. Okay. I understand that. But it doesn't

78

actually give a citation to the 2008 DHS regulations. It actually references to the form itself.
A. That's correct.
Q. So that's why I'm asking my question, is there an allegation in this case that the 2008 DHS regulations were violated?
A. I don't know.
Q. Now, in the 9142 line there in Exhibit 19, there are two citings -- supporting citations, attestation number 13, and 20 CFR 655.22(n). Those more or less say the same thing, don't they?
A. I don't know. I'd have to look at both of them.
Q. Well, look at Exhibit 7.
A. Okay.
Q. Page 11. That will give you attestation number 13.
A. Okay.
Q. Put your finger in there and go now to Exhibit 76.
THE WITNESS: Are we going to be taking a break for lunch at some point?
MR. PIERCE: You guys are -- all of you, including Kim, are going to let me know what your

79

plan is. I don't eat lunch, so you tell me what your plan is.
THE WITNESS: I do. I need to have lunch at some point soon.
MS. GORMAN: It's 12:15 here. I think it's probably reasonable if we break within the next 15 minutes or half an hour or something like that. Something probably before 1:00.
MR. PIERCE: Okay.
MS. GORMAN: Whenever is a good time for you to suspend, Wayne.
THE WITNESS: Okay. I'm looking at 655.22(n) right now.
BY MR. PIERCE:
Q. Within Exhibit 76?
A. Yes.
Q. Okay. Can we agree that the wording in the attestation is pretty much a dead-on match per the actual regulation itself?
A. Yes.
Q. And that's -- what exactly in that phrasing is Butler being accused of falsely a failure to comply with?
A. Well, the number of positions would probably be inaccurate since 10 of the people, at

80

least that we found, were performing outside of the classification listed on the TEC. And I'd have to reread the statement of temporary need, but I'm assuming it doesn't say that they need semi-truck drivers, and supervisors, and an admin person, and shop workers. So that would also be inaccurate since those are the positions in which those employees were exclusively employed during the time that they worked there.
Q. Okay. Well, I can understand we're going to have some questions about the reasons for temporary need. But are you now contending that there was a failure to comply as opposed to a misrepresentation as to the number of workers?
A. My point about the number of workers is that they indicated on the TEC they were seeking, I don't know, 200-plus amusement workers, when, in fact, part of that number were not amusement workers, they were working in other occupations.
Q. I understand that. But your testimony is, as I understand it, that they requested a number of workers that they didn't actually employ, when, in fact, they did employ them. That the number of worker positions being requested -- they did request that number. They got that number.

81

A. But they weren't employed --
Q. Correct?
A. -- in the occupation that was stated on the TEC. They were employed in another occupation, which is the whole violation.
Q. I understand, but stick with what my point is. When you just now claim that there was a potential violation as to the number of workers, it does not say that those workers must be limited to assigned or requested job position, correct? It doesn't --
A. Okay. So the TEC is for a specific occupation. The number of workers that are on that -- requested on that TEC are for that occupation. You can't have a TEC for a janitor and bring in over 20 engineers. It's for a janitor. That's why it was certified. That's what we look for in compliance.
Q. All right. Where does it say that in attestation 13 or in the regulations?
A. The occupation has to be accurate? Aren't they signing on the TEC that what they have in the application is accurate? When you say 250 amusement attendants, you're not saying 240 amusement attendants and 10 other occupations that are supposed to be paid at a much higher rate. That's

82

not what the application says.
Q. Okay. But where does the regulation prohibit that? I don't see it. Where is it?
A. I don't think the regulations go into that specific scenario.
Q. Okay. And is there any other basis in the regulations or the attestation to suggest that Butler violated something based on the number of workers that it was requesting?
A. I don't know.
Q. All right. Now, come back with me on where I thought this case was going in attestation 13, and in the corresponding regulation it talks about the reason for temporary need needing to be truly and accurately stated.
A. Okay.
Q. All right. Now, when you say truly and accurately stated, is that not the quintessential test for a misrepresentation?
A. I don't follow.
Q. Earlier I asked you for your understanding of the term misrepresentation versus substantial failure. And I thought you said something to the effect of a misrepresentation means that you were making a statement that wasn't true?

83

A. At the time of filing of the application.
Q. Okay. In fact, that's what 13 -- attestation 13 and the corresponding regulation said, that the reason for temporary need must be truly and accurately stated on the application.
A. Yes.
Q. That's -- that is a -- that's only relevant if we're talking about a misrepresentation, correct?
A. Well, if -- you're saying -- can you repeat your position?
Q. How can there be a substantial failure to comply with attestation 13 when attestation 13 doesn't ask for anything more than a true representation in the application?
A. I'm confused. So the substantial failure was that they requested amusement attendants and the work that the individuals were performing was not amusement attendant. It was a much higher skilled, should-have-been-higher-paid job.
Q. Okay. I understand that.
A. Okay.
Q. And I'm focusing on attestation 13 so I don't have to volley back and forth. Attestation 13 on its face is limited to the truthfulness of the

84

representation in the 9142, correct?
A. Yes.
Q. And that means that if you're going to violate attestation 13, you can only do that as a misrepresentation?
A. No, that's not our position. That's why we cite it as a violation of substantial failure, which is listed in the determination letter.
Q. Okay. But how could you have a violation of attestation 13 unless it was a misrepresentation in the application?
A. Well, it could have been, hypothetically speaking, an employer really wants to have janitors come in at the time of the filing of the application, and it's true at that time. But then they came in and they put them to work doing something else.
Q. Okay. Just a moment. Okay.
On the reasons for temporary need, what is it you think that means?
A. A justification to use the H-2B program.
Q. And where would you go to find whether the reasons for temporary need have been truly and accurately stated on the application?
A. Well, I would probably read them on the

85

application, and then based on the results of the investigation determine if they were followed through.
Q. Okay. Exhibit 7 is the application, where do you go to find the reasons for the temporary need?
MS. GORMAN: I'm going to object because I believe it calls for speculation.
THE WITNESS: Where would I go to -- there's a letter, Exhibit 7, page 19, that talks about the temporary need. Is that what you're talking --
BY MR. PIERCE:
Q. It's statement of temporary need.
A. Okay. I'm not following your question.
Q. Is there anywhere else other than the statement of temporary need that you would go to find the reasons for temporary need?
A. No, I don't think so.
Q. Okay. And now, since we've narrowed it down to page 19 of Exhibit 7, what exactly in page 19 is false?
A. I don't know.
Q. Is there anything you see on page 19, the statement of temporary need, that you believe is

86

false?
A. Not on its face.
Q. Okay. Can you tell me the definition of the term "job offer"?
A. No. Is it in the regs? I can look it up again but --
Q. To be honest with you, it's not in the regulations.
A. Okay.
Q. Do you have a definition for the word "job description"?
MS. GORMAN: The word what?
THE WITNESS: Job description?
BY MR. PIERCE:
Q. Job -- yes.
A. The duties to be performed on the job.
Q. And where are you drawing that definition from?
A. Common sense.
Q. Are you aware of anything in the regulation that would back up what you just said?
A. No.
Q. Are you aware of any regulatory duty for how -- under the 2008 regulations for how an H-2B employer is required to describe a job offer or a

87

job description?
A. No.
Q. And, in fact, it's true, is it not, that absolutely nothing in the 2008 regulations actually limits an H-2B employer to a specific occupation, correct?
A. I don't know.
THE WITNESS: I'd like point out the time. If we would could, I feel like I really need a break.
MR. PIERCE: Can you give me like three more minutes?
THE WITNESS: Sure.
MR. PIERCE: Look at -- all right. Let's do this, let's take a break. Let's go off the record.
THE REPORTER: Off the record.
(Whereupon, recess taken.)
MR. PIERCE: Let's now go on the record.
THE REPORTER: Okay. On the record.
BY MR. PIERCE:
Q. Ms. Aguilar, when we broke for lunch, I believe you had indicated that you did not know where in the 2008 regulations there were any limitations on limiting an H-2B worker to the job

88

requested. And what I would like to do now is -- oh, and before that, we had also talked about how I tried to suggest that attestation 13 really was limited to a local misrepresentation. Do you remember that --
A. Yes.
Q. -- line of questions? Okay. Now, what I would like you to do is flip to Exhibit 96.
A. Okay.
Q. On the third page.
A. Okay.
Q. Do you see towards the bottom, there's a -- - in the left-hand column it says certified occupation?
A. Yes.
Q. And in the -- this is a side-by-side comparison of what boss -- your bosses at the Division referred to as the 2009 regulations. You and I would agree that there are no 2009 regulations, but there are 2008 regulations, right?
A. Yes.
Q. And they were at one time to have been replaced by the 2012 program rule changes, but those were subject to an injection and never actually got rolled out. Do you remember that?

89

A. Yep.
Q. But before the injunction, the Division issued this side-by-side comparison, and on the third page in the column -- or the row related to certified occupation, it indicates that inaccurate statements on the 9142 regarding the occupation of job duties may be pursued as willful misrepresentations. Do you see that?
A. I do.
Q. And then in the new rules it specifically says "New. Employers may not place H-2B workers in a job opportunity not certified on the application."
So my question from right before lunch that I'll repeat is, in fact, the 2008 regulations do not limit the employer or require the employer to limit an H-2B employee to the certified position, do they?
A. That's certainly not our enforcement position.
Q. All right. Well, am I reading this summary wrong?
A. So it says here on the left side, inaccurate statements on the application regarding the occupation and job duties may be pursued as willful misrepresentation of the act. I don't --

90

Q. It does?
A. Yes.
Q. All right. And you didn't charge willful misrepresentation in this case, right? We went over that.
A. Yes. Yes.
Q. Okay. And then there was a change where the 2012 rules were to have specifically changed that to prohibit what it is that you charged the other folks with having violated. Do you see that?
A. Well, I don't know if that talks about specific change in the regs.
Q. Well, it does say -- it says it's new.
MS. GORMAN: Was this document created by the Wage & Hour Division?
MR. PIERCE: It sure was, off their website.
THE WITNESS: Okay. What's your question?
BY MR. PIERCE:
Q. Well, let's now flip, if you would, to Exhibit 101.
A. Okay.
Q. This is a renewal of what we just looked at in Exhibit 96, but now what they're comparing is the 2008 regulations with the brand new and current

91

2015 rules, correct?
A. Yes, that's what it looks like.
Q. So if you go now to page 5, you see the exact same line item that we just went over for certified occupation. Do you see that?
A. Right.
Q. Okay. So here, again, is the 2015 rules again saying it's new, that the --
A. Yeah. What it's referring to is that it's new that it's specified but under the 2009 that's referred to here. But under the 2008 regs that we used during the Butler investigation, the way we captured that violation is it was an inaccurate statement about the occupation. So I think the new is that it's specified in the regs.
Q. But you --
A. That's how I'm reading this document.
Q. So you charged this, though, as a substantial failure?
A. Yes.
Q. There's some sort of noncompliance during the operating season. There was not under your charge a misrepresentation, correct?
A. Yes.
Q. So there was a hole in the 2008

92

regulations, wasn't there?
A. No. There's nothing indicating that the employer can substantial -- cannot substantially fail to comply with what they have certified in the TEC, which in this case was employing amusement and ride attendants.
Q. Okay. And where did it say that?
A. Because it's inaccurate. It's not -- they certified that they needed amusement attendants, and they were going to employ amusement attendants and they employed 10 people outside of that occupation. That's the violation.
Q. I understand. But we're not charged with misrepresenting any of those facts?
A. That's correct.
Q. We've agreed on that.
A. That's what -- yes.
Q. All right. And earlier when you indicated that the reasons for temporary need would be found in the statement of temporary need, do you remember that line of testimony?
A. Yep.
Q. You're familiar with the process for requesting a prevailing wage determination, are you not?

93

A. No.
Q. You're not familiar with that?
A. I know that the OFLC data is used, and it has listed an H-2B rate, but I've never filled out a TEC myself or advised employers, because that's not what we do.
Q. Okay. But are you aware that in order to start the application process, the first thing that an employer must accomplish is to submit a 9141 on which they will request a prevailing wage determination?
A. I don't know that's the sequence in which things are submitted.
Q. Are you familiar with how a prevailing wage determination is produced?
A. No.
Q. Are you familiar with why it's even important to get a prevailing wage determination?
A. In order to know what rate to pay for the specific --
Q. All right.
A. -- occupation listed on the TEC.
Q. Okay. And requesting to get a pay rate doesn't have anything to do with the reasons for the temporary need, right?

94

A. I don't know.
Q. Okay. The reason for the temporary need is -- and the reason why that's important is you have to be able to show that you have a seasonal, a one-time, a peak load, or an intermittent need, correct?
A. Those are decisions made by ETA, not by Wage & Hour.
Q. I understand. But in order to establish the reasons for temporary need, you have to have a factual basis to show that you need one of those four categories of temporary need, correct?
A. I don't know how they make their determination.
Q. Are you familiar with the four categories of temporary need H-2B program?
A. Not really.
Q. Are you familiar that you have to state the reasons for why you qualify for a temporary need?
A. I know that I see that in the TECs that I've looked at as part of my investigations and as a manager.
Q. And -- right. And that's found in the statement of temporary need, correct?

95

A. Yes.
Q. Okay. I'm going to ask these -- I think I know the answer, but I'm going to ask anyway. Have you ever actually read the instruction booklet for how to fill out the 9141 application for prevailing wage determination?
A. No.
Q. Have you ever actually reviewed a 9141 PWD request?
A. No.
Q. Have you ever actually reviewed the instructions for completing the 9142?
A. No.
Q. Okay. And, therefore, you have no idea what they might say about how to go about stating reasons for temporary need, correct?
A. I haven't read them, so, no.
Q. Okay. Have you read the instruction booklet that goes along for how to complete the I-129?
A. No.
Q. Do you know whether there are any instructions, relevant instructions for how to complete the job title portion of the I-129?
A. No.

96

Q. Do you know whether the USCIS regulations have any requirements for how to go about stating the job title on an H-2B I-129?
A. No.
Q. Do you know whether the DOL 2008 regulations say anything about how to go about stating a job title?
A. No.
Q. Do you know whether the 2008 DOL regulations say anything about how to go about stating the SOC code?
A. No.
Q. Do you know whether only guidance related to how to determine the SOC code is not found in a Department of Labor regulation, it's only found in a subregulatory guidance document?
A. No.
Q. Are you charging Butler with failing to comply with a subregulatory guidance document in this thing?
A. Wow. No.
Q. Are you aware of any requirement to state every single job duty when applying for a 9141 prevailing wage request?
A. No.

97

Q. Are you aware of any obligation to state every single job duty when applying for a 9142?
A. No.
Q. Are you aware of the rules for determining SOC codes as they existed in the 2013 season?
A. No.
Q. Are you charging Butler in this case with failing to comply with the guidance documents for how to determine SOC codes?
A. No.
Q. Are you aware that the SOC codes were revised substantially in the year 2010?
A. No.
Q. You had indicated that in an affidavit last week, I believe, that you have not heard of the incidental duty rule. Is that still the case?
A. Yes. I hadn't heard about it before you brought it up.
Q. All right. Have you heard about it now?
A. Well, now, in the context of this, yes. But I still don't know what it means.
Q. Oh, you still don't know what it means?
A. No.
Q. Okay. Therefore, you're not aware of any rule or regulation or guidance document that talks

98

about when it's appropriate for a worker to do things that aren't technically within the job code, correct?
A. I'm not aware of that. No.
Q. Have you ever heard of a dual position rule?
A. No.
Q. Are you aware of any rule or subregulatory rule that applies when a position involves duties that fall within one job code but also fall within another job code?
A. No.
Q. Are you aware of any rules that apply either by regulation or subregulatory when a position involves one particular set of job duties and supervisory responsibilities?
A. No.
Q. Okay. Who actually made the determination for what would have been the appropriate job codes for the individuals that are involved in this case?
A. Me.
Q. Did you consult with anyone?
A. No. But the case was reviewed by my supervisor, and it was reviewed by the regional office and the national office.

99

Q. Okay. Given that you've never worked for OFLC, never job coded under the H-2B regulations, what do you believe qualifies you to be able to determine appropriate job codes for these individuals?
A. Well, I had descriptions of what job duties they were performing, and I went to the OF -- whatever the website is where you can pull the SOC codes and the H-2B rates, and I determined based on job duties what would most be closely aligned with the work that was actually being performed. Similar to what I had done as an investigator when we have misclassifications on government contract work. We use a dictionary of occupations for the SCA, and then there's different ways that we can determine the proper prevailing wage rate for government -- or for Davis Bacon government contracts job. And also I had coded hundreds, probably thousands of jobs when I was posting job listings at the Oregon Employment Department.
Q. In that answer, Ms. Aguilar, you used the phrase "most closely aligned."
A. Yes.
Q. Is that the appropriate standard under the 9142 instruction booklet?

100

A. As I've stated, I have not read the instruction booklet.
Q. Is that the appropriate standard for determining the job code under the 9142 itself?
A. I don't know.
Q. Is that the appropriate standard for determining the appropriate job title under the I-129?
A. I don't know.
Q. And point of fact, there are a number of texts for determining the appropriate job code. Did you know that?
A. No.
Q. Okay. Let's move to another element. Would you agree that in order to bring the allegations against the Butler Company that you need to have evidence that the Butler Company knew that the regulatory duties that you have cited apply to them. Would you agree with that?
A. So the question again?
Q. Would you agree that in order to bring the validation, you need evidence that Butler knew that the regulatory duties you have charged apply to them?
A. No.

101

Q. You're not aware of that?
A. No.
Q. Okay. How is it that you're going to be able to prove a knowing or reckless violation if you can't show that they knew that the regulations applied to them?
A. So it's based on the signed TEC that said that they were going to bring individuals to this country to perform as ride attendants. And they did not do that. They did that, plus they brought people over to work as these other occupation.
Q. All right. And your charge -- your allegation in this case is that they failed to accurately state the reason for the temporary need --
A. That's the --
Q. -- right?
A. The determination letter -- let me go back to it -- says they substantially failed to comply. They didn't bring them in as ride attendants. They brought them in and worked them as semi-truck drivers, shop workers, admin personnel and supervisors.
Q. Okay. But I think we've already established that the 2008 regulations don't actually

102

impose that restriction.
A. I don't -- excuse me? What?
Q. Are you now suggesting that there's somewhere in the 2008 regulations that impose the restriction that those workers could not work outside of the job code?
A. The findings were that they were not employed in the occupations that Butler stated and certified that they needed. That was the finding. That was the violation that we cited.
Q. I understand that.
A. Okay.
Q. But are you suggesting that there's somewhere in the 2008 regulations that, in fact, say that was improper?
A. I don't know.
Q. Just a moment.
Other than the statement of temporary need that we've looked at and you've testified to previously, do you have any reason to believe that any other information qualifies as a reason for temporary need?
MS. GORMAN: Objection; calls for speculation.
THE WITNESS: I don't know.

103

BY MR. PIERCE:
Q. Are you aware that the Office of the Inspector General issued a finding earlier this year? Were you aware of that?
A. Which office of Inspector General? Like, what --
Q. Department of Labor issued a fairly extensive report that contained their suggestions for how to improve the H-2B application document, the 9142?
A. Yeah. Nope, not aware of that.
Q. All right. And you're not aware that they recommended that if there was a violation it needed to be immediately above where the employer signed. You're not aware of that either?
A. No.
Q. Would you agree that it would be a good idea to list the information immediately above the signature because it increases the likelihood of being able to show that the employer, in fact, knew of a particular duty?
A. I don't even know how to answer that. I don't -- what's the question?
Q. Would you agree that listing the regulatory duty immediately above where the employer signs increases the likelihood of being able to show that the employer, in fact, knew that what they were doing was wrong?
A. I have no idea.
Q. Okay. Would you agree that in order to be able to prove your case, you need to have evidence that we violated a regulatory duty?
MS. GORMAN: Objection to the extent that it calls for a legal conclusion and it calls for speculation.
THE WITNESS: I don't know.
BY MR. PIERCE:
Q. Okay. But isn't that why we're here, because you are going to meet your burden that we violated a regulatory duty?
MS. GORMAN: Your question is is that why we're here?
MR. PIERCE: Yes, uh-huh.
MS. GORMAN: Same objections.
THE WITNESS: I believe we're here because you don't agree with the findings that were listed in the determination letter.
BY MR. PIERCE:
Q. We're also here because you have a burden to be able to show that we violated a regulatory duty, correct?
MS. GORMAN: Same objections. Calls for a legal conclusion and speculation.
THE WITNESS: I believe we're here because you requested a hearing after receiving the determination letter.
BY MR. PIERCE:
Q. All right. Then let me ask it this way: What evidence do you have that we violated a regulatory provision in the 2008 regulations?
MS. GORMAN: Objection; asked and answered.
THE WITNESS: We have evidence that employees who were brought here under a certified TEC under one occupation were performing another occupation, and they were paid less than they should have been.
BY MR. PIERCE:
Q. Okay. What evidence do you have that the job titles that was listed for these individuals was false?
A. The job titles?
Q. Yes.
A. Because they weren't performing amusement ride attendant job duties.

104

105

106

Q. What evidence do you have that the SOC code that was listed as suggested was false?
A. They weren't performing the duties that were associated with the ride attendant SOC code.
Q. Okay. Are you aware that there is a search function that's available through OFLC where you can put in a suggested job title and it will spit out in response suggested SOC codes?
A. Nope. Not aware of that feature.
Q. All right. If you were to put in the job title of amusement supervisor, do you have any idea what the first suggested job code would be?
MS. GORMAN: Objection; calls for speculation.
THE WITNESS: I don't know.
BY MR. PIERCE:
Q. Okay. Could you flip to Exhibit 67.
A. Okay.
Q. Do you see at the top of page 1 of Exhibit 67, I did, in fact, do a title search for amusement supervisor and that the number one matching job code was, in fact, what we requested, 39-3091.
A. This is based on a two-word word search; is that correct?
Q. That's what -- that was the search. The

107

search title is there, yes.
MS. GORMAN: And what's the question? Is she aware that you did the search?
BY MR. PIERCE:
Q. Are you aware that that's the response that any employer would have gotten?
MS. GORMAN: Objection; calls speculation.
THE WITNESS: I have no idea.
BY MR. PIERCE:
Q. Okay. And if you were to do a similar search for the phrase "amusement mechanic," do you have any idea what that would result in?
MS. GORMAN: Objection; calls for speculation.
THE WITNESS: I would imagine because it contains the word "amusement" it would have amusement and recreation attendants, since I'm not seeing anything else on the list that contains that word "amusement." If you keep putting that in the search function, it's going to pull up the same results.
BY MR. PIERCE:
Q. Well, is there anything underhanded that an amusement company might phrase the job code to be amusement mechanic?

108

MS. GORMAN: Objection; calls for speculation.
BY MR. PIERCE:
Q. Doesn't that seem reasonable?
MS. GORMAN: Which question are you asking?
BY MR. PIERCE:
Q. Doesn't it seem reasonable that an employer who is in the amusement industry, if they wanted to emphasize a mechanical aspect of it, would request or inquire about an amusement mechanic?
MS. GORMAN: Objection; calls for speculation.
THE WITNESS: I would imagine that if I was trying to find different occupations for different jobs, and I kept putting in the same word, and clearly the only results that contained that word are one, amusement and recreation attendant, I would try a different search, but I have no reason to do that.
BY MR. PIERCE:
Q. Was there anything in the regulations that says you're supposed to do what you just said?
A. I have no idea.
Q. Okay. If you would flip to Exhibit 63.

109

A. Okay.
Q. And you see, in fact, we did do a search for amusement mechanic and that the number one feedback was 39-3091; do you see that?
A. It's also the only one that contains the word "amusement."
Q. And if I ask you the same questions regarding job title amusement driver, what do you think that would result in?
MS. GORMAN: Objection; calls for speculation.
THE WITNESS: I believe it pulls up the same result, because again, on this multi-page list of results that's the only result that has the word "amusement" in it. So if you keep searching for amusement, it's going to probably pull up the one that has amusement in it first. But I didn't program the website. I don't know.
BY MR. PIERCE:
Q. So, in fact, if you go to Exhibit 58, in fact, you're absolutely right, that is what happens, doesn't it?
A. 5-8?
Q. Yes.
A. Yep. Okay.

110

Q. Are you aware of any regulatory requirement that specifies how much detail an employer must provide when submitting a 9142?
A. No.
Q. Are you aware of any subregulatory requirement for how much detail must be provided when requesting a 9142?
A. No.
Q. All right. Earlier you indicated that you had information regarding job duties for these individuals, and that -- I believe your phrase was "most closely aligned" allowed you to make these alternative job codes. Was the factual basis on which you relied to determine these job duties for these other individuals?
MS. GORMAN: Objection; asked and answered.
THE WITNESS: It was based on interview statements and observation.
BY MR. PIERCE:
Q. All right. Well, I read all of you interview statements or at least what I would hope is all of your interview statements. And there's one that is from a supervisor. Does that sound right, you interviewed one supervisor?

111

A. What's the question?
Q. Do you agree that you interviewed only one of the two individuals who was an amusement -- you had categorized as an amusement supervisor?
A. I don't remember.
Q. I also saw a witness statement for someone who you would describe as an amusement mechanic. Do you remember if you only interviewed one out of the two?
A. I don't remember that either.
Q. All right. I also saw a witness statement from somebody that you would describe as an amusement driver. Do you remember if you only interviewed one out of five?
A. I don't remember.
Q. All right. But it was those witness statements that provided you the factual basis, correct?
A. No. Other documents provided -- you provided from Butler have -- like, by the pay it says whatever the individual's name is and then driver and then his pay rate. There's a couple spreadsheets too, along with those, like, little pay slips.
Q. Okay. So we have a title or a label for

112

them, you're saying, in some of our documents. Correct?
A. The job title, job description, yeah, that's what I saw in the records.
Q. And that was only the case for one or more of the drivers, correct?
A. I don't know. It could have been -- I believe the supervisors are listed. I'd have to take a look at the file. I mean, we have it here in your -- what is this, twenty --
MS. GORMAN: Six.
THE WITNESS: -- six.
BY MR. PIERCE:
Q. You're looking at the payroll information in Exhibit 26?
A. The binder, sorry. Yeah. Yeah. It's, like, a column, too, on some of the spreadsheets. It says the ride, but some of them are classified as driver, office.
Q. Are you looking at a specific page or are you just talking generally?
A. I'm -- excuse me. I'm specifically looking at page 657 on 26. I'm just flipping through to see another example if I can.
My point is that I saw it in the employer

113

records as well.
Q. Perfect. Then in addition to the witness statements that I think I have and the employment records -- or payroll records that had label attached to some of the names, I heard you say a third towards -- which was personal observation. What did you personally observe regarding job duties for any of these specific individuals?
A. For example, the office admin person was performing work in a trailer that had binders everywhere, containing paperwork and -- can I have just one second to talk to my attorney?
MR. PIERCE: Well, that's proper if it concerns a privilege question, but if it doesn't concern privilege, I don't think it's regarded as proper.
MS. GORMAN: Can you answer without revealing the identity of any person who spoke with you?
THE WITNESS: Yeah. So -- yeah, I observed. Okay. I observed -- yes, I can. That was what I was going to. I was not trying to be improper, just trying to make sure I'm doing my job correctly.
Personal observations included, you know,

114

watching the admin person perform work in a trailer that contained binders and binders full of paperwork and safety information about the different rides, and witness statements indicating that that person's only job was administrative.
MS. GORMAN: The question now is just about your personal observations.
THE WITNESS: Okay.
MS. GORMAN: Okay. So just to be clear that we're not venturing into privilege worlds.
THE WITNESS: Okay.
MS. GORMAN: This is just about what you saw.
THE WITNESS: Okay. I also saw two employees working in a shop, a mechanic-type shop.
BY MR. PIERCE:
Q. And what did you see them do?
A. I believe there was a workbench in there, if I'm remembering correctly. And a bunch of, you know, various parts and tools and grease and lubricants and whatnot. And I also observed individuals directing the work of others, telling people where to go, when they had to be certain places. That's what I can remember about my personal observations at this point.

115

Q. What's the point of -- what's the relevance of you telling us just now about telling people where to go? I'm not following that.
A. Well, the characteristic of a supervisor would be directing the work of others.
Q. Oh. You saw some individuals that you thought were H-2B worker who were directing others?
A. Yes.
Q. And what does that mean? Elaborate on what -- how you were able to conclude that they were directing their work?
A. I believe I remember them telling people that they needed to be in a certain place, giving them instructions.
Q. Okay. Did you have any personal observations related to the individuals that you've identified as drivers?
A. Personally, no.
Q. Does that mean another investigator did?
A. I believe so, yes.
Q. Can you tell me about it? What did they see?
A. Well, they -- it would have -- I don't know if it's -- it would have to do with where the person was being interviewed.

116

MS. GORMAN: Are you concerned that it would identify the driver?
THE WITNESS: Yeah.
MS. GORMAN: Okay. So the question is about what other investigators told you about their personal observations.
THE WITNESS: Okay. H-2B workers being in semi-trucks, and how those workers were -- reported to them that they were sleeping in those trucks and performing driver duties exclusively.
BY MR. PIERCE:
Q. No statements from these individuals, this is just double hearsay basically?
MS. GORMAN: Objection; calls for a legal conclusion.
BY MR. PIERCE:
Q. Do you understand what I just asked?
A. No.
Q. You don't any have any additional witness statements from these individuals reporting that they were drivers other that what has already been produced, correct?
MS. GORMAN: The question -- I'm going to object because the question was about what personal observations other investigators told her and then

117

she answered the question.
MR. PIERCE: I understand that. But I'm trying to differentiate that it's not really a personal observation, but that's okay. I want to hear it anyway.
BY MR. PIERCE:
Q. You're indicating, Ms. Aguilar, that one or more of these individuals told another investigator who in turn told you that they were working as a driver but that was not corroborated by a witness statement, correct?
A. Are you asking if we have statements from drivers?
Q. Well, I know you have one statement from someone who is describing a driver function. I'm trying to figure out if there are more than that?
A. Okay. What's your question?
Q. For these oral reports that you received, is there any other witness statements to corroborate that there was a driving function being performed other than the one that I have seen?
MS. GORMAN: I'm going to object because it assumes facts not in evidence.
The witness can answer if she can.
THE WITNESS: There are no, like,

118

additional statements that I'm aware of.
BY MR. PIERCE:
Q. All right. And the information regarding the drivers was not your personal observation, it was your co-investigators relaying it to you, correct?
MS. GORMAN: Objection. That mischaracterizes this witness' previous testimony.
BY MR. PIERCE:
Q. Well, it wasn't intentional, but if you need to clarify, please do.
A. So like I said, this was what was told to me by another investigator on my team.
Q. All right. When you made the decision as to what you called most closely assigned job code, how did you go about that process?
A. I searched the occupations and I looked at not only the job titles but the job duties associated with those SOC codes.
Q. Did you go on O*NET or did you go into the SOC codes themselves?
A. I think it's O*NET.
Q. Did you print out any of the descriptions?
A. Yeah.
Q. Which ones did you print out?

119

A. I think it's the semi-truck driver, it's, like, the mechanic and then the first-line supervisor and the admin assistant.
Q. Are there any others that you printed out?
A. Please clarify.
Q. Are there any other O*NET or SOC job code descriptions that you printed out other than the four you just mentioned?
A. Not that I recall. I definitely reviewed a lot of SOC codes. I didn't necessarily print everything out.
Q. All right. Do you remember any of the others that you reviewed?
A. Oh, I don't know, but it wasn't, like, a five-minute process. I looked through several different job titles. The truck driver was easier because it's pretty descriptive, but the admin person, there are -- it was more difficult.
Q. Why did you not print out a copy of 39-3901?
A. The amusement and recreation attendant?
Q. Yeah, uh-huh.
A. It's already part of the file.
Q. So you had printed it out?
A. I think it -- wasn't it part of the 9142?

120

I don't know. I had it --
Q. No.
A. I didn't do it as part of the reconstruction which is what this was.
Q. Okay. But you don't know where you got it from?
A. No.
Q. All right. Are you aware that the job description for 39-3091 includes various maintenance and mechanical responsibilities?
A. Uh-huh. Yes. Sorry.
Q. That's a yes?
A. Sorry.
Q. Okay. And are you aware that the 39-3091 responsibility includes certain supervisory responsibilities?
A. I don't remember that.
Q. Okay. Are you aware 39-3091 includes certain I'll call it paperwork responsibilities?
A. I don't recall that.
Q. When the -- when these individuals, drivers, mechanics, supervisors, office workers are doing their thing, did any of them spend any of their time doing job duties that you would acknowledge fell within 39-3091?

121

A. I would want to review all the job duties. It's possible.
Q. Well, it's more than possible in that you've acknowledged that 39-3091 includes maintenance responsibilities, right?
A. Is the -- are the job duties for that SOC code in your book here? It would be helpful for me to refer to it.
Q. Well, I may or may not direct you to that. I just want to see what you are already familiar with.
A. Okay.
Q. I thought you had indicated that -- correctly I might add, that the 39-3091 includes certain maintenance and mechanical functions. Do you agree with that?
A. Yes.
Q. And therefore, it's quite likely that indicates that the individual you've identified as potential mechanics that they were, in fact, acting within their responsibility, correct?
A. The SOC code -- the occupational code is supposed to be what the jobs main function is. So their peripheral duties under one code, they're going to -- those job duties and functions are going

122

to align with many different SOC codes. But the important thing in coding it properly is that the most important part or the most significant part of that job where most time is spent is most aligned with all of the job duties, not just one or two.

So in a particular SOC code, you can have the job duty of following instructions. Now, just because I follow instructions, it could come up under several different SOC codes. It doesn't mean that they all apply.

Q. All right. But you just suggested two other tasks -- earlier your testimony was that you looked to see what was most closely aligned. Now I heard you say you look at the main duties. And it sounded to me like you were also looking at primary duties as a factor of time spent?

A. Yeah, I would agree with that.

Q. Which one is it?

A. All of them. It's the most important part -- as I just testified, it's the most important job or the most important functions of that job. The duties that are underneath that SOC code have to align with what they're doing more often than not, as far as most closely aligned with. So everything that's listed as job duties for that SOC code is not

123

going to be an exhaustive list. So I have -- the information I have what the folks were doing, and I have to figure out based on what I have on the SOC code which most closely aligns.

Q. All right. Where in the 2008 DOL regulations does it say any of the text that you just indicated?

A. I don't know.

Q. Does it say that? Does it say any of them?

A. I don't know.

Q. For an employer who is filling out a 9142, what are they supposed to do if the regulations don't specify an appropriate task to be applied?

MS. GORMAN: Objection; calls for speculation.

THE WITNESS: I don't know.

BY MR. PIERCE:

Q. For an employer -- you don't think that Butler is supposed to be a better expert at applying the SOC codes than you are, do you?

MS. GORMAN: Objection; calls for speculation.

THE WITNESS: I don't know. I think they had assistance filling out their application, but I

124

don't know.

BY MR. PIERCE:

Q. Well, they did, actually. But as to my specific question, you don't hold them up to a higher standard of care than what you yourself go through when you apply -- or review SOC codes do you?

MS. GORMAN: Objection; badgering.

THE WITNESS: I don't know.

BY MR. PIERCE:

Q. Well, you certainly believe that the process you went through was reasonable, do you not?

A. Yes.

Q. So if someone did what you did that would mean that they also were reasonable, right?

MS. GORMAN: Objection; vague. Do you mean another investigator?

MR. PIERCE: Or employer or an agent or anyone else.

MS. GORMAN: That doesn't make sense.

BY MR. PIERCE:

Q. Do you understand the question, Ms. Aguilar?

A. What's the question?

Q. You described the process that you went

125

through. If someone else went through that same process, they also would be acting reasonably, correct?

A. I think it was a reasonable process to try to determine the best SOC code. That's why I chose to perform it in that way.

Q. How much time did you spend going through that printing out and reviewing job codes and figuring it out?

A. Well, I did for more than the different occupations, so I don't know how many hours I spent doing it.

Q. Can you give me the framework? Was it one hour or a hundred hours?

A. No. Maybe a few hours.

Q. Okay. Do you have any idea how long it should take to be able to do the complete application process of submitting the 9142 pursuant to the 2008 regulations?

A. No idea.

Q. Okay. You're aware that your superiors estimated how long they thought it would take to do the complete application process as part of their Paperwork Reduction Act provisions in the 2008 regulations, are you not?

126

A. I was not aware of that. But I know that on many government forms it has at the bottom the estimated time it's going take to fill it out.
Q. As part of the Paperwork Reduction Act statement.
A. I'm not sure if that's why.
Q. Okay. Now, if you'll go to page 76 -- excuse me, Exhibit 76.
A. Okay.
Q. Page 30.
A. Okay.
Q. Do you see up near the top of the center column where it says the Department of Labor is estimating that the entire application process is going to take 1.35 hours?
A. Okay.
Q. You spent well over that just trying to determine job codes, correct?
A. Well, that was five different SOC codes.
Q. Bear with me.
You also indicated that Butler works, in fact, with a processing agent. Are you familiar with the processing agent they use?
A. I've seen the name before.
Q. Is there anything about the name that

127

rings a bell or that it's worth enlightening me on?
A. No.
Q. Any reason to think that Butler was not entirely relying upon their professional agent in order to help guide them through this process?
A. No.
Q. Any reason to think that their advice on choice of job codes was unwarranted or unjustified?
A. Well, yeah, because they didn't get it right. They brought in folks that were doing that SOC code. They definitely brought in the ride attendants. The problem was there was additional SOC codes that were not included on that TEC. And I know that you can't do that on the TEC. You can't have multiple SOC codes. You have to fill out additional TECs but that wasn't done and that was a problem and a violation.
Q. All right. But you're not suggesting that Butler could hire a professional and then turn around and have to go hire another professional to second guess their professional are you?
A. They're free to do whatever they want.
Q. Would you agree that individuals who are working in other job codes under the Department of Labor's policy are only paid for that higher job

128

code rate when they are actually working that other job code?
A. Correct. Yes.
Q. And when you go about trying to determine back wages, it's your responsibility to put them in the position that they would have been in if they had complied, correct?
A. So what we do is reconstruct what should have been paid.
Q. If they had complied?
A. Yeah.
Q. Right?
A. Okay.
Q. Well, it's obvious but I'm looking for you to agree with me. The -- and so what you are not trying to do is to come up with numbers that represent windfalls or excessive wage determinations beyond what would have actually happened.
A. That's correct. Yes.
Q. Correct?
A. Yes.
Q. All right. Do you have a factual basis for stating that Omar Lopez was a one hundred percent full-time supervisor, and spent no time doing other ride-related duties?

129

A. It would just be based on the same evidence I relied upon for the findings, which I've talked about before. The employee statements and cross referencing from other employees, the information that's contained in the payroll records.
Q. Okay. Let me ask it a different way, a little bit more broadly. Do you have specific evidence that any of the individuals that you've identified as supervisors spent their time one hundred percent as supervisors?
MS. GORMAN: I'm going to object to the extent that the answer requires a violation of the government informants privilege, but the witness can answer.
BY MR. PIERCE:
Q. Yeah, let me try it a different way. I've read the redacted witness statements. I don't see anything in there that answers my question. So I'm -- you know, mentally I'm setting that aside. If there's some other basis for determining that the supervisors spent all of their time as supervisors, that's what I'm looking for.
MS. GORMAN: So you're asking her other than what any employee told her?
MR. PIERCE: Well, if there is such a

130

statement, then I think that's fair game. You don't have to put a name on it, but I at least am entitled to hear about it.
MS. GORMAN: Well, I don't think you included the statements -- the witness doesn't have the statements in front of her.
MR. PIERCE: Okay.
BY MR. PIERCE:
Q. Can you answer the question?
A. So can you repeat the question, please?
Q. Well, I think what I asked was other than your witness statements, which I have read, do you have any other evidence to indicate that the supervisors spent one hundred percent of their time doing supervisory duties, and not doing 39-3091 duties?
A. Not a hundred percent, no.
Q. Your answer -- what do you mean by not a hundred percent, no?
A. Well --
Q. You don't have evidence like that, is that what you're saying?
MS. GORMAN: I'm going to object to the extent it calls for a legal conclusion. I think your original question did not include the word

131

evidence. So now I'm objecting to the word evidence. I think if you're asking her for the basis, she's qualified to answer that.
BY MR. PIERCE:
Q. I don't think it matters, but what is your factual basis, other than the witness statement that any of the supervisors spent one hundred percent of their time only doing supervisory duties?
MS. GORMAN: Objection; asked and answered.
THE WITNESS: It would just be -- in addition to the witness statements, it would be the information in the records from the employer that indicate supervisor and -- yeah. Notes --
BY MR. PIERCE:
Q. Okay.
A. Notes indicating that -- I don't know if it's in my notes or if it's in a witness statement, but just talking about how so-and-so person is the supervisor of kiddy land and so-and-so person is another supervisor.
Q. There's witness statements to that effect? Because I didn't see anything like that.
A. Okay. It's possible it's in notes.
Q. Okay. Well, it could be redacted for that

132

matter but --
A. I don't know.
Q. Okay. All right. Let's move to another element here. You would agree that it's your responsibility to produce evidence taht Butler Company willfully or recklessly violated their regulatory duties, would you not?
MS. GORMAN: Objection to the word "evidence." Calls for a legal conclusion.
THE WITNESS: I believe the file contains evidence to support my finding of a substantial failure to comply by putting workers in an occupation that was not listed on the TEC.
BY MR. PIERCE:
Q. Okay. But you've got to answer my question. You acknowledge a responsibility to have a factual basis for show that the Butler Company willfully or recklessly violated their regulatory duties, correct?
MS. GORMAN: I'm going to object because it mischaracterizes this witness' previous testimony with the willful and reckless comment.
BY MR. PIERCE:
Q. Can you answer the question?
A. I believe that the evidence in the case

133

file supports the findings.
Q. Okay. But that's not the question that's asked. The question that's asked is do you acknowledge a responsibility to have a basis to be able to show a willful or reckless violation?
MS. GORMAN: Same objection.
THE WITNESS: I believe so.
BY MR. PIERCE:
Q. Okay. And let me now make this distinction, you brought in Mick Brajevich personally into this case. What evidence do you have that Mick Brajevich personally knew that the wrong job title was selected?
A. He signed the TEC.
Q. All right. That's not responsive.
What evidence do you have that he knew it was the wrong job title?
MS. GORMAN: Objection; it's an unfair question. The witness answered the question.
BY MR. PIERCE:
Q. Is that the only evidence you have that he knew that was a wrong job title, he signed a document?
A. He signed a document that contained one SOC code and then turned around and worked people

134

under different occupations than what it was he signed off on.
Q. And what is your evidence that he knew that that was occurring?
A. I don't know. I can't look into his mind. I don't know.
Q. What is your evidence that he knew that the wrong SOC code was chosen?
MS. GORMAN: Objection; calls for speculation.
THE WITNESS: Sorry. Can you repeat the question?
BY MR. PIERCE:
Q. What evidence or factual basis do you have that Mick Brajevich personally knew that the SOC code was wrong?
A. I don't know.
Q. What factual basis do you have that Mick Brajevich personally knew that these individuals were working outside of their job codes?
MS. GORMAN: Objection; calls for speculation.
THE WITNESS: I don't know.
BY MR. PIERCE:
Q. Bear with me.

135

What evidence do you have that the Butler organization knew about the ETA subregulatory job code guidelines?
A. I don't -- I don't know.
Q. What evidence do you have that the Butler organization knew about the SOC codes that were modified in 2010?
A. I don't know.
Q. What evidence do you have that the Butler organization was not entitled to rely upon their professional agent Jim Judkins (ph)?
A. I don't know.
Q. What sources of information were available to the Butler organization in order to go find out answers to the kinds of questions that we've been going over today?
MS. GORMAN: Objection; calls for speculation.
THE WITNESS: Like the public website where they could look up SOC codes? Is that -- I don't -- I don't know.
MS. GORMAN: Is that an answer?
THE WITNESS: What was the question? What sources were available?
BY MR. PIERCE:

136

Q. To Butler to be able to determine answers to questions like proper job codes?
MS. GORMAN: Objection; outside this witness' personal knowledge.
THE WITNESS: Yeah, I don't know.
BY MR. PIERCE:
Q. Okay. Are you aware that the Division stopped issuing opinion letters about 10 years ago?
A. Yes. But they restarted.
Q. And in a narrower way it was restarted --
A. Okay.
Q. -- recently.
A. Yes.
Q. But from 2009 -- now it has to be more like a big global arching issue type thing. But from the time they stopped in 2009 until this year in 2013, it was no longer an option to make requests to the Division to get an opinion letter on issues related to this, correct?
MS. GORMAN: Is there a question?
MR. PIERCE: Yeah. I said correct at the end.
THE WITNESS: I don't know. What I do know is that we got an email or some kind of a guidance saying that they would no longer be issues.

137

I don't know how impacted the employer community and what rules were for them.
BY MR. PIERCE:
Q. You got a notice when? In 2009 as I've indicated?
A. No. I started in 2009. I don't know when the notice was given.
Q. All right. And you're aware that there are instructions that individuals such as yourself when you were a frontline investigator are not allowed to put many things in writing. You're aware of that instruction?
A. Yes.
Q. And would you elaborate your understanding of what that instruction says or you know --
A. I think general -- well, what was your question?
Q. You're aware that the Division or the Department have issued instructions that frontline investigators cannot put opinions or advice or things of that nature in writing?
A. Yes.
Q. When was that position elaborated to your knowledge?
MS. GORMAN: Objection; asked and

138

answered.
THE WITNESS: I don't know.
BY MR. PIERCE:
Q. But it's been the case for many, many years, has it not?
A. I believe so.
Q. And that's a potential source of information for employers who wanted to be able to get it right is to be able to ask people, hey, how am I supposed to deal with this --
MS. GORMAN: Objection; calls --
BY MR. PIERCE:
Q. -- correct?
MS. GORMAN: Objection; calls for speculation.
THE WITNESS: I suppose so.
BY MR. PIERCE:
Q. Are you also aware that the Division -- excuse me not the Division -- OFLC shut down for a period of years, relevant years, the help desk that they used to run so that people like myself who process H-2B petitions, we would send an email and get an answer. Did you know that used to be the case?
A. No.

139

Q. Bear with me. Look at exhibit 83.
A. Okay.
Q. This is an example of Jim Judkins, who we have mentioned, taking advantage of the help desk in 2008 asking a fairly detailed question to ETA in Chicago, and they actually provided a substantive answer. Do you see that?
A. Okay.
Q. Okay. Are you aware that that service stopped around 2010, I think it was?
A. No.
MS. GORMAN: Objection; asked and answered.
BY MR. PIERCE:
Q. You would agree that the unavailability of a help desk, question/answering service leaves employers in the dark and makes it harder for them to comply?
MS. GORMAN: Objection; calls for speculation.
THE WITNESS: Perhaps.
BY MR. PIERCE:
Q. Would you agree with that?
A. Perhaps.
Q. Would you agree that it's just

140

fundamentally fair that if you're going to go after someone and issue citations you should have ways so that they can find the information and encourage compliance?
A. I think encouraging compliance is important.
Q. And just like spreading of information or sharing of information and answering questions is important to promote compliance; isn't it?
A. Yes. I would agree with that.
Q. Would you agree that an employer is entitled to rely upon the Division's actions in other cases?
A. I don't know.
Q. Why not?
A. Because that doesn't have enough detail for me to make any kind of an informed answer.
Q. All right. Let me give you an example.
A. Okay.
Q. I had an audit in which there was driving going on and the decision was to not issue a determination letter. Is the industry entitled to rely on that?
A. Each case stands alone. Every case has a different set of facts and circumstances. So I

141

don't -- I'd say no. You can't take -- it's never going to be a direct comparison. Like I said, each case is different and -- so, no.
Q. And so you think as a reasonable person, an employer is not entitled to rely on that, is that your testimony?
A. The example that you provided and the level of detail in which you provided, I would say no.
Q. Okay. Well, I don't want you to get hung up on the detail. I'm just trying to get you to appreciate where I'm going with this.
A. That wasn't the details.
Q. What I'm really -- okay. And until you hear the details, you don't have an opinion as to whether or not they are entitled to rely on it?
A. I can't make a determination with the information that you've given me.
Q. Okay. Well, you're not trying to suggest by that that the Division sometimes makes mistakes, are you?
A. I wasn't trying to suggest that. No.
Q. You're not trying to suggest that the Division takes precipitous action that the public is not entitled to rely on are you?

142

MS. GORMAN: I'm going to object to the rhetorical nature of the way the question is asked. I think it's -- I think the question's not clear. There's a double-negative, and it's phrased as a rhetorical question, which is categorically a hypothetical.
BY MR. PIERCE:
Q. Do you remember the question?
A. No.
MR. PIERCE: Kim, can you help me out?
THE REPORTER: Sure.
(Whereupon, record read as requested.)
THE WITNESS: I don't understand the question.
BY MR. PIERCE:
Q. When the Division investigates and makes a conclusion whether they're going to issue a determination letter, that's a rigorous process isn't it?
A. That's part of what we do every day.
Q. And the decision of whether to issue a citation or not, that's a well-thought-out process --
A. Yes.
Q. -- correct?

143

A. Yes, I agree with that.
Q. And a reasonable observer would think, well, if this happened over here and they didn't charge for it, then that must mean there was no violation. That's a reasonable conclusion to draw, is it not?
MS. GORMAN: Objection; calls for speculation and asked and answered.
THE WITNESS: I would just say again that each case is different. Facts and circumstances on each case are different.
BY MR. PIERCE:
Q. All right. Next element. You would agree that it is your obligation on behalf of the Division to have a factual basis to show that there was a significant deviation from the contents of the petition, correct?
A. The violation that was charged was a substantial failure to comply. Yes.
Q. No. No. No. I'm not talking about substantial failure to comply. I'm talking about significant deviation. There's --
A. I don't know what that term means.
Q. You don't know what that term means? Have you not heard of that before?

144

A. I don't know in what way you're using that term.
Q. I'm using it as the congress used it in the immigration statute.
A. That doesn't mean anything to me.
Q. All right. Are you aware that in order to be able to proceed with the citation in this case, there is a responsibility to prove that there was a significant deviation from the petition?
MS. GORMAN: Objection; asked and answered.
THE WITNESS: No.
BY MR. PIERCE:
Q. Okay. And therefore, you don't know if there's any evidence regarding that, correct?
A. I don't know.
Q. Okay. From the time that communication stopped between your office and Butler, February 25th of 2014, until the determination letter was issued, was there any communication saying, you know, hold your horses. We're going to come. Don't get rid of your documents. Was there anything like that?
A. Are you asking about communication between our attorneys and us?

145

Q. No. Between your office and the Butler organization. Were they advised that this was still a live issue?
A. As you said, there was no communication.
Q. Okay. You're aware that the 2008 regulations have a three year record retention requirement, correct?
A. I don't know.
Q. You're familiar with the term "record retention," are you not?
A. I am.
Q. All right. And if, in fact, there is a three year record retention requirement, relevant documents could under the regulations be discarded sometime in 2016. You would agree with that?
A. You're saying that if there is a requirement, then three years later they would no longer be required to keep documents?
Q. Right.
A. Okay.
Q. You're agreeing with that, right?
A. Based on that supposition, yes.
Q. Yes. Okay. Go back to Exhibit 14.
MS. GORMAN: The binder rings keep sticking, so it's difficult to move the documents.

146

THE WITNESS: I'm here.
BY MR. PIERCE:
Q. Okay. This was your original back wage calculation, right?
A. Summary of back pay wages, yes.
Q. What was the basis that you relied upon in order to generate the numbers that you see here?
A. The H-2B rate listed from O*NET and the SOC codes that were applicable, and the number of applicable workweeks in the period of investigation, and the employees that we determined were misclassified.
Q. All right. And how did you determine -- actually, let me start again.
For your original determination, did you rely upon the same exact job codes that you are proceeding under today?
A. Yes.
Q. All right. But these numbers are different from where we are today.
A. Yes.
Q. Why are they different?
A. The wage rate that I used in these computations that are reflected in this summary on Exhibit 14 are just the wage rate for the Santa

147

Barbara locality. So we revised them based on the locality pay in the different areas that were listed on the itinerary and the signed TEC, an average of those wages.
Q. Okay. But that would be, like, about 150 locations because they break off into many different locations, correct?
A. So, no. It's actually based on the location that are relevant to the period of investigation. So if we look at the 9142, it's page 1 of the itinerary. I don't know where you have it in this binder, but it's not under its --
Q. You only tried to pick the spots where one or more Butler units were operating during the first 11 weeks of the season?
A. No. I -- so, if you can direct me to the 9142 itinerary, it might be helpful.
Q. Well, that's Exhibit 7, and I'd say stop on page 15.
A. Yes. Okay. Exactly. All right. So using all of the wage rates for these localities averaged out. There was no way for me to determine which crew was where at what time.
MS. GORMAN: And when the witness said "these," she indicated all of the locations at Bates

148

12 --
THE WITNESS: 74.
MS. GORMAN: 1274.
THE WITNESS: Page 15 in the exhibit.
MR. PIERCE: 1274 --
MS. GORMAN: Is the Bates.
MR. PIERCE: Oh, oh, oh, okay. All right.
BY MR. PIERCE:
Q. And so you were trying to take all the locations that are listed from February 1st through the first couple on page 16 of Exhibit 7?
A. It's actually just this page, through this page.
Q. All right. You're aware that the Butler unit where these individuals were only worked at a portion of those locations, correct?
A. Yeah. Yeah.
Q. Okay. And then in Exhibit 15, I sent you an email about a month later in which I captured what you had told me by telephone about your alternative job codes and the pay rates that attached to them.
A. Uh-huh.
Q. You never disputed the accuracy of my email did you?

149

A. I don't remember.
Q. Okay. All right. So you've seen my recital of what you had relayed to me by telephone in this email marked as Exhibit 15.
A. Yes.
Q. And those are the numbers, the driver wage rate 129.37, that was intended for that job code for all of those locations on the first page of the itinerary, correct?
A. No. So this -- this is from back in 2013, and so this wage rate was before we did the revision based on the itinerary. So this wage rate is just for the Santa Barbara locality.
Q. Oh, I see. Okay. Okay. So then going now to Exhibit 16.
A. Uh-huh.
Q. You have now dropped Marilu Zepeda and you have revised the allegations. Do you see that?
A. Uh-huh.
Q. Why did you drop Marilu Zepeda?
A. Because she was paid higher than the rate that we computed.
Q. For the alternative job code?
MS. GORMAN: The alternative what? I didn't hear the word.

150

BY MR. PIERCE:
Q. The alternative -- for the alternative job code that you had suggested?
MS. GORMAN: Job code. Job code.
THE WITNESS: Yes, that's correct.
BY MR. PIERCE:
Q. And so why did the total back wages in Exhibit 16 go down?
A. I'm just looking here. I don't know.
Q. Is this the first time when you used the first full page of the itinerary in order to complete Exhibit 16?
A. No. No. The itinerary was used for the last version of the back wages that was done a couple weeks ago -- last week. I don't know.
Q. Okay. Let's -- let's come back to that in a second
A. Okay.
Q. In the case of Exhibit 16, you're not able to tell me what the formula was that allowed you to come up with this new $24,000 figure, correct?
A. Yeah. No. I don't remember right now.
Q. Okay. And that figure, the $24,000 figure that we saw in Exhibit 16 from February of 2014, shows up again in the case. Do you remember that?

151

A. It shows up again where?
Q. In the case.
MS. GORMAN: In the case.
BY MR. PIERCE:
Q. That $24,000 figure showed up in the determination letter which is marked as --
A. Yes.
Q. -- Exhibit 19, correct?
A. Yes, uh-huh.
MS. GORMAN: The original unamended one you mean? The determine --
MR. PIERCE: I'm looking at the determination letter marked as Exhibit 19.
MS. GORMAN: Okay. The one -- but the judge just issued a ruling accepting an amendment of the summary of violations.
MR. PIERCE: Oh, oh, oh. Yeah. Yeah.
MS. GORMAN: Okay. So you're asking her about a -- a document that has since been amended? I just want to be sure.
MR. PIERCE: Yes.
BY MR. PIERCE:
Q. The calculation was 24,000 and change in February of '14. It was the same exact figure in February of last year as requested in the

152

determination letter, correct?
A. Yes.
Q. Okay. It was then repeated if you will now flip to Exhibit 106.
A. Hold on. Yes, I see that.
Q. All right. And then the same day, I believe, it was repeated in Exhibit 105.
A. Yes.
Q. And the dollar figures that are listed on the second page of Exhibit 5 have the names of the nine individuals that happened to be an exact match for the revised calculations that you sent to me in February 2014, correct?
A. Yes.
Q. All right. So that was about almost five years where the exact same figures were being used. Do you agree with that?
A. Yes.
Q. Now, why did the numbers change again last week, I guess or I'm losing track here, two weeks ago?
A. Okay. Because the -- we computed based on average of the locality pays listed on that page we looked at before on the itinerary.
Q. And why did you do it based on those, all

153

the locations?
A. We thought it would be more accurate than the way that they were previously computed.
Q. Well, don't you think it would have been more accurate if you would have actually used the locations where the unit did, in fact, work?
A. I didn't have that.
Q. Well --
A. If you can provide that, they can be revised.
Q. I had sent --
MS. GORMAN: They could be.
BY MR. PIERCE:
Q. I had sent you an itinerary in the course of the investigation.
A. Okay.
Q. I don't know if you remember that but it looked like Exhibit 27 and it probably was Exhibit 27.
A. I'm there.
Q. Do you remember getting Exhibit 27 from me?
A. No.
Q. We've agreed that all these individuals were working for what's labeled as Butch's unit, the

154

middle two columns on Exhibit 27, correct?
MS. GORMAN: The first part of your question was we agreed, is that what you said?
BY MR. PIERCE:
Q. Yeah. We have agreed that these nine individuals or ten individuals were working for Butch's unit and only Butch's unit, correct?
A. Well, I don't --
MS. GORMAN: I think that mischaracterizes this witness' previous testimony. I don't know that there was any agreement. I think it was just an acceptance of your characterization.
THE WITNESS: Yeah, I don't know --
BY MR. PIERCE:
Q. Did you have a reason to --
A. Go ahead.
Q. Did you have any reason to think that any of those nine or ten individuals worked for any unit other than Butch's unit?
A. I believe some of the witness -- the employee statements say that --
MS. GORMAN: He didn't ask you where. That wasn't his question.
THE WITNESS: What's the question? Sorry.
BY MR. PIERCE:

155

Q. Do you have any other factual basis to believe that any of those nine or ten people worked for any other units other than Butch's unit?
A. Yes.
Q. What is that evidence?
A. It would have been employee statements indicating that there were some transference of employees between the units.
Q. How would I recognize that? Because I didn't see that when I read them.
A. I don't know.
Q. I mean, would it say I transferred or --
A. I don't know.
Q. I -- okay. And then if you flip to Exhibit 28.
A. Okay.
Q. You would agree -- well, first of all, let me explain what 28 is. This is an evidence summary. The right-hand side gives you the page numbers out of the payroll, that's, in fact, Exhibit 26, where the information is found. And then for Butch's unit throughout 2013, based on the payroll of where these guys were working, I've identified the relevant locations where they were working.
So my question is do you have any basis to

156

contend that this is not an accurate route sheet from where these nine or ten workers were working during those first 11 weeks?
MS. GORMAN: Objection; asked and answered.
THE WITNESS: What was the question?
BY MR. PIERCE:
Q. Do you have any basis for contending that the nine or ten workers at issue worked anywhere other than the locations shown on Exhibit 28?
A. Well, as a -- the truck drivers are problematic because they're driving between different localities.
Q. And therefore, what? I don't follow that.
A. Well, therefore, it makes sense to use an average as a basis for reconstructing the wages due.
Q. Why?
A. Because they could be in different localities within the same workweek.
Q. And you're making the assumption that every minute of every day is a different locality as you're driving down the highway?
A. No.
Q. I'm not following why you think the drivers are any different from anybody else?

157

A. Because it's possible that they are in one locality in the morning and a separate locality in the evening, for example.
Q. Okay. Well, did you, in fact, try to come up with your own resolution of the truck driver issue that you're suggesting?
A. So the resolution was that we use an average for everybody because it's a reasonable reconstruction. We do reasonable reconstruction in lots of our cases in which there are not records available.
Q. Okay. Look at Exhibit 28.
A. Okay.
Q. You will see that all of these locations are limited to -- are you familiar with the term "area of intended employment"?
A. Yes.
Q. You will see that all of the locations in Exhibit 28 occur in four areas of intended employment. Riverside County, California; Maricopa County, Arizona; Yuma County, Arizona, and Santa Barbara County. Do you see that?
A. Yes.
Q. Do you have any factual basis to dispute the nine or ten individuals involved in the case

158

worked in any other areas of intended employment other than those four?
A. No.
Q. Okay. Would it not be a more reasonable, more accurate estimate to use the wage rates for the locations where these folks were actually working rather than a whole bunch of other locations where they never had anything to do with?
A. Yeah.
Q. Is there anything about the names of the events, the locations, the counties, the states or the sources on Exhibit 28 that as you look at it strikes you as being inaccurate?
A. Well, this is only listing numbers, dates, and locations. There's no names. But they look familiar based on the itinerary.
Q. Yes. Okay. We're going to get to the rest of it in just a minute. So -- and you would agree also that the payroll documentation that is cited in Exhibit 28 is probably the best evidence as to where these individuals actually were working on any given week, would you not?
MS. GORMAN: Objection; calls for speculation.
THE WITNESS: I don't know.

159

BY MR. PIERCE:
Q. Okay. In the trial exhibit that the administrator has marked as Exhibit I, there are a lot more wages and locations that occur on page 28. And they shift from one employee to another employee. Why is that?
A. Can you point me to the exhibit that you're referring to?
Q. Well, I didn't send it to you so you're just going to have to let me describe it.
A. Okay.
Q. In Exhibit I, for the first guy, Saul Espudillo Herrera, it has him driving in Holtville, California, first line; second line, Sunnyside, Washington, before he actually shows up in Indio, California, and then there's others. I'm --
A. Right. Okay.
Q. -- I'm dropping down to -- do you understand what I'm talking about?
A. I do. And that's based on the itinerary.
Q. And the assumption that they were in all of those locations other than where the payroll had been; is that correct?
A. It wasn't -- it was just -- let's see. It was best way of reconstructing the

160

required wage rate, based on the itinerary and what was in the 9142.
Q. Okay.
A. Not necessarily --
Q. But I had --
A. Go ahead.
MS. GORMAN: Wait, are you finished with your answer?
THE WITNESS: Well, it's not necessarily based on the assumption that they were physically in those locations at any given time.
BY MR. PIERCE:
Q. All right. I have seen no evidence that any of these people worked in Sunnyside, Washington or Holtville, California, or a number of --
A. Well, why was it on the 9142?
Q. Because other units were working there.
A. Okay.
Q. Are you aware of evidence that these particular individuals were working at these, or did you just make an assumption that all of those itinerary locations represented where they were working?
A. We used the itinerary to determine an applicable wage rate that would be useful for the

161

reconstruction.
Q. Okay. And these locations per worker, there are big, big differences. Why is that? As far as just the itinerary, why is there a big difference in where you have the various workers working?
A. Give me an example, please.
Q. In the -- I'll just pick the first week. You've got -- one, two, three -- you've got three of the nine working in Holtville, California, and you've got -- you've got six of them working in Yakima, Washington. What's your basis for that?
MS. GORMAN: Objection; asked and answered.
THE WITNESS: It's based on the itinerary.
BY MR. PIERCE:
Q. Okay. But it was also based on the assumption that maybe they were working there and maybe they weren't. Is that true?
A. It's based on the itinerary
Q. When did you decide that Marilu Zepeda was back in the case?
A. Because the wage rates that were used for the average computed back wages for her that were in excess of what she was actually paid, whereas before

162

I used just the Santa Barbara wage rate it was not.
Q. Well, I didn't actually ask that question. I asked when did you decide that she was back in the case?
A. Oh. When I found that the wages I computed were higher than what she was paid.
Q. When was that? Like, ten days ago or something?
A. Something like that.
Q. Okay. So she had been out of the case for about five years and then she came back in about ten days ago?
A. Well, it was always a violation that she was employed outside of the SOC code. She just wasn't due any back wages.
Q. One moment. What is your actual basis that Marilu Zepeda actually worked 11 weeks?
A. Employee statements and employer records.
Q. And Marilu Zepeda's witness statement is not redacted, it's in full. It doesn't say anything at all about how long she worked there. What employee/employer records suggest she had worked the full 11 weeks?
A. I don't recall.
MS. GORMAN: Wayne, can we just take a

163

little five to ten minute break?
MR. PIERCE: Yeah. Is that good for you guys?
THE WITNESS: Yeah, that would be good.
MR. PIERCE: We're off the record.
(Whereupon, recess taken.)
MR. PIERCE: We'll go back on the record.
BY MR. PIERCE:
Q. Ms. Aguilar, I want to make sure I understood what I just heard is part of your -- part of the testimony, in Exhibit 7, page 15, the first page of the itinerary --
A. Yes.
Q. -- has 35 locations?
A. Yes. Okay.
Q. You took all 35 of those at the average wage rate at the job code you thought applied in order to determine what you thought the back wages should be; is that correct?
A. Yes.
Q. Okay. Why did you settle on the first 35 and didn't go on to the second page? I'm just curious.
A. Because this encompassed the time period I was looking at for the back wages.

164

Q. Okay. So -- but you, therefore, would accept the notion that identifying the relevant locations and then averaging figures, that that's a reasonable way to go about this?
A. Yes.
Q. Correct?
A. Yes.
Q. Okay. And when you made your choice of the prevailing wage rate, why did you choose the average wage for each of those job codes?
A. So just to be clear, the wage for the SOC codes is the H-2B rate. And what I did as an average was the location, right, because there was different H-2B rates based on the locality, so that's what I averaged.
Q. Okay. Well, that's not exactly right. The 2008 regulations had five data points for each job code, level 1, level 2, level 3, level 4, and the average. And my question is why did you always choose the average wage rate as opposed to one of the levels?
A. I think on the website, also the printouts from that website, it says H-2B rate, and that's what I used. And I used the rates from 2013, because that's available online.

165

Q. Yeah. I saw that you produced those but I have no idea what you're talking about, an H-2B wage rate. I've never heard of that.
A. Oh, I think it's on the printout. Did you not see it?
Q. Hold on a second. Okay. All right. I think I understand. And I recognize you don't have this in front of you and you're going to have to bear with me while I try to describe this. Your Exhibit J has what purports to be the relevant database for 2013. And I'm looking at the first page and it does list level 1, level 2, level 3, level 4, and then it says mean wage, which would mean the average wage that I was using that term earlier. And in parentheses after mean wage it says H-2B. You're saying that you in all cases used the line mean wage in parenthesis H-2B, correct?
A. I used that for the rate on which to compute back wages, yes.
Q. Okay. And why did you decide that that was right wage rate in this case?
A. Because it says H-2B and this is an H-2B case.
Q. Okay. Is that the end of your analysis?

166

Is there any other reason why you did it?
A. No.
Q. All right.
MS. GORMAN: Just because –
BY MR. PIERCE:
Q. Can you tell me –
MS. GORMAN: Just because that was a compound question and there was a one-word answer, I just – I don't know that it was clear what her answer was answering. So, I mean, I'll object on the basis of compound question. But you might want to just break out the two parts of the question you just asked.
MR. PIERCE: Yeah, or I'll move on.
BY MR. PIERCE:
Q. Would you explain to me your understanding of when level 1, 2, 3, or 4 are appropriate?
A. I don't know.
Q. Would you explain to me your understanding of what the 2008 DOL regulations say about which wage level is appropriate?
A. I don't know.
Q. Do you remember that in the summer of 2013 there was ongoing litigation, there was a decision from the appellate court in the 11th Circuit and the

167

Department of Labor issued mid season supplemental prevailing wage determinations? Do you remember that?
A. Vaguely.
Q. And they were like a $4 or $5 increase over what most employers were paying right in the middle of their season. Does that ring a bell?
A. No.
MS. GORMAN: Objection; calls for speculation.
THE WITNESS: No.
BY MR. PIERCE:
Q. No. Okay. And do you remember that there was a big push to mandate the automatic payment of the average or mean wage rate in conjunction with those supplemental prevailing wages?
A. No.
Q. Okay. All right. Is there any other basis for why you choose – chose the mean wage other than the fact that it has H-2B listed in parentheses after it?
A. No.
Q. Okay. You're aware that Butler, when it requested workers, it specifically said no experience desired or requested or whatever the verb

168

was?
A. Yeah. I remember that's part of the TEC. I remember that box was checked, yes.
Q. Okay. And when a worker has no experience required, which one of these wage levels is the appropriate wage level under the 2008 regulations?
A. I don't know.
Q. Did you as part of your collection from the 2013 data, did you actually include the 39-3091 descriptions? I flipped through it and I don't see them in here. I'm just seeing if you remembered putting those together.
A. For the back wages?
Q. Yeah. Do you remember gathering as part of your efforts the wage data from the farm labor certification library for amusement ride attendant job codes?
A. I think I said before it was part of the case file. I didn't pull it up when I was recomputing the back wages recently.
Q. Okay. And I remember you saying that you had the O*NET coverage for that job code but I don't remember you saying that you had the wage rate data for that job code?
A. Oh, I don't remember.

169

Q. Okay. And you're aware that the Department continues to have and did in 2013 special procedures that require wage rates to vary from one location to the next when you have an amusement employer, correct?
A. Well, I've seen it in the context of other H-2B employers that have workers that move around, have itineraries and differing wage rates applicable to those workers based on locality.
Q. All right. And you were at least attempting to approximate that special procedure by including all the 35 locations when you I did your averaging, correct?
MS. GORMAN: Object to the term "special procedure." You can answer.
THE WITNESS: I averaged out all of the pay from the different locations based on the front page of the itinerary, the 9142.
BY MR. PIERCE:
Q. Are you aware that there's a 2006 TEGL, T-E-G-L, that indicates employers who are in the entertainment business, including amusement employers, are allowed to vary their pay rate from one location to another?
A. I was not aware of that offhand.

170

Q. All right. In the case file Sergio Guzman(ph), he is not listed as part of your back wage calculation that is concluded in Exhibit I. Are you aware of that?
A. Yes.
Q. Is he out?
A. That employee was left off of the updated back wages.
Q. When did you realize that?
A. After it was already submitted.
Q. Okay. Are you familiar with something called the EDC database?
A. No.
Q. All right. If you go on the OFLC library database and click through the link of the 2013 data you can get into two databases. One database is the database that you were in. There is another data base called the EDC database that also applies to the 2013 season. Do you know whether you choose one data base rather than the other database?
A. No.
Q. Other than the fact that the 9142 suggested that the planned workweek was 40 hours, was there any other reason why you calculated back wages assuming that all these individuals were going

171

to work 40 hours every week?
A. It was based on what was in the 9142.
Q. Would you agree that the actual hours worked would be more accurate as to what any back wages would have been?
A. The actual hours worked, yes.
Q. But you made no effort to try to determine that did you?
MS. GORMAN: Objection; asked and answered.
THE WITNESS: The information I have in the case file indicates that the hours worked reported in payroll documents are not best to use for the back wage reconstruction. So we decided to go with what was based on the number of hours worked on the signed 9142.
BY MR. PIERCE:
Q. Okay. There are maybe one witness statement that makes that sort of an allegation, but you're also aware that in virtually a hundred percent of the cases these workers countersigned their statement reflecting their hours of work, correct?
A. Well, I have signatures on the slips that they had to sign to get their paycheck. I see that.

172

Q. Okay. And why do you think that their countersigned signatures affirming their pay and their hours of work is less reliable than one or some low number of individuals suggesting that these are not reliable?
A. Well, I think the information I remember from the file indicates that the hours worked reflected on the records that you're talking about can either be, like, an hour before the fair starts to when it was started. It was just too many variables. So for reconstruction purposes, I chose the 40 that's listed on the TEC that the employer that said he was going to employ these individuals.
Q. Okay. Is there any other reasons why you chose to ignore their timekeeping method?
A. No.
Q. All right. Flip if you would to Exhibit 45.
A. Okay.
Q. These are the actual reported hours according to the time records, countersigned by these individuals. Do you have any reason to dispute any of the numbers that you see here?
MS. GORMAN: Objection; asked and answered.

173

THE WITNESS: No. For the same reasons I explained before. You're referring about the same documents that I discussed before.
BY MR. PIERCE:
Q. Okay. In the case of of Jose Ivan Ortega Romo (ph), you wrote him down as having been eligible for 11 weeks. Did you know that he was not even in the country until sometime after February the 11th?
A. So on one of the employees, I remember this, I did look at the spreadsheet provided that has the border cross dates and I know that one of them started later. So I reduced the number of workweeks I computed for that individual. And based on this document here at Exhibit 45, I'm assuming it was Jose Ivan Ortega Romo.
Q. Well --
A. Take look at it.
Q. I am. And you have him down for 10 weeks.
A. Okay.
Q. And you have others down for 10 weeks. You have some for 11.
A. Okay.
Q. But Jose Ivan Ortega Romo did not have a consulate appointment until February 11th. Doesn't

174

show up on any timecards the following week. Doesn't show up until Indio week number 4 on any of the time records, but you had him down for 10 weeks. Can you give me your basis for why you think he worked 10 weeks?

A. It was -- I tried to put it for when the first complete workweek after the border cross date on that spreadsheet provided by the employer. That's the basis that I used.

Q. Okay. Except that if you relied on the border cross date, I think he would have been at nine weeks, and possibly eight weeks, since he doesn't show up on any timesheets that very first week. You don't have an explanation for that, do you?

A. I used the border cross date, not the timesheets so --

Q. Okay. And in order to determine -- there were a few occasions, if you look at the second page in Exhibit 45, you see the first guy Saul Espudillo?

A. Uh-huh.

Q. There's no number that I can find on any of the timesheets. Do you think it would be reasonable to take the guy's average hours worked for his other recorded hours in order to determine

175

when he when most likely worked during those weeks?

A. If the hours worked were accurate, then that's how I would do the reconstruction typically.

Q. Okay. So then looking at Exhibit 46, second page.

A. Yes.

Q. You see that on the very last column, I calculated the average weekly hours worked and for those weeks when there was no apparent sheet, substituted in in brackets, in parenthesis, the average number of hours in order to fill out how many hours worked. Do you have any basis for disputing any of the numbers that appear in Exhibit 46 other than your general reluctance to believe in timesheets?

MS. GORMAN: Objection. Mischaracterizes the witness' previous testimony.

THE WITNESS: So you -- where there was no record of hours worked, you substituted an average for that workweek; is that correct?

BY MR. PIERCE:

Q. I averaged all the other weeks to determine what that was --

A. Right.

Q. -- and substituted the average for a

176

missing week.

A. So when there's no records, you put an average of the other weeks.

Q. Correct.

A. What's the question?

Q. Do you have any reason to dispute any of the numbers in Exhibit 46?

A. Well, you have a wage rate here of around $8. I don't know what that's for. And they --

Q. That's the --

A. Uh-huh.

Q. That's the amusement ride number.

A. Okay. But I don't know what you -- I don't know what you're getting at with this.

Q. Yeah. And don't get lost in that.

A. Okay.

Q. Come back to the hours worked. That's what I care about.

A. Okay. Well, I would just have -- you asked what -- if I have -- I'm sorry. Please repeat the question.

Q. Do you have any basis to dispute any of the hours worked as reflected in Exhibit 46?

A. It would be the same issues that I have with the reported hours worked that I've already

177

discussed.

Q. Okay. Bear with me.

If, in fact, the credit that was owed to these individuals surpassed and established that they were overpaid, what happens to the determination letter in this case?

A. I don't understand about any -- about what you're talking about with a credit or if they are overpaid.

Q. Okay. All right. Let me make -- turn it into an example. Let's say that you've got Saul Espudillo being owed back wages of $3,229.

A. Okay.

Q. But that when bunkhouse credit and income taxes and local convenience travel, in-and-out-of-country travel, et cetera, are aggregated, they exceed that amount.

A. Okay.

Q. What happens to the determination letter under the circumstances?

A. I don't think the amounts of those things that are purported to be credit would offset any back wages we've calculated.

Q. Well, I've asked you to assume that they do.

178

MS. GORMAN: Then I'm going to -- object.
BY MR. PIERCE:
Q. Okay. So --
MS. GORMAN: I'm going to object based on a hypothetical.
BY MR. PIERCE:
Q. What would happen under those circumstances?
A. So if for some reason the employer can prove that they gave an employee an advance, $3,000, and we compute $3,000 in back wages for that person, and they could show that they were actually paid that amount. They signed the proper documentation. They got a cash advance for the amount of the back wages were due, we would not collect additional back wages.
However, a violation, in this example, of employing someone outside of the intended occupation, that doesn't go away with the back wages.
Q. Are there any other consequences?
A. To the violation? You mean the civil monetary penalty?
Q. Or yeah, are there any other consequences to the determination letter other than the fact that

179

back wages could theoretically be zeroed out, there's still a violation, are there any other consequences?
A. CMP.
Q. Any other consequences you can think of?
A. Not at this time.
Q. All right. Bear with me.
All right. Do you have any factual basis that back wages are an authorized remedy under the 2008 regulations for a misclassification case?
A. I don't know.
Q. All right. Now, let me ask you questions about CMP. The only basis on which CMPs were determined is that you wanted to match the back wages up to a maximum of $10,000, correct?
A. I don't know. I don't remember.
Q. Well, do you have any factual basis that any factors were considered over and above the fact that you were intending to match back wages?
MS. GORMAN: Your speech completely petered out on that last bit.
MR. PIERCE: Okay.
MS. GORMAN: I don't think the whole question made it into the record.
BY MR. PIERCE:

180

Q. Do you have any factual basis that any of the factors were considered in determining civil money penalties other than the fact that you were trying to match back wages?
A. The mitigating factors outlined in the regs were considered.
Q. Who performed the actual CMP determination?
A. The investigator will compute and recommend a CMP and the manager assesses it.
Q. And in this case who is the manager?
A. Tom Silva.
Q. And did you yourself, in fact, consider any other factors then?
A. The mitigating factors.
Q. I'm sorry. The mitigating factors what?
A. Those are the factors that I considered.
Q. How many of them did you consider?
A. All of the ones that are outlined in the regs.
Q. All seven of them?
A. Yes.
Q. And how did you assess them?
A. So assess the factors?
Q. Yes.

181

A. I guess I determined which, if any, were applicable in the reduction or the increase for the CMP that I was going to recommend to my supervisor.
Q. Okay. Well, you already had what should have been a slam dunk because the back wages were greater than $10,000. And all you had to do is max them. Why would you then go through and consider the CMP factors?
A. We considered the mitigating factors on any CMP.
Q. In all cases no matter what?
A. In the cases that I do.
Q. And was there a set calculation that was used in order to determine CMPs?
A. I don't believe so.
Q. Are you aware of any such form that is used when charge determines CMPs?
A. There's different spreadsheets that our different investigators might use, but there's no form I'm aware of. It's unlikely that I used that in this case since we only cited one violation.
Q. All right. I have seen a form that talks about multiply it by .1 or multiply it by .2 or divide it by whatever, based on a particular set of circumstances. Did you do any formula of that type?

182

MS. GORMAN: Objection; asked and answered.
THE WITNESS: I used the mitigating factors to determine whether or not the CMPs should be increased or reduced.
BY MR. PIERCE:
Q. Okay. What did you decide when you considered factor number one, previous history of violations?
A. I don't remember.
Q. Do you have any evidence that there was a prior history of violations?
A. I don't think -- no. I think this was a first-time investigation if I remember correctly.
Q. What evidence do you have as to the number of U.S. or H-2B workers employed by the employer and affected by the violation?
A. What evidence do I have? I'm sorry. Can you repeat the question?
Q. Yeah. What evidence do you have when you considered the number of U.S. or H-2B workers employed that were affected by the violation?
A. It would have been the employer records of the total number of employees employed in that period and the total number of employees that were

183

employed in violation during that period.
Q. I'm not sure I understood that. I would have thought the answer was nine.
A. You're asking the question. I don't know what you --
Q. It sounded to me like you were considering every worker, but this says number of workers who were affected by the violation. It seems to me only the ones that were in violation would be affected by the violation.
A. Okay.
Q. Do you agree with that?
A. Well, you asked what seems to you, so you would know. I don't know.
Q. No. No. I want to know what you did. And did you consider it was nine workers or, I don't know, maybe .3 or something percentage of the employee workforce that Butler used?
A. Yes. I considered it was a low percentage of his total workforce.
Q. Okay. What did you consider when you considered the gravity of the violation?
A. I don't remember.
Q. What did you consider when you considered efforts by the employer in good faith to comply?

184

A. I don't remember.
Q. What did you consider when you evaluated Butler's explanation for the violation?
A. I don't remember.
Q. What did you consider when you considered the employer's commitment to future compliance?
A. I don't remember.
Q. What did you consider as to the extent to which Butler achieved a financial gain due to the violation?
A. I don't remember.
Q. Would you agree that consideration of those factors were mandatory?
A. Yes.
Q. Could you tell me who Ramon Huaracha, H-U-A-R-A-C-H-A is?
A. Ramon Huaracha is the regional immigration coordinator from our regional office in San Francisco.
Q. And how does -- what role does he have in this case?
A. His title might be enforcement coordinator. He's called a REC. I think it's regional enforcement coordinator. He provided -- he provided H-2B training and he was also one of the

185

individuals who was at the on site in Santa Barbara.
Q. Okay. And what does -- what is his role when it comes to determining back wages and CMP?
A. I'm not sure if he had a role in the back wages in this case. CMPs -- role in CMPs?
Ramon would have reviewed the case and provided guidance on whether or not and which violations to cite which in turn --
Q. He would have been --
A. -- would affect the CMP.
Q. I didn't try to cut you off there Did he play a role in management review in your chain of command?
A. Management review? No.
Q. If he's not involved in the management review, why was he involved?
A. He's a subject matter expert in H-2B.
Q. And therefore what?
A. Provides guidance and support to the district offices doing H-2B cases.
Q. Okay. And I think I heard you say that he reviews the CMPs, but it was your determination and your boss' determination; is that correct?
A. So the investigator will recommend and compute CMPs and the management official will assess

186

CMPs.
Q. And the regional endorsement coordinator doesn't have any responsibility other than to advise, basically?
A. Yeah. Okay.
Q. And other than back wages and civil money penalties, are there any other remedies at issue in this case?
A. Not that I'm aware of.
Q. Bear with me for a second.
MR. PIERCE: All right. Ms. Gorman, do you have any questions?
MS. GORMAN: I don't.
MR. PIERCE: Okay. Then let's conclude that deposition and go off the record for a second.
(Whereupon, deposition of Carrie Aguilar concluded at 3:56 p.m)

187

CERTIFICATE

I, Kimberly McLain, do hereby certify that I reported all proceedings adduced in the foregoing matter and that the foregoing transcript pages constitutes a full, true, and accurate record of said proceedings to the best of my ability.

I further certify that I am neither related to counsel or any part to the proceedings nor have any interest in the outcome of the proceedings.

IN WITNESS HEREOF, I have hereunto set my hand this 29th day of April, 2019.

/S/ Kimberly McLain

30(b)(6) DEPOSITION OF
CARRIE AGUILAR
TAKEN ON
FRIDAY, APRIL 19, 2019
4:00 P.M.

MS. GORMAN: Back on the record.
So Mr. Pierce, you and I just had a discussion off the record about changing gears into the corporate designated representative part of the deposition, and the agency indicated that Ms. Aguilar was going to be produced as the designated representative. And I also indicated to you off the record that it was my -- it's my firm belief that of all the 30 designated areas that you indicated in your 1864(b) request for a designated representative, all but two have been exhaustively covered. And I indicated for me that perhaps they've been covered, but not as exhaustively as you've covered everything else, numbers 2 and 23 on your notice for a designated representative were perhaps not exhaustively covered, but I do believe that they both have been covered.
And it was my hope, certainly, which is something that you and I discussed perhaps before we

6

went on the record this morning I believe, that you may want to ask the witness now that she's putting on her designated representative hat, whether of any her answers to any of the other 30 subject topic areas are changed in any way. And I would certainly give the witness my list of the topics if she -- if you were amenable to that and if she wanted to see it so she would know what they are.

MR. PIERCE: Yes. We're going in the same direction. I think I need to put one or two refinements on it but we're very close to synchrony there. I think that because I'm not there to mark a copy of the deposition exhibit, and I don't have a mechanism to get the notice introduced anyway, that I need to get into the record what the topics are.

So looking at the amended notice, I'm just going to try and read through these. Bear with me.

Number 2, Butler's timekeeping and payroll practices. Number 3, the administrator's methodology for and calculation of civil monetary penalties, back wages, and other remedies and recoverable damages. Number 5, the substance of all witness or employee interviews conducted by the administrator. Number 6, all communications between any witness or employee and the administrator.

7

Number 7, all communications between any representatives for Butler and the administrator.

MS. GORMAN: Hold on. Hold on. I'm going to object to that one because it doesn't say Butler. It's says respondent and we've got two respondents here. So, I mean --

MR. PIERCE: You're correct. It does say that.

Number 8, Ms. Aguilar's job title, duties, education background, training, work experience and expertise. Number 9, the administrators -- excuse me. I'm going to skip number 9 based on the ruling.

Number 10, records or other information generated as a result of your investigation of Butler. Number 12, the administrator's contention as to the factual basis for applying the incidental duty rule and dual position rule to the allegations in this case. Number 13 --

MS. GORMAN: Fourteen.

MR. PIERCE: Yes, you're correct.

Number 14, all failures to comply with industry custom and practice or the prevailing practices for the traveling amusement industry that the administrator has identified in Butler's wage and hour or payroll practices. 15, the basis for

8

the administrator's contention, if any, that Butler violated the Fair Labor Standards Act or is not exempt from that statute.

Number 16, the basis for the administrator's contention that Butler willfully misrepresented any material fact. Number 17, the basis for the administrator's contention that Butler substantially failed to meet any legal requirement or condition when petitioning for an H-2B labor certification or petition. Number 18, the basis for your contention that Butler substantially failed to comply with any legal requirement or condition as an H-2B employer.

Number 19, the factual basis for the administrator's contention that Butler is not entitled to take a credit for providing its workers with bunkhouses, local convenience travel, in-and-out-of-country travel, prepayment plans, spot-to-spot variation in prevailing wages, and other facilities identified in Butler's answers to interrogatories. Number 20, the approved procedures for determining approved tasks for SOC code 39-3091 related to amusement and recreation attendants.

21, the factual basis, if any, for disputing the calculation of the cost basis to

9

provide bunkhouses. 22, the factual basis, if any, for disputing the calculation of the cost basis to provide local convenience travel. 23, the factual basis, if any, for disputing the calculation of international or relocation travel. 24, the factual basis, if any, for disputing that Butler overpaid its H-2B workers. 25, the factual basis, if any, for disputing that Butler paid the personal income taxes of the H-2B workers. 26, the factual basis, if any, that Butler violated the H-2B regulations in any way. 27, the factual basis, if any, that Butler knew that it was employing H-2B workers in a manner that violated the H-2B regulations.

28, the factual basis, if any, that Butler knowingly and recklessly violated the H-2B regulations. 29, the factual basis, if any, that the information was reasonably available from which Butler could have determined that it was violating the H-2B regulations, and 30, the factual basis, if any, that any of Butler's violation were substantial.

MS. GORMAN: So I'm going to renew my objection because I think in many instances, you indicated Butler as the single entity, whereas, the notice says respondents, and I would object because

10

we've got two respondents. Here it's not indicating what -- which respondent it -- the respondent is not indicating which of the respondents it is requesting the designated representative's knowledge on. But the notice does not say the word "Butler" when talking about the respondents. There's that objection.

And there's also the objection with numbers 21, 22, and 23, where specific Bates-stamped numbers are indicated in the notice that were not read into the record. I mean, I don't need to go back and do that, but I just want to indicate that the notices -- the notice speaks for itself.

With your -- with your approval, then, I would like to be able to give the notice, and I have the original notice that the administrator was served with, to the witness.

MR. PIERCE: Yeah, that's fine.

MS. GORMAN: Just so you don't have to remember all 30, I'm providing to you the respondents' amended notice to take deposition, dated -- I probably got this via email so it doesn't have a stamp on it.

It is undated. It is -- the signature has no date on it. And there it is.

11

And I've handed it to the witness.

MR. PIERCE: Okay. Are you finished?

MS. GORMAN: Yeah. The only things, I wasn't -- I might not have been quick enough when you started reading. I assume that you also eliminated, pursuant to the court's order, request numbers -- I think I caught 1, but I wasn't sure if I had caught 4 and/or 9.

MR. PIERCE: I don't believe I read 9, and I thought you corrected me on --

MS. GORMAN: Oh, that was very good of me. Yes, I'm done.

MR. PIERCE: Okay. All right.

EXAMINATION

BY MR. PIERCE:

Q. Ms. Aguilar, we're going to resume with your representative capacity as the agency's designee today. Attached to the notice, which I understand is in front of you, at the last few pages, is a little bit of a statement on the obligations of the agency's representative. Did you actually read the responsibilities of the agency representative before your testimony was being taken today?

A. Yes.

12

Q. And did you also have a chance to go through the topics before the deposition today?

A. I read the list.

Q. All right. You, therefore, understand that as the agency's designee, it's your responsibility to make yourself knowledgeable and to prepare to be able to provide information that is available to the agency on those topics?

A. Yes.

Q. And that in exercising your obligation to get prepared, it's your responsibility to obtain the information that's known or reasonably available to the agency?

A. Okay.

Q. And which could, if it was reasonably necessary, could involve consulting former employees or if that was, in fact, reasonably necessary. You understood that?

A. I didn't understand that part about former employees.

Q. All right. And as corporate representative, it was your obligation to be prepared to talk about the agency's contentions, how a regulation applies, and those sorts of questions? Yes?

13

MS. GORMAN: I'm going -- I'm going to object without an identification of the specific topic matter, because I do believe that on -- that some of those topic matters were quashed by Judge Clark.

MR. PIERCE: Okay.

BY MR. PIERCE:

Q. Do you remember the question?

A. No. Sorry. It's late. Please repeat.

Q. You understood that it was your responsibility as a corporate representative to be prepared to talk about the Division's contentions in the case or how a regulation applies to the case, correct?

A. Yes.

Q. And that your testimony as a designee to include not only facts but the beliefs or the opinions that the Division might have that are relevant, correct?

A. Yes.

Q. All right. On those topics and with those understandings as to what it means to be a corporate representative, is there anything about the testimony that you've provided in your individual capacity, at which we just spent a fair amount of

14

time going over, that would not be -- that you're not prepared to regard as binding on behalf of the agency now that you are testifying as a corporate representative for the agency?
A. Can you just tell me the beginning of the question so I know how to phrase my answer? You lost me along the way.
Q. Having now read into the record what the topics are that we're deposing you representatively on, and what your obligations are in order to be able to meet those topics, can you now affirm that the answers that you gave in your individual capacity, you are prepared to make those findings in your representative capacity?
A. Yes.
Q. Okay. And I just want to know that you're not going to change any of those answers now that you're talking as a representative, and you're agreeing that you're fine with binding the agency?
A. Yes.
Q. Okay. Give me one second.
MR. PIERCE: We're done. Unless -- Ms. Gorman, you don't have any questions, do you?
MS. GORMAN: I don't.
MR. PIERCE: Okay. Can we go off the

15

record and talk about ordering copies for a second?
MS. GORMAN: I would prefer to do that on the record. I get drawn and quartered if I say the wrong thing.
MR. PIERCE: Oh, okay. I don't have that problem here.
MS. GORMAN: I know. Lucky you.
Let's see, so I always reserve signature. I think that -- and I'm glad we're talking about this on the record, but I don't think that we've got the 30 days, in fact, I know we don't, for review that we're entitled to under the rules. So we've got May 8th -- let's see, May 8th. So I'm going to say May 7th -- I'm actually going to say May 3rd, because that's likely the last day that I'm going to be in the office prior to the trial. Today is April 19. That gives us exactly two weeks.
So I think given the -- my proposal and it's probably -- the 29th is going to be too late. My proposal is that you and I talk really early next week, Wayne, and that we come up with -- I need to think about this for a moment -- and that we come up with a reasonable procedure. What I was going to say before is that we can discuss this with Judge Clark, but I think you and I need to talk about it before

16

we bring it up with His Honor.
And so -- and I kind of didn't think about how we were going to do review. I am not authorized to order the transcript at this moment in time. I would also like to be able to get that authorization and go forward from there. So I think any ordering is going to need to take place on an expedited basis. I am likely not going to be in position do that, and yet the witness has -- must be given the opportunity to review the transcript prior to the trial, and make any corrections that she feels are necessary. And so I'm going to reserve her signature based on that review, and I'm not quite sure logistically how to handle that. But my proposal is that we both think about it and talk very early next week. Does that work for you?
MR. PIERCE: Well, I would like to go off the record.
MS. GORMAN: Okay. Well, I said what I needed to say. So we can go off -- that's fine with me.
THE REPORTER: Okay. Off the record.
(Whereupon, the 30(b)(6) deposition of Carrie Aguilar concluded at 4:20 p.m.)

17

CERTIFICATE

I, Kimberly McLain, do hereby certify that I reported all proceedings adduced in the foregoing matter and that the foregoing transcript pages constitutes a full, true, and accurate record of said proceedings to the best of my ability.

I further certify that I am neither related to counsel or any part to the proceedings nor have any interest in the outcome of the proceedings.

IN WITNESS HEREOF, I have hereunto set my hand this 29th day of April, 2019.

/S/ Kimberly McLain

Attorney for Respondents

April 1, 2019

FROM: Butler Amusements, Inc., and Michael Brajevich, Respondents

TO: Administrator, Wage & Hour Division, Plaintiff

Butler Amusements, Inc., and Michael Brajevich, Respondents, answer the Plaintiff's interrogatories and say:

A. The information supplied in these answers is not based solely upon the knowledge of the executing party, but includes the knowledge of the party's agents, representatives, and attorneys, unless privileged.

B. The word usage and sentence structure is that of the attorneys who in fact prepared these answers and language does not purport to be the exact language of the executing party.

C. These interrogatories have been interpreted and answered in accordance with the Rules of Procedure and plain English usage. To the extent the definitions and instructions included with the interrogatories are inconsistent therewith, this party disavows any intention to abide by them.

D. Defendant objects to the interrogatories to the extent that they purport to require answers on behalf of any entity other than this Defendant.

INTERROGATORY NO. 1: Unless you unconditionally admitted Request for Admission No. 1, provide the basis or bases upon which you rely for each part of your denial of Request for Admission No. 1.

ANSWER NO. 1: In addition to the basis obvious from the answer itself, the basis for the conditional answer is that the request was overbroad and included false statements or implications. The request also exceeded the permissible bounds for a request for admission of facts.

INTERROGATORY NO. 2: Unless you unconditionally admitted Request for Admission No. 2, provide the basis or bases upon which you rely for each part of your denial of Request for Admission No. 2.

ANSWER NO. 2: In addition to the basis obvious from the answer itself, the basis for the conditional answer is that the request was overbroad and included false statements or

implications. The request also exceeded the permissible bounds for a request for admission of facts.

SUPPLEMENTAL ANSWER NO. 2: Request for admission #2 asked that Respondents admit that they employed H-2B workers during the 2013 season in positions other than as amusement and recreation attendants. The factual basis for the previous denial is that the H-2B workers during the 2013 season performed approved duties within SOC code 39-3091 (amusement and recreation attendants). Further, any work outside of that job code was not a substantial violation because the H-2B workers during the 2013 season conformed to the "incidental-duty" rule and the "dual-position" rule.

Any workers engaged at the winter quarters are planned to work 40 hours per week. Ride attendants may be asked to accompany a piece of equipment to be repaired a winter quarters so that they may set it up and tear it down. They might also engage in light cleaning while the equipment is repaired at winter quarters. They may also be asked to show the mechanics a particular problem.

H-2B workers are not tasked as supervisors. Some of them serve as liaisons between company supervisors and H-2B workers. This is because they are bilingual and able to provide communication services with workers or customers. Some supervisors do not speak Spanish. This role is analogous to a ride foreman or lead for a particular attraction. They do not hire, fire, or determine pay rate. They do not spend a substantial amount of time providing liaison services.

Those individuals performing driving functions are identified as such in the time records.

INTERROGATORY NO. 3: Unless you unconditionally admitted Request for Admission No. 3, provide the basis or bases upon which you rely for each part of your denial of Request for Admission No. 3.

ANSWER NO. 3: In addition to the basis obvious from the answer itself, the basis for the conditional answer is that the request was overbroad and included false statements or implications. The request also exceeded the permissible bounds for a request for admission of facts.

SUPPLEMENTAL ANSWER NO. 3: Request for admission #3 asked Respondents to admit that they provided free housing to all H-2B workers during the 2013 season.

Respondent's #9141 indicates in the addendum for § D.a.7a that "Employer makes available transportation from venue to venue and scheduled transportation to laundry, shopping valued at $25.00 per week." The addendum for § D.a.8a indicates that "Employer makes available mobile housing valued at $125.00 per week."

Respondent's #9142, § G.1-2, indicates that Respondent pays $323.60-$368.40 per week. In § G.3, it states "Employer follows prevailing practices for the Traveling Amusement Industry in regards to housing, transportation and weekly salary for workers."

In the addendum for § F.a.2, it indicates that Respondent is "not subject to an hourly wage," and that "[t]he weekly wage has been calculated based upon a standard 40-hour week using the methodology detailed in Section G.1." In the addendum for § F.a.3, it indicates that Respondent "will pay the weekly salary for each week that the worker is employed." In the addendum for § G.1.a, it again indicates that Respondent is "not subject to an hourly wage." In the addendum for § G.3, it indicates that

> Merit increases and/or bonuses may be awarded at employer discretion.
> As per prevailing practices of the mobile entertainment industry for both similarly employed U.S. and foreign workers:
> - Employer makes available mobile housing valued at $125.00 per week.

- Employer makes available transportation from venue to venue and scheduled transportation to laundry, shopping valued at $25.00 per week ....

If the wage to be paid is higher tha[n] the Variable Prevailing Wage Determination, the employer reserves the right to charge a fee for housing and transportation, but the effective rate of pay will not be lower than the Variable Prevailing Wage Determination.

The 2d addendum for § G.3 stated that "Employer will pay variable prevailing wage in the listed venues as per the 9141 Attached."

The job posting provided that

Employer will pay the applicable variable prevailing weekly wage ... ranging from $323.60/wk (lowest) to $368.40/wk (highest): $347.88 Average Weekly Wage .... Merit increases and/or bonuses may be awarded at employer discretion. Employer makes available mobile housing valued at $125.00/week. Employer makes available transportation from venue to venue and scheduled transportation to laundry, shopping valued at $25.00/week.

The newspaper advertisement provided that

employer not subject to Federal hourly wage .... The employer will pay the weekly salary for each week that the worker is employed. Employer will pay the applicable variable prevailing weekly wage for each location ... ranging from $323.60/wk (lowest) to $368.40/wk (highest): $347.88 Average Weekly Wage .... Merit increases and/or bonuses may be awarded at employer discretion. Employer makes available mobile housing valued at $125.00/week. Employer makes available transportation from venue to venue and scheduled transportation to laundry, shopping valued at $25.00/week.

The I-129, part 5, #8, responding to the "Wages per week or per year" by stating "AS PER ATTACHED." The itinerary attached to the I-129 indicated that "Employer follows prevailing practices for the Traveling Amusement Industry in regards to housing, transportation and weekly salary for workers."

In accordance with industry practice and Respondent's labor certification, Respondent claims a credit for the value of its housing.

INTERROGATORY NO. 4: Unless you unconditionally admitted Request for Admission No. 7, provide the basis or bases upon which you rely for each part of your denial of Request for Admission No. 7.

ANSWER NO. 4: In addition to the basis obvious from the answer itself, the basis for the conditional answer is that the request was overbroad and included false statements or implications. The request also exceeded the permissible bounds for a request for admission of facts.

INTERROGATORY NO. 5: If you are seeking a credit or other offset for furnishing housing to any of your H-2B Workers, please state the address of each housing furnished, the name of each of your H-2B Workers who resided in such housing, the time period of each of your H-2B Workers' residence, and the cost of the housing to you.

ANSWER NO. 5: *Objection*. This request is not limited in time or to the implicated workers, and is therefore largely irrelevant. Without waiving this objection, housing was made available at locations reflected on Butler's itinerary and previously produced. Each of the 9 implicated workers lived in the housing during the 2013 season. Respondents are still identifying and preparing cost documentation, and this answer will be supplemented.

SUPPLEMENTAL ANSWER NO. 5: The addresses at, and dates on, which the housing was used during the 2013 season were identified in Respondent's itinerary, produced as Butler 01227-01235. H-2B workers lived in the bunkhouses throughout the season. The names and employment start dates of the 187 H-2B workers during the 2013 season are identified in the attached Excel spreadsheet, Butler 01223-01226. The employment termination dates for the 187 H-2B workers during the 2013 season are identified in the departure records produced as Butler 01701-01758. The cost basis for the bunkhouses is calculated by the company's outside accountant in Butler 01686-01690. If needed, the voluminous supporting documents are available for review at the accountant's office pursuant to 29 C.F.R. § 18.60 (d).

INTERROGATORY NO. 6: Explain each basis upon which you rely for establishing your offered wage rate during the Period of Intended Employment.

ANSWER NO. 6: *Objection*. This interrogatory calls for a legal conclusions not appropriate for interrogatories. Without waiving this objection, "offered wage" is a term of art, and by definition, the basis for the offered wage rate is the ETA Form 9142.

SUPPLEMENTAL ANSWER NO. 6: The term "offered wage" is defined in the operative 2008 rule as "the highest of the prevailing wage, Federal minimum wage, the State minimum wage, or local minimum wage." 20 C.F.R. § 655.4. As such, the offered wage rate is established in Butler's prevailing wage determination (#9141), Butler 01361-01379 and 01347-01349 (2d addendum for § G.3 in the #9142), and Butler 01380-01427 (I-129).

INTERROGATORY NO. 7: Please identify each of your H-2B Workers. (For the purposes of this Interrogatory, the term "identify" shall include but not be limited to each H-2B Worker's: name, last known contact information [address, phone, e-mail address]; job title; job duties; supervisor; rate of pay; method of pay, and period of employment with you for the Period of Intended Employment.)

ANSWER NO. 7: *Objection*. This request is not limited in time or to the implicated workers, and is therefore largely irrelevant. Without waiving this objection, Butler's H-2B workers for the 2013 season were identified in the records already produced for inspection. Specifically, contact information is contained in the Excel spreadsheet for the 2013 H-2B workers.

SUPPLEMENTAL ANSWER NO. 7: The Excel spreadsheet identifying the 2013 H-2B workers is found at Butler 01223-01226. Job title and duties are identified in the #9142, stamped as Butler_01361-01379 and 01347-01349. Supervisors are identified in the payroll records, including the summary of time cards, gathered as Butler 000001-001074. Rate of pay is identified in answer to interrogatory #6 and those same payroll records. Method of pay is identified in answer to interrogatory #14. The period of employment is identified in answer to interrogatory #5.

INTERROGATORY NO. 8: Please identify each practice referenced in your statement that you follow "prevailing practices for the Traveling Amusement Industry in regards to housing, transportation and weekly salary for workers" on page 5, § G of your ETA Form 9142B.

ANSWER NO. 8: This statement indicates that Butler availed itself, as permitted under the 2008 rules, to follow industry practice to provide housing, in and out of country travel, and local convenience travel for a credit, and to use a prepayment plan for compensating wages. Respondents were also entitled to credits for providing visa and inspection fees, and bonuses or merit pay. See also the answer to interrogatory #11.

INTERROGATORY NO. 9: If you dispute any of the Secretary's computations of backwages to your H-2B Workers (attached as EXHIBIT A), please identify and explain each such dispute.

ANSWER NO. 9: *Objection.* The Administrator has not explained how those calculations were made, so it is not possible to answer this interrogatory. Further, by its very nature, once a dispute is acknowledged, there is nothing remaining to "identify and explain." Without waiving this objection, Respondents believe that the Administrator made no allowance for proper credits (including for the duration of the season), nor the issues identified in Respondents' motion for summary judgment, including:

- The unenforceability of the 2008 regulations.
- The binding nature of ETA's prevailing wages.
- The absence of enforceable regulatory requirements.
- It is not necessary to identify every single job task when applying for a prevailing wage.
- The H-2B workers were entitled to work minor or incidental duties outside of their designated job code up to 20% of their time.

AR - 2996 Butler's Exh. 48, p. 008 Butler 01934

- The H-2B workers were entitled to work up to 80% of their time supervising others in the same job code.

SUPPLEMENTAL ANSWER NO. 9: Respondent will supplement this answer once the Administrator produces his file and explains the basis for the calculations.

INTERROGATORY NO. 10: If you dispute the amount of the civil money penalties assessed in this matter, please identify each such dispute.

ANSWER NO. 10: *Objection.* The Administrator has not explained how those calculations were made, so it is not possible to answer this interrogatory. Further, by its very nature, once a dispute is acknowledged, there is nothing remaining to "identify." Without waiving this objection, Respondents simply state that they identify the dispute by acknowledging that they dispute the amount.

SUPPLEMENTAL ANSWER NO. 10: Respondent will supplement this answer once the Administrator produces his file and explains the basis for the calculations. See also the answer to interrogatory #9.

INTERROGATORY NO. 11: Please state each legal offset or other credit you are seeking or expect to seek in this matter to reduce your financial liability. (If you are seeking a housing credit, you need not repeat any information you included in your Answer to Interrogatory No. 5.)

ANSWER NO. 11: This information was already provided in other answers.

SUPPLEMENTAL ANSWER NO. 11: Respondent claims a credit or offset for

- housing,
- local convenience travel,
- in and out of country relocation travel,
- prepayment plan,
- food,

- bonuses or merit pay,
- per diem or supplemental pay,
- spot-to-spot variations in the prevailing wage,
- reimbursement of employee expenses, including personal income taxes,
- other facilities.

INTERROGATORY NO. 12: Please explain your corporate structure with such information to include but not limited to: each principal with their name, title, job duties, and corporate address; the address of each entity; whether any principal has an interest in any other entity; the dates each entity has been in legal existence, whether any entity has a website, and if so, the website address.

ANSWER NO. 12: *Objection.* This request is not limited in time, and is therefore largely irrelevant. Without waiving this objection, Butler's chief executive officer is Michael Brajevich. The Board of Directors consists of Michael Brajevich, Lance Moyer, and Tom Shobaken. Corporate shares are owned by Tammy Quint, Kelly Butler, Kris Brajevich, Jill Moyer, and Sean Butler.

SUPPLEMENTAL ANSWER NO. 12: Mr. Mick Brajevich has no corporate structure.

INTERROGATORY NO. 13: If any information you indicated in your TEC has changed since filing, please identify and explain each such change. (For purposes of this Interrogatory, the term "identify and explain" shall include but not be limited to: an identification of the change, the location (form name, part or subsection, and page number) of each piece of changed information; the reason why the information changed (if any); and the individual or individuals responsible for each such piece of changed information.)

ANSWER NO. 13: *Objection.* This request is not limited in time, and is therefore largely irrelevant. Without waiving this objection, Respondents are not aware of any information in their ETA Form 9142 for the 2013 season that was not accurate at the time the form was submitted.

INTERROGATORY NO. 14: Please explain your method of paying each of your H-2B Workers. (For purposes of this interrogatory only, the term "explain your method of paying" shall include but not be limited to: how you determine the amount of pay, the name

and title of each person who dispenses pay; the method of payment (such as whether cash, check, electronic funds transfer, or any other method), whether payment is made to all H-2B Workers at the same time; the name and title of the individual who determines who will be paid first; if pay is contained in an envelope, the name and title of each of your employees who handled the envelope before it is given to each H-2B Worker, and; whether all H-2B Workers are paid on the same day.)

ANSWER NO. 14: *Objection.* This request is not limited in time or to the implicated workers, and is therefore largely irrelevant. Without waiving this objection, in 2013, Butler's H-2B employees in 2013 were paid in cash on Sunday. They countersigned their pay statement, and the pay statements were sent to the Beaverton office.

SUPPLEMENTAL ANSWER NO. 14: Kelley Butler and Gena Tuttle ran that function. The unit manager determines base pay. Additional pay is available in the event that a worker does more work. Workers are paid in the order in which they arrive at the office window. They are eligible to be paid as soon as they have finished working that evening. Some workers voluntarily choose to wait before seeking their pay. The office manager places the cash payment in an envelope with the name and amount for each worker, and each worker counts the amount to verify accuracy.

INTERROGATORY NO. 15: Please identify each person involved in paying your H-2B Workers.

ANSWER NO. 15: *Objection.* This request is not limited in time or to the implicated workers, and is therefore largely irrelevant. Without waiving this objection, in 2013, Butler is the employer and was responsible for paying.

SUPPLEMENTAL ANSWER NO. 15: See answer #14.

INTERROGATORY NO. 20 [sic]: Are you able to meet your financial obligations?

ANSWER NO. 20 [sic]: *Objection.* This request is not limited in time or to the implicated workers, and is therefore largely irrelevant. It also appears to go to collectibility, for which

discovery is inappropriate at least until an adverse judgment is obtained. Without waiving this objection, in 2013, Butler satisfied DHS's definition of financial viability.

I, **Michael Brajevich**, am chief executive officer of BUTLER AMUSEMENTS, INC., and am duly authorized by the corporation to execute these answers to interrogatories under oath on its behalf. The information set forth in these answers was collected by others and such information is not necessarily within my personal knowledge. However, on behalf of the corporation, I solemnly affirm under penalties of perjury that the foregoing answers to interrogatories are true to the best of my knowledge, information and belief.

Michael Brajevich

I, **Michael Brajevich**, execute these answers to interrogatories under oath. The information set forth in these answers was collected by others and such information is not necessarily within my personal knowledge. I solemnly affirm under penalties of perjury that the foregoing answers to interrogatories are true to the best of my knowledge, information and belief.

Tasks

All 19 displayed

- Sell tickets and collect fees from customers.
- Sell and serve refreshments to customers.
- Record details of attendance, sales, receipts, reservations, or repair activities.
- Provide information about facilities, entertainment options, and rules and regulations.
- Direct patrons to rides, seats, or attractions.
- Monitor activities to ensure adherence to rules and safety procedures, or arrange for the removal of unruly patrons.
- Clean sporting equipment, vehicles, rides, booths, facilities, or grounds.
- Keep informed of shut-down and emergency evacuation procedures.
- Operate machines to clean, smooth, and prepare the ice surfaces of rinks for activities such as skating, hockey, or curling.
- Operate, drive, or explain the use of mechanical riding devices or other automatic equipment in amusement parks, carnivals, or recreation areas.
- Provide assistance to patrons entering or exiting amusement rides, boats, or ski lifts, or mounting or dismounting animals.
- Rent, sell, or issue sporting equipment and supplies, such as bowling shoes, golf balls, swimming suits, or beach chairs.
- Fasten safety devices for patrons, or provide them with directions for fastening devices.
- Tend amusement booths in parks, carnivals, or stadiums, performing duties such as conducting games, photographing patrons, or awarding prizes.
- Verify, collect, or punch tickets before admitting patrons to venues such as amusement parks and rides.
- Inspect equipment to detect wear and damage and perform minor repairs, adjustments or maintenance tasks such as oiling parts.
- Maintain inventories of equipment, storing and retrieving items and assembling and disassembling equipment as necessary.

Butler's Exh. 50, p. 001

- Announce or describe amusement park attractions to patrons to entice customers to games and other entertainment.
- Schedule the use of recreation facilities, such as golf courses, tennis courts, bowling alleys, or softball diamonds.

Title	Job Zone One: Little or No Preparation Needed
Education	Some of these occupations may require a high school diploma or GED certificate.
Related Experience	Little or no previous work-related skill, knowledge, or experience is needed for these occupations. For example, a person can become a waiter or waitress even if he/she has never worked before.
Job Training	Employees in these occupations need anywhere from a few days to a few months of training. Usually, an experienced worker could show you how to do the job.
Job Zone Examples	These occupations involve following instructions and helping others. Examples include counter and rental clerks, dishwashers, sewing machine operators, landscaping and groundskeeping workers, logging equipment operators, and baristas.
SVP Range	(Below 4.0)

Interests

All 3 displayed

Interest code: **ECR** Want to discover your interests? Take the O*NET Interest Profiler at My Next Move.

- **Enterprising** — Enterprising occupations frequently involve starting up and carrying out projects. These occupations can involve leading people and making many decisions. Sometimes they require risk taking and often deal with business.
- **Conventional** — Conventional occupations frequently involve following set procedures and routines. These occupations can include working with data and details more than with ideas. Usually there is a clear line of authority to follow.
- **Realistic** — Realistic occupations frequently involve work activities that include practical, hands-on problems and solutions. They often deal with plants, animals, and real-world materials like wood, tools, and machinery. Many of the occupations require working outside, and do not involve a lot of paperwork or working closely with others.

Work Styles

All 13 displayed

- **Concern for Others** — Job requires being sensitive to others' needs and feelings and being understanding and helpful on the job.
- **Cooperation** — Job requires being pleasant with others on the job and displaying a good-natured, cooperative attitude.
- **Self Control** — Job requires maintaining composure, keeping emotions in check, controlling anger, and avoiding aggressive behavior, even in very difficult situations.
- **Dependability** — Job requires being reliable, responsible, and dependable, and fulfilling obligations.
- **Stress Tolerance** — Job requires accepting criticism and dealing calmly and effectively with high stress situations.
- **Attention to Detail** — Job requires being careful about detail and thorough in completing work tasks.
- **Social Orientation** — Job requires preferring to work with others rather than alone, and being personally connected with others on the job.
- **Adaptability/Flexibility** — Job requires being open to change (positive or negative) and to considerable variety in the workplace.
- **Integrity** — Job requires being honest and ethical.
- **Initiative** — Job requires a willingness to take on responsibilities and challenges.
- **Achievement/Effort** — Job requires establishing and maintaining personally challenging achievement goals and exerting effort toward mastering tasks.
- **Leadership** — Job requires a willingness to lead, take charge, and offer opinions and direction.
- **Persistence** — Job requires persistence in the face of obstacles.

Tasks

Save Table (XLS/CSV)

All 19 displayed (19 important)

Importance	Category	Task
91	Core	Sell tickets and collect fees from customers.
90	Core	Sell and serve refreshments to customers.
83	Core	Record details of attendance, sales, receipts, reservations, or repair activities.
81	Core	Provide information about facilities, entertainment options, and rules and regulations.
79	Core	Direct patrons to rides, seats, or attractions.
78	Core	Monitor activities to ensure adherence to rules and safety procedures, or arrange for the removal of unruly patrons.
77	Core	Clean sporting equipment, vehicles, rides, booths, facilities, or grounds.
73	Core	Keep informed of shut-down and emergency evacuation procedures.
86	Supplemental	Operate machines to clean, smooth, and prepare the ice surfaces of rinks for activities such as skating, hockey, or curling.
86	Supplemental	Operate, drive, or explain the use of mechanical riding devices or other automatic equipment in amusement parks, carnivals, or recreation areas.
83	Supplemental	Provide assistance to patrons entering or exiting amusement rides, boats, or ski lifts, or mounting or dismounting animals.
82	Supplemental	Rent, sell, or issue sporting equipment and supplies, such as bowling shoes, golf balls, swimming suits, or beach chairs.
81	Supplemental	Fasten safety devices for patrons, or provide them with directions for fastening devices.
78	Supplemental	

		Tend amusement booths in parks, carnivals, or stadiums, performing duties such as conducting games, photographing patrons, or awarding prizes.
77	Supplemental	Verify, collect, or punch tickets before admitting patrons to venues such as amusement parks and rides.
75	Supplemental	Inspect equipment to detect wear and damage and perform minor repairs, adjustments or maintenance tasks such as oiling parts.
75	Supplemental	Maintain inventories of equipment, storing and retrieving items and assembling and disassembling equipment as necessary.
71	Supplemental	Announce or describe amusement park attractions to patrons to entice customers to games and other entertainment.
67	Supplemental	Schedule the use of recreation facilities, such as golf courses, tennis courts, bowling alleys, or softball diamonds.

Knowledge

Save Table (XLS/CSV)

All 33 displayed (4 important)

Importance	Knowledge
83	**Customer and Personal Service** — Knowledge of principles and processes for providing customer and personal services. This includes customer needs assessment, meeting quality standards for services, and evaluation of customer satisfaction.
74	**Administration and Management** — Knowledge of business and management principles involved in strategic planning, resource allocation, human resources modeling, leadership technique, production methods, and coordination of people and resources.
57	**Clerical** — Knowledge of administrative and clerical procedures and systems such as word processing, managing files and records, stenography and transcription, designing forms, and other office procedures and terminology.
54	**English Language** — Knowledge of the structure and content of the English language including the meaning and spelling of words, rules of composition, and grammar.
49	**Sales and Marketing** — Knowledge of principles and methods for showing, promoting, and selling products or services. This includes marketing strategy and tactics, product demonstration, sales techniques, and sales control systems.
48	**Computers and Electronics** — Knowledge of circuit boards, processors, chips, electronic equipment, and computer hardware and software, including applications and programming.
44	**Public Safety and Security** — Knowledge of relevant equipment, policies, procedures, and strategies to promote effective local, state, or national security operations for the protection of people, data, property, and institutions.
34	

Economics and Accounting — Knowledge of economic and accounting principles and practices, the financial markets, banking and the analysis and reporting of financial data.

32 **Personnel and Human Resources** — Knowledge of principles and procedures for personnel recruitment, selection, training, compensation and benefits, labor relations and negotiation, and personnel information systems.

30 **Mathematics** — Knowledge of arithmetic, algebra, geometry, calculus, statistics, and their applications.

27 **Communications and Media** — Knowledge of media production, communication, and dissemination techniques and methods. This includes alternative ways to inform and entertain via written, oral, and visual media.

24 **Education and Training** — Knowledge of principles and methods for curriculum and training design, teaching and instruction for individuals and groups, and the measurement of training effects.

24 **Psychology** — Knowledge of human behavior and performance; individual differences in ability, personality, and interests; learning and motivation; psychological research methods; and the assessment and treatment of behavioral and affective disorders.

22 **Telecommunications** — Knowledge of transmission, broadcasting, switching, control, and operation of telecommunications systems.

18 **Medicine and Dentistry** — Knowledge of the information and techniques needed to diagnose and treat human injuries, diseases, and deformities. This includes symptoms, treatment alternatives, drug properties and interactions, and preventive health-care measures.

18 **Production and Processing** — Knowledge of raw materials, production processes, quality control, costs, and other techniques for maximizing the effective manufacture and distribution of goods.

18 **Sociology and Anthropology** — Knowledge of group behavior and dynamics, societal trends and influences, human migrations, ethnicity, cultures and their history and origins.

16 **Food Production** — Knowledge of techniques and equipment for planting, growing, and harvesting food products (both plant and animal) for consumption, including storage/handling techniques.

16 **Foreign Language** — Knowledge of the structure and content of a foreign (non-English) language including the meaning and spelling of words, rules of composition and grammar, and pronunciation.

16 **Law and Government** — Knowledge of laws, legal codes, court procedures, precedents, government regulations, executive orders, agency rules, and the democratic political process.

16 **Transportation** — Knowledge of principles and methods for moving people or goods by air, rail, sea, or road, including the relative costs and benefits.

15 **Biology** — Knowledge of plant and animal organisms, their tissues, cells, functions, interdependencies, and interactions with each other and the environment.

14 **Design** — Knowledge of design techniques, tools, and principles involved in production of precision technical plans, blueprints, drawings, and models.

14 **Engineering and Technology** — Knowledge of the practical application of engineering science and technology. This includes applying principles, techniques, procedures, and equipment to the design and production of various goods and services.

14

Therapy and Counseling — Knowledge of principles, methods, and procedures for diagnosis, treatment, and rehabilitation of physical and mental dysfunctions, and for career counseling and guidance.

12 **Geography** — Knowledge of principles and methods for describing the features of land, sea, and air masses, including their physical characteristics, locations, interrelationships, and distribution of plant, animal, and human life.

12 **Mechanical** — Knowledge of machines and tools, including their designs, uses, repair, and maintenance.

11 **Fine Arts** — Knowledge of the theory and techniques required to compose, produce, and perform works of music, dance, visual arts, drama, and sculpture.

11 **Physics** — Knowledge and prediction of physical principles, laws, their interrelationships, and applications to understanding fluid, material, and atmospheric dynamics, and mechanical, electrical, atomic and sub- atomic structures and processes.

10 **Building and Construction** — Knowledge of materials, methods, and the tools involved in the construction or repair of houses, buildings, or other structures such as highways and roads.

10 **Chemistry** — Knowledge of the chemical composition, structure, and properties of substances and of the chemical processes and transformations that they undergo. This includes uses of chemicals and their interactions, danger signs, production techniques, and disposal methods.

10 **Philosophy and Theology** — Knowledge of different philosophical systems and religions. This includes their basic principles, values, ethics, ways of thinking, customs, practices, and their impact on human culture.

9 **History and Archeology** — Knowledge of historical events and their causes, indicators, and effects on civilizations and cultures.

Skills

Save Table (XLS/CSV)

All 35 displayed (4 important)

Importance	Skill
66	**Speaking** — Talking to others to convey information effectively.
60	**Active Listening** — Giving full attention to what other people are saying, taking time to understand the points being made, asking questions as appropriate, and not interrupting at inappropriate times.
56	**Service Orientation** — Actively looking for ways to help people.
56	**Social Perceptiveness** — Being aware of others' reactions and understanding why they react as they do.
47	**Coordination** — Adjusting actions in relation to others' actions.
47	**Monitoring** — Monitoring/Assessing performance of yourself, other individuals, or organizations to make improvements or take corrective action.
44	**Critical Thinking** — Using logic and reasoning to identify the strengths and weaknesses of alternative solutions, conclusions or approaches to problems.
41	**Judgment and Decision Making** — Considering the relative costs and benefits of potential actions to choose the most appropriate one.
41	**Persuasion** — Persuading others to change their minds or behavior.

Butler's Exh. 51, p. 005

38 **Operation and Control** — Controlling operations of equipment or systems.

38 **Time Management** — Managing one's own time and the time of others.

38 **Writing** — Communicating effectively in writing as appropriate for the needs of the audience.

35 **Reading Comprehension** — Understanding written sentences and paragraphs in work related documents.

31 **Active Learning** — Understanding the implications of new information for both current and future problem-solving and decision-making.

31 **Complex Problem Solving** — Identifying complex problems and reviewing related information to develop and evaluate options and implement solutions.

31 **Operation Monitoring** — Watching gauges, dials, or other indicators to make sure a machine is working properly.

28 **Instructing** — Teaching others how to do something.

28 **Negotiation** — Bringing others together and trying to reconcile differences.

25 **Learning Strategies** — Selecting and using training/instructional methods and procedures appropriate for the situation when learning or teaching new things.

25 **Management of Personnel Resources** — Motivating, developing, and directing people as they work, identifying the best people for the job.

25 **Mathematics** — Using mathematics to solve problems.

25 **Systems Analysis** — Determining how a system should work and how changes in conditions, operations, and the environment will affect outcomes.

22 **Systems Evaluation** — Identifying measures or indicators of system performance and the actions needed to improve or correct performance, relative to the goals of the system.

19 **Quality Control Analysis** — Conducting tests and inspections of products, services, or processes to evaluate quality or performance.

16 **Equipment Maintenance** — Performing routine maintenance on equipment and determining when and what kind of maintenance is needed.

16 **Repairing** — Repairing machines or systems using the needed tools.

16 **Troubleshooting** — Determining causes of operating errors and deciding what to do about it.

13 **Management of Material Resources** — Obtaining and seeing to the appropriate use of equipment, facilities, and materials needed to do certain work.

13 **Programming** — Writing computer programs for various purposes.

6 **Equipment Selection** — Determining the kind of tools and equipment needed to do a job.

6 **Technology Design** — Generating or adapting equipment and technology to serve user needs.

3 **Management of Financial Resources** — Determining how money will be spent to get the work done, and accounting for these expenditures.

3 **Operations Analysis** — Analyzing needs and product requirements to create a design.

0 **Installation** — Installing equipment, machines, wiring, or programs to meet specifications.

0

Butler's Exh. 51, p. 006

- **Science** — Using scientific rules and methods to solve problems.

Abilities

Save Table (XLS/CSV)

All 52 displayed (7 important)

Importance	Ability
72	**Oral Expression** — The ability to communicate information and ideas in speaking so others will understand.
66	**Oral Comprehension** — The ability to listen to and understand information and ideas presented through spoken words and sentences.
66	**Speech Clarity** — The ability to speak clearly so others can understand you.
63	**Problem Sensitivity** — The ability to tell when something is wrong or is likely to go wrong. It does not involve solving the problem, only recognizing there is a problem.
63	**Speech Recognition** — The ability to identify and understand the speech of another person.
50	**Deductive Reasoning** — The ability to apply general rules to specific problems to produce answers that make sense.
50	**Near Vision** — The ability to see details at close range (within a few feet of the observer).
44	**Far Vision** — The ability to see details at a distance.
44	**Inductive Reasoning** — The ability to combine pieces of information to form general rules or conclusions (includes finding a relationship among seemingly unrelated events).
44	**Multilimb Coordination** — The ability to coordinate two or more limbs (for example, two arms, two legs, or one leg and one arm) while sitting, standing, or lying down. It does not involve performing the activities while the whole body is in motion.
41	**Arm-Hand Steadiness** — The ability to keep your hand and arm steady while moving your arm or while holding your arm and hand in one position.
41	**Control Precision** — The ability to quickly and repeatedly adjust the controls of a machine or a vehicle to exact positions.
41	**Information Ordering** — The ability to arrange things or actions in a certain order or pattern according to a specific rule or set of rules (e.g., patterns of numbers, letters, words, pictures, mathematical operations).
41	**Manual Dexterity** — The ability to quickly move your hand, your hand together with your arm, or your two hands to grasp, manipulate, or assemble objects.
41	**Selective Attention** — The ability to concentrate on a task over a period of time without being distracted.
41	**Trunk Strength** — The ability to use your abdominal and lower back muscles to support part of the body repeatedly or continuously over time without 'giving out' or fatiguing.
41	**Written Comprehension** — The ability to read and understand information and ideas presented in writing.
38	**Written Expression** — The ability to communicate information and ideas in writing so others will understand.
35	

Butler's Exh. 51, p. 007

Category Flexibility — The ability to generate or use different sets of rules for combining or grouping things in different ways.

31 **Static Strength** — The ability to exert maximum muscle force to lift, push, pull, or carry objects.

31 **Time Sharing** — The ability to shift back and forth between two or more activities or sources of information (such as speech, sounds, touch, or other sources).

28 **Auditory Attention** — The ability to focus on a single source of sound in the presence of other distracting sounds.

28 **Finger Dexterity** — The ability to make precisely coordinated movements of the fingers of one or both hands to grasp, manipulate, or assemble very small objects.

28 **Flexibility of Closure** — The ability to identify or detect a known pattern (a figure, object, word, or sound) that is hidden in other distracting material.

28 **Perceptual Speed** — The ability to quickly and accurately compare similarities and differences among sets of letters, numbers, objects, pictures, or patterns. The things to be compared may be presented at the same time or one after the other. This ability also includes comparing a presented object with a remembered object.

28 **Reaction Time** — The ability to quickly respond (with the hand, finger, or foot) to a signal (sound, light, picture) when it appears.

28 **Response Orientation** — The ability to choose quickly between two or more movements in response to two or more different signals (lights, sounds, pictures). It includes the speed with which the correct response is started with the hand, foot, or other body part.

28 **Stamina** — The ability to exert yourself physically over long periods of time without getting winded or out of breath.

25 **Depth Perception** — The ability to judge which of several objects is closer or farther away from you, or to judge the distance between you and an object.

25 **Dynamic Strength** — The ability to exert muscle force repeatedly or continuously over time. This involves muscular endurance and resistance to muscle fatigue.

25 **Extent Flexibility** — The ability to bend, stretch, twist, or reach with your body, arms, and/or legs.

25 **Fluency of Ideas** — The ability to come up with a number of ideas about a topic (the number of ideas is important, not their quality, correctness, or creativity).

25 **Gross Body Coordination** — The ability to coordinate the movement of your arms, legs, and torso together when the whole body is in motion.

25 **Mathematical Reasoning** — The ability to choose the right mathematical methods or formulas to solve a problem.

25 **Memorization** — The ability to remember information such as words, numbers, pictures, and procedures.

25 **Speed of Limb Movement** — The ability to quickly move the arms and legs.

25 **Visualization** — The ability to imagine how something will look after it is moved around or when its parts are moved or rearranged.

22 **Glare Sensitivity** — The ability to see objects in the presence of glare or bright lighting.

22 **Gross Body Equilibrium** — The ability to keep or regain your body balance or stay upright when in an unstable position.

22 **Hearing Sensitivity** — The ability to detect or tell the differences between sounds that vary in pitch and loudness.

Butler's Exh. 51, p. 008

22	**Number Facility** — The ability to add, subtract, multiply, or divide quickly and correctly.
22	**Originality** — The ability to come up with unusual or clever ideas about a given topic or situation, or to develop creative ways to solve a problem.
22	**Rate Control** — The ability to time your movements or the movement of a piece of equipment in anticipation of changes in the speed and/or direction of a moving object or scene.
22	**Speed of Closure** — The ability to quickly make sense of, combine, and organize information into meaningful patterns.
22	**Wrist-Finger Speed** — The ability to make fast, simple, repeated movements of the fingers, hands, and wrists.
19	**Explosive Strength** — The ability to use short bursts of muscle force to propel oneself (as in jumping or sprinting), or to throw an object.
19	**Visual Color Discrimination** — The ability to match or detect differences between colors, including shades of color and brightness.
13	**Spatial Orientation** — The ability to know your location in relation to the environment or to know where other objects are in relation to you.
6	**Peripheral Vision** — The ability to see objects or movement of objects to one's side when the eyes are looking ahead.
6	**Sound Localization** — The ability to tell the direction from which a sound originated.
3	**Night Vision** — The ability to see under low light conditions.
0	**Dynamic Flexibility** — The ability to quickly and repeatedly bend, stretch, twist, or reach out with your body, arms, and/or legs.

Work Activities

Save Table (XLS/CSV)

All 41 displayed (10 important)

Importance	Work Activity
83	**Performing for or Working Directly with the Public** — Performing for people or dealing directly with the public. This includes serving customers in restaurants and stores, and receiving clients or guests.
75	**Communicating with Supervisors, Peers, or Subordinates** — Providing information to supervisors, co-workers, and subordinates by telephone, in written form, e-mail, or in person.
75	**Getting Information** — Observing, receiving, and otherwise obtaining information from all relevant sources.
67	**Handling and Moving Objects** — Using hands and arms in handling, installing, positioning, and moving materials, and manipulating things.
65	**Establishing and Maintaining Interpersonal Relationships** — Developing constructive and cooperative working relationships with others, and maintaining them over time.
64	**Assisting and Caring for Others** — Providing personal assistance, medical attention, emotional support, or other personal care to others such as coworkers, customers, or patients.
64	

Butler's Exh. 51, p. 009

Performing General Physical Activities — Performing physical activities that require considerable use of your arms and legs and moving your whole body, such as climbing, lifting, balancing, walking, stooping, and handling of materials.

60 **Communicating with Persons Outside Organization** — Communicating with people outside the organization, representing the organization to customers, the public, government, and other external sources. This information can be exchanged in person, in writing, or by telephone or e-mail.

57 **Interacting With Computers** — Using computers and computer systems (including hardware and software) to program, write software, set up functions, enter data, or process information.

52 **Identifying Objects, Actions, and Events** — Identifying information by categorizing, estimating, recognizing differences or similarities, and detecting changes in circumstances or events.

49 **Making Decisions and Solving Problems** — Analyzing information and evaluating results to choose the best solution and solve problems.

49 **Resolving Conflicts and Negotiating with Others** — Handling complaints, settling disputes, and resolving grievances and conflicts, or otherwise negotiating with others.

48 **Training and Teaching Others** — Identifying the educational needs of others, developing formal educational or training programs or classes, and teaching or instructing others.

47 **Scheduling Work and Activities** — Scheduling events, programs, and activities, as well as the work of others.

44 **Evaluating Information to Determine Compliance with Standards** — Using relevant information and individual judgment to determine whether events or processes comply with laws, regulations, or standards.

44 **Judging the Qualities of Things, Services, or People** — Assessing the value, importance, or quality of things or people.

43 **Organizing, Planning, and Prioritizing Work** — Developing specific goals and plans to prioritize, organize, and accomplish your work.

41 **Updating and Using Relevant Knowledge** — Keeping up-to-date technically and applying new knowledge to your job.

40 **Coordinating the Work and Activities of Others** — Getting members of a group to work together to accomplish tasks.

38 **Controlling Machines and Processes** — Using either control mechanisms or direct physical activity to operate machines or processes (not including computers or vehicles).

38 **Monitor Processes, Materials, or Surroundings** — Monitoring and reviewing information from materials, events, or the environment, to detect or assess problems.

37 **Guiding, Directing, and Motivating Subordinates** — Providing guidance and direction to subordinates, including setting performance standards and monitoring performance.

35 **Estimating the Quantifiable Characteristics of Products, Events, or Information** — Estimating sizes, distances, and quantities; or determining time, costs, resources, or materials needed to perform a work activity.

32 **Coaching and Developing Others** — Identifying the developmental needs of others and coaching, mentoring, or otherwise helping others to improve their knowledge or skills.

32

Butler's Exh. 51, p. 010

Documenting/Recording Information — Entering, transcribing, recording, storing, or maintaining information in written or electronic/magnetic form.

31 **Performing Administrative Activities** — Performing day-to-day administrative tasks such as maintaining information files and processing paperwork.

27 **Inspecting Equipment, Structures, or Material** — Inspecting equipment, structures, or materials to identify the cause of errors or other problems or defects.

26 **Developing and Building Teams** — Encouraging and building mutual trust, respect, and cooperation among team members.

24 **Selling or Influencing Others** — Convincing others to buy merchandise/goods or to otherwise change their minds or actions.

24 **Thinking Creatively** — Developing, designing, or creating new applications, ideas, relationships, systems, or products, including artistic contributions.

20 **Processing Information** — Compiling, coding, categorizing, calculating, tabulating, auditing, or verifying information or data.

20 **Staffing Organizational Units** — Recruiting, interviewing, selecting, hiring, and promoting employees in an organization.

19 **Provide Consultation and Advice to Others** — Providing guidance and expert advice to management or other groups on technical, systems-, or process-related topics.

18 **Interpreting the Meaning of Information for Others** — Translating or explaining what information means and how it can be used.

14 **Developing Objectives and Strategies** — Establishing long-range objectives and specifying the strategies and actions to achieve them.

14 **Monitoring and Controlling Resources** — Monitoring and controlling resources and overseeing the spending of money.

14 **Repairing and Maintaining Electronic Equipment** — Servicing, repairing, calibrating, regulating, fine-tuning, or testing machines, devices, and equipment that operate primarily on the basis of electrical or electronic (not mechanical) principles.

14 **Repairing and Maintaining Mechanical Equipment** — Servicing, repairing, adjusting, and testing machines, devices, moving parts, and equipment that operate primarily on the basis of mechanical (not electronic) principles.

6 **Analyzing Data or Information** — Identifying the underlying principles, reasons, or facts of information by breaking down information or data into separate parts.

4 **Drafting, Laying Out, and Specifying Technical Devices, Parts, and Equipment** — Providing documentation, detailed instructions, drawings, or specifications to tell others about how devices, parts, equipment, or structures are to be fabricated, constructed, assembled, modified, maintained, or used.

3 **Operating Vehicles, Mechanized Devices, or Equipment** — Running, maneuvering, navigating, or driving vehicles or mechanized equipment, such as forklifts, passenger vehicles, aircraft, or water craft.

Interests

Save Table (XLS/CSV)

All 6 displayed (3 important)

Occupational Interest	Interest
83	**Enterprising** — Enterprising occupations frequently involve starting up and carrying out projects. These occupations can involve leading people and making many decisions. Sometimes they require risk taking and often deal with business.

Butler's Exh. 51, p. 017

72 **Conventional** — Conventional occupations frequently involve following set procedures and routines. These occupations can include working with data and details more than with ideas. Usually there is a clear line of authority to follow.

56 **Realistic** — Realistic occupations frequently involve work activities that include practical, hands-on problems and solutions. They often deal with plants, animals, and real-world materials like wood, tools, and machinery. Many of the occupations require working outside, and do not involve a lot of paperwork or working closely with others.

39 **Social** — Social occupations frequently involve working with, communicating with, and teaching people. These occupations often involve helping or providing service to others.

6 **Artistic** — Artistic occupations frequently involve working with forms, designs and patterns. They often require self-expression and the work can be done without following a clear set of rules.

0 **Investigative** — Investigative occupations frequently involve working with ideas, and require an extensive amount of thinking. These occupations can involve searching for facts and figuring out problems mentally.

Recreation Workers

Summary

Quick Facts: Recreation Workers	
2017 Median Pay	$24,540 per year $11.80 per hour
Typical Entry-Level Education	High school diploma or equivalent
Work Experience in a Related Occupation	None
On-the-job Training	Short-term on-the-job training
Number of Jobs, 2016	390,000
Job Outlook, 2016-26	9% (As fast as average)
Employment Change, 2016-26	34,000

Recreation workers may lead children in nature study activities at a day camp.

What Recreation Workers Do

Recreation workers design and lead activities to help people stay active, improve fitness, and have fun. They work with groups in summer camps, fitness and recreational sports centers, nursing care facilities, nature parks, and other settings. They may lead such activities as arts and crafts, sports, music, dramatics, or games.

Work Environment

Recreation workers are employed in a variety of settings, including recreation centers, parks, summer camps, and nursing and residential care facilities. Many workers spend much of their time being physically active in the outdoors.

How to Become a Recreation Worker

Education and training requirements for recreation workers vary with the type of job, but workers typically need at least a high school diploma or the equivalent and a few weeks of on-the-job training.

Pay

The median annual wage for recreation workers was $24,540 in May 2017.

Job Outlook

Employment of recreation workers is projected to grow 9 percent from 2016 to 2026, about as fast as the average for all occupations. As more emphasis is placed on the importance of lifelong well-being, more recreation workers will be needed to work with children and adults in a variety of settings.

Recreation Workers

What Recreation Workers Do

About this section

Recreation workers design and lead activities to help people stay active, improve fitness, and have fun. They work with groups in summer camps, fitness and recreational sports centers, nursing care facilities, nature parks, and other settings. They may lead such activities as arts and crafts, sports, music, dramatics, or games.

Recreation workers lead groups in activities such as arts and crafts.

Duties

Recreation workers typically do the following:

- Plan, organize, and lead activities for groups or recreation centers
- Explain the rules of activities and instruct participants at a variety of skill levels
- Enforce safety rules to prevent injury
- Modify activities to suit the needs of specific groups, such as seniors
- Administer basic first aid if needed
- Organize and set up the equipment that is used in recreational activities

The specific responsibilities of recreation workers vary greatly with their job title, their level of training, and the state they work in.

The following are examples of types of recreation workers:

Activity specialists provide instruction and coaching primarily in one activity, such as dance, swimming, or tennis. These workers may work in camps, aquatic centers, or anywhere else where there is interest in a single activity.

Recreation leaders are responsible for a recreation program's daily operation. They primarily organize and direct participants, schedule the use of facilities, set up and keep records of equipment use, and ensure that recreation facilities and equipment are used and maintained properly. They may lead classes and provide instruction in a recreational activity, such as kayaking or golf.

Camp counselors work directly with youths in residential (overnight) or day camps. They often lead and instruct children and teenagers in a variety of outdoor activities, such as swimming, hiking, horseback riding, or nature study. Counselors also provide guidance and supervise daily living and socialization. Some counselors may specialize in a specific activity, such as archery, boating, music, drama, or gymnastics.

Recreation Workers

How to Become a Recreation Worker

About this section

Education and training requirements for recreation workers vary with the type of job, but workers typically need at least a high school diploma or the equivalent and receive on-the-job training.

Recreation workers maintain order and safety.

Education and Training

Recreation workers typically need at least a high school diploma or the equivalent. Many receive on-the-job training that typically lasts less than a month.

Entry-level educational requirements vary with the type of position. For example, an activity leader position working with the elderly will have different requirements than a position as a summer camp counselor working with children.

Some positions may require a bachelor's degree or college coursework. In 2017, the Council on Accreditation of Parks, Recreation, Tourism, and Related Professions, a branch of the National Recreation and Park Association (NRPA), accredited more than 70 bachelor's degree programs in recreation or leisure studies. A bachelor's degree in other subjects, such as liberal arts or public administration, may also qualify applicants for some positions.

Important Qualities

Communication skills. Recreation workers must be able to communicate well. They often work with large groups of people and need to give clear instructions, motivate participants, and maintain order and safety.

Flexibility. Recreation workers must be flexible when planning activities. They must be able to adapt plans to suit changing environmental conditions and participants' needs.

Leadership skills. Recreation workers should be able to lead both large and small groups. They often lead activities for people of all ages and abilities.

Physical strength. Most recreation workers should be physically fit. Their job may require a considerable amount of movement because they often demonstrate activities while explaining them.

Problem-solving skills. Recreation workers need strong problem-solving skills. They must be able to create and reinvent activities and programs for all types of participants.

For recreation workers who generally work part time, such as camp counselors and activity specialists, certain qualities may be more important than education. These qualities include a worker's experience leading activities, the ability to work well with children or the elderly, and the ability to ensure the safety of participants.

Licenses, Certifications, and Registrations

The NRPA offers four certifications for recreation workers:

- Certified Parks and Recreation Professional (CPRP)
- Certified Parks and Recreation Executive (CPRE)
- Aquatic Facility Operator (AFO)
- Certified Playground Safety Inspector (CPSI)

Applicants may qualify for certification with different combinations of education and work experience. They also must take continuing education classes to maintain their certification.

The American Camp Association offers certificates for various levels of camp staff, including Entry-Level Program Staff Certificate and Camp Director Certificate. Individuals who complete online courses may show their advanced level of knowledge of core competencies.

Some recreation jobs require other kinds of certification. For example, first aid and CPR (cardiopulmonary resuscitation) certifications may be required for leading camp or sports activities. These certifications are available from organizations such as the American Heart Association or the American Red Cross .

Jobs for recreation workers may also require a valid driver's license and the ability to pass a background check.

Specific requirements vary by job and employer.

Advancement

As workers gain experience, they may be promoted to positions with greater responsibilities. Recreation workers with experience and managerial skills may advance to supervisory or managerial positions. Eventually, they may become directors of a recreation department or may start their own recreation company.

Recreation Workers

Similar Occupations

About this section

This table shows a list of occupations with job duties that are similar to those of recreation workers.

	OCCUPATION	JOB DUTIES	ENTRY-LEVEL EDUCATION	2017 MEDIAN PAY
	Social Workers	Social workers help people solve and cope with problems in their everyday lives. Clinical social workers also diagnose and treat mental, behavioral, and emotional issues.	See How to Become One	$47,980
	School and Career Counselors	School counselors help students develop the academic and social skills needed to succeed in school. Career counselors help people choose careers and follow a path to employment.	Master's degree	$55,410
	Rehabilitation Counselors	Rehabilitation counselors help people with physical, mental, developmental, or emotional disabilities live independently. They work with clients to overcome or manage the personal, social, or psychological effects of disabilities on employment or independent living.	Master's degree	$34,860
	Recreational Therapists	Recreational therapists plan, direct, and coordinate recreation-based treatment programs for people with disabilities, injuries, or illnesses. These therapists use a variety of modalities, including arts and crafts; drama, music, and dance; sports and games; aquatics; and community outings to help maintain or improve a patient's physical, social, and emotional well-being.	Bachelor's degree	$47,680
	Meeting, Convention, and Event Planners	Meeting, convention, and event planners coordinate all aspects of events and professional meetings. They arrange meeting locations, transportation, and other details.	Bachelor's degree	$48,290
	Fitness Trainers and Instructors	Fitness trainers and instructors lead, instruct, and motivate individuals or groups in exercise activities, including cardiovascular exercises (exercises for the heart and blood circulation), strength training, and stretching. They work with people of all ages and skill levels.	High school diploma or equivalent	$39,210
	Exercise Physiologists	Exercise physiologists develop fitness and exercise programs that help patients recover from chronic diseases and improve cardiovascular function, body composition, and flexibility.	Bachelor's degree	$49,090
	Athletic Trainers	Athletic trainers specialize in preventing, diagnosing, and treating muscle and bone injuries and illnesses.	Bachelor's degree	$46,630
	Athletes and Sports Competitors	Athletes and sports competitors participate in organized, officiated sporting events to entertain spectators.	No formal educational credential	$51,370

Tasks

All 31 displayed

- Check vehicles to ensure that mechanical, safety, and emergency equipment is in good working order.
- Follow appropriate safety procedures for transporting dangerous goods.
- Inspect loads to ensure that cargo is secure.
- Maintain logs of working hours or of vehicle service or repair status, following applicable state and federal regulations.
- Secure cargo for transport, using ropes, blocks, chain, binders, or covers.
- Maneuver trucks into loading or unloading positions, following signals from loading crew and checking that vehicle and loading equipment are properly positioned.
- Report vehicle defects, accidents, traffic violations, or damage to the vehicles.
- Obtain receipts or signatures for delivered goods and collect payment for services when required.
- Drive trucks with capacities greater than 3 tons, including tractor-trailer combinations, to transport and deliver products, livestock, or other materials.
- Check all load-related documentation for completeness and accuracy.
- Read bills of lading to determine assignment details.
- Collect delivery instructions from appropriate sources, verifying instructions and routes.
- Drive trucks to weigh stations before and after loading and along routes in compliance with state regulations.
- Couple or uncouple trailers by changing trailer jack positions, connecting or disconnecting air or electrical lines, or manipulating fifth-wheel locks.
- Check conditions of trailers after contents have been unloaded to ensure that there has been no damage.
- Perform basic vehicle maintenance tasks, such as adding oil, fuel, or radiator fluid or performing minor repairs.
- Crank trailer landing gear up or down to safely secure vehicles.
- Read and interpret maps to determine vehicle routes.

- Operate equipment, such as truck cab computers, CB radios, phones, or global positioning systems (GPS) equipment to exchange necessary information with bases, supervisors, or other drivers.
- Plan or adjust routes based on changing conditions, using computer equipment, global positioning systems (GPS) equipment, or other navigation devices, to minimize fuel consumption and carbon emissions.
- Load or unload trucks or help others with loading or unloading, using special loading-related equipment or other equipment as necessary.
- Remove debris from loaded trailers.
- Follow special cargo-related procedures, such as checking refrigeration systems for frozen foods or providing food or water for livestock.
- Inventory and inspect goods to be moved to determine quantities and conditions.
- Wrap and secure goods using pads, packing paper, containers, or straps.
- Install or remove special equipment, such as tire chains, grader blades, plow blades, or sanders.
- Operate idle reduction systems or auxiliary power systems to generate power from alternative sources, such as fuel cells, to reduce idling time, to heat or cool truck cabins, or to provide power for other equipment.
- Perform emergency roadside repairs, such as changing tires or installing light bulbs, tire chains, or spark plugs.
- Give directions to laborers who are packing goods and moving them onto trailers.
- Drive electric or hybrid-electric powered trucks or alternative fuel-powered trucks to transport and deliver products, livestock, or other materials.
- Operate trucks equipped with snowplows or sander attachments to maintain roads in winter weather.

Knowledge

All 5 displayed

- **Transportation** — Knowledge of principles and methods for moving people or goods by air, rail, sea, or road, including the relative costs and benefits.
- **Public Safety and Security** — Knowledge of relevant equipment, policies, procedures, and strategies to promote effective local, state, or national security operations for the protection of people, data, property, and institutions.
- **Customer and Personal Service** — Knowledge of principles and processes for providing customer and personal services. This includes customer needs assessment, meeting quality standards for services, and evaluation of customer satisfaction.
- **English Language** — Knowledge of the structure and content of the English language including the meaning and spelling of words, rules of composition, and grammar.
- **Mechanical** — Knowledge of machines and tools, including their designs, uses, repair, and maintenance.

back to top

Skills

All 8 displayed

- **Operation and Control** — Controlling operations of equipment or systems.
- **Operation Monitoring** — Watching gauges, dials, or other indicators to make sure a machine is working properly.
- **Time Management** — Managing one's own time and the time of others.
- **Critical Thinking** — Using logic and reasoning to identify the strengths and weaknesses of alternative solutions, conclusions or approaches to problems.
- **Monitoring** — Monitoring/Assessing performance of yourself, other individuals, or organizations to make improvements or take corrective action.
- **Reading Comprehension** — Understanding written sentences and paragraphs in work related documents.
- **Speaking** — Talking to others to convey information effectively.
- **Troubleshooting** — Determining causes of operating errors and deciding what to do about it.

back to top

Abilities

All 24 displayed

- **Control Precision** — The ability to quickly and repeatedly adjust the controls of a machine or a vehicle to exact positions.
- **Far Vision** — The ability to see details at a distance.
- **Multilimb Coordination** — The ability to coordinate two or more limbs (for example, two arms, two legs, or one leg and one arm) while sitting, standing, or lying down. It does not involve performing the activities while the whole body is in motion.
- **Near Vision** — The ability to see details at close range (within a few feet of the observer).
- **Reaction Time** — The ability to quickly respond (with the hand, finger, or foot) to a signal (sound, light, picture) when it appears.
- **Response Orientation** — The ability to choose quickly between two or more movements in response to two or more different signals (lights, sounds, pictures). It includes the speed with which the correct response is started with the hand, foot, or other body part.

Depth Perception — The ability to judge which of several objects is closer or farther away from you, or to judge the distance between you and an object.

- **Rate Control** — The ability to time your movements or the movement of a piece of equipment in anticipation of changes in the speed and/or direction of a moving object or scene.
- **Spatial Orientation** — The ability to know your location in relation to the environment or to know where other objects are in relation to you.
- **Problem Sensitivity** — The ability to tell when something is wrong or is likely to go wrong. It does not involve solving the problem, only recognizing there is a problem.
- **Arm-Hand Steadiness** — The ability to keep your hand and arm steady while moving your arm or while holding your arm and hand in one position.
- **Deductive Reasoning** — The ability to apply general rules to specific problems to produce answers that make sense.
- **Information Ordering** — The ability to arrange things or actions in a certain order or pattern according to a specific rule or set of rules (e.g., patterns of numbers, letters, words, pictures, mathematical operations).
- **Manual Dexterity** — The ability to quickly move your hand, your hand together with your arm, or your two hands to grasp, manipulate, or assemble objects.
- **Selective Attention** — The ability to concentrate on a task over a period of time without being distracted.
- **Category Flexibility** — The ability to generate or use different sets of rules for combining or grouping things in different ways.
- **Hearing Sensitivity** — The ability to detect or tell the differences between sounds that vary in pitch and loudness.
- **Inductive Reasoning** — The ability to combine pieces of information to form general rules or conclusions (includes finding a relationship among seemingly unrelated events).
- **Night Vision** — The ability to see under low light conditions.
- **Oral Comprehension** — The ability to listen to and understand information and ideas presented through spoken words and sentences.
- **Peripheral Vision** — The ability to see objects or movement of objects to one's side when the eyes are looking ahead.
- **Speech Clarity** — The ability to speak clearly so others can understand you.
- **Static Strength** — The ability to exert maximum muscle force to lift, push, pull, or carry objects.
- **Visualization** — The ability to imagine how something will look after it is moved around or when its parts are moved or rearranged.

back to top

Work Activities

All 25 displayed

- **Operating Vehicles, Mechanized Devices, or Equipment** — Running, maneuvering, navigating, or driving vehicles or mechanized equipment, such as forklifts, passenger vehicles, aircraft, or water craft.
- **Inspecting Equipment, Structures, or Material** — Inspecting equipment, structures, or materials to identify the cause of errors or other problems or defects.
- **Getting Information** — Observing, receiving, and otherwise obtaining information from all relevant sources.
- **Identifying Objects, Actions, and Events** — Identifying information by categorizing, estimating, recognizing differences or similarities, and detecting changes in circumstances or events.
- **Controlling Machines and Processes** — Using either control mechanisms or direct physical activity to operate machines or processes (not including computers or vehicles).

- **Communicating with Supervisors, Peers, or Subordinates** — Providing information to supervisors, co-workers, and subordinates by telephone, in written form, e-mail, or in person.
- **Making Decisions and Solving Problems** — Analyzing information and evaluating results to choose the best solution and solve problems.
- **Documenting/Recording Information** — Entering, transcribing, recording, storing, or maintaining information in written or electronic/magnetic form.
- **Monitor Processes, Materials, or Surroundings** — Monitoring and reviewing information from materials, events, or the environment, to detect or assess problems.
- **Performing General Physical Activities** — Performing physical activities that require considerable use of your arms and legs and moving your whole body, such as climbing, lifting, balancing, walking, stooping, and handling of materials.
- **Communicating with Persons Outside Organization** — Communicating with people outside the organization, representing the organization to customers, the public, government, and other external sources. This information can be exchanged in person, in writing, or by telephone or e-mail.
- **Evaluating Information to Determine Compliance with Standards** — Using relevant information and individual judgment to determine whether events or processes comply with laws, regulations, or standards.
- **Organizing, Planning, and Prioritizing Work** — Developing specific goals and plans to prioritize, organize, and accomplish your work.
- **Handling and Moving Objects** — Using hands and arms in handling, installing, positioning, and moving materials, and manipulating things.
- **Performing for or Working Directly with the Public** — Performing for people or dealing directly with the public. This includes serving customers in restaurants and stores, and receiving clients or guests.
- **Scheduling Work and Activities** — Scheduling events, programs, and activities, as well as the work of others.
- **Establishing and Maintaining Interpersonal Relationships** — Developing constructive and cooperative working relationships with others, and maintaining them over time.
- **Updating and Using Relevant Knowledge** — Keeping up-to-date technically and applying new knowledge to your job.
- **Estimating the Quantifiable Characteristics of Products, Events, or Information** — Estimating sizes, distances, and quantities; or determining time, costs, resources, or materials needed to perform a work activity.
- **Processing Information** — Compiling, coding, categorizing, calculating, tabulating, auditing, or verifying information or data.
- **Judging the Qualities of Things, Services, or People** — Assessing the value, importance, or quality of things or people.
- **Analyzing Data or Information** — Identifying the underlying principles, reasons, or facts of information by breaking down information or data into separate parts.
- **Repairing and Maintaining Mechanical Equipment** — Servicing, repairing, adjusting, and testing machines, devices, moving parts, and equipment that operate primarily on the basis of mechanical (not electronic) principles.
- **Developing Objectives and Strategies** — Establishing long-range objectives and specifying the strategies and actions to achieve them.
- **Interpreting the Meaning of Information for Others** — Translating or explaining what information means and how it can be used.

Detailed Work Activities

All 27 displayed

- Inspect motor vehicles.
- Follow safety procedures for vehicle operation.
- Inspect cargo to ensure it is properly loaded or secured.
- Record operational or production data.
- Record service or repair activities.
- Operate vehicles or material-moving equipment.
- Secure cargo.
- Monitor cargo area conditions.
- Notify others of emergencies, problems, or hazards.
- Report vehicle or equipment malfunctions.
- Collect fares or payment from customers.
- Review documents or materials for compliance with policies or regulations.
- Review work orders or schedules to determine operations or procedures.
- Verify information or specifications.
- Connect cables or electrical lines.
- Inspect cargo areas for cleanliness or condition.
- Maintain vehicles in good working condition.
- Read maps to determine routes.
- Acquire supplies or equipment.
- Package materials or products.
- Operate communications equipment or systems.
- Adjust routes or speeds as necessary.
- Choose optimal transportation routes or speeds.
- Load shipments, belongings, or materials.
- Remove debris or damaged materials.
- Install parts, assemblies, or attachments in transportation or material handling equipment.
- Direct material handling or moving activities.

Work Context

All 27 displayed

- **In an Enclosed Vehicle or Equipment** — 88% responded "Every day."
- **Duration of Typical Work Week** — 84% responded "More than 40 hours."
- **Outdoors, Exposed to Weather** — 76% responded "Every day."
- **Time Pressure** — 69% responded "Every day."
- **Very Hot or Cold Temperatures** — 60% responded "Every day."
- **Telephone** — 60% responded "Every day."
- **Freedom to Make Decisions** — 42% responded "A lot of freedom."
- **Impact of Decisions on Co-workers or Company Results** — 45% responded "Very important results."

Spend Time Using Your Hands to Handle, Control, or Feel Objects, Tools, or Controls — 52% responded "Continually or almost continually."

- **Spend Time Sitting** — 44% responded "More than half the time."
- **Face-to-Face Discussions** — 47% responded "Every day."
- **Frequency of Decision Making** — 53% responded "Every day."
- **Importance of Being Exact or Accurate** — 38% responded "Extremely important."
- **Consequence of Error** — 44% responded "Extremely serious."
- **Contact With Others** — 39% responded "Constant contact with others."
- **Wear Common Protective or Safety Equipment such as Safety Shoes, Glasses, Gloves, Hearing Protection, Hard Hats, or Life Jackets** — 47% responded "Every day."
- **Exposed to Contaminants** — 47% responded "Every day."
- **Structured versus Unstructured Work** — 37% responded "Some freedom."
- **Deal With External Customers** — 33% responded "Extremely important."
- **Sounds, Noise Levels Are Distracting or Uncomfortable** — 46% responded "Every day."
- **Extremely Bright or Inadequate Lighting** — 50% responded "Every day."
- **Spend Time Making Repetitive Motions** — 37% responded "Less than half the time."
- **Work With Work Group or Team** — 32% responded "Extremely important."
- **Deal With Unpleasant or Angry People** — 37% responded "Once a month or more but not every week."
- **Level of Competition** — 35% responded "Highly competitive."
- **Indoors, Not Environmentally Controlled** — 36% responded "Every day."
- **Outdoors, Under Cover** — 34% responded "Never."

Job Zone

Title	Job Zone Two: Some Preparation Needed
Education	These occupations usually require a high school diploma.
Related Experience	Some previous work-related skill, knowledge, or experience is usually needed. For example, a teller would benefit from experience working directly with the public.
Job Training	Employees in these occupations need anywhere from a few months to one year of working with experienced employees. A recognized apprenticeship program may be associated with these occupations.
Job Zone Examples	These occupations often involve using your knowledge and skills to help others. Examples include orderlies, forest firefighters, customer service representatives, security guards, upholsterers, and tellers.
SVP Range	(4.0 to < 6.0)

Interests

All 2 displayed

Interest code: **RC** Want to discover your interests? Take the O*NET Interest Profiler at My Next Move.

- **Realistic** — Realistic occupations frequently involve work activities that include practical, hands-on problems and solutions. They often deal with plants, animals, and real-world materials like wood, tools, and machinery. Many of the occupations require working outside, and do not involve a lot of paperwork or working closely with others.
- **Conventional** — Conventional occupations frequently involve following set procedures and routines. These occupations can include working with data and details more than with ideas. Usually there is a clear line of authority to follow.

back to top

Work Styles

All 14 displayed

- **Dependability** — Job requires being reliable, responsible, and dependable, and fulfilling obligations.
- **Self Control** — Job requires maintaining composure, keeping emotions in check, controlling anger, and avoiding aggressive behavior, even in very difficult situations.
- **Attention to Detail** — Job requires being careful about detail and thorough in completing work tasks.
- **Integrity** — Job requires being honest and ethical.
- **Stress Tolerance** — Job requires accepting criticism and dealing calmly and effectively with high stress situations.
- **Cooperation** — Job requires being pleasant with others on the job and displaying a good-natured, cooperative attitude.
- **Adaptability/Flexibility** — Job requires being open to change (positive or negative) and to considerable variety in the workplace.
- **Independence** — Job requires developing one's own ways of doing things, guiding oneself with little or no supervision, and depending on oneself to get things done.
- **Achievement/Effort** — Job requires establishing and maintaining personally challenging achievement goals and exerting effort toward mastering tasks.
- **Concern for Others** — Job requires being sensitive to others' needs and feelings and being understanding and helpful on the job.
- **Initiative** — Job requires a willingness to take on responsibilities and challenges.
- **Persistence** — Job requires persistence in the face of obstacles.
- **Analytical Thinking** — Job requires analyzing information and using logic to address work-related issues and problems.

Innovation — Job requires creativity and alternative thinking to develop new ideas for and answers to work-related problems.

Knowledge Save Table (XLS/CSV)

All 33 displayed (5 important)

Importance	Knowledge
75	**Transportation** — Knowledge of principles and methods for moving people or goods by air, rail, sea, or road, including the relative costs and benefits.
68	**Public Safety and Security** — Knowledge of relevant equipment, policies, procedures, and strategies to promote effective local, state, or national security operations for the protection of people, data, property, and institutions.
67	**Customer and Personal Service** — Knowledge of principles and processes for providing customer and personal services. This includes customer needs assessment, meeting quality standards for services, and evaluation of customer satisfaction.
62	**English Language** — Knowledge of the structure and content of the English language including the meaning and spelling of words, rules of composition, and grammar.
55	**Mechanical** — Knowledge of machines and tools, including their designs, uses, repair, and maintenance.
49	**Geography** — Knowledge of principles and methods for describing the features of land, sea, and air masses, including their physical characteristics, locations, interrelationships, and distribution of plant, animal, and human life.
46	**Education and Training** — Knowledge of principles and methods for curriculum and training design, teaching and instruction for individuals and groups, and the measurement of training effects.
39	**Administration and Management** — Knowledge of business and management principles involved in strategic planning, resource allocation, human resources modeling, leadership technique, production methods, and coordination of people and resources.
39	**Law and Government** — Knowledge of laws, legal codes, court procedures, precedents, government regulations, executive orders, agency rules, and the democratic political process.
39	**Mathematics** — Knowledge of arithmetic, algebra, geometry, calculus, statistics, and their applications.
38	**Telecommunications** — Knowledge of transmission, broadcasting, switching, control, and operation of telecommunications systems.
32	**Clerical** — Knowledge of administrative and clerical procedures and systems such as word processing, managing files and records, stenography and transcription, designing forms, and other office procedures and terminology.
32	**Computers and Electronics** — Knowledge of circuit boards, processors, chips, electronic equipment, and computer hardware and software, including applications and programming.
30	**Psychology** — Knowledge of human behavior and performance; individual differences in ability, personality, and interests; learning and motivation; psychological research methods; and the assessment and treatment of behavioral and affective disorders.
29	**Communications and Media** — Knowledge of media production, communication, and dissemination techniques and methods. This includes alternative ways to inform and entertain via written, oral, and visual media.
27	**Chemistry** — Knowledge of the chemical composition, structure, and properties of substances and of the chemical processes and transformations that they undergo. This

includes uses of chemicals and their interactions, danger signs, production techniques, and disposal methods.

25 — **Sales and Marketing** — Knowledge of principles and methods for showing, promoting, and selling products or services. This includes marketing strategy and tactics, product demonstration, sales techniques, and sales control systems.

24 — **Personnel and Human Resources** — Knowledge of principles and procedures for personnel recruitment, selection, training, compensation and benefits, labor relations and negotiation, and personnel information systems.

22 — **Production and Processing** — Knowledge of raw materials, production processes, quality control, costs, and other techniques for maximizing the effective manufacture and distribution of goods.

19 — **Engineering and Technology** — Knowledge of the practical application of engineering science and technology. This includes applying principles, techniques, procedures, and equipment to the design and production of various goods and services.

19 — **Physics** — Knowledge and prediction of physical principles, laws, their interrelationships, and applications to understanding fluid, material, and atmospheric dynamics, and mechanical, electrical, atomic and sub- atomic structures and processes.

18 — **Economics and Accounting** — Knowledge of economic and accounting principles and practices, the financial markets, banking and the analysis and reporting of financial data.

16 — **Food Production** — Knowledge of techniques and equipment for planting, growing, and harvesting food products (both plant and animal) for consumption, including storage/handling techniques.

15 — **Building and Construction** — Knowledge of materials, methods, and the tools involved in the construction or repair of houses, buildings, or other structures such as highways and roads.

15 — **Design** — Knowledge of design techniques, tools, and principles involved in production of precision technical plans, blueprints, drawings, and models.

15 — **Foreign Language** — Knowledge of the structure and content of a foreign (non-English) language including the meaning and spelling of words, rules of composition and grammar, and pronunciation.

14 — **Medicine and Dentistry** — Knowledge of the information and techniques needed to diagnose and treat human injuries, diseases, and deformities. This includes symptoms, treatment alternatives, drug properties and interactions, and preventive health-care measures.

11 — **Sociology and Anthropology** — Knowledge of group behavior and dynamics, societal trends and influences, human migrations, ethnicity, cultures and their history and origins.

9 — **Biology** — Knowledge of plant and animal organisms, their tissues, cells, functions, interdependencies, and interactions with each other and the environment.

7 — **Therapy and Counseling** — Knowledge of principles, methods, and procedures for diagnosis, treatment, and rehabilitation of physical and mental dysfunctions, and for career counseling and guidance.

6 — **Philosophy and Theology** — Knowledge of different philosophical systems and religions. This includes their basic principles, values, ethics, ways of thinking, customs, practices, and their impact on human culture.

5 — **History and Archeology** — Knowledge of historical events and their causes, indicators, and effects on civilizations and cultures.

Butler's Exh. 55, p. 005

1 **Fine Arts** — Knowledge of the theory and techniques required to compose, produce, and perform works of music, dance, visual arts, drama, and sculpture.

back to top

Skills

Save Table (XLS/CSV)

All 35 displayed (8 important)

Importance	Skill
72	**Operation and Control** — Controlling operations of equipment or systems.
69	**Operation Monitoring** — Watching gauges, dials, or other indicators to make sure a machine is working properly.
53	**Time Management** — Managing one's own time and the time of others.
50	**Critical Thinking** — Using logic and reasoning to identify the strengths and weaknesses of alternative solutions, conclusions or approaches to problems.
50	**Monitoring** — Monitoring/Assessing performance of yourself, other individuals, or organizations to make improvements or take corrective action.
50	**Reading Comprehension** — Understanding written sentences and paragraphs in work related documents.
50	**Speaking** — Talking to others to convey information effectively.
50	**Troubleshooting** — Determining causes of operating errors and deciding what to do about it.
47	**Active Listening** — Giving full attention to what other people are saying, taking time to understand the points being made, asking questions as appropriate, and not interrupting at inappropriate times.
47	**Complex Problem Solving** — Identifying complex problems and reviewing related information to develop and evaluate options and implement solutions.
47	**Coordination** — Adjusting actions in relation to others' actions.
47	**Equipment Maintenance** — Performing routine maintenance on equipment and determining when and what kind of maintenance is needed.
47	**Judgment and Decision Making** — Considering the relative costs and benefits of potential actions to choose the most appropriate one.
47	**Repairing** — Repairing machines or systems using the needed tools.
44	**Active Learning** — Understanding the implications of new information for both current and future problem-solving and decision-making.
44	**Service Orientation** — Actively looking for ways to help people.
44	**Social Perceptiveness** — Being aware of others' reactions and understanding why they react as they do.
44	**Writing** — Communicating effectively in writing as appropriate for the needs of the audience.
41	**Quality Control Analysis** — Conducting tests and inspections of products, services, or processes to evaluate quality or performance.
38	**Instructing** — Teaching others how to do something.
38	**Learning Strategies** — Selecting and using training/instructional methods and procedures appropriate for the situation when learning or teaching new things.

31	**Equipment Selection** — Determining the kind of tools and equipment needed to do a job.
31	**Negotiation** — Bringing others together and trying to reconcile differences.
28	**Management of Personnel Resources** — Motivating, developing, and directing people as they work, identifying the best people for the job.
28	**Persuasion** — Persuading others to change their minds or behavior.
28	**Systems Evaluation** — Identifying measures or indicators of system performance and the actions needed to improve or correct performance, relative to the goals of the system.
25	**Management of Financial Resources** — Determining how money will be spent to get the work done, and accounting for these expenditures.
25	**Management of Material Resources** — Obtaining and seeing to the appropriate use of equipment, facilities, and materials needed to do certain work.
25	**Mathematics** — Using mathematics to solve problems.
25	**Systems Analysis** — Determining how a system should work and how changes in conditions, operations, and the environment will affect outcomes.
22	**Operations Analysis** — Analyzing needs and product requirements to create a design.
16	**Installation** — Installing equipment, machines, wiring, or programs to meet specifications.
16	**Technology Design** — Generating or adapting equipment and technology to serve user needs.
3	**Programming** — Writing computer programs for various purposes.
0	**Science** — Using scientific rules and methods to solve problems.

Abilities

Save Table (XLS/CSV)

All 52 displayed (24 important)

Importance	Ability
75	**Control Precision** — The ability to quickly and repeatedly adjust the controls of a machine or a vehicle to exact positions.
75	**Far Vision** — The ability to see details at a distance.
72	**Multilimb Coordination** — The ability to coordinate two or more limbs (for example, two arms, two legs, or one leg and one arm) while sitting, standing, or lying down. It does not involve performing the activities while the whole body is in motion.
72	**Near Vision** — The ability to see details at close range (within a few feet of the observer).
72	**Reaction Time** — The ability to quickly respond (with the hand, finger, or foot) to a signal (sound, light, picture) when it appears.
72	**Response Orientation** — The ability to choose quickly between two or more movements in response to two or more different signals (lights, sounds, pictures). It includes the speed with which the correct response is started with the hand, foot, or other body part.
69	

Butler's Exh. 55, p. 007

Depth Perception — The ability to judge which of several objects is closer or farther away from you, or to judge the distance between you and an object.

69 **Rate Control** — The ability to time your movements or the movement of a piece of equipment in anticipation of changes in the speed and/or direction of a moving object or scene.

69 **Spatial Orientation** — The ability to know your location in relation to the environment or to know where other objects are in relation to you.

63 **Problem Sensitivity** — The ability to tell when something is wrong or is likely to go wrong. It does not involve solving the problem, only recognizing there is a problem.

53 **Arm-Hand Steadiness** — The ability to keep your hand and arm steady while moving your arm or while holding your arm and hand in one position.

53 **Deductive Reasoning** — The ability to apply general rules to specific problems to produce answers that make sense.

53 **Information Ordering** — The ability to arrange things or actions in a certain order or pattern according to a specific rule or set of rules (e.g., patterns of numbers, letters, words, pictures, mathematical operations).

53 **Manual Dexterity** — The ability to quickly move your hand, your hand together with your arm, or your two hands to grasp, manipulate, or assemble objects.

53 **Selective Attention** — The ability to concentrate on a task over a period of time without being distracted.

50 **Category Flexibility** — The ability to generate or use different sets of rules for combining or grouping things in different ways.

50 **Hearing Sensitivity** — The ability to detect or tell the differences between sounds that vary in pitch and loudness.

50 **Inductive Reasoning** — The ability to combine pieces of information to form general rules or conclusions (includes finding a relationship among seemingly unrelated events).

50 **Night Vision** — The ability to see under low light conditions.

50 **Oral Comprehension** — The ability to listen to and understand information and ideas presented through spoken words and sentences.

50 **Peripheral Vision** — The ability to see objects or movement of objects to one's side when the eyes are looking ahead.

50 **Speech Clarity** — The ability to speak clearly so others can understand you.

50 **Static Strength** — The ability to exert maximum muscle force to lift, push, pull, or carry objects.

50 **Visualization** — The ability to imagine how something will look after it is moved around or when its parts are moved or rearranged.

47 **Auditory Attention** — The ability to focus on a single source of sound in the presence of other distracting sounds.

47 **Finger Dexterity** — The ability to make precisely coordinated movements of the fingers of one or both hands to grasp, manipulate, or assemble very small objects.

47 **Glare Sensitivity** — The ability to see objects in the presence of glare or bright lighting.

47 **Oral Expression** — The ability to communicate information and ideas in speaking so others will understand.

47

Perceptual Speed — The ability to quickly and accurately compare similarities and differences among sets of letters, numbers, objects, pictures, or patterns. The things to be compared may be presented at the same time or one after the other. This ability also includes comparing a presented object with a remembered object.

47 **Speech Recognition** — The ability to identify and understand the speech of another person.

47 **Time Sharing** — The ability to shift back and forth between two or more activities or sources of information (such as speech, sounds, touch, or other sources).

47 **Trunk Strength** — The ability to use your abdominal and lower back muscles to support part of the body repeatedly or continuously over time without 'giving out' or fatiguing.

47 **Visual Color Discrimination** — The ability to match or detect differences between colors, including shades of color and brightness.

47 **Written Comprehension** — The ability to read and understand information and ideas presented in writing.

44 **Dynamic Strength** — The ability to exert muscle force repeatedly or continuously over time. This involves muscular endurance and resistance to muscle fatigue.

44 **Extent Flexibility** — The ability to bend, stretch, twist, or reach with your body, arms, and/or legs.

44 **Flexibility of Closure** — The ability to identify or detect a known pattern (a figure, object, word, or sound) that is hidden in other distracting material.

44 **Gross Body Coordination** — The ability to coordinate the movement of your arms, legs, and torso together when the whole body is in motion.

44 **Sound Localization** — The ability to tell the direction from which a sound originated.

44 **Speed of Limb Movement** — The ability to quickly move the arms and legs.

44 **Written Expression** — The ability to communicate information and ideas in writing so others will understand.

41 **Gross Body Equilibrium** — The ability to keep or regain your body balance or stay upright when in an unstable position.

41 **Stamina** — The ability to exert yourself physically over long periods of time without getting winded or out of breath.

41 **Wrist-Finger Speed** — The ability to make fast, simple, repeated movements of the fingers, hands, and wrists.

35 **Speed of Closure** — The ability to quickly make sense of, combine, and organize information into meaningful patterns.

31 **Fluency of Ideas** — The ability to come up with a number of ideas about a topic (the number of ideas is important, not their quality, correctness, or creativity).

31 **Number Facility** — The ability to add, subtract, multiply, or divide quickly and correctly.

31 **Originality** — The ability to come up with unusual or clever ideas about a given topic or situation, or to develop creative ways to solve a problem.

28 **Mathematical Reasoning** — The ability to choose the right mathematical methods or formulas to solve a problem.

25 **Memorization** — The ability to remember information such as words, numbers, pictures, and procedures.

13

Explosive Strength — The ability to use short bursts of muscle force to propel oneself (as in jumping or sprinting), or to throw an object.

10 ▫ **Dynamic Flexibility** — The ability to quickly and repeatedly bend, stretch, twist, or reach out with your body, arms, and/or legs.

back to top

Work Activities

Save Table (XLS/CSV)

All 41 displayed (25 important)

Importance	Work Activity
90	**Operating Vehicles, Mechanized Devices, or Equipment** — Running, maneuvering, navigating, or driving vehicles or mechanized equipment, such as forklifts, passenger vehicles, aircraft, or water craft.
83	**Inspecting Equipment, Structures, or Material** — Inspecting equipment, structures, or materials to identify the cause of errors or other problems or defects.
81	**Getting Information** — Observing, receiving, and otherwise obtaining information from all relevant sources.
72	**Identifying Objects, Actions, and Events** — Identifying information by categorizing, estimating, recognizing differences or similarities, and detecting changes in circumstances or events.
70	**Controlling Machines and Processes** — Using either control mechanisms or direct physical activity to operate machines or processes (not including computers or vehicles).
68	**Communicating with Supervisors, Peers, or Subordinates** — Providing information to supervisors, co-workers, and subordinates by telephone, in written form, e-mail, or in person.
68	**Making Decisions and Solving Problems** — Analyzing information and evaluating results to choose the best solution and solve problems.
67	**Documenting/Recording Information** — Entering, transcribing, recording, storing, or maintaining information in written or electronic/magnetic form.
66	**Monitor Processes, Materials, or Surroundings** — Monitoring and reviewing information from materials, events, or the environment, to detect or assess problems.
66	**Performing General Physical Activities** — Performing physical activities that require considerable use of your arms and legs and moving your whole body, such as climbing, lifting, balancing, walking, stooping, and handling of materials.
62	**Communicating with Persons Outside Organization** — Communicating with people outside the organization, representing the organization to customers, the public, government, and other external sources. This information can be exchanged in person, in writing, or by telephone or e-mail.
62	**Evaluating Information to Determine Compliance with Standards** — Using relevant information and individual judgment to determine whether events or processes comply with laws, regulations, or standards.
62	**Organizing, Planning, and Prioritizing Work** — Developing specific goals and plans to prioritize, organize, and accomplish your work.
60	**Handling and Moving Objects** — Using hands and arms in handling, installing, positioning, and moving materials, and manipulating things.
60	

Performing for or Working Directly with the Public — Performing for people or dealing directly with the public. This includes serving customers in restaurants and stores, and receiving clients or guests.

60 **Scheduling Work and Activities** — Scheduling events, programs, and activities, as well as the work of others.

59 **Establishing and Maintaining Interpersonal Relationships** — Developing constructive and cooperative working relationships with others, and maintaining them over time.

58 **Updating and Using Relevant Knowledge** — Keeping up-to-date technically and applying new knowledge to your job.

57 **Estimating the Quantifiable Characteristics of Products, Events, or Information** — Estimating sizes, distances, and quantities; or determining time, costs, resources, or materials needed to perform a work activity.

57 **Processing Information** — Compiling, coding, categorizing, calculating, tabulating, auditing, or verifying information or data.

56 **Judging the Qualities of Things, Services, or People** — Assessing the value, importance, or quality of things or people.

54 **Analyzing Data or Information** — Identifying the underlying principles, reasons, or facts of information by breaking down information or data into separate parts.

53 **Repairing and Maintaining Mechanical Equipment** — Servicing, repairing, adjusting, and testing machines, devices, moving parts, and equipment that operate primarily on the basis of mechanical (not electronic) principles.

52 **Developing Objectives and Strategies** — Establishing long-range objectives and specifying the strategies and actions to achieve them.

50 **Interpreting the Meaning of Information for Others** — Translating or explaining what information means and how it can be used.

47 **Thinking Creatively** — Developing, designing, or creating new applications, ideas, relationships, systems, or products, including artistic contributions.

46 **Resolving Conflicts and Negotiating with Others** — Handling complaints, settling disputes, and resolving grievances and conflicts, or otherwise negotiating with others.

44 **Training and Teaching Others** — Identifying the educational needs of others, developing formal educational or training programs or classes, and teaching or instructing others.

42 **Assisting and Caring for Others** — Providing personal assistance, medical attention, emotional support, or other personal care to others such as coworkers, customers, or patients.

41 **Developing and Building Teams** — Encouraging and building mutual trust, respect, and cooperation among team members.

40 **Coordinating the Work and Activities of Others** — Getting members of a group to work together to accomplish tasks.

39 **Performing Administrative Activities** — Performing day-to-day administrative tasks such as maintaining information files and processing paperwork.

38 **Monitoring and Controlling Resources** — Monitoring and controlling resources and overseeing the spending of money.

35 **Provide Consultation and Advice to Others** — Providing guidance and expert advice to management or other groups on technical, systems-, or process-related topics.

33

Butler's Exh. 55, p. 011

Coaching and Developing Others — Identifying the developmental needs of others and coaching, mentoring, or otherwise helping others to improve their knowledge or skills.

32 **Guiding, Directing, and Motivating Subordinates** — Providing guidance and direction to subordinates, including setting performance standards and monitoring performance.

32 **Interacting With Computers** — Using computers and computer systems (including hardware and software) to program, write software, set up functions, enter data, or process information.

30 **Selling or Influencing Others** — Convincing others to buy merchandise/goods or to otherwise change their minds or actions.

29 **Repairing and Maintaining Electronic Equipment** — Servicing, repairing, calibrating, regulating, fine-tuning, or testing machines, devices, and equipment that operate primarily on the basis of electrical or electronic (not mechanical) principles.

26 **Drafting, Laying Out, and Specifying Technical Devices, Parts, and Equipment** — Providing documentation, detailed instructions, drawings, or specifications to tell others about how devices, parts, equipment, or structures are to be fabricated, constructed, assembled, modified, maintained, or used.

22 **Staffing Organizational Units** — Recruiting, interviewing, selecting, hiring, and promoting employees in an organization.

Detailed Work Activities

Save Table (XLS/CSV)

All 27 displayed

- Inspect motor vehicles.
- Follow safety procedures for vehicle operation.
- Inspect cargo to ensure it is properly loaded or secured.
- Record operational or production data.
- Record service or repair activities.
- Operate vehicles or material-moving equipment.
- Secure cargo.
- Monitor cargo area conditions.
- Notify others of emergencies, problems, or hazards.
- Report vehicle or equipment malfunctions.
- Collect fares or payment from customers.
- Review documents or materials for compliance with policies or regulations.
- Review work orders or schedules to determine operations or procedures.
- Verify information or specifications.
- Connect cables or electrical lines.
- Inspect cargo areas for cleanliness or condition.
- Maintain vehicles in good working condition.
- Read maps to determine routes.
- Acquire supplies or equipment.
- Package materials or products.
- Operate communications equipment or systems.

- Adjust routes or speeds as necessary.
- Choose optimal transportation routes or speeds.
- Load shipments, belongings, or materials.
- Remove debris or damaged materials.
- Install parts, assemblies, or attachments in transportation or material handling equipment.
- Direct material handling or moving activities.

Work Context

Save Table (XLS/CSV)

All 57 displayed

Work Context	Percentage of Top Responses	
In an Enclosed Vehicle or Equipment — How often does this job require working in a closed vehicle or equipment (e.g., car)?	88	Every day
Duration of Typical Work Week — Number of hours typically worked in one week.	84 15	More than 40 hours 40 hours
Outdoors, Exposed to Weather — How often does this job require working outdoors, exposed to all weather conditions?	76	Every day
Time Pressure — How often does this job require the worker to meet strict deadlines?	69 16	Every day Once a week or more but not every day
Very Hot or Cold Temperatures — How often does this job require working in very hot (above 90 F degrees) or very cold (below 32 F degrees) temperatures?	60 20 13	Every day Once a week or more but not every day Once a month or more but not every week
Telephone — How often do you have telephone conversations in this job?	60 22 12	Every day Once a week or more but not every day Never
Freedom to Make Decisions — How much decision making freedom, without supervision, does the job offer?	42 35 13	A lot of freedom Some freedom Limited freedom
Impact of Decisions on Co-workers or Company Results — What results do your decisions usually have on other people or the image or reputation or financial resources of your employer?	45 33 12	Very important results Important results Moderate results
Spend Time Using Your Hands to Handle, Control, or Feel Objects, Tools, or Controls — How much does this job require using your hands to handle, control, or feel objects, tools or controls?	52 26 11	Continually or almost continually More than half the time Less than half the time

- **Spend Time Sitting** — How much does this job require sitting?
  - 36 Continually or almost continually
  - 44 More than half the time

- **Face-to-Face Discussions** — How often do you have to have face-to-face discussions with individuals or teams in this job?
  - 47 Every day
  - 29 Once a week or more but not every day
  - 11 Once a month or more but not every week

- **Frequency of Decision Making** — How frequently is the worker required to make decisions that affect other people, the financial resources, and/or the image and reputation of the organization?
  - 53 Every day
  - 20 Once a week or more but not every day
  - 12 Once a month or more but not every week
  - 11 Never

- **Importance of Being Exact or Accurate** — How important is being very exact or highly accurate in performing this job?
  - 38 Extremely important
  - 36 Very important
  - 14 Important

- **Consequence of Error** — How serious would the result usually be if the worker made a mistake that was not readily correctable?
  - 44 Extremely serious
  - 28 Very serious
  - 13 Serious

- **Contact With Others** — How much does this job require the worker to be in contact with others (face-to-face, by telephone, or otherwise) in order to perform it?
  - 39 Constant contact with others
  - 35 Contact with others most of the time
  - 21 Occasional contact with others

- **Wear Common Protective or Safety Equipment such as Safety Shoes, Glasses, Gloves, Hearing Protection, Hard Hats, or Life Jackets** — How much does this job require wearing common protective or safety equipment such as safety shoes, glasses, gloves, hard hats or life jackets?
  - 47 Every day
  - 24 Once a week or more but not every day
  - 12 Once a year or more but not every month

- **Exposed to Contaminants** — How often does this job require working exposed to contaminants (such as pollutants, gases, dust or odors)?
  - 47 Every day
  - 18 Once a week or more but not every day
  - 13 Once a month or more but not every week
  - 16 Never

- **Structured versus Unstructured Work** — To what extent is this job structured for the worker, rather than allowing the worker to determine tasks, priorities, and goals?
  - 29 A lot of freedom
  - 37 Some freedom
  - 19 Limited freedom
  - 14 Very little freedom

- **Deal With External Customers** — How important is it to work with external customers or the public in this job?
  - 33 Extremely important
  - 27 Very important
  - 22 Important

- **Sounds, Noise Levels Are Distracting or Uncomfortable** — How often does this job require working exposed to sounds and noise levels that are distracting or uncomfortable?
  - 46 Every day
  - 18 Once a week or more but not every day
  - 11 Once a month or more but not every week
  - 16 Never

- **Extremely Bright or Inadequate Lighting** — How often does this job require working in
  - 50 Every day
  - 33 Never

extremely bright or inadequate lighting conditions?

- **Spend Time Making Repetitive Motions** — How much does this job require making repetitive motions?
  - 25 Continually or almost continually
  - 26 More than half the time
  - 37 Less than half the time

- **Work With Work Group or Team** — How important is it to work with others in a group or team in this job?
  - 32 Extremely important
  - 19 Very important
  - 15 Important
  - 26 Not important at all

- **Deal With Unpleasant or Angry People** — How frequently does the worker have to deal with unpleasant, angry, or discourteous individuals as part of the job requirements?
  - 15 Every day
  - 20 Once a week or more but not every day
  - 37 Once a month or more but not every week
  - 25 Once a year or more but not every month

- **Level of Competition** — To what extent does this job require the worker to compete or to be aware of competitive pressures?
  - 35 Highly competitive
  - 30 Moderately competitive
  - 12 Slightly competitive
  - 13 Not at all competitive

- **Indoors, Not Environmentally Controlled** — How often does this job require working indoors in non-controlled environmental conditions (e.g., warehouse without heat)?
  - 36 Every day
  - 19 Once a year or more but not every month
  - 26 Never

- **Outdoors, Under Cover** — How often does this job require working outdoors, under cover (e.g., structure with roof but no walls)?
  - 26 Every day
  - 22 Once a week or more but not every day
  - 14 Once a month or more but not every week
  - 34 Never

- **Importance of Repeating Same Tasks** — How important is repeating the same physical activities (e.g., key entry) or mental activities (e.g., checking entries in a ledger) over and over, without stopping, to performing this job?
  - 27 Extremely important
  - 15 Very important
  - 12 Important
  - 19 Fairly important
  - 28 Not important at all

- **Responsible for Others' Health and Safety** — How much responsibility is there for the health and safety of others in this job?
  - 28 Very high responsibility
  - 14 High responsibility
  - 15 Moderate responsibility
  - 14 Limited responsibility
  - 29 No responsibility

- **Pace Determined by Speed of Equipment** — How important is it to this job that the pace is determined by the speed of equipment or machinery? (This does not refer to keeping busy at all times on this job.)
  - 18 Extremely important
  - 24 Very important
  - 13 Important
  - 12 Fairly important
  - 34 Not important at all

- **Exposed to Hazardous Equipment** — How often does this job require exposure to hazardous equipment?
  - 26 Every day
  - 18 Once a week or more but not every day
  - 45 Never

- **Cramped Work Space, Awkward Positions** — How often does this job require working in cramped work spaces that requires getting into awkward positions?
  - 21 Every day
  - 13 Once a week or more but not every day
  - 11 Once a month or more but not every week
  - 27 Once a year or more but not every month
  - 28 Never

In an Open Vehicle or Equipment — How often does this job require working in an open vehicle or equipment (e.g., tractor)?

29	Every day
14	Once a week or more but not every day
51	Never

Physical Proximity — To what extent does this job require the worker to perform job tasks in close physical proximity to other people?

28	Moderately close (at arm's length)
15	Slightly close (e.g., shared office)
28	I work with others but not closely (e.g., private office)
23	I don't work near other people (beyond 100 ft.)

Frequency of Conflict Situations — How often are there conflict situations the employee has to face in this job?

16	Once a week or more but not every day
30	Once a month or more but not every week
29	Once a year or more but not every month
20	Never

Exposed to Minor Burns, Cuts, Bites, or Stings — How often does this job require exposure to minor burns, cuts, bites, or stings?

Summary

Quick Facts: Heavy and Tractor-trailer Truck Drivers	
2017 Median Pay	$42,480 per year $20.42 per hour
Typical Entry-Level Education	Postsecondary nondegree award
Work Experience in a Related Occupation	None
On-the-job Training	Short-term on-the-job training
Number of Jobs, 2016	1,871,700
Job Outlook, 2016-26	6% (As fast as average)
Employment Change, 2016-26	108,400

What Heavy and Tractor-trailer Truck Drivers Do

Heavy and tractor-trailer truck drivers transport goods from one location to another. Most tractor-trailer drivers are long-haul drivers and operate trucks with a gross vehicle weight (GVW) capacity—that is, the combined weight of the vehicle, passengers, and cargo—exceeding 26,000 pounds. These drivers deliver goods over intercity routes, sometimes spanning several states.

Work Environment

Working as a long-haul truck driver is a major lifestyle choice because these drivers can be away from home for days or weeks at a time.

How to Become a Heavy or Tractor-trailer Truck Driver

Heavy and tractor-trailer truck drivers usually have a high school diploma and attend a professional truck driving school. They must have a commercial driver's license (CDL).

Pay

The median annual wage for heavy and tractor-trailer truck drivers was $42,480 in May 2017.

Job Outlook

Employment of heavy and tractor-trailer truck drivers is projected to grow 6 percent from 2016 to 2026, about as fast as the average for all occupations. As the demand for goods increases, more truck drivers will be needed to keep supply chains moving.

Heavy and Tractor-trailer Truck Drivers

What Heavy and Tractor-trailer Truck Drivers Do

About this section

Heavy and tractor-trailer truck drivers transport goods from one location to another. Most tractor-trailer drivers are long-haul drivers and operate trucks with a gross vehicle weight (GVW) capacity of more than 26,000 pounds. These drivers deliver goods over intercity routes, sometimes spanning several states.

Some heavy and tractor-trailer truck drivers plan their own routes.

Duties

Heavy and tractor-trailer truck drivers typically do the following:

- Drive long distances
- Report to a dispatcher any incidents encountered on the road
- Follow all applicable traffic laws
- Secure cargo for transport, using ropes, blocks, chains, or covers
- Inspect their trailers before and after the trip, and record any defects they find
- Maintain a log of their working hours, following all federal and state regulations
- Report serious mechanical problems to the appropriate personnel
- Keep their trucks and associated equipment clean and in good working order

Most heavy and tractor-trailer truck drivers' routes are assigned by a dispatcher, but some independent drivers still plan their own routes. When planning routes, drivers must take into account any road restrictions that prohibit large trucks. Drivers also must plan legally required rest periods into their trip.

Some drivers have one or two routes that they drive regularly, and others drivers take many different routes throughout the country. In addition, some drivers have routes that include Mexico or Canada.

Companies sometimes use two drivers, known as teams, on long runs in order to minimize downtime. On these team runs, one driver sleeps in a berth behind the cab while the other drives.

Certain cargo requires drivers to adhere to additional safety regulations. Some heavy truck drivers who transport hazardous materials, such as chemical waste, must take special precautions when driving, and may carry specialized safety equipment in case of an accident. Other drivers, such as those carrying liquids, oversized loads, or cars, must follow rules that apply specifically to them.

Some long-haul truck drivers, also called *owner–operators*, buy or lease trucks and go into business for themselves. In addition to their driving tasks, owner-operators also have business tasks, including finding and keeping clients and doing administrative work, such as accounting.

Heavy and Tractor-trailer Truck Drivers

How to Become a Heavy or Tractor-trailer Truck Driver

About this section

Heavy and tractor-trailer truck drivers usually have a high school diploma and attend a professional truck driving school. They must have a commercial driver's license (CDL).

Drivers learn the federal laws and regulations governing interstate trucking.

Education

Most companies require their truck drivers to have a high school diploma or equivalent.

Many prospective drivers attend professional truck driving schools, where they take training courses to learn how to maneuver large vehicles on highways or through crowded streets. During these classes, drivers also learn the federal laws and regulations governing interstate truck driving. Students may attend either a private truckdriving school or a program at a community college that lasts between 3 and 6 months.

Upon finishing their classes, drivers receive a certificate of completion.

Licenses, Certifications, and Registrations

All long-haul truck drivers must have a commercial driver's license (CDL). Qualifications for obtaining a CDL vary by state but generally include passing both a knowledge test and a driving test. States have the right to refuse to issue a CDL to anyone who has had a CDL suspended by another state.

Drivers can get endorsements to their CDL that show their ability to drive a specialized type of vehicle. Truck drivers transporting hazardous materials (HAZMAT) must have a hazardous materials endorsement (H). Getting this endorsement requires passing an additional knowledge test and a background check.

Federal regulations require CDL drivers to maintain a clean driving record and pass a physical exam every two years. They are also subject to random testing for drug or alcohol abuse. Truck drivers can have their CDL suspended if they are convicted of driving under the influence of alcohol or drugs or are convicted of a felony involving the use of a motor vehicle.

Other actions can result in a suspension after multiple violations. The Federal Motor Carrier Safety Administration website has a list of these violations. Additionally, some companies have stricter standards than what federal regulations require.

Training

After completing truckdriving school and being hired by a company, drivers normally receive several weeks of on-the-job training. During this time, they drive a truck with a more experienced mentor–driver in the passenger seat. This period of on-the-job training is given so that the new drivers will learn more about the specific type of truck they will drive and material they will transport.

Important Qualities

Hand–eye coordination. Drivers of heavy trucks and tractor-trailers must be able to coordinate their legs, hands, and eyes simultaneously so that they will react appropriately to the situation around them and drive the vehicle safely.

Hearing ability. Truck drivers need good hearing. Federal regulations require that a driver be able to hear a forced whisper in one ear at 5 feet (with or without the use of a hearing aid).

Physical health. Federal regulations do not allow people to become truck drivers if they have a medical condition, such as high blood pressure or epilepsy, which may interfere with their ability to operate a truck. The Federal Motor Carrier Safety Administration website has a full list of medical conditions that disqualify someone from driving a long-haul truck.

Visual ability. Truck drivers must be able to pass vision tests. Federal regulations require a driver to have at least 20/40 vision with a 70-degree field of vision in each eye and the ability to distinguish the colors on a traffic light.

Heavy and Tractor-trailer Truck Drivers

Similar Occupations

About this section

This table shows a list of occupations with job duties that are similar to those of heavy and tractor-trailer truck drivers.

	OCCUPATION	JOB DUTIES	ENTRY-LEVEL EDUCATION	2017 MEDIAN PAY
	Bus Drivers	Bus drivers transport people between various places—including work, school, and shopping centers—and across state or national borders. Some drive regular routes, and others transport passengers on chartered trips or sightseeing tours.	High school diploma or equivalent	$33,010
	Delivery Truck Drivers and Driver/Sales Workers	Delivery truck drivers and driver/sales workers pick up, transport, and drop off packages and small shipments within a local region or urban area. They drive trucks with a gross vehicle weight (GVW)—the combined weight of the vehicle, passengers, and cargo—of 26,000 pounds or less. Most of the time, delivery truck drivers transport merchandise from a distribution center to businesses and households.	High school diploma or equivalent	$29,250
	Hand Laborers and Material Movers	Hand laborers and material movers manually move freight, stock, or other materials. Some of these workers may feed or remove material to and from machines, clean vehicles, pick up unwanted household goods, and pack materials for moving.	No formal educational credential	$25,870
	Material Recording Clerks	Material recording clerks track product information in order to keep businesses and supply chains on schedule. They ensure proper scheduling, recordkeeping, and inventory control.	High school diploma or equivalent	$27,600
	Railroad Workers	Workers in railroad occupations ensure that passenger and freight trains run on time and travel safely. Some workers drive trains, some coordinate the activities of the trains, and others operate signals and switches in the rail yard.	High school diploma or equivalent	$59,780
	Taxi Drivers, Ride-Hailing Drivers, and Chauffeurs	Taxi drivers, ride-hailing drivers, and chauffeurs transport people to and from the places they need to go, such as airports, homes, shopping centers, and workplaces. These drivers must know their way around a city to take passengers to their destinations.	No formal educational credential	$24,880
	Water Transportation Workers	Water transportation workers operate and maintain vessels that take cargo and people over water. The vessels travel to and from foreign ports across the ocean and to domestic ports along the coasts, across the Great Lakes, and along the country's many inland waterways.	See How to Become One	$55,590

47-2071.00 Paving, Surfacing, and Tamping Equipment Operators

47-4061.00 Rail-Track Laying and Maintenance Equipment Operators

47-2051.00 Cement Masons and Concrete Finishers

47-4051.00 Highway Maintenance Workers

47-5021.00 Earth Drillers, Except Oil and Gas

33-9032.00 Security Guards

39-4021.00 Funeral Attendants

39-7011.00 Tour Guides and Escorts

47-4041.00 Hazardous Materials Removal Workers

47-4071.00 Septic Tank Servicers and Sewer Pipe Cleaners

47-5081.00 Helpers--Extraction Workers

53-7021.00 Crane and Tower Operators

53-7061.00 Cleaners of Vehicles and Equipment

29-2041.00 Emergency Medical Technicians and Paramedics

33-2011.01 Municipal Firefighters

Police Patrol Officers

33-3051.01

43-5021.00 Couriers and Messengers

43-5052.00 Postal Service Mail Carriers

43-5081.03 Stock Clerks- Stockroom, Warehouse, or Storage Yard

45-2092.02 Farmworkers and Laborers, Crop

45-2093.00 Farmworkers, Farm, Ranch, and Aquacultural Animals

47-2221.00 Structural Iron and Steel Workers

49-3031.00 Bus and Truck Mechanics and Diesel Engine Specialists

49-3041.00 Farm Equipment Mechanics and Service Technicians

51-7042.00 Woodworking Machine Setters, Operators, and Tenders, Except Sawing

53-1031.00 First-Line Supervisors of Transportation and Material-Moving Machine and Vehicle Operators

53-7032.00 Excavating and Loading Machine and Dragline Operators

53-7041.00 Hoist and Winch Operators

53-7051.00 Industrial Truck and Tractor Operators

53-7111.00 Mine Shuttle Car Operators

37-3011.00 Landscaping and Groundskeeping Workers

37-3013.00 Tree Trimmers and Pruners

47-2151.00 Pipelayers

53-6021.00 Parking Lot Attendants

11-3071.01 Transportation Managers

11-3071.02 Storage and Distribution Managers

13-1041.00 Compliance Officers

Licensing Examiners and Inspectors

13-1041.02

13-1151.00 Training and Development Specialists

17-3031.01 Surveying Technicians

25-1194.00 Vocational Education Teachers, Postsecondary

25-2031.00 Secondary School Teachers, Except Special and Career/Technical Education

25-2052.00 Special Education Teachers, Kindergarten and Elementary School

25-3021.00 Self-Enrichment Education Teachers

27-1023.00 Floral Designers

27-2021.00 Athletes and Sports Competitors

35-9099.00 Food Preparation and Serving Related Workers, All Other

37-1012.00 First-Line Supervisors of Landscaping, Lawn Service, and Groundskeeping Workers

39-1011.00 Gaming Supervisors

39-2011.00 Animal Trainers

39-3011.00 Gaming Dealers

39-3012.00 Gaming and Sports Book Writers and Runners

39-6011.00 Baggage Porters and Bellhops

39-9011.00 Childcare Workers

41-9091.00 Door-To-Door Sales Workers, News and Street Vendors, and Related Workers

43-4121.00 Library Assistants, Clerical

43-4151.00 Order Clerks

43-4181.00 Reservation and Transportation Ticket Agents and Travel Clerks

43-5011.00 Cargo and Freight Agents

Shipping, Receiving, and Traffic Clerks

43-5071.00

43-5081.04 Order Fillers, Wholesale and Retail Sales

45-2041.00 Graders and Sorters, Agricultural Products

45-2099.00 Agricultural Workers, All Other

45-4011.00 Forest and Conservation Workers

45-4029.00 Logging Workers, All Other

47-2061.00 Construction Laborers

47-2181.00 Roofers

47-3011.00 Helpers--Brickmasons, Blockmasons, Stonemasons, and Tile and Marble Setters

47-3012.00 Helpers--Carpenters

47-3019.00 Helpers, Construction Trades, All Other

49-3051.00 Motorboat Mechanics and Service Technicians

49-3091.00 Bicycle Repairers

49-9052.00 Telecommunications Line Installers and Repairers

49-9095.00 Manufactured Building and Mobile Home Installers

51-2099.00 Assemblers and Fabricators, All Other

51-3023.00 Slaughterers and Meat Packers

51-4022.00 Forging Machine Setters, Operators, and Tenders, Metal and Plastic

51-4031.00 Cutting, Punching, and Press Machine Setters, Operators, and Tenders, Metal and Plastic

51-4121.06 Welders, Cutters, and Welder Fitters

51-4199.00 Metal Workers and Plastic Workers, All Other

51-5113.00 Print Binding and Finishing Workers

Cabinetmakers and Bench Carpenters

Butler's Exh. 58, p. 005

51-7011.00

51-7021.00 Furniture Finishers

51-7041.00 Sawing Machine Setters, Operators, and Tenders, Wood

51-9061.00 Inspectors, Testers, Sorters, Samplers, and Weighers

51-9196.00 Paper Goods Machine Setters, Operators, and Tenders

51-9198.00 Helpers--Production Workers

51-9199.00 Production Workers, All Other

51-9199.01 Recycling and Reclamation Workers

53-1021.00 First-Line Supervisors of Helpers, Laborers, and Material Movers, Hand

53-3099.00 Motor Vehicle Operators, All Other

53-5021.03 Pilots, Ship

53-6099.00 Transportation Workers, All Other

53-7062.00 Laborers and Freight, Stock, and Material Movers, Hand

53-7199.00 Material Moving Workers, All Other

41-9012.00 Models

41-2011.00 Cashiers

49-3023.01 Automotive Master Mechanics

35-3021.00 Combined Food Preparation and Serving Workers, Including Fast Food

35-3022.00 Counter Attendants, Cafeteria, Food Concession, and Coffee Shop

39-3031.00 Ushers, Lobby Attendants, and Ticket Takers

43-3071.00 Tellers

47-1011.00 First-Line Supervisors of Construction Trades and Extraction Workers

Aircraft Mechanics and Service Technicians

49-3011.00

49-3023.02 Automotive Specialty Technicians

53-6031.00 Automotive and Watercraft Service Attendants

53-7071.00 Gas Compressor and Gas Pumping Station Operators

51-2023.00 Electromechanical Equipment Assemblers

53-7072.00 Pump Operators, Except Wellhead Pumpers

33-9091.00 Crossing Guards

47-5042.00 Mine Cutting and Channeling Machine Operators

47-2053.00 Terrazzo Workers and Finishers

47-3013.00 Helpers--Electricians

53-6051.07 Transportation Vehicle, Equipment and Systems Inspectors, Except Aviation

17-2141.01 Fuel Cell Engineers

17-3029.02 Electrical Engineering Technologists

45-4021.00 Fallers

13-1081.02 Logistics Analysts

33-1011.00 First-Line Supervisors of Correctional Officers

33-1021.02 Forest Fire Fighting and Prevention Supervisors

33-2011.02 Forest Firefighters

33-3012.00 Correctional Officers and Jailers

33-3041.00 Parking Enforcement Workers

37-2011.00 Janitors and Cleaners, Except Maids and Housekeeping Cleaners

37-2021.00 Pest Control Workers

Pesticide Handlers, Sprayers, and Applicators, Vegetation

37-3012.00

39-7012.00 Travel Guides

47-2121.00 Glaziers

47-5013.00 Service Unit Operators, Oil, Gas, and Mining

47-5031.00 Explosives Workers, Ordnance Handling Experts, and Blasters

49-2022.00 Telecommunications Equipment Installers and Repairers, Except Line Installers

49-3093.00 Tire Repairers and Changers

49-9051.00 Electrical Power-Line Installers and Repairers

49-9097.00 Signal and Track Switch Repairers

53-1021.01 Recycling Coordinators

11-9039.02 Fitness and Wellness Coordinators

13-1131.00 Fundraisers

17-2061.00 Computer Hardware Engineers

17-2072.00 Electronics Engineers, Except Computer

17-3023.03 Electrical Engineering Technicians

17-3029.04 Electronics Engineering Technologists

25-4021.00 Librarians

29-1131.00 Veterinarians

33-3051.03 Sheriffs and Deputy Sheriffs

43-5041.00 Meter Readers, Utilities

43-9022.00 Word Processors and Typists

45-1011.07 First-Line Supervisors of Agricultural Crop and Horticultural Workers

Log Graders and Scalers

45-4023.00

47-2111.00 Electricians

47-2211.00 Sheet Metal Workers

47-4031.00 Fence Erectors

47-5041.00 Continuous Mining Machine Operators

47-5051.00 Rock Splitters, Quarry

49-3021.00 Automotive Body and Related Repairers

49-3052.00 Motorcycle Mechanics

49-9071.00 Maintenance and Repair Workers, General

51-4193.00 Plating and Coating Machine Setters, Operators, and Tenders, Metal and Plastic

53-4021.00 Railroad Brake, Signal, and Switch Operators

53-7033.00 Loading Machine Operators, Underground Mining

53-7073.00 Wellhead Pumpers

39-9011.01 Nannies

39-9021.00 Personal Care Aides

O*NET OnLine

Summary Report for:
49-9071.00 - Maintenance and Repair Workers, General

Updated 2019

Bright Outlook

green

Perform work involving the skills of two or more maintenance or craft occupations to keep machines, mechanical equipment, or the structure of an establishment in repair. Duties may involve pipe fitting; boiler making; insulating; welding; machining; carpentry; repairing electrical or mechanical equipment; installing, aligning, and balancing new equipment; and repairing buildings, floors, or stairs.

Sample of reported job titles: Building Maintenance Mechanic, Building Mechanic, Equipment Engineering Technician, Facilities Manager, Maintenance Engineer, Maintenance Man, Maintenance Mechanic, Maintenance Supervisor, Maintenance Technician, Maintenance Worker

Tasks

All 28 displayed

- Inspect, operate, or test machinery or equipment to diagnose machine malfunctions.
- Dismantle machines, equipment, or devices to access and remove defective parts, using hoists, cranes, hand tools, or power tools.
- Perform routine maintenance, such as inspecting drives, motors, or belts, checking fluid levels, replacing filters, or doing other preventive maintenance actions.
- Diagnose mechanical problems and determine how to correct them, checking blueprints, repair manuals, or parts catalogs, as necessary.
- Repair machines, equipment, or structures, using tools such as hammers, hoists, saws, drills, wrenches, or equipment such as precision measuring instruments or electrical or electronic testing devices.
- Maintain or repair specialized equipment or machinery located in cafeterias, laundries, hospitals, stores, offices, or factories.
- Assemble, install, or repair wiring, electrical or electronic components, pipe systems, plumbing, machinery, or equipment.
- Clean or lubricate shafts, bearings, gears, or other parts of machinery.
- Adjust functional parts of devices or control instruments, using hand tools, levels, plumb bobs, or straightedges.
- Order parts, supplies, or equipment from catalogs or suppliers.
- Plan and lay out repair work, using diagrams, drawings, blueprints, maintenance manuals, or schematic diagrams.
- Perform general cleaning duties of buildings or properties.
- Paint or repair roofs, windows, doors, floors, woodwork, plaster, drywall, or other parts of building structures.
- Operate cutting torches or welding equipment to cut or join metal parts.
- Record type and cost of maintenance or repair work.

- Assemble boilers at installation sites, using tools such as levels, plumb bobs, hammers, torches, or other hand tools.
- Test and treat water supply.
- Perform routine maintenance on boilers, such as replacing burners or hoses, installing replacement parts, or reinforcing structural weaknesses to ensure optimal boiler efficiency.
- Install equipment to improve the energy or operational efficiency of residential or commercial buildings.
- Set up and operate machine tools to repair or fabricate machine parts, jigs, fixtures, or tools.
- Train or manage maintenance personnel or subcontractors.
- Align and balance new equipment after installation.
- Provide groundskeeping services, such as landscaping or snow removal.
- Inspect used parts to determine changes in dimensional requirements, using rules, calipers, micrometers, or other measuring instruments.
- Fabricate or repair counters, benches, partitions, or other wooden structures, such as sheds or outbuildings.
- Position, attach, or blow insulating materials to prevent energy losses from buildings, pipes, or other structures or objects.
- Estimate costs to repair machinery, equipment, or building structures.
- Grind and reseat valves, using valve-grinding machines.

Technology Skills

All 15 displayed **Show 139 tools used**

- **Calendar and scheduling software** — Computerized time management systems
- **Computer aided design CAD software** — Autodesk AutoCAD ; Computer aided design and drafting software CADD; Dassault Systemes CATIA ; PTC Creo Parametric
- **Data base user interface and query software** — Data entry software ; Yardi
- **Development environment software** — National Instruments LabVIEW
- **Electronic mail software** — IBM Notes ; Microsoft Exchange Server ; Microsoft Outlook
- **Enterprise resource planning ERP software** — SAP
- **Facilities management software** — Computerized maintenance management system CMMS
- **Industrial control software** — Digital direct control DDC energy management software; Supervisory control and data acquisition SCADA software
- **Internet browser software** — Web browser software
- **Office suite software** — Microsoft Office
- **Operating system software** — Apple macOS ; Handheld computer device software ; Microsoft Windows
- **Project management software** — Microsoft Project ; Oracle Primavera Enterprise Project Portfolio Management
- **Spreadsheet software** — Microsoft Excel
- **Video creation and editing software** — YouTube
- **Word processing software** — Microsoft Word

Hot Technology — a technology requirement frequently included in employer job postings.

Knowledge

All 5 displayed

- **Mechanical** — Knowledge of machines and tools, including their designs, uses, repair, and maintenance.
- **Building and Construction** — Knowledge of materials, methods, and the tools involved in the construction or repair of houses, buildings, or other structures such as highways and roads.
- **Customer and Personal Service** — Knowledge of principles and processes for providing customer and personal services. This includes customer needs assessment, meeting quality standards for services, and evaluation of customer satisfaction.
- **Public Safety and Security** — Knowledge of relevant equipment, policies, procedures, and strategies to promote effective local, state, or national security operations for the protection of people, data, property, and institutions.
- **English Language** — Knowledge of the structure and content of the English language including the meaning and spelling of words, rules of composition, and grammar.

back to top

Skills

All 17 displayed

- **Equipment Maintenance** — Performing routine maintenance on equipment and determining when and what kind of maintenance is needed.
- **Repairing** — Repairing machines or systems using the needed tools.
- **Troubleshooting** — Determining causes of operating errors and deciding what to do about it.
- **Critical Thinking** — Using logic and reasoning to identify the strengths and weaknesses of alternative solutions, conclusions or approaches to problems.
- **Equipment Selection** — Determining the kind of tools and equipment needed to do a job.
- **Monitoring** — Monitoring/Assessing performance of yourself, other individuals, or organizations to make improvements or take corrective action.
- **Operation and Control** — Controlling operations of equipment or systems.
- **Operation Monitoring** — Watching gauges, dials, or other indicators to make sure a machine is working properly.
- **Active Learning** — Understanding the implications of new information for both current and future problem-solving and decision-making.
- **Complex Problem Solving** — Identifying complex problems and reviewing related information to develop and evaluate options and implement solutions.
- **Coordination** — Adjusting actions in relation to others' actions.
- **Installation** — Installing equipment, machines, wiring, or programs to meet specifications.
- **Judgment and Decision Making** — Considering the relative costs and benefits of potential actions to choose the most appropriate one.
- **Quality Control Analysis** — Conducting tests and inspections of products, services, or processes to evaluate quality or performance.
- **Reading Comprehension** — Understanding written sentences and paragraphs in work related documents.
- **Speaking** — Talking to others to convey information effectively.

Time Management — Managing one's own time and the time of others.

back to top

Abilities

All 26 displayed

- **Arm-Hand Steadiness** — The ability to keep your hand and arm steady while moving your arm or while holding your arm and hand in one position.
- **Manual Dexterity** — The ability to quickly move your hand, your hand together with your arm, or your two hands to grasp, manipulate, or assemble objects.
- **Near Vision** — The ability to see details at close range (within a few feet of the observer).
- **Information Ordering** — The ability to arrange things or actions in a certain order or pattern according to a specific rule or set of rules (e.g., patterns of numbers, letters, words, pictures, mathematical operations).
- **Problem Sensitivity** — The ability to tell when something is wrong or is likely to go wrong. It does not involve solving the problem, only recognizing there is a problem.
- **Finger Dexterity** — The ability to make precisely coordinated movements of the fingers of one or both hands to grasp, manipulate, or assemble very small objects.
- **Multilimb Coordination** — The ability to coordinate two or more limbs (for example, two arms, two legs, or one leg and one arm) while sitting, standing, or lying down. It does not involve performing the activities while the whole body is in motion.
- **Visualization** — The ability to imagine how something will look after it is moved around or when its parts are moved or rearranged.
- **Static Strength** — The ability to exert maximum muscle force to lift, push, pull, or carry objects.
- **Control Precision** — The ability to quickly and repeatedly adjust the controls of a machine or a vehicle to exact positions.
- **Deductive Reasoning** — The ability to apply general rules to specific problems to produce answers that make sense.
- **Far Vision** — The ability to see details at a distance.
- **Flexibility of Closure** — The ability to identify or detect a known pattern (a figure, object, word, or sound) that is hidden in other distracting material.
- **Inductive Reasoning** — The ability to combine pieces of information to form general rules or conclusions (includes finding a relationship among seemingly unrelated events).
- **Oral Comprehension** — The ability to listen to and understand information and ideas presented through spoken words and sentences.
- **Perceptual Speed** — The ability to quickly and accurately compare similarities and differences among sets of letters, numbers, objects, pictures, or patterns. The things to be compared may be presented at the same time or one after the other. This ability also includes comparing a presented object with a remembered object.
- **Selective Attention** — The ability to concentrate on a task over a period of time without being distracted.
- **Speech Recognition** — The ability to identify and understand the speech of another person.
- **Trunk Strength** — The ability to use your abdominal and lower back muscles to support part of the body repeatedly or continuously over time without 'giving out' or fatiguing.
- **Category Flexibility** — The ability to generate or use different sets of rules for combining or grouping things in different ways.
- **Extent Flexibility** — The ability to bend, stretch, twist, or reach with your body, arms, and/or legs.
- **Gross Body Coordination** — The ability to coordinate the movement of your arms, legs, and torso together when the whole body is in motion.

- **Oral Expression** — The ability to communicate information and ideas in speaking so others will understand.
- **Speech Clarity** — The ability to speak clearly so others can understand you.
- **Visual Color Discrimination** — The ability to match or detect differences between colors, including shades of color and brightness.
- **Written Comprehension** — The ability to read and understand information and ideas presented in writing.

back to top

Work Activities

All 13 displayed

- **Inspecting Equipment, Structures, or Material** — Inspecting equipment, structures, or materials to identify the cause of errors or other problems or defects.
- **Handling and Moving Objects** — Using hands and arms in handling, installing, positioning, and moving materials, and manipulating things.
- **Performing General Physical Activities** — Performing physical activities that require considerable use of your arms and legs and moving your whole body, such as climbing, lifting, balancing, walking, stooping, and handling of materials.
- **Getting Information** — Observing, receiving, and otherwise obtaining information from all relevant sources.
- **Repairing and Maintaining Mechanical Equipment** — Servicing, repairing, adjusting, and testing machines, devices, moving parts, and equipment that operate primarily on the basis of mechanical (not electronic) principles.
- **Establishing and Maintaining Interpersonal Relationships** — Developing constructive and cooperative working relationships with others, and maintaining them over time.
- **Monitor Processes, Materials, or Surroundings** — Monitoring and reviewing information from materials, events, or the environment, to detect or assess problems.
- **Identifying Objects, Actions, and Events** — Identifying information by categorizing, estimating, recognizing differences or similarities, and detecting changes in circumstances or events.
- **Making Decisions and Solving Problems** — Analyzing information and evaluating results to choose the best solution and solve problems.
- **Communicating with Supervisors, Peers, or Subordinates** — Providing information to supervisors, co-workers, and subordinates by telephone, in written form, e-mail, or in person.
- **Controlling Machines and Processes** — Using either control mechanisms or direct physical activity to operate machines or processes (not including computers or vehicles).
- **Repairing and Maintaining Electronic Equipment** — Servicing, repairing, calibrating, regulating, fine-tuning, or testing machines, devices, and equipment that operate primarily on the basis of electrical or electronic (not mechanical) principles.
- **Assisting and Caring for Others** — Providing personal assistance, medical attention, emotional support, or other personal care to others such as coworkers, customers, or patients.

Detailed Work Activities

All 37 displayed

- Disassemble equipment for maintenance or repair.
- Inspect mechanical components of vehicles to identify problems.
- Inspect mechanical equipment to locate damage, defects, or wear.

Butler's Exh. 59, p. 005

- Operate cranes, hoists, or other moving or lifting equipment.
- Read technical information needed to perform maintenance or repairs.
- Replace worn, damaged, or defective mechanical parts.
- Test mechanical equipment to ensure proper functioning.
- Troubleshoot equipment or systems operation problems.
- Maintain work equipment or machinery.
- Assemble mechanical components or machine parts.
- Assemble electrical components, subsystems, or systems.
- Install electrical components, equipment, or systems.
- Repair electrical circuits or wiring.
- Test fluids to identify contamination or other problems.
- Adjust equipment to ensure optimal performance.
- Clean equipment, parts, or tools to repair or maintain them in good working order.
- Lubricate equipment to allow proper functioning.
- Order materials, supplies, or equipment.
- Install machine or equipment replacement parts.
- Lay out work according to specifications.
- Plan work procedures.
- Install energy-efficient heating, ventilation, or air conditioning (HVAC) equipment.
- Clean work areas.
- Fabricate parts or components.
- Paint surfaces or equipment.
- Supervise employees.
- Train others in operational procedures.
- Align equipment or machinery.
- Operate welding equipment.
- Record information about parts, materials or repair procedures.
- Assemble structural components.
- Measure distances or dimensions.
- Estimate costs for labor or materials.
- Install insulation in equipment or structures.
- Grind parts to required dimensions.
- Develop equipment or component configurations.
- Repair structural components.

Work Context

All 39 displayed

- **Face-to-Face Discussions** — 92% responded "Every day."
- **Spend Time Using Your Hands to Handle, Control, or Feel Objects, Tools, or Controls** — 72% responded "Continually or almost continually."

- **Wear Common Protective or Safety Equipment such as Safety Shoes, Glasses, Gloves, Hearing Protection, Hard Hats, or Life Jackets** — 74% responded "Every day."
- **Exposed to Contaminants** — 65% responded "Every day."
- **Spend Time Standing** — 52% responded "Continually or almost continually."
- **Contact With Others** — 58% responded "Constant contact with others."
- **Importance of Being Exact or Accurate** — 44% responded "Very important."
- **Exposed to Hazardous Equipment** — 47% responded "Once a week or more but not every day."
- **Frequency of Decision Making** — 63% responded "Every day."
- **Structured versus Unstructured Work** — 53% responded "Some freedom."
- **Work With Work Group or Team** — 38% responded "Extremely important."
- **Freedom to Make Decisions** — 46% responded "A lot of freedom."
- **Indoors, Not Environmentally Controlled** — 41% responded "Once a week or more but not every day."
- **Spend Time Walking and Running** — 42% responded "Continually or almost continually."
- **Impact of Decisions on Co-workers or Company Results** — 43% responded "Very important results."
- **Indoors, Environmentally Controlled** — 57% responded "Every day."
- **Outdoors, Exposed to Weather** — 45% responded "Once a week or more but not every day."
- **Sounds, Noise Levels Are Distracting or Uncomfortable** — 47% responded "Every day."
- **Physical Proximity** — 49% responded "Moderately close (at arm's length)."
- **Responsible for Others' Health and Safety** — 36% responded "Very high responsibility."
- **Telephone** — 54% responded "Every day."
- **Spend Time Bending or Twisting the Body** — 33% responded "Continually or almost continually."
- **Time Pressure** — 40% responded "Once a month or more but not every week."
- **Exposed to Hazardous Conditions** — 45% responded "Once a week or more but not every day."
- **Duration of Typical Work Week** — 72% responded "40 hours."
- **Exposed to High Places** — 33% responded "Once a week or more but not every day."
- **Spend Time Making Repetitive Motions** — 32% responded "Continually or almost continually."
- **Exposed to Minor Burns, Cuts, Bites, or Stings** — 41% responded "Once a week or more but not every day."
- **Responsibility for Outcomes and Results** — 31% responded "Moderate responsibility."
- **Electronic Mail** — 45% responded "Every day."
- **Deal With Unpleasant or Angry People** — 34% responded "Every day."
- **Very Hot or Cold Temperatures** — 28% responded "Once a month or more but not every week."
- **Cramped Work Space, Awkward Positions** — 38% responded "Once a week or more but not every day."
- **Extremely Bright or Inadequate Lighting** — 27% responded "Once a week or more but not every day."
- **Letters and Memos** — 41% responded "Every day."
- **Coordinate or Lead Others** — 41% responded "Important."
- **Deal With External Customers** — 39% responded "Very important."
- **Frequency of Conflict Situations** — 33% responded "Once a week or more but not every day."
- **Spend Time Kneeling, Crouching, Stooping, or Crawling** — 48% responded "Less than half the time."

Butler's Exh. 59, p. 007

Job Zone

Title Job Zone Three: Medium Preparation Needed

Education Most occupations in this zone require training in vocational schools, related on-the-job experience, or an associate's degree.

Related Experience Previous work-related skill, knowledge, or experience is required for these occupations. For example, an electrician must have completed three or four years of apprenticeship or several years of vocational training, and often must have passed a licensing exam, in order to perform the job.

Job Training Employees in these occupations usually need one or two years of training involving both on-the-job experience and informal training with experienced workers. A recognized apprenticeship program may be associated with these occupations.

Job Zone Examples These occupations usually involve using communication and organizational skills to coordinate, supervise, manage, or train others to accomplish goals. Examples include hydroelectric production managers, travel guides, electricians, agricultural technicians, barbers, court reporters, and medical assistants.

SVP Range (6.0 to < 7.0)

back to top

Education

Percentage of Respondents	Education Level Required
37	High school diploma or equivalent
30	Post-secondary certificate
15	Less than high school diploma

Interests

All 3 displayed

Interest code: **RCI** Want to discover your interests? Take the O*NET Interest Profiler at My Next Move.

- **Realistic** — Realistic occupations frequently involve work activities that include practical, hands-on problems and solutions. They often deal with plants, animals, and real-world materials like wood, tools, and machinery. Many of the occupations require working outside, and do not involve a lot of paperwork or working closely with others.
- **Conventional** — Conventional occupations frequently involve following set procedures and routines. These occupations can include working with data and details more than with ideas. Usually there is a clear line of authority to follow.

- **Investigative** — Investigative occupations frequently involve working with ideas, and require an extensive amount of thinking. These occupations can involve searching for facts and figuring out problems mentally.

back to top

Work Styles

All 16 displayed

- **Integrity** — Job requires being honest and ethical.
- **Attention to Detail** — Job requires being careful about detail and thorough in completing work tasks.
- **Cooperation** — Job requires being pleasant with others on the job and displaying a good-natured, cooperative attitude.
- **Dependability** — Job requires being reliable, responsible, and dependable, and fulfilling obligations.
- **Independence** — Job requires developing one's own ways of doing things, guiding oneself with little or no supervision, and depending on oneself to get things done.
- **Self Control** — Job requires maintaining composure, keeping emotions in check, controlling anger, and avoiding aggressive behavior, even in very difficult situations.
- **Concern for Others** — Job requires being sensitive to others' needs and feelings and being understanding and helpful on the job.
- **Adaptability/Flexibility** — Job requires being open to change (positive or negative) and to considerable variety in the workplace.
- **Analytical Thinking** — Job requires analyzing information and using logic to address work-related issues and problems.
- **Initiative** — Job requires a willingness to take on responsibilities and challenges.
- **Persistence** — Job requires persistence in the face of obstacles.
- **Innovation** — Job requires creativity and alternative thinking to develop new ideas for and answers to work-related problems.
- **Stress Tolerance** — Job requires accepting criticism and dealing calmly and effectively with high stress situations.
- **Achievement/Effort** — Job requires establishing and maintaining personally challenging achievement goals and exerting effort toward mastering tasks.
- **Leadership** — Job requires a willingness to lead, take charge, and offer opinions and direction.
- **Social Orientation** — Job requires preferring to work with others rather than alone, and being personally connected with others on the job.

Work Values

All 3 displayed

- **Support** — Occupations that satisfy this work value offer supportive management that stands behind employees. Corresponding needs are Company Policies, Supervision: Human Relations and Supervision: Technical.
- **Independence** — Occupations that satisfy this work value allow employees to work on their own and make decisions. Corresponding needs are Creativity, Responsibility and Autonomy.
- **Relationships** — Occupations that satisfy this work value allow employees to provide service to others and work with co-workers in a friendly non-competitive environment. Corresponding needs are Co-workers, Moral Values and Social Service.

Butler's Exh. 59, p. 011

O*NET OnLine

Details Report for:

49-9071.00 - Maintenance and Repair Workers, General

Updated 2019

Bright Outlook

green

Perform work involving the skills of two or more maintenance or craft occupations to keep machines, mechanical equipment, or the structure of an establishment in repair. Duties may involve pipe fitting; boiler making; insulating; welding; machining; carpentry; repairing electrical or mechanical equipment; installing, aligning, and balancing new equipment; and repairing buildings, floors, or stairs.

Sample of reported job titles: Building Maintenance Mechanic, Building Mechanic, Equipment Engineering Technician, Facilities Manager, Maintenance Engineer, Maintenance Man, Maintenance Mechanic, Maintenance Supervisor, Maintenance Technician, Maintenance Worker

Tasks

Save Table (XLS/CSV)

All 30 displayed (28 important)

Importance	Category	Task
71	Core	Inspect, operate, or test machinery or equipment to diagnose machine malfunctions.
71	Core	Dismantle machines, equipment, or devices to access and remove defective parts, using hoists, cranes, hand tools, or power tools.
71	Core	Perform routine maintenance, such as inspecting drives, motors, or belts, checking fluid levels, replacing filters, or doing other preventive maintenance actions.
71	Core	Diagnose mechanical problems and determine how to correct them, checking blueprints, repair manuals, or parts catalogs, as necessary.
69	Core	Repair machines, equipment, or structures, using tools such as hammers, hoists, saws, drills, wrenches, or equipment such as precision measuring instruments or electrical or electronic testing devices.
68	Core	Maintain or repair specialized equipment or machinery located in cafeterias, laundries, hospitals, stores, offices, or factories.
67	Core	Assemble, install, or repair wiring, electrical or electronic components, pipe systems, plumbing, machinery, or equipment.
65	Core	Clean or lubricate shafts, bearings, gears, or other parts of machinery.
65	Core	Adjust functional parts of devices or control instruments, using hand tools, levels, plumb bobs, or straightedges.
64	Core	Order parts, supplies, or equipment from catalogs or suppliers.
63	Core	Plan and lay out repair work, using diagrams, drawings, blueprints, maintenance manuals, or schematic diagrams.

61	Core	Perform general cleaning duties of buildings or properties.
59	Core	Paint or repair roofs, windows, doors, floors, woodwork, plaster, drywall, or other parts of building structures.
54	Core	Operate cutting torches or welding equipment to cut or join metal parts.
54	Core	Record type and cost of maintenance or repair work.
68	Supplemental	Assemble boilers at installation sites, using tools such as levels, plumb bobs, hammers, torches, or other hand tools.
67	Supplemental	Test and treat water supply.
64	Supplemental	Perform routine maintenance on boilers, such as replacing burners or hoses, installing replacement parts, or reinforcing structural weaknesses to ensure optimal boiler efficiency.
63	Supplemental	Install equipment to improve the energy or operational efficiency of residential or commercial buildings.
61	Supplemental	Set up and operate machine tools to repair or fabricate machine parts, jigs, fixtures, or tools.
59	Supplemental	Train or manage maintenance personnel or subcontractors.
58	Supplemental	Align and balance new equipment after installation.
55	Supplemental	Provide groundskeeping services, such as landscaping or snow removal.
54	Supplemental	Inspect used parts to determine changes in dimensional requirements, using rules, calipers, micrometers, or other measuring instruments.
54	Supplemental	Fabricate or repair counters, benches, partitions, or other wooden structures, such as sheds or outbuildings.
53	Supplemental	Position, attach, or blow insulating materials to prevent energy losses from buildings, pipes, or other structures or objects.
53	Supplemental	Estimate costs to repair machinery, equipment, or building structures.
51	Supplemental	Grind and reseat valves, using valve-grinding machines.
49	Supplemental	Design new equipment to aid in the repair or maintenance of machines, mechanical equipment, or building structures.
46	Supplemental	Lay brick to repair or maintain buildings, walls, arches, or other structures.

Tools Used

Save Table (XLS/CSV)

All 139 displayed

- **Adjustable widemouth pliers** — Water pump pliers
- **Adjustable wrenches** — Adjustable crescent wrenches; Adjustable hand wrenches; Adjustable slip lock nut wrenches
- **Air compressors**
- **Alarm systems** — Security alarm systems
- **Ammeters** — Volt-ammeters
- **Augers**
- **Backhoes** — Tractors with backhoe attachments
- **Ball peen hammer** — Ball peen hammers
- **Bench vises** — Workshop bench vises
- **Biscuit jointers** — Biscuit joiners
- **Blocks or pulleys** — Block and tackle equipment
- **Blow torch** — Cutting torches
- **Brooms** — Industrial brooms
- **C clamps** — Locking C-clamps
- **Calipers** — Dial calipers
- **Caulking guns**
- **Claw hammer** — Claw hammers
- **Cold chisels** — Metal chisels
- **Conduit benders**
- **Demolition hammers** — Chipping hammers
- **Desktop computers**
- **Dewatering pumps** — Utility pumps
- **Diagonal cut pliers** — Diagonal cutting pliers
- **Dial indicator or dial gauge** — Dial indicators

- **Dollies**
- **Drain or pipe cleaning equipment** — Drain augers; Drain cleaning cables; Hand spinners; Power drain cleaners (see all 12 examples)
- **Drain or toilet plunger** — Plungers
- **Drilling machines** — Drill presses
- **Dump trucks**
- **End cut pliers** — Side cutting pliers
- **Feeler gauges**
- **Fish tape** — Fish tape pullers
- **Front end loaders** — Two-wheel drive front end loaders
- **Fuse pullers**
- **Gas welding or brazing or cutting apparatus** — Gas welders
- **Goggles** — Safety goggles
- **Grease guns**
- **Grinders** — Hand grinders
- **Grinding machines** — Valve grinding machines
- **Hacksaw** — Hacksaws; Mini hacksaws
- **Hammer drills** — Rotary hammers
- **Hammers** — Dead blow hammers
- **Hand sprayers** — Hand operated spray guns
- **Hand trucks or accessories** — Hand trucks
- **Hedge clippers** — Electric trimmers
- **Hex keys** — Allen wrenches; Hex key sets; Hex wrenches
- **Hoists** — Hoisting equipment
- **Hole saws** — Circle cutters; Hole cutting tools
- **Hose cutter** — Gasket cutters
- **Hydraulic truck cranes** — Hydraulic boom trucks
- **Inspection mirror** — Inspection mirrors
- **Jacks** — Hand jacks
- **Ladders** — Step ladders
- **Lawnmowers** — Lawn mowers
- **Levels** — Bubble levels; Hand levels; Spirit levels
- **Lifts** — Power lifts
- **Liquid leak detectors** — Ultrasonic leak detectors
- **Locking pliers** — Channel lock pliers; Vise grip pliers
- **Micrometers** — Digital micrometers
- **Mitre box** — Mitre boxes
- **Needlenose pliers**
- **Notebook computers** — Laptop computers
- **Nut drivers** — Universal nut wrenches
- **Offset socket wrenches** — Hollow core socket wrenches
- **Ohmmeters** — Volt-ohm meters VOM
- **Oil can** — Oil dispensing cans

- **Paint brushes** — Paint application brushes
- **Paint rollers** — Paint application rollers
- **Paint sprayers** — Paint spray guns
- **Personal computers**
- **Picks** — Ice picks
- **Pipe or tube cutter** — Pipe cutters; Power pipe cutters; Ratcheting polyvinyl chloride PVC cutters; Tubing cutters (see all 10 examples)
- **Pipe vises** — Pipe welding vises; Welding clamps
- **Pipe wrenches** — End pipe wrenches; Offset pipe wrenches; Straight pipe wrenches
- **Plumb bobs**
- **Pneumatic hammer** — Jackhammers
- **Portable data input terminals** — Handheld computers
- **Power drills** — Cordless power drills; Direct tap machines; Hammer drills; Right-angle drills (see all 5 examples)
- **Power flaring tool** — Flaring tools
- **Power nail guns** — Electric nail guns
- **Power planes** — Electric planers
- **Power routers**
- **Power sanders** — Electric sanders
- **Power saws** — Circular saws; Radial arm saws; Reciprocating saws; Tile saws (see all 7 examples)
- **Precision file** — Precision files
- **Pressure or steam cleaners** — High pressure water sprayers
- **Protective gloves** — Safety gloves
- **Pry bars** — Crowbars
- **Pullers** — Bearing pullers; Chain pullers; Comealongs; Tub drain removers (see all 7 examples)
- **Punches or nail sets or drifts** — Center punches; Pin punches
- **Putty knives**
- **Ratchets** — Manual ratchet threader sets; Ratchet wrenches
- **Respirators** — Dust and particulate respirators
- **Rubber mallet** — Rubber mallets
- **Rulers**
- **Safety harnesses or belts** — Protective harnesses
- **Safety shoes**
- **Saws** — Hand saws
- **Scaffolding**
- **Screw extractors** — Screw extractor sets
- **Screwdrivers** — Flat blade screwdrivers; Phillips head screwdrivers; Straight screwdrivers
- **Scribers**
- **Sewage pumps**
- **Sharpening stones or tools or kits** — Sharpening equipment
- **Shears**
- **Shielded metal arc welding or stick welding machine** — Shielded arc welding tools
- **Shovels** — Snow shovels

- **Sledge hammer** — Sledgehammers
- **Slings** — Rigging equipment
- **Slip or groove joint pliers** — Slip joint pliers
- **Snow blowers**
- **Snowplow attachments** — Snowplows
- **Socket sets** — Socket wrench sets
- **Soldering iron** — Soldering equipment
- **Specialty wrenches** — Basin wrenches
- **Spot welding machine** — Portable welding machines; Welders
- **Squares** — Combination squares
- **Straight edges** — Straightedges
- **Stripping tools** — Wire strippers
- **Stud finders** — Stud locators
- **Tape measures** — Measuring tapes
- **Tensiometers** — Tension gauges
- **Threading dies** — Pipe threaders
- **Threading taps** — Tap sets
- **Tinners snips** — Tin snips
- **Torque wrenches**
- **Tracer or duplicating or contouring lathe** — Lathes
- **Trenching machines** — Trenchers
- **Trowels** — Concrete trowels
- **Tube bending machine** — Tube benders
- **Two way radios** — Portable two way radios
- **Utility knives**
- **Voltage or current meters** — Current testers; Voltage testers
- **Water samplers**
- **Welder torch** — Brazing equipment
- **Wire cutters** — Wire cutting tools
- **Wire lug crimping tool** — Wire crimpers
- **Wire or cable cutter** — Conduit cutters
- **Workshop cranes**

Knowledge

Save Table (XLS/CSV)

All 33 displayed (5 important)

Importance	Knowledge
67	**Mechanical** — Knowledge of machines and tools, including their designs, uses, repair, and maintenance.
59	**Building and Construction** — Knowledge of materials, methods, and the tools involved in the construction or repair of houses, buildings, or other structures such as highways and roads.
57	

Butler's Exh. 60, p. 006

Customer and Personal Service — Knowledge of principles and processes for providing customer and personal services. This includes customer needs assessment, meeting quality standards for services, and evaluation of customer satisfaction.

56 **Public Safety and Security** — Knowledge of relevant equipment, policies, procedures, and strategies to promote effective local, state, or national security operations for the protection of people, data, property, and institutions.

51 **English Language** — Knowledge of the structure and content of the English language including the meaning and spelling of words, rules of composition, and grammar.

42 **Engineering and Technology** — Knowledge of the practical application of engineering science and technology. This includes applying principles, techniques, procedures, and equipment to the design and production of various goods and services.

40 **Computers and Electronics** — Knowledge of circuit boards, processors, chips, electronic equipment, and computer hardware and software, including applications and programming.

40 **Mathematics** — Knowledge of arithmetic, algebra, geometry, calculus, statistics, and their applications.

35 **Chemistry** — Knowledge of the chemical composition, structure, and properties of substances and of the chemical processes and transformations that they undergo. This includes uses of chemicals and their interactions, danger signs, production techniques, and disposal methods.

33 **Administration and Management** — Knowledge of business and management principles involved in strategic planning, resource allocation, human resources modeling, leadership technique, production methods, and coordination of people and resources.

33 **Education and Training** — Knowledge of principles and methods for curriculum and training design, teaching and instruction for individuals and groups, and the measurement of training effects.

31 **Design** — Knowledge of design techniques, tools, and principles involved in production of precision technical plans, blueprints, drawings, and models.

30 **Physics** — Knowledge and prediction of physical principles, laws, their interrelationships, and applications to understanding fluid, material, and atmospheric dynamics, and mechanical, electrical, atomic and sub- atomic structures and processes.

30 **Production and Processing** — Knowledge of raw materials, production processes, quality control, costs, and other techniques for maximizing the effective manufacture and distribution of goods.

30 **Psychology** — Knowledge of human behavior and performance; individual differences in ability, personality, and interests; learning and motivation; psychological research methods; and the assessment and treatment of behavioral and affective disorders.

28 **Telecommunications** — Knowledge of transmission, broadcasting, switching, control, and operation of telecommunications systems.

28 **Transportation** — Knowledge of principles and methods for moving people or goods by air, rail, sea, or road, including the relative costs and benefits.

23 **Geography** — Knowledge of principles and methods for describing the features of land, sea, and air masses, including their physical characteristics, locations, interrelationships, and distribution of plant, animal, and human life.

22 **Law and Government** — Knowledge of laws, legal codes, court procedures, precedents, government regulations, executive orders, agency rules, and the democratic political process.

Butler's Exh. 60, p. 007

22 **Personnel and Human Resources** — Knowledge of principles and procedures for personnel recruitment, selection, training, compensation and benefits, labor relations and negotiation, and personnel information systems.

19 **Clerical** — Knowledge of administrative and clerical procedures and systems such as word processing, managing files and records, stenography and transcription, designing forms, and other office procedures and terminology.

19 **Communications and Media** — Knowledge of media production, communication, and dissemination techniques and methods. This includes alternative ways to inform and entertain via written, oral, and visual media.

16 **Biology** — Knowledge of plant and animal organisms, their tissues, cells, functions, interdependencies, and interactions with each other and the environment.

15 **Sociology and Anthropology** — Knowledge of group behavior and dynamics, societal trends and influences, human migrations, ethnicity, cultures and their history and origins.

14 **Economics and Accounting** — Knowledge of economic and accounting principles and practices, the financial markets, banking and the analysis and reporting of financial data.

14 **Philosophy and Theology** — Knowledge of different philosophical systems and religions. This includes their basic principles, values, ethics, ways of thinking, customs, practices, and their impact on human culture.

13 **Foreign Language** — Knowledge of the structure and content of a foreign (non-English) language including the meaning and spelling of words, rules of composition and grammar, and pronunciation.

10 **Food Production** — Knowledge of techniques and equipment for planting, growing, and harvesting food products (both plant and animal) for consumption, including storage/handling techniques.

10 **Medicine and Dentistry** — Knowledge of the information and techniques needed to diagnose and treat human injuries, diseases, and deformities. This includes symptoms, treatment alternatives, drug properties and interactions, and preventive health-care measures.

10 **Sales and Marketing** — Knowledge of principles and methods for showing, promoting, and selling products or services. This includes marketing strategy and tactics, product demonstration, sales techniques, and sales control systems.

10 **Therapy and Counseling** — Knowledge of principles, methods, and procedures for diagnosis, treatment, and rehabilitation of physical and mental dysfunctions, and for career counseling and guidance.

9 **History and Archeology** — Knowledge of historical events and their causes, indicators, and effects on civilizations and cultures.

2 **Fine Arts** — Knowledge of the theory and techniques required to compose, produce, and perform works of music, dance, visual arts, drama, and sculpture.

back to top

Skills

Save Table (XLS/CSV)

All 35 displayed (17 important)

Importance	Skill
75	**Equipment Maintenance** — Performing routine maintenance on equipment and determining when and what kind of maintenance is needed.

75 **Repairing** — Repairing machines or systems using the needed tools.

66 **Troubleshooting** — Determining causes of operating errors and deciding what to do about it.

53 **Critical Thinking** — Using logic and reasoning to identify the strengths and weaknesses of alternative solutions, conclusions or approaches to problems.

53 **Equipment Selection** — Determining the kind of tools and equipment needed to do a job.

53 **Monitoring** — Monitoring/Assessing performance of yourself, other individuals, or organizations to make improvements or take corrective action.

53 **Operation and Control** — Controlling operations of equipment or systems.

53 **Operation Monitoring** — Watching gauges, dials, or other indicators to make sure a machine is working properly.

50 **Active Learning** — Understanding the implications of new information for both current and future problem-solving and decision-making.

50 **Complex Problem Solving** — Identifying complex problems and reviewing related information to develop and evaluate options and implement solutions.

50 **Coordination** — Adjusting actions in relation to others' actions.

50 **Installation** — Installing equipment, machines, wiring, or programs to meet specifications.

50 **Judgment and Decision Making** — Considering the relative costs and benefits of potential actions to choose the most appropriate one.

50 **Quality Control Analysis** — Conducting tests and inspections of products, services, or processes to evaluate quality or performance.

50 **Reading Comprehension** — Understanding written sentences and paragraphs in work related documents.

50 **Speaking** — Talking to others to convey information effectively.

50 **Time Management** — Managing one's own time and the time of others.

47 **Active Listening** — Giving full attention to what other people are saying, taking time to understand the points being made, asking questions as appropriate, and not interrupting at inappropriate times.

44 **Social Perceptiveness** — Being aware of others' reactions and understanding why they react as they do.

44 **Writing** — Communicating effectively in writing as appropriate for the needs of the audience.

35 **Systems Analysis** — Determining how a system should work and how changes in conditions, operations, and the environment will affect outcomes.

31 **Learning Strategies** — Selecting and using training/instructional methods and procedures appropriate for the situation when learning or teaching new things.

31 **Service Orientation** — Actively looking for ways to help people.

31 **Systems Evaluation** — Identifying measures or indicators of system performance and the actions needed to improve or correct performance, relative to the goals of the system.

28 **Mathematics** — Using mathematics to solve problems.

25 **Instructing** — Teaching others how to do something.

25

- **Management of Material Resources** — Obtaining and seeing to the appropriate use of equipment, facilities, and materials needed to do certain work.

25 — **Management of Personnel Resources** — Motivating, developing, and directing people as they work, identifying the best people for the job.

25 — **Operations Analysis** — Analyzing needs and product requirements to create a design.

25 — **Persuasion** — Persuading others to change their minds or behavior.

25 — **Technology Design** — Generating or adapting equipment and technology to serve user needs.

22 — **Management of Financial Resources** — Determining how money will be spent to get the work done, and accounting for these expenditures.

22 — **Negotiation** — Bringing others together and trying to reconcile differences.

19 — **Science** — Using scientific rules and methods to solve problems.

3 — **Programming** — Writing computer programs for various purposes.

back to top

Abilities

Save Table (XLS/CSV)

All 52 displayed (26 important)

Importance	Ability
69	**Arm-Hand Steadiness** — The ability to keep your hand and arm steady while moving your arm or while holding your arm and hand in one position.
69	**Manual Dexterity** — The ability to quickly move your hand, your hand together with your arm, or your two hands to grasp, manipulate, or assemble objects.
69	**Near Vision** — The ability to see details at close range (within a few feet of the observer).
66	**Information Ordering** — The ability to arrange things or actions in a certain order or pattern according to a specific rule or set of rules (e.g., patterns of numbers, letters, words, pictures, mathematical operations).
66	**Problem Sensitivity** — The ability to tell when something is wrong or is likely to go wrong. It does not involve solving the problem, only recognizing there is a problem.
60	**Finger Dexterity** — The ability to make precisely coordinated movements of the fingers of one or both hands to grasp, manipulate, or assemble very small objects.
60	**Multilimb Coordination** — The ability to coordinate two or more limbs (for example, two arms, two legs, or one leg and one arm) while sitting, standing, or lying down. It does not involve performing the activities while the whole body is in motion.
60	**Visualization** — The ability to imagine how something will look after it is moved around or when its parts are moved or rearranged.
56	**Static Strength** — The ability to exert maximum muscle force to lift, push, pull, or carry objects.
53	**Control Precision** — The ability to quickly and repeatedly adjust the controls of a machine or a vehicle to exact positions.
53	**Deductive Reasoning** — The ability to apply general rules to specific problems to produce answers that make sense.
53	**Far Vision** — The ability to see details at a distance.

53 **Flexibility of Closure** — The ability to identify or detect a known pattern (a figure, object, word, or sound) that is hidden in other distracting material.

53 **Inductive Reasoning** — The ability to combine pieces of information to form general rules or conclusions (includes finding a relationship among seemingly unrelated events).

53 **Oral Comprehension** — The ability to listen to and understand information and ideas presented through spoken words and sentences.

53 **Perceptual Speed** — The ability to quickly and accurately compare similarities and differences among sets of letters, numbers, objects, pictures, or patterns. The things to be compared may be presented at the same time or one after the other. This ability also includes comparing a presented object with a remembered object.

53 **Selective Attention** — The ability to concentrate on a task over a period of time without being distracted.

53 **Speech Recognition** — The ability to identify and understand the speech of another person.

53 **Trunk Strength** — The ability to use your abdominal and lower back muscles to support part of the body repeatedly or continuously over time without 'giving out' or fatiguing.

50 **Category Flexibility** — The ability to generate or use different sets of rules for combining or grouping things in different ways.

50 **Extent Flexibility** — The ability to bend, stretch, twist, or reach with your body, arms, and/or legs.

50 **Gross Body Coordination** — The ability to coordinate the movement of your arms, legs, and torso together when the whole body is in motion.

50 **Oral Expression** — The ability to communicate information and ideas in speaking so others will understand.

50 **Speech Clarity** — The ability to speak clearly so others can understand you.

50 **Visual Color Discrimination** — The ability to match or detect differences between colors, including shades of color and brightness.

50 **Written Comprehension** — The ability to read and understand information and ideas presented in writing.

47 **Auditory Attention** — The ability to focus on a single source of sound in the presence of other distracting sounds.

47 **Stamina** — The ability to exert yourself physically over long periods of time without getting winded or out of breath.

47 **Written Expression** — The ability to communicate information and ideas in writing so others will understand.

41 **Depth Perception** — The ability to judge which of several objects is closer or farther away from you, or to judge the distance between you and an object.

41 **Hearing Sensitivity** — The ability to detect or tell the differences between sounds that vary in pitch and loudness.

41 **Speed of Closure** — The ability to quickly make sense of, combine, and organize information into meaningful patterns.

38 **Gross Body Equilibrium** — The ability to keep or regain your body balance or stay upright when in an unstable position.

35 **Reaction Time** — The ability to quickly respond (with the hand, finger, or foot) to a signal (sound, light, picture) when it appears.

Butler's Exh. 60, p. 011

31 **Fluency of Ideas** — The ability to come up with a number of ideas about a topic (the number of ideas is important, not their quality, correctness, or creativity).

31 **Time Sharing** — The ability to shift back and forth between two or more activities or sources of information (such as speech, sounds, touch, or other sources).

28 **Dynamic Strength** — The ability to exert muscle force repeatedly or continuously over time. This involves muscular endurance and resistance to muscle fatigue.

28 **Mathematical Reasoning** — The ability to choose the right mathematical methods or formulas to solve a problem.

28 **Memorization** — The ability to remember information such as words, numbers, pictures, and procedures.

28 **Number Facility** — The ability to add, subtract, multiply, or divide quickly and correctly.

28 **Originality** — The ability to come up with unusual or clever ideas about a given topic or situation, or to develop creative ways to solve a problem.

28 **Spatial Orientation** — The ability to know your location in relation to the environment or to know where other objects are in relation to you.

28 **Speed of Limb Movement** — The ability to quickly move the arms and legs.

25 **Explosive Strength** — The ability to use short bursts of muscle force to propel oneself (as in jumping or sprinting), or to throw an object.

25 **Glare Sensitivity** — The ability to see objects in the presence of glare or bright lighting.

25 **Response Orientation** — The ability to choose quickly between two or more movements in response to two or more different signals (lights, sounds, pictures). It includes the speed with which the correct response is started with the hand, foot, or other body part.

25 **Sound Localization** — The ability to tell the direction from which a sound originated.

25 **Wrist-Finger Speed** — The ability to make fast, simple, repeated movements of the fingers, hands, and wrists.

22 **Night Vision** — The ability to see under low light conditions.

22 **Peripheral Vision** — The ability to see objects or movement of objects to one's side when the eyes are looking ahead.

22 **Rate Control** — The ability to time your movements or the movement of a piece of equipment in anticipation of changes in the speed and/or direction of a moving object or scene.

16 **Dynamic Flexibility** — The ability to quickly and repeatedly bend, stretch, twist, or reach out with your body, arms, and/or legs.

Work Activities

Save Table (XLS/CSV)

All 41 displayed (13 important)

Importance	Work Activity
77	**Inspecting Equipment, Structures, or Material** — Inspecting equipment, structures, or materials to identify the cause of errors or other problems or defects.
75	**Handling and Moving Objects** — Using hands and arms in handling, installing, positioning, and moving materials, and manipulating things.

Butler's Exh. 60, p. 012

74 **Performing General Physical Activities** — Performing physical activities that require considerable use of your arms and legs and moving your whole body, such as climbing, lifting, balancing, walking, stooping, and handling of materials.

70 **Getting Information** — Observing, receiving, and otherwise obtaining information from all relevant sources.

70 **Repairing and Maintaining Mechanical Equipment** — Servicing, repairing, adjusting, and testing machines, devices, moving parts, and equipment that operate primarily on the basis of mechanical (not electronic) principles.

65 **Establishing and Maintaining Interpersonal Relationships** — Developing constructive and cooperative working relationships with others, and maintaining them over time.

65 **Monitor Processes, Materials, or Surroundings** — Monitoring and reviewing information from materials, events, or the environment, to detect or assess problems.

59 **Identifying Objects, Actions, and Events** — Identifying information by categorizing, estimating, recognizing differences or similarities, and detecting changes in circumstances or events.

59 **Making Decisions and Solving Problems** — Analyzing information and evaluating results to choose the best solution and solve problems.

58 **Communicating with Supervisors, Peers, or Subordinates** — Providing information to supervisors, co-workers, and subordinates by telephone, in written form, e-mail, or in person.

54 **Controlling Machines and Processes** — Using either control mechanisms or direct physical activity to operate machines or processes (not including computers or vehicles).

52 **Repairing and Maintaining Electronic Equipment** — Servicing, repairing, calibrating, regulating, fine-tuning, or testing machines, devices, and equipment that operate primarily on the basis of electrical or electronic (not mechanical) principles.

50 **Assisting and Caring for Others** — Providing personal assistance, medical attention, emotional support, or other personal care to others such as coworkers, customers, or patients.

49 **Evaluating Information to Determine Compliance with Standards** — Using relevant information and individual judgment to determine whether events or processes comply with laws, regulations, or standards.

49 **Operating Vehicles, Mechanized Devices, or Equipment** — Running, maneuvering, navigating, or driving vehicles or mechanized equipment, such as forklifts, passenger vehicles, aircraft, or water craft.

48 **Estimating the Quantifiable Characteristics of Products, Events, or Information** — Estimating sizes, distances, and quantities; or determining time, costs, resources, or materials needed to perform a work activity.

48 **Judging the Qualities of Things, Services, or People** — Assessing the value, importance, or quality of things or people.

48 **Organizing, Planning, and Prioritizing Work** — Developing specific goals and plans to prioritize, organize, and accomplish your work.

48 **Updating and Using Relevant Knowledge** — Keeping up-to-date technically and applying new knowledge to your job.

46 **Thinking Creatively** — Developing, designing, or creating new applications, ideas, relationships, systems, or products, including artistic contributions.

44

Butler's Exh. 60, p. 013

Documenting/Recording Information — Entering, transcribing, recording, storing, or maintaining information in written or electronic/magnetic form.

40 **Coordinating the Work and Activities of Others** — Getting members of a group to work together to accomplish tasks.

40 **Processing Information** — Compiling, coding, categorizing, calculating, tabulating, auditing, or verifying information or data.

39 **Training and Teaching Others** — Identifying the educational needs of others, developing formal educational or training programs or classes, and teaching or instructing others.

38 **Coaching and Developing Others** — Identifying the developmental needs of others and coaching, mentoring, or otherwise helping others to improve their knowledge or skills.

36 **Scheduling Work and Activities** — Scheduling events, programs, and activities, as well as the work of others.

35 **Resolving Conflicts and Negotiating with Others** — Handling complaints, settling disputes, and resolving grievances and conflicts, or otherwise negotiating with others.

34 **Developing and Building Teams** — Encouraging and building mutual trust, respect, and cooperation among team members.

34 **Monitoring and Controlling Resources** — Monitoring and controlling resources and overseeing the spending of money.

33 **Analyzing Data or Information** — Identifying the underlying principles, reasons, or facts of information by breaking down information or data into separate parts.

33 **Guiding, Directing, and Motivating Subordinates** — Providing guidance and direction to subordinates, including setting performance standards and monitoring performance.

32 **Interacting With Computers** — Using computers and computer systems (including hardware and software) to program, write software, set up functions, enter data, or process information.

32 **Interpreting the Meaning of Information for Others** — Translating or explaining what information means and how it can be used.

31 **Performing for or Working Directly with the Public** — Performing for people or dealing directly with the public. This includes serving customers in restaurants and stores, and receiving clients or guests.

30 **Communicating with Persons Outside Organization** — Communicating with people outside the organization, representing the organization to customers, the public, government, and other external sources. This information can be exchanged in person, in writing, or by telephone or e-mail.

30 **Developing Objectives and Strategies** — Establishing long-range objectives and specifying the strategies and actions to achieve them.

29 **Drafting, Laying Out, and Specifying Technical Devices, Parts, and Equipment** — Providing documentation, detailed instructions, drawings, or specifications to tell others about how devices, parts, equipment, or structures are to be fabricated, constructed, assembled, modified, maintained, or used.

28 **Provide Consultation and Advice to Others** — Providing guidance and expert advice to management or other groups on technical, systems-, or process-related topics.

25 **Performing Administrative Activities** — Performing day-to-day administrative tasks such as maintaining information files and processing paperwork.

21

Selling or Influencing Others — Convincing others to buy merchandise/goods or to otherwise change their minds or actions.

17 **Staffing Organizational Units** — Recruiting, interviewing, selecting, hiring, and promoting employees in an organization.

Detailed Work Activities

Save Table (XLS/CSV)

All 37 displayed

- Disassemble equipment for maintenance or repair.
- Inspect mechanical components of vehicles to identify problems.
- Inspect mechanical equipment to locate damage, defects, or wear.
- Operate cranes, hoists, or other moving or lifting equipment.
- Read technical information needed to perform maintenance or repairs.
- Replace worn, damaged, or defective mechanical parts.
- Test mechanical equipment to ensure proper functioning.
- Troubleshoot equipment or systems operation problems.
- Maintain work equipment or machinery.
- Assemble mechanical components or machine parts.
- Assemble electrical components, subsystems, or systems.
- Install electrical components, equipment, or systems.
- Repair electrical circuits or wiring.
- Test fluids to identify contamination or other problems.
- Adjust equipment to ensure optimal performance.
- Clean equipment, parts, or tools to repair or maintain them in good working order.
- Lubricate equipment to allow proper functioning.
- Order materials, supplies, or equipment.
- Install machine or equipment replacement parts.
- Lay out work according to specifications.
- Plan work procedures.
- Install energy-efficient heating, ventilation, or air conditioning (HVAC) equipment.
- Clean work areas.
- Fabricate parts or components.
- Paint surfaces or equipment.
- Supervise employees.
- Train others in operational procedures.
- Align equipment or machinery.
- Operate welding equipment.
- Record information about parts, materials or repair procedures.
- Assemble structural components.
- Measure distances or dimensions.
- Estimate costs for labor or materials.
- Install insulation in equipment or structures.
-

Butler's Exh. 60, p. 015

Grind parts to required dimensions.

- Develop equipment or component configurations.
- Repair structural components.

Work Context

Save Table (XLS/CSV)

All 57 displayed

Work Context	Percentage of Top Responses	
Face-to-Face Discussions — How often do you have to have face-to-face discussions with individuals or teams in this job?	92	Every day
Spend Time Using Your Hands to Handle, Control, or Feel Objects, Tools, or Controls — How much does this job require using your hands to handle, control, or feel objects, tools or controls?	72 23	Continually or almost continually More than half the time
Wear Common Protective or Safety Equipment such as Safety Shoes, Glasses, Gloves, Hearing Protection, Hard Hats, or Life Jackets — How much does this job require wearing common protective or safety equipment such as safety shoes, glasses, gloves, hard hats or life jackets?	74 14	Every day Once a week or more but not every day
Exposed to Contaminants — How often does this job require working exposed to contaminants (such as pollutants, gases, dust or odors)?	65 25	Every day Once a week or more but not every day
Spend Time Standing — How much does this job require standing?	52 33 14	Continually or almost continually More than half the time About half the time
Contact With Others — How much does this job require the worker to be in contact with others (face-to-face, by telephone, or otherwise) in order to perform it?	58 26	Constant contact with others Contact with others most of the time
Importance of Being Exact or Accurate — How important is being very exact or highly accurate in performing this job?	43 44 11	Extremely important Very important Important
Exposed to Hazardous Equipment — How often does this job require exposure to hazardous equipment?	39 47 11	Every day Once a week or more but not every day Once a month or more but not every week
Frequency of Decision Making — How frequently is the worker required to make decisions that affect other people, the financial	63 11 17	Every day Once a week or more but not every day Once a year or more but not every month

resources, and/or the image and reputation of the organization?

- **Structured versus Unstructured Work** — To what extent is this job structured for the worker, rather than allowing the worker to determine tasks, priorities, and goals?
  - 32 A lot of freedom
  - 53 Some freedom

- **Work With Work Group or Team** — How important is it to work with others in a group or team in this job?
  - 38 Extremely important
  - 38 Very important
  - 18 Important

- **Freedom to Make Decisions** — How much decision making freedom, without supervision, does the job offer?
  - 46 A lot of freedom
  - 29 Some freedom
  - 12 Limited freedom

- **Indoors, Not Environmentally Controlled** — How often does this job require working indoors in non-controlled environmental conditions (e.g., warehouse without heat)?
  - 37 Every day
  - 41 Once a week or more but not every day
  - 15 Once a month or more but not every week

- **Spend Time Walking and Running** — How much does this job require walking and running?
  - 42 Continually or almost continually
  - 28 More than half the time
  - 19 About half the time
  - 11 Less than half the time

- **Impact of Decisions on Co-workers or Company Results** — What results do your decisions usually have on other people or the image or reputation or financial resources of your employer?
  - 43 Very important results
  - 24 Important results
  - 18 Moderate results
  - 14 Minor results

- **Indoors, Environmentally Controlled** — How often does this job require working indoors in environmentally controlled conditions?
  - 57 Every day
  - 18 Once a month or more but not every week
  - 17 Never

- **Outdoors, Exposed to Weather** — How often does this job require working outdoors, exposed to all weather conditions?
  - 28 Every day
  - 45 Once a week or more but not every day
  - 13 Once a month or more but not every week
  - 12 Once a year or more but not every month

- **Sounds, Noise Levels Are Distracting or Uncomfortable** — How often does this job require working exposed to sounds and noise levels that are distracting or uncomfortable?
  - 47 Every day
  - 21 Once a week or more but not every day
  - 17 Once a month or more but not every week
  - 14 Never

- **Physical Proximity** — To what extent does this job require the worker to perform job tasks in close physical proximity to other people?
  - 21 Very close (near touching)
  - 49 Moderately close (at arm's length)
  - 20 Slightly close (e.g., shared office)

- **Responsible for Others' Health and Safety** — How much responsibility is there for the health and safety of others in this job?
  - 36 Very high responsibility
  - 21 High responsibility
  - 24 Moderate responsibility
  - 17 Limited responsibility

- **Telephone** — How often do you have telephone conversations in this job?
  - 54 Every day
  - 15 Once a week or more but not every day
  - 20 Never

Butler's Exh. 60, p. 017

Spend Time Bending or Twisting the Body — How much does this job require bending or twisting your body?	33	Continually or almost continually
	27	More than half the time
	20	About half the time
	20	Less than half the time
Time Pressure — How often does this job require the worker to meet strict deadlines?	29	Every day
	23	Once a week or more but not every day
	40	Once a month or more but not every week
Exposed to Hazardous Conditions — How often does this job require exposure to hazardous conditions?	15	Every day
	45	Once a week or more but not every day
	28	Once a month or more but not every week
Duration of Typical Work Week — Number of hours typically worked in one week.	28	More than 40 hours
	72	40 hours
Exposed to High Places — How often does this job require exposure to high places?	19	Every day
	33	Once a week or more but not every day
	33	Once a month or more but not every week
	14	Once a year or more but not every month
Spend Time Making Repetitive Motions — How much does this job require making repetitive motions?	32	Continually or almost continually
	18	More than half the time
	25	About half the time
	23	Less than half the time
Exposed to Minor Burns, Cuts, Bites, or Stings — How often does this job require exposure to minor burns, cuts, bites, or stings?	19	Every day
	41	Once a week or more but not every day
	16	Once a month or more but not every week
	19	Once a year or more but not every month
Responsibility for Outcomes and Results — How responsible is the worker for work outcomes and results of other workers?	27	Very high responsibility
	17	High responsibility
	31	Moderate responsibility
	22	Limited responsibility
Electronic Mail — How often do you use electronic mail in this job?	45	Every day
	13	Once a week or more but not every day
	31	Never
Deal With Unpleasant or Angry People — How frequently does the worker have to deal with unpleasant, angry, or discourteous individuals as part of the job requirements?	34	Every day
	15	Once a week or more but not every day
	15	Once a month or more but not every week
	20	Once a year or more but not every month
	15	Never
Very Hot or Cold Temperatures — How often does this job require working in very hot (above 90 F degrees) or very cold (below 32 F degrees) temperatures?	25	Every day
	16	Once a week or more but not every day
	28	Once a month or more but not every week
	25	Once a year or more but not every month
Cramped Work Space, Awkward Positions — How often does this job require working in cramped work spaces that requires getting into awkward positions?	13	Every day
	38	Once a week or more but not every day
	28	Once a month or more but not every week
	13	Never
Extremely Bright or Inadequate Lighting — How often does this job require working in extremely bright or inadequate lighting conditions?	20	Every day
	27	Once a week or more but not every day
	19	Once a month or more but not every week
	11	Once a year or more but not every month
	23	Never

Letters and Memos — How often does the job require written letters and memos?	41	Every day
	12	Once a month or more but not every week
	11	Once a year or more but not every month
	32	Never
Coordinate or Lead Others — How important is it to coordinate or lead others in accomplishing work activities in this job?	23	Very important
	41	Important
	19	Fairly important
Deal With External Customers — How important is it to work with external customers or the public in this job?	11	Extremely important
	39	Very important
	19	Important
	27	Not important at all
Frequency of Conflict Situations — How often are there conflict situations the employee has to face in this job?	16	Every day
	33	Once a week or more but not every day
	11	Once a month or more but not every week
	16	Once a year or more but not every month
	24	Never
Spend Time Kneeling, Crouching, Stooping, or Crawling — How much does this job require kneeling, crouching, stooping or crawling?	15	Continually or almost continually
	21	More than half the time
	14	About half the time
	48	Less than half the time
Outdoors, Under Cover — How often does this job require working outdoors, under cover (e.g., structure with roof but no walls)?	15	Every day
	17	Once a week or more but not every day
	34	Once a month or more but not every week
	14	Once a year or more but not every month
	21	Never
Spend Time Keeping or Regaining Balance — How much does this job require keeping or regaining your balance?	25	Continually or almost continually
	11	About half the time
	50	Less than half the time
Consequence of Error — How serious would the result usually be if the worker made a mistake that was not readily correctable?	15	Extremely serious
	17	Very serious
	19	Serious
	39	Fairly serious
Importance of Repeating Same Tasks — How important is repeating the same physical activities (e.g., key entry) or mental activities (e.g., checking entries in a ledger) over and over, without stopping, to performing this job?	14	Extremely important
	31	Very important
	11	Important
	16	Fairly important
	28	Not important at all
Exposed to Disease or Infections — How often does this job require exposure to disease/infections?	26	Every day
	18	Once a week or more but not every day
	42	Never
In an Enclosed Vehicle or Equipment — How often does this job require working in a closed vehicle or equipment (e.g., car)?	17	Every day
	22	Once a week or more but not every day
	15	Once a month or more but not every week
	36	Never
Spend Time Climbing Ladders, Scaffolds, or Poles — How much does this job require climbing ladders, scaffolds, or poles?	27	About half the time
	57	Less than half the time
Wear Specialized Protective or Safety Equipment such as Breathing Apparatus,	11	Every day
	13	Once a week or more but not every day
	14	Once a month or more but not every week

Butler's Exh. 60, p. 019

Safety Harness, Full Protection Suits, or Radiation Protection — How much does this job require wearing specialized protective or safety equipment such as breathing apparatus, safety harness, full protection suits, or radiation protection?	47 16	Once a year or more but not every month Never
In an Open Vehicle or Equipment — How often does this job require working in an open vehicle or equipment (e.g., tractor)?	27 17 40	Once a week or more but not every day Once a month or more but not every week Never
Level of Competition — To what extent does this job require the worker to compete or to be aware of competitive pressures?	25 31 33	Highly competitive Moderately competitive Not at all competitive
Pace Determined by Speed of Equipment — How important is it to this job that the pace is determined by the speed of equipment or machinery? (This does not refer to keeping busy at all times on this job.)	15 25 14 41	Extremely important Important Fairly important Not important at all
Degree of Automation — How automated is the job?	32 30 37	Moderately automated Slightly automated Not at all automated
Exposed to Whole Body Vibration — How often does this job require exposure to whole body vibration (e.g., operate a jackhammer)?	16 24 50	Once a week or more but not every day Once a year or more but not every month Never
Spend Time Sitting — How much does this job require sitting?	71 21	Less than half the time Never
Work Schedules — How regular are the work schedules for this job?	40 59	Irregular (changes with weather conditions, production demands, or contract duration) Regular (established routine, set schedule)
Deal With Physically Aggressive People — How frequently does this job require the worker to deal with physical aggression of violent individuals?	15 20 62	Once a month or more but not every week Once a year or more but not every month Never
Public Speaking — How often do you have to perform public speaking in this job?	16 72	Once a year or more but not every month Never
Exposed to Radiation — How often does this job require exposure to radiation?	91	Never

Job Zone

Save Table (XLS/CSV)

Title Job Zone Three: Medium Preparation Needed

Education Most occupations in this zone require training in vocational schools, related on-the-job experience, or an associate's degree.

Butler's Exh. 60, p. 020

Related Experience Previous work-related skill, knowledge, or experience is required for these occupations. For example, an electrician must have completed three or four years of apprenticeship or several years of vocational training, and often must have passed a licensing exam, in order to perform the job.

Job Training Employees in these occupations usually need one or two years of training involving both on-the-job experience and informal training with experienced workers. A recognized apprenticeship program may be associated with these occupations.

Job Zone Examples These occupations usually involve using communication and organizational skills to coordinate, supervise, manage, or train others to accomplish goals. Examples include hydroelectric production managers, travel guides, electricians, agricultural technicians, barbers, court reporters, and medical assistants.

SVP Range (6.0 to < 7.0)

Interests

Save Table (XLS/CSV)

All 6 displayed (2 important)

Occupational Interest	Interest
100	**Realistic** — Realistic occupations frequently involve work activities that include practical, hands-on problems and solutions. They often deal with plants, animals, and real-world materials like wood, tools, and machinery. Many of the occupations require working outside, and do not involve a lot of paperwork or working closely with others.
56	**Conventional** — Conventional occupations frequently involve following set procedures and routines. These occupations can include working with data and details more than with ideas. Usually there is a clear line of authority to follow.
45	**Investigative** — Investigative occupations frequently involve working with ideas, and require an extensive amount of thinking. These occupations can involve searching for facts and figuring out problems mentally.
22	**Enterprising** — Enterprising occupations frequently involve starting up and carrying out projects. These occupations can involve leading people and making many decisions. Sometimes they require risk taking and often deal with business.

Butler's Exh. 60, p. 021

6	**Artistic** — Artistic occupations frequently involve working with forms, designs and patterns. They often require self-expression and the work can be done without following a clear set of rules.
0	**Social** — Social occupations frequently involve working with, communicating with, and teaching people. These occupations often involve helping or providing service to others.

Work Styles

Save Table (XLS/CSV)

All 16 displayed (16 important)

Importance	Work Style
78	**Integrity** — Job requires being honest and ethical.
74	**Attention to Detail** — Job requires being careful about detail and thorough in completing work tasks.
73	**Cooperation** — Job requires being pleasant with others on the job and displaying a good-natured, cooperative attitude.
73	**Dependability** — Job requires being reliable, responsible, and dependable, and fulfilling obligations.
71	**Independence** — Job requires developing one's own ways of doing things, guiding oneself with little or no supervision, and depending on oneself to get things done.
71	**Self Control** — Job requires maintaining composure, keeping emotions in check, controlling anger, and avoiding aggressive behavior, even in very difficult situations.
68	**Concern for Others** — Job requires being sensitive to others' needs and feelings and being understanding and helpful on the job.
66	**Adaptability/Flexibility** — Job requires being open to change (positive or negative) and to considerable variety in the workplace.
65	**Analytical Thinking** — Job requires analyzing information and using logic to address work-related issues and problems.
65	**Initiative** — Job requires a willingness to take on responsibilities and challenges.
64	**Persistence** — Job requires persistence in the face of obstacles.
63	**Innovation** — Job requires creativity and alternative thinking to develop new ideas for and answers to work-related problems.
61	**Stress Tolerance** — Job requires accepting criticism and dealing calmly and effectively with high stress situations.
60	**Achievement/Effort** — Job requires establishing and maintaining personally challenging achievement goals and exerting effort toward mastering tasks.
59	**Leadership** — Job requires a willingness to lead, take charge, and offer opinions and direction.
50	**Social Orientation** — Job requires preferring to work with others rather than alone, and being personally connected with others on the job.

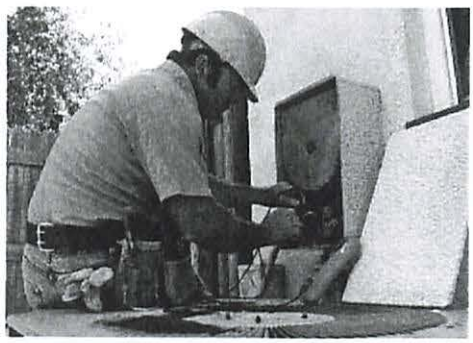
General Maintenance and Repair Workers

Summary

Quick Facts: General Maintenance and Repair Workers	
2017 Median Pay	$37,670 per year $18.11 per hour
Typical Entry-Level Education	High school diploma or equivalent
Work Experience in a Related Occupation	None
On-the-job Training	Moderate-term on-the-job training
Number of Jobs, 2016	1,432,600
Job Outlook, 2016-26	8% (As fast as average)
Employment Change, 2016-26	112,500



Workers use hand tools and power tools to fix appliances and equipment.

What General Maintenance and Repair Workers Do

General maintenance and repair workers fix and maintain machines, mechanical equipment, and buildings. They paint, repair flooring, and work on plumbing, electrical, and air-conditioning and heating systems, among other tasks.

Work Environment

General maintenance and repair workers often carry out many different tasks in a single day. They could work at any number of indoor or outdoor locations. They may work inside a single building, such as a hotel or hospital, or be responsible for the maintenance of many buildings, such as those in an apartment complex or on a college campus.

How to Become a General Maintenance and Repair Worker

Jobs in this occupation typically require a high school diploma or equivalent. General maintenance and repair workers often learn their skills on the job for several years. They start out performing simple tasks while watching and learning from skilled maintenance workers.

Pay

The median annual wage for general maintenance and repair workers was $37,670 in May 2017.

Job Outlook

Employment of general maintenance and repair workers is projected to grow 8 percent from 2016 to 2026, about as fast as the average for all occupations. Employment may rise as increasing home prices and sales drive demand for remodeling and maintenance work.

State & Area Data

Explore resources for employment and wages by state and area for general maintenance and repair workers.

General Maintenance and Repair Workers

What General Maintenance and Repair Workers Do

About this section

General maintenance and repair workers fix and maintain machines, mechanical equipment, and buildings. They paint, repair flooring, and work on plumbing, electrical, and air-conditioning and heating systems.

Duties

General maintenance and repair workers typically do the following:

- Maintain and repair machines, mechanical equipment, and buildings
- Fix or replace faulty electrical switches, outlets, and circuit breakers
- Inspect and diagnose problems and figure out the best way to correct them
- Perform routine preventive maintenance to ensure that machines continue to run smoothly
- Assemble and set up machinery or equipment
- Plan repair work using blueprints or diagrams
- Do general cleaning and upkeep of buildings and properties
- Order supplies from catalogs and storerooms
- Meet with clients to estimate repairs and costs
- Keep detailed records of their work

Workers are responsible for the upkeep of many homes and apartment buildings.

General maintenance and repair workers are hired for maintenance and repair tasks that are not complex enough to need the specialized training of a licensed tradesperson, such as a plumber or electrician.

These workers are also responsible for recognizing when a job is above their skill level and requires the expertise of an electrician; a carpenter; a heating, air-conditioning, and refrigeration mechanic or installer; or a plumber, pipefitter, or steamfitter.

General maintenance and repair workers may fix or paint roofs, windows, doors, floors, woodwork, walls, and other parts of buildings.

They also maintain and repair specialized equipment and machinery in cafeterias, laundries, hospitals, stores, offices, and factories.

General maintenance and repair workers get supplies and parts from distributors or storerooms to fix problems. They use common hand and power tools, such as screwdrivers, saws, drills, wrenches, and hammers to fix, replace, or repair equipment and parts of buildings.

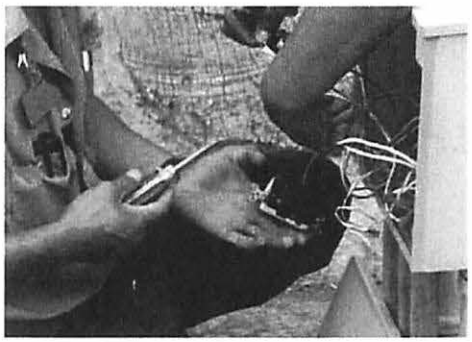
General Maintenance and Repair Workers

How to Become a General Maintenance and Repair Worker

About this section

Jobs in this field typically do not require any formal education beyond high school. General maintenance and repair workers often learn their skills on the job. They start by doing simple tasks and watching and learning from skilled maintenance workers.



Beginners often work under the supervision of more experienced workers.

Education

Many maintenance and repair workers learn some basic skills in high school shop or technical education classes, postsecondary trade or vocational schools, or community colleges.

Courses in mechanical drawing, electricity, woodworking, blueprint reading, mathematics, and computers are useful. Maintenance and repair workers often do work that involves electrical, plumbing, heating, and air-conditioning systems or painting and roofing tasks. Workers need a good working knowledge of many repair and maintenance tasks.

Practical training, available at many adult education centers and community colleges, is another option for workers to learn tasks such as drywall repair and basic plumbing.

Training

General maintenance and repair workers usually start by watching and learning from skilled maintenance workers. They begin by doing simple tasks, such as fixing leaky faucets and replacing lightbulbs. After gaining experience, general maintenance and repair workers move on to more difficult tasks, such as overhauling machinery or building walls.

Some general maintenance and repair workers learn their skills by assisting other types of repair or construction workers, including machinery repairers, carpenters, or electricians.

Licenses, Certifications, and Registrations

Licensing requirements vary by state and locality. For more complex tasks, workers may need to be licensed in a particular specialty, such as electrical or plumbing work.

Advancement

Some maintenance and repair workers decide to train in one specific craft and become craftworkers, such as electricians, heating and air-conditioning mechanics, or plumbers.

Other maintenance workers eventually open their own repair or contracting business. However, those who want to become a project manager or own their own business may need some postsecondary education or a degree in construction management. For more information, see the profile on construction managers.

Within small organizations, promotion opportunities may be limited.

Important Qualities

Customer-service skills. These workers interact with customers on a regular basis. They need to be friendly and able to address customers' questions.

Dexterity. Many repair and maintenance tasks, such as repairing small devices, connecting or attaching components, and using hand tools, require a steady hand and good hand–eye coordination.

Troubleshooting skills. Workers find, diagnose, and repair problems. They perform tests to figure out the cause of problems before fixing equipment.

General Maintenance and Repair Workers

Similar Occupations

About this section

This table shows a list of occupations with job duties that are similar to those of general maintenance and repair workers.

	OCCUPATION	JOB DUTIES	ENTRY-LEVEL EDUCATION	2017 MEDIAN PAY
	Boilermakers	Boilermakers assemble, install, maintain, and repair boilers, closed vats, and other large vessels or containers that hold liquids and gases.	High school diploma or equivalent	$62,260
	Carpenters	Carpenters construct, repair, and install building frameworks and structures made from wood and other materials.	High school diploma or equivalent	$45,170
	Construction Managers	Construction managers plan, coordinate, budget, and supervise construction projects from start to finish.	Bachelor's degree	$91,370
	Electrical and Electronics Installers and Repairers	Electrical and electronics installers and repairers install or repair a variety of electrical equipment in telecommunications, transportation, utilities, and other industries.	See How to Become One	$57,210
	Electricians	Electricians install, maintain, and repair electrical power, communications, lighting, and control systems in homes, businesses, and factories.	High school diploma or equivalent	$54,110
	Heating, Air Conditioning, and Refrigeration Mechanics and Installers	Heating, air conditioning, and refrigeration mechanics and installers—often called *heating, ventilation, air conditioning, and refrigeration (HVACR) technicians*—work on heating, ventilation, cooling, and refrigeration systems that control the temperature and air quality in buildings.	Postsecondary nondegree award	$47,080
	Plumbers, Pipefitters, and Steamfitters	Plumbers, pipefitters, and steamfitters install and repair pipes that carry liquids or gases to, from, and within businesses, homes, and factories.	High school diploma or equivalent	$52,590

Knowledge

All 7 displayed

- **Customer and Personal Service** — Knowledge of principles and processes for providing customer and personal services. This includes customer needs assessment, meeting quality standards for services, and evaluation of customer satisfaction.
- **Administration and Management** — Knowledge of business and management principles involved in strategic planning, resource allocation, human resources modeling, leadership technique, production methods, and coordination of people and resources.
- **English Language** — Knowledge of the structure and content of the English language including the meaning and spelling of words, rules of composition, and grammar.
- **Education and Training** — Knowledge of principles and methods for curriculum and training design, teaching and instruction for individuals and groups, and the measurement of training effects.
- **Personnel and Human Resources** — Knowledge of principles and procedures for personnel recruitment, selection, training, compensation and benefits, labor relations and negotiation, and personnel information systems.
- **Psychology** — Knowledge of human behavior and performance; individual differences in ability, personality, and interests; learning and motivation; psychological research methods; and the assessment and treatment of behavioral and affective disorders.
- **Clerical** — Knowledge of administrative and clerical procedures and systems such as word processing, managing files and records, stenography and transcription, designing forms, and other office procedures and terminology.

back to top

Skills

All 20 displayed

- **Active Listening** — Giving full attention to what other people are saying, taking time to understand the points being made, asking questions as appropriate, and not interrupting at inappropriate times.
- **Critical Thinking** — Using logic and reasoning to identify the strengths and weaknesses of alternative solutions, conclusions or approaches to problems.
- **Management of Personnel Resources** — Motivating, developing, and directing people as they work, identifying the best people for the job.

- **Social Perceptiveness** — Being aware of others' reactions and understanding why they react as they do.
- **Speaking** — Talking to others to convey information effectively.
- **Coordination** — Adjusting actions in relation to others' actions.
- **Time Management** — Managing one's own time and the time of others.
- **Persuasion** — Persuading others to change their minds or behavior.
- **Reading Comprehension** — Understanding written sentences and paragraphs in work related documents.
- **Service Orientation** — Actively looking for ways to help people.
- **Complex Problem Solving** — Identifying complex problems and reviewing related information to develop and evaluate options and implement solutions.
- **Instructing** — Teaching others how to do something.
- **Judgment and Decision Making** — Considering the relative costs and benefits of potential actions to choose the most appropriate one.
- **Monitoring** — Monitoring/Assessing performance of yourself, other individuals, or organizations to make improvements or take corrective action.
- **Negotiation** — Bringing others together and trying to reconcile differences.
- **Writing** — Communicating effectively in writing as appropriate for the needs of the audience.
- **Active Learning** — Understanding the implications of new information for both current and future problem-solving and decision-making.
- **Learning Strategies** — Selecting and using training/instructional methods and procedures appropriate for the situation when learning or teaching new things.
- **Systems Analysis** — Determining how a system should work and how changes in conditions, operations, and the environment will affect outcomes.
- **Systems Evaluation** — Identifying measures or indicators of system performance and the actions needed to improve or correct performance, relative to the goals of the system.

back to top

Abilities

All 17 displayed

- **Oral Comprehension** — The ability to listen to and understand information and ideas presented through spoken words and sentences.
- **Oral Expression** — The ability to communicate information and ideas in speaking so others will understand.
- **Problem Sensitivity** — The ability to tell when something is wrong or is likely to go wrong. It does not involve solving the problem, only recognizing there is a problem.
- **Written Comprehension** — The ability to read and understand information and ideas presented in writing.
- **Speech Clarity** — The ability to speak clearly so others can understand you.
- **Speech Recognition** — The ability to identify and understand the speech of another person.
- **Deductive Reasoning** — The ability to apply general rules to specific problems to produce answers that make sense.
- **Inductive Reasoning** — The ability to combine pieces of information to form general rules or conclusions (includes finding a relationship among seemingly unrelated events).
- **Near Vision** — The ability to see details at close range (within a few feet of the observer).
- **Written Expression** — The ability to communicate information and ideas in writing so others will understand.

- **Category Flexibility** — The ability to generate or use different sets of rules for combining or grouping things in different ways.
- **Information Ordering** — The ability to arrange things or actions in a certain order or pattern according to a specific rule or set of rules (e.g., patterns of numbers, letters, words, pictures, mathematical operations).
- **Fluency of Ideas** — The ability to come up with a number of ideas about a topic (the number of ideas is important, not their quality, correctness, or creativity).
- **Far Vision** — The ability to see details at a distance.
- **Originality** — The ability to come up with unusual or clever ideas about a given topic or situation, or to develop creative ways to solve a problem.
- **Selective Attention** — The ability to concentrate on a task over a period of time without being distracted.
- **Time Sharing** — The ability to shift back and forth between two or more activities or sources of information (such as speech, sounds, touch, or other sources).

back to top

Work Activities

All 29 displayed

- **Making Decisions and Solving Problems** — Analyzing information and evaluating results to choose the best solution and solve problems.
- **Communicating with Supervisors, Peers, or Subordinates** — Providing information to supervisors, co-workers, and subordinates by telephone, in written form, e-mail, or in person.
- **Getting Information** — Observing, receiving, and otherwise obtaining information from all relevant sources.
- **Establishing and Maintaining Interpersonal Relationships** — Developing constructive and cooperative working relationships with others, and maintaining them over time.
- **Organizing, Planning, and Prioritizing Work** — Developing specific goals and plans to prioritize, organize, and accomplish your work.
- **Identifying Objects, Actions, and Events** — Identifying information by categorizing, estimating, recognizing differences or similarities, and detecting changes in circumstances or events.
- **Evaluating Information to Determine Compliance with Standards** — Using relevant information and individual judgment to determine whether events or processes comply with laws, regulations, or standards.
- **Performing Administrative Activities** — Performing day-to-day administrative tasks such as maintaining information files and processing paperwork.
- **Judging the Qualities of Things, Services, or People** — Assessing the value, importance, or quality of things or people.
- **Resolving Conflicts and Negotiating with Others** — Handling complaints, settling disputes, and resolving grievances and conflicts, or otherwise negotiating with others.
- **Performing for or Working Directly with the Public** — Performing for people or dealing directly with the public. This includes serving customers in restaurants and stores, and receiving clients or guests.
- **Thinking Creatively** — Developing, designing, or creating new applications, ideas, relationships, systems, or products, including artistic contributions.
- **Training and Teaching Others** — Identifying the educational needs of others, developing formal educational or training programs or classes, and teaching or instructing others.
- **Coaching and Developing Others** — Identifying the developmental needs of others and coaching, mentoring, or otherwise helping others to improve their knowledge or skills.
- **Processing Information** — Compiling, coding, categorizing, calculating, tabulating, auditing, or verifying information or data.

- **Scheduling Work and Activities** — Scheduling events, programs, and activities, as well as the work of others.
- **Assisting and Caring for Others** — Providing personal assistance, medical attention, emotional support, or other personal care to others such as coworkers, customers, or patients.
- **Interacting With Computers** — Using computers and computer systems (including hardware and software) to program, write software, set up functions, enter data, or process information.
- **Monitoring and Controlling Resources** — Monitoring and controlling resources and overseeing the spending of money.
- **Communicating with Persons Outside Organization** — Communicating with people outside the organization, representing the organization to customers, the public, government, and other external sources. This information can be exchanged in person, in writing, or by telephone or e-mail.
- **Selling or Influencing Others** — Convincing others to buy merchandise/goods or to otherwise change their minds or actions.
- **Coordinating the Work and Activities of Others** — Getting members of a group to work together to accomplish tasks.
- **Developing and Building Teams** — Encouraging and building mutual trust, respect, and cooperation among team members.
- **Documenting/Recording Information** — Entering, transcribing, recording, storing, or maintaining information in written or electronic/magnetic form.
- **Staffing Organizational Units** — Recruiting, interviewing, selecting, hiring, and promoting employees in an organization.
- **Guiding, Directing, and Motivating Subordinates** — Providing guidance and direction to subordinates, including setting performance standards and monitoring performance.
- **Monitor Processes, Materials, or Surroundings** — Monitoring and reviewing information from materials, events, or the environment, to detect or assess problems.
- **Updating and Using Relevant Knowledge** — Keeping up-to-date technically and applying new knowledge to your job.
- **Inspecting Equipment, Structures, or Material** — Inspecting equipment, structures, or materials to identify the cause of errors or other problems or defects.

Job Zone

Title	Job Zone Three: Medium Preparation Needed
Education	Most occupations in this zone require training in vocational schools, related on-the-job experience, or an associate's degree.
Related Experience	Previous work-related skill, knowledge, or experience is required for these occupations. For example, an electrician must have completed three or four years of

apprenticeship or several years of vocational training, and often must have passed a licensing exam, in order to perform the job.

Job Training Employees in these occupations usually need one or two years of training involving both on-the-job experience and informal training with experienced workers. A recognized apprenticeship program may be associated with these occupations.

Job Zone Examples These occupations usually involve using communication and organizational skills to coordinate, supervise, manage, or train others to accomplish goals. Examples include hydroelectric production managers, travel guides, electricians, agricultural technicians, barbers, court reporters, and medical assistants.

SVP Range (6.0 to < 7.0)

Work Styles

All 16 displayed

- **Dependability** — Job requires being reliable, responsible, and dependable, and fulfilling obligations.
- **Attention to Detail** — Job requires being careful about detail and thorough in completing work tasks.

Concern for Others — Job requires being sensitive to others' needs and feelings and being understanding and helpful on the job.

- **Integrity** — Job requires being honest and ethical.
- **Self Control** — Job requires maintaining composure, keeping emotions in check, controlling anger, and avoiding aggressive behavior, even in very difficult situations.
- **Cooperation** — Job requires being pleasant with others on the job and displaying a good-natured, cooperative attitude.
- **Independence** — Job requires developing one's own ways of doing things, guiding oneself with little or no supervision, and depending on oneself to get things done.
- **Social Orientation** — Job requires preferring to work with others rather than alone, and being personally connected with others on the job.
- **Stress Tolerance** — Job requires accepting criticism and dealing calmly and effectively with high stress situations.
- **Adaptability/Flexibility** — Job requires being open to change (positive or negative) and to considerable variety in the workplace.
- **Leadership** — Job requires a willingness to lead, take charge, and offer opinions and direction.
- **Initiative** — Job requires a willingness to take on responsibilities and challenges.
- **Innovation** — Job requires creativity and alternative thinking to develop new ideas for and answers to work-related problems.
- **Analytical Thinking** — Job requires analyzing information and using logic to address work-related issues and problems.
- **Achievement/Effort** — Job requires establishing and maintaining personally challenging achievement goals and exerting effort toward mastering tasks.
- **Persistence** — Job requires persistence in the face of obstacles.

back to top

Work Values

All 3 displayed

- **Relationships** — Occupations that satisfy this work value allow employees to provide service to others and work with co-workers in a friendly non-competitive environment. Corresponding needs are Co-workers, Moral Values and Social Service.
- **Independence** — Occupations that satisfy this work value allow employees to work on their own and make decisions. Corresponding needs are Creativity, Responsibility and Autonomy.
- **Support** — Occupations that satisfy this work value offer supportive management that stands behind employees. Corresponding needs are Company Policies, Supervision: Human Relations and Supervision: Technical.

Knowledge

Save Table (XLS/CSV)

All 33 displayed (7 important)

Importance	Knowledge
92	**Customer and Personal Service** — Knowledge of principles and processes for providing customer and personal services. This includes customer needs assessment, meeting quality standards for services, and evaluation of customer satisfaction.

71 **Administration and Management** — Knowledge of business and management principles involved in strategic planning, resource allocation, human resources modeling, leadership technique, production methods, and coordination of people and resources.

71 **English Language** — Knowledge of the structure and content of the English language including the meaning and spelling of words, rules of composition, and grammar.

63 **Education and Training** — Knowledge of principles and methods for curriculum and training design, teaching and instruction for individuals and groups, and the measurement of training effects.

62 **Personnel and Human Resources** — Knowledge of principles and procedures for personnel recruitment, selection, training, compensation and benefits, labor relations and negotiation, and personnel information systems.

55 **Psychology** — Knowledge of human behavior and performance; individual differences in ability, personality, and interests; learning and motivation; psychological research methods; and the assessment and treatment of behavioral and affective disorders.

53 **Clerical** — Knowledge of administrative and clerical procedures and systems such as word processing, managing files and records, stenography and transcription, designing forms, and other office procedures and terminology.

49 **Sales and Marketing** — Knowledge of principles and methods for showing, promoting, and selling products or services. This includes marketing strategy and tactics, product demonstration, sales techniques, and sales control systems.

47 **Mathematics** — Knowledge of arithmetic, algebra, geometry, calculus, statistics, and their applications.

45 **Public Safety and Security** — Knowledge of relevant equipment, policies, procedures, and strategies to promote effective local, state, or national security operations for the protection of people, data, property, and institutions.

44 **Economics and Accounting** — Knowledge of economic and accounting principles and practices, the financial markets, banking and the analysis and reporting of financial data.

36 **Communications and Media** — Knowledge of media production, communication, and dissemination techniques and methods. This includes alternative ways to inform and entertain via written, oral, and visual media.

36 **Sociology and Anthropology** — Knowledge of group behavior and dynamics, societal trends and influences, human migrations, ethnicity, cultures and their history and origins.

34 **Computers and Electronics** — Knowledge of circuit boards, processors, chips, electronic equipment, and computer hardware and software, including applications and programming.

32 **Philosophy and Theology** — Knowledge of different philosophical systems and religions. This includes their basic principles, values, ethics, ways of thinking, customs, practices, and their impact on human culture.

31 **Law and Government** — Knowledge of laws, legal codes, court procedures, precedents, government regulations, executive orders, agency rules, and the democratic political process.

30 **Therapy and Counseling** — Knowledge of principles, methods, and procedures for diagnosis, treatment, and rehabilitation of physical and mental dysfunctions, and for career counseling and guidance.

29 **Chemistry** — Knowledge of the chemical composition, structure, and properties of substances and of the chemical processes and transformations that they undergo. This

includes uses of chemicals and their interactions, danger signs, production techniques, and disposal methods.

27 **Mechanical** — Knowledge of machines and tools, including their designs, uses, repair, and maintenance.

25 **Transportation** — Knowledge of principles and methods for moving people or goods by air, rail, sea, or road, including the relative costs and benefits.

24 **Telecommunications** — Knowledge of transmission, broadcasting, switching, control, and operation of telecommunications systems.

23 **Medicine and Dentistry** — Knowledge of the information and techniques needed to diagnose and treat human injuries, diseases, and deformities. This includes symptoms, treatment alternatives, drug properties and interactions, and preventive health-care measures.

16 **Production and Processing** — Knowledge of raw materials, production processes, quality control, costs, and other techniques for maximizing the effective manufacture and distribution of goods.

14 **Building and Construction** — Knowledge of materials, methods, and the tools involved in the construction or repair of houses, buildings, or other structures such as highways and roads.

14 **Design** — Knowledge of design techniques, tools, and principles involved in production of precision technical plans, blueprints, drawings, and models.

12 **Biology** — Knowledge of plant and animal organisms, their tissues, cells, functions, interdependencies, and interactions with each other and the environment.

11 **Fine Arts** — Knowledge of the theory and techniques required to compose, produce, and perform works of music, dance, visual arts, drama, and sculpture.

11 **Geography** — Knowledge of principles and methods for describing the features of land, sea, and air masses, including their physical characteristics, locations, interrelationships, and distribution of plant, animal, and human life.

10 **Engineering and Technology** — Knowledge of the practical application of engineering science and technology. This includes applying principles, techniques, procedures, and equipment to the design and production of various goods and services.

9 **Foreign Language** — Knowledge of the structure and content of a foreign (non-English) language including the meaning and spelling of words, rules of composition and grammar, and pronunciation.

9 **Physics** — Knowledge and prediction of physical principles, laws, their interrelationships, and applications to understanding fluid, material, and atmospheric dynamics, and mechanical, electrical, atomic and sub- atomic structures and processes.

5 **Food Production** — Knowledge of techniques and equipment for planting, growing, and harvesting food products (both plant and animal) for consumption, including storage/handling techniques.

3 **History and Archeology** — Knowledge of historical events and their causes, indicators, and effects on civilizations and cultures.

Skills Save Table (XLS/CSV)

All 35 displayed (20 important)

Importance	Skill
72	**Active Listening** — Giving full attention to what other people are saying, taking time to understand the points being made, asking questions as appropriate, and not interrupting at inappropriate times.
72	**Critical Thinking** — Using logic and reasoning to identify the strengths and weaknesses of alternative solutions, conclusions or approaches to problems.
69	**Management of Personnel Resources** — Motivating, developing, and directing people as they work, identifying the best people for the job.
69	**Social Perceptiveness** — Being aware of others' reactions and understanding why they react as they do.
69	**Speaking** — Talking to others to convey information effectively.
66	**Coordination** — Adjusting actions in relation to others' actions.
66	**Time Management** — Managing one's own time and the time of others.
63	**Persuasion** — Persuading others to change their minds or behavior.
63	**Reading Comprehension** — Understanding written sentences and paragraphs in work related documents.
63	**Service Orientation** — Actively looking for ways to help people.
60	**Complex Problem Solving** — Identifying complex problems and reviewing related information to develop and evaluate options and implement solutions.
60	**Instructing** — Teaching others how to do something.
60	**Judgment and Decision Making** — Considering the relative costs and benefits of potential actions to choose the most appropriate one.
56	**Monitoring** — Monitoring/Assessing performance of yourself, other individuals, or organizations to make improvements or take corrective action.
53	**Negotiation** — Bringing others together and trying to reconcile differences.
53	**Writing** — Communicating effectively in writing as appropriate for the needs of the audience.
50	**Active Learning** — Understanding the implications of new information for both current and future problem-solving and decision-making.
50	**Learning Strategies** — Selecting and using training/instructional methods and procedures appropriate for the situation when learning or teaching new things.
50	**Systems Analysis** — Determining how a system should work and how changes in conditions, operations, and the environment will affect outcomes.
50	**Systems Evaluation** — Identifying measures or indicators of system performance and the actions needed to improve or correct performance, relative to the goals of the system.
44	**Quality Control Analysis** — Conducting tests and inspections of products, services, or processes to evaluate quality or performance.
35	**Operation Monitoring** — Watching gauges, dials, or other indicators to make sure a machine is working properly.
31	**Management of Material Resources** — Obtaining and seeing to the appropriate use of equipment, facilities, and materials needed to do certain work.
28	**Mathematics** — Using mathematics to solve problems.
25	

Management of Financial Resources — Determining how money will be spent to get the work done, and accounting for these expenditures.

22 **Troubleshooting** — Determining causes of operating errors and deciding what to do about it.

19 **Operations Analysis** — Analyzing needs and product requirements to create a design.

16 **Technology Design** — Generating or adapting equipment and technology to serve user needs.

13 **Operation and Control** — Controlling operations of equipment or systems.

13 **Science** — Using scientific rules and methods to solve problems.

10 **Programming** — Writing computer programs for various purposes.

0 **Equipment Maintenance** — Performing routine maintenance on equipment and determining when and what kind of maintenance is needed.

0 **Equipment Selection** — Determining the kind of tools and equipment needed to do a job.

0 **Installation** — Installing equipment, machines, wiring, or programs to meet specifications.

0 **Repairing** — Repairing machines or systems using the needed tools.

Abilities

Save Table (XLS/CSV)

All 52 displayed (17 important)

Importance	Ability
75	**Oral Comprehension** — The ability to listen to and understand information and ideas presented through spoken words and sentences.
75	**Oral Expression** — The ability to communicate information and ideas in speaking so others will understand.
72	**Problem Sensitivity** — The ability to tell when something is wrong or is likely to go wrong. It does not involve solving the problem, only recognizing there is a problem.
72	**Written Comprehension** — The ability to read and understand information and ideas presented in writing.
69	**Speech Clarity** — The ability to speak clearly so others can understand you.
66	**Speech Recognition** — The ability to identify and understand the speech of another person.
63	**Deductive Reasoning** — The ability to apply general rules to specific problems to produce answers that make sense.
60	**Inductive Reasoning** — The ability to combine pieces of information to form general rules or conclusions (includes finding a relationship among seemingly unrelated events).
60	**Near Vision** — The ability to see details at close range (within a few feet of the observer).
60	**Written Expression** — The ability to communicate information and ideas in writing so others will understand.
56	

Category Flexibility — The ability to generate or use different sets of rules for combining or grouping things in different ways.

56 **Information Ordering** — The ability to arrange things or actions in a certain order or pattern according to a specific rule or set of rules (e.g., patterns of numbers, letters, words, pictures, mathematical operations).

53 **Fluency of Ideas** — The ability to come up with a number of ideas about a topic (the number of ideas is important, not their quality, correctness, or creativity).

50 **Far Vision** — The ability to see details at a distance.

50 **Originality** — The ability to come up with unusual or clever ideas about a given topic or situation, or to develop creative ways to solve a problem.

50 **Selective Attention** — The ability to concentrate on a task over a period of time without being distracted.

50 **Time Sharing** — The ability to shift back and forth between two or more activities or sources of information (such as speech, sounds, touch, or other sources).

47 **Perceptual Speed** — The ability to quickly and accurately compare similarities and differences among sets of letters, numbers, objects, pictures, or patterns. The things to be compared may be presented at the same time or one after the other. This ability also includes comparing a presented object with a remembered object.

47 **Trunk Strength** — The ability to use your abdominal and lower back muscles to support part of the body repeatedly or continuously over time without 'giving out' or fatiguing.

41 **Flexibility of Closure** — The ability to identify or detect a known pattern (a figure, object, word, or sound) that is hidden in other distracting material.

38 **Auditory Attention** — The ability to focus on a single source of sound in the presence of other distracting sounds.

35 **Arm-Hand Steadiness** — The ability to keep your hand and arm steady while moving your arm or while holding your arm and hand in one position.

35 **Finger Dexterity** — The ability to make precisely coordinated movements of the fingers of one or both hands to grasp, manipulate, or assemble very small objects.

35 **Visualization** — The ability to imagine how something will look after it is moved around or when its parts are moved or rearranged.

31 **Hearing Sensitivity** — The ability to detect or tell the differences between sounds that vary in pitch and loudness.

31 **Manual Dexterity** — The ability to quickly move your hand, your hand together with your arm, or your two hands to grasp, manipulate, or assemble objects.

31 **Memorization** — The ability to remember information such as words, numbers, pictures, and procedures.

31 **Speed of Closure** — The ability to quickly make sense of, combine, and organize information into meaningful patterns.

28 **Extent Flexibility** — The ability to bend, stretch, twist, or reach with your body, arms, and/or legs.

28 **Mathematical Reasoning** — The ability to choose the right mathematical methods or formulas to solve a problem.

28 **Number Facility** — The ability to add, subtract, multiply, or divide quickly and correctly.

25 **Dynamic Strength** — The ability to exert muscle force repeatedly or continuously over time. This involves muscular endurance and resistance to muscle fatigue.

Butler's Exh. 65, p. 007

Butler 02107

25 **Multilimb Coordination** — The ability to coordinate two or more limbs (for example, two arms, two legs, or one leg and one arm) while sitting, standing, or lying down. It does not involve performing the activities while the whole body is in motion.

25 **Stamina** — The ability to exert yourself physically over long periods of time without getting winded or out of breath.

25 **Static Strength** — The ability to exert maximum muscle force to lift, push, pull, or carry objects.

25 **Visual Color Discrimination** — The ability to match or detect differences between colors, including shades of color and brightness.

25 **Wrist-Finger Speed** — The ability to make fast, simple, repeated movements of the fingers, hands, and wrists.

22 **Gross Body Coordination** — The ability to coordinate the movement of your arms, legs, and torso together when the whole body is in motion.

16 **Depth Perception** — The ability to judge which of several objects is closer or farther away from you, or to judge the distance between you and an object.

16 **Gross Body Equilibrium** — The ability to keep or regain your body balance or stay upright when in an unstable position.

13 **Explosive Strength** — The ability to use short bursts of muscle force to propel oneself (as in jumping or sprinting), or to throw an object.

10 **Control Precision** — The ability to quickly and repeatedly adjust the controls of a machine or a vehicle to exact positions.

6 **Glare Sensitivity** — The ability to see objects in the presence of glare or bright lighting.

6 **Night Vision** — The ability to see under low light conditions.

6 **Rate Control** — The ability to time your movements or the movement of a piece of equipment in anticipation of changes in the speed and/or direction of a moving object or scene.

6 **Response Orientation** — The ability to choose quickly between two or more movements in response to two or more different signals (lights, sounds, pictures). It includes the speed with which the correct response is started with the hand, foot, or other body part.

6 **Sound Localization** — The ability to tell the direction from which a sound originated.

6 **Speed of Limb Movement** — The ability to quickly move the arms and legs.

3 **Peripheral Vision** — The ability to see objects or movement of objects to one's side when the eyes are looking ahead.

3 **Reaction Time** — The ability to quickly respond (with the hand, finger, or foot) to a signal (sound, light, picture) when it appears.

3 **Spatial Orientation** — The ability to know your location in relation to the environment or to know where other objects are in relation to you.

0 **Dynamic Flexibility** — The ability to quickly and repeatedly bend, stretch, twist, or reach out with your body, arms, and/or legs.

Work Activities

Save Table (XLS/CSV)

All 41 displayed (29 important)

Importance	Work Activity
89	**Making Decisions and Solving Problems** — Analyzing information and evaluating results to choose the best solution and solve problems.
87	**Communicating with Supervisors, Peers, or Subordinates** — Providing information to supervisors, co-workers, and subordinates by telephone, in written form, e-mail, or in person.
87	**Getting Information** — Observing, receiving, and otherwise obtaining information from all relevant sources.
83	**Establishing and Maintaining Interpersonal Relationships** — Developing constructive and cooperative working relationships with others, and maintaining them over time.
78	**Organizing, Planning, and Prioritizing Work** — Developing specific goals and plans to prioritize, organize, and accomplish your work.
77	**Identifying Objects, Actions, and Events** — Identifying information by categorizing, estimating, recognizing differences or similarities, and detecting changes in circumstances or events.
75	**Evaluating Information to Determine Compliance with Standards** — Using relevant information and individual judgment to determine whether events or processes comply with laws, regulations, or standards.
71	**Performing Administrative Activities** — Performing day-to-day administrative tasks such as maintaining information files and processing paperwork.
67	**Judging the Qualities of Things, Services, or People** — Assessing the value, importance, or quality of things or people.
67	**Resolving Conflicts and Negotiating with Others** — Handling complaints, settling disputes, and resolving grievances and conflicts, or otherwise negotiating with others.
65	**Performing for or Working Directly with the Public** — Performing for people or dealing directly with the public. This includes serving customers in restaurants and stores, and receiving clients or guests.
65	**Thinking Creatively** — Developing, designing, or creating new applications, ideas, relationships, systems, or products, including artistic contributions.
65	**Training and Teaching Others** — Identifying the educational needs of others, developing formal educational or training programs or classes, and teaching or instructing others.
64	**Coaching and Developing Others** — Identifying the developmental needs of others and coaching, mentoring, or otherwise helping others to improve their knowledge or skills.
64	**Processing Information** — Compiling, coding, categorizing, calculating, tabulating, auditing, or verifying information or data.
64	**Scheduling Work and Activities** — Scheduling events, programs, and activities, as well as the work of others.
62	**Assisting and Caring for Others** — Providing personal assistance, medical attention, emotional support, or other personal care to others such as coworkers, customers, or patients.
62	**Interacting With Computers** — Using computers and computer systems (including hardware and software) to program, write software, set up functions, enter data, or process information.
61	**Monitoring and Controlling Resources** — Monitoring and controlling resources and overseeing the spending of money.

60 **Communicating with Persons Outside Organization** — Communicating with people outside the organization, representing the organization to customers, the public, government, and other external sources. This information can be exchanged in person, in writing, or by telephone or e-mail.

58 **Selling or Influencing Others** — Convincing others to buy merchandise/goods or to otherwise change their minds or actions.

57 **Coordinating the Work and Activities of Others** — Getting members of a group to work together to accomplish tasks.

57 **Developing and Building Teams** — Encouraging and building mutual trust, respect, and cooperation among team members.

57 **Documenting/Recording Information** — Entering, transcribing, recording, storing, or maintaining information in written or electronic/magnetic form.

57 **Staffing Organizational Units** — Recruiting, interviewing, selecting, hiring, and promoting employees in an organization.

56 **Guiding, Directing, and Motivating Subordinates** — Providing guidance and direction to subordinates, including setting performance standards and monitoring performance.

56 **Monitor Processes, Materials, or Surroundings** — Monitoring and reviewing information from materials, events, or the environment, to detect or assess problems.

56 **Updating and Using Relevant Knowledge** — Keeping up-to-date technically and applying new knowledge to your job.

54 **Inspecting Equipment, Structures, or Material** — Inspecting equipment, structures, or materials to identify the cause of errors or other problems or defects.

47 **Interpreting the Meaning of Information for Others** — Translating or explaining what information means and how it can be used.

42 **Performing General Physical Activities** — Performing physical activities that require considerable use of your arms and legs and moving your whole body, such as climbing, lifting, balancing, walking, stooping, and handling of materials.

41 **Developing Objectives and Strategies** — Establishing long-range objectives and specifying the strategies and actions to achieve them.

41 **Handling and Moving Objects** — Using hands and arms in handling, installing, positioning, and moving materials, and manipulating things.

39 **Provide Consultation and Advice to Others** — Providing guidance and expert advice to management or other groups on technical, systems-, or process-related topics.

37 **Analyzing Data or Information** — Identifying the underlying principles, reasons, or facts of information by breaking down information or data into separate parts.

37 **Estimating the Quantifiable Characteristics of Products, Events, or Information** — Estimating sizes, distances, and quantities; or determining time, costs, resources, or materials needed to perform a work activity.

31 **Controlling Machines and Processes** — Using either control mechanisms or direct physical activity to operate machines or processes (not including computers or vehicles).

29 **Repairing and Maintaining Mechanical Equipment** — Servicing, repairing, adjusting, and testing machines, devices, moving parts, and equipment that operate primarily on the basis of mechanical (not electronic) principles.

28 **Operating Vehicles, Mechanized Devices, or Equipment** — Running, maneuvering, navigating, or driving vehicles or mechanized equipment, such as forklifts, passenger vehicles, aircraft, or water craft.

28 **Repairing and Maintaining Electronic Equipment** — Servicing, repairing, calibrating, regulating, fine-tuning, or testing machines, devices, and equipment that operate primarily on the basis of electrical or electronic (not mechanical) principles.

12 **Drafting, Laying Out, and Specifying Technical Devices, Parts, and Equipment** — Providing documentation, detailed instructions, drawings, or specifications to tell others about how devices, parts, equipment, or structures are to be fabricated, constructed, assembled, modified, maintained, or used.

Detailed Work Activities

Save Table (XLS/CSV)

All 16 displayed

- Assign duties or work schedules to employees.
- Evaluate employee performance.
- Explain regulations, policies, or procedures.
- Resolve customer complaints or problems.
- Perform human resources activities.
- Train service staff.
- Inspect equipment to ensure proper functioning.
- Inspect facilities.
- Develop plans for programs or services.
- Maintain knowledge of business operations.
- Supervise service workers.
- Order materials, supplies, or equipment.
- Prepare operational reports or records.
- Maintain professional knowledge or certifications.
- Promote products, services, or programs.
- Provide attraction or event information to patrons.

Work Context

Save Table (XLS/CSV)

All 57 displayed

Work Context	Percentage of Top Responses
Contact With Others — How much does this job require the worker to be in contact with others (face-to-face, by telephone, or otherwise) in order to perform it?	97 Constant contact with others
Indoors, Environmentally Controlled — How often does this job require working indoors in environmentally controlled conditions?	93 Every day
Telephone — How often do you have telephone conversations in this job?	86 Every day

- **Face-to-Face Discussions** — How often do you have to have face-to-face discussions with individuals or teams in this job?
  - 83 Every day
  - 13 Once a month or more but not every week
- **Work With Work Group or Team** — How important is it to work with others in a group or team in this job?
  - 74 Extremely important
  - 21 Very important
- **Physical Proximity** — To what extent does this job require the worker to perform job tasks in close physical proximity to other people?
  - 49 Very close (near touching)
  - 49 Moderately close (at arm's length)
- **Responsibility for Outcomes and Results** — How responsible is the worker for work outcomes and results of other workers?
  - 50 Very high responsibility
  - 45 High responsibility
- **Freedom to Make Decisions** — How much decision making freedom, without supervision, does the job offer?
  - 45 A lot of freedom
  - 49 Some freedom
- **Coordinate or Lead Others** — How important is it to coordinate or lead others in accomplishing work activities in this job?
  - 43 Extremely important
  - 45 Very important
  - 12 Important
- **Frequency of Decision Making** — How frequently is the worker required to make decisions that affect other people, the financial resources, and/or the image and reputation of the organization?
  - 60 Every day
  - 22 Once a week or more but not every day
  - 11 Once a year or more but not every month
- **Deal With External Customers** — How important is it to work with external customers or the public in this job?
  - 63 Extremely important
  - 26 Very important
  - 11 Not important at all
- **Impact of Decisions on Co-workers or Company Results** — What results do your decisions usually have on other people or the image or reputation or financial resources of your employer?
  - 43 Very important results
  - 40 Important results
  - 11 Minor results
- **Structured versus Unstructured Work** — To what extent is this job structured for the worker, rather than allowing the worker to determine tasks, priorities, and goals?
  - 24 A lot of freedom
  - 66 Some freedom
- **Time Pressure** — How often does this job require the worker to meet strict deadlines?
  - 49 Every day
  - 17 Once a week or more but not every day
  - 31 Once a month or more but not every week
- **Importance of Being Exact or Accurate** — How important is being very exact or highly accurate in performing this job?
  - 23 Extremely important
  - 46 Very important
  - 25 Important
- **Electronic Mail** — How often do you use electronic mail in this job?
  - 49 Every day
  - 21 Once a week or more but not every day
  - 17 Once a year or more but not every month

12 Never

- **Responsible for Others' Health and Safety** — How much responsibility is there for the health and safety of others in this job?
  - 18 Very high responsibility
  - 50 High responsibility
  - 19 Moderate responsibility
  - 14 Limited responsibility
- **Frequency of Conflict Situations** — How often are there conflict situations the employee has to face in this job?
  - 13 Every day
  - 41 Once a week or more but not every day
  - 37 Once a month or more but not every week
- **Spend Time Standing** — How much does this job require standing?
  - 39 Continually or almost continually
  - 45 About half the time
- **Letters and Memos** — How often does the job require written letters and memos?
  - 19 Every day
  - 34 Once a week or more but not every day
  - 24 Once a month or more but not every week
  - 11 Once a year or more but not every month
  - 11 Never
- **Importance of Repeating Same Tasks** — How important is repeating the same physical activities (e.g., key entry) or mental activities (e.g., checking entries in a ledger) over and over, without stopping, to performing this job?
  - 13 Extremely important
  - 42 Very important
  - 17 Important
  - 24 Fairly important
- **Deal With Unpleasant or Angry People** — How frequently does the worker have to deal with unpleasant, angry, or discourteous individuals as part of the job requirements?
  - 44 Once a week or more but not every day
  - 18 Once a month or more but not every week
  - 35 Once a year or more but not every month
- **Duration of Typical Work Week** — Number of hours typically worked in one week.
  - 43 More than 40 hours
  - 18 40 hours
  - 38 Less than 40 hours
- **Level of Competition** — To what extent does this job require the worker to compete or to be aware of competitive pressures?
  - 26 Extremely competitive
  - 11 Highly competitive
  - 14 Moderately competitive
  - 41 Slightly competitive
- **Spend Time Walking and Running** — How much does this job require walking and running?
  - 16 Continually or almost continually
  - 44 About half the time
  - 20 Less than half the time
  - 11 Never
- **Public Speaking** — How often do you have to perform public speaking in this job?
  - 22 Every day
  - 27 Once a month or more but not every week
  - 30 Once a year or more but not every month
  - 13 Never
- **Sounds, Noise Levels Are Distracting or Uncomfortable** — How often does this job require working exposed to sounds and noise levels that are distracting or uncomfortable?
  - 13 Every day
  - 36 Once a week or more but not every day
  - 27 Once a year or more but not every month
  - 23 Never
- **Spend Time Bending or Twisting the Body** — How much does this job require bending or twisting your body?
  - 20 Continually or almost continually
  - 23 About half the time
  - 31 Less than half the time
  - 18 Never
- 33 Continually or almost continually

Spend Time Making Repetitive Motions — How much does this job require making repetitive motions?

19 Less than half the time
40 Never

Consequence of Error — How serious would the result usually be if the worker made a mistake that was not readily correctable?

25 Very serious
17 Serious
39 Fairly serious
18 Not serious at all

Spend Time Using Your Hands to Handle, Control, or Feel Objects, Tools, or Controls — How much does this job require using your hands to handle, control, or feel objects, tools or controls?

20 Continually or almost continually
29 Less than half the time
42 Never

Spend Time Sitting — How much does this job require sitting?

12 More than half the time
29 About half the time
27 Less than half the time
29 Never

Wear Common Protective or Safety Equipment such as Safety Shoes, Glasses, Gloves, Hearing Protection, Hard Hats, or Life Jackets — How much does this job require wearing common protective or safety equipment such as safety shoes, glasses, gloves, hard hats or life jackets?

18 Every day
16 Once a week or more but not every day
60 Never

Exposed to Disease or Infections — How often does this job require exposure to disease/infections?

24 Once a week or more but not every day
14 Once a year or more but not every month
52 Never

Degree of Automation — How automated is the job?

20 Highly automated
21 Slightly automated
55 Not at all automated

Exposed to Contaminants — How often does this job require working exposed to contaminants (such as pollutants, gases, dust or odors)?

12 Every day
76 Never

Deal With Physically Aggressive People — How frequently does this job require the worker to deal with physical aggression of violent individuals?

17 Once a month or more but not every week
15 Once a year or more but not every month
64 Never

Outdoors, Exposed to Weather — How often does this job require working outdoors, exposed to all weather conditions?

15 Once a year or more but not every month
70 Never

Spend Time Kneeling, Crouching, Stooping, or Crawling — How much does this job require kneeling, crouching, stooping or crawling?

48 Less than half the time
44 Never

Spend Time Keeping or Regaining Balance — How much does this job require keeping or regaining your balance?

12 Continually or almost continually
13 Less than half the time
75 Never

- **Extremely Bright or Inadequate Lighting** — How often does this job require working in extremely bright or inadequate lighting conditions?
  - 12 Once a year or more but not every month
  - 75 Never
- **Exposed to Minor Burns, Cuts, Bites, or Stings** — How often does this job require exposure to minor burns, cuts, bites, or stings?
  - 81 Never
- **Very Hot or Cold Temperatures** — How often does this job require working in very hot (above 90 F degrees) or very cold (below 32 F degrees) temperatures?
  - 80 Never
- **In an Enclosed Vehicle or Equipment** — How often does this job require working in a closed vehicle or equipment (e.g., car)?
  - 84 Never
- **Exposed to Hazardous Equipment** — How often does this job require exposure to hazardous equipment?
  - 22 Once a year or more but not every month
  - 76 Never
- **Exposed to Hazardous Conditions** — How often does this job require exposure to hazardous conditions?
  - 92 Never
- **Indoors, Not Environmentally Controlled** — How often does this job require working indoors in non-controlled environmental conditions (e.g., warehouse without heat)?
  - 13 Once a year or more but not every month
  - 84 Never
- **In an Open Vehicle or Equipment** — How often does this job require working in an open vehicle or equipment (e.g., tractor)?
  - 95 Never
- **Outdoors, Under Cover** — How often does this job require working outdoors, under cover (e.g., structure with roof but no walls)?
  - 92 Never
- **Cramped Work Space, Awkward Positions** — How often does this job require working in cramped work spaces that requires getting into awkward positions?
  - 90 Never
- **Pace Determined by Speed of Equipment** — How important is it to this job that the pace is determined by the speed of equipment or machinery? (This does not refer to keeping busy at all times on this job.)
  - 93 Not important at all
- **Work Schedules** — How regular are the work schedules for this job?
  - 94 Regular (established routine, set schedule)
-
  - 94 Never

Exposed to High Places — How often does this job require exposure to high places?

- **Spend Time Climbing Ladders, Scaffolds, or Poles** — How much does this job require climbing ladders, scaffolds, or poles? — 93 Never
- **Exposed to Radiation** — How often does this job require exposure to radiation? — 100 Never
- **Exposed to Whole Body Vibration** — How often does this job require exposure to whole body vibration (e.g., operate a jackhammer)? — 100 Never
- **Wear Specialized Protective or Safety Equipment such as Breathing Apparatus, Safety Harness, Full Protection Suits, or Radiation Protection** — How much does this job require wearing specialized protective or safety equipment such as breathing apparatus, safety harness, full protection suits, or radiation protection? — 100 Never

Job Zone

Save Table (XLS/CSV)

Title	Job Zone Three: Medium Preparation Needed
Education	Most occupations in this zone require training in vocational schools, related on-the-job experience, or an associate's degree.
Related Experience	Previous work-related skill, knowledge, or experience is required for these occupations. For example, an electrician must have completed three or four years of apprenticeship or several years of vocational training, and often must have passed a licensing exam, in order to perform the job.
Job Training	Employees in these occupations usually need one or two years of training involving both on-the-job experience and informal training with experienced workers. A recognized apprenticeship program may be associated with these occupations.
Job Zone Examples	These occupations usually involve using communication and organizational skills to coordinate, supervise, manage, or train others to accomplish goals. Examples include hydroelectric production managers, travel guides, electricians, agricultural technicians, barbers, court reporters, and medical assistants.
SVP Range	(6.0 to < 7.0)

Interests

Save Table (XLS/CSV)

All 6 displayed (3 important)

Occupational Interest	Interest
100	**Enterprising** — Enterprising occupations frequently involve starting up and carrying out projects. These occupations can involve leading people and making many decisions. Sometimes they require risk taking and often deal with business.
67	**Conventional** — Conventional occupations frequently involve following set procedures and routines. These occupations can include working with data and details more than with ideas. Usually there is a clear line of authority to follow.
61	**Social** — Social occupations frequently involve working with, communicating with, and teaching people. These occupations often involve helping or providing service to others.
22	**Artistic** — Artistic occupations frequently involve working with forms, designs and patterns. They often require self-expression and the work can be done without following a clear set of rules.
22	**Realistic** — Realistic occupations frequently involve work activities that include practical, hands-on problems and solutions. They often deal with plants, animals, and real-world materials like wood, tools, and machinery. Many of the occupations require working outside, and do not involve a lot of paperwork or working closely with others.
0	**Investigative** — Investigative occupations frequently involve working with ideas, and require an extensive amount of thinking. These occupations can involve searching for facts and figuring out problems mentally.

Work Styles

Save Table (XLS/CSV)

All 16 displayed (16 important)

Importance	Work Style
94	**Dependability** — Job requires being reliable, responsible, and dependable, and fulfilling obligations.
93	**Attention to Detail** — Job requires being careful about detail and thorough in completing work tasks.
92	**Concern for Others** — Job requires being sensitive to others' needs and feelings and being understanding and helpful on the job.
91	**Integrity** — Job requires being honest and ethical.
90	

Self Control — Job requires maintaining composure, keeping emotions in check, controlling anger, and avoiding aggressive behavior, even in very difficult situations.

89 **Cooperation** — Job requires being pleasant with others on the job and displaying a good-natured, cooperative attitude.

86 **Independence** — Job requires developing one's own ways of doing things, guiding oneself with little or no supervision, and depending on oneself to get things done.

84 **Social Orientation** — Job requires preferring to work with others rather than alone, and being personally connected with others on the job.

84 **Stress Tolerance** — Job requires accepting criticism and dealing calmly and effectively with high stress situations.

82 **Adaptability/Flexibility** — Job requires being open to change (positive or negative) and to considerable variety in the workplace.

81 **Leadership** — Job requires a willingness to lead, take charge, and offer opinions and direction.

80 **Initiative** — Job requires a willingness to take on responsibilities and challenges.

79 **Innovation** — Job requires creativity and alternative thinking to develop new ideas for and answers to work-related problems.

77 **Analytical Thinking** — Job requires analyzing information and using logic to address work-related issues and problems.

75 **Achievement/Effort** — Job requires establishing and maintaining personally challenging achievement goals and exerting effort toward mastering tasks.

69 **Persistence** — Job requires persistence in the face of obstacles.

37-3012.00 Pesticide Handlers, Sprayers, and Applicators, Vegetation

39-2011.00 Animal Trainers

39-2021.00 Nonfarm Animal Caretakers

39-3021.00 Motion Picture Projectionists

39-6011.00 Baggage Porters and Bellhops

39-6012.00 Concierges

39-9011.00 Childcare Workers

41-3031.02 Sales Agents, Financial Services

41-3099.01 Energy Brokers

Butler's Exh. 67, p. 016

41-4011.00 Sales Representatives, Wholesale and Manufacturing, Technical and Scientific Products

41-4011.07 Solar Sales Representatives and Assessors

41-4012.00 Sales Representatives, Wholesale and Manufacturing, Except Technical and Scientific Products

43-2011.00 Switchboard Operators, Including Answering Service

43-3011.00 Bill and Account Collectors

43-3021.01 Statement Clerks

43-3021.02 Billing, Cost, and Rate Clerks

43-3031.00 Bookkeeping, Accounting, and Auditing Clerks

43-3041.00 Gaming Cage Workers

43-3051.00 Payroll and Timekeeping Clerks

43-3071.00 Tellers

43-4021.00 Correspondence Clerks

43-4031.03 License Clerks

43-4051.00 Customer Service Representatives

43-4061.00 Eligibility Interviewers, Government Programs

43-4131.00 Loan Interviewers and Clerks

43-4151.00 Order Clerks

43-4171.00 Receptionists and Information Clerks

43-4181.00 Reservation and Transportation Ticket Agents and Travel Clerks

43-5011.01 Freight Forwarders

43-5031.00 Police, Fire, and Ambulance Dispatchers

43-5041.00 Meter Readers, Utilities

Postal Service Mail Sorters, Processors, and Processing Machine Operators

43-5053.00

43-5071.00 Shipping, Receiving, and Traffic Clerks

43-5081.01 Stock Clerks, Sales Floor

43-5081.04 Order Fillers, Wholesale and Retail Sales

43-6012.00 Legal Secretaries

43-6013.00 Medical Secretaries

43-9031.00 Desktop Publishers

43-9051.00 Mail Clerks and Mail Machine Operators, Except Postal Service

45-2011.00 Agricultural Inspectors

45-2021.00 Animal Breeders

45-2041.00 Graders and Sorters, Agricultural Products

45-2092.01 Nursery Workers

45-2093.00 Farmworkers, Farm, Ranch, and Aquacultural Animals

45-2099.00 Agricultural Workers, All Other

45-3021.00 Hunters and Trappers

45-4023.00 Log Graders and Scalers

47-2021.00 Brickmasons and Blockmasons

47-2031.01 Construction Carpenters

47-2072.00 Pile-Driver Operators

47-2073.00 Operating Engineers and Other Construction Equipment Operators

47-2111.00 Electricians

47-2131.00 Insulation Workers, Floor, Ceiling, and Wall

Pipe Fitters and Steamfitters

Butler's Exh. 67, p. 018

47-2152.01

47-2152.02 Plumbers

47-2171.00 Reinforcing Iron and Rebar Workers

47-3012.00 Helpers--Carpenters

47-4041.00 Hazardous Materials Removal Workers

47-4061.00 Rail-Track Laying and Maintenance Equipment Operators

47-4099.03 Weatherization Installers and Technicians

47-5012.00 Rotary Drill Operators, Oil and Gas

47-5013.00 Service Unit Operators, Oil, Gas, and Mining

47-5081.00 Helpers--Extraction Workers

49-2021.00 Radio, Cellular, and Tower Equipment Installers and Repairers

49-2091.00 Avionics Technicians

49-2092.00 Electric Motor, Power Tool, and Related Repairers

49-2093.00 Electrical and Electronics Installers and Repairers, Transportation Equipment

49-2096.00 Electronic Equipment Installers and Repairers, Motor Vehicles

49-2098.00 Security and Fire Alarm Systems Installers

49-3011.00 Aircraft Mechanics and Service Technicians

49-3031.00 Bus and Truck Mechanics and Diesel Engine Specialists

49-3091.00 Bicycle Repairers

49-3092.00 Recreational Vehicle Service Technicians

49-3093.00 Tire Repairers and Changers

49-9012.00 Control and Valve Installers and Repairers, Except Mechanical Door

Heating and Air Conditioning Mechanics and Installers

49-9021.01

49-9041.00 Industrial Machinery Mechanics

49-9044.00 Millwrights

49-9051.00 Electrical Power-Line Installers and Repairers

49-9081.00 Wind Turbine Service Technicians

49-9093.00 Fabric Menders, Except Garment

49-9096.00 Riggers

49-9097.00 Signal and Track Switch Repairers

51-2011.00 Aircraft Structure, Surfaces, Rigging, and Systems Assemblers

51-2021.00 Coil Winders, Tapers, and Finishers

51-2031.00 Engine and Other Machine Assemblers

51-2041.00 Structural Metal Fabricators and Fitters

51-3011.00 Bakers

51-3022.00 Meat, Poultry, and Fish Cutters and Trimmers

51-3023.00 Slaughterers and Meat Packers

51-4021.00 Extruding and Drawing Machine Setters, Operators, and Tenders, Metal and Plastic

51-4031.00 Cutting, Punching, and Press Machine Setters, Operators, and Tenders, Metal and Plastic

51-4033.00 Grinding, Lapping, Polishing, and Buffing Machine Tool Setters, Operators, and Tenders, Metal and Plastic

51-4051.00 Metal-Refining Furnace Operators and Tenders

51-4052.00 Pourers and Casters, Metal

51-4062.00 Patternmakers, Metal and Plastic

51-4111.00 Tool and Die Makers

Welding, Soldering, and Brazing Machine Setters, Operators, and Tenders

Butler's Exh. 67, p. 020

51-4122.00

51-4192.00 Layout Workers, Metal and Plastic

51-4193.00 Plating and Coating Machine Setters, Operators, and Tenders, Metal and Plastic

51-5111.00 Prepress Technicians and Workers

51-5112.00 Printing Press Operators

51-5113.00 Print Binding and Finishing Workers

51-6011.00 Laundry and Dry-Cleaning Workers

51-6031.00 Sewing Machine Operators

51-6052.00 Tailors, Dressmakers, and Custom Sewers

51-7011.00 Cabinetmakers and Bench Carpenters

51-8012.00 Power Distributors and Dispatchers

51-8013.00 Power Plant Operators

51-8031.00 Water and Wastewater Treatment Plant and System Operators

51-8099.01 Biofuels Processing Technicians

51-8099.03 Biomass Plant Technicians

51-9023.00 Mixing and Blending Machine Setters, Operators, and Tenders

51-9032.00 Cutting and Slicing Machine Setters, Operators, and Tenders

51-9082.00 Medical Appliance Technicians

51-9191.00 Adhesive Bonding Machine Operators and Tenders

51-9192.00 Cleaning, Washing, and Metal Pickling Equipment Operators and Tenders

51-9194.00 Etchers and Engravers

51-9195.03 Stone Cutters and Carvers, Manufacturing

Glass Blowers, Molders, Benders, and Finishers

51-9195.04

51-9195.07 Molding and Casting Workers

51-9196.00 Paper Goods Machine Setters, Operators, and Tenders

51-9199.00 Production Workers, All Other

51-9199.01 Recycling and Reclamation Workers

53-2021.00 Air Traffic Controllers

53-2031.00 Flight Attendants

53-3011.00 Ambulance Drivers and Attendants, Except Emergency Medical Technicians

53-3022.00 Bus Drivers, School or Special Client

53-3031.00 Driver/Sales Workers

53-3033.00 Light Truck or Delivery Services Drivers

53-4011.00 Locomotive Engineers

53-4013.00 Rail Yard Engineers, Dinkey Operators, and Hostlers

53-4021.00 Railroad Brake, Signal, and Switch Operators

53-5021.01 Ship and Boat Captains

53-6031.00 Automotive and Watercraft Service Attendants

53-6051.01 Aviation Inspectors

53-6051.07 Transportation Vehicle, Equipment and Systems Inspectors, Except Aviation

53-7032.00 Excavating and Loading Machine and Dragline Operators

53-7051.00 Industrial Truck and Tractor Operators

53-7062.00 Laborers and Freight, Stock, and Material Movers, Hand

53-7063.00 Machine Feeders and Offbearers

Refuse and Recyclable Material Collectors

53-7081.00

53-7199.00 Material Moving Workers, All Other

55-1015.00 Command and Control Center Officers

33-1021.01 Municipal Fire Fighting and Prevention Supervisors

55-2011.00 First-Line Supervisors of Air Crew Members

25-4013.00 Museum Technicians and Conservators

19-1013.00 Soil and Plant Scientists

13-1041.01 Environmental Compliance Inspectors

13-2061.00 Financial Examiners

19-2021.00 Atmospheric and Space Scientists

19-2041.01 Climate Change Analysts

19-3092.00 Geographers

19-3093.00 Historians

33-9092.00 Lifeguards, Ski Patrol, and Other Recreational Protective Service Workers

11-9121.02 Water Resource Specialists

13-2021.01 Assessors

41-9021.00 Real Estate Brokers

51-3091.00 Food and Tobacco Roasting, Baking, and Drying Machine Operators and Tenders

47-2051.00 Cement Masons and Concrete Finishers

17-1011.00 Architects, Except Landscape and Naval

17-1012.00 Landscape Architects

29-1199.04 Naturopathic Physicians

Bailiffs

33-3011.00

25-2012.00 Kindergarten Teachers, Except Special Education

17-2199.09 Nanosystems Engineers

25-2053.00 Special Education Teachers, Middle School

25-1191.00 Graduate Teaching Assistants

53-6011.00 Bridge and Lock Tenders

25-2011.00 Preschool Teachers, Except Special Education

25-2021.00 Elementary School Teachers, Except Special Education

15-1143.01 Telecommunications Engineering Specialists

53-5031.00 Ship Engineers

17-2061.00 Computer Hardware Engineers

19-3022.00 Survey Researchers

11-9013.00 Farmers, Ranchers, and Other Agricultural Managers

25-1066.00 Psychology Teachers, Postsecondary

43-9011.00 Computer Operators

53-5021.00 Captains, Mates, and Pilots of Water Vessels

25-2023.00 Career/Technical Education Teachers, Middle School

25-2032.00 Career/Technical Education Teachers, Secondary School

25-2054.00 Special Education Teachers, Secondary School

17-2131.00 Materials Engineers

25-2052.00 Special Education Teachers, Kindergarten and Elementary School

25-3011.00 Adult Basic and Secondary Education and Literacy Teachers and Instructors

Agricultural Engineers

17-2021.00

25-1021.00 Computer Science Teachers, Postsecondary

25-1032.00 Engineering Teachers, Postsecondary

25-1041.00 Agricultural Sciences Teachers, Postsecondary

25-1042.00 Biological Science Teachers, Postsecondary

25-1043.00 Forestry and Conservation Science Teachers, Postsecondary

25-1051.00 Atmospheric, Earth, Marine, and Space Sciences Teachers, Postsecondary

25-1052.00 Chemistry Teachers, Postsecondary

25-1053.00 Environmental Science Teachers, Postsecondary

25-1054.00 Physics Teachers, Postsecondary

25-1061.00 Anthropology and Archeology Teachers, Postsecondary

25-1064.00 Geography Teachers, Postsecondary

25-1067.00 Sociology Teachers, Postsecondary

25-1071.00 Health Specialties Teachers, Postsecondary

25-1072.00 Nursing Instructors and Teachers, Postsecondary

25-1113.00 Social Work Teachers, Postsecondary

25-1194.00 Vocational Education Teachers, Postsecondary

33-9093.00 Transportation Security Screeners

35-2021.00 Food Preparation Workers

51-6062.00 Textile Cutting Machine Setters, Operators, and Tenders

51-6063.00 Textile Knitting and Weaving Machine Setters, Operators, and Tenders

51-6064.00 Textile Winding, Twisting, and Drawing Out Machine Setters, Operators, and Tenders

Special Education Teachers, Preschool

25-2051.00

25-3021.00 Self-Enrichment Education Teachers

17-3011.02 Civil Drafters

17-3023.03 Electrical Engineering Technicians

19-2041.02 Environmental Restoration Planners

19-2043.00 Hydrologists

25-1123.00 English Language and Literature Teachers, Postsecondary

27-3043.04 Copy Writers

29-1069.03 Hospitalists

29-1181.00 Audiologists

29-2091.00 Orthotists and Prosthetists

31-1011.00 Home Health Aides

31-2012.00 Occupational Therapy Aides

39-9021.00 Personal Care Aides

47-2151.00 Pipelayers

51-9111.00 Packaging and Filling Machine Operators and Tenders

17-2081.00 Environmental Engineers

17-3029.04 Electronics Engineering Technologists

19-2041.00 Environmental Scientists and Specialists, Including Health

27-3041.00 Editors

11-1011.03 Chief Sustainability Officers

11-3031.01 Treasurers and Controllers

Methane/Landfill Gas Collection System Operators

Butler's Exh. 67, p. 026

11-3051.05

11-3111.00 Compensation and Benefits Managers

11-9013.01 Nursery and Greenhouse Managers

11-9033.00 Education Administrators, Postsecondary

11-9039.01 Distance Learning Coordinators

13-1023.00 Purchasing Agents, Except Wholesale, Retail, and Farm Products

13-1041.06 Coroners

13-1121.00 Meeting, Convention, and Event Planners

13-1131.00 Fundraisers

13-2071.01 Loan Counselors

13-2099.03 Investment Underwriters

15-1143.00 Computer Network Architects

15-1199.04 Geospatial Information Scientists and Technologists

15-1199.11 Video Game Designers

15-2041.00 Statisticians

15-2041.02 Clinical Data Managers

17-2199.08 Robotics Engineers

17-2199.10 Wind Energy Engineers

17-3011.01 Architectural Drafters

17-3013.00 Mechanical Drafters

17-3029.11 Nanotechnology Engineering Technologists

19-1021.00 Biochemists and Biophysicists

Bioinformatics Scientists

19-1029.01

19-1029.02 Molecular and Cellular Biologists

19-3011.00 Economists

19-3031.02 Clinical Psychologists

19-3031.03 Counseling Psychologists

19-3051.00 Urban and Regional Planners

19-4061.00 Social Science Research Assistants

21-1022.00 Healthcare Social Workers

23-1011.00 Lawyers

23-1012.00 Judicial Law Clerks

23-1023.00 Judges, Magistrate Judges, and Magistrates

25-1011.00 Business Teachers, Postsecondary

25-1022.00 Mathematical Science Teachers, Postsecondary

25-1031.00 Architecture Teachers, Postsecondary

25-1062.00 Area, Ethnic, and Cultural Studies Teachers, Postsecondary

25-1063.00 Economics Teachers, Postsecondary

25-1065.00 Political Science Teachers, Postsecondary

25-1081.00 Education Teachers, Postsecondary

25-1082.00 Library Science Teachers, Postsecondary

25-1111.00 Criminal Justice and Law Enforcement Teachers, Postsecondary

25-1112.00 Law Teachers, Postsecondary

25-1122.00 Communications Teachers, Postsecondary

Foreign Language and Literature Teachers, Postsecondary

Butler's Exh. 67, p. 028

25-1124.00

25-1125.00 History Teachers, Postsecondary

25-1126.00 Philosophy and Religion Teachers, Postsecondary

25-1192.00 Home Economics Teachers, Postsecondary

25-1193.00 Recreation and Fitness Studies Teachers, Postsecondary

29-1021.00 Dentists, General

29-1069.04 Neurologists

29-1069.07 Pathologists

29-1069.09 Preventive Medicine Physicians

29-1069.10 Radiologists

29-1071.00 Physician Assistants

29-1123.00 Physical Therapists

29-1124.00 Radiation Therapists

29-1125.02 Music Therapists

29-1126.00 Respiratory Therapists

29-1127.00 Speech-Language Pathologists

29-1131.00 Veterinarians

29-1141.04 Clinical Nurse Specialists

29-1171.00 Nurse Practitioners

29-2032.00 Diagnostic Medical Sonographers

29-2052.00 Pharmacy Technicians

31-2011.00 Occupational Therapy Assistants

Police Identification and Records Officers

33-3021.02

37-3013.00 Tree Trimmers and Pruners

39-5011.00 Barbers

39-5012.00 Hairdressers, Hairstylists, and Cosmetologists

41-3031.03 Securities and Commodities Traders

41-9031.00 Sales Engineers

43-9041.02 Insurance Policy Processing Clerks

45-2091.00 Agricultural Equipment Operators

47-2071.00 Paving, Surfacing, and Tamping Equipment Operators

49-3021.00 Automotive Body and Related Repairers

49-9021.02 Refrigeration Mechanics and Installers

49-9031.00 Home Appliance Repairers

51-3092.00 Food Batchmakers

51-3093.00 Food Cooking Machine Operators and Tenders

51-4041.00 Machinists

51-8099.04 Hydroelectric Plant Technicians

51-9021.00 Crushing, Grinding, and Polishing Machine Setters, Operators, and Tenders

53-4041.00 Subway and Streetcar Operators

53-6021.00 Parking Lot Attendants

53-7111.00 Mine Shuttle Car Operators

15-1141.00 Database Administrators

17-1022.00 Surveyors

Transportation Engineers

Butler's Exh. 67, p. 030

17-2051.01

FLC Data Center - Downloadable Files

OES wage data for 7/2018 - 6/2019 are available for download.

*Please note that 2011-2012 and later updates represent a break in the series. The wage file has been updated to the Standard Occupational Classification rev. 2010, and there are minor changes to the geographic definitions as well as a major update to the corresponding O*Net information.*

This file includes data for the entire country. Also included are geographic and occupational information tables.

Download the 7/2018 - 6/2019 FLC Wage Data Delimited Text Updated June 30, 2018.

Labor Certification Process and Enforcement for Temporary Employment in Occupations Other Than Agriculture or Registered Nursing in the United States (H–2B Workers), and Other Technical Changes; Final Rule

Butler's Exh. 76, p. 001

Butler 02197

DEPARTMENT OF LABOR

Employment and Training Administration

20 CFR Parts 655 and 656

RIN 1205–AB54

Labor Certification Process and Enforcement for Temporary Employment in Occupations Other Than Agriculture or Registered Nursing in the United States (H–2B Workers), and Other Technical Changes

AGENCY: Employment and Training Administration, Department of Labor, in concurrence with the Wage and Hour Division, Employment Standards Administration, Department of Labor.

ACTION: Final rule.

SUMMARY: The Employment and Training Administration (ETA) of the Department of Labor (DOL or the Department) is amending its regulations to modernize the procedures for the issuance of labor certifications to employers sponsoring H–2B nonimmigrants for admission to perform temporary nonagricultural labor or services and the procedures for enforcing compliance with attestations made by those employers. Specifically, this Final Rule re-engineers the application filing and review process by centralizing processing and by enabling employers to conduct pre-filing recruitment of United States (U.S.) workers. In addition, the rule enhances the integrity of the H–2B program through the introduction of post-adjudication audits and procedures for penalizing employers who fail to comply with program requirements. This rule also makes technical changes to the regulations relating to both the H–1B program and the permanent labor certification program to reflect operational changes stemming from this regulation.

Although Congress has conferred the statutory authority to enforce H–2B program requirements on the Department of Homeland Security (DHS), recent discussions between DHS and the Department have yielded an agreement for the delegation of H–2B enforcement authority from DHS to the Department. This Final Rule contains the Wage and Hour Division (WHD) regulations establishing the H–2B enforcement procedures that the Department will institute pursuant to that agreement. Separately, this Final Rule institutes conditions and procedures for the debarment of employers, attorneys, and agents participating in the H–2B foreign labor certification process. As discussed further below, the Department intends to exercise its inherent authority under case law and general principles of program administration to determine what entities practice before it.

DATES: This Final Rule is effective January 18, 2009.

FOR FURTHER INFORMATION CONTACT: For information on the H–2B labor certification process governed by 20 CFR 655.1 to 655.35, contact William L. Carlson, Administrator, Office of Foreign Labor Certification, Employment and Training Administration, U.S. Department of Labor, 200 Constitution Avenue, NW., Room C–4312, Washington, DC 20210. Telephone: (202) 693–3010 (this is not a toll-free number). Individuals with hearing or speech impairments may access the telephone via TTY by calling the toll-free Federal Information Relay Service at 1–800–877–8339.

For information on the H–2B enforcement process governed by 20 CFR 655.50 to 655.80, contact Michael Ginley, Office of Enforcement Policy, Wage and Hour Division, Employment Standards Administration, U.S. Department of Labor, 200 Constitution Avenue, NW., Room S–3502, Washington, DC 20210. Telephone (202) 693–0745 (this is not a toll-free number). Individuals with hearing or speech impairments may access the telephone number above via TTY by calling the toll-free Federal Information Relay Service at 1–800–877–8339.

SUPPLEMENTARY INFORMATION:

I. Background Leading to the NPRM

A. Statutory Standard and Current Department of Labor Regulations

Section 101(a)(15)(H)(ii)(b) of the Immigration and Nationality Act (INA or the Act) defines an H–2B worker as a nonimmigrant admitted to the U.S. on a temporary basis to perform temporary nonagricultural labor or services. 8 U.S.C. 1101(a)(15)(H)(ii)(b).

Section 214(c)(1) of the INA requires DHS to consult with "appropriate agencies of the Government" before granting any H–2B visa petition submitted by an employer. 8 U.S.C. 1184(c)(1). The regulations for the U.S. Citizenship and Immigration Services (USCIS), the agency within DHS charged with the adjudication of nonimmigrant benefits such as H–2B status, currently require, at 8 CFR 214.2(h)(6), that the intending employer (other than in the Territory of Guam) first apply for a temporary labor certification from the Secretary of Labor (the Secretary) advising USCIS whether U.S. workers capable of performing the services or labor are available, and whether the employment of the foreign worker(s) will adversely affect the wages and working conditions of similarly employed U.S. workers.

The Department's role in the H–2B visa program stems from its obligation, outlined in DHS regulations, to certify, upon application by a U.S. employer intending to petition DHS to admit H–2B workers, that there are not enough able and qualified U.S. workers available for the position sought to be filled and that the employment of the foreign worker(s) will not adversely affect the wages and working conditions of similarly employed U.S. workers. 8 U.S.C. 1101(a)(15)(H)(ii)(b); 8 U.S.C. 1184(c)(1); see also 8 CFR 214.2(h)(6).

The Department's role in the H–2B process is currently advisory to DHS. 8 CFR 214.2(h)(6)(iii)(A). DHS regulations provide that an employer may not file a petition with DHS for an H–2B temporary worker unless it has received a labor certification from the Department (or the Governor of Guam, as appropriate), or received a notice from either that a certification cannot be issued. 8 CFR 214.2(h)(6)(iii)(C), (iv)(A), (vi)(A).

Currently, the Department's regulations at 20 CFR part 655, Subpart A, "Labor Certification Process for Temporary Employment in Occupations other than Agriculture, Logging or Registered Nursing in the United States (H–2B Workers)," govern the H–2B labor certification process. Applications for labor certification are processed by the Office of Foreign Labor Certification (OFLC) in ETA, the agency to which the Secretary of Labor has delegated her advisory responsibilities described in the DHS H–2B regulations, after they are processed by the State Workforce Agency (SWA) having jurisdiction over the area of intended employment.[1] The SWA reviews the employer's application and job offer (comparing the employer's offered wage against the prevailing wage for the position); supervises U.S. worker recruitment; and forwards completed applications to OFLC for further review and final determination.

Under current procedures, the employer must demonstrate that its need for the services or labor is temporary as defined by one of four regulatory standards: (1) A one-time occurrence; (2) a seasonal need; (3) a

[1] The SWAs are agencies of State Government that receive Federal Workforce Investment Act (WIA), Wagner-Peyser Act, and other funds to administer our nation's state-based employment services system and perform certain activities on behalf of the Federal Government.

Butler's Exh. 76, p. 002

Butler 02198

peakload need; or (4) an intermittent need. 8 CFR 214.2(h)(6)(ii)(B). The employer or its authorized representative must currently submit to the SWA a detailed statement of temporary need and supporting documentation with the application for H–2B labor certification. Such documentation must provide a description of the employer's business activities and schedule of operations throughout the year, explain why the job opportunity and the number of workers requested reflects its temporary need, and demonstrate how the employer's need meets one of these four regulatory standards. Based on longstanding practice and DOL program guidance, the employer must also establish that the temporary position is full-time and that the period of need is generally one year or less, consistent with the standard under DHS regulations at 8 CFR 214.2h(6). This Final Rule clarifies that full-time employment, for purposes of temporary labor certification employment, means at least 30 hours per week, except that where a State or an established practice in an industry has developed a definition of full-time employment for any occupation that is less than 30 hours per week, that definition governs.

Additionally, the employer must recruit from the U.S. labor market to determine if a qualified U.S. worker is available for the position. In addition, in order to ensure an adequate test of the labor market for the position sought to be filled, the employer must comply with other program requirements. For example, it must offer and subsequently pay throughout the period of employment a wage that is equal to or higher than the prevailing wage for the occupation at the skill level and in the area of intended employment; provide terms and conditions of employment that are not less favorable than those offered to the foreign worker(s); and not otherwise inhibit the effective recruitment and consideration of U.S. workers for the job.

Historically, the Department's review and adjudication of permanent and temporary labor certification applications (including H–2B) took place through ETA's Regional Offices. However, in December 2004, the Department opened two new National Processing Centers (NPCs), one each located in Atlanta, Georgia, and Chicago, Illinois, to centralize processing of permanent and temporary foreign labor certification cases at the Federal level. The Department published a notice in the **Federal Register**, at 70 FR 41430, Jul. 19, 2005, clarifying that employers seeking H–2B labor certifications must file two originals of Form ETA 750, Part A, directly with the SWA serving the area of intended employment. Once the application is reviewed by the SWA and after the employer conducts its required recruitment, the SWA sends the complete application to the appropriate NPC. The NPC Certifying Officer (CO) issues a labor certification for temporary employment under the H–2B program, denies the certification, or issues a notice including the reasons why such certification cannot be made. Prior to June 1, 2008, the NPCs shared responsibility for processing of temporary labor certification applications; each NPC had jurisdiction over and processed applications from a different subset of states and territories. Effective June 1, 2008, the NPCs specialized, each assuming responsibility for different types of applications. Now, H–2B temporary labor certification applications approved by the SWAs are processed exclusively by the Chicago NPC. 73 FR 11944, Mar. 5, 2008.

Currently, the Department has no enforcement authority or process to ensure H–2B workers who are admitted to the U.S. are employed in compliance with H–2B labor certification requirements. Congress vested DHS with that enforcement authority in 2005. See 8 U.S.C. 1184, as amended by the Emergency Supplemental Appropriations Act for Defense, the Global War on Terror, and Tsunami Relief of 2005, Public Law 109–13, 119 Stat. 231. As described more fully below, the Department in this Final Rule establishes the H–2B regulatory enforcement regime proposed in the NPRM, consistent with the agreement for a delegation of enforcement authority reached by the Department and DHS pursuant to 8 U.S.C. 1184(c)(14)(B). This enforcement regime also includes debarment procedures for ETA and the Employment Standards Administration, Wage and Hour Division (WHD), under the Department's inherent debarment authority, which is explained in greater detail below.

B. Earlier Efforts To Reform the H–2B Regulatory Process

On January 27, 2005, DHS and the Department issued companion NPRMs to significantly revise each agency's H–2B processing procedures. 70 FR 3984, Jan. 27, 2005; 70 FR 3993, Jan. 27, 2005. As proposed, those changes to both agencies' regulations would have eliminated in whole the Department's adjudicatory role, ending the current labor certification process for most H–2B occupations and requiring employers to submit labor-related attestations directly to USCIS as part of a revised supplement accompanying the H–2B petition.

The two agencies received numerous comments on the joint NPRMs in 2005. Most commenters opposed the proposals to move the program adjudication to USCIS and to eliminate the Department's role in reviewing the need of employers and the recruitment of U.S. workers except in post-adjudication audits. Commenter concerns focused in part on the loss of the Department's experience in adjudicating issues of temporary need and the potential adverse impact on U.S. workers. Based on the significant concerns posed in those comments, and after further deliberation within each agency, the Department and DHS have not pursued their 2005 proposals. Consequently, the NPRM published by the Department on January 27, 2005 (RIN 1205–AB36) was withdrawn in the Department of Labor's Fall 2007 Regulatory Agenda. See *http://www.reginfo.gov/public/do/eAgendaViewRule?ruleID=221117.*

As stated in the May 22, 2008, NPRM preceding this Final Rule, the Department continued, however, to closely review the H–2B program procedures in order to determine appropriate revisions to the H–2B labor certification process. This ongoing systematic review was accelerated in light of considerable workload increases for both the Department and the SWAs (an approximate 30 percent increase in applications in Fiscal Year (FY) 2007 over those received in FY 2006, and a similar increase during the first half of FY 2008) as well as limited appropriations funding program-related operations.

On April 4, 2007, ETA issued Training and Employment Guidance Letter (TEGL) No. 21–06, 72 FR 19961, Apr. 20, 2007, to replace its previous guidance for the processing of H–2B applications (General Administration Letter No. 1–95, 60 FR 7216, Feb. 7, 1995) and update procedures for SWAs and NPCs to use in the processing of temporary labor certification applications. The Department then held national briefing sessions in Chicago and Atlanta on May 1 and May 4, 2007, respectively, to inform employers and other stakeholders of the updated processing guidance contained in TEGL 21–06. Attendees at those briefing sessions raised important questions and concerns with regard to the effective implementation of TEGL 21–06 by the SWAs and ETA's National Processing Centers (NPCs). In response to the

substantive concerns that were raised, the Department further refined the process of reviewing applications in TEGL 27–06 (June 12, 2007), providing special procedures for dealing with forestry related occupations, and TEGL No. 21–06, Change 1 (June 25, 2007), and updating procedures by allowing the NPC Certifying Officer (CO) to request additional information from employers to facilitate the processing of H–2B applications. 72 FR 36501, Jul. 3, 2007; 72 FR 38621, Jul. 13, 2007. Several issues were not addressed by those refinements, particularly concerns relating to increasing workload and processing delays, which required regulatory changes. This Final Rule addresses a number of those unresolved issues.

C. Current Process Involving Temporary Labor Certifications and the Need for a Redesigned System

As described in the May 22, 2008, NPRM, the process for obtaining a temporary labor certification has been described to the Department as complicated, time-consuming, inefficient, and dependent upon the expenditure of considerable resources by employers. The current, duplicative process requires the employer to first file a temporary labor certification with the SWA, which reviews the application, compares the wage offer to the prevailing wage for the occupation, oversees the recruitment of U.S. workers, and then transfers the application to the applicable ETA NPC, which conducts a final review of the application. This process has been criticized for its length, overlap of effort, and resulting delays. Application processing delays, regardless of origin, can lead to adverse results with serious repercussions for a business, especially given the numerical limitation or "cap" on visas under this program, as a result of which any processing delay may prevent an employer from securing visas for H–2B workers during any given half year period for which numbers are available. This occurs because employer demand for the limited number of visas greatly exceeds their supply, and all visas are typically allocated in the early weeks of availability. See 8 U.S.C. 1184(g)(1)(B) (setting H–2B annual visa cap at 66,000) and 8 U.S.C. 1184(g)(10) (setting a cap of 33,000 as the number of H–2B visas that may be allocated during each 6-month period of a fiscal year).

The increasing workload of the Department and SWAs poses a growing challenge to the efficient and timely processing of applications. As stated in the NPRM, the H–2B foreign labor certification program continues to increase in popularity among employers. While the annual number of visas available is limited by statute, the number of labor certifications is not. The number of H–2B labor certification applications has increased 129 percent since FY 2000. In FY 2007, the Department experienced a nearly 30 percent increase in H–2B temporary labor certification application filings over the previous fiscal year. This increasing workload is exacerbated because the INA does not authorize the Department to charge a fee to employers for processing H–2B applications.[2] At the same time, appropriated funds have not kept pace with the increased workload at the State or Federal level. This has resulted in significant disparities in processing times among the SWAs. Some observers have noted these disparities among States unfairly advantage one set of employers (those in which the SWAs are able to timely process applications) over others (those in which SWAs experience delays due to backlogs resulting from inadequate staffing or funding, or other causes).[3]

In light of these recurring experiences, this Final Rule institutes several significant measures to reengineer the Department's administration of the program. These changes improve the process by which employers obtain labor certification and where our program experience has demonstrated additional measures would assist the Department in protecting the job opportunities and wages of U.S. workers. The Final Rule also provides greater accountability for employers through penalties, up to and including debarment, as an additional safeguard against abuse of the program.

D. Overview of Redesigned H–2B Foreign Labor Certification Process

As proposed in the NPRM and finalized in this rule, the redesigned application process will require employers to complete recruitment steps similar to those now required, but will require them to do so prior to filing the application for labor certification. Once recruitment is complete, this Final Rule maintains the requirement proposed in the NPRM that the completed application be submitted directly to DOL instead of being filed with a SWA. This Final Rule eliminates the SWA duplicative review of the H–2B application. In association with this Final Rule, the Department has redesigned the application form currently used for the H–2A and H–2B temporary labor certification programs and proposed a new ETA Form 9142. Additional information about the new application form appears in the Administrative Information section of this preamble. This rule does not eliminate or federalize SWA activities (*e.g.*, the job order and interstate clearance process) that may ultimately support an employer's H–2B application but are funded and governed independently under the Wagner-Peyser Act. This rule does federalize prevailing wage determinations, previously performed by the SWAs under this program.

To test the U.S. labor market appropriately, employers will be required to first obtain from the Chicago NPC a prevailing wage rate to be used in the recruitment of U.S. workers. To make this request, employers in the non-agricultural labor certification programs will use a new ETA Form 9141, which was designed and will be implemented in conjunction with this Final Rule. As with the Form 9142, additional information about the Form 9141 appears in the Administrative Information section of the preamble. The employer will then follow recruitment steps similar to those required under the current program. The NPRM proposed increasing the number of required advertisements to three. However, in response to comments, the Final Rule returns to the current requirement of two advertisements, although it retains the proposed requirement that one of those advertisements be placed on a Sunday.

Consistent with the NPRM, this Final Rule requires the employer to attest to and enumerate its recruitment efforts as part of the application but does not require the employer to submit

[2] On June 17, 2008, the Department transmitted draft legislation to the Congress that would amend the INA to provide the Department with authority to charge and retain a fee to recoup the costs of administering the H–2B labor certification program.

[3] The growth in the number of applications is explained in part by the increasing desire of employers for a legal temporary workforce and by legislation that permitted greater numbers of H–2B workers into the U.S. by exempting from the 66,000 annual cap any H–2B worker who had been counted against the numerical cap in previous years. See Save Our Small and Seasonal Businesses Act of 2005, Public Law 109–13, Div. B, Title IV, 119 Stat. 318 (effective May 11, 2005) (exempting from numerical cap for FY 2005 and FY 2006 returning H–2B workers who had counted against the cap in one of the three fiscal years preceding the fiscal year in which the visa petition was filed), and Save Our Small and Seasonal Businesses Act of 2006, included in the Defense Authorization Act for FY 2007, Sec. 1074, Public Law 109–364 (making amendment retroactive to October 1, 2006, and extending the exemption through FY 2007). These returning worker provisions expired September 30, 2007. 8 U.S.C. 1184(g)(9) (2007); INA sec. 214(g)(9); see also Sec. 14006, Public Law 108–287, 118 Stat. 951, 1014 (August 6, 2004) (exempting some fish roe occupations from the cap).

Butler's Exh. 76, p. 004

Butler 02200

supporting documentation with its application. To ensure the integrity of the process, the Final Rule requires the employer to retain documentation of its recruitment, as well as other documentation specified in the regulations, for 3 years from the date of certification. The employer will be required to provide this documentation in response to a request for additional information by the Certifying Officer (CO) before certification or by ETA pursuant to an audit or in the course of an investigation by the Wage and Hour Division (WHD) after a determination on the application has been issued. The Department has set the document retention requirement at 3 years rather than the proposed 5 years in response to comments received expressing concerns that five years would impose an unnecessary burden on small employers, especially those that are mobile or have a mobile component.

Employers or their authorized representatives (attorneys or agents) will be required to submit applications using a new form designed to demonstrate the employer's compliance with the obligations of the H–2B program. As described in the NPRM and the Final Rule, the application form will collect, in the form of attestations, information that is largely required already by the current H–2B labor certification process. These attestations are required from the employer to ensure adherence to program requirements and to establish accountability. As with recruitment, employers are required to retain records documenting their compliance with all program requirements. An application that is complete will be accepted by the NPC for processing and will undergo final review by the Department.

Based on the Department's experience, and in response to concerns voiced in public comments about the need for H–2B stakeholder guidance and ETA staff training, we have added a transition period to the Final Rule at new § 655.5. Although the Final Rule takes effect 30 days from publication, it phases in implementation based on employment start dates listed in the application. Employers with a date of need on or after October 1, 2009, will be governed by these new regulations. Employers with a date of need on or after the rule's effective date but prior to October 1, 2009, will follow the transitional process described in § 655.5. Additional information about the transition process appears below.

In order to further protect the integrity of the program, specific verification steps, such as verifying the employer's Federal Employer Identification Number (FEIN) to ensure the employer is a bona fide business entity, will occur during processing to ensure the accuracy of the information supplied by the employer. If an application does not appear to be complete or merit approval on its face but requires additional information in order to be adjudicated, the CO will issue a Request for Further Information (RFI), a process the program already employs. After Departmental review, an application will be certified or denied.

As proposed in the NPRM and adopted in the Final Rule, the introduction of new post-adjudication audits will serve, along with WHD investigations, as both a quality control measure and a means of ensuring program compliance. Audits will be conducted on adjudicated applications meeting certain criteria, as well as on randomly-selected applications. In the event of an audit or WHD investigation, employers will be required to provide information supporting the attestations made in the application. Failure to meet the required standards or to provide information in response to an audit or investigation may result in an adverse finding on the application in question, initiate Departmental supervised recruitment in future applications, and penalties.[4]

As stated in the NPRM, the Department expects the modernized processing of applications will yield a reduction in the overall average time needed to process H–2B labor certification applications. This process is expected to lead to greater certainty and predictability for employers by reducing processing times which have exceeded our historical 60-day combined State and Federal processing timeframe.

II. Discussion of Comments on the Proposed Rule

In response to the proposed rule, the Department received 134 comments, of which 88 were unique and another 46 were duplicate form comments. Commenters represented a broad range of constituencies for the H–2B program, including individual employers, agents, industry coalitions and trade groups, advocacy and legal aid organizations, labor unions, a bar association, congressional oversight and authorizing committees, and individual members of the public.

The Department received comments both in support and opposition to the proposed regulation. Comments supported, for example, the anticipated efficiencies of the proposed streamlined process and the potential conversion to electronic filing. Broadly, other commenters opposed the rule because they felt it would undermine program integrity or weaken worker protections and U.S. worker access to job opportunities. Still others believed the rulemaking untimely, given the general weakening of the economy, or that the proposed rule failed to address what they believed to be key problems underlying the program. Several of those problems, such as the annual cap of 66,000 H–2B visas per year, are statutory and cannot be changed through regulation.

In addition, as described in greater detail below, the Department received comments raising a variety of concerns with specific proposals and provisions within the rule. After reviewing those comments thoughtfully and systematically, the Department has modified several provisions and retained others as originally proposed in the NPRM.

Provisions of the NPRM that received comments are discussed below; provisions that were not commented on or revised for technical reasons have been adopted as proposed. The Department has made some technical changes to the regulatory text for clarity and to improve readability, but those changes were not designed to alter the meaning or intent of the regulation.

A. Section 655.2—Territory of Guam

In the Final Rule, the Department has revised the discussion on the authority of the Governor of Guam to clarify that the enforcement of the provisions of the H–2B visa program in Guam resides with the Governor, pursuant to DHS regulations.

B. Section 655.4—Definitions

Of the definitions proposed in the NPRM, comments were received on the definitions for "agent," "attorney," "employ," "employer," "full time," "representative," and "United States worker."

The proposed rule defined an agent as "a legal entity or person which is authorized to act on behalf of the employer for temporary agricultural labor certification purposes, and is not itself an employer as defined in this subpart. The term 'agent' specifically excludes associations or other organizations of employers." In response to comments, the Department has corrected the typographical error and replaced "agricultural" with "nonagricultural."

Some commenters supported the proposed definition of agent with regard to its barring of associations or organizations of employers. One bar

[4] Further sanctions may be imposed by DHS. See 8 U.S.C. 1184(c)(14).

Butler's Exh. 76, p. 005

Butler 02201

AR - 3264

association commented there had been many abuses by agents in the past, including the unauthorized practice of law, and recommended the Department adopt the definition under DHS regulations at 8 CFR 292.1. We have reviewed the guidelines under that section and concluded it is inappropriate for the labor certification process. The standard set by 8 CFR 292.1 is not tailored to the Department's needs. For example, it includes, among others, law students and "reputable individuals." We have determined such persons may not be appropriate to practice before the Department, in particular for purposes of foreign labor certification activities. That definition was designed to fit the needs of another Federal agency and would eliminate many current individuals who act on behalf of employers in the labor certification process with the Department.

The Department acknowledges that allowing agents who are not attorneys does not fit into the categories recognized by DHS and creates a difference between the two agencies. The Department has permitted agents who do not meet these criteria to appear before it for decades. Agents who are not attorneys have represented claimants before the Department in a wide variety of activities since long before the development of H–2A program, and DOL's programs, where they intersect with those of DHS, permit a broader range of representation. To change such a long-standing practice in the context of this rulemaking would represent a major change in policy that the Department is not prepared to make at this time and was suggested in the NPRM seeking comments. Consequently, the Department has not adopted this recommendation. The Department will maintain its long-standing practice and policy with respect to who may represent employers.

For greater clarity, a definition for "Administrator, Wage and Hour Division (WHD)" has been added to the definition section of the regulation to distinguish this official from the "Administrator, Office of Foreign Labor Certification (OFLC)." Regulatory text has been added where needed to distinguish between these officials.

The proposed rule defined an attorney as:

> Any person who is a member in good standing of the bar of the highest court of any State, possession, territory, or commonwealth of the U.S., or the District of Columbia, and who is not under suspension or disbarment from practice before any court or before DHS or the U.S. Department of Justice's Executive Office for Immigration Review. Such a person is permitted to act as an attorney or representative for an employer under this part; however, an attorney who acts as a representative must do so only in accordance with the definition of "representative" in this section.

In the Final Rule, the Department has reworded the definition to provide more clarity regarding the bodies or courts that could suspend or disbar an attorney. The Department has also revised the final sentence in the definition to read: "Such a person is permitted to act as an agent or attorney for an employer and/or foreign worker under this subpart."

In the NPRM, the Department added a definition for "employ" and made revisions to the definition of "employer." A trade association suggested that the Department eliminate the definition of "employ" but retain the definition of "employer," stating that the definition of "employ" adds nothing to clarify status or legal obligations under the H–2B program and insinuates broad legal concepts that add unnecessary confusion. As suggested by commenters, the Department has deleted the definition of "employ." We agree this definition did not provide any additional clarification regarding status or legal obligations related to the H–2B program and may generate some confusion with other statutes.

The Department received comments that the requirement for a Federal Employer Identification Number (FEIN) as incorporated in the definition of "employer" could be problematic for some employers. One commenter recommended the use of the DUNS number as a complement to the FEIN. The "data universal numbering system" (DUNS), which is operated by Dunn & Bradstreet, issues nine-digit numbers that serve as unique identifiers and are used, in cases, by the Federal Government or individual businesses to track business entities. The Department has decided to retain the definition as proposed, and notes that it is easy for employers to obtain FEINs, which have the advantage of being assigned by the Internal Revenue Service, although in paragraph (1)(iii) of the definition we have added the phrase "for purposes of the filing of an application," to clarify the FEIN is information gathered specifically at the point of application for H–2B labor certification. In paragraph (1)(i) of the definition, the Department has replaced "may" with "must" to clarify U.S. workers must be referred to a U.S. location for employment.

Commenters supported the inclusion of a definition for "full time." The Department agrees with one commenter's assertion that, consistent with program practice, the definition should not be construed to establish an actual obligation of the number of hours that must be guaranteed each week. The parameters set forth in the definition of "full time" refer to the number of hours that are generally perceived to constitute that type of employment, as distinguished from "part time," and are not a requirement that an employer offer a certain number of hours or any other terms or conditions of employment.

The Department has also made changes to the definition of a job contractor for purposes of clarity. The changes make clear that the job contractor, rather than the contractor's client, must control the work of the individual employee.

One trade association commented that to the extent the intent of the rule is to define the respective liability of agents and representatives, it should articulate a clear set of standards for liability. The association found the definition of "representative" to be problematic and suggested deleting or revising it. The commenter questioned whether the intent of the regulation was to make the representative liable for any misrepresentations in an attestation made on behalf of an employer. Because of potential overlaps with the definition and role of agent, the commenter also requested the rule clarify if, and under what circumstances, an agent is liable for activities undertaken on behalf of an employer. The commenter recommended the Department delete the provision on the representative's role in the consideration of U.S. workers, questioning what rationale the Department had for dictating under what circumstances an attorney or other person can interview U.S. applicants for the job, and why the Department is "singling out" attorneys within the definition.

The Department disagrees with the commenter's interpretation of the liability of an agent or attorney for the acts of the employer. The duties of an agent or attorney may vary widely and not all duties that an agent or attorney undertakes may lead to liability. The Department recognizes, however, that some of an agent's or attorney's duties in representing an employer may put the agent or attorney in the role of the employer and be a basis for assigning liability for the employer's acts or omissions. For example, in undertaking to represent an employer in the H–2A program, an agent or attorney not only performs administrative tasks but also

Butler's Exh. 76, p. 006

Butler 02202

submits attestations regarding the employer's obligations under the program. Attorneys and agents undertake a significant duty in making such representations. They are, therefore, responsible for reasonable due diligence in ensuring that employers understand their responsibilities under the program and are prepared to execute those obligations. Agents and attorneys do not themselves make the factual attestations and are not required to have personal knowledge that the attestations they submit are accurate. They are, however, required to inform the employers they represent of the employers' obligations under the program, including the employers' liability for making false attestations, and the prohibition on submitting applications containing attestations they know or should know are false. Failure to perform these responsibilities may render the agent or attorney personally liable for false attestations. The Department has decided to retain the definition as proposed.

One commenter believed that the definition of "United States worker" presented in the NPRM was too narrow and that there are other persons in the United States legally entitled to work in addition to those in the categories listed. The Department disagrees and has retained the proposed definition, as it is inclusive and consistent with other provisions of immigration law and regulations that define U.S. workers and persons authorized to work in the U.S.

The Department also added definitions for the terms "Administrative Law Judge," "Chief Administrative Law Judge," "Department of Homeland Security," and "United States Citizenship and Immigration Services," mirroring the definitions in the Department's H–2A Final Rule. These terms and definitions were inadvertently omitted from the proposed rule.

The Department has added a definition of the term "*strike*" to the Final Rule. The definition clarifies that the Department will evaluate whether job opportunities are vacant because of a strike, lockout, or work stoppage on an individualized, position-by-position basis.

The Department also has added a definition of "successor in interest" to make clear that the Department will consider the facts of each case to determine whether the successor and its agents were personally involved in the violations that led to debarment in determining whether the successor constitutes a "successor in interest" for purposes of the rule.

C. Section 655.5—Transition

The Department recognizes that implementing the provisions of the Final Rule may be somewhat difficult for employers who have already filed their applications with the SWA to begin recruiting U.S. workers. Even though the NPRM put current and future users of H–2B workers on notice regarding the Department's intention to publish a Final Rule, the rule represents a departure from the current administration of the program. H–2B employers, including those who expressed concern regarding the time frame for a Final Rule, will require some period of time to prepare and adjust their requests for nonimmigrant workers to perform temporary or seasonal nonagricultural services or labor, particularly in tandem with changes to DHS processing of cases, and understand how to complete the Department's new forms for requesting a prevailing wage and applying for temporary employment certification.

In response to comments, the Department is accordingly adopting a transition period, outlined in new § 655.5 (previously reserved). Employers filing applications for H–2B workers on or after the effective date of these regulations where the date of need for the services or labor to be performed is before October 1, 2009, will be required to obtain a prevailing wage determination from the SWA serving the area of intended employment, rather than the NPC, but must meet all of the other pre-filing recruitment requirements outlined in this regulation before an *Application for Temporary Employment Certification* can be filed with the NPC. However, employers filing applications on or after the effective date of these regulations where the date of need for H–2B workers is on or after October 1, 2009, must obtain a prevailing wage determination from the NPC and comply with all of the obligations and assurances detailed in this subpart. The SWAs will no longer accept for processing applications filed by employers for H–2B workers on or after the effective date of these regulations. Rather, the SWAs will assist the Department's transition efforts by issuing prevailing wage determinations where the employer's need for H–2B workers is prior to October 1, 2009. This will allow the rest of the pre-filing recruitment requirements, obligations and assurances to become effective immediately. During this transition period, the Department expects that SWAs will continue to allow employers to file prevailing wage requests on forms they currently use in other visa programs in order to minimize any confusion and expedite the prevailing wage review process.

In order to complete the processing of applications filed with the SWAs prior to the effective date of these regulations, the transition procedures require the SWAs to continue to process all active applications under the former regulations and transmit all completed applications to the NPC for review and issuance of a final determination. In circumstances where the SWA has already transmitted the completed application to the NPC, the NPC will complete its review in accord with the former regulations and issue a final determination. OFLC intends to conduct several national stakeholder briefings to familiarize program users with these requirements.

D. Section 655.6—Temporary Need

Congress mandated the H–2B program be used to fill only the temporary needs of employers where no unemployed U.S. workers capable of performing the work can be found. 8 U.S.C. 1101(a)(15)(H)(ii)(b). Therefore, as explained in the NPRM, the Department will continue to determine whether the employer has demonstrated that it has a need for foreign labor that cannot be met by U.S. workers and that the need is temporary in nature.

The controlling factor continues to be the employer's temporary need and not the nature of the job duties. *Matter of Artee Corp.*, 18 I&N Dec. 366 (Comm. 1982); *cf. Global Horizons, Inc.* v. *DOL*, 2007–TLC–1 (Nov. 30, 2006) (upholding the Department's position that a failure to prove a specific temporary need precludes acceptance of temporary H–2A application).

DHS regulations at 8 CFR 214.2(h)(6)(ii)(B) provide that a petitioner's need be one of the following: (1) A one-time occurrence, in which an employer demonstrates it has not had a need in the past for the labor or service and will not need it in the future, but needs it at the present time; (2) a seasonal need, in which the employer establishes that the service or labor is recurring and is traditionally tied to a season of the year; (3) a peakload need, in which the employer needs to supplement its permanent staff on a temporary basis due to a short-term demand; or (4) an intermittent need, in which the employer demonstrates it occasionally or intermittently needs temporary workers to perform services or labor for short periods.

As proposed in the NPRM, for purposes of a one-time occurrence, under this Final Rule the Department will consider a position to be temporary

Butler's Exh. 76, p. 007

Butler 02203

as long as the employer's need for the duties to be performed is temporary or finite, regardless of whether the underlying job is temporary or permanent in nature, and as long as that temporary need—as demonstrated by the employer's attestations, temporary need narrative, and other relevant information—is less than 3 consecutive years. This interpretation is consistent with the rule proposed by USCIS on August 20, 2008, 73 FR 49109, which is being finalized in conjunction with this regulation.

Consistent with the final USCIS regulations, the Department proposed—and the Final Rule permits—a one-time occurrence to include one-time temporary events that have created the need for temporary workers for up to 3 years. The Final Rule requires those employers to request annual labor certifications based on new tests of the U.S. labor market. As stated in the NPRM, we believe this is the best method by which to ensure U.S. worker access to these job opportunities, but recognize that an employer's need for workers to fill positions could, in some cases, last more than one year.

The Department received a number of comments in response to the proposed expansion of the one-time occurrence definition. A job contractor commented that it did not believe the Department needed to specifically authorize the possibility of a 3-year, one-time need, since it could be inferred as already having the authority to certify such situations as long as the employer's situation as described in the application was compelling. However, the commenter believed that establishing a maximum 3-year stay may be limiting under certain circumstances such as rebuilding after natural disasters. It also creates confusion and complexity for the employer applicants who may not understand the distinction between a 3-year labor need broadly speaking and a one-time occurrence. Under the NPRM and this Final Rule, the extension of the temporary need definition from 1 year or less to potentially up to 3 years does not apply to all categories of need. The Department believes employers should understand that an H–2B visa will only be granted for longer than 1 year in the case of a one-time occurrence.

Neither the Department nor DHS is changing the long-established definition of one-time occurrence which encompasses both unique non-recurring situations but also any "temporary event of a short duration [that] has created the need for a temporary worker." For example, an employer could utilize the H–2B program to secure a worker to replace a permanent employee who was injured. Further, if that permanent employee, upon returning to work, subsequently suffered another injury, the same employer could utilize the H–2B program again to replace the injured employee on the basis of a one-time occurrence. A one-time occurrence might also arise when a specific project creates a need for additional workers over and above an employer's normal workforce. For example, if a shipbuilder got a contract to build a ship that was over and above its normal workload, that might be a one-time occurrence. However, the Department would not consider it a one-time occurrence if the same employer filed serial requests for H–2B workers for each ship it built.

The NPRM required that employers request recertification annually where their one-time occurrence extends beyond 1 year. The Department agrees with public comments that, where the need is one-time only, the added burden and expense of an additional labor market test does not make sense where the total period of need is less than 18 months. Therefore, an employer with a one-time need that has been approved for more than 1 year but less than 18 months will receive a labor certification covering the entire period of need, and will not be required to conduct another labor market test for the portion of time beyond 12 months. An employer requesting certification based on a one-time occurrence it expects to last 18 months or longer, however, will be required to conduct one or more additional labor market tests.

A number of individual small business commenters were concerned that the proposed changes went beyond the original intent of the program and would leave the seasonal and peakload businesses for which it was intended without adequate numbers of visas. They raised longstanding concerns with what many believe is an arbitrarily low visa cap and the strong competition among industries for the limited visas. These commenters posited that expanding the term to 3 years would open up the program to a wider number of industries, further increasing competition for visas and effectively crowding out those employers for which these commenters believe the visa was intended. One small employer thought it would allow high tech businesses to participate in the H–2B program to use up all the visas and leave other employers with real peakload needs wanting. This employer also thought it would create a security threat by letting visas be sold on the black market. SWAs commenting also questioned the change in definition as being what they described as a significant program change. While most employers of highly skilled workers currently avail themselves of the H–1B visa program, they are not precluded from seeking, as an alternative, H–2B nonimmigrant status, if they otherwise meet the requirements of the H–2B program. None of the changes proposed by the Department would make the H–2B visa program any more or less available to highly skilled workers or provide employers who might wish to use such persons as H–2B workers with any greater advantage than other H–2B employers. In addition, with respect to visas issued by the State Department based on an approved DHS petition, the Department is unaware of any contemplated change in this or the DHS rulemaking that would create an automatic 3-year H–2B visa. Depending on reciprocity schedules, under current State Department regulations, an initial H–2B visa is generally issued for a year or less, or for the validity period of the approved H–2B petition, but can be extended for additional periods of time to correspond to any period of time DHS might extend such H–2B petition. Nothing in this rule would change that.

Several Members of Congress submitted separate comments on behalf of congressional committees. One U.S. Senator opposed the expansion of the definition of a one-time occurrence as contrary to the 1987 legal opinion of the Department of Justice, Office of the Legal Counsel. The comment stated that the Department of Justice considered various views of the proposed construction of "temporarily" in the context of the H–2A visa program and declined to define temporary as up to 3 years. According to the comment, the Justice opinion concluded that the statutory text, Congressional intent, and sound policy compelled a definition of temporary to be 1 year or less for all H–2 classifications. The comment also pointed to the Department's and DHS's proposed rules on the H–2A program that retained the one year or less definition of temporary (absent extraordinary circumstances) as evidence that the current construction should be retained. The commenter was concerned that the regulation would lead to abuse of the H–2B program by encouraging some employers who want to take advantage of the program to characterize long-term or permanent jobs as temporary. The commenter believed that these longer-term jobs should be filled by U.S. workers and, if none are available, only then through the employment-based immigration visa process.

Several labor unions also commented on this provision, largely in opposition.

Butler's Exh. 76, p. 008
Butler 02204

One believed the proposal to be at odds with years of precedent and immigration and workforce policy, as well as current law. The commenter asserted that expanding the definition conflicts with DHS regulations, runs counter to the purpose of the H–2B program, and undermines the Congressional mandate to protect U.S. workers. Another labor organization contended that if an employer's need is longer than a short duration it is not a temporary need, and a period longer than a year is not of short duration. This commenter opposed the inclusion of this provision and urged the Department to withdraw this proposed change. Another union proposed temporary employment be limited to six months and "certainly no longer than [1] year." Another labor organization opposing the proposed provision did not believe that the requirement that employers retest the labor market each year represented a meaningful safeguard for domestic workers, particularly if the Department were to adopt an attestation-based system where recruitment of U.S. workers is not actively supervised by the SWAs. It recommended the H–2B program be made consistent with the H–2A program concerning the definition of temporary.

Several worker advocacy organizations also opposed this provision, indicating their belief it was not in keeping with the objectives of the program and would open most construction jobs in the country to be potentially part of the program. An individual employer commented that seasonal should mean 8 months or less so as to not compete with local permanent jobs.

A law firm commented that the proposed changes went beyond what it believed Congress intended and claimed anecdotally it would directly and proportionally adversely affect the industries for which it felt the program was designed. It believed that the problems with the program are more associated with the delays and uncertainties related to the inadequate number of visas as well as inadequate budget and staffing at all levels of the application process. The commenter recommended these problems would be best addressed by Congress and by increased fees at each step. It also believed that this expansion of the definition would encourage additional industries, most notably the information technology industry, to participate and to put undue pressure on an already pressured program.

Conversely, several employer and trade associations supported the expanded provision. One employer association welcomed the change as long in coming. Another supported it as a means to provide greater flexibility across industries and regions. Still another recommended that the 3-year provision be expanded beyond "one-time need" to the other three categories of temporary need.

A legal association supported the proposal to expand temporary need but suggested the Department rethink the requirement that employers retest the market each year. According to the comment, requiring employers to get a new prevailing wage and perform additional recruitment and filing each year would increase workload for the Department, increase costs to employers, and fails to recognize the advantages of the employer having the availability of trained, experienced workers. It recommended that a reasonable alternative would be for employers to check the prevailing wage determination annually to ensure that the workers are being paid the appropriate wage but not to have to undertake further recruitment efforts.

Many SWAs commented on the proposed rule. On the issue of temporariness, one SWA stated its support for retesting the labor market each year. An employer association supported retesting the labor market each year only in situations where there was a significant time period beyond the ordinary 10-month period left on the labor certification. It believed that this requirement would be too onerous on employers if applied to jobs lasting only 18 months, for example.

Finally, a worker advocacy group recommended the addition of a process either through the Department or the SWAs under which workers could challenge the determination that the jobs are temporary.

The Department defers to the Department of Homeland Security and will use their definition of temporary need as published in their Final Rule on H–2B. Currently, that definition, including the four categories of need, appears at 8 CFR 214.2(h)(6)(ii), and requires the employer show extraordinary circumstances in order to establish a need for longer than 1 year. DHS's Final Rule amends 8 CFR 214.2(h)(6)(ii)(B) to eliminate the requirement for extraordinary circumstances and clarify that a temporary need is one that ends in the near, definable future, which in the case of a one-time occurrence could last longer than 1 year and up to 3 years. Accordingly, we have deleted the definitions we had in our regulatory text in the NPRM and instead provided a reference to the DHS regulations.

E. Section 655.10—Determination of Prevailing Wage for Labor Certification Purposes

1. Federalizing Prevailing Wage Determinations

The Department proposed a new reengineered system to federalize the issuance of prevailing wages, under which employers would obtain the prevailing wage for the job opportunity directly from the NPC. As proposed, the new federalized process would allow employers to file prevailing wage requests with the appropriate NPC—designated as the Chicago NPC for prevailing wage requests—no more than 90 days before the start of recruitment. The proposed rule also clarified the validity period for wage determinations. Based on annual updates to the Occupational Employment Survey (OES) database, and depending on the time of year that the prevailing wage determination (PWD) was obtained from the Department, relative to the date of the most recent update, the wage determination provided could be valid from several months up to 1 year. The NPRM sought comments from employers who had utilized the program in the past on the efficacy of this proposed action.

The Department received numerous comments on this new process. After consideration of all comments, we have decided to implement the PWD process as proposed in the NPRM. However, to reflect the transition from the current system to the new, the Final Rule now clarifies that employers with a date of need on or after October 1, 2009, must seek a PWD from the Chicago NPC prior to beginning recruitment, while employers with prior dates of need will continue to seek PWDs from the SWAs. However, consistent with the Department's intent to immediately implement the Final Rule, and as set forth in § 655.5 of this Final Rule, SWAs will be required to follow the procedures instituted under § 655.10 for any prevailing wage determination requests submitted on or after the date this Final Rule takes effect.

Overwhelmingly, commenters were concerned about the capability of the NPC to provide timely and accurate prevailing wage determinations. Commenters supporting the new centralized process included trade associations, employer-based organizations, businesses, and individual professionals with significant experience in the foreign labor certification field. Of those, some requested reassurance that the Department would allocate sufficient resources and training to the PWD

Butler's Exh. 76, p. 009

Butler 02205

activity at the NPCs to prevent processing delays. They urged the Department to institute mechanisms to ensure consistency between NPCs and across job titles, descriptions, and requirements; and to offer comprehensive training to employers, attorneys, and agents prior to implementation.

Many commenters, including labor unions, advocacy organizations, academic institutions, and SWAs expressed concern that the NPC staff would not possess the same level of expertise, particularly locally-oriented expertise, required to provide accurate, context-appropriate prevailing wage determinations as the SWA staff. They believed this could lead to reduced scrutiny, inaccuracy, backlogs, and delays, and adversely affect U.S. worker wages and job opportunities. The SWAs that commented on this issue were concerned that transferring the determination to the NPCs would also degrade customer service, and some questioned whether OES really keeps pace with changes in local standards. One state has had success with its own system and recommended the Department replicate that system on a national scale.

One advocacy organization expressed the view that centralization would be particularly harmful to amusement park industry workers, which currently use a weekly rate rather than an hourly rate. One employer was concerned that NPC-issued PWDs would be inaccurate and biased in favor of higher wages, raising program costs. Several commenters opposed PWD federalization in its entirety and proposed full funding of SWAs for these activities. In the alternative, they recommended that, if the Department were to move forward, it hire staff with strong PWD backgrounds and create a separate PWD unit within the NPC.

To guard against potential delays, some commenters requested that a timeframe for the process be established, or recommended adjustments to the process as proposed. A small business coalition recommended the Department permit employers to recruit without first getting the PWD from the NPC, so long as the employer accompanied its H–2B application with a printout of a current and appropriate wage from O*NET, which is the Internet wage survey the Department updates on an annual basis. A large trade association made a similar recommendation, with a proviso that if the employer has not used the correct wage from the database, it would be required to restart the application process after obtaining a PWD from the NPC. The Department also received a suggestion that employers be allowed to get the OES rate themselves unless they want a safe harbor which would be provided by getting the wage rate from the NPC or SWA. Another commenter was concerned that employer surveys do not provide the same safe harbor as SWA determinations and another commenter was concerned that eliminating the SWA from the process meant that the safe harbor would also be eliminated.

This Final Rule establishes rules under which employers may provide their own information. Apart from those instances, the Department believes there is greater value and potential for greater consistency and efficiency in having the NPC provide the wage. The Department believes that continued oversight at the Federal level is essential to ensuring that the job opportunities are advertised and paid at the required wage and therefore does not adversely affect U.S. worker wages.

A number of commenters urged that within this new process, the Department provide a vehicle for communication between program users and NPC staff to resolve disagreements on the job opportunity or wage level and educate program users on the Department's methodology. One trade association recommended the Department disclose its methodology for a PWD upon request from an employer with sufficient time to avoid delaying the application. Other organizations conditioned their support of the new process specifically on the creation of a mechanism for communicating or interacting with the public. Some commenters observed that the appeal process for wage determinations can be quite lengthy, and not a viable option in the context of H–2B or H–1B, where timing is critical; those commenters were particularly concerned that without such communication the timeframe for resolving any prevailing wage determination issues would be lengthened.

The Department recognizes its responsibility to provide an efficient process for prevailing wage determinations. Now that the backlog in the permanent labor program has been eliminated, resources are being redirected to other OFLC priorities, including offsetting some costs associated with the re-engineering of the temporary labor certification programs. As the new program design is implemented, we will allocate available appropriated resources to key activities, including the PWD function. As part of this process, the Department will focus on identifying areas where improvements could be made, including developing and providing needed training. The Department will also look to its stakeholder community for input and suggestions for improvements.

The Department will provide stakeholder briefings on H–2B Final Rule, is updating its Prevailing Wage Guidance for agricultural and nonagricultural programs, and will provide additional training and educational material as appropriate.

The Department will, to the extent feasible and within available resources, seek to hire qualified staff, will train staff already on board, and if appropriate, will consider establishing a separate PWD unit at the Chicago NPC. In addition, the Department will strive to provide timely, appropriate guidance to program users and SWAs to ensure a successful transition and implementation. We remain confident that federalizing the prevailing wage application component will instill a high level of efficiency and consistency in the process which has been a past problem. This increased efficiency and consistency will help ensure more accurate wage determinations, which result in improved protections for U.S. workers.

As stated in the NPRM, the Department strongly believes that shifting wage determination activities to NPC staff will reduce the risk of job misclassification because of centralized staff experience, thereby not only strengthening program integrity, but also ensuring consistency in classification across States, resulting in improved protections for U.S. workers.

As discussed in the NPRM, the Department has received numerous reports that in cases where job descriptions are complex and contain more than one different and definable job opportunity, some SWAs have made inconsistent classifications that resulted in inconsistent PWDs. Furthermore, where H–2B workers are required to work in several different geographic areas that may be in the jurisdiction of several SWAs (examples include the New York, New Jersey, Connecticut "Tri-state Region" or the Washington, DC-Maryland-Virginia metropolitan area), questions have arisen about where to file a prevailing wage request and how that wage should be determined. Utilizing a federalized system will alleviate such confusion. Moreover, the Department's current prevailing wage guidance requires SWAs refer—with certain exceptions—to federally provided OES data to determine the appropriate prevailing wage for jobs. Therefore, the NPC can provide the data

Butler's Exh. 76, p. 010
Butler 02206

and there is no requirement for any local input or expertise.

The Department understands the desire for a fixed timeframe within which an employer will receive a prevailing wage determination. The timeframe depends on a number of factors, including the volume and timing of requests received, the method by which the requests are received (whether paper or electronic), the complexity of the request, and the resources available. Nevertheless, the Department has committed as part of the Final Rule to processing employer requests for prevailing wage determinations within 30 days of receipt.

However, the Department acknowledges that this process of obtaining a prevailing wage may endure a period of processing time fluctuation as a result of the transition. We therefore recommend that, as an initial matter, employers filing H–2B applications should file a Prevailing Wage Determination Request, Form 9141, with the NPC at least 60 days in advance of their initial recruitment efforts. The Department will make every effort to process these requests within the 60 days. The Department will analyze its experience with application patterns and workload, as the NPCs take on the prevailing wage determinations in the other programs handled by OFLC. During that time, the Department will review not only the level of requests it receives, but the information contained in the requests and whether the information received is typically sufficient to be able to generate accurate prevailing wages, or whether employers are providing deficient information. The Department's intent is to substantially reduce the response time for prevailing wage determinations and to design procedures, based upon the results of its analyses to provide employers with greater certainty in their expectation of response time from the NPC.

One commenter thought the prevailing wages would be based on a national average as a result of the centralization in the NPC. That commenter misunderstood the proposal; the wages will continue to be based on applicable data for the area of intended employment. The Department did not propose any change to the methodology used to determine the wage rates under the H–2B program and continues to support the use of OES data as the basis for the prevailing wage determinations. The OES program produces occupational estimates by geographic area and by industry. Estimates based on geographic areas are available at the national, State, and metropolitan area levels. Industry estimates are available for over 450 industry classifications at the national level. The industry classifications correspond to the sector, 3, 4, and 5-digit North American Industry Classification System industrial groups. The OES program also provides data at the substate level in addition to the State level. Data is compiled for each metropolitan statistical area and for additional areas that completely cover the balance of each state. It also offers the ability to establish four wage-level benchmarks commonly associated with the concepts of experience, skill, responsibility and difficulty variations within each occupation.

In the Final Rule, the Department has revised § 655.10(d) to clarify that where the duration of a job opportunity is less than one year or less, the prevailing wage determination will be valid for the duration of the job opportunity.

2. Automating the PWD Process

Initially the PWD process will be a manual process. It is the Department's goal to allow the PWD activity eventually to be conducted electronically between the NPC and the employer. The Department sought comment from potential program users on all aspects of its PWD proposal, but in particular regarding the required use of an online prevailing wage system and corresponding form for interaction with the NPC.

The Department received several comments in support of an electronic process. One commenter suggested the centralization of prevailing wage determinations be delayed until the electronic process was available. Another commenter suggested the electronic process should not be mandatory for all employers, since not all employers have access to the Internet. One commenter expressed concern that employers would use an electronic system to "shop" for occupations with the lowest wages to use in describing their job opportunities. The Department disagrees with the suggestion we delay implementation of the prevailing wage function until an electronic version is available. If and when the Department implements an electronic application system, it customarily makes special provisions for those who cannot access the electronic system, and advises the public accordingly. The Department appreciates the input on an electronic system and will take the comments into consideration should a new system be proposed.

3. Extending the PWD Model to PERM, H–1B/H–1B1, E–3, and H–1C Programs

The Department received comments on its proposal to extend the federalized wage determination process to other permanent and temporary worker programs. Some believed that the Department should not include other programs in an H–2B rulemaking. One commenter suggested that the process should not be extended until the new system has proven to be workable. Another commenter was concerned that extending the process to these other programs would result in the total elimination of the States when enforcement capacity is best kept at the State level. One commenter who supported the federalization mentioned that the assignment of occupational codes from the Standard Occupational Classification (SOC) system is also key and should be reviewed. The SOC system is used by many Federal agencies to classify workers into occupational categories.

a. H–1B and PERM Programs

As proposed in the NPRM, for consistency and greater efficiency across non-agricultural programs, this Final Rule extends the new prevailing wage request processing model to the permanent labor certification program, as well as to the H–1B, H–1B1, H–1C and E–3 specialty occupation nonimmigrant programs. As stated in the NPRM, the new process will not alter the substantive requirements of foreign labor certification programs, and we anticipate that, at least in the foreseeable future, the methodology for determining appropriate wage rates will remain much the same as it stands today. Our intent is to modernize, centralize, and make the mechanics and analysis behind wage determination more consistent. Much as the SWAs do now, the NPCs will evaluate the particulars of the employer's job offer, such as the job duties and requirements for the position and the geographic area in which the job is located, to arrive at the correct PWD based on OES data, CBA rates, employer-provided surveys, or other appropriate information. The Department's current prevailing wage guidance for non-agricultural foreign labor certification programs has been in effect since 2005 and is posted in the form of a memorandum on the OFLC Web site. In the near term, the Department will update and formalize its guidance for making prevailing wage determinations to maintain some existing procedures and revise others such as to conform to these regulations. As program experience administering

Butler's Exh. 76, p. 011

Butler 02207

the PWD process grows, the Department may revise its guidance to explain and assist employers in navigating the process.

To implement and standardize the new process, ETA has developed a new standard Prevailing Wage Determination Request (PWDR) form for employers to use in requesting the applicable wage regardless of program or job classification. As stated in the NPRM, the Department is considering means by which eventually such requests could be submitted, and a prevailing wage provided, electronically.

For purposes of the permanent labor certification (PERM) program, this rule amends the regulations at 20 CFR part 656 to reflect the transfer of prevailing wage determination functions from the SWAs to the NPCs and makes final the technical changes described in the proposed rule.

For purposes of the H–1B program, this rule amends the regulations at 20 CFR part 655 to reflect the transfer of PWD functions from the SWAs to the NPCs and makes final the technical changes described in the proposed rule. Department regulations covering the H–1B program also govern the H–1B1 and E–3 programs, which both require the filing and approval of a "Labor Condition Application," or LCA, rather than a "labor certification application." The Final Rule also amends § 655.1112 governing the H–1C program, to provide for the federalization of prevailing wage determinations.

As described in the NPRM and included in the Final Rule, under the new process, for purposes of H–2B job classifications, NPC staff will follow the requirements outlined under new §§ 655.10 and 655.11 when reviewing each position and determining the appropriate wage rate. These new regulatory sections are consistent with existing provisions at 20 CFR 656.40 and the Department's May 2005 Prevailing Wage Determination Policy Guidance, Nonagricultural Immigration Programs, but would supersede current regulations and guidance for the H–2B program to the extent there are any perceived inconsistencies.

These new regulatory sections supersede current regulations and guidelines for all prevailing wage requests in the H–1B, H–1B1, E–3 and PERM programs made on or after January 1, 2010, and for H–1C prevailing wage requests made on or after the effective date of this Final Rule. The Department appreciates that employers will require some time to become accustomed to the new method of securing a prevailing wage determination. The SWAs will also need a time of transition to complete pending prevailing wage determination requests, just as the NPC will require a corresponding time to fully implement the new form and process. The Department believes keeping PWD activities with the SWAs for PERM, H–1B and related programs until January 2010 will facilitate the transition of Federal staff and program users to complete federalization of prevailing wage determinations. Therefore, the Chicago NPC will begin to provide prevailing wage determinations in programs other than H–2B and H–1C on January 1, 2010. Given the limited size of the H–1C program, and the possibility it may sunset in 2009, the Department believes it can begin processing prevailing wage determination requests shortly after this Final Rule takes effect. Prevailing wage requests under the H–1C program made prior to the effective date of this Final Rule will be governed by the Department's current procedures and its 2005 guidance. Any prevailing wage requests for other non-H–2B programs governed by this regulation made prior to January 1, 2010, must be submitted to the SWA having jurisdiction over the area of intended employment and will be valid for the period listed on the determination issued by the SWA. Prevailing wage determinations issued prior to January 1, 2010, by a SWA will be valid after October 1, 2010, if so determined by the SWA issuing them, and fully enforceable as determined by the applicable regulation (H–1B, H–1B1, E–3, H–1C or PERM).

b. H–1C Program

In the same way that the Department is in this Final Rule establishing national processing for the obtaining of prevailing wages through its National Processing Center for both H–1B (and by extension H–1B1 and E–3) and PERM, it will also amend its H–1C regulations to incorporate the same changes. This program, whose prevailing wage processing amendments were inadvertently removed from the NPRM, previously lapsed, but was reauthorized in December 2006, and is scheduled to sunset again in December 2009.[5] The Department has determined that it is administratively prudent to move the prevailing wage determination function to the Chicago NPC in the H–1C program as in the other programs. This affects a very small number of employers (only 14 hospitals are eligible to participate) and is consistent with the reasoning for federalizing prevailing wage determinations that applies to the other programs. As stated in the preamble to the NPRM, the conversion to a federalized prevailing wage system has no effect on the substantive requirements of foreign labor certification programs or on the methodology by which the NPC will determine the prevailing wage for workers to be admitted under any of the applicable visas. This applies equally to H–1C. In fact, the majority of prevailing wage determinations in the H–1C program are based on the wages contained in collective bargaining agreements, making the need to obtain a wage determination by the NPC frequently unnecessary. Facilities may begin submitting H–1C prevailing wage requests to the Chicago NPC on the date this Final Rule takes effect.

4. Section 655.10(b)(3)—Paying the Highest Prevailing Wage Across MSAs

As proposed in the NPRM, this Final Rule requires that, where a job opportunity involves multiple worksites in areas of intended employment and cross multiple Metropolitan Statistical Areas (MSAs) in multiple counties or States with different prevailing wage rates, an employer must pay the highest applicable wage rate of the applicable MSAs throughout the term of employment. The U.S. worker responding to recruitment and the foreign H–2B worker are entitled to know and rely on the wage to be paid for the entire period of temporary employment.

The Department received comments on this requirement, both in support and in opposition. One trade association supported the proposal, concluding it would strengthen protections for U.S. workers while not adding burden to its members, whom it said already paid the highest prevailing wage rate in every MSA. A number of other employer associations opposed the proposal, stating it was arbitrary, unfair, would artificially increase costs for H–2B labor, and would undermine the basic decision-making of many employers, who locate in areas with low labor costs in order to save money.

The Department has decided to retain the requirement that employers advertise and pay the highest of the applicable prevailing wages when the job opportunity involves multiple worksites across multiple MSAs with varying prevailing wage rates for that occupation and at those worksites. This provision is retained because it provides greater consistency and predictability

[5] The Nursing Relief for Disadvantaged Areas Reauthorization Act of 2005, Public Law 109–423, took effect December 20, 2006. The Act reauthorized the H–1C nonimmigrant nurses program, a program originally created by the Nursing Relief for Disadvantaged Areas Act of 1999.

Butler's Exh. 76, p. 012

Butler 02208

for both employers and the workers and ensures that U.S. workers who are interested in the job opportunity would not be deterred due to varying wage rates. It also ensures greater protection for workers against possible wage manipulation by unscrupulous employers.

5. General Process or Data Integrity Concerns

Some commenters raised concerns about the integrity of the data currently being used for prevailing wage determinations and recommended changes to the OES survey itself. Others commented on different aspects of the methodology and procedures. One commenter suggested that the Department set the minimum wage rate for H–2B workers at or above the wage (presumably the adverse effect wage rate) for H–2A workers in that State. Another commenter suggested the Department require employers in the construction industry to use, first, the Davis-Bacon Act (DBA) survey wage rate; second, if no DBA wage existed, the collective bargaining agreement rate; and as a last resort, the OES rate, if neither of the other rates was available. Another commenter suggested that the provision regarding when an employer may utilize a wage determination under the Davis-Bacon Act also cover when an employer can choose not to utilize that wage rate. One commenter believed that the proposal did not correct what they claimed was a problem with the Department's Bureau of Labor Statistics (BLS) wage rates being 2 years out of date and also expressed concerns that piece rate policies have led to depressed wages and suggested that the Department should require advance written disclosure of piece rates on the job orders.

The Department appreciates these suggestions and concerns. However, the Department did not propose changes to the sources of data to be used for prevailing wage determinations and, therefore, these comments are beyond the scope of the current rulemaking. The Department notes that the proposed procedures that were retained in the Final Rule already cover the use of wages specified in a collective bargaining agreement. Similarly, these procedures provide that an employer may use the Davis-Bacon wage and that such use is at the employer's option unless the employer is a Federal construction contractor. There is a similar provision that applies to Service Contract Act wage rates.

Some commenters suggested that employers should not be allowed to submit their own wage surveys. The Department, however, believes that employers should continue to have the flexibility to submit pertinent wage information and therefore, the Final Rule continues the Department's policy of permitting employers to provide an independent wage survey under certain guidelines. It also continues to provide for an appeal process in the event of a dispute over the applicable prevailing wage.

F. Section 655.15—Employer Conducted Pre-Filing Recruitment

Under the Final Rule, employers will continue to be required to test the labor market for qualified U.S. workers at prevailing wages no more than 120 days before the date the work must begin ("date of need"). This will ensure the jobs are made available to U.S. workers most likely to qualify for the positions in question. As described in the NPRM and finalized under this rule, U.S. worker recruitment will continue to consist of prescribed steps designed to reflect what the Department has determined, based on program experience, are most appropriate to test the labor market. These steps are similar to those required under the current H–2B program. However, application processing and consistency will be improved by having employers conduct the recruitment before forwarding the recruitment report and application to the Department for review. Additionally, we will continue the Department's current requirement that recruitment take place no more than 120 days before the date of need to ensure jobs are advertised to U.S. workers with adequate notice.

This Final Rule retains the requirement in the proposal that employer recruitment efforts be documented and retained for production to the Department or other Federal agencies. As stated in the NPRM, the recruitment documentation requirements will be satisfied by copies of the pages containing the advertisement from the newspapers in which the job opportunity appeared and, if appropriate, correspondence signed by the employer demonstrating that labor or trade organizations were contacted. Documentation of a SWA job order will be satisfied by copies of the job order downloaded from the Internet showing the beginning and the ending date of the posting or a copy of the job order provided by the SWA with the dates of posting listed, or other proof of publication from the SWA containing the text of the job order. However, in response to public comments, the Final Rule requires record retention for 3 years, which is 2 years less than the Department originally proposed.

As proposed, the Final Rule permits employers to place their own newspaper advertisements. The Department has revised the proposed requirement of three advertisements and will in this Final Rule revert to the current requirement of two advertisements. The Department, however, has maintained in this Final Rule the proposed requirement that one of the two advertisements must be placed in a Sunday edition of a newspaper closest to the area of intended employment. The Department has also added a clarification that the newspaper chosen needs to have a reasonable distribution.

The Department received several comments that supported the shift to a pre-filing recruitment model. One of these commenters recommended that the job order process should also be centralized or that timelines for posting job orders should be established and SWAs should have staff dedicated to working with H–2B job orders. The centralization of the job order process was not envisioned by this regulation, and would require separate rulemaking. Moreover, posting job orders and referring individuals to those jobs is a core function of the SWAs and one that remains at the local level in this rule. Additionally, the Department believes the SWAs must have the flexibility to assign their limited resources based on needs and priorities and declines to establish a timeline for SWAs to post job orders.

The Department received a number of comments about the proposed timeframe for pre-filing recruitment; some opposing recruitment so far in advance of the date of need and others suggesting the timeframe be lengthened. The commenters who were opposed to the proposal generally believed that U.S. workers would not be able or willing to commit to temporary jobs so far ahead of the actual start date or would indicate they would accept the jobs but then fail to report on the actual start date. These commenters believed this would result in delays, additional costs to employers and the Department, and the late arrival of H–2B workers because new applications would have to be filed. One commenter opposed the early pre-filing recruitment and believed the result would be a false indication that no U.S. workers were available. Another commenter opined that employer compliance would be reduced due to the pre-filing recruitment. One SWA recommended that the period for recruitment be shortened because 120 days in advance is not suitable when serious job seekers are looking for

Butler's Exh. 76, p. 013

Butler 02209

temporary employment and stating their view that those U.S. workers who apply are rarely offered employment because the employer knows foreign workers are available. The commenter was further concerned that the U.S. workers who are hired that far in advance of the date of need are not reliable and will not report for work. In contrast, two commenters suggested a longer recruitment period—one recommended 180 days in advance of the date of need—to provide employers with greater flexibility. The Department declines to extend the period of recruitment to 180 days prior to the date of need because we do not believe recruitment that far in advance would be effective given the concerns expressed by some of the commenters and our own extensive program experience.

One commenter was concerned that the proposed pre-filing recruitment period, when combined with a prevailing wage determination request submission 90 days prior to the recruitment start date, advanced the timeframe for beginning the application to more than 6 months prior to the date of need. This commenter stated this was not characteristic of a user-friendly program. The Department understands that there are trade-offs when designing a new system. In this case, in order to provide the employer more flexibility and eliminate an extra layer of government bureaucracy, the process must begin earlier.

One commenter was concerned about the validity of the pre-filing recruitment when, after completing the recruitment and submitting the application, the employer's needs change and it requires a modification to a term or condition on the application. This commenter questioned whether the recruitment would be considered a valid test of the labor market since, unlike the current process, the underlying application and job order will not have been approved prior to the recruitment effort. The commenter recommended that the Department provide in the regulation that as long as the recruitment was conducted based on the job description and offered wage as determined by the CO and the job order was accepted by the SWA, the recruitment would be considered valid irrespective of any required modifications. It is unclear what kind of modifications would be warranted and, therefore, the Department cannot respond directly to this comment. For example, if a timely-filed application requires a technical modification, but the modification cures the defect and allows the application to resume processing, then the recruitment will continue to be valid for as long as the petition is pending at the NPC and valid for purposes of a final determination. However, if an employer's needs change in a way that requires a substantive correction in one or more key terms and conditions of employment—for example, wages or occupation—the NPC will require that the position be readvertised. Changes in terms of employment contained in the underlying job offer will trigger a requirement for a new labor market test.

The Department's requirement that the employer submit an acceptable job order to the appropriate SWA for posting mandates that the employer complete and submit information regarding all of the job duties and terms and conditions of the job offer: The job duties, the minimum qualifications required for the position (if any), any special requirements, and the rate of pay. This information is normally submitted to the SWA for acceptance prior to the employer's recruitment; as long as the employer's advertisements do not depart from the descriptions contained in the accepted job order, they will be deemed acceptable by the Department. At the same time, the SWA will be the arbiter of the job's acceptability for the job order, and as the job order must be accepted prior to the commencing of recruitment in this Final Rule, all recruitment must reflect the job as accepted by the SWA as well.

The Department has decided to eliminate the document retention requirement in its entirety with respect to applications not certified; therefore, any employer whose application has been denied can discard the records relevant to the denied application immediately upon receiving the denial notice or whenever the decision becomes final if the employer appeals the decision. If the denial is overturned, the application becomes subject to the document retention requirements for approved cases. The Department determined that a document retention requirement in such cases serves no governmental purpose and is unnecessarily burdensome on employers. The Department would, in virtually all such cases, already have copies of the employer's supporting documentation rendering such a retention requirement unnecessary.

1. Section 655.15(g)—Unions as a Source of Labor

As proposed, the rule would have required that if the job opportunity were in an industry, region and occupation in which union recruitment is customary, the appropriate union organization must be contacted. A number of commenters were concerned that the proposed provision placed too great a reliance on the employer's ability to determine what the Department will later decide is "appropriate for the occupation and customary to the industry and area of intended employment." One of these commenters suggested that even if contacting a union may be appropriate in some industries, it would be entirely inappropriate in the construction industry and, at a minimum, the construction industry should be expressly excluded from this requirement under a Final Rule. Another commenter suggested that the requirement was unnecessary, as the required newspaper advertising would reach the same pool of applicants. Another commenter believed the requirement was not authorized by statute and the Department has no basis to impose it. Additionally, the commenter expressed concern that the requirement also has the potential to subject non-unionized employers to "salting" campaigns, during which union organizers retain employment in union shops for the sole purpose of organizing the workforce. According to this commenter, the requirement could unfairly and unnecessarily inject the Department into an area in which it should not be involved.

One specialty bar association opined that the requirement to use unions as a recruitment source would be unworkable in practice, stating that in their experience, unions will not refer workers to non-union shops. The commenter recommended the regulation instead use the approach of the permanent labor certification program, which requires union contact for unionized employers only.

The Department has considered these comments and agrees with the many concerns raised about the proposed requirement, in particular concerns about vagueness and ambiguity, and the dilemma employers would face in trying to interpret and implement the requirement. Accordingly, we have revised the provision to require an employer to contact a labor organization only in cases where the employer is already a party to a collective bargaining agreement that covers the occupation at the worksite that is the subject of the H–2B application. The employer's obligation is only to contact the local affiliate of labor organization that is party to the existing collective bargaining agreement that covers the occupation at the worksite that is the subject of the H–2B application.

Butler's Exh. 76, p. 014
Butler 02210

2. Section 655.15(i)—Referral of U.S. Workers and SWA Employment Verification

To strengthen the integrity of the Secretary's determination of the availability of U.S. workers, and to help bolster employers' confidence in their local SWAs and the H–2B program, the Department proposed that SWAs verify the employment eligibility of U.S. workers they refer for nonagricultural employment services with the SWA. The Department received a significant number of comments on the practicality of this provision.

Comments on this subject were received from national associations, numerous SWAs, several labor advocacy organizations, and members of Congress. Commenters generally opposed the proposal for a variety of legal, programmatic, resource-related, and policy-based reasons.

Most of the commenters were SWAs that noted the burden this new provision would create. Many saw it as an unfunded Federal mandate in violation of the Unfunded Mandates Reform Act. More than one referred to the Department's recent inclusion of the requirement as a condition for receiving further labor certification grant funding.

As stated in the preamble to the NPRM, the Department is not insensitive to the resource constraints facing state agencies in their administration of the H–2B program. However, as we stated in the NPRM, we do not believe that the requirement will result in a significant increase in workload or administrative burden not covered by Department-provided resources.

In addition, notwithstanding funding limitations, there is a strong, longstanding need for a consistent verification requirement at the State government level. The Department is not leaving States to their own devices. Precisely to ensure that available Federal funding supports verification activities, the Department has added the verification requirement as an allowable cost under the foreign labor certification grant agreement. The Department also funds State employment services under the Wagner-Peyser Act, and for many years States have made Wagner-Peyser grant funding a part of their annual financial plan. To the extent that State functions related to foreign labor certification depend extensively on activities that are already part and parcel of the employment service system, State labor agencies can continue to rely on Wagner-Peyser to support that portion of activity. Ultimately, while cognizant of the challenges posed by funding limitations, we expect States to comply as they do with other regulatory requirements and other terms and conditions of their foreign labor certification grant.

SWAs also expressed concern about possible discrimination suits. The requirement to verify employment eligibility does not violate constitutional prohibitions against disparate impact. The eligibility requirement is similar to verification requirements to gain access to other similar public benefits.

One SWA said it would be impossible to implement verification of work eligibility because they have a virtual one-stop system that is self-service for both employers and job seekers and the SWA would be unable to certify that applicants referred to those job orders are employment-eligible. While we do not disagree that an in-person verification requirement may impact the decisions of a limited number of otherwise eligible workers, such impact does not outweigh the significant value of verification. Moreover, SWAs can respond to any possible inconvenience to workers by designating or creating additional in-person locations where eligibility can be verified. This is not a problem unique to SWAs—workers may be required to travel great distances to reach a prospective employer, who then (absent a SWA certification) would be required to verify work eligibility. In the end, although employment eligibility verification does require some amount of extra time and effort, the Department has determined that simple convenience must cede to the overarching goal of a legal workforce and has drafted its regulations accordingly.

Several SWAs also pointed out that under the new regulations it will be impossible to identify H–2B job orders, especially now that the SWA will no longer receive a copy of the application or determine prevailing wages and be only responsible for placing the job order. The Final Rule now requires the job order carry a notation identifying it as a job order to be placed in connection with a future application for H–2B workers.

Several other commenters supported the contention made by the SWAs that this requirement will drain SWA resources. A few commenters seem to have interpreted this requirement as mandating the use of the "E-Verify" electronic system. However, although both the NPRM and the Final Rule require the use of the DHS process, which requires the completion of I–9 forms and process, the use of the electronic E-verify system is optional.

The Department's expectation is that SWAs will not expend public resources to refer undocumented workers to H–2B job opportunities. The employment verification provisions included in this regulation are part of a concerted effort—one that includes regulation, written guidance, and ongoing outreach and education—to address longstanding weaknesses and to strengthen the integrity of the program.

3. Section 655.15(h)—Layoff Provisions

Under the NPRM, an employer seeking to employ H–2B workers would have been required to attest that it is not displacing any similarly employed permanent U.S. worker in the occupation in the area of intended employment within the period beginning 120 days before the date of need and throughout the entire employment of the H–2B worker(s). The Department received a number of comments from various groups on this provision. We have addressed those below, in conjunction with comments on the layoff provisions at § 655.22(k).

G. Section 655.17—Advertising Requirements

As proposed in the NPRM, the Final Rule requires employers to advertise for available U.S. workers. The advertisement must: (1) Identify the employer with sufficient clarity to notify the potential pool of U.S. workers (by legal and trade name, for example); (2) provide a specific job location or geographic area of employment with enough specificity to apprise applicants of travel or commuting requirements, if any, and where applicants will likely have to reside to perform the services or labor; (3) provide a description of the job with sufficient particularity to apprise U.S. workers of the duties or services to be performed and whether any overtime will be available; (4) list minimum education and experience requirements for the position, if any, or state that no experience is required; (5) list the benefits, if any, and the wage for the position, which must equal or exceed the applicable prevailing wage as provided by the NPC; (6) contain the word "temporary" to clearly identify the temporary nature of the position; (7) list the total number of job openings that are available, which must be no less than the number of openings the employer lists on the application (ETA Form 9141); and (8) provide clear contact information to enable U.S. workers to apply for the job opportunity. The advertisement cannot contain a job description or duties which are in addition to or exceed the duties listed on the Prevailing Wage Determination Request or on the application, and must not contain terms and conditions of

employment which are less favorable than those that would be offered to an H–2B worker.

The Department received multiple comments on the newspaper advertising requirements. Several commenters believed that the requirements, especially the requirement for three ads that was proposed in the NPRM (rather than the two required under the current program), would increase employer costs and time devoted to the application process but not yield additional U.S. workers. The requirement for advertising in a Sunday edition of a newspaper was seen as particularly objectionable due to the higher costs for Sunday ads and the belief that many nonprofessional workers do not read Sunday newspaper editions. Some commenters suggested employers should have the flexibility to use other recruitment methods, such as Web sites that have proved successful in locating seasonal workers. Others were concerned that without SWA guidance, employers would have to guess as to the correctness of their ads, risking that if the CO subsequently determined there were errors in the advertisements, it would be too late to get the workers needed. One commenter was concerned that no process was provided for requiring an employer to revise its ad if the content was determined to be unduly restrictive.

As previously discussed, this Final Rule requires two newspaper advertisements which must include one Sunday edition. Sunday editions have traditionally provided the most comprehensive job advertisements and many U.S. workers potentially seeking employment would normally choose the Sunday paper to review. Employers can, however, always conduct more recruitment than is required, such as posting the opportunity on job search Web sites.

One commenter inquired about the process for employers to follow in selecting an alternate publication in lieu of one of the newspaper ads. Other commenters were concerned about the choice of the specific newspaper in which to advertise and believed that the NPC would not be able to determine the most appropriate newspaper in all cases. One commenter suggested that the SWA should be involved in the process and provide guidance regarding newspaper choices. Another commenter asked whether there would be specific guidance regarding advertisements for live-in jobs, such as those for housekeepers, child monitors, and similar positions. The Department believes that staff at the NPC will be able to handle such issues. The Department declines in the Final Rule to specify the requirements to a high level of detail, as appropriate publication may vary, for example by industry or industry practice, and as the Department normally issues such guidance in the form of Standard Operating Procedures or other policy guidance.

H. Section 655.20—Direct Filing With the NPC and Elimination of SWA Role

Consistent with the proposed rule, the Final Rule eliminates the role of the SWAs in accepting and reviewing H–2B labor certification applications. Once the Final Rule is effective, employers will file H–2B applications directly with the NPC, consistent with the transition provisions of the regulation and with the Department's specialization of its two processing centers effective June 1, 2008. Employers with dates of need prior to October 1, 2009, will submit prevailing wage determination requests SWA, which will process them under the PWD procedures established under § 655.10 of this Final Rule. In the long term, under these regulations, each employer will continue to be required to place a job order with the appropriate SWA as part of pre-filing recruitment, and SWAs will continue to place H–2B-associated job orders in their respective Employment Service systems. This proposal received comments from a broad range of constituencies, including employers, employer associations, advocacy organizations, labor unions, State agencies, and elected officials. Most of the commenters opposed this provision.

Many commenters remarked that the elimination of the SWA portion of the process only shifted activities previously performed by the SWAs to the NPCs without actually improving the process. These commenters believed that eliminating the duplicate SWA review and increasing the Federal role in reviewing applications would result in increased delays, particularly when the Department has acknowledged that its funding has not kept pace with increased workloads in the H–2B program. Others also mentioned possible processing delays and were especially concerned that those industries with later dates of need could be locked out of the program.

Other commenters were concerned the new process would result in the loss of local labor market and prevailing practice expertise in the review process, including checks and balances now in the system, and would increase the potential for fraud. These commenters asserted that the knowledge and expertise of local staff in reviewing and processing applications was essential to the integrity of the H–2B certification process. Some commenters also criticized the NPCs for what they view as "ignoring their own regulations" and "misconstruing the certification process." Several commenters also believed elimination of the duplicate SWA review would result in decreased assistance for employers. One SWA stated that employers would be left without a source for guidance which would drive up the demand for agents, thereby increasing the costs to employers. An employer expressed the opinion that the new process would replace longstanding relationships with SWA employees and reliable determinations with unpredictable determinations and potentially overly stringent penalties.

The Department remains committed to modernizing the application process and continues to believe that the submission of applications directly to the NPC is the most effective way of accomplishing this goal. Processing of H–2B applications by NPC staff will allow for greater consistency for employers, regardless of their industry or location, in both the time required and quality of the application review. The Department believes that by specializing in H–2B application processing, NPC staff will have greater program expertise than SWA staff who are often required to implement a number of diverse programs during the course of their workday, and will generate additional efficiencies in application processing. Therefore, this federalized review of applications will lead to more efficient processing, greater consistency of review, and more effective administration. It will also enable the Department to better identify and implement program improvements.

Eliminating the SWAs' participation in the application review process will provide more efficient review of applications, as well as greater consistency of review. The Department disagrees that NPC staff have insufficient knowledge to undertake this role given that they already perform it. In fact, NPC reviewers who currently review H–2B applications have, in some cases, more experience with such applications than many SWA staff.

Moreover, the SWAs have not been removed from the process—they will continue their traditional role in the recruitment process and working with employers on the specifics of the job order. SWAs will be responsible for clearing and posting job orders, both intrastate and interstate, thus reducing the risk for employers to make mistakes with respect to job descriptions,

Butler's Exh. 76, p. 016
Butler 02212

minimum requirements, and other application particulars. SWAs will, as part of these duties, review the job offer, its terms and conditions, any special requirements, and the justifications as part of the SWAs' duties to clear and post such orders.

I. Section 655.20—Form Submission and Electronic Filing

The Final Rule requires employers to submit applications on paper, through an information collection (form) modified significantly from the current form to reflect an attestation-based filing process. As stated in the NPRM, the Department will consider in the future an electronic submission system similar to that employed in other programs administered by OFLC, should resources be made available.

The Department received a number of comments from SWAs, a specialty bar association, a large trade association, a small-business coalition, and several industry groups largely supportive of the potential conversion to electronic applications. One commenter encouraged prompt migration to electronic filing, as the commenter felt this would make program data easier to gather, more accurate, and more shareable across federal agencies. A few comments expressed concern that electronic filing would be mandatory for everyone, and recommended that, in the event the Department converted to electronic submission, it maintain paper filing as an option. Two commenters were concerned making electronic submission mandatory could cause undue hardship to employers that do not have Internet access, are not computer literate, or do not have access to a computer. One bar association recommended the Department not require electronic filing until the system was error-free, that any electronic filing system not include system-generated denials as the PERM system does, and that any defects receive an RFI. The Department takes seriously these recommendations. We will determine appropriate timing for the development and implementation of an electronic system based on program need and available resources. We have learned—as have programs users—from our experience with the electronic filing process used in the permanent program, and will apply those lessons to any system we institute for the H–2B program.

J. Section 655.21—Supporting Evidence of Temporary Need

As proposed, this Final Rule provides the employer a variety of options for documenting the basis of its temporary need, to be retained by the employer and submitted in the event of a Request for Further Information (RFI), a post-adjudication audit, a WHD investigation, or another agency investigation. As explained in the NPRM, for most employers participating in the H–2B program, demonstrating a seasonal or peakload temporary need can best be evidenced by summarized monthly payroll records for a minimum of one previous calendar year that identify, for each month and separately for full-time permanent and temporary employment in the requested occupation, the total number of workers employed, the total hours worked. Such records, however, are not the only means by which employers can choose to document their temporary need. The proposed regulation accordingly leaves it to the employer to retain other types of documentation, including but not limited to work contracts, invoices, client letters of intent, and other evidence that demonstrates that the job opportunity that is the subject of the application exists and is temporary in nature. Contracts and other documents used to demonstrate temporary need would be required to plainly show the finite nature of that need by clearly indicating an end date to the activity requested.

The Department's new H–2B temporary labor certification application form is designed to require both a short narrative on the nature of the temporary need and responses to questions to determine the time of need and the basis for the need. The narrative will enable the employer to demonstrate in its own words the scope and basis of the need in a way that will enable the Department to confirm the need meets the regulatory standard, with additional questions on the form providing context and clarification. If further clarification is required, the RFI process will be employed. The form also contains an attestation to be signed under penalty of perjury to confirm the employer's temporary H–2B need.

As explained in the NPRM and consistent with current program practice, employers should be wary of using documents demonstrating a "season" in general terms (hotel occupancy rates, weather charts, newspaper accounts); in the Department's experience, such generalized statements fail to link a season to a specific position sought to be filled by the employer, which is required under the program. The Department also recognizes that conventional evidence such as payroll information may not be sufficient to demonstrate a one-time or intermittent need, or seasonal or peakload need in cases in which the employer's need has changed significantly from the previous year. In such cases, the employer should retain other kinds of documentation with the application that demonstrates the temporary need.

K. Section 655.22—Obligations of H–2B Employers and Attestation-Based Application

The Department proposed, and this Final Rule institutes, the shift to an attestation-based filing system. The new application form contains a series of attestations to confirm employers' adherence to its obligations under the H–2B program. The information and attestations on the form will provide the necessary assurances for the Department to initially verify program compliance. As described in the NPRM, the Department anticipates the shift to an attestation-based application will have a number of benefits, including a reduction in processing times while maintaining program integrity.

The Department received numerous comments, many of them negative, on the move to an attestation-based application. Some commenters believed that an attestation-based application would reduce the role of the SWA and thus eliminate local expertise; decrease employer compliance; increase erroneous approvals; and increase the likelihood that the Department will simply "rubber stamp" the certifications and weaken U.S. worker protections. The Department disagrees with these assumptions and conclusions. The Department believes that an attestation-based application, backed by audits, is within the Secretary's statutory discretion to implement and is an effective means to ensure that all statutory and regulatory criteria are met and all program requirements are satisfied. Similar approaches have been used successfully by the Department in other contexts, such as in the current permanent labor certification process.

One commenter suggested the Department require that the employer always be the applicant, even if an agent is used, because neither an agent nor the employer would be able to attest to all of the required obligations. This commenter also feared that an employer could shield itself from responsibility by using an agent for such prohibited acts as requiring recruitment fees to be paid by the foreign worker. The Department disagrees with this commenter. In the H–2B program, the agent simply represents the employer in the labor certification process. The employer is ultimately responsible for its obligations under the program and it

is the employer who signs the application form, and attests to the veracity of the information provided and that it will meet all of its obligations.

One commenter appeared to confuse the H–2B and H–2A programs. This commenter referred to the 50 percent rule, an H–2A program feature, and requested that the Department include a grace period for a foreign worker to find another employer if dismissed under the 50 percent rule. In the current H–2A temporary agricultural program, employers must hire a qualified U.S. worker who applies for a position certified under a temporary labor certification, if that worker applies during the first half of the certified period of employment. The H–2B program has no such provision and the Department declines to impose one, especially as this was not proposed in the NPRM.

The Department received a number of comments on the specific obligations of H–2B employers outlined in the proposed rule. One commenter pointed out a semantic error in proposed § 655.22(a), which stated the employer must attest that "no U.S. workers" are available. The commenter correctly pointed out that an employer cannot possibly have such broad knowledge and that the statute does not require such knowledge. The Department has deleted that provision. There were other comments about word choice and semantics and, where appropriate, the Department has changed the wording to make the attestations easier to understand.

The Department has also added language to the provision, in § 655.22(a), that requires that H–2B job opportunities offer terms and working conditions that are "normal to U.S. workers similarly employed" to clarify that normal is synonymous with not unusual. This is within the range of generally accepted meanings of the term. See, e.g., Black's Law Dictionary 1086 (8th ed. 2004) ("The term describes not just forces that are constantly and habitually operating but also forces that operate periodically or with some degree of frequency. In this sense, its common antonyms are *unusual* and *extraordinary.*"); Webster's Unabridged Dictionary 1321 (2d ed. 2001) (supplying "not abnormal" as one of several definitions). Thus, "normal" does not require that a majority of employers in the area use the same terms or working conditions. If there are no other workers in the area of intended employment who are performing the same work activity, the Department will look to workers outside the area of intended employment to assess the normality of an employer's proposed productivity standard.

Unless otherwise noted, no substantive change is intended. Below, we respond to comments on specific obligations and describe substantive changes made to those subsections. In cases where the Final Rule deletes or adds provisions, the numbering has changed accordingly from that published in the NPRM.

1. Section 655.22(a)—U.S. Worker Unavailability

The Department proposed that employers seeking to hire H–2B workers attest there were no U.S. workers in the area of intended employment capable of performing the temporary services or labor in the job opportunity. Comments on this provision reflected strong concern that employers cannot attest to the actual unavailability of U.S. workers, but simply that the employer has tested the labor market appropriately and in good faith to demonstrate that capable U.S. workers did not respond to its recruitment efforts or ultimately were not available (either due to lawful rejection by the employer, failure on the worker's part to follow through or remain on the job, etc.) to perform the labor or services. The Department agrees and has deleted this provision from the Final Rule.

2. Section 655.22(f)—Worker Abandonment and Employer Notification to the Department and DHS

The Department's NPRM would have required employers to notify the Department and DHS within 48 hours if an H–2B worker separated from employment prior to the end date of employment in the labor certification. This notification requirement would have also applied if the H–2B worker absconded from or abandoned employment prior to the end date of employment. This requirement was included to ensure that if the basis for the worker's status ended before the end date on the application, both DHS and the Department could take appropriate action to monitor the program.

The Department received a number of comments in opposition to this requirement, primarily from employers and employer and trade associations. Several employer associations shared the concern that, in their view, the requirement represented a new and unfair liability for employers, opening them up to potential legal action from H–2B employees if the employee left to pursue other legal employment before the end of the contract period. One association found it problematic, given the perception that this worker population is more transient than the workforce at large. It also was concerned about the administrative burden on employers to comply with the requirement. It asserted that employers were unlikely to know the real circumstances of the worker's departure, if it was a legal extension or change of status or something else. Consistent with a number of other comments either seeking or recommending clarification to the notice requirement, this association stated that such status determinations are complex legal issues and employers should not be required to make them. It also believed that the reporting requirement was unlikely to accomplish anything without imposing additional significant burdens on employers and that it was unlikely that DHS would pursue individuals who are the subject of these reports. A small business association agreed about the unreasonableness of the potential burden on employers and was concerned that the requirement would ask small businesses to become unpaid Immigration Service agents responsible for enforcing immigration laws.

A trade association found the required 48 hours for notification to be an extremely limited period of time for notification, and a burden on employers. It recommended that, if the requirement were continued, it should be extended to 30 days. Further, this trade association recommended that DHS create a simple reporting method to allow employers to provide the information directly through the Internet or by telephone. The requirement was described as too vague and not providing enough specifics as to when the employer would be required to do such notification.

An individual employer found insufficient safeguards in the proposal, as there was no indication of actions that the bureaucracy at the Department or DHS would take based on the information. The employer wanted the two departments to be more specific as to how the information was to be used.

An employer agent believed the requirement was inappropriate in these regulations, as it was tangential to the Department's role regarding the availability of U.S. workers or preventing adverse affect on U.S. workers, and believed that it created additional confusion and potential liability for employers. Similarly, an employer association thought the requirement inappropriate and did not clearly outline the process by which employers would make such notifications. Additionally, the employer association asked for

Butler's Exh. 76, p. 018
Butler 02214

additional guidance as to what information would be required for employers to document separation or job abandonment and was concerned that violations of this provision could lead to debarment from future participation in the program.

The Department reviewed the comments received on this specific reporting requirement and the concerns raised by the employers and associations on its implementation. The Department acknowledges that many of these concerns have merit, and has therefore sought to provide clarifications and limitations in the Final Rule to address these concerns. The Department did not, however, discern sufficient justification from these comments to eliminate the requirement in its entirety. The notification is necessary in all circumstances because the early separation of a worker impacts not only the rights and responsibilities of the employer and worker but also implicates DOL's and DHS's enforcement responsibilities. Although any abscondment is a loss to the employer, the Government requires notification to be able to better track workers who are in the country on a temporary basis with limited work authorization.

The Department acknowledges the need for clarification in the provision to ensure that the 48-hour requirement begins to run only when the abandonment is actually discovered. The Department has therefore added language to the provision clarifying that the employer must notify DOL no later than 2 work days after such abandonment or termination is discovered by the employer. The Department has added further clarification to ensure that employers must meet the identical standards for notification to DOL as to DHS, so that an abscondment occurs when the worker has not reported for work for a period of 5 consecutive work days without the consent of the employer to that non-reporting. This is intended to clarify for the employer that the same standard of reporting applies across both agencies, making it easier on the employer to make the report. There is no requirement that the notification be made by certified mail, however. A file copy of a letter sent by normal U.S. mail, with notation of the posting date, will suffice. However, in addition, the Department revised the notification requirement to reflect a time period of no later than 2 work days after the employer discovers the employee has absconded, which, consistent with DHS, has been defined as 5 consecutive work days of not reporting for work. To make the standard further consistent across agencies, for purposes of this provision the Department will defer to DHS on the definition of the term "working day."

3. Section 655.22(g)—Deductions and Prohibition on Transfer of Costs

The NPRM prohibited deductions by the employer or any third party, including a recruiter, for any expenses including recruitment fees and any other deductions not expressly permitted by law. Both worker advocacy organizations and an employer of H–2B workers commented that the provision was confusing and ambiguous. Worker advocates objected that it was unclear whether employees could be required to pay recruiting costs directly, while an employer objected to the payment of recruiting costs that were not clearly defined in the proposal. We agree that the rule as proposed was confusing. The confusion resulted in part from the fact that employer cost shifting is addressed elsewhere in the regulations, in § 655.22(j). Further, cost shifting by third parties presents an identical problem under the H–2A program but was dealt with in a different manner in the NPRM. Accordingly we are revising the language concerning cost shifting by third parties to mirror § 655.105(p) of the H–2A Final Rule to read as follows: "The employer has contractually forbidden any foreign labor contractor or recruiter whom the employer engages in international recruitment of H–2A workers to seek or receive payments from prospective employees, except as provided for in DHS regulations at 8 CFR 214.2(h)(5)(xi)(A)."

The Final Rule makes clear that recruiters may not pass on expenses to H–2B workers. Examples of exploitation of foreign workers, who in some instances have been required to give recruiters thousands of dollars to secure a job, have been widely reported. The Department is concerned that workers who heavily indebt themselves to secure a place in the H–2B program may be subject to exploitation in ways that would adversely affect the wages and working conditions of U.S. workers by creating conditions akin to indentured servitude, driving down wages and working conditions for all workers, foreign and domestic. We believe that requiring employers to incur the costs of recruitment is reasonable, even when taking place in a foreign country. Employers may easily band together for purposes of recruitment to defray costs. The fact that a recruiter is essential to the securing of such worker does not dissuade the Department from requiring the employer to bear the expense; rather, it underscores the classification of that payment as a cost allocable to the employer.

The Department recognizes that its power to enforce regulations across international borders is constrained. However, it can and should do as much as possible in the U.S. to protect workers from unscrupulous recruiters. Consequently, the Department is requiring that the employer make, as a condition of applying for labor certification, the commitment that the employer is contractually forbidding any foreign labor contractor or recruiter whom the employer engages in international recruitment of H–2B workers to seek or receive payments from prospective employees.

The Department has also revised this section in the Final Rule to omit restrictions on deductions that are already covered in § 655.22(j), and we are incorporating the following language which is identical to the language in 20 CFR 655.104(p) of the H–2A Final Rule: "The employer must make all deductions from the worker's paychecks that are required by law. The job offer must specify all deductions not required by law that the employer will make from the worker's paycheck. All deductions must be reasonable. However, an employer subject to the FLSA may not make deductions that would violate the FLSA."

4. Section 655.22(h) [(g) in Final Rule]—Basis for Offered Wage

This provision requires that the offered wage not be based on commission, bonuses, or other incentives unless the employer guarantees that the wage paid will equal or exceed the prevailing wage. The second sentence of the proposed provision further stated that "the offered wage shall be held to exclude any deductions for reimbursement of the employer or any third party by the employee for expenses in connection with obtaining or maintaining the H–2B employment including but not limited to international recruitment, legal fees not otherwise prohibited by this section, visa fees, items such as tools of the trade, and other items not expressly permitted by law." This sentence received several comments. A worker's rights advocacy group claimed the Department will not achieve its objective of protecting foreign workers from paying fees that should be paid by the employer. This commenter provided an example of a practice by one employer who required workers to pay for tests to determine their welding and fitting skills in preparation for employment in the United States. This

commenter further recommended that this section should clarify that costs paid directly by workers are de facto deductions for the purpose of calculating compliance with the offered wage, even if employers do not directly deduct them and also that DOL should clarify its position on which costs are considered to benefit employers and thus require reimbursement and include specific examples of such costs. This commenter also believed that similar language in the FLSA was confusing. The Department appreciates the detailed analysis provided by this commenter, but we believe the statutory requirements, which are based on decades of administration of the Federal wage and hour laws, are clear and that it is not necessary to make the recommended changes.

5. Section 655.22(i) [(h) in Final Rule]—Position Is Temporary and Full-Time

The Department proposed that an employer seeking to employ H–2B workers be required to attest that the job opportunity is for a full-time, temporary position. One commenter suggested the proposed regulation could harm U.S. workers by guaranteeing full-time work for the period to foreign workers, while there is no such guarantee provided to U.S. workers in any seasonal position. The commenter also stated that while employers can state their intention to hire temporary workers full-time, if the weather does not cooperate, the employer may have no choice but to reduce hours in a particular week and that under this provision, the employer would not be able to do this, causing significant harm to the business and the U.S. workers whose hours would need to be reduced even further in order to ensure that foreign workers were paid a full-time wage. The commenter recommended a revised attestation stating: "The job opportunity is a bona fide, temporary position and hours worked will be comparable to the full time hours worked by associates in the same position at the employment site." As stated in the preamble to the NPRM, the H–2B program has always required that the positions being offered be temporary and full-time in nature, and the Department recognizes that some industries, occupations and States have differing definitions of what constitutes full-time employment. For example, certain landscaping positions are often classified as full-time for a 35-hour work week. To provide additional clarity, the Department, in § 655.4 has provided a definition of full-time employment that reflects our experience in the administration of this program. We will continue to make determinations of whether work is full-time for foreign labor certification purposes based on the facts, program experience, customary practice in the industry, and any investigation of the attestation. The Department has therefore decided to retain the proposed language.

6. Section 655.22(k) [(i) in Final Rule]—Layoff Provisions

Under the NPRM, an employer seeking to employ H–2B workers would have been required to attest that it is not displacing any similarly employed U.S. worker(s) in the occupation in the area of intended employment within the period beginning 120 days before the date of need and throughout the entire employment of the H–2B worker. The Department received a number of comments from various groups on this provision.

A number of commenters favored the requirement, noting that it assisted efforts to ensure that employers cannot lay off U.S. workers after seeking to hire H–2B workers to perform the same services. Other commenters, however, had concerns regarding the implementation of the prohibition and the potential liability.

Several commenters were concerned that the requirement to contact former employees who had been laid off would be onerous, given the difficulties in reaching what is purportedly a transient population, making such contact unduly burdensome. The Department finds this argument unpersuasive. The commenter did not support the summary statements that all temporary or seasonal help is transient and rootless in the communities in which the work is performed. Even assuming that such workers do not have lasting ties to the employer, employers generally maintain continuing contact with former employees for many purposes—including, but not limited to, the provision of payroll tax information the following year and the transfer or disposition of benefits (including unemployment benefits). Moreover, by limiting the requirement for such contact to the 120 days or less before the employer's date of need for the H–2B workers, the employer's last contact information would likely be current, making such contact, generally speaking, relatively simple.

One commenter asserted that the layoff provision conflicts with the definition of seasonality, noting that by definition a seasonal employee will always be laid off within the period set forth in an annual cycle. An employer association also objected to the provision on the ground that requiring the consideration of U.S. workers would force employers who laid off U.S. workers at the end of one season to hire them again at the commencement of the next season because the timing would put the next season within the 120-day window.

In response to these comments, the Department has limited the applicability of the layoff provision to 120 days on either side of the date of need. This broad period of time, covering two thirds of the year, will protect U.S. workers near the time of recruiting for and hiring H–2B workers, which is when U.S. workers are most vulnerable, but avoids the complications of overlapping seasons noted by some commenters.

The Department notes that much of the concern of those commenters regarding the re-hiring of U.S. workers stems from a belief that such workers will not show up or be interested in being re-hired. But, by limiting the applicability of the provision to within 120 days of the date of need (as well as the actual occupation and the area of intended employment of the sought-after H–2B certification), this provision affords laid off workers a reasonable opportunity to apply for vacancies for which they qualify, striking an appropriate balance between worker protection and employer needs.

Some commenters noted the need for a strengthening of the layoff provision, calling for additional safeguards against massive layoffs of U.S. workers by strengthening requirements for how employers will demonstrate they have made efforts to contact former employees. The Department declines to do so at this time. Employers will be allowed to document their contact of former employees using any objective means at their disposal in a manner guaranteed to ensure a good faith contact effort has been made. The Department does not have evidence at this time that employers will engage in fraudulent behavior with respect to this requirement. The Department will monitor this attestation, and all other employer attestations, through post-certification audits and will note the need for program modifications through that process.

7. Section 655.22(l) [(j) in Final Rule]—Prohibition Against Payments

As in the proposal, the Final Rule requires that an employer attest that it has not and will not shift the costs of preparing or filing the H–2B temporary labor certification application to the temporary worker, including the costs of domestic recruitment or attorneys' and agent fees. The domestic recruitment, legal, and other costs associated with

Butler's Exh. 76, p. 020
Butler 02216

obtaining the labor certification are business expenses necessary for or, in the case of legal fees, desired by, the employer to complete the labor certification application and labor market test. The employer's responsibility to pay these costs exists separate and apart from any benefit that may accrue to the foreign worker. Prohibiting the employer from passing these costs on to foreign workers allows the Department to protect the integrity of the process and protect the wages of the foreign worker from deterioration by unwarranted deduction. The Department will continue to permit employers, consistent with the Fair Labor Standards Act (FLSA), to make deductions from a worker's pay for the reasonable cost of furnishing housing and transportation, as well as worker expenses such as passport and visa fees (see fuller discussion below concerning transportation costs under the FLSA).

This section, pertaining to the receipt of payments by the employer from the employee or a third party, received many comments. Some of the commenters opposed the provision in its entirety, arguing it will make the program prohibitively expensive for employers. Other commenters were concerned the requirement would eliminate the current practice of having the employee pay for part of the recruiting and visa costs as an incentive for the workers not to leave the employer. Others supported this provision in its entirety, while still others agreed with the intent of the provision but found the language ambiguous. One specialty bar association not only supported the prohibition on cost-shifting for recruitment, but asked the Department to strengthen the prohibition language. However, this commenter was adamantly opposed to the prohibition against foreign workers paying the attorney's fees. The Department disagrees with the comments opposing this provision. We believe that these expenses are the costs of doing business and should be borne by the employer. The Department took all comments into consideration and modified the provision to clarify and strengthen the prohibition. The Final Rule applies the prohibition to attorneys and agents, not simply to employers. As rewritten, the provision eliminates reference to payments from "any other party;" it applies only to payments from the employees.

This section in the NPRM also would have prohibited the employer from receiving payments "of any kind for any activity related to the labor certification" process. The Department received a comment arguing that the phrase "received payment * * * as an incentive or inducement to file" is ambiguous. The Department took this comment into consideration and removed reference to incentive or inducement.

In addition, and based upon the comments received, the Department has revised the provision on cost-shifting for greater clarity. As mentioned above, the Department has eliminated the qualifying language regarding the incentive and inducement to filing, again to simplify for all employers engaging in recruitment activities what is prohibited. By simplifying the provision to prohibit employers who submit applications from seeking or receiving payment for any activity related to the recruitment of H–2B workers, the Department hopes to achieve consistent and enforceable compliance.

With regard to the application of the FLSA to H–2B workers' inbound subsistence and transportation costs, we note that a number of district courts have issued decisions on this question. See *De Leon-Granados* v. *Eller & Sons Trees Inc.*, 2008 WL 4531813 (N.D. Ga., Oct. 7, 2008); *Rosales* v. *Hispanic Employee Leasing Program*, 2008 WL 363479 (W.D. Mich. Feb. 11, 2008); *Rivera* v. *Brickman Group*, 2008 WL 81570 (E.D. Pa. Jan. 7, 2008); *Castellanos-Contreras* v. *Decatur Hotels, LLC*, 488 F. Supp. 2d 565 (E.D. La. 2007); *Recinos-Recinos* v. *Express Forestry Inc.*, 2006 WL 197030 (E.D. La. Jan. 24, 2006). These district courts have referenced the appellate court's decision in *Arriaga* v. *Florida Pacific Farms, L.L.C.*, 305 F.3d 1228 (11th Cir. 2002), which held that growers violated the minimum wage provisions of the FLSA by failing to reimburse farmworkers during their first workweek for travel expenses (and visa and immigration fees) paid by the workers employed by the growers under the H–2A program. Under the FLSA, pre-employment expenses incurred by workers that are properly business expenses of the employer and primarily for the benefit of the employer are considered "kick-backs" of wages to the employer and are treated as deductions from the employees' wages during the first workweek. 29 CFR 531.35. Such deductions must be reimbursed by the employer during the first workweek to the extent that they effectively result in workers' weekly wages being below the minimum wage. 29 CFR 531.36. Although the employer in the *Arriaga* case did not itself make direct deductions from the workers' wages, the Court held that the costs incurred by the workers amounted to "de facto deductions" that the workers absorbed, thereby driving the workers' wages below the statutory minimum. The Eleventh Circuit reasoned that the transportation and visa costs incurred by the workers were primarily for the benefit of the employer and necessary and incidental to the employment of the workers and stated that "[t]ransportation charges are an inevitable and inescapable consequence of having H–2A foreign workers employed in the United States; these are costs which arise out of the employment of H–2A workers." Finally, the court held that the growers' practices violated the FLSA minimum wage provisions, even though the H–2A regulations provide that the transportation costs need not be repaid until the workers complete 50 percent of the contract work period. The Eleventh Circuit noted that the H–2A regulations require employers to comply with applicable federal laws, and in accepting the contract orders in this case, the ETA Regional Administrator informed the growers in writing that their obligation to pay the full FLSA minimum wage is not overridden by the H–2A regulations.

The Department believes that the better reading of the FLSA and the Department's own regulations is that relocation costs under the H–2A program are not primarily for the benefit of the employer, that relocation costs paid for by H–2A workers do not constitute kickbacks within the meaning of 29 CFR 531.35, and that reimbursement of workers for such costs in the first paycheck is not required by the FLSA.

The FLSA requires employers to pay their employees set minimum hourly wages. 29 U.S.C. 206(a). The FLSA allows employers to count as wages (and thus count toward the satisfaction of the minimum wage obligation) the reasonable cost of "furnishing [an] employee with board, lodging, or other facilities, if such board, lodging, or other facilities are customarily furnished by such employer to his employees." 29 U.S.C. 203(m). The FLSA regulations provide that "[t]he cost of furnishing 'facilities' found by the Administrator to be primarily for the benefit or convenience of the employer will not be recognized as reasonable [costs within the meaning of the statute] and may not therefore be included in computing wages." 29 CFR 531.3(d)(1). The FLSA regulations further provide examples of various items that the Department has deemed generally to be qualifying facilities within the meaning of 29 U.S.C. 203(m) (see also 29 CFR 531.32(a)), as well as examples of

various items that the Department has deemed generally not to be qualifying facilities (see 29 CFR 531.3(d)(2), 29 CFR 531.32(c)).

Separate from the question whether items or expenses furnished or paid for by the employer can be counted as wages paid to the employee, the FLSA regulations contain provisions governing the treatment under the FLSA of costs and expenses incurred by employees. The regulations specify that wages, whether paid in cash or in facilities, cannot be considered to have been paid by the employer and received by the employee unless they are paid finally and unconditionally, or "free and clear." 29 CFR 531.35. Thus, "[t]he wage requirements of the Act will not be met where the employee 'kicks-back' directly or indirectly to the employer or to another person for the employer's benefit the whole or part of the wage delivered to the employee. This is true whether the 'kick-back' is made in cash or in other than cash. For example, if the employer requires that the employee must provide tools of the trade that will be used in or are specifically required for the performance of the employer's particular work, there would be a violation of the Act in any workweek when the cost of such tools purchased by the employee cuts into the minimum or overtime wages required to be paid him under the Act." *Id.* The regulations treat employer deductions from an employee's wages for costs incurred by the employer as though the deductions were a payment from the employee to the employer for the items furnished or services rendered by the employer, and applies the standards set forth in the "kick-back" provisions at 29 CFR 531.35 to those payments. Thus, "[d]eductions for articles such as tools, miners' lamps, dynamite caps, and other items which do not constitute 'board, lodging, or other facilities'" are illegal "to the extent that they reduce the wages of the employee in any such workweek below the minimum required by the Act." 29 CFR 531.36(b).

In sum, where an employer has paid for a particular item or service, under certain circumstances it may, pursuant to 29 U.S.C. 203(m), count that payment as wages paid to the employee. On the other hand, when an employee has paid for such an item or service, an analysis under 29 CFR 531.35 is required to determine whether the payment constitutes a "kick-back" of wages to the employer that should be treated as a deduction from the employee's wages.

The *Arriaga* court seems to have assumed that all expenses necessarily fall into one of these two categories—that either they qualify as wages under 29 U.S.C. 203(m) or they constitute a "kick-back" under 29 CFR 531.35. See *Arriaga*, 305 F.3d at 1241–42 (stating that if a payment "may not be counted as wages" under 29 U.S.C. 203(m), then "the employer therefore would be required to reimburse the expense up to the point the FLSA minimum wage provisions have been met" under 29 CFR 531.35 and 29 CFR 531.36). That is incorrect. For example, if an employer were to give an employee a valuable item that was not "customarily furnished" to his or her employees, the employer would not be able to count the value of that item as wages under 29 U.S.C. 203(m) unless the employer "customarily furnished" the item to his or her employees. Nevertheless, since the employee paid nothing for that item, it clearly would not constitute a "kick-back" of wages to the employer that would have to be deducted from the employee's wages for purposes of determining whether the employer met its minimum wage obligations under 29 U.S.C. 206(a). Similarly, if a grocery employee bought a loaf of bread off the shelf at the grocery store where he or she worked as part of an arms-length commercial transaction, the payment made by the employee to the employer would not constitute a "kick-back" of wages to the employer, nor would the loaf of bread sold by the employer to the employee be able to be counted toward the employee's wages under 29 U.S.C. 203(m). Both parties would presumably benefit equally from such a transaction—it would neither be primarily for the benefit of the employer, nor would it be primarily for the benefit of the employee.

Expenses paid by an employer that are primarily for the employer's benefit cannot be counted toward wages under 29 U.S.C. 203(m). See 29 CFR 531.3(d). Similarly, expenses paid by an employee cannot constitute a "kick-back" unless they are for the employer's benefit. See 29 CFR 531.35. An analysis conducted under 29 U.S.C. 203(m) determining that a particular kind of expense is primarily for the benefit of the employer will thus generally carry through to establish that the same kind of expense is primarily for the benefit of the employer under 29 CFR 531.35. Each expense, however, must be analyzed separately in its proper context.

The question at issue here is whether payments made by H–2B employees for the cost of relocating to the United States, whether paid to a third party transportation provider or paid directly to the employer, constitutes a "kick-back" of wages within the meaning of 29 CFR 531.35. If the payment does constitute a "kick-back," then the payment must, as the *Arriaga* court decided, be counted as a deduction from the employee's first week of wages under the FLSA for purposes of determining whether the employer's minimum wage obligations have been met.

The Department does not believe that an H–2B worker's payment of his or her own relocation expenses constitutes a "kick-back" to the H–2B employer within the meaning of 29 CFR 531.35. It is a necessary condition to be considered a "kick-back" that an employee-paid expense be primarily for the benefit of the employer. The Department need not decide for present purposes whether an employee-paid expense's status as primarily for the benefit of the employer is a sufficient condition for it to qualify as a "kick-back," because the Department does not consider an H–2B employee's payment of his or her own relocation expenses to be primarily for the benefit of the H–2B employer.

Both as a general matter and in the specific context of guest worker programs, employee relocation costs are not typically considered to be "primarily for the benefit" of the employer. Rather, in the Department's view, an H–2B worker's inbound transportation costs either primarily benefit the employee, or equally benefit the employee and the employer. In either case, the FLSA and its implementing regulations do not require H–2B employers to pay the relocation costs of H–2B employees. *Arriaga* and the district courts that followed its reasoning in the H–2B context misconstrued the Department's regulations and are wrongly decided.

As an initial matter, any weighing of the relative balance of benefits derived by H–2B employers and employees from inbound transportation costs must take into account the fact that H–2B workers derive very substantial benefits from their relocation. Foreign workers seeking employment under the H–2B nonimmigrant visa program often travel great distances, far from family, friends, and home, to accept the offer of employment. Their travel not only allows them to earn money—typically far more money than they could have in their home country over a similar period of time—but also allows them to live and engage in non-work activities in the U.S. These twin benefits are so valuable to foreign workers that these workers have proven willing in many instances to pay recruiters thousands of dollars (a practice that the Department is now taking measures to curtail) just to gain access to the job opportunities, at times

Butler's Exh. 76, p. 022
Butler 02218

going to great lengths to raise the necessary funds. The fact that H–2B workers travel such great distances and make such substantial sacrifices to obtain work in the United States indicates that the travel greatly benefits those employees.

Most significantly, however, the Department's regulations explicitly state that "transportation furnished employees between their homes and work where the travel time does not constitute hours worked compensable under the Act and the transportation is not an incident of and necessary to the employment" are qualifying "facilities" under 29 U.S.C. 203(m). 29 CFR 531.32(a). As qualifying facilities, such expenses cannot by definition be primarily for the benefit of the employer. 29 CFR 531.32(c). The wording of the regulation does not distinguish between commuting and relocation costs, and in the context of the H–2B program, inbound relocation costs fit well within the definition as they are between the employee's home country and the place of work.

The *Arriaga* court ruled that H–2A relocation expenses are primarily for the benefit of the employer in part because it believed that under 29 CFR 531.32, "a consistent line" is drawn "between those costs arising from the employment itself and those that would arise in the ordinary course of life." 305 F.3d at 1242. The court held that relocation costs do not arise in the ordinary course of life, but rather arise from employment. *Id.* Commuting costs and relocation costs cannot be distinguished on those grounds, however. Both kinds of expenses are incurred by employees for the purpose of getting to a work site to work. Moreover, an employee would not rationally incur either kind of expense but for the existence of the job. Both the employer and the employee derive benefits from the employment relationship, and, absent unusual circumstances, an employee's relocation costs to start a new job cannot be said to be primarily for the benefit of the employer.

That is not to say that travel and relocation costs are never properly considered to be primarily for the benefit of an employer. The regulations state that travel costs will be considered to be primarily for the benefit of the employer when they are "an incident of and necessary to the employment." 29 CFR 531.32(c). This might include, for example, a business trip, or an employer-imposed requirement that an employee relocate in order to retain his or her job. Relocation costs to start a new job will rarely satisfy this test, however.

In a literal sense it may be necessary to travel to a new job opportunity in order to perform the work, but that fact, without more, does not render the travel an "incident" of the employment. Inbound relocation costs are not, absent unusual circumstances, any more an "incident of * * * employment" than is commuting to a job each day. Indeed, inbound relocation costs are quite similar to commuting costs in many respects, which generally are not considered compensable. Cf. DOL Opinion Letter WH–538 (Aug. 5, 1994) (stating that travel time from home to work is "ordinary home-to-work travel and is not compensable" under the FLSA); *Vega ex rel. Trevino* v. *Gasper,* 36 F.3d 417 (5th Cir. 1994) (finding travel to and from work and home not compensable activity under Portal-to-Portal Act). In fact, there is no reason to believe that the drafters of 29 U.S.C. 203(m) and 206(a) ever intended for those provisions to indirectly require employers to pay for their employees' relocation and commuting expenses. To qualify as an "incident of * * * employment" under the Department's regulations, transportation costs must have a more direct and palpable connection to the job in question than merely serving to bring the employee to the work site.

Taking the *Arriaga* court's logic to its ultimate conclusion would potentially subject employers across the U.S. to a requirement to pay relocation expenses for all newly hired employees—or at least to pay relocation expenses for all newly hired foreign employees, since international relocation is perhaps less "ordinary" than intranational relocation. That simply cannot be correct. The language of 29 U.S.C. 203(m) and 206(a) and their implementing regulations provide a very thin reed on which to hang such a seismic shift in hiring practices, particularly so many years after those provisions have gone into effect. Nor does the fact that H–2B workers are temporary guest workers change the equation. Even assuming that H–2B workers derive somewhat less benefit from their jobs because they are only temporary, that fact alone would not render the worker's relocation expenses an "incident" of the temporary job. If it did, ski resorts, camp grounds, shore businesses, and hotels would all be legally required to pay relocation costs for their employees at the beginning of each season—again, a result that is very difficult to square with the language and purpose of 29 U.S.C. 203(m) and 29 CFR 531.35.

A stronger argument could be made, perhaps, that employers derive a greater-than-usual benefit from relocation costs when they hire foreign guest workers such as H–2B workers, because employers generally are not allowed to hire guest workers unless they have first attempted but failed to recruit U.S. workers. Thus, such employers have specifically stated a need to hire non-local workers. Given the substantially greater benefit that foreign guest workers generally derive from work opportunities in the United States than they do from employment opportunities in their home countries, however, the Department believes that this at most brings the balance of benefits between the employer and the worker into equipoise. Moreover, the employer's need for non-local workers does nothing to transform the relocation costs into an "incident" of the job opportunity in a way that would render the employee's payment of the relocation expenses a "kick-back" to the employer. If it did, courts would soon be called upon every time an employer hired an out-of-state worker to assess just how great the employer's need for the out-of-state employee was in light of local labor market conditions. Conversely, the courts would also have to inquire into the employee's circumstances, and whether the employee had reasonably comparable job prospects in the area from which the employee relocated. Again, the Department does not believe such a result is consistent with the text or the intent of the FLSA or the Department's implementing regulations.

It is true, of course, that H–2B employers derive some benefit from an H–2B worker's inbound travel. To be compensable under the FLSA, however, the question is not whether an employer receives some benefit from an item or paid-for cost, but rather whether they receive the primary benefit. Significantly, despite the fact that employers nearly always derive some benefit from the hiring of state-side workers as well, such workers' relocation costs generally have not been considered to be "primarily for the benefit of the employer." That is so because the worker benefits from the travel either more than or just as much as the employer.

In sum, the Department believes that the costs of relocation to the site of the job opportunity generally is not an "incident" of an H–2B worker's employment within the meaning of 29 CFR 531.32, and is not primarily for the benefit of the H–2B employer. The Department states this as a definitive interpretation of its own regulations and expects that courts will defer to that interpretation.

Butler's Exh. 76, p. 023

Butler 02219

8. Section 655.22(m) [(k) in Final Rule]—Bona Fide Inquiry

As proposed in the NPRM, the Final Rule at § 655.22(k) requires an employer that is a job contractor to attest that if it places its employees at the job sites of other employers, it has made a written bona fide inquiry into whether the other employer has displaced or intends to displace a similarly employed U.S. worker within the area of intended employment within the 120 days of the date of need. To comply with this attestation, the Department is requiring the employer to inquire in writing to and receive a written response from the employer where the relevant H–2B worker will be placed. This can be done by exchange of correspondence or attested to by the secondary employer in the contract for labor services with the employer petitioning to bring in H–2B workers. This proposed attestation at § 655.22(k) also requires the employer to attest that all worksites where the H–2B employee will work are listed on the *Application for Temporary Employment Certification.*

The Department received several comments on this secondary placement attestation provision. While some were in favor of the requirement, some employer associations expressed concern that making such an inquiry of their clients was unfair and unduly burdensome. The Department acknowledges that this attestation imposes an additional level of inquiry between job contractors and their clients where the contractor will be providing H–2B workers at a client site. The INA's mandate of the unavailability of persons capable of performing the job duties for which the H–2B workers are sought is at the heart of this requirement.

It is the H–2B worker's job activity, rather than the identity of the H–2B worker's employer, which is required to be measured against the availability of U.S. workers; the H–2B worker can be admitted only upon assurances of the unavailability of unemployed persons able to take the H–2B job opportunity. As a result, an H–2B worker performing duties at company X, for which company Y has hired him and pays him, may have an adverse effect not only on employees at the petitioning job contractor company employing him but also the company benefiting from his or her services. The limitations imposed by the Department—area of intended employment, occupation, and timing—provide parameters to reassure employers while at the same time enabling them to ensure full compliance with the mandates of the H–2B program.

One commenter agreed with this provision but did not believe a labor contractor should be held liable for the statements provided by those entities. The Department believes this commenter misinterpreted this section. The job contractor should make a bona fide inquiry and document the inquiry and response. If it later turns out that the employer who received the H–2B worker from the job contractor displaced a U.S. worker during the stated timeframe, proof of the employer's negative response to the job contractor's bona fide inquiry will relieve the job contractor of liability for that violation.

Another commenter requested that we strike this provision in its entirety because it does not allow for change in circumstances that would warrant displacing U.S. workers. The Department sees no reason why the U.S. worker would have to be displaced over the foreign worker and therefore, declines to eliminate this provision.

Finally, an industry association commented that H–2B workers employed by carnivals and circuses are constantly being placed on job sites of other employers as they travel the circuit and that this requirement is too difficult to comply with. It is difficult for the Department to discern, from the manner in which this comment was written, whether the H–2B workers are being paid by one petitioning employer throughout the itinerary or whether these H–2B workers are placed on the payroll of the fixed-site employer at each location. The Department has not made any changes to this section, as no compliance challenge was clearly communicated.

9. Section 655.22(o) [(m) in Final Rule]—Notice to Worker of Required Departure

Under the Final Rule, employers have a responsibility to inform foreign workers of their duty to leave the United States at the end of the authorized period of stay, and to pay for the return transportation of the H–2B worker if that worker is dismissed early. As stated in the NPRM, DHS will establish a new land-border exit pilot program for certain H–2B and other foreign workers to help ensure that departure follows the end of work authorization, regardless of whether it flows from a premature end or from the end of the authorized labor certification.

The Department received one comment on the duty to inform the worker of the obligation to depart from the country. This commenter opined that it is not the responsibility of employers to become unpaid immigration officers. The Department is not suggesting that it is placing any burden on employers to act as immigration officers. The Department has retained the requirement, while clarifying it to be consistent with DHS's regulations on this issue.

10. Section 655.22(p) [(n) in Final Rule]—Representation of Need

The Final Rule requires the employer to attest that it truly and accurately stated the number of workers needed, the dates of need, and the reasons underlying the temporary need in its labor certification request. The Department received two comments on this provision. One requested that we change the words "truly and accurately" to "reasonable and good faith" based on estimates from information available at the time of filing the certification. The Department has considered this change but declines to amend the regulatory language. The concern of the commenter of the need for flexibility is found in the provision in both the NPRM and this Final Rule regarding amendments (§ 655.34(c)(2)) of the start date of the certification. Any need for additional flexibility on the part of the Department must be balanced against the Department's need to ensure integrity in an attestation-based program; giving freedom to change its dates of need allows unscrupulous employers to submit applications not based on an actual need, thus circumventing the entire process in an attempt to obtain limited visas.

The second commenter expressed concern with the date of need requirement and requested the Department change several sections on which this attestation is predicated. One of the major concerns of this commenter was the potential need to amend start dates after certification if an employer must wait for visa numbers to become available. The Department has, however, retained the underlying provision for this attestation. While the Department permits amendment of the start date of the certification by the employer both prior to certification (§ 655.34(c)(2)) and after certification to certify a late adjudication (§ 655.34(c)(4)), the reconciliation of the start date becomes an issue for DHS adjudication. The Department notes that a regulatory provision allowing movement of the date of need after certification would be inconsistent with the DHS proposed rule, which would not permit the filing of a petition whose start date was inconsistent with the start date of the labor certification.

This commenter also proposed, in the alternative, that employers be allowed

Butler's Exh. 76, p. 024
Butler 02220

to submit their I–129 labor certification applications to DHS with a note that they have submitted their request for an amendment to the Department and that the Department be required to adjudicate the request for amendment within five days. The Department considered the comment and has decided not to establish a deadline for the processing of amendment requests. We defer to DHS to determine what is appropriate for its adjudication of I–129 petitions which falls exclusively under its jurisdiction.

L. Retention of Supporting Documentation

The Final Rule contains a modified requirement that employers retain specified documentation outlined in the proposed regulations to demonstrate compliance with program requirements. The proposed retention period was for 5 years. This documentation must be provided in the event of an RFI, post-adjudication audit, WHD investigation or other similar activity. The Department received a few comments in response to this proposed requirement. One small business coalition expressed its support, while another organization expressed concern that a 5-year document retention requirement was too long, especially for small employers, or employers like circuses and carnivals that are mobile or have a mobile component. Another commenter requested the Department prepare and provide a list to H–2B employers in one place, in plain language—perhaps as part of broad stakeholder compliance assistance—the documentation that should be retained. In response to concerns about the length of time for records retention, the Department has reduced the requirement from 5 years to 3 years. The documentation required will support specific attestations by the employer under the program. We will provide additional guidance in the course of individual and broad-based technical assistance and educational outreach to the employer community, including on the OFLC Web site. We will consider the issuance of additional written guidance, as appropriate.

M. Section 655.23(c)—Request for Further Information

The Department proposed to issue a Request for Further Information (RFI) within 14 days of receiving the application, if needed, for the purpose of adjudicating the application for labor certification. All of those who commented on this provision requested that the timeframes be changed, but most also recommended an additional provision that would obligate the Department to process and respond to the information received through the RFI within a certain period of time. The Department agrees and shortened both the issuance and response time to 7 days. The Department also has added a provision that obligates the CO to issue a Final Determination within 7 business days of receiving the employer's response, or by 60 days before the date of need, whichever is greater.

N. Section 655.24—Post-Adjudication Audits

The Department proposed to use various selection criteria for identifying applications for audit review after the application has been adjudicated in an effort to maintain and enhance program integrity. The audits are meant to permit the Department to ensure compliance with the terms and conditions by an employer and to fulfill the Secretary's statutory mandate to certify applications only where unemployed U.S. workers capable of performing such services cannot be found. Failure by an employer to respond to the audit could lead to debarment from the program as could a finding by the Department that the employer has not been complying with the terms and conditions attested to in the application. The Department received many comments on this provision. They were equally divided between those that opposed post-adjudication audits and those that believed audits are an effective tool to enhance integrity. Those who opposed the post-adjudication audits did not make any alternative suggestions on how the Department could determine compliance with the program. Therefore, with no other alternatives available, the Department believes its initial analysis is correct and, therefore, has not made any substantive changes to this section, save for including the option for the CO to refer any findings that an employer violated the terms and conditions of the program with respect to eligible U.S. workers to the Department of Justice, Civil Rights Division, Office of Special Counsel for Unfair Immigration Related Employment Practices, as suggested by one commenter.

O. Section 655.30—Supervised Recruitment

The Department proposed to require certain employers to engage in supervised pre-filing recruitment to ensure compliance with recruitment requirements. One comment was received on this provision. The commenter believes that the NPC will be unable to handle such a responsibility as effectively and as efficiently as did the local SWAs and that it will affect the integrity of the program. The Department respectfully disagrees with this commenter and has retained the provision as proposed. We believe that centralizing the process will provide uniformity and expertise that will enhance program integrity. Further, in the permanent labor certification program, supervised recruitment is conducted under Federal guidance and not SWA supervision.

P. Section 655.31—Debarment

The Department's NPRM proposed a mechanism allowing the Department to debar an employer/attorney/agent from the H–2B program for a period of up to 3 calendar years. Debarment from the program is a necessary and reasonable mechanism to enforce H–2B labor certification requirements and ensure compliance with the program's statutory requirements. Further, debarment and other enforcement mechanisms, *e.g.*, audits, are necessary and reasonable program compliance checks to balance the transition to an attestation-based filing system. The proposed rule would permit the Department to debar an employer, attorney, and/or agent for a period of up to 3 calendar years for misrepresenting a material fact or for making a fraudulent statement on an H–2B application, for a material or substantial failure to comply with the terms of the attestations, for failure to cooperate with the audit process or ordered supervised recruitment, or if the employer/attorney/agent has been found by a court of law, WHD, DHS, or the DOS to have committed fraud or willful misrepresentation involving any OFLC employment-based immigration program.

Upon further consideration, based in part upon the Department's recent efforts to modernize its H–2A labor certification regulations, the Department has decided to modify the debarment provision so that it more closely parallels the debarment provision for the H–2A regulation at 20 CFR 655.118, given the similarity of the H–2A and H–2B labor certification programs. While many of the grounds for debarment are substantially similar in the Final Rule as in the NPRM, the Final Rule contains additional safeguards for both workers and employers, which are explained in greater detail below.

1. Debarment Authority

An advocacy organization questioned the Department's authority to debar attorneys, agents, or employers from the H–2B program and asserted that a determination of a violation should only be made after notice of violation and an

Butler's Exh. 76, p. 025

Butler 02221

opportunity for a hearing. The debarment of entities from participating in a government program is an inherent part of an agency's responsibility to maintain the integrity of that program. As the Second Circuit found in *Janik Paving & Construction, Inc.* v. *Brock,* 828 F.2d 84 (2d Cir. 1987), the Department possesses an inherent authority to refuse to provide a benefit or lift a restriction for an employer that has acted contrary to the welfare of U.S. workers. In assessing the Department's authority to debar violators, the court found that "[t]he Secretary may * * * make such rules and regulations allowing reasonable variations, tolerances, and exemptions to and from any or all provisions * * * as [s]he may find necessary and proper in the public interest to prevent injustice of undue hardship or to avoid serious impairment of the conduct of Government business." *Id.* at 89.

In addition, although the Administrative Procedure Act provides that parties are entitled to appear before the agency with legal counsel, see 5 U.S.C. 555(b), this provision "leaves intact the agencies' control over both lawyers and non-lawyers who practice before them," Attorney General's Manual on the APA (1947) at 65. The Department's debarment of attorneys and agents under the H–2B program is also consistent with the Department's longstanding practice of regulating attorneys and representatives who appear before the agency. See, *e.g., In re judicial inquiry re Miroslaw Kusmirek,* 2000–INA–116 (Sept. 18, 2002) (sanctioning a representative for providing forged documents to the Department of Labor).

In order to encourage compliance, the regulatory scheme for the H–2B program relies on attestations, audits, investigations and the remedial measure of debarment. Use of debarment as a mechanism to encourage compliance has been endorsed in the INA for a number of foreign labor certification and attestation programs. Ensuring the integrity of a statutory program enacted to protect U.S. workers is an important part of the Department's mission.

As part of the Department's inherent debarment authority, the Department may determine the particular procedures that may apply to the process. Accordingly, it is within the Department's authority to require the OFLC Administrator to issue a Notice of Intent to Debar no later than 2 years after the occurrence of the violation; offer the employer an opportunity to submit evidence in rebuttal; and if the rebuttal evidence is not timely filed or if the Administrator determines that the employer, attorney, or agent more likely than not meets one or more of the bases for debarment, issue a *Notice of Debarment* which may be subject to administrative appeal through the Department's Board of Alien Labor Certification Appeals (BALCA). Like the NPRM, the Final Rule provides that the *Notice of Debarment* shall be in writing, state the reason for the debarment finding and duration of debarment, and identify the appeal rights. Additionally, the Final Rule provides that the debarment will take effect on the start date identified in the *Notice of Debarment* unless the administrative appeal is properly filed within 30 days of the date of the Notice, thereby, staying the debarment pending the outcome of the appeal.

2. Grounds for Debarment

While a union and a state agency expressed their support for the debarment provisions, a law firm asserted that the debarment was an unduly strict sanction for minor violations of new procedures, the details of which are still not clear. We disagree with the commenter's characterization of violations warranting debarment as "minor." The Department will not debar for "minor" violations. Rather most of the violations that will be the basis of potential debarment actions require a pattern or practice of acts that: (1) Are significantly injurious to the wages or benefits offered under the H–2B program or working conditions of a significant number of the employer's U.S. or H–2B workers; (2) reflect a significant failure to offer employment to each qualified domestic worker who applied for the job opportunity for which certification was being sought, except for lawful job-related reasons; (3) reflect a significant failure to comply with the employer's obligations to recruit U.S. workers; (4) reflect a significant failure to comply with the RFI or audit process; (5) reflect the employment of an H–2B worker outside the area of intended employment, or in an activity/activities not listed in the job order (other than an activity minor and incidental to the activity/activities listed in the job order), or after the period of employment specified in the job order and any approved extension; or (6) reflect a significant failure to comply with supervised recruitment. However, the Department recognizes that there are some acts which the Department would have no other available remedy to enforce would warrant debarment even without a pattern or practice. These acts are set forth separately under § 655.31(d)(2) through (5). These acts are: Fraud; the failure to cooperate with a DOL investigation or with a DOL official performing an investigation, inspection or law enforcement function; the failure to comply with one or more sanctions or remedies imposed by the ESA, or with one or more decisions of the Secretary or court; and a single heinous act showing such flagrant disregard for the law that future compliance with program requirements cannot reasonably be expected.

As to the details of the violation not being clear, we believe that the regulations are quite clear in setting forth the various grounds under which an employer, attorney or agent may be debarred. The Department understands the seriousness of debarment as a penalty and, in considering the comments received in response to the NPRM, believes that the resulting debarment provision upholds the integrity of the H–2B labor certification program and puts employers on notice of what violations are sufficiently serious that could result in potential debarment.

Additionally, the law firm requested a provision for training prior to being subject to sanctions such as debarment. While we do not think that it is necessary to address such training directly in the regulation, OFLC will issue further guidance, as appropriate, to orient stakeholders and staff to these new provisions.

3. Debarment of Attorneys and Agents

An international recruiting company requested that the Department apply a different standard for the debarment of attorneys and agents from the debarment of employers. In particular, the commenter asserted that the evidence to debar the agent or attorney would need to be legally significant since they do not share in the task of employment and stated that many agents accept information from the employer at face value and accept information as true. While attorneys and agents are not strictly liable for all actions of the employers they represent they do have responsibilities attendant to their participation in the program. Employers, agents, and attorneys each must remain aware of their particular responsibilities under the labor certification process and of the consequences of submitting false or misleading information to a Federal agency. Accordingly, the regulation provides that the Administrator may debar agents and attorneys not only for participating in, but also having knowledge of, or having reason to know of, the employer's substantial violation.

An advocacy organization objected to the omission of appeal rights for

attorneys and agents with respect to a *Notice of Debarment*. The commenter stressed that since attorneys and agents may themselves be subject to a *Notice of Debarment*, they ought to have recourse to correct a conceivably incurred or unfair decision. The commenter also noted that there may be certain instances where the interests of an employer and attorney or agent may diverge with respect to pursuing an appeal and the latter would be harmed due to the lack of appeal rights. The commenter also noted that the Department's permanent labor certification regulations provide not only the employer but any debarred person or entity the right to appeal the debarment decision. We agree with commenter's concern and have included references to attorneys' and agents' rebuttal and appeal rights, in additional to that of employers.

4. Use of Labor Contractors

An advocacy organization expressed a concern that employers would manipulate their legal identities resulting in abuses that would not be cured by debarment. In particular, the commenter set forth a scenario in which a company would retain a labor contractor or temporary agency to serve as the "employer" for a group of foreign workers at the company's work site. The commenter was concerned that the company would take advantage of a labor contractor's false claim that no domestic workers could be found, yet only the labor contractor would be debarred as the "employer," thus allowing the company to hire another labor contractor to repeat the same abuses.

The commenter seems to presume all labor contractors would commit violations of the program, which is a generalization that unfairly portrays law abiding labor contractors in a negative light. Nonetheless, this is a situation that would be of concern to the Department and, if appropriate, we would pursue administrative means to ascertain the veracity of applications and information submitted to the Department.

5. Review of Debarment Determinations

The Department did not receive comments about the procedures for the review of the Administrator, OFLC's debarment determinations. However, to ensure consistency across programs, the Department has included in the Final Rule procedures, identical to those set forth in the Department's H–2A Final Rule, for hearings before an administrative law judge and review of the administrative law judge's decision by the Administrative Review Board. Under the Final Rule, a debarred party may request a hearing which would be governed by the procedures in 29 CFR part 18, and administrative law judge decisions would not be required to be issued within a set period of time. We believe that this process provides a period of time that is both sufficient for thorough consideration of the grounds for debarment and expedient enough so as to allow the Department to debar bad actors before they can cause any additional harm while also minimizing the period of uncertainty for employers in the case of a successful appeal.

Q. Section 655.32—Labor Certification Determinations

The proposed language delineated the criteria by which the Administrator of OFLC will certify or deny applications. The commenters, though citing this particular section of the NPRM, actually commented on the attestation-based process in general. Their comments were incorporated into that discussion above.

R. Section 655.33—Appeals to the BALCA

The Department's and DHS's NPRMs proposed a new model for the adjudication of H–2B applications. Under current procedures, the Department does not provide for any administrative review of decisions either denying H–2B labor certification applications or rendering a non-determination. Currently, the Department's decisions are advisory to DHS and employers whose applications are denied or issued a non-determination by the Department may submit countervailing evidence to DHS and have access to administrative review under DHS procedures. Under the DHS NPRM, the countervailing evidence process is eliminated and employers seeking to file H–2B visa petitions will be required to present an approved labor certification from DOL. Since DOL decisions denying H–2B labor certification will no longer be subject to additional review outside of the Department, we concluded that it would be appropriate to provide an employer whose labor certification application is denied an opportunity to seek review in the Department. The Department's NPRM included such a procedure providing for administrative review before the BALCA.

The Department received a number of comments on this portion of the NPRM, the majority of which expressed dissatisfaction with the proposal. We have carefully reviewed these comments and made several changes in response. Several commenters expressed satisfaction with the current appeal process and requested that it not be changed. To the extent these comments related to concerns about the length of that process, that question is discussed below. To the extent the commenters expressed a preference for the retention of the current practice in which countervailing evidence can be submitted to DHS when an H–2B labor certification application is denied, similar comments were submitted to DHS in response to its NPRM and DHS made no change in its Final Rule. We defer to and adopt DHS's response on this issue. Likewise, the concern expressed by one commenter that the time spent utilizing the Department's appeals procedures will delay employers getting into the queue at DHS for the limited number of available H–2B visas, is a matter that is addressed by DHS in their Final Rule.

With regard to matters directly related to the Department's proposal, a number of commenters objected to the provision that precluded the submission of new evidence to the BALCA. We believe these commenters do not recognize the totality of the proposal. The NPRM provides that before a CO can deny an H–2B application, the CO must issue an RFI that apprises the employer of the grounds for the proposed denial and provides an opportunity to submit additional information. The Department does not see any reason to provide another opportunity to submit necessary information. In addition, providing such an opportunity would inevitably delay issuance of final decisions from the BALCA. Concerns about delays at the BALCA were expressed by a number of commenters even in the absence of any authorization for the submission of new evidence.

Several commenters expressed concern that the appeal process before the BALCA would take too long. One noted specifically that no time limit was contained for the BALCA to issue its docketing statement and a briefing schedule. It was also pointed out that the NPRM provided merely that the BALCA "should" notify the employer of its decision within 20 days of the filing of the CO's brief. In response to comments reflecting concerns about the timeliness of the appeal process, the Final Rule reflects significantly shorter time frames, with the BALCA decision due no later than 15 business days after the request for review is filed.

One commenter suggested the possibility of allowing worker representatives to participate in the administrative appeal process. We have rejected that suggestion. Generally, the

Butler's Exh. 76, p. 027

Butler 02223

Department's labor certification procedures do not involve participation by third parties and we do not believe that their involvement would enhance the process given the nature of the labor certification determination.

S. Section 655.34(c)—Amendments

The Department received several comments on the provision requiring the amendment of labor certifications if the start dates change and/or the number of workers change. All commenters opposed this change. One commenter admitted that employers set their start date based on the availability of visa numbers. Other commenters claimed that this provision makes it impracticable to adjust to market fluctuations during the season. The Department appreciates the candid comments about the difficulties this new requirement will create. However, the Department's experience is that many times dates of need or number of workers needed are changed to such a degree that the recruitment previously done is stale by the time USCIS receives the application. Changes to start dates, especially as the practice has become more common, also raise a concern that U.S. workers who might indeed be available for work on the new start date were not given the chance to apply originally. Therefore, this requirement represents a reasonable and logical solution. The only changes made to the section were for clarification purposes.

T. Section 655.35—Required Departure

In consultation with DHS, the Department proposed to include, as part of the employer's obligations, the requirement that employers provide notice to the H–2B workers of their required departure at the end of their authorized stay or separation from employment, whichever occurs first. This section was designed in anticipation of DHS establishing a registration of departure program. The provision requires employers to inform their H–2B workers of their obligation to register their departure at the port of exit. The Department received one comment suggesting that we eliminate this provision because it is unworkable due to the requirement for specific entry and exit points, which is inevitably a guarantee for violations occurring. This commenter also suggested we work with DHS instead. The Department respectfully declines to eliminate this language. The entry-exit ports and requirements continue to be matters of immigration under DHS's jurisdiction; this language simply makes it an employer's obligation to inform foreign workers of the workers' responsibility. The Department did consult with DHS on this language to establish this employer obligation and lay the appropriate groundwork as DHS continues to build their next-generation entry-exit system.

U. Delegation of Enforcement Authority

As previously discussed, the INA provides the Department no direct authority to enforce any conditions concerning the employment of H–2B workers, including the prevailing wage attestation. DHS possesses that authority pursuant to secs. 103 and 214(a) and (c) of the INA. 8 U.S.C. 1103 and 8 U.S.C. 1184(c)(14)(A). DHS may also delegate its authority to the Department under secs. 103(a)(6) and 214(c)(14)(B) of the INA. 8 U.S.C. 1103(a)(6) and 8 U.S.C. 1184(c)(14)(B). DHS has chosen to delegate its enforcement authority to DOL, which provides the basis for the new enforcement provisions of this subpart. The delegation will not take effect until this rule becomes effective.

V. Section 655.50(c)—Availability of Records in the Enforcement Process

Language has been added to § 655.50(c) to describe the employer's responsibility to make records available when those records are maintained in a central office.

W. Section 655.60—Compliance With Application Attestations

The NPRM proposed a WHD enforcement program addressing H–2B employers' compliance with attestations made as a condition of securing authorization to employ H–2B workers. The proposed enforcement program also covered statements made to DHS as part of the petition for an H–2B worker on the DHS Form I–129, Petition for a Nonimmigrant Worker. Compliance with attestations and the DHS petition are designed to protect U.S. workers and would be reviewed in WHD enforcement actions. This Final Rule adopts this proposal.

A trade union and U.S. Senator commented that the proposal did not include a mechanism for accepting complaints of potential violations. The Department intends to accept complaints, as it does under other statutes it administers such as the Fair Labor Standards Act (FLSA), 29 U.S.C. 201 *et seq.*, which does not have a specific regulatory mechanism for the acceptance of complaints. Thus, the Department has not added a specific regulatory procedure here.

Another trade union commented that the Department should adopt the definition of "employ" found in the FLSA, which defines the term to include "suffer or permit to work." In fact, the proposed regulations included such a definition. However, the terms "employer" and "employee" were defined in terms of the common law test of employment which does not include "suffer or permit to work." Since the two concepts are different and the use of the "suffer or permit" test is precluded by the U.S. Supreme Court opinion in *Nationwide Mutual Ins.* v. *Darden*, 503 U.S. 318, 322–323 (1992), the reference to "suffer or permit to work" has been removed.

X. Section 655.65—Remedies for Violations of H–2B Attestations

1. Section 655.65(a) and (b)—Assessment of Civil Money Penalties

Under the proposed rule, the WHD would assess civil monetary penalties in an amount not to exceed $10,000 per violation for a substantial failure to meet conditions of the H–2B labor condition application or of the DHS Form I–129, Petition for a Nonimmigrant Worker for an H–2B worker; or for a willful misrepresentation of a material fact on the DOL application or DHS petition; or a failure to cooperate with a Department of Labor audit or investigation. No comment addressed this provision and it is adopted in the Final Rule, with one change—in accordance with the statutory provisions, the Final Rule clearly reflects that the WHD Administrator may access civil money penalties when appropriate.

2. Section 655.65(i)—Reinstatement of Illegally Displaced U.S. Workers

Under the NPRM the WHD would seek reinstatement of similarly employed U.S. workers who were illegally laid off by the employer in the area of intended employment. Such unlawful terminations are prohibited if they occur less than 120 days before the date of requested need for the H–2B workers or during the entire period of employment of the H–2B workers. No comments addressed this proposal and it is adopted in the Final Rule.

3. Section 655.65(i)—Other Appropriate Remedies

WHD may seek remedies under other laws that may be applicable to the work situation including, but not limited to, remedies available under the FLSA (29 U.S.C. 201 *et seq.*), the Migrant and Seasonal Agricultural Worker Protection Act (29 U.S.C. 1801 *et seq.*), and the McNamara-O'Hara Service Contract Act (41 U.S.C. 351 *et seq.*). WHD also may seek other administrative remedies for violations as it determines to be appropriate.

Butler's Exh. 76, p. 028

Butler 02224

The Department sought public comments on whether back wages can be assessed under the H–2B program when an employer fails to pay the prevailing wage rate. The most extensive comments received were from a U.S. Senator asserting that the lack of back pay as a remedy is a "weakness of the Department's enforcement proposal" and that back pay is "an essential make-whole remedy for both H–2B program participants and American workers * * * [and] would provide a key incentive for otherwise vulnerable workers to come forward and protect their rights." The Senator also stated that "[t]here is ample authority establishing that similarly broad grants of remedial authority are sufficient to authorize an award of back [pay], even when this remedy is not specifically enumerated."

The Department has carefully considered whether Congress has provided authority to assess back wages under the H–2B provisions. The Department concludes that the H–2B statutory provisions provide the Secretary with the authority to seek back wages for failure to pay the required wage even though the statute does not specifically list this remedy. The INA broadly authorizes DHS to, "in addition to any other remedy authorized by law, impose such administrative remedies (including civil monetary penalties * * *) as the Secretary of Homeland Security determines to be appropriate[.]" 8 U.S.C. 1184(c)(14)(i). As noted above, that authority has been delegated to the Department of Labor. Awarding back pay is unquestionably the most appropriate remedy for failure to pay the required wage. It is also consistent with the statutory grant of authority and will further the purposes of the H–2B program because it will reduce employers' incentives to bypass U.S. workers in order to hire and exploit H–2B foreign workers, and guard against depressing U.S. workers' wage rates.

A number of courts have concluded that, under similarly broad grants of remedial authority, the Secretary may establish back pay as an appropriate sanction even in the absence of explicit statutory authority. See, *e.g.*, *Commonwealth of Kentucky Dept. of Human Resources* v. *Donovan*, 704 F.2d 288, 294–96 (6th Cir. 1983) (ruling that the Secretary of Labor had authority to award back pay under Comprehensive Employment and Training Act (CETA) both prior to the 1978 statutory and regulatory amendments and pursuant to the 1978 amendments); *City of Philadelphia* v. *U.S. Dept. of Labor*, 723 F.2d 330, 332 (3d Cir. 1983); *United States* v. *Duquesne Light Co.*, 423 F. Supp. 507, 509 (W.D. Pa. 1976) (in government contracting case, back pay appropriate under E.O. 11246).

The preamble to the NPRM, 73 FR 29946, noted that the H–1B provisions of the INA, unlike the H–2B provisions, contain a separate provision requiring that the Secretary assess back wages in cases where an employer has failed to pay the LCA-specified wages. 8 U.S.C. 1182(n)(2)(D) ("If the Secretary finds, after notice and opportunity for a hearing, that an employer has not paid wages at the wage level specified under the [LCA] * * * the Secretary shall order the employer to provide for payment of such amounts of back pay as may be required to comply with the [H–1B] requirements * * * whether or not [other penalties have] been imposed."). The H–1B back pay provision is, however, different from either programs' general, broad grant of remedial authority by being mandatory and by imposing no standard for the severity of wage violations (*e.g.*, willfulness or "substantial violation") for the collection of back wages. Therefore, the failure to include the mandate in H–2B simply means that the Secretary is not required to seek back pay in cases where the employer has failed to pay the LCA-specified wages; it does not bear on the Secretary's discretion to seek back pay in such cases. The Department concludes that the statutory language of the H–2B program provides the Secretary with the discretionary authority to seek back pay, provided there is a finding of a "substantial violation" or willfulness, in cases where the employer has failed to pay the LCA-specified wages. See 8 U.S.C. 1184(c)(14)(A)(i). The Department has modified the Final Rule accordingly.

Y. Comments Beyond the Scope

In addition to those discussed above, the Department received numerous comments that were beyond the scope of or not directly relevant to the proposed regulation. We did not respond to these comments, but find it appropriate to note them. They included: Calls for the Department to work with Congress to extend the Save Our Small and Seasonal Business Act returning workers provision; calls for the Congress to raise the H–2B 66,000 annual visa cap, or to allocate visa numbers more equitably across States; calls for the government to "recapture" H–2B visa numbers that expire the same year they are issued so they can be used for different workers; calls for the Congress to increase funding for all Federal agencies administering the H–2B visa program, and the SWAs, either through appropriations, or applications or fraud preventions fees; requests that DHS establish a special fraud investigative unit for certain visa related crimes and offenses; concerns about the requirement that workers use DHS's designated entry-exit system, and about the burdens and policies behind such a system; a request that foreign workers be given a two-month grace period between employers when the worker needs an extension but the workers' visas terminate before the beginning of their next employment; a request that employers have the authority to activate or deactivate the H–2B visa like a credit card to allow immediate action and loss of status if the worker fails to comply with the terms of the H–2B contract; calls for the government to require that H–2B workers (over whom the Department has no jurisdiction save for the areas covered in this Final Rule) purchase travel insurance or prohibit H–2B workers from identifying themselves as "self-employed" on their federal tax forms, or to eliminate the requirement that H–2B workers pay Social Security or Medicare; opinions that the United States has sufficient foreign workers to meet the needs of U.S. employers, especially at a time when the economy is slowing down and many U.S. workers are unemployed; calls for U.S. employers to provide higher wages and better working conditions; and a call for H–2B workers to be permitted representation by Federally-funded legal services corporations, and that resources for such counsel be increased.

III. Administrative Information

A. Executive Order 12866—Regulatory Planning and Review

Under Executive Order (E.O.) 12866, the Department must determine whether a regulatory action is "significant" and therefore, subject to the requirements of the E.O. and subject to review by the Office of Management and Budget (OMB). Section 3(f) of the E.O. defines a "significant regulatory action" as an action that is likely to result in a rule that: (1) Has an annual effect on the economy of $100 million or more or adversely and materially affects a sector of the economy, productivity, competition, jobs, the environment, public health or safety, or State, local or tribal governments or communities (also referred to as "economically significant"); (2) creates serious inconsistency or otherwise interferes with an action taken or planned by another agency; (3) materially alters the budgetary impacts of entitlement grants, user fees, or loan programs or the rights and obligations of recipients thereof; or (4) raises novel legal or policy issues

arising out of legal mandates, the President's priorities, or the principles set forth in the E.O.

The Department determined that this regulation is a "significant regulatory action" under sec. 3(f)(4). This Final Rule implements a significant policy related to the President's policies on immigration. However, the Department determined that this rule is not an "economically significant" rule under E.O. 12866 because it will not have an annual effect on the economy of $100 million or more.

Analysis Considerations

The direct incremental costs employers will incur because of this Final Rule, above and beyond the current costs required by the program as it is currently implemented, are not economically significant. The total annual cost associated with this Final Rule is approximately $1,872,769 per year or $166 per employer. The only additional costs on employers resulting from this Final Rule are those involved in (1) the placement of a Sunday advertisement, which replaces one of the former daily advertisement and the additional paperwork costs; (2) the new paperwork and retention requirements; and (3) contacting laid-off workers to notify them of a job opportunity.[6]

Cost of the Sunday Advertisement

The cost range for advertising and recruitment is taken from a recent (October 2008) sample of newspapers in various urban and rural U.S. cities, and reflects approximate costs for placing one 10-line advertisement in those newspapers. The cost of advertising in a Sunday paper instead of during the week is approximately $234, which represents an increase of approximately $31.16 over the weekday advertisement.[7] The additional total cost for the 11,267 employers utilizing the H–2B program of one Sunday ad would average approximately $351,080 assuming that such ads would not have been placed by the business as part of its normal practices to recruit U.S. workers.[8]

Cost of Paperwork and Record Retention Requirements

The paperwork and record retention costs are minimal, as records will require a burden of approximately 1.35 hours per year per application. Based on the median hourly wage rate for a Human Resources Manager ($40.47), as published by the Department's Occupational Information Network, O*Net OnLine, and increased by a factor of 1.42 to account for employee benefits and other compensation, a total cumulative burden of 15,210 hours will result in a total cost of $874,118, or $77.58 per employer.

Cost To Notify Laid-Off Workers of Job Opportunity

A final cost to employers for implementing the requirements of this Final Rule is the cost associated with notifying laid-off workers of a job opportunity. The Department estimates that the total cost to meet this requirement is $647,571 or $57.48 per employer. To make this cost determination, the Department estimated it would take an employer's Human Resources Manager approximately 3 minutes to notify each laid-off worker. The Department does not have data to determine how many laid-off workers an employer would be required to notify. Therefore, the Department projected this number based on the total number of employees requested on the applications. Based on PY 2006 data, employers requested visas for 247,287 foreign workers, for an average of 22 employees per employer. We then multiplied this number by 3 minutes (the time estimate to notify each laid-off worker) to determine that it will take each employer approximately one hour to meet this requirement. Thus, the cost per employer is the hourly salary for the Human Resource Manager to make the calls or $57.47.

Benefits

We also project that employers will experience significant time-savings as a result of the reengineered process. The Department estimates the average time-savings to employers will be at least 28 days from the current process, based on the current average H–2B application processing time of 73 days in the fiscal year (FY) 2007 (October 1, 2006–September 30, 2007). Although the Department cannot estimate the cost savings as a result of this time saved, it believes that employers will experience a variety of economic benefits, including benefits from predictability of workforce size and availability regardless of geographic area, as a result of reengineering the application process.

The Department received seven comments related to the cost of this rulemaking. One comment was directed at the cost to small businesses and has been addressed in Section B of this section of the preamble below. The remaining six comments were related to the costs to the SWAs, which is not a cost calculated in the total cost of this Final Rule because they are considered transfer costs under OMB Circular A–4. Therefore, the Department has addressed those comments in Section C of this section of the preamble. The Department notes, however, that based on the comments, it reduced the number of required advertisements from three in the preamble to two in this Final Rule, which is reflected in the cost analysis above.

B. Regulatory Flexibility Analysis/ SBREFA

The Regulatory Flexibility Act (RFA) at 5 U.S.C. 603 requires agencies to prepare a regulatory flexibility analysis to determine whether a regulation will have a significant economic impact on a substantial number of small entities. Section 605 of the RFA allows an agency to certify a rule in lieu of preparing an analysis if the regulation is not expected to have a significant economic impact on a substantial number of small entities. A significant economic impact is defined as eliminating more than 10 percent of the businesses' profits; exceeding 1 percent of the gross revenue of the entities in a particular sector; or exceeding 5 percent of the labor costs of the entities in the sector. Further under the Small Business Regulatory Enforcement Fairness Act of 1996, 5 U.S.C. 801 (SBREFA), an agency is required to produce compliance guidance for small entities if the rule has a significant economic impact. Although the RFA and the SBREFA analyses were included as separate preamble sections in the proposed rule, the Department has included them in one preamble section in this Final Rule to avoid unnecessary duplication. The Department has certified that this Final Rule does not have a significant economic impact on a substantial number of small entities.

1. Definition of a Small Entity

A small entity is one that is "independently owned and operated and which is not dominant in its field of operation." The definition of small business varies from industry to

[6] The Department notes that this cost is not new to the H–2B program because it has been required in program guidance. However, because it is new to the regulation, we have included it in this analysis.

[7] The Department based this average on 10 locations with the highest number of H–2B applications, including the following: Houston, Texas; Orlando, Florida; Vail, Colorado; Orange County, California; Cape Cod, Massachusetts; Detroit, Michigan; Baton Rouge, Louisiana; Houma, Louisiana; Columbus, Ohio; and Washington, DC.

[8] The Department notes that this cost is based on the highest costs in each location. Fees are likely to be lower given that many newspapers offer lower rates for consecutive ads, for placing two ads in the same week, or for purchasing a Sunday and weekday ad.

Butler's Exh. 76, p. 030

Butler 02226

industry to the extent necessary to properly reflect industry size differences. An agency must either use the SBA definition for a small entity, or, establish an alternative definition. Given that this rulemaking crosses industry sectors, the Department has adopted the SBA size standards defined in 13 CFR 121.201. The SBA utilizes annual revenue in some industries, while utilizing number of employees in others to determine whether or not a business is considered a small business. Historically however, the Department has not collected information about an employer's industry classification, annual revenues, or number of employees currently on payroll in the H–2B program. Therefore, the Department cannot accurately and comprehensively categorize each applicant-employer for the purpose of conducting the RFA analysis by industry and size standard. In lieu of the industry and size standard analysis, the Department based the estimated costs of the reformed H–2B process assuming all employers-applicants were small entities.

2. Factual Basis for Certification

The factual basis for such a certification is that this Final Rule does not affect a substantial number of small entities and there will not be a significant economic impact on them. The Department receives more than 10,000 applications a year under this program. In FY 2006 (October 1, 2005–September 30, 2006), ETA received from SWAs 11,267 applications from employers seeking temporary labor certification under the H–2B program. As mentioned earlier, the Department does not collect information regarding the numbers of small entities participating in the H–2B program. The Department believes that this rule may potentially affect as many as 11,267 employers participating in this program, assuming that each employer only has one application.

Although there may be a substantial number of small entities impacted by this Final Rule, the Department has determined that this rule will not have a significant economic impact on those small businesses that utilize the program. The RFA and the SBREFA, which amended the RFA, require that an agency promulgating regulations segment and analyze industrial sectors into several appropriate size categories for the industry being regulated. Even though the foreign labor certification programs are open to all industries, the Department does not have sufficient data to analyze the universe of H–2B applicants by industry sector. However, the Department was able to analyze the PY 2006 data to determine that landscape occupations[9] accounted for approximately 31 percent of all the applications filed. According to SBA guidelines for the landscape industry, all employers with annual receipts at or below $6.5 million are considered small businesses. The cost of this rule for those employers at this threshold would be approximately .003 percent of their annual revenues; even for employers with annual receipts of only $500,000, the cost would represent only .036 percent of revenues.[10] The Department also recognizes that there are potentially very small business that might be affected. Therefore, for purposes of comparing costs, this rule would cost small entities that had gross annual receipts of $120,000 and profits of $12,000 approximately .15 percent of their revenues, which would not be significant.

The Department believes that the costs incurred by employers under this Final Rule will not be substantially different from those incurred under the current application filing process. Employers seeking to hire foreign workers on a temporary basis under the H–2B program must continue to establish to the Secretary's satisfaction that their recruitment attempts have not yielded enough qualified and available U.S. workers. Similar to the current process, employers under this H–2B process will file a standardized application but will retain recruitment documentation, a recruitment report, and any supporting evidence or documentation justifying the temporary need for the services or labor to be performed. To estimate the cost of this reformed H–2B process on employers, the Department calculated each employer will pay an additional $31.16 to meet the advertising requirements for a job opportunity, and will spend an additional 1.35 hours staff time preparing the standardized application, narrative statement of temporary need, final recruitment report, and retaining all other required documentation (*e.g.*, newspaper ads, business necessity) for audit purposes or $81.57 per employer. The Department also estimated that it will take an employer approximately one hour to notify laid-off workers of a job opportunity, or $66.46.

Using the RFA standard to determine whether a rule will have a substantial impact on a significant number of small businesses, the Department determined that this Final Rule will not eliminate more than 10 percent of the businesses' profits; exceed 1 percent of the gross revenue of the entities in a particular sector; or exceed 5 percent of the labor costs of the entities in the sector. The total cost per employer is approximately $179, which represents .15 percent of the gross receipts and profits of a small entity with $120,000 in revenues and $12,000 profits. Therefore, this rule will not have a significant impact on a substantial number of small businesses.

The Department received one comment on this section, which generally stated that the rule would increase the cost to employers, especially given the changes to advertising. Although this statement is partly true given that the cost of the rule increased by approximately $179, in light of the other non-quantifiable benefits, the Final Rule will likely represent a cost-savings to the employer. Therefore, for the reasons stated, the Department believes that total costs for any small entities affected by this program will be reduced or stay the same as the costs for participating in the current program. Even assuming that all entities who file H–2B labor certification applications qualify as small businesses, there will be no net negative economic effect.

C. Unfunded Mandates Reform Act of 1995

Section 202 of the Unfunded Mandates Reform Act (UMRA) of 1995 (2 U.S.C. 1501 *et seq.*) directs agencies to assess the effects of a Federal regulatory action on State, local, and tribal governments, and the private sector to determine whether the regulatory action imposes a Federal mandate. A Federal mandate is defined in the Act at 2 U.S.C. 658(5)–(7) to include any provision in a regulation that imposes an enforceable duty upon State, local, or tribal governments, or imposes a duty upon the private sector which is not voluntary. A decision by a private entity to obtain an H–2B worker is purely voluntary and is, therefore,

[9] The Department notes that this was the only occupation that could be paralleled with the industry classifications required by the SBA and described in 13 CFR 121.201. The landscape industry includes grounds keeping, lawn services, landscaping, tree planting, tree trimming, and tree surgeons. However, the Department does not require employers to list a North American Industry Classification System (NAICS) code for each employment position under the H–2B program, and therefore, the data calculated for this example is not as accurate as it would be with NAICS coding. For instance, some landscaping duties require bricklaying, which we note has been used as a separate employment category on some of the applications. Without the coding it is not possible to categorize occupations accurately. Therefore, the Department notes that we used this industry merely to provide an example of how this rule could affect a category of employers.

[10] The cost of the rule ($166) divided by the projected annual receipts of the business.

Butler's Exh. 76, p. 031

Butler 02227

excluded from any reporting requirement under the Act.

The Department received six comments on this section from SWAs related to the increase in cost and workload and/or the lack of funding to support the new H–2B processing requirements. One commenter generally noted that its jurisdiction was neither financially nor functionally prepared to take on this added workload. Three States specifically stated that the funds provided under the Wagner-Peyser Act were insufficient to carry out their H–2B responsibilities prior to the changes in this rule, and the new eligibility verification requirements increased their funding challenges. Three States specifically related the lack of resources to the additional cost of storing and processing the I–9 documents related to the eligibility verification requirements.

The Department disagrees that this Final Rule imposes an unfunded mandate. As noted in the proposed rule, the Department is not insensitive to the resource and time constraints facing SWAs in their administration of H–2B activities and the difficulties inherent in making informed referrals on a population of workers that may be itinerant and difficult to contact. 73 FR 29950, May 28, 2008. However, we do not believe that this requirement will result in a significant workload increase or administrative burden. The Department points out that although there may be some new requirements for SWAs, there are also many requirements for SWAs that have been eliminated in this Final Rule given the reengineered approach. The Department believes reduced burden from the old requirements more than offsets any additional burden finalized here. The SWAs will experience a direct impact on their foreign labor certification activities in the elimination of certain H–2B activities under this Final Rule. These eliminated activities are currently funded by the Department under grants provided under the Wagner-Peyser Act, 29 U.S.C. 49 *et seq.* In addition, other tools will be available to the SWAs to make this requirement relatively easy to implement, such as the E-Verify system. As a result, the net effect of this Final Rule will likely be to ensure the amounts of such grants available to each State correspond or even increase relative to its workload under the H–2B program in the receipt, processing and monitoring of each application.

One State commented that the new eligibility verification requirements could lead to discriminatory practices subject to legal challenge, which in this commenter's opinion, the legal costs associated with any defense also represented an unfunded mandate. The Department believes it is premature to presume that the States will have to bear a significant cost to defend against any potential litigation associated with the implementation of this Final Rule, and which is typically considered part of a grantee's programmatic responsibility, should it occur.

Therefore, for the reasons stated above, the Department finds that this Final Rule does not impose an unfunded mandate.

D. Executive Order 13132—Federalism

Executive Order 13132 addresses the Federalism impact of an agency's regulations on the States' authority. Under E.O. 13132, Federal agencies are required to consult with States prior to and during the implementation of national policies that have a direct effect on the States, the relationship between the Federal Government and the States, or on the distribution of power and responsibilities among the various levels of government. Further, an agency is permitted to limit a State's discretion when it has statutory authority and the regulation is a national activity that addresses a problem of national significance.

The Department received one comment on this section. This commenter stated that the Department's reversal of a long-standing position on U.S. worker self-attestation creates a Federalism impact. According to this commenter, TEGL 11–07, Change 1, mandates that SWAs perform pre-employment eligibility verifications on every U.S. worker that requests a referral to an H–2A job order. This commenter requests that the Department prepare a summary impact statement and acknowledge that many States currently have attestation-based systems for U.S. worker access to public labor exchange services.

The Department disagrees with this commenter's assessment of a Federalism impact and therefore, the need for a summary impact statement. In this case there is no direct effect on the States because the States are not in the best position to address the needs to re-engineer a Federal program to relieve the backlog that has occurred due to inadequate staffing, funding, or other issues of concern. The issues addressed by the regulations are of national concern to ensure an effective program that regulates temporary alien workers and protects U.S. workers.

As noted elsewhere in this preamble, the Department attempted to reform this program in 2005. To meet the demands of the considerable workload increases for both the Department and the SWAs and limited appropriations, the Department determined that regulatory changes were still necessary. These changes are consistent with the Department's review, program experience, and years of stakeholder feedback on longstanding concerns about the integrity of the prior program. Therefore, as a program of national scope, the Department is implementing requirements that apply uniformly to all States.

Even if there were an argument that the Department should defer to the States on the eligibility verification requirements, the Department is authorized by the INA to implement Federal regulations to ensure consistency across States on immigration matters. Therefore, rather than having separate eligibility verification processes that vary from State to State, the Department is exercising its right under the INA to impose consistent requirements for all participants across the H–2B program. In addition, given that the H–2B program is an immigration-related program, it also is a program of national security and therefore, of national significance with Federal oversight and uniformity. The verification requirement is designed to strengthen the integrity of the temporary labor certification process, afford employers a legal pool of applicants, protect U.S. workers, and improve confidence in and use of the H–2B program.

Further, the relationship the States have with this program and the Federal Government is through grants from the Department to the States for the sole purpose of maintaining consistency across States. As a voluntary Federal program, the Department may change the direction from time to time as dictated by the changes to immigration-related concerns, but at the same time are consistent with the underlying legislation.

Therefore, for the reasons stated, the Department has determined that this rule does not have sufficient Federalism implications to warrant the preparation of a summary impact statement.

E. Executive Order 13175—Indian Tribal Governments

Executive Order 13175 requires Federal agencies to develop policies in consultation with tribal officials when those policies have tribal implications. This Final Rule regulates the H–2B visa program and does not have tribal implications. Therefore, the Department has determined that this E.O. does not apply to this rulemaking. The Department did not receive any comments related to this section.

Butler's Exh. 76, p. 032

Butler 02228

F. Assessment of Federal Regulations and Policies on Families

Section 654 of the Treasury and General Government Appropriations Act of 1999 (5 U.S.C. 601 note) requires agencies to assess the impact of Federal regulations and policies on families. The assessment must address whether the regulation strengthens or erodes the stability, integrity, autonomy, or safety of the family.

The Final Rule does not have an impact on the autonomy or integrity of the family as an institution, as it is described under this provision. The Department did not receive any comments related to this section.

G. Executive Order 12630—Protected Property Rights

Executive Order 12630, Governmental Actions and the Interference with Constitutionality Protected Property Rights, prevents the Federal government from taking private property for public use without compensation. It further institutes an affirmative obligation that agencies evaluate all policies and regulations to ensure there is no impact on constitutionally protected property rights. Such policies include rules and regulations that propose or implement licensing, permitting, or other condition requirements or limitations on private property use, or that require dedications or exactions from owners of private property.

The Department did not receive any comments on this section. The Department certifies that this Final Rule does not infringe on protected property rights.

H. Executive Order 12988—Civil Justice Reform

Section 3 of E.O. 12988, Civil Justice Reform, requires Federal agencies to draft regulations in a manner that will reduce needless litigation and will not unduly burden the Federal court system. Therefore, agencies are required to review regulations for drafting errors and ambiguity; to minimize litigation; ensure that it provides a clear legal standard for affected conduct rather than a general standard; and promote simplification and burden reduction.

The rule has been drafted in clear language and with detailed provisions that aim to minimize litigation. The purpose of this Final Rule is to reengineer the H–2B program and simplify the application process. Therefore, the Department has determined that the regulation meets the applicable standards set forth in sec. 3 of E.O. 12988. The Department received no comments regarding this section.

I. Plain Language

Every Federal agency is required to draft regulations that are written in plain language to better inform the public about policies. The Department has assessed this Final Rule under the plain language requirements and determined that it follows the Government's standards requiring documents to be accessible and understandable to the public. The Department did not receive any comments related to this section.

J. Executive Order 13211—Energy Supply

This Final Rule is not subject to E.O. 13211, which assesses whether a regulation is likely to have a significant adverse effect on the supply, distribution, or use of energy. Accordingly, the Department has determined that this rule does not represent a significant energy action and does not warrant a Statement of Energy Effects. The Department did not receive any comments related to this section.

K. Paperwork Reduction Act

1. Summary

As part of its continuing effort to reduce paperwork and respondent burden, the Department of Labor conducts a preclearance consultation program to provide the general public and Federal agencies with an opportunity to comment on proposed and continuing collections of information in accordance with the Paperwork Reduction Act of 1995 (PRA) (44 U.S.C. 3506(c)(2)(A)). This helps to ensure that requested data can be provided in the desired format, reporting burden (time and financial resources) is minimized, collection instruments are clearly understood, and the impact of collection requirements on respondents can be properly assessed.

In accordance with the Paperwork Reduction Act (44 U.S.C. 3501), information collection requirements, which must be implemented as a result of this regulation, a clearance package containing proposed forms was submitted to OMB on February 14, 2008, along with its proposed rule to reform the H–2A agricultural foreign labor certification program, and then again on May 22, 2008, in conjunction with the H–2B proposed rulemaking preceding this Final Rule. Therefore, the public was given 60 days to comment on this information collection with both submissions, for a total of 120 days. All comments received were taken into consideration and a final package was submitted to OMB. The collection of information for the current H–2B program under the regulations in effect prior to the effective date of this rule were approved under OMB control number 1205–0015 (Form ETA 750).

This Final Rule implements the use of the new information collection, which OMB approved on November 21, 2008 under OMB control number 1205–0466. The Expiration Date is November 30, 2011. The new forms, ETA 9141 and ETA 9142, have a public reporting burden estimated to average 55 minutes for Form ETA 9141 and 2.75 hours for Form ETA 9142 per response or application filed.

This paperwork package applies—as does this Final Rule—to the H–2B, H–1B, H–1B1, H–1C, E–3, and PERM programs. The burden hours associated with the additional programs are a result of the wage determination and retention of document requirements. Under this Final Rule, and the implementation schedule it establishes, employers applying to any of these programs must use the ETA Form 9141, a single, Federal form that replaces the State-specific forms previously used to obtain prevailing wage determinations. There are no additional costs to the employer associated with the implementation of this new form, as costs are defined by the Paperwork Reduction Act. As the Department notes elsewhere in this preamble, the H–1C program was inadvertently removed. Consistent with the proposed rule at 73 FR 29947, May 28, 2008, it was the Department's intention to standardize all forms for better program effectiveness and efficiency in its non-agricultural programs, which necessarily extends also to the H–1C program.

For an additional explanation of how the Department calculated the burden hours and related costs, the Paperwork Reduction Act package for this information collection may be obtained from the RegInfo.gov Web site at *http://www.reginfo.gov/public/do/PRAMain* or by contacting the Department at: Office of Policy Development and Research, Department of Labor, 200 Constitution Ave., NW., Washington, DC 20210 or by phone request to 202–693–3700 (this is not a toll-free number) or by e-mail at *DOL_PRA_PUBLIC@dol.gov*.

The Department received six comments on this section, all related to the H–2B program. One commenter stated that the form ETA 9141 was unnecessarily long and complex and should be simplified. The Department has attempted to shorten the form and make it easier to use. It has been reduced from seven pages to four pages.

Three of the comments related to the burden associated with the paperwork requirements. Two final commenters stated that they did not have the funding or staff time to manage the record retention requirements or to process and store the paperwork. None of the commenters specifically addressed the issue of our methodology or assumptions, or the other programs to which the ETA 9141 now applies.

The paperwork burden estimate for the form used for the H–2B program under the regulations in effect prior to the effective date of this Final Rule, (form ETA 750—OMB control number 1205–0015) was approximately 1.4 hours. Under this new collection of information, the Department estimates that the burden will be approximately 2.75 hours for Form ETA 9142. We based this calculation on a burden estimate of 1.4 hours for those program requirements that remained the same and allocated approximately 1.35 hours for the additional information requirements.

Although the Department did not receive any comments related to the remaining programs (H–1B, H–1B1, E–3, H–1C, and PERM), it notes that only the Form ETA 9141 applies to these programs. This Form will be used in lieu of the State form for submitting a prevailing wage request. Although the burden hours for each State application vary, the Department estimates the burden hours to complete the State forms to be approximately 1.0 hour. As a result, and for the reasons discussed elsewhere in this preamble, the Department does not expect the paperwork burden hours to increase for these programs.

In sum, without more persuasive analysis rebutting the analysis used by the Department, we assume our calculations are representative of the actual hourly burden for the new collection, which represents no increase for most programs and a minimal increase for the H–2B program.

L. Catalog of Federal Domestic Assistance Number

This program is listed in the Catalog of Federal Domestic Assistance at Number 17–273, "Temporary Labor Certification for Foreign Workers."

List of Subjects

20 CFR Part 655

Administrative practice and procedure, Foreign workers, Employment, Employment and training, enforcement, Forest and forest products, Fraud, Health professions, Immigration, Labor, Longshore and harbor work, Migrant labor, Passports and visas, Penalties, Reporting and recordkeeping requirements, Unemployment, Wages, Working conditions.

20 CFR Part 656

Administrative practice and procedure, Agriculture, Aliens, Employment, Employment and training, Enforcement, Forest and forest products, Fraud, Guam, Health professions, Immigration, Labor, Passports and visas, Penalties, Reporting and recordkeeping requirements, Students, Unemployment, Wages, Working conditions.

■ For the reasons stated in the preamble, the Department of Labor amends 20 CFR parts 655 and 656 as follows:

PART 655—TEMPORARY EMPLOYMENT OF FOREIGN WORKERS IN THE UNITED STATES

■ 1. The authority citation for part 655 is revised to read as follows:

Authority: Section 655.0 issued under 8 U.S.C. 1101(a)(15)(E)(iii), 1101(a)(15)(H)(i) and (ii), 1182(m), (n) and (t), 1184(c), (g), and (j), 1188, and 1288(c) and (d); sec. 3(c)(1), Public Law 101–238, 103 Stat. 2099, 2102 (8 U.S.C. 1182 note); sec. 221(a), Public Law 101–649, 104 Stat. 4978, 5027 (8 U.S.C. 1184 note); sec. 303(a)(8), Public Law 102–232, 105 Stat. 1733, 1748 (8 U.S.C. 1101 note); sec. 323(c), Public Law 103–206, 107 Stat. 2428; sec. 412(e), Public Law 105–277, 112 Stat. 2681 (8 U.S.C. 1182 note); sec. 2(d), Public Law 106–95, 113 Stat. 1312, 1316 (8 U.S.C. 1182 note); Public Law 109–423, 120 Stat. 2900; and 8 CFR 214.2(h).

Section 655.00 issued under 8 U.S.C. 1101(a)(15)(H)(ii), 1184(c), and 1188; and 8 CFR 214.2(h).

Subpart A issued under 8 U.S.C. 1101(a)(15)(H)(ii)(b), 1103(a), and 1184(a) and (c); and 8 CFR 214.2(h).

Subpart B issued under 8 U.S.C. 1101(a)(15)(H)(ii)(a), 1184(c), and 1188; and 8 CFR 214.2(h).

Subpart C issued under 8 CFR 214.2(h).

Subparts D and E authority repealed.

Subparts F and G issued under 8 U.S.C. 1288(c) and (d); and sec. 323(c), Public Law 103–206, 107 Stat. 2428.

Subparts H and I issued under 8 U.S.C. 1101(a)(15)(H)(i)(b) and (b)(1), 1182(n) and (t), and 1184(g) and (j); sec. 303(a)(8), Public Law 102–232, 105 Stat. 1733, 1748 (8 U.S.C. 1101 note); sec. 412(e), Public Law 105–277, 112 Stat. 2681; and 8 CFR 214.2(h).

Subparts J and K authority repealed.

Subparts L and M issued under 8 U.S.C. 1101(a)(15)(H)(i)(c) and 1182(m); sec. 2(d), Public Law 106–95, 113 Stat. 1312, 1316 (8 U.S.C. 1182 note); Public Law 109–423, 120 Stat. 2900; and 8 CFR 214.2(h).

■ 2. Revise the heading of Part 655 to read as set forth above.

■ 3. Revise subpart A to read as follows:

Subpart A—Labor Certification Process and Enforcement of Attestations for Temporary Employment in Occupations Other Than Agriculture or Registered Nursing in the United States (H–2B Workers)

Sec.
655.1 Purpose and scope of subpart A.
655.2 Territory of Guam.
655.3 Special procedures.
655.4 Definitions of terms used in this subpart.
655.5 Application Filing Transition.
655.6 Temporary need.
655.7 [Reserved]
655.8 [Reserved]
655.9 [Reserved]
655.10 Determination of prevailing wage for temporary labor certification purposes.
655.11 Certifying officer review of prevailing wage determinations.
655.12 [Reserved]
655.13 [Reserved]
655.14 [Reserved]
655.15 Required pre-filing recruitment.
655.17 Advertising requirements.
655.18 [Reserved]
655.19 [Reserved]
655.20 Applications for temporary employment certification.
655.21 Supporting evidence for temporary need.
655.22 Obligations of H–2B employers.
655.23 Receipt and processing of applications.
655.24 Audits.

655.32 Labor certification determinations.
655.33 Administrative review.
655.34 Validity of temporary labor certifications.
655.35 Required departure.
655.50 Enforcement process.
655.55 Complaints.
655.60 Violations.
655.65 Remedies for violations.
655.70 WHD Administrator's determination.
655.71 Request for hearing.
655.72 Hearing rules of practice.
655.73 Service of pleadings.
655.74 Conduct of proceedings.
655.75 Decision and order of administrative law judge.
655.76 Appeal of administrative law judge decision.
655.80 Notice to OFLC and DHS.

Subpart A—Labor Certification Process and Enforcement of Attestations for Temporary Employment in Occupations Other Than Agriculture or Registered Nursing in the United States (H–2B Workers)

§ 655.1 Purpose and scope of subpart A.

(a) Before granting the petition of an employer to admit nonimmigrant workers on H–2B visas for temporary

Butler's Exh. 76, p. 034
Butler 02230

nonagricultural employment in the United States (U.S.), the Secretary of Homeland Security is required to consult with appropriate agencies regarding the availability of U.S. workers. Immigration and Nationality Act of 1952 (INA), as amended, secs. 101(a)(15)(H)(ii)(b) and 214(c)(1), 8 U.S.C. 1101(a)(15)(H)(ii)(b) and 1184(c)(1).

(b) Regulations of the Department of Homeland Security (DHS) for the U.S. Citizenship and Immigration Services (USCIS) at 8 CFR 214.2(h)(6)(iv) require that, except for Guam, the petitioning H–2B employer attach to its petition a determination from the Secretary of Labor (Secretary) that:

(1) There are not sufficient U.S. workers available who are capable of performing the temporary services or labor at the time of filing of the petition for H–2B classification and at the place where the foreign worker is to perform the work; and

(2) The employment of the foreign worker will not adversely affect the wages and working conditions of U.S. workers similarly employed.

(c) This subpart sets forth the procedures governing the labor certification process for the temporary employment of nonimmigrant foreign workers in the U.S. in occupations other than agriculture and registered nursing.

(1) This subpart sets forth the procedures through which employers may apply for H–2B labor certifications, as well as the procedures by which such applications are considered and how they are granted or denied.

(2) This subpart sets forth the procedures governing the Department's investigatory, inspection, and law enforcement functions to assure compliance with the terms and conditions of employment under the H–2B program. The authority for such functions has been delegated by the Secretary of Homeland Security to the Secretary of Labor and re-delegated within the Department to the Employment Standards Administration (ESA) Wage and Hour Division (WHD). This subpart sets forth the WHD's investigation and enforcement actions.

§ 655.2 Territory of Guam.

Subpart A of this part does not apply to temporary employment in the Territory of Guam, and the Department of Labor (Department or DOL) does not certify to the USCIS of DHS the temporary employment of nonimmigrant foreign workers under H–2B visas, or enforce compliance with the provisions of the H–2B visa program provisions in the Territory of Guam. Pursuant to DHS regulations, 8 CFR 214.2(h)(6)(v) administration of the H–2B temporary labor certification program is performed by the Governor of Guam, or the Governor's designated representative.

§ 655.3 Special procedures.

(a) *Systematic process.* This subpart provides procedures for the processing of H–2B applications from employers for the certification of employment of nonimmigrant positions in nonagricultural employment.

(b) *Establishment of special procedures.* The Office of Foreign Labor Certification (OFLC) Administrator has the authority to establish or to devise, continue, revise, or revoke special procedures in the form of variances for the processing of certain H–2B applications when employers can demonstrate, upon written application to the OFLC Administrator, that special procedures are necessary. These include special procedures currently in effect for the handling of applications for tree planters and related reforestation workers, professional athletes, boilermakers coming to the U.S. on an emergency basis, and professional entertainers. Prior to making determinations under this paragraph (b), the OFLC Administrator may consult with employer and worker representatives.

§ 655.4 Definitions of terms used in this subpart.

For the purposes of this subpart:

Act means the Immigration and Nationality Act or INA, as amended, 8 U.S.C. 1101 *et seq.*

Administrative Law Judge means a person within the Department's Office of Administrative Law Judges appointed pursuant to 5 U.S.C. 3105, or a panel of such persons designated by the Chief Administrative Law Judge from the Board of Alien Labor Certification Appeals established by part 656 of this chapter, which will hear and decide appeals as set forth in § 655.115.

Administrator, Office of Foreign Labor Certification (OFLC) means the primary official of the Office of Foreign Labor Certification, ETA, or the Administrator's designee.

Administrator, Wage and Hour Division (WHD), Employment Standards Administration means the primary official of the WHD, or the Administrator's designee.

Agent means a legal entity or person authorized to act on behalf of the employer for temporary non-agricultural labor certification purposes that is not itself an employer as defined in this subpart. The term "agent" specifically excludes associations or other organizations of employers.

Applicant means a lawful U.S. worker who is applying for a job opportunity for which an employer has filed an *Application for Temporary Employment Certification* (Form ETA 9142).

Application for Temporary Employment Certification means the Office of Management and Budget (OMB)-approved form submitted by an employer to secure a temporary nonagricultural labor certification determination from DOL. A complete submission of the *Application for Temporary Employment Certification* includes the form, all valid wage determinations as required by § 655.101(a)(1) and the U.S. worker recruitment report.

Area of Intended Employment means the geographic area within normal commuting distance of the place (worksite address) of intended employment of the job opportunity for which the certification is sought. There is no rigid measure of distance which constitutes a normal commuting distance or normal commuting area, because there may be widely varying factual circumstances among different areas (*e.g.*, average commuting times, barriers to reaching the worksite, quality of regional transportation network, etc.). If the place of intended employment is within a Metropolitan Statistical Area (MSA), including a multistate MSA, any place within the MSA is deemed to be within normal commuting distance of the place of intended employment. The borders of MSAs are not controlling in the identification of the normal commuting area; a location outside of an MSA may be within normal commuting distance of a location that is inside (*e.g.*, near the border of) the MSA.

Attorney means any person who is currently a member in good standing of the bar of the highest court of any State, possession, territory, or commonwealth of the United States, or the District of Columbia, and who is not under suspension, debarment or disbarment from practice before any court or the Department, the Board of Immigration Appeals, the immigration judges, or DHS under 8 CFR 292.3, 1003.101. Such a person is permitted to act as an agent or attorney for an employer under this subpart.

Board of Alien Labor Certification Appeals (BALCA or Board) means the permanent Board established by part 656 of this chapter, chaired by the Chief Administrative Law Judge, and consisting of Administrative Law Judges assigned to the Department and designated by the Chief Administrative Law Judge to be members of BALCA.

Butler's Exh. 76, p. 035

Butler 02231

The Board is located in Washington, DC, and reviews and decides appeals in Washington, DC.

Center Director means the OFLC official to whom the OFLC Administrator has delegated his authority for purposes of National Processing Center (NPC) operations and functions.

Certifying Officer (CO) means the OFLC official designated by the Administrator, OFLC with making programmatic determinations on employer-filed applications under the H–2B program.

Chief Administrative Law Judge means the chief official of the Department's Office of Administrative Law Judges or the Chief Administrative Law Judge's designee.

Date of need means the first date the employer requires services of the H–2B workers as listed on the application.

Department of Homeland Security (DHS) means the Federal agency having jurisdiction over certain immigration-related functions, acting through its agencies, including the U.S. Citizenship and Immigration Services.

Eligible worker means an individual who is not an unauthorized alien (as defined in sec. 274A(h)(3) of the INA, 8 U.S.C. 1324a(h)(3), or in this paragraph (c)) with respect to the employment in which the worker is engaging.

Employee means employee as defined under the general common law of agency. Some of the factors relevant to the determination of employee status include: The hiring party's right to control the manner and means by which the work is accomplished; the skill required to perform the work; the source of the instrumentalities and tools for accomplishing the work; the location of the work; the hiring party's discretion over when and how long to work; and whether the work is part of the regular business of the hiring party. Other applicable factors should be considered and no one factor is dispositive.

Employer means:

(1) A person, firm, corporation or other association or organization:

(i) Has a place of business (physical location) in the U.S. and a means by which it may be contacted;

(ii) Has an employer relationship with respect to H–2B employees or related U.S. workers under this part; and

(iii) Possesses, for purposes of the filing of an application, a valid Federal Employer Identification Number (FEIN).

(2) Where two or more employers each have the definitional indicia of employment with respect to an employee, those employers may be considered to jointly employ that employee.

Employment and Training Administration or ETA means the agency within the Department, which includes the OFLC and has been delegated authority by the Secretary to fulfill the Secretary's mandate under the Act.

ETA National Processing Center (NPC) means a National Processing Center established by the OFLC for the processing of applications submitted in connection with the Department's mandate pursuant to the INA.

Full-time, for purposes of temporary labor certification employment, means 30 or more hours per week, except that where a State or an established practice in an industry has developed a definition of full-time employment for any occupation that is less than 30 hours per week, that definition shall have precedence.

H–2B Petition means the form and accompanying documentation required by DHS for employers seeking to employ foreign persons as H–2B nonimmigrant workers.

INA means the Immigration and Nationality Act, as amended, 8 U.S.C. 1101 *et seq.*

Job contractor means a person, association, firm, or a corporation that meets the definition of an employer and who contracts services or labor on a temporary basis to one or more employers, which is not an affiliate, branch or subsidiary of the job contractor, and where the job contractor will not exercise any supervision or control in the performance of the services or labor to be performed other than hiring, paying, and firing the workers.

Job opportunity means one or more job openings with the petitioning employer for temporary employment at a place in the U.S. to which U.S. workers can be referred. Job opportunities consisting solely of job duties that will be performed totally outside the United States, its territories, possessions, or commonwealths cannot be the subject of an *Application for Temporary Employment Certification.*

Joint employment means that where two or more employers each have sufficient definitional indicia of employment to be considered the employer of an employee, those employers may be considered to jointly employ that employee. An employer in a joint employment relationship to an employee may be considered a "joint employer" of that employee.

Layoff means any involuntary separation of one or more U.S. employees without cause or prejudice.

Metropolitan Statistical Area (MSA) means those geographic entities defined by the U.S. Office of Management and Budget (OMB) for use by Federal statistical agencies in collecting, tabulating, and publishing Federal statistics. A metro area contains a core urban area of 50,000 or more population, and a micro area contains an urban core of at least 10,000 (but less than 50,000) population. Each metro or micro area consists of one or more counties and includes the counties containing the core urban area, as well as any adjacent counties that have a high degree of social and economic integration (as measured by commuting to work) with the urban core.

Offered Wage means the highest of the prevailing wage, Federal minimum wage, the State minimum wage, or local minimum wage.

Office of Foreign Labor Certification (OFLC) means the organizational component within ETA that provides national leadership and policy guidance and develops regulations and procedures by which it carries out the responsibilities of the Secretary under the INA, as amended, concerning foreign workers seeking admission to the U.S. in order to work under sec. 101(a)(15)(H)(ii)(b) of the INA, as amended.

Occupational Employment Statistics Survey (OES) means that program under the jurisdiction of the Bureau of Labor Statistics (BLS) that provides annual wage estimates for occupations at the State and MSA levels.

Prevailing Wage Determination (PWD) means the prevailing wage for the position, as described in § 655.10(b), that is the subject of the *Application for Temporary Employment Certification.*

Professional Athlete shall have the meaning ascribed to it in INA sec. 212(a)(5)(A)(iii)(II), which defines "professional athlete" as an individual who is employed as an athlete by:

(1) A team that is a member of an association of six or more professional sports teams whose total combined revenues exceed $10,000,000 per year, if the association governs the conduct of its members and regulates the contests and exhibitions in which its member teams regularly engage; or

(2) Any minor league team that is affiliated with such an association.

Representative means an individual employed by or authorized to act on behalf of the employer with respect to the recruitment activities entered into for and attestations made with respect to the *Application for Temporary Employment Certification.* A representative who interviews and/or considers U.S. workers for the job that is subject of the Application must be the person who normally interviews or

considers, on behalf of the employer, applicants for job opportunities such as that offered in the application, but which do not involve labor certifications.

Secretary means the Secretary of Labor, the chief official of the U.S. Department of Labor, or the Secretary's designee.

Secretary of Homeland Security means the chief official of the Department of Homeland Security or the Secretary of Homeland Security's designee.

Secretary of State means the chief official of the U.S. Department of State or the Secretary of State's designee.

State Workforce Agency (SWA), formerly known as State Employment Security Agency, means the State government agency that receives funds pursuant to the Wagner-Peyser Act to administer public labor exchange delivered through the State's one-stop delivery system in accordance with the Wagner-Peyser Act. (29 U.S.C. 49 *et seq.*).

Strike means a labor dispute wherein employees engage in a concerted stoppage of work (including stoppage by reason of the expiration of a collective-bargaining agreement) or engage in any concerted slowdown or other concerted interruption of operations. Whether a job opportunity is vacant by reason of a strike or lock out will be determined by evaluating for each position identified as vacant in the *Application for Temporary Employment Certification* whether the specific vacancy has been caused by the strike or lock out.

Successor in Interest means that, in determining whether an employer is a successor in interest, the factors used under Title VII of the Civil Rights Act and the Vietnam Era Veterans' Readjustment Assistance Act will be considered. When considering whether an employer is a successor, the primary consideration will be the personal involvement of the firm's ownership, management, supervisors, and others associated with the firm in the violations resulting in debarment. Normally, wholly new management or ownership of the same business operation, one in which the former management or owner does not retain a direct or indirect interest, will not be deemed to be a successor in interest for purposes of debarment. A determination of whether or not a successor in interest exists is based on the entire circumstances viewed in their totality. The factors to be considered include:

(1) Substantial continuity of the same business operations;

(2) Use of the same facilities;

(3) Continuity of the work force;

(4) Similarity of jobs and working conditions;

(5) Similarity of supervisory personnel;

(6) Similarity in machinery, equipment, and production methods;

(7) Similarity of products and services; and

(8) The ability of the predecessor to provide relief.

United States (U.S.), when used in a geographic sense, means the continental United States, Alaska, Hawaii, the Commonwealth of Puerto Rico, and the territories of Guam, the Virgin Islands, and, as of the transition program effective date, as defined in the Consolidated Natural Resources Act of 2008, Public Law 110–229, Title VII, the Commonwealth of the Northern Mariana Islands.

United States Citizenship and Immigration Services (USCIS) means the Federal agency within DHS making the determination under the INA whether to grant petitions filed by employers seeking H–2B workers to perform temporary nonagricultural work in the U.S.

United States Worker (U.S. Worker) means a worker who is either

(1) A citizen or national of the U.S.; or

(2) An alien who is lawfully admitted for permanent residence in the U.S., is admitted as a refugee under sec. 207 of the INA, is granted asylum under sec. 208 of the INA, or is an immigrant otherwise authorized (by the INA or by DHS) to be employed in the U.S.

Within [number and type] days will, for purposes of determining an employer's compliance with timing requirements with respect to appeals and requests for review, begin to run on the first business day after the Department sends a notice to the employer by means normally assuring next-day delivery, and will end on the day that the employer sends whatever communication is required by these rules back to the Department, as evidenced by a postal mark or other similar receipt.

§ 655.5 Application Filing Transition.

(a) *Compliance with these regulations.* Except as provided in paragraphs (b) and (c) of this section, employers filing applications for H–2B workers on or after the effective date of these regulations where the date of need for the services or labor to be performed is on or after October 1, 2009, must comply with all of the obligations and assurances in this subpart. SWAs will no longer accept for processing applications filed by employers for H–2B workers for temporary or seasonal nonagricultural services on or after January 18, 2009.

(b) *Applications filed under former regulations.* (1) For applications filed with the SWAs serving the area of intended employment prior to the effective date of these regulations, the SWAs shall continue to process all active applications under the former regulations and transmit all completed applications to the appropriate NPC for review and issuance of a labor certification determination.

(2) For applications filed with the SWAs serving the area of intended employment prior to the effective date of these regulations that were completed and transmitted to the NPC, the NPC shall continue to process all active applications under the former regulations and issue a labor certification determination.

(c) *Applications filed with the NPC under these regulations.* Employers filing applications on or after the effective date of these regulations where their date of need for H–2B workers is prior to October 1, 2009, must receive a prevailing wage determination from the SWA serving the area of intended employment. The SWA shall process such requests in accordance with the provisions of § 655.10. Once the employer receives its prevailing wage determination from the SWA, it must conduct all of the pre-filing recruitment steps set forth under this subpart prior to filing an *Application for Temporary Employment Certification* with the NPC.

§ 655.6 Temporary need.

(a) To use the H–2B program, the employer must establish that its need for nonagricultural services or labor is temporary, regardless of whether the underlying job is permanent or temporary. 8 CFR 214.2(h)(6)(ii).

(b) The employer's need is considered temporary if justified to the Secretary as either a one-time occurrence, a seasonal need, a peakload need, or an intermittent need, as defined by the Department of Homeland Security. 8 CFR 214.2(h)(6)(ii)(B).

(c) Except where the employer's need is based on a one-time occurrence, the Secretary will, absent unusual circumstances, deny an *Application for Temporary Employment Certification* where the employer has a recurring, seasonal or peakload need lasting more than 10 months.

(d) The temporary nature of the work or services to be performed in applications filed by job contractors will be determined by examining the job contractor's own need for the services or labor to be performed in addition to the needs of each individual employer with

whom the job contractor has agreed to provide workers as part of a signed work contract or labor services agreement.

(e) The employer filing the application must maintain documentation evidencing the temporary need and be prepared to submit this documentation in response to a Request for Further Information (RFI) from the CO prior to rendering a Final Determination or in the event of an audit examination. The documentation required in this section must be retained by the employer for a period of no less than 3 years from the date of the labor certification.

§§ 655.7–655.9 [Reserved]

§ 655.10 Determination of prevailing wage for temporary labor certification purposes.

(a) *Application process.* (1) The employer must request a prevailing wage determination from the NPC in accordance with the procedures established by this regulation.

(2) The employer must obtain a prevailing wage determination that is valid either on the date recruitment begins or the date of filing a complete *Application for Temporary Employment Certification* with the Department.

(3) The employer must offer and advertise the position to all potential workers at a wage at least equal to the prevailing wage obtained from the NPC.

(b) *Determinations.* Prevailing wages shall be determined as follows:

(1) Except as provided in paragraph (e) of this section, if the job opportunity is covered by a collective bargaining agreement (CBA) that was negotiated at arms' length between the union and the employer, the wage rate set forth in the CBA is considered as not adversely affecting the wages of U.S. workers, that is, it is considered the "prevailing wage" for labor certification purposes.

(2) If the job opportunity is not covered by a CBA, the prevailing wage for labor certification purposes shall be the arithmetic mean, except as provided in paragraph (b)(4) of this section, of the wages of workers similarly employed at the skill level in the area of intended employment. The wage component of the BLS Occupational Employment Statistics Survey (OES) shall be used to determine the arithmetic mean, unless the employer provides a survey acceptable to OFLC under paragraph (f) of this section.

(3) If the job opportunity involves multiple worksites within an area of intended employment and different prevailing wage rates exist for the same opportunity and staff level within the area of intended employment, the prevailing wage shall be based on the highest applicable wage among all relevant worksites.

(4) If the employer provides a survey acceptable under paragraph (f) of this section that provides a median but does not provide an arithmetic mean, the prevailing wage applicable to the employer's job opportunity shall be the median of the wages of U.S. workers similarly employed in the area of intended employment.

(5) The employer may use a current wage determination in the area determined under the Davis-Bacon Act, 40 U.S.C. 276a *et seq.*, 29 CFR part 1, or the McNamara-O'Hara Service Contract Act, 41 U.S.C. 351 *et seq.*

(6) The NPC will enter its wage determination on the form it uses for these purposes, indicate the source, and return the form with its endorsement to the employer within 30 days of receipt of the request for a prevailing wage determination. The employer must offer this wage (or higher) to both its H–2B workers and any similarly employed U.S. worker hired in response to the recruitment required as part of the application.

(c) *Similarly Employed.* For purposes of this section, "similarly employed" means having substantially comparable jobs in the occupational category in the area of intended employment, except that, if a representative sample of workers in the occupational category cannot be obtained in the area of intended employment, similarly employed means:

(1) Having jobs requiring a substantially similar level of comparable skills within the area of intended employment; or

(2) If there are no substantially comparable jobs in the area of intended employment, having substantially comparable jobs with employers outside of the area of intended employment.

(d) *Validity period.* The NPC must specify the validity period of the prevailing wage, which in no event may be more than 1 year or less than 3 months from the determination date. For employment that is less than one year in duration, the prevailing wage determination shall apply and shall be paid the prevailing wage by the employer, at a minimum, for the duration of the employment.

(e) *Professional athletes.* In computing the prevailing wage for a professional athlete when the job opportunity is covered by professional sports league rules or regulations, the wage set forth in those rules or regulations is considered the prevailing wage (see sec. 212(p)(2) of the INA).

(f) *Employer-provided wage information.* (1) If the job opportunity is not covered by a CBA, or by a professional sports league's rules or regulations, the NPC will consider wage information provided by the employer in making a Prevailing Wage Determination. An employer survey can be submitted either initially or after NPC issuance of a PWD derived from the OES survey.

(2) In each case where the employer submits a survey or other wage data for which it seeks acceptance, the employer must provide specific information about the survey methodology, including such items as sample size and source, sample selection procedures, and survey job descriptions, to allow a determination of the adequacy of the data provided and validity of the statistical methodology used in conducting the survey in accordance with guidance issued by the OFLC national office.

(3) The survey must be based upon recently collected data:

(i) Any published survey must have been published within 24 months of the date of submission, must be the most current edition of the survey, and must be based on data collected not more than 24 months before the publication date.

(ii) A survey conducted by the employer must be based on data collected within 24 months of the date it is submitted for consideration.

(4) If the employer-provided survey is found not to be acceptable, the NPC shall inform the employer in writing of the reasons the survey was not accepted.

(5) The employer, after receiving notification that the survey it provided for consideration is not acceptable, may file supplemental information as provided in paragraph (g) of this section, file a new request for a PWD, appeal under § 655.11, or, if the initial PWD was requested prior to submission of the employer survey, acquiesce to the initial PWD.

(g) *Submission of supplemental information by employer.* (1) If the employer disagrees with the wage level assigned to its job opportunity, or if the NPC informs the employer its survey is not acceptable, or if there is another legitimate basis for such a review, the employer may submit supplemental information to the NPC.

(2) The NPC must consider one supplemental submission relating to the employer's survey, the skill level assigned to the job opportunity, or any other legitimate basis for the employer to request such a review. If the NPC does not accept the employer's survey after considering the supplemental information, or affirms its determination concerning the skill level, the NPC must

Butler's Exh. 76, p. 038
Butler 02234

inform the employer, in writing, of the reasons for its decision.

(3) The employer may then apply for a new wage determination, appeal under § 655.11, or acquiesce to the initial PWD.

(h) *The prevailing wage cannot be lower than required by any other law.* No PWD for labor certification purposes made under this section permits an employer to pay a wage lower than the highest wage required by any applicable Federal, State, or local law.

(i) *Retention of Documentation.* The employer must retain the PWD for 3 years and submitted to a CO in the event it is requested in an RFI or an audit or to a Wage and Hour representative in the event of a Wage and Hour investigation.

§ 655.11 Certifying officer review of prevailing wage determinations.

(a) *Request for review of prevailing wage determinations.* Any employer desiring review of a PWD must make a written request for such review within 10 days of the date from when the final PWD was issued. The request for review must be sent to the NPC postmarked no later than 10 days after the determination; clearly identify the PWD for which review is sought; set forth the particular grounds for the request; and include all materials submitted to the NPC for purposes of securing the PWD.

(b) *NPC Review.* Upon the receipt of a written request for review, the NPC shall review the employer's request and accompanying documentation, including any supplementary material submitted by the employer.

(c) *Designations.* The Director of the NPC will determine which CO will review the employer's request for review.

(d) *Review on the record.* The CO shall review the PWD solely on the basis upon which the PWD was made and after review may:

(1) Affirm the PWD issued by the NPC; or

(2) Modify the PWD.

(e) *Request for review by BALCA.* Any employer desiring review of a CO's decision on a PWD must make a written request for review of the determination by BALCA within 30 calendar days of the date of the decision of the CO. The CO must receive the written request for BALCA review no later than the 30th day after the date of its final determination including the date of the final determination.

(1) The request for review, statements, briefs, and other submissions of the parties and amicus curiae must contain only legal arguments and only such evidence that was within the record upon which the decision on the PWD by the NPC was based.

(2) The request for review must be in writing and addressed to the CO who made the determination. Upon receipt of a request for a review, the CO must immediately assemble an indexed appeal file in reverse chronological order, with the index on top followed by the most recent document.

(3) The CO must send the Appeal File to the Office of Administrative Law Judges, Board of Alien Labor Certification Appeals, 800 K Street, NW., Suite 400–N, Washington, DC 20001–8002.

(4) The BALCA shall handle appeals in accordance with § 655.33.

§§ 655.12–655.14 [Reserved]

§ 655.15 Required pre-filing recruitment.

(a) *Time of Filing of Application.* An employer may not file an *Application for Temporary Employment Certification* before all of the pre-filing recruitment steps set forth in this section have been fully satisfied, except where specifically exempted from some or all of those requirements by these regulations or special procedures. Applications submitted not meeting this requirement shall not be accepted for processing.

(b) *General Attestation Obligation.* An employer must attest on the *Application for Temporary Employment Certification* to having performed all required steps of the recruitment process as specified in this section.

(c) *Retention of documentation.* The employer filing the *Application for Temporary Employment Certification* must maintain documentation of its advertising and recruitment efforts, including prevailing wage determinations, as required in this subpart and be prepared, upon written request, to submit this documentation in response to an RFI from the CO prior to the CO rendering a Final Determination or in the event of a CO-directed audit examination. The documentation required in this section must be retained by the employer for a period of no less than 3 years from the date of the certification.

(d) *Recruitment Steps.* An employer filing an application must:

(1) Obtain a prevailing wage determination from the NPC in accordance with procedures in § 655.10;

(2) Submit a job order to the SWA serving the area of intended employment;

(3) Publish two print advertisements (one of which must be on a Sunday, except as provided in paragraph (f)(4) of this section); and

(4) Where the employer is a party to a collective bargaining agreement governing the job classification that is the subject of the H–2B labor certification application, the employer must formally contact the local union that is party to the collective bargaining agreement as a recruitment source for able, willing, qualified, and available U.S. workers.

(e) *Job Order.* (1) The employer must place an active job order with the SWA serving the area of intended employment no more than 120 calendar days before the employer's date of need for H–2B workers, identifying it as a job order to be placed in connection with a future application for H–2B workers. Unless otherwise directed by the CO, the SWA must keep the job order open for a period of not less than 10 calendar days. Documentation of this step shall be satisfied by maintaining a copy of the SWA job order downloaded from the SWA Internet job listing site, a copy of the job order provided by the SWA, or other proof of publication from the SWA containing the text of the job order and the start and end dates of posting. If the job opportunity contains multiple work locations within the same area of intended employment and the area of intended employment is found in more than one State, the employer shall place a job order with the SWA having jurisdiction over the place where the work has been identified to begin. Upon placing a job order, the SWA receiving the job order under this paragraph shall promptly transmit, on behalf of the employer, a copy of the active job order to all States listed in the application as anticipated worksites.

(2) The job order submitted by the employer to the SWA must satisfy all the requirements for newspaper advertisements contained in § 655.17.

(f) *Newspaper Advertisements.* (1) During the period of time that the job order is being circulated for intrastate clearance by the SWA under paragraph (e) of this section, the employer must publish an advertisement on 2 separate days, which may be consecutive, one of which must be a Sunday advertisement (except as provided in paragraph (f)(2) of this section), in a newspaper of general circulation serving the area of intended employment that has a reasonable distribution and is appropriate to the occupation and the workers likely to apply for the job opportunity. Both newspaper advertisements must be published only after the job order is placed for active recruitment by the SWA.

(2) If the job opportunity is located in a rural area that does not have a newspaper with a Sunday edition, the

Butler's Exh. 76, p. 039

Butler 02235

employer must, in place of a Sunday edition advertisement, advertise in the regularly published daily edition with the widest circulation in the area of intended employment.

(3) The newspaper advertisements must satisfy the requirements contained in § 655.17. The employer must maintain copies of newspaper pages (with date of publication and full copy of advertisement), or tear sheets of the pages of the publication in which the advertisements appeared, or other proof of publication containing the text of the printed advertisements and the dates of publication furnished by the newspaper.

(4) If a professional, trade or ethnic publication is more appropriate for the occupation and the workers likely to apply for the job opportunity than a general circulation newspaper, and is the most likely source to bring responses from able, willing, qualified, and available U.S. workers, then the employer may use a professional, trade or ethnic publication in place of one of the newspaper advertisements, but may not replace the Sunday advertisement (or the substitute permitted by paragraph (f)(2) of this section).

(g) *Labor Organizations.* During the period of time that the job order is being circulated for intrastate clearance by the SWA under paragraph (e) of this section, an employer that is already a party to a collective bargaining agreement governing the job classification that is the subject of the H–2B labor certification application must formally contact by U.S. Mail or other effective means the local union that is party to the collective bargaining agreement. An employer governed by this paragraph must maintain dated logs demonstrating that such organizations were contacted and notified of the position openings and whether they referred qualified U.S. worker(s), including number of referrals, or were non-responsive to the employer's request.

(h) *Layoff.* If there has been a layoff of U.S. workers by the applicant employer in the occupation in the area of intended employment within 120 days of the first date on which an H–2B worker is needed as indicated on the submitted *Application for Temporary Employment Certification,* the employer must document it has notified or will notify each laid-off worker of the job opportunity involved in the application and has considered or will consider each laid-off worker who expresses interest in the opportunity, and the result of the notification and consideration.

(i) *Referral of U.S. workers.* SWAs may only refer for employment individuals for whom they have verified identity and employment authorization through the process for employment verification of all workers that is established by INA sec. 274A(b). SWAs must provide documentation certifying the employment verification that satisfies the standards of INA sec. 274A(a)(5) and its implementing regulations at 8 CFR 274a.6.

(j) *Recruitment Report.* (1) No fewer than 2 calendar days after the last date on which the job order was posted and no fewer than 5 calendar days after the date on which the last newspaper or journal advertisement appeared, the employer must prepare, sign, and date a written recruitment report. The employer may not submit the H–2B application until the recruitment report is completed. The recruitment report must be submitted to the NPC with the application. The employer must retain a copy of the recruitment report for a period of 3 years.

(2) The recruitment report must:

(i) Identify each recruitment source by name;

(ii) State the name and contact information of each U.S. worker who applied or was referred to the job opportunity up to the date of the preparation of the recruitment report, and the disposition of each worker, including any applicable laid-off workers;

(iii) If applicable, explain the lawful job-related reason(s) for not hiring any U.S. workers who applied or were referred to the position.

(3) The employer must retain résumés (if available) of, and evidence of contact with (which may be in the form of an attestation), each U.S. worker who applied or was referred to the job opportunity. Such résumés and evidence of contact must be retained along with the recruitment report for a period of no less than 3 years, and must be provided in response to an RFI or in the event of an audit or an investigation.

§ 655.17 Advertising requirements.

All advertising conducted to satisfy the required recruitment steps under § 655.15 before filing the *Application for Temporary Employment Certification* must meet the requirements set forth in this section and must contain terms and conditions of employment which are not less favorable than those to be offered to the H–2B workers. All advertising must contain the following information:

(a) The employer's name and appropriate contact information for applicants to send résumés directly to the employer;

(b) The geographic area of employment with enough specificity to apprise applicants of any travel requirements and where applicants will likely have to reside to perform the services or labor;

(c) If transportation to the worksite(s) will be provided by the employer, the advertising must say so;

(d) A description of the job opportunity (including the job duties) for which labor certification is sought with sufficient detail to apprise applicants of services or labor to be performed and the duration of the job opportunity;

(e) The job opportunity's minimum education and experience requirements and whether or not on-the-job training will be available;

(f) The work hours and days, expected start and end dates of employment, and whether or not overtime will be available;

(g) The wage offer, or in the event that there are multiple wage offers, the range of applicable wage offers, each of which must not be less than the highest of the prevailing wage, the Federal minimum wage, State minimum wage, or local minimum wage applicable throughout the duration of the certified H–2B employment; and

(h) That the position is temporary and the total number of job openings the employer intends to fill.

§§ 655.18–655.19 [Reserved]

§ 655.20 Applications for temporary employment certification.

(a) *Application Filing Requirements.* An employer who desires to apply for labor certification of temporary employment for one or more nonimmigrant foreign positions must file a completed *Application for Temporary Employment Certification* form, and a copy of the recruitment report completed in accordance with § 655.15(j).

(b) *Filing.* An employer must complete the *Application for Temporary Employment Certification* and send it by U.S. Mail or private mail courier to the NPC. Employers are strongly encouraged to keep receipts of any mailings. The Department will publish a Notice in the **Federal Register** identifying the address or addresses to which applications must be mailed, and will also post these addresses on the Department's Internet Web site at *http://www.foreignlaborcert.doleta.gov/.* The form must bear the original signature of the employer (and that of the employer's authorized attorney or agent if the employer is represented by an attorney or agent). The Department

Butler's Exh. 76, p. 040

Butler 02236

may, at a future date, require applications to be filed electronically in addition to or instead of by U.S. Mail or private mail courier.

(c) Except where otherwise permitted under § 655.3, an association or other organization of employers is not permitted to file master applications on behalf of its employer-members under the H–2B program.

(d) Certification of more than one position may be requested on the application as long as all H–2B workers will perform the same services or labor on the same terms and conditions, in the same occupation, in the same area of intended employment, and during the same period of employment.

(e) Except where otherwise permitted under § 655.3, only one *Application for Temporary Employment Certification* may be filed for worksite(s) within one area of intended employment for each job opportunity with an employer.

(f) Where a one-time occurrence lasts longer than one year, but less than 18 months, the employer will be issued a labor certification for the entire period of need. Where a one-time occurrence lasts 18 months or longer, the employer will be required to conduct another labor market for the portion of time beyond 12 months.

§ 655.21 Supporting evidence for temporary need.

(a) *Statement of Temporary Need.* Each *Application for Temporary Employment Certification* must include attestations regarding temporary need in the appropriate sections. The employer must include a detailed statement of temporary need containing the following:

(1) A description of the employer's business history and activities (*i.e.*, primary products or services) and schedule of operations throughout the year;

(2) An explanation regarding why the nature of the employer's job opportunity and number of foreign workers being requested for certification reflect a temporary need;

(3) An explanation regarding how the request for temporary labor certification meets one of the regulatory standards of a one-time occurrence, seasonal, peakload, or intermittent need under § 655.6(b) as defined by DHS under 8 CFR 214.2(h)(6)(ii)(B); and

(4) If applicable, a statement justifying any increase or decrease in the number of H–2B positions being requested for certification from the previous year.

(b) *Request for Supporting Evidence.* In circumstances where the CO requests evidence or documentation substantiating the employer's temporary need through a RFI under § 655.23(c) to support a Final Determination, or notifies the employer that its application is being audited under § 655.24, the employer must timely furnish the requested supplemental information or evidence or documentation. Failure to provide the information requested or late submissions may be grounds for the denial of the application. All such documentation or evidence becomes part of the record of the application.

(c) *Retention of documentation.* The documentation required in this section and any other supporting evidence justifying the temporary need by the employer filing the *Application for Temporary Employment Certification* must be retained for a period of no less than 3 years from the date of the certification.

§ 655.22 Obligations of H–2B employers.

An employer seeking H–2B labor certification must attest as part of the *Application for Temporary Employment Certification* that it will abide by the following conditions of this subpart:

(a) The employer is offering terms and working conditions normal to U.S. workers similarly employed in the area of intended employment, meaning that they may not be unusual for workers performing the same activity in the area of intended employment, and which are not less favorable than those offered to the H–2B worker(s) and are not less than the minimum terms and conditions required by this subpart.

(b) The specific job opportunity for which the employer is requesting H–2B certification is not vacant because the former occupant(s) is (are) on strike or locked out in the course of a labor dispute involving a work stoppage.

(c) The job opportunity is open to any qualified U.S. worker regardless of race, color, national origin, age, sex, religion, handicap, or citizenship, and the employer has conducted the required recruitment, in accordance with the regulations, and has been unsuccessful in locating sufficient numbers of qualified U.S. applicants for the job opportunity for which labor certification is sought. Any U.S. worker applicants were rejected only for lawful, job-related reasons, and the employer must retain records of all rejections.

(d) During the period of employment that is the subject of the labor certification application, the employer will comply with applicable Federal, State and local employment-related laws and regulations, including employment-related health and safety laws;

(e) The offered wage equals or exceeds the highest of the prevailing wage, the applicable Federal minimum wage, the State minimum wage, and local minimum wage, and the employer will pay the offered wage during the entire period of the approved H–2B labor certification.

(f) Upon the separation from employment of H–2B worker(s) employed under the labor certification application, if such separation occurs prior to the end date of the employment specified in the application, the employer will notify the Department and DHS in writing (or any other method specified by the Department or DHS in the **Federal Register** or the Code of Federal Regulations) of the separation from employment not later than 2 work days after such separation is discovered by the employer. An abandonment or abscondment shall be deemed to begin after a worker fails to report for work at the regularly scheduled time for 5 consecutive working days without the consent of the employer. Employees may be terminated for cause.

(g)(1) The offered wage is not based on commissions, bonuses, or other incentives, unless the employer guarantees a wage paid on a weekly, bi-weekly, or monthly basis that equals or exceeds the prevailing wage, or the legal Federal, State, or local minimum wage, whichever is highest. The employer must make all deductions from the worker's paychecks that are required by law. The job offer must specify all deductions not required by law that the employer will make from the worker's paycheck. All deductions must be reasonable. However, an employer subject to the FLSA may not make deductions that would violate the FLSA.

(2) The employer has contractually forbidden any foreign labor contractor or recruiter whom the employer engages in international recruitment of H–2B workers to seek or receive payments from prospective employees, except as provided for in DHS regulations at 8 CFR 214.2(h)(5)(xi)(A). This provision does not prohibit employers or their agents from receiving reimbursement for costs that are the responsibility of the worker, such as government required passport or visa fees.

(h) The job opportunity is a bona fide, full-time temporary position, the qualifications for which are consistent with the normal and accepted qualifications required by non-H–2B employers in the same or comparable occupations.

(i) The employer has not laid off and will not lay off any similarly employed U.S. worker in the occupation that is the subject of the *Application for*

Butler's Exh. 76, p. 041

Butler 02237

Temporary Employment Certification in the area of intended employment within the period beginning 120 calendar days before the date of need through 120 calendar days after the date of need, except where the employer also attests that it offered the job opportunity that is the subject of the application to those laid off U.S. worker(s) and the U.S. worker(s) either refused the job opportunity or was rejected for the job opportunity only for lawful, job-related reasons.

(j) The employer and its attorney or agents have not sought or received payment of any kind from the employee for any activity related to obtaining the labor certification, including payment of the employer's attorneys' or agent fees, *Application for Temporary Employment Certification*, or recruitment costs. For purposes of this paragraph, payment includes, but is not limited to, monetary payments, wage concessions (including deductions from wages, salary, or benefits), kickbacks, bribes, tributes, in kind payments, and free labor.

(k) If the employer is a job contractor, it will not place any H–2B workers employed pursuant to the labor certification application with any other employer or at another employer's worksite unless:

(1) The employer applicant first makes a written bona fide inquiry as to whether the other employer has displaced or intends to displace any similarly employed U.S. workers within the area of intended employment within the period beginning 120 days before through 120 calendar days after the date of need, and the other employer provides written confirmation that it has not so displaced and does not intend to displace such U.S. workers, and

(2) All worksites are listed on the certified *Application for Temporary Employment Certification*, including amendments or modifications.

(l) The employer will not place any H–2B workers employed pursuant to this application outside the area of intended employment listed on the *Application for Temporary Employment Certification* unless the employer has obtained a new temporary labor certification from the Department.

(m) Unless the H–2B worker will be sponsored by another subsequent employer, the employer will inform H–2B workers of the requirement that they leave the U.S. at the end of the authorized period of stay provided by DHS or separation from the employer, whichever is earlier, as required in § 655.35 of this part (absent any extension or change of such worker's status or grace period pursuant to DHS regulations), and that if dismissed by the employer prior to the end of the period, the employer is liable for return transportation.

(n) The dates of temporary need, reason for temporary need, and number of positions being requested for labor certification have been truly and accurately stated on the application.

§ 655.23 Receipt and processing of applications.

(a) *Filing Date.* Applications received by U.S. Mail or private courier shall be considered filed when determined by the NPC to be complete. Incomplete applications shall not be accepted for processing or assigned a receipt date, but shall be returned by U.S. Mail to the employer or the employer's representative as incomplete.

(b) *Processing.* The CO will review complete applications for an absence of errors that would prevent certification and for compliance with the criteria for certification. The CO will make a determination to certify, deny, or issue a Request for Further Information prior to making a Final Determination on the application. Criteria for certification, as used in this subpart, are whether the employer has: established the need for the nonagricultural services or labor to be performed is temporary in nature; established that the number of worker positions being requested for certification is justified and represent bona fide job opportunities; made all the assurances and met all the obligations required by § 655.22; and complied with all requirements of the program.

(c) *Request for Further Information.* (1) If the CO determines that the employer has made all necessary attestations and assurances, but the application fails to comply with one or more of the criteria for certification in paragraph (b) of this section, the CO must issue a RFI to the employer. The CO will issue the written RFI within 7 calendar days of the receipt of the application, and send it by means normally assuring next-day delivery.

(2) The RFI must:

(i) Specify the reason(s) why the application is not sufficient to grant temporary labor certification, citing the relevant regulatory standard(s) and/or special procedure(s);

(ii) Specify a date, no later than 7 calendar days from the date of the written RFI, by which the supplemental information and documentation must be received by the CO to be considered; and

(iii) State that, upon receipt of a response to the written RFI, or expiration of the stated deadline for receipt of the response, the CO will review the existing application as well as any supplemental materials submitted by the employer and issue a Final Determination. If unusual circumstances warrant, the CO may issue one or more additional RFIs prior to issuing a Final Determination.

(3) The CO will issue the Final Determination or the additional RFI within 7 business days of receipt of the employer's response, or within 60 days of the employer's date of need, whichever is later.

(4) Compliance with an RFI does not guarantee that the employer's application will be certified after submitting the information. The employer's documentation must justify its chosen standard of temporary need or otherwise overcome the stated deficiency in the application.

(d) Failure to comply with an RFI, including not providing all documentation within the specified time period, may result in a denial of the application. Such failure to comply with an RFI may also result in a finding by the CO requiring supervised recruitment under § 655.30 in future filings of H–2B temporary labor certification applications.

§ 655.24 Audits.

(a) *Discretion.* OFLC will conduct audits of H–2B temporary labor certification applications. The applications selected for audit will be chosen within the sole discretion of OFLC.

(b) *Audit Letter.* When an application is selected for audit, the CO shall issue an audit letter to the employer. The audit letter will:

(1) State the application has been selected for audit and note documentation that must be submitted by the employer;

(2) Specify a date, no fewer than 14 days and no more than 30 days from the date of the audit letter's issuance, by which the required documentation must be received by the CO; and

(3) Advise that failure to comply with the audit process may result in a finding by the CO to:

(i) Require the employer to conduct supervised recruitment under § 655.30 in future filings of H–2B temporary labor certification applications for a period of up to 2 years, or

(ii) Debar the employer from future filings of H–2B temporary labor certification applications as provided in § 655.31.

(c) *Supplemental information.* During the course of the audit examination, the CO may request supplemental information and/or documentation from the employer to complete the audit.

Butler's Exh. 76, p. 042

Butler 02238

(d) *Audit violations.* If, as a result of the audit, the CO determines the employer failed to produce all required documentation, or determines that the employer made a material misrepresentation with respect to the application, the employer may be required to conduct supervised recruitment under § 655.30 in future filings of H–2B temporary labor certification applications for up to 2 years, or may be subject to debarment pursuant to § 655.31 or other sanctions. The CO may provide the audit findings and underlying documentation to DHS, WHD, or another appropriate enforcement agency. The CO may refer any findings that an employer discouraged an eligible U.S. worker from applying, or failed to hire, discharged, or otherwise discriminated against an eligible U.S. worker, to the Department of Justice, Civil Rights Division, Office of Special Counsel for Unfair Immigration Related Employment Practices.

§§ 655.25–655.29 [Reserved]

§ 655.30 Supervised recruitment.

(a) *Supervised recruitment.* Where an employer is found to have violated program requirements, to have made a material misrepresentation to the Department, or to have failed to adequately conduct recruitment activities or failed in any obligation of this part, the CO may require pre-filing supervised recruitment.

(b) *Requirements.* Supervised recruitment shall consist of advertising for the job opportunity or opportunities in accordance with the required recruitment steps outlined under § 655.15, except as otherwise provided below.

(1) The CO will direct where the advertisements are to be placed.

(2) The employer must supply a draft advertisement and job order to the CO for review and approval no fewer than 150 days before the date on which the foreign worker(s) will commence work unless notified by the CO of the need for Supervised Recruitment less than 150 days before the date of need, in which case the employer must supply the drafts within 30 days of receipt of such notification.

(3) Each advertisement must comply with the requirements of § 655.17(a).

(4) The advertisement shall be placed in accordance with guidance provided by the CO.

(5) The employer will notify the CO when the advertisements are placed.

(c) *Recruitment report.* No fewer than 2 days after the last day of the posting of the job order and no fewer than 5 calendar days after the date on which the last newspaper or journal advertisement appeared, the employer must prepare a detailed written report of the employer's supervised recruitment, signed by the employer as outlined in § 655.15(i). The employer must submit the recruitment report to the CO within 30 days of the date of the first advertisement and must retain a copy for a period of no less than 3 years. The recruitment report must contain a copy of all advertisements and a copy of the SWA job order, including the dates so placed.

(d) The CO may refer any findings that an employer or its representative discouraged an eligible U.S. worker from applying, or failed to hire, discharged, or otherwise discriminated against an eligible U.S. worker, to the Department of Justice, Civil Rights Division, Office of Special Counsel for Unfair Immigration Related Employment Practices.

§ 655.31 Debarment.

(a) The Administrator, OFLC may not issue future labor certifications under this subpart to an employer and any successor in interest to the debarred employer, subject to the time limits set forth in paragraph (c) of this section, if:

(1) The Administrator, OFLC finds that the employer substantially violated a material term or condition of its temporary labor certification with respect to the employment of domestic or nonimmigrant workers; and

(2) The Administrator, OFLC issues a *Notice of Intent to Debar* no later than 2 years after the occurrence of the violation.

(b) The Administrator, OFLC may not issue future labor certifications under this subpart to an employer represented by an agent or attorney, subject to the time limits set forth in paragraph (c) of this section, if:

(1) The agent or attorney participated in, had knowledge of, or had reason to know of, the employer's substantial violation; and

(2) The Administrator issues the agent or attorney a *Notice of Intent to Debar* no later than 2 years after the occurrence of the violation.

(c) No employer, attorney, or agent may be debarred under this subpart for more than 3 years.

(d) For the purposes of this section, a substantial violation includes:

(1) A pattern or practice of acts of commission or omission on the part of the employer or the employer's agent that:

(i) Are significantly injurious to the wages or benefits offered under the H–2B program or working conditions of a significant number of the employer's U.S. or H–2B workers;

(ii) Reflect a significant failure to offer employment to each qualified domestic worker who applied for the job opportunity for which certification was being sought, except for lawful job-related reasons;

(iii) Reflect a significant failure to comply with the employer's obligations to recruit U.S. workers as set forth in this subpart;

(iv) Reflect a significant failure to comply with the RFI or audit process pursuant to §§ 655.23 or 655.24;

(v) Reflect the employment of an H–2B worker outside the area of intended employment, or in an activity/activities, not listed in the job order (other than an activity minor and incidental to the activity/activities listed in the job order), or after the period of employment specified in the job order and any approved extension; or

(vi) Reflect a significant failure to comply with the supervised recruitment process pursuant to § 655.30.

(2) Fraud involving the *Application for Temporary Employment Certification* or a response to an audit;

(3) A significant failure to cooperate with a DOL investigation or with a DOL official performing an investigation, inspection, or law enforcement function under this subpart;

(4) A significant failure to comply with one or more sanctions or remedies imposed by the ESA for violation(s) of obligations under this subpart found by that agency (if applicable), or with one or more decisions or orders of the Secretary or a court order secured by the Secretary; or

(5) A single heinous act showing such flagrant disregard for the law that future compliance with program requirements cannot reasonably be expected.

(e) DOL procedures for debarment under this section will be as follows:

(1) The Administrator, OFLC will send to the employer, attorney, or agent a *Notice of Intent to Debar* by means normally ensuring next-day delivery, which will contain a detailed statement of the grounds for the proposed debarment. The employer, attorney, or agent may submit evidence in rebuttal within 14 calendar days of the date the notice is issued. The Administrator, OFLC must consider all relevant evidence presented in deciding whether to debar the employer, attorney, or agent.

(2) If rebuttal evidence is not timely filed by the employer, attorney, or agent, the *Notice of Intent to Debar* will become the final decision of the Secretary and take effect immediately at the end of the 14-day period.

Butler's Exh. 76, p. 043

Butler 02239

(3) If, after reviewing the employer's timely filed rebuttal evidence, the Administrator, OFLC determines that the employer, attorney, or agent more likely than not meets one or more of the bases for debarment under § 655.31(d), the Administrator, OFLC will notify the employer, by means normally ensuring next-day delivery, within 14 calendar days after receiving such timely filed rebuttal evidence, of his/her final determination of debarment and of the employer, attorney, or agent's right to appeal.

(4) The *Notice of Debarment* must be in writing, must state the reason for the debarment finding, including a detailed explanation of the grounds for and the duration of the debarment, and must offer the employer, attorney, or agent an opportunity to request a hearing. The notice must state that to obtain such a review or hearing, the debarred party must, within 30 calendar days of the date of the notice file a written request to the Chief Administrative Law Judge, United States Department of Labor, 800 K Street, NW., Suite 400–N, Washington, DC 20001–8002, and simultaneously serve a copy to the Administrator, OFLC. The debarment will take effect 30 days from the date the *Notice of Debarment* is issued, unless a request for a hearing is properly filed within 30 days from the date the *Notice of Debarment* is issued. The timely filing of a request for a hearing stays the debarment pending the outcome of the appeal.

(5)(i) *Hearing.* Within 10 days of receipt of the request for a hearing, the Administrator, OFLC will send a certified copy of the ETA case file to the Chief Administrative Law Judge by means normally assuring next-day delivery. The Chief Administrative Law Judge will immediately assign an ALJ to conduct the hearing. The procedures in 29 CFR part 18 apply to such hearings, except that the request for a hearing will not be considered to be a complaint to which an answer is required.

(ii) *Decision.* After the hearing, the ALJ must affirm, reverse, or modify the Administrator, OFLC 's determination. The ALJ's decision must be provided immediately to the employer, Administrator, OFLC, DHS, and DOS by means normally assuring next-day delivery. The ALJ's decision is the final decision of the Secretary, unless either party, within 30 calendar days of the ALJ's decision, seeks review of the decision with the Administrative Review Board (ARB).

(iii) Review by the ARB.

(A) Any party wishing review of the decision of an ALJ must, within 30 days of the decision of the ALJ, petition the ARB to review the decision. Copies of the petition must be served on all parties and on the ALJ. The ARB must decide whether to accept the petition within 30 days of receipt. If the ARB declines to accept the petition or if the ARB does not issue a notice accepting a petition within 30 days after the receipt of a timely filing of the petition, the decision of the ALJ shall be deemed the final agency action. If a petition for review is accepted, the decision of the ALJ shall be stayed unless and until the ARB issues an order affirming the decision. The ARB must serve notice of its decision to accept or not to accept the petition upon the ALJ and upon all parties to the proceeding in person or by certified mail.

(B) Upon receipt of the ARB's notice to accept the petition, the Office of Administrative Law Judges shall promptly forward a copy of the complete hearing record to the ARB.

(C) Where the ARB has determined to review such decision and order, the ARB shall notify each party of:

(*1*) The issue or issues raised;

(*2*) The form in which submissions shall be made (*i.e.*, briefs, oral argument, etc.); and

(*3*) The time within which such presentation shall be submitted.

(D) The ARB's final decision must be issued within 90 days from the notice granting the petition and served upon all parties and the ALJ, in person or by certified mail. If the ARB fails to provide a decision within 90 days from the notice granting the petition, the ALJ's decision will be the final decision of the Secretary.

(f) *Inter-Agency Reporting.* After completion of the appeal process, DOL will inform DHS and other appropriate enforcement agencies of the findings and provide a copy of the *Notice of Debarment.*

§ 655.32 Labor certification determinations.

(a) *COs.* The Administrator, OFLC, is the Department's National CO. The Administrator, and the CO(s) in the NPC (by virtue of delegation from the Administrator), have the authority to certify or deny applications for temporary employment certification under the H–2B nonimmigrant classification. If the Administrator directs that certain types of temporary labor certification applications or specific applications under the H–2B nonimmigrant classification be handled by the National OFLC, the Director of the Chicago NPC will refer such applications to the Administrator.

(b) *Determination.* The CO will make a determination either to grant or deny the *Application for Temporary Employment Certification.* The CO will grant the application if and only if the employer has met all the requirements of this subpart, including the criteria for certification defined in § 655.23(b), thus demonstrating that an insufficient number of qualified U.S. workers are available for the job opportunity for which certification is sought and the employment of the H–2B workers will not adversely affect the benefits, wages, and working conditions of similarly employed U.S. workers.

(c) *Notice.* The CO will notify the employer in writing (either electronically or by U.S. Mail) of the labor certification determination.

(d) *Approved certification.* If temporary labor certification is granted, the CO must send the certified *Application for Temporary Employment Certification* and a Final Determination letter to the employer, or, if appropriate, to the employer's agent or attorney with a copy to the employer. The Final Determination letter will notify the employer to file the certified application and any other documentation required by USCIS with the appropriate USCIS office.

(e) *Denied certification.* If temporary labor certification is denied, the Final Determination letter will:

(1) State the reason(s) certification is denied, citing the relevant regulatory standards and/or special procedures;

(2) If applicable, address the availability of U.S. workers in the occupation as well as the prevailing benefits, wages, and working conditions of similarly employed U.S. workers in the occupation and/or any applicable special procedures;

(3) Offer the employer an opportunity to request administrative review of the denial available under § 655.33, or to file a new application in accordance with specific instructions provided by the CO; and

(4) State that if the employer does not request administrative review in accordance with § 655.33, the denial is final and the Department will not further consider that application for temporary alien nonagricultural labor certification.

(f) *Partial Certification.* The CO may, in his/her discretion, and to ensure compliance with all statutory and regulatory requirements, issue a partial certification, reducing either the period of need, the number of H–2B positions being requested, or both, based upon information the CO receives in the course of processing the temporary labor certification application, an RFI, or otherwise. If a partial labor certification

Butler's Exh. 76, p. 044
Butler 02240

is issued, the Final Determination letter will:

(1) State the reason(s) for which either the period of need and/or the number of H–2B positions requested has been reduced, citing the relevant regulatory standards and/or special procedures;

(2) If applicable, address the availability of U.S. workers in the occupation;

(3) Offer the employer an opportunity to request administrative review of the partial labor certification available under § 655.33; and

(4) State that if the employer does not request administrative review in accordance with § 655.33, the partial labor certification is final and the Department will not further consider that application for temporary nonagricultural labor certification.

§ 655.33 Administrative review.

(a) Request for review. If a temporary labor certification is denied, in whole or in part, under § 655.32, the employer may request review of the denial by the BALCA. The request for review:

(1) Must be sent to the BALCA, with a copy simultaneously sent to the CO who denied the application, within 10 calendar days of the date of determination;

(2) Must clearly identify the particular temporary labor certification determination for which review is sought;

(3) Must set forth the particular grounds for the request;

(4) Must include a copy of the Final Determination; and

(5) May contain only legal argument and such evidence as was actually submitted to the CO in support of the application.

(b) Upon the receipt of a request for review, the CO shall, within 5 business days assemble and submit the Appeal File using means to ensure same day or overnight delivery, to the BALCA, the employer, and the Associate Solicitor for Employment and Training Legal Services, Office of the Solicitor, U.S. Department of Labor.

(c) Within 5 business days of receipt of the Appeal File, the counsel for the CO may submit, using means to ensure same day or overnight delivery, a brief in support of the CO's decision.

(d) The Chief Administrative Law Judge may designate a single member or a three member panel of the BALCA to consider a particular case.

(e) The BALCA must review a denial of temporary labor certification only on the basis of the Appeal File, the request for review, and any legal briefs submitted and must:

(1) Affirm the denial of the temporary labor certification; or

(2) Direct the CO to grant the certification; or

(3) Remand to the CO for further action.

(f) The BALCA should notify the employer, the CO, and counsel for the CO of its decision within 5 business days of the submission of the CO's brief or 10 days after receipt of the Appeal File, whichever is earlier, using means to ensure same day or overnight delivery.

§ 655.34 Validity of temporary labor certifications.

(a) *Validity Period.* A temporary labor certification is valid only for the period of time between the beginning and ending dates of employment, as certified by the OFLC Administrator on the *Application for Temporary Employment Certification*. The certification expires on the last day of authorized employment.

(b) *Scope of Validity.* A temporary labor certification is valid only for the number of H–2B positions, the area of intended employment, the specific services or labor to be performed, and the employer specified on the certified *Application for Temporary Employment Certification* and may not be transferred from one employer to another.

(c) *Amendments to Applications.* (1) Applications may be amended at any time, before the CO's certification determination, to increase the number of positions requested in the initial application by not more than 20 percent (50 percent for employers requesting less than 10 positions) without requiring an additional recruitment period for U.S. workers. Requests for increases above the percent prescribed, without additional recruitment, may be approved by the CO only when the request is submitted in writing, the need for additional workers could not have been reasonably foreseen, and the employer's services or products will be in jeopardy prior to the time that new H–2B workers could be secured.

(2) Applications may be amended to make minor changes in the period of employment, only when a written request is submitted to the CO and written approval obtained in advance. In considering whether to approve the request, the CO will review the reason(s) for the request, determine whether the reason(s) are on the whole justified, and take into account the effect(s) of a decision to approve on the adequacy of the underlying test of the domestic labor market for the job opportunity.

(3) Other amendments to the application, including elements of the job offer and the place of work, may be requested, in writing, and will be granted if the CO determines the proposed amendment(s) are justified and will have no significant effect upon the CO's ability to make the labor certification determination required under § 655.32.

(4) The CO may change the date of need to reflect an amended date when delays occur in the adjudication of the *Application for Temporary Employment Certification*, through no fault of the employer, and the certification would otherwise become valid after the initial date of need.

§ 655.35 Required departure.

(a) *Limit to worker's stay.* As defined further in DHS regulations, a temporary labor certification shall limit the authorized period of stay for any H–2B worker whose admission is based upon it. 8 CFR 214.2(h)(13). A foreign worker may not remain in the U.S. beyond the validity period of admission by DHS in H–2B status nor beyond separation from employment, whichever occurs first, absent any extension or change of such worker's status or grace period pursuant to DHS regulations.

(b) *Notice to worker.* Upon establishment of a pilot program by DHS for registration of departure, the employer must notify any H–2B worker starting work at a job opportunity for which the employer has obtained labor certification that the H–2B worker, when departing the U.S. by land at the conclusion of employment as described in paragraph (a) of this section, must register such departure at the place and in the manner prescribed by DHS. This requirement will apply only to H–2B foreign workers entering from ports of entry participating in the DHS pilot program.

§ 655.50 Enforcement process.

(a) *Authority of the WHD Administrator.* The WHD Administrator shall perform all the Secretary's investigative and enforcement functions under secs. 1101(a)(15)(H)(ii)(b), 103(a)(6), and 214(c) of the INA, pursuant to the delegation of authority from the Secretary of Homeland Security to the Secretary of Labor.

(b) *Conduct of investigations.* The Administrator, WHD, shall, either pursuant to a complaint or otherwise, conduct such investigations as may, in the judgment of the Administrator, be appropriate, and in connection therewith, may enter and inspect such places and such records (and make transcriptions or copies thereof), question such persons, and gather such information as deemed necessary by the Administrator to determine compliance

regarding the matters which are the subject of investigation.

(c) *Employer cooperation/availability of records.* An employer shall at all times cooperate in administrative and enforcement proceedings. An employer being investigated shall make available to the WHD Administrator such records, information, persons, and places as the Administrator deems appropriate to copy, transcribe, question, or inspect. Where the records are maintained at a central recordkeeping office, other than in the place or places of employment, such records must be made available for inspection and copying within 72 hours following notice from the Secretary, or a duly authorized and designated representative. No employer or representative or agent of an employer subject to the provisions of secs. 1101(a)(15)(H)(ii)(b) and 214(c) of the INA and/or of this subpart shall interfere with any official of the Department who is performing an investigation, inspection, or law enforcement function pursuant to 8 U.S.C. 1101(a)(15)(H)(ii)(b) or 1184(c). Any such interference shall be a violation of the labor certification application and of this subpart, and the Administrator may take such further actions as the Administrator considers appropriate. (Federal criminal statutes prohibit certain interference with a Federal officer in the performance of official duties. 18 U.S.C. 111 and 18 U.S.C. 1114.)

(d) *Confidentiality.* The WHD Administrator shall, to the extent possible under existing law, protect the confidentiality of any person who provides information to the Department in confidence in the course of an investigation or otherwise under this subpart.

§ 655.60 Violations.

The WHD Administrator, through investigation, shall determine whether an employer has—

(a) Filed a petition with ETA that willfully misrepresents a material fact.

(b) Substantially failed to meet any of the conditions of the labor certification application attested to, as listed in § 655.22, or any of the conditions of the DHS Form I–129, Petition for a Nonimmigrant Worker for an H–2B worker in 8 CFR 214.2(h).

(c) Misrepresented a material fact to the State Department during the visa application process.

§ 655.65 Remedies for violations.

(a) Upon determining that an employer has willfully failed to pay wages, in violation of the attestation required by § 655.22(e) or willfully required employees to pay for fees or expenses prohibited by § 655.22(j), or willfully made impermissible deductions from pay as provided in § 655.22(g), the WHD Administrator may assess civil money penalties that are equal to the difference between the amount that should have been paid and the amount that actually was paid to such nonimmigrant(s), not to exceed $10,000.

(b) Upon determining that an employer has terminated by layoff or otherwise any employee described in § 622.55(k) of this part, within the period described in that section, the Administrator may assess civil money penalties that are equal to the wages that would have been earned but for the layoff at the H–2B rate for that period, not to exceed $10,000. No civil money penalty shall be assessed, however, if the employee refused the job opportunity, or was terminated for lawful, job-related reasons.

(c) The Administrator may assess civil money penalties in an amount not to exceed $10,000 per violation for any substantial failure to meet the conditions provided in the H–2B *Application for Temporary Employment Certification* or the DHS Form I–129, Petition for a Nonimmigrant Worker for an H–2B worker or successor form, or any willful misrepresentation in the application or petition, or a failure to cooperate with a Department audit or investigation.

(d) Substantial failure in paragraph (b) of this section shall mean a willful failure that constitutes a significant deviation from the terms and conditions of the labor condition application or the DHS Form I–129, Petition for a Nonimmigrant Worker for an H–2B worker or successor form.

(e) For purposes of this subpart, "willful failure" means a knowing failure or a reckless disregard with respect to whether the conduct was contrary to sec. 214(c) of the INA, or this subpart. See *McLaughlin* v. *Richland Shoe Co.*, 486 U.S. 128 (1988); see also *Trans World Airlines* v. *Thurston*, 469 U.S. 111 (1985).

(f) The provisions of this subpart become applicable upon the date that the employer's labor condition application is certified and/or upon the date employment commences, whichever is earlier. The employer's submission and signature on the labor certification application and DHS Form I–129, Petition for a Nonimmigrant Worker for an H–2B worker or successor form constitutes the employer's representation that the statements on the application are accurate and its acknowledgment and acceptance of the obligations of the program. The employer's acceptance of these obligations is re-affirmed by the employer's submission of the petition (Form I–129), supported by the labor certification.

(g) In determining the amount of the civil money penalty to be assessed pursuant to paragraphs (b) and (c) of this section, the WHD Administrator shall consider the type of violation committed and other relevant factors. In determining the level of penalties to be assessed, the highest penalties shall be reserved for willful failures to meet any of the conditions of the application that involve harm to U.S. workers. Other factors which may be considered include, but are not limited to, the following:

(1) Previous history of violation, or violations, by the employer under the INA and this subpart, and 8 CFR 214.2;

(2) The number of U.S. or H–2B workers employed by the employer and affected by the violation or violations;

(3) The gravity of the violation or violations;

(4) Efforts made by the employer in good faith to comply with the INA and regulatory provisions of this subpart and at 8 CFR 214.2(h);

(5) The employer's explanation of the violation or violations;

(6) The employer's commitment to future compliance; and

(7) The extent to which the employer achieved a financial gain due to the violation, or the potential financial loss to the employer's workers.

(h) *Disqualification from approval of petitions.* Where the WHD Administrator finds a substantial failure to meet any conditions of the application or in a DHS Form I–129, or a willful misrepresentation of a material fact in an application or in a DHS Form I–129, as those terms are defined in § 655.31, the Administrator may recommend that ETA debar the employer for a period of no less than 1 year, and no more than 3 years.

(i) If the WHD Administrator finds a violation of the provisions specified in this subpart, the Administrator may impose such other administrative remedies as the Administrator determines to be appropriate, including reinstatement of displaced U.S. workers, or other appropriate legal or equitable remedies. If the WHD Administrator finds that an employer has not paid wages at the wage level specified under the application and required by § 655.22(e), the Administrator may require the employer to provide for payment of such amounts of back pay as may be required to comply with the requirements of § 655.22(e).

Butler's Exh. 76, p. 046

Butler 02242

(j) The civil money penalties determined by the WHD Administrator to be appropriate are due for payment within 30 days of the assessment by the Administrator, or upon the decision by an administrative law judge where a hearing is timely requested, or upon the decision by the Secretary where review is granted. The employer shall remit the amount of the civil money penalty by certified check or money order made payable to the order of "Wage and Hour Division, Labor." The remittance shall be delivered or mailed to the Wage and Hour Division office in the manner directed in the Administrator's notice of determination. The payment or performance of any other remedy prescribed by the Administrator shall follow procedures established by the Administrator.

(k) The Federal Civil Penalties Inflation Adjustment Act of 1990, as amended (28 U.S.C. 2461 note), requires that inflationary adjustments to civil money penalties in accordance with a specified cost-of-living formula be made, by regulation, at least every 4 years. The adjustments are to be based on changes in the Consumer Price Index for all Urban Consumers (CPI–U) for the U.S. City Average for All Items. The adjusted amounts will be published in the **Federal Register**. The amount of the penalty in a particular case will be based on the amount of the penalty in effect at the time the violation occurs.

§ 655.70 WHD Administrator's determination.

(a) The WHD Administrator's determination shall be served on the employer by personal service or by certified mail at the employer's last known address. Where service by certified mail is not accepted by the employer, the Administrator may exercise discretion to serve the determination by regular mail.

(b) The WHD Administrator shall file with the Chief Administrative Law Judge, U.S. Department of Labor, a copy of the Administrator's determination.

(c) The WHD Administrator's written determination shall:

(1) Set forth the determination of the Administrator and the reason or reasons therefore, and in the case of a finding of violation(s) by an employer, prescribe the amount of any back wages and civil money penalties assessed and the reason therefor.

(2) Inform the employer that a hearing may be requested pursuant to § 655.71.

(3) Inform the employer that in the absence of a timely request for a hearing, received by the Chief Administrative Law Judge within 15 calendar days of the date of the determination, the determination of the Administrator shall become final and not appealable.

(4) Set forth the procedure for requesting a hearing, give the addresses of the Chief Administrative Law Judge (with whom the request must be filed) and the representative(s) of the Solicitor of Labor (upon whom copies of the request must be served).

(5) Where appropriate, inform the employer that the Administrator will notify ETA and DHS of the occurrence of a violation by the employer.

§ 655.71 Request for hearing.

(a) An employer desiring review of a determination issued under § 655.70, including judicial review, shall make a request for such an administrative hearing in writing to the Chief Administrative Law Judge at the address stated in the notice of determination. In such a proceeding, the Administrator shall be the prosecuting party, and the employer shall be the respondent. If such a request for an administrative hearing is timely filed, the WHD Administrator's determination shall be inoperative unless and until the case is dismissed or the Administrative Law Judge issues an order affirming the decision.

(b) No particular form is prescribed for any request for hearing permitted by this section. However, any such request shall:

(1) Be dated;

(2) Be typewritten or legibly written;

(3) Specify the issue or issues stated in the notice of determination giving rise to such request;

(4) State the specific reason or reasons why the employer believes such determination is in error;

(5) Be signed by the employer making the request or by an authorized representative of such employer; and

(6) Include the address at which such employer or authorized representative desires to receive further communications relating thereto.

(c) The request for such hearing must be received by the Chief Administrative Law Judge, at the address stated in the WHD Administrator's notice of determination, no later than 15 calendar days after the date of the determination. An employer which fails to meet this 15-day deadline for requesting a hearing may thereafter participate in the proceedings only by consent of the administrative law judge.

(d) The request may be filed in person, by facsimile transmission, by certified or regular mail, or by courier service. For the requesting employer's protection, if the request is by mail, it should be by certified mail. If the request is by facsimile transmission, the original of the request, signed by the employer or authorized representative, shall be filed within 10 days.

(e) Copies of the request for a hearing shall be sent by the employer or authorized representative to the WHD official who issued the WHD Administrator's notice of determination, and to the representative(s) of the Solicitor of Labor identified in the notice of determination.

§ 655.72 Hearing rules of practice.

(a) Except as specifically provided in this subpart, and to the extent they do not conflict with the provisions of this subpart, the "Rules of Practice and Procedure for Administrative Hearings Before the Office of Administrative Law Judges" established by the Secretary at 29 CFR part 18 shall apply to administrative proceedings under this subpart.

(b) As provided in the Administrative Procedure Act, 5 U.S.C. 556, any oral or documentary evidence may be received in proceedings under this part. The Federal Rules of Evidence and subpart B of the Rules of Practice and Procedure for Administrative Hearings Before the Office of Administrative Law Judges (29 CFR part 18, subpart B) shall not apply, but principles designed to ensure production of relevant and probative evidence shall guide the admission of evidence. The administrative law judge may exclude evidence which is immaterial, irrelevant, or unduly repetitive.

§ 655.73 Service of pleadings.

(a) Under this subpart, a party may serve any pleading or document by regular mail. Service on a party is complete upon mailing to the last known address. No additional time for filing or response is authorized where service is by mail. In the interest of expeditious proceedings, the administrative law judge may direct the parties to serve pleadings or documents by a method other than regular mail.

(b) Two copies of all pleadings and other documents in any administrative law judge proceeding shall be served on the attorneys for the WHD Administrator. One copy shall be served on the Associate Solicitor, Division of Fair Labor Standards, Office of the Solicitor, U.S. Department of Labor, 200 Constitution Avenue, NW., Room N–2716, Washington, DC 20210, and one copy shall be served on the attorney representing the Administrator in the proceeding.

(c) Time will be computed beginning with the day following service and includes the last day of the period

Butler's Exh. 76, p. 047

Butler 02243

unless it is a Saturday, Sunday, or Federally-observed holiday, in which case the time period includes the next business day.

§ 655.74 Conduct of proceedings.

(a) Upon receipt of a timely request for a hearing filed pursuant to and in accordance with § 655.71, the Chief Administrative Law Judge shall promptly appoint an administrative law judge to hear the case.

(b) The administrative law judge shall notify all parties of the date, time and place of the hearing. All parties shall be given at least 14 calendar days notice of such hearing.

(c) The administrative law judge may prescribe a schedule by which the parties are permitted to file a prehearing brief or other written statement of fact or law. Any such brief or statement shall be served upon each other party. Post-hearing briefs will not be permitted except at the request of the administrative law judge. When permitted, any such brief shall be limited to the issue or issues specified by the administrative law judge, shall be due within the time prescribed by the administrative law judge, and shall be served on each other party.

§ 655.75 Decision and order of administrative law judge.

(a) The administrative law judge shall issue a decision. If any party desires review of the decision, including judicial review, a petition for Administrative Review Board (Board) review thereof shall be filed as provided in § 655.76. If a petition for review is filed, the decision of the administrative law judge shall be inoperative unless and until the Board issues an order affirming the decision, or unless and until 30 calendar days have passed after the Board's receipt of the petition for review and the Board has not issued notice to the parties that the Board will review the administrative law judge's decision.

(b) The decision of the administrative law judge shall include a statement of findings and conclusions, with reasons and basis therefore, upon each material issue presented on the record. The decision shall also include an appropriate order which may affirm, deny, reverse, or modify, in whole or in part, the determination of the Administrator, WHD; the reason or reasons for such order shall be stated in the decision.

(c) In the event that the WHD Administrator assesses back wages for wage violation(s) of § 655.22(e), (g), or (j) based upon a PWD obtained by the Administrator from OFLC during the investigation and the administrative law judge determines that the Administrator's request was not warranted, the administrative law judge shall remand the matter to the Administrator for further proceedings on the Administrator's determination. If there is no such determination and remand by the administrative law judge, the administrative law judge shall accept as final and accurate the wage determination obtained from OFLC or, in the event the employer filed a timely appeal under § 655.11, the final wage determination resulting from that process. Under no circumstances shall the administrative law judge determine the validity of the wage determination or require submission into evidence or disclosure of source data or the names of establishments contacted in developing the survey which is the basis for the PWD.

(d) The administrative law judge shall not render determinations as to the legality of a regulatory provision or the constitutionality of a statutory provision.

(e) The decision shall be served on all parties in person or by certified or regular mail.

§ 655.76 Appeal of administrative law judge decision.

(a) The WHD Administrator or an employer desiring review of the decision and order of an administrative law judge, including judicial review, shall petition the Department's Administrative Review Board (Board) to review the decision and order. To be effective, such petition shall be received by the Board within 30 calendar days of the date of the decision and order. Copies of the petition shall be served on all parties and on the administrative law judge.

(b) No particular form is prescribed for any petition for the Board's review permitted by this subpart. However, any such petition shall:

(1) Be dated;

(2) Be typewritten or legibly written;

(3) Specify the issue or issues stated in the administrative law judge decision and order giving rise to such petition;

(4) State the specific reason or reasons why the party petitioning for review believes such decision and order are in error;

(5) Be signed by the party filing the petition or by an authorized representative of such party;

(6) Include the address at which such party or authorized representative desires to receive further communications relating thereto; and

(7) Attach copies of the administrative law judge's decision and order, and any other record documents which would assist the Board in determining whether review is warranted.

(c) Whenever the Board determines to review the decision and order of an administrative law judge, a notice of the Board's determination shall be served upon the administrative law judge, upon the Office of Administrative Law Judges, and upon all parties to the proceeding within 30 calendar days after the Board's receipt of the petition for review. If the Board determines that it will review the decision and order, the order shall be inoperative unless and until the Board issues an order affirming the decision and order.

(d) Upon receipt of the Board's notice, the Office of Administrative Law Judges shall within 15 calendar days forward the complete hearing record to the Board.

(e) The Board's notice shall specify:

(1) The issue or issues to be reviewed;

(2) The form in which submissions shall be made by the parties (e.g., briefs); and

(3) The time within which such submissions shall be made.

(f) All documents submitted to the Board shall be filed with the Administrative Review Board, U.S. Department of Labor, 200 Constitution Avenue, NW., Room S–5220, Washington, DC 20210. An original and two copies of all documents shall be filed. Documents are not deemed filed with the Board until actually received by the Board. All documents, including documents filed by mail, shall be received by the Board either on or before the due date.

(g) Copies of all documents filed with the Board shall be served upon all other parties involved in the proceeding.

(h) The Board's final decision shall be served upon all parties and the administrative law judge.

§ 655.80 Notice to OFLC and DHS.

(a) The WHD Administrator shall, as appropriate, notify DHS and OFLC of the final determination of a violation and recommend that DHS not approve petitions filed by an employer. The Administrator's notification will address the type of violation committed by the employer and the appropriate statutory period for disqualification of the employer from approval of petitions.

(b) The Administrator shall notify DHS and OFLC upon the earliest of the following events:

(1) Where the Administrator determines that there is a basis for a finding of violation by an employer, and no timely request for hearing is made; or

(2) Where, after a hearing, the administrative law judge issues a

Butler's Exh. 76, p. 048

Butler 02244

decision and order finding a violation by an employer, and no timely petition for review is filed with the Department's Administrative Review Board (Board); or

(3) Where a timely petition for review is filed from an administrative law judge's decision finding a violation and the Board either declines within 30 days to entertain the appeal, or reviews and affirms the administrative law judge's determination; or

(4) Where the administrative law judge finds that there was no violation by an employer, and the Board, upon review, issues a decision holding that a violation was committed by an employer.

■ 4. Amend § 655.715 by adding a definition for the "Center Director" to read as follows:

§ 655.715 Definitions.

* * * * *

Center Director means the Department official to whom the Administrator has delegated his authority for purposes of NPC operations and functions.

* * * * *

■ 5. Amend § 655.731 by revising paragraphs (a)(2) introductory text, (a)(2)(ii), (b)(3)(iii)(A), and (d)(2) and (3) to read as follows:

§ 655.731 What is the first LCA requirement regarding wages?

* * * * *

(a) * * *

(2) The prevailing wage for the occupational classification in the area of intended employment must be determined as of the time of filing the application. The employer shall base the prevailing wage on the best information available as of the time of filing the application. Except as provided in this section, the employer is not required to use any specific methodology to determine the prevailing wage and may utilize a wage obtained from an OFLC NPC (OES), an independent authoritative source, or other legitimate sources of wage data. One of the following sources shall be used to establish the prevailing wage:

* * * * *

(ii) If the job opportunity is in an occupation which is not covered by paragraph (a)(2)(i) of this section, the prevailing wage shall be the arithmetic mean of the wages of workers similarly employed, except that the prevailing wage shall be the median when provided by paragraphs (a)(2)(ii)(A), (b)(3)(iii)(B)(2), and (b)(3)(iii)(C)(2) of this section. The prevailing wage rate shall be based on the best information available. The following prevailing wage sources may be used:

(A) *OFLC National Processing Center (NPC) determination.* Prior to January 1, 2010, the SWA having jurisdiction over the area of intended employment shall continue to receive and process prevailing wage determination requests, but shall do so in accordance with these regulatory provisions and Department guidance. On or after January 1, 2010, the NPC shall receive and process prevailing wage determination requests in accordance with these regulations and with Department guidance. Upon receipt of a written request for a PWD on or after January 1, 2010, the NPC will determine whether the occupation is covered by a collective bargaining agreement which was negotiated at arms length, and, if not, determine the arithmetic mean of wages of workers similarly employed in the area of intended employment. The wage component of the Bureau of Labor Statistics Occupational Employment Statistics survey shall be used to determine the arithmetic mean, unless the employer provides an acceptable survey. The NPC shall determine the wage in accordance with secs. 212(n) and 212(t) of the INA. If an acceptable employer-provided wage survey provides a median and does not provide an arithmetic mean, the median shall be the prevailing wage applicable to the employer's job opportunity. In making a PWD, the Chicago NPC will follow 20 CFR 656.40 and other administrative guidelines or regulations issued by ETA. The Chicago NPC shall specify the validity period of the PWD, which in no event shall be for less than 90 days or more than 1 year from the date of the determination.

(*1*) An employer who chooses to utilize an NPC PWD shall file the labor condition application within the validity period of the prevailing wage as specified in the PWD. Any employer desiring review of an NPC PWD, including judicial review, shall follow the appeal procedures at 20 CFR 656.41. Employers which challenge an NPC PWD under 20 CFR 656.41 must obtain a ruling prior to filing an LCA. In any challenge, the Department and the NPC shall not divulge any employer wage data collected under the promise of confidentiality. Once an employer obtains a PWD from the NPC and files an LCA supported by that PWD, the employer is deemed to have accepted the PWD (as to the amount of the wage) and thereafter may not contest the legitimacy of the PWD by filing an appeal with the CO (see 20 CFR 656.41) or in an investigation or enforcement action.

(*2*) If the employer is unable to wait for the NPC to produce the requested prevailing wage for the occupation in question, or for the CO and/or the BALCA to issue a decision, the employer may rely on other legitimate sources of available wage information as set forth in paragraphs (a)(2)(ii)(B) and (C) of this section. If the employer later discovers, upon receipt of the PWD from the NPC, that the information relied upon produced a wage below the final PWD and the employer was paying the NPC-determined wage, no wage violation will be found if the employer retroactively compensates the H–2B nonimmigrant(s) for the difference between wage paid and the prevailing wage, within 30 days of the employer's receipt of the PWD.

(*3*) In all situations where the employer obtains the PWD from the NPC, the Department will deem that PWD as correct as to the amount of the wage. Nevertheless, the employer must maintain a copy of the NPC PWD. A complaint alleging inaccuracy of an NPC PWD, in such cases, will not be investigated.

(B) *An independent authoritative source.* The employer may use an independent authoritative wage source in lieu of an NPC PWD. The independent authoritative source survey must meet all the criteria set forth in paragraph (b)(3)(iii)(B) of this section.

* * * * *

(b) * * *

(3) * * *

(iii) * * *

(A) A copy of the prevailing wage finding from the NPC for the occupation within the area of intended employment.

* * * * *

* * * * *

(d) * * *

(2) In the event the Administrator obtains a prevailing wage from ETA pursuant to paragraph (d)(1) of this section, and the employer desires review, including judicial review, the employer shall challenge the ETA prevailing wage only by filing a request for review under § 656.41 of this chapter within 30 days of the employer's receipt of the PWD from the Administrator. If the request is timely filed, the decision of OFLC is suspended until the Center Director issues a determination on the employer's appeal. If the employer desires review, including judicial review, of the decision of the NPC Center Director, the employer shall make a request for review of the determination by the Board of Alien Labor Certification Appeals (BALCA) under § 656.41(e) of this chapter within 30 days of the receipt of the decision of

the Center Director. If a request for review is timely filed with the BALCA, the determination by the Center Director is suspended until the BALCA issues a determination on the employer's appeal. In any challenge to the wage determination, neither ETA nor the NPC shall divulge any employer wage data collected under the promise of confidentiality.

(i) Where an employer timely challenges an OFLC PWD obtained by the Administrator, the 30-day investigative period shall be suspended until the employer obtains a final ruling. Upon such a final ruling, the investigation and any subsequent enforcement proceeding shall continue, with the PWD as determined by the BALCA serving as the conclusive determination for all purposes.

(ii) [Reserved]

(3) For purposes of this paragraph (d), OFLC may consult with the NPC to ascertain the prevailing wage applicable under the circumstances of the particular complaint.

■ 6. Amend § 655.1102 to add the definition of "Office of Foreign Labor Certification (OFLC)" to read as follows:

§ 655.1102 What are the definitions of terms that are used in these regulations?

* * * * *

Office of Foreign Labor Certification (OFLC) means the organizational component within the ETA that provides national leadership and policy guidance and develops regulations and procedures to carry out the responsibilities of the Secretary of Labor under the INA concerning foreign workers seeking admission to the United States.

* * * * *

■ 7. Amend § 655.1112 by revising paragraph (c)(2) to read as follows:

§ 655.1112 Element II—What does "no adverse effect on wages and working conditions" mean?

* * * * *

(c) * * *

(2) Determination of prevailing wage for H–1C purposes. In the absence of collectively bargained wage rates, the National Processing Center (NPC) having jurisdiction as determined by OFLC shall determine the prevailing wage for similarly employed nurses in the geographic area in accordance with administrative guidelines issued by ETA for prevailing wage determination requests submitted on or after the effective date of these regulations.

(i) Prior to the effective date of these regulations, the SWA having jurisdiction over the area of intended employment shall continue to receive and process prevailing wage determination requests in accordance with the regulatory provisions and Department guidance in effect prior to January 1, 2009. On or after the effective date of these regulations, the NPC shall receive and process prevailing wage determination requests in accordance with these regulations and with Department guidance. A facility seeking to determine the prevailing wage must request a prevailing wage determination from the NPC having jurisdiction for providing the prevailing wage over the proposed area of intended employment not more than 90 days prior to the date the attestation is submitted to the Department. The NPC must enter its wage determination on the form it uses and return the form with its endorsement to the employer. Once a facility obtains a prevailing wage determination from the NPC and files an attestation supported by that prevailing wage determination, the facility shall be deemed to have accepted the prevailing wage determination as accurate and appropriate (as to both the occupational classification and the wage rate) and thereafter shall not contest the legitimacy of that prevailing wage determination in an investigation or enforcement action pursuant to subpart M of this part.

(ii) A facility may challenge the prevailing wage determination with the NPC having provided such determination according to administrative guidelines issued by ETA, but must obtain a final ruling prior to filing an attestation.

* * * * *

PART 656—LABOR CERTIFICATION PROCESS FOR PERMANENT EMPLOYMENT OF ALIENS IN THE UNITED STATES

■ 8. The authority citation for part 656 is revised to read as follows:

Authority: 8 U.S.C. 1182(a)(5)(A), 1182(p)(1); sec.122, Public Law 101–649, 109 Stat. 4978; and Title IV, Public Law 105–277, 112 Stat. 2681.

■ 9. Amend § 656.3 by revising the definitions of "Prevailing wage determination (PWD)" and "State Workforce Agency (SWA)" to read as follows:

§ 656.3 Definitions, for purposes of this part, of terms used in this part.

* * * * *

Prevailing wage determination (PWD) means the prevailing wage provided or approved by an OFLC National Processing Center (NPC), in accordance with OFLC guidance governing foreign labor certification programs. This includes PWD requests processed for purposes of employer petitions filed with DHS under Schedule A or for sheepherders.

* * * * *

State Workforce Agency (SWA), formerly known as State Employment Security Agency (SESA), means the state agency that receives funds under the Wagner-Peyser Act to provide employment-related services to U.S. workers and employers and/or administers the public labor exchange delivered through the state's one-stop delivery system in accordance with the Wagner-Peyser Act.

* * * * *

§ 656.15 [Amended]

■ 10. Amend § 656.15:

■ a. By removing the words "in duplicate;" from paragraph (a); and

■ b. By removing paragraph (f) and redesignating paragraph (g) as paragraph (f).

■ 11. Amend § 656.40 by revising paragraphs (a), (b) introductory text, (c), (g), (h) and (i) to read as follows:

§ 656.40 Determination of prevailing wage for labor certification purposes.

(a) *Application process.* The employer must request a PWD from the NPC, on a form or in a manner prescribed by OFLC. Prior to January 1, 2010, the SWA having jurisdiction over the area of intended employment shall continue to receive and process prevailing wage determination requests in accordance with the regulatory provisions and Department guidance in effect prior to January 1, 2009. On or after January 1, 2010, the NPC shall receive and process prevailing wage determination requests in accordance with these regulations and with Department guidance. The NPC will provide the employer with an appropriate prevailing wage rate. The NPC shall determine the wage in accordance with sec. 212(t) of the INA. Unless the employer chooses to appeal the center's PWD under § 656.41(a) of this part, it files the Application for Permanent Employment Certification either electronically or by mail with the processing center of jurisdiction and maintains the PWD in its files. The determination shall be submitted to the CO, if requested.

(b) *Determinations.* The National Processing Center will determine the appropriate prevailing wage as follows:

* * *

(c) *Validity Period.* The National Processing Center must specify the validity period of the prevailing wage, which in no event may be less than 90 days or more than 1 year from the

Butler's Exh. 76, p. 050

Butler 02246

determination date. To use a prevailing wage rate provided by the NPC, employers must file their applications or begin the recruitment period required by §§ 656.17(e) or 656.21 of this part within the validity period specified by the NPC.

* * * * *

(g) *Employer-provided wage information.* (1) If the job opportunity is not covered by a CBA, or by a professional sports league's rules or regulations, the NPC will consider wage information provided by the employer in making a PWD. An employer survey can be submitted either initially or after NPC issuance of a PWD derived from the OES survey. In the latter situation, the new employer survey submission will be deemed a new PWD request.

(2) In each case where the employer submits a survey or other wage data for which it seeks acceptance, the employer must provide the NPC with enough information about the survey methodology, including such items as sample size and source, sample selection procedures, and survey job descriptions, to allow the NPC to make a determination about the adequacy of the data provided and validity of the statistical methodology used in conducting the survey in accordance with guidance issued by the OFLC national office.

(3) The survey submitted to the NPC must be based upon recently collected data.

(i) A published survey must have been published within 24 months of the date of submission to the NPC, must be the most current edition of the survey, and the data upon which the survey is based must have been collected within 24 months of the publication date of the survey.

(ii) A survey conducted by the employer must be based on data collected within 24 months of the date it is submitted to the NPC.

(4) If the employer-provided survey is found not to be acceptable, the NPC will inform the employer in writing of the reasons the survey was not accepted.

(5) The employer, after receiving notification that the survey it provided for NPC consideration is not acceptable, may file supplemental information as provided by paragraph (h) of this section, file a new request for a PWD, or appeal under § 656.41.

(h) *Submittal of supplemental information by employer.* (1) If the employer disagrees with the skill level assigned to its job opportunity, or if the NPC informs the employer its survey is not acceptable, or if there are other legitimate bases for such a review, the employer may submit supplemental information to the NPC.

(2) The NPC will consider one supplemental submission about the employer's survey or the skill level the NPC assigned to the job opportunity or any other legitimate basis for the employer to request such a review. If the NPC does not accept the employer's survey after considering the supplemental information, or affirms its determination concerning the skill level, it will inform the employer of the reasons for its decision.

(3) The employer may then apply for a new wage determination or appeal under § 656.41 of this part.

(i) Frequent users. The Secretary will issue guidance regarding the process by which employers may obtain a wage determination to apply to a subsequent application, when the wage is for the same occupation, skill level, and area of intended employment. In no case may the wage rate the employer provides the NPC be lower than the highest wage required by any applicable Federal, State, or local law.

(ii) [Reserved]

* * * * *

■ 12. Revise § 656.41 to read as follows:

§ 656.41 Review of prevailing wage determinations.

(a) *Review of NPC PWD.* Any employer desiring review of a PWD made by a CO must make a request for such review within 30 days of the date from when the PWD was issued. The request for review must be sent to the director of the NPC that issued the PWD within 30 days of the date of the PWD; clearly identify the PWD from which review is sought; set forth the particular grounds for the request; and include all the materials pertaining to the PWD submitted to the NPC up to the date of the PWD received from the NPC.

(b) *Processing of request by NPC.* Upon the receipt of a request for review, the NPC will review the employer's request and accompanying documentation, and add any material that may have been omitted by the employer, including any material the NPC sent the employer up to the date of the PWD.

(c) *Review on the record.* The director will review the PWD solely on the basis upon which the PWD was made and, upon the request for review, may either affirm or modify the PWD.

(d) *Request for review by BALCA.* Any employer desiring review of the director's determination must make a request for review by the BALCA within 30 days of the date of the Director's decision.

(1) The request for review, statements, briefs, and other submissions of the parties and amicus curiae must contain only legal arguments and only such evidence that was within the record upon which the director made his/her affirmation of the PWD.

(2) The request for review must be in writing and addressed to the director of the NPC making the determination. Upon receipt of a request for a review, the director will assemble an indexed appeal file in reverse chronological order, with the index on top followed by the most recent document.

(3) The director will send the Appeal File to the Office of Administrative Law Judges, BALCA. The BALCA handles the appeals in accordance with §§ 656.26 and 656.27.

Signed in Washington, DC, this 12th day of December, 2008.

Brent R. Orrell,

Deputy Assistant Secretary, Employment and Training Administration.

Alexander J. Passantino,

Acting Administrator, Wage and Hour Division, Employment Standards Administration.

[FR Doc. E8–29995 Filed 12–18–08; 8:45 am]

BILLING CODE 4510–FP–P

period following the date of the revocation for the purpose of departure or extension of stay based upon a subsequent offer of employment.

(6) *Petition for alien to perform temporary nonagricultural services or labor (H–2B)—*

(i) *Petition.* (A) *H–2B nonagricultural temporary worker.* An H–2B nonagricultural temporary worker is an alien who is coming temporarily to the United States to perform temporary services or labor without displacing qualified United States workers available to perform such services or labor and whose employment is not adversely affecting the wages and working conditions of United States workers.

(B) *Denial or revocation of petition upon a determination that fees were collected from alien beneficiaries.* As a condition of approval of an H–2B petition, no job placement fee or other compensation (either direct or indirect) may be collected at any time, including before or after the filing or approval of the petition, from a beneficiary of an H–2B petition by a petitioner, agent, facilitator, recruiter, or similar employment service as a condition of an offer or condition of H–2B employment (other than the lower of the actual cost or fair market value of transportation to such employment and any government-mandated passport, visa, or inspection fees, to the extent that the passing of such costs to the beneficiary is not prohibited by statute, unless the employer, agent, facilitator, recruiter, or similar employment service has agreed with the beneficiary that it will pay such costs and fees).

(*1*) If USCIS determines that the petitioner has collected or entered into an agreement to collect such fee or compensation, the H–2B petition will be denied or revoked on notice, unless the petitioner demonstrates that, prior to the filing of the petition, either the petitioner reimbursed the beneficiary in full for such fees or compensation or the agreement to collect such fee or compensation was terminated before the fee or compensation was paid by the beneficiary.

(*2*) If USCIS determines that the petitioner knew or should have known at the time of filing the petition that the beneficiary has paid or agreed to pay any agent, facilitator, recruiter, or similar employment service as a condition of an offer of the H–2B employment, the H–2B petition will be denied or revoked on notice unless the petitioner demonstrates that, prior to filing the petition, either the petitioner or the agent, facilitator, recruiter, or similar employment service reimbursed the beneficiary in full for such fees or compensation or the agreement to collect such fee or compensation was terminated before the fee or compensation was paid by the beneficiary.

(*3*) If USCIS determines that the beneficiary paid the petitioner such fees or compensation as a condition of an offer of H–2B employment after the filing of the H–2B petition, the petition will be denied or revoked on notice.

(*4*) If USCIS determines that the beneficiary paid or agreed to pay the agent, facilitator, recruiter, or similar employment service such fees or compensation after the filing of the H–2B petition and that the petitioner knew or had reason to know of the payment or agreement to pay, the petition will be denied or revoked unless the petitioner demonstrates that the petitioner or agent, facilitator, recruiter, or similar employment service reimbursed the beneficiary in full, that the parties terminated any agreement to pay before the beneficiary paid the fees or compensation, or that the petitioner has notified DHS within 2 work days of obtaining knowledge, in a manner specified in a notice published in the FEDERAL REGISTER.

(C) *Effect of petition revocation.* Upon revocation of an employer's H–2B petition based upon paragraph (h)(6)(i)(B) of this section, the alien beneficiary's stay will be authorized and the beneficiary will not accrue any period of unlawful presence under section 212(a)(9) of the Act (8 U.S.C. 1182(a)(9)) for a 30-day period following the date of the revocation for the purpose of departure or extension of stay based upon a subsequent offer of employment. The employer shall be liable for the alien beneficiary's reasonable costs of return transportation to his or her last place of foreign residence abroad, unless such alien obtains an extension of stay

Butler's Exh. 77, p. 001

AR - 3311

Butler 02248

based on an approved H–2B petition filed by a different employer.

(D) *Reimbursement as condition to approval of future H–2B petitions. (1) Filing subsequent H–2B petitions within 1 year of denial or revocation of previous H–2B petition.* A petitioner filing an H–2B petition within 1 year after a decision denying or revoking on notice an H–2B petition filed by the same petitioner on the basis of paragraph (h)(6)(i)(B) of this section must demonstrate to the satisfaction of USCIS, as a condition of the approval of the later petition, that the petitioner or agent, facilitator, recruiter, or similar employment service reimbursed in full each beneficiary of the denied or revoked petition from whom a prohibited fee was collected or that the petitioner has failed to locate each such beneficiary despite the petitioner's reasonable efforts to locate them. If the petitioner demonstrates to the satisfaction of USCIS that each such beneficiary was reimbursed in full, such condition of approval shall be satisfied with respect to any subsequently filed H–2B petitions, except as provided in paragraph (h)(6)(i)(D)(*2*) of this section. If the petitioner demonstrates to the satisfaction of USCIS that it has made reasonable efforts to locate but has failed to locate each such beneficiary within 1 year after the decision denying or revoking the previous H–2B petition on the basis of paragraph (h)(6)(i)(B) of this section, such condition of approval shall be deemed satisfied with respect to any H–2B petition filed 1 year or more after the denial or revocation. Such reasonable efforts shall include contacting all of each such beneficiary's known addresses.

(*2*) *Effect of subsequent denied or revoked petitions.* An H–2B petition filed by the same petitioner subsequent to a denial under paragraph (h)(6)(i)(B) of this section shall be subject to the condition of approval described in paragraph (h)(6)(i)(D)(*1*) of this section, regardless of prior satisfaction of such condition of approval with respect to a previously denied or revoked petition.

(E) *Eligible countries.* (*1*) H–2B petitions may be approved for nationals of countries that the Secretary of Homeland Security has designated as participating countries, with the concurrence of the Secretary of State, in a notice published in the FEDERAL REGISTER, taking into account factors, including but not limited to:

(*i*) The country's cooperation with respect to issuance of travel documents for citizens, subjects, nationals and residents of that country who are subject to a final order of removal;

(*ii*) The number of final and unexecuted orders of removal against citizens, subjects, nationals, and residents of that country;

(*iii*) The number of orders of removal executed against citizens, subjects, nationals and residents of that country; and

(*iv*) Such other factors as may serve the U.S. interest.

(*2*) A national from a country not on the list described in paragraph (h)(6)(i)(E)(*1*) of this section may be a beneficiary of an approved H–2B petition upon the request of a petitioner or potential H–2B petitioner, if the Secretary of Homeland Security, in his sole and unreviewable discretion, determines that it is in the U.S. interest for that alien to be a beneficiary of such petition. Determination of such a U.S. interest will take into account factors, including but not limited to:

(*i*) Evidence from the petitioner demonstrating that a worker with the required skills is not available from among foreign workers from a country currently on the list described in paragraph (h)(6)(i)(E)(*1*) of this section;

(*ii*) Evidence that the beneficiary has been admitted to the United States previously in H–2B status;

(*iii*) The potential for abuse, fraud, or other harm to the integrity of the H–2B visa program through the potential admission of a beneficiary from a country not currently on the list; and

(*iv*) Such other factors as may serve the U.S. interest.

(*3*) Once published, any designation of participating countries pursuant to paragraph (h)(6)(i)(E)(*1*) of this section shall be effective for one year after the date of publication in the FEDERAL REGISTER and shall be without effect at the end of that one-year period.

(F) *Petitioner agreements and notification requirements. (1) Agreements.* The petitioner agrees to notify DHS, within 2 work days, and beginning on a date

Butler's Exh. 77, p. 002

AR - 3312

Butler 02249

and in a manner specified in a notice published in the FEDERAL REGISTER if: An H–2B worker fails to report for work within 5 work days after the employment start date stated on the petition; the nonagricultural labor or services for which H–2B workers were hired were completed more than 30 days early; or an H–2B worker absconds from the worksite or is terminated prior to the completion of the nonagricultural labor or services for which he or she was hired. The petitioner also agrees to retain evidence of such notification and make it available for inspection by DHS officers for a one-year period beginning on the date of the notification.

(*2*) *Abscondment.* An H–2B worker has absconded if he or she has not reported for work for a period of 5 consecutive work days without the consent of the employer.

(ii) *Temporary services or labor*—(A) *Definition.* Temporary services or labor under the H–2B classification refers to any job in which the petitioner's need for the duties to be performed by the employee(s) is temporary, whether or not the underlying job can be described as permanent or temporary.

(B) *Nature of petitioner's need.* Employment is of a temporary nature when the employer needs a worker for a limited period of time. The employer must establish that the need for the employee will end in the near, definable future. Generally, that period of time will be limited to one year or less, but in the case of a one-time event could last up to 3 years. The petitioner's need for the services or labor shall be a one-time occurrence, a seasonal need, a peak load need, or an intermittent need.

(*1*) *One-time occurence.* The petitioner must establish that it has not employed workers to perform the services or labor in the past and that it will not need workers to perform the services or labor in the future, or that it has an employment situation that is otherwise permanent, but a temporary event of short duration has created the need for a temporary worker.

(*2*) *Seasonal need.* The petitioner must establish that the services or labor is traditionally tied to a season of the year by an event or pattern and is of a recurring nature. The petitioner shall specify the period(s) of time during each year in which it does not need the services or labor. The employment is not seasonal if the period during which the services or labor is not needed is unpredictable or subject to change or is considered a vacation period for the petitioner's permanent employees.

(*3*) *Peakload need.* The petitoner must establish that it regularly employs permanent workers to perform the services or labor at the place of employment and that it needs to supplement its permanent staff at the place of employment on a temporary basis due to a seasonal or short-term demand and that the temporary additions to staff will not become a part of the petitioner's regular operation.

(*4*) *Intermittent need.* The petitioner must establish that it has not employed permanent or full-time workers to perform the services or labor, but occasionally or intermittently needs temporary workers to perform services or labor for short periods.

(iii) *Procedures.* (A) Prior to filing a petition with the director to classify an alien as an H–2B worker, the petitioner shall apply for a temporary labor certification with the Secretary of Labor for all areas of the United States, except the Territory of Guam. In the Territory of Guam, the petitioning employer shall apply for a temporary labor certification with the Governor of Guam. The labor certification shall be advice to the director on whether or not United States workers capable of performing the temporary services or labor are available and whether or not the alien's employment will adversely affect the wages and working conditions of similarly employed United States workers.

(B) An H–2B petitioner shall be a United States employer, a United States agent, or a foreign employer filing through a United States agent. For purposes of paragraph (h) of this section, a foreign employer is any employer who is not amenable to service of process in the United States. A foreign employer may not directly petition for an H–2B nonimmigrant but must use the services of a United States agent to file a petition for an H–2B nonimmigrant. A United States

Butler's Exh. 77, p. 003

AR - 3313

Butler 02250

agent petitioning on behalf of a foreign employer must be authorized to file the petition, and to accept service of process in the United States in proceedings under section 274A of the Act, on behalf of the employer. The petitioning employer shall consider available United States workers for the temporary services or labor, and shall offer terms and conditions of employment which are consistent with the nature of the occupation, activity, and industry in the United States.

(C) The petitioner may not file an H–2B petition unless the United States petitioner has applied for a labor certification with the Secretary of Labor or the Governor of Guam within the time limits prescribed or accepted by each, and has obtained a favorable labor certification determination as required by paragraph (h)(6)(iv) or (h)(6)(v) of this section.

(D) The Secretary of Labor and the Governor of Guam shall separately establish procedures for administering the temporary labor certification program under his or her jurisdiction.

(E) After obtaining a favorable determination from the Secretary of Labor or the Governor of Guam, as appropriate, the petitioner shall file a petition on I–129, accompanied by the labor certification determination and supporting documents, with the director having jurisdiction in the area of intended employment.

(iv) *Labor certifications, except Guam—*

(A) *Secretary of Labor's determination.* An H–2B petition for temporary employment in the United States, except for temporary employment on Guam, shall be accompanied by an approved temporary labor certification from the Secretary of Labor stating that qualified workers in the United States are not available and that the alien's employment will not adversely affect wages and working conditions of similarly employed United States workers.

(B) *Validity of the labor certification.* The Secretary of Labor may issue a temporary labor certification for a period of up to one year.

(C) *U.S. Virgin Islands.* Temporary labor certifications filed under section 101(a)(15)(H)(ii)(b) of the Act for employment in the United States Virgin Islands may be approved only for entertainers and athletes and only for periods not to exceed 45 days.

(D) *Employment start date.* Beginning with petitions filed for workers for fiscal year 2010, an H–2B petition must state an employment start date that is the same as the date of need stated on the approved temporary labor certification. A petitioner filing an amended H–2B petition due to the unavailability of originally requested workers may state an employment start date later than the date of need stated on the previously approved temporary labor certification accompanying the amended H–2B petition.

(v) *Labor certification for Guam—*

(A) *Governor of Guam's determination.* An H–2B petition for temporary employment on Guam shall be accompanied by an approved temporary labor certification issued by the Governor of Guam stating that qualified workers in the United States are not available to perform the required services, and that the alien's employment will not adversely affect the wages and working conditions of United States resident workers who are similarly employed on Guam.

(B) *Validity of labor certification.* The Governor of Guam may issue a temporary labor certification for a period up to one year.

(C)–(D) [Reserved]

(E) *Criteria for Guam labor certifications.* The Governor of Guam shall, in consultation with the Service, establish systematic methods for determining the prevailing wage rates and working conditions for individual occupations on Guam and for making determinations as to availability of qualified United States residents.

(*1*) *Prevailing wage and working conditions.* The system to determine wages and working conditions must provide for consideration of wage rates and employment conditions for occupations in both the private and public sectors, in Guam and/or in the United States (as defined in section 101(a)(38) of the Act), and may not consider wages and working conditions outside of the United States. If the system includes utilitzation of advisory opinions and consultations, the opinions must be provided by officially sanctioned groups which reflect a balance of the

AR - 3314 Butler's Exh. 77, p. 004 Butler 02251

interests of the private and public sectors, government, unions and management.

(2) *Availability of United States workers.* The system for determining availability of qualified United States workers must require the prospective employer to:

(*i*) Advertise the availability of the position for a minimum of three consecutive days in the newspaper with the largest daily circulation on Guam;

(*ii*) Place a job offer with an appropriate agency of the Territorial Government which operates as a job referral service at least 30 days in advance of the need for the services to commence, except that for applications from the armed forces of the United States and those in the entertainment industry, the 30-day period may be reduced by the Governor to 10 days;

(*iii*) Conduct appropriate recruitment in other areas of the United States and its territories if sufficient qualified United States construction workers are not available on Guam to fill a job. The Governor of Guam may require a job order to be placed more than 30 days in advance of need to accommodate such recruitment;

(*iv*) Report to the appropriate agency the names of all United States resident workers who applied for the position, indicating those hired and the job-related reasons for not hiring;

(*v*) Offer all special considerations, such as housing and transportation expenses, to all United States resident workers who applied for the position, indicating those hired and the job-related reasons for not hiring;

(*vi*) Meet the prevailing wage rates and working conditions determined under the wages and working conditions system by the Governor; and

(*vii*) Agree to meet all Federal and Territorial requirements relating to employment, such as nondiscrimination, occupational safety, and minimum wage requirements.

(F) *Approval and publication of employment systems on Guam—(1) Systems.* The Commissioner of Immigration and Naturalization must approve the system to determine prevailing wages and working conditions and the system to determine availability of United States resident workers and any future modifications of the systems prior to implementation. If the Commissioner, in consultation with the Secretary of Labor, finds that the systems or modified systems meet the requirements of this section, the Commissioner shall publish them as a notice in the FEDERAL REGISTER and the Governor shall publish them as a public record in Guam.

(2) *Approval of construction wage rates.* The Commissioner must approve specific wage data and rates used for construction occupations on Guam prior to implementation of new rates. The Governor shall submit new wage survey data and proposed rates to the Commissioner for approval at least eight weeks before authority to use existing rates expires. Surveys shall be conducted at least every two years, unless the Commissioner prescribes a lesser period.

(G) *Reporting.* The Governor shall provide the Commissioner statistical data on temporary labor certification workload and determinations. This information shall be submitted quarterly no later than 30 days after the quarter ends.

(H) *Invalidation of temporary labor certification issued by the Governor of Guam—(1) General.* A temporary labor certification issued by the Governor of Guam may be invalidated by a director if it is determined by the director or a court of law that the certification request involved fraud or willful misrepresentation. A temporary labor certification may also be invalidated if the director determines that the certification involved gross error.

(2) *Notice of intent to invalidate.* If the director intends to invalidate a temporary labor certification, a notice of intent shall be served upon the employer, detailing the reasons for the intended invalidation. The employer shall have 30 days in which to file a written response in rebuttal to the notice of intent. The director shall consider all evidence submitted upon rebuttal in reaching a decision.

(3) *Appeal of invalidation.* An employer may appeal the invalidation of a temporary labor certification in accordance with part 103 of this chapter.

(vi) *Evidence for H–2B petitions.* An H–2B petition shall be accompanied by:

Butler's Exh. 77, p. 005

AR - 3315

Butler 02252

(A) *Labor certification.* An approved temporary labor certification issued by the Secretary of Labor or the Governor of Guam, as appropriate;

(B) [Reserved]

(C) *Alien's qualifications.* In petitions where the temporary labor certification application requires certain education, training, experience, or special requirements of the beneficiary who is present in the United States, documentation that the alien qualifies for the job offer as specified in the application for such temporary labor certification. This requirement also applies to the named beneficiary who is abroad on the basis of special provisions stated in paragraph (h)(2)(iii) of this section;

(D) *Statement of need.* A statement describing in detail the temporary situation or conditions which make it necessary to bring the alien to the United States and whether the need is a one-time occurrence, seasonal, peakload, or intermittent. If the need is seasonal, peakload, or intermittent, the statement shall indicate whether the situation or conditions are expected to be recurrent; or

(E) *Liability for transportation costs.* The employer will be liable for the reasonable costs of return transportation of the alien abroad, if the alien is dismissed from employment for any reason by the employer before the end of the period of authorized admission pursuant to section 214(c)(5) of the Act. If the beneficiary voluntarily terminates his or her employment prior to the expiration of the validity of the petition, the alien has not been dismissed. If the beneficiary believes that the employer has not complied with this provision, the beneficiary shall advise the Service Center which adjudicated the petition in writing. The complaint will be retained in the file relating to the petition. Within the context of this paragraph, the term "abroad" means the alien's last place of foreign residence. This provision applies to any employer whose offer of employment became the basis for the alien obtaining or continuing H–2B status.

(vii) *Traded professional H–2B athletes.* In the case of a professional H–2B athlete who is traded from one organization to another organization, employment authorization for the player will automatically continue for a period of 30 days after the player's acquisition by the new organization, within which time the new organization is expected to file a new Form I–129 for H–2B nonimmigrant classification. If a new Form I–129 is not filed within 30 days, employment authorization will cease. If a new Form I–129 is filed within 30 days, the professional athlete shall be deemed to be in valid H–2B status, and employment shall continue to be authorized, until the petition is adjudicated. If the new petition is denied, employment authorization will cease.

(viii) *Substitution of beneficiaries.* Beneficiaries of H–2B petitions that are approved for named or unnamed beneficiaries who have not been admitted may be substituted only if the employer can demonstrate that the total number of beneficiaries will not exceed the number of beneficiaries certified in the original temporary labor certification. Beneficiaries who were admitted to the United States may not be substituted without a new petition accompanied by a newly approved temporary labor certification.

(A) To substitute beneficiaries who were previously approved for consular processing but have not been admitted with aliens who are outside of the United States, the petitioner shall, by letter and a copy of the petition approval notice, notify the consular office at which the alien will apply for a visa or the port of entry where the alien will apply for admission. The petitioner shall also submit evidence of the qualifications of beneficiaries to the consular office or port of entry prior to issuance of a visa or admission, if applicable.

(B) To substitute beneficiaries who were previously approved for consular processing but have not been admitted with aliens who are currently in the United States, the petitioner shall file an amended petition with fees at the USCIS Service Center where the original petition was filed, with a copy of the original petition approval notice, a statement explaining why the substitution is necessary, evidence of the qualifications of beneficiaries, if applicable, evidence of the beneficiaries' current status in the United States,

Butler's Exh. 77, p. 006

AR - 3316

Butler 02253

and evidence that the number of beneficiaries will not exceed the number allocated on the approved temporary labor certification, such as employment records or other documentary evidence to establish that the number of visas sought in the amended petition were not already issued. The amended petition must retain a period of employment within the same half of the same fiscal year as the original petition. Otherwise, a new temporary labor certification issued by DOL or the Governor of Guam and subsequent H–2B petition are required.

(ix) *Enforcement.* The Secretary of Labor may investigate employers to enforce compliance with the conditions of a petition and Department of Labor-approved temporary labor certification to admit or otherwise provide status to an H–2B worker.

(7) *Petition for alien trainee or participant in a special education exchange visitor program (H–3)*—(i) *Alien trainee.* The H–3 trainee is a nonimmigrant who seeks to enter the United States at the invitation of an organization or individual for the purpose of receiving training in any field of endeavor, such as agriculture, commerce, communications, finance, government, transportation, or the professions, as well as training in a purely industrial establishment. This category shall not apply to physicians, who are statutorily ineligible to use H–3 classification in order to receive any type of graduate medical education or training.

(A) *Externs.* A hospital approved by the American Medical Association or the American Osteopathic Association for either an internship or residency program may petition to classify as an H–3 trainee a medical student attending a medical school abroad, if the alien will engage in employment as an extern during his/her medical school vacation.

(B) *Nurses.* A petitioner may seek H–3 classification for a nurse who is not H–1 if it can be established that there is a genuine need for the nurse to receive a brief period of training that is unavailable in the alien's native country and such training is designed to benefit the nurse and the overseas employer upon the nurse's return to the country of origin, if:

(*1*) The beneficiary has obtained a full and unrestricted license to practice professional nursing in the country where the beneficiary obtained a nursing education, or such education was obtained in the United States or Canada; and

(*2*) The petitioner provides a statement certifying that the beneficiary is fully qualified under the laws governing the place where the training will be received to engage in such training, and that under those laws the petitioner is authorized to give the beneficiary the desired training.

(ii) *Evidence required for petition involving alien trainee*—(A) *Conditions.* The petitioner is required to demonstrate that:

(*1*) The proposed training is not available in the alien's own country;

(*2*) The beneficiary will not be placed in a position which is in the normal operation of the business and in which citizens and resident workers are regularly employed;

(*3*) The beneficiary will not engage in productive employment unless such employment is incidental and necessary to the training; and

(*4*) The training will benefit the beneficiary in pursuing a career outside the United States.

(B) *Description of training program.* Each petition for a trainee must include a statement which:

(*1*) Describes the type of training and supervision to be given, and the structure of the training program;

(*2*) Sets forth the proportion of time that will be devoted to productive employment;

(*3*) Shows the number of hours that will be spent, respectively, in classroom instruction and in on-the-job training;

(*4*) Describes the career abroad for which the training will prepare the alien;

(*5*) Indicates the reasons why such training cannot be obtained in the alien's country and why it is necessary for the alien to be trained in the United States; and

(*6*) Indicates the source of any remuneration received by the trainee and any benefit which will accrue to the petitioner for providing the training.

Dated: June 19, 1984.

William von Raab,

Commissioner of Customs.

[FR Doc. 84-16821 Filed 6-22-84; 8:45 am]

BILLING CODE 4820-02-M

DEPARTMENT OF LABOR

Employment and Training Administration

20 CFR Part 621

[General Administration Letters Nos. 5-84 and 10-84]

Procedures for Processing Applications for Certification of Temporary Employment in Nonagricultural Occupations in the United States

AGENCY: Employment and Training Administration, Labor.

ACTION: Rule-related notice.

SUMMARY: The Employment and Training Administration (ETA) of the Department of Labor (DOL) has issued two directives explaining the procedures for processing applications for certification of the temporary employment of nonimmigrant aliens in nonagricultural occupations in the United States. They are being published in the Federal Register for the information of the general public.

DATES: General Administration Letter (GAL) No. 5-84 was issued on December 1, 1983, and GAL No. 10-84 was issued on April 23, 1984.

FOR FURTHER INFORMATION CONTACT: Mr. Thomas M. Bruening. Telephone: 202-376-6728.

SUPPLEMENTARY INFORMATION: Whether to grant or deny an employer's petition to import a nonimmigrant alien to the United States for the purpose of temporary employment is solely the decision of the Attorney General and his designee, the Commissioner of the Immigration and Naturalization Service (INS). 8 U.S.C. 1101(a)(15)(H)(ii) and 1184 (a) and (c). Pursuant to the requirement that the Attorney General consult with appropriate agencies of the government concerning the importation of nonimmigrant (so-called "H-2") workers, INS has determined that prior to granting or denying such petitions it first will request DOL to advise INS on the availability of qualified U.S. workers for the jobs offered to the H-2 aliens, and whether the wages and working conditions attached to such job offers will adversely affect similarly employed U.S. workers. 8 U.S.C. 1184(c); 8 CFR 214.2(h)(3)(i).

Pursuant to the INS regulations, DOL has published regulations at 20 CFR Part 621 for the certification of temporary employment of nonimmigrant aliens in nonagricultural employment in the United States. The Employment and Training Administration (ETA) of DOL administers those regulations and has issued two directives to ETA regional offices and State employment security agencies outlining general processing standards for temporary alien nonagricultural labor certification applications. General Administration Letter (GAL) No. 5-84 (December 1, 1983) sets forth procedures for temporary alien labor certification applications for employment in the entertainment industry. GAL No. 10-84 (April 23, 1984) sets forth the procedures for processing applications for temporary alien labor certifications in other nonagricultural occupations.

GAL Nos. 5-84 and 10-84 are reprinted below for the information of the general public.

Signed at Washington, D.C., this 19th day of June, 1984.

Patrick J. O'Keefe,

Deputy Assistant Secretary for Employment and Training.

Dated: December 1, 1983.

Directive: General Administration Letter No. 5-84

To: All State Employment Security Agencies

From: Royal S. Dellinger, Acting Assistant Secretary of Labor

Subject: Procedures for Temporary Labor Certifications in the Entertainment Industry

1. *Purpose.* To transmit subject procedure.

2. *Reference.* 20 CFR Parts 621 and 655.

3. *Background.* On May 6, 1983, all regions were provided interim processing and recruitment procedures for temporary applications in the entertainment industry. The attached procedures replace those interim procedures.

4. *Action Required.* Administrators are requested to:

a. Provide attached procedures to appropriate staff.

b. Instruct staff to provide application forms and advise employers of procedures for filing temporary labor certification applications in the entertainment industry.

5. *Inquires.* Direct questions to the appropriate regional office.

6. *Attachments.*

a. Procedures for temporary labor certification in the entertainment industry.

b. List of responsible regional and State Job Service Offices.

c. Map of OSEs and areas covered.

d. List of unions in the entertainment industry.

Expiration date: December 31, 1984.

Procedures for Temporary Labor Certifications in the Entertainment Industry

I. Background.

The Department has been addressing the issue of nonimmigrant aliens coming to the United States for temporary employment in the entertainment industry while high levels of unemployment among U.S. workers in the industry still persist.

The following procedures completely centralize temporary labor certification authority in the entertainment industry in three regions; clarify processing requirements; and ensure uniformity among the responsible regions.

II. Operating Guidelines

A. Decisions on applications by employers seeking temporary admission of nonimmigrant aliens for temporary employment in entertainment occupations require special considerations, such as:

1. An assessment of requirements of the role or the act to be performed.

2. The need to keep the unity of a group or company and support personnel.

3. The role of labor unions in this highly unionized field and their impact on employment opportunities.

4. The willingness of available U.S. workers to fulfill the employer's prescribed itinerary.

B. Based on factors, such as the need to develop expertise, the concentration of activities for requests for aliens in entertainment, and the proximity to sources that know about the availability of U.S. performers in various entertainment fields, regional certifying officers in New York City, Dallas, and San Francisco are designated as the appropriate officials for issuing determinations on applications for temporary employment of aliens in the entertainment industry.

C. Offices of the State job services in New York City, Austin and Los Angeles are designated as Offices Specializing in Entertainment (OSEs). These offices shall receive temporary applications in the entertainment industry directly from employers within their jurisdiction for processing. Permanent applications in the entertainment industry, however, are processed by each State agency and the 10 regional offices.

Butler's Exh. 78, p. 001

AR - 3318

Butler 02255

HeinOnline -- 49 Fed. Reg. 25837 1984

b. Final determination Form, ETA 7145T

Rescissions: GAL 23-82.

Expiration date: April 30, 1985.

Procedures for Temporary Labor Certifications in Nonagricultural Occupations

I. Background

The regulations at 20 CFR Part 621 govern the labor certification process for the temporary employment of nonimmigrant aliens in the United States in occupations other than in agriculture and logging. Occupations on Guam are treated separately under other regulations. The policies in Part 655—Labor Certification Process for the Temporary Employment of Aliens in the United States, and Part 652—Establishment and Functioning of State Employment Services are followed in processing and making determinations on temporary nonagricultural applications.

This document replaces all previous instructions and outlines general processing standards for temporary nonagricultural applications, except for professional athletes in team sports and employment in the entertainment industry.

Professional sports applications are processed by the National Office according to policies and procedures which evolved from negotiations with the INS, major and minor leagues, player organizations, and exports in the industry. Procedures for temporary applications in the entertainment industry are included in General Administration Letter No. 5-84.

II. Guidelines for Determining the Temporary or Permanent Nature of a Job Offer

To determine an alien's eligibility for admission on an H-2 visa, INS requires a Department of Labor certification based on adverse effect as well as availability *before* they rule on the temporary or permanent nature of the employment.

Because the availability test of U.S. workers in a given occupation can vary considerably depending on whether a job is permanent or temporary, the Department of Labor must consider whether in its judgment the job offered to an alien is, in fact, temporary or not. The guidelines below will help staff make this judgment:

A. Tests for determining the temporary or permanent nature of the employment are related to the job and job duties to be performed—not the person who will perform the duties; in other words, whether specific duties which the alien(s) will perform are needed for a temporary period or on a continuing basis—regardless of who will perform them.

The work must be above and beyond the employer's normal level of operation and not expected to become a part of the employer's future operations. Staff can consider the employer's "peakload" requirements, when temporary additions to permanent staff in an occupation are required due to seasonal or short-term demand, e.g., in resort establishments.

B. Answers to the following questions will help to determine the temporary or permanent nature of the job offered the alien(s):

1. Is the job included in the employer's regular business operation? If yes, are duties to be performed significantly different from the normal or regular operation? Is the equipment similar? Is the work of the same general skill and knowledge level?

2. Is the period for which the alien is requested reasonable in terms of the job to be done?

3. Are the number of aliens requested reasonable in terms of the job to be done and the time requested? Sometimes employers give "ball park" estimates which can be made more precise to avoid situations which would lead to less than full-time employment for U.S. workers and aliens alike.

4. Is this a request for an extension or does the employer often or repeatedly request temporary aliens? If yes, refer to item F

5. Is there another way that the employer might reasonably be expected to meet his/her needs?

C. Temporary employment should not be confused with part-time employment which does not qualify for temporary labor certification. Part-time concerns work hours, days, and weeks less than those normal for the occupation in the employment area.

D. INS has the ultimate authority to reject the Department of Labor's advice on temporary alien employment. However, if the Department of Labor is convinced that a job is not temporary and INS plans to or does admit the aliens as nonimmigrants, DOL will still not issue a certification.

E. If the Department of Labor learns that an employer for whom a permanent certification was issued, also applies for a temporary certification for the same job (generally because of visa problems), a notice should be issued to the employer that certification cannot be made and an appropriate explanation of the reasons.

F Some employers request extensions, sometimes several, for jobs represented as temporary. Others repeatedly request approval to bring in temporary workers. In such cases, State agencies and regional offices will assure that the employer is not evading its responsibility to obtain an adequate domestic work force; or—as stated earlier—an effort to substitute nonimmigrants when visa quotas cause delays in admitting immigrants. To help staff decide, they should consider the following:

1. Were previous extensions granted, and if so does the period covered exceed reasonable grounds for temporary work?

2. What reason does the employer give for incorrect time estimate(s)?

3. Has the availability picture or the prevailing wage changed?

4. Depending on the skill level and training time for the occupation and the industry practice on training, is it possible to train available workers?

5. If it is a higher skilled job, what, consistent with industry practice, is being done to upgrade current employed lower skilled workers and fill in behind them from the local work force?

6. What, consistent with industry practice, is being done to cross-train the present work force to handle peak demands?

7 If an apprenticable trade is involved, does the employer have, consistent with industry practice, the accepted ratio of apprentices to journeymen?

G. Repeated applications from the same employer should be subject to very close scrutiny and satisfactory answers to the same type of questioning as listed above. Also, the employer should be asked to document or explain in writing what is being done to overcome reliance on alien workers before a new certification is issued.

H. If a job for which a temporary alien worker is sought is not *truly* temporary in nature, decline to issue a certification even though U.S. workers are not available and wages being offered are prevailing.

III. Filing Instructions

A. An employer who wants to use foreign workers for temporary employment must file a temporary labor certification application (OMB Approval No. 1205-0015) with a local office of the State job service.

B. Every temporary application should include:

1. ETA 750, Part A, the offer of employment portion of the Application for Alien Employment Certification form signed by the employer. Note: Part B, Statement of Qualifications of Alien is not required.

Butler's Exh. 78, p. 002

Butler 02256

HeinOnline -- 49 Fed. Reg. 25842 1984

2. Documentation clearly showing the employer's efforts to recruit U.S. workers.

3. A statement explaining why the job opportunity cannot be performed by a permanent worker on a continuing basis.

C. To allow for enough recruitment of U.S. workers and enough processing time by State and regional offices, the local office shall advise employers to file requests for temporary labor certification at least 45 days before the labor certification is needed in order to receive a timely determination.

D. Unless the Certifying Officer specifies otherwise, the local office should return to employers' requests for temporary labor certification filed more than 120 days before the worker is needed and advise them to refile the application no more than 120 days before the worker is needed. This is necessary since the supply and availability of temporary U.S. workers change over short periods of time and an adequate test of the labor market cannot be made for a longer period.

E. More than one alien may be requested on an application if they are to do the same type of services in the same occupation, in the same area of employment during the same period. However, the number requested may not exceed the actual number of job openings.

F. If the employer's agent files the application, the employer must sign the statement on the Application for Alien Employment Certification which authorizes the agent to act on the employer's behalf. The employer is fully responsible for the accuracy of all representations made by the agent on the employer's behalf. An attorney must file a Notice of Appearance (Form G–28) naming the attorney's client(s).

G. Requests for temporary labor certification may be filed for employment up to, but not exceeding 12 months. If the original intended duration of the temporary employment requires nonimmigrant aliens for a finite period not exceeding 3 years, or if unforeseen circumstances require an extension of an approved certification, a new application must be submitted each period beyond 1 year. This allows the Department of Labor to make a current determination of the availability of and adverse effect on U.S. workers. The period (including extensions) for which a particular job may be certified for temporary alien(s) employment may not exceed 3 consecutive years, except for recurring peakload or seasonal employment.

H. When the job opportunity requires the work to be done in more than one area of employment, the application must include the itinerary or locations and duration of work in each location. Such applications will be filed with the local State Job Service office having jurisdiction over the area where the employment will begin.

IV State Job Service Processing

A. Upon receiving a request for temporary labor certification, the local office shall review the job offer for completeness. A job offer containing a wage below the prevailing wage for such employment in the local area is inappropriate and would adversely affect the wages of similarly employed U.S. workers. The local office shall determine the prevailing wage, guided by the regulations at 20 CFR 656.40.

B. If qualified U.S workers are registered with the local office, a job order should be prepared, using the information on the application, and placed into the regular ES system for 10 days. During this period, the local office should refer qualified applicants who walk-in and those in its active files.

C. The employer shall advertise the job opportunity, before or after filing the application, in a newspaper of general circulation for 3 consecutive days or in a professional, trade, or ethnic publication, whichever is most appropriate for the occupation and most likely to bring responses from U.S. workers. The advertisement shall:

1. Identify the employer's name, address, and location of the employment (except ads for aerospace engineers which shall be placed over the name of the local Job Service office) if other than the employer's location;

2. Describe the job opportunity with particularity;

3. State the rate of pay, which shall not be below the prevailing wage for the occupation;

4. Offer prevailing working conditions;

5. State the employer's minimum job requirements;

6. Offer wages, terms, and conditions of employment which are not less favorable than those offered to the alien.

D. The employer shall document that unions and other recruitment sources, appropriate for the occupation and customary in the industry, were unable to refer qualified U.S. workers.

E. The employer must provide the local office a copy of the advertisement showing the name of the publication and the dates published and written results of all recruitment which must:

1. Identify each recruitment source by name;

2. State the name, address, and telephone number and provide resumes (if submitted to the employer) of each U.S. worker who applied for the job; and

3. Explain the lawful job-related reasons for not hiring each U.S. worker.

F. After the recruitment period, the local office shall send the application, results of recruitment, prevailing wage findings, and other appropriate information to the State office for additional data and comments and transmission to the regional office.

V Temporary Labor Certification Determinations

A. The certifying officer shall determine whether to grant or to deny the temporary labor certification, or to issue a notice that the required determination cannot be made based on whether or not:

1. U.S. workers are available for the temporary employment opportunity:

a. The certifying officer, in judging if a U.S. worker is available for the temporary employment opportunity, shall determine from documented results of the employer and local office recruitment efforts if there are other appropriate sources of workers, where the employer shall have recruited or may recruit U.S. workers. If further recruitment is required, the application should be returned to the State Job Service Office with specific instructions for the additional recruitment.

b. To determine if a U.S. worker is available, the certifying officer shall consider U.S. workers living or working in the area of intended employment, and may also consider U.S. workers who are willing to move from elsewhere to take the job at their own expense, or at the employer's expense, if the prevailing practice among employers who employ workers in the occupation is to pay such relocation expenses.

c. The certifying officer shall consider a U.S. worker able and qualified for the job opportunity if the worker, by education, training, experience, or a combination thereof, can perform the duties involved in the occupation as customarily performed by other U.S. workers similarly employed and is willing to accept the specific job opportunity.

d. To determine if U.S. workers are available for job opportunities that will be performed in more than one location, workers must be available in each location on dates specified by the employer.

2. The employment of the alien will adversely affect wages and working conditions of U.S. workers similarly employed. To determine this, the certifying officer shall consider such things as labor market information, special circumstances of the industry, organization, and/or occupation, the

EMPLOYMENT AND TRAINING ADMINISTRATION ADVISORY SYSTEM U.S. Department of Labor Washington, D.C. 20210	CLASSIFICATION Temporary Labor Certification/H-2B Entertainers
	CORRESPONDENCE SYMBOL DFLC
	ISSUE DATE May 31, 2006

ADVISORY: FOREIGN LABOR CERTIFICATION TRAINING AND EMPLOYMENT GUIDANCE LETTER NO. 31-05

TO: **FLC-NATIONAL PROCESSING CENTER DIRECTORS**
FLC-BACKLOG ELIMINATION CENTER DIRECTORS

FROM: **EMILY STOVER DeROCCO**
Assistant Secretary

SUBJECT: **Procedures for Temporary Labor Certification in the Entertainment Industry under the H-2B Visa Program**

1. **Purpose.** This guidance letter and its attachments replace and supersede prior operating procedures and policy guidance within the Employment and Training Administration (ETA) for H-2B certifications in the entertainment industry, including attachments I - IV of ETA Training and Employment Guidance Letter No. 4-03 (TEGL 4-03). This letter describes the special procedures in ETA governing the H-2B nonimmigrant labor certification process for temporary positions in the entertainment industry. This TEGL, as revised, identifies the Chicago National Processing Center as the Center designated to issue ETA determinations on applications for certification to employ temporary workers in the entertainment industry which are initially filed by employers with designated Offices Specializing in Entertainment (OSEs) within the State Workforce Agencies (SWAs). This is the only substantive change from previous procedures, under which ETA's New York City, Dallas, and San Francisco Regional Certifying Officers were designated to issue determinations on these applications.

2. **References.** 20 CFR §§655.1 through 655.4, and §656.40.

3. **Background.** The H-2B visa classification applies to foreign workers coming temporarily to the United States to perform nonagricultural work of a temporary or seasonal nature. The Code of Federal Regulations at Title 20, Part 655, Subpart A requires that, before petitioning the Department of Homeland Security's (DHS) United States Citizenship and Immigration Services (USCIS) for authorization to hire H-2B workers – which requires the filing of a nonimmigrant worker visa petition with USCIS – employers obtain: (1) a temporary labor certification from the Secretary of Labor advising USCIS that the employer has established, to the satisfaction of the Department of Labor (DOL), that no United States workers capable of performing the temporary services or labor are available and that the foreign worker's

RESCISSIONS: DFLC TEGL No.4-03	EXPIRATION DATE: Continuing

employment will not adversely affect the wages and working conditions of similarly employed United States workers, or, alternatively, (2) a notice from DOL that such a certification cannot be made.

For purposes of temporary employment of foreign workers under the H-2B program, DOL's certification addresses the occupational classification named in the employer's application and the (un)availability of qualified United States workers, not the qualifications of individual foreign worker(s) who might fill the employer's opening(s) in that occupational classification.

Due to the unique characteristics of the entertainment industry, the Employment and Training Administration has established the following procedures for the processing of employer applications for certification of temporary positions in that industry. These procedures clarify processing requirements and continue to provide that applications are filed with one of three state Offices Specializing in Entertainment and then centralize processing authority for temporary labor certifications related to the entertainment industry in the Chicago National Processing Center.

4. **Discussion.**

Operating Guidelines

A. The Certifying Officer at the Chicago National Processing Center is designated as the appropriate ETA official to issue determinations on applications for **temporary** employment of foreign workers in the entertainment industry.

B. Offices of the SWAs in New York, New York; Austin, Texas; and Sacramento, California; are designated as OSEs. These offices exclusively shall receive and process applications for certification of **temporary** positions in the entertainment industry. Each OSE shall accept applications directly from employers in its jurisdiction. The states served by each OSE are listed in Attachments 1 and 2 to this guidance. OSEs shall forward approved applications to the Chicago National Processing Center.

C. Canadian musicians who enter the United States to perform within a 50-mile area adjacent to the Canadian border for a period of 30 days or less are pre-certified and not subject to these procedures. In these cases, employers file nonimmigrant worker petitions directly with USCIS in accordance with USCIS guidelines.

D. The Virgin Islands Nonimmigrant Alien Adjustment Act of 1981, Pub. L. 97-271, limits temporary employment of entertainers in the U.S. Virgin Islands to periods not to exceed 45 days. Therefore, the period of labor certification for such applications may not exceed 45 days.

E. Occupations in the entertainment industry shall include performers and all technical and support personnel involved with a performance.

F. When a job offer contains requirements or conditions which preclude effective recruitment of United States workers, e.g., there is no employer in the United States, the OSE shall disregard the recruitment procedures below and immediately send the application to the Chicago National Processing Center for determination.

Butler's Exh. 79, p. 002

Procedures

A. Temporary labor certification applications for foreign workers in the entertainment industry shall be filed by employers with the OSE serving the area of intended employment (see map of OSE jurisdictions). Note: When the job opportunity requires the work to be performed in more than one OSE jurisdiction, the application should be filed with the OSE having jurisdiction over the area where the employment will begin.

B. To allow for sufficient recruitment of United States workers, and to give the OSE and the Chicago National Processing Center enough time to process the application and issue a timely determination, employers should be advised to file their applications at least 60 calendar days but no more than 120 days prior to the employment start date (date of need). The Department of Labor cannot assure a timely determination if the employer files an application for labor certification less than 60 days prior to its date of need. The OSE must return to the employer applications that are filed more than 120 days prior to the date of need.

C. When filed, the temporary application must include:

   1. A completed Form ETA-750, Part A, the "Offer of Employment" portion of the Alien Employment Certification form signed by the employer.

   2. An itinerary of locations and duration of work in each location, when there is more than one worksite.

   3. Documentation of the employer's efforts, if any, to recruit United States workers, and the results of those efforts.

D. The OSE shall review the application for completeness and determine the prevailing wage, guided by standards in regulations at 20 CFR §656.40 for each location listed in the itinerary.

E. The employer must specify a wage which meets or exceeds the prevailing hourly, daily, or weekly rate and covers each day of the workweek that the foreign worker is in the United States for the duration of the employment regardless of hours worked. The employer must be willing to pay the applicable wage for each location listed on the itinerary for work performed in that location.

F. The employer may advertise the job opportunity, before or after filing the application, in a national publication that is likely to bring responses from United States workers. The advertisement shall:

   1. Identify the employer's name, address, and the location of the employment, if other than the employer's location;

   2. Describe the job opportunity in detail;

   3. State the rate of pay, which shall not be below the prevailing wage for the occupation;

   4. Offer prevailing working conditions;

FIELD ASSISTANCE BULLETIN NO. 2007-1

MEMORANDUM FOR REGIONAL ADMINISTRATORS
DISTRICT DIRECTORS

FROM:
PAUL DECAMP
Administrator

SUBJECT:
Enforcement Provisions Applicable to H-2B Workers

The H-2B visa program of the Immigration and Nationality Act (INA) allows employers to hire foreign workers to meet a temporary need for nonprofessional, nonagricultural skills. The Employment Training Administration issues H-2B labor certifications for use in securing H-2B visas. *See* www.foreign-laborcert.doleta.gov/h-2b.cfm.

The INA and its implementing regulations provide WHD **no** direct authority to enforce the conditions of H-2B visa petitions, including the prevailing wage. The INA does not, however, preclude application of WHD-enforced statutes to H-2B workers. Consequently, WHD enforces all applicable provisions of such laws (*e.g.*, the FLSA, SCA, DBRA, MSPA, and OSHAct FS/TLC) with respect to H-2B workers. Where it is the highest applicable minimum wage, the WHD will use the applicable H-2B prevailing wage (1) as the regular rate for FLSA OT [see FOH § 32j01 (Multiple minima) and FOH § 32j08(b) (Deductions in overtime weeks)], and (2) as the wages owed for work subject to MSPA.

The INA [8 U.S.C. § 1184(c)(14)] authorizes the Department of Homeland Security (DHS) to impose administrative remedies on, and deny future visa petitions filed by, employers who violate certain H-2B visa conditions . Questions concerning this authority should be directed to DHS.

Evidence concerning substandard housing conditions provided to H-2B nonimmigrant workers should be referred to the appropriate state or local housing authorities under the procedures set forth in FOH § 52a11. Evidence of such conditions must be considered in enforcing the FLSA if the employer is taking a wage credit for the housing under section 3(m). An employer cannot take a section 3(m) wage credit for the reasonable cost of providing housing for an employee if the housing is furnished in violation of any Federal, State, or local ordinance or prohibition. Normal procedures will be followed for all MSPA-covered employment including housing and transportation.

Workers' rights cards for H-2B workers are available, in English and Spanish, for distribution to H-2B workers and other interested parties.

EMPLOYMENT AND TRAINING ADMINISTRATION ADVISORY SYSTEM U.S. DEPARTMENT OF LABOR Washington, D. C. 20210	CLASSIFICATION H-2B Non-Agricultural Program
	CORRESPONDENCE SYMBOL OFLC
	ISSUE DATE June 12, 2007

ADVISORY: **FOREIGN LABOR CERTIFICATION TRAINING AND EMPLOYMENT GUIDANCE LETTER NO.** 27-06

TO: **OFLC-NATIONAL PROCESSING CENTER DIRECTORS**
STATE WORKFORCE AGENCY ADMINISTRATORS

FROM: **EMILY STOVER DeROCCO**
Assistant Secretary

SUBJECT: **Special Guidelines for Processing H-2B Temporary Labor Certification in Tree Planting and Related Reforestation Occupations**

1. **Purpose**. To outline special guidelines as part of the H-2B labor certification process for employers who desire to employ tree planters and related reforestation occupations in the United States.

2. **References**. Immigration and Nationality Act (INA) sec. 101(a)(15)(H)(ii)(b); 20 Code of Federal Regulations (CFR) Parts 652 and 655; 8 CFR 214.2(h)(6); Federal Register Notice, Vol. 70, No. 137, pps. 41430-41438; Migrant and Seasonal Agricultural Worker Protection Act, 29 U.S.C. 1801, et seq.; 29 CFR Part 500; and Training and Employment Guidance Letter (TEGL) 21-06, Procedures for H-2B Temporary Labor Certification in Non-Agricultural Occupations.

3. **Background**. The H-2B nonimmigrant program permits employers to hire foreign workers to come temporarily to the United States (U.S.) and perform temporary non-agricultural services or labor on a one-time, seasonal, peakload, or intermittent basis. The H-2B visa classification requires the Secretary of Homeland Security to consult with appropriate agencies before admitting H-2B nonimmigrants. Homeland Security regulations require the intending employer first to apply for a temporary labor certification from the Secretary of Labor advising the Department of Homeland Security's United States Citizenship and Immigration Services (USCIS) as to whether qualified U.S. workers are available, and whether the alien's employment will adversely affect the wages and working conditions of similarly employed U.S. workers, or a notice that such certification cannot be made prior to filing an H-2B visa petition with USCIS. Historically, H-2B applications for non-agricultural occupations were processed through the Employment and Training Administration's (ETA) Regional Offices.

RESCISSIONS	EXPIRATION DATE
None	Continuing

However, in December 2004, the Department opened two new National Processing Centers (NPCs), one each located in Atlanta and Chicago. These Centers have been designated to process applications to employ foreign workers for temporary positions under the H-2B program. The Department published a notice in the Federal Register (Vol. 70, No. 137, pages 41430-41438) on July 19, 2005, clarifying that employers must file two (2) originals of the ETA Form 750, Part A, directly with the State Workforce Agency (SWA) serving the area of intended employment and, once reviewed, the SWA will send the complete application to the appropriate NPC. That process does not apply to employer applications for emergency boilermakers, entertainers, logging, and professional team sports, which were given special filing instructions in the notice.

The guidelines outlined in this document work in conjunction with this centralized filing process, and ensure greater consistency in the processing of these H-2B applications through the Centers.

4. **Procedures for Tree Planting and Related Reforestation Activities.** Due to a number of complexities, special guidelines for processing H-2B applications for tree planting and related reforestation occupations are required. For example, although the occupations of Tree Planter, Forest Worker and Laborer, and Brush Clearer have many similarities to agriculture, they are not so classified under either the Internal Revenue Code or the Fair Labor Standards Act (FLSA). Therefore, under the Immigration and Nationality Act (INA) they are not authorized for the H-2A visa and must be processed as H-2B occupations. However, two court decisions (Bresgal v. Brock, 833 F. 2d 763 (9th Cir. 1987), and Bracamantes v. Weyerhauser Co., 840 F.2d 271 (5th Cir. 1988)) directed the Department to cover migrant and seasonal forestry workers under the Migrant and Seasonal Agricultural Worker Protection Act (MSPA). In addition, because forestry occupations may have elements of both agricultural and non-agricultural occupations or involve multi-state itineraries, these applications cannot be solely processed according to the general procedures for H-2B in TEGL 21-06.

   Attachment A outlines special guidelines for processing labor certification applications submitted by employers for occupations involved in tree planting and related reforestation activities under the H-2B program, subject to these special provisions. Unless otherwise specified in Attachment A, applications submitted for these occupations must comply with the requirements for H-2B applications contained in TEGL 21-06 issued on April 4, 2007.

5. **Effective Date.** This guidance applies to all temporary labor certification applications for occupations involved in tree planting and related reforestation activities received by the SWAs on or after July 1, 2007.

6. **Action Required.** NPC Directors and SWA Administrators are requested to provide Center and SWA staff involved in the processing of H-2B applications with a copy of these procedures.

7. **Inquiries.** Questions from State Workforce Agency staff should be directed to the appropriate NPC Certifying Officer.

8. **Attachment.**

   Attachment A: Special Guidelines for Occupations Involving Tree Planting and Related Reforestation Activities under the H-2B Program

Attachment A
Special Guidelines for Occupations Involving Tree Planting and Related Reforestation Activities under the H-2B Program

This section outlines special guidelines for employer applications involving tree planting and related reforestation occupations under the H-2B program. Unless otherwise specified in this attachment, applications submitted for these occupations must comply with the requirements for H-2B applications contained in TEGL 21-06 issued on April 4, 2007.

I. Application of Temporary Need Standards Involving Tree Planting and Related Reforestation Occupations

A. The employer's need for temporary non-agricultural services or labor in tree planting and related reforestation occupations must be justified to the NPC Certifying Officer under one of the following standards: (1) a one-time occurrence, (2) a seasonal need, (3) a peakload need, or (4) an intermittent need.

B. Tree planting and reforestation are predominantly seasonal activities determined by climatic conditions occurring once, or in some locations, twice a year. Although some applications for relatively short itineraries can be justified under the peakload standard, the employer's need for the services or labor to be performed may be more appropriately justified under the seasonal standard.

Employers will typically bid on a sequence of work contracts linking each seasonal activity into an itinerary covering, in some instances, a major portion of the year. Since tree planting and related reforestation activities are covered by the Migrant and Seasonal Agricultural Worker Protection Act (MSPA), the MSPA definition of "on a seasonal or other temporary basis" cited at 29 CFR 500.20 provides guidance for determining whether the job offer is for temporary employment. Under MSPA, "seasonal" basis means the following:

"Labor is performed on a seasonal basis, where, ordinarily, the employment pertains to or is of the kind exclusively performed at certain seasons or periods of the year and which, from its nature, may not be continuous or carried on throughout the year. A worker, who moves from one seasonal activity to another, while employed in agriculture or performing agricultural labor, is employed on a seasonal basis even though he may continue to be employed during a major portion of the year."

The term "other temporary basis" refers to employment where a worker is employed for a limited time only or where performance is contemplated for a particular piece of work, usually of short duration. Generally, employment which is contemplated to continue indefinitely is not temporary.

C. Whether the work to be performed, as described in a tree planting application, is temporary or permanent in nature will be determined by examining the employer's need for such workers for the duration of the itinerary. As with every request for H-2B labor certification, an employer's seasonal need of longer than 10 months, which is of a recurring nature, must be supported by compelling evidence to the NPC Certifying Officer that the employer's need for such work and the job opportunity itself are not ongoing or otherwise permanent. A peakload need longer than 10 months will not be certified.

II. Special Application Filing Procedures

A. An employer requesting temporary labor certification who meets the MSPA definition of a Farm Labor Contractor (FLC) (see item II(C)(1) below) must register as a FLC with the Department of Labor's Employment Standards Administration (ESA) before filing a H-2B application for workers who will be performing predominantly manual work, which includes, but is not limited to, tree planting, brush clearing, and precommercial tree thinning The employer must also provide proof of current registration, including proof of the registration of any Farm Labor Contractor Employees (FLCE - see item II(C)(1) below) at the time of filing. The FLC and FLCE certificate(s) of registration must be valid for the entire period of need. If the expiration date of the FLC or FLCE certificate(s) falls at any point during the period of need, the employer must submit a signed written assurance that an application for renewing FLC and FLCE certificate(s) will be submitted timely to ESA in order to attempt to ensure that the certificate(s) are valid during the entire period of need.

B. In situations where the employer is not properly registered as a FLC, the SWA must promptly return the application with a notification that the SWA cannot accept a job opportunity for a reforestation related occupation when the employer is not registered as a FLC.

C. Important FLC Terms and Information

1. A Farm Labor Contractor means any person, other than an agricultural employer, an agricultural association, or an employee of an agricultural employer or agricultural association, who, for any money or other valuable consideration paid or promised to be paid, performs any farm labor contracting activity. Farm labor contracting activities include recruiting, soliciting, hiring, employing, furnishing, and/or transporting workers. "Agricultural employer" includes any person who owns or operates a farm, ranch, processing establishment, cannery, gin, packing shed, or nursery, or who produces or conditions seed. "Agricultural association" means any nonprofit or cooperative association of farmers, growers, or ranchers incorporated or qualified under applicable State law. A farm labor contractor employee is a person who performs a farm labor contracting activity solely on behalf of a farm labor contractor holding a valid Certificate of Registration and who is not an independent farm labor contractor who would be required to register under the Act in his own right.

2. For information on how to apply as a FLC or FLCE or to obtain a listing of persons and companies currently registered, please contact the nearest office of the Employment Standards Administration (ESA), Wage and Hour Division. A current listing of the ESA District Offices can be obtained at the following website: http://www.dol.gov/esa/contacts/whd/america2.htm.

3. For information on individuals or companies who are not eligible to register as a FLC and may not engage in any activity as a FLC or as a Farm Labor Contractor Employee (FLCE) as defined by the Migrant and Seasonal Agricultural Worker Protection Act (MSPA), please visit the ESA website at the following address: http://www.dol.gov/esa/regs/statutes/whd/mspa_debar.htm.

4. Each facility or real property used to house and each vehicle used to transport workers must be described in the application. Housing and transport vehicles for MSPA-covered workers must be authorized for use on the FLC's certificate of

Butler's Exh. 81, p. 004

registration prior to use. Each driver of a vehicle transporting MSPA-covered workers must have an FLC or FLCE (Farm Labor Contractor Employee) certificate of registration that specifically authorizes driving (see II(A) above concerning expiration dates of FLC or FLCE certificates).

5. Prior to granting approval on a temporary labor certification application, the employer must submit a signed, written assurance that all registrations, permits, and/or other required licenses for vehicles, housing, or drivers will remain valid during the entire period of use.

D. Employers have the option of filing a single master application covering multiple itineraries **or** separate applications for each itinerary where the tree planting or related reforestation work will begin. Alaska, Hawaii, and the U.S. territories may not be included in multi-state itineraries.

1. Employers are permitted to develop and file an itinerary under the following conditions:

a. If the itinerary includes worksite locations covering multiple SWAs, the employer may submit a single application to the SWA where the itinerant employment will begin. In those instances where the start dates for each worksite location in the itinerary are exactly the same, the employer may submit a single application to any one of the SWAs covered by the itinerary. If the employment crosses NPC jurisdictions as well, the NPC that has jurisdiction over the SWA where the employment will begin shall process the application.

b. In situations where the worksite locations cover multiple SWAs, the states listed in the itinerary **must be contiguous or located within close geographic proximity to one another**. Itineraries where the worksite locations cover multiple states over widely separated geographic areas (e.g., Texas, Arkansas, and Idaho, or Georgia, Alabama, and Maine) are not normal to reforestation occupations and will not be permitted. Such itineraries make it extremely difficult for the Department to satisfy its statutory mandate for determining the availability of domestic workers as a predicate to temporary labor certification. An employer who seeks H-2B workers for job opportunities in one or more remote "downstream" states must file separate applications and job orders for those locations.

c. The employer must submit a signed and dated itinerary to the SWA with its application and include the following information:

- The names, physical addresses, telephone numbers, and wages offered in each worksite location. If no physical address and/or telephone number is available, the employer must provide as much geographic detail as possible (e.g., county/city/township/state corresponding to the itinerary time-frame) regarding the location of the crews performing the work;

- The total number of crews' and total number of workers in each crew; and

- The estimated start and end dates of work in each worksite location. Since the work of tree planting and related reforestation occupations are dependent on climatic conditions, the precise ending dates and subsequent contracts may not be defined at the time of placing a job order.

2. Employers are permitted to file a single master application for multiple itineraries under the following conditions:

   a. When examining the starting locations of each itinerary, the master application must be filed with the SWA where the largest number of job opportunities is being requested on the itineraries included in the master application. If the employment crosses NPC jurisdictions as well, the NPC that has jurisdiction over the SWA where the employment will begin shall process the application.

   b. The application must consist only of crews working for a single employer.

   c. The total range of the crews start dates cannot be more than 14 calendar days apart.

III. Special SWA Processing Instructions

A. SWAs should accept agent designations on the ETA Form 750, which is similar to filing procedures under the H-2A program. The employer's application to the SWA must include a copy of the "Agent Agreement" or similar document to substantiate that specific authority has been granted to the agent. (Note: As under the H-2A program, an "agent" who meets the definition of an FLC under MSPA (see II(A) and II(C)(1) above) must be registered as an FLC with ESA prior to engaging in any farm labor contracting activity. "Recruiting" and "soliciting" are farm labor contracting activities. If the employer is represented by an attorney, the attorney must file a Notice of Appearance (G-28) with the application package.

B. SWAs must review all itineraries to ensure each is normal to tree planting and related reforestation occupations (i.e., it is prevailing practice to start in a particular area; what type of itineraries are normal for contracts and the H-2B program), and contact the appropriate NPC Certifying Officer when they receive an itinerary that may not reflect prevailing practice.

C. Employers can require tree planter workers to perform **minor** related reforestation job activities such as tree seedling pulling, thinning, seed cone gathering, and pine straw gathering. These activities must be stipulated in the application and job order to apprise workers of the full scope of possible job duties.

D. A job opportunity containing a wage offer below the prevailing wage will not be accepted. In accordance with TEGL 21-06, the SWA shall determine the prevailing wage, guided by the regulations at 20 CFR § 656.40 and in accordance with Employment and Training Administration, Prevailing Wage Determination Policy Guidance, Non-Agricultural Immigration Programs, Revised May 9, 2005.

E. A job opportunity specifying that workers are to be paid on a piece rate basis must also guarantee the required hourly wage rate per pay period. The required hourly wage rate will be the prevailing wage rate determined by the SWA. If the piece rate does not result in average hourly piece rate earnings during the pay period at least equal to the amount the worker would have earned had the worker been paid at the hourly rate, the worker's pay must be supplemented to increase the earnings to the equivalent hourly level. In situations where workers will be paid on a piece rate basis, the job offer must identify the piece rate, the length of the pay period and the ending day of the week of the payroll period and date, and the minimum productivity required for job retention.

F. When commencing recruitment, the SWA shall prepare a job order, using the information on the application, and place it into the SWA job bank system for 10 calendar days. During this period, the SWA should refer qualified applicants who contact the local offices and those in its active job files. If the application indicates that work will be performed in other states in the itinerary, the SWA shall clear the job order for 10 calendar days with the appropriate state(s) where the work is to be performed and accept for referral to the employer qualified applicants from the state(s).

G. During the 10-day posting of the job order, the employer shall advertise the job opportunity in a newspaper of general circulation for 3 consecutive calendar days or in a readily available professional, trade or ethnic publication, whichever the SWA determines is most appropriate for the occupation and most likely to bring responses from U.S. workers. If the job opportunity is located in a rural area that does not have a newspaper with a daily edition, the employer shall use a daily edition with the widest circulation in the nearest urban area or such other publication as determined by the SWA.

H. The SWA intrastate and interstate job postings and employer advertisements must include the following information:

1. Identify the employer's name and direct applicants to report or send resumes to the SWA for referral to the employer.

2. Address of the SWA local office and job order number.

3. Description of the job opportunity with particularity, including a summary of the itinerary, duties to be performed, work hours and days, and, if applicable, benefits (e.g., housing and free transportation) and incentive wages (e.g., piece rates).

4. Starting locations and wages at each crew's starting location.

5. Notice if employees must purchase or rent tools.

6. Offer wages, terms, and conditions of employment which are not less favorable than those offered to the alien and are prevailing for the occupation, activity, and industry.

7. State the total number of job openings the employer intends to fill.

8. Notice that the job opportunity is temporary.

I. SWAs should examine all deductions (including housing, transportation, meals, tools, safety equipment, etc.) to determine if they are allowable in accordance with the Fair Labor Standards Act. To obtain more information on the propriety of the deduction(s), SWAs should contact the appropriate office of the ESA Wage and Hour Division. Consultation with the Wage and Hour Division is extremely important for those deductions which are for tools of the trade and other materials and services incidental to carrying on the employer's business. SWAs should contact the appropriate NPC if deductions are not in accordance with the prevailing practice for the area. SWA and ETA decisions regarding allowable deductions are not binding on the ESA Wage and Hour Division.

IV. Special Instructions for Completing the ETA Form 750, Part A

A. To ensure consistency in completing applications, employers and SWAs should use the following annotations:

a. Item #7 – Employers should write "See Attached Itinerary" and follow the instructions for itineraries under section II.D.

b. Item #10b – Employer should note the maximum number of hours required for overtime.

c. Item #12b – Employer should note "rate of pay" which shall be time and a half.

d. Item #13 - Production standards must be disclosed, and the employer must provide documentation to the SWA substantiating any standard higher than the prevailing practice in the industry. Most reforestation employers have been in the reforestation business for a sufficient number of years so as to have records/documents on file. Such records/documents can include, but are not limited to, past production records, improved equipment, statement of how terrain will impact production rate. SWAs should use their best judgment, based on prevailing practice, to accept or deny the employer's justification.

e. Item #15 – Specific requirements such as requiring employees to purchase tools or housing accommodations should be noted. In accordance with the MSPA, transportation, housing, and any other employee benefits to be provided and any costs to be charged for each of them must be disclosed to the workers. Further, if there is a relationship between the employer and the store to which employees are directed to purchase or rent tools, it must be disclosed to the employee. This information should also be stated in the job order.

B. In accordance with procedures established under TEGL 21-06, the SWA shall advise the employer to correct any deficiencies in the application before commencing recruitment. SWAs are authorized to close cases in circumstances where the employer fails to address all deficiencies in the application (correction letter) or respond in a timely manner to a recruitment letter.

DEPARTMENT OF LABOR

Employment and Training Administration

20 CFR Parts 655 and 656

RIN 1205–AB54

Labor Certification Process and Enforcement for Temporary Employment in Occupations Other Than Agriculture or Registered Nursing in the United States (H–2B Workers), and Other Technical Changes

AGENCY: Employment and Training Administration, Labor, in concurrence with the Wage and Hour Division, Employment Standards Administration, Labor.

ACTION: Proposed rule; request for comments.

SUMMARY: The Employment and Training Administration (ETA) of the Department of Labor (DOL or the Department) are proposing changes to modernize procedures for the issuance of labor certifications issued in connection with H–2B nonimmigrants admitted to perform temporary nonagricultural labor or services, and procedures to enforce compliance with attestations made by sponsoring employers. Specifically, the proposed rule re-engineers the application filing and review process by centralizing processing and by enabling employers to conduct pre-filing United States (U.S.) worker recruitment activities. In addition, the proposed rule makes changes that will enhance the integrity of the program through the introduction of post-adjudication audits and procedures for penalizing employers who fail to meet the requirements of the H–2B Program. In addition, through this proposed rule technical changes are being made to both the H–1B and the permanent labor certification regulations to reflect operational changes stemming from this regulation. Finally, although Congress has vested the Department of Homeland Security (DHS) with the statutory authority to enforce the H–2B Program requirements and the Department possesses no independent authority for such enforcement, this proposed rule describes potential H–2B enforcement procedures the Department could institute in the event that DHS and the Department work out a mutually agreeable delegation of enforcement authority from DHS to the Department.

DATES: Interested persons are invited to submit written comments on the proposed rule. Such comments must be received on or before July 7, 2008. Interested persons are invited to submit comments on the proposed forms mentioned herein; such comments must be received on or before July 21, 2008.

ADDRESSES: You may submit comments, identified by Regulatory Information Number (RIN) 1205–AB54, by only one of the following methods only:

- *Federal e-Rulemaking Portal www.regulations.gov.* Follow the Web site instructions for submitting comments.
- *Mail/Hand Delivery/Courier:* Please address all written comments (including disk and CD–ROM submissions) to Thomas Dowd, Administrator, Office of Policy Development and Research, U.S. Department of Labor, 200 Constitution Avenue, NW., Room N–5641, Washington, DC 20210.

Please submit your comments by only one method. The Department will post all comments received on *http://www.regulations.gov* without making any change to the comments, including any personal information provided. The *http://www.regulations.gov* Web site is the Federal e-rulemaking portal and all comments posted there will be available and accessible to the public. The Department cautions commenters not to include their personal information such as Social Security Numbers, personal addresses, telephone numbers, and e-mail addresses in their comments as such submitted information will become viewable by the public via the *http://www.regulations.gov* Web site. It is the responsibility of the commenter to safeguard his or her information. Comments submitted through *http://www.regulations.gov* will not include the commenter's e-mail address unless the commenter chooses to include that information as part of his or her comment.

Postal delivery in Washington, DC, may be delayed due to security concerns. Therefore, the Department encourages the public to submit comments via the Web site indicated above.

Docket: For access to the docket to read background documents or comments received, go the Federal eRulemaking portal at *http://www.regulations.gov.* The Department will also make all the comments it receives available for public inspection during normal business hours at the Office of Policy Development and Research at the above address. If you need assistance to review the comments, the Department will provide you with appropriate aids such as readers or print magnifiers. The Department will make copies of the rule available, upon request, in large print and as electronic file on computer disk. The Department will consider providing the proposed rule in other formats upon request. To schedule an appointment to review the comments and/or obtain the rule in an alternate format, contact the Office of Policy Development and Research at (202) 693–3700 (VOICE) (this is not a toll-free number) or 1–877–889–5627 (TTY/TDD).

FOR FURTHER INFORMATION CONTACT: For information on the H–2B labor certification process proposed in 20 CFR 655.1 to 655.35 contact Sherril Hurd, Acting Team Leader, Regulations Unit, Employment and Training, Administration (ETA), U.S. Department of Labor, 200 Constitution Avenue, NW., Room N–5641, Washington, DC 20210; Telephone (202) 693–3700 (this is not a toll-free number).

For information on the H–2B enforcement process proposed in 20 CFR 655.50 to 655.80 contact Michael Ginley, Office of Enforcement Policy, Wage and Hour Division, Employment Standards Administration, U.S. Department of Labor, 200 Constitution Avenue, NW., Room S–3502, Washington, DC 20210. Telephone (202) 693–0745 (this is not a toll-free number).

Individuals with hearing or speech impairments may access the telephone number above via TTY by calling the toll-free Federal Information Relay Service at 1–800–877–8339.

SUPPLEMENTARY INFORMATION:

I. Background

A. Statutory Standard and Current Department of Labor Regulations

Section 101(a)(15)(H)(ii)(b) of the Immigration and Nationality Act (INA or the Act) defines an H–2B worker as a nonimmigrant admitted to the U.S. on a temporary basis to perform temporary nonagricultural labor or services. 8 U.S.C. 1101(a)(15)(H)(ii)(b). The Department's role in the H–2B visa program stems from its obligation, outlined in the statute and the regulations of DHS, to certify—upon application and sufficient demonstration by a U.S. employer intending to petition DHS to allow it to hire H–2B workers—that there are not enough able and qualified U.S. workers available for the position sought to be filled and that the employment of the foreign worker(s) will not adversely affect the wages and working conditions of similarly employed U.S. workers. 8 U.S.C. 1101(a)(15)(H)(ii)(b); 8 U.S.C. 1184(c)(1); see also 8 CFR 214.2(h)(6).

Section 214(c)(1) of the INA requires DHS to consult with appropriate

E. Attestation-Based Process

The Department is proposing to require employers to submit the new application directly to the Department by U.S. Mail or private mail courier to the Chicago NPC. The application will contain certain attestations to confirm employers' adherence to their obligations under the H–2B Program. The employer will be required to retain documentation confirming the contents of the attestations for the Department's review in audits or investigations. An employer will be required to attest, under penalty of perjury, that it has conducted the required recruitment, it has not found sufficient qualified U.S. workers, and it meets all of the requirements and obligations of the program, including temporary need and payment of the prevailing wages.

1. Benefits From an Attestation-Based Process

The Department anticipates the shift to an attestation-based process will reduce processing times while maintaining program integrity. Employers will be expected to comply with all requirements and obligations of the program and maintain appropriate documentation evidencing their compliance. The Department retains for itself the right to request such documentation made either in the course of application consideration, after the adjudication of an application, or through other permitted investigative means such as an investigation by the WHD.[6] These attestations and other information required by the application form will elicit information similar to that required by the current H–2B labor certification process showing the employer has performed the necessary activities to establish eligibility for labor certification.

The proposed application form will require specific attestations from the employer consistent with new § 655.22 and similar to the attestations made on the Form ETA–750 currently in use. For example, the employer will have to attest that it is offering and will provide wages and working conditions normal to workers similarly employed in the area of intended employment; that it will offer and pay wages equal to or in excess of the higher of the prevailing and applicable minimum wages for the entire period of employment under the labor certification; there is no strike, lockout, displacement, or work stoppage in the course of a labor dispute in the occupational classification in the place of employment; and, during the period of certified employment, the employer will comply with all Federal, State and local laws applicable to the employment opportunity.

An employer seeking to employ H–2B workers will attest that the wage is not based on commission, bonuses or other incentives, unless the employer guarantees a wage paid on a weekly, bi-weekly, or monthly basis that equals or exceeds the prevailing wage for the duration of the certified employment.

Several attestations will be added to those found on the current form. As a companion to enabling employers to conduct recruitment prior to filing the application, an employer will have to attest that it conducted the required recruitment before filing the application and was unsuccessful in locating sufficient numbers of qualified U.S. applicants and, moreover, it has rejected any U.S. workers only for lawful, job-related reasons. In the event of an RFI or audit, a CO may review the employer's documentation regarding U.S. applicants and determine whether these applicants were rejected only for lawful, job-related reasons.

As an additional condition of program participation, an employer will be required to attest that, upon the separation from employment of H–2B worker(s) employed under the certification, if such separation is prior to the end date of the employment as listed on the proposed *Application for Temporary Employment Certification*, the employer will notify the Department and DHS in writing of the separation from employment not later than 48 hours after the separation occurs. The notification is also required if an H–2B worker absconds from the employment prior to the end date of the employment on the application. The rationale for such notice is to ensure that when the basis for the foreign worker's status terminates, both the Department and DHS can take appropriate action.

Employers will, moreover, be required to inform foreign workers that they too have responsibilities under the H–2B Program. While most of the responsibilities attached to a foreign worker's status in the U.S. fall within the purview of DHS, it is within the Department's authority to establish employer requirements related to information to be provided new workers. To that end, with respect to foreign workers being employed under the H–2B Program, we find it warranted that employees be informed that a separation from employment triggers the requirement of departure, absent possession by the employee of continued valid status consistent with DHS regulations. DHS will establish a new land-border exit system for H–2B and other foreign workers to help ensure that departure follows the end of work authorization, regardless of whether it flows from a premature end or from the end of the authorized labor certification.

In addition, under new §§ 655.21 and 655.22(j), an employer seeking to employ H–2B workers will be required to attest that the job opportunity is for a full-time, temporary position. The H–2B Program has always required that the positions being offered be temporary and full-time in nature. The Department recognizes that some industries, occupations and States have differing definitions of what constitutes full-time employment. For example, certain landscaping positions are often classified as full-time for a 35-hour work week. The Department under new § 655.4 has provided a basic definition of full-time employment, but will continue to use its considerable experience in determining whether work is full-time for foreign labor certification purposes, based upon the customary practice in the industry in any investigation of this attestation.

Under new § 655.22(k), an employer seeking to employ H–2B workers will attest that it is not displacing any similarly employed permanent U.S. worker(s) in the occupation in the area of intended employment within the period beginning 120 days before the date of need and throughout the entire employment of the H–2B worker(s). Again, this is a new attestation, but the Department has historically considered an employer's layoffs of permanent U.S. workers in determining the availability of workers in a given job opportunity. Considering the effect of a layoff in the area of intended employment, particularly in positions which require little or no experience and which are temporary (and thus could be filled on a transitional basis by a laid-off worker seeking new opportunities), is a long-standing practice in evaluating applications in the H–2B Program. The integrity of the program depends on legitimate employer need. An employer cannot lay off a permanent U.S. worker in an occupation and then attest with any truthfulness that it has a need for a foreign temporary worker for a position which the laid-off U.S. worker could possibly fill. If there has been a layoff by the employer in the area of intended employment within 120 days of the date of need (evidenced by the requested date for certification on the application), the employer must document, in writing, it has notified and considered each of its own laid-off U.S. workers in

[6] The ability for the WHD, rather the Department of Homeland Security, to investigate is contingent upon the Department and DHS agreeing on a delegation of enforcement authority.

Butler's Exh. 82, p. 002

Butler 02272

HeinOnline -- 73 Fed. Reg. 29951 2008

the occupation and area of intended employment and the results of the notification and consideration. By requiring an employer to consider laid-off former employees in the area of intended employment and in the very occupation which the employer now seeks to fill, the Department considers this attestation requirement a necessary obligation for any employer seeking to hire workers under the H–2B Program. An employer may reject a U.S. worker, including potential workers from the pool of laid-off workers, but only for lawful, job-related reasons.

Under new § 655.22(m), an employer must attest that if it will place its employees at the job sites of other employers, it has made a bona fide inquiry into whether the other employer has displaced or intends to displace a similarly employed U.S. worker within the area of intended employment within the period beginning 120 days before and throughout the entire placement of the H–2B worker. In order to be able to honestly attest to this condition, the Department believes that the employer should inquire in writing to and receive a response in writing from the employer where the H–2B worker(s) will be placed. This can be done by exchange of correspondence or attested to by the secondary employer in the contract for labor services with the employer petitioning to bring in H–2B workers. This attestation at § 655.22(m) also requires the employer to attest that all worksites where the H–2B employee will work are listed on the *Application for Temporary Employment Certification.*

Under new § 655.22(l), an employer must attest that it has not and will not shift the costs of preparing or filing the application to the temporary worker, including the costs of domestic recruitment or attorneys' fees. The Department will continue to permit employers, consistent with the Fair Labor Standards Act (FLSA), to make reasonable housing and transportation deductions from a worker's pay for the reasonable cost of furnishing housing and transportation. The domestic recruitment, legal, and other costs associated with obtaining the labor certification are, however, business expenses necessary for or, in the case of legal fees, desired by, the employer to complete the labor certification application and labor market test. The employer's responsibility to pay these costs exists separate and apart from any benefit that may accrue to the foreign worker. Prohibiting the employer from passing these costs on to foreign workers allows the Department to protect the integrity of the process, protect the wage of the foreign worker from deterioration by deduction and protect the wages of U.S. workers from depression.

An employer seeking to employ H–2B workers will be required to attest that it will not place any H–2B workers employed pursuant to a certification outside the area of intended employment as listed on the proposed ETA *Application for Temporary Employment Certification.* The required testing of the availability of U.S. workers and the effect on their wages and working conditions would be rendered meaningless if an employer could move an H–2B worker to a new worksite outside the area of intended employment certified on the application. Employers may file H–2B applications based upon more than one worksite; in fact, applications listing multiple worksites are a common occurrence. However, moving an H–2B worker to a worksite outside the area of intended employment specified on the application negates the test of the labor market undertaken with respect to that job opportunity, leaving the U.S. workers in the area of employment without the benefit of the opportunity to apply for that position. Further, to the extent that such relocation is not provided for or is inconsistent with the terms of entry authorized by DHS and the Department of State (DOS)—terms built on the original labor certification—such activity calls into question the continued admissibility of the foreign worker.

As part of its role in H–2B labor certification determinations, the Department will continue to determine whether the employer has demonstrated that it has a need for foreign labor, and that the need is temporary. The employer will be required to attest and provide a short narrative demonstrating its temporary need. Congress has mandated the H–2B Program be used to fill only the temporary needs of employers where no unemployed U.S. workers capable of performing the work can be found. 8 U.S.C. 1101(a)(15)(H)(ii)(b). Therefore, job opportunities that are permanent in nature do not qualify for the H–2B Program. In this NPRM, the Department is proposing to consider a position to be temporary as long as the employer's need for the duties to be performed is temporary or finite, regardless of whether the underlying job is temporary or permanent in nature, as long as the temporary need is less than 3 years. The controlling factor is the employer's temporary need and not the nature of the job duties. *Matter of Artee Corp.*, 18 I&N Dec. 366 (Comm. 1982); Cf. *Global Horizons, Inc.* v. *DOL*, 2007–TLC–1 (November 30, 2006)(upheld the Department's position that a failure to prove a specific temporary need precludes acceptance of temporary H–2A application); see also 11 U.S. Op. Off. Legal Counsel 39 (1987).

Determining "temporariness" within the context of labor certification is fundamental to the Department's statutory function. DHS regulations make the temporary nature of the services or labor to be performed a threshold requirement for eligibility in the H–2B Program, and a core element in the definition each foreign worker must meet to be admissible under the visa. By definition, an H–2B worker must: (1) Be entering the U.S. temporarily to perform temporary services or labor; (2) not displace U.S. workers capable of performing such services or labor, and (3) not, by virtue of the employment, adversely affect the wages and working conditions of U.S. workers.

The definition of H–2B temporary need, as defined by DHS regulations, sets the general situational criteria and conditions under which an employer is permitted to seek a foreign worker. The employer may have only one of four types of temporary need: (1) A *one-time occurrence,* in which an employer demonstrates it has not had a need in the past for the labor or service and will not need it in the future, but needs it at the present time; (2) *seasonal need,* in which the employer establishes that the services or labor is recurring and is traditionally tied to a season of the year; (3) *peakload,* in which the employer needs to supplement its permanent staff on a temporary basis due to a short-term demand; or (4) an *intermittent need,* in which the employer demonstrates it occasionally or intermittently needs temporary workers to perform services or labor for short periods.

The proposed regulation leaves to the employer the ability to choose the documentation that best demonstrates its chosen standard of temporary need, to be retained by the employer and submitted in the event of an RFI, a post-adjudication audit or a WHD investigation. For most employers participating in the H–2B Program, demonstrating a seasonal or peakload temporary need can best be evidenced by summarized monthly payroll reports for a minimum of one previous calendar year that identify, for each month and separately for full-time permanent and temporary employment in the requested occupation, the total number of workers employed, the total hours worked, and total earnings received. Such reports, however, are not the only means by

Questions - I have attached this as word doc, because the charts may not show in the email.

TLC, Chicago - ETA <tlc.chicago@dol.gov> Tue, Aug 12, 2008 at 3:12 PM
To: James Judkins <carnival.workforce@gmail.com>

The employer can chose to pay the highest prevailing wage for the entire tour or pay the appropriate prevailing wage at each location. So one date does not have priority, the employer can stipulate on the ETA 750 , advertisements and job order that an applicant must be able to travel with the show for the entire period of the tour. Wages are calculated on an hourly basis.

Employers are not obligated to pay for housing for the foreign worker under the H-2B program. However, if housing is offered to foreign workers, the same benefit must be available to U.S. workers. There is no "formula" to properly compensate a worker with a trailer. Again, the same working conditions and benefits offered to foreign workers must be afforded to U.S. workers.

The tour schedule provided by the employer is valid for advertising the general areas of travel to U.S. workers. The DOL does not expect to receive amendments to travel once the application is certified.

Sincerely,

Chicago National Processing Center

Subject: Questions - I have attached this as word doc, because the charts may not show in the email.

I have been asked the following questions from clients and need information.

Nearly all of my clients are in the Carnival and Circus Industry. We travel to various locations, sometimes on a weekly or semi-weekly basis. Some shows stay close to home, some travel to various states. When the DOL ETA750A is prepared, the route (booked and proposed) is researched for prevailing wage and this is used as a basis of the application. It is our understanding that the Employer has the option of paying either the highest prevailing wage for the entire route or pay the prevailing rate in each community while in that community.

I have some comments and questions that I would like to have someone address to help me make sure that the information that we have is correct. Last year we were provided with some incorrect information, we distributed and acted upon that information and were shut out of visas for several of our associated clients and I want to make sure that there is no question as to the validity of the information that we have, act upon and distribute to members in our industry, clients and non-clients.

Comment 1: If a show plays in 30 communities and in 29 communities the prevailing wage is set at various figures, such as $8.00 per hour, but in the community the prevailing wage is set at $10.00

Butler's Exh. 83, p. 001

per hour, by offering the highest prevailing wage for the entire route the show may be at a competitive disadvantage to other shows that do not play that one community.

Comment & Question 2: If a show plays in 30 communities and in all 30 communities the prevailing wages differ, ranging for example, from $7.00 per hour to $11.00 per hour, first it would be a payroll nightmare to try to pay a different hourly wage in each community. If the pay week was from, for example, Sunday to Saturday, but the show generally set up on Thursday, performed on Friday, Saturday and Sunday and tore down and moved on Monday, the workers would be in payroll location A on Sunday and Monday, off on Tuesday and Wednesday, and in payroll location B on Thursday, Friday and Saturday. If the wages for location A and B were different, how would the wage be calculated? How would any overtime (if applicable) be calculated?

Comment & Question 3: It is rare that a show will have the entire seasons route booked 120 days prior to the opening of the season. And, even if the season is booked in advance, changes in the route can happen due to any number of reasons. A shopping center that booked the show for 10 consecutive seasons can be sold and the new owner cancels the contract, a natural disaster can cause dates to be cancelled or changed. When the route and prevailing wage is calculated, on the schedule should we indicate which locations are "booked" and which locations (if any) are "tentative"? If the route changes during the season, and ultimately the prevailing wage in the new community differs from the prevailing wage in the community that was originally booked, would this affect what the show is supposed to pay?

Comment & Question 4: Based upon Comments 1 & 2 above, it appears that the only options currently available to those in our industry are to pay either the highest prevailing wage or vary the wage for each community in which the show performs, based upon the prevailing wage in that community. Would it be possible to include a 3rd method of calculating the wage. This method would be by taking the number of expected days in each community and multiply that figure by the prevailing wage in that community. Do this for all of the towns played (or planned), add those figures up and then divide by the total number of days and that would give you an hourly figure that is the average for the route. Would this be an acceptable method? A simplified example follows:

So, the would advertise and pay $9.57/hour with $14.36 as the overtime rate in all of its locations. Would this be an acceptable method of calculating the prevailing wage?

Comment & Question 5: Shows that use the H2b program employ US Workers and Foreign Workers, working side by side. Some of the US Workers are long time workers and may have their own travel trailers and vehicles that they live in and must maintain. The foreign workers generally do not have the resources or desire to purchase their own travel trailers or vehicles, they send their funds home to their families and buy property and residences in their home countries, because their intention is to return to their home counties. Many times the show will provide living quarters and transportation for these employees. If the employer pays the US Workers and the foreign workers the same pay, but provides the foreign workers with housing and transportation, then the employer could be subject to charges of discrimination from the US Workers.

Can the employer state a fair and reasonable value for the transportation and housing, for example $15.00 per day or $105.00 per week (much less than the cost of the worker having to provide their own transportation and housing) and include that value in the rate of pay to the employee? An example is below:

So, the worker that has his own housing would receive a gross pay of $276.60 plus a travel/housing

Butler's Exh. 83, p. 002
AR - 3338
Butler 02275

allowance of $105.00 to come with a prevailing wage of $9.54/hc in this example. The worker that was provided housing and transportation by the employer would receive $276.60 plus travel/housing valued at $105.00 per week to come up with the same prevailing wage in this example.

Are these allowed? Or is there a formula that is allowed in the program to make sure that all workers, both foreign and domestic are treated equally, fairly and legally?

Comment and Question 6. According to the Federal Fair Labor Standards Act many of the employers that I deal with are Amusement and Recreation Facilities and are exempt from these rules due to the exemptions written into the statute. Many states have laws that mirror the federal statutes (and some differ). If an employer is exempt from the Federal Fair Labor Standards Act and seeks to be part of the H2b program, does it mean that the exemption is still valid? Or does it mean that the employer loses the exemption? Or does it mean that the employer loses the exemption for the foreign workers, but retains the exemption for the US Workers?

I would appreciate receiving guidance on these issues because I have received various answers from the sources that I have talked to and want to make sure that the basis for our actions and advice as we consult with various clients is based upon legislative, regulatory and procedural fact.

Thank you.

RIN 1205–AB55

Temporary Agricultural Employment of H–2A Aliens in the United States; Modernizing the Labor Certification Process and Enforcement

AGENCY: Employment and Training Administration, and Wage and Hour Division, Employment Standards Administration, Labor.

ACTION: Final rule.

SUMMARY: The Department of Labor (DOL or Department) is amending its regulations regarding the certification for the temporary employment of nonimmigrant workers in agricultural occupations on a temporary or seasonal basis, and the enforcement of the contractual obligations applicable to employers of such nonimmigrant workers.

This final rule re-engineers the process by which employers obtain a temporary labor certification from the Department for use in petitioning the Department of Homeland Security (DHS) to employ a nonimmigrant worker in H–2A (agricultural temporary worker) status. The final rule utilizes an attestation-based application process based on pre-filing recruitment and eliminates duplicative H–2A activities currently performed by State Workforce Agencies (SWAs) and the Department. The rule also provides enhanced enforcement, including more rigorous penalties, to complement the modernized certification process and to appropriately protect workers.

DATES: This final rule is effective January 17, 2009.

FOR FURTHER INFORMATION CONTACT: For further information about 20 CFR part 655, subpart B, contact William L. Carlson, Administrator, Office of Foreign Labor Certification, Employment and Training Administration, U.S. Department of Labor, 200 Constitution Avenue, NW., Room C–4312, Washington, DC 20210. I. Background Leading to the NPRM

A. Statutory Standard and Current Department of Labor Regulations

The H–2A visa program provides a means for U.S. agricultural employers to employ foreign workers on a temporary basis to perform agricultural labor or services when U.S. labor is in short supply. Section 101(a)(15)(H)(ii)(a) of the Immigration and Nationality Act (INA or the Act) (8 U.S.C. 1101(a)(15)(H)(ii)(a)) defines an H–2A worker as a nonimmigrant admitted to the U.S. on a temporary or seasonal basis to perform agricultural labor or services. Section 214(c)(1) of the INA (8 U.S.C. 1184(c)(1)) mandates that the Secretary of DHS consult with the Secretary of the Department of Labor (the Secretary) with respect to adjudication H–2A petitions, and, by cross-referencing Section 218 of the INA (8 U.S.C. 1188), with determining the availability of U.S. workers and the effect on wages and working conditions. Section 218 also sets forth further details of the H–2A application process and the requirements to be met by the agricultural employer.

Butler's Exh. 84, p. 001

Butler 02277

is necessary for the appropriate enforcement of the H–2A program and its requirements. By requiring a supplemental report, the Department is not requiring a duplicative effort but is in fact effectively requiring employers to split the current comprehensive total report (of all referrals that are required to be reported) into two smaller, more manageable reports. The Department does not believe that this splitting of the comprehensive total report will require significantly more effort on the part of employers.

Several commenters specifically mentioned the timing of the recruitment report as the biggest problem with the requirement. One farm association noted that since the initial application cannot be submitted without the recruitment report, and the recruitment report must be prepared not more than 60 days prior to the date of need, the application itself cannot be filed until 60 days ahead of time. In order to rectify this issue, the commenter believed the application itself should be required to be filed not more than 60 days prior to the date of need. Another farm association suggested that the timeline for the recruitment report be moved up to no later than 45 days before the date of need, rather than 60 days before the date of need. The Department also received comments in support of the supplemental recruitment reports.

The Department has learned through experience that if recruitment is begun no more than 45 days before the date of need, it is virtually impossible for the Department to receive an adequate recruitment report by the time it is statutorily required to make a certification determination 30 days before the date of need. As discussed above, we have in response to comments amended the timeframe for pre-filing recruitment to reflect a recruitment period closer to the date the workers are needed. In addition, in accordance with the revisions to the time frame specified in § 655.102(e) for submitting job orders, the original proposal regarding the timing of the filing of recruitment reports has been revised in the Final Rule and now provides that the initial recruitment report may not be prepared more than 50 days prior to the employer's date of need. The Final Rule also revises the proposed timing for the completion of the supplemental recruitment report, and now requires the employer to update the recruitment report within 2 business days following the last date that the employer is required to accept referrals; that is, the end of the recruitment period as specified in § 655.102(f)(3). With respect to employers who wish to file an *Application for Temporary Employment Certification* prior to 50 days before the date of need, they are welcome to do so to initiate processing of the application, but the application will not be considered to be complete, and thus eligible for a final determination, until the initial recruitment report is submitted.

Finally, the Department has made additional clarifying edits to the regulatory text. These edits are to ensure this provision comports with other sections of this Final Rule, to improve readability, and to clarify its requirements. These include the deletion of the redundant phrase "who applied or was referred to the job opportunity" which appeared twice in the NPRM paragraph (k)(2) (which is now (k)(1)(iii)); simplifying the reference to the contents of the supplemental recruitment report through the use of cross-references; and placing the paragraph regarding the updating of recruitment reports before the paragraph regarding document retention requirements. In addition, the Department has added a requirement that the recruitment report must contain the original number of openings advertised. This last addition will enable the Department to grant an employer a partial certification in the event it can meet part but not all of its need through the recruitment of U.S. workers.

Section 655.103 Advertising Requirements

The Department proposed detailed instructions for the content of the newspaper advertisements to be placed by employers as part of the required pre-filing recruitment in § 655.103. A few comments were received on the specific contents of the ads. Other comments regarding the rule's advertising requirements are discussed in the section of the preamble pertaining to § 655.102(g).

An association of growers/producers commented that the advertising requirements are inefficient and wasteful, particularly when "numerous virtually identical ads are appearing at the same time." Another association suggested that employers be allowed to advertise jobs by simply referencing the job order placed with the SWA, and suggested that employers should not be required to include all of the detailed information contained in the proposed regulation. Another association suggested that if more than one grower is simultaneously recruiting in an area covered by only one newspaper, their ads should be combined and placed by the SWA. The association suggested that the names of the growers could all be provided in the ad, but applicants would be directed to the SWA to get additional information about the jobs and referrals to the employers.

The Department has considered but declines to adopt these suggestions at this time. The Final Rule significantly clarifies the H–2A advertising requirements. The Department believes that it has struck a careful and appropriate balance, based on its program experience, between the expense of advertising to employers and workers' need for basic job information when considering whether to pursue advertised employment opportunities.

The Final Rule contains several clarifying and conforming changes to the proposed text for § 655.103, none of which are substantive. The Final Rule also paraphrases in § 655.103 the equal treatment requirement already stated in § 655.104(a). Section 655.103 requires that an employer's recruitment "must contain terms and conditions of employment which are not less favorable than those that will be offered to the H–2A workers."

Section 655.104 Contents of Job Offers

(a) Section 655.104(a) Preferential Treatment of Aliens

The Department's proposed regulation stated: "The employer's job offer shall offer no less than the same benefits, wages, and working conditions that the employer is offering, intends to offer, or will provide to H–2A workers." A group of farmworker advocacy organizations opposed the removal of the words "U.S. worker" from this section of the rule. This commenter believes that the proposed wording allows employers to treat U.S. workers less favorably than H–2A workers.

While the Department does not agree that the new wording would have allowed employers to treat U.S. workers any less favorably than H–2A workers, the words "U.S. worker" have been reinserted.

(b) Section 655.104(b) No Less Than Minimum Offered

The NPRM proposed that the "job duties and requirements specified in the job offer shall be consistent with the normal and accepted duties and requirements of non-H2A employers in the same or comparable occupations and crops in the area of intended employment and shall not require a combination of duties not normal to the occupation." Several commenters expressed concern that the proposed requirements would prove unworkable,

Butler's Exh. 84, p. 002
Butler 02278

not have deleted the current language mandating approval from the Department if employers seek to require employees to purchase any tools and equipment because it is common practice to do so. The "common practice" standard is not new, but has been carried over from the current regulation. Whether a common practice exists will still be a determination of fact to be decided by the Department and not by the employer. The only change in this determination is that the employer will now bear the burden of proof in the event of an audit or investigation to show that the practice claimed is common. In determining whether a practice is "common" in a particular area, the Department will apply a simple mathematical formula. If an employer can demonstrate that 25 percent of non-H–2A workers in the crop activity and occupation in the particular area are required to provide tools or equipment, the Department will consider the practice to be "common." This simple standard will be relatively easy to administer, and will ensure that employers have fair notice of their legal obligations.

Clarifying language was also inserted referencing the requirements of sec. 3(m) of the Fair Labor Standards Act, 29 U.S.C. 203(m) (FLSA), which does not permit deductions for tools or equipment primarily for the benefit of the employer that reduce an employee's wage below the wage required under the minimum wage, or, where applicable, the overtime provisions of the FLSA.

(g) Section 655.104(g) Meals

Section 655.104 (g) concerns the provision of meals to workers and the amount employers may charge workers for meals each day. Although the Department proposed no changes to this section, a few comments were received stating that the amount allowed to be charged/reimbursed does not reflect the true cost of the employer's providing or the worker's purchase of meals. Section 655.114 provides for annual adjustments of the previous year's allowable meal charges based upon Consumer Price Index (CPI) data. Each year the maximum charges allowed are adjusted from the charges allotted the previous year by the same percentage as the twelve-month percent change in the CPI for all Urban Consumers for Food (CPI–U for Food) between December of the year just concluded and December of the year prior to that. The Department reminds employers of their ability to petition for higher meal charges, a practice that has been continued in the Final Rule in § 655.114. The amount of the meal charge, which in the NPRM was listed in § 655.104(g), has for purposes of clarity been listed instead in § 655.114.

(h) Section 655.104(h) Transportation

Existing regulations at § 655.102(b)(5) require employers to provide or pay for workers' daily subsistence and transportation from the place from which the worker has come to the place of employment. The employer is to advance these costs to the worker when it is the prevailing practice of non-H–2A employers in the occupation and area to do so. If the employer has not advanced transportation and subsistence costs or otherwise provided or paid for these costs and the worker completes 50 percent of the work contract period, the employer is required to reimburse the worker for these costs at that time. The Department proposed no change to this requirement, but sought comments and information on the costs and benefits to employers and workers of continuing to require employers to pay for the workers' inbound and outbound (return) subsistence and transportation costs.

The Department received several comments on this requirement. Some comments from employers and employer associations advocated that employers and employees should share the costs of workers' inbound subsistence and transportation. These commenters argued that both employees and employers benefit from the H–2A employment relationship and therefore should share the costs. Others suggested that the employees should bear the full cost of their inbound subsistence and transportation, arguing that the inbound travel employment once they are in the country. Some commenters also noted that no other nonimmigrant work-related program requires employers to pay for the workers' inbound subsistence and transportation.

Comments from employee advocates urged the Department to continue the requirement that employers provide or pay for workers inbound subsistence and transportation costs, asserting that inbound subsistence and transportation costs:

> [a]re necessary for many reasons—to attract U.S. workers; to encourage employers to fully employ the workers in whom they have invested and to recruit only those workers needed; * * * and, because farmworkers wages are so low, to prevent farmworkers from becoming even more deeply indebted (and more exploitable) or from seeking low-cost transportation that is often unregulated and deadly.

While there was disagreement among commenters on the current requirement that employers pay inbound subsistence and transportation, there was agreement that employers should continue to pay for workers' outbound transportation. Employer and worker advocate commenters agreed that payment of outbound travel is a critical means to help ensure that workers depart the U.S. at the end of their H–2A contract.

Many comments addressed the timing of reimbursement to workers for inbound subsistence and transportation costs. Most commenters referenced the appellate court's decision in *Arriaga* v. *Florida Pacific Farms*, L.L.C., 305 F.3d 1228 (11th Cir. 2002), which held that growers violated the minimum wage provisions of the FLSA by failing to reimburse farmworkers during their first workweek for travel expenses (and visa and immigration fees) paid by the workers employed by the growers under the H–2A program. Under the FLSA, pre-employment expenses incurred by workers that are properly business expenses of the employer and primarily for the benefit of the employer are considered "kick-backs" of wages to the employer and are treated as deductions from the employees' wages during the first workweek. 29 CFR 531.35. Such deductions must be reimbursed by the employer during the first workweek to the extent that they effectively result in workers' weekly wages being below the minimum wage. 29 CFR 531.36. Although the employer in the *Arriaga* case did not itself make direct deductions from the workers' wages, the Court held that the costs incurred by the workers amounted to "de facto deductions" that the workers absorbed, thereby driving the workers' wages below the statutory minimum. The Eleventh Circuit reasoned that the transportation and visa costs incurred by the workers were primarily for the benefit of the employer and necessary and incidental to the employment of the workers and stated that "[t]ransportation charges are an inevitable and inescapable consequence of having H–2A foreign workers employed in the United States; these are costs which arise out of the employment of H–2A workers." Finally, the court held that the growers' practices violated the FLSA minimum wage provisions, even though the H–2A regulations provide that the transportation costs need not be repaid until the workers complete 50 percent of the contract work period. The Eleventh Circuit noted that the H–2A regulations require employers to comply with applicable federal laws, and in accepting the contract orders in this case, the ETA Regional Administrator informed the growers in writing that their obligation

Butler's Exh. 84, p. 003

Butler 02279

to pay the full FLSA minimum wage is not overridden by the H–2A regulations.

Comments from employers recommended continuing the Department's requirement that workers be reimbursed at the 50 percent point of the work contract, stating that the current policy appropriately balances the interests of employers and employees by creating an incentive for employees to complete at least half of the contract. Many employers urged the Department not to require immediate reimbursement to workers and that the Department:

> should explicitly state that an employer of H–2A workers does not have an obligation under the INA, the Fair Labor Standards Act ("FLSA"), or DOL regulations to reimburse a worker's in-bound transportation expense until the 50 percent point of the work contract and that if a worker's payment of inbound transportation and subsistence costs reduces his/her first week's wage below the minimum wage, such reduction does not result in a violation of the FLSA.

Employee advocates, on the other hand, pressed the Department to require employers to comply with the FLSA which, they state, requires the reimbursement of costs at the beginning of employment when those costs are for the benefit of the employer and effectively reduce the workers' weekly income below the minimum wage. Another employee advocate suggested that the Department consider requiring H–2A employers to advance to workers inbound costs and to pay referral fees to domestic labor contractors to encourage the movement of low-wage U.S. workers to labor shortage areas.

After due consideration of the comments, the Department has determined to continue the current policy of requiring employers to provide or pay for workers' inbound and outbound subsistence and transportation and the corresponding requirement for reimbursement of such inbound costs upon the worker's completion of 50 percent of the work contract period. Thus, reimbursement at the 50 percent point is all that the Final Rule requires pursuant to the Department's rulemaking authority under the INA. Moreover, the Department believes that the better reading of the FLSA and the Department's own regulations is that relocation costs under the H–2A program are not primarily for the benefit of the employer, that relocation costs paid for by H–2A workers do not constitute kickbacks within the meaning of 29 CFR 531.35, and that reimbursement of workers for such costs in the first paycheck is not required by the FLSA.

The FLSA requires employers to pay their employees set minimum hourly wages. 29 U.S.C. 206(a). The FLSA allows employers to count as wages (and thus count toward the satisfaction of the minimum wage obligation) the reasonable cost of "furnishing [an] employee with board, lodging, or other facilities, if such board, lodging, or other facilities are customarily furnished by such employer to his employees." 29 U.S.C. 203(m). The FLSA regulations provide that "[t]he cost of furnishing 'facilities' found by the Administrator to be primarily for the benefit or convenience of the employer will not be recognized as reasonable [costs within the meaning of the statute] and may not therefore be included in computing wages." 29 CFR 531.3(d)(1). The FLSA regulations further provide examples of various items that the Department has deemed generally to be qualifying facilities within the meaning of 29 U.S.C. 203(m), see 29 CFR 531.32(a), as well as examples of various items that the Department has deemed generally not to be qualifying facilities, *see* 29 CFR 531.3(d)(2), 29 CFR 531.32(c).

Separate from the question whether items or expenses furnished or paid for by the employer can be counted as wages paid to the employee, the FLSA regulations contain provisions governing the treatment under the FLSA of costs and expenses incurred by employees. The regulations specify that wages, whether paid in cash or in facilities, cannot be considered to have been paid by the employer and received by the employee unless they are paid finally and unconditionally, or "free and clear." 29 CFR 531.35. Thus, "[t]he wage requirements of the Act will not be met where the employee 'kicks-back' directly or indirectly to the employer or to another person for the employer's benefit the whole or part of the wage delivered to the employee. This is true whether the 'kick-back' is made in cash or in other than cash. For example, if the employer requires that the employee must provide tools of the trade that will be used in or are specifically required for the performance of the employer's particular work, there would be a violation of the Act in any workweek when the cost of such tools purchased by the employee cuts into the minimum or overtime wages required to be paid him under the Act." *Id.* The regulations treat employer deductions from an employee's wages for costs incurred by the employer as though the deductions were a payment from the employee to the employer for the items furnished or services rendered by the employer, and applies the standards set forth in the "kick-back" provisions at 29 CFR 531.35 to those payments. Thus, "[d]eductions for articles such as tools, miners' lamps, dynamite caps, and other items which do not constitute 'board, lodging, or other facilities'" are illegal "to the extent that they reduce the wages of the employee in any such workweek below the minimum required by the Act." 29 CFR 531.36(b).

In sum, where an employer has paid for a particular item or service, under certain circumstances it may pursuant to 29 U.S.C. 203(m) count that payment as wages paid to the employee. On the other hand, when an employee has paid for such an item or service, an analysis under 29 CFR 531.35 is required to determine whether the payment constitutes a "kick-back" of wages to the employer that should be treated as a deduction from the employee's wages.

The *Arriaga* court seems to have assumed that all expenses necessarily fall into one of these two categories—that either they qualify as wages under 29 U.S.C. 203(m) or they constitute a "kick-back" under 29 CFR 531.35. *See Arriaga,* 305 F.3d at 1241–42 (stating that if a payment "may not be counted as wages" under 29 U.S.C. 203(m), then "the employer therefore would be required to reimburse the expense up to the point the FLSA minimum wage provisions have been met" under 29 CFR 531.35 and 29 CFR 531.36). That is incorrect. For example, if an employer were to give an employee a valuable item that was not "customarily furnished" to his or her employees, the employer would not be able to count the value of that item as wages under 29 U.S.C. 203(m) unless the employer "customarily furnished" the item to his or her employees. Nevertheless, since the employee paid nothing for that item, it clearly would not constitute a "kick-back" of wages to the employer that would have to be deducted from the employee's wages for purposes of determining whether the employer met its minimum wage obligations under 29 U.S.C. 206(a). Similarly, if a grocery employee bought a loaf of bread off the shelf at the grocery store where he or she worked as part of an arms-length commercial transaction, the payment made by the employee to the employer would not constitute a "kick-back" of wages to the employer, nor would the loaf of bread sold by the employer to the employee be able to be counted toward the employee's wages under 29 U.S.C. 203(m). Both parties would presumably benefit equally from such a transaction—it would neither be primarily for the benefit of the employer, nor would it be primarily for the benefit of the employee.

Butler's Exh. 84, p. 004

Butler 02280

Expenses paid by an employer that are primarily for the employer's benefit cannot be counted toward wages under 29 U.S.C. 203(m). *See* 29 CFR 531.3(d). Similarly, expenses paid by an employee cannot constitute a "kick-back" unless they are for the employer's benefit. *See* 29 CFR 531.35. An analysis conducted under 29 U.S.C. 203(m) determining that a particular kind of expense is primarily for the benefit of the employer will thus generally carry through to establish that the same kind of expense is primarily for the benefit of the employer under 29 CFR 531.35. Each expense, however, must be analyzed separately in its proper context.

The question at issue here is whether payments made by H–2A employees for the cost of relocating to the United States, whether paid to a third party transportation provider or paid directly to the employer, constitutes a "kick-back" of wages within the meaning of 29 CFR 531.35. If the payment does constitute a "kick-back," then the payment must, as the *Arriaga* court decided, be counted as a deduction from the employee's first week of wages under the FLSA for purposes of determining whether the employer's minimum wage obligations have been met.

The Department does not believe that an H–2A worker's payment of his or her own relocation expenses constitutes a "kick-back" to the H–2A employer within the meaning of 29 CFR 531.35. It is a necessary condition to be considered a "kick-back" that an employee-paid expense be primarily for the benefit of the employer. The Department need not decide for present purposes whether an employee-paid expense's status as primarily for the benefit of the employer is a *sufficient* condition for it to qualify as a "kick-back," because the Department does not consider an H–2A employee's payment of his or her own relocation expenses to be primarily for the benefit of the H–2A employer.

Both as a general matter and in the specific context of guest worker programs, employee relocation costs are not typically considered to be "primarily for the benefit" of the employer. Rather, in the Department's view, an H–2A worker's inbound transportation costs either primarily benefit the employee, or equally benefit the employee and the employer. In either case, the FLSA and its implementing regulations do not require H–2A employers to pay the relocation costs of H–2A employees. *Arriaga* misconstrued the Department's regulations and is wrongly decided.

As an initial matter, any weighing of the relative balance of benefits derived by H–2A employers and employees from inbound transportation costs must take into account the fact that H–2A workers derive very substantial benefits from their relocation. Foreign workers seeking employment under the H–2A nonimmigrant visa program often travel great distances, far from family, friends, and home, to accept the offer of employment. Their travel not only allows them to earn money—typically far more money than they could have in their home country over a similar period of time—but also allows them to live and engage in non-work activities in the U.S. These twin benefits are so valuable to foreign workers that these workers have proven willing in many instances to pay recruiters thousands of dollars (a practice that the Department is now taking measures to curtail) just to gain access to the job opportunities, at times going to great lengths to raise the necessary funds. The fact that H–2A farmworkers travel such great distances and make such substantial sacrifices to obtain work in the United States indicates that the travel greatly benefits those employees. Many of the comments received by the Department support this conclusion.

Most significantly, however, the Department's regulations explicitly state that "transportation furnished employees between their homes and work where the travel time does not constitute hours worked compensable under the Act and the transportation is not an incident of and necessary to the employment" are qualifying "facilities" under 29 U.S.C. 203(m). 29 CFR 531.32(a). As qualifying facilities, such expenses cannot by definition be primarily for the benefit of the employer. 29 CFR 531.32(c). The wording of the regulation does not distinguish between commuting and relocation costs, and in the context of the H–2A program, inbound relocation costs fit well within the definition as they are between the employee's home country and the place of work.

The *Arriaga* court ruled that H–2A relocation expenses are primarily for the benefit of the employer in part because it believed that under 29 CFR 531.32, "a consistent line" is drawn "between those costs arising from the employment itself and those that would arise in the ordinary course of life." 305 F.3d at 1242. The court held that relocation costs do not arise in the ordinary course of life, but rather arise from employment. *Id.* Commuting costs and relocation costs cannot be distinguished on those grounds, however. Both kinds of expenses are incurred by employees for the purpose of getting to a work site to work. Moreover, an employee would not rationally incur either kind of expense but for the existence of the job. Both the employer and the employee derive benefits from the employment relationship, and, absent unusual circumstances, an employee's relocation costs to start a new job cannot be said to be primarily for the benefit of the employer.

That is not to say that travel and relocation costs are never properly considered to be primarily for the benefit of an employer. The regulations state that travel costs will be considered to be primarily for the benefit of the employer when they are "an incident of and necessary to the employment." 29 CFR 531.32(c). This might include, for example, a business trip, or an employer-imposed requirement that an employee relocate in order to retain his or her job. Relocation costs to start a new job will rarely satisfy this test, however.

In a literal sense it may be necessary to travel to a new job opportunity in order to perform the work, but that fact, without more, does not render the travel an "incident" of the employment. Inbound relocation costs are not, absent unusual circumstances, any more an "incident of * * * employment" than is commuting to a job each day. Indeed, inbound relocation costs are quite similar to commuting costs in many respects, which generally are not considered compensable. Cf. DOL Opinion Letter WH–538 (August 5, 1994) (stating that travel time from home to work is "ordinary home-to-work travel and is not compensable" under the FLSA); *Vega ex rel. Trevino v. Gasper*, 36 F.3d 417 (5th Cir. 1994) (finding travel to and from work and home not compensable activity under Portal-to-Portal Act). In fact, there is no reason to believe that the drafters of 29 U.S.C. 203(m) and 206(a) ever intended for those provisions to indirectly require employers to pay for their employees' relocation and commuting expenses. To qualify as an "incident of * * * employment" under the Department's regulations, transportation costs must have a more direct and palpable connection to the job in question than merely serving to bring the employee to the work site.

Taking the *Arriaga* court's logic to its ultimate conclusion would potentially subject employers across the U.S. to a requirement to pay relocation expenses for all newly hired employees—or at least to pay relocation expenses for all newly hired foreign employees, since international relocation is perhaps less "ordinary" than intranational

relocation. That simply cannot be correct. The language of 29 U.S.C. 203(m) and 206(a) and their implementing regulations provide a very thin reed on which to hang such a seismic shift in hiring practices, particularly so many years after those provisions have gone into effect. Nor does the fact that H–2A workers are temporary guest workers change the equation. Even assuming that H–2A workers derive somewhat less benefit from their jobs because they are only temporary, that fact alone would not render the worker's relocation expenses an "incident" of the temporary job. If it did, ski resorts, camp grounds, shore businesses, and hotels would all be legally required to pay relocation costs for their employees at the beginning of each season—again, a result that is very difficult to square with the language and purpose of 29 U.S.C. 203(m) and 29 CFR 531.35.

A stronger argument could be made, perhaps, that employers derive a greater-than-usual benefit from relocation costs when they hire foreign guest workers such as H–2A workers, because employers generally are not allowed to hire guest workers unless they have first attempted but failed to recruit U.S. workers. Thus, such employers have specifically stated a need to hire non-local workers. Given the substantially greater benefit that foreign guest workers generally derive from work opportunities in the United States than they do from employment opportunities in their home countries, however, the Department believes that this at most brings the balance of benefits between the employer and the worker into equipoise. Moreover, the employer's need for non-local workers does nothing to transform the relocation costs into an "incident" of the job opportunity in a way that would render the employee's payment of the relocation expenses a "kick-back" to the employer. If it did, courts would soon be called upon every time an employer hired an out-of-state worker to assess just how great the employer's need for the out-of-state employee was in light of local labor market conditions. Conversely, the courts would also have to inquire into the employee's circumstances, and whether the employee had reasonably comparable job prospects in the area from which the employee relocated. Again, the Department does not believe such a result is consistent with the text or the intent of the FLSA or the Department's implementing regulations.

It is true, of course, that H–2A employers derive some benefit from an H–2A worker's inbound travel. To be compensable under the FLSA, however, the question is not whether an employer receives *some* benefit from an item or paid-for cost, but rather whether they receive the *primary* benefit. Significantly, despite the fact that employers nearly always derive some benefit from the hiring of state-side workers as well, such workers' relocation costs generally have not been considered to be "primarily for the benefit of the employer." That is so because the worker benefits from the travel either more than or just as much as the employer.

The Department obligated H–2A employers to pay H–2A workers' transportation costs not because it believed that the workers were entitled to such payments under the FLSA, but rather in the discharge of its responsibilities under the INA to insure the integrity of the H–2A program. The Department carefully crafted its regulation to give H–2A workers a strong incentive to complete at least 50 percent of their work contract. The practical effect of the Arriaga decision, however, is to require H–2A employers to pay for H–2A workers' inbound transportation costs without any reciprocal guarantee that the workers will continue to work for the employer after the first workweek. The Department believes that the payment of such transportation costs unattached to a reciprocal guarantee that the needed work will ultimately be performed substantially diminishes the benefit of the travel to the employer, and certainly would not allow the travel to be considered primarily for the employer's benefit.

In sum, the Department believes that the costs of relocation to the site of the job opportunity generally is not an "incident" of an H–2A worker's employment within the meaning of 29 CFR 531.32, and is not primarily for the benefit of the H–2A employer. The Department has publicly stated that "in enforcing the FLSA for H–2A workers, the Department's general policy is to ensure that workers receive transportation reimbursement by the time they complete 50 percent of their work contract period (or shortly thereafter) rather than insisting upon reimbursement at the first pay period." The Department continues to believe that this is the appropriate interpretation of the interplay between the H–2A program regulations and the FLSA in regards to transportation reimbursement. The Department states this as a definitive interpretation of its own regulations and expects that courts will defer to that interpretation.

The current regulation uses the phrase "place from which the worker has departed" to describe the beginning point from which employers are required to provide or pay for inbound transportation and subsistence, and, if the worker completes the work contract period, the ending point to which employers are required to provide or pay for outbound transportation and subsistence. This phrase has at times been interpreted by the Department to mean the worker's "home," or the place from which the worker was recruited. Most recently, the phrase was addressed in ETA Training and Employment Guidance Letter No. 23–01, Change 1 (August 2, 2002): " 'Home' is where the worker was originally recruited." While the Department proposed no changes to this regulatory language or interpretation, comments were received on this point. One agricultural association suggested that the Department clarify that transportation from and back to the place from which the worker came to work should be considered to require transportation from or to the site of the U.S. Consulate that issued the visa. This commenter stated:

> For the past 20 years the phrase "from the place from which the worker has come to work for the employer to the place of employment," has meant payment of transportation from the location of the U.S. Consulate which issued the H–2A visa to the place of employment of the petitioning employer. Although the Department in its memoranda refers to "place of recruitment" its examples of how this rule works speaks only of transportation from and back to the worker's home country. There is no mention of the worker's village. This interpretation is in line with the INA and DHS regulations which do not allow a worker to enter the U.S. until that foreign worker has an H–2A visa. Thus, the worker cannot "come to work for the employer" until he or she has an H–2A visa. It is at the point that the worker has the H–2A visa that he or she is eligible to go to work for the employer.

The Department finds this to be a compelling argument. It is the Department's program experience that workers, particularly H–2A workers, gather in groups for processing and transfer to the U.S. The logical gathering point for these workers is at the U.S. Consulate location where the workers receive their visa. In most countries that send H–2A workers to the U.S., such processing is usually centrally located (in Monterrey, Mexico, for example, rather than in Mexico City or another Consulate location). Designating the Consulate location where the visa is issued provides the Department with an administratively consistent place from which to calculate charges and

Butler's Exh. 84, p. 006

Butler 02282

obligations. We have therefore made corresponding changes in the regulatory text to clarify that the "place from which the worker has departed" for foreign workers outside of the U.S. is the appropriate U.S. Consulate or port of entry.

Finally, the Department sought to clarify that minimum safety standards required for employer provided transportation between the worker's living quarters (provided or secured by the employer pursuant to INA sec. 218(c)(4)) and the worksite are the standards contained in MSPA (29 U.S.C. 1841). The Department does not seek to apply MSPA to H–2A workers and has no authority to do so. This clarification is intended to remove any ambiguity concerning the appropriate minimum vehicle safety standards for H–2A employers and should simplify compliance for those H–2A employers that also employ MSPA workers.

Other changes to the language of the proposed provision—most significantly, the notation that an employer's return transportation obligation under § 655.104(h)(2) applies where "the worker has no immediately subsequent H–2A employment"—are non-substantive and have been made for purposes of clarification.

(i) Section 655.104(i) Three-Fourths Guarantee

The Department chose, in the NPRM, to continue the so-called "three-fourths guarantee," by which it ensures that H–2A workers are offered a certain guaranteed number of hours of work during the specified period of the contract, and that if they are not offered enough hours of work, that they are paid as though they had completed the specified minimum number of work hours. In doing so, the Department suggested some minor changes to make the guarantee easier to apply in practice.

One grower association objected to the continuation of the three-fourths guarantee. They stated that it needs to be eliminated because it is arcane, is seldom understood by the growers, and complicates the system by creating more "red tape" for the growers. Other commenters supported the rule, but commented on the nuances of the changes made to the rule under the NPRM. A few commenters expressed the view that the guarantee deters employers from over-recruiting, which may create an oversupply of workers and drive wages down, and also assures long-distance migrants that attractive job opportunities exist. However, some commenters also believe that the guarantee requirement results in employer abuses, such as employers misrepresenting the length of the season. They suggested the Department add language to allow workers to collect the three-fourths guarantee "based on the average number of hours worked in a particular crop region and upon a showing of having worked through the last week in which the employer offered work to a full complement of his workforce."

The Department believes the rule provides essential protection for both U.S. and H–2A workers, in that it ensures their commitment to a particular employer will result in real jobs that meet their reasonable expectations. The Department also believes the rule is not easy to abuse or circumvent, as it is based on a simple mathematical calculation. For those employers that might try to evade their responsibilities, the Department has enforcement measures and penalties to act as a deterrent.

Changing the three-fourths guarantee to be based on a per-crop harvest calculation using an average of hours worked rather than a contract period would make it nearly impossible to track and enforce the guarantee. To require employers to keep track of workers on a per-crop basis and allow the workers to collect money based on the three-fourths guarantee when the U.S. workers transition from one employer to another during the peak harvesting times appears patently unfair and the Department is not willing to create such an option.

Two commenters also suggested that the Department take out the reference to "work hours" and return the term "workday" because the commenters believed that the employer might otherwise submit job orders based on a "bogus" hourly work day or work week. The Department believes that this concern is misplaced. The new terminology proposed by the Department is no more susceptible to abuse than the old terminology is; under either phrasing, employer fraud requires submitting false calculations of work. The Department purposely added the sentence with "work hours" and kept the old references to "workday" in the NPRM to make the formula for calculation of the total amount guaranteed easier to understand and calculate. The end result is the same under either phrasing, however.

A farm bureau requested that we insert language at the end of § 655.104(i)(1) to protect employers from the costs resulting from U.S. workers who voluntarily abandon employment in the middle of the contract period and then return at the end of the contract period or from those U.S. workers who show up in the middle of the contract period. This commenter does not believe that an employer should have any liability under the three-fourths guarantee rule for such unreliable employees. The guarantee has never applied to workers who voluntarily abandon employment or who never show up for the work, provided notice of such abandonment or no-show is provided to DOL within the time frames for reporting an abandonment that are set forth in § 655.104(n). The Department has further clarified that provision in the Final Rule by defining abandonment of the job as the worker failing to report for work for 5 consecutive days.

Farmworker advocates expressed concern that the Department would not enforce this provision. The Department appreciates the concerns raised and assures the public it intends to enforce this provision fully, as it intends to implement the entire rule.

Another commenter requested clarification on what hours an employer may count toward the three-fourths guarantee when an employee voluntarily works more than the contract requires. The commenter asked for language to be inserted into § 655.104(i)(3) stating that all hours of work actually performed including voluntary work over and above the contract requirement can be counted by the employer. The Department believes that this principle was already made clear by § 655.104(i)(1), but it has added the requested language for purposes of clarification.

In proposed § 655.104(i)(4) the Department sought to reiterate the employer's obligation to provide housing and meals to workers during the entire contract period, notwithstanding the three-fourths guarantee. The proposed paragraph, while properly entitled "Obligation to provide housing and meals," inadvertently discussed an obligation to provide meals and transportation. Two comments were received on this paragraph. One employer association suggested that the text of the paragraph be revised to reflect that employers are not obligated to provide housing to workers who quit or are terminated for cause. One employee advocacy organization commented that the clarification that the employer is not allowed to shut down the labor camp or the camp kitchen during the contract period is a positive change. The Department has modified the paragraph to clarify that it is the employer's obligation to provide housing and meals during the contract period that is not affected by the three-fourths guarantee,

Butler's Exh. 84, p. 007

Butler 02283

many types of practices, it may not even be possible to determine what the "prevailing" practice is. For example, there may be a wide range of productivity standards used by employers in a given area, none of which is used by 50 percent of employers or with respect to 50 percent of workers. Furthermore, many practices are not readily susceptible to averaging: For example, with respect to practices regarding the frequency with which workers are paid, some employers may pay workers at the end of each week, others at the end of every two weeks, and others twice a month. If one third of employers used each method, which practice would be "prevailing"?

The Department has examined each type of employment practice and each type of working condition that is addressed by this rule to determine what parameters or limits are necessary to ensure that U.S. workers will not be adversely affected. With respect to productivity standards, the Department has determined that a range of practices are acceptable, and that it is unlikely that U.S. workers will be adversely affected if H–2A employers use a productivity standard that is not unusual for non-H–2A employers to apply to their U.S. workers. The Department will not, however, certify applications containing unusual productivity standards that are clearly prejudicial to U.S. workers.

(m) Section 655.104(m) Frequency of Pay

The Department proposed in the NPRM to continue the requirement of the current regulation that the employer must state in the job offer the rate of frequency that the worker is to be paid, based upon prevailing practice in the area but in no event less frequently than twice a month. The Department received one comment on this provision noting that weekly or daily earnings are "always" the prevailing practice in agriculture, never bi-weekly, and that the Department should accordingly require weekly payment. After considering this comment, the Department has determined that it would be difficult, and not at all cost-effective, to use surveys to determine the frequency with which employers in a given area typically pay their employees. The Department has therefore decided to retain the minimum requirement that employees must be paid at least twice monthly, but has dropped the reference to the use of prevailing practices. The Department notes that this modest change affects only the frequency with which workers are paid, and not the amount to which they are entitled.

(n) Section 655.104(n) Abandonment of Employment

The NPRM included a provision stating that the employer is not required to pay the transportation and subsistence expenses of employees who abandon employment, provided the employer notifies the Department or DHS within 2 workdays of abandonment. One association of farm employers argued that this requirement was unreasonable in that the typical practice is termination 3 days beyond the abandonment or "no show" of the worker. An employer opined that this requirement should create an obligation on the part of the Department to help employers locate and pursue remedies against employees who voluntarily abandon employment without returning to their home country.

The Department acknowledges the need for clarification in the provision to ensure that the requirement begins to run only when the abandonment or abscondment is discovered. The Department has therefore added language to the provision clarifying that the employer must notify DOL and DHS no later than 2 workdays "after such abandonment or abscondment occurs." The Department has added further clarification to ensure that employers must meet the identical standards for notification to DOL as to DHS, so that a worker is deemed to have absconded when the worker has not reported for work for a period of 5 consecutive work days without the agreement of the employer. The Department has extended this standard to a worker's failure to report at the beginning of a work contract. This is intended to clarify for the employer that the same standard of reporting applies for both agencies. The Department declines to include provisions prescribing new employer remedies against workers who abandon the job, but notes that abandonment of a job may result in a worker being ineligible to return to the H–2A program.

(o) Section 655.104(o) Contract Impossibility

The current and proposed regulations contain a provision that allows an employer to ask permission from the Department to terminate an H–2A contract if there is an extraordinary, unforeseen, catastrophic event or "Act of God" such as a flood or hurricane (or other severe weather event) that makes it impossible for the business to continue.

One commenter noted that the proposed regulation eliminates a current requirement that "the employer will make efforts to transfer the worker to other comparable employment acceptable to the worker," and stated that U.S. workers, in particular, would benefit from such an effort. The Department declines to adopt this suggestion, as it believes the workers themselves will be in a better position to find alternative job opportunities than an employer whose business enterprise has been substantially impacted by an Act of God. In response to this comment, the Department has, however, added language to the Final Rule specifying that the H–2A worker may choose whether the employer terminating the H–2A contract should pay to transport them "to the place from which the worker (disregarding intervening employment) came to work for the employer, or transport the worker to the worker's next certified H–2A employer (but only if the worker can provide documentation supporting such employment)." The limitation providing that a worker who requests transportation to the next employer must provide documentation of that employment will help to ensure that H–2A workers who do not have subsequent employment inside the United States return to the country from which they came to the United States rather than remaining in the United States illegally.

To conform to similar changes made elsewhere in the rule, the Final Rule clarifies that "for an H–2A worker coming from outside of the U.S., the place from which the worker (disregarding intervening employment) came to work for the employer is the appropriate U.S. consulate or port of entry."

Other changes to the language of the proposed rule are non-substantive and have been made for purposes of clarifying the provision or to conform to changes made elsewhere in the Final Rule.

(p) Section 655.104(p) Deductions

The Department, in the NPRM, proposed requiring employers to make assurances in their application that they will make all deductions from the workers' paychecks that are required by law. A group of farmworker advocacy organizations asserted that the Department was skirting its responsibility under *Arriaga* by allowing "reasonable" deductions to be taken from a worker's paycheck without any mention of the FLSA. This commenter believes that the Department inappropriately removed clarifying language in the current regulation that

Butler's Exh. 84, p. 008
Butler 02284

"an employer subject to the Fair Labor Standards Act (FLSA) may not make deductions which will result in payments to workers of less than the federal minimum wage permitted by the FLSA." This commenter opined that workers under the H–2A program are entitled to full coverage under the FLSA, and that the Department should not make regulatory changes which suggest otherwise. By eliminating this language from the rule, this commenter believes the Department would effectively undermine the rights of farm workers to be paid the minimum wage free and clear of costs imposed on them for inbound transportation and visa costs, as established by case law.

The Department does not agree with this commenter's characterization of the applicability of the FLSA to H–2A workers, including regarding inbound transportation. Nevertheless, we have returned the deleted language to the Final Rule to clarify that employers must of course comply with all statutory requirements applicable to them.

(q) Section 655.104(q) Copy of Work Contract

The NPRM contained the provision found in the current regulation specifying that a copy of the work contract must be provided to the worker no later than the date the work commences. One group of farmworker advocacy organizations pointed out that this proposed regulation does not require that the work contract be given to the employee in the employee's native language and believed that these regulations as proposed are contrary to the requirements in MSPA for domestic workers. The Department has decided to make no substantive changes to this provision. Employers seeking to hire H–2A workers, as with all employers seeking to recruit agricultural workers under the Wagner/Peyser system, must file a Form ETA 790 with the SWA. This Form provides the necessary disclosures for MSPA purposes. The form itself is bilingual. In addition, section 10(a) of the Form specifically requires that the summary of the material job specifications be completed by the employer in both English and Spanish. The changes made to the language of the provision in the Final Rule are non-substantive and were made to provide better clarity.

Section 655.105 Assurances and Obligations of H–2A Employers

The Department proposed instituting an application requiring employers to attest to their adherence to the obligations of the H–2A program. The Department received many comments expressing approval of the new attestation-based process, and others opposed to such a change. Still other commenters expressed general approval of the new attestation-based approach but suggested changes to the attestations and the process of submitting such attestations.

The Department received two comments regarding the substantive obligations imposed on employers through the attestations. One commenter requested that the Department add another attestation that employers will not confiscate workers' passports. Another commenter requested that the Department impose substantial penalties on employers who lure H–2A workers away from contract jobs before the termination of their contracts. This commenter believes that such a practice victimizes both the employer, who loses laborers, and the employee, who loses status under U.S. law when they prematurely terminate a contract.

The Department is not aware that the confiscation of passports is a widespread practice among agricultural employers hiring H–2A workers. However, where evidence of such practice is found, it would likely indicate the presence of other practices prohibited by the H–2A regulations, such as the withholding of pay and other program entitlements. In such situations, the Department possesses mechanisms under this Final Rule to investigate and take appropriate action against such unscrupulous employers, both through program actions including revocation and debarment and through direct enforcement with civil fines and debarment.

On the subject of changes of employment, the proposed companion regulation to the Department's NPRM, issued by USCIS at 73 FR 8230, Feb. 13, 2008, underscored that H–2A workers are free to move between H–2A certified jobs, and proposed to provide even greater mobility toward that end. The ability of workers to move to new H–2A employment when the current H–2A contract is completed is not something the Department wishes to discourage. A worker who abandons a job before its conclusion must be reported to DOL and DHS, and, depending on the reason for the abandonment, such abandonment may result in a violation of H–2A status and the consequent inability to commence employment with another employer. Such abandonment may also adversely affect a worker's future eligibility to participate in the H–2A program.

One commenter requested that we allow substitution of H–2A workers at the port of entry without having to file a new petition. An *Application for Temporary Employment Certification* is filed without the names of the foreign workers. Substitution of workers is permitted by the DHS companion rule.

(a) Section 655.105(a)

The attestation obligation set forth in § 655.105(a) in the NPRM requires the employer to assure the Department that the job opportunity is open to any U.S. worker and that the employer conducted (or will conduct) the required recruitment, and was still unsuccessful in locating qualified U.S. applicants in sufficient numbers to fill its need. This assurance was criticized by a farm bureau because it believes that it is impossible for employers to state they "will conduct" recruitment as required in the regulations and at the same time attest that they were unsuccessful in finding any U.S. workers. The Department has clarified this language in the Final Rule to enable employers to attest that the employer "has been" unsuccessful in locating U.S. workers sufficient to fill the stated need.

One group of advocacy organizations believes the Department should retain the language from the current § 655.103(c), which states: "Rejections and terminations of U.S. workers. No U.S. worker will be rejected for *or terminated from* employment for other than a lawful job-related reason, and notification of all rejections or terminations shall be made to the SWA." (Emphasis supplied.) This commenter requests that the provision against termination should be added to the assurance found in the new § 655.105(a), specifically where it states: "Any U.S. workers who applied for the job were rejected for only lawful, job-related reasons."

The Department declines to add language regarding terminations at this location in the regulations. The provision at issue is an attestation by an employer regarding the hiring of U.S. workers, not their termination. The termination of U.S. workers for inappropriate reasons is already covered under the regulations by the prohibition in § 655.105(j), discussed below.

The Department added several clarifications and conforming changes to the text of the proposed provisions. First, the Department added language clarifying that the employer must attest that it will keep the job opportunity open to qualified U.S. workers "through the recruitment period," which is defined at § 655.102(f)(3). Second, the Department added language clarifying that the employer must attest that it has

Dear Ms. Pierce,

Thank you for your inquiry. We apologize for the delayed response to your original email inquiry. We have provided responses to your questions underneath each corresponding question below. Our responses are in red text.

We hope this information assists you.

Sincerely,
Chicago National Processing Center

Subject: Labor Certification for H-2B Carnival Workers

Good afternoon,

Our firm represents carnivals in their labor certification filings. All of our carnivals travel through 4 or more states.
I have read the new regulations and have a couple of questions:

1. Do I place the job order and advertisements for a carnival in the first location on the itinerary? Will the SWA's know how to process job orders for the carnivals?

The special procedures for temporary employment certification in the entertainment industry remain in effect despite the implementation of new regulations governing the H-2B program. The application should be filed with the OSE serving the area of intended employment. If the work will be performed in more than one OSE jurisdiction, the application should be filed with the OSE having jurisdiction over the area where the employment will begin. The OSE where the application is filed should process the application as they always have.

2. Have the OSE's been eliminated?

No, the OSE's have not been eliminated.

3. When I file the ETA Form 9141 with you, do want me to attach my FLC Data Center wage research for each location on the itinerary? Some of our employers have over 30 different work locations.

The question refers to the filing of ETA Form 9141. This form is the prevailing wage request form. The application to be filed is ETA Form 9142. When submitting the application, please include all applicable prevailing wage determinations.

4. Are there any new filing requirements directed at the carnivals/entertainers?

As stated above, the special procedures for temporary employment certification in the entertainment industry remain in effect despite the implementation of new regulations governing the H-2B program. The application should be filed with the OSE serving the area of intended employment. The only change at this time is that the previous application, ETA Form 750, has been replaced by the ETA Form 9142.

I called one of the OSE's with my questions, but was told that they did not know the answers to these questions and that I should direct them to you.

I appreciate your assistance.

Employment and Training Administration
Prevailing Wage Determination Policy Guidance
Nonagricultural Immigration Programs
Revised November 2009

The publication of the H-2B regulation in December 2008 and the corresponding changes to PERM, H-1B, H-1B1, H-1C and E-3 regulations governing temporary professional, non-agricultural or registered nursing programs changed the roles of the SWAs and NPCs in the prevailing wage determination process and necessitated the issuance of policy and procedural guidance to be used by the National Prevailing Wage and Helpdesk Center (NPWHC).

The H-2B regulation became effective on January 19, 2009. Pursuant to that Final Rule, the transition of the prevailing wage function from the State Workforce Agencies will be completed by December 31, 2009. As of January 1, 2010, the NPWHC will receive and make prevailing wage determinations for all non-agricultural temporary and permanent programs.

The major changes affecting prevailing wage determinations that became effective as a result of the H-2B Final Rule include:

1. Federalizing PWDs. Employers will now file requests and obtain PWDs directly with NPWHC.
2. Use of standard Prevailing Wage Request Form 9141 for all non-agricultural prevailing wage requests.

The PERM regulation lists professional O*NET-SOC occupations and their designated education and training categories. Those education and training categories shall be used when considering the education and training generally required for performance in that occupation (see Appendix D). This guidance has been divided into several sections for easy reference:

Butler's Exh. 86, p. 002

I. Policy Guidance

A. Background

The Department of Labor, Bureau of Labor Statistics (BLS) has provided wage data collected under the Occupational Employment Statistics (OES) Program for use in the Foreign Labor Certification process since 1998. Occupational wage data collected under that program is now available at the four levels required by the H-1B Visa Reform Act for state and sub-state geographic areas for the purpose of making prevailing wage determinations. The wage data is now available on the Foreign Labor Certification Data Center On-Line Wage Library (OWL), found on the Division's website at http://www.flcdatacenter.com/.

Since September 1999, the Standard Occupational Classification (SOC) has been used by the OES program to classify occupational wage information. The SOC provides a common language for categorizing occupations. The SOC also serves as the framework for information being gathered through the Department of Labor's Occupational Information Network (O*NET®) which supersedes the Dictionary of Occupational Titles (DOT) as the resource to be consulted for occupational information for the Foreign Labor Certification process. Developed by the Department of Labor, the O*NET system provides the general public information on skills, abilities, knowledge, tasks, work activities, and the specific vocational preparation levels associated with occupations. The O*NET information can be found at http://online.onetcenter.org. Wage data from the OES survey and occupational information in O*NET are both classified by the SOC, reducing the need to use crosswalks to connect wages to occupational requirements.

B. Prevailing Wage Factors

The regulatory scheme at 20 CFR 655.10/11 or 20 CFR 656.40/41 must be followed in determining the prevailing wage. The same policies and procedures shall be followed for the permanent labor certification program, the nonimmigrant program pertaining to H-1B or H-1B1 professionals in specialty occupations or as fashion models, and the H-2B temporary nonagricultural labor certification program.

The step-by-step process described in Section II. B. represents the approach for determining the appropriate prevailing wage. All prevailing wage determinations shall start with an entry level wage and progress to a wage that is commensurate with that of a qualified, experienced, or fully competent worker only after considering the experience, education, and skill requirements of an employer's job description (opportunity).

Under § 656.40, the relevant factors in determining a prevailing wage rate are the nature of the job offer, the area of intended employment, and jobs duties for workers that are similarly employed.

"*Nature of the Job Offer*"

In determining the *nature of the job offer*, the first order is to review the requirements of the employer's job offer and determine the appropriate occupational classification. The O*NET description that corresponds to the employer's job offer shall be used to identify the appropriate occupational classification. The NPWHC can identify the appropriate O*NET occupation using O*NET OnLine (http://online.onetcenter.org/) and entering the employer's job title to search for the appropriate O*NET-SOC occupation and code.

If the employer's prevailing wage request contains only a code from the Dictionary of Occupational Titles (DOT) rather than a job title, the DOT to O*NET-SOC crosswalk found on the On-Line Wage Library shall be used to identify the related O*NET-SOC code.

If the employer's job opportunity has worker requirements described in a combination of O*NET occupations, the NPWHC should default directly to the relevant O*NET-SOC occupational code for the highest paying occupation. For example, if the employer's job offer is for an engineer-pilot, the NPWHC shall use the education, skill and experience levels for the higher paying occupation when making the wage level determination.

"*Area of Intended Employment*"

The definition of "area of intended employment" at 20 CFR 656.3 states: *Area of intended employment* means the area within normal commuting distance of the place (address) of intended employment. The On-Line Wage Library has been developed to account for these requirements. A more detailed explanation is provided in section II C. 2. for use in making prevailing wage determinations that are based on employer-provided surveys.

"*Similarly Employed*"

Section 656.40 defines "*similarly employed*" as having:

- substantially comparable jobs in the occupational category in the area of intended employment, except that if no such workers are employed by employers other than the employer applicant in the area of intended employment, it means:
- jobs requiring a substantially similar level of skill within the area of intended employment; or
- substantially comparable jobs in the occupational category as employers outside of the area of intended employment if there are no substantially comparable jobs in the area of intended employment.

In computing the prevailing wage for a job opportunity in an occupational classification in an area of intended employment for an employee of:

- an institution of higher education;
- an affiliated or related nonprofit entity;
- a nonprofit research organization; or
- a governmental research organization;

the prevailing wage level should take into account the wage levels of employees only at such institutions and organizations found in the area of intended employment (see General Administration Letter No. 1-00).

II. Making Determinations

The NPWHC shall make prevailing wage determinations as follows:

A. If the NPWHC determines the job opportunity is covered by a collective bargaining agreement negotiated at arm's length and a wage rate has been negotiated under the agreement as evidenced by information provided by the employer, that wage rate shall be controlling.

B. In the absence of a wage determined under a collective bargaining agreement, NPWHC is to determine prevailing wage rates using wage surveys conducted under the wage component of the OES program.

C. If in the absence of a wage rate determined under a collective bargaining agreement, the employer provides the NPWHC with a survey, whether public or private, which meets the requirements of the regulations, that rate shall be used by the NPWHC as the prevailing wage determination in response to that particular request. In addition, an employer can elect to use a current wage rate in the area of intended employment under the Davis-Bacon or the McNamara Service Contract Acts.

The NPWHC shall specify the validity period of the prevailing wage which shall not be ***less than 90 days or more than 1 year*** from the determination date (see Federal Register Vol. 65 No. 245 Page 80196).

Butler's Exh. 86, p. 005

A. Wage Rates Covered by Collective Bargaining Agreements

If the job opportunity is in an occupation covered by a collective bargaining agreement (CBA) negotiated between a union and the employer, the wage rate in the agreement shall be considered the prevailing wage in making prevailing wage determinations.

If the job opportunity is for a professional athlete and is covered by a sports league's rules or regulations, the wage rate set forth in those rules or regulations including union agreements shall be considered the prevailing wage.

B. Wage Determinations Using BLS OES Wage Data

If the job offer is for an occupation not covered by a collective bargaining agreement and the employer does not choose to provide a survey or request use of a current wage determination in the area under the Davis-Bacon or McNamara-O'Hara Service Contract Acts, the wage component of the BLS OES survey shall be used to determine the prevailing wage for an employer's job offer. The OES survey is a national survey managed by the Bureau of Labor Statistics which provides a large enough sample to allow BLS to determine a prevailing wage for most occupations in every area of intended employment in the United States.

The OES wage data is made available at the state and sub-state areas so the NPWHC can select the geographic area of intended employment. The On-Line Wage Library has been developed to account for these requirements. The NPWHC should select the state and sub-state area that represents the area for the employer's job offer.

1. OES Wage Levels

The new requirements specify that determinations using a government survey shall be made available for each occupation at 4 levels of wages commensurate with experience, education, and the level of supervision. The NPWHC shall make a prevailing wage determination selecting one of the four wage levels for an occupation based on a comparison of the employer's job requirements to the occupational requirements: tasks, knowledge, skills, and specific vocational preparation (education, training, and experience) generally required for acceptable performance in that occupation.

It is important to remember that wage levels are determined only after selecting the most relevant O*NET-SOC occupational code classification. The selection of the O*NET-SOC code should not be based solely on the title of the employer's job offer. The NPWHC should consider the particulars of the employer's job offer and compare the full description to the tasks, knowledge, and work activities generally associated with an O*NET-SOC occupation to insure the most relevant occupational code has been selected.

Butler's Exh. 86, p. 006

Level I (entry) wage rates are assigned to job offers for beginning level employees who have only a basic understanding of the occupation. These employees perform routine tasks that require limited, if any, exercise of judgment. The tasks provide experience and familiarization with the employer's methods, practices, and programs. The employees may perform higher level work for training and developmental purposes. These employees work under close supervision and receive specific instructions on required tasks and results expected. Their work is closely monitored and reviewed for accuracy. Statements that the job offer is for a research fellow, a worker in training, or an internship are indicators that a Level I wage should be considered.

Level II (qualified) wage rates are assigned to job offers for qualified employees who have attained, either through education or experience, a good understanding of the occupation. They perform moderately complex tasks that require limited judgment. An indicator that the job request warrants a wage determination at Level II would be a requirement for years of education and/or experience that are generally required as described in the O*NET Job Zones.

Level III (experienced) wage rates are assigned to job offers for experienced employees who have a sound understanding of the occupation and have attained, either through education or experience, special skills or knowledge. They perform tasks that require exercising judgment and may coordinate the activities of other staff. They may have supervisory authority over those staff. A requirement for years of experience or educational degrees that are at the higher ranges indicated in the O*NET Job Zones would be indicators that a Level III wage should be considered.

Frequently, key words in the job title can be used as indicators that an employer's job offer is for an experienced worker. Words such as 'lead' (lead analyst), 'senior' (senior programmer), 'head' (head nurse), 'chief' (crew chief), or 'journeyman' (journeyman plumber) would be indicators that a Level III wage should be considered.

Level IV (fully competent) wage rates are assigned to job offers for competent employees who have sufficient experience in the occupation to plan and conduct work requiring judgment and the independent evaluation, selection, modification, and application of standard procedures and techniques. Such employees use advanced skills and diversified knowledge to solve unusual and complex problems. These employees receive only technical guidance and their work is reviewed only for application of sound judgment and effectiveness in meeting the establishment's procedures and expectations. They generally have management and/or supervisory responsibilities.

2. Process for Determining Wage Level

The NPWHC shall use O*NET information to identify the tasks, work activities, knowledge, and skills generally required for performance in an occupation. A comparison between the particulars of the employer's job offer to the requirements for similar (O*NET) occupations shall be used to determine the appropriate wage level. It

is important, therefore, that the job description included in an employer's request for a prevailing wage determination include sufficient information to determine the complexity of the job duties, the level of judgment, the amount and level of supervision, and the level of understanding required to perform the job duties. NPWHC may need to contact employers for additional information to obtain this information, if needed.

Information contained in the O*NET Job Zones provides guidance in determining whether the job offer is for an entry level, qualified, experienced, or fully competent employee for making the determination of wage level. Employer requirements in a job offer that are at the upper range of the requirements and preparation generally required for performance in an occupation are indicators that a prevailing wage determination at a higher level should be considered. The O*NET Job Zones were developed to transition from the Specific Vocational Preparation (SVP), as shown in the Dictionary of Occupational Titles (DOT), to measures of experience, education, and job training included in the O*NET database. A listing of SVPs and their definitions can be found in Appendix E of this document.

A step-by-step process for arriving at the appropriate wage level is described below. Points are awarded based on the comparison of an employer's job offer requirements to the general requirements for similar occupations. The points are entered on a worksheet then added to arrive at the wage level. NPWHC should follow the step-by-step process while completing the worksheet.

The appendices section of this document provides several guides that can be used for reference during the process:

Appendix A: OES Prevailing Wage Guidance repeats the step-by-step process and can be used as a reference guide.

Appendix B: Check Sheet for Use in Determining OES Wage Level has been provided to track the process.

Appendix C: Worksheet for Use in Determining OES Wage Level provides an example of a worksheet that NPWHC might use for determining the appropriate wage level.

All employer applications for a prevailing wage determination shall initially be considered an entry level or Level I wage. The employer's requirements for experience, education, training, and special skills shall be compared to those generally required for an occupation as described in O*NET and shall be used as indicators that the job opportunity is for an experienced (Level II), qualified (Level III), or fully competent (Level IV) worker and warrants a prevailing wage determination at a higher wage level.

All prevailing wage determinations start with a Level I determination; therefore, the check sheet and worksheet have a 1 entered in the Wage Level Column.

Butler's Exh. 86, p. 008

Step 1 – Enter the O*NET Requirements on the Worksheet

- Use the O*NET OnLine 'Find Occupations' feature (http://online.onetcenter.org) to determine the appropriate O*NET-SOC code based on the job title provided on the prevailing wage determination request form.
- Enter the job title from the employer's job offer into the Quick Search box and click on Go.
- Select the O*NET occupation that most closely matches the employer's request from the resulting list of occupations.
- Review the Tasks, Knowledge, Work Activities, and Job Zone information contained in the O*NET summary report to gain an understanding of what is generally required for vocational preparation and performance in that occupation.

Enter the O*NET education and experience requirements on the Worksheet.

Step 2 – Complete the Experience Section of the Worksheet

Compare the overall experience described in the O*NET Job Zone to the years of experience required by the employer on the prevailing wage determination request form.

For occupations contained in Job Zone 1, if the employer's experience requirement is equivalent to that described in an:

- SVP of 1 (experience requirement of a short duration), enter a 0 in the Wage Level Column.
- SVP of 2 (experience requirement of anything beyond short duration and up to 1 month), enter a 1 in the Wage Level Column.
- SVP of 3 (experience requirement of over 1 month up to and including 3 months), enter a 2 in the Wage Level Column.
- SVP of 4 (experience requirement of over 3 months up to and including 6 months), enter a 3 in the Wage Level Column.

Refer to Appendix E: Specific Vocational Preparation (SVP) for an explanation of the experience requirements related to an SVP level.

For occupations in Job Zones 2 through 5, if the employer's experience requirement is:

- At or below the level of experience and SVP range, make no entry in the Wage Level Column.
- In the low end of the experience and SVP range, enter a 1 in the Wage Level Column.
- In the high end of the experience and SVP range, enter a 2 in the Wage Level Column.
- Greater than the experience and SVP range, enter a 3 in the Wage Level Column.

Points should be added for the amount of experience only if the required work experience is above the starting point of the O*NET job zone range. ***Education required for the job is addressed in Step 3 of the worksheet, and therefore the years of education required should not be considered in Step 2. However, if education is considered as an equivalent amount of experience in Step 2, it should not also be considered in Step 3.***

Step 3 – Complete the Education Section of the Worksheet

Compare the education requirement generally required for an occupation to the education requirement in the employer's job offer.

Determine if the level required by the employer's job offer is greater than what is generally required.

Professional Occupations by O*NET-SOC category and the related education and training category code are listed in Appendix A to the Preamble of the PERM regulations. The education and training categories assigned to those occupations shall be considered the usual education and training required when considering the education level for prevailing wage determinations. A listing of occupations designated as professional occupations and the related education and training category can be found in Appendix D of this document.

For professional occupations:

- If the education required on the prevailing wage determination request form is equal to or less than the usual education contained in Appendix D, make no entry in the Wage Level Column.
- If the education required on the prevailing wage determination request form is more than the usual education contained in Appendix D by one category, enter a 1 on the worksheet in the Wage Level Column.

Butler's Exh. 186, p. 010

- If the education required is more than the usual education contained in Appendix D by more than one category, enter a 2 on the worksheet in the Wage Level Column.

Example: If the occupation generally requires a Bachelor's degree and the employer's job offer requires a Master's degree, enter a 1; if the job offer requires a Ph.D., enter a 2.

For all other occupations, use the education level for what 'most of these occupations' require or 'these occupations usually require' described in the O*NET Job Zone for that occupation.

- If the education or training is equal to or less than what 'most occupations require' or the level that these occupations 'usually' require, make no entry in the Wage Level Column.

- If the education or training is more than what 'most occupations require' or the level that these occupations 'usually' require, enter a 1 on the worksheet in the Wage Level Column.

- If the education or training required on the prevailing wage determination request form is more than the level described by what 'some may require,' enter a 2 on the worksheet in the Wage Column.

Experience required for the job is addressed in Step 2 of the worksheet, and therefore the years of experience required should not be considered in Step 3.

Step 4 – Complete the Special Skills and Other Requirements Section of the Worksheet

- Review the job title, job description (duties), and special requirements on the prevailing wage determination request form to identify the tasks, work activities, knowledge, and skills required. An employer's requirement for an occupational license and/or certification should be evaluated to determine if they are indicators of a requirement for special skills warranting the award of a point or points on the worksheet. They may not necessarily be such an indicator.

- Make note of machines, equipment, tools, or computer software used. Consider how the employer's requirements compare to the O*NET Tasks, Work Activities, Knowledge, and Job Zone Examples. Consider whether the employer's requirements indicate the need for skills beyond those of an entry-level worker.

- In situations where the employer's requirements are not listed in the O*NET Tasks, Work Activities, Knowledge, and Job Zone Examples for the selected occupation, then the requirements should be evaluated to determine if they represent special skills. The requirement of a specific skill not listed in the

O*NET does not necessitate that a point be added. If the specific skills required for the job are generally encompassed by the O*NET description for the position, no point should be added. However, if it is determined that the requirements are indicators of skills that are beyond those of an entry level worker, consider whether a point should be entered on the worksheet in the Wage Level Column.

Note: A language requirement other than English in an employer's job offer shall generally be considered a special skill for all occupations, with the exception of Foreign Language Teachers and Instructors, Interpreters, and Caption Writers, and a point should be entered on the worksheet.

It is recognized, however, that there may be circumstances where a foreign language is required for the job, but that requirement does not sufficiently increase the seniority and complexity of the position such that a point must be added for the foreign language requirement (e.g. Specialty Cooks).

- If the employer's job opportunity requires the possession of a license or certification, the NPWHC must give careful consideration to the occupation in question and the education, training, and experience requirements of the license or certification to evaluate whether possession of a license or certification is an indicator that the offer of employment is for an experienced worker.

- An employer's requirement for the possession of an occupational license or certification does not constitute a situation where a point must automatically be awarded. The NPWHC should look at the employer's job description and stated requirements to evaluate, along with other factors, whether the position is closely supervised, involves only moderately complex duties, and allows limited exercise of independent judgment. If the license or certification is a normal requirement to perform the job duties as an entry level worker, no point should be added on the worksheet in the Wage Column, e.g., attorney, teacher, registered nurse.

- Some occupations have more than one license and the requirements of the license provide an indicator of the level of independent judgment and complexity of tasks required of the licensee, e.g., Journeyman Plumber or Master Plumber. The NPWHC must consider the education, training, and experience requirements of the license or certification to determine when points should be entered on the worksheet in the Wage Column.

If a substantial amount of work experience, education, or training is required to obtain a license or certification and this results in the total amount of necessary work experience being on the high end of the O*NET job zone range, ***a point could be added either in Step 2 for the work experience, or in Step 3 for the education or training, or in Step 4 for the license. A point or points should not be added in every step***.

Butler's Exh. 186, p. 012

Step 5 – Complete the Supervisory Duties Section of the Worksheet

- Review the prevailing wage determination request form to determine the number or range of people to be supervised to determine if there is a supervisory requirement; and

- If the number is greater than 0, then enter a 1 on the worksheet in the Wage Level Column.

Exception: If supervision is a customary duty for the O*NET occupation (e.g., First-line Supervisors/Managers occupations), do not enter a 1 on the worksheet in the Wage Level Column.

Note: Previous guidance suggested that an employer's job offer that included supervisory duties should be assigned the higher of the two previous wage levels. In this new guidance, an employer's job requirement for supervisory duties will not automatically warrant a determination of the highest wage level because the wages for supervisory occupations already account for the supervision of employees. The guidance contained above for evaluating education, experience, and skills required in an employer's job offer should be used to determine the appropriate wage level for supervisory occupations.

Determine the wage level by summing the numbers in the Wage Level Column of the worksheet. The sum total shall equal the wage for the prevailing wage determination. If the sum total is greater than 4, then the wage level shall be Level 4.

The process described above should not be implemented in an automated fashion. The NPWHC must exercise judgment when making prevailing wage determinations. The wage level should be commensurate with the complexity of tasks, independent judgment required, and amount of close supervision received as described in the employer's job opportunity.

3. Foreign Labor Certification Data Center On-line Wage Library

Use the On-line Wage Library (OWL) found on the Foreign Labor Certification Data Center website (http://www.flcdatacenter.com/) to select the prevailing wage for the occupation.

Use the OES Search Wizard to:

- Select the state and geographic area from the drop-down lists.
- Select the occupation using the first 6 digits of the O*NET-SOC code, OR
- Select the occupation from the drop-down list or enter the title in the key word search box.
- Select a data year.
- Select a data source.

- Click on search.

C. Wage Determinations Using Employer-Provided Wage Surveys

If the job opportunity is in an occupation not covered by a collective bargaining agreement, the NPWHC shall also consider wage data that has been furnished by the employer; i.e., wage data contained in a published wage survey that has been provided by the employer, or wage data contained in a survey that has been conducted or funded by the employer. The employer can elect to use a current wage determination in the area of intended employment under the Davis-Bacon or McNamara-O'Hara Service Contract Acts. An employer survey can be submitted either initially or after the NPWHC issues a prevailing wage determination. If the employer provides a wage survey after the NPWHC makes a prevailing wage determination, the new wage data from the employer-provided survey shall be considered a new prevailing wage request.

The use of such employer-provided wage data is an employer option. However, in each case where the employer submits wage data for consideration, it will be incumbent upon the employer to make a written showing that the survey or other wage data meet the criteria outlined below. The employer must provide the NPWHC with enough information about the survey methodology (e.g., sample size and source, sample selection procedures, survey job descriptions) to allow the NPWHC to make a determination with regard to the adequacy of the data provided and the validity of the statistical methodology used in conducting the survey.

Criteria for Employer-Provided Surveys

(1) The survey must be recent.

If the employer submits a published survey, that survey must:

- have been published within 24 months of the date of submission of the prevailing wage request;
- be the most current edition of the survey; and
- be based on data collected within 24 months of the date of the publication of the survey.

If the employer submits a survey conducted by the employer, the survey must be based on data collected within 24 months of the date of submission of the prevailing wage request.

(2) The wage data submitted by the employer must reflect the area of intended employment.

Area of intended employment means the area within normal commuting distance of the place (address) of intended employment.

- If the place of intended employment is within a Metropolitan Statistical Area (MSA) or Primary Metropolitan Statistical Area (PMSA), any place within the MSA or PMSA is deemed to be within the normal commuting distance of the place of intended employment.

- All locations within a Consolidated Metropolitan Statistical Area (CMSA) will not automatically be deemed to be within normal commuting distances for prevailing wage purposes.

- The borders of PMSAs, MSAs, or CMSAs are not controlling in the identification of the normal commuting area; an employer location just outside of the PMSA, MSA, or CMSA boundary may still be considered within normal commuting distance.

The terminology CMSAs and PMSAs are being replaced by the Office of Management and Budget (OMB); however, ETA will continue to recognize the use of these area concepts as well as their replacements.

(3) The job description applicable to wage data submitted by the employer must be adequate to determine that the data represents workers who are similarly employed. *Similarly employed* means jobs requiring substantially similar levels of skills.
(4) The wage data must have been collected across industries that employ workers in the occupation.

(5) The prevailing wage determination should be based on the arithmetic mean (weighted average) of wages for workers that are similarly employed in the area of intended employment. If the survey provides a median wage of workers similarly employed in the area of intended employment and does not provide an arithmetic mean, the median wage shall be used as the basis for making a prevailing wage determination.

(6) In all cases where an employer provides the NPWHC with wage data for which it seeks acceptance, the employer must include the methodology used for the survey to show that it is reasonable and consistent with recognized statistical standards and principles in producing a prevailing wage (e.g., contains a representative sample), including its adherence to these standards for the acceptability of employer-provided wage data. It is important to note that a prevailing wage determination based upon the acceptance of employer-provided wage data for the specific job opportunity at issue does not supersede the OES wage rate for subsequent requests for prevailing wage data in that occupation.

Information from employers that consists merely of speculation, subjective impressions, or pleas that it cannot afford to pay the prevailing wage rate determined by the NPWHC

will not be taken into consideration in making a wage determination. If the NPWHC does not find the employer-provided wage survey acceptable, the NPWHC must notify the employer in writing and include the reasons the survey was not found to be acceptable. Upon receiving this determination, the employer may provide supplemental information, file a new request, or appeal the determination.

In issuing wage determinations, the NPWHC may be required to convert an hourly rate to a weekly, monthly, or annual rate, or to convert a weekly, monthly, or annual rate to an hourly rate. As a matter of policy, such conversions shall be based on 2,080 hours of work in a year.

Factors relating to the nature of the employer, such as whether the employer is public or private, for profit or nonprofit, large or small, charitable, a religious institution, a job contractor, or a struggling or prosperous firm, do not bear in a significant way on the skills and knowledge levels required and, therefore, are not relevant to determining the prevailing wage for an occupation under the regulations at 20 CFR 655.10 and 20 CFR 656.40. As noted above, the relevant factors are the job, the geographic locality of the job, and the level of skill required to perform independently on the job.

III. Procedures

A. Filing

Employers must request and receive the determination of the prevailing wage from the NPWHC. The NPWHC shall enter its wage determination on the ETA Form 9141 return the form to the employer. To enable NPWHC to provide employers or their representatives accurate wage determinations that take into account the employer's particular job and its requirements, all requests for and responses to wage determinations will be in writing. If the employer does not present sufficient information with its request – the particulars of the job offer or sufficient information about employer-provided wage data – the NPWHC shall request such additional information from the employer as may be necessary to make the determination.

B. NPWHC Response

The NPWHC responses shall state the specific wage rate applicable to the employer's job opportunity and indicate the source of such information. The response shall also specify the dates the prevailing wage is valid – the validity period begin and end dates.

It is important to note that §655.10 and 656.40 provide that a prevailing wage determination for labor certification purposes shall not permit an employer to pay a wage lower than that required under any other Federal, state, or local law. For example, if the wage rate in the OES or employer-provided survey is lower than the Federal, state, or local minimum wage, the response to the employer's request should indicate that the employer must offer and pay at least the minimum wage provided by

Federal, state, or local law, whichever is higher. Since the OES wage data or data in an employer-provided survey are collected in the year or years prior to the data being available to the NPWHC, this may occur in some instances.

C. NPWHC Responsibilities

It is incumbent upon NPWHC to organize the prevailing wage function and establish controls that will enable them to provide information regarding a particular prevailing wage determination, to answer questions if it is required in an enforcement action conducted by the Department of Labor, and to provide information to the certifying officer to be used before the Board of Alien Labor Certification Appeals. Requests from employers for wage determinations shall be filed in writing with the organizational subcomponent of the NPWHC responsible for alien labor certification prevailing wage determinations. Only that component should respond to requests for wage information for immigration purposes. A dated copy of the prevailing wage determination provided to the employer should be maintained by the NPWHC for two years. The relevant portions of an employer-provided survey must also be maintained with the determination for the requisite period.

IV. Challenges to Prevailing Wage Determinations

The employer has the option of requesting a redetermination from the CO who issued the determination by submitting supplemental documentation under 655.10(g) or 656.40(h).

The employer may challenge the CO's PWD by requesting review by the Center Director under 655.11(a) or 656.41(a).

The employer may appeal the Center Director's determination by requesting review by the Board of Alien Labor Certification Appeals under 655.11(e) or 656.41(d).

The NPWHC must administer the above requests in accordance with the specific provisions of the appropriate regulation.

Appendix A: OES Prevailing Wage Guidance

All employer applications for a prevailing wage determination shall initially be considered an entry level or Level I wage. The employer's requirements for experience, education, training, and special skills shall be compared to those generally required for an occupation as described in O*NET and shall be used as indicators that the job opportunity is for an experienced (Level II), qualified (Level III), or fully competent (Level IV) worker and warrants a prevailing wage determination at a higher wage level.

All prevailing wage determinations start with a Level I determination; therefore, the check sheet and worksheet have a 1 entered in the Wage Level Column.

Step 1 – Enter the O*NET Requirements on the Worksheet

- Use the O*NET OnLine 'Find Occupations' feature (http://online.onetcenter.org) to determine the appropriate O*NET-SOC code based on the job title provided on the prevailing wage determination request form.
- Enter the job title from the employer's job offer into the Quick Search box and click on Go.
- Select the O*NET occupation that most closely matches the employer's request from the resulting list of occupations.
- Review the Tasks, Knowledge, Work Activities, and Job Zone information contained in the O*NET summary report to gain an understanding of what is generally required for vocational preparation and performance in that occupation.

Enter the O*NET education and experience requirements on the Worksheet.

Step 2 – Complete the Experience Section of the Worksheet

Compare the overall experience described in the O*NET Job Zone to the years of experience required by the employer on the prevailing wage determination request form.

For occupations contained in Job Zone 1, if the employer's experience requirement is equivalent to that described in an:

- SVP of 1 (experience requirement of a short duration), enter a 0 in the Wage Level Column.
- SVP of 2 (experience requirement of anything beyond short duration and up to 1 month), enter a 1 in the Wage Level Column.

Butler's Exh. 86, p. 018

- SVP of 3 (experience requirement of over 1 month up to and including 3 months), enter a 2 in the Wage Level Column.

- SVP of 4 (experience requirement of over 3 months up to and including 6 months), enter a 3 in the Wage Level Column.

Refer to Appendix E: Specific Vocational Preparation (SVP) for an explanation of the experience requirements related to an SVP level.

For occupations in Job Zones 2 through 5, if the employer's experience requirement is:

- At or below the level of experience and SVP range, make no entry in the Wage Level Column.

- In the low end of the experience and SVP range, enter a 1 in the Wage Level Column.

- In the high end of the experience and SVP range, enter a 2 in the Wage Level Column.

- Greater than the experience and SVP range, enter a 3 in the Wage Level Column.

Points should be added for the amount of experience only if the required work experience is above the starting point of the O*NET job zone range. ***Education required for the job is addressed in Step 3 of the worksheet, and therefore the years of education required should not be considered in Step 2. However, if education is considered as an equivalent amount of experience in Step 2, it should not also be considered in Step 3.***

Step 3 – Complete the Education Section of the Worksheet

Compare the education requirement generally required for an occupation to the education requirement in the employer's job offer.

Determine if the level required by the employer's job offer is greater than what is generally required.

Professional Occupations by O*NET-SOC category and the related education and training category code are listed in Appendix A to the Preamble of the PERM regulations. The education and training categories assigned to those occupations shall be considered the usual education and training required when considering the education level for prevailing wage determinations. A listing of occupations designated as professional occupations and the related education and training category can be found in Appendix D of this document.

For professional occupations:

- If the education required on the prevailing wage determination request form is equal to or less than the usual education contained in Appendix D, make no entry in the Wage Level Column.

- If the education required on the prevailing wage determination request form is more than the usual education contained in Appendix D by one category, enter a 1 on the worksheet in the Wage Level Column.

- If the education required is more than the usual education contained in Appendix D by more than one category, enter a 2 on the worksheet in the Wage Level Column.

Example: If the occupation generally requires a Bachelor's degree and the employer's job offer requires a Master's degree, enter a 1; if the job offer requires a Ph.D., enter a 2.

For all other occupations, use the education level for what 'most of these occupations' require or 'these occupations usually require' described in the O*NET Job Zone for that occupation.

- If the education or training is equal to or less than what 'most occupations require' or the level that these occupations 'usually' require, make no entry in the Wage Level Column.

- If the education or training is more than what 'most occupations require' or the level that these occupations 'usually' require, enter a 1 on the worksheet in the Wage Level Column.

- If the education or training required on the prevailing wage determination request form is more than the level described by what 'some may require,' enter a 2 on the worksheet in the Wage Column.

Experience required for the job is addressed in Step 2 of the worksheet, and therefore the years of experience required should not be considered in Step 3.

Step 4 – Complete the Special Skills and Other Requirements Section of the Worksheet

- Review the job title, job description (duties), and special requirements on the prevailing wage determination request form to identify the tasks, work activities, knowledge, and skills required. An employer's requirement for an occupational license and/or certification should be evaluated to determine if they are indicators of a requirement for special skills warranting the award of a point or points on the worksheet. They may not necessarily be such an indicator.

Butler's Exh. 86, p. 020

- Make note of machines, equipment, tools, or computer software used. Consider how the employer's requirements compare to the O*NET Tasks, Work Activities, Knowledge, and Job Zone Examples. Consider whether the employer's requirements indicate the need for skills beyond those of an entry-level worker.

- In situations where the employer's requirements are not listed in the O*NET Tasks, Work Activities, Knowledge, and Job Zone Examples for the selected occupation, then the requirements should be evaluated to determine if they represent special skills. The requirement of a specific skill not listed in the O*NET does not necessitate that a point be added. If the specific skills required for the job are generally encompassed by the O*NET description for the position, no point should be added. However, if it is determined that the requirements are indicators of skills that are beyond those of an entry level worker, consider whether a point should be entered on the worksheet in the Wage Level Column.

Note: A language requirement other than English in an employer's job offer shall generally be considered a special skill for all occupations, with the exception of Foreign Language Teachers and Instructors, Interpreters, and Caption Writers, and a point should be entered on the worksheet.

It is recognized, however, that there may be circumstances where a foreign language is required for the job, but that requirement does not sufficiently increase the seniority and complexity of the position such that a point must be added for the foreign language requirement (e.g. Specialty Cooks).

- If the employer's job opportunity requires the possession of a license or certification, the NPWHC must give careful consideration to the occupation in question and the education, training, and experience requirements of the license or certification to evaluate whether possession of a license or certification is an indicator that the offer of employment is for an experienced worker.

- An employer's requirement for the possession of an occupational license or certification does not constitute a situation where a point must automatically be awarded. The NPWHC should look at the employer's job description and stated requirements to evaluate, along with other factors, whether the position is closely supervised, involves only moderately complex duties, and allows limited exercise of independent judgment. If the license or certification is a normal requirement to perform the job duties as an entry level worker, no point should be added on the worksheet in the Wage Column, e.g., attorney, teacher, registered nurse.

- Some occupations have more than one license and the requirements of the license provide an indicator of the level of independent judgment and complexity of tasks required of the licensee, e.g. Journeyman Plumber or Master Plumber. The NPWHC must consider the education, training and experience requirements of the license or certification to determine when points should be entered on the worksheet in the Wage Column.

If a substantial amount of work experience, education or training is required to obtain a license or certification and this results in the total amount of necessary work experience being on the high end of the O*NET job zone range, ***a point could be added either in Step 2 for the work experience, or Step 3 for the education or training, or in Step 4 for the license. A point or points should not be added in every step***.

Step 5 – Complete the Supervisory Duties Section of the Worksheet

- Review the prevailing wage determination request form to determine the number or range of people to be supervised to determine if there is a supervisory requirement; and

- If the number is greater than 0, then enter a 1 on the worksheet in the Wage Level Column.

Exception: If supervision is a customary duty for the O*NET occupation (e.g., First-line Supervisors/Managers occupations), do not enter a 1 on the worksheet in the Wage Level Column.

Note: Previous guidance suggested that an employer's job offer that included supervisory duties should be assigned the higher of the two previous wage levels. In this new guidance, an employer's job requirement for supervisory duties will not automatically warrant a determination of the highest wage level because the wages for supervisory occupations already account for the supervision of employees. The guidance contained above for evaluating education, experience, and skills required in an employer's job offer should be used to determine the appropriate wage level for supervisory occupations.

Determine the wage level by summing the numbers in the Wage Level Column of the worksheet. The sum total shall equal the wage for the prevailing wage determination. If the sum total is greater than 4, then the wage level shall be Level 4.

The process described above should not be implemented in an automated fashion. The NPWHC must exercise judgment when making prevailing wage determinations. The wage level should be commensurate with the complexity of tasks, independent judgment required, and amount of close supervision received as described in the employer's job opportunity.

Butler's Exh. 86, p. 022

Appendix B: Check Sheet for Use in Determining OES Wage Level

Indicator	Job Offer Requirements	O*NET-Usual Requirements	Instruction	Wage Level Result
Step 1. Requirements				1
Step 2. Experience	Enter the years of experience required by the employer.	Job Zone (overall experience, job training)	If the years of required experience in the job order are greater than the low end of the O*NET usual requirements, enter 1, 2, or 3.	
Step 3. Education	Enter the education or training required by the employer.	Professional Occupations Appendix D Other occupations - Job Zone (overall experience, job training, education)	If the years of required education in the job order are greater than the Categories for Professional Occupations OR O*NET usual requirements for non-professional occupations, enter 1 or 2.	
Step 4. Special Skills (Y/N)	Note special requirements from the job description or other special requirements including licensure or certification.	O*NET Tasks, Knowledge, and Work Activities. National or state licensing/ certification requirements.	Consider if skills, knowledge, work activities, tasks, licensure or certification requirements indicate a higher level of complexity or decision-making. Enter 1 or 2 as appropriate.	
Step 5. Supervisory duties (Y/N)	Note any supervisory duties indicated in the job duties or description.		If Yes, enter a 1 – UNLESS supervision is generally required by the O*NET occupation.

U.S. Department of Labor
Wage and Hour Division

U.S. Wage and Hour Division

(October 2009)

Fact Sheet #69: Requirements to Participate in the H-2B Program

The H-2B provisions of the Immigration and Nationality Act (INA) provide for the admission of nonimmigrants to the U.S. to perform temporary non-agricultural labor or services. [8 U.S.C. 1101(a)(15)(H)(ii)(b)]

The Wage and Hour Division (WHD) of the U.S. Department of Labor (Department) has been delegated enforcement responsibility to ensure H-2B workers are employed in compliance with H-2B labor certification requirements. This enforcement authority has been delegated by the Department of Homeland Security (DHS) pursuant to 8 U.S.C. 1184(c)(14)(B) and 8 U.S.C. 1103(a)(6). The Department's regulations implementing this authority became effective on January 18, 2009, and are applicable to applications for certifications filed on or after that date pursuant to 20 C.F.R. Part 655.

As part of the application process an employer seeking authorization to employ H-2B workers must attest that it:

Job Opportunity

1. Will offer terms and working conditions normal to U.S. workers similarly employed in the area of intended employment, which are no less favorable than those offered to H-2B workers. [20 C.F.R. § 655.22(a)]

2. Will offer a job opportunity to H-2B workers that is a bona fide, full-time temporary position with qualifications that are consistent with the normal and accepted qualifications required by non-H-2B employers in the same or comparable occupations. [20 C.F.R. § 655.22(h)]

3. Will truly and accurately state the dates of temporary need, reason for temporary need, and number of positions being requested for labor certification. [20 C.F.R. § 655.22(n)]

Strike/Lockout

Must not seek H-2B certification for a specific job opportunity that is vacant because the former occupant(s) is (are) on strike or locked out in the course of a labor dispute involving a work stoppage. [20 C.F.R. § 655.22(b)]

Recruiting

Has met recruiting requirements found in 20 C.F.R. § 655.15(d), which require the employer to:

A. Obtain a prevailing wage determination from the National Processing Center;
B. Submit a job order to the State Workforce Agency (SWA) serving the area of intended employment;
C. Publish advertisements in compliance with 20 C.F.R. § 655.15(f);
D. Contact the local union as a recruitment source if the employer is a party to a collective bargaining agreement governing the job classification that is the subject of the H-2B labor certification application.

U.S. Applicants

1. Will not reject U.S. applicants for the job opportunity for which the labor certification is sought for reasons other than lawful, job-related reasons. [20 C.F.R. § 655.22(c)]

2. Will retain records of all rejections of U.S. worker applicants for the job opportunity for which labor certification is sought. [20 C.F.R. § 655.22(c)]

3. Has not been successful in locating sufficient numbers of qualified U.S. applicants for the open job opportunity. [20 C.F.R. § 655.22(c)]

Other Laws

Will comply with applicable Federal, State, and local employment-related laws, including health and safety laws. [20 C.F.R. § 655.22(d)]

Wage Payments

1. Will offer and pay the H-2B worker no less than the highest of the prevailing wage, applicable Federal minimum wage, State minimum wage, or local minimum wage during the entire period of the approved H-2B labor certification [20 C.F.R § 655.22(e)] which:

    A. Is not based on commissions, bonuses or other incentives unless guaranteed and paid by the employer on a weekly, bi-weekly, or monthly basis; and
    B. Does not include any deductions that would violate the Fair Labor Standards Act (FLSA) for an employer covered by the FLSA. [20 C.F.R. § 655.22(g)(1)]

2. Will make all deductions from the workers' paychecks that are required by law. [20 C.F.R. § 655.22(g)(1)]

3. Has contractually forbidden any foreign labor contractor or recruiter whom the employer engages in international recruitment of H-2B workers to seek or receive payments from prospective employees except as provided at 8 C.F.R. § 214.2(h)(5)(xi)(A) or as reimbursement for costs that are the responsibility of the worker, such as government required passport or visa fees. [20 C.F.R. § 655.22(g)(2)]

4. Has not, whether directly or through its attorney or agent, sought or received payment of any kind for an activity related to obtaining the labor certification, including payment of the employer's attorney's or agent's fees, H-2B application, or recruitment costs. [20 C.F.R. § 655.22(j)]

Layoffs

1. Has not laid off and will not lay off any similarly employed U.S. worker in the occupation for which the labor certification is sought:

    A. In the area of intended employment within the period from 120 calendar days before the date of need through 120 calendar days after the date of need;
    B. Except where the employer has offered the job opportunity for which the labor certification is sought to laid-off U.S. workers and such workers either refused the job opportunity or were rejected only for lawful, job-related reasons. [20 C.F.R. § 655.22(i)]

2. Will not place, if a job contractor, any H-2B worker with any other employer or at another employer's worksite unless:

    A. The employer first makes a bona fide written inquiry as to whether the other employer has displaced or intends to displace any similarly employed U.S. workers within the area of intended employment within the period beginning 120 calendar days before through 120 calendar days after the date of need; and
    B. The other employer provides written confirmation that it has not so displaced and does not intend to displace U.S. workers; and
    C. All worksites are listed on the H-2B certification, including amendments or modifications. [20 C.F.R. § 655.22(k)]

Relocating

Will not place any H-2B worker outside the area of intended employment listed on the H-2B certification unless the employer has obtained a new temporary labor certification from the Department. [20 C.F.R. § 655.22(l)]

Notice

1. Will notify the Department and DHS in writing of the separation from employment of an H-2B worker, not later than two work days after such separation is discovered by the employer, if such separation occurs prior to the end date of the employment specified in the H-2B application. [20 C.F.R. § 655.22(f)]

2. Will notify the H-2B workers:
    A. Of the requirement that they leave the U.S. at the end of the authorized period of stay provided by DHS or separation from the employer, whichever is earlier, absent any extension or change of such workers' status or grace period pursuant to DHS regulations; and
    B. That the employer is liable for return transportation of the workers if the workers are dismissed before the end of the authorized period of stay. [20 C.F.R. § 655.22(m)]

Failure to meet any of these obligations may result in the assessment of civil money penalties, a recommendation that the employer be disqualified from approval from future petitions (debarment), reinstatement of displaced U.S. workers, payment of back wages owed to H-2B workers, and other legal or equitable remedies as the Administrator of the WHD determines to be appropriate.

The requirement listed above can be found in the Immigration and Nationality Act § 241, 8 U.S.C. § 1184, and 20 C.F.R. Part 655 Subpart A.

Introduction

Purpose of the Standard Occupational Classification

The 2010 Standard Occupational Classification (SOC) system is used by Federal statistical agencies to classify workers and jobs into occupational categories for the purpose of collecting, calculating, analyzing, or disseminating data.

Users of occupational data include government program managers, industrial and labor relations practitioners, students considering career training, job seekers, career and employment counselors, educational institutions, and employers wishing to set salary scales or to locate to a new facility. Federal agencies use the SOC system to collect occupational data. The implementation of the 2000 SOC meant that for the first time, all major occupational data sources produced by the Federal statistical system provided data that are comparable, greatly improving the usefulness of the data. The 2010 SOC continues to serve this purpose and has been revised to improve data collection and maintain currency.

The SOC is designed to reflect the current occupational structure of the United States; it classifies all occupations in which work is performed for pay or profit. The SOC covers all jobs in the national economy, including occupations in the public, private, and military sectors. All Federal agencies that publish occupational data for statistical purposes are required to use the SOC to increase data comparability across Federal programs. State and local government agencies are strongly encouraged to use this national system to promote a common language for categorizing and analyzing occupations.

To facilitate classification and presentation of data, the SOC is organized in a tiered system with four levels, ranging from major groups to detailed occupations. There are 23 major groups, broken into 97 minor groups. Each minor group is broken into broad groups, of which there are 461. There are, at the most specified level, 840 detailed occupations. Detailed occupations in the SOC with similar job duties, and in some cases skills, education, and/or training, are grouped together. Each worker is classified into only one of the 840 detailed occupations based on the tasks he or she performs.

Overview of SOC Manual 2010

The *SOC Manual 2010* manual describes the occupational structure showing the different levels of aggregation, as well as the occupation titles and definitions. Illustrative examples of job titles used in an occupation are listed. The *SOC Manual 2010* also discusses the principles of classification, guidelines for coding jobs to the classification, and answers to Frequently Asked Questions. Detailed occupation descriptions and other information in the manual also can be found on the SOC homepage at https://www.bls.gov/soc To obtain a CD-ROM version or additional print copies of the *SOC Manual 2010*, contact:

Historical background

The Standard Occupational Classification (SOC) was first published in 1980, but was rarely used. The Office of Management and Budget (OMB) created the SOC Revision Policy Committee (SOCRPC) to revise the SOC for 2000 with the purpose of creating a system of classification that would allow all government agencies and private industry to produce comparable data.

Completed in 1998, the 2000 SOC resulted from 4 years of research by the SOCRPC and workgroups composed of members of more than 15 government agencies. The SOCRPC used the Bureau of Labor Statistics' (BLS) Occupational Employment Statistics (OES) occupational classification system as the starting point for the new SOC framework.

The *SOC Manual 2010* replaces the 2000 edition, and will be adopted by all Federal agencies that use the *SOC Manual 2000.*

Revision process for the 2010 edition

In 2005, the Office of Management and Budget first met with the Standard Occupational Classification Policy Committee (SOCPC) which includes representatives from the following agencies:

- Department of Labor, Bureau of Labor Statistics and Employment and Training Administration
- Department of Commerce, Census Bureau
- Department of Defense, Defense Manpower Data Center
- Department of Education, National Center for Education Statistics
- Equal Employment Opportunity Commission
- Department of Health and Human Services, Health Resources and Services Administration
- National Science Foundation, Division of Science Resources Statistics
- Office of Personnel Management
- Office of Management and Budget, Office of Information and Regulatory Affairs

To initiate the formal 2010 SOC revision process, OMB and the SOCPC requested public comment in a May 16, 2006, *Federal Register* notice (71 FR 28536) on: (1) the Standard

Butler's Exh. 88, p. 003

AR - 3380

Butler 02317

Occupational Classification Principles, (2) corrections to the *Standard Occupational Classification Manual 2000*, (3) the intention to retain the current SOC major group structure, (4) changes to the existing detailed occupations, and (5) new detailed occupations to be added to the revised 2010 SOC.

To carry out the bulk of the revision effort, the SOCPC created six workgroups comprised of agency staff to examine occupations in the following major groups:

- Management, Professional, and Related Occupations (major groups 11-29)
- Service Occupations (major groups 31-39)
- Sales and Office Occupations (major groups 41-43)
- Natural Resources, Construction, and Maintenance Occupations (major groups 45-49)
- Production, Transportation, and Material Moving Occupations (major groups 51-53) and
- Military Specific Occupations (major group 55).

The workgroups were charged with reviewing comments received in response to the May 16, 2006, *Federal Register* notice (71 FR 28536) and providing recommendations to the SOCPC. Guided by the Classification Principles, the SOCPC reviewed the recommendations from the workgroups and reached decisions by consensus.

OMB announced the proposed new structure in a *Federal Register* notice on May 22, 2008 (73 FR 29930). OMB, in conjunction with the SOCPC, reviewed and carefully considered the comments received in response to these notices in the process of making its final decisions. The final 2010 occupation changes were announced in a *Federal Register* notice on January 21, 2009 (74 FR 3920).

Future of the SOC

The SOC Policy Committee will continue to serve as a standing committee after publication of the *SOC Manual 2010*, to perform maintenance functions such as recommending clarifications of SOC definitions, placement of new occupations within the existing structure, and updates to title files, including the newly-created Direct Match Title File.

The Direct Match Title File lists associated job titles for many detailed SOC occupations. Each of these titles is a direct match to a single SOC occupation. All workers with a job title listed in the Direct Match Title File are classified in only one detailed SOC occupation code. All Federal agencies that use the SOC will adopt the Direct Match Title File, although some may maintain separate program-specific title files. The Direct Match Title File, available on the SOC Web site at https://www.bls.gov/soc allows data users to compare occupational information for these titles across Federal statistical agencies.

AR - 3381 Butler's Exh. 88, p. 004 Butler 02318

The SOCPC will continue to update the Direct Match Title File on a regular basis. Interested parties may suggest additional job titles to the SOCPC by e-mailing SOC@bls.gov.

The SOCPC has proposed that the next revision of the SOC will result in a 2018 edition, with the next major review and revision of the SOC expected to begin in 2013. The intent of this revision schedule is to minimize disruption to data providers, producers, and users by promoting simultaneous adoption of revised occupational and industry classification systems for those data series that use both. Given the multiple interdependent programs that rely on the SOC, this is best accomplished by timing revisions of the SOC for the years following North American Industry Classification System (NAICS) revisions, which occur for years ending in 2 and 7. The next such year is 2018, which has the additional benefit of coinciding with the beginning year of the American Community Survey 5-year set of surveys that bracket the 2020 Decennial Census. Thus, OMB intends to consider revisions of the SOC for 2018 and every 10 years thereafter.

Butler's Exh. 88, p. 005

AR - 3382

Butler 02319

What's New in the 2010 SOC

The 2010 SOC system contains 840 detailed occupations, aggregated into 461 broad occupations. In turn, the SOC combines these 461 broad occupations into 97 minor groups and 23 major groups. Of the 840 detailed occupations in the 2010 SOC, 359 remained exactly the same as in 2000, 453 had definition changes, 21 had a title change only, and 7 had a code change without a change in definition. Most of the definition changes (392) were editorial revisions that did not change occupational content. Therefore, no substantive changes occurred in occupational coverage for about 90 percent of the detailed occupations in the 2010 SOC.

Occupational areas with significant revisions and additions included

- Information technology (minor group 15-1100 Computer Occupations)
- Healthcare (major groups 29-0000 Healthcare Practitioners and Technical Occupations and 31-0000 Healthcare Support Occupations)
- Printing (minor group 51-5100 Printing Workers) and
- Human resources (minor group 13-1000 Business Operations Specialists)

In comparison to the 2000 SOC, the 2010 SOC realized a net gain of 19 detailed occupations, 12 broad occupations, and 1 minor group. The nature of the changes in detailed occupations is indicated in table 1.

Table 1: Distribution of detailed 2010 occupations, by type of change, 2000-2010

Type of change			2010 SOC detailed occupations	
Code changed?	Title revised?	Definition revised?	Number	Percent[1]
No	No	No	359	42.7
No	No	Yes[2]	356	42.4
No	Yes	Yes[2]	44	5.2
Yes	Yes	Yes[2]	42	5.0
No	Yes	No	21	2.5
Yes	No	Yes[2]	11	1.3
Yes	No	No	7	0.8
Yes	Yes	No	0	0.0
All occupations			840	100.0

[1] May not add to total due to rounding

[2] Of the 453 definition changes, 392 were editorial or to account for changes in technology. The remaining 61 occupations with revisions to definitions affected occupational coverage and are embedded in these rows. See page ix, Revised Occupational Definitions.

New occupations

The 2010 SOC contains 24 new occupations and codes that were broken out of the 2000 SOC occupations. These occupations are as follows:

Butler's Exh. 88, p. 006

AR - 3383

Butler 02320

2010 SOC Code	*2010 SOC Title*
13-1131	Fundraisers
15-1122	Information Security Analysts
15-1134	Web Developers
15-1143	Computer Network Architects
15-1152	Computer Network Support Specialists
21-1094	Community Health Workers
25-2051	Special Education Teachers, Preschool
25-2059	Special Education Teachers, All Other
29-1128	Exercise Physiologists
29-1151	Nurse Anesthetists
29-1161	Nurse Midwives
29-1171	Nurse Practitioners
29-2035	Magnetic Resonance Imaging Technologists
29-2057	Ophthalmic Medical Technicians
29-2092	Hearing Aid Specialists
29-9092	Genetic Counselors
31-1015	Orderlies
31-9097	Phlebotomists
33-9093	Transportation Security Screeners
39-4031	Morticians, Undertakers, and Funeral Directors
43-3099	Financial Clerks, All Other
47-2231	Solar Photovoltaic Installers
49-9081	Wind Turbine Service Technicians
51-3099	Food Processing Workers, All Other

The number of detailed occupations (821) in the 2000 SOC increased to 845 with the addition of these 24 new occupations. The final count of 2010 SOC occupations (840) was due to a number of other changes.

- The 2010 detailed occupation 51-9151 Photographic Process Workers and Processing Machine Operators resulted from combining two detailed 2000 occupations into one.
- The 2010 detailed occupation 11-9013 Farmers, Ranchers, and Other Agricultural Managers resulted from combining two detailed 2000 occupations into one.
- The 2010 detailed occupations in minor group 51-5110 Printing Workers, 51-5111 Prepress Technicians and Workers, 51-5112 Printing Press Operators, and 51-5113 Print Binding and Finishing Workers, resulted from combining five detailed 2000 occupations into three.
- Three 2000 SOC computer occupations were revised to six detailed occupations in the 2010 SOC, four of which are included in the list of new occupations above.

For more information on the relationships between detailed occupations in the 2000 and 2010 SOC, see the crosswalks available in electronic format at https://www.bls.gov/soc

Butler's Exh. 88, p. 007

AR - 3384

Butler 02321

Occupations that moved within the SOC structure

As another indicator of the scope of changes, the nine detailed occupations listed below moved from one major group in the 2000 SOC to another in the 2010 SOC.

- Emergency Management Directors (11-9161) moved into major group 11-0000 Management Occupations from major group 13-0000 Business and Financial Operations Occupations, where it was previously Emergency Management Specialists (13-1061)
- Farm Labor Contractors (13-1074) moved into major group 13-0000 Business and Financial Operations Occupations from major group 45-0000 Farming, Fishing, and Forestry Occupations
- Fundraisers (13-1131) moved into major group 13-0000 Business and Financial Operations Occupations from Sales and Related Workers, All Other (41-9099) in major group 41-0000 Sales and Related Occupations
- Market Research Analysts and Marketing Specialists (13-1161) moved into major group 13-0000 Business and Financial Operations Occupations from multiple SOC occupations including Market Research Analysts in major group 19-0000 Life, Physical, and Social Science Occupations and Public Relations Specialists in major group 27-0000 Arts, Design, Entertainment, Sports, and Media Occupations
- Workers in the newly-created Transportation Security Screeners (33-9093) were previously classified in multiple SOC occupations including Compliance Officers, Except Agriculture, Construction, Health and Safety, and Transportation in major group 13-0000 Business and Financial Operations
- Workers in the newly-created Morticians, Undertakers, and Funeral Directors (39-4031) were previously classified with Funeral Directors (11-9061) in major group 11-0000 Management Occupations
- Workers in the newly-created Solar Photovoltaic Installers (47-2231) were previously classified in multiple SOC occupations including two in major group 49-0000 Installation, Maintenance, and Repair Occupations—Heating, Air Conditioning, and Refrigeration Mechanics and Installers (49-9021) and Installation, Maintenance, and Repair Workers, All Other (49-9099)
- Flight Attendants (53-2031) moved into major group 53-0000 Transportation and Material Moving Occupations from major group 39-0000 Personal Care and Service Occupations
- Transportation Attendants, Except Flight Attendants (53-6061) moved into major group 53-0000 Transportation and Material Moving Occupations from major group 39-0000 Personal Care and Service Occupations

Butler's Exh. 88, p. 008

AR - 3385

Butler 02322

Revised occupational definitions

There were 61 instances of revisions to definitions that affected occupational coverage. These 61 detailed occupations are listed below and include the 24 new occupations denoted by an asterisk (*). This list encompasses collapsed occupations, as well as 2010 occupations that resulted from a split. Other occupations had editorial changes or modifications to account for changes in technology. A table describing the nature of the changes, by detailed occupation, is available at https://www.bls.gov/soc

2010 SOC Code	*2010 SOC Title*
11-9013	Farmers, Ranchers, and Other Agricultural Managers
11-9061	Funeral Service Managers

Butler 02325

Classification Principles

The SOC Classification Principles form the basis on which the SOC system is structured.

1. The SOC covers all occupations in which work is performed for pay or profit, including work performed in family-operated enterprises by family members who are not directly compensated. It excludes occupations unique to volunteers. Each occupation is assigned to only one occupational category at the lowest level of the classification.

2. Occupations are classified based on work performed and, in some cases, on the skills, education, and/or training needed to perform the work at a competent level.

3. Workers primarily engaged in planning and directing are classified in management occupations in Major Group 11-0000. Duties of these workers may include supervision.

4. Supervisors of workers in Major Groups 13-0000 through 29-0000 usually have work experience and perform activities similar to those of the workers they supervise, and therefore are classified with the workers they supervise.

5. Workers in Major Group 31-0000 Healthcare Support Occupations assist and are usually supervised by workers in Major Group 29-0000 Healthcare Practitioners and Technical Occupations. Therefore, there are no first-line supervisor occupations in Major Group 31-0000.

6. Workers in Major Groups 33-0000 through 53-0000 whose primary duty is supervising are classified in the appropriate first-line supervisor category because their work activities are distinct from those of the workers they supervise.

7. Apprentices and trainees are classified with the occupations for which they are being trained, while helpers and aides are classified separately because they are not in training for the occupation they are helping.

8. If an occupation is not included as a distinct detailed occupation in the structure, it is classified in an appropriate "All Other," or residual, occupation. "All Other" occupations are placed in the structure when it is determined that the detailed occupations comprising a broad occupation group do not account for all of the workers in the group. These occupations appear as the last occupation in the group with a code ending in "9" and are identified in their title by having "All Other" appear at the end.

9. The U.S. Bureau of Labor Statistics and the U.S. Census Bureau are charged with collecting and reporting data on total U.S. employment across the full spectrum of SOC major groups. Thus, for a detailed occupation to be included in the SOC, either the Bureau of Labor Statistics or the Census Bureau must be able to collect and report data on that occupation.

AR - 3389 Butler's Exh. 88, p. 012 Butler 02326

Coding Guidelines

The SOC Coding Guidelines are intended to assist users in consistently assigning SOC codes and titles to survey responses and in other coding activities.

1. A worker should be assigned to an SOC occupation code based on work performed.

2. When workers in a single job could be coded in more than one occupation, they should be coded in the occupation that requires the highest level of skill. If there is no measurable difference in skill requirements, workers should be coded in the occupation in which they spend the most time. Workers whose job is to teach at different levels (e.g., elementary, middle, or secondary) should be coded in the occupation corresponding to the highest educational level they teach.

3. Data collection and reporting agencies should assign workers to the most detailed occupation possible. Different agencies may use different levels of aggregation, depending on their ability to collect data. For more information on data produced using the SOC, see the Frequently Asked Questions (FAQs) section.

4. Workers who perform activities not described in any distinct detailed occupation in the SOC structure should be coded in an appropriate "All Other" or residual occupation. These residual occupational categories appear as the last occupation in a group with a code ending in "9" and are identified by having the words "All Other" appear at the end of the title.

5. Workers in Major Groups 33-0000 through 53-0000 who spend 80 percent or more of their time performing supervisory activities are coded in the appropriate first-line supervisor category in the SOC. In these same Major Groups (33-0000 through 53-0000), persons with supervisory duties who spend less than 80 percent of their time supervising are coded with the workers they supervise.

6. Licensed and non-licensed workers performing the same work should be coded together in the same detailed occupation, except where specified otherwise in the SOC definition.

Butler's Exh. 88, p. 013

AR - 3390

Butler 02327

Standard Occupational Classification and Coding Structure

The occupations in the SOC are classified at four levels of aggregation to suit the needs of various data users: major group, minor group, broad occupation, and detailed occupation. Each lower level of detail identifies a more specific group of occupations. The 23 major groups, listed below, are divided into 97 minor groups, 461 broad occupations, and 840 detailed occupations.

2010 SOC Major Groups

Code	*Title*
11-0000	Management Occupations
13-0000	Business and Financial Operations Occupations
15-0000	Computer and Mathematical Occupations
17-0000	Architecture and Engineering Occupations
19-0000	Life, Physical, and Social Science Occupations
21-0000	Community and Social Service Occupations
23-0000	Legal Occupations
25-0000	Education, Training, and Library Occupations
27-0000	Arts, Design, Entertainment, Sports, and Media Occupations
29-0000	Healthcare Practitioners and Technical Occupations
31-0000	Healthcare Support Occupations
33-0000	Protective Service Occupations
35-0000	Food Preparation and Serving Related Occupations
37-0000	Building and Grounds Cleaning and Maintenance Occupations
39-0000	Personal Care and Service Occupations
41-0000	Sales and Related Occupations
43-0000	Office and Administrative Support Occupations
45-0000	Farming, Fishing, and Forestry Occupations
47-0000	Construction and Extraction Occupations
49-0000	Installation, Maintenance, and Repair Occupations
51-0000	Production Occupations
53-0000	Transportation and Material Moving Occupations
55-0000	Military Specific Occupations

Some users may require aggregations other than the SOC system built on these major groups. Further details on alternate occupational aggregations and approved modifications to the SOC structure are provided in the following section on page xviii.

Major groups are broken into minor groups, which, in turn, are divided into broad occupations. Broad occupations are then divided into one or more detailed occupations.

29-0000 Healthcare Practitioners and Technical Occupations
29-1000 Health Diagnosing and Treating Practitioners
29-1060 Physicians and Surgeons
29-1062 Family and General Practitioners

- Major group codes end with 0000 (e.g., 29-0000 Healthcare Practitioners and Technical Occupations).

Butler's Exh. 88, p. 014

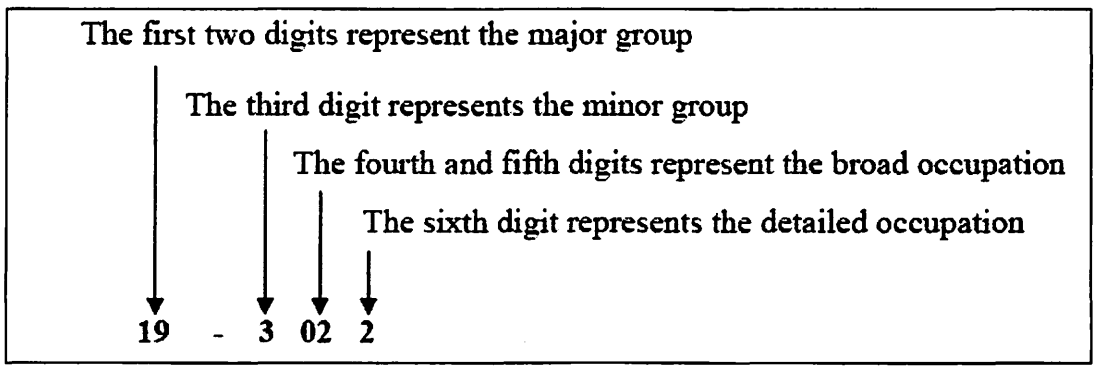
AR - 3391

Butler 02328

- Minor groups generally end with 000 (e.g., 29-1000 Health Diagnosing and Treating Practitioners)—the exceptions are minor groups 15-1100 Computer Occupations and 51-5100 Printing Workers, which end with 00.
- Broad occupations end with 0 (e.g., 29-1060 Physicians and Surgeons).
- Detailed occupations end with a number other than 0 (e.g., 29-1062 Family and General Practitioners).

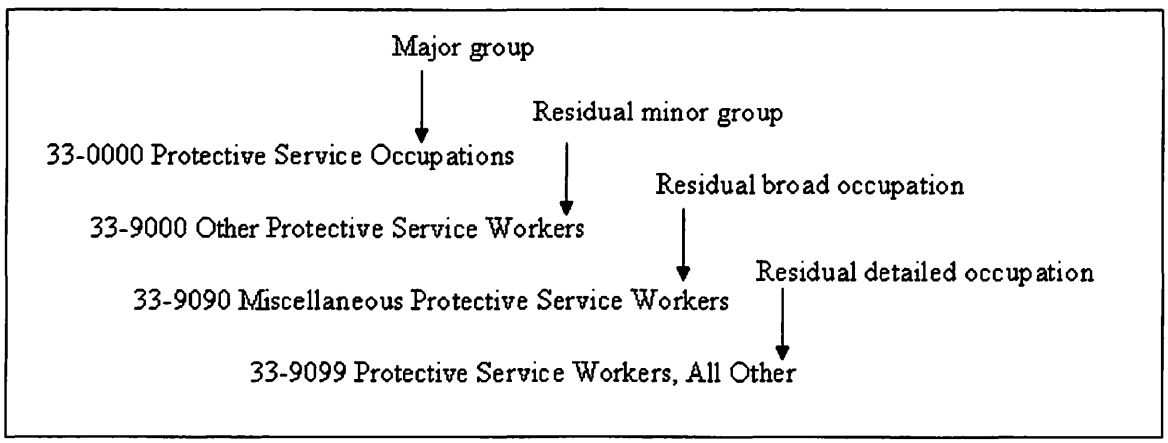
Each item in the SOC is designated by a six-digit code. The hyphen between the second and third digit is used only for clarity (see figure 1).

Figure 1.



As shown in figure 2, all residuals ("Other," "Miscellaneous," or "All Other" occupations), whether at the detailed or broad occupation or minor group level, contain a "9" at the level of the residual. Minor groups that are major group residuals end in 9000 (e.g., 33-9000, Other Protective Service Workers). Broad occupations that are minor group residuals end in 90 (e.g., 33-9090, Miscellaneous Protective Service Workers). Detailed residual occupations end in 9 (e.g., 33-9099, Protective Service Workers, All Other).

Figure 2.



Butler's Exh. 88, p. 015

AR - 3392

Butler 02329

If there are more than nine broad occupations in a minor group (e.g., 51-9000 Other Production Occupations); or more than eight, if there is no residual (e.g., 47-2000 Construction Trades Workers), then the code xx-x090 is skipped (reserved for residuals), the code xx-x000 is skipped (reserved for minor groups), and the numbering system will continue with code xx-x110. The residual broad occupation is then code xx-x190 or xx-x290 (e.g., 51-9190, Miscellaneous Production Workers).

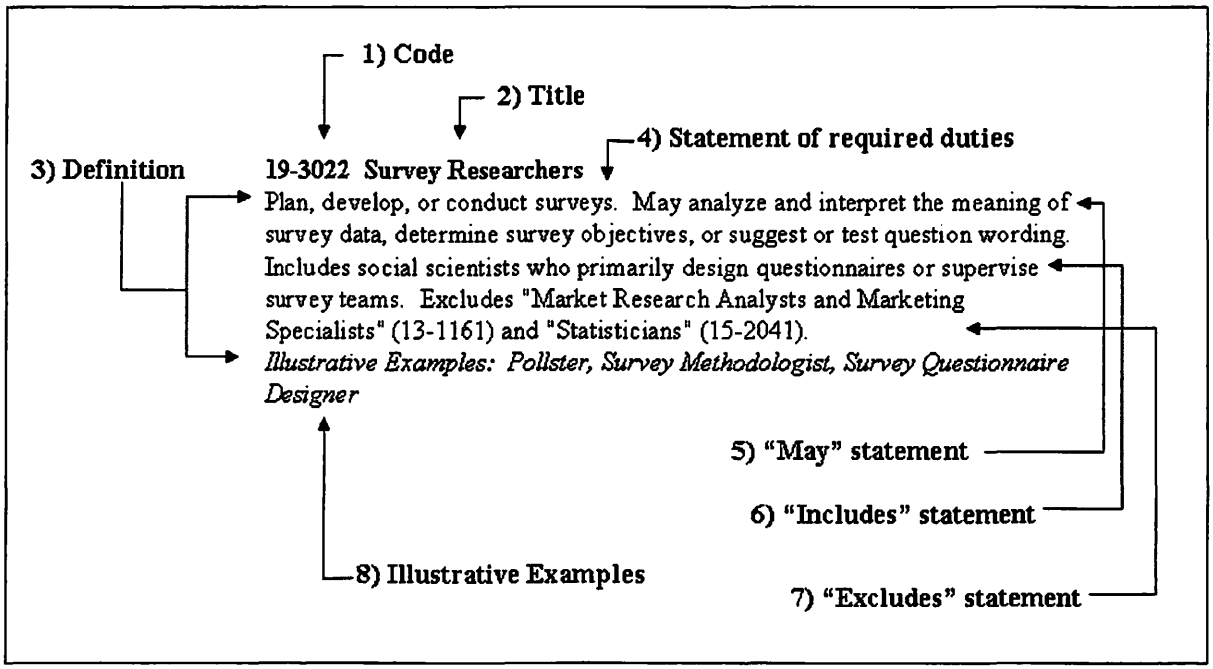
The structure is comprehensive, and encompasses all occupations in the U.S. economy. If a specific occupation is not listed, it is included in a residual category with similar occupations.

Detailed occupations are identified and defined so that each occupation includes workers who perform similar job tasks as described in Classification Principle 2. Definitions begin with the duties all workers in the occupation perform. Some definitions include a sentence at the end describing tasks workers in an occupation *may*, but do not necessarily *have to* perform, in order to be included in the occupation. Where the definitions include tasks also performed by workers in another occupation, cross-references to that occupation are provided in the definition.

Figure 3 identifies the eight elements that appear in detailed SOC occupations. All six-digit, detailed occupations have a SOC code (1), a title (2), and a definition (3). All workers classified in an occupation are required to perform the duties described in the first sentence of each definition (4). Some definitions also have a "may" statement (5), an "includes" statement (6), and/or an "excludes" statement (7). Many occupations have one or more "illustrative examples" (8), presented in alphabetical order. Illustrative examples are job titles classified in only that occupation, and were selected from the Direct Match Title File described on page iv.

AR - 3393 Butler's Exh. 88, p. 016 Butler 02330

Figure 3.



The "may" statement describes tasks that workers in that occupation may – but are not required to – perform in order to be classified with Survey Researchers. The "includes" statement identifies particular workers who should be classified with Survey Researchers. The "excludes" statement indicates other detailed occupations that may be similar to Survey Researchers and clarifies that workers who fall into those occupations should be excluded from Survey Researchers.

Butler's Exh. 88, p. 017

AR - 3394

Butler 02331

Approved Modifications to the Structure

Agencies may use the SOC or parts of the SOC at varying levels of the system. For example, data may be collected at the broad occupation level in some areas and at the detailed level in others.

Occupations below the detailed level

The coding system is designed to allow SOC users desiring a delineation of occupations below the detailed occupation level to use a decimal point and additional digit(s) after the sixth digit. For example, Secondary School Teachers, Except Special and Career/Technical Education (25-2031) is a detailed occupation. Agencies wishing to collect more particular information on teachers by subject matter might use 25-2031.1 for secondary school science teachers or 25-2031.12 for secondary school biology teachers. Additional levels of detail also may be used to distinguish workers who have different training or years of experience.

OMB recommends that those needing extra detail use the structure of the Department of Labor's Employment and Training Administration's Occupational Information Network (O*NET). For more information, see http://online.onetcenter.org.

Higher levels of aggregation

Some users may wish to present occupational data at higher levels of aggregation than the SOC major groups. To meet this need and to maintain consistency and comparability across data sets, either the intermediate or the high-level aggregations presented in tables 3 and 4 should be used for data tabulation purposes.

Table 3. Intermediate aggregation to 13 groups, 2010 SOC

Intermediate aggregation	Major groups included	Intermediate aggregation title
1	11-13	Management, Business, and Financial Occupations
2	15-19	Computer, Engineering, and Science Occupations
3	21-27	Education, Legal, Community Service, Arts, and Media Occupations
4	29	Healthcare Practitioners and Technical Occupations
5	31-39	Service Occupations
6	41	Sales and Related Occupations
7	43	Office and Administrative Support Occupations
8	45	Farming, Fishing, and Forestry Occupations
9	47	Construction and Extraction Occupations
10	49	Installation, Maintenance, and Repair Occupations
11	51	Production Occupations
12	53	Transportation and Material Moving Occupations
13	55	Military Specific Occupations

Butler's Exh. 88, p. 018

AR - 3395

Butler 02332

Table 4. High-level aggregation to 6 groups, 2010 SOC

High-level aggregation	Major groups included	High-level aggregation title
1	11-29	Management, Business, Science, and Arts Occupations
2	31-39	Service Occupations
3	41-43	Sales and Office Occupations
4	45-49	Natural Resources, Construction, and Maintenance Occupations
5	51-53	Production, Transportation, and Material Moving Occupations
6	55	Military Specific Occupations

Alternate aggregations

Data collection issues or confidentiality concerns may prevent agencies from reporting all the detail indicated in the SOC. For example, an agency might report the detail of at least one occupational category at a particular level of the SOC structure but must aggregate the other occupations at that level. In such cases, the agency may adjust the occupational categories so long as these adjustments permit aggregation to the next higher SOC level. In such a situation, agencies must distinguish such groups from the official SOC aggregation. If agencies choose this option they must obtain approval from the Standard Occupational Classification Policy Committee for their proposed aggregation scheme.

Butler's Exh. 88, p. 019

AR - 3396

Butler 02333

Frequently Asked Questions

1. How do the U.S. Bureau of Labor Statistics and the Census Bureau determine if they can collect and report on an occupation? (See Classification Principle 9.)

The Bureau of Labor Statistics (BLS) develops estimates of occupational employment and wages for wage and salary workers in nonfarm establishments in its Occupational Employment Statistics (OES) Survey. This survey collects information from business establishments sampled by industry and geographic area. BLS looks at the definition, and at the size and dispersion of (estimated) employment, in determining whether it can collect and report data on an occupation. For OES survey respondents to report on an occupation, the duties or work performed of the occupation must be uniquely defined, i.e., clearly differentiated from those of any other occupations. If the occupation is widely dispersed across areas and/or industries, employment in an occupation must be sizeable to be reliably measured. If the occupation is highly concentrated in a single industry or area, smaller levels of employment can be reliably measured.

The Census Bureau develops estimates of occupational employment of the population with its household-based Current Population (a joint program with BLS) and American Community Surveys. As with BLS above, the Census Bureau is concerned about the size and dispersion of employment in an occupation in determining if it can collect and report data on that occupation. In addition, the Census Bureau considers whether the respondents to its household surveys, who may provide information for themselves as well as for other household members, are likely to report the job titles and job activities associated with an occupation accurately and completely. Household survey respondents tend to give general or informal, rather than specific or technical, occupational titles. For example, a household survey respondent may report "doctor," rather than "pediatrician." This makes it difficult for the Census Bureau to report on such specialized occupations.

2. What is the difference between an occupation and a job?

An occupation is a category of jobs that are similar with respect to the work performed and the skills possessed by the incumbents. A job is the specific set of tasks performed by an individual worker. "Turnpike toll collector" is an example of a job that corresponds to the occupation 41-2011 Cashiers.

3. Why doesn't every job title have its own code in the SOC?

Occupational classification schemes examine and organize the millions of jobs and tens of thousands of job titles in the economy into occupations based upon their similarities as determined by the scheme's classification principles. The organizing principle of the SOC system is work performed rather than job title so there are many fewer occupation codes in the SOC than there are jobs in the economy.

4. What is the difference between the SOC Classification Principles and the Coding Guidelines?

Butler's Exh. 88, p. 020

AR - 3397

Butler 02334

The SOC Classification Principles form the basis on which the SOC system is structured. The Coding Guidelines are intended to assist SOC users in consistently assigning SOC occupational codes to survey responses.

5. Who uses the SOC?

Government agencies that collect and publish occupational statistical data use the SOC. See FAQ number 6 for more detail. At the Federal level, these agencies and programs include:

- Department of Commerce
  - Census Bureau
- Department of Defense
- Department of Education
- Department of Health and Human Services
- Department of Labor
  - Bureau of Labor Statistics
    - Employment Projections Program
    - Labor Force Statistics from the Current Population Survey
    - National Compensation Survey
    - National Longitudinal Surveys
    - Occupational Employment Statistics
    - Occupational Health and Safety Statistics
  - Employment and Training Administration
  - Employment Standards Administration
- Department of Transportation
- Department of Veterans Affairs
  - National Center for Veterans Analysis and Statistics
- Equal Employment Opportunity Commission
- National Science Foundation
  - Division of Science Resources Statistics
- Office of Personnel Management

6. Where can I get information on the occupations in the SOC?

Depending on the type of information you are seeking, you may obtain information from several agencies:

a) The U.S. Census Bureau publishes occupational data annually, collected through the American Community Survey (ACS), for the Nation, all States and the District of Columbia, Puerto Rico, and all counties and places with populations of at least 65,000. The Census Bureau also publishes 3-year ACS data for geographic areas with populations of at least 20,000 and 5-year ACS data for all geographies in the U.S. and Puerto Rico. Census 2010 will collect, classify, and publish occupational data for Guam, American Samoa, the Commonwealth of

Butler's Exh. 88, p. 021

AR - 3398

Butler 02335

Northern Mariana Islands, and the U.S. Virgin Islands. Other household surveys publish occupational data at varying levels of detail and geography. Standard tabulations are available through the American FactFinder via the Internet at http://www.census.gov. Information about occupation coding and written reports on occupational trends can be found at http://www.census.gov/hhes/www/ioindex/ioindex.html. For additional information, contact the Census Bureau's Question and Answer Center at http://ask.census.gov or contact the Call Center at (301) 763-INFO.

b) The Department of Defense publishes data that cross-reference military occupational codes of the Army, Navy, Air Force, Marine Corps, and Coast Guard with civilian equivalent occupations. Additional information on available data products can be obtained on the Internet at http://www.dmdc.osd.mil; or by writing to Director, Defense Manpower Data Center, 1600 Wilson Blvd., Suite 400, Arlington, VA 22209-2593.

c) The National Center for Education Statistics (NCES) publishes data collected through the School and Staffing Survey (SASS) on the employment of elementary and secondary teachers, principals, and other school staff, as well as detailed information on their education, training, and background characteristics. NCES publishes detailed data on postsecondary instructors and professors collected through the Integrated Postsecondary Education Data System (IPEDS). In addition, NCES conducts various longitudinal studies that follow high school and college students into their working years and uses the SOC to classify their occupations. Products based on data from these various surveys and programs are available from the specific surveys and programs, which can be found at http://nces.ed.gov/surveys.

d) Biennially, the Bureau of Labor Statistics' Employment Projections (EP) Program publishes the *Occupational Outlook Handbook* and *Career Guide to Industries*. In addition, EP publishes the *Occupational Outlook Quarterly*. For more information about these publications, visit the EP Web site at https://www.bls.gov/empor contact the Chief, Division of Occupational Outlook, Bureau of Labor Statistics, 2 Massachusetts Ave. NE., Room 2135, Washington, DC 20212, telephone (202) 691-5700.

e) The Current Population Survey (CPS), a joint program of the Census Bureau and the Bureau of Labor Statistics, uses the 2002 Census occupational classification system, which is derived from the 2000 Standard Occupational Classification. CPS data series are available on this classification beginning with year 2000. The CPS previously used the 1990 Census occupational classification, which was adapted from the 1980 SOC. CPS data series on the earlier classification are available from 1983-2002; these data are not directly comparable with the current series. The Bureau of Labor Statistics publishes national-level estimates of occupational employment, unemployment, and earnings with demographic detail from the CPS. The CPS homepage on the BLS website is at

Butler's Exh. 88, p. 022

AR - 3399

Butler 02336

https://www.bls.gov/cps/home.htm contact information for the BLS CPS program can be found at https://www.bls.gov/cps/contact.htm

f) The Bureau of Labor Statistics' National Compensation Survey (NCS) program provides comprehensive measures of occupational wages; employment cost trends; and benefit incidence and detailed plan provisions. Detailed occupational earnings are available for selected metropolitan and nonmetropolitan areas, nine Census divisions, and on a National basis. Employment cost trends and information on the incidence and detailed provision of employee benefit plans are published for major occupational groups. For more information, see the NCS Web site at https://www.bls.gov/ncs/home.htm call (202) 691-6199, or send an e-mail to NCSInfo@bls.gov. Correspondence may be sent to U.S. Bureau of Labor Statistics National Compensation Survey, 2 Massachusetts Ave., NE., Room 4175, Washington, DC 20212-0001.

g) The Bureau of Labor Statistics' Occupational Employment Statistics (OES) program produces cross-industry occupational employment and wage estimates for the Nation, all States, the District of Columbia, Guam, Puerto Rico, the U.S. Virgin Islands, metropolitan areas, metropolitan divisions, and nonmetropolitan areas. OES also publishes national industry-specific occupational employment and wage estimates for sectors and 3-, 4-, and selected 5-digit North American Industry Classification System (NAICS) industries. Data are available from the OES home page at https://www.bls.gov/oes/home.htm For assistance with these data, contact the OES program at (202) 691-6569 or oesinfo@bls.gov. Industry-specific data for States and metropolitan and nonmetropolitan areas may be available from the State workforce agencies by contacting the individual State or States for which information is needed. Contact information for the State workforce agencies is available at https://www.bls.gov/bls/ofolist.htm

h) The Employment and Training Administration's (ETA) Occupational Information Network (O*NET) system is a comprehensive database of occupational competency profiles. ETA sponsors the development, updating, and dissemination of O*NET information through a grant with the North Carolina Employment Security Commission. The O*NET system is based on the Standard Occupational Classification (SOC) system and also provides information on additional detailed occupations within a SOC category in selected instances. The O*NET Content Model of occupational descriptors is the foundation for a series of survey questionnaires that go out to incumbent workers in various occupations which form the basis for the O*NET occupational competency profiles. The O*NET system is the successor to the Dictionary of Occupational Titles, which was last published by the Department of Labor in 1991. O*NET information is available via the Internet at http://online.onetcenter.org and also as a downloadable electronic database from the O*NET Resource Center: http://www.onetcenter.org/database.html. For more information, contact O*NET Customer Support at onet@ncmail.net or contact the Department of Labor at o-net@dol.gov . You can also write to the O*NET project director at Office of

Butler's Exh. 88, p. 023

Workforce Investment, Employment and Training Administration, U.S. Department of Labor, FPB Room S 4231, 200 Constitution Ave., NW., Washington, DC 20210.

i) The Equal Employment Opportunity Commission (EEOC) uses SOC occupational classifications, and equivalent Census occupational classifications, to create broader categories as part of the Commission's data survey and enforcement programs. Under the survey program, employer workforce information is collected periodically from private-sector firms on the Employer Information Report (EEO-1), and public sector employers on the State and Local Government Report (EEO-4). More information may be obtained from the Commission's Web site at http://www.eeoc.gov.

j) The National Science Foundation (NSF) Division of Science and Resources Statistics (SRS) Web site provides access to the Scientists and Engineers Statistical Data System (SESTAT), a comprehensive and integrated system of information about the employment, educational and demographic characteristics of scientists and engineers in the United States. It is intended for both policy analysis and general research, having features for both the casual and more intensive data user. More information may be obtained from the SESTAT Web site at http://www.nsf.gov/statistics/sestat.

7. Whom should I contact if I have a question about the SOC?

You may call the SOC information line at 202-691-6500, or send an e-mail to SOC@bls.gov.

8. Why are there different levels of detail in the SOC?

The four-tiered levels in the SOC enable users to choose the level or levels of detail corresponding to their interest and ability to collect data on different occupations. Users needing different levels of detail will still be able to compare data at the defined levels. Please see the description of alternative aggregations on pages xviii-xix for more information.

9. Why can't I find my job title in the SOC?

This volume lists occupations that may have many different job titles. It does not attempt to provide an exhaustive list of job titles. A list of additional titles called the Direct Match title file is available at https://www.bls.gov/soc If your title is not listed, you may e-mail SOC@bls.gov to suggest its inclusion.

10. Which occupations in the SOC cover "professionals"?

The 2010 SOC does not classify or identify workers using the term "professional", or other similar terms such as "skilled" or "unskilled." The SOC was created solely for

Butler's Exh. 88, p. 024

AR - 3401

Butler 02338

statistical purposes (see FAQ number 13) and the classification structure is not intended to rank or group occupations by education, credentials, earnings, or any other similar user-defined indicator of status. However, government agencies or private users may define and use various terms to suit their own purposes. For example, the Employment and Training Administration's O*NET program classifies occupations into 1 of 5 "job zones," based on data regarding the levels of education, experience, and training needed for work in an occupation, ranging from "little or no" to "extensive" preparation (for more information, see http://online.onetcenter.org/help/online/zones).

11. Why are supervisors of workers in Major Groups 13-0000 through 31-0000 not listed? Where should they be classified?

Supervisors of workers in Major Groups 13-0000 through 29-0000 are classified with the occupations they supervise because they often must have the same type of training, education, and experience as the workers they supervise. Supervisors of workers in Major Group 31-0000 are usually classified in Major Group 29-0000. See Classification Principles 4 and 5 on page xii.

12. When is the next revision of the SOC scheduled?

The next major review and revision of the SOC is expected to begin in 2013 in preparation for the 2018 SOC. The intent of this revision schedule is to minimize disruption to data providers, producers, and users by promoting simultaneous adoption of revised occupational and industry classification systems for those data series that use both. Given the multiple interdependent programs that rely on the SOC, this is best accomplished by timing revisions of the SOC for the years following North American Industry Classification System (NAICS) revisions, which occur for years ending in 2 and 7. The next such year is 2018, which has the additional benefit of coinciding with the beginning year of the American Community Survey 5-year set of surveys that bracket the 2020 Decennial Census. Thus, OMB intends to consider revisions of the SOC for 2018 and every 10 years thereafter.

To ensure that the successful efforts of the SOCPC continue and that the SOC reflects the structure of the changing workforce, the SOCPC will continue its service as a standing committee. The SOCPC will meet periodically to monitor the implementation of the 2010 SOC across Federal agencies. This consultation will include regularly scheduled interagency communication to ensure a smooth transition to the 2010 SOC. The SOCPC will also perform SOC maintenance functions, such as recommending clarifications of the SOC occupational definitions, placement of new occupations within the existing structure, and updating title files.

13. Can the SOC be used for nonstatistical purposes?

The 2010 SOC was designed solely for statistical purposes. Although it is likely that the 2010 SOC also will be used for various nonstatistical purposes (e.g., for administrative, regulatory, or taxation functions), the requirements of government agencies or private

Butler's Exh. 88, p. 025

AR - 3402

Butler 02339

users that choose to use the 2010 SOC for nonstatistical purposes have played no role in its development, nor will OMB modify the classification to meet the requirements of any nonstatistical program.

Consequently, the 2010 SOC is not to be used in any administrative, regulatory, or tax program unless the head of the agency administering that program has first determined that the use of such occupational definitions is appropriate to the implementation of the program's objectives.

14. Where can I find how the 2010 SOC relates to the 2000 SOC?

The official crosswalks can be found at https://www.bls.gov/soc Occupations are crosswalked from the 2010 SOC to the 2000 SOC and from the 2000 SOC to the 2010 SOC.

15. Where can I obtain an electronic version or additional printed versions of the SOC?

Information from the *SOC Manual 2010* can be found on the SOC homepage at https://www.bls.gov/soc To obtain a CD-ROM version or additional print copies of the *SOC Manual 2010*, contact

U.S. Department of Commerce
Technology Administration
National Technical Information Service
5301 Shawnee Road
Alexandria, VA 22312
(703) 605-6000 or 1-800-553-NTIS (6847)
Order Number: PB2010-105544 (hard cover)
Order Number: PB2010-500061 (CD-ROM)

16. When will Federal statistical agencies begin using the 2010 SOC in survey collection?

Federal statistical agencies will begin using the 2010 SOC for occupational data they publish for reference years beginning on or after January 1, 2010. However, it is important to note that for some programs, full implementation of the 2010 SOC will occur in stages, as sufficient data are needed to produce estimates at the full level of occupational detail. Contact an agency or program directly for specific information on implementation. A schedule of implementation dates for programs within the Bureau of Labor Statistics will be available at https://www.bls.gov/soc

Butler's Exh. 89, p. 001

39-1000 Supervisors of Personal Care and Service Workers

39-1010 First-Line Supervisors of Gaming Workers
This broad occupation includes the following two detailed occupations:
39-1011 Gaming Supervisors
39-1012 Slot Supervisors

39-1011 Gaming Supervisors
Supervise and coordinate activities of workers in assigned gaming areas. Circulate among tables and observe operations. Ensure that stations and games are covered for each shift. May explain and interpret operating rules of house to patrons. May plan and organize activities and services for guests in hotels/casinos. May address service complaints. Excludes "Slot Supervisors" (39-1012).

Illustrative examples: Cardroom Supervisor, Pit Boss, Table Games Supervisor

39-1012 Slot Supervisors
Supervise and coordinate activities of slot department workers to provide service to patrons. Handle and settle complaints of players. Verify and pay off jackpots. Reset slot machines after payoffs. Make repairs or adjustments to slot machines or recommend removal of slot machines for repair. Report hazards and enforce safety rules.

Illustrative example: Casino Slot Supervisor, Electronic Gaming Device Supervisor, Slot Key Person

39-1020 First-Line Supervisors of Personal Service Workers
This broad occupation is the same as the detailed occupation:
39-1021 First-Line Supervisors of Personal Service Workers

39-1021 First-Line Supervisors of Personal Service Workers
Directly supervise and coordinate activities of personal service workers, such as flight attendants, hairdressers, or caddies.

Illustrative examples: Animal Trainer Supervisor, Caddy Master, Recreation Attendant Supervisor

39-2000 Animal Care and Service Workers

39-2010 Animal Trainers
This broad occupation is the same as the detailed occupation:
39-2011 Animal Trainers

39-2011 Animal Trainers
Train animals for riding, harness, security, performance, or obedience, or assisting persons with disabilities. Accustom animals to human voice and contact; and condition animals to respond to

Butler's Exh. 89, p. 002
AR - 3405
Butler 02342

Illustrative examples: Pit Clerk, Proposition Player, Shill

39-3020 Motion Picture Projectionists
This broad occupation is the same as the detailed occupation:
39-3021 Motion Picture Projectionists

39-3021 Motion Picture Projectionists
Set up and operate motion picture projection and related sound reproduction equipment.

Illustrative examples: Film Projector Operator, Movie Projectionist

39-3030 Ushers, Lobby Attendants, and Ticket Takers
This broad occupation is the same as the detailed occupation:
39-3031 Ushers, Lobby Attendants, and Ticket Takers

39-3031 Ushers, Lobby Attendants, and Ticket Takers
Assist patrons at entertainment events by performing duties, such as collecting admission tickets and passes from patrons, assisting in finding seats, searching for lost articles, and locating such facilities as rest rooms and telephones.

Illustrative examples: Theater Usher, Ticket Collector

39-3090 Miscellaneous Entertainment Attendants and Related Workers
This broad occupation includes the following four detailed occupations:
39-3091 Amusement and Recreation Attendants
39-3092 Costume Attendants
39-3093 Locker Room, Coatroom, and Dressing Room Attendants
39-3099 Entertainment Attendants and Related Workers, All Other

39-3091 Amusement and Recreation Attendants
Perform variety of attending duties at amusement or recreation facility. May schedule use of recreation facilities, maintain and provide equipment to participants of sporting events or recreational pursuits, or operate amusement concessions and rides.

Illustrative examples: Arcade Attendant, Golf Caddy, Ski Lift Operator

39-3092 Costume Attendants
Select, fit, and take care of costumes for cast members, and aid entertainers. May assist with multiple costume changes during performances.

Illustrative examples: Theatrical Wardrobe Dresser, Wardrobe Attendant

39-3093 Locker Room, Coatroom, and Dressing Room Attendants
Provide personal items to patrons or customers in locker rooms, dressing rooms, or coatrooms.

Butler's Exh. 89, p. 003

Butler 02343

49-1000 Supervisors of Installation, Maintenance, and Repair Workers

49-1010 First-Line Supervisors of Mechanics, Installers, and Repairers
This broad occupation is the same as the detailed occupation:
49-1011 First-Line Supervisors of Mechanics, Installers, and Repairers

49-1011 First-Line Supervisors of Mechanics, Installers, and Repairers
Directly supervise and coordinate the activities of mechanics, installers, and repairers. Excludes team or work leaders.

Illustrative example: Automobile Body Repair Supervisor, Fleet Maintenance Supervisor, Railroad Car Repair Supervisor

49-2000 Electrical and Electronic Equipment Mechanics, Installers, and Repairers

49-2010 Computer, Automated Teller, and Office Machine Repairers
This broad occupation is the same as the detailed occupation:
49-2011 Computer, Automated Teller, and Office Machine Repairers

49-2011 Computer, Automated Teller, and Office Machine Repairers
Repair, maintain, or install computers, word processing systems, automated teller machines, and electronic office machines, such as duplicating and fax machines.

Illustrative examples: ATM Servicer, Cash Register Servicer, Data Processing Equipment Repairer

49-2020 Radio and Telecommunications Equipment Installers and Repairers
This broad occupation includes the following two detailed occupations:
49-2021 Radio, Cellular, and Tower Equipment Installers and Repairers
49-2022 Telecommunications Equipment Installers and Repairers, Except Line Installers

49-2021 Radio, Cellular, and Tower Equipment Installers and Repairers
Repair, install or maintain mobile or stationary radio transmitting, broadcasting, and receiving equipment, and two-way radio communications systems used in cellular telecommunications, mobile broadband, ship-to-shore, aircraft-to-ground communications, and radio equipment in service and emergency vehicles. May test and analyze network coverage.

Illustrative examples: Radio Frequency Technician, Radio Mechanic, Two-Way Radio Technician

49-2022 Telecommunications Equipment Installers and Repairers, Except Line Installers
Install, set-up, rearrange, or remove switching, distribution, routing, and dialing equipment used in central offices or headends. Service or repair telephone, cable television, Internet, and other communications equipment on customers' property. May install communications equipment or

AR - 3407 Butler's Exh. 89, p. 004 Butler 02344

communications wiring in buildings. Excludes "Telecommunications Line Installers and Repairers" (49-9052).

Illustrative examples: Fiber Optic Central Office Installer, Private Branch Exchange (PBX) Installer and Repairer

49-2090 Miscellaneous Electrical and Electronic Equipment Mechanics, Installers, and Repairers

This broad occupation includes the following eight detailed occupations:

49-2091 Avionics Technicians
49-2092 Electric Motor, Power Tool, and Related Repairers
49-2093 Electrical and Electronics Installers and Repairers, Transportation Equipment
49-2094 Electrical and Electronics Repairers, Commercial and Industrial Equipment
49-2095 Electrical and Electronics Repairers, Powerhouse, Substation, and Relay
49-2096 Electronic Equipment Installers and Repairers, Motor Vehicles
49-2097 Electronic Home Entertainment Equipment Installers and Repairers
49-2098 Security and Fire Alarm Systems Installers

49-2091 Avionics Technicians

Install, inspect, test, adjust, or repair avionics equipment, such as radar, radio, navigation, and missile control systems in aircraft or space vehicles.

Illustrative examples: Aircraft Electrician, Aircraft Instrument Mechanic, Automatic Pilot Mechanic

49-2092 Electric Motor, Power Tool, and Related Repairers

Repair, maintain, or install electric motors, wiring, or switches.

Illustrative examples: Armature Rewinder, Electrical Parts Reconditioner

49-2093 Electrical and Electronics Installers and Repairers, Transportation Equipment

Install, adjust, or maintain mobile electronics communication equipment, including sound, sonar, security, navigation, and surveillance systems on trains, watercraft, or other mobile equipment. Excludes "Avionics Technicians" (49-2091) and "Electronic Equipment Installers and Repairers, Motor Vehicles" (49-2096).

Illustrative examples: Locomotive Electrician, Marine Electronics Repairer

49-2094 Electrical and Electronics Repairers, Commercial and Industrial Equipment

Repair, test, adjust, or install electronic equipment, such as industrial controls, transmitters, and antennas. Excludes "Avionics Technicians" (49-2091), "Electronic Equipment Installers and Repairers, Motor Vehicles" (49-2096), and "Electrical and Electronics Installers and Repairers, Transportation Equipment" (49-2093).

Butler's Exh. 89, p. 005

AR - 3408

Butler 02345

Illustrative examples: Industrial Robotics Mechanic, Missile Pad Mechanic, Public Address System Mechanic

49-2095 Electrical and Electronics Repairers, Powerhouse, Substation, and Relay
Inspect, test, repair, or maintain electrical equipment in generating stations, substations, and in-service relays.

Illustrative examples: Power Transformer Repairer, Powerhouse Electrician, Relay Technician

49-2096 Electronic Equipment Installers and Repairers, Motor Vehicles
Install, diagnose, or repair communications, sound, security, or navigation equipment in motor vehicles.

Illustrative examples: Automotive Electrician, Car Alarm Installer, Car Stereo Installer, GPS Car Navigation Installer

49-2097 Electronic Home Entertainment Equipment Installers and Repairers
Repair, adjust, or install audio or television receivers, stereo systems, camcorders, video systems, or other electronic home entertainment equipment.

Illustrative examples: Electronic Musical Instrument Repairer, Home Theater Installer, Satellite Dish Installer, Wireless Internet Installer

49-2098 Security and Fire Alarm Systems Installers
Install, program, maintain, or repair security or fire alarm wiring and equipment. Ensure that work is in accordance with relevant codes. Excludes "Electricians" (47-2111) who do a broad range of electrical wiring.

Illustrative examples: Burglar Alarm Installer, Fire Alarm Installer, Home Security Alarm Installer

49-3000 Vehicle and Mobile Equipment Mechanics, Installers, and Repairers

49-3010 Aircraft Mechanics and Service Technicians
This broad occupation is the same as the detailed occupation:
49-3011 Aircraft Mechanics and Service Technicians

49-3011 Aircraft Mechanics and Service Technicians
Diagnose, adjust, repair, or overhaul aircraft engines and assemblies, such as hydraulic and pneumatic systems. Includes helicopter and aircraft engine specialists. Excludes "Avionics Technician" (49-2091).

Illustrative examples: Aircraft Engine Specialist, Airframe Mechanic, Flight Test Mechanic

49-3020 Automotive Technicians and Repairers

Butler's Exh. 89, p. 006
AR - 3409
Butler 02346

This broad occupation includes the following three detailed occupations:
49-3021 Automotive Body and Related Repairers
49-3022 Automotive Glass Installers and Repairers
49-3023 Automotive Service Technicians and Mechanics

49-3021 Automotive Body and Related Repairers
Repair and refinish automotive vehicle bodies and straighten vehicle frames. Excludes "Painters, Transportation Equipment" (51-9122) and "Automotive Glass Installers and Repairers" (49-3022).

Illustrative examples: Auto Body Customizer, Auto Bumper Straightener, Truck Body Repairer

49-3022 Automotive Glass Installers and Repairers
Replace or repair broken windshields and window glass in motor vehicles.

Illustrative examples: Auto Glass Mechanic, Automotive Glazier, Windshield Installer

49-3023 Automotive Service Technicians and Mechanics
Diagnose, adjust, repair, or overhaul automotive vehicles. Excludes "Automotive Body and Related Repairers" (49-3021), "Bus and Truck Mechanics and Diesel Engine Specialists" (49-3031), and "Electronic Equipment Installers and Repairers, Motor Vehicles" (49-2096).

Illustrative examples: Auto Transmission Specialist, Automotive Brake Technician, Automotive Fuel Injection Servicer, Hybrid Car Mechanic

49-3030 Bus and Truck Mechanics and Diesel Engine Specialists
This broad occupation is the same as the detailed occupation:
49-3031 Bus and Truck Mechanics and Diesel Engine Specialists

49-3031 Bus and Truck Mechanics and Diesel Engine Specialists
Diagnose, adjust, repair, or overhaul buses and trucks, or maintain and repair any type of diesel engines. Includes mechanics working primarily with automobile or marine diesel engines.

Illustrative examples: Biodiesel Engine Specialist, Marine Diesel Technician, School Bus Mechanic, Tractor Trailer Mechanic

49-3040 Heavy Vehicle and Mobile Equipment Service Technicians and Mechanics
This broad occupation includes the following three detailed occupations:
49-3041 Farm Equipment Mechanics and Service Technicians
49-3042 Mobile Heavy Equipment Mechanics, Except Engines
49-3043 Rail Car Repairers

49-3041 Farm Equipment Mechanics and Service Technicians

Butler's Exh. 89, p. 007
AR - 3410
Butler 02347

Diagnose, adjust, repair, or overhaul farm machinery and vehicles, such as tractors, harvesters, dairy equipment, and irrigation systems. Excludes "Bus and Truck Mechanics and Diesel Engine Specialists" (49-3031).

Illustrative examples: Combine Mechanic, Dairy Equipment Repairer, Irrigation Equipment Mechanic

49-3042 Mobile Heavy Equipment Mechanics, Except Engines
Diagnose, adjust, repair, or overhaul mobile mechanical, hydraulic, and pneumatic equipment, such as cranes, bulldozers, graders, and conveyors, used in construction, logging, and surface mining. Excludes "Rail Car Repairers" (49-3043) and "Bus and Truck Mechanics and Diesel Engine Specialists" (49-3031).

Illustrative examples: Bulldozer Mechanic, Construction Equipment Mechanic, Forklift Mechanic

49-3043 Rail Car Repairers
Diagnose, adjust, repair, or overhaul railroad rolling stock, mine cars, or mass transit rail cars. Excludes "Bus and Truck Mechanics and Diesel Engine Specialists" (49-3031).

Illustrative examples: Mine Car Mechanic, Street Car Repairer, Subway Car Repairer, Trolley Car Overhauler

49-3050 Small Engine Mechanics
This broad occupation includes the following three detailed occupations:
49-3051 Motorboat Mechanics and Service Technicians
49-3052 Motorcycle Mechanics
49-3053 Outdoor Power Equipment and Other Small Engine Mechanics

49-3051 Motorboat Mechanics and Service Technicians
Repair and adjust electrical and mechanical equipment of inboard or inboard-outboard boat engines. Excludes "Bus and Truck Mechanics and Diesel Engine Specialists" (49-3031).

Illustrative examples: Certified Marine Mechanic, Outboard Motor Mechanic

49-3052 Motorcycle Mechanics
Diagnose, adjust, repair, or overhaul motorcycles, scooters, mopeds, dirt bikes, or similar motorized vehicles.

Illustrative examples: All Terrain Vehicle Technician, Motorcycle Service Technician, Motor Scooter Mechanic

49-3053 Outdoor Power Equipment and Other Small Engine Mechanics
Diagnose, adjust, repair, or overhaul small engines used to power lawn mowers, chain saws, recreational sporting equipment and related equipment.

Butler's Exh. 89, p. 008
AR - 3411
Butler 02348

Illustrative examples: Golf Cart Mechanic, Lawn Mower Repairer, Mobility Scooter Repairer, Power Saw Mechanic

49-3090 Miscellaneous Vehicle and Mobile Equipment Mechanics, Installers, and Repairers
This broad occupation includes the following three detailed occupations:
49-3091 Bicycle Repairers
49-3092 Recreational Vehicle Service Technicians
49-3093 Tire Repairers and Changers

49-3091 Bicycle Repairers
Repair and service bicycles.

Illustrative examples: Bicycle Mechanic, Bicycle Service Technician

49-3092 Recreational Vehicle Service Technicians
Diagnose, inspect, adjust, repair, or overhaul recreational vehicles including travel trailers. May specialize in maintaining gas, electrical, hydraulic, plumbing, or chassis/towing systems as well as repairing generators, appliances, and interior components. Includes workers who perform customized van conversions. Excludes "Automotive Service Technicians and Mechanics" (49-3023) and "Bus and Truck Mechanics and Diesel Engine Specialists" (49-3031) who also work on recreation vehicles.

Illustrative examples: Recreational Vehicle (RV) Repairer, RV Mechanic

49-3093 Tire Repairers and Changers
Repair and replace tires.

Illustrative examples: Tire Balancer, Tire Fixer

49-9000 Other Installation, Maintenance, and Repair Occupations

49-9010 Control and Valve Installers and Repairers
This broad occupation includes the following two detailed occupations:
49-9011 Mechanical Door Repairers
49-9012 Control and Valve Installers and Repairers, Except Mechanical Door

49-9011 Mechanical Door Repairers
Install, service, or repair automatic door mechanisms and hydraulic doors. Includes garage door mechanics.

Illustrative example: Automatic Door Mechanic

49-9012 Control and Valve Installers and Repairers, Except Mechanical Door

Butler's Exh. 89, p. 009
AR - 3412
Butler 02349

Install, repair, and maintain mechanical regulating and controlling devices, such as electric meters, gas regulators, thermostats, safety and flow valves, and other mechanical governors.

Illustrative examples: Air Valve Mechanic, Gas Meter Installer, Thermostat Repairer

49-9020 Heating, Air Conditioning, and Refrigeration Mechanics and Installers
This broad occupation is the same as the detailed occupation:
49-9021 Heating, Air Conditioning, and Refrigeration Mechanics and Installers

49-9021 Heating, Air Conditioning, and Refrigeration Mechanics and Installers
Install or repair heating, central air conditioning, or refrigeration systems, including oil burners, hot-air furnaces, and heating stoves.

Illustrative examples: Gas Furnace Installer; Heating, Ventilation, and Air Conditioning (HVAC) Mechanic; Oil Burner Repairer

49-9030 Home Appliance Repairers
This broad occupation is the same as the detailed occupation:
49-9031 Home Appliance Repairers

49-9031 Home Appliance Repairers
Repair, adjust, or install all types of electric or gas household appliances, such as refrigerators, washers, dryers, and ovens.

Illustrative examples: Vacuum Cleaner Repairer, Washing Machine Installer, Window Air Conditioner Installer

49-9040 Industrial Machinery Installation, Repair, and Maintenance Workers
This broad occupation includes the following four detailed occupations:
49-9041 Industrial Machinery Mechanics
49-9043 Maintenance Workers, Machinery
49-9044 Millwrights
49-9045 Refractory Materials Repairers, Except Brickmasons

49-9041 Industrial Machinery Mechanics
Repair, install, adjust, or maintain industrial production and processing machinery or refinery and pipeline distribution systems. Excludes "Millwrights" (49-9044), "Mobile Heavy Equipment Mechanics, Except Engines" (49-3042), and "Maintenance Workers, Machinery" (49-9043).

Illustrative examples: Boilerhouse Mechanic, Foundry Equipment Mechanic, Hydroelectric Machinery Mechanic

49-9043 Maintenance Workers, Machinery

Butler's Exh. 89, p. 010
AR - 3413
Butler 02350

Lubricate machinery, change parts, or perform other routine machinery maintenance. Excludes "Maintenance and Repair Workers, General" (49-9071).

Illustrative example: Crane Oiler

49-9044 Millwrights
Install, dismantle, or move machinery and heavy equipment according to layout plans, blueprints, or other drawings.

Illustrative examples: Machine Erector, Machinery Dismantler, Maintenance Millwright

49-9045 Refractory Materials Repairers, Except Brickmasons
Build or repair equipment such as furnaces, kilns, cupolas, boilers, converters, ladles, soaking pits and ovens, using refractory materials.

Illustrative examples: Bondactor Machine Repairer, Cupola Repairer, Kiln Door Builder, Ladle Repairer

49-9050 Line Installers and Repairers
This broad occupation includes the following two detailed occupations:
49-9051 Electrical Power-Line Installers and Repairers
49-9052 Telecommunications Line Installers and Repairers

49-9051 Electrical Power-Line Installers and Repairers
Install or repair cables or wires used in electrical power or distribution systems. May erect poles and light or heavy duty transmission towers. Excludes "Electrical and Electronics Repairers, Powerhouse, Substation, and Relay" (49-2095).

Illustrative examples: Electric Powerline Examiner, Electric Utility Lineworker, Electrical High Tension Tester, Electrical Lineworker

49-9052 Telecommunications Line Installers and Repairers
Install and repair telecommunications cable, including fiber optics.

Illustrative examples: Cable Television Installer, FIOS Line Installer, Telephone Cable Splicer

49-9060 Precision Instrument and Equipment Repairers
This broad occupation includes the following five detailed occupations:
49-9061 Camera and Photographic Equipment Repairers
49-9062 Medical Equipment Repairers
49-9063 Musical Instrument Repairers and Tuners
49-9064 Watch Repairers
49-9069 Precision Instrument and Equipment Repairers, All Other

49-9061 Camera and Photographic Equipment Repairers

Butler's Exh. 89, p. 011
AR - 3414
Butler 02351

Repair and adjust cameras and photographic equipment, including commercial video and motion picture camera equipment.

Illustrative example: Aircraft Photographic Equipment Repairer, Camera Repairer, Photographic Equipment Technician

49-9062 Medical Equipment Repairers
Test, adjust, or repair biomedical or electromedical equipment.

Illustrative examples: Biomedical Equipment Technician, Radiology Equipment Servicer, Surgical Instrument Mechanic

49-9063 Musical Instrument Repairers and Tuners
Repair percussion, stringed, reed, or wind instruments. May specialize in one area, such as piano tuning. Excludes "Electronic Home Entertainment Equipment Installers and Repairers" (49-2097) who repair electrical and electronic musical instruments.

Illustrative examples: Brass and Wind Instrument Repairer, Piano Tuner, Violin Repairer

49-9064 Watch Repairers
Repair, clean, and adjust mechanisms of timing instruments, such as watches and clocks. Includes watchmakers, watch technicians, and mechanical timepiece repairers.

Illustrative examples: Antique Clock Repairer, Clock Repair Technician, Horologist

49-9069 Precision Instrument and Equipment Repairers, All Other
All precision instrument and equipment repairers not listed separately.

Illustrative examples: Gyroscope Repairer, Telescope Repairer

49-9070 Maintenance and Repair Workers, General
This broad occupation is the same as the detailed occupation:
49-9071 Maintenance and Repair Workers, General

49-9071 Maintenance and Repair Workers, General
Perform work involving the skills of two or more maintenance or craft occupations to keep machines, mechanical equipment, or the structure of an establishment in repair. Duties may involve pipe fitting; boiler making; insulating; welding; machining; carpentry; repairing electrical or mechanical equipment; installing, aligning, and balancing new equipment; and repairing buildings, floors, or stairs. Excludes "Maintenance Workers, Machinery" (49-9043).

Illustrative example: Building Maintenance Mechanic

49-9080 Wind Turbine Service Technicians
This broad occupation is the same as the detailed occupation:

AR - 3415 Butler's Exh. 89, p. 012 Butler 02352

49-9081 Wind Turbine Service Technicians

49-9081 Wind Turbine Service Technicians
Inspect, diagnose, adjust, or repair wind turbines. Perform maintenance on wind turbine equipment including resolving electrical, mechanical, and hydraulic malfunctions.

Illustrative examples: Wind Energy Technician, Wind Turbine Mechanic

49-9090 Miscellaneous Installation, Maintenance, and Repair Workers
This broad occupation includes the following nine detailed occupations:
49-9091 Coin, Vending, and Amusement Machine Servicers and Repairers
49-9092 Commercial Divers
49-9093 Fabric Menders, Except Garment
49-9094 Locksmiths and Safe Repairers
49-9095 Manufactured Building and Mobile Home Installers
49-9096 Riggers
49-9097 Signal and Track Switch Repairers
49-9098 Helpers—Installation, Maintenance, and Repair Workers
49-9099 Installation, Maintenance, and Repair Workers, All Other

49-9091 Coin, Vending, and Amusement Machine Servicers and Repairers
Install, service, adjust, or repair coin, vending, or amusement machines including video games, juke boxes, pinball machines, or slot machines.

Illustrative examples: Arcade Games Mechanic, Parking Meter Collector, Slot Machine Mechanic, Vending Machine Filler

49-9092 Commercial Divers
Work below surface of water, using scuba gear to inspect, repair, remove, or install equipment and structures. May use a variety of power and hand tools, such as drills, sledgehammers, torches, and welding equipment. May conduct tests or experiments, rig explosives, or photograph structures or marine life. Excludes "Fishers and Related Fishing Workers" (45-3011), "Athletes and Sports Competitors" (27-2021), and "Police and Sheriff's Patrol Officers" (33-3051).

Illustrative examples: Marine Diver, Salvage Diver, Scuba Diver, Underwater Welder

49-9093 Fabric Menders, Except Garment
Repair tears, holes, and other defects in fabrics, such as draperies, linens, parachutes, and tents.

Illustrative examples: Fabric Awning Repairer, Parachute Repairer, Sail Repairer

49-9094 Locksmiths and Safe Repairers
Repair and open locks; make keys; change locks and safe combinations; and install and repair safes.

Butler's Exh. 89, p. 013

Butler 02353

Illustrative examples: Key Maker, Safe and Vault Installer, Safe and Vault Mechanic

49-9095 Manufactured Building and Mobile Home Installers
Move or install mobile homes or prefabricated buildings.

Illustrative examples: Housetrailer Servicer, Mobile Home Mechanic, Mobile Home Servicer

49-9096 Riggers
Set up or repair rigging for construction projects, manufacturing plants, logging yards, ships and shipyards, or for the entertainment industry.

Illustrative examples: Acrobatic Rigger, Crane Rigger, Yard Rigger

49-9097 Signal and Track Switch Repairers
Install, inspect, test, maintain, or repair electric gate crossings, signals, signal equipment, track switches, section lines, or intercommunications systems within a railroad system.

Illustrative examples: Light Rail Signal Technician, Rail Signal Mechanic, Third Rail Installer

49-9098 Helpers—Installation, Maintenance, and Repair Workers
Help installation, maintenance, and repair workers in maintenance, parts replacement, and repair of vehicles, industrial machinery, and electrical and electronic equipment. Perform duties such as furnishing tools, materials, and supplies to other workers; cleaning work area, machines, and tools; and holding materials or tools for other workers.

Illustrative examples: Automobile Body Repairer Helper, Locksmith Helper, Motorboat Mechanic Helper

49-9099 Installation, Maintenance, and Repair Workers, All Other
All installation, maintenance, and repair workers not listed separately.

Illustrative examples: Bowling Alley Mechanic, Fire Extinguisher Installer, Gasoline Pump Installer, Gunsmith

AR - 3417 Butler's Exh. 89, p. 014 Butler 02354

53-2031 Flight Attendants
Provide personal services to ensure the safety, security, and comfort of airline passengers during flight. Greet passengers, verify tickets, explain use of safety equipment, and serve food or beverages.

Illustrative examples: Airline Flight Attendant, Airplane Flight Attendant

53-3000 Motor Vehicle Operators

53-3010 Ambulance Drivers and Attendants, Except Emergency Medical Technicians
This broad occupation is the same as the detailed occupation:
53-3011 Ambulance Drivers and Attendants, Except Emergency Medical Technicians

53-3011 Ambulance Drivers and Attendants, Except Emergency Medical Technicians
Drive ambulance or assist ambulance driver in transporting sick, injured, or convalescent persons. Assist in lifting patients.

Illustrative examples: Emergency Medical Services (EMS) Driver

53-3020 Bus Drivers
This broad occupation includes the following two detailed occupations:
53-3021 Bus Drivers, Transit and Intercity
53-3022 Bus Drivers, School or Special Client

53-3021 Bus Drivers, Transit and Intercity
Drive bus or motor coach, including regular route operations, charters, and private carriage. May assist passengers with baggage. May collect fares or tickets.

Illustrative examples: Motor Coach Bus Driver, Public Transit Bus Driver

53-3022 Bus Drivers, School or Special Client
Transport students or special clients, such as the elderly or persons with disabilities. Ensure adherence to safety rules. May assist passengers in boarding or exiting.

Illustrative examples: School Bus Operator, Special Education Bus Driver

53-3030 Driver/Sales Workers and Truck Drivers
This broad occupation includes the following three detailed occupations:
53-3031 Driver/Sales Workers
53-3032 Heavy and Tractor-Trailer Truck Drivers
53-3033 Light Truck or Delivery Services Drivers,

53-3031 Driver/Sales Workers
Drive truck or other vehicle over established routes or within an established territory and sell or deliver goods, such as food products, including restaurant take-out items, or pick up or deliver

Butler's Exh. 89, p. 015
AR - 3418
Butler 02355

items such as commercial laundry. May also take orders, collect payment, or stock merchandise at point of delivery. Includes newspaper delivery drivers. Excludes "Coin, Vending, and Amusement Machine Servicers and Repairers" (49-9091) and "Light Truck or Delivery Services Drivers" (53-3033).

Illustrative examples: Bakery Deliverer, Pizza Delivery Driver, Route Salesperson

53-3032 Heavy and Tractor-Trailer Truck Drivers
Drive a tractor-trailer combination or a truck with a capacity of at least 26,000 pounds Gross Vehicle Weight (GVW). May be required to unload truck. Requires commercial drivers' license.

Illustrative examples: Auto Carrier Driver, Cement Truck Driver, Moving Van Driver

53-3033 Light Truck or Delivery Services Drivers
Drive a light vehicle, such as a truck or van, with a capacity of less than 26,000 pounds Gross Vehicle Weight (GVW), primarily to deliver or pick up merchandise or to deliver packages. May load and unload vehicle. Excludes "Couriers and Messengers" (43-5021) and "Driver/Sales Workers" (53-3031).

Illustrative example: Pharmacy Delivery Driver

53-3040 Taxi Drivers and Chauffeurs
This broad occupation is the same as the detailed occupation:
53-3041 Taxi Drivers and Chauffeurs

53-3041 Taxi Drivers and Chauffeurs
Drive automobiles, vans, or limousines to transport passengers. May occasionally carry cargo. Includes hearse drivers. Excludes "Ambulance Drivers and Attendants, Except Emergency Medical Technicians" (53-3011) and "Bus Drivers" (53-3020).

Illustrative examples: Cab Driver, Courtesy Van Driver, Limousine Driver

53-3090 Miscellaneous Motor Vehicle Operators
This broad occupation is the same as the detailed occupation:
53-3099 Motor Vehicle Operators, All Other

53-3099 Motor Vehicle Operators, All Other
All motor vehicle operators not listed separately.

Illustrative examples: Ice-Resurfacing Machine Operator, Motorcycle Deliverer, Street Cleaning Equipment Operator

53-4000 Rail Transportation Workers

National Prevailing Wage and Helpdesk Center
Prevailing Wage Frequently Asked Questions
March 2010

OFLC issued FAQs in December prior to the opening of the National Prevailing Wage and Helpdesk Center (NPWHC) to assist employers with Prevailing Wage (PW) questions, especially during the transition. These FAQs have been updated to provide responses to the most common processing questions and submission errors. While most of these FAQs are not substantively different from the December 2009 FAQs, further clarifications and additional FAQs have been provided. These March 2010 FAQs are meant to replace the December 2009 FAQs.

Question: What labor certification programs are affected by the new prevailing wage process administered by the NPWHC?

Answer: As described in the Department's December 4, 2009 Federal Register Notice (74 FR 63796), the National Prevailing Wage and Helpdesk Center (NPWHC) will process Prevailing Wage Determination (PWD) requests for H-1B, H-1B1 (Chile/Singapore), H-1C (if reauthorized by Congress), H-2B, E-3 (Australia) programs, and the permanent labor certification program (PERM).

Question: What form should I use to request a Prevailing Wage Determination?

Answer: An employer must use ETA Form 9141 to request a PWD from the NPWHC. This form is available in the Forms and Instructions section of the OFLC website: http://www.foreignlaborcert.doleta.gov/form.cfm

Question: I want to mail in a request for a PWD, where do I send it? What is the correct address and zip code?

Answer: To mail a request for a PWD, an employer must send a completed ETA Form 9141 to the NPWHC. The complete address and zip code for the NPWHC is:

U.S. Department of Labor
Employment and Training Administration
Office of Foreign Labor Certification
National Prevailing Wage and Helpdesk Center
Attn: PWD Request
1341 G Street, NW
Suite 201
Washington, DC 20005-3105

Question: Will the NPWHC accept PWD requests via electronic means?

Answer: Yes. Electronic filing is strongly recommended. The Department's iCert Portal has been updated to allow users to electronically submit ETA Form 9141, requests for PWDs, to the NPWHC. To access the iCert Portal go to: http://icert.doleta.gov/.

Question: My office is located in Washington, DC. Can I bring my PWD request to the NPWHC?

Answer: No. The NPWHC is not set up to receive walk-in applications from the public. Requests for PWDs should be filed either electronically using the iCERT system or mailed to the NPWHC.

Question: How can I obtain assistance in preparing a PWD request?

Answer: Persons with questions regarding the preparation of PWD should consult the OFLC website: www.foreignlaborcert.doleta.gov. Information is located in the Prevailing Wage section of the FAQs and the iCERT Portal System.

Question: Once the NPWHC makes a PWD, how will I receive it?

Answer: The Department's strong preference is for the electronic transmittal of PWDs. Therefore, we encourage all requestors to include their e-mail addresses on the ETA Form 9141, under item B15. Once a determination is made, the NPWHC will e-mail the requestor an electronic copy of the PWD. In order to receive e-mails from the NPWHC, requestors should ensure that the domain @dol.gov is not blocked by their internet e-mail provider.

If the requestor does not provide an e-mail address on its ETA Form 9141, item B15, the NPWHC will send the PWD to the requestor's mailing address by regular mail.

Question: Once I submit a PWD request, how long will it take to receive a determination?

Answer: The NPWHC is working to provide Prevailing Wage Determinations as quickly as possible, in a first-in, first-out order. However, determination times may fluctuate as the Department works to centralize processing of PWD requests at the NPWHC. Therefore, we continue to encourage requestors to submit their ETA Forms 9141 at least 60 days in advance of the employers' initial recruitment efforts.

Question: Will the issued PWD include hourly or annual wages?

U.S. Department of Labor
Wage and Hour Division

U.S. Wage and Hour Division
(July 2010)

Fact Sheet #63: Application of Federal Labor Laws to Reforestation

This fact sheet provides general information concerning the laws administered and enforced by the Wage and Hour Division that apply to reforestation workers. A reforestation employer covered by any one law is not necessarily covered by all the laws listed below; similarly, an employer exempt from the requirements of any one law is not necessarily exempt from the requirements of all the laws.

Summary of Laws

The Fair Labor Standards Act (FLSA) contains Federal minimum wage, overtime, recordkeeping, and child labor requirements for covered employers.

The McNamara-O'Hara Service Contract Act (SCA) contains prevailing wage, fringe benefit, and recordkeeping requirements for work performed on covered contracts with the Federal government.

The Contract Work Hours and Safety Standards Act (CWHSSA), a companion law to the SCA, requires overtime pay for laborers and mechanics for all hours worked in excess of 40 in a workweek on SCA-covered contracts in excess of $100,000.

The Migrant and Seasonal Agricultural Worker Protection Act (MSPA) protects migrant and seasonal agricultural workers by establishing employment standards related to wages, housing, transportation, disclosures, and recordkeeping. The MSPA also requires farm labor contractors (FLCs) and farm labor contractor employees (FLCEs) to register with the U.S. Department of Labor and to obtain special authorization before housing, transporting, or driving covered workers.

The Field Sanitation Provisions of the Occupational Safety and Health Act of 1970 (OSH Act) establish minimum standards for covered agricultural settings for toilets, potable drinking water, hand-washing facilities, and information regarding good hygiene practices.

Coverage

Generally, the FLSA applies to any employee who engages in interstate commerce or the production of goods for interstate commerce, or all employees of an enterprise engaging in interstate commerce or the production of goods for interstate commerce and grossing $500,000 or more per year.

The SCA applies generally to any contract with the U.S. Government the principal purpose of which is to furnish services (e.g., tree planting, brush clearing, pre-commercial thinning, and forest fire-fighting) in the U.S. through the use of service employees. The CWHSSA applies to service contracts in excess of $100,000.

The MSPA applies to any person who solicits, recruits, hires, employs, furnishes, or transports any migrant or seasonal agricultural worker. The MSPA applies to reforestation

Butler's Exh. 92, p. 001

AR - 3431

Butler 02368

workers engaged in predominately manual work (e.g., tree-planting, brush-clearing, pre-commercial thinning, forest fire-fighting) if they otherwise meet the definition of a migrant or seasonal agricultural worker.

The field sanitation standards of the OSH Act apply to any agricultural establishment that employed 11 or more workers on any one day during the previous 12 months to perform "hand labor" field work. "Hand labor" includes hand-cultivation, hand-weeding, hand-planting, and hand-harvesting of vegetables, nuts, fruits, seedlings, or other crops. Except for hand-labor reforestation work, the term "hand labor" does not include forestry operations such as logging.

Exemptions

The FLSA exempts certain forestry managers, wildfire fire-fighters, and motor vehicle operators from the minimum wage and/or overtime requirements. The FLSA also contains an overtime exemption for forestry or lumbering operations employing eight or fewer workers in planting or tending trees, cruising, surveying, or felling timber, or in preparing or transporting logs or other forestry products to the mill, processing plant, railroad, or other transportation terminal.

If the contract is for less than $2500, the SCA does not require payment of prevailing wages and fringe benefits, but does require payment of the FLSA minimum wage. Managers or supervisors exempt under the FLSA do not qualify as "service employees" under the SCA, and so are excluded from its provisions.

Contractors are exempt from MSPA if they operate solely within a 25-mile intrastate radius of their permanent residence and for not more than 13 weeks per year. The MSPA housing requirements do not apply to bona fide innkeepers, and the transportation requirements do not apply to bona fide common carriers or car pools.

The above exemptions are those most often applicable to reforestation employers, but other exemptions may apply in certain circumstances. Contact the nearest Wage and Hour Division office for more information.

Wages

FLSA-covered non-exempt employees must receive not less than the Federal minimum wage for all hours worked in the workweek. Such employees must also receive overtime pay at the rate of time and one-half their regular rate of pay for all hours worked in excess of 40 in a workweek. The overtime and minimum wage requirements under the FLSA (as well as minimum wage requirements under other statutes) apply even if an employee is paid on a piece rate.

SCA-covered employees must receive no less than the prevailing wage and fringe benefits specified for their occupation in the wage determination applicable to the contract. CWHSSA-covered workers must receive time and one-half their regular rate of pay for all hours worked in excess of 40 in a workweek on the covered contract.

MSPA requires that employers properly disclose to workers all terms and conditions of employment, including wages to be paid, and pay all wages owed when due, but no less frequently than semi-monthly. A worker's wage cannot be less than the highest of the applicable state or Federal minimum wage, the wage promised to a non-immigrant worker on an H-2B visa, or the prevailing wage required by an SCA-covered government contract.

Butler's Exh. 92, p. 002

Deductions

Deductions, whether direct or indirect, for facilities that are primarily for the benefit of the *employer* are only permissible under the FLSA to the extent that they do not reduce the hourly wage for the first 40 hours of any week below the statutorily required FLSA minimum wage (or SCA prevailing wage, if applicable), and do not reduce the time and one-half premium for all hours worked over 40 in an overtime workweek. Tools required to perform the employee's job (e.g., rain suits, chaps, leathers, other protective gear, chain-saws, and OSHA-required safety equipment) are primarily for the benefit of the employer.

Deductions, other than those required by law, are only permissible under MSPA if properly disclosed to the worker in advance. In addition, deductions for housing are only permissible under MSPA if the housing complies with the applicable substantive safety and health standards.
Employers shall provide field sanitation facilities and water required under the OSHAct at no cost to the employees.

Recordkeeping

The FLSA and SCA require the employer to record daily and weekly hours worked, rates of pay, additions to or deductions from wages, and total wages paid, although no particular format is required. A complete listing of the required items can be found at 29 CFR Part 516.

The MSPA contains similar recordkeeping requirements and in addition requires that employees be furnished pay statements each pay period. FLCs must provide each person to whom they furnish workers a copy of the payroll records covering the period for which they furnished the workers.

Child Labor

The FLSA prohibits employment of workers under the age of 18 in forestry or reforestation activities deemed "hazardous" by the Department of Labor. For instance, workers under 18 may not drive (except in limited circumstances), or engage in most forestry services, timber tract management, forest fire fighting, forest fire prevention, logging, or use chainsaws. These prohibitions include tree planting and tree thinning operations in forests. See regulations at 29 CFR Part 570 for more information.

Housing

The FLSA and SCA contain no housing safety and health standards. The cost of providing housing may be creditable towards meeting the employer's minimum or prevailing wage payment obligation. Housing subject to MSPA must comply with all applicable substantive Federal and state safety and health requirements prior to and throughout occupancy by covered workers. Each agricultural employer, agricultural association, or FLC that provides housing must post at each housing site a written statement of the terms and conditions of occupancy as well as an occupancy permit. An FLC must have DOL authorization for each facility or property used to house migrant farm workers. See "Exemptions" section above.

Field Sanitation

The OSH Act Field Sanitation Standards require employers to provide at no cost to the workers:

- potable drinking water, suitably cool and in sufficient amounts, dispensed in single-use cups or by fountains, located so as to be readily accessible to all employees;
- for every 20 employees, one toilet and handwashing facility located within a quarter-mile walk, or if not feasible, at the closest point of vehicular access; and
- notice to each employee of the location of the facilities and reasonable opportunities during the workday to use them.

Employers must also maintain facilities in accordance with public health sanitation practices.

Certain states, such as those with OSHA-approved state plans, have adopted standards more stringent than the Federal requirements. Where both Federal and state requirements apply to an agricultural establishment, the employer must comply with the stricter requirement. Contact the state labor agency or department of health to find out whether your state has such requirements. For more information, see Fact Sheet 51: "Field Sanitation Standards under the Occupational Safety and Health Act."

Transportation

The MSPA requires any non-exempt person who uses, or causes to be used, a vehicle to transport migrant or seasonal agricultural workers to comply with applicable Federal and state vehicle safety and operator requirements. MSPA requires specific insurance levels for each vehicle used to transport workers. FLCs must obtain specific authorization from the U.S. Department of Labor for each vehicle they use or cause to be used to transport workers. See Fact Sheet 50: "Transportation under the Migrant and Seasonal Agricultural Worker Protection Act" for additional information.

Posters/Forms

The FLSA requires the employer to post the FLSA poster (Form WH-1088).

The SCA requires the employer to post the SCA poster (Form WH-1313) and the Wage Determination.

The MSPA requires employers to post the MSPA poster (Form WH-1376). Each agricultural employer, agricultural association, or FLC that provides housing must also post a written statement of the terms and conditions of occupancy as well as an occupancy permit at each housing site. Wage and Hour has optional forms available that employers may use to achieve compliance with MSPA recordkeeping, posting, and disclosure requirements.

State/Local Laws

Individual state or local laws may vary from Federal law. When Federal, state, and local laws apply to the same circumstances, employers must comply with the law that provides the greatest benefit to the worker. Check with the appropriate state agency as to what each State requires.

Where to Obtain Additional Information

This publication is for general information and is not to be considered in the same light as official statements of position contained in the regulations.

For additional information, visit our Wage-Hour website: **http://www.wagehour.dol.gov** and/or call our Wage-Hour toll-free information and helpline, available 8am to 5pm in your time zone, 1-866-4USWAGE (1-866-487-9243).

DOL Regulations - Live Q&A Session with ETA

NOTE: If you are unable to access the live chat window, please go to the static comments page and refresh the page for new comments.

Thursday, July 14, 1:30 p.m. EDT

Please note that input received during the course of this web chat is not part of the formal rulemaking process. You can find DOL's proposed regulations, and submit comments, by visiting www.regulations.gov.

Regulatory Agenda Chat with ETA

Thursday July 14, 2011

1:21 **Moderator:** You can submit your questions at any time, but the chat will begin at 1:30pm. This will be a text only chat, so no video or audio will be included.

1:30 **Jane Oates:** Good afternoon, this is Jane Oates, Assistant Secretary of Labor for Employment and Training. Welcome to the ETA regulatory agenda Web chat. The purpose of this web chat is to highlight ETA regulatory priorities, and get your input. We have several items currently on the agenda that are designed to advance the Secretary's goal of good jobs for everyone and to help provide access to employment and training opportunities. I would like to remind everyone that while we are pleased to have this opportunity to answer your questions, today's chat is not part of ETA's rulemaking process. I want to remind you that comments and suggestions received during this Web chat will not become part of any rulemaking record.

1:30 **Comment From Mike Kennedy**

Employment and Training Administration
Office of Foreign Labor Certification
Frequently Asked Questions
H-2A Temporary Agricultural Foreign Labor Certification Program
2010 Final Rule, Round 3

Filing

Question: When the employer submits the ETA Form 790 to the State Workforce Agency (SWA) during the requisite 60-75 day timeframe, what should the employer include along with it?

Answer: The employer is required to submit to the SWA the original ETA Form 790 along with all required attachments, as specified in the instructions to the form. The required attachments include, if applicable, an attachment describing special work schedule situations, an attachment describing in detail the job tasks and duties, and an attachment explaining the employer's handling of wage rate for each activity. The employer should also submit any additional attachments it creates to complete its response to one of the question(s) on the form or otherwise document its compliance with the required assurances described in 20 CFR 653.501 and 655.122. Upon receiving the ETA Form 790, the SWA may require the employer to submit documentation substantiating the appropriateness of any qualification(s) contained in the ETA Form 790.

Please note:
The employer must also send a copy of the ETA Form 790 submitted to the SWA with its *Application for Temporary Employment Certification* to the Chicago National Processing Center.

ETA Form 9142

Question: Where do I find the SOC Code and SOC Occupation Title requested in Section B, questions 2 and 3 of the ETA Form 9142?

Answer: The Standard Occupational Classification (SOC) system is a numerical code that classifies job opportunities into occupational categories for the purpose of collecting, calculating, or disseminating data. An employer may search the Bureau of Labor Statistics' 2010 SOC list, which lists occupations in alphabetical order (http://www.bls.gov/soc/2010/soc_alph.htm#F), or may search the Department's wage wizard at http://www.flcdatacenter.com/OesQuick.aspx to obtain the appropriate code. The code and occupation title selected by the employer should reflect the nature of the position for which certification is sought.

The SOC categories of occupations that are most likely to be identified with H-2A agricultural workers are:

Butler's Exh. 94, p. 001

AR - 3438

Butler 02375

45-2092.01	Nursery Workers
45-2092.02	Farmworkers and Laborers, Crop
45-2041.00	Graders and Sorters
45-2091.00	Agricultural Equipment Operators
45-2093.00	Farm Workers, Farm and Ranch Animals
45-2099.00	Agricultural Workers, All Other

Housing:

Question: Does public rental housing need to be inspected by the SWA?

Answer: No, as long as the public rental housing meets applicable local, state or federal standards. The employer must provide documentation to the satisfaction of the Certifying Officer that the housing complies with the applicable standard. At a minimum, the employer must provide a written assurance that the public rental housing provided meets all local, State, and Federal standards for such accommodations.

H-2A Labor Contractors

Question: Are employers who are engaged in certain occupations exempt from the H-2A Labor Contractor designation and obligations?

Answer: No. Any employer who fits the definition of an H-2ALC must identify itself as such on both the ETA Form 790 and the ETA Form 9142 and meet all of the obligations and requirements applicable to H-2ALCs, as set out in 20 CFR 655.132. Employers who are H-2ALCs and who belong to occupations for which special procedures have been established will continue to submit their applications in accordance with those special procedures. However, the H-2ALC must comply with all the requirements set forth in § 655.132, unless the particular requirement is superseded by the special procedures.

Job Offers, Assurances and Obligations

Transportation/Daily Subsistence

Question: Will I have to pay for the worker's daily subsistence before the worker begins his or her inbound trip to my worksite?

Answer: No. The employer is only responsible for the cost of the worker's daily subsistence from the time the worker departs the place from which the worker has come to work for the employer (generally, the worker's home or place from which the worker was recruited) until the time the worker arrives at the employer's worksite.

Fifty Percent Rule

Question: What is a small business exemption to the 50 percent rule?

DEPARTMENT OF LABOR

Employment and Training Administration

20 CFR Part 655

Wage and Hour Division

29 CFR Part 503

RIN 1205–AB58

Temporary Non-Agricultural Employment of H–2B Aliens in the United States

AGENCY: Employment and Training Administration, and Wage and Hour Division, Labor.

ACTION: Final rule.

SUMMARY: The Department of Labor (the Department) is amending its regulations governing the certification of the employment of nonimmigrant workers in temporary or seasonal non-agricultural employment and the enforcement of the obligations applicable to employers of such nonimmigrant workers. This Final Rule revises the process by which employers obtain a temporary labor certification from the Department for use in petitioning the Department of Homeland Security (DHS) to employ a nonimmigrant worker in H–2B status. We have also created new regulations to provide for increased worker protections for both United States (U.S.) and foreign workers.

DATES: This Final Rule is effective April 23, 2012.

FOR FURTHER INFORMATION CONTACT: For further information on 20 CFR part 655, Subpart A, contact William L. Carlson, Ph.D., Administrator, Office of Foreign Labor Certification, ETA, U.S. Department of Labor, 200 Constitution Avenue NW., Room C–4312, Washington, DC 20210; Telephone (202) 693–3010 (this is not a toll-free number). Individuals with hearing or speech impairments may access the telephone number above via TTY by calling the toll-free Federal Information Relay Service at 1–800–877–8339.

For further information on 29 CFR part 503 contact Mary Ziegler, Director, Division of Regulations, Legislation, and Interpretation, Wage and Hour Division, U.S. Department of Labor, 200 Constitution Avenue NW., Room S–3510, Washington, DC 20210; Telephone (202) 693–0071 (this is not a toll-free number). Individuals with hearing or speech impairments may access the telephone number above via TTY by calling the toll-free Federal Information Relay Service at 1–800–877–8339.

SUPPLEMENTARY INFORMATION:

I. Revisions to 20 CFR part 655 Subpart A

A. Statutory Standard and Current Department of Labor Regulations

Section 101(a)(15)(H)(ii)(b) of the Immigration and Nationality Act (INA or the Act) defines an H–2B worker as a nonimmigrant admitted to the U.S. on a temporary basis to perform temporary non-agricultural labor or services for which "unemployed persons capable of performing such service or labor cannot be found in this country." 8 U.S.C. 1101(a)(15)(H)(ii)(b). Section 214(c)(1) of the INA requires DHS to consult with appropriate agencies before approving an H–2B visa petition. 8 U.S.C. 1184(c)(1). The regulations of the U.S. Citizenship and Immigration Services (USCIS), the agency within DHS which adjudicates requests for H–2B status, require that an intending employer first apply for a temporary labor certification from the Secretary of Labor (the Secretary). That certification informs USCIS that U.S. workers capable of performing the services or labor are not available, and that the employment of the foreign worker(s) will not adversely affect the wages and working conditions of similarly employed U.S. workers. 8 CFR 214.2(h)(6). On Guam, H–2B employment requires certification from the Governor of Guam, not the Secretary. 8 CFR 214.2(h)(6)(iii).

Our regulations, at 20 CFR part 655, Subpart A, "Labor Certification Process for Temporary Employment in Occupations other than Agriculture or Registered Nursing in the United States (H–2B Workers)," govern the H–2B labor certification process, as well as the enforcement process to ensure U.S. and H–2B workers are employed in compliance with H–2B labor certification requirements. Applications for labor certification are processed by the Office of Foreign Labor Certification (OFLC) in the Employment and Training Administration (ETA), the agency to which the Secretary has delegated her responsibilities as described in the USCIS H–2B regulations. Enforcement of the attestations made by employers in the course of submission of H–2B applications for labor certification is conducted by the Wage and Hour Division (WHD) within the Department, to which DHS on January 16, 2009 delegated enforcement authority granted to it by the INA. 8 U.S.C. 1184(c)(14)(B).

Under the 2008 H–2B regulations published at 73 FR 29942, May 22, 2008 (the 2008 Final Rule), an employer seeking to fill job opportunities through the H–2B program must demonstrate that it has a temporary need for the services or labor, as defined by one of four regulatory standards: (1) A one-time occurrence; (2) a seasonal need; (3) a peakload need; or (4) an intermittent need. 8 CFR 214.2(h)(6)(ii)(B). Generally, that period of time will be limited to 1 year or less, except in the case of a one-time occurrence, which could last up to 3 years, consistent with the standard under DHS regulations at 8 CFR 214.2(h)(6) as well as current Department regulations at § 655.6(b).

The 2008 Final Rule also employed an attestation-based filing model, in which the employer conducted its recruitment with no direct Federal or State oversight. Lastly, the 2008 Final Rule provided WHD's enforcement authority under which WHD could impose civil money penalties and other remedies.

On August 30, 2010, the U.S. District Court for the Eastern District of Pennsylvania in *Comité de Apoyo a los Trabajadores Agricolas (CATA)* v. *Solis*, Civil No. 2:09–cv–240–LP, 2010 WL 3431761 (E.D. Pa. Aug. 30, 2010), invalidated various provisions of the 2008 Final Rule and remanded the rule to the Department to correct its errors. In the Notice of Proposed Rulemaking (NPRM) published March 18, 2011 (76 FR 15130), we proposed to amend the particular provisions that were invalidated by the Court, including specifying when H–2B employers must contact unions as a potential source of labor at § 655.44 and providing a new definition of full-time and a slightly modified definition of job contractor in § 655.5 and 29 CFR 503.4.

B. The Need for Rulemaking

The Department determined for a variety of reasons that a new rulemaking effort is necessary for the H–2B program. These policy-related reasons, which were discussed at length in the NPRM, include expansion of opportunities for U.S. workers, evidence of violations of program requirements, some rising to a criminal level, need for better worker protections, and a lack of understanding of program obligations. We accordingly proposed to revert to the compliance-based certification model that had been used from the inception of the program until the 2008 Final Rule. We also proposed to add new recruitment and other requirements to broaden the dissemination of job offer information, such as introducing the electronic job registry and requiring the job offer to remain open to U.S. workers for a longer period and closer to the date of need. We stated that these changes were necessary to ensure that there was

Home Bds. v. *OSHA*, 602 F.3d 464, 467 (DC Cir. 2010).

3. § 655.3 Territory of Guam

As in the 2008 Final Rule, under the proposed rule, the granting of H–2B labor certifications and the enforcement of the H–2B visa program on Guam continue to reside with the Governor of Guam, under DHS regulations. However, the NPRM proposed that we would determine all H–2B prevailing wages, including those for Guam. Recently, DHS, which consults with the Governor of Guam about the admission of H–2B construction workers on Guam, has determined that prevailing wages for construction workers on Guam will be determined by the Secretary. 8 CFR 214.2(h)(6)(v)(E)(v). DHS and the Department agree that it is more appropriate for OFLC to issue H–2B prevailing wages for all workers, including construction workers on Guam, because OFLC already provides prevailing wage determinations (PWDs) for all other U.S. jurisdictions. We therefore proposed that the process for obtaining a prevailing wage in § 655.10 also would apply to H–2B job opportunities on Guam. Employment opportunities on Guam accordingly would be subject to the same process and methodology for calculating prevailing wages as any other jurisdiction within OFLC's purview. We received no comments on this section and therefore are retaining the provision as proposed.

4. § 655.4 Special Procedures

The proposed rule maintained our authority to establish, continue, revise, or revoke special procedures that establish variations for processing certain H–2B *Applications for Temporary Employment Certification.* These are situations where we recognize that variations from the normal H–2B labor certification processes are necessary to permit the temporary employment of foreign workers in specific industries or occupations when U.S. workers are not available and the employment of foreign workers will not adversely affect the wages or working conditions of similarly employed U.S. workers. These variations permit those who would otherwise be unable to readily comply with the program's established processes to participate, such as by allowing itinerary employment for reforestation employers and certain employers in the entertainment industry. These special procedures permit us to accommodate the unique circumstances of certain classes of employers without undermining our essential responsibilities. We are retaining the proposed section with one minor clarification reminding the employer that it must request special procedures.

We also proposed that special procedures already in place on the effective date of the regulations will remain in force until we otherwise modify or withdraw them. A couple of commenters objected to the continuance of current special procedures because they had not participated in the process. We see no need to upset the settled expectations of the employers who have relied upon the special procedures for many years at least to the extent they do not conflict with these regulations. To the extent that the current special procedures are in conflict with these regulations, the regulations will take precedence. An example of a possible conflict would be the current special procedure provision which allows pre-certification to Canadian musicians who enter the U.S. to perform within a 50-mile area adjacent to the Canadian border for a period of 30 days or less. TEGL 31–05 Procedures for Temporary Labor Certification in the Entertainment Industry under the H–2B Visa program, May 31, 2006, available at *http://wdr.doleta.gov/directives/attach/TEGL/TEGL 31–05.pdf.* Since the Final Rule does not provide for pre-certification for any occupations, such exemption would no longer be allowed.

A few commenters requested that we revise the proposed language under this section from "the Administrator, OFLC may consult with affected employers and worker representatives" to "the Administrator, OFLC must consult with affected employers and worker representatives." In addition, some commenters, including labor organizations and employees in the reforestation industry, recommended that we should present special procedures through a notice and comment period similar to an NPRM. Finally, a couple of commenters felt that the special procedures process violates the APA.

We decline to make the changes proposed by the commenters. We have complied with the procedural requirements of the APA by proposing this provision and soliciting public comments. See 5 U.S.C. 553. The purpose of the special procedures is to allow a particular group of employers with a need for H–2B workers to participate in the program by waiving certain regulatory provisions when the provisions cannot be reconciled with the operational norms of the industry and when the employers comply with industry-specific alternative procedures. Although we are not required to provide procedures for requesting a waiver, see *FCC* v. *WNCN Listeners Guild*, 450 U.S. 582, 601 (1981), the Department is committed to ensuring that the views of affected employers and worker representatives are considered. The process under which a special procedure is considered is in most cases initiated by an industry or group of employers presenting us evidence that demonstrates their occupations are unique and that application of certain provisions in the regulations cannot be reconciled with the operational norms of the industry. Before effectuating such procedures, we will consult with other employer and worker representatives as well as agencies within and outside the Department, as appropriate, to identify necessary revisions which will, at the same time, keep the integrity and principal concepts of the program intact. We also will continue to look to our program experts in OFLC and WHD and review industry data gathered from employers that have previously used the H–2B program. Additionally, while special procedures allow for necessary and specific variations to regulations, we expect employers to adhere to all other aspects of the regulations not addressed in the special procedures. The application of a special procedure by an employer or an industry in no way relieves an employer from its obligation to obtain an approved temporary labor certification from the Department before submitting a request for workers to USCIS.

5. § 655.5 Definition of Terms

a. Area of substantial unemployment. We proposed to add a definition of area of substantial unemployment to the H–2B program. The proposed definition reflected the established definition of area of substantial unemployment in use within ETA as it relates to Workforce Investment Act (WIA) fund allocations. We have retained the proposed definition of area of substantial unemployment without change.

Some commenters suggested alternative methods of defining an area of substantial unemployment. Several commenters contended that a different threshold percentage than 6.5 percent (*e.g.*, 8 percent or 9 percent, the current national unemployment rate) or a different time period than 12 months (*e.g.*, 3 months or the period of need requested) should be used to identify an area of substantial unemployment. One labor organization proposed more than a definitional alternative, suggesting that employers in areas with 5 percent or higher unemployment should be subject to an automatic legal presumption that there is no labor

Butler's Exh. 95, p. 002

Butler 02378

shortage sufficient to support an H–2B application and that those employers' applications should be given a strict, high level review, including review by a senior official in Washington, DC.

The definition proposed in the NPRM and retained in the Final Rule is the existing definition of area of substantial unemployment within ETA. ETA uses this definition to identify areas with concentrated unemployment and focus WIA funding for services to facilitate employment in those areas. We proposed using this existing definition, and have chosen to retain it in the Final Rule, both as a way to improve labor market test quality and for the sake of operational simplicity. This existing definition provides the appropriate standard for identifying areas of concentrated unemployment where additional recruitment could result in U.S. worker employment. Also, the process of collecting data and designating an area of substantial unemployment using the existing definition is already established, as discussed in ETA's Training and Employment Guidance Letter No. 5–11, Aug. 12, 2011,[4] providing OFLC with a ready resource for identifying areas to focus additional recruitment. Finally, using this definition of area of substantial unemployment in the Final Rule enables an employer to check the list of areas of substantial unemployment ETA publishes to determine whether its job opportunity may fall within an area of substantial unemployment and, as appropriate, be subject to enhanced recruitment.

Adopting a legal presumption of the availability of domestic workers in areas with 5 percent or higher unemployment would significantly impact employers' access to the H–2B program and could not be viewed as a logical outgrowth of the proposal. Furthermore, while we appreciate the commenter's concern, we disagree with the approach suggested. We thoroughly review all applications submitted for all areas of intended employment. We consider enhanced recruitment requirements, as proposed in the NPRM, to be the most appropriate way to handle job opportunities in areas of substantial unemployment. Accordingly, we will retain the provision as proposed in the Final Rule.

b. Corresponding employment. The NPRM proposed to include a definition of corresponding employment and to require that employers provide to workers engaged in corresponding employment at least the same protections and benefits as those provided to H–2B workers (except for border crossing and visa fees which would not be applicable). The NPRM defined corresponding employment as the employment of workers who are not H–2B workers by an employer that has an accepted H–2B application in any work included in the job order (*i.e.*, the certified job duties in places of employment or worksite locations specified by the employer) or in any work performed by the H–2B workers during the period of the job order (anywhere the H–2B employer places H–2B workers outside the scope of the labor certification), including any approved extension.

For the reasons discussed below, the Final Rule modifies the corresponding employment definition by deleting the word "any" from before the word "work" in two places and inserting the words "doing substantially the same" instead. The preamble also clarifies and provides examples of what is and is not covered. The Final Rule also excludes from the definition of corresponding employment two categories of incumbent employees: (1) Those employees who have been continuously employed by the H–2B employer in the relevant occupation for at least the prior 52 weeks, who have worked or been paid for at least 35 hours in at least 48 of the prior 52 workweeks, and have averaged at least 35 hours of work or pay over the prior 52 workweeks, and whose terms and conditions of employment are not substantially reduced during the period of the job order. In determining whether the standard is met, the employer may take credit for any hours that were reduced because the employee voluntarily chose not to work due to personal reasons such as illness or vacation; and (2) those employees who are covered by a collective bargaining agreement or individual employment contract that guarantees an offer of at least 35 hours of work each week and continued employment with the H–2B employer through at least the period of the job order, except that the employee may be dismissed for cause.

Significantly, the Final Rule retains in the definition the requirement that "to qualify as corresponding employment, the work must be performed during the period of the job order, including any approved extension thereof." Any work performed by U.S. workers outside the specific period of the job order does not qualify as corresponding employment. Accordingly, the Final Rule does not require employers to offer their U.S. workers (part-time or full-time workers) corresponding employment protections outside of the period of the job order. If, for example, a U.S. worker works year-round and is in corresponding employment with the H–2B workers during the period of the job order, the employer must provide corresponding employment protections during the time period of the job order but may choose *not to do so* during the time period outside of the job order.

There were many comments related to the proposed protections for workers in corresponding employment. Employee advocates, unions, and a member of Congress strongly endorsed the proposed provision, stating that it was essential to ensuring that the employment of H–2B workers does not adversely affect the wages, benefits, and working conditions of similarly employed domestic workers. They emphasized that it is important for corresponding workers to receive not just the prevailing wage, but all the other assurances and benefits offered to H–2B workers, such as transportation, the three-fourths guarantee, and full-time employment, in order to place U.S. workers on at least the same footing as foreign workers. These commenters noted that the principle that there should be no preference for foreign workers is fundamental to the INA, and that a corresponding employment requirement prohibits employer practices that would hurt the employment prospects of U.S. workers. They also emphasized that the proposed rule's assurance of equal protection was a significant improvement for domestic workers who have, in the past, been bypassed in favor of foreign workers. Thus, they stated that this protection is necessary to provide a meaningful test of whether there are U.S. workers available for employment. The employee advocates also stated that the proposed definition's broadening of the requirement to protect incumbent employees, rather than just those newly hired in response to the H–2B recruitment, is important because many employers employ some U.S. workers on a year-round basis, and they should not be employed alongside H–2B workers who receive greater pay, benefits, and protections. Similarly, an employee advocate specifically commended the proposed rule's coverage of situations where employers place H–2B workers in occupations and/or job sites outside the scope of the labor certification, which the commenter stated happens regularly. Thus, it asserted that protecting U.S. workers (including incumbent workers)

[4] TEGL 5–11—Designation of Areas of Substantial Unemployment (ASUs) under the Workforce Investment Act (WIA) for Program Year (PY) 2012 has been added to the ETA Advisory Web site and is available at *http://wdr.doleta.gov/directives/corr_doc.cfm?DOCN=3069*.

Butler's Exh. 95, p. 003

AR - 3442

Butler 02379

who are performing the same work as the H–2B workers is necessary to ensure that U.S. workers are not adversely affected by the presence of H–2B workers in the labor market. Finally, one union stated that this additional protection for U.S. workers would also protect H–2B workers, because U.S. workers would be empowered to assist in policing unscrupulous H–2B employers.

Employers, on the other hand, generally opposed the extension of protections to workers in corresponding employment. Some stated that they could not afford to provide the same terms and conditions of employment to corresponding workers, including paying the prevailing wage and guaranteeing three-fourths of the hours. For example, a golf course association stated that it would be financially impossible to provide the same wages and benefits to summer high school and college laborers as it provided to H–2B workers performing the same manual labor. Others stated that paying the prevailing wage to corresponding workers would not be problematic, but that they wanted to be able to continue to reward long-tenured employees (foreign or U.S.) or more skilled staff with higher pay than new workers, such as by providing a pay increase based upon years of service.

It appeared there was confusion about the impact of the corresponding employment requirement. Employers expressed concern because they have overlap in the job duties of various positions, with supervisors performing some of the same tasks as the workers they supervise. They believed that, if there is some slight nexus between what an H–2B workers does and what a higher-paid year-round worker does, the employer would have to pay all workers the higher wage. They stated that this requirement would compel changes to management techniques and eliminate or greatly reduce employers' flexibility to have employees perform whatever task is necessary to complete their work, thereby harming productivity. Employer representatives stated that the definition is so broadly worded ("any" work included in the job order or "any" work performed by the H–2B workers) that it would cover the entire workforce of many businesses. One firm gave the example of a large resort with roughly 2000 employees where senior management (including the resident manager, the director of food and beverage, and even the finance manager) clean rooms on a busy day; supervisors carry guests' luggage; managers in the restaurant clear tables; and managers on the golf course pick up trash or cut the grass. The firm wondered what the H–2B workers should be paid in this case and whether every employee is a corresponding employee who would be entitled to the three-fourths guarantee. Other employers assumed that their laborers would have to be compensated at the same rate as a supervisor if the supervisor occasionally performed some of their same tasks, such as mowing, because of a weather event, large golf tournament, or shortage of staff due to illness. An employer association stated that employers, such as restaurants, needed the flexibility to have a waitress serve as a cashier or hostess, or to have a dishwasher assist with food preparation or cooking, in order to get the work done and keep employees working throughout the day.

Therefore, some employer representatives suggested that the rule should limit the definition to work in the occupation listed in the job order. They stated this would avoid a situation where all U.S. workers who dig holes and plant bushes would be viewed as corresponding employees if the H–2B job order was for a supervisory landscaper with knowledge of irrigation systems and plant species but the supervisor occasionally helped to dig or plant. These commenters also suggested that the Department limit the rule's scope to those U.S. workers who are newly hired by the employer on or after the beginning of the job order period, rather than extending it to workers employed prior to the employment of H–2B workers. Some employer commenters suggested that the Department delete the word "any" from before the word "work." Other commenters questioned whether the Department has the legal authority to impose the requirement.

After carefully considering all of these comments, the Department has decided to modify the definition of corresponding employment to delete the word "any" from before "work" in two places and insert the words "substantially the same," and to exclude two categories of incumbent employees: (1) Those who have worked in the relevant job continuously for the H–2B employer for at least the prior 52 weeks, have averaged at least 35 hours of work or pay over those 52 weeks and have received at least 35 hours of work or pay in at least 48 of the 52 weeks, as demonstrated by the employer's payroll records and whose terms and conditions of employment are not substantially reduced during the job order period (an employer may take credit for those hours that were reduced due to an employee's voluntary leave); and (2) those who are covered by a collective bargaining agreement or individual employment contract that guarantees at least 35 hours of work each week and continued employment with the H–2B employer at least through the end of the job order period. Incumbent employees who fall within one of these categories may have valuable terms of employment, including job security and benefits, that neither H–2B workers nor other temporary workers have. This may account for wage differentials between these incumbents and those who are entitled to the H–2B prevailing wage, as well as other differences in terms and conditions of employment.

The Final Rule continues to include other workers within the definition of corresponding employment as proposed in order to fulfill the DHS regulatory requirement that an *H–2B Petition* will not be approved unless the Secretary certifies that the employment of the alien will not adversely affect the wages and working conditions of similarly employed U.S. workers. 8 CFR 214.2(h)(6). As the NPRM explained, Congress has long intended that similarly employed U.S. workers should not be treated less favorably than temporary foreign workers. For example, a 1980 Senate Judiciary Report on Temporary Worker Programs stated that U.S. employers were required to offer domestic workers wages equal to foreign workers as a prerequisite for labor certification. See Congressional Research Service: "Report to the Senate Committee on the Judiciary: Temporary Worker Programs: Background and Issues, 53 (1980)"; see also H.R. Rep. No. 99–682, pt. 1 at 80 (1986) ("The essential feature of the H–2 program has been and would continue to be the requirement that efforts be made to find domestic workers before admitting workers from abroad. A corollary rule, again preserved in the bill, is that the importation of foreign workers will not be allowed if it would adversely affect the wages and working conditions of domestic workers similarly employed"). Current § 655.22(a) reflects this principle, in part, by requiring that the terms and conditions of offered employment cannot be less favorable than those offered to H–2B workers. Thus, the current regulation provides for equal treatment of workers newly hired during the current 10-day H–2B recruitment process.

The current regulation, however, does not protect U.S. workers who engage in similar work performed by H–2B workers during the validity period of the job order, because it does not protect any incumbent employees. Therefore, for example, a U.S. employee hired three months previously performing the

Butler's Exh. 95, p. 004
Butler 02380

same work as the work requested in the job order, but earning less than the advertised wage, would be required to quit the current employment and re-apply for the same job with the same employer to obtain the higher wage rate offered to H–2B workers. This would be disruptive for the employer and could create an additional administrative burden for the SWAs with respect to any workers being referred through them. It also puts too high a premium on employees understanding their rights under the regulations, and feeling secure enough—rare in low-wage employment—to quit a job with the expectation of being immediately rehired. Therefore, the Final Rule does not require incumbent employees to jump through this unnecessary hoop; U.S. workers generally would be entitled to the wage rates paid to H–2B employees without having to quit their jobs and be rehired.

There are only two categories of incumbent U.S. employees who would be excluded from the definition of corresponding employment. The first category covers those incumbents who have been continuously employed by the H–2B employer for at least the 52 weeks prior to the date of need, who have averaged at least 35 hours of work or pay over those 52 weeks, and who have worked or been paid for at least 35 hours in at least 48 of the 52 weeks, and whose terms and conditions of employment are not substantially reduced during the period of the job order. The employer may take credit for any hours that were reduced because the employee voluntarily chose for personal reasons not to work hours that the employer offered, such as due to illness or vacation. Thus, for example, assume an employee took six weeks of unpaid leave due to illness, and the employer offered the employee 40 hours of work each of those weeks. In that situation, the employer could take credit for all those hours in determining the employee's average number of hours worked in the prior year and could take credit for each of those six weeks in determining whether it provided at least 35 hours of work or pay in 48 of the prior 52 weeks. Similarly, if the employer provided a paid day off for Thanksgiving and an employee worked the other 32 hours in that workweek, the employer would be able to take credit for all 40 hours when computing the average number of hours worked and count that week toward the required 48 weeks. In contrast, assume another situation where the employer offered the employee only 15 hours of work during each of three weeks, and the employee did not work any of those hours. The employer could only take credit for the hours actually offered when computing the average number of hours worked or paid during the prior 52 weeks, and it would not be able to count those three weeks when determining whether it provided at least 35 hours of work or pay for the required 48 weeks.

The second category of incumbent workers excluded from the definition of corresponding employment includes those covered by a collective bargaining agreement or individual employment contract that guarantees both an offer of at least 35 hours of work each week and continued employment with the H–2B employer at least through the period of the job order (except that the employee may be dismissed for cause). As noted above, incumbent employees in the first category are year-round employees who began working for the employer before the employer took the first step in the H–2B process by filing an *Application for Temporary Employment Certification*. They work 35 hours per week for the employer, even during its slow season. The Department recognizes that there may be some weeks when, due to personal factors such as illness or vacation, the employee does not work 35 hours. The employer may still treat such a week as a week when the employee worked 35 hours for purposes of the corresponding employment definition, so long as the employer offered at least 35 hours of work and the employee voluntarily declined to work, as demonstrated by the employer's payroll records. Thus, these workers have valuable job security that H–2B workers and those hired during the recruitment period or the period of the job order lack. Such full-time, year-round employees may have other valuable benefits as well, such as health insurance or paid time off. Similarly, employees covered by a collective bargaining agreement or an individual employment contract with a guaranteed weekly number of hours and just cause provisions also have valuable job security; they may also have benefits beyond those guarantees provided by the H–2B program. These valuable terms and conditions of employment may account for any difference in wages between what they receive and what H–2B workers receive. Therefore, these U.S. workers are excluded from corresponding employment only if they continue to be employed full-time at substantially the same terms and conditions throughout the period covered by the job order, except that they may be dismissed for cause.

The Final Rule's inclusion of other workers within the definition of corresponding employment is important because the current regulation does not protect U.S. workers in the situation where an H–2B employer places H–2B workers in occupations and/or at job sites outside the scope of the labor certification, in violation of the regulations. For example, if an employer submits an application for workers to serve as landscape laborers, but then assigns the H–2B workers to serve as bricklayers constructing decorative landscaping walls, the employer has bypassed many of the H–2B program's protections for U.S. workers. The employer has deprived them of their right to protections such as domestic recruitment requirements, the right to be employed if available and qualified, and the prevailing wage requirement. The Final Rule guards against this abuse of the system and protects the integrity of the H–2B process by ensuring that the corresponding U.S. workers employed as bricklayers receive the prevailing wage for that work.

The current regulation also does not protect U.S. workers if the employer places H–2B workers at job sites outside the scope of the labor certification. For example, an employer may submit an application for workers to serve as landscape laborers in a rural county in southern Illinois, but instead assign its H–2B workers to work as landscape laborers in the Chicago area. Because the employer did not fulfill its recruitment obligations in Chicago, U.S. workers were not aware of the job opportunity, they could not apply and take advantage of their priority hiring right, and the prevailing wage assigned was not the correct rate for Chicago. Such a violation of the employer's attestations results both in the absence of a meaningful test of the labor market for available U.S. workers and U.S. workers being adversely affected by the presence of the underpaid H–2B workers. The Final Rule's definition of corresponding employment ensures that the employer's incumbent landscape laborers who work where the H–2B workers actually are assigned to work will receive the appropriate prevailing wage rate; paying the proper wage to such workers is necessary to protect against possible adverse effects on U.S. workers due to wage depression from the introduction of foreign workers. Therefore, adoption of the definition of corresponding employment in the Final Rule is necessary to allow the Department to fulfill its mandate from DHS to provide labor certifications only in appropriate circumstances.

Butler's Exh. 95, p. 005

Butler 02381

On the other hand, it is important to clarify that the corresponding employment requirement does not apply in the way that a number of employer commenters feared it would apply. Employers expressed concern that, if a supervisor or manager picked up a piece of trash on a golf course, planted a tree, or cleared a dining room table (the duties of its H–2B workers), all its employees who performed such work would be entitled to the higher wage rate paid to the supervisor. This concern is misplaced because this is not what the definition of corresponding employment requires. Under the Final Rule, a U.S. employee who performs work that is either within the H–2B job order or work actually performed by H–2B workers is entitled to be paid at least the H–2B required wage for that work. However, as the employer commenters recognized, the supervisor already is earning more than the H–2B workers. The corresponding employment requirement does not impose obligations in the opposite direction. Thus it does not, for example, require an employer to bump up the wages it pays to its landscape laborers to the supervisor's wage rate simply because the supervisor performed some of their landscaping laborer duties. Of course, if the H–2B certification was for a landscaping supervisor, and one of its laborers actually worked as a supervisor (perhaps because the supervisor was away on vacation for a week or was out sick for a day or two), then that laborer would be entitled to the H–2B prevailing supervisory rate for those hours actually worked as a supervisor. The laborer would not be entitled to the supervisory wage rate on an ongoing basis after the worker has returned to performing laborer duties.

Employers also expressed concern about how the corresponding employment provision would affect their flexibility in assigning workers different tasks. It is the employer's obligation to state accurately on the *Application for Temporary Employment Certification* the job duties that their H–2B workers will perform and to comply with the terms of their labor certifications by limiting the H–2B workers to those duties. This will maximize the employers' flexibility with regard to their U.S. employees. For example, if a restaurant receives a labor certification based on its temporary need for dishwashers, and it limits its H–2B employees to such duties, the restaurant may freely assign any of its U.S. workers to other jobs as needed, such as cashiers, servers and cooks. If the restaurant had previously used both its H–2B and U.S. workers interchangeably in various jobs, it must plan more carefully in the future in order to comply with the terms of its certification.

Nevertheless, in order to address employer concerns that the proposed definition of corresponding employment ("any work included in the job order" or "any work performed by the H–2B workers") was so broadly worded that it would encompass the entire workforce of a company, the Final Rule deletes the word "any" in both places and uses the term "substantially the same" instead. The Department did not intend for the word "any" to indicate that occasional or insignificant instances of overlapping job duties would transform a U.S. worker employed in one job into someone in corresponding employment with an H–2B worker employed in another job. The following explanation is intended to provide clarity regarding when work is substantially the same that it should be considered corresponding employment. We note that the Wage and Hour Division has considerable enforcement experience under a number of statutes in determining the extent to which employees who are assigned to one type of work actually perform other types of work and that employers are generally familiar with these analyses.

Where the U.S. worker is performing "either substantially the same work included in the job order or substantially the same work performed by the H–2B workers * * * during the period of the job order, including an approved extension thereof," the U.S. worker is in corresponding employment and entitled to the H–2B prevailing wage if it is higher than the worker currently receives. This includes situations where the U.S. worker performs the same job as the H–2B worker as well as those situations where the U.S. worker regularly performs a significant number of the duties of the H–2B worker for extended periods of time, because that worker's job is substantially the same as the H–2B worker's job. The U.S. worker in both situations is in corresponding employment and thus entitled to the higher H–2B prevailing wage.

Because the definition of corresponding employment also applies to "work performed by H–2B workers," it is important to note that corresponding employment can also arise where H–2B worker is assigned to perform a job that significantly deviates from the job order; effectively making the H–2B worker perform a different job than was stated in the labor certification. If this violation causes the H–2B worker to regularly perform a job for extended periods of time that U.S. workers perform, then the U.S. workers performing the same job are in corresponding employment. If the prevailing wage for that job is higher than the wages the U.S. workers earn, then the U.S. workers are entitled to the higher wage.

An issue of corresponding employment will arise if the employer assigns the H–2B worker to work at a different worksite(s) or place(s) of employment than the worksite(s) or place(s) of employment listed in the certified application. U.S. workers at the new, non-certified location may be performing the same or substantially the same job as the H–2B worker. Deviating from the labor certification in this manner and moving an H–2B worker to the non-certified place of employment will cause the U.S. workers who perform the same work to be deemed to be in corresponding employment. They will be entitled to the H–2B prevailing wage if it is higher than what they currently earn.

Finally, employers expressed their interest in continuing to reward their experienced employees with higher wage rates than those paid to new workers. The H–2B program does not prohibit such higher wage rates for an employer's experienced employees. Of course, an employer must offer at least the same terms and conditions of employment to its U.S. workers in corresponding employment as it offers, plans to offer, or will provide to its H–2B workers. So if an employer rewards an H–2B worker with extra pay and/or benefits based on the H–2B employee's previous work experience, the employer must offer and provide at least the same extra pay and/or benefits to U.S. workers in corresponding employment with same or similar level of previous work experience. Employers can and should indicate the additional pay amounts based upon years of experience on any *Application for Temporary Employment Certification,* and properly advertise and recruit for those positions.

c. Full-time. The Department proposed to change the definition of full-time from 30 or more hours of work per workweek to 35 or more hours of work per week. This proposal was precipitated by the District Court's decision in *CATA* v. *Solis,* 2010 WL 3431761 (E.D. Pa. 2010), invalidating the 2008 Final Rule's 30-hour definition. The Department stated in its NPRM that a 35-hour workweek was more reflective of empirical data, was consistent with other temporary work programs, and would comport with H–2B employment relationships that the

Wage and Hour Division (WHD)

WHD H-2B Side-by-Side Comparison of the 2009 and 2012 Rules

February, 2012

This Guidance does not supersede the INA or H-2B Regulations

Issue/Provision	2009 Regulations	2012 Regulations
	I. General Information	
Effective Dates	For Applications for Temporary Employment Certification (the "Application"), ETA Form 9142, filed on or after January 18, 2009 until April 23, 2012.	For Applications for Temporary Employment Certification (the "Application"), ETA Form 9142, filed on or after April 23, 2012. Registration will be implemented at a later date to be announced in the Federal Register.
Regulation location, Part and subpart	Employment and Training Administration (ETA) and Wage and Hour Division (WHD) provisions covered under 20 CFR Part 655, subpart A.	Employment and Training Administration (ETA) provisions continue to be covered under (revised) 20 CFR Part 655, subpart A. New regulations for Wage and Hour Division (WHD) introduced at 29 CFR Part 503.
Forms required to obtain certification from ETA	Employer submits and receives a prevailing wage determination and then submits an Application, ETA Form 9142, from which ETA determines temporary need and assesses the employer's test of the labor market.	Employer submits and receives a prevailing wage determination and then submits an H-2B Registration (after the transition period), from which ETA certifies temporary need for up to three years. Each season, employer submits an Application, ETA Form 9142, a copy of the job order, and additional documentation from which ETA assesses the employer's job opportunity and then orders recruitment to ensure a thorough test of the labor market. The Application, ETA Form 9142, and required documents must be submitted 75 - 90 calendar days before the employer's date of need.
Emergency Situations	No provision	The CO may waive the normal filing timeframe (i.e., 75 – 90 calendar days before the employer's date of need).So long as there is enough time to test the labor market and provided that the employer can demonstrate a good and substantial cause, the employer may simultaneously file the H-2B Registration (if necessary), application, and job order less than 75 calendar days before its start date of need.
Temporary Need	Except for one-time need, temporary need (i.e., seasonal, peakload and intermittent need) is limited to 10 months or less.	Except for one-time need, temporary need (i.e., seasonal, peakload and intermittent need) is limited to 9 months or less.
	20 CFR 655.6	20 CFR 655.6
Job Contractors	Full participation of job contractors permitted.	Participation of job contractors is limited to those with their own genuine temporary need for workers on a temporary seasonal or one-time occurrence basis.The job contractor and its clients, the end-employers, must continue to declare joint employment, and both must continue to sign Appendix B agreeing to comply with the H-2B terms and conditions.
	Beginning April 2011, job contractors and their clients, the end-employers, must declare joint employment on the Application, and both must indicate their agreement to comply with the H-2B terms and conditions by signing Appendix B to the Application.	
Corresponding employment	No language explicitly defining corresponding workers, although U.S. workers who are hired in response to required H-2B recruitment are granted the same terms and conditions of employment as H-2B workers.	Corresponding workers are generally defined as non-H-2B workers who perform either substantially the same work included in the job order or substantially the same work performed by the H-2B workers, with exclusions for certain long-term incumbent workers and workers with a Collective Bargaining Agreement or individual employment contract.
		Corresponding workers are entitled to the same rights and benefits as H-2B workers.
		Defined at 29 CFR 503.4; enforcement identified at 29 CFR 503.15.
Timing of recruitment in relation to Application	Employer attests that it has completed all required recruiting before submitting the Application; also attests it was unable to locate sufficient number of qualified U.S. workers.Employer must submit a recruitment report with the Application at time of filing.	Employer completes required recruitment after filing the Application, and must demonstrate – not merely attest – that it was unable to locate sufficient number of U.S. workers.Employer must submit recruitment report to ETA after filing, according to instructions from the Certifying Officer.
	State Workforce Agency (SWA) job posting is active for 10 days, before filing the Application with ETA.	State Workforce Agency (SWA) job posting and Department's electronic job registry job posting stay active and employers must continue to accept U.S. applicants until 21 days before the date of need.
Definition of full-time	30 hours or more per week	35 hours or more per week
	20 CFR 655.4	20 CFR 655.5, 29 CFR 503.4
Disclosure of foreign recruitment	No requirement, although employer must contractually prohibit recruiters from seeking or receiving fees from prospective workers.	New: When filing an Application, employer and its agents and attorneys must provide copies of any agreements with recruiters engaged in international recruiting.In addition, employer and its agent and attorney must provide the names and locations of sub-contractors hired by the recruiter who will recruit H-2B workers.
Termination of job order		New: In the event of an unforeseeable, catastrophic man-made event or Act of God, the employer may petition ETA for early termination of job order. (Employer may not act until Certifying Officer has actually approved the termination of the job order.)
		20 CFR 655.20(g), 29 CFR 503.16(g)
Re-certification		New: In the event that a U.S. worker does not report for employment or abandons the job before the end of the job order, the employer can request from ETA an expedited re-certification in order to gain approval to hire H-2B workers.The Certifying Officer must first determine that no replacement U.S. workers are available.Additional recruitment of U.S. workers is not required.
		20 CFR 655.57
Withdrawal	No provision	An employer may withdraw its application at any time after acceptance but before adjudication.
		20 CFR 655.62
	II. Violations	
Misrepresentation of material fact	Includes misrepresentations made on the Application and to the State Department during the visa application process.	Includes misrepresentations made:
		- on the H-2B Registration with ETA
		- on the Application
		- on the DHS Petition (form I-129)
	20 CFR 655.60 and .65	- to the State Department during visa process

		29 CFR 503.19 and .20
Substantial failure of a condition of employment	Includes substantial failures of conditions of the Application and DHS Petition.	Includes substantial failures of conditions of the Application and DHS Petition, and also includes the H-2B Registration.
		20 CFR 655.72 and.73 (revocation/debarment based on substantial failure), 29 CFR 503.19 and .20
	20 CFR 655.60 and .65	
III. Conditions of Employment		
Disclosure		New: Employers must disclose the job order to all H-2B and corresponding workers; must be in a language understood by the workers, as necessary or reasonable.
		20 CFR 655.20(l), 29 CFR 503.16(l)
Offered wage	Offered wage equals or exceeds the highest of the prevailing wage or Federal, State, or local minimum wage, and must be paid for the entire employment period certified in the Application.	Offered wage equals or exceeds the highest of the prevailing wage or Federal, State, or local minimum wage, and must be paid for the entire employment period certified in the Application.
		New: Employer must pay at least the offered wage free-and-clear, either in cash or in a negotiable instrument payable at par.
		20 CFR 655.20(a) & (b), 29 CFR 503.16(a) & (b)
	20 CFR 655.22(e)	
Incentive-based wages	If earnings are based on commissions, bonuses or other incentives, employer must guarantee to pay at least the offered wage on a weekly, biweekly, or monthly basis.	If earnings are based on commissions, bonuses, or other incentives, employer must guarantee to pay at least the offered wage every workweek.
		The 2012 regulations also address piece rates.An employer paying a piece rate wage must guarantee to supplement that wage if, at the end of every workweek, the piece rate does not at least equal what the worker would have earned under the hourly offered wage.
		20 CFR 655.20 (a), 29 CFR 503.16(a)
	20 CFR 655.22(g)(1)	
Frequency of pay		New: Employer must pay the more frequent of: every two weeks or according to prevailing practice in the area of intended employment.
		20 CFR 655.20(h), 29 CFR 503.16(h)
Deductions	Employer must make all deductions required by law. Other deductions must be disclosed, reasonable, and consistent with the Fair Labor Standards Act (FLSA) for employers subject to the FLSA.	Employer must make all deductions required by law. Other deductions must be disclosed and reasonable according to the Fair Labor Standards Act (FLSA) principles at 29 CFR Part 531.
		Also explicitly allows worker-authorized voluntary deductions to third parties for the benefit of the worker.
		Deductions not required by law that are not disclosed in the job order are prohibited.
		20 CFR 655.20(c), 29 CFR 503.16(c)
	20 CFR 655.22(g)(1)	
Employer provided items		New: Employer must provide, without charge or deposit, all tools, supplies, and equipment needed to perform the job.
		20 CFR 655.20(k), 29 CFR 503.16(k)
Three-fourths guarantee		New: Employer must guarantee to offer employment for a total number of work hours equal to at least three-fourths of the workdays in every 12-week period (or, for job orders less than 120 days, every 6-week period).
		20 CFR 655.20(f), 29 CFR 503.16(f)
Earnings statements		New: Employer must keep accurate pay and hours records and supply workers with earnings statement on or before each payday.
		20 CFR 655.20(i), 29 CFR 503.16(i)
Job opportunity and full-time threshold	Job opportunity is a bona fide, full-time temporary position. Full time defined as 30 or more hours per week.	Job opportunity is a bona fide, full-time temporary position.Full time defined as 35 or more hours per week.
		NEW: Workweek is defined as a regularly recurring period of 168 hours (seven consecutive 24-hour days).
		20 CFR 655.5 (full-time definition) & .20(d) (condition)
		29 CFR 503.4 (full-time definition) & .16(d) (condition)
	20 CFR 655.4 (full-time definition) and .22(h) (condition)	
No strike or lockout	H-2B job may not be vacant because former occupants are on strike or locked out.	There may not be any strike or lockout in any of the employer's worksites within the area of intended employment.
		20 CFR 655.20(u), 29 CFR 503.16(u)
	20 CFR 655.22(b).	
Required recruiting	Employers must conduct required recruiting.	Employers must conduct required recruiting.
	No discrimination in hiring; rejections are only for lawful, job-related reasons; employer must maintain and submit a recruitment report, indicating the source, name, and disposition of each worker, along with the lawful reasons for any rejections.	No discrimination in hiring; rejections are only for lawful, job-related reasons; employer must maintain and submit a recruitment report, indicating the source, name, and disposition of each worker, along with the lawful reasons for any rejections.
	20 CFR 655.22(c)	20 CFR 655.20(r) & (s), 29 CFR 503.16(r) & (s).
Required recruiting activities	Required recruiting includes:	Required recruiting includes:
	– SWA job posting for a 10-day period before the employer files the Application	– SWA job posting until 21 days before the date of need
	– newspaper ad on 2 days during the 10-day SWA posting	– newspaper ad on 2 days (one a Sunday)
	– the call-back of, and offer of re-employment to, U.S. workers laid off within 120 before date of need	– the call-back of, and offer of re-employment to, former U.S. workers (including workers who were laid off) from the previous year

Butler's Exh. 96, p. 002
Butler 02384

	– union referrals where the employer is party to a CBA covering the occupation.	– contacting the bargaining representative OR (if there is no bargaining representative) posting the job for 15 business days at 2 conspicuous locations at every place of employment
		– other recruiting activities directed by Certifying Officer.
		The SWA performs two additional activities:
		– contacts the union, where the occupation or industry is customarily unionized
		– sends the job order to DOL for posting on the national job registry.
		20 CFR 655.20-.48 and 29 CFR 503.16(t)
	20 CFR 655.15	
No layoffs	Employer has not and will not layoff any U.S. worker in the occupation and the area of intended employment during the period 120 days before and after the first date of need.	Employer has not and will not lay off any U.S. worker in the occupation and the area of intended employment during the period from 120 days before the first date of need through the end of the period of employment .
		Layoffs for lawful, job-related reasons (such as lack of work or the end of a season) are not disqualifying if all H-2Bs are laid off before corresponding U.S. workers.
		20 CFR 655.20(v), 29 CFR 503.16(v)
	20 CFR 655.22(i)	
No preferential treatment of H-2B workers	The offered terms and conditions are not less favorable than those offered to H-2B workers.	The offered terms and conditions are not less favorable than those offered to H-2B workers.
		NEW: Employers may not impose on U.S. workers restrictions or obligations not imposed on H-2Bs.
		20 CFR 655.20(q), 29 CFR 503.16(q)
	20 CFR 655.22(a)	
Prohibited fees	Employer and its agent and attorney may not seek or receive payment for any costs associated with the certification, including attorney/agent fees, Application costs, recruitment fees.	Employer and its agent, attorney, and employees may not seek or receive payment (including, but not limited to, monetary payments, wage concessions, kickbacks, bribes, etc.) for any costs associated with the certification, including attorney/agent fees, Application costs, DHS Petition fees, recruitment fees.
		20 CFR 655.20(o), 29 CFR 503.16(o)
	20 CFR 655.22(j)	
Contracts with recruiters	Employer must contractually prohibit recruiters whom the employer engages in international recruitment of H-2B workers from seeking or receiving fees from prospective workers.	Employer must contractually prohibit agents and recruiters (and any employee of those agents and recruiters) whom the employer engages directly or indirectly in international recruitment of H-2B workers from seeking or receiving fees from prospective workers.
		20 CFR 655.20(p), 29 CFR 503.16(p)
	20 CFR 655.22(g)(2)	
Transportation and Subsistence Expenses	Employer is liable under H-2B regulations only for outbound travel and only when the worker is dismissed prior to the end of the certified period of employment.	Employer is liable under H-2B for reasonable cost of 1) inbound travel, including daily subsistence expenses, for workers who complete 50% of the job order, and 2) outbound travel, including daily subsistence expenses, for workers who work until the end of the job order or are dismissed early.
	Travel expenses paid by the worker may also be covered under FLSA in the first and last workweeks of employment.See WHD Field Assistance Bulletin 2009-02:http://www.dol.gov/whd/FieldBulletins/	In addition, if worker is entitled to Federal minimum wage, then the FLSA requires reimbursement of inbound costs in the first workweek.
	FieldAssistanceBulletin2009_2.pdf.	
		All transportation provided by the employer must comply with applicable Federal, State, and local laws and regulations.
		20 CFR 655.20(j), 29 CFR 503.16(j)
	20 CFR 655.22(m)	
Visa and visa-related expenses	Not an employer obligation under H-2B. May be covered under FLSA in first workweek. See WHD Field Assistance Bulletin 2009-02:http://www.dol.gov/whd/FieldBulletins/	New: Employer is required to pay or reimburse in the first workweek the full cost of visa and visa-related expenses.
	FieldAssistanceBulletin2009_2.pdf.	
		20 CFR 655.20(j), 29 CFR 503.16(j)
Place of employment	Employer may not place H-2B workers outside the area(s) of intended employment certified on the Application.	Employer may not place H-2B workers outside the area(s) of intended employment certified on the Application.
	20 CFR 655.22(l)	20 CFR 655.20(x), 29 CFR 503.16(x)
Certified occupation	Inaccurate statements on the Application regarding the occupation and job duties may be pursued as willful misrepresentations of the Application (20 CFR 655.60(a))	New: Employers may not place H-2B workers in a job opportunity not certified on the Application.
		20 CFR 655.20(x), 29 CFR 503.16(x)
Accuracy of statements	The dates of and reasons for temporary need and the number of positions must be accurately stated on the 9142.	No similar provision.Inaccurate statements may be pursued as willful misrepresentations of the Application (20 CFR 655.60(a)).
	20 CFR 655.22(n)	
Workers rights poster		New: Employer must post a workers' rights poster in English, provided by WHD, and in other languages as needed and provided by WHD.
		20 CFR 655.20(m), 29 CFR 503.16(m)
No unfair treatment		New: The employer has not and will not (and has not and will not cause another person to) intimidate, threaten, restrain, coerce, blacklist, discharge or in any other manner discriminate against any person who, with respect to 8 U.S.C. 1184(c), 20 CFR Part 655, Subpart A, 29 CFR Part 503, or any other Department regulation promulgated thereunder:

		has filed a complaint; instituted or caused to be instituted any proceeding; testified or is about to testify; consulted with a workers' center, community organization, labor union, legal assistance program or attorney; or exercised or asserted on behalf of himself/herself any right or protection.
		20 CFR 655.20(n), 29 CFR 503.16(n)
DHS/ETA notification of early separation	Employers must notify USCIS and ETA within two workdays of any H-2B worker who separates before the end of the certified period of employment.	Employers must notify USCIS and ETA within two workdays of an H-2B worker who separates before the end of the certified period of employment.
		New: Employers must notify ETA within two workdays of any corresponding worker who separates before the end of the period of employment.
		New:
		--if separation is due to voluntary abandonment by the worker and proper notification is made, the employer will not be responsible for return transportation and the worker will not be entitled to the three-fourths guarantee beyond the last, full 12- or 6-week period before abandonment;
		--if separation is due to dismissal for cause and proper notification is made, the employer will not be liable for the three-fourths guarantee beyond the last, full 12- or 6-week period before termination.
		20 CFR 655.20(y), 29 CFR 503.16(y)
	20 CFR 655.22(f)	
Compliance with other employment-related laws	During the period of employment, employers must comply with all other employment-related laws, including employment-related health and safety laws.	During the period of employment, employers must comply with all other employment-related laws, including employment-related health and safety laws.
		2012 also adds a prohibition against the employer and its agents confiscating or holding immigration documents.
		20 CFR 655.20(z), 29 CFR 503.16(z)
	20 CFR 655.22(d)	
Cooperation with investigators	Employers must at all times cooperate in administrative and enforcement proceedings.An employer being investigated must make available to WHD the records, information, person, and places that WHD deems appropriate.Records must be made available within 72 hours following notice from WHD.No employer or representative or agent of the employer may interfere with any Department official performing an investigation, inspection, or law enforcement function pursuant to the H-2B program.	The employer will cooperate with any agent of the Secretary of Labor who is exercising or attempting to exercise the Department's authority pursuant to the H-2B program.The employer will retain all documents pertaining to the Application and Registration, the recruitment-related documents, the payroll records, and related documents for 3 years, and make them available to WHD within 72 hours after a request from WHD.
	20 CFR 655.50(c)	
		29 CFR 503.16(bb) and 503.25.
III. Remedies		
Revocation		New: ETA may revoke a labor certification for a variety of reasons, including fraud; willful misrepresentation of a material fact; substantial failure of a term or condition of employment; failure to cooperate with DOL or law enforcement; or failure to comply with DOL remedies, sanctions, or decisions.
		20 CFR 655.72
Civil Money Penalties	Up to $10,000 per violation.	Up to $10,000 per violation. New: What constitutes a single violation: "Each such violation involving the failure to pay an individual worker properly or to honor the terms or conditions of a worker's employment required by the H-2B Registration , Application for Temporary Employment Certification , or H-2B Petition , constitutes a separate violation."
	CMPs are equal to back wages and subject to a $10,000total cap for violations related to H-2B wages (655.22(e)), prohibited fees (655.22(j)), and improper deductions (655.22(g)).	CMPs are equal to back wages subject to the $10,000 cap for violations related to H-2B wages, prohibited fees, and improper deductions.
	Highest penalties are reserved for violations that involve harm to U.S. workers.	CMPs are equal to wage assessments for U.S. workers who were improperly laid off or not hired or rehired.
		Highest penalties are reserved for violations that involve harm to U.S. workers.
		29 CFR 503.23
	20 CFR 655.65	
Debarment	WHD does not have independent debarment authority.WHD may recommend debarment to ETA after a final determination.ETA must debar within 2 years of the occurrence of the violation.ETA debarment authority also extends to agents and attorneys.Debarment period: between 1 and 3 years.	WHD does have independent debarment authority to debar employers, agents, and attorneys.Debarment extends to all other labor certifications (other visa programs) with DOL.
		Offenses which may be cause for debarment are broader than in 2009 regulations.
		Debarment period: between 1 and 5 years.
	20 CFR 655.23	
		29 CFR 503.24
Other remedies	Include back wages, reinstatement of U.S. workers, and any other appropriate legal or equitable remedy (such as make-whole wages for U.S. workers improperly laid off or not hired/rehired).	Include back wages, enforcement of provisions of the job order, make-whole relief for any person discriminated against, make-whole relief, including and instatement/reinstatement of U.S. workers improperly laid off or not hired/rehired, or other actions deemed appropriate.
		29 CFR 503.20
	20 CFR 655.65(i)	

U.S. Wage and Hour Division

U.S. Department of Labor
Wage and Hour Division

H-2B Program Enforcement

U.S. Wage and Hour Division

WHD Enforcement
Source of Authority

The Department of Homeland Security (DHS) requires that employers receive H-2B temporary labor certification from the Department of Labor (DOL). DHS also delegated H-2B program enforcement authority to DOL. DOL's Wage and Hour Division (WHD) enforces compliance with the conditions of an H-2B petition and DOL-approved temporary labor certification.

2

U.S. Wage and Hour Division

WHD Enforcement
Responsibility

- Whether U.S. workers were offered employment.
- Whether U.S. workers were laid off or displaced.
- Payment of required wages and 3/4 guarantee.
- Other obligations of the job order and certification.

3

U.S. Wage and Hour Division

WHD Enforcement
Authority

Conduct investigations, and when appropriate:

- Impose civil money penalties.
- Provide make-whole relief, such as back wages for U.S. or H-2B workers, or reinstatement of a U.S. worker wrongfully laid off or rejected for employment.
- Debar from future labor certifications.

4

U.S. Wage and Hour Division

WHD Enforcement
Scope

Workers covered under the H-2B regulations:

- H-2B visa holders.
- Workers in corresponding employment.
- U.S. workers improperly laid off or not hired.

5

U.S. Wage and Hour Division

Corresponding Employment

- The employment of workers who are **not** H-2B workers who perform:
  - substantially the same work as **in the job order** or
  - substantially the same work **performed by the H-2B workers**
    - Certain exceptions apply.
- To qualify as corresponding employment, the work must be performed during the period of the job order, including any ETA-approved extensions.

6

U.S. Wage and Hour Division

Corresponding Employment
Exceptions to the Definition

Exceptions are made for certain incumbent workers who perform the work described in the previous slide and who:

- Were continuously employed during the prior 52 weeks, worked or were paid for at least 35 hours in at least 48 of the previous 52 weeks, and averaged at least 35 hours per week over the prior 52 weeks, provided their terms and working conditions are not substantially reduced during the job order; or
- Are covered by a collective bargaining agreement or individual employment contract guaranteeing 35 hours of work per workweek and continued employment through the period of employment covered by the job order, except for dismissal for cause .

7

U.S. Wage and Hour Division

Job Opportunity

- The job must be a bona-fide, full-time temporary position, with full-time defined as 35 or more hours per week.
- There must be no strike or lockout at any of the employer's worksites in the same geographic area.

8

U.S. Wage and Hour Division

Offer of Employment to U.S. Workers

Preferential treatment of H-2B workers is prohibited.

- Employers must offer U.S. workers terms and working conditions at least as favorable as those offered or provided to H-2B workers.
- Employers must not impose any restrictions or obligations on U.S. workers that will not also be imposed on H-2B workers.

9

U.S. Wage and Hour Division

Offer of Employment to U.S. Workers

- **Positive Recruitment:** Independently conduct DOL-specified recruitment activities and cooperate with the State Workforce Agency by accepting referrals of eligible U.S. workers.
- **Hiring period**: Provide employment to any qualified, eligible U.S. worker who applies for the job opportunity until 21 days prior to the date of need.
- **Rehiring:** Contact former employees from the previous year in the same occupation (unless they abandoned the job or were dismissed for cause) and offer them the job.

10

U.S. Wage and Hour Division

Layoff and Displacement of U.S. Workers

- **No improper layoffs** from 120 days before the date of need through the end of the job order.
- If such a layoff has occurred, the employer must first offer the job opportunity to those laid-off U.S. workers before hiring any H-2B workers.
- Applies to any similarly employed U.S. worker in the same occupation and geographic area specified in the job order.
- During the job order period, permissible only if all H-2B workers are laid off before any U.S. worker in corresponding employment.

11

U.S. Wage and Hour Division

Payment of Required Wages

- The offered wage must equal or exceed the highest of:
  - Prevailing wage obtained from ETA, or
  - Federal, State, or local minimum wage.
- Wages must be paid free-and-clear.
- Employers may pay based on commissions, bonuses, piece rates, or other incentives, as long as the employer guarantees that wages equal the offered wage rate calculated in every workweek, and has accurately advertised the pay rates in all required recruiting.

12

U.S. Wage and Hour Division

Three-Fourths Guarantee

- Guarantee to offer the worker employment for a total number of hours equal to at least ¾ of the workdays on the job order in each 12-week period (or 6-week period, for job orders lasting less than 120 days).
- Each workday must consist of a full number of hours of work time as specified in the job order.
- Guarantee must begin the first day of the job order or the first workday after the worker arrives, whichever is later.

13

U.S. Wage and Hour Division

Three-Fourths Guarantee

- Employers must maintain accurate records of hours offered and hours actually worked.
- Failure to offer three-fourths of the hours in any 12- or 6-week period would require the employer to supplement the worker's pay to meet the three-fourths guarantee.

14

U.S. Wage and Hour Division

Transportation & Visa Fees

- **Inbound**: **Provide** *or* **pay for** transportation and daily subsistence (lodging, as necessary, and meals) to the place of employment *or* **reimburse** workers <u>once 50% of the job order has elapsed.</u>
  - Note: FLSA requirement for Federal Minimum Wage and reimbursement in first workweek.
- **Outbound**: **Provide** *or* **pay for** return transportation and subsistence if the worker completes the job order period or is dismissed early.
- Employer is always liable for **visa fees** & related expenses in or before the first workweek.

15

U.S. Wage and Hour Division

Other H-2B Program Obligations
Place of Intended Employment

- The employer must not place an H-2B worker outside the area of intended employment listed on the job order.
- The employer is also prohibited from placing H-2B workers outside the certified occupations.

Subject: PWD FAQs Feb 2013

The link to see new FAQs is not working. I had to go to the Prevailing Wage section of the OFLC Frequently Asked Questions and Answers ***and open every link to find the ones that are dated Feb 2013.***

http://www.foreignlaborcert.doleta.gov/faqsanswers.cfm#general

Are there any items on the ETA 9141 that requestors are routinely leaving incomplete and may cause a delay in processing or result in the request being voided?

Yes. As a general rule, requestors must complete all required items on the ETA 9141. Although entries may vary based on the visa classification supported by the application, there are items on the ETA 9141 that requestors are routinely leaving incomplete or incorrect. Such items include:

- Item D.a.6, job duties. In item D.a.6., the employer must provide a description that details the duties with enough specificity to issue a prevailing wage determination under a relevant Standard Occupational Code (SOC). To do this, the employer must specify the field(s) and/or product(s)/industry(ies) involved, any equipment the employee will use, and pertinent working conditions.
- Items D.b.1-1b, education. In item D.b.1, mark only one U.S. diploma or degree as the employer's minimum requirement. If you choose "Other degree", indicate in item D.b.1a the specific U.S. diploma or degree (e.g., JD, MD, DDS, etc.). If the position requires a degree, in item D.b.1b indicate the major(s) and/or field(s) of study for the required degree.
- Items D.b.4-4b, employment experience. If the employer checks 'No' to the experience question or leaves it blank, but indicates the number of months of experience required, we will consider that as a 'Yes'. In addition, if the job duties (item D.a.6) or the special requirements (item D.b.5) indicate that the position requires employment experience, the requestor must ensure it corresponds with the answers to items D.b.4-4b.
- Items D.c.1-6, place of employment. "N/A" is not an acceptable answer for place of employment, and the ETA 9141 will be voided and returned to the requestor. The employer must provide the complete street address, city, county, and state for the location where the work will be performed.
- Item D.c.3, the city of the place of employment. Enter the appropriate city for the worksite address. For Connecticut, Maine, Massachusetts, New Hampshire, Rhode Island, and Vermont, enter the city or town, as appropriate.
- Item D.c.4, the county of the place of employment. Enter the appropriate county, not country (USA), for the worksite address. For Alaska, enter the appropriate borough or census area. For Louisiana, enter the appropriate parish. If the city is not part of any county, enter the city as the county.
- The NPWC finds that Items D.c.7 and D.c.7a, which ask for information about multiple worksites, routinely cannot be used because they are too general. For instance, listing "the San Francisco area" is an inadequate response because the San Francisco area has nine counties. The employer must provide enough geographic detail about each area of intended employment to cover all known worksite locations by indicating each county (or independent city/town/township/borough/parish, as appropriate) and the corresponding state where the employee will work. However, the NPWC does not require employers to list the physical address for each worksite to receive a prevailing wage determination for that worksite. For the New England states, the county and the town are needed. If you are unsure about how to list the area, both the Online Wage Library (http://flcdatacenter.com/) and iCert wage lookup section list the geographic areas by the names used by the NPWC. The FLC Data Center (http://flcdatacenter.com/) has the geographic area data table from OES available in the Download Data Files section, while iCert provides the county or BLS area lookup. Below

are examples of recommended forms of entries:

Alexandria City, VA
Frederick, VA
Trujillo Alto, PR
Fairfield (Sherman), CT
Fairbanks North Star, AK
Kenai Peninsula, AK
Caddo, LA

Revised February 6, 2013

Rather than entering the job duties in Item D.a.6 on the ETA Form 9141, can I just enter "see attached" and then upload job duties and/or requirements?

No. In order for information to be considered for a PWD, an employer must begin entering the answer on the ETA Form 9141 in the appropriate field, including the employer's job duties. The iCert portal allows for a total of 4,000 characters, or 15 lines, for the employer's job duties. When the employer enters more than the allotted characters or lines in Item D.a.6, iCert will automatically create an addendum page and insert "See Addendum" in Item D.a.6. The employer's entire job duties will then appear on the iCert Addendum page.

Job duties and/or requirements that are uploaded by the employer as separate attachments will not appear on the ETA Form 9141, and the application will be determined to be insufficient. If the insufficient application was mailed to ETA, it will be returned to the employer. If the insufficient application was filed electronically, it will be voided in iCert, and ETA will send an email notification to the employer.

Posted February 6, 2013

Rather than entering multiple worksite locations in Item D.c.7a on the ETA Form 9141, can I attach or upload a list of worksite locations?

No. For information to be considered for a PWD, an employer must begin entering the answer on the ETA Form 9141 in the appropriate field, including multiple worksite locations. The iCert portal allows for up to 200 locations to be entered in Item D.c.7a. The employer must provide enough geographic detail about each area of intended employment to cover all the known worksite locations. The NPWC does not require employers to list every worksite's physical address in order to receive a prevailing wage determination for that worksite. For multiple worksites, the employer must enter at least the appropriate counties (or independent city(ies)/township(s)/borough(s)/parish(es) as appropriate) and the corresponding state(s) where the employee will work.

If the employer has more than 200 worksite locations for one job description, the employer must submit a second ETA Form 9141. The employer may use the "re-use" function in iCert to pre-populate the form and replace the multiple worksite locations with additional worksites.

Additional worksite locations that are uploaded by the employer as separate attachments will not appear on the ETA Form 9141 and will not be reviewed or provided wage determinations. If the employer does not list any of the worksite locations on the ETA Form 9141, the application will be deemed insufficient. If the insufficient application was mailed to the NPWC, it will be returned to the employer. If the insufficient application was submitted electronically, it will be voided in iCert and the NPWC will send an email notification to the employer. If the employer lists some additional worksite locations on the ETA Form 9141 but uploads a separate attachment for the remaining worksite locations, the NPWC will only provide wages for the worksite locations actually listed on the ETA Form 9141.

Posted February 6, 2013

I have job openings for the same position in multiple locations. Can I request one PWD for the same job being performed in many locations?

Yes. The employer may submit one PWD request for the same job to be performed in multiple locations, up to 200 locations. The employer must indicate it is requesting PWDs for multiple locations on the ETA Form 9141 in item D.c.7 and list all of the locations in item D.c.7a. For more information on entering multiple locations in Item D.c.7a, see FAQ #5.

Can an employer provide a survey, even if the employer's job description has restrictive or atypical requirements for the job opportunity, such as extensive travel?

The employer may provide a survey for use in the H-1B (H-1B1 and E-3), H-2B or PERM programs that meets the requirements in the Department's regulation 20 CFR ����655.731(b)(3)(iii)(B), 655.10(f), or 656.40(g), as applicable. The NPWC's acceptance of a survey is governed by the regulations and the Prevailing Wage Determination Policy Guidance - Nonagricultural Immigration Program (Revised November 2009) (PWD Policy Guidance), available athttp://www.foreignlaborcert.doleta.gov/pdf/NPWHC_Guidance_Revised_11_2009.pdf. The survey's position description must generally match the job being offered and not have differences that would place the job into a different occupation. The job opportunity described on the application may not differ from the position described by the survey, such as requiring extra or unusual duties, skills, or conditions of employment. The survey must provide data for the most specific occupation available and cannot provide only data for summary or group occupations when data for the specific occupation is available. In addition, if the employer's job opportunity combines two or more positions in the survey and the survey documentation does not provide a method for the assignment of wages in such circumstances, the survey will not be accepted for that application. When the NPWC does not accept a survey, the NPWC includes an explanation on the ETA Form 9141 clarifying the reasons the survey does not meet the requirements.

To avoid rejection of a survey because it does not match a job description with restrictive or non-normal requirements, the employer should ensure that if the survey only has a single wage tier, the job description in the survey also contains the restrictive or non-normal requirement of the employer's job opportunity. A survey that does not contain the restrictive or non-normal requirement in the job description and provides only a single wage tier will be rejected. If the restrictive or atypical requirement is not included in the job description of the survey, the survey should have multi-tiered wages. In the case of a multi-tiered survey, the NPWC will use the same methodology currently used in determining wages in OES, and increase the wage level by one level for each restrictive or atypical requirement.

A wage determination issued by the NPWC for job duties, requirements, and conditions of employment for a particular job opportunity does not signify that those job duties, requirements, and conditions of employment have been found substantively appropriate to the occupation. Nor should the addition of wage levels be construed as a determination that a particular element of the job opportunity is or is not acceptable. The wage determination is not a determination as to the appropriateness of the requirements or conditions; it is an acknowledgement of the value of the requirements or conditions in terms of compensation. A wage determination does not replace the subsequent substantive evaluation of the appropriateness of those job duties and requirements for the purposes of labor certification or labor condition application process.

Posted February 6, 2013

What does the NPWC use to determine appropriate skill sets for an occupation?

The NPWC uses the SOC description in O*NET to identify the skills normally associated with an occupation. Any required skills in addition to those listed in O*NET are considered atypical for the occupation and the analyst looks to see if they match another occupation. In either case, a point is added to the worksheet in Appendix C of the Prevailing Wage Determination Policy Guidance - Nonagricultural Immigration Program (Revised November 2009) that will raise the wage level by one level either because it contains a combination of occupations or because it contains job requirements not normal to the occupation.

The Occupational Outlook Handbook (OOH) is a DOL publication used by many to determine characteristics of occupations. It is often broad in its descriptions and may include many SOC codes within one general category. As such, when any contradiction between the O*NET information and the OOH occurs the O*NET information will take precedence.

Posted February 6, 2013

When does the NPWC consider a position to include a combination of occupations?

While there are common skill sets that may be applied to more than one occupation, the NPWC looks to the job duties, the employer's requirements, and conditions of employment to determine the occupational SOC code and assess a wage level in that occupation. In principle, when skill sets cross disciplines a point is added on the worksheet in Appendix C of the Prevailing Wage Determination Policy Guidance - Nonagricultural Immigration Program (Revised November 2009) (PWD Policy Guidance), which will raise the wage level by one level. For example, when a computer programmer is also required to market his or her program, the NPWC will view this as two distinct occupations. Therefore, a worksheet in

Appendix C of the Prevailing Wage Guidance is created for each occupation, and the wage level for each occupation is raised by one level. Moreover, as described in the PWD Policy Guidance, the NPWC will assign the SOC code for the occupation that has the higher wage.

Occupations with overlapping skills in such fields as computers, mathematics, or business operations will usually not be seen as a combination of occupations as long as they do not require two distinct skill sets. However, the NPWC will assign the SOC based on the occupation with the higher wage and will issue a wage based on the appropriate level without adding an additional point for a combination of occupations.

Additionally, when skill sets are not normal to either occupation, an additional point is added. Using the example above, in the instances where a computer programmer who is required to market his/her program also is required to have knowledge of a foreign language, a point is added, separate from the point for combination of occupation.

Posted February 6, 2013

How does the NPWC decide when to assign a "Special Skills and Other Requirements" point when determining the wage level?

When determining a wage level the NPWC uses the worksheet from Appendix C of the Prevailing Wage Determination Policy Guidance - Nonagricultural Immigration Program (Revised November 2009). Some of the elements considered for the "Special Skills and Other Requirements" assessment are discussed below.

The primary basis upon which the NPWC determines a wage level is the comparison of the employer's requirements and the typical requirements of the occupation at the entry level. Many employer requirements receive an additional point because they are considered to be special skills or other requirements. Some examples include professional or other certifications that are not required for entry into the occupation, frequency and extent of travel, job duties/skills representing a combination of occupations, and foreign language skills, each of which is discussed further below.

Certifications and licenses not required for entry into the occupation are assessed an additional point in wage level determinations. The level-one wage is focused on entry level workers, who do not typically require any kind of certification. Thus, where an employer requires a certification although certification is not normally required for the position, the NPWC will conclude that the position is not entry level. For instance, if the employer's position requires that it be filled by a Certified Public Accountant (CPA), the NPWC will not issue a level one wage for an accountant because the certification is not required to begin employment, and in many cases persons employed in the occupation never receive a CPA. Similarly, the NPWC will not issue a level one wage determination for a licensed engineer but will consider a level one wage for a non-licensed engineer who is working under the auspices of a licensed engineer. In contrast, all physicians must have a medical license for any physician occupations, entry level or otherwise, so the requirement of a medical license is considered typical for the occupation at any level.

A travel requirement can occasionally lead to an additional point for wage level determinations. Almost all occupations have some expectation of incidental travel associated with them. Incidental travel for training and development is considered normal for all occupations depending on the geographic scope of the travel. Typically, those in professional occupations attend these types of events nationally, but other occupations may be limited to local and regional events. Therefore, a point may be added, depending on the occupation and the scope of the travel. In addition, some occupations have travel outside of training and development in performance of the job duties. However, extensive travel outside the local area is not normal to most occupations and a point is almost always added in such circumstances. For instance, a house painter typically travels to various buildings in the same city, but if he or she is required to travel nationally to perform the job, an additional point will be added to the wage determination. Similarly, a sales manager typically travels to various offices in the region in order to provide oversight and monitor performance, but more extensive travel may be considered atypical. Also considered atypical is a physician who travels to various cities in the state on a rotational basis to provide services.

A combination of occupations, where the tasks and skills listed in the job description are outside the norm of a single occupation and instead are appropriate to a different occupation, may result in an additional point added to the worksheet. It is reasonable for a U.S. worker to expect additional compensation for skills that are outside the skill set required for his or her job. While there are common skill sets that may be applied to more than one occupation, the NPWC considers the job duties, the employer's requirements, and conditions of employment when determining the occupation and assessing wage levels. If the NPC finds a combination of occupations, it will add an additional point to the worksheet and assign the SOC code for the occupation that has the higher wage.

Foreign language requirements also may result in a one-level increase in the wage. By its very nature, communicating in more than one language makes a job more complex, except in the few occupations in which it is inherent to the occupation, such as a foreign language teacher or a translator. Any requirement for proficiency in a foreign language is assessed a special skill point for each foreign language required by the employer. The exceptions are foreign language

teachers, interpreters, translators, and caption writers (a specialized translator), in which the nature of the occupations include knowledge of the foreign language and have, therefore, been factored into the wage.

Specialization in teaching a foreign language is recognized in the occupation description for the OES occupations 25-1124.00 - Foreign Language and Literature Teachers, Postsecondary; 25-2022.00 - Middle School Teachers, Except Special and Career/Technical Education; and 25-2031.00 - Secondary School Teachers, Except Special and Career/Technical Education. Thus, the wages for these occupations include the language skill.

The additional skills and requirements listed above are the most common instances in which the NPWC adds a point in the "Special Skills and Other Requirements" section of the worksheet. The list is not exhaustive and is presented for illustrative purposes only. Other skills and requirements may be found to be atypical in a specific application. Finally, a wage determination issued by the NPWC for job duties, requirements, and conditions of employment for a particular job opportunity does not signify that those terms and conditions will satisfy review at later stages in the labor certification or labor condition application process. Nor is the addition of wage levels to be construed as a judgment that a particular element of the job opportunity is or is not acceptable for purposes of adjudicating the subsequent labor certification.

How can I withdraw a Redetermination Request or Center Director Review Request?

An employer/requestor may withdraw a PWD request at any point prior to the redetermination or issuance of the CDR by sending an e-mail to the NPWC Help Desk atFLC.PWD@dol.gov. The email subject line should include the ETA case number and the specific withdrawal requested. For example:

- To withdraw a redetermination request the subject line should read "[Case Number] Withdraw Redetermination."
- To withdraw a Center Director Review Request the subject line should read "[Case Number] Withdraw CDR".

Posted February 6, 2013

How can I withdraw a BALCA Appeal Request?

An application docketed by BALCA must be withdrawn through the appropriate BALCA procedures. Those procedures can be found on the BALCA's website athttp://www.oalj.dol.gov/LIBINA.HTM.

Posted February 6, 2013

What information should I include to get PWDs for the various locations under the H-2B special procedures for itineraries?

Employers are no longer required to submit their entire itineraries to the NPWC for a wage determination. The NPWC will only provide wages for the worksite locations listed on the ETA Form 9141. The iCert portal allows for a total of 200 locations to be entered in Item D.c.7a on ETA Form 9141. The employer must provide enough geographic detail to cover all the known worksite locations of intended employment. The NPWC does not require employers to input every worksite's physical address for the prevailing wage determination. For multiple worksites, the employer only needs to enter the appropriate counties (or independent city(ies)/township(s)/borough(s)/parish(es) as appropriate) and the corresponding state(s) where the employee will work.

If the employer has more than 200 counties, or their equivalent, where the employee(s) will work in one occupation, the employer must submit a second ETA Form 9141. The employer may use the "re-use" function in iCert to pre-populate the form in order to submit the additional ETA Form 9141.

Additional worksite locations that are uploaded by the employer as separate attachments will not appear on the ETA Form 9141 and will not be reviewed or provided wage determinations. If the employer does not list any of the worksite locations on the ETA Form 9141, the application will be deemed insufficient. If the insufficient application was mailed in, it will be returned to the employer. If the insufficient application was filed electronically, it will be voided in iCert and an email notification will be sent to the employer. If the employer lists some worksite locations on the ETA Form 9141 but uploads a separate attachment for the remaining worksite locations, the NPWC will only provide wages for the worksite locations actually listed on the ETA Form 9141.

Butler's Exh. 99, p. 001

Executive Summary

This technical report describes the purpose, methodology, and results of the Work Activities Project conducted by the National Center for O*NET Development. There were two primary objectives of the project. The first objective was to update the O*NET database of detailed work activities (DWAs) to reflect the changes in the U.S. economy that have impacted industries and workforces of all types. Secondly, the purpose was to enhance the utility of the DWA database by using DWAs as a mechanism to link occupations across industries, improving their usability for career exploration and development and other important human resources functions. To achieve these objectives, the project team revised the framework of work activities and generated new activity statements to reflect that framework. Based on the work of Cunningham (1996), the revised framework more fully integrates DWAs with both lower-level task statements and higher-level generalized work activity (GWA) statements. The project team qualitatively analyzed and clustered the 19,450 tasks in the O*NET 18.0 Database and wrote new DWAs based on the themes in the resulting task clusters. This process produced 2,069 new DWAs. The DWA project team then analyzed and clustered these new DWAs to generate higher level intermediate work activity (IWA) statements. This process produced 332 IWAs. The resultant integrated and hierarchical framework enables the linkage of occupations that have shared work activities. The report concludes with a discussion of potential applications of activity statement data, such as career exploration and retraining and job placement efforts.

Section I: Detailed Work Activities as a Common Language

The Occupational Information Network (O*NET®) program is the nation's primary source of occupational information. Central to the project is the O*NET database, containing information on hundreds of standardized and occupation-specific descriptors. The database is continually updated by surveying a broad range of workers from each occupation. Information from this database forms the heart of O*NET OnLine®, an interactive application for exploring and searching occupations, as well as career exploration and assessment instruments for workers and students looking to find or change careers.

The O*NET database, which powers many O*NET products and tools, is structured and was developed from the Standard Occupational Classification System (SOC) and the O*NET Content Model. The SOC provides an occupational taxonomy covering the world of work across the U.S. economy. The O*NET Content Model describes work using over 270 occupational descriptors. Based on the SOC, the O*NET-SOC taxonomy contains 1,110 occupations total, with 974 data-level occupations (the O*NET-SOC taxonomy has added more detailed occupations compared to the SOC). These occupations have undergone data collection from job incumbents or occupation experts and will continue to be updated on a regularly scheduled basis (see the O*NET Production Database).

The O*NET Content Model defines the information structure for occupations in terms of standardized, measurable sets of variables, called "descriptors." These descriptors are organized into six major domains that reflect characteristics of workers (e.g., abilities, values, knowledge, and licensing) and jobs (e.g., tasks, work context, and labor market information).

The O*NET Content Model also includes a number of job-oriented descriptors related to the *activities* performed on the job. These include task statements specific to occupations and generalized work activities (GWAs) that apply to a large number of occupations (see Appendix A for a complete list of the GWAs). Between these descriptors is the detailed work activity (DWA), defined as "an intermediate descriptor that allows cross-occupational matching while preserving differentiation, providing a common language for work description, and is easy to understand" (National Center for O*NET Development, 2003, p. 3).

DWAs are simple work activity statements (e.g., "design transporting processes") that have some degree of occupational context, in contrast to the broader GWAs (e.g., "thinking creatively"). However, these statements apply to the activities in multiple occupations, in contrast to task statements, which are normally specific to a single occupation.

The National Center for O*NET Development (2003) also outlines specific benefits of DWAs. DWAs:

1. Provide succinct, detailed information about occupational work activities to aid career exploration;

AR - 3470 Butler's Exh. 99, p. 006 Butler 02407

2. Are integrated with the O*NET Content Model via their link to GWAs;

3. Provide a structure for describing work experience that is useful for resume building;

4. Provide a more general level of functional descriptor to facilitate cross-occupational correspondence, which can help displaced workers identify new areas of work that match their capabilities;

5. Help educators, job seekers, researchers, and employers to identify transferable skills and skill gaps;

6. Provide a work-requirement profiling structure that employers can use to write job orders or position descriptions;

7. Promote the use of a *common language* describing the activities that occur across occupations as a basis for unifying industry sector skill standards.

The established set of O*NET DWAs has evolved over time and has previously undergone revision (National Center for O*NET Development, 2003). The original source was work performed several years prior to the release of the O*NET program. The state of Oregon (Dietrich, Hendrickson-Larson, Hoppe, Paige, & Rosenow, 2002) developed a set of skill statements to help individuals identify their skills and match them to occupations. These statements were developed for Occupational Employment Statistics (OES) occupations and were based on information from sources such as the Classification of Instructional Programs (Classification of Instructional Programs: 2000 edition), the OES occupations (Bureau of Labor Statistics, 2000), and the Dictionary of Occupational Titles (U.S. Department of Labor, 1991).

After the O*NET database was made publicly available, many new statements were written to cover O*NET-SOC occupations. These skill statements were released by the National Center for O*NET Development and henceforth described as DWAs. O*NET tasks were used as the basis for adding new DWA statements. In 2002, an O*NET team continued to revise the statements to enhance cross-occupational skill statement usage, ensure coverage of O*NET tasks, eliminate duplication, and edit for clarity and consistency. The effort produced 2,345 statements (National Center for O*NET Development, 2003).

This revision produced an updated but inconsistent dictionary of DWAs, prompting the National Center for O*NET Development to undertake a more thorough review and revision effort. This provided an opportunity to improve DWA data structure, statement style, and application. The team edited statements to remove redundancies and also revised or replaced statements that had more closely resembled knowledge, skill, ability, or work context elements. The effort revised 319 statements, eliminated 181 DWAs, and added one statement, resulting in a balance of 2,164 DWA statements. They also mapped the final set of DWAs onto the GWA data; that is, a team of raters assigned each DWA to a GWA.

AR - 3471 Butler's Exh. 99, p. 007 Butler 02408

The Need for Enhancements

The 2003 revision strengthened the DWA database, but the U.S. economy and workforce have experienced considerable change in the intervening decade. Most notable are changes occurring in the world of work as a result of new technologies, innovative business practices, and the organization of work.

As part of the O*NET program's continuous improvement effort, new and emerging industries and resultant occupations are regularly researched and added to the O*NET-SOC taxonomy. Research has shown, for example, that biotechnology, geospatial technology, and nanotechnology are being applied across a number of industries, substantially altering established work processes and requiring new and different technical worker competencies (National Center for O*NET Development, 2006). Even manufacturing is experiencing considerable technological change. Whereas traditional manufacturing experiences a slow decline in employment, advanced manufacturing techniques, such as robotics and precision fabrication, present opportunities for workers with more education and advanced technical skills.

Technology is also a catalyst in the growth of green or sustainable operations or energy production. More environmentally conscious consumer behavior and increased government support have given a boost to green-oriented industries like construction and energy production. This has led to a "greening" of the related workforces: Green technology or economic activities may increase the demand for existing occupations, significantly alter the work or worker requirements for existing occupations, or create the need for new and emerging occupations with unique job and worker characteristics (Dierdorff, Norton, Drewes, Kroustalis, Rivkin, & Lewis, 2009; Dierdorff, Norton, Gregory, Rivkin, & Lewis, 2011).

The O*NET program also receives input regarding changing tasks and work functions during data collection efforts. Feedback from industries, businesses, and professional associations indicate changes in work functions due to new technologies. Incumbent workers identify new tasks that they perform in their changing world of work.

These changes, both at the industry and occupational level, prompted the National Center for O*NET Development to update and enhance the DWA database to improve its application for career exploration, career development, and other important human resources functions. Much of the original DWA development preceded the growth of the O*NET database. In the past decade, the National Center for O*NET Development has updated the O*NET taxonomy to keep up with the changing world of work. In addition to exploring green technologies and their impact on work roles (Dierdorff et al., 2009), it has investigated 17 in-demand industry clusters that include traditional industries like construction, energy, health care, and hospitality, as well as emerging technologies, such as geospatial technology, biotechnology, and nanotechnology. This investigation resulted in the addition of over 150 new and emerging occupations to the O*NET taxonomy (National Center for O*NET Development, 2009). Given the potential of

AR - 3472 Butler's Exh. 99, p. 008 Butler 02409

DWAs for providing a common language for economies and workforces in transition, the National Center for O*NET Development determined that DWA enhancement could also capture these recent changes.

Overview of Project Rationale

The immediate objective of the Work Activities Project was to update the relevance of the DWAs by developing new DWAs to capture the growth and change in occupations, particularly new and emerging occupations arising from in-demand industry clusters (National Center for O*NET Development, 2009). The second objective was to enhance the utility of the DWA database by using DWAs as a mechanism to link occupations across industries. In addition, a review of existing DWAs revealed opportunities to improve specificity, formatting, and overall consistency of DWA statements. Together, these objectives led to improving DWA usability for career exploration and development and various human resources functions.

To help standardize DWA statements, the project team sought to update the complete database of DWAs. This, in turn, provided the opportunity to more fully integrate DWAs with the other activity descriptors: tasks and GWAs. The current multi-level framework of job descriptors includes 19,450 occupation-specific tasks, 41 cross-occupation GWAs, and 2,164 DWAs that fit between GWAs and tasks in terms of specificity. The team was able to enhance the current framework by developing an additional, *intermediate* level of analysis to help organize the DWA information and provide a stronger linkage among GWAs, tasks, and DWAs.

Cunningham (1996) suggested this type of expanded framework for the work activity domain. He described *area work activities* as descriptions of work activities that are common to multiple occupations and are often technology-specific. This corresponds closely with the established conception of a DWA. Cunningham (1996) also defined a higher-level descriptor: *Intermediate work activities* (IWAs). IWAs are more general activity statements, common to many occupations, and are rarely defined by technology use.

The IWA has excellent potential utility in the current labor market. As global competition has increased, particularly in manufacturing, and technologies have emerged, there have been significant shifts in the types and sizes of labor pools in the U.S. economy. This requires American workers to look for jobs or job-

Glossary

Job Family – *A group of similar occupations. The 22 Job Families used in this project are equivalent to the 22 major groups presented in the SOC. The term Job Family is used in the O*NET system rather than major group for ease of understanding by the many different types of O*NET users.*

GWA – Generalized Work Activity. *The most general activity statements. Each of the 41 GWAs links to many occupations across job families*

IWA - Intermediate Work Activity. *Most of the 332 IWAs link to a large number of tasks and occupations across multiple job families.*

DWA – Detailed Work Activity. *The most specific activity statement. Most of the 2,069 DWAs link to 4 or more tasks and 3 or more occupations within a single job family.*

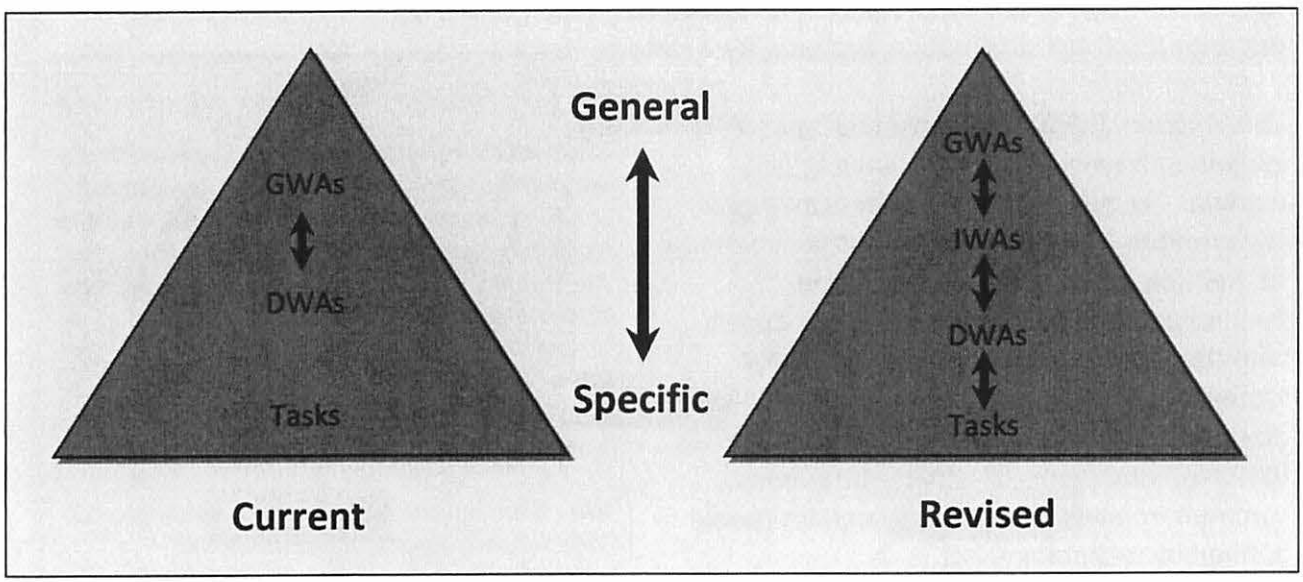
Green DWA. *This is a green work activity statement derived solely from green tasks.*

AR - 3473 Butler's Exh. 99, p. 009 Butler 02410

training possibilities beyond the traditional boundaries of their industries or what they see as similar occupational groups. Employers and workforce specialists may also look outside their industries to identify and recruit workers with valuable skills that can be applied across industries and occupational groups, commonly referred to as *job families*. The term job families refers to occupations grouped together based upon work performed, skills, education, training, and credentials (National Center for O*NET Development, 2010). The 22 O*NET Job Families[1] used in this project are based on, and equivalent to, the 22 major groups used in the SOC system (Standard Occupational Classification Policy Committee, 2010).

DWAs serve as a useful starting point for many workforce decisions. The broader IWAs provide an extension of this information, linking occupations across job families. For this reason, the DWA project team chose to enhance the work activity database by not only improving the DWA database but also by adding the higher-level IWA data (see Figure 1). Using an inductive development method, the DWA project team enhanced the links among the levels in the work activity framework (signified by the arrows in the right–hand triangle in Figure 1). This hierarchical framework (tasks nested within DWAs nested within IWAs nested within GWAs) facilitates more flexible career and occupational exploration.

Figure 1. Current and Revised Work Activity Framework



Results Preview

A sample of new work activities data for the O*NET-SOC occupation of Electricians provides a demonstration of the nested structure of activity data. Table 1 presents four of the 13 GWAs

[1] The 22 O*NET Job Families used in this project are based on the Occupational Major Groups in the SOC. The Standard Occupational Classification is organized into *23* major groups, including *Military Specific Occupations* (Standard Occupational Classification Policy Committee, 2010). The O*NET project does not collect data on occupations in the *Military Specific Occupations* major group.

AR - 3474 Butler's Exh. 99, p. 010 Butler 02411

linked to Electricians. Nested under each GWA is one or more IWAs, such as *Estimate project development or operational costs*. Nested under each IWA is one or more DWAs, such as *Estimate construction project costs.* Finally, nested under each DWA are multiple tasks, such as *Provide preliminary sketches or cost estimates for materials or services.*

Table 1. Example of Nested Activity Data for 47-2111.00 - *Electricians.*

GWA: Inspecting Equipment, Structures, or Material **IWA:** Inspect commercial, industrial, or production systems or equipment. **DWA:** Inspect electrical or electronic systems for defects. **Task:** Inspect electrical systems, equipment, or components to identify hazards, defects, or the need for adjustment or repair, and to ensure compliance with codes.
GWA: Estimating the Quantifiable Characteristics of Products, Events, or Information **IWA:** Estimate project development or operational costs. **DWA:** Estimate construction project costs. **Task:** Provide preliminary sketches or cost estimates for materials or services.
GWA: Thinking Creatively **IWA:** Create visual designs or displays. **DWA:** Create construction or installation diagrams. **Tasks:** Prepare sketches or follow blueprints to determine the location of wiring or equipment and to ensure conformance to building and safety codes. Provide preliminary sketches or cost estimates for materials or services.
GWA: Handling and Moving Objects **IWA:** Install commercial or production equipment. **DWA:** Install electrical components, equipment, or systems. **Tasks:** Assemble, install, test, or maintain electrical or electronic wiring, equipment, appliances, apparatus, or fixtures, using hand tools or power tools. Connect wires to circuit breakers, transformers, or other components. Fasten small metal or plastic boxes to walls to house electrical switches or outlets. Install ground leads and connect power cables to equipment, such as motors.

Table 1 demonstrates that GWAs reflect not only the IWAs, but also the DWAs and tasks. This hierarchical or nested framework can enhance users' understanding of the range and detail of work activity information.

AR - 3475 Butler's Exh. 99, p. 011 Butler 02412

The hierarchical framework is especially useful as a means of linking occupations to facilitate occupational exploration. Common work activities (at either the DWA or IWA level) provide a way to compare and contrast occupations. Table 2 previews the results in a different manner. It lists the shared DWAs between two occupations and the tasks that form the basis for the common work activity profile.

Table 2. DWAs Common to 51-8091.00 *Chemical Plant and System Operators* and 51-8099.01 *Biofuels Processing Technicians.*

Chemical Plant and System Operators	Biofuels Processing Technicians
Common DWA: Collect samples of materials or products for testing.	
Draw samples of products and conduct quality control tests to monitor processing and to ensure that standards are met.	Collect biofuels samples and perform routine laboratory tests or analyses to assess biofuels quality.
Common DWA: Direct operational or production activities.	
Direct workers engaged in operating machinery that regulates the flow of materials and products.	Coordinate raw product sourcing or collection.
Supervise the cleaning of towers, strainers, or spray tips.	
Common DWA: Operate pumping systems or equipment.	
Start pumps to wash and rinse reactor vessels, to exhaust gases or vapors, to regulate the flow of oil, steam, air, or perfume to towers, or to add products to converter or blending vessels.	Operate valves, pumps, engines, or generators to control and adjust biofuels production.
Common DWA: Replace worn equipment components.	
Repair or replace damaged equipment.	Rebuild, repair, or replace biofuels processing equipment components.
Common DWA: Record operational or production data.	
Record operating data, such as process conditions, test results, or instrument readings.	Inspect biofuels plant or processing equipment regularly, recording or reporting damage and mechanical problems.
	Monitor and record biofuels processing data.
	Monitor and record flow meter performance.
Common DWA: Notify others of equipment repair or maintenance needs.	
Notify maintenance, stationary-engineering, or other auxiliary personnel to correct equipment malfunctions or to adjust power, steam, water, or air supplies.	Inspect biofuels plant or processing equipment regularly, recording or reporting damage and mechanical problems.

Section II: General Methodology

The DWA project team designed an inductive, "bottom-up" approach to DWA development, starting with the tasks listed in the O*NET 18.0 Database. The O*NET database is regularly updated by incumbent ratings of the relevance and importance of O*NET tasks. Furthermore, emerging tasks have been identified across multiple versions of the O*NET database. Thus, O*NET tasks are a robust source for work activity data. There were two challenges involved in developing more general work activity information from these task statements. The first was to extract the more general *activity* data from the specific *task* statements; this was a substantial challenge, given the 19,450 task statements in the O*NET 18.0 Database. The second challenge was organizing the extracted data into meaningful, unique content that did not replicate higher-level (GWA) or lower-level (task) data.

The DWA project team considered two approaches to extracting valuable activity data: a quantitative and a qualitative approach. The quantitative approach would attempt to deconstruct each task statement into its key linguistic components: an activity verb, an object of the verb, and a purpose. A classification system of those components would provide numerical codes for a series of cluster analyses to produce groupings of similar task statements.

The qualitative approach would involve a rational analysis of each task statement as a whole, rather than reducing each task to linguistic components. The rational method would also generate task clusters, but based on close inspection of the tasks to reveal the core theme or activity of each task. The quantitative approach would have the advantage of speed and efficiency by focusing on the parts of the task statements expected to be most informative. The qualitative approach would have the advantage of precision and accuracy; by rationally analyzing each task statement, the DWA project team could be sure to extract the most crucial activity information, no matter where it occurred in a task statement.

The DWA project team pursued the qualitative approach primarily because of the realization that task statement structure is so variable that it would be very difficult for a technical system to reliably derive the most important data from tasks. In short, human judgment was determined to be paramount in the development of a logical, meaningful, and useful system. The rational approach capitalized on rational judgment whereas the quantitative approach would have restricted it.

The resulting qualitative method (see Figure 2) began with two straightforward steps: 1) Rational analysis and clustering of tasks into groups based on similarity of activity, objects, purpose, context, and technology, and 2) Development of precisely worded activity statements –new DWAs—that reflect those common characteristics and distinguish those activities from other activity statements.

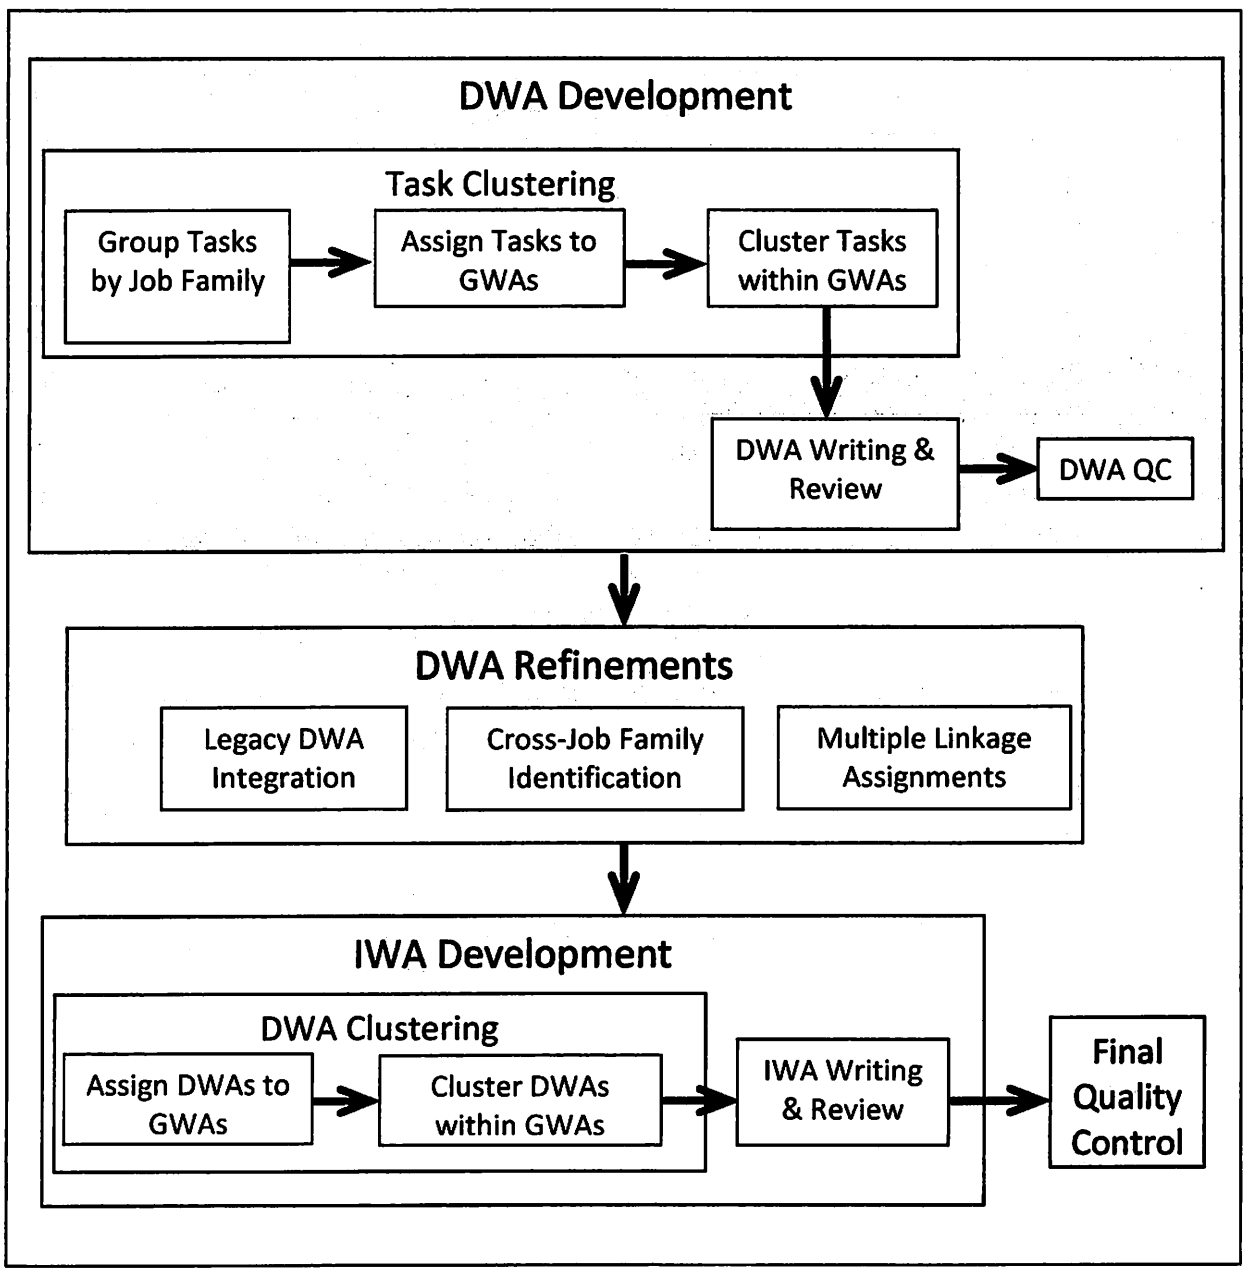
Once the DWAs were developed, several data refinements were conducted. Firstly, relevant original, or "legacy," DWAs were integrated into the DWA dataset if they filled a conceptual gap

AR - 3477 Butler's Exh. 99, p. 013 Butler 02414

in the set of new DWAs. Secondly, the entire set of DWAs was reviewed to identify identical or nearly identical DWAs that could be combined. Finally, tasks that contained information about multiple activities were linked to additional DWAs.

Once these refinements were complete, the project team conducted the same two-step process to develop IWA statements. DWA statements were clustered using the same rational process used for task clustering. DWA statements reflecting similar activities were grouped and activity statements were written to reflect the common activity themes in the DWA clusters.

Figure 2. DWA and IWA Development Process



The following section describes in greater detail the processes for DWA and IWA development, additional refinement efforts, and quality control and content review procedures.

Section III: DWA Development

The DWA project team developed a multi-step, collaborative, team-based development procedure that employed simple, real-time technology to cluster tasks and write DWA statements.

A team-based approach was used to balance interpretations of task language. Any single analyst has certain language biases. The multiple viewpoints expressed during team collaboration can correct for idiosyncratic language interpretations and usage. Team collaboration was accomplished through an online spreadsheet application that allowed for simple, visible, real-time collaboration among team members. The DWA project team used the online spreadsheet throughout the primary DWA development steps—Task Clustering and DWA Statement Writing.

There were three to four teams (depending on the stage of development), each composed of three to four members, conducting DWA development. Each team included an experienced occupational analyst as a team leader and two or three graduate students in industrial-organizational psychology as team members. Each team was responsible for both task clustering and DWA writing for multiple subsets of task data. That is, a team was responsible for the entire development process for an assigned set of tasks.

Task Clustering

The goal of task clustering was to incrementally group similar tasks into increasingly smaller clusters until simple, specific, and unique work activity themes emerged that would reflect each of the tasks in the respective clusters. The following steps were used:

1. Group tasks according to 22 O*NET job families.
2. Assign tasks to GWAs.
3. Cluster tasks within GWAs.

Task Clustering Step 1: Sorting by Job Family

As described earlier, a primary distinction between the new DWAs and IWAs is that DWAs apply to multiple occupations within a single job family, whereas IWAs often link to occupations in multiple job families[2]. Thus, there is a theoretical basis for grouping tasks first by job family. There is also a practical reason for doing so in that job families provide a very efficient way to

[2] A small subset of cross-family DWAs were developed. See page 26 for a discussion.

AR - 3479 Butler's Exh. 99, p. 015 Butler 02416

initially cluster conceptually similar tasks. One can see that the occupations encompassed by the job families listed in Table 3 will have many similar tasks. Organizing tasks by the 22 job families helps to integrate new data with an established occupational framework[3].

This division by job family produced 22 groups of occupations, with group totals ranging from 134 tasks to 2,344 tasks. This reduction of the entire group into smaller subsets of related tasks made it easier to inspect and cluster tasks further, even in the largest job families.

Table 3. 22 O*NET Job Families

Job Family	# of occupations	# of tasks
Management	59	1294
Business and Financial Operations	51	983
Computer and Mathematical	33	690
Architecture and Engineering	71	1431
Life, Physical, and Social Sciences	60	1161
Community and Social Service	14	290
Legal	8	134
Education, Training, and Library	61	1591
Arts, Design, Entertainment, Sports, and Media	43	795
Healthcare Practitioners and Technical	86	1683
Healthcare Support	18	332
Protective Service	29	543

Building and Grounds Cleaning and Maintenance	8	181
Personal Care and Service	32	621
Sales and Related	24	456
Office and Administrative Support	63	1125
Farming, Fishing, and Forestry	17	311
Construction and Extraction	61	1135
Installation, Maintenance, and Repair	54	1096
Production	112	2344
Transportation and Material Moving	53	927

[3] The 22 O*NET Job Families used in this project are based on the Occupational Major Groups in the SOC. The Standard Occupational Classification is organized into *23* major groups, including *Military Specific Occupations* (Standard Occupational Classification Policy Committee, 2010). The O*NET project does not collect data on occupations in the *Military Specific Occupations* major group. As such, the task clustering process employed the 22 groups of civilian occupations.

AR - 3480 Butler's Exh. 99, p. 016 Butler 02417

Task Clustering Step 2: GWA Assignment

Each job family involves many tasks—some include thousands of tasks—so it was necessary to further subdivide tasks in a logical manner. As an intermediate step, the DWA project team chose to subdivide tasks by linking them to GWAs, which would begin to organize the tasks for further evaluation. O*NET-SOC occupations are currently linked to 41 GWAs (see Table 4 for examples and Appendix A for a complete list).

Because tasks had not been explicitly linked to GWAs, this step involved making those linkages. Teams of analysts, working within each job family, assigned each task to one of the 41 GWA "buckets," based on the similarity of the work activity in the task to the respective GWA.

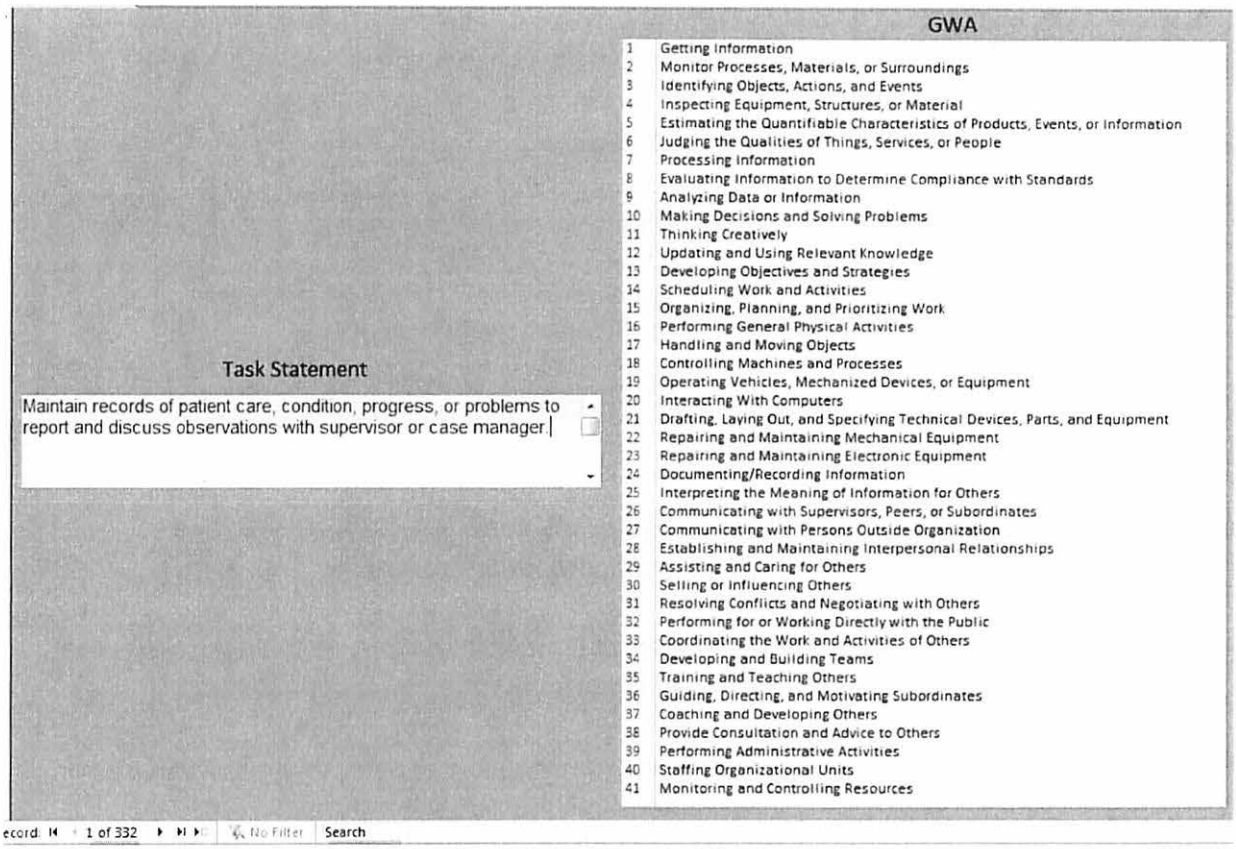
Table 4. Examples of O*NET Generalized Work Activities

GWA	
Activity	**Description**
Getting Information	Observing, receiving, and otherwise obtaining information from all relevant sources.
Judging the Qualities of Things, Services, or People	Assessing the value, importance, or quality of things or people.
Organizing, Planning, and Prioritizing Work	Developing specific goals and plans to prioritize, organize, and accomplish your work.
Handling and Moving Objects	Using hands and arms in handling, installing, positioning, and moving materials, and manipulating things.
Operating Vehicles, Mechanized Devices, or Equipment	Running, maneuvering, navigating, or driving vehicles or mechanized equipment, such as forklifts, passenger vehicles, aircraft, or water craft.
Repairing and Maintaining Electronic Equipment	Servicing, repairing, calibrating, regulating, fine-tuning, or testing machines, devices, and equipment that operate primarily on the basis of electrical or electronic (not mechanical) principles.
Assisting and Caring for Others	Providing personal assistance, medical attention, emotional support, or other personal care to others such as coworkers, customers, or patients.

AR - 3481 Butler's Exh. 99, p. 017 Butler 02418

Each team of three to four analysts was assigned the tasks from a subset of job families. The 22 job families were distributed evenly among the four development teams. For the tasks in a specific job family, each member assigned each task to just one of the 41 GWAs. They did this through a database form interface (see Figure 3) that presented the entire set of tasks for a job family in succession. For each task, a team member selected the GWA that best captured the primary work activity present in the task statement.

Figure 3. GWA Assignment Interface



Analysts needed to deconstruct each task statement to identify the core activity data, enabling assignment to the most appropriate GWA. Task statements provide a wealth of information, but a GWA assignment needed to be based primarily on activity data. For each task statement, analysts needed to: a) Distinguish between activity data and supplemental information, and b) Identify the *primary* activity among potentially multiple activities found in a task statement.

Although task statements vary in structure, they may include (in addition to an activity statement) purpose clauses (e.g., "to determine specifications"), tools and technology (e.g., "using hand tools or power saws"), or exemplar clauses (e.g., "such as updating records"). Although this supplemental information is informative, especially in later task clustering steps, GWA assignment is based on the commonality between task activity data and respective GWAs.

AR - 3482 Butler's Exh. 99, p. 018 Butler 02419

Similarly, many task statements refer to multiple activities, which take several forms: A sequence of activities on a single object (e.g., test and adjust equipment), related activities performed on different objects (e.g., position work pieces and start equipment), or contrasting methods (e.g., remove work pieces manually or operate equipment to remove work pieces). However, the GWA assignment interface allowed for a single task-GWA assignment, so analysts needed to determine the *primary* activity in a task statement and make a GWA assignment based on that activity. (Focusing on a single activity in a task statement at this stage did not preclude the utilization of the additional activity data. See Section IV for an explanation of multiple linkage identification.)

The GWA selections for all team members were recorded; thus there were three or four selections for each GWA-task assignment. These data were then imported into an online spreadsheet that would become the primary working file for the remainder of the DWA development process. Since the tasks were organized within job families, the task assignment process produced 22 working files, one for each job family.

The next step was to achieve consensus on whether the initial task-GWA assignments were the most appropriate and whether tasks within a bucket were similar. In each job family, a certain percentage of tasks had already achieved consensus—all team members independently assigned a given task to the same GWA. To resolve differences in task-GWA assignment, team members collaboratively decided where the remaining tasks belonged.

The online spreadsheets (one for each job family) were set up to facilitate the organization and achievement of consensus decision making. First, consensus tasks were separated from disagreement tasks (see Figure 4 for an example worksheet); if all but one team member agreed on a GWA-task assignment, the task was considered "in consensus." The "majority rule" was followed in this case because this was just a first pass and all tasks would be inspected very closely and reassigned as necessary in later steps.

For example, of the 1,683 tasks linked to the job family *Healthcare Practitioners and Technical*, 1,277 were assigned to a GWA by consensus or majority rule during the initial GWA-task assignment step. Each of these 1,277 tasks was then distributed to one of the 41 worksheets corresponding to the GWAs and set aside for later consideration. The remaining 406 tasks in this job family were placed in a separate worksheet for immediate attention. The team members then discussed the proper GWA assignment for each of these tasks until they reached consensus. These tasks were then moved to the appropriate GWA worksheets. At this point, all 1,683 tasks for this job family were filed in one of the 41 GWA worksheets.

The rational task clustering method is based on evaluation of the entire meaning of a given task statement (including work activity, purposes, context and technology). The tasks were grouped based on this broad meaning sense, using the existing GWAs as a framework. The most important goal was to group all tasks with similar meanings into logical clusters. Then, the

AR - 3483 Butler's Exh. 99, p. 019 Butler 02420

specifics of each task statement were considered to further sort the groups into similar work activities at the level of specificity needed to write informative and useful DWAs.

6	53604100	Traffic Technicians	8643	Study traffic delays by noting times of delays, the numbers of vehicles affected, and vehicle speed through the delay area.	Supplemental	No	1	24	9	1	1	MH: Fits with 8635. DS: Agree

Note: *OccpID*=Occupational ID. *Task Type*: All O*NET tasks are designated as either *Core* or *Supplemental* to the performance of the occupation.[4] *Green?* Identifies either newly-developed "green" tasks or tasks associated with Green Increased Demand Occupations or Green Enhanced Skills Occupations. *R1, R2, R3*=rater IDs for team members in initial GWA-task assignment teams. *Prosp. Rev. ID*= the prospective revised GWA ID proposed by primary team member for the respective task. *Final Rev. ID*=the final revised GWA ID for the task, agreed upon by all team members. *Comments (Rd. 1)* is one of up to eight comments columns team members used to discuss GWA-task assignments.

Task Clustering Step 3: Within-GWA Clustering

Dividing the hundreds to thousands of tasks within each job family among the 41 GWAs greatly simplified the development process, and some work activity themes began to emerge right away with a review of the GWA worksheets. In general, this initiated the most intellectually intensive and collaborative phase of the DWA development project for several reasons.

First, tasks within any given job family were not distributed evenly across the GWA buckets. GWAs loosely correspond to the Data-People-Things model (U.S. Department of Labor, 1991): the first 15 GWAs (4.A.1.a.1 through 4.A.2.b.6) generally lean toward *data*, the next 9 GWAs (4.A.3.a.1 through 4.A.3.b.6) deal with *things*, and the remaining 17 GWAs (4.A.4.a.1 through 4.A.4.c.3) are *people*-oriented. Many of the job families focus their activities on one of the three areas. The job family *Production* is *things*-focused—hundreds of tasks were assigned to GWAs 4.A.3.a.1 through 4.A.3.b.6. A large portion of the tasks in *Life, Physical and Social*

[4] *Task Type* is a useful secondary variable. The DWA project team modestly prioritized "Core" tasks over "Supplemental" tasks by attempting to limit the number of core tasks identified as outliers. Conversely, supplemental tasks were allowed to be identified as outliers more frequently. For example, a cluster initially composed only of supplemental tasks was often removed or revised to include more core tasks.

AR - 3484 Butler's Exh. 99, p. 020 Butler 02421

Sciences ended up in the *data* GWAs, and tasks for *Sales and Related* were often assigned to *people* GWAs. This often resulted in very large clusters of tasks assigned to a given GWA, requiring extensive subdivision.

Second, the GWA framework is composed of generally defined descriptors, since they were designed to apply to multiple occupations. Thus, it was important to ensure that specific task statements were linked to the correct GWA descriptor.

Finally, rational judgment procedures are subject to evolving interpretations, or mental models. As team members spent more and more time with rich data such as GWAs and task statements, their individual mental models changed and converged. Thus, perspectives toward the end of clustering were likely to be different than they were during GWA-task assignment.

As a result, this phase involved an extensive amount of clustering, GWA reassignment, and re-clustering, among other activities. It also involved lengthy discussion to reach consensus on GWA assignments and cluster composition.

To structure the within-GWA clustering, a seven-step process was developed (see Figure 5 for a screenshot of the worksheet for GWA 4.A.3.a.2 *Handling and Moving Objects* for the job family *Transportation and Material Moving*):

1. Each team member was assigned a subset of GWA worksheets for the initial organization and clustering. For the assigned subset, the team member began by reviewing the respective task statements and deconstructing them in the same manner as in the GWA assignment step—distinguishing activity data from supplemental data and identifying the primary activity in the task statement. Focusing on the primary activity, the team member decided whether a task actually belonged in a given GWA bucket or whether it would be a better fit elsewhere. If a task was not a good fit for the GWA, the team member identified a more appropriate GWA.

2. Team members then identified task statements with multiple activities. These task statements were flagged in the working files to ensure that, in later stages, all relevant task information would be linked to DWAs. In some cases this required a task to be linked to multiple DWAs.

3. After identifying poorly fitting tasks the team member began the process of clustering the remaining valid tasks. He or she coded highly similar tasks with the same identification numbers and also described the emerging themes for those groupings (using key words or complete phrases). For example, task statements relating to assembly would be coded as "1" whereas tasks involving installation would be coded as "2," and tasks relating to disassembly would be a "3," and so on. Once the initial coding was complete, the team member sorted the tasks by codes/themes, resulting in initial clusters. The team member then refined the cluster solution and themes by splitting or

AR - 3485 Butler's Exh. 99, p. 021 Butler 02422

combining clusters and identifying any additional tasks that were no longer a good fit for the GWA grouping.

Figure 5. Screenshot of Task Clustering Worksheet for GWA *Handling and Moving Objects* for Job Family *Transportation and Material Moving*

	A	B	C	D	E	F	J	K	L	M	N
1	OccpID	O*NET-SOC Title	TaskID	Task	Task Type	Green?	DWA ID	Theme/Other Notes	Outlier?	Compound Task?	Comments (Rd 1)

7	53703200	Excavating and Loading Machine and Dragline Operators	30011	Create or maintain inclines or ramps.	Core	No	17.02	Assemble equipment			AK: A bad task but I think this should be in 17. MH: Agree. DS: Agree

Note: *Outlier* identifies tasks that don't belong in the respective GWA worksheet. *Comments (Rd. 1)* is one of potentially several comments columns team members used to discuss cluster assignments and composition.

4. Teams employed content criteria and cluster size criteria at this stage.

   - *Cluster Homogeneity*: This was the primary content criterion. As a group, the tasks within a cluster needed to robustly demonstrate a single activity theme. It was not sufficient for each task to somewhat relate to the activity theme; such a cluster would not be "tight" enough.

   - *Task-Cluster Fit*: Related to cluster homogeneity was the fit of a task with the activity theme demonstrated by the other tasks in the cluster. A task that did not fit strongly with the activity theme was moved to another cluster or identified as an "outlier."

   - *Cluster Uniqueness*: Clusters within each job family needed to be conceptually distinct from one another. Conceptually overlapping clusters were subject to an array of possible changes ranging from removal of individual tasks to the combining of clusters.

AR - 3486 Butler's Exh. 99, p. 022 Butler 02423

- *Cluster Specificity*: The goal of DWA development was to generate activity statements that are more general than task statements but considerably more specific than GWAs. Overly specific clusters were combined with other clusters and overly general clusters were further subdivided.

- *Cluster Size*: DWA development teams were also given cluster size requirements. Clusters had to be composed of at least two tasks, but larger *target ratios* were also employed. Teams were to attempt to achieve clusters that linked to at least four tasks and at least three occupations. These target ratios were important for two reasons. First, a goal of the project was to use DWAs to link occupations through common activities; that goal cannot be fully achieved if many DWAs link to only one or two occupations. Second, the O*NET Database is a dynamic repository of task data that reflects changes in occupations and work processes, and tasks are occasionally removed, replaced, or revised to reflect those changes. As such, a critical mass of tasks is necessary to bolster a DWA against potential task removals in the future. If a cluster contained a single task, the task was moved to a different cluster or was categorized as *unassigned*. If clusters failed to meet the target ratios, team members looked for opportunities to combine these small clusters with other clusters. Small clusters that could not be combined were evaluated and retained if they were considered important and had potential for future growth.

5. Once all team members completed steps 1-4 for their subset of GWA worksheets, the other team members were given the opportunity to comment on each other's cluster solutions and make suggestions. Team members confirmed or disputed cluster homogeneity, task-cluster fit, and cluster uniqueness and specificity. They also discussed more appropriate clusters or GWA buckets for certain poorly-fitting tasks. This was a valuable step in the methodology. It allowed team members to gauge the mental models of their teammates, and to contribute perspectives and suggestions to clustering solutions and outlier decisions. This process, through multiple iterations, generated increasingly strong shared mental models of GWAs, clusters, and task language. It also ensured that each team member looked at all the tasks and all the clusters in a given job family.

6. Once each team member had reviewed all other team members' work, a designated team leader performed the administrative step of moving the tasks designated as poor fits to more appropriate GWA worksheets. Next, another round of independent cluster refinement was conducted, followed by collaborative review and refinement.

7. Step 5 was often repeated several more times until the team decided to transfer all the cluster data from the 41 separate worksheets to a single cluster worksheet. The clusters were reviewed and refined at this point as a single grouping corresponding to a particular job family, rather than to an individual GWA. All team members inspected each cluster for homogeneity and the fit of each task within the cluster. There was also

AR - 3487 Butler's Exh. 99, p. 023 Butler 02424

an initial evaluation of cluster specificity and cluster overlap; these criteria were addressed more intensively after DWAs were written.

DWA Statement Writing

Once all team members were satisfied with the clusters and their composition, they wrote simple declarative statements to reflect the activities present in the linked tasks. Task clustering and DWA writing were steps in a continuous process. Thus, each team was responsible for both task clustering and DWA writing for their assigned sets of tasks.

Following the standard collaborative pattern, each team member was responsible for drafting initial DWA statements for a subset of task clusters. The finalized task clusters were distributed evenly among the team members, who wrote a single declarative activity statement for their assigned task clusters according to the DWA style guide below. Once draft DWAs were written, they were reviewed and revised collaboratively by the team, all in a single online worksheet. Comments and suggested revisions were captured in a series of *Comments* columns in each worksheet; four to six columns worth of comments were often necessary to resolve DWA revisions.

DWA writing standards were developed and included the following:

1. **Use one major activity verb per DWA. Start the DWA with this verb.**
2. **The verb form should be third-person, present-tense plural.**
3. **Use as few nouns as possible while still being specific. For example, it might be necessary to refer to clients and customers (rather than just people). Use *or* rather than *and* for cases with multiple object nouns.**
4. **Use nouns that are specific to the job family being addressed, but neither too specific nor too general. *Equipment* is too general, *laser surgery robots* is probably too precise; *medical treatment equipment* may be just right. A noun should not refer to something used in only one specific occupation within the job family.**

DWA Writing Standards, continued:

5. Use adjectives to modify nouns for occupational clarity as needed.

6. Avoid exemplar clauses (e.g., *"such as"*, *"including"*) except when absolutely necessary.

7. Use purpose ("to") clauses only as needed. Purpose statements can be essential qualifiers, however. Incumbents in different occupations may actually perform the same activities, but the purposes will differ. Different purposes may imply different knowledges and/or skills so that the purpose, itself, becomes relevant to the end-user. However, there are cases where the DWA can be re-written to retain the qualifier. "Analyze legal or regulatory changes to determine impact" can be re-written as "Analyze impact of legal or regulatory changes."

8. Aim for a moderate reading level, approximating an 8th grade reading level.[5]

(See Appendix B for DWA Writing Standards).

Once a team prepared and revised DWA statements for a job family, the team conducted an internal content review to address established criteria, cluster homogeneity, task-cluster fit, DWA specificity, and DWA uniqueness. Although all four criteria were regularly addressed, the emphasis at this stage was on DWA specificity and uniqueness. Task clusters may have been sufficiently specific and unique at the completion of clustering. However, the translation of a cluster theme into an activity statement creates new opportunities for specificity or uniqueness issues. Capturing in words the entirety of a task cluster can sometimes require more general language than desired. Thus, DWA specificity needed to be re-evaluated at this point. Likewise, word usage in a DWA statement may create more conceptual overlap among DWAs than exist in the task clusters themselves. To detect DWA conceptual overlap, teams reviewed the list of DWAs for a job family in isolation, with task and cluster data temporarily stripped from the worksheet.

The team then made more revisions if data failed these criteria. As in other stages of DWA development, this involved further cluster subdivision or cluster combination, as well as identification of poorly fitting task statements. DWA wording was also revised and fine-tuned at this stage. Once this was completed, the DWA data were submitted for quality control review.

DWA Content Review and Quality Control

The DWA project team employed a round-robin approach to DWA quality control (QC). Throughout DWA development, there were at least three development teams. This allowed rotation of one team's completed DWA data through content reviews by the two other teams.

[5] The DWA project team evaluated the reading level of an activity statement using the SMOG index whose core variable is the number of words with three or more syllables. The SMOG value was calculated using an online readability calculator: http://www.readability-score.com/ (WordsCount, n.d.). See McLaughlin (1969) for a statistical description of the SMOG index.

AR - 3489 Butler's Exh. 99, p. 025 Butler 02426

After initial development was completed for a job family, the first QC team reviewed the data using procedures defined in a QC manual (see Appendix C for the Quality Control manual). If this team identified problematic data, they had the authority to revise the data without consulting the initial development team. The first QC team then reviewed their own revisions and submitted their data to a second QC team that reviewed the revised data and prepared the data for initial review by the National Center for O*NET Development. This round-robin approach allowed nearly all project team members to review DWAs and DWA-task links across the entire O*NET task database, facilitating the refinement and application of shared mental models and ensuring consistency of data and completeness of coverage.

Section IV: DWA Refinements

Once initial DWA development was complete, the DWA project team conducted several refinements and enhancements before proceeding to IWA development. The team identified DWAs that crossed job families, established multiple task-DWA linkages for compound tasks, and integrated a subset of legacy DWAs into the new DWA database. The following section describes these efforts.

Cross-Job Family DWAs

During the development process, the DWA project team observed that some identical or near-identical DWAs occurred across job families, providing an opportunity to link common activities among occupations found in different job families. This led to the development of cross-job family DWAs (see Appendix D for a presentation of Cross-Job Family DWAs).

Once the complete set of DWAs had been developed for the 22 job families, the DWAs were alphabetically sorted to identify identical and near identical DWAs. A project team member then conducted the following steps:

1. All identical DWAs were flagged.

2. Tasks linked to identical DWAs were reviewed and confirmed for cross-linking.

3. Near-identical DWAs were flagged.

4. Tasks linked to near-identical DWAs were closely reviewed to gauge the degree of overlap among tasks from different job families. If the task overlap was considered to be sufficient, the DWAs were flagged for revision.

5. The near-identical DWAs were then revised. Usually, one of the near-identical DWAs was chosen as the standard and the other DWAs were revised to duplicate the standard wording. Occasionally, all the DWAs were revised to a more general wording that fit all the linked tasks.

6. All tasks linked to the new larger, cross-family DWAs were reviewed for cluster homogeneity; the cross-family DWAs were revised as necessary.

7. Finally, confirmed revisions were entered into the DWA dataset for further development.

Multiple Linkage Identification

In an effort to capture as much activity data and produce as many DWA-task linkages as possible, tasks were evaluated to ensure that all activity data were linked to DWAs. Thus, in certain cases, tasks with multiple activities were linked to multiple DWAs. For example, the task *"Measure, cut and install tackless strips along the baseboard or wall"* could be linked to DWAs associated with: 1) Measurement, 2) Cutting materials, or 3) Material installation.

The DWA project team adjusted the development methodology for multiple linkages from the collaborative DWA development approach. As before, the work was broken up by job family: A task could be linked to as many as three DWAs, but only within a single job family. Given that DWAs were originally developed within job family, it seemed appropriate to restrict additional linkages to the original job family. Tasks with multiple activities were extracted from the larger dataset of tasks for each job family and were given to an analyst, who also had a list of all DWAs for that job family. Using the DWA list, the analyst recorded a second and, if necessary, a third DWA for each task. A first link had been established for each task during initial DWA development, based on what was determined to be the primary or most significant activity for the task. The analyst identified a second activity in the task and searched for a DWA in the reference list that adequately captured the activity. The same process was performed if the analyst identified a third activity. On occasion, the analyst determined that additional task activities would be linked to the same DWA as the primary activity, so no additional linkages were recorded.

Once the analyst completed all multiple linkages for a complete set of tasks for a job family, the file was passed on to a second analyst. This analyst reviewed all the linkages made by the first analyst. For each linkage, the second analyst could:

1. Confirm the choice of the first analyst,
2. Reject the choice of the first analyst and suggest an alternative DWA to link to, or
3. Reject the choice of the first analyst and argue for no second or third linkage

After the second analyst had completed his or her review and input, a third analyst then reviewed disagreements between the two analysts and selected the more suitable of the suggested DWA linkages. The analyst could also reject both choices, coming up with an alternative DWA linkage, or leaving the linkage cells blank. Analysts could discuss potential decisions with other analysts at any point in the process.

Butler's Exh. 99, p. 027
Butler 02428

Legacy DWA Integration

The existing ("legacy") DWAs provided an opportunity to validate the inductive development approach and fill in gaps in the new DWA database. Because the legacy DWAs were developed using a different method, comparing the new DWAs to legacy DWAs provided a measure of external validity. The DWA project team developed a method to compare the two sets of DWAs. In short, any legacy DWAs that did not have a corresponding match among the new DWAs could be considered for appropriation as new DWAs.

Legacy DWA Integration Steps:

1. The 2,164 legacy DWAs and the 2,069 new DWAs were alphabetically sorted in a single spreadsheet.

2. For each legacy DWA, the project team searched for a match among the new DWAs. 561 legacy DWAs were identified as potential mismatches.

3. The 561 potential mismatches were then collectively reviewed by the project team. Among these, a very large majority were eliminated from consideration for the following reasons:

    a. General coverage among new DWAs, despite no 1-to-1 wording match (e.g., "access media advertising services", "analyze recipes", and "design transporting processes")

    b. Too specific (e.g., "use object-oriented computer programming techniques", and "collect money from machines")

    c. Poor wording (e.g., "work as a team member", and "use densitometer")

    d. Obsolete (e.g., "type document from machine transcription")

    e. *Many were rejected for multiple reasons.*

4. This process reduced the set of mismatches from the initial 561 to 51.

5. To adhere to an inductive approach of linking each DWA to multiple tasks, any legacy DWAs identified for inclusion with the new DWAs had to link to multiple tasks and occupations. The project team searched the O*NET task database for tasks that could be linked to these 51 legacy *candidate* DWAs. Most of these candidates could not be linked to four or more tasks and three or more occupations. In other words, most of the DWAs without matches were too specific to be used with the current data set.

AR - 3492 Butler's Exh. 99, p. 028 Butler 02429

6. This search resulted in a final set of 10 additional DWAs linked to a total of 46 tasks.

7. The appropriated legacy DWAs (see Table 5) were revised to conform to the project's criteria for style and structure.

8. The appropriated DWAs were given new ID numbers, and the DWA and linkage data were integrated into the main DWA database.

Table 5. Appropriated Legacy DWAs.

DWA Statement	# of tasks	# of occs
Evaluate training programs, instructors, or materials.	5	3
Draft legislation or regulations.	3	3
Estimate demand for products or services.	2	2
Cultivate micro-organisms for study, testing, or medical preparations.	3	3
Arrange childcare or educational settings to ensure physical safety of children.	3	3
Care for patients with mental illnesses.	4	3
Transcribe spoken or written information.	4	4
Adjust tuning or functioning of musical instruments.	7	2
Assemble precision electronics or optical equipment.	11	2
Braze metal parts or components.	4	3

The appropriation of so few legacy DWAs demonstrated solid external validity for the new DWA development methodology and results. That is, the new DWAs capture nearly all legacy DWA data. In addition, the process enabled the project team to fill in those few gaps on the DWA content domain. Appendix E provides a sample listing of finalized DWA statements.

Section V: IWA Development

The next phase in the Work Activities Project was to move further up the ladder of specificity. The DWA project team developed new DWAs to replace the legacy DWAs. Achieving greater specificity and a more consistent level of specificity at this level was a major goal of the project. Broadening the degree of cross-occupational linking was also a goal of the project, and the new DWA information provided an opportunity to accomplish this activity. The development of 332 IWAs expanded cross-occupational linking even further.

IWA Results Preview

This expanded cross-occupational linking can be demonstrated by previewing the resultant IWAs developed for two occupations—*Nanotechnology Engineering Technicians* and *Semiconductor Processors*—that fall under different job families (see Table 6).

Butler's Exh. 99, p. 029
Butler 02430

Table 6. IWAs Common to 17-3029.12 *Nanotechnology Engineering Technicians* and 51-9141.00 *Semiconductor Processors.*

Nanotechnology Engineering Technicians	Semiconductor Processors
Common IWA: Inspect completed work or finished products.	
Inspect nanotechnology work products to ensure quality or adherence to specifications.	Count, sort, and weigh processed items.
Common IWA: Measure physical characteristics of materials, products, or equipment.	
Assist nanoscientists, engineers, or technologists in processing or characterizing materials according to physical or chemical properties.	Measure and weigh amounts of crystal growing materials, mix and grind materials, load materials into container, and monitor processing procedures to help identify crystal growing problems.
Measure or report toxicity of engineered nanoparticles.	Count, sort, and weigh processed items.
Produce detailed images or measurement of objects, using tools such as scanning tunneling microscopes or oscilloscopes.	Inspect materials, components, or products for surface defects and measure circuitry, using electronic test equipment, precision measuring instruments, microscope, and standard procedures.
Common IWA: Assemble equipment or components.	
Assemble components, using techniques such as interference fitting, solvent bonding, adhesive bonding, heat sealing, or ultrasonic welding.	Align photo mask pattern on photoresist layer, expose pattern to ultraviolet light, and develop pattern, using specialized equipment.
	Etch, lap, polish, or grind wafers or ingots to form circuitry and change conductive properties, using etching, lapping, polishing, or grinding equipment.
	Mount crystal ingots or wafers on blocks or plastic laminate, using special mounting devices, to facilitate their positioning in the holding fixtures of sawing, drilling, grinding or sanding equipment.
	Place semiconductor wafers in processing containers or equipment holders, using vacuum wand or tweezers.
Common IWA: Adjust equipment to ensure adequate performance.	
Calibrate nanotechnology equipment, such as weighing, testing, or production equipment.	Set, adjust, and readjust computerized or mechanical equipment controls to regulate power level, temperature, vacuum, and rotation speed of furnace, according to crystal growing specifications.
Common IWA: Maintain operational records.	
Maintain accurate record or batch-record documentation of nanoproduction.	Maintain processing, production, and inspection information and reports.

These two occupations have several—primarily technical—activities in common. The common IWA statements provide a starting point for further comparison of specific tasks, as well as knowledges, skills, abilities, and work contexts.

IWAs bridge the content distance between DWAs and GWAs and complete the hierarchical work activities framework that extends from tasks to GWAs. The IWA development process was almost functionally identical to the DWA development process: Rational clustering followed by activity statement writing. During IWA development, DWAs were clustered just as tasks were clustered, and then IWA statements were written to capture the themes of the DWA clusters. IWA development did not differ much in terms of scope of the clustering effort. A single team of four analysts worked with 2,069 DWAs as input data. DWA development teams had worked within several job families that were composed of more than 1,000 tasks.

DWA Clustering

Just as with task clustering, the goal of DWA clustering was to incrementally group similar DWAs into increasingly smaller clusters until simple and unique work activity themes emerged that would reflect each of the DWAs in the respective clusters. The overall process of DWA clustering was nearly identical to task clustering. However, there were small differences in the initial steps. There were three major steps in the task clustering process: grouping tasks by job family, the assignment of tasks to GWAs, and finally the clustering of tasks within GWAs. Because IWAs are meant to cross job family boundaries, grouping DWAs by job family was unnecessary. In addition, DWAs were not assigned to GWAs in the same way that tasks were assigned to GWAs.

DWA Clustering Step 1: GWA Assignment

The DWAs were alphabetically sorted to facilitate assignment to GWAs. Although DWAs with the same activity verb were often assigned to the same GWA, this was not always the case (e.g., *prepare* DWAs could be assigned to a number of GWA buckets, as could *maintain* or *develop*, depending on the context of the DWA statement). In addition, about 25% of activity verbs were unique. Two analysts collaborated to initially assign DWAs to one of the 41 GWA worksheets in an online spreadsheet modeled after the worksheets used during task clustering (see Figure 6).

Figure 6. Screenshot of DWA Clustering Worksheet for GWA *Thinking Creatively.*

DWA Clustering Step 2: Within-GWA Clustering

The GWA worksheets, each populated by DWAs, were then distributed equally among four analysts for initial clustering. The clustering of DWAs followed a similar set of steps as task clustering:

1. For each of the assigned worksheets, the analyst first confirmed or disconfirmed the initial DWA-GWA assignment. For a DWA statement considered to be a poor fit for a GWA, the analyst indicated a revised GWA assignment.

2. The analyst then clustered the remaining DWAs into groups reflecting similar work activity themes (see Figure 6). He or she coded similar DWAs with numerical identifiers and also described the emerging themes for these groups (using key words or complete phrases.) Once the initial coding was complete, the team member sorted the DWAs by codes/themes, resulting in initial clusters. The clusters were then refined through splitting or combining clusters and identifying additional poorly-fitting DWAs.

3. The DWA project team employed different cluster size criteria for DWA clusters than for task clusters. During task clustering, the project team employed both a hard minimum criterion of two tasks per cluster and a softer set of target ratios: Four tasks and three occupations per cluster. The project team retained the target ratios for DWA clustering but did not require DWA clusters to have at least two DWAs. An understandable byproduct of this hard minimum criterion in task

AR - 3496 Butler's Exh. 99, p. 032 Butler 02433

clustering was a number of unassigned tasks. An equivalent byproduct during DWA clustering—that is, DWAs not linked to any IWAs—would create problems for database developers and administrators integrating the DWA-IWA hierarchy into existing databases of occupational information.

In a typical relational database, linkages are stored as homogenous parent-child relationships, but these unlinked DWAs would have a GWA "grandparent" without a corresponding IWA "parent." Most existing hierarchies such as the SOC (Standard Occupational Classification Policy Committee, 2010), the North American Industry Classification System (NAICS, 2012), and the O*NET Content Model deliberately avoid this problem by making sure each child has an immediate parent. Those systems add either one-to-one parent-child relationships or residual records if necessary to create a hierarchy without gaps in the intermediate levels. Between these options, the project team chose to add one-to-one parent-child relationships (hereafter, *single-DWA IWAs*). The project team decided that introducing residual IWAs (akin to SOC "All Other" occupations) would be misleading. IWAs are not meant to be a complete taxonomy covering the spectrum of all work activities, but an "All Others" class of IWAs would give that perception, creating an additional barrier to understanding and using IWA data.

Introducing single-DWA IWAs to cover what might otherwise be "unassigned" DWAs is not without hazards. Since they reflect a single DWA, such IWAs are likely to be more specific than IWAs linked to multiple DWAs. This has the potential for diluting the value of the discrete levels of specificity in the work activity database. However, during the IWA writing phase (see below) most single-DWA IWAs were rephrased in more general language to mirror that of conventional IWAs. In addition, new and revised tasks are regularly added to the O*NET database, which provides the opportunity to develop new DWAs. These future DWAs may in turn be linked to single-DWA IWAs, thus converting them to conventional IWAs. In essence, these single-DWA IWAs serve as a placeholder to which additional information *may* be added at a later date. (See Section IX for a description of future DWA and IWA development through the addition of new tasks to the O*NET database).

4. Once team members had completed steps 1-3 for their subsets of worksheets, other team members were given the opportunity to comment on each other's clustering decisions and to make suggestions. As in the DWA development phase, this was a valuable step, as it enhanced shared mental models of clusters and DWA language.

5. Once each team member had reviewed all other team members' work, the team leader performed the administrative step of moving DWAs designated as poor fits to more appropriate GWA worksheets. This was followed by another round of independent cluster refinement and then collaborative review and refinement again.

6. Step 5 was repeated several more times until the team decided to transfer all the cluster data from the 41 separate worksheets to a single worksheet. The clusters were then reviewed according to the same content criteria used during DWA development: a) Cluster homogeneity, b) DWA-cluster fit, c) Cluster uniqueness, and d) Cluster specificity. The first three criteria were applied in an identical manner as in DWA development: DWAs needed to be clearly homogenous, each DWA needed to fit well with other DWAs and the overall cluster theme, and each cluster needed to be unique from all other clusters. DWA cluster specificity was important but there was a notable difference from task clustering. Although the project team aimed for all clusters to demonstrate an activity theme that was more specific than the GWA it fell under and more general than its component DWAs, this was not always possible given that some clusters contained a single DWA. The appropriate level of specificity for these DWA clusters was addressed in detail during IWA writing below. Problematic clusters were then refined as before, by splitting or combining clusters or removing and relocating poorly-fitting DWAs.

IWA Statement Writing

After the team reached consensus on cluster composition, the approximately 330 DWA clusters were distributed equally among the four members of the IWA development team. Each team member independently drafted IWA statements using similar criteria used for DWA statement writing. These included using a single activity verb (in the plural infinitive form), minimizing object nouns, purpose, and exemplar clauses, and aiming for an 8th grade reading level (see Appendix B for IWA Writing Standards).

DWA clusters containing a single DWA presented a special case for IWA writing. As previously mentioned, DWA clusters of any size were permitted (although not preferred) to maintain the integrity of the hierarchical database. This resulted in 19 DWA clusters with a single DWA. The hierarchical framework for the Work Activities Project generally dictates that IWAs be more generally worded than DWAs. Faced with DWA clusters with only one DWA, the team successfully rephrased some DWA wording to more general language. For example, the DWA, *Secure watercraft to docks, wharves, or other vessels* became the IWA *Tend watercraft*. However, some IWAs retained the wording of the single DWAs linked to those IWAs. For example, the DWA *Train animals* could not be phrased both more generally and meaningfully and thus the IWA carries identical wording.

After IWAs were independently drafted, team members collaboratively reviewed and revised the draft IWA statements. Again, multiple rounds of comment and revision were necessary to achieve consensus. When complete, the team performed a final content review based on the standard content criteria: a) Cluster homogeneity, b) DWA-IWA fit, c) IWA uniqueness, and d) IWA specificity. At this stage, each DWA was evaluated for how well it fit not only with the cluster of other DWAs but also the concept expressed in the wording of the IWA statement. Likewise, IWA statements were evaluated for uniqueness. Occasionally, two or more IWA statements would overlap conceptually while their corresponding DWA clusters remained

Butler's Exh. 99, p. 034
Butler 02435

distinct; the distinction among clusters was not always so easily described. In these cases, the development team either identified more distinctive wording or combined the respective clusters. Finally, IWAs statements were reviewed to ensure that they were more specific than GWAs but more general than DWAs. As described above, single-DWA IWA statements presented a special challenge for achieving the appropriate level of specificity. A small number of these IWA statements could not be rephrased to achieve IWA-level specificity. Throughout this content review, the team continued to split or combine clusters and identify DWAs and tasks for relocation or removal to meet the content criteria.

Final Content Review and Quality Control

Once the IWA review was complete, all available data were compiled into a master spreadsheet for a final review. The spreadsheet was formatted in a hierarchical fashion (tasks nested within DWAs nested within IWAs) to enable reviewers to make a holistic review of the data. This included the highlighting of 2nd and 3rd task-DWA linkages. Although the multiple linkages had been reviewed before, the hierarchical formatting provided the first opportunity to review task clusters complete with 1st, 2nd, and 3rd linkages (previous spreadsheet formatting had not allowed for this). Furthermore, as described in the previous section, changes continued to be made on DWAs and task clusters even at the IWA stage in the process. The 2nd and 3rd linkages needed to be re-inspected to evaluate the impact of these recent changes.

Two team members reviewed each final task cluster and each final DWA cluster. There were two emphases for this content review: 1) Ensuring that 2nd and 3rd linkages fit with the primary linkages and also maintained cluster homogeneity, and 2) Ensuring that *task-IWA* linkages were appropriate. Earlier content review efforts evaluated task-DWA links and DWA-IWA links, but not task-IWA links to this degree. Simply put, a task might perfectly fit a DWA but could poorly fit an IWA. At this stage, any task determined to be a poor fit with either a DWA or an IWA was labeled as unassigned. These tasks joined those tasks that had been identified earlier as too idiosyncratic for linking to a DWA (see Results section for the number of unassigned tasks).

To complete quality control, missing or duplicate tasks were identified, and DWA and IWA coding and grammatical errors were corrected.

Once quality control was complete, the DWA project team applied a final numerical identification system to the DWA and IWA data. To reflect the parent-child relationships within the data, a hierarchical system was employed, leveraging the numbering of GWAs in the O*NET Content Model. Each IWA identifier starts with the 9-character Content Model ID of the parent GWA, followed by a period, the letter "I," and a two-digit incrementing number that identifies the IWA within that GWA. DWA identifiers start with their parent IWA identifier, followed by a period, the letter "D," and a two-digit incrementing number.

As an example, the IWA statement, *Administer diagnostic tests to assess patient health*, carries the ID 4.A.1.b.2.I01. This identifies the GWA *Inspecting Equipment, Structures, or Material* (4.A.1.b.2) and the IWA as 01. One of the child DWAs is 4.A.1.b.2.I01.D03, *Test patient vision*

(03). The IWAs are randomly ordered within each GWA, and likewise, the DWAs are randomly ordered within each IWA. Random ordering rather than conceptual ordering allows for future IWA and DWA additions without disrupting the numbering system.

Section VI: Results

The Work Activities Project produced two new sets of activity statements that are successfully integrated into the existing O*NET job descriptor framework. The DWA project team began with the full database of 19,450 tasks in the O*NET 18.0 Database, spread across 974 occupations. Using the rational clustering method, analysts generated 2,069 new DWA statements (see Appendix E for a sample listing of DWA statements). The project team then rationally clustered the DWA statements to generate 332 IWA statements (see Appendix F for a sample listing of IWA statements).

The DWAs demonstrated reasonable cross-occupational commonality within job families. There were 10.98 task linkages per DWA, and 8.29 occupation linkages per DWA (see Table 7). There was some degree of variation in these statistics across job families (see Appendix G). Notably, the job family *Education, Training, and Library* skews high because of a very high number of identical or nearly identical tasks across many educational occupations. Otherwise, larger job families generally had higher task per DWA and occupation per DWA ratios.

To capture as much activity data from tasks as possible, the DWA project team linked some tasks to multiple DWAs. As can be seen in Table 7, primary ("1st") linkages accounted for most (81%) of the 22,714 task-DWA linkages. Six percent of tasks were not assigned to a DWA. This was in line with expectations. A modest portion of tasks are idiosyncratic and specific to a particular occupation. Others shared some commonality with other tasks, but led to weak, overly general DWA statements that were later dissolved.

Table 7. DWA Development Results

Number of occupations	974
Number of tasks	19,450
Number of DWAs	2,069
Task linkages per DWA	10.98
Occupations per DWA	8.29
No. of task-DWA linkages	22,714
Number of 1st linkages	18,291
Number of 2nd linkages	3,851
Number of 3rd linkages	572
Number of unassigned tasks	1,159

In contrast to the DWA results, IWAs naturally produced much larger task and occupation ratios (see Table 8). In effect, the 6.23 DWA-per-IWA ratio served as a multiplier. These data

demonstrate support for the goal of IWA development in making linkages among occupations. Moreover, each IWA was linked to a median of three job families (15 IWAs were linked to ten or more job families). Thus, IWA development generally achieved broad cross-occupational linkages. However, some activities are specific to job families: 53 of 332 IWAs linked to only one job family. Appendices H, I, and J illustrate different data presentations of a subset of work activities, organized by either GWA or occupation. Appendix H presents the GWA-IWA-DWA-Task linkages for GWA 4.A.4.a.7: Resolving Conflicts and Negotiating with Others. Appendix I provides the same information, presented in a hierarchical fashion. Appendix J shows a sample list of the work activities for a single occupation: Printing Press Operators.

Table 8. IWA Development Results

Number of IWAs	332
Tasks per IWA	66.36
Occupations per IWA	43.86
DWAs per IWA	6.23
Median job families per IWA	3

Finally, the DWA project team established and generally met a moderate reading level standard. The DWAs and IWAs were at an average 8th grade reading level, although three of the more technical job families produced DWAs with reading levels at the 10th grade or above. For a tabled presentation of the detailed statistics of the results, see Appendix K. Note that information about Green DWA Development can be found in Appendix L.

Section VII: Discussion

The revamped work activities database improved the DWA database on four characteristics: 1) Relevance, 2) Completeness, 3) Formatting, and 4) Specificity.

1. *Relevance.* The new DWA database is more relevant because it reflects the new and revised tasks present in an updated version of the O*NET task database. In particular, the most recent O*NET versions include tasks linked to new and emerging occupations and green occupations. The new and emerging occupations have arisen in high growth industries such as healthcare and in technical fields like geospatial technology, biotechnology, and nanotechnology. Table 9 presents some examples of new DWAs that reflect the tasks written for these new and emerging occupations. The DWA project team further enhanced green relevance by developing green DWAs through a parallel development process (see Appendix L).

Butler's Exh. 99, p. 037
Butler 02438

Table 9. DWAs Reflecting Updated Task Content

Research human performance or health factors related to engineering or design activities.
Conduct climatological research.
Identify new applications for existing technologies.
Conduct validation tests of equipment or processes.
Calculate geographic positions from survey data.
Conduct financial or regulatory audits.
Analyze test or validation data.
Analyze logistics processes.
Analyze website or related online data to track trends or usage.
Develop emergency response plans or procedures.
Develop treatment plans that use non-medical therapies.
Develop business or financial information systems.
Establish nursing policies or standards.
Operate precision equipment to control microscopic or nanoscopic processes.
Maintain regulatory or compliance documentation.
Collaborate with healthcare professionals to plan or provide treatment.
Assist engineers or scientists with research.
Communicate health and wellness information to the public.
Administer blood or other fluids intravenously.
Treat patients using alternative medical procedures.

2. *Completeness.* The new framework is more complete for two reasons. First, the DWAs (and by extension, the IWAs) were developed from current O*NET tasks, which are among the most frequently updated data domains in the O*NET Content Model. Second, the two-level framework provides substantially more data that is both more specific and more general. It more systematically covers much of the same work activity content of the previously developed DWAs, and goes beyond. The new framework is also more fully integrated with related data in the O*NET Content Model. The old DWAs were linked only to GWAs and not to tasks. The new framework links tasks to DWAs to IWAs to GWAs. This larger framework should better facilitate occupational exploration through multiple entry points.

3. *Formatting.* The Work Activities Project greatly improved formatting. All DWAs and IWAs are now single activity statements. Clear, specific, active verbs are now universal. Verbs like *use*, *follow*, and *recognize* were avoided in favor of verbs like *operate, investigate*, and *measure*.

4. *Specificity.* The new framework produced DWAs that are consistently more specific. The vagueness found in many of the very general existing DWAs is no longer a problem.

Butler's Exh. 99, p. 038
Butler 02439

Section VIII: Application of Revised DWA Data

The new work activities framework expands the potential applications of work activities data in two ways. First, as previously stated, the improved relevance of the revised DWAs improves access to information about high growth and emerging occupations. Second, the development of IWAs and the integration of work activity data (linking of tasks to DWAs to IWAs to GWAs) improve the overall applications of work activities data.

When DWAs were originally developed for use with O*NET, there were a number of purposes cited for their development, such as career exploration, resume-building, skills gap analysis, work requirements profiling, and unification of industry sector skill standards. The inclusion of IWAs and the integrated framework more effectively achieves these goals. For example, the integrated work activity database enables multiple points of entry in career exploration. This is especially important for displaced workers to analyze the transferability of their skill sets, as well as for resume-building.

The more detailed structure of cross-occupational correspondence also benefits employers who, like job seekers, can use the new DWAs and IWAs to analyze skill gaps and use the profile of work requirements to write job orders or position descriptions. Finally, by standardizing work activity style and structure, there is a more defined common language of cross-occupational activity that can serve as a basis for unifying industry skills.

Thus, the Work Activities Project has addressed a number of established needs. At the same time, it addressed some newer issues such as the need to represent the greening of the workforce and the need to identify ways to help in the job placement of veterans returning from active military duty. It also occurs in the context of an increasingly unstable workplace in which re-skilling can be frequent and in which various industries often change the numbers and skills of workers they need. These DWAs can address new skills and technologies that have not previously been in great demand in the workplace but for which training and skill standards are now needed.

Section IX: Future Development and Enhancements

This report asserts that occupational data need to be dynamic to encompass and adjust to dynamic conditions in industries and economies. Besides being an exhaustive repository of occupational information, the O*NET database is intended to be dynamic via regular updating and revisions. The National Center for O*NET Development conducts multiple programs to refine occupational data and to reflect the current and emerging world of work. Job incumbents and occupational experts are regularly surveyed regarding the importance and relevance of, and the frequency with which they perform the tasks listed for an O*NET-SOC occupational title. The results of these surveys determine whether the respective tasks are retained, revised, or removed from new versions of the O*NET Database.

Butler's Exh. 99, p. 039
Butler 02440

In addition, the National Center for O*NET Development continues extensive research into the occupational implications of technological changes in a number of in-demand industry clusters, such as healthcare, green, and biotechnology. These changes will continue to affect the database of tasks that is the foundation of work activity statements. Naturally, changes to tasks may have an impact on both the DWA and IWA data. There are several potential changes that could affect these data:

1. Outdated tasks: Tasks considered by respondents to be low on importance or relevance=are removed from the database.

2. Tasks may undergo significant conceptual revisions, or compound tasks may be split into two or more new tasks.

3. New tasks are added to reflect changing technology, work processes, or contexts.

Task removal or conceptual revision are the primary reasons that the four-task criterion was established—so that DWAs do not need to be removed as a result of a task removal.

However, there may still be task changes that require a revision in DWA and IWA data. The National Center for O*NET Development will establish a standard process for cataloguing the task changes as they relate to work activities data, and for making changes—deletions, revisions, or additions--in DWA and IWA data. The process will follow these general steps:

1. After the incumbent and occupation expert surveys are completed and task change decisions have been made (but prior to publication of a new version of the O*NET database), the Work Activities Project team will review the catalogue of task changes (there are approximately 150 task changes with each new version, of which 40-60 are substantive and could have an impact on work activities data).

2. The project team will identify DWAs linked to removed or revised tasks and collaboratively determine if the changes require the removal or revision of a DWA and in some cases an IWA (or no change at all). If a revised task no longer fits with a DWA, the list of DWA statements will be reviewed to determine if the task can be linked to a different DWA. If it cannot be, it will be tentatively added to the pool of unassigned tasks.

3. The task additions will be reviewed to determine if they can be linked to existing DWAs. If they cannot be, they will likewise be tentatively added to the pool of unassigned tasks.

4. The current pool of unassigned tasks will be reviewed to determine if the task additions would help support a new DWA (multiple new task additions could even support a new DWA on their own). For example, the pool of unassigned tasks may contain two related healthcare tasks that did not have critical mass to form a DWA. One or more new

Butler's Exh. 99, p. 040
Butler 02441

healthcare tasks, if conceptually similar, could provide the critical mass necessary for DWA status.

5. Before any new DWAs are added to the database, they will be reviewed against the standard content criteria.

6. If the new DWAs meet these criteria, the project team searches for an IWA to which to link the DWA. If no IWA encompasses the activity theme in the DWA, the DWA will be evaluated to determine if it is acceptable as a single-DWA IWA. If the activity theme is not considered important or valuable, the task cluster will be disaggregated and all tasks will be entered into the pool of unassigned tasks.

7. If the DWA is linked to an IWA or considered as a single-DWA IWA, the DWA will be given a unique ID, and corresponding task and linkage data will be recorded in the work activity and O*NET database.

Appendix B. DWA and IWA Writing Standards

The writing standards for Detailed Work Activity (DWA) and Intermediate Work Activity (IWA) statements are very similar: Simple, declarative statements that make use of activity verbs as the primary method to distinguish among activity statements. Object nouns are important modifiers in both types of statements while adjectives and purpose statements should be used conservatively.

However, because the two types of work activity statements operate at different levels of specificity, adjectives and purpose statements are more necessary for writing DWAs. This appendix presents the writing standards for DWAs followed by those for IWAs.

Detailed Work Activity Statement Standards

Primary Characteristics

A DWA statement will:

1. Describe an activity performed by incumbents in multiple occupations within a job family.

2. Be less specific than an individual task for an individual occupation, but will still be related to the specific types of occupations in the job family being addressed (e.g., medical job families will have DWAs that are medical in nature).

3. Be very clear about the activity the incumbent is performing. You should be able to visualize what is done. "Lift patients" is clear; "Respond to emergencies" is not.

4. Apply to more than one occupation in a job family, but not necessarily (in fact, not generally) to all of them.

DWA Components

Verbs

Use one major activity verb per DWA. Start the DWA with this verb.

Verb form should be present tense, plural to imply "incumbents" (e.g. "prepare," "repair")

AR - 3509 Butler's Exh. 99, p. 045 Butler 02446

Nouns

Use as few nouns as possible while still being specific. For example, it might be necessary to refer to clients and customers (rather than just people). If there are occasional cases where the multiple nouns would require different verbs, this likely requires further cluster subdivision.

Use nouns that are specific to the job family being addressed, but neither too specific nor too general. "Equipment" is too general, "laser surgery robots" is probably too precise; "medical treatment equipment" may be just right. Choose nouns that are cross-occupational but still make clear the kind of work performed in the given job family. A noun should not refer to something used in only one specific occupation within the job family. When possible, use a general category noun rather than a list of related objects.

Adjectives

Adjectives will be needed to modify nouns when occupational clarity is needed. Use as few as possible to obtain the degree of precision needed to represent the tasks and occupations within the job family. Again, aim for too much specificity, rather than too little; it's easier to remove detail later than to add it.

Purpose Statements

These are "to" or "for" phrases. Repair medical equipment *to ensure proper functioning*. This is the *why* of the activity statement. Sometimes it will be implied, as in "Develop program goals or plans."

Purpose statements can be essential qualifiers and help make DWAs applicable to specific job families. Incumbents in different job families or occupations may actually perform the same activities, but the purposes will differ. Different purposes may imply different knowledges and/or skills so that the purpose, itself, becomes relevant to the end-user. For example, there's an essential difference between "Tighten screws to secure brackets" and "Tighten screws to secure titanium knee joints." Both use screwdrivers, but the training and knowledge required for one is far greater than the other.

However, there are cases where the DWA can be re-written to retain the qualifier. "Analyze legal or regulatory changes to determine impact" can be re-written as "Analyze impact of legal or regulatory changes."

Intermediate Work Activity Statement Standards

Primary Characteristics

An IWA statement will:

1. Describe an activity performed by incumbents in multiple occupations. These occupations may be within a single job family but are commonly in multiple job families.

2. Usually be less specific than a DWA statement but more specific than a generalized work activity (GWA) descriptor. In other words, an IWA should be more generally-worded than the DWAs that are linked to it, and more specific than the GWA that it links to. In order to accommodate single-DWA IWAs (i.e., IWAs composed of a single DWA), some IWAs may be at the same level of specificity as the child DWA. However, an IWA cannot be more specific than a DWA.

3. Be very clear about the activity the incumbent is performing. You should be able to visualize what is done. "Design structures or facilities" is clear; "Apply engineering principles" is not.

IWA components:

Verbs

Use one major activity verb per IWA. Start the IWA with this verb.

Verb form should be present tense, plural to imply "incumbents" (e.g. "prepare," "repair")

Nouns

Although activity verbs are the primary means of distinguishing among IWAs, object nouns are important qualifiers for IWA statements with common verbs. For example, cleaning tools and work areas is a distinct activity from cleaning work pieces or finished products. However, use as few nouns as possible; it is preferable to use a general category noun rather than a list of multiple objects.

Adjectives

Adjectives should be used less for IWA statements than for DWA statements. Adjectives are sometimes necessary to make distinctions within job families. More broad IWA statements have a smaller need for modifiers. However, adjectives may be useful to distinguish otherwise similar or overlapping IWA statements, and to achieve maximum clarity. Nevertheless, use as few as possible to obtain the necessary degree of precision.

AR - 3511 Butler's Exh. 99, p. 047 Butler 02448

Purpose Statements

Again, the purpose almost always begins with a "to" or a "for," such as "Interview people *to obtain information*." Purpose statements should be used even less at the IWA level than should adjectives. Whereas adjectives are useful for distinguishing among work activity statements *and* for improving clarity of meaning, purpose statements are primarily a means to distinguish work activity statements. Because a goal of IWA development is to link occupations across job families, the greater distinction that purpose statements provide is not as necessary. Any prospective purpose statements should be evaluated closely to ensure that they are providing the necessary distinction among IWAs.

Appendix C. Content Review and Quality Control Process

Step 1: DWA Homogeneity Review (Required)

- Examine each cluster to determine its homogeneity. Tasks in each cluster should involve similar activities, levels of activity and purposes.
- Develop clusters that are very homogenous, as it will be easier to collapse clusters at the conclusion of the project if needed.
- Indicate High, Medium, or Low homogeneity for each cluster.
    - For High clusters, no further action is needed.
    - To address problematic clusters - those with either medium or low levels of homogeneity - you should:
        - Examine the DWA statements to ensure they are inclusive of all of the tasks in the cluster. If this is not the case, a task or set of tasks can be removed or the DWA can be revised to be inclusive. "Peripheral" or "Supplemental" tasks can be easily removed from clusters. Keep "Core" tasks within a cluster, when possible.
        - When a task does not fit well in terms of cluster homogeneity, conduct searches to find similar tasks or more appropriate DWAs elsewhere, particularly for tasks that are "Core" or "Green."
    - For clusters rated as Medium or Low, examine the tasks to determine if the homogeneity can be increased by the removal of a task or a set of tasks, or by splitting the cluster into smaller subclusters of tasks. If so, note suggested changes. Clusters with medium homogeneity will be retained within the final product, but efforts should be made to improve their homogeneity. If not, these Low homogeneity clusters will be reviewed again at the conclusion of the QC process. Clusters that demonstrate Low homogeneity and cannot be fixed will not be retained.

Step 2: Edit DWA Statements (Required)

- Check spelling, punctuation, and style of DWA statements, and make revisions as necessary.
    - Review statements for proper structure (verb followed by noun) or (verb followed by noun and purpose).
    - Verbs should be in the infinitive form.
    - Nouns should be in the plural form.
    - Check for verb-noun agreement.
    - Check for other grammatical errors.
    - Statements end in a period.
    - Statements start with a capitalized verb.
    - No characters such as "/" or "–" in the statements.
    - Although multiple objects are permitted, multiple verbs are not.
    - Use "or" rather than "and" when multiple objects are used.

AR - 3513 Butler's Exh. 99, p. 049 Butler 02450

- DWA statements should not contain exemplar clauses (e.g., "such as..." or "including...").
- Check and record the reading level of each DWA statement using the SMOG index. Consider alternate word choices to keep DWA reading level at or below the 8th grade level.

Step 3: DWA Uniqueness and Specificity Review (Required)

- DWA Uniqueness
  - Examine all DWA statements to ensure they are distinct from other DWA statements.
  - Where there are similarities, you may choose to:
    - Consider rewriting DWA statements to make them more distinct in cases where the tasks are significantly different between the clusters.
    - Where the tasks are not significantly different, consider combining the clusters into one, represented by a single DWA statement.
- DWA Specificity
  - Favor specificity over generality in composing a DWA statement.
  - Review DWA statements to ensure that they are more specific than the GWAs to which they are linked, and more general than the tasks they represent. Note potential problems.
  - Verify that the specificity "gap" between DWAs and GWAs leaves room for IWAs. Indicate where problems are suspected.

Step 4: Outlier, a Green Task and Multiple Link Reviews (Required)

- Examine outlier tasks to determine whether they can be placed into a cluster without affecting that cluster's quality. It is more important for core tasks to be placed in clusters than it is for non-core tasks. However, do not force any task into a cluster. Outliers are acceptable when there is not another alternative.
- Examine green tasks by sorting them into independent groups and evaluating whether they can be used as part of independent green clusters in addition to the standard cluster solution.
- If tasks have been identified as being linked with multiple DWAs, identify each link to ensure that it is appropriate for that task.

Step 5: Basic File Review (Required)

- Check for missing tasks. All tasks in the original file should be present in the final file.
- Count the total number of clusters and calculate average number of tasks per cluster. There should be at least four tasks per cluster; less stringent rules may be applied to green clusters.
- Count the number of occupations per cluster, and calculate the average number of occupations per cluster. There should be at least three occupations per cluster; fewer occupations may be acceptable for green clusters.
- Sort the file by task and highlight duplicates. Ensure that no duplicate tasks are assigned to different clusters.
- Ensure there is a final DWA for each cluster.

CASE NO.: 2013-TNE-1

In the Matter of:

ADMINISTRATOR, WAGE AND HOUR DIVISION,
Prosecuting Party

v.

WADE SHOWS, INC.,
Employer

ORDER GRANTING IN PART AND DENYING IN PART RESPONDENT'S MOTION FOR SUMMARY JUDGMENT AND GRANTING IN PART AND DENYING IN PART ADMINISTRATOR'S MOTION FOR SUMMARY JUDGMENT

I. Procedural History

On September 26, 2012, Wage and Hour Division issued a report under the H-2B provisions of the Immigration and Nationality Act, ("INA"), 8 U.S.C. § 1101 (a)(15)(H)(ii)(b), as amended, and the implementing regulations at 20 C.F.R. § 655.700 *et seq.*, following its investigation of Respondent. The report cited Respondent with the following violations: (1) Respondent willfully misrepresented a material fact on its Application, ETA Form 9142, regarding the job offer – number of hours of work and work schedule; (2) Respondent willfully misrepresented a material fact on the Application, ETA Form 9142, Attestation No. 4 regarding terms and working conditions; (3) Respondent substantially failed to meet a condition of the Application, ETA Form 9142, Attestation No. 5 when it failed to pay the offered wage that equals or exceeds the highest of the prevailing wage, the applicable Federal, state, or local minimum wage; and (4) Respondent substantially failed to meet a condition on the Application, ETA Form 9142, Attestation No. 12, because it placed H-2B workers outside the certified area of intended employment. Wage and Hour Division assessed a $4,500 penalty for Violation 1, a $4,500 penalty for Violation 2, a $10,000 penalty for Violation 3, and a $4,500 penalty for Violation 4, and sought back wages. Respondent thereafter requested a hearing and submitted a lengthy brief setting forth its position which I consider part of the "pleadings." I was assigned the case on October 23, 2012. A hearing was scheduled for Detroit, Michigan set to begin on May 14, 2013.

On April 25, 2013, Respondent filed a motion arguing summary judgment should be granted because Respondent did not violate the H-2B provision of the Immigration and Nationality Act, 8 U.S.C. § 1101(a)(15)(H)(ii)(b). Specifically, Respondent argues that (i) it did not act willfully because there are no Regulations defining "job offer," (ii) it did not offer

Butler's Exh. 100, p. 001

working terms and conditions to U.S. workers that were less favorable than those offered to H-2B workers, (iii) that any back wage calculations by the Administrator falsely assume that the Fair Labor Standards Act ("FLSA"), 29 U.S.C. § 201, *et seq.* applies here, (iv) Respondent cannot be cited for not listing working locations that were unanticipated at the time of petitioning, and (v) the Department of Labor lacks rule making authority for its 2008 Regulations.

On May 8, 2013, the Administrator filed a Response in Opposition to Respondent's Motion for Summary Judgment. The Administrator argues that (i) the Regulations required Respondent to accurately describe the hours of work and the work schedule in its Temporary Employment Certification ("TEC"); (ii) Respondent offered working terms and conditions to U.S. workers that were less favorable than those offered to H-2B workers; (iii) any back wage calculations do not rely on the application of the FLSA to Respondent; (iv) Respondent was prohibited from placing H-2B workers outside the area of intended employment; (v) the Department of Labor has rule making authority for its 2008 Regulations; and (vi) this Court lacks authority to rule on that issue.

The Administrator also filed a Cross Motion for Summary Decision on May 8, 2013 arguing Respondent (i) willfully misrepresented the number of hours of work and work schedule in the job offer on the TEC; (ii) Respondent willfully misrepresented Attestation No. 4 on the TEC by offering terms and conditions to U.S. workers that were less favorable than those offered to H-2B workers; (iii) Respondent substantially failed to meet Attestation No. 12 on the TEC by placing H-2B workers outside the area of intended employment; and (iv) the civil money penalties assessed are appropriate.

Following two lengthy conference calls on May 9, 2013 that established there was no genuine issue of material fact as to the salient legal issues, on May 10, 2013, I cancelled the hearing and ordered the parties to submit Stipulations and an Excel document calculating the lost wages for every effected employee by June 7, 2013. In addition, I provided Respondent with the opportunity to respond to the Administrator's cross-motion for summary judgment and brief the FLSA issues, and provided Administrator with the opportunity to respond to any new legal arguments made by Respondent and brief the FLSA issues as well. What followed was a protracted series of extensions.

On March 14, 2014, I ordered a seventh extension to allow additional time for the parties to submit Stipulations and the lost wages spreadsheet. On April 14, I granted a joint motion to bifurcate the order to submit Stipulations and the back wage calculations given that the latter would be impacted by a ruling on the merits of the case. I extended the order to submit Stipulations twice more, to July 2, 2014. Shortly thereafter, I held a conference call with the parties to discuss my order to submit Stipulations and appointed a settlement judge on July 11, 2014 to assist the parties in the development of the evidence. On March 24, 2015, ALJ Swank issued a Notice of Conclusion of Settlement Judge Proceeding noting that he had been unable to assist the parties and ending his participation.

Given that the Settlement Judge Proceeding was unsuccessful, I ordered, on March 24, 2015, the parties to submit stipulations, if any, by close of business March 31, 2015. In my

AR - 3528 Butler's Exh. 100, p. 002 Butler 02465

Order, I noted that in the event that the parties are unable to submit joint stipulations, that I would resolve the cross motions for summary judgment based upon the evidence and pleadings initially submitted when those motions were filed. I further noted that this court interprets the recent stay issued in *Perez v. Perez* to permit enforcement of the 2008 regulations until and including at least April 15, 2015 (if not later), thereby resolving the outstanding legal issue with respect to rulemaking authority. *See Perez v. Perez*, Case No. 3:14cv682 at *3 (N.D. Fla., March 4, 2015).

The parties were unable to provide the court with joint stipulations. Accordingly, I will resolve the cross motions for summary judgment based upon the evidence and pleadings initially submitted when those motions were filed pursuant to the Order issued on March 24, 2015.[1]

II. Law

This court interprets the recent stay issued in *Perez v. Perez* to permit enforcement of the 2008 regulations until and including at least April 15, 2015, if not later. *See Perez v. Perez*, Case No. 3:14cv682 at *3 (N.D. Fla., March 4, 2015).

Section (H)(ii)(B) of the INA provides:

> (H) an alien . . . (ii) . . .(b) having a residence in a foreign country which he has no intention of abandoning who is coming temporarily to the United States to perform other temporary service or labor if unemployed persons capable of performing such service or labor cannot be found in this country. . . .

8 U.S.C. § 1101(a)(15)(H)(ii)(b). The Code of Federal Regulations gives Wage and Hour the power to investigate and

> determine whether an employer has-
> (a) Filed a petition with ETA that willfully misrepresents a material fact.
> (b) Substantially failed to meet any of the conditions of the labor certification application attested to, as listed in § 655.22, or any of the conditions of the DHS Form I-129. Petition for a Nonimmigrant Worker for an H-2B worker in 8 CFR 214.2(h).

20 C.F.R. § 655.60. A "willful failure" is a "knowing failure or a reckless disregard with respect to whether the conduct was contrary to sec. 214(c) of the INA, or this subpart. See *McLaughlin* v. *Richland Shoe Co.*, 486 U.S. 128 (1988); see also *Trans World Airlines* v. *Thurston*, 469 U.S. 111 (1985)." § 655.65(e) (errors in original). A "substantial failure" means "willful failure that constitutes a significant deviation from

[1] In response to my Order for Submission of Joint Stipulations, the parties resubmitted evidence that was initially submitted several years ago, submitted in conjunction with their submission of cross motions for summary judgment. In addition, Respondent has submitted new evidence. As explained in the Order, parties were to submit joint stipulations, if any. Otherwise, I would decide the case on the evidence and pleadings initially submitted with the cross motions for summary judgment. Accordingly, new evidence submitted by the parties will not be considered.

Butler's Exh. 100, p. 003

AR - 3529

Butler 02466

the terms and conditions of the labor condition application or the DHS Form I-129, Petition for a Nonimmigrant Worker for an H-2B worker or successor form." § 655.65(d).

Standard for Summary Judgment

Summary judgment may be granted, "for either party if the pleadings, affidavits, material obtained by discovery or otherwise, or matters officially noticed show that there is no genuine issue as to any material fact and that a party is entitled to summary decision." 29 C.F.R. § 18.40(d). "The burden is on the moving party 'to demonstrate the absence of any material factual issue genuinely in dispute." *Elias v. Celadon Trucking Servs., Inc.*, ARB No. 12-0132 (ARB Nov. 21, 2012) (internal citations and quotations omitted). A material fact is one that "might affect the outcome of the suit under the governing law." *Anderson v. Liberty Lobby Inc.*, 477 U.S. 242, 248 (1986). Additionally, "on summary judgment the inferences to be drawn from the underlying facts contained in such materials must be viewed in the light most favorable to the party opposing the motion." *United States v. Diebold, Inc.*, 369 U.S. 654, 655 (1962). However, "a party opposing the motion may not rest upon the mere allegations or denials of such pleading." 29 C.F.R. § 18.40(c). Rather, "such response must set forth specific facts showing that there is a genuine issue of fact for the hearing." *Id.* "If the moving party meets the initial burden of showing no genuine issue of material fact, the burden shifts to the non-moving party to produce evidence showing the existence of a genuine issue for trial." *Hammond v. Citrix Sys. Inc.*, ALJ No. 2008-SOX-0037 (ALJ June 11, 2008) (citing *Reeves v. Sanderson Plumbing Products, Inc.*, 530 U.S. 133, 150 (2000); *Matsushita Elec. Indus. Co., Ltd. v. Zenith Radio Corp.*, 475 U.S. 574, 587 (1986)).

No genuine issues of material fact remain in this case; thus, the outcome turns on the application of law.

III. Discussion

Violation 1 - Job Offer

Respondent argues that it could not have willfully misrepresented a material fact in the job offer on Form 9142, because the Department of Labor has never clarified how a FLSA-exempt employer should describe a job offer. Resp't Am. Mot. Summ. J. 2. Respondent asked a number of rhetorical questions in its motion so as to explain its confusion.[2] The Administrator responds that Respondent is covered by the FLSA, but it is exempt from the FLSA's minimum wage and maximum hour (overtime) requirements. Admin. Resp. 13. Further, the Administrator argues that while Respondent claims that it is next to impossible for a traveling carnival to accurately complete the section of the TEC calling for the number of hours of work and work

[2] Respondent asked:

> When the work schedule varies wildly from one week to the next, what is 'required,' and by whom is it required? What are 'basic' and 'overtime' hours of 'required' work, and what do these terms mean when the employer is FLSA exempt? When is overtime 'applicable' for an employer who is FLSA exempt?

Resp't Am. Mot. Summ. J. 4.

AR - 3530 Butler's Exh. 100, p. 004 Butler 02467

schedule, it is clear Respondent was able to accurately state the expected hours of work in the 2010 employment contracts – "A typical week would involve approximately 40 to 60 hours in set-up, tear down and operation of rides/equipment . . . Hours worked are expected to be: 40 to 60 per week." *Id.* at 14. Additionally, the Administrator notes that it is clear that Respondent's H-2B workers actually worked between 31.5 and 67 hours per week during the covered period and that a 1:00 p.m. to 11:00 p.m. shift with a one-hour break was atypical. *Id.*

The Administrator filed a cross-motion for summary judgment raising the same arguments that she raised in her response, noting that Frank Zaitshik has owned Wade Shows since 1983 and has hired H-2B workers as ride attendants since at least 2007; thus, Respondent knew that its H-2B workers would be expected to work 40 to 60 hours per week, as it explicitly stated so in the employment contracts. Admin. Cross-Mot. Summ. J. 15. Further, the average hours worked per week was 47.41; the median hours worked per week was 46. *Id.* Respondent was additionally familiar with its own seasonal work pattern. *Id.* The Administrator further provided that Respondent willfully misrepresented the work schedule on the TEC – which described it as "Varies depending on event, but typically 1:00 PM START TIME 11:00 PM END TIME, 1 HOUR MEAL BREAK" – because, of the thirty-six carnival shows Respondent staged during the covered period, only five realized a start time of 1:00 p.m. and an end time of 11:00 p.m. *Id.* at 16.

On its Form 9142, under "number of hours of work per week," Respondent recorded 40 basic hours and 0 hours of overtime. Additionally, on the same Form, Respondent recorded that the "hourly work schedule" "varies depending upon event," but typically would be 1:00 p.m. to 11:00 p.m. with a 1 hour meal break." The pleadings and evidence demonstrate that Respondent willfully misrepresented the number of hours of work in its ETA Form 9142 by reporting only 40 basic hours and 0 overtime hours, because in its employment contracts that same year, Respondent provided that employees would work approximately 40 to 60 hours per week. However, the pleadings and evidence demonstrate that Respondent did not willfully misrepresent its work schedule, because Respondent qualified its listed work schedule by saying it "varies depending upon event." If anything, the Administrator's evidence corroborates this fact, demonstrating the gross variability in the work schedule on Wednesdays alone. Thus, the Administrator has not shown a genuine issue of material fact.

Violation 2 - Terms and Working Conditions

Respondent asserts that it did not offer working terms and conditions to U.S. workers that were less favorable than those offered to H-2B workers. Resp't Am. Mot. Summ. J. 4. Respondent opines that the Administrator wrongly assumes that Respondent was required to place all material terms and conditions in its recruitment advertising; however, it is clear that there is no such obligation for employers, especially an FLSA-exempt employer like itself. *Id.* at 5. Respondent asserts the advertising requirements of § 655.17 are satisfied even if the advertisement omits a substantive term so long as: (1) the advertisement meets the minimum requirements under § 655.17(a-h); (2) the advertisement does not contradict the approved job order; and (3) Americans are not discriminated against. Respondent further argues there is a continuum of time within which to "present" the "terms and working conditions of the job opportunity" that may extend well past the initial advertisement, as long as it results in *de facto*

Butler's Exh. 100, p. 005

AR - 3531

Butler 02468

"terms and working conditions" that are "not less favorable" for Americans it satisfies § 655.17. *Id.* at 5-6. Respondent analogizes the advertisement required by § 655.17 to a normal advertisement. *Id.* at 5. Respondent argues § 655.17 is premised on numerous assumptions. *Id.* at 6.

The Administrator asserts that Respondent's argument that there is a "temporal component" makes no sense when one considers that potential H-2B employers must prove that they have attempted to recruit U.S. workers and that there is a lack of U.S. workers to meet its needs and recruitment of U.S. workers involves the submission of a job order with the State Workforce Agency and publishing two print advertisements. Admin. Resp. 16. The Administrator asserts that while 20 C.F.R. § 655.17 contains a list of eight items of information that the print advertisement must contain, the list is not exhaustive because the Regulation requires "[a]ll advertising . . . must meet the requirements set forth in this section and must contain terms and conditions of employment which are not less favorable than those to be offered to the H-2B workers." *Id.* Respondent interprets this to mean that § 655.17 does not contain an exhaustive list of all terms and conditions that must be included and any term or condition that will be offered to H-2B workers, the omission of which would result in less favorable terms and conditions being offered to U.S. workers, must be disclosed in the required job order and print advertisements. *Id.* at 17. Applying this construction, the Administrator argues Respondent violated this provision by failing to disclose its per diem payments, its policy of providing free housing, and its policy of providing free transportation between work locations in either of its print advertisements. *Id.*

The Administrator reiterates many of its arguments in its cross-motion for summary judgment. Additionally, the Administrator asserts that the additional salary income, per diem payments, free housing, and free transportation, were disclosed to H-2B workers when they were presented with employment contracts, but were not included in Respondent's advertising. Admin. Cross-Mot. Summ. J. 17. This resulted in terms and conditions of the job offer that were less favorable to potential U.S. workers. *Id.* at 17-18. The Administrator also asserts that the target of Respondent's recruitment efforts were workers with no minimum education or prior experience; thus, a U.S. worker who saw the recruiting advertisement could have easily believed that he would have to provide his own transportation and housing during the entire carnival season. *Id.* at 18. Moreover, a potential U.S. worker who saw the recruiting advertisement would not know about the additional salary income of $29 to $148 per week – an additional 9 to 41 percent over and above the base weekly salary. *Id.* The Administrator concludes that it is entitled to summary decision because Respondent had a legal obligation to ensure that there was no disparity between job terms and conditions offered to U.S. workers and H-2B workers by stating all material terms and conditions in its recruiting efforts, Respondent failed to do so, and then attested that it had done so in Attestation No. 4 on the TEC. *Id.* Therefore, Respondent willfully misrepresented Attestation No. 4 on the TEC. *Id.*

Twenty C.F.R. § 655.17 explains the H-2B employer's advertising requirement:

> All advertising conducted to satisfy the recruitment steps under § 655.15 before filing the *Application for Temporary Employment Certification* must meet the requirements set forth in this section and must contain terms and conditions of

AR - 3532 Butler's Exh. 100, p. 006 Butler 02469

employment which are not less favorable than those to be offered to the H-2B workers. All advertising must contain the following information: . . .
(c) If transportation to the worksite(s) will be provided by the employer, the advertising must say so; . . . .

This poorly drafted Regulation is ambiguous and lends itself to two conflicting readings. The first, advocated by the Administrator, provides that the use of "and" in the above underlined section indicates an intent by the drafters to require H-2B employers to include in their advertisements all eight enumerated terms and conditions as well as any additional terms and conditions of employment that if excluded, would make the offer to local workers appear less favorable than the offer to H-2B workers. Thus, under the first construction, every beneficial material term or condition that would be found in a H-2B contract must be included in all newspaper advertisements. In other words, nearly the entire contents of the employment contract must be contained in the advertisement. The second, advocated by Respondent, places great emphasis on the "which are not *less favorable*" language of the Regulation. Under this construction, the employer's advertisement must include all eight enumerated terms and conditions, and cannot include any provision that affirmatively states a term or condition that would be less favorable to local workers. In other words, "[t]he advertisement . . . must not contain terms and conditions of employment which are less favorable [to local workers]." Resp't Mot. Summ. J. 5 (citing 73 Fed. Reg. 78020, 78033-34 (Dec. 19, 2008)). Given that the per diem payments and free housing are terms that are offered to both H-2B and local workers, i.e. they are terms and conditions which are not less favorable, section 655.17, under this construction, is not violated.

While this interpretation might yield unwarranted results, as an employer could tilt the application process in favor of H-2B workers by omitting a favorable term or condition that is not one of the eight required in its advertisement, this construction is still permitted on the face of the regulation and is partly supported by the Federal Register comments. Because there are two reasonable constructions of the Regulation, Respondent could not have "willfully" violated the statute provided that it met the minimum requirements of the second construction. To that end, Respondent did not affirmatively list the free transport in its advertisement. Admin. Ex. L. However, the advertisement states that "[t]ravel with the Carnival is required." *Id.* It also lists more than fifteen worksites and states that those worksites include geographic locations as wide-ranging as Dade City, Florida to Oklahoma City, Oklahoma to Coldwater, Michigan. Additionally, the advertisement notes a salary of $308.00 per week. Given that travel costs covering those distances would constitute a substantial portion of wages, a reasonable person reading Respondent's advertisement would believe the travel required by Respondent would be paid by Respondent and the Administrator has not shown a genuine issue of material fact. Accordingly, the pleadings and evidence demonstrate respondent substantially complied with § 655.17(c). For these reasons, I grant summary judgment in favor of Respondent as to this issue.

Violation 3 - Back Wages

Respondent also argues that Wage and Hour's back wage calculations falsely assume that the FLSA applies when Respondent is an FLSA-exempt amusement operator. Resp't Am. Mot. Summ. J. 7. Specifically, the Administrator charges Respondent with willfully failing to pay

Butler's Exh. 100, p. 007

AR - 3533

Butler 02470

compensable work travel time and refraining from taking a credit for providing bunkhouse lodging but in doing so, the Administrator relies on FLSA Regulations, which are inapplicable to the instant case. *Id.* The Administrator responds that it is not asserting that Respondent's employees are covered by the minimum wage and overtime provisions of the FLSA and does not assert that any principles unique to the FLSA apply. Admin. Resp. 18. However, because there is no case law regarding the wage requirements of the H-2B program, it relies upon the principles developed under the FLSA case law by analogy for such non-unique issues, as well as upon common dictionary definitions of such terms. *Id.* The Administrator represents that it relied on the United States Supreme Court's definition of "work" in an FLSA case, which incorporated a dictionary definition as well as a "primary benefit" test, when it determined, in the instant case, that the time spent by Respondent's H-2B workers picking up uniforms and performing ride safety checks was compensable. *Id.* at 19-20. Applying the same primary benefit test, the Administrator argues the credit for lodging should be excluded, because the lodging was provided primarily for the benefit of Respondent, as it has an itinerant workforce and could not expect its employees to obtain housing at each worksite. *Id.* at 21. The Administrator argues because Respondent is incorrect that the Administrator applied the FLSA to Wade Shows in determining compensable work time, two days' worth of travel time, and its ineligibility for the lodging credit, Respondent is not entitled to summary decision on this issue. *Id.* at 21-22.

The Administrator also asserts Respondent "substantially failed" to meet a condition of the Application, ETA Form 9142, Appendix B, Attestation No. 5. Admin. Cross-Mot. Summ. J. 3. Its argument is predicated on its belief that FLSA's case law may be used to fill in any gaps of the INA. However, at the time Congress crafted the INA's implementing regulations, it should have been aware of the FLSA, its implementing regulations, and its case law. Thus, had Congress desired to incorporate the FLSA's case law into the INA's Regulations it could have done so, yet it chose not to.

Even assuming Congress' inaction means the FLSA's case law is applicable, the Administrator has not shown a genuine issue of material fact regarding "substantial failure," i.e. "willful failure that constitutes a significant deviation from the terms and conditions of the labor condition application or the DHS Form I-129, Petition for a Nonimmigrant Worker for an H-2B worker or successor form." This is because the Administrator cannot establish there has been a significant deviation from the terms and conditions of Form 9142 when the Form itself does not inform Respondent that FLSA case law is applicable nor is there any requirement that the Form be completed by an attorney, who would be more likely to be aware of FLSA case law. Given that the Form does not inform Respondent of the applicability of FLSA case law, Respondent's attestation does not rise to the level of "willful failure." Accordingly, I grant summary judgment in favor of Respondent as to this issue as the Administrator cannot prove Respondent "substantially failed" to comply with ETA Form 9142, Appendix B, Attestation No. 5.

Violation 4 - Certified Area of Intended Employment

Respondent argues the Administrator cannot cite it for working at locations that were unanticipated at the time of petitioning. Resp't Am. Mot. Summ. J. 7. Respondent explains that some of its employees worked for a brief time in New York when an unanticipated opportunity

AR - 3534 Butler's Exh. 100, p. 008 Butler 02471

arose during the middle of the season and all of those workers were properly paid. *Id.* at 7-8. Further, the Department of Labor has admitted that it does not have any regulations that apply when a mobile operator adds immaterial work locations after the original certifications. *Id.* at 8. The Administrator responds that 20 C.F.R. § 655.22(l) governs this issue and that the list of worksites on Respondent's TEC did not include New York, where thirty-two H-2B workers worked at three different worksites for approximately two months, and Respondent failed to obtain a new labor certification or advise the Department of the change. Admin. Resp. 22. The Administrator's cross-motion for summary judgment includes all of the arguments in its Response as well as that Respondent specifically attested that it would not place H-2B workers outside of the locations listed on the TEC, but Respondent's H-2B workers were in New York 18% of its carnival season, which is approximately 28% of the covered period. Admin. Cross-Mot. Summ. J. 19-20.

The language in 20 C.F.R § 655.22(l) is clear and unequivocal. It provides:

> An employer seeking H-2B labor certification must attest as part of the *Application for Temporary Employment Certification* that it will abide by the following conditions of this subpart: . . .
> (l) The employer will not place any H-2B workers employed pursuant to this application outside the area of intended employment listed on the *Application for Temporary Employment Certification* unless the employer has obtained a new temporary labor certification from the Department.

Id. (emphasis added). It is immaterial that the opportunity in New York was unanticipated at the time Respondent completed Form 9142. The Regulations explicitly require employers to obtain a new temporary labor certification from the Department if the employer intends to place any H-2B workers outside the intended area of employment listed on the TEC. The Administrator's Exhibit G, ETA Form 9142, contains Respondent's Attestation No. 12 as well as Respondent's list of intended employment locations, which does not include New York. Respondent, however, conducted its carnival for approximately two months in three separate locations in New York, but never obtained a new temporary labor certification from the Department. Accordingly, the pleadings and evidence demonstrate that Respondent substantially failed to meet a condition of the Application, ETA Form 9142, Appendix B, Attestation No. 12, because it placed H-2B workers outside the area of intended employment described on its TEC without obtaining a new temporary labor certification from the Department. Thus, the Respondent has not shown the existence of a genuine issue for trial.

ORDER

IT IS HEREBY ORDERED that a civil money penalty in the amount of $4,500 is assessed to Wade Shows for violation of 20 C.F.R. § 655.60(a), i.e. willful misrepresentation of a material fact on the Application ETA Form 9142 regarding the job offer number of hours worked. IT IS FURTHER ORDERED that a civil money penalty in the amount of $4,500 is assessed to Wade Shows for violation of 20 C.F.R. § 655.22(l), i.e. substantial failure to meet a condition of the Application, ETA Form 9142, Appendix B, Attestation No. 12: Place of employment. The remaining violations are dismissed.

AR - 3535 Butler's Exh. 100, p. 009 Butler 02472

Penalties are due for payment within 30 days upon the date of this decision. The employer shall remit the amount of the civil money penalty by certified check or money order made payable to the order of "Wage and Hour Division, Labor." The remittance shall be delivered or mailed to the Wage and Hour Division office in the manner directed in the Administrator's notice of determination. *See* 20 C.F.R. 655.65(j).

Administrative Law Judge

NOTICE OF APPEAL RIGHTS: Any party seeking review of this decision and order, including judicial review, shall file a Petition for Review ("Petition") with the Administrative Review Board ("ARB"). The ARB must receive the Petition within 30 calendar days of the date of this decision and order. 20 C.F.R. § 76(a). The ARB's address is:

U.S. Department of Labor
Administrative Review Board
Room S5220 FPB
200 Constitution Ave NW
Washington, DC 20210

Copies of the Petition should be served on all parties and on the undersigned Administrative Law Judge. No particular form is prescribed for the Petition; however, any such petition shall:

(1) Be dated;
(2) Be typewritten or legibly written;
(3) Specify the issue or issues stated in the administrative law judge decision and order giving rise to such petition;
(4) State the specific reason or reasons why the party petitioning for review believes such decision and order are in error;
(5) Be signed by the party filing the petition or by an authorized representative of such party;
(6) Include the address at which such party or authorized representative desires to receive further communications relating thereto; and
(7) Attach copies of the administrative law judge's decision and order, and any other record documents which would assist the ARB in determining whether review is warranted.

20 C.F.R. § 655.76(b). If the ARB determines that it will review this decision and order, it will issue a notice specifying the issue or issues to be reviewed; the form in which submissions shall be made by the parties (*e.g.*, briefs); and the time within which such submissions shall be made. 20 C.F.R. § 655.76(e). When filing any document with the ARB, the party must file an original and two copies of the document. 20 C.F.R. § 655.76(f).

WHD H-2B Side-by-Side Comparison of the 2009 and 2015 Rules

This Guidance does not supersede the INA or H-2B Regulations

I. General Information

Issue/Provision	2009 Regulations	2015 Regulations
Effective Dates	For Applications for Temporary Employment Certification (the "Application"), ETA Form 9142, filed on or after January 18, 2009.	For Applications for Temporary Employment Certification (the "Application"), ETA Form 9142B, filed on or after the date of publication (April 29, 2015), with transition procedures for employers with start dates of need prior to October 1, 2015. The Registration provision will be implemented through a future Federal Register announcement.
Regulation location, Part and subpart	Employment and Training Administration (ETA) and Wage and Hour Division (WHD) provisions covered under 20 CFR Part 655, subpart A.	Employment and Training Administration (ETA) provisions continue to be covered under (revised) 20 CFR Part 655, subpart A. **New regulations for Wage and Hour Division (WHD) introduced at 29 CFR Part 503.**
Forms required to obtain certification from ETA	Employer submits and receives a prevailing wage determination and then submits an Application, ETA Form 9142, from which ETA determines temporary need and assesses the employer's test of the labor market.	Employer submits and receives a prevailing wage determination and then submits an H-2B Registration (after the transition period), from which ETA certifies temporary need for up to three years. Each season, employer submits an Application, ETA Form 9142B, a copy of the job order, and additional documentation from which ETA assesses the employer's job opportunity and then orders recruitment to ensure a thorough test of the labor market. The Application, ETA Form 9142B, and required documents must be submitted 75 - 90 calendar days before the employer's date of need.
Emergency Situations	No provision	The Certifying Officer may waive the normal filing timeframe (i.e., 75 – 90 calendar days before the employer's date of need). So long as there is enough time to test the labor market and provided that the employer can demonstrate a good and substantial cause, the employer may simultaneously file the H-2B Registration (if necessary), application, and job order less than 75 calendar days before its start date of need.
Temporary Need	Except for one-time need, temporary need (i.e., seasonal, peakload and intermittent need) is limited to 10 months or less. 20 CFR 655.6	Except for one-time need, temporary need (i.e., seasonal, peakload and intermittent need) is limited to 9 months or less. 20 CFR 655.6

		2B and corresponding workers; must be in a language understood by the workers, as necessary or reasonable. 20 CFR 655.20(l), 29 CFR 503.16(l)
Offered wage	Offered wage equals or exceeds the highest of the prevailing wage or Federal, State, or local minimum wage, and must be paid for the entire employment period certified in the Application. 20 CFR 655.22(e)	Offered wage equals or exceeds the highest of the prevailing wage or Federal, State, or local minimum wage, and must be paid for the entire employment period certified in the Application. **New:** Employer must pay at least the offered wage free-and-clear, either in cash or in a negotiable instrument payable at par. 20 CFR 655.20(a) & (b), 29 CFR 503.16(a) & (b)
Incentive-based wages	If earnings are based on commissions, bonuses or other incentives, employer must guarantee to pay at least the offered wage on a weekly, biweekly, or monthly basis. 20 CFR 655.22(g)(1)	If earnings are based on commissions, bonuses, or other incentives, employer must guarantee to pay at least the offered wage every workweek. The 2015 regulations also address piece rates.An employer paying a piece rate

		wage must guarantee to supplement that wage if, at the end of every workweek, the piece rate does not at least equal what the worker would have earned under the hourly offered wage. 20 CFR 655.20 (a), 29 CFR 503.16(a)
Frequency of pay		**New:** Employer must pay the more frequently of: every two weeks or according to prevailing practice in the area of intended employment. 20 CFR 655.20(h), 29 CFR 503.16(h)
Deductions	Employer must make all deductions required by law. Other deductions must be disclosed, reasonable, and consistent with the Fair Labor Standards Act (FLSA) for employers subject to the FLSA. 20 CFR 655.22(g)(1)	Employer must make all deductions required by law. Other deductions must be disclosed and reasonable according to the Fair Labor Standards Act (FLSA) principles at 29 CFR Part 531. Also explicitly allows worker-authorized voluntary deductions payable to third parties for the benefit of the worker. Deductions not required by law that are not disclosed in the job order are prohibited.

December 17, 2015

FIELD ASSISTANCE BULLETIN No. 2015-1

MEMORANDUM FOR: REGIONAL ADMINISTRATORS AND DISTRICT DIRECTORS

FROM: Dr. David Weil
Wage and Hour Administrator

SUBJECT: Credit toward Wages under Section 3(m) of the FLSA for Lodging Provided to Employees

This memorandum provides guidance to Wage and Hour Division (WHD) field staff regarding credit toward wages under section 3(m) of the Fair Labor Standards Act (FLSA) for lodging provided to employees. Section 3(m) of the FLSA allows an employer to, under certain circumstances, count as wages "the reasonable cost … to the employer of furnishing such employee with board, lodging, or other facilities." 29 U.S.C. § 203(m). This memorandum explains the requirements for taking the credit, as well as the proper method of accounting for it in calculating wages, when an employer provides lodging to employee.

Although the topics addressed in this memorandum apply broadly, a number of examples specific to live-in domestic service employees appear below because WHD anticipates that many employers of home care workers will make use of the section 3(m) credit now that Federal minimum wage and overtime protections apply to many such workers pursuant to the Home Care Final Rule, Application of the Fair Labor Standards Act to Domestic Service, 78 Fed. Reg. 60,454 (Oct. 1, 2013).[1] WHD emphasizes, however, that Section 3(m) applies in a variety of contexts, and nothing in this FAB is meant to limit an employer's use of section 3(m) under other circumstances in any way.

[1] Detailed information about the Home Care Final Rule, including the regulatory changes it made and the meaning of several terms used in this FAB, such as "domestic service employment," "third party employer," and "private home," is available at http://www.dol.gov/whd/homecare/. In particular, the preamble to the Final Rule explains that a "live-in domestic service employee," a term used frequently in this document, is a domestic service employee, such as a home care worker or nanny, who resides at the worksite on a "permanent basis" or for "extended periods of time." *See* 29 C.F.R. § 785.23; FOH § 31b20; 78 Fed. Reg. 60,474.

Butler's Exh. 102, p. 001

Discussion

Section 3(m) provides, in relevant part, that:

> "Wage" paid to any employee includes the reasonable cost, as determined by the Administrator, to the employer of furnishing such employee with board, lodging, or other facilities, if such board, lodging, or other facilities are customarily furnished by such employer to his employees: *Provided*, That the cost of board, lodging, or other facilities shall not be included as a part of the wage paid to any employee to the extent it is excluded therefrom under the terms of a bona fide collective-bargaining agreement applicable to the particular employee: *Provided further*, That the Secretary is authorized to determine the fair value of such board, lodging, or other facilities for defined classes of employees and in defined areas, based on average cost to the employer or to groups of employers similarly situated, or average value to groups of employees, or other appropriate measures of fair value.

29 U.S.C. § 203(m). The question whether an employer may properly count the value of lodging as a part of an employee's wages can arise in a variety of contexts. For example, some farm workers live in employer-provided housing near the fields in which they work. Additionally, some domestic service workers, such as home care workers or nannies, live at the home in which they provide services.

A. Requirements for Claiming a Section 3(m) Credit

Based on the Department's regulations and longstanding interpretation of section 3(m), an employer who wishes to claim the section 3(m) credit for lodging must ensure that the following five requirements are met:

1. The lodging is regularly provided by the employer or similar employers;
2. The employee voluntarily accepts the lodging;
3. The lodging is furnished in compliance with applicable federal, state, or local law;
4. The lodging is provided primarily for the benefit of the employee rather than the employer; and
5. The employer maintains accurate records of the costs incurred in furnishing the lodging.

1. Lodging Regularly Provided by the Employer or Similar Employers

Employers may take advantage of section 3(m) only if the lodging is "furnished regularly by the employer to his employees or if the same or similar facilities are customarily furnished by other employers engaged in the same or similar trade, business, or occupation in the same or similar communities." 29 C.F.R. § 531.31 (citing *Walling v. Alaska Pac. Consol. Mining Co.*, 152 F.2d 812 (9th Cir. 1945); Field Operations Handbook (FOH) § 30c02(a)).

Because live-in domestic service employees, for example, often reside at their employers' private homes without paying rent, this requirement is met for those workers. Similarly, agricultural workers are often provided housing during the harvest season by their employers, so this

Butler's Exh. 102, p. 002

Butler 02484

requirement is met for workers under those circumstances as well. Wage and Hour investigators (WHIs) will need to consider whether this requirement is met for other types of employees whose employers claim a section 3(m) credit based on the circumstances presented in the particular investigation.

2. Voluntary Acceptance

Employees must accept lodging voluntarily and without coercion in order for an employer to take advantage of section 3(m). 29 C.F.R. § 531.30; *see also* 552.100(b); Wage & Hour Opinion Letter WH 513 (Feb. 24, 1982).[2] WHD will normally consider the lodging as voluntarily accepted by the employee when living at or near the site of the work is necessary to performing the job. For example, this requirement is typically met when a live-in domestic service employee and the employer have an understanding that the employee will live on the premises as a condition of employment, or when an apartment complex provides a free apartment to the complex manager. *See* Wage & Hour Opinion Letter WH 513 (noting that "voluntary acceptance of a job can be construed as voluntary acceptance of the facilities only when the facilities are integral to performing the job (as with room and board for a live-in housekeeper and babysitter) and the employee understood this when accepting the job" (citing *Lopez v. Rodriguez*, 668 F.2d 1376 (D.C. Cir. 1981))); *see also Brock v. Carrion, Ltd.*, 332 F. Supp. 2d 1320, 1325 (E.D. Cal. 2004) (determining that lodging was accepted voluntarily where an apartment manager who lived on-site "does not actually assert that he was coerced" and had signed an employment agreement).[3] In other circumstances, WHIs should look for an indication, such as a written agreement, that the employee voluntarily agreed to live in a residence provided by the employer.

---

[2] Several courts have rejected the WHD's position, expressed in 29 C.F.R. § 531.30, that employees must voluntarily accept meals instead of cash wages for the employer to properly count toward its minimum wage obligation the reasonable cost or fair value of those meals. *See, e.g.*, *Herman v. Collis Foods, Inc.*, 176 F.3d 912, 916-18 (6th Cir. 1999); *Donovan v. Miller Properties, Inc.*, 711 F.2d 49, 50 (5th Cir. 1983); *Davis Bros., Inc. v. Donovan*, 700 F.2d 1368, 1369-72 (11th Cir. 1983). Accordingly, the WHD "no longer enforces the 'voluntary' provision" of 29 C.F.R. § 531.30 "with respect to *meals*." FOH § 30c09(b) ("Therefore, where an employee is required to accept a meal provided by the employer as a condition of employment, [the WHD] will take no enforcement action, provided that the employer takes credit for no more than the actual cost incurred.").

[3] This presumption of voluntariness can, of course, be overcome, such as in cases involving coercion. *See Lopez*, 668 F.2d at 1380 (explaining that "even where an employee voluntarily and knowingly accepts a job which, by its nature, requires board and lodging in the employer's home, an employer may impose 'coercive' conditions—that is, conditions so onerous and restrictive that the employee's continued employment and acceptance of the board and lodging ceases to be voluntary"); *Marshall v. Intraworld Commodities Corp.*, No. 79 C 918, 1980 WL 2097, at *4 (E.D.N.Y. June 9, 1980) (rejecting an employer's claim of section 3(m) credit because the employee, brought from outside the United States and made to work six or seven days a week at his employer's home and office, "had no other place to live and no choice but to accept the food and facilities provided to him" and therefore the voluntary acceptance requirement was not met). Although such circumstances are not the norm, WHIs are advised to be attentive to any signs that the presumption of voluntariness is not applicable in a particular case.

Butler's Exh. 102, p. 003
Butler 02485

3. Compliance with Federal, State, and Local Laws

Employers may not include the cost of lodging as part of employees' wages if the lodging is "in violation of any Federal, State, or local laws, ordinance or prohibition." 29 C.F.R. § 531.31; *see also* FOH § 30c02(b). For example, the WHD will not allow a section 3(m) credit if the lodging provided does not have or has been denied a required occupancy permit or is not zoned for residential use. *See* FOH § 30c02(b). Similarly, courts have disallowed an employer's use of the section 3(m) credit in circumstances in which lodging was substandard or not compliant with law. *See, e.g.*, *Soler v. G & U, Inc.*, 768 F. Supp. 452, 465-66 (S.D.N.Y. 1991) (holding that an employer could not take advantage of section 3(m) because migrant farm workers' camp was operated in violation of the relevant state permit due to overcrowding); *Osias v. Marc*, 700 F. Supp. 842, 845 (D. Md. 1988) ("Because the Department of Labor's investigative report found the housing to be seriously substandard, the employer may not credit the cost of furnishing the facilities against minimum wage obligations."); *Strong v. Williams*, No. 78-124-Civ-TG, 1980 WL 8134, at *4, 5 (M.D. Fla. April 22, 1980) (holding that an employer could not claim credit for housing provided to migrant farm workers when the employer was "not authorized to house migrant workers under 7 U.S.C. § 2044(a)(4)," the Federal Farm Labor Contractors Registration Act).

WHIs should be aware of and look into any suggestions that employer-provided lodging is substandard such that its condition violates law.

4. Primary Beneficiary

An employer may not include the cost of lodging in an employee's wages unless the employee receives the primary benefit of the lodging. *See* 29 C.F.R. § 531.3(d)(1); *see also* FOH § 30c01(c); *Ramos-Barrientos v. Bland*, 661 F.3d 587, 595-98 (11th Cir. 2011) (accepting as consistent with statutory and regulatory texts the Secretary's position that lodging must primarily benefit the employee in order for a wage credit to be taken). Lodging is ordinarily presumed to be for the primary benefit and convenience of the employee. *See* FOH § 30c03(a)(2).[4] But this presumption is rebutted in circumstances in which lodging is "of little benefit to employees," such as "where an employer requires an employee to live on the employer's premises to meet some need of the

[4] In contrast, the primary benefit requirement typically prohibits employers from claiming certain other types of expenses as part of wages pursuant to section 3(m). Specifically, an employer's business expenses, such as tools of the trade, other materials and services incidental to carrying on the employer's business, utilities, taxes and insurance, business-related travel expenses, and uniforms required by the nature of the business, are primarily for the convenience of the employer. 29 C.F.R. § 531.3(d); FOH § 30c04. Furthermore, expenses imposed on the employer by law are for the primary benefit of the employer. Wage & Hour Opinion Letter, 1997 WL 998029 (Aug. 19, 1997) (explaining that "an employer may not take credit for facilities which the employer is required by law or regulation to provide"); *see also Bland*, 661 F.3d at 595-98 (accepting the Department's position that the cost of housing provided to employees on H-2A visas was primarily for the benefit of the employer, and thus could not be credited as part of wages under section 3(m), because regulations required that employers provide housing free of charge to H-2A workers).

employer." *Id*; *see also Soler v. G. & U., Inc.*, 833 F.2d 1104, 1110 (2d Cir. 1987) (explaining that "in appropriate circumstances, ... the presumption [that housing facilities may be included in wages under section 3(m)] is subject to challenge and rebuttal under the Regulation's balancing of benefits standard" and that if housing "is not a benefit running primarily to the employee, but rather a burden imposed upon the employee in furtherance of the employer's business," the housing may not be included in the employee's wage).[5]
In particular, an employer may not claim the section 3(m) credit if "the employer requires the employee to leave an existing home and live on the employer's premises to be 'on call' to meet the needs of the employer." Wage & Hour Opinion Letter FLSA-1331 (Nov. 5, 1996); *see also Soler*, 833 F.2d at 1110-11 (holding that, among other factors, where workers "were not required to live on the farms as a condition of employment" and "were not 'on call,'" a determination that housing was for their benefit was not arbitrary and capricious).

WHIs must consider the nature of the employment relationship and review the specific circumstances of each case to determine whether the lodging provided is primarily for the benefit of the employee. In the case of live-in domestic service employees, the Department recognizes that such employees typically are not working all of the time that they are on the premises of their employer and, ordinarily, they may at times engage in normal private pursuits, such as sleeping, eating, watching television, or reading a book and may leave the premises if they choose. 29 C.F.R. § 785.23; 29 C.F.R. § 552.102(a). There are, however, scenarios in the home care context in which an employee lives with a recipient of home care services in order to provide assistance throughout the day and/or night. Although the acuity level of the recipient of services does not determine whether the lodging is for the benefit of the employer or the employee, the employer's demands on an employee's time is relevant to a determination of who primarily benefits from the employee's living at the residence. In other words, whether the employer has provided a live-in domestic service employee with specific time periods during which the employee is completely relieved from duty and which are long enough to enable the employee to use the time effectively for her own purposes (*i.e.*, has provided bona fide off-duty time) is one factor that may help determine who primarily benefits from the living arrangement and the lodging provided. For example, if a college student moved into the extra bedroom in a home owned by an 80-year-old man to provide him assistance with bathing and dressing for two hours in the mornings and preparing for sleep for one hour each night, but the student was otherwise free to spend her time as she pleased, those facts would weigh in favor of a finding that the lodging was primarily for the benefit of the employee. Similarly, if a property management company provided a plumber with a reduced-rent apartment in one of its complexes in exchange for the plumber being available

[5] Lodging will also be considered for the primary benefit of the employer if "the employee must travel away from home to further the employer's business." FOH § 30c03(a)(2). For example, hotel or other expenses incurred when an employer requires an employee to travel with the employer (such as if a home health aide accompanies an individual with disabilities to a work conference across the country or a nanny accompanies her employer's family on vacation to provide child care services) may not be included as part of wages under section 3(m). Similarly, lodging would be considered to be for the primary benefit of the employer if an employee of a chain of retail stores incurs lodging expenses because she was required to travel to a store in another state in order to train new employees at that location.

Butler's Exh. 102, p. 005
Butler 02487

two weekends per month for emergency calls, that factual scenario would weigh in favor of a finding that the lodging was provided primarily for the benefit of the employee.

As explained, however, if the employer's demands on an employee's time are so great or constant that the employee is working or is "engaged to wait" while on the premises, particularly overnight in the domestic service context, these facts would likely support a finding that the lodging is primarily for the benefit of the employer. Therefore, where an employee provides round-the-clock care, or if the employee's sleep or off-duty time is regularly interrupted to perform work for the employer, the lodging typically will be deemed as primarily for the benefit of the employer. In such circumstances, a section 3(m) credit for the lodging will not be permissible (recognizing, however, that circumstances can change over time and the credit may be available at a later date). These circumstances could arise, for example, in the case of a live-in nanny who tends to a baby throughout the night, a home health aide who serves an individual with a health condition that requires her to have constant assistance, including overnight, or a handyman who provides services to the apartment complex in which he resides who is constantly responding to emergency calls during his off-duty hours.

Whether the employer has provided an employee with adequate lodging is another factor that may help determine who primarily benefits from the living arrangement and the lodging provided. For example, if an employer provides an employee with private living quarters such as a separate bedroom that is furnished (with, for example, a bed, night table, and dresser) where the employee is able to leave her belongings and spend her off-duty time, this factor weighs in favor of a finding that the primary beneficiary of the lodging is the employee. Similarly, if the employer provides the employee with access to a kitchen and a private bathroom, such facilities support a finding that the lodging is primarily for the benefit of the employee (although such facilities are not a prerequisite for taking the section 3(m) credit). Such private quarters typically ensure that the employee is able to engage in normal private pursuits as she would in her own home. Even when the employee is provided private living quarters, however, lodging will typically be deemed primarily for the employer's benefit if the employee is "on-call" 24 hours a day or his or her sleep and off-duty time is regularly interrupted. If an employee is only provided a cot or couch to sleep on in a living space shared with the employer, this fact would suggest that the employee is not provided adequate off-duty time or is unable to use such time as she chooses and therefore that the lodging is primarily for the benefit of the employer.

5. Accurate Recordkeeping

Records substantiating the cost of furnishing lodging. Pursuant to the FLSA recordkeeping regulations, in order to take a wage credit under section 3(m), an employer must maintain accurate records of the costs incurred in furnishing lodging to the employee. *See* 29 C.F.R. § 516.27(a); *see also* 29 C.F.R. § 552.100(d); Wage & Hour Opinion Letter, 1994 WL 1004832 (June 1, 1994); FOH § 30c05(a). These records "shall include itemized accounts showing the nature and amount of any expenditures entering into the computation of the reasonable cost." 29 C.F.R. § 516.27(a)(1). For example, records could include proof of mortgage or rental payments and

utility bills. If an employer does not provide records to support its claim of a section 3(m) lodging credit, the employer has not met this prerequisite for including lodging costs in employees' wages.[6]

With respect to live-in domestic service employees only, an employer that does not provide such records may claim a certain amount—up to seven and one-half times the statutory minimum hourly wage for each week lodging is furnished, currently $54.38 (7.5 x $7.25)—toward wages rather than the reasonable cost or fair value of the housing provided. 29 C.F.R. § 552.100(d). *Records regarding wage calculations.* The Department's regulations require an employer to keep records showing section 3(m) additions to or deductions from wages if those additions or deductions affect the total cash wages owed. *See* 29 C.F.R. § 516.27(b). Specifically, if because of a section 3(m) credit, an employee receives less in cash wages than the minimum wage for each hour worked in the workweek, the employer "shall maintain records showing on a workweek basis those additions to or deductions from wages." *Id.* An employer must also maintain such records if an employee is owed overtime in a workweek and the employer has taken a section 3(m) credit. *Id.*

A number of courts have denied employers' attempts to claim a section 3(m) credit in circumstances in which those employers have not maintained proper records of costs or wage calculations. *See, e.g., Caro-Galvan v. Curtis Richardson, Inc.*, 993 F.2d 1500, 1514 (11th Cir. 1993) (reversing a district court's dismissal of workers' claims of minimum wage violations because deductions for the cost of housing and utilities are impermissible when employer has failed to comply with the recordkeeping provisions of the FLSA and thus cannot substantiate the alleged reasonable cost of the housing provided (citing *Marshall v. DeBord*, No. 77-106-C, 1978 WL 1705 (E.D. Okla. July 27, 1978))); *Donovan v. Williams Chem. Co.*, 682 F.2d 185, 189-90 (9th Cir. 1982) (reversing a district court's allowance of a section 3(m) credit for housing because "[t]he employer has the obligation, under the regulations, to keep records concerning costs" and that burden does not shift in the absence of evidence of the cost of the housing (citing *Donovan v. New Floridian Hotel, Inc.*, 676 F.2d 468 (11th Cir. 1982))); *Chao v. Min Fang Yang*, No. 05–2563, 2007 WL 7209596, at *6 (W.D. Tenn. Aug. 13, 2007) (prohibiting employer from taking a section 3(m) credit where the employer "failed to make or keep records as required by 29 C.F.R. § 516.27 with respect to the cost of providing meals and lodging, or the requirement of maintaining records of any deductions claimed on a weekly basis"); *Carrion, LTD.*, 332 F. Supp. 2d at 1326-27 (holding that an employer could not use section 3(m) to offset backwages owed for FLSA violations because the employer failed to produce documentation demonstrating the cost of providing employee with lodging, and explaining that an agreement to charge employees a certain amount of rent did not satisfy this requirement).

B. Collective Bargaining Agreements

An employer may not include in an employee's wage the cost of lodging "to the extent it is excluded therefrom under the terms of a bona fide collective bargaining agreement [(CBA)]

---

[6] An exception applies in circumstances in which the amount of any possible section 3(m) credit is not relevant: if in any workweek an employee whose employer furnishes lodging to her receives at least the minimum wage in cash and is not owed any overtime compensation, her employer is not required to keep records of the value of the lodging as to that workweek. 29 C.F.R. § 516.27(c).

Butler's Exh. 102, p. 007

Butler 02489

applicable to the particular employee." 29 C.F.R. § 531.6(a); *see also* 29 U.S.C. § 203(m); FOH § 30c01(b). The determination of whether a CBA contains an exclusion of the cost of lodging that would otherwise qualify for a section 3(m) credit "will be based upon the written provisions" of the CBA. FOH § 30c01(b).

In the course of an investigation, the WHI should determine whether the employee is a member of a union or subject to a CBA. For example, some live-in home care workers are parties to CBAs with the State administering the Medicaid-funded program through which they are employed. If so, the WHI should obtain a copy of the CBA to determine whether it prohibits the employer from claiming a section 3(m) lodging credit.

C. Application of a Section 3(m) Credit

If an employer satisfies the five requirements for claiming the section 3(m) credit and the value of the facilities furnished is not excluded from wages pursuant to a CBA, the amount claimed must comply with statutory and regulatory guidelines, and the employee's wages must be properly calculated.

1. Reasonable Cost or Fair Value

The section 3(m) credit may not exceed the "reasonable cost" or "fair value" of the facilities furnished, whichever is less. 29 U.S.C. § 203(m); FOH § 30c01(a).

Reasonable cost. In this context, "reasonable cost" is "not more than the actual cost to the employer of the board, lodging, or other facilities customarily furnished by him to his employees." 29 C.F.R. § 531.3(a); *see also* FOH § 30c05(a). In other words, "reasonable cost" "does not include a profit to the employer or to any affiliated person." 29 C.F.R. § 531.3(b).[7] The actual cost to an employer of providing lodging to such a worker could be, for example, a portion of the monthly mortgage or rental payment as well as utility payments. *See, e.g.*, FOH § 30c06(d)(2) ("When the employer leases a property from another person, the amount of rent paid by the employer to the other person is considered part of the 'reasonable cost' provided that the rent charged provides no profit for the employer, directly or indirectly.").[8]

The source of the funds the employer uses to provide the property is not relevant. The actual cost an employer pays may include money from the employer's savings or income and/or other funds provided to the employer, such as public assistance provided to certain individuals who employs home care workers. For purposes of calculating a section 3(m) credit, it is significant only that an

---

[7] Whether an individual is an "affiliated person" depends upon the facts of the situation, although "[a] spouse, child, parent, or other close relative of the employer," "a partner, office, or employee in the employer company or firm," "a parent, subsidiary, or otherwise closely connected corporation" or "an agent of the employer" who furnishes lodging will be deemed an "affliated person." 29 C.F.R. § 531.33(b).

[8] In the domestic service context, if a person receiving services owns the home in which he and his employee live and therefore makes no mortgage or rental payment, the section 3(m) credit could be for the cost of paying property taxes, utilities, and other necessary costs of maintaining the home.

employer, rather than the employee or another party that is not an employer, pays for the housing, not how the employer obtained the funds for such payments.

The portion of the cost of the residence in which an employee lives that may be counted as part of wages must be a reasonable approximation of the worker's share of the housing. *See* FOH § 30c06(d)(3) (explaining that the cost of lodging is to be divided among the employees living in a particular facility based on the amount of space provided to each employee). There is no formula for determining the appropriate fraction of the mortgage, rental, or other costs of the lodging that applies to a particular employee; instead, the employer or WHI must take into account the specific circumstances. For example, in a large house in which a family of five and a home care worker reside, the amount might most appropriately be determined based on the ratio of the square footage of the employee's bedroom to the square footage of the entire house. On the other hand, in an apartment shared by a recipient of home care services and a paid roommate, where the two individuals have equal use of the kitchen and common living spaces, the appropriate amount of a section 3(m) credit might be half of the rental cost of the unit. Similarly, if three agricultural workers are sharing a small cottage provided by the employer, then the appropriate amount of a section 3(m) credit that could properly be counted toward each employee's wages would likely only be one-third of the cost of the cottage.

Additionally, reasonable cost is to be calculated on a workweek-by-workweek basis so it can be added to cash wages for purposes of assessing whether the employer's minimum wage obligation has been met and determining the regular rate of pay upon which any overtime compensation due must be calculated, as described below. *See* FOH § 30c06(d)(3) (explaining that it is necessary to determine the "weekly reasonable cost"). The weekly reasonable cost can be calculated based on a monthly mortgage or rental amount by multiplying the monthly amount by 12 and dividing by 52. As to costs that vary over time, such as utility bills, a WHI should consider the specific costs for the time period covered in an investigation, based on the employer's records, although the WHI may in his or her discretion use (or accept an employer's use of) average amounts, if the approximation is reasonable.

The employer bears the burden of establishing, with records, the reasonable cost of lodging. 29 C.F.R. § 516.27; FOH § 30c05(a). Records of mortgage payments, a rental agreement and records of rent checks, or utility bills, for example, suffice as bases for actual cost calculations. In addition, records regarding sources of public assistance to the employer used to pay for housing, such as records regarding Housing Choice Vouchers, may be among the records used to fulfill this requirement. As noted above, an employer of a live-in domestic service employee that does not provide records is subject to an exception to this general rule: the employer may claim up to seven and one-half times the statutory minimum hourly wage, currently $7.25, for each week lodging is furnished toward wages. 29 C.F.R. § 552.100(d). In other words, in the absence of records, the employer may credit for lodging no more than $54.38 (7.5 x $7.25) per week to the wages if the employee is a live-in domestic service employee.

Fair value. Section 3(m) of the FLSA gives the Secretary authority to determine the "fair value" of lodging for purposes of an employer's claiming the section 3(m) credit. 29 C.F.R. § 531.2(a); FOH § 30c01(a). If the actual cost to the employer exceeds the rental value of the lodging, 29 C.F.R. § 531.3(c); FOH § 30c06(c), or the employer otherwise establishes a "reasonable cost"

Butler's Exh. 102, p. 009

that "appears to be excessive in relation to the facilities furnished," FOH § 30c01(a), the employer may only count the lower fair value of the lodging toward wages.

As with assessments of reasonable cost, there is no specific formula for determining fair value. WHIs may approximate the fair value of lodging by considering average rental prices in the area for similar homes. Investigators may estimate these amounts by, for example, using fair market rent data for a particular locality as published by the U.S. Department of Housing and Urban Development, available at http://www.huduser.org/portal/datasets/fmr.html, searching for comparable rental units online, or requesting information from local real estate brokers or other experts. Investigators may also consider the reasonable cost of lodging claimed by similarly situated employers if such information is available.
Because an employer may not profit from the section 3(m) credit, an employer may only use the fair value of housing as the amount credited toward wages if that amount is equal to or lower than the amount the employer actually pays for the housing.

2. Wage Calculations

To calculate an hourly rate including the section 3(m) credit, the value of the lodging is added to cash wages (excluding overtime compensation) and divided by the hours worked in a given week. The credit goes toward the employer's minimum wage obligation and therefore is included in the determination of the employee's regular rate of pay for purposes of calculating any overtime compensation due. *See* 29 C.F.R. § 531.37(b) ("Where deductions are made from the stipulated wage of an employee, the regular rate of pay is arrived at on the basis of the stipulated wage before any deductions have been made. Where board, lodging, or other facilities are customarily furnished as additions to a cash wage, the reasonable cost of the facilities to the employer must be considered as part of the employee's regular rate of pay."); 29 C.F.R. § 778.116 ("Where ... an employer furnishes lodging to his employees in addition to cash wages the reasonable cost or the fair value of the lodging (per week) must be added to the cash wages before the regular rate is determined."); FOH § 30c01(c) ("[T]he reasonable cost to the employer of furnishing board, lodging, or other facilities (or the fair value thereof) must be included in the employee's [regular rate] of pay for the purposes of computing [overtime] pay.").

An employer's claiming the section 3(m) credit only in overtime weeks, or in a greater amount in overtime weeks, is cause for suspicion. 29 C.F.R. § 531.37. An employer may not use the section 3(m) credit for the purpose of evading the overtime compensation requirement. *Id.*

For example, assume a live-in domestic service employee receives $6 per hour as well as room and board, for which the reasonable cost is $100 per week. If the employee works 30 hours in a workweek, the $180 ($6 x 30) cash wages is added to the $100 in section 3(m) credit for a total of $280 received in the week, which amounts to a regular rate of $9.33 ($280 / 30) per hour. Assuming the room and board credit is properly taken, this payment structure complies with the federal minimum wage requirement (that an employer pay at least $7.25 per hour).[9]

[9] This example also appears in Administrator's Interpretation No. 2014-1, available at http://www.dol.gov/whd/opinion/adminIntrprtn/FLSA/2014/FLSAAI2014_1.pdf, which addresses the application of the FLSA to shared living arrangements for the provision of home care services.

If during the following week, the same live-in domestic service employee worked for 50 hours, the employer's minimum wage obligation would still be met, but the employee, if not exempt from the overtime requirement,[10] would be due overtime compensation of one and a half times her regular rate of pay for each hour worked over 40. Specifically, she would receive $300 ($6 x 50) in cash wages plus $100 in section 3(m) credit for a total of $400, which amounts to a regular rate of $8 ($400 / 50) per hour. Her third party employer would then owe her an additional $40 ($8 x .5 x 10) in overtime compensation.

The section 3(m) credit may also be the sole payment an employee receives, provided it is sufficient to cover the employer's minimum wage obligation. *See* 29 C.F.R. § 531.36(a) ("Deductions for board, lodging, or other facilities may be made in nonovertime workweeks even if they reduce the cash wage below the minimum wage."). For example, a maintenance supervisor at an apartment complex who works for 12 hours per week could be compensated entirely by not being charged rent. If the reasonable cost of his lodging is $500 per month (or $115.38 per week, calculated by multiplying $500 by 12 months and dividing by 52 weeks), and the employer has complied with the section 3(m) requirements described above, this arrangement complies with the FLSA because the employee receives a regular rate of $9.62 per hour ($115.38 / 12).

Furthermore, section 3(m) applies to lodging furnished by the employer as compensation to an employee regardless of whether the employer calculates charges for such lodging as additions to or deductions from wages. 29 C.F.R. § 531.29. In other words, it is not relevant for purposes of calculating an employee's wages whether the employee has received housing free of charge (additions to cash wages) or has paid rent as a deduction from a paycheck or otherwise (deductions from wages).[11]

3. Joint Employment

As a general matter, under the FLSA any worker may be jointly employed by more than one employer. 29 C.F.R. § 791.2(a); *see also Baystate Alternative Staffing, Inc. v. Herman*, 163 F.3d 668, 675 (1st Cir. 1998) ("The FLSA contemplates several simultaneous employers, each responsible for compliance with the Act."). If it is determined, after applying the fact-specific economic realities test, that joint employment exists, then both or all employers will be jointly and severally liable for compliance with the FLSA. 29 C.F.R. § 791.2(a). In such circumstances, all employers may take credit toward their joint wage obligation for housing costs paid by any of them. *See id.* ("[A]ll joint employers are responsible, both individually and jointly, for compliance with all of the applicable provisions of the act, including the overtime provisions, with respect to

[10] If a live-in domestic service employee is solely employed by the recipient of services (or that person's family or household member), no overtime compensation is due because the sole employer may claim the live-in domestic service employee exemption from the Act's overtime requirements. 29 U.S.C. § 213(b)(21); 29 C.F.R. § 552.102, .109(c).

[11] When an employee is reimbursed for expenses incurred on behalf of his or her employer, however, such payments are not considered to be compensation for hours worked. Such payments therefore do not count toward wages under section 3(m) (and are excluded from the regular rate for purposes of overtime calculations).

Butler's Exh. 102, p. 011
Butler 02493

the entire employment for the particular workweek. In discharging the joint obligation each employer may, of course, take credit toward minimum wage and overtime requirements for all payments made to the employee by the other joint employer or employers."). For example, a farm owner and a farm labor contractor may jointly employ agricultural workers who receive housing as part of their employment arrangement; in such circumstances, regardless of which employer pays for the housing, provided all of the requirements described above are met, the reasonable cost or fair value of the housing may be credited toward the employers' joint FLSA wage obligations.

Joint employment is prevalent in the home care industry; a recipient of home care services (consumer) and a private home care agency, or a consumer and a public entity administering a Medicaid-funded home care program, might jointly employ a home care worker.[12] It is not uncommon for a consumer and home care agency to jointly employ a live-in domestic service employee, and for the employee to receive cash wages from the agency and housing from the consumer (such as if the home care agency pays a set amount per hour of work to that employee and the consumer pays rent on an apartment in which the employee and consumer reside). In such circumstances, the amount properly claimed as a section 3(m) credit and the cash wages are combined, as described above, to determine the total wages received for purposes of determining whether the employee has been paid in compliance with the FLSA and calculating any overtime compensation due.[13]

Conclusion

If an employer claims a section 3(m) credit for lodging provided to an employee, the WHI must conduct a detailed analysis that includes interviews and a review of all necessary records to determine if the requirements described above are met and if so, the appropriate amount of the credit.

Please contact Derrick Witherspoon, Chief, Branch of FLSA/Child Labor at (202) 693-0715 with any questions.

---

[12] Administrator's Interpretation No. 2014-2, available at http://www.dol.gov/WHD/opinion/adminIntrprtn/FLSA/2014/FLSAAI2014_2.pdf, addresses joint employment by public entities of home care workers employed through consumer-directed programs, a home care services delivery model funded by Medicaid.

[13] In circumstances involving a live-in domestic service employee, joint employers can have different wage obligations, because those receiving home care services and their families or households may take advantage of the live-in domestic service employee exemption from the FLSA's overtime compensation requirement, but any third party employer may not. *See* 29 C.F.R. § 552.109(c). Nevertheless, any contribution toward wages the consumer (or the consumer's family or household) has made, including by paying for lodging provided to the employee, may be counted toward the third party employer's wage obligation.

46c WAGES

46c00 Required/offered wage rate.

(a) The H-2B employer is required to pay at least the highest of the prevailing wage, federal, state, or local minimum wages. *See* 20 CFR 655.22(e). The offered wage listed on the TEC Application must meet this requirement, and the offered wage (including any offered overtime wage rate) must be paid to H-2B workers and similarly employed U.S. workers who were hired during the 10 day recruitment period. *See* FOH 46b04(b). Additionally, if an employer does not comply with 20 CFR 655.22(n) and willfully places workers outside the area of intended employment or in occupations not certified on the TEC Application, the employer is still obligated to pay the higher of the rate listed on the TEC Application or the prevailing wage in the location or occupation where the employee is actually working.

(b) Satisfaction of wage obligation

Except as discussed below, the H-2B worker must be paid his/her wages, free and clear, when due at the end of the pay period in which the hours of work are performed.

(c) Facilities furnished to H-2B workers

(1) Deductions must be specified in the H-2B job offer, and all deductions must be reasonable.

(2) An employer may take a "wage credit" (*i.e.*, may reduce or make a deduction from the cash payment of the required/offered wage) for facilities that are primarily for the benefit of the H-2B worker.

(3) Housing and food allowances are generally considered to be for the primary benefit of the worker.

(4) The wage credit (deduction) for facilities cannot exceed the fair market value or the actual cost to the employer of the facility (whichever is lower) and must be documented by the H-2B employer. *See* 29 CFR 531.

46c01 Deductions.

(a) "Deduction" means any amount by which the H-2B worker's cash wages are decreased. A deduction may be shown on the payroll records, marked as a deduction or a wage credit (*e.g.*, FICA, housing). However, a deduction will also be considered to exist where the H-2B worker's cash wages have been decreased through out-of-pocket expenditures made by the H-2B worker for business expenses of the H-2B employer incurred in obtaining the worker's H-2B status. Such expenses include:

(1) Attorney's or agent's fees incurred for any activity related to the TEC Application or petition filing

(2) Recruitment costs, including the cost of advertising or payment to a foreign or domestic recruitment service

Butler's Exh. 103, p. 002
Butler 02496

(3) A discussion of the FLSA's impact on visa fees and inbound and outbound transportation for H-2B workers is set forth in FOH 46c01(f) and FOH 46c02

(b) A wage violation will exist where a deduction causes the cash wage to fall below the required wage, unless the deduction is made in accordance with the H-2B regulations. If the H-2B worker receives the required wage despite the deduction, there is no violation.

(c) The employer must make all deductions from the worker's wages that are required by law (*e.g.*, income tax and FICA).

(d) The H-2B employer may make deductions not required by law if such deductions:

(1) are specified in the job offer;

(2) are reasonable (the employer may not profit from the deduction); and

(3) do not violate federal, state, or local law.

(e) Fees paid to USCIS when filing a Petition for Nonimmigrant Worker (Form I-129) may not be deducted to the extent they reduce the worker's wages to below the required wage. Such fees include:

(1) a basic filing fee of $320.00,

(2) an additional premium processing fee of $1,000.00 if expedited processing is requested, and

(3) a fraud prevention and detection fee of $150.00 mandated by the Save Our Small and Seasonal Business Act of 2005 to be paid by all H-2B petitioning employers.

(f) The statute requires that the employer pay the reasonable cost of the H-2B's return transportation to his/her last place of residence abroad if the employer terminates the worker prior to the end of the approved status. *See* 8 USC 1184(c)(5).

46c02 Effect of the FLSA.

(a) The H-2B regulations allow employers to receive reimbursement for certain specific costs, including government required passport and visa fees. Under the FLSA, visa fees are an employer business expense. Consequently, H-2B employers that are covered under the FLSA may not make deductions that would bring the employee below the FLSA minimum wage. *See* 20 CFR 655.22(g) and Field Assistance Bulletin 2009-2 (available at http://www.dol.gov/whd/FieldBulletins/FieldAssistanceBulletin2009_2.htm).

(b) FLSA minimum wage

Under the FLSA, the employer is liable for the inbound transportation of the H-2B worker and the outbound transportation when the worker's H-2B status has ended. If failure to pay such transportation costs results in a failure to pay the FLSA minimum wage in a non-overtime initial or terminal workweek or the regular rate in an overtime workweek, there is an FLSA wage violation for the affected initial or terminal workweek(s). *See* Field Assistance Bulletin 2009-2.

Butler's Exh. 104, p. 002

Introduction

The Office of Inspector General (OIG), Office of Investigations - Labor Racketeering and Fraud, prepared this advisory report to provide the U.S. Department of Labor (DOL) with recommendations for improvements to the application forms the Employment and Training Administration's (ETA) Office of Foreign Labor Certification (OFLC) uses in the H-2B visa program.

The OIG has routinely reported that one of the top management challenges facing DOL is ensuring U.S. employers comply with statutory requirements intended to protect U.S. workers against adverse impacts on their job opportunities, wages, and working conditions when U.S. employers hire foreign workers.[1] OIG investigations have shown OFLC programs are susceptible to fraud and abuse by dishonest immigration attorneys, employers, labor brokers, and organized criminal enterprises. OIG investigations have also uncovered instances of unscrupulous employers misusing OFLC programs to engage in human trafficking, with victims often exploited for economic gain.

Our recommendations below are based on the results of our investigative work in this area.

Background

The H-2B program allows employers to bring foreign nationals to the U.S. to fill temporary, non-agricultural jobs. H-2B workers may remain in the U.S. for one-year increments, up to three years total. After three years as an H-2B visa holder, workers must depart the U.S. and cannot return for an uninterrupted period of at least three months, before seeking readmission to the U.S. as an H-2B visa worker. Spouses of H-2B workers and their unmarried children under the age of 21 may seek entry into the United States as an H-4 dependent of the H-2B worker.

Under the Immigration and Nationality Act (INA), the total number of foreign nationals who may be issued H-2B visas in any fiscal year may not exceed 66,000. There is no cap on H-4 dependents.

The H-2B forms referenced in this report include:

a. The *H-2B Application for Temporary Employment Certification Form ETA-9142B* (9142B);

b. The general instructions portion of the *H-2B Application for Temporary Employment Certification Form ETA-9142B* (General Instructions); and

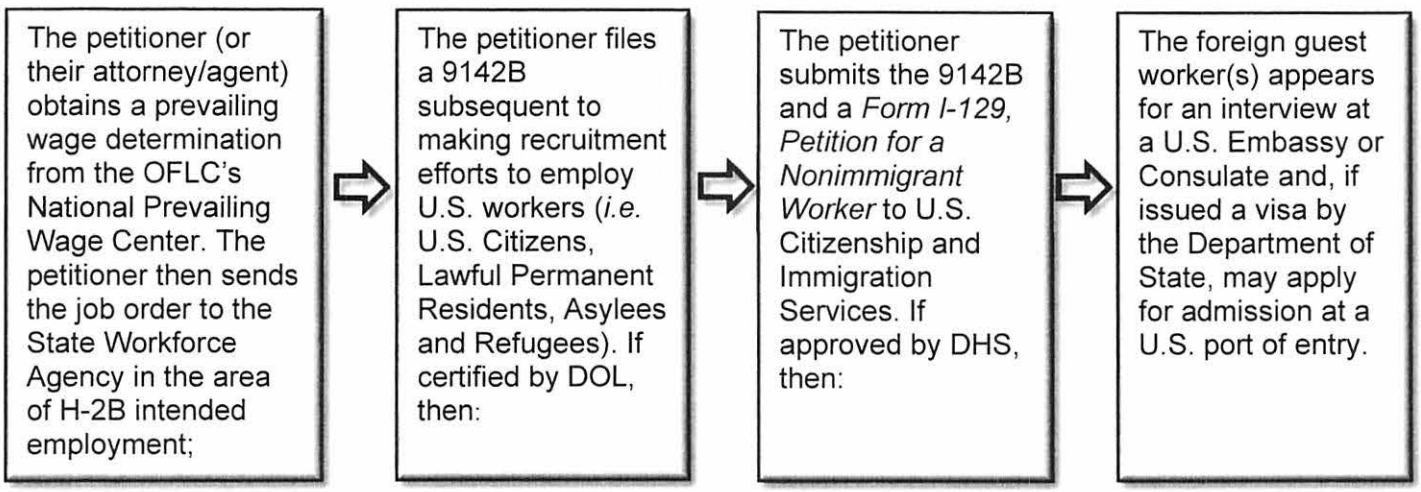
Butler 02500

c. The 9142B appendix, *H-2B Application for Temporary Employment Certification Form ETA-9142B – APPENDIX B* (Appendix B).

The general steps in obtaining authorization from the U.S. government to employ H-2B workers include:



Fraud Schemes

Over the last decade, the OIG, along with other federal partners, conducted more than 70 criminal investigations related to fraud in the H-2B program. This fraud was usually conducted by immigration attorneys, labor brokers, employers, and organized criminal enterprises. These perpetrators often conducted schemes where they filed fraudulent applications with DOL on behalf of individuals and fictitious companies. Typical schemes included:

1. **Terms of Employment Fraud**: The most common fraud investigated in the H-2B program has involved willful violations of the terms attested to by petitioners (employers seeking H-2B workers) on DOL and other government forms.

   Petitioners attest under penalty of perjury that they will adhere to the established legal terms of employment for H-2B workers. Common violations of the terms of employment include: deliberate failure to pay H-2B workers the legally established wage (prevailing wage), employment of H-2B workers outside the geographic locations of record (where job is posted and advertised for U.S. workers), and receipt of prohibited payments, such as illegal deductions from a worker's pay by the petitioner.

2. **Document Preparation Fraud**: Another common fraud the OIG has encountered occurs when a petitioner seeks assistance from a representative, such as an attorney or an agent, to recruit H-2B workers and to complete and submit the government forms and paperwork required to recruit H-2B workers for a particular

AR - 3564 Butler's Exh. 104, p. 004 Butler 02501

job. Some unscrupulous representatives intentionally inflate the number of workers being sought by a petitioner in order to "shop" the surplus of approved workers.

For example, a petitioner might tell its representative it needs 25 H-2B workers to supplement its workforce. The representative might then falsely claim 50 H-2B workers are needed and electronically submit the false statement to OFLC on behalf of the petitioner before the petitioner's signature is required on the 9142B. When the 50 approved H-2B workers arrive in country, the representative "shops" the extra 25 workers to other employers in need of labor. In some cases, the petitioners themselves are complicit in the fraud scheme and knowingly allow the representative to engage in this fraud scheme in exchange for something of value.

3. **Labor Contractor/Labor Leasing Fraud**: Labor leasing contractors (LL) often seek approvals for an extraordinary number of H-2B workers to lease that labor to industries where it is common to use foreign workers in their labor pool. This practice is not limited to, but is prevalent within, the hospitality industry since hotels and resorts are often "end user" clients that lease H-2B workers from LLs.

   Resorts, hotels and other types of end user entities legitimately experience "seasonal" or "peak load" time periods during a given year where they have an actual need to supplement their labor force. Unscrupulous LLs take advantage of the H-2B program by fraudulently obtaining certifications/approvals for more H-2B workers than they need. Investigations involving these types of LLs have been some of the most egregious foreign labor certification fraud cases the OIG has worked over the past decade. Many OIG foreign labor certification investigations involving unscrupulous LLs included some form of exploitation of the H-2B workers.

   The various H-2B fraud schemes committed by malfeasant LLs involve both the false attestations made on forms relevant to the approval process, and the violations LLs commit when they knowingly and deliberately fail to adhere to the terms of employment outlined in both the application forms and codified regulations covering the H-2B guest worker program. LLs often falsely attest to having jobs available for H-2B workers and agree to employ those workers immediately upon their arrival to the U.S., when in fact no such need exists.

   In addition to the fraud scenarios described above, disreputable LLs falsely inflate the number of workers needed. This practice allows LLs to acquire surplus workers before the cap closure to "shop" out to other employers or LLs for a fee (usually a percentage of the H-2B workers' hourly pay). To justify the request for an extraordinarily high number of H-2B workers, LLs submit fraudulent supplemental documentation to the approving government agencies to support the inflated request. The fraudulent documentation often includes fabricated employment intent letters and labor-leasing contracts from fictitious end-user clients, which claim that the LL is providing them with laborers.

Butler's Exh. 104, p. 005

Butler 02502

The LLs often violate the agreed upon terms of employment by placing H-2B workers in occupations and geographical locations different from those listed on the certified 9142B. These LLs also fail to pay the established prevailing wage on the 9142B. These LLs will openly market their surplus H-2B workers as legally documented workers to any potential business client needing labor. This is illegal subletting which is a violation of all three employment terms previously mentioned.

Additionally, this illegal subletting promulgated by the LLs results in the workers violating the terms of their H-2B work visas, thereby invalidating them. A common example of this visa fraud, which involves all the aforementioned violations, would be when an LL receives certification to employ 60 H-2B workers at hotels in Florida. The LL has an agreement with the hotels to provide them with 30 workers. The LL has certification for 30 additional workers and learns that a packaging warehouse in Delaware needs 20 workers and a fast food restaurant in Iowa needs 10 workers because both businesses posted their labor needs on the internet. The LL responds to both posts and sublets its surplus 30 workers out accordingly to both businesses.

Findings and Recommendations

The OIG has a long-standing legislative recommendation and concern with DOL's limited ability to verify the accuracy of information provided on labor condition applications.[2] Based on our H-2B investigations across all regions of the U.S., we have identified areas of potential vulnerability related to DOL forms required for H-2B certification.

Our recommendations below would achieve the following: (1) Require petitioners and preparers to affirm they read and understood the attestations they declared in the application; (2) Show that the petitioner and preparer understood the consequences of providing misrepresentations on H-2B related forms; and (3) Clarify the petitioner and preparer responsibilities for accurately completing
Form ETA-9142B.

Finding and Recommendation 1

a. Finding: The key elements of H-2B employment, such as the number of workers, their period of employment, geographic location, job position, and prevailing wage, are not succinctly summarized on Appendix B. This provides the petitioner some plausible deniability in terms of understanding the most critical elements of the H-2B program requirements. As previously stated, it is common for petitioners to argue that, although they signed the attestation on Appendix B, their attorney or agent provided them only the signature page, but no other portion of the Form ETA-9142B.

---

[2] DOL-OIG's legislative recommendations can be found in the *Semiannual Report to Congress* at www.oig.dol.gov

Butler's Exh. 104, p. 006

b. Recommendation: ETA should incorporate a summation of key attestations into Appendix B so the petitioner can expressly identify its legal responsibilities. This information could be auto-populated during the form preparation process, which would eliminate additional burden for preparers and guard against tampering.

c. Suggested language: at attestation section of Appendix B, Page B.3:

1) *I intend to employ the following number of H-2B workers:* _____ [as listed in Section B.7 of 9142B]

2) *For a period of employment lasting from:* _____ [as listed in Section B.5/6 of 9142B]

3) *To work as (job description):* _____ [as listed in Section F.a.1 of 9142B]

4) *At the following work location(s) only (County/State):* _____ [as listed in Section F.c.1 of 9142B]

5) *I will pay the H-2B workers the basic rate of pay of:*____ [as listed in Section G.1 of 9142B]

6) I will pay *the H-2B workers the overtime rate of pay of:* ____ [as listed in Section G.1a of 9142B]

Finding and Recommendation 2

a. Finding: The lack of reference to the entire body of Form ETA-9142B and Appendix B in the Appendix B attestation section leads to one of the most common defenses in both criminal and administrative cases involving the H-2B program, as many petitioners have claimed lack of knowledge of the forms filed on their behalf. It is common for petitioners to state that, although they signed the attestation on Appendix B, their attorney or agent only provided them the signature page portion of the Form ETA-9142B.

b. Recommendation: To demonstrate the petitioner has knowledge of the forms' contents and to guard against the shifting of culpability between petitioners and/or preparers in administrative or criminal proceedings, ETA should incorporate all pages of Form ETA-9142B and Appendix B into the attestation sections on page B.3 of Appendix B.

The language additions will provide petitioners and preparers with a more defined understanding of the legal requirements and prohibitions they must adhere to regarding their role in the filing process.

Butler's Exh. 104, p. 007

Butler 02504

These attestations are important because they help protect the foreign worker from exploitation and help dissuade nefarious petitioners, attorneys, or agents from conducting program fraud, abuse, and illegal profiteering-type activities, all of which strengthens the integrity of the H-2B program.

c. Suggested language: additions to the declaration/attestation section of Appendix B, page B.3:

I hereby designate the agent or attorney identified in Section D (if any) of the Form ETA -9142B to represent me for the purpose of labor certification and, by virtue of my signature in Block 3 below. I take full responsibility for the accuracy of any representations made by my agent or attorney ***on all Pages of the ETA-9142B.***

I have not received any illegal payment or other thing of value from prospective H-2B workers, agents, or any attorney for the submission of this application, and will not demand or accept such in the future [as listed in Section B.9. of 9142B APPENDIX B]

I declare under penalty of perjury that I have read and reviewed this application, ***including all Pages of Form ETA -9142B and Pages B.1-B.3 of this Appendix B****, and that to the best of my knowledge the information contained therein is true and accurate. I understand that to knowingly furnish false information in the preparation of this form and any supplement thereto or to aid, abet, or counsel another to do so is a felony punishable by* ***fines, imprisonment, or both (18 U.S.C. Sections 2, 1001, 18 U.S.C 1546 or 1621).***

Finding and Recommendation 3

a. Finding: Some deceitful attorneys and agents authorized to prepare applications on behalf of employers have violated that position of trust to facilitate H-2B fraud schemes. In some instances, employers were unknowing, while in other instances they were complicit.

b. Recommendation: To provide authorized preparers with a full understanding of their culpability for their role in fraud schemes related to the filing of their applications, and to be consistent with the statutory language listed in the other accompanying Form ETA 9142B documents, ETA should add both the visa fraud and perjury statute code violations to the preparer declaration.

c. Suggested language: at Attorney or Agent Declaration/attestation section of Appendix B, page B.1, last sentence:

...is a felony punishable by ***fines, imprisonment, or both (18 U.S.C. Sections 2, 1001, 1546 or 1621).***

AR - 3568 Butler's Exh. 104, p. 008 Butler 02505

Finding and Recommendation 4

a. Finding: The Form ETA-9142B – General Instructions has no explicit requirement to read the instructions entirely. Because of this, it can be challenging for the government to hold petitioners accountable for non-willful failure to comply program requirements when they present a defense claiming they failed to completely read the instructions. The current language in the instructions advises petitioners to "please read" the form.

b. Recommendation: At paragraph one of the ETA-9142B – General Instructions, ETA should strengthen the language advising both petitioners and preparers that they are required to read the contents of the instructions before completing the form.

c. Suggested language: at page 1, paragraph one of instructions:

> "***IMPORTANT: Employers and authorized preparers must read all instructions carefully*** before completing the Form…"

Finding and Recommendation 5

a. Finding: The Form ETA-9142B – General Instructions fails to emphasize the consequences for willfully making false or misleading statements on the ETA-9142B. An additional advisement regarding the consequences for furnishing fraudulent misrepresentations provides greater emphasis for preparers to be honest.

b. Recommendation: At page one, paragraph two of the General Instructions, ETA should include language advising of the consequences of misrepresentations made to the OFLC when filing the ETA Form 9142B.

c. Suggested language: at page 1, paragraph two of General Instructions:

> **Any employer or authorized preparer**, who knowingly and willingly furnishes any false information ***or fraudulent misrepresentations*** in the preparation of Form ETA-9142B and any supporting documentation, or aids, abets, or counsels another to do so is committing a federal offense, punishable by fines or imprisonment up to five years or both (18 U.S.C. §§ 2, 1001).

Finding and Recommendation 6

a. Finding: The Form ETA-9142B has no explicit requirement to read the contents of the Form ETA-9142B – General Instructions. The current language in the form advises petitioners to "please read" the form. This language makes it challenging for the government to hold petitioners accountable who use their failure to

Butler's Exh. 104, p. 009

Butler 02506

completely read the instructions as a basis for a defense of non-willful failure to comply with program requirements.

b. Recommendation: At paragraph one of the ETA Form 9142B, ETA should strengthen the language advising both petitioners and preparers that they are required to read the contents of the instructions.

c. Suggested language: at page 1, paragraph one of the ETA Form 9142B:

> "***IMPORTANT: Employers and authorized preparers must read the general instructions carefully*** before completing the Form…"

Conclusion

OIG investigations and our work with other federal partners continue to reveal common schemes and strategies used by petitioners and others to circumvent the laws and regulations pertaining to the H-2B program.

The OIG recognizes that ETA continues to collaborate with DOL and other federal and state partners to strengthen protections in the H-2B program. We believe the vulnerabilities we have identified in the Form ETA-9142B, Appendix B and Instructions, suggest additional commonsense safeguards are needed to further enhance the integrity of the H-2B program and improve the federal government's ability to take action against those who seek to abuse the program.

Pursuant to the Court's Order of November 30, 2018, 29 C.F.R. §18.50(c)(1)(i), the Administrator provides the following:

(1) Names of each individual with discoverable information

Given: the early stage of the litigation of this matter; that discovery has not yet been commenced, and; this information may change when the Administrator files his Witness and Exhibit List, at present, the Administrator answers as follows:

a. Each non-management employee employed by Respondents

Each employee, whether nonimmigrant or domestic, has knowledge of Respondents' actual pay practices, employment practices, positions held by employees, and location of work performed.

b. Each management employee employed by Respondents

Each management employee employed by Respondents, whether they supervise nonimmigrant and/or domestic employees, and regardless of their role regarding time and pay processing and/or time and pay practices, have some awareness of Respondents' employment practices, positions held by employees, and location of work performed.

JOINT MOTION FOR ENLARGEMENT OF TIME

Pursuant to 29 C.F.R. § 18.32 (b) and Fed. R. Civ. Proc. 6 (b) (1) (A), the parties move for an enlargement of time for the parties to submit their post-trial briefs. For good cause, the parties state as follows:

1. The following briefing schedule has been established:

July 9, 2019 – Post-trial briefs

This schedule was based on the assumption that the hearing transcript would be completed in 30 days or less. During the hearing, it was also established that the parties could move to extend the deadline if events warranted it.

2. As of Friday, June 21, 2019, the court reporter confirms that the transcript has not been prepared. The court reporter's best estimate is that the transcript will be prepared and a price quote available during the final week of June.

3. This unanticipated lengthening of the transcript preparation complicates the preparation of post-trial briefs. Specifically, Respondent 's counsel is out of the office this week.

4. The parties have conferred and have agreed that the deadline for post-trial briefs should be extended. The parties request that the post-trial briefs be delivered to the carrier on or before July 23, 2019.

CASE NO.: 2018-TNE-00019

In the Matter of:

ADMINISTRATOR, WAGE & HOUR DIVISION,
Prosecuting Party,

v.

BUTLER AMUSEMENTS, INC. AND
MICHAEL BRAJEVICH, an individual,
Respondents.

ORDER SEALING RESPONDENTS' EXHIBITS 20 AND 21 AND SEALING LIMITED PORTIONS OF TRANSCRIPT PENDING FOIA REVIEW

This matter arises under the H-2B provisions of the Immigration and Nationality Act ("INA"), 8 U.S.C. §§ 1101, *et seg.*, and the implementing regulations at 20 C.F.R. Part 655, Subpart A.[1] Attorney P. Wayne Pierce represents the Respondents. Attorney Jeannie Gorman represents the Administrator. I held a formal hearing in this matter on May 8 and 9, 2019, in San Francisco, California. The hearing transcript ("TR") was received on June 24, 2019.

At the hearing, Respondents moved to seal Respondents' exhibits 20 and 21 because they contained proprietary information related to the business. TR at 198-99. The Prosecuting Party did not object. *Id.* The request to seal also covered the portion of the hearing testimony from Steven Nittler regarding the revenue numbers found in Respondent exhibits 20 and 21. *Id.* at 199. Mr. Nittler is a certified public accountant that provides CPA-related services to Respondents. *Id.* at 193. Respondent exhibit 20 is a "collection of confidential financial documents that provides the source material" for calculating Respondents' exemption under the Fair Labor and Standards Act calculated in Respondent exhibit 21, including monthly revenue numbers found in both exhibit 20 and 21. *Id.* at 195, 197. Based upon the agreement of the parties and the testimony, I granted the motion to seal. *Id.* at 199.

The files maintained by this Office, including the hearing exhibits and hearing transcript, are subject to disclosure under the provisions of the Freedom of Information Act ("FOIA"), unless an exemption applies. 5 U.S.C. § 552; *Johnson v. U.S. Bancorp*, ARB No. 13-014, 13-046, ALJ No. 2010-

[1] This matter is brought under the substantive 2008 H-2B regulations at 20 C.F.R. Part 655, Subpart A, and the 2015 H-2B procedural regulations at 29 C.F.R. Part 503.

SOX-00037, slip op. at 3 (ARB July 22, 2013). The Department of Labor has implemented regulations that govern the FOIA process, and exemptions are determined at the time of the request, not at the time of the filing of the documents. 29 C.F.R. Part 70; *McDowell v. Doyon Drilling Servs., Ltd.*, ARB No. 97-053, ALJ NO. 96-TSC-00008, slip op. at 2 (ARB May 19, 1997).

Having reviewed the transcript and with the agreement of the parties, I order that Respondent exhibits 20 and 21 be placed in a sealed and separate envelope, clearly marked with notice that the parties object to disclosure and seek the procedures of 29 C.F.R. Part 70 prior to any release of information.

I further order that the hearing transcript be redacted and sealed as follows: page 198, at line 2 where the amount is stated, the entirety of line 4, and at line 9 where the percent is stated; page 199, at line 16, where the percent is stated; and page 222, at lines 15-16, 18-19, where the amount is stated. The unredacted copies of these pages are ordered to be placed in a sealed and separate envelope, clearly marked with notice that the parties object to disclosure and seek the procedures of 29 C.F.R. Part 70 prior to any release of information. Redacted copies will be inserted into the public copy of the hearing transcript. I further order that Jackson Reporting, who provided the court reporting and transcription services in this matter, be served with a copy of this order and that Jackson Reporting take whatever steps are necessary to seal the portions of the hearing transcript from disclosure as noted above until further order.

If the parties believe that any further redactions to the hearing transcript should be made, they must meet and confer with opposing counsel, and notify me in writing no later than 21 days from the date of this Order with the additional specific and limited redactions they believe should be made.

SO ORDERED.

STATEMENT OF ISSUES

The following issues were submitted for hearing. *Order Following Prehearing Conference* 2-3 (May 2, 2019).

1. Whether Butler substantially failed to comply with 20 C.F.R. § 655.22 (n) (2009) by misrepresenting its temporary need for 9 specified H-2B workers?

2. Whether Butler is liable for back wages of $26,955.40 and civil money penalties of $10,000.

3. Whether the Administrator is barred by the doctrine of laches from pursuing this action.

4. Whether Mr. Michael Brajevich is liable for violations in his individual capacity.

I. CONCLUSIONS OF LAW

A. Statutory and Regulatory Framework

This case involves the H-2B visa program under the Immigration and Nationality Act, 8 U.S.C. § 1101 (a) (15) (H) (ii) (b). Under the INA, Congress vested all enforcement authority in the Secretary of Homeland Security. 8 U.S.C. § 1103 (a) (1). In the H-2B program, violations consist of "a substantial failure to meet any of the conditions of the petition to admit ... or a willful misrepresentation of a material fact in such petition." *Id.* § 1184 (c) (14) (A). A "substantial failure" occurs when there is a "willful failure to comply with the requirements of [§ 1184] that constitutes a significant deviation from the terms and conditions of a petition." *Id.* § 1184 (c) (14) (D). If the Secretary of Homeland Security finds such a violation after a hearing, the Secretary may impose appropriate administrative remedies, including civil money penalties of up to $10,000 per violation. *Id.* § 1184 (c) (14) (A) (i). The Secretary has redelegated this authority to the Secretary of Labor.

During the relevant time frame in 2013, the Department of Labor was operating under the 2008 Rules. 20 C.F.R. § 655, subpart A (2009). This action is based exclusively on a purported violation of the 2008 Rules. Tr. 85 (testimony of Ms. Aguilar); R. Exh. 40, at 50 and 55 (corporate rep deposition of Ms. Aguilar). There are no allegations that the 2015 Rules were violated, nor were there any FLSA or I-129 violations, nor were any sub-regulatory guidance documents violated. Tr. 86, 100 and 115 (testimony of Ms. Aguilar). The Administrator does not enforce USCIS's regulations. Tr. 175 (testimony of Ms. Aguilar).

Responsibility for determining willful misrepresentations and substantial failures is subdelegated to the Administrator. *Id.* § 655.60. The substantive provisions at issue in this case are found in § 655.22 (n). Tr. 16 (opening statement of Administrator) (this is a misclassification case); Tr. 32 and 114 (testimony of Ms. Aguilar) (there was a single violation). In pertinent part,

- **Misrepresentation of need**. The employer must attest that "The dates of temporary need, reason for temporary need, and number of positions being requested for labor certification have been truly and accurately stated on the application." R. Exh. 76, at 42 (the "misrepresentation-of-need clause").

Further, the Administrator has adopted a practice that it enforces only the attestations in the ETA Form 9142, Tr. 26, 177 (testimony of Ms. Aguilar) (compliance is determined based upon the attestations); Tr. 34 (DOL does not enforce any other obligations other than the attestations); Tr. 77-78 (testimony of Ms. Aguilar) (violation was of attestation #13), and this practice alone is itself a valid and enforceable rule, 5 U.S.C. § 551 (4) (a "rule" is an "agency statement ... describing ... practice requirements of an agency"); *Associated Dry*

Goods Corp. v. Equal Employment Opportunity Comm'n, 543 F. Supp. 950, 965 (E.D. Va. 1982), *rev'd on other grounds*, 720 F.2d 804 (4th Cir. 1983) (agency's informal "practice" of notifying other carriers when a railroad requested an emergency exemption was still a rule subject to notice and comment). The misrepresentation-of-need clause appears *in pari materia* in attestation #13 of ETA Form 9142. R. Exh. 7, at 11.

In pertinent part, there are 2 remedies at issue in this case. In the event that Butler fails to pay wages at the level "specified under the application *and* required by § 655.22 (e)," then the Administrator may require back wages "to comply with *§ 655.22 (e)*," a section *not at issue* in this case. § 655.65 (i) (emphasis added).

In addition, the Administrator may assess civil money penalties under 2 mechanisms.[1] When dealing with back wages under the offered-wage obligation, CMP's are determined according to a fixed formula: They are "equal to the difference between the amount that should have been paid and the amount that actually was paid" to the workers, up to $10,000. § 655.65 (a). Alternatively, CMP's up to $10,000 per violation are available for "any substantial failure." § 655.65 (c). Under this alternative formulation, the Administrator "*shall* consider the type of violation committed and *other relevant factors*." § 655.65 (g) (emphasis added). When relevant, these mandatory "[o]ther factors" include 7 specified factors: the employer's history of prior violations, the number of workers employed and affected by the violations, the gravity of the violations, the employer's good faith efforts to comply, the employer's explanation of the violations, the employer's commitment to future compliance, and the employer's financial gain. *Id. See also* 8 U.S.C. § 1184 (c) (14)

[1] The Administrator introduced *no* evidence that CMP's were properly determined under either of these alternative mechanisms. *See, e.g.*, Tr. 162-164 (testimony of Ms. Aguilar).

(C) ("the highest [civil money] penalties shall be reserved for willful failures to meet any of the conditions of the petition that involve harm to United States workers.").

After the hearing, the A.L.J. is charged with issuing "findings and conclusions, with reasons and basis therefore, upon each material issue presented on the record." 20 C.F.R. § 655.75 (b). The A.L.J. reviews the Administrator's actions *de novo* without deference to the Administrator's determinations, *Administrator v. John Peroulis & Sons Sheep, Inc.*, No. 14-076, 2016 Westlaw 4942416, at *7 (Admin. Rev. Bd. Sept. 12, 2016) (construing comparable H-2A regulatory language); *Order Following Prehearing Conference* at 3 (May 2, 2019), decides "findings and conclusions, with reasons and basis therefore, upon each material issue presented on the record," 20 C.F.R. § 655.75 (b) (2009), and is authorized to "affirm, deny, reverse, or modify, in whole or in part," provided that the reasons for doing so are stated in the decision, § 655.75 (b).

B. Burden of Proof

To establish a violation, the Administrator bears the burden of proof by a preponderance of the evidence for each of the elements. 5 U.S.C. § 556 (d), *cited in Industrial Union Dep't v. American Petroleum Inst.*, 448 U.S. 607, 653 (1980). "**[N]o agency is entitled to presume** that the conduct of any person ... is unlawful or improper." House Comm. on the Judiciary, *Administrative Procedure Act: Report on S. 7*, H.R. Rep. No. 79-1980, at *36 (May 3, 1946) (emphasis added), *quoted in Director v. Greenwich Collieries Director*, 512 U.S. 267, 279 (1994). Further, it is well recognized that a party's "credible and credited evidence **must be accepted as true** except as the contrary has been shown or such evidence has been rebutted or impeached by duly credited evidence or by facts officially noticed and stated .... No

agency is authorized to stand mute and arbitrarily disbelieve credible evidence." H.R. Rep. No. 79-1980, at *36 (emphasis added), *quoted in Director*, 512 U.S. at 279.

C. The Administrator Is Bound by the Testimony of the Corporate Representative

Ms. Aguilar was nominated and deposed as the corporate representative for the Administrator. Tr. 83 (testimony of Ms. Aguilar). Ms. Aguilar served as the corporate representative on the topics of:

- The basis for calculating back wages and civil money penalties,
- The basis for all purported willful misrepresentations of material fact,
- The basis for all purported substantial failures to meet any legal requirement or condition under the H-2B program, and
- Any credits owed to Butler.

R. Exh. 41, at 3 (corporate rep deposition of Ms. Aguilar) (original pp. 6, 8, and 9).

As the corporate representative, Ms. Aguilar was obligated to use reasonable care to gather all information "known or reasonably available" to the entity. 29 C.F.R. § 18.64 (b) (6); *Advisory Comm. Notes* (1971); Jeffrey W. Stempel, *Depositions by Oral Examination*, in 7 James W. Moore, *Moore's Federal Practice* § 30.25 [3], at 30- 67 to -68 (3d ed. 2018); Tr. 83-84 (testimony of Ms. Aguilar). Ms. Aguilar's testimony "binds the entity with its testimony. This means that a corporation generally cannot present a theory of the facts that differs from that articulated by the designated Rule 30 (b) (6) representative." Stempel, § 30.25 [3], at 30-71. As such, Ms. Aguilar's testimony was the Administrator's testimony. *Sigmund v. Starwood Urban Retail VI, LLC*, 236 F.R.D. 43, 45 (D.D.C. 2006). The entity's theory of the case cannot contradict the testimony of the corporate representative. *Diamond Triumph Auto Glass, Inc. v. Safelite Glass Corp.*, 441 F. Supp. 2d 695, 722 n. 17 (M.D. Pa. 2006); *Rainey v.*

American Forest & Paper Ass'n, Inc., 26 F. Supp. 2d 82, 87 (D.D.C. 1998) (unless the entity can prove that the information was not known or accessible, the entity cannot later proffer a new or different version that could have been presented at the deposition of the corporate representative).

D. Elements of a Violation

The Administrator's burden is to prove each of the elements for a violation.

1. Duty. The first element is that a statute or regulation imposed a duty on Butler. Tr. 115 (testimony of Ms. Aguilar) (there must have been a statutory or regulatory duty). *See Administrator v. Camo Technologies, Inc.*, No. 11-026, 2012 Westlaw 4321026, at *6 (Admin. Rev. Bd. Aug. 31, 2012) (employer's conduct of attempting to comply showed a duty); *Morello Bros. Constr., Inc.*, No. 85-DBA-116, 1987 Westlaw 247058, at *7 (OALJ Apr. 16, 1987) ("willfully simply means a voluntary intentional violation of a known legal duty") (*quoting United States v. Drape*, 668 F.2d 22, 26 (1st Cir. 1982)). Further, attestations are not enforceable, only the contents of regulatory requirements. *Island Holdings LLC*, No. 2013-PWD-00002, at *8, 11 (BALCA Dec. 3, 2013) (*en banc*) (employer incurs no obligation unless contained in the codified regulations contained in the Code of Federal Regulations).

2. Knowledge. Second, the Administrator must show that Butler knew the statutory or regulatory duty applied to its conduct. *See McLaughlin v. Richland Shoe Co.*, 486 U.S. 128, 134 (1988) (rejecting a willfulness standard that required nothing more than the employer's awareness that the statute possibly applied to it); *Morello Bros. Constr., Inc.*, No. 85-DBA-116, 1987 Westlaw 247058, at *8 (OALJ Apr. 16, 1987) (employer's ignorance was no defense because others in the company knew of the statutory duty). Thus, an agency with enforcement authority must provide notice of its interpretation of what is prohibited

before it may impose penalties. *General Elec. Co. v. United States Env'tl Protection Agency*, 53 F.3d 1324, 1330-32 (D.C. Cir. 1995); *Satellite Broadcasting Co. v. Federal Communications Comm'n*, 824 F.2d 1, 3-4 (D.C. Cir. 1987) (agency may not penalize for a violation without first providing notice of its interpretation).

3. Breach. Third, Butler must violate the statutory or regulatory duty. Tr. 115 (testimony of Ms. Aguilar) (there must have been a statutory or regulatory duty that was violated). *See Trans World Airlines v. Thurston*, 469 U.S. 111, 128 n. 22 (1985) (rejecting as "harsh" a willfulness standard that called for nothing more than showing a statutory violation).

4. Willfulness. Fourth, Butler must commit a "'willful failure,'" which means "a knowing failure or a reckless disregard with respect to whether the conduct was contrary" to 8 U.S.C. § 1184 (c) or the 2008 Rules. § 655.65 (e). DOL adopted this standard by expressly relying upon *McLaughlin v. Richland Shoe Co.*, 486 U.S. 128 (1988) and *Trans World Airlines v. Thurston*, 469 U.S. 111 (1985). § 655.65 (e). *McLaughlin* noted that "willful" is synonymous with voluntary, deliberate, and intentional, and held that it means the employer "either knew or showed reckless disregard for the matter of whether its conduct was prohibited by the statute." *McLaughlin*, 486 U.S. at 133. Willfulness is not established by conduct that is "merely negligent" but not reckless, such as the absence of a reasonable belief that the employer was complying with the statute, or a good-faith but incorrect "assumption" that the employer was complying. *McLaughlin*, 486 U.S. at 133, 134, 135 & n. 13. Willfulness is not shown when the employer "simply knew of the potential applicability" of the statute. *Trans World*, 469 U.S. at 127. *See also Wayne J. Griffin Elec., Inc.*, No. 93-05, 1993 Westlaw 537380, at *4 (W.A.B. Oct. 29, 1993) (Where the employer "has

explicit knowledge of violative wage payment practices" and "takes no action to correct the wrong, and violations continue," employer has acted willfully). Nor is willfulness shown through inadvertence, *A. Vento Constr.*, No. 87-51, 1990 Westlaw 484312, at *3 (W.A.B. Oct. 17, 1990), or "inaccurate," but not falsified, records that omitted several employees' names, *Gaines Elec. Serv. Co.*, No. 87-48, 1991 Westlaw 494684, at *3 (W.A.B. Feb. 12, 1991).

To show a knowing or reckless violation, both the *McLaughlin* and *Trans World Airlines* cases illustrate that employers are entitled to rely upon legal advice and professional agents to properly handle H-2B applications. *McLaughlin*, 486 U.S. at 134 (seeking legal advice shows the employer's reasonableness, not recklessness); *Trans World*, 469 U.S. at 129 (employer sought legal advice whether its conduct violated the statute and modified its policy based on that advice, even though the union disagreed with the new policy and the employer believed that the revised action was unnecessary; no evidence that employer was told by counsel that its new policy was discriminatory). Further, the Supreme Court has firmly established in both of those cases that the Administrator must establish that Butler's interpretation was so baseless as to be reckless. *Trans World*, 469 U.S. at 129-30. Similarly, an employer may legitimately rely upon the agency's affirmative advice or interpretations, as well as the failure to issue citations in similar circumstances. Wage and Hour Division, *Field Operations Handbook* § 53a01 (Feb. 5, 1993); *Dalheim v. KDFW-TV*, 712 F. Supp. 533, 539 (N.D. Tex. 1989) (employer relied upon prior WHD audit and advice from legal counsel).

5. Substantiality. Fifth, Butler's violation must be a significant deviation from the terms and conditions of its petition. 8 U.S.C. § 1184 (c) (14) (D). The "petition" within the

meaning of the statute is the I-129 submitted to USCIS, 8 U.S.C. § 1571 (b) (H-2B petition "should be processed not later than 30 days after the filing of the petition"), not the 2008 Rules or the WHD's enforcement policies. *See Administrator v. Camo Technologies, Inc.*, No. 11-026, 2012 Westlaw 4321026, at *2 (Admin. Rev. Bd. Aug. 31, 2012) (compliance with the essential requirements of a statute or regulation can show there was no substantial failure).

II. BUTLER DID NOT SUBSTANTIALLY FAIL TO COMPLY BY MISREPRESENTING ITS TEMPORARY NEED FOR 9 SPECIFIED H-2B WORKERS

A. Proposed Findings of Fact

1. Regulatory preconditions. The Administrator has failed to meet the pre-conditions for alleging a violation of 20 C.F.R. § 655.22 (n) (2009). Despite the formulation of the issues submitted for hearing, *Order Following Prehearing Conference* 2 (May 2, 2019), the misrepresentation-of-need clause says nothing at all about the impropriety of compensating workers at the approved wage rate when they were not performing the job duties for the approved job code. This formulation of the issue also elides an important pre-condition for violating that clause, which requires that specified information must be "truly and accurately stated *on the application*." R. Exh. 76, at 42. This is the very definition of a "misrepresentation." Tr. 113 (testimony of Ms. Aguilar) (misrepresentation occurs in the application when submitted); *id.* at 125-126 (the 2008 Rule required a misstatement in the #9142 itself). The Secretary of Labor acknowledged as much by indicating that the only method within the 2008 Rule for charging employers when H-2B workers served outside of the approved job duties was through willful misrepresentations in the application. R. Exh. 96, at 3; R. Exh. 101, at 5; Tr. 117-118 (testimony of Ms. Aguilar) (interpreting Exhs. 96

and 101). The Administrator's shortcoming is that he never charged a misrepresentation in the application. *Id.* Instead, the Administrator only charged a "substantial failure," which occurs when the employer fails to perform the terms and conditions of the ETA Form 9142 during the following season. *Id.* at 113-114.[2] The fact that Ms. Aguilar was unable to answer the most basic questions merely underscores that the 2008 Rule did not have a misclassification regulation.

2. Regulatory duty. Although the Administrator conceded that he must prove that Butler had a relevant statutory or regulatory duty, Tr. 115 (testimony of Ms. Aguilar), the Administrator was unable to do so.

- **Job description.** During the application process, Ms. Aguilar admitted that the 2008 Rule said nothing at all about how to request a job code. Tr. 119-120 (testimony of Ms. Aguilar). She further admitted that the 2008 Rule said nothing as to how much detail to provide when submitting the job code, and that she did not know if there was a requirement for how many job tasks to provide, *id.* at 127, how to complete the #9142, *id.* at 144, or the correct test to determine a job code, *id.* at 143-144. She also testified that she had never seen instructions for describing job duties, and she did not know whether DOL provided such instructions. *Id.* at 142. Because the 2008 Rule did not specify the relevant test, Ms. Aguilar did not know how employers were to fill out the #9142. R. Exh. 40, at 123 (corporate rep depo of Ms. Aguilar).
- **Limitations on job duties.** Once the season begins, the Administrator's corporate representative frankly conceded that the 2008 Rule did not limit the employer's

[2] Needless to say, the Administrator's omission is highly prejudicial. If the Administrator had complied with the pre-condition and properly charged a misrepresentation in the #9142 that was submitted on November 7, 2012, R. Exh. 7, at 1, and approved on December 14, 2012, R. Exh. 8, at 1, this case should be dismissed pursuant to the statute of limitations.

assigned job duties to the job code requested. R. Exh. 40, at 81-82, 87 and 102. At trial, Ms. Aguilar alternatively professed that the 2008 Rule said "absolutely nothing" about what must be done for an H-2B worker to stay within the assigned job code, Tr. 123-124 (testimony of Ms. Aguilar), but she also testified that she did not know whether the 2008 Rule required H-2B workers to stay within the requested job code, Tr. 116 (testimony of Ms. Aguilar).

Under these circumstances, attempting to impose a regulatory duty would seriously undermine the public's ability to understand the rules that must be followed.

Ms. Aguilar also conceded that she was completely unaware that OFLC permitted the combination of job tasks outside of the norm for a single occupation by compensating with "an additional point." Tr. 145-146 (testimony of Ms. Aguilar) (interpreting R. Exh. 98, at 4). To overcome this deficiency, Ms. Aguilar claimed that an H-2B worker must receive the job code that "more closely aligns" with his "primary duties" performed, Tr. 178-180 (testimony of Ms. Aguilar), but then acknowledged that the 2008 Rule did not require those specific tests to determine a job code, *id.* at 189, or any other tests, *id.* at 143-144. In fact, the only staffing requirement for H-2B employers in 2013 was to "offer terms and conditions of employment which are consistent with the nature of the occupation ... and industry ...." R. Exh. 77, at 4 (8 C.F.R. § 214.2 (h) (6) (iii) (B)).

3. Knowledge. Given that the Administrator was completely unable to establish any regulatory provisions for describing jobs or limiting job duties, it is not surprising that the Administrator was unable to establish that Butler knew of any such restrictions. Mr. Brajevich testified consistently that

- He was not aware of any 2008 regulatory restrictions or tests for describing or limiting job duties or concentrating job duties to promote efficiency, Tr. 279, 304-305, 308, 310, 320 (testimony of Mr. Brajevich), and he denied that the "primary duty" rule or the "most closely aligned" tests were found in the 2008 Rule, *id.* at 309.
- He was not aware of any 2008 regulations governing FLSA-exempt employers. *Id.* at 294.
- He had never heard of SOC codes or how OFLC performed job coding. *Id.* at 304.
- He had never reviewed the O*Net job descriptions for amusement ride attendants. *Id.* at 305.

He did establish his belief that he satisfied his obligation under R. Exh. 98, at 1, to provide sufficient detail to generate a relevant job code. Tr. 307-308 (testimony of Mr. Brajevich). And he testified that he thought his company was complying in 2013. *Id.* at 359, 363-364.

4. Violation. Because the Administrator was unable to establish a relevant duty that was known to Butler, the Administrator was never able to establish a violation. Ms. Aguilar readily admitted that she could not say how to show a violation when there were no rules for how to describe the job. *Id.* at 129 (testimony of Ms. Aguilar). Ms. Aguilar testified that she did not know whether the 2008 Rule even required the Administrator to establish that the #9142 was false, *id.* at 124, even though the misrepresentation-of-need clause expressly requires as much. Ms. Aguilar testified that the citation was for failing to state the reasons for temporary need. *Id.* at 77-78, 124. Ms. Aguilar was completely unable to establish any affirmative falsity. According to Ms. Aguilar, such falsity was determined "solely" by the statement of temporary need, *id.* at 126, but she readily conceded that there was not a single falsity in the statement of temporary need, *id.* at 127. Even if an omission

of facts could be construed as a violation of the misrepresentation-of-need clause, which it plainly cannot, Ms. Aguilar was unable to establish any material omission without establishing an obligation to describe the job in a particular manner.

Nor was the Administrator able to show that any of Butler's H-2B workers were assigned outside of their job code. Applying for the job code begins by choosing a job title, R. Exh. 86, at 9, but Ms. Aguilar did not know this simple fact, Tr. 132 (testimony of Ms. Aguilar), and was not even aware that the OFLC website allowed job title searches until she was deposed in this case, Tr. 131 (testimony of Ms. Aguilar). Ms. Aguilar conceded that Butler was free to search any job title it wanted. *Id.* at 132. Under the job title test, the best match for "amusement mechanics," "amusement drivers," and "amusement supervisors"[3] was the very job code that Butler used, 39-3091. *Id.* at 131-132. Although Ms. Aguilar had concerns regarding specific duties, *id.* at 47, 60, every single one of those duties was listed as an approved job duty for the carnival attendant selected by Butler, *id.* at 133-141. In light of this, even Ms. Aguilar conceded that it was "possible" that all of these workers had served entirely within their assigned job code. R. Exh. 40, at 121 (corporate rep depo of Ms. Aguilar). Nor did the Administrator rebut Butler's testimony that it was merely being efficient by concentrating approved duties in a small number of H-2B workers. Tr. at 303-304, 318-319 (testimony of Mr. Brajevich).

Needless to say, Butler satisfied the only regulatory staffing requirement, which was to comply with industry practice. This follows because the Butler carnival is staffed just like other carnivals. Tr. 280, 307 (testimony of Mr. Brajevich).

---

[3] Butler reasonably searched these job titles because all H-2B workers performed carnival work. Tr. 352 (testimony of Mr. Brajevich).

5. Willfulness. The Administrator was also unable to establish that Butler had proceeded willfully or in reckless disregard of its obligation to comply. Ms. Aguilar spent well over 100 hours working this case, Tr. 146 (testimony of Ms. Aguilar), yet there were dozens and dozens of basic issues she was unable to address. Even though the Secretary of Labor claims that the entire application process only takes one hour, 20 min., Ms. Aguilar spent many hours just researching the job-code issue, *id.* at 146-147, and was still unable to answer numerous basic questions. Even Ms. Aguilar conceded that she did not know whether Butler was obligated to exert more effort than she herself had done with unlimited time during the past 6 years, an effort which she readily admitted was "very reasonable." *Id.* at 150. The Administrator has foreclosed common devices by which employers could promote compliance, such as forbidding investigators to put advice to employers in writing or abandoning opinion letters. *Id.* at 149-150. Because the 2008 Rule does not specify any particular tests, Butler did the best that it could under the circumstances. Tr. 309 (testimony of Mr. Brajevich).

Butler also reasonably relied upon the most knowledgeable and experienced consultant in the industry, Mr. James Judkins. Mr. Judkins is well recognized for his expertise and he has served Butler without incident for nearly 2 decades. *Id.* at 274-275. Mr. Judkins was "crucial" because Mr. Brajevich had never applied to the H-2B program previously. *Id.* Mr. Judkins advised that it was proper to use carnival workers in these ways to make the company more efficient. *Id.* at 279. Mr. Brajevich did, and was entitled to, rely upon a professional consultant such as Mr. Judkins. *Id.* at 305-306. Given that there was nothing to indicate that the company was acting improperly, *id.* at 279, and that the OFLC had specifically approved Butler to follow industry practice and operate the company

efficiently, *id.* at 292-293, it was quite reasonable – and certainly not reckless – for Butler to pursue this course of action.

6. Substantiality. Finally, the Administrator failed to carry his burden to establish a "significant deviation." Even Ms. Aguilar conceded that she was not aware of any evidence of a significant deviation. Tr. 152 (testimony of Ms. Aguilar).

Nor was any purported violation "substantial." 29 C.F.R. § 655.60 (b). The H-2A program has long recognized the "incidental-duty" rule. Under the H-2A program, "incidental activities" for agricultural labor include operating roadside retail stands, managing pick-your-own activities, and driving a tractor for a hay ride. 73 Fed. Reg. 77110, 77117 (Dec. 18, 2008). It would be difficult or impossible to list all potential "minor and incidental" job responsibilities. *Id.* at 78118. This provision is relevant under the rule from *GT Trans, Inc.*, 2016-TLN-29, at *6 (BALCA Apr. 15, 2016) (borrowing the H-1B definition of "place of employment" to define the interchangeable term, "worksite") and *Brook Ledge, Inc.*, 2016-TLN-00033, at *5-6 (BALCA May 10, 2016) (same).

B. Specific Conclusions of Law

The Administrator failed to show an enforceable regulation that Butler knowingly or recklessly disregarded when assigning its H-2B workers to job duties.

III. BUTLER IS NOT LIABLE FOR BACK WAGES OR CIVIL MONEY PENALTIES

A. Proposed Findings of Fact

Even if the Administrator could establish a regulatory violation, the Administrator would still not be entitled to back wages or civil money penalties. As indicated in the opening section, the 2008 Rule simply does not allow back wages as a remedy for this purported violation. R. Exh. 76, at 46 (§ 655.65 (i)).

1. Back wage calculations. The Administrator's back wage calculations have been strikingly inconsistent. The Administrator has calculated back wages 6 different ways. R. Exh. 14, at 1 (original calculation); R. Exh. 16 (revised calculation); R. Exh. 19, at 1 (original determination letter); R. Exh. 106, at 2 (initial disclosures); *Administrator's Motion to Amend* and *Prehearing Statement* (Apr. 8, 2019); R. Exh. 19, at 5 (amended determination letter). These endless revisions have been borne by such elementary mistakes as limiting the prevailing wage rate to a single locality, Tr. 90, 92, 95 (testimony of Ms. Aguilar), a lack of awareness for the special procedures governing carnival workers, *id.*; R. Exh. 79 (carnival worker special procedures); R. Exh. 85 (same), relying upon localities where these workers never performed, Tr. 97 (testimony of Ms. Aguilar), relying upon the wrong year of data, *id.* at 165, and a striking inability to explain differences from one calculation to the next, *id.* at 93, 165.

The major difference in the parties' calculation of back wages is the Administrator's wholesale disregard of Butler's *countersigned* time records. Although the Administrator claimed that there were no timekeeping records at all, Tr. 17 (opening statement), this was plainly not true. Ms. Aguilar testified that Butler's contemporaneous time records were provided to her, *id.* at 108 (testimony of Ms. Aguilar), and that she knew they were countersigned each week by each worker, *id.* at 108. Ms. Aguilar completely rejected these time records because

- It was "difficult to get a lot of information from these." *Id.* at 39.
- The time records would have been "more credible" if they had been handwritten, "more contemporaneous," or the workers had "interact[ed] with the document" rather than office personnel re-typing them. *Id.* at 40, 71, 154.

- Unknown and unspecified workers claimed that the timesheets did not include pre-opening work. *Id.* at 45, 71.
- The time records were "just a random document." *Id.* at 158.

Once she dismissed the time records out of hand, Ms. Aguilar testified that she now had license to "reconstruct" based upon the most reasonable estimate of hours worked. *Id.*

Ms. Aguilar's disregard of countersigned time records should itself be rejected. She admits that FLSA-exempt employers such as Butler were not required to keep any time records. *Id.* at 100, 106-107, 169; R. Exh. 20 & 21 (calculation of FLSA exemption). Inexplicably, she rejected *countersigned* time records without any further investigation why they were countersigned, something that she admits she should have done. Tr. 109 (testimony of Ms. Aguilar). If she had investigated, she would have determined that the time records recorded actual hours worked. *Id.* at 314 (testimony of Mr. Brajevich). Ultimately, Ms. Aguilar rejected Butler's business records without any authority or regulatory basis under the H-2B program, which does not require any particular timekeeping method. *Id.* at 156 (testimony of Ms. Aguilar). Butler has been audited nearly every year for more than a dozen years, and no other state agency has ever challenged the reliability of Butler's timekeeping. *Id.* at 291-292 (testimony of Mr. Brajevich).

The rest of Butler's disputes with the Administrator's back wage calculation is captured in the evidence summary marked as R. Exh. 47. As reflected in that exhibit, along with the numerous source documents identified in the column headings,

- **Work weeks**. Butler accepted the number of work weeks that the Administrator had calculated pre-hearing.

- **Average hours per week.** Butler rejected the Administrator's "reconstructed" average hours of work per week of 40 (based on the claimed timekeeping deficiency), Tr. 68, 153, 159 (testimony of Ms. Aguilar), and relied upon countersigned timesheets produced each week and found in designated pages within the payroll records marked as R. Exh. 26.
- **Pay rate.** Unlike the Administrator, Butler determined the hourly pay range based on the alternative job codes proposed by the Administrator.
- **Average pay per hour.** Butler agreed with the Administrator to use the average pay rate for the alternative job codes, Tr. 70 (testimony of Ms. Aguilar), but limited it to the 4 areas of intended employment where these individuals actually worked rather than the Administrator's largely-irrelevant list of 35 locations worked by all other units, *id.* at 97, 157, 183-186 (Ms. Aguilar did not know whether the worksites, which were plainly grouped within the payroll, had been provided to her, or where the specific workers had worked); *id.* at 187 (Ms. Aguilar admitted that she would have made the same calculation if she believed that the entire payroll – including where the workers were employed – was credible). Butler also relied upon skill level I wages,[4] rather than the "mean" (or average) wages that Ms. Aguilar used.
- **Back wage claim.** Butler calculated total pay based upon these figures, which were substantially lower than the Administrator's figures.

[4] Butler requested skill level I wages, *id.* at 314-315 (testimony of Mr. Brajevich), and OFLC issued them, R. Exh. 5, at 4, but this was a factor with which Ms. Aguilar was completely unfamiliar, Tr. 120-123, 160-161 (testimony of Ms. Aguilar),

- **Wages paid.** Butler juxtaposed the wages that were actually paid, which established that 4 of the individuals were overpaid and 5 of them had nominal "shortages" if entitled to the Administrator's alternative job codes.

2. Credits. Butler also claimed a series of credits. A credit is an amount that is used to offset legal obligations. Tr. 101 (testimony of Ms. Aguilar). The 2008 Rule did not say what rules apply when employers such as Butler were FLSA exempt. *Id.* Ms. Aguilar acknowledged that H-2B employers can have credits as offsets. *Id.* at 169. None of the near-annual state wage and hour audits had ever challenged any of Butler's credits. *Id.* at 291 (testimony of Mr. Brajevich).

The major dispute concerned the "primary benefit rule." Ms. Aguilar conceded that FLSA-exempt employers such as Butler were also exempt from the primary benefit rule, and that the 2008 Rule did not independently apply the primary benefit rule to Butler. Tr. 102 (testimony of Ms. Aguilar). *Accord Administrator v. Wade Shows, Inc.*, No. 2013-TNE-1, at *8 (OALJ Apr. 10, 2015), *aff'd in part & dismissed*, No. 15-052 (ARB June 20, 2017), *modified on other grounds*, No. 15-052 (ARB Sept. 11, 2017) (attached as R. Exh. 100). Despite having correctly conceded the point, Ms. Aguilar belatedly attempted to inject primary benefit arguments, which should be rejected because not regulatorily required.

Ms. Aguilar also acknowledged that she did not know the significance of OFLC approving Butler to follow industry practice related to weekly salaries, housing, and transportation. Because she was unfamiliar with carnival practices, she was unable to address whether Butler had complied with prevailing practice. Id. at 101. Thus, it was uncontested that Butler was following industry practice on these and other issues. *Id.* at 287, 292-293 (testimony of Mr. Brajevich).

The Administrator also never challenged, much less charged, that Butler satisfied the threshold requirements under the 2008 Rule for claiming "deductions" as credits. *See* R. Exh. 76, at 41 (§ 655.22 (g) (1)). Thus, it was undisputed that the H-2B workers were well aware of these credits. More than 90% of the workers were returning from the prior year, so they already knew the Butler system. Tr. 282 (testimony of Mr. Brajevich). Mr. Judkins and his staff were also responsible for educating all workers on these issues so that they could get approved at the consulate. *Id.* at 280-282. The same information was then reinforced as part of Butler's orientation upon arrival at the beginning of the season. *Id.* at 284. And the workers themselves have affirmed their knowledge directly to Mr. Brajevich, *id.* at 283, and signed a witness statement to the same effect, R. Exh. 39, at 1. This witness statement included 3 of the 9 specified individuals who continue to work for Butler. Tr. 283-284 (testimony of Mr. Brajevich).

These credits were also "reasonable." Although that term is not defined for FLSA-exempt employers within the 2008 Rule, the credits were "reasonable" because they were based upon Butler's cost basis and did not include any profit. They were also reasonable because the parties agreed to them. R. Exh. 39, at 1.

Turning now to the calculation of credits as reflected in R. Exh. 47.

- **Income tax**. It is undisputed that Butler paid the employee's obligation for income taxes. Tr. 111 (testimony of Ms. Aguilar); Tr. 246, 248, 262, 264 (testimony of Mr. Tom Shobaken); Tr. 300 (testimony of Mr. Brajevich). It is undisputed that there are no regulatory restrictions on an employer claiming a credit for paying the worker's portion of the income tax. Tr. 111 (testimony of Ms. Aguilar); Tr. 300 (testimony of

Mr. Brajevich). The source documents for the payment of income taxes are gathered in R. Exh. 37 and calculated in R. Exh. 47.

- **Housing.** It is undisputed that housing is a normal expense of living and it has value. Tr. 104 (testimony of Ms. Aguilar). It is also undisputed that carnivals could take a housing credit in 2013.[5] Tr. 105, 188 (testimony of Ms. Aguilar); R. Exh. 83 (guidance letter from DOL). OFLC approved Butler to provide housing consistent with industry practice, and that is exactly what Butler did. Tr. 287, 288, 294-295 (testimony of Mr. Brajevich). Butler's bunkhouses included valuable, modern living conveniences. Tr. 295 (testimony of Mr. Brajevich). The source documents for the cost of housing are gathered in R. Exh. 31 and calculated in R. Exh. 31, at 1, and R. Exh. 47.
- **Relocation travel.** It is undisputed that relocation travel is available for credit to FLSA-exempt employers. Tr. 111 (testimony of Ms. Aguilar). OFLC approved Butler to provide relocation travel consistent with industry practice, and that is exactly what Butler did. Tr. 287, 288 (testimony of Mr. Brajevich). It was reasonable to divide total relocation cost by all workers. Tr. 112 (testimony of Ms.

[5] Ms. Aguilar implied, without actually contending, that there might be issues relating to primary benefit, cost basis, voluntariness, and health and safety standards. Tr. 174 (testimony of Ms. Aguilar). Even if the primary benefit rule applies to FLSA-exempt employers, Butler never benefited from having workers near the worksite and had no way to call them back to work during off hours. Tr. 373-374 (testimony of Mr. Brajevich). Mr. Brajevich recited at great length a list of reasons why employees primarily benefit from mobile housing, *id.* at 296-299, 372-374, and that testimony was undisputed. All of Butler's housing credit was determined solely by cost basis. Tr. 201-211 (testimony of Mr. Nittler). Bunkhouses were always provided voluntarily, and Butler's bunkhouses were frequently inspected and approved under local health and safety ordinances. Tr. 299 (testimony of Mr. Brajevich).

Aguilar). The source documents for the cost of in-and-out-of-country travel are gathered in R. Exh. 33 and calculated in R. Exh. 34, at 1, and R. Exh. 47.

- **Local convenience travel**. It is undisputed that local convenience travel is a classic benefit for workers. Tr. 113 (testimony of Ms. Aguilar). OFLC approved Butler to provide local convenience travel consistent with industry practice, and that is exactly what Butler did. Tr. 287, 288 (testimony of Mr. Brajevich). The source documents for the cost of local convenience travel are gathered in R. Exh. 35 and calculated in R. Exh. 36, at 1, and R. Exh. 47.
- **Prepayment plan**. It is undisputed that an employer can pay wages in advance and take a credit toward future obligations. Tr. 103 (testimony of Ms. Aguilar). DOL has long recognized that employers may prepay for work to be performed later in the season, then recoup that credit later, and that this allows employees the benefit of a fairly stable wage rate even as weekly hours fluctuate. *E.g.*, *Wage-And-Hour Opinion Letter* (May 21, 1971); *Wage-And-Hour Opinion Letter No. FLSA 2005-3*, at ¶ 4 (Jan. 7, 2005) < http://www.dol.gov/whd/opinion/FLSA/2005/2005_01_07_3_FLSA_Prepayment Plan.pdf >; U.S. Department of Labor, Wage & Hour Division, *Field Operations Handbook* ¶ 32j16c (2016) < http://www.dol.gov/whd/FOH/FOH_Ch32.pdf >. OFLC approved Butler to provide a weekly salary consistent with industry practice, and that is exactly what Butler did. Tr. 287, 288-289, 293 (testimony of Mr. Brajevich). This benefits employees because it averages out and they get paid for what they are owed. *Id.* at 290. Butler is audited nearly every year and no state officials have ever suggested there was a problem with their prepayment plan. *Id.* at

291. This amount is available as a credit because Butler's prepayment plan was based upon 40 hours per week, even though the workers never reached that amount during the early season at issue in this case.

The very purpose of taking these credits for benefits conferred is restitutionary: to put the parties in the position that they would have been in, the Administrator's purported goal in this case, Tr. 52 (testimony of Ms. Aguilar). *See, e.g., Wage-And-Hour Opinion Letter No. FLSA 2005-3*, at ¶ 4 (Jan. 7, 2005) (discussing the purpose of a prepayment plan) < http://www.dol.gov/whd/opinion/FLSA/2005/2005_01_07_3_FLSA_PrepaymentPlan.pdf >; U.S. Department of Labor, Wage & Hour Division, *Field Operations Handbook* ¶ 32j16c (2016) (same) < http://www.dol.gov/whd/FOH/FOH_Ch32.pdf >. As long as the benefit was conferred, then Butler's restitutionary interest must be satisfied, regardless of when the benefit occurred. As demonstrated with the calculations in R. Exh. 47, "total compensation," which includes "wages paid" and Butler's credits, far exceeds the Administrator's "back wage claim" for all 9 individuals. Thus, none of these individuals are entitled to back wages.

3. CMP's. There are 2 methods for determining CMP's. To the extent that the Administrator based that determination on the hefty back wage claim, Tr. 162 (testimony of Ms. Aguilar), the corresponding CMP's must similarly fall.

To the extent that the Administrator may belatedly claim to invoke consideration of the mandatory 7 factors, those similarly point to no CMP's. It is undisputed that Butler has a clean enforcement history, and that only a small portion of Butler's large workforce was affected. Tr. 162-163 (testimony of Ms. Aguilar); Tr. 315 (testimony of Mr. Brajevich). Ms. Aguilar was unable to recall any conclusions she may have reached as to the remaining

factors, which constitutes a failure of the Administrator's burden of proof. Even in this void, Butler still established without dispute that it takes extensive efforts to maintain compliance. *Id.* at 316-317. Further, Butler did not obtain any financial gain; to the contrary, all of these workers were handsomely overpaid. R. Exh. 47. The Administrator attempted to suggest that Butler should have changed course during the intervening 6 years, Tr. 363-364 (testimony of Mr. Brajevich), but that would have been interpreted as acknowledging a violation that does not exist in fact. *See Administrator v. Camo Technologies, Inc.*, No. 11-026, 2012 Westlaw 4321026, at *6 (Admin. Rev. Bd. Aug. 31, 2012) (employer's conduct of attempting to comply showed a duty)

B. Specific Conclusions of Law

The Administrator has failed to show that Butler is liable for back wage remedies or CMP's.

IV. THE ADMINISTRATOR IS BARRED BY THE DOCTRINE OF LACHES FROM PURSUING THIS ACTION

A. Proposed Findings of Fact

This enforcement action should be dismissed because the Administrator's dilatory actions substantially prejudiced Butler. Agency delay that causes a loss of the case raises due process and equal protection violations. *Logan v. Zimmerman Brush Co.*, 455 U.S. 422 (1982). Although summary adjudication was entered on the assumption that this case was properly alleged as a substantial failure, that has now been disproven and the case should have been pled as a misrepresentation.

Under the doctrine of laches, the 2008 Rule applied once R. Exh. 8 was certified on December 14, 2012, Tr. 87 (testimony of Ms. Aguilar); R. Exh. 76, at 46 (§ 655.65 (f)), yet the Administrator – without explanation – allowed this case to languish for well over 5 years

before the determination letter was finally filed. There was no contact whatsoever from February 25, 2014, until 4 years later when the determination letter was finally filed. Tr. 94 (testimony of Ms. Aguilar). During this time, the Administrator did not signal that the case was still active or offer any other explanation for the delay. *Id.* at 94, 95.

This inordinate delay caused real-world prejudice to Butler.

- Butler's *entire* management team for the implicated Butch's Unit have now departed and can no longer be found. These managers are not bit players; not surprisingly, they were in the best position to refute the Administrator's version of the facts. At least one of them was interviewed by Ms. Aguilar, but did not even provide a witness statement, so the only evidence from that manager is filtered through Ms. Aguilar's bias. *Id.* at 324-326.
- A large number of Butler's 2013 employees no longer work for the company and are presumably dispersed throughout Mexico. Most critically, 6 of the 9 specified individuals are long gone. *Id.* at 324.
- Butler's records have also been seriously impaired. The company underwent a major move after several decades, which caused their paper records to be lost to them. *Id.* at 324. Even the Secretary of Labor has recognized that carnivals in particular cannot be expected to maintain records for 5 years, which is why the H-2B record retention is set at 3 years. R. Exh. 76, at 5 and 25.

B. Specific Conclusions of Law

The Administrator's dilatory actions severely prejudiced Butler such that the case should be dismissed under the doctrine of laches.

V. MR. MICHAEL BRAJEVICH IS NOT LIABLE FOR VIOLATIONS IN HIS INDIVIDUAL CAPACITY

A. Proposed Findings of Fact

The allegations against Mr. Brajevich personally should be dismissed for several additional reasons. First, only the "employer" may be held liable. R. Exh. 76, at 46 (§ 655.60). According to the regulations, a qualifying "employer" must have a "place of business," have an "employer relationship" with the H-2B workers, and possess a valid FEIN. *Id.* at 36 (§ 655.4). The Administrator completely failed to meet its burden to prove any of these elements.

Second, the Administrator failed to make out a *prima facie* case as to all of the necessary elements to establish Mr. Brajevich's regulatory violation. The evidence has already been recounted that Butler as a corporate entity had no knowledge of any duty that it willfully or recklessly violated. To a large extent, that evidence similarly applies to Mr. Brajevich. Nothing proves the sheer collapse of the Administrator's case than when Ms. Aguilar testified that there was no evidence that Mr. Brajevich knew these H-2B workers were working outside of the job code, Tr. 147-148 (testimony of Ms. Aguilar), and that Mr. Brajevich was joined personally "simply" because he signed the 9142, *id.* at 181. This is all the more true because this was literally the 1st time that Mr. Brajevich had signed an H-2B application or interacted with the H-2B program. *Id.* At 273-274 (testimony of Mr. Brajevich). There is no provision within the H-2B regulations for vicarious liability for the acts of others, and this the Administrator's abject failure of proof. Effectively, the Administrator has improperly presumed that Mr. Brajevich's actions were improper.

Finally, there was no evidence that the Administrator intended to put Mr. Brajevich on notice that he was personally liable for the actions of a corporate entity. The

determination letter makes Mr. Brajevich an afterthought rather than a responsible party. R. Exh. 19

B. Specific Conclusions of Law

The Administrator failed to show that Mr. Brajevich individually was liable for willfully failing to comply with the misrepresentation-of-need clause.

VI. SPECIFIC RELIEF SOUGHT

For these reasons, Butler prays that the Administrator's determination be reversed and that all requested remedies be denied.

3. The civil money penalty was appropriate 22

IV. Rebuttal Response to Respondents' Case 23

A. Industry Practice 24

B. Offset for backwage liability 24

C. Reliance on agent for attestations 26

Conclusion 27

PRELIMINARY STATEMENT

This matter arises under the H-2B visa provision of the Immigration and Nationality Act (the "INA"), as amended, 8 U.S.C. §1101(a)(15)(H)(ii)(b), and the applicable regulations at 20 C.F.R. Part 655, Subpart A (2008 Regulations). Pursuant to 20 C.F.R. §655.74, a hearing in this case was held on May 8 and 9, 2019 in San Francisco, California, concerning the Administrator, Wage and Hour Division's ("WHD's") complaint that Butler Amusements, Inc., and Michael Brajevich (collectively "Butler" or "Respondents") substantially failed to meet the conditions of the H-2B program.

Butler promised to comply with very specific employment conditions in exchange for determining who may cross into the nation and legally work. But after their selected employees entered the country and began working for Butler, Butler utterly failed to keep their promises. The Administrator seeks this Court's judgment in holding Butler accountable for their unkept promises.

I. H-2B FRAMEWORK AND SELECTED PROCEDURAL HISTORY

This Court is keenly aware of the history, purpose and requirements of the H-2B program and there is no need to repeat them. Order denying Butler's Motion for Summary Decision (Nov. 14, 2018) ("SD Order"), pp. 1-3, 8.

In the SD Order, this Court rejected Butler's legal arguments that: the standard of the Court's review the 2008 regulations were unenforceable; remand was required for the Administrator to enforce the prevailing wage determination; they were denied notice to accurately state their temporary need; backwages were unavailable as a remedy, and; the Administrator is time-barred by a statute of limitations or laches. The Court determined that the standard of review, whether Butler committed a willful violation or a substantial misrepresentation violation, and individual liability were issues of fact not subject to summary judgment. At the parties' prehearing conference with the Court, the Court

made it clear that Butler would not be given the opportunity to relitigate any issues determined in the SD Order. Court Order, May 2, 2019 ("Further Order Regarding Hearing Issues"), p. 4.

Prior to the trial in this case, Butler took Ms. Aguilar's deposition and served a notice for a designee under 29 C.F.R. §18.64(b)(6) to answer 30 original questions. Granting in part the Administrator's Motion to Quash, this Court limited the designee's examination by eliminating five areas of inquiry, and conditioning three others for privileges. Order of April 12, 2019. Following the presentation of the Motion to Quash with both parties' arguments and defenses, Butler did not raise an objection to either of the depositions for which Ms. Aguilar sat.

II. STATEMENT OF FACTS

A. BACKGROUND

Respondents operate a mobile amusement carnival, providing rides, games, and concessions to fairs and festivals in California, Oregon, Washington, Idaho, Arizona, and Nevada. *See* Respondents' Trial Exhibits ("RX") at 20, pp. 1-8 (which reference each of these three [ride, game, and concessions] revenue-generating categories), and Administrator's Trial Exhibits ("AX") at C-13 to C-15 (which reference each of the geographical locations listed). Michael ("Mick") Brajevich is Butler's president (Trial Transcript ("TX") at 268), and chief executive officer (AX at N-6 (Respondents' Answer to Interrogatory No. 12)). Butler has participated in the H-2B program since 2000. TX at 274.

Respondents' application for a nonimmigrant workforce was based on their need for individuals to perform in the Amusement and Recreation Attendants ("ARA"[1]) position. AX at C-1 (box #3). Butler describes their need as "seasonal, recurring annually." AX at C-1 (box #9).

Butler Amusements has used Jim Judkins, an agent, to file applications for H-2B workers since 2000. TX at 274. Mr. Judkins signed Respondents' 2013 TEC. AX at C-8.

///

[1] During the trial, the Administrator referred to this position as the "RAA," or the 'Recreation and Amusement Attendant' position. The reference is to the same O*Net position although the letters of the acronym may have been alternated.

1. The 2013 TEC

On December 17, 2012, Butler Amusements submitted an Application for Temporary Employment Certification ("TEC") to the U.S. Department of Labor, Employment and Training Administration ("ETA") attesting to their need for 246 nonimmigrant employees for the period of February 1, 2013 to October 31, 2013 to perform the job duties of an ARA, which corresponds to the Standard Occupation Classification ("SOC") Code labeled 39-3091. AX at C-1. Butler described the work that the nonimmigrant employees would perform as a "variety of attending duties at amusement facility (traveling carnival). Set-up, tear-down, operate amusement rides, food concessions and/or games." AX at C-3 (Section F (box #5) (parentheses in original)).

Butler's TEC attested the H-2B employees would work for 40 hours a week, with a daily schedule from 1:00 a.m. to 10:00 p.m.[2] Id. (at Section F (box #1)) In an addendum to the TEC, Butler stated that their "weekly wage has been calculated based upon a standard 40-hour week using the methodology detailed in Section G.1." AX at C-10: Section F.a.2 (first full paragraph). Section G.1 provides that Butler will pay the applicable prevailing wage rate governing the TEC. (AX at C-11). Butler offered a basic rate of pay of $323.60 to $368.40 per week with no overtime rate of pay. AX at C-5. Butler stated they would pay "the Variable Prevailing Wage Determination [rate] that is valid at the time of employment." AX at C-12.

Butler's agent Mr. Judkins attested to the truthfulness of all information contained in the TEC. AX at C-8. Mr. Brajevich attested he would comply with the conditions of the H-2B program and take "**full responsibility** for the accuracy of any representations made by [his] agent..." (emphasis in original). AX at C-9. Both Messrs. Judkins and Brajevich promised that the information contained on the TEC was true and accurate. AX at C-8, C-9.

As part of the required recruitment and to establish their need for H-2B workers, Butler

[2] This schedule equals 21 hours of work per day.

advertised the ARA positions in the *Yakima Herald Republic* classified ads on October 21, and 24, 2012. RX at 2 and 3 (second column from right). The classified advertisements listed the ARA job duties as "attending duties at amusement facility (traveling carnival). Set-up, tear-down, operate amusement rides, food concessions and/or games." Id. (parentheses in original). The classified ads listed the work hours for the position as 40 per week and reflected the same weekly salary referenced in Respondents' TEC. The classified ads also stated that

> Employer will pay the applicable variable prevailing weekly wage for **each location** starting in Yakima, WA and traveling to various locations in WA, CA, AZ, NV, OR & ID ... Employer certifies that if there are **changes in work locations, employer will obtain applicable prevailing wage for work locations and pay such wage** ... Employer makes available mobile housing valued at $125.00 / week. Employer makes available transportation from venue to venue and scheduled transportation to laundry, shopping valued at $25.00/week.

Id. (emphasis added).

Based on all the information in their TEC, ETA certified Butler to employ 246 foreign workers to perform the ARA duties. AX at Ex. B. ETA's certification letter required *inter alia* that Butler's

> offered wage must equal or exceed the highest of the most recent prevailing wage that is or will be issued by the Department [of Labor] to the employer for the time period the work is performed ... If that prevailing wage was issued by the Department as an hourly wage (indicating that similarly-employed U.S. workers earn that wage for each hour of work), then the employer is required to pay H-2B or U.S. workers recruited in connection with an H-2B application at least that hourly wage for all hours worked, including those hours in excess of 40 hours of work per week. This requirement of the H-2B program is independent of any applicable exemption from the provisions of the Fair Labor Standards Act.

AX at B-2 (parentheses in original).

2. The Wage and Hour Investigation and Findings

On March 22, 2013, then-Wage Hour Investigator ("WHI") Carrie Aguilar (who became an Assistant District Director in 2015 [RX at 40, p. 4 (internally paginated as p. 11)]), sent Butler a letter notifying them of an investigation to determine compliance with the H-2B program. AX at A-1. The

letter advised Butler of the date WHI Aguilar would visit their office and the documentation she requested be available for her review. Id. Respondents did not provide WHI Aguilar with all requested documentation, and what they did provide was unreliable (TX at 39, 72, 107, 169), and largely unorganized and unsummarized (TX at 29, 187); *see also* RX at 13, 15, 16 (reflecting email correspondence between Respondents and WHI Aguilar).

Following a review of records, WHD went onsite to Butler's mobile operation at Santa Barbara, California on April 23 and 24, 2013. *See* AX at F (witness statements taken onsite reflect the date each interview was taken). During this visit, WHD interviewed employees (AX at Ex. F) and observed Butler's operation (TX at 30-31; 44-49; RX at 40, p. 8 (internally paginated at p. 27)). WHD determined the investigative period as February 2, 2013 to April 20, 2013. TX at 63, 74. This period was selected because it was the beginning of Butler's season to the last full workweek before WHD's on-site visit. Id.

WHI Aguilar considered the information from the documents provided by Respondents, the information provided by Respondents' employees, her observations of Butler's workplace, and her review of the applicable policy and guidances (TX at 36, 38, 50, 56, 59-60). She made a recommendation concerning Butler's compliance with the H-2B program and the civil money penalties required to remedy the violation. TX at 75-77.

On February 6, 2018, WHD issued a determination letter alleging Butler's noncompliance with the H-2B program. RX at 19 (referred to as "Determination Letter"). The Determination Letter dated February 6, 2018 was the second letter the Administrator sent to Respondents. The first letter was identical but dated January 29, 2018; it was returned to WHD because Respondents' address was incorrect. RX at 19, p. 1; TX at 79-80. WHD corrected the address, the earlier letter was rescinded so that that Respondents suffered no loss of time to appeal due to the non-delivery of the first letter, and the February 6, 2018 letter was issued. Id. The Determination Letter found Respondents substantially

failed to comply with Attestation #13 which requires that each participating employer accurately state the dates of temporary need, reason for temporary need, and number of workers for the temporary need. RX at 19.

WHD originally calculated backwages in the amount of $24,987.60 for nine employees and a civil money penalty of $10,000. The amount of backwages was amended to $26,955.40 pursuant to this Court's May 2, 2019 Order. RX at 19. The original determination was for nine employees and the final amendment was also for nine employees, eight of whom were the same as in the original calculation. Court's Second Order of May 2, 2019.

Butler contested the findings and remedies set forth in the Determination Letter. AX at K.

B. BUSINESS AND EMPLOYMENT PRACTICES

Butler attested on their TEC that their season begins in approximately February of each year and ends at the end of October.[3] AX at C-1. Butler's itinerary reflects they provided mobile amusement services from February 1, 2013 thorough at least October 21, 2013. AX at C-13 to C-15.

1. Work locations during the 2013 season

In the 2013 season, Respondents operated throughout the Western United States. Their TEC includes an attachment listing at least 71 geographic locations at which their nonimmigrant workforce would be employed (AX at C-7 [the last location is cut-off from the document (as it is in Respondents' exhibit as well: RX at 8, p. 10)]), but this document reflects only 45 unique locations when duplicates are omitted. Other of Respondents' submitted documents reflect that Respondents operated in 108 locations throughout the 2013 season (RX at 29, pp. 1-12). Given the inconsistency of Respondents records, it is not known how many actual locations Respondents operated during the 2013 season.

[3] Contrary to the information on their TEC, much of Respondents' nonimmigrant workforce actually entered the United States from January 30 through March 5 (RX at 24, pp. 1-4) and left the United States between August and early October (RX at 33, pp. 5, 8; RX 34 at p. 1).

2. Employees' locations and jobs throughout the 2013 season

Butler runs more than one crew of employees to operate mobile amusement services at more than one location at a time. *See* TX at 270-71. This is confirmed by Butler's itinerary, which reflects Butler worked multiple locations at the same time. AX at C-13 to C-22. For example, for the start date of February 14 and February 15, 2013, Butler's itinerary reflects they worked three separate locations in Sunnyside, Washington (eastern Washington), Cloverdale, California (northwestern California), and Indio, California (southeastern California). Id. at C-13. The limits of time and space prevent the same employees from working more than one of these locations during the same time period. Only sporadic schedules list employees who worked in specific geographic locations, and not all employees are covered by Butler's incomplete records. *See* TX at 242-243 (where Mr. Brajevich admits admits that the organization of documentation from the 2013 season suffered and was "difficult.")

In addition to employing employees to staff the rides, concessions and games, Butler employed: drivers to drive the trailer trucks which haul the amusements and rides from location to location; employees to work in the mechanics' shop whose sole job is to repair equipment, and; supervisors to manage the ARA workforce. AX at F-137 (for drivers and shop workers); AX at F-9; F-16; F-21; F-28; F-59; F-75; F-86; F-92; F-101, and; F-114 (for supervisors).

During their 2013 season, Respondents employed at least nine[4] H-2B workers in positions other than the ARA. They were:

///

[4] The Administrator seeks backwages and a violation for only those nine Butler employees who were working in Santa Barbara during WH's on-site visit. However, Butler likely employed many additional employees in non-ARA positions in other crews and in other locations throughout their 2013 season. The Administrator did not investigate Butler's other crews and does not seek backwages for any employee other than the nine listed here. But it would be a mistake for this Court to assume that the nine listed employees here were the only nonimmigrant employees performing non-ARA job duties. For example, employee Jose Paredes is listed as a driver on Butler's own records. RX at 26, p. 793. Mr. Paredes is also listed as an employee who crossed the border to work for Butler on January 30, 2013 (RX at 24, p. 1 (#56 lists "Jose Luis Paredes Fernandez")), so he was an H-2B worker. The Administrator seeks no backwages for Mr. Paredes even though Butler's own records reflect that he performed the non-ARA job duty of driving.

Gustavo Gamero	Driver
Sergio Guzman	Driver
Saul Estadillo Herrera	Driver
Jose Ivan Ortega	Driver
Fernando Preza	Driver
Jaime Hernandez	Shop Worker
Felipe Villegas Quijano	Shop Worker
Omar Lopez	Supervisor
Antonio Mendez	Supervisor

(collectively referred to as "The Nine Employees").

The Nine Employees were part of "Butch's Unit" when they worked in Santa Barbara. TX at 256; *see* AX at E-1 (a payroll document for "Butch's Unit" on which all of The Nine Employees appear). During WHD's onsite visit to Santa Barbara, these employees were all working on the same crew or unit, but there is no information or suggestion that any crew or unit stayed the same throughout Butler's season.

3. Employment classification of the work performed

Employers desiring to participate in the H-2B program use a federal statistical standard to classify workers into occupational categories according to the job duties performed, and indicate that job classification on the TEC. This federal statistical standard is called a Standard Occupational Classification code, or SOC code. The SOC code system has an occupation search engine called O*Net. O*Net permits employers to determine which SOC code applies to any given job duties at issue. The SOC Code and the O*Net classification are combined to determine the prevailing wage rate due each employee who performs a specified job in a specified geographic location. The O*Net classification for the ARA position is 39-3091, as indicated by Butler on their TEC. AX at C-1 (Section B, box #2). O*Net provides extensive information about any given job occupation, including a rating of how important certain tasks are to any given position. https://www.onetonline.org/help/online/details. The two most important tasks to perform the ARA position are to "sell tickets and collect fees from customers" and to "sell and serve refreshments to

customers." RX at 51, p. 1.

Butler's TEC listed a SOC code of ARA for every nonimmigrant employee employed, regardless of the actual job task each employee performed. Butler wasn't certified to have any nonimmigrant employee perform any non-ARA job duty. Butler never advertised for any domestic individual to perform any non-ARA job duties. *See* AX at C (Butler's TEC), and RX at 2 and 3 (Butler's classified ad listings). Butler's TEC never indicated that they intended to employ individuals to perform any non-ARA job duty even though separate SOC codes are available for drivers, shop workers, and supervisors. TX at 178-179.

III. ARGUMENT

A. BUTLER FAILED TO PAY EMPLOYEES THE PREVAILING WAGE RATE FOR THE JOB THEY PERFORMED

The only question in this case is whether Butler satisfied their 'responsibilities and obligations' when they listed every single H-2B employee as performing the ARA job when in fact, at least nine employees performed other jobs.

The job duties actually performed by The Nine Employees were not ARA job duties. None of The Nine Employees operated any of the amusement equipment, games, or concessions to "attend" to customers. Butler admits that they consider their employees performing driving duties, shop duties or supervisory duties to be performing the ARA duties. TX at 353.[5]

Prevailing wage rates apply to the job being performed. The prevailing wage rates required to compensate an employee performing driving, supervising or shop worker jobs are higher than the

[5] Butler maintains that such other duties are consistent with the ARA position. Butler testified that they "could use these attendants [H-2B employees] in a way that made our company the most efficient," that "there wasn't any reason why we didn't think that we could do that," and that Butler "was under the impression that we could use these workings [which appears to be a transcription error for "workers"] in the carnival business. And the way we run our business, these guys, we were bringing these in and paying them to help us. And we were using them to be as efficient as we could." TX at 278-79. Butler further testified they were unaware of any rules that limited the type of jobs the H-2B employees could perform (TX at 303-305; 308) but admitted they had no knowledge of the 2008 regulations (TX at 346-348).

prevailing wage rate required to compensate an employee performing the ARA job. The prevailing wage rate for all job duties will also vary by geographic locality. *See* AX at J (providing the Foreign Labor Certification Data Center ("FLCDC") results for the driving, shop working, and supervising job duties at issue here for each of the geographic locations listed on Butler's itinerary for the investigative period).

The FLCDC Prevailing Wage Rate is a public record, available online, which provides the minimum wages for each job duty performed in each geographic location in the country. Although Butler assigned each of their employees to perform job duties in different and separate geographic locations throughout the season, Butler's pay to The Nine Employees did not change depending on where the employees worked. AX at I-1 to I-4.[6] Even though Butler paid The Nine Employees a higher weekly rate than most of the employees performing ARA duties, the weekly rate to the drivers, shop workers and supervisors was still insufficient to cover the higher hourly prevailing wage rate due for the duties being performed.

1. Drivers

Saul Estudillo[7] Herrera, Gustavo Gamero, Sergio Guzman, Jose Ivan Ortega (Romo), and Fernando Preza all drove large, commercial trucks for Butler. These employees self-identify as "drivers" (AX at F-41; F-78). These employees perform no duties other than driving and do not perform any ARA duties.

Butler's own administrative staff confirms that these employees performed commercial truck driving duties requiring a commercial driver's license ("CDL") and compliance with U.S. Department

---

[6] This document was prepared by ADD Aguilar. There are two known exceptions to the amounts of wages listed as received by the workers; both exceptions concern the two shop workers: Jaime Hernandez and Felipe Villegas Quijano. For one paycheck, Butler's records show Mr. Hernandez received $320 (RX at 26, p. 53), and for one paycheck, Butler's records show Mr. Quijano received $320 (Id. at p. 56).

[7] This employee's name is sometimes spelled as "Estadillo."

of Transportation requirements. AX at F-135. Butler's Payroll Clerk Gina Tuttle states that the "CDL drivers also have time cards. They keep DOT log books as well. The trucking records are scanned by Marilu [a nonimmigrant Butler administrative staff employee]" and sent to another staff member and retained. Id. Butler's manager Bill Truax stated that some H-2B employees have CDLs (commercial drivers' licenses). AX at F-133.

Drivers' trucks are large enough for sleeping berths which the drivers use, and the drivers comply with DOT requirements such as driving hours' restrictions and maintaining a log book. AX at F-41; F-54; F-78.

Butler's own payroll records reflect that employees are "Drivers." RX at 26: pp. 792, 1036 (Messrs. Guzman, Ortega, and Preza); pp. 793, 1036 (Guzman); pp. 793, 823, 1036 (Ortega), and; pp. 793, 823, 1036 (Preza). Although Butler's payroll does not specify Messrs. Gamero and Herrera as "drivers," Butler's payroll reflect these two employees are routinely not working on Fridays, Saturdays and/or Sundays, the most important days for fair attendance, and the two days when drivers do not need to transport equipment from one place to another. Id. at 458, 523, 811, 1026 (Gamero); 288, 460, 496, 502, 798 (Herrera).

The prevailing wage rate for truck drivers for the period from February 1, 2013 to April 28, 2013 in all geographic locations listed on Butler's 2013 itinerary through the investigative period ranged from a low of $15.63/hour to a high of $22.23/hour. AX at I-4 to I-5; J-1 to J-17. Butler paid the drivers $500/week.[8] AX at H-3, H-5, and H-6. The weekly rate Butler paid to the drivers was insufficient to compensate them for 40 hours of work each week at the minimum prevailing wage rate for the job duties they actually performed. Messrs. Herrera, Gamero, Preza, and Guzman are each due

[8] For Mr. Gamero (RX at 26, pp. 138, 218, 305, 458, 495, 523, 811, 847, 1026, 1036); for Mr. Guzman (Id. at pp. 61, 134, 177, 303, 459, 495, 793, 798, 815, 823, 1027, 1036); for Mr. Estudillo Herrera (Id. at pp. 130, 222, 288, 460, 496, 502, 798, 816, 847, 1035); for Mr. Ortega (Id. at pp. 125, 497, 521, 793, 816, 823, 1028, 1036), and; for Mr. Preza (Id. at pp. 38, 142, 220, 461, 497, 793, 797, 823, 1027, 1036).

$3,229.60 in backwages. Mr. Ortega is due backwages of $2,936.00. AX at I-1 to I-4.

2. Shop Workers

Felipe Villegas Quijano and Jaime Hernandez worked as shop workers to fix and maintain Butler's amusement equipment. AX at F-134.[9] The shop travels with Butler to service the amusement rides. Id. and AX at F-137. Messrs. Quijano and Hernandez did not perform the ARA job or any ARA job duties but instead solely worked in the maintenance shop.

Butler's own managers confirm Messrs. Quijano's and Hernandez' job duties. Manager Bill Truax told WH that: '2 full time H-2B [employees are] in spare parts trailer - Felipe and Jamie, they are the two main guys doing parts cleaning, supplies, and inspections.' AX at F-134. Butler's former manager Kurt Vomburg told WHD that the mechanics' shop travels with the amusement carnival and the employees who work in it perform only repair work and welding. AX at F-137.

Mr. Quijano identifies himself as a "shop worker." AX at F-123.

The prevailing wage rate for a shop worker for the period from February 1, 2013 to April 28, 2013 in all geographic locations listed on Butler's 2013 itinerary through the investigative period ranged from a low of $14.55/hour to a high of $23.49/hour. AX at I-4 to I-5; J-52 to J-68. Butler paid Mr. Hernandez $475/week (*see e.g.* RX at 37, p. 1; 26, pp. 157, 184, 295, 464, 487 (for one week, Mr. Hernandez was paid $320 (Id. at p. 53)), and paid Mr. Quijano $395/week (*see e.g.* Id. at pp. 160, 206, 296, 480, 490, 810, 839 (for one week, Mr. Quijano was paid $320/week (Id. at p. 56). Butler's own summary record showing Mr. Quijano was paid $365/week is unsupported. *See* RX at 37, p. 1. The weekly rate paid to the shop workers was insufficient to compensate them for 40 hours of work each week at the minimum prevailing wage rate for the job duties they actually performed. Mr. Quijano is due $4,177.80 in backwages. Mr. Hernandez is due $3,297.80 in backwages. AX at I-213-215a.

///

[9] Comments of Bill Truax, Butler's head ride superintendent (TX at 325) to WHD.

3. Supervisors

Omar Lopez and Antonio Mendez worked as supervisors of Butler's ARA employees. Nine separate employees who performed ARA job duties confirmed that either Mr. Lopez or Mr. Mendez supervised them. AX at F-8; F-16; F-21; F-27; F-85; F-92; F-101; F-114; F-124.

Butler's own managers confirm Mr. Mendez' role: General Manager Kurt Vomburg states Mr. Mendez is his "left hand" man. AX at F-137. Messrs. Mendez and Lopez identify themselves as "supervisors." F-59; F-75.

The prevailing wage rate for the first-line supervisor of a personal service worker ('personal service worker' being the closest job title to an ARA that the WHD could identify in the SOC) for the geographic locations listed on Butler's 2013 itinerary through the investigative period ranged from a low of $15.66/hour to a high of $24.15/hour. AX at I-4 to I-5; J-18 to J-34. Butler paid Mr. Lopez $525/week (*see e.g.* RX at 26, pp. 60, 167, 177, 292, 456, 487, 514, 810, 823, 847,1020, and 1036), and paid Mr. Mendez $745/week (*see e.g.* Id. at pp. 27, 139, 202, 289, 455, 492, 506, 799, 823, 829, 847, 997, and 1036). The weekly rate paid to the supervisors was insufficient to properly compensate them for 40 hours of work each week at the minimum prevailing wage rate for the job duties they actually performed. Mr. Lopez is due $3,051.40 in backwages. Mr. Mendez is due $574.00 in backwages.

B. BUTLER FAILED TO PAY EMPLOYEES THE PREVAILING WAGE RATE FOR THE LOCATION IN WHICH THE JOB WAS PERFORMED

The TEC requires Butler to disclose the locations where work will be performed, so that *inter alia,* the appropriate prevailing wage rate may be satisfied. AX at C-4 (boxes 7 and 7a). Although Butler denied not having records of the locations their H-2B employees worked (AX at L-8 (RFA No. 10), L-18 (corresponding RFP No. 6 for a non-admission to RFA No. 10), M-4 (Butler's response to RFA No. 10), O-3 (Butler's response to RFP No. 6)), they failed to produce a list which permitted the

Administrator to determine the geographic location of The Nine Employees for the investigative period.

Butler did produce summary lists of specific locations throughout their season but The Nine Employees are not listed on these documents. Of the twelve summary sheets listing dozens of employees, only one of The Nine Employees is listed on one of the summary sheets. None of The Nine Employees are listed on RX 26: pp. 120, 279-80, 370-71, 412-13, 555, 615, 657, 728, 752, 881, 1074. Only Mr. Ortega is listed on a summary sheet for "Butch's Unit" for a period from March 30 to April 7. Id. at 793. WHD was unable to determine the geographic location of work for each of The Nine Employees for the investigative period.

To reconstruct the locations in which each The Nine Employees worked, Ms. Aguilar first used the border crossing list which indicated when the nonimmigrant employees entered the United States. RX at 24 (line numbers 19, 20, 29, 33, 39, 48, 63, 74, 156). She then took the average of the prevailing wage rate in all locations Butler listed on their location list attached to their TEC. TX at 64; AX at I.

C. BUTLER SUBSTANTIALLY FAILED TO COMPLY WITH THE TEC

Butler violates the H-2B program when they "substantially fail to meet any of the conditions of the labor certification application attested to..." 20 C.F.R. §655.60(b). A 'substantial failure' for purposes of this subsection is defined as a "a willful failure that constitutes a significant deviation from the terms and conditions of the [TEC]." Id. §655.65(d); 8 U.S.C. §1184(c)(14)(D) (2009 version, attached as a **Supplemental Exhibit** at p. 10).

The distinction between a 'substantial failure' violation and the more serious 'willful misrepresentation' violation is in the timing of the violation. A substantial failure violation occurs after the workers are present in the United States, while a willful misrepresentation violation occurs at the time the TEC is signed by the employer, before the workers have crossed into the United States. RX at

time the TEC is signed by the employer, before the workers have crossed into the United States. RX at 40, pp. 18-19 (internally paginated pp. 69-71). Much of this distinction rests on the participating employer's state of mind: if the employer knew he was going to treat nonimmigrant employees differently than the terms of the TEC required, the violation is more likely to be a willful misrepresentation. If the decision to treat the workers differently from the terms of the TEC began after the workers arrived, the violation is more likely to be charged as a substantial failure. From a practical point of view, the primary method for WHD to demonstrate a participating employer's state of mind is with an investigation of the participating employer's past practices and their previously filed TECs. But it is within WHD's province to determine if and when an open case merits a historical investigation into an employer's past practices. Here, no historical investigation was conducted.

The H-2B program does not permit an employer to advertise and solicit for one job but actually employ nonimmigrant workers to perform a different job. Each participating employer is required to identify a specific job, advertise that specific job position to domestic workers so they can apply, disclose the rate to be paid for the job, and state the time period the job will last. Failing to accurately comply with any of these fundamental principles of the H-2B program is to violate the requirements of the TEC.

Butler was permitted to determine which of 246 nonimmigrants could enter the United States based on Butler's assurances that the employees would be performing the ARA job from February 1, 2013 to October 31, 2013, and would receive pay of between $324 and $368 per week. AX at C-1 (Subpart B, boxes 1, 2, 3, 5, and 7; C-5 at Subpart G, box #1). Instead, 187 Mexican citizens crossed into the United States to work for Butler at whatever job Butler wanted them to perform, whether disclosed, competed for, or fairly compensated or not. RX at 24.[10] At least nine of these individuals

[10] Although 187 employees crossed the border for Butler (out of their requested 246 [AX at C-1]) (RX at 24), Butler transported 395 Mexican workers back to Mexico starting at the end of August. RX at 34; TX at 286. Butler therefore transported 149 (the difference between the 395 individuals transported and the 246 authorized to be transported) non-H-2B

were employed not to perform ARA jobs but to perform other jobs. Thee Nine Employees received wages far higher, in some cases more than double,[11] what Butler told three different agencies of the United States government the employees would receive, but wages which were insufficient to fairly compensate them for the jobs they actually did perform.

Furthermore, even though not a charged violation, Butler's own trial exhibits show that they failed to employ all nonimmigrant employees for the period of employment stated in the TEC. Butler promised to employ nonimmigrant employees for the period from February 1, 2013 to October 31, 2013. AX at C-1. Yet, Butler transported 19 employees back to their home country before September 1, 2013, a full two months prior to the stated end date for these employees' employment. RX at 34, p. 1. No less than 366 employees were transported back to their home country before October 1, 2013, a full one month prior to the end date for these employees' employment. Id.

The Secretary does not seek to amend the violations charged. However, Butler's employment practices of employing nonimmigrants in unstated positions to suit Butler's convenience, importing workers well after the stated date of need (*see* RX at 24, pp. 3-4 (which show nonimmigrant employees entering the country to work for Butler as late as March 2013)), and transporting nonimmigrant workers back home well before the end date of Butler's stated dates of need, reflect systemic noncompliance with the H-2B program.

D. THE REMEDIES CALCULATED WERE APPROPRIATE

1. The Administrator's reconstructed backwages are reasonable

The "Administrator may require the employer to provide for payment of such amounts of back

---

workers from the U.S. to Mexico. The only conclusion to draw from this is that Butler either: failed to provide the complete list of employees who crossed the border to work for them; requested more nonimmigrant employees than they needed; employed Mexican workers who were not authorized to work but for whom they paid outbound transportation, or; gave their authorized workers who wished to go to Mexico a free ticket back to Mexico even under no obligation to do so.

[11] Supervisor Antonio Mendez regularly received $745/week, more than twice the highest Basic Rate of Pay ($368) Butler stated they would pay in their TEC (Ex. C-5). *See e.g.* RX at 26, pp. 27, 139, 202.

pay as may be required to comply with the requirements of §655.22(e)" where the employer has failed to pay the required wages. 20 C.F.R. §655.65(i). "Awarding back pay is unquestionably the most appropriate remedy for failure to pay the required wage." Labor Certification Process and Enforcement for Temporary Employment in Occupations Other Than Agricultural or Registered Nursing in the United States (H-2B Workers). 73 Fed. Reg. 78.020, 78,047 (Dec. 19, 2008). A back pay award furthers the purposes of the H-2B program because it reduces an employer's incentive to bypass U.S. workers in order to hire H-2B workers who can more easily be exploited; it also serves to protect U.S. workers' wages from depression. Id.

Pursuant to 20 C.F.R. §655.65(i), and based on the evidence at the hearing and in the record, the Administrator assessed backwages for The Nine Employees of $26,955.40 and a civil money penalty of $10,000 for this violation. RX at 19, p. 5 (unpaginated). The Administrative Review Board acknowledges the necessity and authority of the WHD to reconstruct hours worked and payments to determine backwages when the employer's records are unreliable. Administrator v. Peter's Fine Greek Food, Inc., 2014 WL 4966168, *4 (ARB Sept. 17, 2014); *affirming* Administrator v. Peter's Fine Greek Food, Inc., Case No. 2011-TNE-2, p. 10 (ALJ Sept. 25, 2013).

Where, as here, an employer does not keep accurate and adequate records of employees' working time and pay, "an employee (or the Secretary on behalf of a group of employees) may 'submit evidence from which violations of the Act and the amount of an award may be reasonably inferred.'" Reich v. S. New England Telecomms. Corp., 121 F.3d 58,66 (2nd Cir. 1993) *quoting* Martin v. Selker Bros., 949 F.2d 1286, 1296-97 (3rd Cir. 1991); *see also* Anderson v. Mt. Clemens Pottery Co., 328 U.S. 680, 687 (1946). Sufficient evidence can include employer payrolls, time and other business records, employer admissions and testimony from others with knowledge of the facts and violations. *See, e.g.*, Morgan v. Family Dollar Stores, Inc., 551 F.3d 1233, 1276-77 (11th Cir. 2008), *cert. den.*, 558 U.S. 816 (2009).

The burden then shifts to the employer "to come forward with evidence of the precise amount of work performed" or evidence to negate the reasonable inference to which the Administrator's evidence is entitled. Mt. Clemens, 328 U.S. at 687-88. If the employer fails to meet this burden, "the court may then 'award damages to the employees, even thought the result may only be approximate.'" S. New England Telecomms. Corp., 121 F.3d at 67 *quoting* Mt. Clemens, 328 U.S. at 687-88.

Butler's payroll records cannot be relied upon either by Butler or by this Court. Two examples of facial unreliability are examined below.

a. Hours Worked: Butler's payroll records do not reflect actual hours worked

Employees are required to be compensated for all hours worked. "[A]ctivities performed either before or after the regular work shift, on or off the production line, are compensable if those activities are an integral and indispensable part of the principal activities for which covered workmen are employed and are not specifically excluded" under the Portal-to-Portal Act to the FLSA. Wren v. RGIS Inventory Specialists, 2009 WL 2612307, *6 (N.D.Cal. 2009) *quoting* Steiner v. Mitchell, 350 U.S. 247, 255 (1956) (internal ellipses omitted). Here, setting up the rides and breaking them down is such an integral duty to the ARA position that Butler included the terms "set-up" and "tear-down" in the job duties on their TEC and in their classified ads.

i. Timecards don't reflect all required job duties

Gina Tuttle, Butler's payroll clerk stated that she creates employees' timecards based on the hours the supervisors tell her the employees worked. Id. at F-135. Ms. Tuttle admits that the hours on the timecards only reflect carnival hours and do not include set-up or tear-down hours worked. Id. at F-136. Set-up and tear-down are two specific job duties of the ARA position (AX at C-3 (Section F, box #5), RX at 2 and 3 (second to the last columns on the right)). This is important. Ms. Tuttle admits that the supervisors only record "fair [carnival] hours," not actual hours employees worked or actual breaks by employees taken. Some timecards reflect that an employee worked from 9:00 a.m. to 11:00 p.m. or

12:00 a.m., but the timecards Ms. Tuttle creates indicate 7, 8, 9 or 10 one-hour breaks, including half breaks (*see* e.g. RX at 26 at p. 202) so Butler's fabricated payroll records not only fail to record actual hours worked but also reflect that an employee who works for fourteen hours is only credited with eight hours worked.[12]

Thus, Butler's payroll records cannot be credited for any actual hours worked.

ii. *No timecard reflects any hours worked over 40 in a workweek*

Despite employees stating they regularly worked forty hours or more in a workweek, the Secretary has identified no Butler-created payroll record which reflects over forty hours of work worked by any employee in any workweek. RX at 26.

Nonimmigrant employees stated their workweek hours as:

between 36 and 42 (Carlos Armenta Calderon: AX at F-8);

between 40 and 60 (Juan Daniel Barrios Romero: Id. at F-17);

between 50 and 56 hours (Gabriel Bello Vasquez: Id. at F-21);

between 20 and 60 (Saul Estudillo Herrera: Id. at F-41);

between 35 and 40 (Omar Pedro Herrera: Id. at F-53);

between 55 and 56 (Omar Lopez-Romero: Id. at F-59);

averaging between 40 and 45 (Felipe Neri Perdomo Rendon: Id. at F-86);

between 40 and 50 (Balbina Rivera Fernandez: Id. at F-92);

between 36 and 42 (Arturo Santos Lopez: Id. at F-101), and;

up to but no more than 40 hours (Espidio Sedana Abordo: Id. at F-107; Gustavo Soler G: Id. at F-114; Felipe Villegas Quijano: Id. at F-188; Marilu Zepeda: Id. at F-129).

Furthermore, a number of employees stated they did not complete a timecard, there is no method

[12] Because employees here were paid on a weekly salary basis, the daily hours worked are more reflective of the unreliability of Butler's documents than they are of insufficient pay received by employees. As stated *supra,* Butler customarily paid employees the same weekly salary regardless of the number of hours worked.

to recording the number of hours worked in a workday, or some days hours worked are written down and other days they are not.

Timecard not completed	No method to recording hours	Inconsistent recording of hours
Mr. Calderon: F-9	Mr. Barrios Romero: F-16	Luis Hector Garcia Martinez: F-46
Jesus Alberto Martinez: F-63	Candido Cuellar Castellanos: F-28	Espidio Sedana Abordo: F-108
Julio Alberto Martinez Herrera: F-68	Mr. Lopez-Romero: F-59	
Genaro Sanchez Hernandez: F-96	Mr. Rendon: F-86	
Mr. Quijano: F-124	Ms. Fernandez: F-92	
	Mr. Lopez: F-101	
	Mr. Soler: F-114	

(all references to AX).

Butler's timecard and payroll records directly contradict the statements of their own payroll clerk and their own employees. The Administrator didn't use Butler's payroll records and this Court shouldn't either.

Butler promised to pay employees for the job performed, promised to employ employees for 40 hours of work each week, and promised to pay a rate no less than the prevailing wage rate. AX at C-3, D-23. Butler failed on all accounts.

b. Hours Worked: the number of hours worked on Butler's fabricated payroll is not credible

To the extent Butler asks this Court to rely on the reliability of their payroll documents (despite Butler's admission that the documents were created by Butler office staff out of non-produced documents [AX at F-135: first full paragraph]), the records simply don't make sense. Employees were paid the same rate whether they worked 35 hours a week or 10.[13]

[13] Butler's records show that: Sergio Guzman worked eleven hours in one workweek and was paid $500 for such work (RX at 26, p. 495), and worked 38.5 hours in other workweeks and was also paid $500 (Id. at pp. 61, 303); Saul Estudillo Herrera worked eleven hours during one workweek and was paid $500 (Id. at p. 496), and worked 37.5 and 38.5 hours for the same pay (Id. at pp. 130, 816). Yet, Butler pro-rated the pay of their workers during the first workweek of work when only six, seven, or eight hours of work were performed. Id. at pp. 2 (Gustavo Gamero), 5 (Sergio Guzman), 22 (Fernando Preza).

Furthermore, Butler's records reflect that some employees were "off" or didn't work on particular days but still took breaks and still had numbers in the "hours worked" column of their "timecards." Id. at pp. 34 (Manuel Martinez), 39 (Arellano Aguilar), 42 (Angel Sepulveda), 43 (Isidro Salazar [whose time record appears visibly manually altered]). Given the irreconcilable contradictions on the face of Butler's payroll documents, they cannot be relied upon by the Administrator or this Court.

2. The Administrator's reconstruction

The Administrator's reconstruction of backwages is based on only two sources of information, both provided by Butler: the hours Butler certified their employees would work each week, and the prevailing wage rate actually due for the job being performed in a specific geographic locality. Butler provided the number of hours worked each week on their TEC: 40 hours/week. AX at C-3; TX at 68. The WHD's reconstruction used 40 hours a week. The location used was from Butler's Addendum to their TEC at AX C-13 to C-15. *See* AX at I-1 to I-4; TX at pp. 64, lines 16-18; 65, lines 3-14.

Because there was no information about which employee worked in which location during the first eleven weeks of Butler's season, instead of randomly assigning an employee to a location in which work was presumed to have taken place, WHI Aguilar took an average of the prevailing wage rate for each job and each location Butler listed for the first eleven weeks of their 2013 season and calculated the backwages for all employees performing that specific job based on the average. AX at Ex. I; TX at pp. 65, line 20; 69-70, lines 20-1. WHI Aguilar then applied this average prevailing wage rate to each employee who performed a specific non-ARA job for each workweek during the investigative period, for the 40 hours Butler attested each employee would work. WHI Aguilar subtracted the amounts paid to each employee and the remainder is the backwages due. AX at Ex. I.

Despite Butler's bald assertion that the Administrator "has improperly calculated any alleged back wages, hours worked, or civil money penalties," (AX at K-2), Butler has failed to provide any

new information or identify any document previously produced to contradict the Administrator's reconstruction. Indeed, Butler does not appear to have any objection to the Administrator's calculations, but only seeks to have offsets applied to reduce those calculations. AX at N-4 to N-5 (response to Interrogatory No. 9).

3. The civil money penalty was appropriate

Pursuant to 20 C.F.R. § 655.65(c), the Administrator may assess civil money penalties up to $10,000 per violation for "any substantial failure to meet the conditions provided in the H–2B Application for Temporary Employment Certification or the DHS Form I–129, Petition for a Nonimmigrant Worker for an H–2B worker or successor form." *See also* 8 U.S.C. §1184(c)(14)(A)(i). This Court assesses CMPs *de novo* and is not limited to WHD's findings. In re: Peroulis and Sons Sheep, Inc., ARB Case Nos. 14-076, 14-077, ALJ Case No. 2012-TAE-004, 2016 WL 4942416, *7 (esp. fn. 8) (ARB: Sept. 12, 2016). However, the Administrator's remedies should not typically be disturbed or modified unless found to be arbitrary or an abuse of discretion. *See generally* Amtel Group of Florida, Inc. v. Yongmahapakorn, ARB No. 04-087, 2006 WL 2821406, at *6 (ARB Sept. 29, 2006) (discussing civil money penalties in H-1B program); Administrator v. Mohan Kutty, M.D., ARB 03-022, Slip Op. at 16 (ARB May 31, 2005) (same).

Here, the Administrator assessed a civil money penalty of $10,000 for the substantial failure to pay employees for the work they actually performed. RX at 19, p. 5 (unmarked page). In determining the amount of the assessment, WHD considered the factors delineated in 20 C.F.R. §655.65(g)[14] [RX at 76, p. 46]; *see also* TX at 309, lines 10-15; 366-368.

[14] The factors are: (1) previous history of violation, or violations, by the employer under the INA and this subpart, and 8 C.F.R. §214.2; (2) the number of U.S. or H–2B workers employed by the employer and affected by the violation or violations; (3) the gravity of the violation or violations; (4) efforts made by the employer in good faith to comply with the INA and regulatory provisions of this subpart and at 8 C.F.R. §214.2(h); (5) the employer's explanation of the violation or violations; (6) the employer's commitment to future compliance, and; (7) the extent to which the employer achieved a financial gain due to the violation, or the potential financial loss to the employer's workers. 20 C.F.R. §655.65(g).

The violation affected all workers who performed non-ARA job duties. Moreover, there was no effort by this experienced H-2B employer to comply in good faith with the INA and the regulations, as Butler, *inter alia*: (1) denied that any nonimmigrant employee would be performing any supervisory duties (AX at C-3 (Section F, box #4)); promised to pay the variable prevailing wage rate (AX at D-23), and; listed only ARA job duties when describing the work of all nonimmigrant employees, including those who actually performed non-ARA job duties (AX at C-3 (Section F, box #5)). Butler enjoyed substantial financial gain due to the violations by paying employees significantly less than the required wage, and failing to publicize the actual jobs performed to domestic workers, thus eliminating a source of competition for the exploitable, nonimmigrant workforce. Butler does not acknowledge that they failed to comply with the H-2B program (TX at 362-364) and have made no changes in their business since the Administrator's Determination Letter. TX at 365, lines 9-10.

The WHD's assessment of $10,000 was within the statutory and regulatory authorization and was derived with due regard for the totality of circumstances. The civil money penalty should be affirmed.

IV. REBUTTAL RESPONSE TO RESPONDENTS' CASE

Butler's main, presumable arguments concern "industry practice," the value of employer provided housing and transportation, and their use of an agent to file the TEC. Respondents' argument at trial (*see* TX at 309) and throughout this litigation, that the absence of a job description for the TEC exempts them from identifying the job their nonimmigrant employees were to perform, was analyzed in this Court's SD Order and will not be repeated here. *See* SD Order at p. 11 (Form 9142 puts employers on notice to accurately describe the nature of their employment need).

///

///

A. Industry practice

Without authority, Respondents point to the industry practice for traveling carnivals to permit them to circumvent the requirements of the H-2B program. Respondents self-reference their own reliance on prevailing practices in the mobile entertainment industry. *See* AX at Ex. C-12 (Respondents' signed addendum to the TEC); TX at 273, 280, 287-89, 300, 374. Butler has provided no authority for their position. Butler fabricates industry practice as a source of reliance for their noncompliance. Industry practice cannot and does not control any aspect of the requirements of the H-2B program. RX at 40, p. 9 (internally paginated p. 32).

B. Offset for backwage liability

Throughout this case, Butler has variously mentioned their entitlement to housing and incidental travel offsets to cover their costs of providing these services to their H-2B employees. AX at C-12 (Addendum to TEC); AX at K-3 (Request for Hearing: Issue No. 9); RX at 39 ("Combined Witness Statement" purporting to state that employees agreed to the receipt of unspecified "valuable benefits" including housing).[15]

While the H-2B regulations do not address credits for housing, §3(m) of the FLSA provides guidance on the issue. 29 U.S.C. §203(m). Section 3(m) allows an employer to include the reasonable cost of lodging in employee wages for purposes of computing the total wage paid only when and only when that provided 'board or lodging' is for the benefit of the employee. Castellanos-Contreras v. Decatur Hotels, LLC, 622 F.3d 393, fn. 10 (5th Cir. 2010). The employer has the burden of showing that it is entitled to a housing credit. Reich v. Crockett, 68 F.3d 469 (5th Cir. 1995) (table); Donovan v.

[15] Butler provided no protections to demonstrate that these "witness statements" were not coercive. Acosta v. Austin Electric Services, LLC, *et al.*, Case No. CV-16--2737-PHX-ROS, p. 9 (Aug. 17, 2018) governs when and for what purpose an employer may require its employee's statement, noting that "an employer is prohibited from obtaining, under coercive circumstances, employee declarations, particularly declarations that are relevant to and go to the heart of a pending claim that the employer failed to fully compensate employees."

New Floridian Hotel, Inc., 676 F.2d 468, 473-74 (11th Cir. 1982). The employer's burden includes keeping records concerning costs and also of proving the reasonable cost of providing such lodging. Caro-Galvan v. Curtis Richardson, Inc., 993 F.2d 1500, 1514 (11th Cir. 1993); New Floridian Hotel, Inc., 676 F.2d at 474; 29 C.F.R. § 516.27.[16]

Butler can't take the §3(m) credit because the housing and incidental travel was provided to benefit Butler so that Butler could maintain an available, geographically disparate workforce. Given Butler's operation in different locations each week, no applicant would accept a job where they're required to pay their own housing costs and transportation to the fairgrounds, both of which would deplete nearly their entire pay.[17] Providing employees with housing and incidental transportation benefits only Butler by having a workforce in myriad locations throughout the season. Any of Butler's arguments to the contrary are logically disingenuous.

Furthermore, Butler only seeks the housing and incidental travel offsets for The Nine Employees for whom the Administrator calculated backwages. TX at 331-332, lines 24, 25, 1; Id. at 333, lines 19-20. Either Butler is asking the Court to recognize the legitimacy of taking offsets which reduce employees' pay by at least $184.64[18] leading to net wages for these employees of far less than the

---

[16] Aside from this primary reason, there are a myriad of secondary reasons, including but not limited to: Respondents never provided the Secretary with the facts necessary to determine the "fair value" of the facility provided, pursuant to 29 C.F.R. §531.2(a); the TEC's requirement that each certified employer pay a "basic rate of pay" (*see* TEC at §G (AX at Ex. C-5); RX at 6, p. 6), not a 'rate of pay subject to offset at the employer's discretion;' that the "housing" provided does not meet minimal housing codes because there are no bathrooms or lavatory facilities (TX at 327).

[17] To take Santa Barbara as an example, the cheapest lodging located was $60/night. https://www.expedia.com/Santa-Barbara-Motels.d602277-aaMotels.Travel-Guide-Accommodation?regionId=11702&semcid=US.UB.GOOGLE.DL-c-EN.HOTEL&semdtl=a11933020451.b168986095325.r1.g1dsa-611192650060.i170681609701.d1351068876609.e1c.j19007525.k11014248.f11t2.n1.l1g.h1b.m1&gclid=EAIaIQobChMIhpDv-8e84wIVAYbICh3EsgQ0EAAYAiAAEgIwpPD_BwE Even if employees bunk two to a room, the cost is $30/night plus tax. For seven nights in a workweek, the cost is $210 without tax per employee, and without "incredibly difficult" transportation to the fairgrounds (TX at 296), resulting in a significant reduction of pay. Any argument that Butler's employees have a true choice in any housing other than Butler's on-site housing is untenable. Butler would not have a workforce unless they provided housing.

[18] Butler claims a housing offset of $134.39 per week (RX at 31) and an incidental travel offset of $52.25 per week (RX at 35, 36). The total weekly offset of $186.64 exceeds the $150 "benefit" Butler disclosed in their classified ads for recruitment of the positions. RX at 2 and 3.

weekly amount Butler promised they would pay employees on their TEC (AX at Ex. C, p. 12)[19], or Butler is asking this Court to recognize a purely theoretical offset applied to the backwages calculated by the Administrator.

FLSA offsets do not exist as a legal fiction for an employer to simply haul out when searching for a limitation to its financial exposure. An employer may take an offset only when the provided benefit genuinely benefits the employee, and where the employee knowingly and voluntarily accepts part of their wages in the facility provided (*see* 29 C.F.R. §531, Subpart B). Neither of these elements are present here and Butler is not eligible to take any offset for wages due.

Alternatively, by Butler's own admission they are not eligible to take a housing or transportation offset because Butler stated they would only seek an offset if the wage they paid to their employees was higher than the prevailing wage rate due. In a particularized addendum to their TEC, Butler stated: "**[i]f** the wage to be paid is higher that [sic] the Variable Prevailing Wage Determination, the employer reserves the right to charge a fee for housing and transportation..." AX at C-12 (italics immediately following indented text). Here, the prevailing wage rate was not higher than the rate Butler paid. AX at I-1 to I-215a (amount in the "PWR due [prevailing wage rate due]" column is more than the amount in the "Weekly rate paid" column). Butler's own condition precedent not being met, they are not entitled to an offset.

C. Reliance on agent for attestations

Any argument Respondents make that they are not responsible for the promises made on the TEC attestations must be summarily rejected. Butler cannot disavow their promises made on the TEC

[19] The Nine Employees made weekly wages ranging from a low of $320 for shop workers (RX at 26, p. 56 (Mr. Quijano); Id. at p. 53 (Mr. Hernandez)) [an amount lower than the basic rate of pay Butler promised it would pay (AX at C-5 (box #1))] to a high of $745 for Mr. Mendez (RX at 26 at p. 27). The rest of The Nine Employees made $500 (e.g. RX at 26, p. 38 (Mr. Preza); Id. at p. 497 (Mr. Ortega); Id. at p. 130 (Mr. Herrera); Id. at p. 61 (Mr. Guzman), and Id. at 138 (Mr. Gamero)) with the exception of Mr. Lopez who made $525 (e.g. RX at 26, p. 177).

because their agent filled it out and they merely signed it. Mr. Brajevich testified that agent Judkins acted on Butler's authority. TX at 276. Agent Judkins thus acted with actual authority, binding Butler to the legal consequences of his actions. RESTATEMENT (THIRD) OF AGENCY, §2.01 (2006) ("An agent acts with actual authority when, at the time of taking action that has legal consequences for the principal, the agent reasonably, in accordance with the principal's manifestations to the agent, that the principal wishes the agent so to act.").

Congress did not intend the H-2B program to permit Respondents to agree to comply with a scheme, receive the benefit of that scheme, fail to comply with the scheme, and then blame someone else upon whom they relied for the whole program to excuse their own noncompliance. The entire H-2B system relies on an employer's promises to comply with the rules. Such promises acknowledge that in exchange for compliance with the H-2B program, the government will cede authority to a private employer to determine who may cross a national border to perform work. Butler acknowledged this with their signatures. Butler received the benefit of a nonimmigrant workforce for their 2013 season (and more [*see* RX at 39]). Butler now asks this Court to excuse each of those broken promises Butler made to maximize their profits, deny their workers of the fair pay to which they were entitled, and avoid a penalty imposed by Butler's noncompliance.

CONCLUSION

The credible testimony and evidence admitted at the hearing establishes that Butler sought to take advantage of all of the benefits of the H-2B visa program without complying with any of its requirements. Butler substantially failed to to comply with the requirements of the TEC when it employed nine individuals in positions other than the ARA position they petitioned for and failed to pay them for the jobs they actually performed.

In addition to the backwages and civil money penalty, the Administrator asks this Court to

include a non-retaliation provision for any employee who receives backwages, or who contacts the Administrator to discuss their rights under the H-2B program. Butler does not object to the non-retaliation provision. TX at 357-358.

Respectfully submitted this 23rd day of July, 2019.

Attorneys for Plaintiff

United States Code Annotated - 2009
8 U.S.C.A. § 1184
United States Code Annotated Currentness

Title 8. Aliens and Nationality (Refs & Annos)
Chapter 12. Immigration and Nationality (Refs & Annos)
Subchapter II. Immigration
Part II. Admission Qualifications for Aliens; Travel Control of Citizens and Aliens
§ 1184. Admission of nonimmigrants

(a) Regulations

(1) The admission to the United States of any alien as a nonimmigrant shall be for such time and under such conditions as the Attorney General may by regulations prescribe, including when he deems necessary the giving of a bond with sufficient surety in such sum and containing such conditions as the Attorney General shall prescribe, to insure that at the expiration of such time or upon failure to maintain the status under which he was admitted, or to maintain any status subsequently acquired under section 1258 of this title, such alien will depart from the United States.

No alien admitted to Guam without a visa pursuant to section 1182(l) of this title may be authorized to enter or stay in the United States other than in Guam or to remain in Guam for a period exceeding fifteen days from date of admission to Guam. No alien admitted to the United States without a visa pursuant to section 1187 of this title may be authorized to remain in the United States as a nonimmigrant visitor for a period exceeding 90 days from the date of admission.

(2)(A) The period of authorized status as a nonimmigrant described in section 1101(a)(15)(O) of this title shall be for such period as the Attorney General may specify in order to provide for the event (or events) for which the nonimmigrant is admitted.

(B) The period of authorized status as a nonimmigrant described in section 1101(a)(15)(P) of this title shall be for such period as the Attorney General may specify in order to provide for the competition, event, or performance for which the nonimmigrant is admitted. In the case of nonimmigrants admitted as individual athletes under section 1101(a)(15)(P) of this title, the period of authorized status may be for an initial period (not to exceed 5 years) during which the nonimmigrant will perform as an athlete and such period may be extended by the Attorney General for an additional period of up to 5 years.

(b) Presumption of status; written waiver
Every alien (other than a nonimmigrant described in subparagraph (L) or (V) of section 1101(a)(15) of this title, and other than a nonimmigrant described in any provision of section 1101(a)(15)(H)(i) of this title except subclause (b1) of such section) shall be presumed to be an immigrant until he establishes to the satisfaction of the consular officer, at the time of application for a visa, and the immigration officers, at the time of application for admission, that he is entitled to a nonimmigrant status under section 1101(a)(15) of this title. An alien who is an officer or employee of any foreign government or of any international organization entitled to enjoy

privileges, exemptions, and immunities under the International Organizations Immunities Act [22 U.S.C.A. § 288 et seq.], or an alien who is the attendant, servant, employee, or member of the immediate family of any such alien shall not be entitled to apply for or receive an immigrant visa, or to enter the United States as an immigrant unless he executes a written waiver in the same form and substance as is prescribed by section 1257(b) of this title.

(c) Petition of importing employer; involvement of Departments of Labor and Agriculture

(1) The question of importing any alien as a nonimmigrant under section subparagraph (H), (L), (O), or (P)(i) of section 1101(a)(15) of this title (excluding nonimmigrants under section 1101(a)(15)(H)(i)(b1) of this title) in any specific case or specific cases shall be determined by the Attorney General, after consultation with appropriate agencies of the Government, upon petition of the importing employer. Such petition, shall be made and approved before the visa is granted. The petition shall be in such form and contain such information as the Attorney General shall prescribe. The approval of such a petition shall not, of itself, be construed as establishing that the alien is a nonimmigrant.

For purposes of this subsection with respect to nonimmigrants described in section 1101(a)(15)(H)(ii)(a) of this title, the term "appropriate agencies of Government" means the Department of Labor and includes the Department of Agriculture.

The provisions of section 1188 of this title shall apply to the question of importing any alien as a nonimmigrant under section 1101(a)(15)(H)(ii)(a) of this title.

(2)(A) The Attorney General shall provide for a procedure under which an importing employer which meets requirements established by the Attorney General may file a blanket petition to import aliens as nonimmigrants described in section 1101(a)(15)(L) of this title instead of filing individual petitions under paragraph (1) to import such aliens. Such procedure shall permit the expedited processing of visas for admission of aliens covered under such a petition.

(B) For purposes of section 1101(a)(15)(L) of this title, an alien is considered to be serving in a capacity involving specialized knowledge with respect to a company if the alien has a special knowledge of the company product and its application in international markets or has an advanced level of knowledge of processes and procedures of the company.

(C) The Attorney General shall provide a process for reviewing and acting upon petitions under this subsection with respect to nonimmigrants described in section 1101(a)(15)(L) of this title within 30 days after the date a completed petition has been filed.

(D) The period of authorized admission for—
(i) a nonimmigrant admitted to render services in a managerial or executive capacity under section 1101(a)(15)(L) of this title shall not exceed 7 years, or

(ii) a nonimmigrant admitted to render services in a capacity that involves specialized knowledge under section 1101(a)(15)(L) of this title shall not exceed 5 years.

(E) In the case of an alien spouse admitted under section 1101(a)(15)(L) of this title, who is accompanying or following to join a principal alien admitted under such section, the Attorney General shall authorize the alien spouse to engage in employment in the United States and provide the spouse with an "employment authorized" endorsement or other appropriate work permit.

(F) An alien who will serve in a capacity involving specialized knowledge with respect to an employer for purposes of section 1101(a)(15)(L) and will be stationed primarily at the worksite of an employer other than the petitioning employer or its affiliate, subsidiary, or parent shall not be eligible for classification under section 1101(a)(15)(L) if—

(i) the alien will be controlled and supervised principally by such unaffiliated employer; or

(ii) the placement of the alien at the worksite of the unaffiliated employer is essentially an arrangement to provide labor for hire for the unaffiliated employer, rather than a placement in connection with the provision of a product or service for which specialized knowledge specific to the petitioning employer is necessary.

(3) The Attorney General shall approve a petition—

(A) with respect to a nonimmigrant described in section 1101(a)(15)(O)(i) of this title only after consultation in accordance with paragraph (6) or, with respect to aliens seeking entry for a motion picture or television production, after consultation with the appropriate union representing the alien's occupational peers and a management organization in the area of the alien's ability, or

(B) with respect to a nonimmigrant described in section 1101(a)(15)(O)(ii) of this title after consultation in accordance with paragraph (6) or, in the case of such an alien seeking entry for a motion picture or television production, after consultation with such a labor organization and a management organization in the area of the alien's ability.

In the case of an alien seeking entry for a motion picture or television production,

(i) any opinion under the previous sentence shall only be advisory,

(ii) any such opinion that recommends denial must be in writing,

(iii) in making the decision the Attorney General shall consider the exigencies and scheduling of the production, and

(iv) the Attorney General shall append to the decision any such opinion. The Attorney General shall provide by regulation for the waiver of the consultation requirement under subparagraph (A) in the case of aliens who have been admitted as nonimmigrants under section 1101(a)(15)(O)(i) of this title because of extraordinary ability in the arts and who seek readmission to perform similar services within 2 years after the date of a consultation under such subparagraph. Not later than 5 days after the date such a waiver is provided, the Attorney General shall forward a copy of the petition and all supporting documentation to the national office of an appropriate labor organization.

(4)(A) For purposes of section 1101(a)(15)(P)(i)(a) of this title, an alien is described in this subparagraph if the alien—

(i)(I) performs as an athlete, individually or as part of a group or team, at an internationally recognized level of performance;

(II) is a professional athlete, as defined in section 1154(i)(2) of this title;

(III) performs as an athlete, or as a coach, as part of a team or franchise that is located in the United States and a member of a foreign league or association of 15 or more amateur sports teams, if—

(aa) the foreign league or association is the highest level of amateur performance of that sport in the relevant foreign country;

(bb) participation in such league or association renders players ineligible, whether on a temporary or permanent basis, to earn a scholarship in, or participate in, that sport at a college or university in the United States under the rules of the National Collegiate Athletic Association; and

(cc) a significant number of the individuals who play in such league or association are drafted by a major sports league or a minor league affiliate of such a sports league; or

(IV) is a professional athlete or amateur athlete who performs individually or as part of a group in a theatrical ice skating production; and

(ii) seeks to enter the United States temporarily and solely for the purpose of performing—

(I) as such an athlete with respect to a specific athletic competition; or

(II) in the case of an individual described in clause (i)(IV), in a specific theatrical ice skating production or tour.

(B)(i) For purposes of section 1101(a)(15)(P)(i)(b) of this title, an alien is described in this subparagraph if the alien—

(I) performs with or is an integral and essential part of the performance of an entertainment group that has (except as provided in clause (ii)) been recognized internationally as being outstanding in the discipline for a sustained and substantial period of time,

(II) in the case of a performer or entertainer, except as provided in clause (iii), has had a sustained and substantial relationship with that group (ordinarily for at least one year) and provides functions integral to the performance of the group, and

(III) seeks to enter the United States temporarily and solely for the purpose of performing as such a performer or entertainer or as an integral and essential part of a performance.

(ii) In the case of an entertainment group that is recognized nationally as being outstanding in its discipline for a sustained and substantial period of time, the Attorney General may, in consideration of special circumstances, waive the international recognition requirement of clause (i)(I).

(iii)(I) The one-year relationship requirement of clause (i)(II) shall not apply to 25 percent of the performers and entertainers in a group.

(II) The Attorney General may waive such one-year relationship requirement for an alien who because of illness or unanticipated and exigent circumstances replaces an essential member of the group and for an alien who augments the group by performing a critical role.

(iv) The requirements of subclauses (I) and (II) of clause (i) shall not apply to alien circus personnel who perform as part of a circus or circus group or who constitute an integral and essential part of the performance of such circus or circus group, but only if such personnel are entering the United States to join a circus that has been recognized nationally as outstanding for a sustained and substantial period of time or as part of such a circus.

(C) A person may petition the Attorney General for classification of an alien as a nonimmigrant under section 1101(a)(15)(P) of this title.

(D) The Attorney General shall approve petitions under this subsection with respect to nonimmigrants described in clause (i) or (iii) of section 1101(a)(15)(P) of this title only after consultation in accordance with paragraph (6).

(E) The Attorney General shall approve petitions under this subsection for nonimmigrants described in section 1101(a)(15)(P)(ii) of this title only after consultation with labor organizations representing artists and entertainers in the United States.

(F)(i) No nonimmigrant visa under section 1101(a)(15)(P)(i)(a) of this title shall be issued to any alien who is a national of a country that is a state sponsor of international terrorism unless the Secretary of State determines, in consultation with the Secretary of Homeland Security and the heads of other appropriate United States agencies, that such alien does not pose a threat to the safety, national security, or national interest of the United States. In making a determination under this subparagraph, the Secretary of State shall apply standards developed by the Secretary of State, in consultation with the Secretary of Homeland Security and the heads of other appropriate United States agencies, that are applicable to the nationals of such states.

(ii) In this subparagraph, the term "state sponsor of international terrorism" means any country the government of which has been determined by the Secretary of State under any of the laws specified in clause (iii) to have repeatedly provided support for acts of international terrorism.

(iii) The laws specified in this clause are the following:

(I) Section 2405(j)(1)(A) of the Title 50, Appendix (or successor statute).

(II) Section 2780(d) of Title 22.

(III) Section 2371(a) of Title 22.

(G) The Secretary of Homeland Security shall permit a petition under this subsection to seek classification of more than 1 alien as a nonimmigrant under section 1101(a)(15)(P)(i)(a) of this title.

(H) The Secretary of Homeland Security shall permit an athlete, or the employer of an athlete, to seek admission to the United States for such athlete under a provision of this chapter other than section 1101(a)(15)(P)(i) of this title if the athlete is eligible under such other provision.

(5)(A) In the case of an alien who is provided nonimmigrant status under section 1101(a)(15)(H)(i)(b) or 1101(a)(15)(H)(ii)(b) of this title and who is dismissed from employment by the employer before the end of the period of authorized admission, the employer shall be liable for the reasonable costs of return transportation of the alien abroad.

(B) In the case of an alien who is admitted to the United States in nonimmigrant status under section 1101(a)(15)(O) or 1101(a)(15)(P) of this title and whose employment terminates for reasons other than voluntary resignation, the employer whose offer of employment formed the basis of such nonimmigrant status and the petitioner are jointly and severally liable for the reasonable cost of return transportation of the alien abroad. The petitioner shall provide assurance satisfactory to the Attorney General that the reasonable cost of that transportation will be provided.

(6)(A)(i) To meet the consultation requirement of paragraph (3)(A) in the case of a petition for a nonimmigrant described in section 1101(a)(15)(O)(i) of this title (other than with respect to aliens seeking entry for a motion picture or television production), the petitioner shall submit with the petition an advisory opinion from a peer group (or other person or persons of its choosing, which may include a labor organization) with expertise in the specific field involved.

(ii) To meet the consultation requirement of paragraph (3)(B) in the case of a petition for a nonimmigrant described in section 1101(a)(15)(O)(ii) of this title (other than with respect to aliens seeking entry for a motion picture or television production), the petitioner shall submit with the petition an advisory opinion from a labor organization with expertise in the skill area involved.

(iii) To meet the consultation requirement of paragraph (4)(D) in the case of a petition for a nonimmigrant described in section 1101(a)(15)(P)(i) or 1101(a)(15)(P)(iii) of this title, the petitioner shall submit with the petition an advisory opinion from a labor organization with expertise in the specific field of athletics or entertainment involved.

(B) To meet the consultation requirements of subparagraph (A), unless the petitioner submits with the petition an advisory opinion from an appropriate labor organization, the Attorney General shall forward a copy of the petition and all supporting documentation to the national office of an appropriate labor organization within 5 days of the date of receipt of the petition. If there is a collective bargaining representative of an employer's employees in the occupational

classification for which the alien is being sought, that representative shall be the appropriate labor organization.

(C) In those cases in which a petitioner described in subparagraph (A) establishes that an appropriate peer group (including a labor organization) does not exist, the Attorney General shall adjudicate the petition without requiring an advisory opinion.

(D) Any person or organization receiving a copy of a petition described in subparagraph (A) and supporting documents shall have no more than 15 days following the date of receipt of such documents within which to submit a written advisory opinion or comment or to provide a letter of no objection. Once the 15-day period has expired and the petitioner has had an opportunity, where appropriate, to supply rebuttal evidence, the Attorney General shall adjudicate such petition in no more than 14 days. The Attorney General may shorten any specified time period for emergency reasons if no unreasonable burden would be thus imposed on any participant in the process.

(E)(i) The Attorney General shall establish by regulation expedited consultation procedures in the case of nonimmigrant artists or entertainers described in section 1101(a)(15)(O) or 1101(a)(15)(P) of this title to accommodate the exigencies and scheduling of a given production or event.

(ii) The Attorney General shall establish by regulation expedited consultation procedures in the case of nonimmigrant athletes described in section 1101(a)(15)(O)(i) or 1101(a)(15)(P)(i) of this title in the case of emergency circumstances (including trades during a season).

(F) No consultation required under this subsection by the Attorney General with a nongovernmental entity shall be construed as permitting the Attorney General to delegate any authority under this subsection to such an entity. The Attorney General shall give such weight to advisory opinions provided under this section as the Attorney General determines, in his sole discretion, to be appropriate.

(7) If a petition is filed and denied under this subsection, the Attorney General shall notify the petitioner of the determination and the reasons for the denial and of the process by which the petitioner may appeal the determination.

(8) The Attorney General shall submit annually to the Committees on the Judiciary of the House of Representatives and of the Senate a report describing, with respect to petitions under each subcategory of subparagraphs (H), (O), (P), and (Q) of section 1101(a)(15) of this title the following:

(A) The number of such petitions which have been filed.

(B) The number of such petitions which have been approved and the number of workers (by occupation) included in such approved petitions.

(C) The number of such petitions which have been denied and the number of workers (by

occupation) requested in such denied petitions.

(D) The number of such petitions which have been withdrawn.

(E) The number of such petitions which are awaiting final action.

(9)(A) The attorney general shall impose a fee on an employer (excluding any employer that is a primary or secondary education institution, an institution of higher education, as defined in section 1001(a) of Title 20, a nonprofit entity related to or affiliated with any such institution, a nonprofit entity which engages in established curriculum-related clinical training of students registered at any such institution, a nonprofit research organization, or a governmental research organization) filing before [FN1] a petition under paragraph (1)
(i) initially to grant an alien nonimmigrant status described in section 1101(a)(15)(H)(i)(b) of this title;

(ii) to extend the stay of an alien having such status (unless the employer previously has obtained an extension for such alien); or

(iii) to obtain authorization for an alien having such status to change employers.

(B) The amount of the fee shall be $1,500 for each such petition except that the fee shall be half the amount for each such petition by any employer with not more than 25 full-time equivalent employees who are employed in the United States (determined by including any affiliate or subsidiary of such employer).

(C) Fees collected under this paragraph shall be deposited in the Treasury in accordance with section 286(s).

(10) An amended H-1B petition shall not be required where the petitioning employer is involved in a corporate restructuring, including but not limited to a merger, acquisition, or consolidation, where a new corporate entity succeeds to the interests and obligations of the original petitioning employer and where the terms and conditions of employment remain the same but for the identity of the petitioner.

(11)(A) Subject to subparagraph (b), the Secretary of Homeland Security or the Secretary of State, as appropriate, shall impose a fee on an employer who has filed an attestation described in section 1182(t) of this title—

(i) in order that an alien may be initially granted nonimmigrant status described in section 1101(a)(15)(H)(i)(b1) of this title; or

(ii) in order to satisfy the requirement of the second sentence of subsection (g)(8)(C) of this section for an alien having such status to obtain certain extensions of stay.

(B) The amount of the fee shall be the same as the amount imposed by the Secretary of Homeland Security under paragraph (9), except that if such paragraph does not authorize such

Secretary to impose any fee, no fee shall be imposed under this paragraph.

(C) Fees collected under this paragraph shall be deposited in the Treasury in accordance with section 1356(s) of this title.

(12)(A) In addition to any other fees authorized by law, the Secretary of Homeland Security shall impose a fraud prevention and detection fee on an employer filing a petition under paragraph (1)—

(i) initially to grant an alien nonimmigrant status described in subparagraph (H)(i)(b) or (L) of section 1101(a)(15) of this title; or

(ii) to obtain authorization for an alien having such status to change employers.

(B) In addition to any other fees authorized by law, the Secretary of State shall impose a fraud prevention and detection fee on an alien filing an application abroad for a visa authorizing admission to the United States as a nonimmigrant described in section 1101(a)(15)(L) of this title, if the alien is covered under a blanket petition described in paragraph (2)(A).
(C) The amount of the fee imposed under subparagraph (A) or (B) shall be $500.
(D) The fee imposed under subparagraph (A) or (B) shall only apply to principal aliens and not to the spouses or children who are accompanying or following to join such principal aliens.
(E) Fees collected under this paragraph shall be deposited in the Treasury in accordance with section 1356(v) of this title.

(13)(A) In addition to any other fees authorized by law, the Secretary of Homeland Security shall impose a fraud prevention and detection fee on an employer filing a petition under paragraph (1) for nonimmigrant workers described in section 1101(a)(15)(H)(ii)(b) of this title.
(B) The amount of the fee imposed under subparagraph (A) shall be $150.

(14)(A) If the Secretary of homeland security finds, after notice and an opportunity for a hearing, a substantial failure to meet any of the conditions of the petition to admit or otherwise provide status to a nonimmigrant worker under section 1101(a)(15)(h)(ii)(b) of this title or a willful misrepresentation of a material fact in such petition—

(i) the Secretary of Homeland Security may, in addition to any other remedy authorized by law, impose such administrative remedies (including civil monetary penalties in an amount not to exceed $10,000 per violation) as the Secretary of Homeland Security determines to be appropriate; and

(ii) the Secretary of Homeland Security may deny petitions filed with respect to that employer under section 1154 of this title or paragraph (1) of this subsection during a period of at least 1 year but not more than 5 years for aliens to be employed by the employer.

(B) The Secretary of Homeland Security may delegate to the Secretary of Labor, with the agreement of the Secretary of Labor, any of the authority given to the Secretary of Homeland Security under subparagraph (A)(i).

(C) In determining the level of penalties to be assessed under subparagraph (A), the highest penalties shall be reserved for willful failures to meet any of the conditions of the petition that involve harm to United States workers.

(D) In this paragraph, the term "substantial failure" means the willful failure to comply with the requirements of this section that constitutes a significant deviation from the terms and conditions of a petition.

(d) Issuance of visa to fiancée or fiancé of citizen

(1) A visa shall not be issued under the provisions of section 1101(a)(15)(K)(i) of this title until the consular officer has received a petition filed in the United States by the fiancée or fiancé of the applying alien and approved by the Secretary of Homeland Security. The petition shall be in such form and contain such information as the Secretary of Homeland Security shall, by regulation, prescribe. Such information shall include information on any criminal convictions of the petitioner for any specified crime. It shall be approved only after satisfactory evidence is submitted by the petitioner to establish that the parties have previously met in person within 2 years before the date of filing the petition, have a bona fide intention to marry, and are legally able and actually willing to conclude a valid marriage in the United States within a period of ninety days after the alien's arrival, except that the Secretary of Homeland Security in his discretion may waive the requirement that the parties have previously met in person. In the event the marriage with the petitioner does not occur within three months after the admission of the said alien and minor children, they shall be required to depart from the United States and upon failure to do so shall be removed in accordance with sections 1229a and 1231 of this title.

(2)(A) Subject to subparagraphs (b) and (c) of this section, a consular officer may not approve a petition under paragraph (1) unless the officer has verified that—
(i) the petitioner has not, previous to the pending petition, petitioned under paragraph (1) with respect to two or more applying aliens; and

(ii) if the petitioner has had such a petition previously approved, 2 years have elapsed since the filing of such previously approved petition.

(B) The Secretary of Homeland Security may, in the Secretary's discretion, waive the limitations in subparagraph (A) if justification exists for such a waiver. Except in extraordinary circumstances and subject to subparagraph (C), such a waiver shall not be granted if the petitioner has a record of violent criminal offenses against a person or persons.

(C)(i) The Secretary of Homeland Security is not limited by the criminal court record and shall grant a waiver of the condition described in the second sentence of subparagraph (B) in the case of a petitioner described in clause (ii).

(ii) A petitioner described in this clause is a petitioner who has been battered or subjected to extreme cruelty and who is or was not the primary perpetrator of violence in the relationship upon a determination that—

(I) the petitioner was acting in self-defense;

(II) the petitioner was found to have violated a protection order intended to protect the petitioner; or

(III) the petitioner committed, was arrested for, was convicted of, or pled guilty to committing a crime that did not result in serious bodily injury and where there was a connection between the crime and the petitioner's having been battered or subjected to extreme cruelty.

(iii) In acting on applications under this subparagraph, the Secretary of Homeland Security shall consider any credible evidence relevant to the application. The determination of what evidence is credible and the weight to be given that evidence shall be within the sole discretion of the Secretary.

(3) In this subsection:

(A) The terms "domestic violence", "sexual assault", "child abuse and neglect", "dating violence", "elder abuse", and "stalking" have the meaning given such terms in section 13925 of Title 42.

(B) The term "specified crime" means the following:

(i) Domestic violence, sexual assault, child abuse and neglect, dating violence, elder abuse, and stalking.

(ii) Homicide, murder, manslaughter, rape, abusive sexual contact, sexual exploitation, incest, torture, trafficking, peonage, holding hostage, involuntary servitude, slave trade, kidnapping, abduction, unlawful criminal restraint, false imprisonment, or an attempt to commit any of the crimes described in this clause.

(iii) At least three convictions for crimes relating to a controlled substance or alcohol not arising from a single act.

(e) Nonimmigrant professionals and annual numerical limit

(1) Notwithstanding any other provision of this chapter, an alien who is a citizen of Canada and seeks to enter the United States under and pursuant to the provisions of Annex 1502.1 (United States of America), Part C—Professionals, of the United States-Canada Free-Trade Agreement to engage in business activities at a professional level as provided for therein may be admitted for such purpose under regulations of the Attorney General promulgated after consultation with the Secretaries of State and Labor.

(2) An alien who is a citizen of Canada or Mexico, and the spouse and children of any such alien if accompanying or following to join such alien, who seeks to enter the United States under and pursuant to the provisions of Section D of Annex 1603 of the North American Free Trade Agreement (in this subsection referred to as "NAFTA") to engage in business activities at a

professional level as provided for in such Annex, may be admitted for such purpose under regulations of the Attorney General promulgated after consultation with the Secretaries of State and Labor. For purposes of this chapter, including the issuance of entry documents and the application of subsection (b) of this section, such alien shall be treated as if seeking classification, or classifiable, as a nonimmigrant under section 1101(a)(15) of this title. The admission of an alien who is a citizen of Mexico shall be subject to paragraphs (3), (4), and (5). For purposes of this paragraph and paragraphs (3), (4), and (5), the term "citizen of Mexico" means "citizen" as defined in Annex 1608 of NAFTA.

(3) The Attorney General shall establish an annual numerical limit on admissions under paragraph (2) of aliens who are citizens of Mexico, as set forth in Appendix 1603.D.4 of Annex 1603 of the NAFTA. Subject to paragraph (4), the annual numerical limit—

(A) beginning with the second year that NAFTA is in force, may be increased in accordance with the provisions of paragraph 5(a) of Section D of such Annex, and

(B) shall cease to apply as provided for in paragraph 3 of such Appendix.

(4) The annual numerical limit referred to in paragraph (3) may be increased or shall cease to apply (other than by operation of paragraph 3 of such Appendix) only if—
(A) the President has obtained advice regarding the proposed action from the appropriate advisory committees established under section 2155 of Title 19;

(B) the President has submitted a report to the Committee on the Judiciary of the Senate and the Committee on the Judiciary of the House of Representatives that sets forth—

(i) the action proposed to be taken and the reasons therefor, and

(ii) the advice obtained under subparagraph (A);

(C) a period of at least 60 calendar days that begins on the first day on which the President has met the requirements of subparagraphs (A) and (B) with respect to such action has expired; and

(D) the President has consulted with such committees regarding the proposed action during the period referred to in subparagraph (C).

(5) During the period that the provisions of Appendix 1603.D.4 of Annex 1603 of the NAFTA apply, the entry of an alien who is a citizen of Mexico under and pursuant to the provisions of Section D of Annex 1603 of NAFTA shall be subject to the attestation requirement of section 1182(m) of this title, in the case of a registered nurse, or the application requirement of section 1182(n) of this title, in the case of all other professions set out in Appendix 1603.D.1 of Annex 1603 of NAFTA, and the petition requirement of subsection (c) of this section, to the extent and in the manner prescribed in regulations promulgated by the Secretary of Labor, with respect to sections 1182(m) and 1182(n) of this title, and the Attorney General, with respect to subsection (c) of this section.

(6) In the case of an alien spouse admitted under section 1101(a)(15)(E) of this title, who is accompanying or following to join a principal alien admitted under such section, the Attorney General shall authorize the alien spouse to engage in employment in the United States and provide the spouse with an "employment authorized" endorsement or other appropriate work permit.

(f) Denial of crewmember status in case of certain labor disputes

(1) Except as provided in paragraph (3), no alien shall be entitled to nonimmigrant status described in section 1101(a)(15)(D) of this title if the alien intends to land for the purpose of performing service on board a vessel of the United States (as defined in section 2101(46) of Title 46) or on an aircraft of an air carrier (as defined in section 40102(a)(2) of Title 49) during a labor dispute where there is a strike or lockout in the bargaining unit of the employer in which the alien intends to perform such service.

(2) An alien described in paragraph (1)—

(A) may not be paroled into the United States pursuant to section 1182(d)(5) of this title unless the Attorney General determines that the parole of such alien is necessary to protect the national security of the United States; and

(B) shall be considered not to be a bona fide crewman for purposes of section 1282(b) of this title.

(3) Paragraph (1) shall not apply to an alien if the air carrier or owner or operator of such vessel that employs the alien provides documentation that satisfies the Attorney General that the alien—

(A) has been an employee of such employer for a period of not less than 1 year preceding the date that a strike or lawful lockout commenced;

(B) has served as a qualified crewman for such employer at least once in each of 3 months during the 12-month period preceding such date; and

(C) shall continue to provide the same services that such alien provided as such a crewman.

(g) Temporary workers and trainees; limitation on numbers

(1) The total number of aliens who may be issued visas or otherwise provided nonimmigrant status during any fiscal year (beginning with fiscal year 1992)—

(A) under section 1101(a)(15)(H)(i)(b) of this title, may not exceed—

(i) 65,000 in each fiscal year before fiscal year 1999;

(ii) 115,000 in fiscal year 1999;

(iii) 115,000 in fiscal year 2000;

(iv) 195,000 in fiscal year 2001;

(v) 195,000 in fiscal year 2002;

(vi) 195,000 in fiscal year 2003; and

(vii) 65,000 in each succeeding fiscal year;

(B) under section 1101(a)(15)(H)(ii)(b) of this title may not exceed 66,000.

(2) The numerical limitations of paragraph (1) shall only apply to principal aliens and not to the spouses or children of such aliens.

(3) Aliens who are subject to the numerical limitations of paragraph (1) shall be issued visas (or otherwise provided nonimmigrant status) in the order in which petitions are filed for such visas or status. If an alien who was issued a visa or otherwise provided nonimmigrant status and counted against the numerical limitations of paragraph (1) is found to have been issued such visa or otherwise provided such status by fraud or willfully misrepresenting a material fact and such visa or nonimmigrant status is revoked, then one number shall be restored to the total number of aliens who may be issued visas or otherwise provided such status under the numerical limitations of paragraph (1) in the fiscal year in which the petition is revoked, regardless of the fiscal year in which the petition was approved.

(4) In the case of a nonimmigrant described in section 1101(a)(15)(H)(i)(b) of this title, the period of authorized admission as such a nonimmigrant may not exceed 6 years.

(5) The numerical limitations contained in paragraph (1)(a) shall not apply to any nonimmigrant alien issued a visa or otherwise provided status under section 1101(a)(15)(h)(i)(b) of this title who—

(A) is employed (or has received an offer of employment) at an institution of higher education (as defined in section 1001(a) of Title 20), or a related or affiliated nonprofit entity;

(B) is employed (or has received an offer of employment) at a nonprofit research organization or a governmental research organization; or

(C) has earned a master's or higher degree from a United States institution of higher education (as defined in section 1001(a) of Title 20), until the number of aliens who are exempted from such numerical limitation during such year exceeds 20,000.

(6) Any alien who ceases to be employed by an employer described in paragraph (5)(A) shall, if employed as a nonimmigrant alien described in section 1101(a)(15)(H)(i)(b) of this title, who has not previously been counted toward the numerical limitations contained in paragraph (1)(A), be counted toward those limitations the first time the alien is employed by an employer

other than one described in paragraph (5).

(7) Any alien who has already been counted, within the 6 years prior to the approval of a petition described in subsection (c), toward the numerical limitations of paragraph (1)(A) shall not again be counted toward those limitations unless the alien would be eligible for a full 6 years of authorized admission at the time the petition is filed. Where multiple petitions are approved for 1 alien, that alien shall be counted only once.

(8)(A) The agreements referred to in section 1101(a)(15)(H) (i)(b1) of this title are—

(i) the United States-Chile Free Trade Agreement; and

(ii) the United States-Singapore Free Trade Agreement.

(B)(i) The Secretary of Homeland Security shall establish annual numerical limitations on approvals of initial applications by aliens for admission under section 1101(a)(15)(H)(i)(b1) of this title.

(ii) The annual numerical limitations described in clause (i) shall not exceed

(I) 1,400 for nationals of Chile (as defined in article 14.9 of the United States-Chile Free Trade Agreement) for any fiscal year; and

(II) 5,400 for nationals of Singapore (as defined in Annex 1A of the United States-Singapore Free Trade Agreement) for any fiscal year.

(iii) The annual numerical limitations described in clause (i) shall only apply to principal aliens and not to the spouses or children of such aliens.

(iv) The annual numerical limitation described in paragraph (1)(A) is reduced by the amount of the annual numerical limitations established under clause (i). However, if a numerical limitation established under clause (i) has not been exhausted at the end of a given fiscal year, the Secretary of Homeland Security shall adjust upwards the numerical limitation in paragraph (1)(A) for that fiscal year by the amount remaining in the numerical limitation under clause (i). Visas under section 1101(a)(15)(H)(i)(b) of this title may be issued pursuant to such adjustment within the first 45 days of the next fiscal year to aliens who had applied for such visas during the fiscal year for which the adjustment was made.

(C) The period of authorized admission as a nonimmigrant under section 1101(a)(15)(H)(i)(b1) of this title shall be 1 year, and may be extended, but only in 1-year increments. After every second extension, the next following extension shall not be granted unless the Secretary of Labor had determined and certified to the Secretary of Homeland Security and the Secretary of State that the intending employer has filed with the Secretary of Labor an attestation under section 1182(t)(1) of this title for the purpose of permitting the nonimmigrant to obtain such extension.

(D) The numerical limitation described in paragraph (1)(A) for a fiscal year shall be reduced by one for each alien granted an extension under subparagraph (C) during such year who has obtained 5 or more consecutive prior extensions.
(9)(A) Subject to subparagraphs (B) and (C), an alien who has already been counted toward the numerical limitation of paragraph (1)(B) during fiscal year 2004, 2005, or 2006 shall not again be counted toward such limitation during fiscal year 2007. Such an alien shall be considered a returning worker.

(B) A petition to admit or otherwise provide status under section 1101(a)(15)(H)(ii)(b) of this title shall include, with respect to a returning worker

(i) all information and evidence that the Secretary of Homeland Security determines is required to support a petition for status under section 1101(a)(15)(H)(ii)(b) of this title;

(ii) the full name of the alien; and

(iii) a certification to the Department of Homeland Security that the alien is a returning worker.

(C) An H-2B visa or grant of nonimmigrant status for a returning worker shall be approved only if the alien is confirmed to be a returning worker by—

(i) the Department of State; or

(ii) if the alien is visa exempt or seeking to change to status under section 1101(a)(15)(H)(ii)(b) of this title, the Department of Homeland Security.

(10) The numerical limitations of paragraph (1)(B) shall be allocated for a fiscal year so that the total number of aliens subject to such numerical limits who enter the United States pursuant to a visa or are accorded nonimmigrant status under section 1101(a)(15)(H)(ii)(b) of this title during the first 6 months of such fiscal year is not more than 33,000.

(11)(A) The Secretary of State may not approve a number of initial applications submitted for aliens described in section 1101(a)(15)(E)(iii) of this title that is more than the applicable numerical limitation set out in this paragraph.

(B) The applicable numerical limitation referred to in subparagraph (A) is 10,500 for each fiscal year.

(C) The applicable numerical limitation referred to in subparagraph (A) shall only apply to principal aliens and not to the spouses or children of such aliens.

(h) Intention to abandon foreign residence

The fact that an alien is the beneficiary of an application for a preference status filed under section 1154 of this title or has otherwise sought permanent residence in the United States shall not constitute evidence of an intention to abandon a foreign residence for purposes of obtaining a

visa as a nonimmigrant described in subparagraph (H)(i)(b) or (c), (L), or (V) of section 1101(a)(15) of this title or otherwise obtaining or maintaining the status of a nonimmigrant described in such subparagraph, if the alien had obtained a change of status under section 1258 of this title to a classification as such a nonimmigrant before the alien's most recent departure from the United States.

(i) "Specialty occupation" defined

(1) Except as provided in paragraph (3), for purposes of section 1101(a)(15)(H)(i)(b) of this title, section 1101(a)(15)(E)(iii) of this title, and paragraph (2), the term "specialty occupation" means an occupation that requires—

(A) theoretical and practical application of a body of highly specialized knowledge, and

(B) attainment of a bachelor's or higher degree in the specific specialty (or its equivalent) as a minimum for entry into the occupation in the United States.

(2) For purposes of section 1101(a)(15)(H)(i)(b) of this title, the requirements of this paragraph, with respect to a specialty occupation, are—

(A) full state licensure to practice in the occupation, if such licensure is required to practice in the occupation,

(B) completion of the degree described in paragraph (1)(B) for the occupation, or

(C)(i) experience in the specialty equivalent to the completion of such degree, and (ii) recognition of expertise in the specialty through progressively responsible positions relating to the specialty.

(3) For purposes of section 1101(a)(15)(H)(i)(b1) of this title, the term "specialty occupation" means an occupation that requires—

(A) theoretical and practical application of a body of specialized knowledge; and

(B) attainment of a bachelor's or higher degree in the specific specialty (or its equivalent) as a minimum for entry into the occupation in the United States.

(j) Labor disputes

(1) Notwithstanding any other provision of this chapter, an alien who is a citizen of Canada or Mexico who seeks to enter the United States under and pursuant to the provisions of Section B, Section C, or Section D of Annex 1603 of the North American Free Trade Agreement, shall not be classified as a nonimmigrant under such provisions if there is in progress a strike or lockout in the course of a labor dispute in the occupational classification at the place or intended place of employment, unless such alien establishes, pursuant to regulations promulgated by the Attorney General, that the alien's entry will not affect adversely the settlement of the strike or lockout or the employment of any person who is involved in the strike or lockout. Notice of a determination

under this paragraph shall be given as may be required by paragraph 3 of article 1603 of such Agreement. For purposes of this paragraph, the term "citizen of Mexico" means "citizen" as defined in Annex 1608 of such Agreement.

(2) Notwithstanding any other provision of this chapter except section 1182(t)(1) of this title, and subject to regulations promulgated by the Secretary of Homeland Security, an alien who seeks to enter the United States under and pursuant to the provisions of an agreement listed in subsection (g)(8)(A) of this section, and the spouse and children of such an alien if accompanying or following to join the alien, may be denied admission as a nonimmigrant under subparagraph (E), (L), or (H)(i)(b1) of section 1101(a)(15) of this title if there is in progress a labor dispute in the occupational classification at the place or intended place of employment, unless such alien establishes, pursuant to regulations promulgated by the Secretary of Homeland Security after consultation with the Secretary of Labor, that the alien's entry will not affect adversely the settlement of the labor dispute or the employment of any person who is involved in the labor dispute. Notice of a determination under this paragraph shall be given as may be required by such agreement.

(k) Numerical limitations; period of admission; conditions for admission and stay; annual report

(1) The number of aliens who may be provided a visa as nonimmigrants under section 1101(a)(15)(S)(i) of this title in any fiscal year may not exceed 200. The number of aliens who may be provided a visa as nonimmigrants under section 1101(a)(15)(S)(ii) of this title in any fiscal year may not exceed 50.

(2) The period of admission of an alien as such a nonimmigrant may not exceed 3 years. Such period may not be extended by the Attorney General.

(3) As a condition for the admission, and continued stay in lawful status, of such a nonimmigrant, the nonimmigrant—

(A) shall report not less often than quarterly to the Attorney General such information concerning the alien's whereabouts and activities as the Attorney General may require;

(B) may not be convicted of any criminal offense punishable by a term of imprisonment of 1 year or more after the date of such admission;

(C) must have executed a form that waives the nonimmigrant's right to contest, other than on the basis of an application for withholding of removal, any action for removal of the alien instituted before the alien obtains lawful permanent resident status; and

(D) shall abide by any other condition, limitation, or restriction imposed by the Attorney General.

(4) The Attorney General shall submit a report annually to the Committee on the Judiciary of the House of Representatives and the Committee on the Judiciary of the Senate concerning—

(A) the number of such nonimmigrants admitted;

(B) the number of successful criminal prosecutions or investigations resulting from cooperation of such aliens;

(C) the number of terrorist acts prevented or frustrated resulting from cooperation of such aliens;

(D) the number of such nonimmigrants whose admission or cooperation has not resulted in successful criminal prosecution or investigation or the prevention or frustration of a terrorist act; and

(E) the number of such nonimmigrants who have failed to report quarterly (as required under paragraph (3)) or who have been convicted of crimes in the United States after the date of their admission as such a nonimmigrant.

(5) Redesignated (4)

(l) Restrictions on waiver

(1) In the case of a request by an interested State agency, or by an interested Federal agency, for a waiver of the 2-year foreign residence requirement under section 1182(e) of this title on behalf of an alien described in clause (iii) of such section, the Attorney General shall not grant such waiver unless—

(A) in the case of an alien who is otherwise contractually obligated to return to a foreign country, the government of such country furnishes the Director of the United States Information Agency with a statement in writing that it has no objection to such waiver;

(B) in the case of a request by an interested State agency, the grant of such waiver would not cause the number of waivers allotted for that State for that fiscal year to exceed 30;

(C) in the case of a request by an interested Federal agency or by an interested State agency—

(i) the alien demonstrates a bona fide offer of full-time employment at a health facility or health care organization, which employment has been determined by the Attorney General to be in the public interest; and

(ii) the alien agrees to begin employment with the health facility or health care organization within 90 days of receiving such waiver, and agrees to continue to work for a total of not less than 3 years (unless the Attorney General determines that extenuating circumstances exist, such as closure of the facility or hardship to the alien, which would justify a lesser period of employment at such health facility or health care organization, in which case the alien must demonstrate another bona fide offer of employment at a health facility or health care organization for the remainder of such 3-year period); and

(D) in the case of a request by an interested Federal agency (other than a request by an interested Federal agency to employ the alien full-time in medical research or training) or by an interested State agency, the alien agrees to practice primary care or specialty medicine in accordance with paragraph (2) for a total of not less than 3 years only in the geographic area or areas which are designated by the Secretary of Health and Human Services as having a shortage of health care professionals, except that—

(i) in the case of a request by the Department of Veterans Affairs, the alien shall not be required to practice medicine in a geographic area designated by the Secretary;

(ii) in the case of a request by an interested State agency, the head of such State agency determines that the alien is to practice medicine under such agreement in a facility that serves patients who reside in one or more geographic areas so designated by the Secretary of Health and Human Services (without regard to whether such facility is located within such a designated geographic area), and the grant of such waiver would not cause the number of the waivers granted on behalf of aliens for such State for a fiscal year (within the limitation in subparagraph (B)) in accordance with the conditions of this clause to exceed 10; and

(iii) in the case of a request by an interested Federal agency or by an interested State agency for a waiver for an alien who agrees to practice specialty medicine in a facility located in a geographic area so designated by the Secretary of Health and Human Services, the request shall demonstrate, based on criteria established by such agency, that there is a shortage of health care professionals able to provide services in the appropriate medical specialty to the patients who will be served by the alien.

(2)(A) Notwithstanding section 1258(a)(2) of this title, the Attorney General may change the status of an alien who qualifies under this subsection and section 1182(e) of this title to that of an alien described in section 1101(a)(15)(H)(i)(b) of this title. The numerical limitations contained in subsection (g)(1)(A) of this section shall not apply to any alien whose status is changed under the preceding sentence, if the alien obtained a waiver of the 2-year foreign residence requirement upon a request by an interested Federal agency or an interested State agency.

(B) No person who has obtained a change of status under subparagraph (A) and who has failed to fulfill the terms of the contract with the health facility or health care organization named in the waiver application shall be eligible to apply for an immigrant visa, for permanent residence, or for any other change of nonimmigrant status, until it is established that such person has resided and been physically present in the country of his nationality or his last residence for an aggregate of at least 2 years following departure from the United States.

(3) Notwithstanding any other provision of this subsection, the 2-year foreign residence requirement under section 1182(e) of this title shall apply with respect to an alien described in clause (iii) of such section, who has not otherwise been accorded status under section 1101(a)(27)(H) of this title, if—

(A) at any time the alien ceases to comply with any agreement entered into under

subparagraph (C) or (D) of paragraph (1); or

(B) the alien's employment ceases to benefit the public interest at any time during the 3-year period described in paragraph (1)(C).

(m) Nonimmigrant elementary and secondary school students

(1) An alien may not be accorded status as a nonimmigrant under clause (i) or (iii) of section 1101(a)(15)(F) of this title in order to pursue a course of study—

(A) at a public elementary school or in a publicly funded adult education program; or

(B) at a public secondary school unless—

(i) the aggregate period of such status at such a school does not exceed 12 months with respect to any alien, and (ii) the alien demonstrates that the alien has reimbursed the local educational agency that administers the school for the full, unsubsidized per capita cost of providing education at such school for the period of the alien's attendance.

(2) An alien who obtains the status of a nonimmigrant under clause (i) or (iii) of section 1101(a)(15)(F) of this title in order to pursue a course of study at a private elementary or secondary school or in a language training program that is not publicly funded shall be considered to have violated such status, and the alien's visa under section 1101(a)(15)(F) of this title shall be void, if the alien terminates or abandons such course of study at such a school and undertakes a course of study at a public elementary school, in a publicly funded adult education program, in a publicly funded adult education language training program, or at a public secondary school (unless the requirements of paragraph (1)(B) are met).

(n) Increased portability of H-1B status

(1) A nonimmigrant alien described in paragraph (2) who was previously issued a visa or otherwise provided nonimmigrant status under section 1101(a)(15)(H)(i)(b) of this title is authorized to accept new employment upon the filing by the prospective employer of a new petition on behalf of such nonimmigrant as provided under subsection (a). Employment authorization shall continue for such alien until the new petition is adjudicated. If the new petition is denied, such authorization shall cease.

(2) A nonimmigrant alien described in this paragraph is a nonimmigrant alien—

(A) who has been lawfully admitted into the United States;

(B) on whose behalf an employer has filed a nonfrivolous petition for new employment before the date of expiration of the period of stay authorized by the Attorney General; and

(C) who, subsequent to such lawful admission, has not been employed without authorization in the United States before the filing of such petition.

(o) Trafficking in persons; conditions of nonimmigrant status

(1) No alien shall be eligible for admission to the United States under section 1101(a)(15)(T) of this title if there is substantial reason to believe that the alien has committed an act of a severe form of trafficking in persons (as defined in section 7102 of Title 22).

(2) The total number of aliens who may be issued visas or otherwise provided nonimmigrant status during any fiscal year under section 1101(a)(15)(T) of this title may not exceed 5,000.

(3) The numerical limitation of paragraph (2) shall only apply to principal aliens and not to the spouses, sons, daughters, siblings, or parents of such aliens.

(4) An unmarried alien who seeks to accompany, or follow to join, a parent granted status under section 1101(a)(15)(T)(i) of this title, and who was under 21 years of age on the date on which such parent applied for such status, shall continue to be classified as a child for purposes of section 1101(a)(15)(T)(ii) of this title, if the alien attains 21 years of age after such parent's application was filed but while it was pending.

(5) An alien described in clause (i) of section 1101(a)(15)(T) of this title shall continue to be treated as an alien described in clause (ii)(I) of such section if the alien attains 21 years of age after the alien's application for status under such clause (i) is filed but while it is pending.

(6) In making a determination under section 1101(a)(15)(T)(i)(III)(aa) of this title with respect to an alien, statements from State and local law enforcement officials that the alien has complied with any reasonable request for assistance in the investigation or prosecution of crimes such as kidnapping, rape, slavery, or other forced labor offenses, where severe forms of trafficking in persons (as defined in section 7102 of Title 22) appear to have been involved, shall be considered.

(7)(A) Except as provided in subparagraph (B), an alien who is issued a visa or otherwise provided nonimmigrant status under section 1101(a)(15)(T) of this title may be granted such status for a period of not more than 4 years.

(B) An alien who is issued a visa or otherwise provided nonimmigrant status under section 1101(a)(15)(T) of this title may extend the period of such status beyond the period described in subparagraph (A) if—

(i) a Federal, State, or local law enforcement official, prosecutor, judge, or other authority investigating or prosecuting activity relating to human trafficking or certifies that the presence of the alien in the United States is necessary to assist in the investigation or prosecution of such activity;

(ii) the alien is eligible for relief under section 1255(l) of this title and is unable to obtain such relief because regulations have not been issued to implement such section; or

(iii) the Secretary of Homeland Security determines that an extension of the period of such nonimmigrant status is warranted due to exceptional circumstances.

(C) Nonimmigrant status under section 1101(a)(15)(T) of this title shall be extended during the pendency of an application for adjustment of status under section 1255(l) of this title.

(p) Requirements applicable to section 1101(a)(15)(U) visas

(1) Petitioning procedures for section 1101(a)(15)(U) visas

The petition filed by an alien under section 1101(a)(15)(U)(i) of this title shall contain a certification from a Federal, State, or local law enforcement official, prosecutor, judge, or other Federal, State, or local authority investigating criminal activity described in section 1101(a)(15)(U)(iii) of this title. This certification may also be provided by an official of the Service whose ability to provide such certification is not limited to information concerning immigration violations. This certification shall state that the alien "has been helpful, is being helpful, or is likely to be helpful" in the investigation or prosecution of criminal activity described in section 1101(a)(15)(U)(iii) of this title.

(2) Numerical limitations

(A) The number of aliens who may be issued visas or otherwise provided status as nonimmigrants under section 1101(a)(15)(U) of this title in any fiscal year shall not exceed 10,000.

(B) The numerical limitations in subparagraph (A) shall only apply to principal aliens described in section 1101(a)(15)(U)(i) of this title, and not to spouses, children, or, in the case of alien children, the alien parents of such children.

(3) Duties of the Attorney General with respect to "U" visa nonimmigrants

With respect to nonimmigrant aliens described in subsection (a)(15)(U) of section 1101 of this title—

(A) the Attorney General and other government officials, where appropriate, shall provide those aliens with referrals to nongovernmental organizations to advise the aliens regarding their options while in the United States and the resources available to them; and

(B) the Attorney General shall, during the period those aliens are in lawful temporary resident status under that subsection, provide the aliens with employment authorization.

(4) Credible evidence considered

In acting on any petition filed under this subsection, the consular officer or the Attorney General, as appropriate, shall consider any credible evidence relevant to the petition.

(5) Nonexclusive relief

Nothing in this subsection limits the ability of aliens who qualify for status under section 1101(a)(15)(U) of this title to seek any other immigration benefit or status for which the alien may

be eligible.

(6) Duration of status

The authorized period of status of an alien as a nonimmigrant under section 1101(a)(15)(U) of this title shall be for a period of not more than 4 years, but shall be extended upon certification from a Federal, State, or local law enforcement official, prosecutor, judge, or other Federal, State, or local authority investigating or prosecuting criminal activity described in section 1101(a)(15)(U)(iii) of this title that the alien's presence in the United States is required to assist in the investigation or prosecution of such criminal activity. The Secretary of Homeland Security may extend, beyond the 4-year period authorized under this section, the authorized period of status of an alien as a nonimmigrant under section 1101(a)(15)(U) of this title if the Secretary determines that an extension of such period is warranted due to exceptional circumstances. Such alien's nonimmigrant status shall be extended beyond the 4-year period authorized under this section if the alien is eligible for relief under section 1255(m) of this title and is unable to obtain such relief because regulations have not been issued to implement such section and shall be extended during the pendency of an application for adjustment of status under section 1255(m) of this title. The Secretary may grant work authorization to any alien who has a pending, bona fide application for nonimmigrant status under section 1101(a)(15)(U) of this title.

(q) Nonimmigrant described in section 1101(a)(15)(V)

(1) In the case of a nonimmigrant described in section 1101(a)(15)(v) of this title

(A) the Attorney General shall authorize the alien to engage in employment in the United States during the period of authorized admission and shall provide the alien with an "employment authorized" endorsement or other appropriate document signifying authorization of employment; and

(B) the period of authorized admission as such a nonimmigrant shall terminate 30 days after the date on which any of the following is denied:

(i) The petition filed under section 1154 of this title to accord the alien a status under section 1153(a)(2)(A) of this title (or, in the case of a child granted nonimmigrant status based on eligibility to receive a visa under section 1153(d) of this title, the petition filed to accord the child's parent a status under section 1153(a)(2)(A) of this title).

(ii) The alien's application for an immigrant visa pursuant to the approval of such petition.

(iii) The alien's application for adjustment of status under section 1255 of this title pursuant to the approval of such petition.

(2) In determining whether an alien is eligible to be admitted to the United States as a nonimmigrant under section 1101(a)(15)(V) of this title, the grounds for inadmissibility specified in section 1182(a)(9)(B) of this title shall not apply.

(3) The status of an alien physically present in the United States may be adjusted by the

attorney general, in the discretion of the attorney general and under such regulations as the attorney general may prescribe, to that of a nonimmigrant under section 1101(a)(15)(v) of this title, if the alien

(A) applies for such adjustment;

(B) satisfies the requirements of such section; and

(C) is eligible to be admitted to the United States, except in determining such admissibility, the grounds for inadmissibility specified in paragraphs (6)(A), (7), and (9)(B) of section 1182(a) of this title shall not apply.

(r) Visas of nonimmigrants described in section 1101(a)(15)(K)(ii)

(1) A visa shall not be issued under the provisions of section 1101(a)(15)(K)(ii) of this title until the consular officer has received a petition filed in the United States by the spouse of the applying alien and approved by the Attorney General. The petition shall be in such form and contain such information as the Attorney General shall, by regulation, prescribe. Such information shall include information on any criminal convictions of the petitioner for any specified crime.

(2) In the case of an alien seeking admission under section 1101(a)(15)(K)(ii) of this title who concluded a marriage with a citizen of the United States outside the United States, the alien shall be considered inadmissible under section 1182(a)(7)(B) of this title if the alien is not at the time of application for admission in possession of a valid nonimmigrant visa issued by a consular officer in the foreign state in which the marriage was concluded.

(3) In the case of a nonimmigrant described in section 1101(a)(15)(K)(ii) of this title, and any child of such a nonimmigrant who was admitted as accompanying, or following to join, such a nonimmigrant, the period of authorized admission shall terminate 30 days after the date on which any of the following is denied:

(A) The petition filed under section 1154 of this title to accord the principal alien status under section 1151(b)(2)(A)(i) of this title.

(B) The principal alien's application for an immigrant visa pursuant to the approval of such petition.

(C) The principal alien's application for adjustment of status under section 1255 of this title pursuant to the approval of such petition.

(4)(A) The Secretary of Homeland Security shall create a database for the purpose of tracking multiple visa petitions filed for fiancé(e)s and spouses under clauses (i) and (ii) of section 1101(a)(15)(K) of this title.

Upon approval of a second visa petition under section 1101(a)(15)(K) of this title for a fiancé(e) or spouse filed by the same United States citizen petitioner, the petitioner shall be notified

by the Secretary that information concerning the petitioner has been entered into the multiple visa petition tracking database. All subsequent fiance(e) or spouse nonimmigrant visa petitions filed by that petitioner under such section shall be entered in the database.

(B)(i) Once a petitioner has had two fiance(e) or spousal petitions approved under clause (i) or (ii) of section 1101(a)(15)(K) of this title, if a subsequent petition is filed under such section less than 10 years after the date the first visa petition was filed under such section, the Secretary of Homeland Security shall notify both the petitioner and beneficiary of any such subsequent petition about the number of previously approved fiance(e) or spousal petitions listed in the database.

(ii) A copy of the information and resources pamphlet on domestic violence developed under section 1375a(a) of this title shall be mailed to the beneficiary along with the notification required in clause (i).

(5) In this subsection:

(A) The terms "domestic violence", "sexual assault", "child abuse and neglect", "dating violence", "elder abuse", and "stalking" have the meaning given such terms in section 13925 of Title 42.

(B) The term "specified crime" means the following:

(i) Domestic violence, sexual assault, child abuse and neglect, dating violence, elder abuse, and stalking.

(ii) Homicide, murder, manslaughter, rape, abusive sexual contact, sexual exploitation, incest, torture, trafficking, peonage, holding hostage, involuntary servitude, slave trade, kidnapping, abduction, unlawful criminal restraint, false imprisonment, or an attempt to commit any of the crimes described in this clause.

(iii) At least three convictions for crimes relating to a controlled substance or alcohol not arising from a single act.

CERTIFICATE OF SERVICE

The undersigned hereby certifies that he is an employee in the Office of the Solicitor, U.S. Department of Labor, at Seattle, Washington, and is a person of such age and discretion as to be competent to serve papers.

That on July 23, 2019, he served the Administrator's Post-Trial Brief and this Certificate of Service by preparing a UPS mailing to the OALJ at the following address:

Hon. Judge Richard Clark
U.S. Department of Labor: OALJ
90 Seventh Ave., Suite 4-800
San Francisco, CA 94103

On July 23, 2019, he served the Administrator's Post-Trial Brief and this Certificate of Service by preparing a UPS mailing upon the following counsel for Respondents:

R. Wayne Pierce
The Pierce Law Firm, LLC
133 Defense Highway, Suite 201
Annapolis, MD 21401

Issue Date: 30 September 2020

CASE NO.: 2018-TNE-00019

In the Matter of:

ADMINISTRATOR, WAGE & HOUR DIVISION,
Prosecuting Party,

v.

BUTLER AMUSEMENTS, INC. AND
MICHAEL BRAJEVICH, an individual,
Respondents.

DECISION AND ORDER

This matter arises under the H-2B provisions of the Immigration and Nationality Act (INA), as amended, 8 U.S.C. §§ 1101(a)(15)(H)(ii)(b) *et seq*., 1184(c)(14), and 20 C.F.R. Part 655, subpart A (2008), and the applicable procedural regulations at 29 C.F.R. Part 503 (2015). Attorney Jeannie Gorman represented Administrator, Wage and Hour Division, U.S. Department of Labor ("Administrator"). Attorney P. Wayne Pierce represented Butler Amusements, Inc. ("Butler" or "Employer") and Michael Brajevich (collectively "Respondents").

On February 6, 2018, the Administrator, Wage and Hour Division of the U.S. Department of Labor, ("Administrator") issued a Determination Letter finding that Butler Amusements, Inc. and Michael Brajevich ("Respondents") substantially failed to comply with the proper job classification requirements of the H-2B program. The Administrator sought unpaid wages and assessed a civil monetary penalty (CMP). Respondents subsequently requested a hearing on the Administrator's determination. *See* 29 C.F.R. § 503.43.

A hearing was held May 8 and 9, 2019, in San Francisco, CA. Administrator's Exhibits A through Q were admitted into evidence, and Respondents' Exhibits 1 to 24, 26 to 71, and 73 to 106 were also admitted. Respondents' Exhibits 25 and 72 were withdrawn.[1] HT 12-13.[2] At the hearing, the Administrator and Respondents agreed the amount of back wages in RX 19 should read $26,955.40. At the hearing, the Administrator made an oral motion for reconsideration on the inclusion of Ms. Zepeda, which I denied. HT 5 at 22-24; HT 8 at 15-17.

[1] I cite to Administrator's Exhibits AX (letter) at (page) and Respondent's Exhibits RX (number) at (page). Additionally, I cite to Administrator's post-hearing brief as APB (page) at (line) and Respondents' post-hearing brief as RPB (page).
[2] I cite to the hearing transcript HT (page) at (line).

For the reasons discussed below, Employer is ordered to pay $26,786.00 in back wages and pay the amount of $10,000 in civil money penalties.

Background

An H-2B employee is defined as "having a residence in a foreign country which he has no intention of abandoning who is coming temporarily to the United States to perform other temporary service or labor if unemployed persons capable of performing such service or labor cannot be found in this country…." 8 U.S.C. § 1101(a)(15)(H)(ii)(b). The H-2B program permits employers to hire such nonimmigrant workers to perform temporary nonagricultural work within the United States on a one-time occurrence, seasonal, peak load, or intermittent basis, as defined by the Department of Homeland Security ("DHS"). 8 C.F.R. § 214.2(h)(6)(ii)(B).

DHS requires that employers petitioning for H-2B visas obtain a labor certification from the Department of Labor ("DOL") before applying for H-2B visas through DHS. 8 C.F.R. § 214.2(h)(6)(iii)(A). To obtain the labor certification, employers first obtain a prevailing wage determination for the job opportunity from DOL's Employment and Training Administration ("ETA") by submitting ETA Form 9141. 20 C.F.R. § 655.10 (2009).[3, 4] Employers must offer and pay the H-2B workers the highest of the prevailing wage or the applicable federal, state, or local minimum wage. 20 C.F.R. § 655.22(e). After obtaining the prevailing wage determination, the employer submits an Application for Temporary Employment Certification ("ETA Form 9142B") and recruitment report to the ETA. 20 C.F.R § 655.20. In ETA Form 9142B, the employer must certify under penalty of perjury that the information contained on the application is true and accurate, and the employer's signature constitutes its acknowledgment and acceptance of the obligations of the H-2B program. 20 C.F.R. § 655.65(f); AX C-9.

Section 214(c)(l4) of the INA gives DHS the authority to impose administrative remedies where the Secretary of DHS finds "a substantial failure to meet any of the conditions of the petition to admit…a nonimmigrant worker under [8 U.S.C. § 1101(a)(l5)(H)(ii)(b)] or…a willful misrepresentation of a material fact in such petition." 8 U.S.C. § 1184(c)(14)(A). The DHS is authorized to delegate this enforcement authority to the Secretary of Labor, 8 U.S.C. § 1184(c)(14)(B), and has delegated to the Secretary of Labor its authority "to enforce compliance with the conditions of a petition and Department of Labor approved temporary labor certification to admit or otherwise provide status to an H-2B worker." 8 C.F.R. 214.2(h)(6)(ix). This enforcement authority has been further delegated within DOL to the Administrator of the Wage and Hour Division. *See* Secretary's Order 01-2014, 79 FR 77527-01 (Dec. 19, 2014).

Factual Findings

Respondents, Butler Amusements, Inc. and former CEO, Michael Brajevich, operated a traveling amusement carnival that provided rides, games, and concessions to fairs in California,

[3] The 2008 H-2B regulations were promulgated on December 19, 2008, effective on January 18, 2009, and codified into the Code of Federal Regulations in 2009. *Labor Certification Process and Enforcement for Temporary Employment in Occupations Other Than Agriculture or Registered Nursing in the United States (H-2B Workers), and Other Technical Changes*, 73 Fed. Reg. No. 245, 78,020 (Dec. 19, 2008).

[4] References to 20 C.F.R. § 655 refer to the 2009 regulations unless otherwise specified.

Oregon, Washington, Idaho, Arizona, and Nevada. RX 20, AX C, APB 2 at 12-14. Butler Amusements is exempt from the Fair Labor Standards Act under § 13(a)(3). RX 13; RX 20-21; 29 U.S.C. § 213. Butler Amusements has participated in the H-2B program since 2000. HT 274 at 6. In October 2012, Butler Amusements initiated the process to request 246 workers to work as "Amusement and Recreation Attendants." RX 7. Respondents' agent, James Kendrick Judkins, filled out and submitted an ETA Form 9141 Application for a Prevailing Wage Determination (ETA Form 9141) and an ETA Form 9142B H-2B Application for Temporary Employment Certification (ETA Form 9142) on Respondents' behalf. RX 7 at 1. Mr. Brajevich and Mr. Judkins both promised that the information on the application was true and accurate. AX C-8 and C-9.

ETA Form 9141

ETA Form 9141 included instructions for describing the job opportunity. RX 4 at 3. To enable ETA to make a prevailing wage determination (PWD), Respondents were to "[d]escribe the job duties, in detail, to be performed by any worker filling the job opportunity. Specify field(s) and/or product(s)/industry(ies) involved, any equipment to be used, and pertinent work conditions. The duties provided must be specific enough to be classified under a relevant SOC pursuant to the O*Net publication." *Id.* The instructions also directed Employer to enter a Standard Occupational Code (SOC)/Occupational Net (ONET) code and job title for the occupation, which "most clearly describes the work to be performed." ETA stated Respondents' selection of an SOC might guide the determination; "however, the SOC issued with the determination may differ." RX 4 at 3. The instructions also directed Employer to indicate the number of employees the H2-B workers would supervise and whether the supervised workers would be subordinates or peers. *Id.*

The SOC code system had an occupation search engine called O*NET, which permitted employers to determine which SOC code applied to any given job duties. APB 8 at 16-20. O*NET provided extensive information about any occupation, including ratings of how important certain tasks were to the position. APB 8 at 21-23.

On ETA Form 9141, Respondents entered "Amusement and Recreation Attendants – Traveling Carnival" as the job title, 39-3091 as the Suggested SOC (ONET/OES) code, and Amusement and Recreation Attendants as the Suggested SOC (ONET/OES) occupation title. RX 5 at 1. Under job duties, Respondents represented the H-2B workers would, "[p]erform a variety of attending duties at amusement facility (traveling carnival). Set up, tear down, operate amusement rides, food concessions and/or games." *Id.* The attendants would work 40 hours per week from 1:00 pm to 10:00 pm and receive no overtime. *Id.* Respondents stated no experience, education, training, specific skills, or special licenses were required for the job, except for a drug and criminal background check. RX 5 at 2-3. Additionally, workers in the position would not supervise any other employees and would travel to multiple worksites. RX 5 at 2-3.

On October 18, 2012, Respondents posted a job advertisement online with Work Source that advertised 250 open positions for Carnival and Amusement and Recreation Attendants from February 1, 2013, to October 31, 2013. RX 1 at 1. The advertised job entailed performing "a variety of attending duties" at amusement facility, listed as, "[S]et up, tear down, operate amusement rides, food concessions and/or games." *Id.* Workers would work typically 40 hours per week, Wednesday through Sunday, from 1:00 pm to 10:00 pm, make a weekly wage ranging from $323.60 to 368.40 per week, and must travel with the carnival to Washington, California, Arizona, Nevada, Oregon, and Idaho. *Id.* Employer would pay the weekly wage for each week the worker was

employed, and make "available mobile housing valued at $125.00 per week" and "transportation from venue to venue and scheduled transportation to laundry, shopping valued at $25.00 per week." *Id.* The advertisement also indicated the Employer was exempt from the Fair Labor Standards Act (FLSA) and not subject to Federal hourly wage, overtime, or recordkeeping requirements. *Id.* Respondents posted an identical advertisement with the Yakima Herald on October 21 and 24, 2012. RX 2 and 3.

In November 2012, the Department of Labor ETA issued a PWD of $8.98 hourly, which was valid from November 2, 2012, to February 3, 2013, and based on SOC (O*NET/OES) code 39-3091 and Occupational Employment Statistics (OES) wage data. RX 5 at 4.

ETA Form 9142B

The instructions and information needed for ETA Form 9142B were similar to Form 9141 and its instructions. ETA Form 9142B instructions directed Respondents to enter the SOC/O*NET code for the occupation which most clearly described the work to be performed. RX 6 at 1. In Section F, Box 5, the instructions directed Respondents to "[d]escribe the job duties, in detail, to be performed by any worker filling the job opportunity and specify any equipment to be used and pertinent working conditions." *Id.* at 5. The instructions and form also directed Respondents to indicate the hours, daily work schedule, and whether the workers would supervise any other employees. *Id.*

On ETA Form 9142B, Respondents represented a temporary need for 246 full-time seasonal "Amusement and Recreation Attendants" beginning on February 1, 2013, and ending on October 31, 2013. AX C-1.[5] Under job duties, Respondents again described the position as "[p]erform variety of attending duties at amusement facility (traveling carnival). Set-up, tear-down, operate amusement rides, food concessions and/or games." AX C-3. Respondents stated H2-B workers would work 40 hours per week for a weekly wage ranging from $323.60 to $368.40. AX C-3, C-5. The position required "no special skills, licenses/certifications" and the H-2B workers would not supervise the work of other employees. AX C-3 to C-4. In Section G, Box 3, Respondents stated, "FLSA exemption 13(a)(3) applies to this employer in State and Local venues that respect the FLSA exemption 13(a)(3). Employer follows prevailing practices for Traveling Amusement Industry in regards to housing, transportation and weekly salary for workers." *Id.*

An Addendum to ETA Form 9142B contained additional information regarding the weekly wage, hourly work schedule, variable prevailing wage, housing and transportation credits, and worksites for the carnival. AX C-10 to C-29. In the Addendum, Respondents clarified that the "weekly wage [was] calculated based upon a standard 40-hour week using the methodology detailed in Section G.1." AX C-10. Additionally, Respondents stated "the work schedule varies widely" and Employer would pay a "variable prevailing wage ($323.60 to $368.40, Average $347.88)" in accordance with the ETA Form 9141 Determination "for each week the worker is employed." AX

[5] The exhibit also appears as RX 8 at 4. For ease of reference I cite only to AX C-1. Another version of ETA Form 9142B with attachments appears as RX 7. It is marked with the watermark "Not an Official DOL Labor Certification Document;" there is no table of contents explaining the significance of this document or a corresponding explanation, thus I did not consider it in my decision.

C-10, C-11. Respondents attached an addendum listing 71 worksites[6] and stated if there were changes to the work locations, they would obtain a prevailing wage determination. AX C-7, C-11.

Finally, Employer again stated it "makes available mobile housing valued at $125.00 per week" and transportation from venue to venue and scheduled transportation to laundry, shopping valued at $25.00 per week." AX C-12. At the time of certification DOL's H-2B Wage Methodology was "subject to litigation" and Employer stated "[i]f the wage to be paid is higher than the Variable Prevailing Wage Determination, the employer reserves the right to charge a fee for housing and transportation, but effective rate of pay will not be lower that the Variable Prevailing Wage Determination." AX C-12.

On ETA Form 9142 an employer must attest that it will abide by certain terms, assurances, and obligations as a condition for receiving a temporary labor certification. AX C-6. In Section I, Declaration of Employer and Attorney/Agent, Respondents checked "Yes" confirming they had read and agreed to all applicable terms, assurances, and obligations in Appendix B.1 of ETA Form 9142. *Id.* Mr. Judkins signed Appendix B.1 Section A, and Butler Amusements CEO, Michael Brajevich, signed Appendix B.1 Section B for Employer. AX C-8. By signing the Employer's Declaration, Mr. Brajevich certified the job opportunity was a full-time temporary position and that "[t]he dates of temporary need, reason(s) for temporary need, and number of worker positions being requested for certification has been truly and accurately stated on the application" (Attestation #13). AX C-9. Mr. Brajevich took full responsibility for the accuracy of any representations made by his agent or attorney and declared under penalty of perjury that he read and reviewed the application and that to the best of his knowledge it was true and accurate. *Id.*

On December 14, 2012, based on the attestations and documentation that Respondents provided, ETA certified Respondents' application seeking temporary labor certification under the H-2B program. RX 8 at 1.[7] In the Final Determination Certification Letter issued on December 14, 2012, the certifying officer (CO) directed Respondents to submit a Department of Homeland Security (DHS) Form I-129 and all required documentation. RX 8 at 1. The certification letter included an "Important Note" which stated—in part—regarding the "offered wage guarantee, this certification assumes that the employer will pay the certified weekly wage for 40 hours of work per week, as indicated in Section G of the employer's ETA Form 9142" for the entire approved certification period. *Id.* at 2.

The Final Determination cited the relevant regulations at 20 C.F.R. § 655.22 (e) and continued "[p]lease remember…the employer is required to pay the H-2B workers…recruited in connection with an H-2B application the certified offered wage during the entire period of the approved H-2B labor certification. AX B-2. Finally, the requirement to pay is independent of any applicable exemption from the provisions of Fair Labor Standards Act (FLSA). AX B-2.

On December 17, 2012, Respondents submitted DHS Form I-129 requesting H-2B visas for 246 unnamed workers to be employed, full-time as "Amusement and Recreation Attendants." AX D-3, D-4, D-8, D-12. By signing the I-129 Mr. Brajevich declared Employer would pay the variable

[6] The 71st worksite location is cutoff on the copy and illegible.
[7] The exhibit also appears as AX B-1. For ease of reference, I cite only to RX 8.

prevailing wage per 'ETA 9142…and the itemized itinerary." AX D-6; AX D-14. DHS approved the application on January 4, 2013. RX 11 at 1.

Wage and Hour Division Investigation

The Administrator subsequently opened an investigation for the period from February 1 to April 24, 2013. AX A-1. On April 23 and 24, 2013, Wage and Hour Division (WHD) and Wage and Hour Investigator (WHI) Carrie Aguilar visited Butler Amusements onsite in Santa Barbara, CA. AX F. Ms. Aguilar and her WHD team observed Employer's operations and interviewed employees. HT 63.

Determination Letter

On November 11, 2013, WHD found that nine H-2B workers were employed outside of the approved job title of Amusement and Recreation Attendants (ARA); the investigator determined that these workers had worked as drivers, maintenance workers, and supervisors. These positions have different SOC codes and a different prevailing wage. Based on the investigation, WHD sent Employer a Summary of Unpaid Wages which listed ten employees with varying amounts of unpaid wages for the period from February 2, 2013, to April 27, 2013, totaling $25,946.80. RX 14 at 1. On February 25, 2014, WHD recalculated the back wages for nine employees to be $24,987.60. RX 16 at 3. On February 6, 2018, WHD issued the Determination Letter finding that Respondents substantially failed to comply with Attestation #13—which requires the Employer to accurately state the dates of temporary need, reason for temporary need, and number of workers for temporary need. RX 19. WHD found Respondents owed $26,955.40[8] in back wages and $10,000 in CMPs. RX 19.

Respondents disputed the findings of the investigation on multiple grounds, including that that the identified workers only worked outside the approved job code for a few hours each week and that they worked "substantially less than 40 hours per week" during the investigation period. RX 15 at 1-2.

Butler Amusements' Employment Practices

Butler Amusements runs several units of workers contemporaneously at different fairgrounds and carnival sites. HT 270-71. The nine employees involved in this case were part of Butch's Unit. AX E-1. On April 23 and 24, 2013, WHD took written statements from 24 Butler employees and interviewed four applicants by phone. AX F. Additionally, WHD collected field notes from Bill Truax (manager), Gina Tuttle (payroll clerk), and Kurt Vomberg (general manager). *Id.*

Respondents' pay slips were not contemporaneously recorded time cards and did not include time spent driving. In the past, Employer gave workers timecards to record their hours, but in 2013 the employees did not record their own hours.[9] AX F-135;[10] AX F-096; AX F-114. Instead,

[8] The original amount cited in the February 6, 2018 Determination Letter was $24,987.20 in unpaid wages to nine H-2B workers, and $10,000 in CMPs. RX 19. This Court's May 2, 2019 Order amended the unpaid wages to $26,955.40.
[9] The employees reported they did not have timecards. *See* AX F.

carnival supervisors would record and report employees' hours to Gina Tuttle, Employer's payroll clerk. AX F-002; AX F-135; F-003;[11] F-021. Ms. Tuttle maintained a spreadsheet with hours for each employee and would report to supervisors if someone was approaching the cap (38-39 hours). *Id.* Each week, employees countersigned a pay slip that noted their hours and their weekly pay—which they received in cash and did not vary by location or hours worked. AX F-003; AX F-009; AX F-135; AX F-046; AX F-101. Ms. Tuttle then sent summaries of hours and the countersigned pay slips to headquarters. AX F-135.

The hours on Respondents' pay slips did not always reflect the hours H-2B employees worked because Employer did not report time spent driving. Employer paid the employees who drove the vans extra,[12] but did not record hours spent driving.[13,14,15] AX F-135. The undocumented driving time depended on the distance between fairs—but could be two to eight hours. AX F-049.[16]

Employees' weekly hours varied depending on the distance between the fairs and the hours of the various fairs; employees credibly reported working an average of slightly over 40 hours a week.[17, 18] The hours and days varied—some weeks employees would work two days and other weeks they would work every day.[19] AX F-027, AX F-108.

When the fair was open, employees started working one hour before the fair opened and stopped working when it closed, and when the fair was closed, hours were based on the time of the "work call."[20] AX F-135. Typically, employees worked a six-hour day over 12 hours.[21] For

---

[10] AX F-135 is a statement from Gina Tuttle taken by Wage and Hour Investigator Carrie Aguilar on April 23, 2013.
[11] "They write the hours on the inspection sheet when we begin and end…Someone comes to check how many people are working on a ride and they write down the hours of work." AX F-003.
[12] "Last year I received $200…They give me the bonus for driving." AX F-054.
[13] "They do get paid extra for driving, but the drive time hours are not on the timecards I didn't know we had to do that, but we probably should." AX F-135 (Gina Tuttle's statement.)
[14] "I receive an envelope, and everyone signs for them and the hours worked are there but it does not include the time for driving, just the time for operating the rides." AX F-054.
[15] One employee did remark that the pay slips were accurate, "…the manager writes down the hours we work…up until now it has always been correct…." AX F-021. However, the majority of employees reported working more hours and one employee explicitly stated his hours were underreported, "They put the hours worked on the paper and we sign that it is correct. That I have seen, sometime she [sic] hours are less than what we have worked in reality." AX F-003.
[16] "I just drove two times, first: 1.5 hours and second: 8 hours." AX F-049.
[17] Employees reported working: 38-40 hours (AX F-003); 36-42 hours (AX F-8, AX F-101); 40-60 hours (AX F-0017); 60-70 hours (AX F-027); 40-42 hours (AX F-063); 40 to 45 hours (AX F-086); 40-50 hours (AX F-092); average of 40 hours, but sometimes as little as two hours (AX F-107); 40-42 hours per week (AX F-063); "Normally I am working 40 to 45 hours each week. The workers who are working with me work the same hours." (AX F-086).
[18] Although employees reported working a range of hours from 36-70 hours per week, the higher numbers likely included break times. *See* AX F. For example, an employee reported working up to 70 hours a week, but also explained that he worked from 10 am until 10 pm or 12 noon until 12 midnight with 2 hour breaks every two hours. Thus, a typical workday (without set-up, tear down, or driving) would be six hours. *See* AX F-027-028.
[19] One H-2B worker reported working 17 days straight in Sacramento, but this was in a prior year. AX F-108. Another reported working for 12 days with one day off during the period of investigation. AX F-114. The length of these workdays was not specified and likely varied. *See generally* AX F.
[20] Weekdays were sometimes shorter shifts because some fairs were open to the public for fewer hours on weekdays. *See generally* AX F.
[21] "On the days when the fair is open, I work 6-8 hours per day. I also work 6-8 hours the day before the first day of the fair to prepare everything." (AX F-045); "When the fair is open we usually work 5-10 hours." (AX F-053); "…maximum six hours in one shift…" (AX F-008); "I work six hours during my work shift each day." (AX F-101).

example, during a workday, employees usually worked one or two hours, took a break for one or two hours, returned to work for one or two hours, and so on until the carnival closed. AX F-007.

On the last day in a location, employees would typically disassemble rides immediately after the fair closed. AX F-117. Assembling and disassembling the rides took two to eight hours, depending on the ride and whether they were assembling or disassembling it.[22,23] For example, one ride took six hours to set up but only two hours to tear down. AX F-035. Whereas another took six hours to take down. AX F-053. Employees worked long hours on the last day of the fair because they would work a full shift and then disassemble the rides.[24] AX F-008. On Mondays, the fair would typically travel to the next location, and employees would be given the rest of the day off. AX F-086; AX F-092. On the days they assembled rides, employees would "start at 8 am …leave for lunch at 12:00 pm….return at 1 pm and …work until 5 pm." AX F-092.

Employer provided free housing in trailers, transportation from venue to venue, and local transportation to run errands. AX F-009; AX F-022; AX F-028; AX F-035; AX F-046. No employee reported deductions for housing, transportation between fair venues, or local transportation to run errands. *See* AX F. The only deductions were cash advances. AX F-135.

The occupancy of the trailers varied; some employees shared with four people, some had one roommate, and some had private rooms. AX F-002; AX F-022; AX F-054. Not all of the employees stayed in the provided trailers. For example, one H-2B employee had worked for Employer since 2007; she traveled with the fair in her personal vehicle and stayed in an RV she purchased. AX F-129. Saul Estadillo Herrera—one of the nine employees who the Administrator alleged was working outside of the job certification—slept in "a big space in the back" of his truck. AX F-041. Jose Ivan Ortega—another H-2B worker employed outside of the job classification—also lived and slept in his "semi;" Employer did not charge him for his living accommodations. AX F-079. Employees pooled their money together to make communal meals; this was optional. AX F-028.

There was no evidence that employees who did not stay in the Employer-provided lodging received higher wages for not using the trailers. *See* RX 26. Employer provided a payroll spreadsheet listing the location, date, employee name, social security number, and date of birth. It included columns named: gross, draws, uniforms, ID, bunk, and net. AX E. None of the employees had a deduction for "bunk." *Id.* Likewise, the employee who traveled with the carnival in an RV that she owns, and thus did not live in the employer-provided housing, did not have a

---

[22] "The days of tearing down are long days. It can take four hours to tear down a ride." (AX F-016); "We take about six hours to disassemble the ride, it takes a lot less to disassemble." (AX F-068); "When we arrive to a new city and we are setting up the rides, I usually work 8 hours." (AX F-053); "It takes about 5 or 6 hours to tear down the 'Fireball.' Maybe an entire day to put up the 'Fireball' and sometimes I help on the other rides as well…[t]he time tearing down the ride I have no rest breaks." AX F-085.

[23] One employee stated he did receive breaks on the day of tearing down. However it is unclear whether he was referring to his shift during the fair or his shift and the "tearing down" time. "Maybe the day of tearing down and travel is lot hours—but still I have two hours of work and then two hours of rest and two more hours of work, etc." AX F-092.

[24] An employee estimated the last day of a fair they would typically work 12 hours. AX F-008. This was accurate in light of other employee statements estimating 6 hour shifts and 2-8 hours for disassembling rides.

credit under "bunk." AX E-3. Similarly, Mr. Estadillo and Mr. Ortega did not have a credit under "bunk." *Id.*

The workers who drove the rides from venue to venue had time cards and kept Department of Transportation log books. AX F-135. Some would stay with the fair, but others drove rides to other units operating on other fairgrounds. AX F-129; *see also* AX F-131.

Butler Employee Duties/Classifications

Every spring, the general manager, Mr. Vomberg, interviewed employees to determine their work history and how to place them. AX F-134.[25]

Supervisors

Butler employed Antonio Mendez and Omar Lopez as supervisors. A roll sheet listing which employee worked each ride, listed both Mr. Mendez and Mr. Lopez as supervisors. AX G-4. In 2013, Butler had employed Mr. Mendez for 12 years, and Mr. Mendez had been a supervisor for six years. AX F-137; AX F-075. Multiple employees stated they reported to their supervisor—Mr. Mendez. AX F-009; AX F-016; AX F-086. In that role, he walked around to make sure employees were doing their jobs, dealt with customer complaints, responded to ride operators when something was broken, and filled out the ride roster. AX F-075. Mr. Mendez was the general manager's "left hand," and a supervisor.[26] Antonio Mendez gave WHIs the tour, a roll which, in Ms. Aguilar's experience, supervisors typically assume. HT 61.

Butler also employed Omar Lopez as a supervisor. Mr. Lopez worked under Benny Hill—who was in charge of Kiddie Land. AX F-137. Like Mr. Mendez, Mr. Lopez filled out the ride roster. AX F-075. Mr. Lopez supervised 16 employees, and in their statements multiple employees confirmed Mr. Lopez was their supervisor and told them when to start each day. AX F-059; AX F-028; AX F-101; AX F-114.

Shop workers

Butler employed Jaime Hernandez and Felipe Villegas as shop workers. These employees exclusively worked in the "shop" (or "spare parts trailer") cleaning parts and supplies, welding, doing inspections, and repairing rides. AX G-3, AX F-137[27], AX F-123, AX F-134, and AX F-022. Ms. Aguilar visited the shop—an enclosed area, with parts and grease, like a repair shop—where Mr. Hernandez and Mr. Villegas indicated they worked all day. HT 60 at 18-22. Previously Mr. Villegas operated rides, but for the last two years he had exclusively worked in the shop. AX F-123. He worked when the fair was open—on average 38 to 40 hours for $395 a week. *Id.*[28] He did not have a timecard, but Mr. Mendez recorded his hours. *Id.* To receive his pay, he signed the pay slip which

[25] WHI Miljoner's notes from a meeting with Bill Truax and Antonio Mendez on April 23, 2013.
[26] "My left hand I guess would be Antonio Mendez. He's been coming here for 12 years. He's in charge of the spectaculars; he's the supervisor." AX F-137
[27] Carrie Aguilar's notes from a meeting with Kurt Vomberg's on April 23, 2013.
[28] Mr. Villegas' first day working in 2013 was February 2, 2013. RX 26 at 20. The following week he worked 38 hours, but was only paid $320 dollars. RX 26 at 56. For the rest of the time in question, he was paid $395 weekly. RX 26.

the office kept. *Id.* Mr. Villegas had a company shirt, but stated "for me it is not necessary to have a company shirt."[29] *Id.* Based on Jamie's [Jaime] work history, the general manager placed him as a machinist. AX F-134.

Drivers

Butler employed Saul Estadillo,[30] Sergio Guzman, Jose Ivan Ortega,[31] Gustavo Gamero, and Fernando Preza as truck drivers. The CDL [Commercial Driver's License] drivers only drove tractor trailers; they did not operate rides. AX F-137. Ms. Aguilar observed the semi-trucks arriving and other WHIs interviewed the drivers and confirmed the trucks were "semi-trucks." HT 60 at 22-25.

Multiple records refer to these H-2B employees as drivers. For example, two handwritten notes in Butler's payroll records list: Jose Ivan [Ortega], Sergio Guzman, and Fernando Preza as drivers who were all paid $500 for the week ending April 7, 2013, in Yuma.[32] RX 26 at 771 and 792. A payroll spreadsheet for "Butch's Unit" lists Jose Ivan, Fernando Preza, and Sergio Guzman as drivers. RX 26 at 793. While Saul Estadillo and Gustavo Gamero are not listed as drivers, the pay slips regularly showed that they did not work on weekends—which were the longest and busiest days for ride operators, and also typically days the drivers would not transport rides. *See* RX 26. When the fair stopped for longer periods, the drivers would do maintenance. AX F-130.

Saul Estadillo worked for Employer as a driver for three years and drove the trailers[33] with rides, but not the vans. AX F-041. Due to Department of Transportation regulations, he did not drive more than 10 hours per shift and kept a transportation logbook of his hours, which ranged from 20-60 hours per week. *Id.* His pay was the same regardless of his hours, and he did not wear a uniform. *Id.* When he was not driving, he inspected the trailer truck and was on standby for whatever the manager needed. *Id.*

Jose Ivan Ortega drove semi-trucks to transport the rides; he did not drive the vans to transport people. AX F-078. He drove a maximum of 10 hours per shift, and his hours varied—sometimes he worked up to 60 hours a week, and sometimes he only worked two days. AX F-078. He kept his hours driving in a logbook, which he submitted to Butler. *Id.* Employer provided the truck and paid for "diesel, tires, etc." *Id.* He lived and slept in his semi and the company did not charge him for his living accommodations." AX F-079.

Unreliability of Employer's Payroll Records

Employer argued the Administrator ignored evidence that the nine employees worked fewer than 40 hours per week during the period under investigation, and that the Administrator should

[29] Mr. Villegas did not need to wear the company uniform, which strongly suggests that he had few or no interactions with the public as a Recreation Attendant. Rather his duties were exclusively related to working in the repair shop as a mechanic.
[30] His name is sometimes spelled Estudillo.
[31] He is sometimes referred to as Jose Ivan.
[32] The note did not include the year 2013, but is reasonable to assume it was 2013 because Butch's unit was in Yuma during that time period in 2013.
[33] Mr. Estadillo referred to the vehicles he drove as trailers. It is not clear whether these are distinct from the "semi-trucks" to which Mr. Ortega referred.

have calculated back wages based on actual hours worked. The Administrator found Employer's payroll records did not represent the hours H-2B workers actually worked, and concluded the dollar amounts on the pay slips were likely accurate, but the documented hours were unreliable.

Employer submitted 1,132 pages of payroll records and photocopied pay slips. RX 26. Accompanying these records Respondents submitted their own summary of the hours that each of the nine employees worked.[34] RX 45 and 46.

The errors in Respondents' payroll records (as well as errors in the summary exhibit, RX 45) make both documents unreliable. The submitted pay slips omitted amounts paid, contained duplicate pay slips for the same person for the same period, and were inexplicably missing records for some employees. For example, for the week of February 24 to March 3, Respondents recorded that Fernando Preza worked 37 hours, but no pay was documented. RX 26 at 313. Additionally, records are missing for several of the nine employees. For example, Mr. Gamero, Mr. Guzman, Mr. Preza, Mr. Ortega, and Mr. Estadillo had no pay slip with hours for April 1 to April 7.

There were also duplicate pay slips that could not be reconciled.[35] For example, for March 25 to March 31, there were duplicate pay slips for Mr. Estadillo.[36] The first pay slip indicated Mr. Estadillo worked 17.5 hours and the second indicated he worked 38.5 hours. RX 26 at 798 and 816. The pay slips show different hours and breaks for the same days. *Id.* Both records show that on Wednesday, March 27, he worked from 9 am to 5 pm. *Id.* On the first timesheet, during that period he worked for 6 hours and took 2 breaks. RX 26 at 798. On the second timesheet during that same time period he worked 5.5 hours and took 2.5 breaks. RX 26 816. These records cannot be reconciled; one is accurate and the other is not, but we have no means of determining which is accurate. Additionally, it is unclear which—if any—of the hours on other days are duplicative.

During the same period, March 25 to March 31, there are duplicate pay slips for Mr. Gamero. The first pay slip indicated Mr. Gamero worked 17.5 hours and the second indicated he worked 17 hours. RX 26 at 811 and 820. While the discrepancy is small, again there is an irreconcilable error. Both records show that on Tuesday, March 26, he worked from 9 am to 5 pm. *Id.* On the first timesheet, during that period he worked for 6.5 hours and took 1.5 breaks. RX 26 at 811. On the second timesheet during that same time period he worked 6 hours and took 2 breaks. RX 26 820. Again, there is no way of determining which pay slip is accurate.

---

[34] RX 45 cites page numbers above 1132 (for example: 001216, 001217, 001218) unfortunately, these pages were not included in any exhibit. RX 26 ends at 001132 and RX 1 begins at 001236. Additionally, the last 21 pages of RX 26 are spreadsheets with cut-off names and locations. Because the pages are cut-off it is unclear how the names fit with locations and dates.

[35] For the week of March 11 to March 18, there were duplicate pay slips for Mr. Villegas, but both pay slips indicated the same number of hours and it was likely an inadvertent duplicate photocopy. RX 26 at 480, 490.

[36] Respondents' summary of the hours lists them under the wrong week (March 18-24). RX 45. Respondents' counsel argued the Administrator could have gone through the pay slip records and used this reference guide with citations to look up the actual hours worked. Unfortunately, this error—as well as references to records that were not included in the RX 26—appears to occur for all nine employees. Given the shortcomings of the reference exhibit (RX 45) combined with the actual errors in the pay slips and missing records (RX 26), the Administrator reasonably decided to calculate back wages using a 40-hour week the Employer attested to in ETA 9142B. AX C.

Finally there are conflicting records for Mr. Lopez from April 1 to 7. RX 26 at 836 and 849. A payroll spreadsheet summarizing employee hours shows that Mr. Lopez worked 38 hours for the week ending April 7, 2013. RX 26 at 849. Yet his pay slip for that same period shows that he worked 35.5 hours. RX 26 at 836. Again, there is no way of determining which record is accurate.

In the summary exhibit, RX 45, Respondents referred to pages that were not included in the exhibit, attributed hours to the wrong pay periods, and made questionable conclusions regarding employee duties. For example, RX 45 attributes 19 hours and 17.5 hours to Mr. Preza for the week of March 18 to March 24, but Mr. Preza actually worked 17.5 hours the week of March 25 to March 31. Additionally, without any supporting evidence, the summary stated during March 18 to 24, Mr. Preza and Mr. Ortega did not work as drivers. RX 45 at 1. The payroll summary that Respondents reference is actually for April 1 to 7, and it does not reference Mr. Preza or Mr. Ortega at all. RX 26 at 847. The omission of these workers on one payroll spreadsheet among a disorganized selection of payroll records is not sufficient to show they were not working as drivers that week. Additionally, Respondents state Mr. Gamero and Mr. Estadillo did not work as drivers the week of April 8 to 14 because on the payroll sheet it does not say "driver" next to their names. RX 45 at 2; RX 26 at 1036. I find the mere absence of a "driver" annotation insufficient to prove Mr. Gamero and Mr. Estadillo were not working as drivers that week.

Finally, although it is outside of the period of investigation, a payroll summary for late April says "see log" for the hours for drivers. RX 26 at 1091. Employees who drove the trucks could not drive more than 10 hours per shift and kept driver logs. AX F-135. These logs might have shown an accurate accounting of the time spent driving, but Respondents did not produce them.

Administrator did not credit the hours documented on Respondents' pay slips because it suspected the hours were inaccurate. Based on my review of the employee interviews and the pay slips, I find this decision reasonable. Administrator reasonably reconstructed hours worked based on the attestation in ETA Form 9142B rather than relying on incomplete and questionably accurate pay slips.

Weekly Wages Paid the Nine Employees

According to the payroll records for Butch's Unit, Respondents paid the nine H-2B workers as follows for the week ending on April 14, 2013, in Maricopa (AX E):

H-2B Employee Name	**"Gross"**
Saul Estudillo (Estadillo)	$500
Jaime Hernandez	$475
Gustavo Gamero	$500
Sergio Guzman	$500
Omar Lopez	$525 (minus $40 in "draws")
Antonio Mendez	$745 (minus $100 in "draws")
Jose Ortega (Jose Ivan Ortega)	$500
Fernando Preza	$500
Felipe Villegas	$395

All nine employees except Mr. Jose Ivan Ortega arrived by February 2, 2013. RX 24. Mr. Ortega arrived February 11, 2013. *Id.* at 3. All nine employees received a consistent weekly wage during the period of investigation, with the exception of Mr. Felipe Villegas and Mr. Hernandez. *See generally* RX 26. A pay slip for the pay period from February 4, 2013, to February 10, 2013, shows that Mr. Villegas worked every day for a total of 38 hours, but only received $320 dollars for the week, and a paystub for Mr. Hernandez during the same time period shows he worked 38.5 hours, but only received $320. RX 26 at 53, 56. In subsequent weeks, Mr. Villegas and Mr. Hernandez were consistently paid a weekly wage of $395 per week. *See generally* RX 26. To calculate the back wages, the Administrator credited Respondents as having paid $395 and $475 for 11 weeks for both workers; however, Respondents owe Mr. Villegas and Mr. Hernandez an additional $75 and $155, respectively, for the pay period from February 4, 2013, to February 10, 2013.[37] AX I-3.

Location of the Employees

Based on the pay slips it is reasonable to conclude that during the period of investigation all nine employees traveled from Riverside County, to Maricopa County, to Yuma County, to Santa Barbara County. RX 26 and 27.

WHD Determination

On February 6, 2018, the Administrator issued the Determination Letter finding that Respondents substantially failed to comply with the requirement to provide proper job classification information on the Form 9142 and DHS Form I-129. RX 19. Specifically, the Administrator found that Respondents "placed workers in occupation(s) other than listed on the I-129 Petition or the 9142 Application." *Id.* The Administrator based the finding on the substantive provisions of the 2008 H-2B regulations and the procedural provisions of the 2015 H-2B regulations, and determined that Respondents violated Attestation #13 and 20 C.F.R. § 655.22(n) (2009) as well as the Form I-129's part 5, question 1. *Id.* The Administrator asserted that $24,987.60 in back wages were due, and assessed $10,000 in civil money penalties. *Id.* On February 28, 2018, Respondents contested finding and remedies of the Determination Letter and requested administrative review. AX K

Regulatory Framework

On March 4, 2015, the United States District Court for the Northern District of Florida vacated the DOL's 2008 H-2B regulations and enjoined the DOL from enforcing these regulations. *Perez v. Perez*, No. 3:14-cv-00682, slip op. at 7-8 (N.D. Fla. Mar. 4, 2015). On April 29, 2015, DOL and DHS jointly issued an Interim Final Rule ("the 2015 H-2B regulations"). *Temporary Non-Agricultural Employment of H-2B Aliens in the United States*, 80 Fed. Reg. 24,042 (Apr. 29, 2015). The effective date of the district court's injunction was April 30, 2015. On August 28, 2015, the plaintiff in *Perez* filed an unopposed motion to clarify that the *Perez* injunction "was not intended to deprive DOL of its authority to enforce compliance with the substantive work terms contained in labor certifications issued pursuant to the 2008 Regulation prior to the entry of the Court's permanent injunction." The plaintiff argued that "[a]n injunction invalidating the work terms of previously issued labor certifications would be tantamount to giving employers *carte blanche* to mistreat U.S. and foreign workers and to ignore the sworn promises they made in order to obtain the right to import

[37] $395 - $320 = $75 (Mr. Villegas) and $475 - $320 = $155 (Mr. Hernandez).

foreign workers … ." The court granted the plaintiff's motion and clarified that "the permanent injunction was not intended to, and does not, apply retroactively." ("*Perez* Clarifying Order").

In other words, the *Perez* injunction does not apply retroactively to preclude enforcement actions of labor certifications that were issued pursuant to the 2008 H-2B regulations prior to the injunction's effective date of April 30, 2015. *See also Adm'r v. Drew's Lawn & Snow Serv., Inc.,* No. 2017-TNE-00001, slip op. at 3 (ALJ Apr. 10, 2018) ("DOL may enforce the [2008 H-2B regulations] for labor certifications issued before the injunction took effect…."). Here, Respondents' labor certification was issued before April 29, 2015, and therefore the *Perez* injunction does not preclude enforcement of the 2008 H-2B regulations. *See Order Denying Summary Decision*, November 14, 2018.

The 2015 H-2B regulations provide that with respect to determinations to enforce provisions of the job order or provisions under 8 U.S.C. § 1184(c), the procedures and rules contained in 29 C.F.R. § 503, Subpart C "will apply regardless of the date of violation." 29 C.F.R. § 503.40(b).

Legal Standard

This matter is governed by the Rules of Practice and Procedure for Administrative Hearings Before the Office of Administrative Law Judges, found at 29 C.F.R. Part 18. 29 C.F.R. § 503.44(a). The standard of review for this matter is de novo as stated in this Court's May 2, 2019 Order Following Prehearing Conference.

I. ISSUES IN DISPUTE

The matter presents the following disputed issues:

1. **Does the doctrine of laches preclude liability if the Administrator unjustifiably delayed filing the determination letter to the prejudice of Respondents?**

Respondents' argument that the equitable doctrine of laches precludes liability fails. Respondents contend the enforcement action should be dismissed because the Administrator's delayed prosecution substantially prejudiced Respondents. RPB 24. Respondents allege the Administrator allowed the case to languish for well over five years without explanation before filing a determination letter. *Id.* 24-25. Respondents claim they no longer employ anyone from the management team for the implicated Butch's Unit, and thus could not refute the Administrator's case. *Id.* at 25. Although Ms. Aguilar interviewed one of the managers, Respondent's claim without a witness statement, the manager's statements are "filtered through Ms. Aguilar's bias." *Id.* Additionally, Respondent's argue that six of the nine nonimmigrant employees no longer work for Employer. *Id.* Finally, Respondents' claim they lost many of their files during a move, and the 2008 H-2B regulations only require them to retain files for three years. *Id.*

Administrator—citing *United States v. Ruby Co.*, 588 F.2d 697, 705, n.10 (9th Cir. 1978)—argued that traditionally the doctrine of laches is not available against the government, but even if it were, Respondents must meet the standard for estoppel and make a showing of affirmative

misconduct. *See* Administrator's Opposition to Respondents' Amended Motion for Summary Judgment, July 25, 2018; *see also Ruby*, 588 F.2d at 705, n.10.[38]

Discussion

Laches is an equitable defense that may apply when a plaintiff "unreasonably delays in filing a suit and as a result harms the defendant." *Nat'l R.R. Passenger Corp. v. Morgan*, 536 U.S. 101, 122 (2002). The doctrine "requires proof of (1) lack of diligence by the party against whom the defense is asserted, and (2) prejudice to the party asserting the defense." *Costello v. United States*, 365 U.S. 265, 282 (1961). Further, "laches is not a doctrine concerned solely with timing. Rather, it is primarily concerned with prejudice." *In re Beaty*, 306 F.3d 914, 924 (9th Cir. 2002).

The traditional rule is that the doctrine of laches is not available against the government in a suit to enforce a public right or protect a public interest. *United States v. Ruby Co.*, 588 F.2d 697, 705, n.10 (9th Cir. 1978); *but cf. Occidental Life Ins. Co. of California v. E.E.O.C.,* 432 U.S. 355, 383 (1977), (noting in dicta, "discretionary power to locate a just result in light of the circumstances peculiar to the case can also be exercised when the EEOC is the plaintiff.") Courts have applied the doctrine of laches against the government in three limited circumstances: (1) "only the most egregious instances;" (2) when there is no statute of limitations to confine suits; and (3) to distinguish cases in which the government is suing on behalf of private parties for private rights. *See Cayuga Indian Nation of N.Y. v. Pataki*, 413 F.3d 266, 279 (2d Cir. 2005).

In dicta, the Ninth Circuit stated if the doctrine were to apply against the government, like the "analogous estoppel situation," the party asserting the defense must show "affirmative misconduct." *Id.* Affirmative misconduct in the context of estoppel "must be more than negligence" and "mere unexplained delays." *Jaa v. U.S. I.N.S.*, 779 F.2d 569, 572 (9th Cir. 1986).

Here, on March 22, 2013, Wage and Hour Inspector—Ms. Carrie Aguilar—notified Respondents she would inspect their operations to determine compliance with the H-2B program. AX A-1. WHD investigated Respondents' on-site operations in Santa Barbara, California on April 23 and 24, 2013. AX F. On November 22, 2013, Ms. Aguilar made a recommendation assessing back wages and CMP to remedy Respondents noncompliance with the H-2B program. RX 14 at 1; HT 75-77. Between February 2014 and early 2018 there was no communication between WHD and Respondents. *See* HT 94. On February 6, 2018, WHD issued a final determination letter alleging Respondents' noncompliance with the H-2B program and assessing back wages and CMP. RX 19.

Here, none of the circumstances to apply laches to the government exist, and Respondents did not show affirmative misconduct. First, a delay of approximately four to five years was not egregious. *Cf. Cayuga Indian Nation of N.Y.*, 413 F.3d at 279 (holding that a suit based on events that occurred 200 years ago was egregious). In its 2008 H-2B regulations, the Department of Labor initially contemplated a document retention period of five years before adopting a three-year policy to avoid unnecessarily burdening small businesses; finding an "unnecessary burden" falls far short of egregious.[39] Second, the government issued the final determination within the applicable catch-all statute of limitations—while adhering to a statute of limitations is not dispositive, the applicability of

[38] Administrator did not address the issue in its post hearing brief. *See* Administrator's Post Hearing Brief, July 23, 2019.
[39] 73 Fed. Reg. 245, 78,023.

a statute of limitations removes the justification for imposing the doctrine against the government. 28 U.S.C. § 2462; *See Cayuga Indian Nation of N.Y.*, 413 F.3d at 279. Third, the Administrator acted to protect the public interest and certify compliance with the H-2B program—which aims to ensure that employing foreign workers will not adversely affect the wages and working conditions of similarly employed U.S. workers. *See Cayuga Indian Nation of N.Y.* at 279; *see also* 8 U.S.C. 1101(a)(15)(H)(ii)(b); 8 U.S.C. 1184(c)(1). Although Respondents would owe back wages to individual employees, the U.S. intervenes in the public interest to enforce compliance.

Finally, Respondents did not show affirmative misconduct, which must be more than mere negligence or unexplained delay. *See Jaa*, 779 F.2d at 572. As stated at the hearing, WHD did not communicate with Respondents for four years and delayed issuing the Final Determination because the H-2B program was in an unsettled state. HT 166-167. The H-2B program enforcement was interrupted by various court cases outside of WHD's control. HT 167 at 9-11. The Administrator did not engage in misconduct, but rather an understandable delay due to pending litigation.

Furthermore, even if the standard rule for the doctrine of laches defense applied, Respondents still would not prevail because they failed to show unreasonable delay due to lack of diligence and prejudice. *See Costello*, 365 U.S. at 282. As stated above, the Administrator delayed because of pending litigation outside of its control. Respondents argue they were prejudiced because (1) they no longer employ anyone from the 2013 management team and six of the nine employees are no longer with Butler; (2) the manager's statements are "filtered through Ms. Aguilar's bias" because they could not take witness statements; and (3) they claim they lost many of their files during a move. RPB at 24.

Regarding Respondents' first and second objections, the witness statements that WHI took are primarily dictated, neutral notes describing Employer's operations. Based on the recorded language there was very little editorializing. For example, Kurt Vomberg's witness statement is written in the first person and states, "my right hand is Bill Truax…my left hand I guess would be Antonio Mendez. He's been coming back for 12 years." Mr. Vomburg's voice and straightforward answers to WHI's questions come through. AX F-137. There is no evidence of argumentation or editorializing in the witness statements. Additionally, WHD asked the H-2B employees to give written statements, which were later translated. AX F. Thus, the statements were not filtered through WHI's "biases." Generally, the Administrator was similarly prejudiced by its inability to follow up with employees to clarify their responses. Regarding Respondents' third objection, they made a vague assertion that they lost documents in a move but did not state which documents were lost. Furthermore, the Administrator gave Respondents no reason to believe that they had dropped the case. After corresponding with WHD and receiving notice of potential back wages and CMPs due, Respondents had a responsibility to maintain their own records for their defense at least until the statute of limitations passed. *See* 28 U.S.C. § 2462.

Finally, Respondents cite to *Logan v. Zimmerman Brush Co.*, 455 U.S 422 (1982) for support. RPB 24. In *Logan*, the appellant was fired and filed a timely state employment discrimination complaint. *Logan*, 455 U.S. 426. After the responsible state agency failed to convene a fact-finding conference within the statutorily-mandated time-frame, the Illinois Supreme Court held that the state agency could not convene a conference because it failed to do so within the allotted time, thus denying appellant an opportunity to be heard. *See Logan*, 455 U.S. 426. The Supreme Court reversed stating "the Due Process Clause grants the aggrieved party the opportunity to present his case and have its merits fairly judged." *Id.* at 433. The Court held the 14th Amendment required the state to

grant appellant a hearing "appropriate to the nature of the case" at a meaningful time and in a meaningful manner. *Id.* at 437. Here, unlike *Logan* where the appellant was denied a hearing, Respondents have been heard. Furthermore, the hearing is still within a "meaningful time" because nothing has occurred that would render the outcome of the hearing irrelevant. *Logan* provides no additional support for Respondents' argument that the doctrine of laches precludes liability.

Respondents did not show that the doctrine of laches should apply to the government in this case. Furthermore, Respondents failed to show the Administrator engaged in an unreasonable delay, or that they have been prejudiced the delay. Thus, I rule the doctrine of laches does not preclude liability here.

2. Did Respondents violate 20 C.F.R. § 655.22(n) (2009) when they compensated nine nonimmigrant workers as recreation and amusement attendants who were not performing recreation and amusement attendant job duties during the 2013 season?

For the reasons stated in this Court's November 14, 2018 Order Denying Summary Decision, the Department of Labor's 2008 H-2B regulations apply substantively, and the 2015 H-2B regulations apply procedurally. Respondents submitted the operative labor certification application under the 2008 H-2B regulations, and the enforcement of Respondents' obligations under those regulations is not foreclosed by the promulgation of new regulations or the *Perez v. Perez,* No. 3:14-cv-00682, slip op. at 7-8 (N.D. Fla. Mar. 4, 2015) injunction. The 2015 H-2B regulations provide that with respect to determinations to enforce provisions of the job order or provisions under 8 U.S.C. § 1184(c), the procedures and rules contained in 29 C.F.R. § 503, Subpart C "will apply regardless of the date of violation." 29 C.F.R. § 503.40(b). Thus, the 2008 H-2B regulations apply substantively, and the 2015 rules apply to procedural issues.

Did Respondents substantially fail to comply with the 2008 Rules?[40]

In 2008, the DOL proposed and instituted an attestation-based filing system for the H-2B program to reduce application "processing times while maintaining program integrity."[41] RX 76 at 17. The "information and attestations on the application form" were to provide the Department with "the necessary assurances … to initially verify program compliance." *Id.* The Department would further confirm compliance with audits. *See* 20 C.F.R. § 655.24.

An audit can identify three types of violations: (1) a willful misrepresentation of a material fact on a petition, (2) a substantial failure to meet any conditions of the labor certification or DHS Form I-129, or (3) a misrepresentation of a material fact to the State Department on a visa application. *See* 20 C.F.R. § 655.60. Here, the Administrator alleged that Butler substantially failed to meet conditions of the labor certification application. *See* APB 14 at 15-20. For this type of

[40] In the prehearing conference call, Respondents presented for hearing the questions: *Did Respondents willfully misrepresent its application or substantially fail to comply with the 2008 Rules?* And *"Did Respondents willfully misclassify certain H-2B workers in knowing and substantial violation of the 2008 rules?"* Because the Administrator did not allege a willful misrepresentation of a material fact on Respondents' petition under 20 C.F.R. § 655.60(a), I do not address the misrepresentation issues.
[41] *Lab. Certification Process and Enf't for Temp. Em't in Occupations Other Than Agric. or Registered Nursing in the US (H-2B Workers); Final Rule*, 73 Fed. Reg. 245, 78,035. (December 19, 2008) (Codified at 20 C.F.R. §§ 655 and 656.)

violation, the Administrator determines whether the employer has "substantially failed to meet any of the conditions of the labor certification application attested to as listed in § 655.22, or any of the conditions of the DHS I-129, Petition for a Nonimmigrant Worker for an H-2B worker in 8 CFR 214.2(h). 20 C.F.R. § 655.60(b).

Substantial failure in the context of the 2008 H-2B regulations means a knowing failure or reckless disregard whether conduct was contrary to Section 214(c) of the INA, or this subpart [20 C.F.R. 655 Subpart A], which results in a significant deviation from the terms and conditions of the labor condition application or the DHS I-129. *See* 20 C.F.R. § 655.65(d)-(e); *see also* 8 U.S.C. § 1184(c)(14)(A)). A substantial failure violation occurs after the workers are in the U.S. RX 40 at 18.

The INA defines substantial failure as "the willful failure to comply" [with this section which] constitutes a significant deviation from the terms and conditions of a petition."[42] 8 U.S.C. § 1184(c)(14)(D). The 2008 H-2B regulations define "willful failure" as a "knowing failure or a reckless disregard with respect to whether the conduct was contrary to sec. 214(c) of the INA, or this subpart. See *McLaughlin v. Richland Shoe Co.*, 486 U.S. 128 (1988); see also *Trans World Airlines v. Thurston*, 469 U.S. 111 (1985)."[43] *See* 20 C.F.R. § 655.65(e).

Section 655.65(e) references *McLaughlin v. Richland Shoe Co.*, 486 U.S. 128 (1988) and *Trans World Airlines v. Thurston*, 469 U.S. 111 (1985) for guidance on "willful failure." Under this standard, "willful" refers to conduct that is "voluntary," "deliberate," or "intentional," and "not merely negligent." *McLaughlin v. Richland Shoe Co.*, 486 U.S. at 133. A violation is willful if the employer "either knew or showed reckless disregard for the matter of whether its conduct was prohibited." *Id.* An act is not "willful" if the employer simply knew potential violations were "in the picture." *Trans World Airlines, Inc. v. Thurston*, 469 U.S. at 127.

---

[42] Section 214(c)(l4) of the INA states that if DHS finds "a substantial failure to meet any of the conditions of the petition to admit . . . a nonimmigrant worker under [8 U.S.C. § 1101(a)(l5)(H)(ii)(b)] or . . . a willful misrepresentation of a material fact in such petition," it may impose such administrative remedies, including civil monetary penalties, as it determines to be appropriate. 8 U.S.C. § 1184(c)(14)(A). The statute continues: "In this paragraph, the term 'substantial failure' means the willful failure to comply with the requirements of this section that constitutes a significant deviation from the terms and conditions of a petition." 8 U.S.C. § 1184(c)(14)(D). In addition, "the highest penalties shall be reserved for willful failure to meet any of the conditions of the petition that involve harm to United States workers." 8 U.S.C. § 1184(c)(14)(C).

[43] Although the definition of "substantial failure" is unclear from merely examining the regulations, it is logical to assume that Section 655.65(d)-(e) defines "substantial failure" in Section 655.60(b). Section 655.65, "Remedies for Violations," define "substantial violation" and "willful" as follows:

> (d) Substantial failure in paragraph (b) of this section shall mean a willful failure that constitutes a significant deviation from the terms and conditions of the labor condition application or the DHS Form I–129, Petition for a Nonimmigrant Worker for an H–2B worker or successor form.
> (e) For purposes of this subpart, "willful failure" means a knowing failure or a reckless disregard with respect to whether the conduct was contrary to sec. 214(c) of the INA, or this subpart. See *McLaughlin v. Richland Shoe Co.*, 486 U.S. 128 (1988); see also *Trans World Airlines v. Thurston*, 469 U.S. 111 (1985).

20 C.F.R. § 655.65 (2009). Section 655.65(d), states that "substantial failure in paragraph (b) of *this section* shall mean . . ." but paragraph (b) of "this section" does not mention "substantial failure." *See* 20 C.F.R. § 655.65(b) (2009) (discussing the remedies for termination by layoff). However, because no other definition is provided, it is logical to assume Section 655.65(d)-(e) defines "substantial failure" for Section 655.60(b), which is within the same subpart.

In *Thurston*, the record showed that the airline acted reasonably and in good faith. *Trans World Airlines v. Thurston*, 469 U.S. at 113. Airline officials met with lawyers, determined that their existing policy violated the Age Discrimination in Employment Act (ADEA), and proposed and adopted a new policy. *Id.* at 129. The Court held that the airline did not show willful or reckless disregard for whether its conduct violated the ADEA. *Id.*

Here, I find the Administrator established that Butler Amusements substantially failed to comply with the 2008 H-2B regulations by employing nine H-2B workers as amusement and recreation attendants (ARA) who did not perform recreation and amusement attendant job duties. These employees were instead employed as drivers, shop workers, and supervisors of amusement and recreation attendants. AX F.

Respondents Showed Reckless Disregard for Whether They Were in Compliance with the INA

Employer acted with reckless disregard for whether it was in compliance with the INA and its implementing regulations by ignoring the regulations and instructions accompanying the temporary employment certification application and employing nine H-2B workers outside of its job certification. At the hearing, Mr. Brajevich admitted he had never read or referenced the 2008 H-2B rules. HT 347.

As stated above, Employer has participated in the H-2B program since 2000. HT 274 at 6. On December 17, 2012, Employer submitted an Application for Temporary Employment for 246 nonimmigrant employees to work as "Recreation and Amusement Attendants. AX C-1. Employer stated it had a temporary need for employees from February 1, 2013, to October 31, 2013 to "perform a variety of attending duties at amusement facility (traveling carnival). Set up, tear down operate amusement rides, food concessions and/or games." AX C-3. During a WHD investigation in the spring of 2013, WHD found Respondents substantially failed to meet conditions of the labor certification application by employing five H-2B workers as drivers, two H-2B workers as shop workers, and two H-2B workers as supervisors.

The Administrator argued "[t]he H-2B program does not permit an employer to advertise and solicit for one job but actually employ nonimmigrant workers to perform a different job." APB 15 at 11-13. Respondents countered that given the lack of guidance, the Administrator failed to show that Respondents willfully or recklessly disregarded its obligations under the H-2B program. RPB 14.

Respondents Ignored Regulatory Guidance

Respondents' arguments that they did the best they could in the absence of a clear directive and guidance are unconvincing. Respondents' counsel argued that the 2008 H-2B regulations "say nothing about what an Employer must do to stay within their job code." HT 124. Counsel inquired whether there is a "regulatory requirement for how many job tasks…need to be identified" and how Employer could comply when there was not an established rule dictating what it should do. HT 127-129. The regulations and instructions accompanying the certification application provided ample notice and guidance for Employer to comply with the INA and the terms of its certification.

An agency must provide notice of its interpretation of what is prohibited before it may impose penalties. *Gen. Elec. Co. v. U.S. EPA*, 53 F.3d 1324, 1328–29 (D.C. Cir. 1995). But "[i]f, by

reviewing the regulations and other public statements issued by the agency, a regulated party acting in good faith would be able to identify, with 'ascertainable certainty,' the standards with which the agency expects parties to conform," the agency has provided notice. *Gen. Elec. Co.*, 53 F.3d at 1329.

Here, several sections of the 2008 H-2B regulations would have given Employer notice of its obligations. Most importantly, the 2008 H-2B regulations dictated that the employer must truly and accurately state, "the dates of temporary need, reason for temporary need, and number of positions being requested for labor certification…on the application." 20 C.F.R. § 655.22(n). Employer thus should have known that it was supposed to employ the number of ARA workers it had truly and accurately requested.

The content and purpose of the advertising requirements also should have given Respondents notice of the level of specificity required for the job description. Before receiving a temporary labor certification for H-2B workers, an employer must ensure that there are not enough interested and able US workers to fill the positions. *See* 20 C.F.R. § 655.17. Employers must advertise the job with enough specificity "to apprise applicants … where [they] will likely have to reside to perform the services or labor" and describe the "opportunity (including the job duties) … with sufficient detail to apprise applicants of services or labor to be performed …" as well as, "[t]he job opportunity's minimum education and experience requirements…." 20 C.F.R. § 655.17. Furthermore, the job description in the advertisement and the temporary employment certification application had to be similar because employers cannot place "less favorable" job requirements on U.S. workers. 20 C.F.R. § 655.17.

Employer stated workers would "perform a variety of attending duties at amusement facility (traveling carnival). Set up, tear down operate amusement rides, food concessions and/or games." AX C-3. Employer should have known it was to describe the job duties with enough specificity to apprise workers of the labor to be performed, but despite its representations on the temporary employment certification, it placed workers in positions where they were supervising other employees, exclusively driving semi-trucks, or working in a repair shop—all duties which were not listed on ETA Form 9141, 9142B, or the I-129.

Sections 655.20 and 655.34(b) also should have put Employer on notice that its strategy of concentrating duties to promote efficiency violated the 2008 H2-B regulations. *See* HT 353. Section 655.20 (d) allows "certification of more than one position on the application as long as all H–2B workers will perform the *same services or labor* on the *same terms and conditions,* in the *same occupation*…." (italics added). Section 655.34(b) states "[a] temporary labor certification is only valid for the …specific services or labor to be performed…." 20 C.F.R. § 655.34(b).

Had Mr. Brajevich read the regulations, these requirements would have put Employer on notice that all workers within a certification should perform the same labor, under the same conditions, and in the same occupations and that the certification was only valid for the services or labor specified in the application. Employer's strategy to "just put [workers] wherever we can get them to be efficient," was expedient, but clearly violated this explicit requirement. HT 353. Employer took advantage of this provision by submitting a temporary employment certification for 246 workers, and then showed reckless disregard for complying with the statute and regulations when it did not review the implementing regulations and employed some of its certified H-2B workers exclusively in occupations outside of the certification.

Respondents ignored instructions on the temporary employment certification application

Even though Mr. Brajevich did not read the 2008 H-2B rules, the instructions accompanying ETA Form 9141, 9142B, and the I-129 also informed Respondents of their obligations. Respondents argued the regulations do not specify how a FLSA-exempt employer is to complete ETA Form 9142 of the I-129. RPB at 19. They contend the Administrator has abandoned the practice of issuing opinion letters and prohibited investigators from giving advice in writing. RPB 14. But Respondents seemingly ignored the instructions they did receive with their temporary employment certification.

For example, to enable ETA to make a prevailing wage determination (PWD), Respondents were to "[d]escribe the job duties, in detail, to be performed by any worker filling the job opportunity." RX-4. The instructions stated, "specify field(s) and/or product(s)/industry(ies) involved, any equipment to be used, and pertinent work conditions." *Id.* The duties provided must be specific enough to be classified under a relevant SOC pursuant to the O*Net publication." *Id.* The instructions also directed Employer to indicate the number of employees the H-2B workers would supervise and whether the supervised workers would be subordinates or peers. *Id.* The ETA Form 9142B has similar instructions. RX 6 at 1.

Despite this guidance, Respondents did not include in the description any mention of needing a commercial driver's license, driving a semi-truck to transport rides, working in a repair shop, or supervising other employees. Despite this guidance, Respondents employed H-2B workers in positions dramatically different from the job description used to generate a prevailing wage determination, the position advertised to U.S. workers, and certified for H-2B workers.

Respondents should have submitted separate applications for the various jobs they sought to fill. Instead, Employer exerted minimal effort to comply with the INA and the 2008 H-2B regulations, which demonstrated more than mere negligence, but a reckless disregard for whether its actions violated the statute and regulations. If Respondents had reviewed the regulations and other documents in good faith, they could have ascertained what actions to take to comply. *See Gen. Elec. Co.*, 53 F.3d at 1329.

Did Respondents reasonably or in good faith rely upon professional counsel? Did Respondents reasonably or in good faith believe that they had committed no violation?

Respondents argue that because they relied on an agent with expertise in the H-2B program, they could not have willfully violated the regulations. *See* RPB 8. Respondents cite *McLaughlin* and *Trans World* to support their contention that "employers are entitled to rely upon legal advice and professional agents to properly handle H-2B applications." RPB 8.

This argument is a nonstarter. In the Notice of Proposed Rulemaking, the Department confirmed "[i]n the H-2B program, the agent simply represents the employer in the labor certification process. The employer is ultimately responsible for its obligations under the program…." RX 76 at 17; 73 Fed. Reg. 245, 78035 (December 19, 2008). By signing the Employer's Declaration on ETA Form 9142B, Mr. Brajevich certified the job opportunity was a full-time temporary position and that "[t]he dates of temporary need, reason(s) for temporary need, and number of worker positions being requested for certification has been truly and accurately stated on the application" (Attestation #13). AX C-9. Mr. Brajevich took full responsibility for the accuracy

of any representations made by his agent or attorney and declared under penalty of perjury that he read and reviewed the application and that to the best of his knowledge it was true and accurate. *Id.*

Additionally, Mr. Brajevich testified that Mr. Judkins acted on Butler's authority. HT 276. The RESTATEMENT (THIRD) OF AGENCY, § 2.01 (2006) states "[a]n agent acts with actual authority when at the time of taking action that has legal consequences for the principal, the agent reasonably, in accordance with the principal's manifestations to the agent, that the principal wishes the agent so to act." Thus, Mr. Judkins acted with actual authority and Butler Amusements is bound to the legal consequences of his actions. APB 27.

Unlike the airline in *Thurston*, Respondents did not act reasonably and in good faith. *See Trans World Airlines v. Thurston*, 469 U.S. at 113. Despite adequate notice of their obligations, Butler Amusement made convenient decisions and exerted minimal effort to comply. In *Thurston*, the airline did not just consult counsel, they engaged with the process, and changed their plan of action based on counsel's advice. *Id.* at 129. Consulting counsel is not sufficient to show that one acted in good faith nor is pleading ignorance.

Respondents also argue "an employer may legitimately rely upon the [WHD] agency's affirmative advice or interpretations, as well as failure to issue citations in similar circumstances. RPB 8. Respondents, however, did not cite any advice, interpretations, or a pattern a failure to issue citations to support its argument. I conclude that Respondents did not reasonably rely on counsel and believe they had not committed a violation.

Respondents' reckless disregard resulted in a significant deviation from the terms and conditions of their petition

Respondents' reckless disregard for the regulations and their lack of a good faith effort resulted in a substantial failure to meet conditions of the labor certification. Furthermore, their failure to place workers in ARA positions was a significant deviation from the conditions of the labor certification. On ETA Form 9141 and 9142B, Respondents entered "Amusement and Recreation Attendants – Traveling Carnival" as the job title, 39-3091 as the Suggested SOC (O*NET/OES) code, and Amusement and Recreation Attendants (ARA) as the Suggested SOC (O*NET/OES) occupation title. RX 5 at 1. Under job duties, Respondents represented the H-2B workers would, "[p]erform a variety of attending duties at amusement facility (traveling carnival). Set up, tear down, operate amusement rides, food concessions and/or games." *Id.* Respondents stated no experience, education, training, specific skills, or special licenses were required for the job. RX 5 at 2-3. Additionally, workers in the position would not supervise any other employees and would travel to multiple worksites. RX 5 at 2-3. Employer advertised 250 open Amusement and Recreation Attendants positions, and ETA certified a temporary employment certification for 246 ARA. AX C-1.

As stated above O*NET provided extensive information about any occupation, including ratings of how important certain tasks are to the position. APB 8 at 21-23. For ARA positions the core tasks are: selling tickets; collecting fees; selling refreshments; recording details of attendance, sales, receipts, reservations, or repairs; providing information about facilities; directing patrons, monitoring safety; cleaning rides; staying informed of safety measures. RX 51 at 1.

Respondents insisted that employing workers exclusively in supplemental activities was not a significant deviation from the job certification. HT 134. The O*NET description lists: inspecting

equipment to detect wear and tear and making minor repairs as a supplemental activity. RX 51 at 2. Similarly, an ARA might spend some time maintaining inventories of equipment and assembling and disassembling equipment. *Id.* According to Respondents, because cargo trucks are listed in O*NET as a tool of ARA workers, employing workers to drive semi-trucks was not a significant deviation. RX 51 at 2. Respondents claimed their strategy of concentrating approved duties in a small number of H-2B workers made them more efficient and was acceptable under the H-2B regulations. HT 303-304, 318-319. This argument is unconvincing because none of the nine employees performed the core duties associated with an ARA position, and they rarely performed the supplemental duties. *See* AX F.

The five drivers spent their time almost exclusively transporting rides on semi-trucks. They self-identified as drivers and were listed as drivers.[44] Additionally they slept in their trucks, had commercial drivers' licenses, and kept logbooks to comply with US Department of Transportation regulations. AX F-41, 54, 78, 135. The two shop workers labored solely in the maintenance shop cleaning parts and supplies, welding, doing inspections, and repairing rides. AX G-3, AX F-137, AX F-123, AX F-134, and AX F-022. Mr. Villegas did not need his company shirt because he spent so little time working with the public. *See* AX F-123. Finally the supervisors described themselves as supervisors, and other employees, as well as Butler Amusements' management, corroborated this. AX F-137. The supervisors walked around to make sure employees were doing their jobs, dealt with customer complaints, responded to ride operators when something was broken, and filled out the ride roster. AX F-075. The nine employees did not perform core ARA duties and only minimally performed supplemental ARA duties. RX 51 at 2.

At the hearing, Respondents' counsel asserted that the 2008 H-2B Regulations did not require an Employer to employ H-2B workers only in the job code that was requested. HT 115 at 21-25. This argument seems disingenuous; to allow employers to select a job code, receive a prevailing wage determination, advertise the job to US workers, hire H-2B workers after certifying that no US workers wanted the position, and then employ H-2B workers to perform a different job entirely, undermines the purpose of the INA to protect U.S. workers.

Respondents also argued that new language in the 2012 and 2015 regulations prohibiting placing workers outside of the certified job classification demonstrated that the 2008 regulations did not prohibit the practice. Specifically, counsel questioned Ms. Aguilar, "did you know that 2012 and 2015 [H-2B regulations] actually inserted the language that the Employer may not place someone in a job opportunity not listed on the 9142 application." HT 119 at 14-18. He continued, "[i]f I took the time to show you the preamble language associated with that change, did you know that it was proposed because it didn't exist in the 2008 regulations?" The preambles for the 2012 and 2015 H-2B regulations actually say, the modification "clarif[ies] that an H–2B worker is only permitted to work in the job and in the location that OFLC approves unless the employer obtains a new labor certification. Clarifying language indicates that the requirement existed, but was not explicit. Thus, contrary to Respondents' claim, the requirement is not new. Additionally, language added to clarify the requirement does not excuse Respondents' noncompliance due to ignorance. As shown above, there was ample language in the regulations and guidance to put Respondents on notice of their obligations.

[44] RX 26 at 792, 1036 (Guzman, Ortega, and Preza); RX 26 at 793 (Guzman and Ortega and Preza); RX 26 at 823 (Preza and Ortega).

Respondents failed to advertise the nine positions to US workers and adequately compensate the nine employees. Drivers, shop workers, and supervisors all have different SOC codes and corresponding prevailing wage rates, which are higher than the PWR for ARA. *See* AX J. Because Employer placed these nine employees outside of ARA positions, but paid them as if they were ARA employees, Employer significantly deviated from its certification and owes back wages. RPB 12. Their reckless disregard resulted in a significant deviation from the terms and conditions of their petition. 8 U.S.C. § 1184(c)(14)(D). Thus, Respondents violated 20 C.F.R. § 655.22(n) (2009).

Does the Administrator have an enforceable regulation advising Fair Labor Standards Act-exempt employers how to complete Form ETA 9142 or I-129?

Neither party cited an enforceable regulation specific to FLSA-exempt employers. However, the 2008 H-2B rules apply to all employers whether or not the employer is FLSA-exempt. Furthermore, Employer's FLSA-exempt status does not come into play here. Employer put H-2B workers in jobs outside of the job description on its temporary employment certification. *Compare* AX B *with* AX E and F. Due to its inconsistent and inaccurate timekeeping, WHD had to reconstruct wages based on the 40-hour week Employer described in its ETA Form 9142B and I-129. AX B and D. Employer is exempt from the FLSA under Section 13(a)(3) and thus is not required to maintain timekeeping records. In this case, a lack of reliable time-keeping records disadvantaged Employer. As Ms. Aguilar stated, if Respondents wanted to show the actual hours that employees worked, they needed to keep better records. HT 169. The lack of instructions or guidance for FLSA-exempt employees did not influence Respondents decision to place workers outside of its job certification.

3. To remedy the violations, should Respondents pay $26,955.40 in back wages as calculated by the Administrator?

Respondents owe back wages to the nine employees; however, the Administrator should have used the information in RX 26 and 27 to infer the actual pay and location of the employees. The recalculated back wages are included below.

If the Administrator finds that an employer has not paid wages at the wage level required by § 655.22(e), the Administrator may require the employer to pay back wages. 20 C.F.R. § 655.65(i). Back wages further the purposes of the H-2B program because it reduces the employer's incentive to bypass US workers to hire H-2B workers who are more easily exploited. 73 Fed. Reg. 78,020, 78,047 (Dec. 19, 2008). The Administrative Review Board acknowledges the necessity and authority of the WHD to reconstruct hours worked and payments to determine back wages when the employer's records are unreliable. *Administrator v. Peter's Fine Greek Food, Inc.*, 2014 WL 4966168, *4 (ARB September 17, 2014.)

WHD reconstructed the back wages based on a 40 hours week (temporary employment certification), the itinerary in the temporary employment certification, and SOC job codes for drivers, first-line supervisors, and maintenance and repair workers. AX J; AX I. Respondents argued that the nonimmigrant workers employed as drivers were only drivers for a few hours each week and that the two supervisors and the two machine shop mechanics did not work 40 hours per week in these roles. RX 15 at 2. Additionally, Respondents stated they gave WHD the location information; WHD just had to do the work to reconstruct each employees' location. HT 187.

The Administrator did not rely on Respondents' pay slips because it found the weekly wages on Employer's pay slips credible, but not the hours worked. HT 110; HT 40. Ms. Aguilar opined typed timecards are less reliable than handwritten timecards because the employee does not contemporaneously document when he or she starts and stops working. HT 40. Furthermore, the hours listed on the pay slips did not align with employee accounts. HT 71. For the reasons stated above, I find the pay slip hours were unreliable and could not have been used to reconstruct employee back wages.

Regarding the location of the workers, however, I find that the data in RX 26 is reasonably reliable. To calculate back wages, Ms. Aguilar gave Respondents credit for the weekly salaries documented on various spreadsheets and pay slips. HT 49-51. Butch's Unit traveled from Riverside County, to Maricopa County, and then to Santa Barbara County. RX 27. Three employees—Mr. Ortega, Mr. Preza, and Mr. Villegas—likely traveled to Yuma County and then returned to Maricopa County, while the others remained in Maricopa County. *See* RX 26. Although Ms. Aguilar could have inferred the actual location for most of the nine H-2B workers during the period of investigation, she used the locations listed in the carnival itinerary included in the temporary employment certification. AX C-13; HT 65; HT 99; RX 27. During the hearing, Ms. Aguilar acknowledged the PWR could have been based on just the four counties where Butch's Unit traveled. HT 100. Using SOCs that described the work H-2B workers were actually performing, she used FLC data to determine the rate of pay in each locality. HT 63-64. Ms. Aguilar then averaged the "mean wage (H-2B) values for each of the localities on the itinerary to determine a PWR. HT 69. Based on the hours per week the Employer listed on the temporary employment certification, she then multiplied that wage by 40 hours of work. HT 68. Ms. Aguilar's method for calculating the back wages is sound with the exception of using the projected itinerary to determine the average of the mean H-2B wages. She found Respondents owed the following:

Name	Occupation	Amount Due
Gustavo Gamero	Driver	$3,229.60
Sergio Guzman	Driver	$3,229.60
Jaime Hernandez	Shop Worker	$3,297.80
Saul Estadillo Herrera	Driver	$3,229.60
Omar Lopez	Supervisor	$3,051.40
Antonio Mendez	Supervisor	$574.00
Jose Ivan Ortega	Driver	$2,936.00
Fernando Preza	Driver	$3,229.60
Felipe Villegas Quijano	Shop Worker	$4,177.80
Total Back Wages		$26,955.40

Based on my recalculation of back wages using the mean H-2B wage for each worker as it could be best determined from the locations available in RX 26, I find Employer owes $26,786.00 in back wages. To calculate the back wages, I relied on data from RX 26, AX H, and AX J. I inferred the location and the weekly rate paid from pay slips in RX 26. I based the hourly wage rate on the

FLC wage data in AX J, specifically the mean (H-2B) rate, for the respective location and occupation of the H-2B worker. Table 1 summarizes the back wages Employer owes each employee, and Tables 2 through 10, attached as an Appendix to this Decision, show the calculations for each employee.

Table 1: Summary of Back Wages Owed

Saul Estadillo Herrera	Driver	$3,621.60
Gustavo Gamero	Driver	$3,621.60
Jose Ivan Ortega	Driver	$3,108.00
Fernando Preza	Driver	$3,446.00
Sergio Guzman	Driver	$3,446.00
Omar Lopez	Supervisor	$2,728.60
Antonio Mendez	Supervisor	$308.60
Felipe Villegas Quijano	Shop Worker	$3652.80
Jaime Hernandez	Shop Worker	$2,852.80
	TOTAL:	**$26,786.00**

Does the Administrator have an enforceable regulation that precludes the Respondents from meeting its prevailing wage obligations through non-cash value or facilities? Did the Administrator improperly calculate back wages by failing to include full-value credit for non-cash value or facilities provided to the employees, such as bunkhouses, local convenience travel, in and out of country travel, income taxes, a prepayment plan, variations in the prevailing wage from one location to another, bonuses, reimbursement of employee expenses, and food?

In the 2008 H-2B regulations, "[t]he Department [continued] to permit employers, consistent with the Fair Labor Standards Act (FLSA), to make deductions from a worker's pay for the reasonable cost of furnishing housing and transportation, as well as worker expenses such as passport and visa fees…." RX 76 at 21. Regarding deductions, the 2008 H-2B regulations stated, "[t]he employer must make all deductions from the worker's paychecks that are required by law. The job offer must specify all deductions not required by law that the employer will make from the worker's paycheck. All deductions must be reasonable." 20 C.F.R. § 655.22(g)(1). This regulation applies regardless of FLSA exemptions. *See id.*

Respondents claim they are entitled to credits for providing housing ($1290 to $1555 per employee), local transportation ($581.46 per employee), relocation expenses ($200 per employee), employee taxes ($356 to $1198 per employee), and reimbursement for a prepayment plan because employees did not reach 40 hours a week during the period of investigation. RPB 21; RX 47. Respondents claimed the average value of the mobile housing provided was $134.39 per week and the incidental travel offset was $52.25 per week. RX 31 at 6; RX 35 and 36. Respondents only seek credits for the nine employees to whom they owe back wages. RX 47 at 1; APB 25 at 12-13; HT 331-32.

Respondents cite no authority in support of these credits. Instead they submitted a joint statement signed by employees in 2019 who worked for Employer in 2013. RX 39 at 1. The letter stated the employees received "valuable benefits" such as housing, transportation, food, relocation, visa processing fees, "and so on." *Id.* The letter continues, "I knew that the value of these benefits

meant I receiving more than the prevailing wage and that Butler Amusements would be entitled to receive a credit for paying those expenses because they were paying more than they had agreed to pay." *Id.* I give this statement no weight as I have no context for the circumstances in which it was signed. Notably, there are inconsistencies between this letter, employee statements in 2013, and Respondents' claims for credits. For example, Respondents do not mention taxes or the prepayment plan in the letter, but claim a credit for them for 2013 in RX 47 (Respondents Recalculation of Back Wages with Credits Applied). Additionally, all employee statements in 2013 stated that housing was free and they independently pooled their money for food. *See generally* AX F. Finally "and so on" does not pass muster as a specific valuable benefit to deduct. *See* 20 C.F.R. § 655.22(g)(1)

Respondents are not entitled to any credits. In Respondents' job offer it stated, Employer would make "available mobile housing valued at $125.00 per week" and "transportation from venue to venue and scheduled transportation to laundry, shopping valued at $25.00 per week." RX-1. This language is ambiguous; it is not clear whether employer is deducting this benefit from the worker's pay or providing a free perk. In 2013, all of the employees who lived in the trailers stated that housing was free. AX F. Respondents' temporary employment certification application stated "Employer follows prevailing practices for Traveling Amusement Industry in regards to housing, transportation and weekly salary for workers." AX-C. This statement is also vague; it does not clearly specify all, or any, of the deductions the employer will make. *See* 20 C.F.R. § 655.22(g)(1). Finally, Employer inserted language in an addendum to its ETA Form 9142B "reserving the right to charge a fee for housing and transportation," but this attempt to reserve a deduction just in case fails to comply with § 655.22(g)(1). AX C-12.

Finally, WHD documented that at least two of the drivers did not live in the trailers. AX F. A deduction of $1290 to $1555 per employee for sleeping in a semi-truck cab is unreasonable. *See* 20 C.F.R. § 655.22(g)(1).

4. Should Respondents be ordered to pay $10,000 in civil money penalties for violating 20 C.F.R. § 655.22(n) (2009)?[45]

The implementing regulations contemplate three different bases to assess CMPs. The first concerns an employer's willful failure to pay an employee's wages or willful requirement that an employee pay fees or prohibited expenses, where the Administrator may assess CMPs that are equal to the difference between the amount that should have been paid and the amount actually paid to the worker(s), up to $10,000. 20 C.F.R. § 655.65(a). The second contemplates that the Administrator may make an assessment of up to $10,000 in CMPs for an employer's termination or layoff of an H-2B worker within the designated work period. 20 C.F.R. § 655.65(b). The third dictates that the Administrator may assess CMPs of up to $10,000 for an employer's substantial failure to meet a condition of the Temporary Employment Certification or the DHS Form I-129, a willful misrepresentation in the application, or a failure to cooperate with a Department of Labor ("DOL") investigation. 20 C.F.R. § 655.65(c).

The Administrator's CMP determination shall set forth the reasons for its findings. 20 C.F.R. § 655.70(c)(1). To determine an appropriate CMP, the Administrator "shall consider the type

[45] The Administrator is not seeking debarment.

of violation committed and other relevant factors." 20 C.F.R. § 655.65(g). "[T]he highest penalties shall be reserved for willful failures to meet any of the conditions of the petition that involve harm to United States workers." 8 U.S.C. § 1184(c)(14)(C); 20 C.F.R. § 655.65(g). Under the INA, a "willful failure" means a knowing failure or a reckless disregard with respect to whether the conduct was contrary to Section 214(c) of the INA. 20 C.F.R. § 655.65(e); *see McLaughlin v. Richland Shoe Co.*, 486 U.S. 128, 133 (1988).

In addition to considering the willfulness of the violation, the Administrator may also consider other discretionary factors to determine the CMP, which include but are not limited to the following:

> (1) Previous history of violation, or violations, by the employer under the INA and this subpart, and 8 CFR 214.2;
>
> (2) The number of U.S. or H-2B workers employed by the employer and affected by the violation or violations;
>
> (3) The gravity of the violation or violations;
>
> (4) Efforts made by the employer in good faith to comply with the INA and regulatory provisions of this subpart and at 8 CFR 214.2(h);
>
> (5) The employer's explanation of the violation or violations;
>
> (6) The employer's commitment to future compliance; and
>
> (7) The extent to which the employer achieved a financial gain due to the violation, or the potential financial loss to the employer's workers.

20 C.F.R. § 655.65(g). After the Administrator assesses CMPs, a party may seek an administrative law judge's ("ALJ's") review of the assessment of CMPs. 20 C.F.R. § 655.71(a). The ALJ "may affirm, deny, reverse, or modify, in whole or in part, the determination of the Administrator," with the "reason or reasons for such order" to be stated in the decision. 20 C.F.R. § 655.75(b). This includes independently weighing the mandatory or discretionary factors used to assess CMPs. *Admin. v. Prism Enters. of Cent. Fl.*, ALJ No. 2001-LCA-00008, slip op. at 13 (ALJ June 22, 2001), *aff'd*, ARB Case No. 01-080 (ARB Nov. 25, 2003).

Here, the Administrator assessed a $10,000 CMP for the substantial failure to pay employees for the work they actually performed. RX 19 at 5. Where an employer willfully fails to pay wages, the Administrator may assess CMPs equal to the difference between the amount that should have been paid and the amount of wages actually paid up to $10,000. 20 C.F.R. § 655.65(a). As Administrator found that back wages in excess of $26,000 were owed, per the regulations, it had authority to levy a CMP of up to $10,000.

Based on the mitigating factors, I find that Administrator's assessment of a $10,000 CMP was reasonable. First, although Butler Amusement does not have a history of violations, in its brief, the Administrator convincingly cited other ways in which Employer likely failed to comply with its certification, including incorrect entry and departure dates as well as nearly 400 individuals returning

to Mexico at the end of the season, even though only 187 workers entered. RPB 6 at fn. 3; RPB 15 at fn. 10. Although the Administrator did not charge Employer with these violations, they were documented in Respondents' records and evince a broader lack of adherence to H-2B rules. *See* RX 24 at 1-4; *see also* RX 33 and 34. Thus, the first factor weighs against Respondents.

Although the violation affected just nine employees, the second factor does not mitigate the assessed CMP because the Administrator convincingly argued that the violations were likely not limited to the nine employees in this case. APB 7 at fn. 4. WHD only audited one Butler Amusement crew and the Administrator reasoned that the same practices were used throughout Respondents' operation. *See id.* The Administrator highlighted an additional H-2B employee who Respondents employed as a driver. *Id.* It is likely Butler Amusements committed more similar violations in 2013; however, because these additional violations were not investigated or charged this factor does not weigh for or against Respondents.

Respondents' violation undermined objectives of the INA, thus the third factor favors assessing a large CMP. The Administrator charged Respondents with a substantial failure to comply with their obligations, not a deliberate misclassification. While the Administrator did not allege that Respondents had a history of lying or deliberately misleading the government and is not seeking debarment, the violation is serious. Respondents hired a large number of H-2B workers and through their substantial failure, H-2B workers lost wages and U.S. workers were denied an opportunity to apply to positions as supervisors, shop workers, or drivers. Thus, although the violation was not a willful misclassification, the violation was serious and undermined the objectives of the INA.

The fourth and fifth factors weigh against Respondents. Although they hired a consultant, Respondents put minimal effort into compliance as described above. The fifth factor also weighs against Respondents. Respondents maintain they are not in violation (HT 366 9-16). They seem to believe they should be able to "agree to comply with a scheme, receive the benefit of that scheme, fail to comply with it, and then blame someone else for their noncompliance." RPB 27. The H-2B system relies on employers promising to follow the rules. *Id.* Respondents argued they did not have to employ workers within their job certification and that regulations and guidance do not apply to them because they are FLSA-exempt. Butler Amusements' explanation of its violation is wanting, and its delegation of work to a consultant is insufficient to show a good faith effort.

The sixth factor does not weigh for or against Respondents. Respondents refused to state they would comply in the future because they were unwilling to admit they were out of compliance. HT 364-365. Additionally, based on Mr. Brajevich's testimony, it seemed likely that they not have changed their business practices in response to the Administrator's finding that they committed a violation. *See* HT 363-365. Respondents indicated they would "know how to go forward" based on my ruling, and they would follow the regulations "as spelled out." HT 363 at 8-10. Despite Respondents' ability to find ambiguity where little or none exists, I find it is likely they will comply.

Finally, the last factor weighs against Respondents because they gained financially by using ARA classifications that have lower prevailing wages than the other classifications. Contrary to Respondents' claim, the nine H-2B workers were not "handsomely overpaid." RPB 24. Instead, by placing H-2B workers outside of their job classification, Respondents were able to maintain their operations while paying H-2B workers less than their job duties warranted.

On balance, the discretionary factors favor imposing a high CMP. Only two factors neither weigh for or against Respondents. Because Respondents owe more than $26,000 in back wages, the Administrator had the authority to impose a CMP up to $10,000. *See* 20 C.F.R. § 655.65(a). Therefore, given the back wages owed and my assessment of the discretionary factors, the assessed $10,000 CMP is appropriate in this instance.

5. Was Respondent Michael Brajevich properly charged in his individual capacity and therefore liable for any violations in his individual capacity?

"A basic tenet of American corporate law is that the corporation and its shareholders are distinct entities." *Dole Food Co. v. Patrickson*, 538 U.S. 468, 474 (2003). The corporate veil shields individual shareholders from liability for the corporation's debt; to hold a shareholder personally liable for corporate debt, a court must pierce the corporate veil. *See Laborers Clean-Up Contract Admin. Trust Fund v. Uriarte Clean-Up Serv., Inc.*, 736 F.2d 516, 523 (9th Cir. 1984). In appropriate cases, courts may pierce the corporate veil and hold an individual responsible for violations of the INA committed by the employer corporation. *See United States v. Bestfoods*, 524 U.S. 51, 62 (1998); *Administrator v. Kutty*, ARB No. 03-022, 2005 WL 1359123, at *13-14 (May 31, 2005) (holding a shareholder personally liable for violations of H-1B visa program provisions committed by corporations), *aff'd sub nom., Kutty v. US Dep't of Labor*, 764 F.3d 540, 551 (6th Cir. 2014), *cert. denied* 135 S. Ct. 1162 (2015). The INA is silent on personal and corporate liability, so common law principles apply. *Kutty*, 764 F.3d at 550 (*citing Bestfoods*, 524 U.S. at 63).

In deciding whether to pierce the corporate veil, the court should apply federal law but may look to state law for guidance. *Board of Trustees of Mill Cabinet Pension Trust Fund for Northern Cal. v. Valley Cabinet & Mfg. Co.*, 877 F.2d 769, 772 (9th Cir. 1989)(*quoting Uriarte*, 736 F.2d at 523). "The traditional rule demands that individuals incorporate in good faith, with adequate capital, and observe a minimum of corporate formalities." *Seymour v. Hull & Moreland Eng'g*, 605 F.2d 1105, 1111 (9th Cir. 1979). In the Ninth Circuit, the test for whether shareholders are personally liable for corporate conduct rests on three factors: "the amount of respect given to the separate identity of the corporation by its shareholders, the fraudulent intent of the incorporators, and the degree of injustice visited on litigants by the recognition of the corporate entity." *Uriarte*, 736 F.2d at 524. The moving party must demonstrate the first threshold factor of separate identity and then one of the other two factors. *UA Local 343 United Ass'n of Journeymen & Apprentices of Plumbing & Pipefitting Indus. v. Nor-Cal Plumbing, Inc.*, 48 F.3d 1465, 1475 (9th Cir. 1994).

Here, Ms. Aguilar stated WHD named Mr. Brajevich personally because he signed the ETA Form 9142B. HT 181 at 24. The Administrator did not address the issue of Mr. Brajevich's personal liability in its post-hearing brief, and presented no evidence that Mr. Brajevich did not respect the separate identity of Butler Amusement, Inc. Thus, I do not reach the question whether Mr. Brajevich acted with fraudulent intent or whether the parties would suffer injustice if the corporate veil is not pierced. *See Uriarte*, 736 F.2d at 52. I hold Mr. Brajevich is not personally liable for Butler Amusement, Inc.'s corporate debts.

6. **Should a non-retaliation order be included if the Administrator prevails in this matter?**

The Administrator seeks a non-retaliation order for any employee who receives back wages or who contacts the Administrator to discuss their rights under the H-2B program. Three of the

nine employees were still working for Respondents in 2019. RX 37. Respondents have no objection to a non-retaliation provision. HT 357-58. Thus, I find a non-retaliation provision is warranted.

7. ORDER

For the reasons stated above, the following order is made:

1. Butler Amusements, Inc. substantially failed to comply with the H-2B program. For its violation of 20 C.F.R. § 655.22(n) (2009), Butler Amusements, Inc. shall pay reduced back wages the nine affected workers in the amount of $26,786.00. Specifically, Respondent shall pay the nine H-2B workers as follows:

1. Saul Estadillo Herrera	$3,621.60
2. Gustavo Gamero	$3,621.60
3. Jose Ivan Ortega	$3,108.00
4. Fernando Preza	$3,446.00
5. Sergio Guzman	$3,446.00
6. Omar Lopez	$2,728.60
7. Antonio Mendez	$308.60
8. Felipe Villegas Quijano	$3652.80
9. Jaime Hernandez	$2,852.80
TOTAL	$26,786.00

2. For the substantiated violations of the H-2B program, Butler Amusements, Inc. is assessed civil money penalties in the amount of $10,000, which must be paid to the Administrator.

3. The allegations against Michael Brajevich in his individual capacity are dismissed.

4. The Administrator shall verify all calculations and make any changes, including calculating interest owed and any required deductions, necessary to implement this order and repay the monies owed to the affected workers.

5. The parties shall promptly notify this Office if an appeal is filed in this matter.

SO ORDERED.

Administrative Law Judge

NOTICE OF APPEAL RIGHTS: Any party seeking review of this decision and order, including judicial review, shall file a Petition for Review (§Petition§) with the Administrative Review Board (§ARB§). The ARB must receive the Petition within 30 calendar days of the date of this decision and order. 20 C.F.R. § 76(a). The Board's address is: Administrative Review Board, U.S. Department of Labor, Suite S-5220, 200 Constitution Avenue, NW, Washington DC 20210, for traditional paper filing. Alternatively, the Board offers an Electronic File and Service Request (EFSR) system. The EFSR for electronic filing (eFile) permits the submission of forms and documents to the Board through the Internet instead of using postal mail and fax. The EFSR portal allows parties to file new appeals electronically, receive electronic service of Board issuances, file briefs and motions electronically, and check the status of existing appeals via a web-based interface accessible 24 hours every day. No paper copies need be filed.

An e-Filer must register as a user, by filing an online registration form. To register, the e-Filer must have a valid e-mail address. The Board must validate the e-Filer before he or she may file any e-Filed document. After the Board has accepted an e-Filing, it is handled just as it would be had it been filed in a more traditional manner. e-Filers will also have access to electronic service (eService), which is simply a way to receive documents, issued by the Board, through the Internet instead of mailing paper notices/documents.

Information regarding registration for access to the EFSR system, as well as a step by step user guide and FAQs can be found at: https://dol-appeals.entellitrak.com. If you have any questions or comments, please contact: Boards-EFSR-Help@dol.gov

Copies of the Petition should be served on all parties and on the undersigned Administrative Law Judge. No particular form is prescribed for the Petition; however, any such petition shall:

(1) Be dated;
(2) Be typewritten or legibly written;
(3) Specify the issue or issues stated in the administrative law judge decision and order giving rise to such petition;
(4) State the specific reason or reasons why the party petitioning for review believes such decision and order are in error;
(5) Be signed by the party filing the petition or by an authorized representative of such party;
(6) Include the address at which such party or authorized representative desires to receive further communications relating thereto; and
(7) Attach copies of the administrative law judge's decision and order, and any other record documents which would assist the ARB in determining whether review is warranted.

If filing paper copies, you must file an original and four copies of the petition for review with the Board. If you e-File your petition, only one copy need be uploaded.

20 C.F.R. § 655.76(b). If the ARB determines that it will review this decision and order, it will issue a notice specifying the issue or issues to be reviewed; the form in which submissions shall be made by the parties (e.g., briefs); and the time within which such submissions shall be made. 20 C.F.R. § 655.76(e). When filing any document with the ARB, the party must file an original and two copies of the document. 20 C.F.R. § 655.76(f).

APPENDIX

Table 2: Saul Estadillo (Estudillo) Herrera Back Wages Due

Work Week	Employee Name	Job Performed	Location	Wage rate[46]	Hours	PWR Due	Weekly Rate Paid	Total Owed for Each Week	Total Back Wages
2/4/2013-2/10/2013	Saul Estadillo Herrera	Driver	Riverside MSA (Indio, CA)[47]	$20.95	40	$838.00	$500.00	$338.00	
2/11/2013-2/17/2013	Saul Estadillo Herrera	Driver	Riverside MSA (Indio, CA)	$20.95	40	$838.00	$500.00	$338.00	
2/18/2013-2/24/2013	Saul Estadillo Herrera	Driver	Riverside MSA (Indio, CA)	$20.95	40	$838.00	$500.00	$338.00	
2/25/2013-3/3/2013	Saul Estadillo Herrera	Driver	Maricopa MSA (El Mirage, AZ)	$20.92	40	$836.80	$500.00	$336.80	
3/4/2013-3/10/2013	Saul Estadillo Herrera	Driver	Maricopa MSA (Chandler, AZ)	$20.92	40	$836.80	$500.00	$336.80	
3/11/2013-3/17/2013	Saul Estadillo Herrera	Driver	Maricopa MSA (Desert Sky Mall)	$20.92	40	$836.80	$500.00	$336.80	
3/18/2013-3/24/2013	Saul Estadillo Herrera	Driver	Maricopa MSA (Desert Sky Mall)	$20.92	40	$836.80	$500.00	$336.80	
3/25/2013-3/31/2013	Saul Estadillo Herrera	Driver	Maricopa MSA (AZ Mills)	$20.92	40	$836.80	$500.00	$336.80	
4/1/2013-4/7/2013	Saul Estadillo Herrera	Driver	Maricopa MSA (AZ Mills)	$20.92	40	$836.80	$500.00	$336.80	
4/8/2013-4/14/2013	Saul Estadillo Herrera	Driver	Maricopa MSA (Maricopa, AZ)	$20.92	40	$836.80	$500.00	$336.80	
4/15/2013-4/21/2013	Saul Estadillo Herrera	Driver	Santa Barbara MSA (Lompoc)	$18.75	40	$750.00	$500.00	$250.00	**$3,621.60**

[46] FLC Data for the drivers is found at AX J-3, J-7, J-11, and J-12.

[47] There was no pay slip for Mr. Estadillo for this week. His location and wage paid are based on the location of the rest of the unit and what Butler paid him in other weeks.

Table 3: Gustavo Gamero Back Wages Due

Work Week Ending	Employee Name	Job Performed	Location	Wage Rate	Hours	PWR Due	Weekly Rate Paid	Total Owed for Each Week	Total Back Wages
2/4/2013-2/10/2013	Gustavo Gamero	Driver	Riverside MSA (Indio, CA)	$20.95	40	$838.00	$500.00	$338.00	
2/11/2013-2/17/2013	Gustavo Gamero	Driver	Riverside MSA (Indio, CA)	$20.95	40	$838.00	$500.00	$338.00	
2/18/2013-2/24/2013	Gustavo Gamero	Driver	Riverside MSA (Indio, CA)	$20.95	40	$838.00	$500.00	$338.00	
2/25/2013-3/3/2013	Gustavo Gamero	Driver	Maricopa MSA (El Mirage)	$20.92	40	$836.80	$500.00	$336.80	
3/4/2013-3/10/2013	Gustavo Gamero	Driver	Maricopa MSA (Chandler)	$20.92	40	$836.80	$500.00	$336.80	
3/11/2013-3/17/2013	Gustavo Gamero	Driver	Maricopa MSA (Desert Sky Mall)	$20.92	40	$836.80	$500.00	$336.80	
3/18/2013-3/24/2013	Gustavo Gamero	Driver	Maricopa MSA (Desert Sky Mall)	$20.92	40	$836.80	$500.00	$336.80	
3/25/2013-3/31/2013	Gustavo Gamero	Driver	Maricopa MSA (AZ Mills)	$20.92	40	$836.80	$500.00	$336.80	
4/1/2013-4/7/2013	Gustavo Gamero	Driver	Maricopa MSA (AZ Mills)	$20.92	40	$836.80	$500.00	$336.80	
4/8/2013-4/14/2013	Gustavo Gamero	Driver	Maricopa MSA (Maricopa, AZ)	$20.92	40	$836.80	$500.00	$336.80	
4/15/2013-4/21/2013	Gustavo Gamero	Driver	Santa Barbara MSA (Lompoc, CA)	$18.75	40	$750.00	$500.00	$250.00	**$3621.60**

Table 4: Jose Ivan Ortega (sometimes Jose Ivan) Back Wages Due

Work Week Ending	Employee Name	Job Performed	Location	Wage Rate	Hours	PWR Due	Weekly Rate Paid	Total Owed for Each Week	Total Back Wages
2/4/2013-2/10/2013[48]	N/A	N/A	N/A	N/A	N/A	N/A	N/A	N/A	
2/11/2013-2/17/2013	Jose Ivan Ortega	Driver	Riverside MSA	$20.95	40	$838.00	$500.00	$338.00	
2/18/2013-2/24/2013	Jose Ivan Ortega	Driver	Riverside MSA (Indio, CA)	$20.95	40	$838.00	$500.00	$338.00	
2/25/2013-3/3/2013	Jose Ivan Ortega	Driver	Maricopa MSA (Goodyear)	$20.92	40	$836.80	$500.00	$336.80	
3/4/2013-3/10/2013	Jose Ivan Ortega	Driver	Maricopa MSA (Chandler, AZ)	$20.92	40	$836.80	$500.00	$336.80	
3/11/2013-3/17/2013	Jose Ivan Ortega	Driver	Maricopa MSA (Desert Sky Mall)	$20.92	40	$836.80	$500.00	$336.80	
3/18/2013-3/24/2013	Jose Ivan Ortega	Driver	Maricopa MSA (Desert Sky)	$20.92	40	$836.80	$500.00	$336.80	
3/25/2013-3/31/2013	Jose Ivan Ortega	Driver	Maricopa MSA (AZ Mills)[49]	$20.92	40	$836.80	$500.00	$336.80	
4/1/2013-4/7/2013	Jose Ivan Ortega	Driver	Yuma MSA (Yuma, AZ)	$16.53	40	$661.20	$500.00	$161.20	
4/8/2013-4/14/2013	Jose Ivan Ortega	Driver	Maricopa MSA (Maricopa, AZ)	$20.92	40	$836.80	$500.00	$336.80	
4/15/2013-4/21/2013	Jose Ivan Ortega	Driver	Santa Barbara MSA (Lompoc)	$18.75	40	$750.00	$500.00	$250.00	**$3,108.00**

[48] Mr. Ortega did not arrive until February 11, 2013. RX 24 at 3.

[49] Mr. Ortega was likely in AZ Mills for the week ending 3/31 and Yuma for the week ending 4/7. RX 26 at 793; RX 26 at 815.

Table 5: Fernando Preza Back Wages Due

Work Week	Employee Name	Job Performed	Location	Wage rate	Hours	PWR Due	Weekly Rate Paid	Total Owed for Each Week	Total Back Wages
2/3/2013-2/10/2013	Fernando Preza	Driver	Riverside MSA (Indio, CA)	$20.95	40	$838.00	$500.00	$338.00	
2/11/2013-2/17/2013	Fernando Preza	Driver	Riverside MSA (Indio, CA)	$20.95	40	$838.00	$500.00	$338.00	
2/18/2013-2/24/2013	Fernando Preza	Driver	Riverside MSA (Indio, CA)	$20.95	40	$838.00	$500.00	$338.00	
2/25/2013-3/3/2013	Fernando Preza	Driver	Maricopa MSA (Goodyear)	$20.92	40	$836.80	$500.00	$336.80	
3/4/2013-3/10/2013	Fernando Preza	Driver	Maricopa MSA (Chandler, AZ)	$20.92	40	$836.80	$500.00	$336.80	
3/11/2013-3/17/2013	Fernando Preza	Driver	Maricopa MSA (Desert Sky Mall)	$20.92	40	$836.80	$500.00	$336.80	
3/18/2013-3/24/2013	Fernando Preza	Driver	Maricopa MSA (AZ Mills)[50]	$20.92	40	$836.80	$500.00	$336.80	
3/25/2013-3/31/2013	Fernando Preza	Driver	Maricopa MSA (AZ Mills)[51]	$20.92	40	$836.80	$500.00	$336.80	
4/1/2013-4/7/2013	Fernando Preza	Driver	Yuma MSA (Yuma, AZ)	$16.53	40	$661.20	$500.00	$161.20	
4/8/2013-4/14/2013	Fernando Preza	Driver	Maricopa MSA (Maricopa, AZ)	$20.92	40	$836.80	$500.00	$336.80	
4/15/2013-4/21/2013	Fernando Preza	Driver	Santa Barbara MSA (Lompoc, CA)	$18.75	40	$750.00	$500.00	$250.00	**$3,446.00**

[50] Mr. Preza was likely in AZ Mills for the week ending 3/24. RX 26 at 797-98.

[51] Mr. Preza was likely in AZ Mills for the week ending 3/31 and Yuma for the week ending 4/7. RX 26 at 819; RX 26 at 793.

Table 6: Sergio Guzman Back Wages Due

Work Week	Employee Name	Job Performed	Location	Wage rate	Hours	PWR Due	Weekly Rate Paid	Total Owed for Each Week	Total Back Wages
2/4/2013-2/10/2013	Sergio Guzman	Driver	Riverside MSA (Indio, CA)	$20.95	40	$838.00	$500.00	$338.00	
2/11/2013-2/17/2013	Sergio Guzman	Driver	Riverside MSA (Indio, CA)	$20.95	40	$838.00	$500.00	$338.00	
2/18/2013-2/24/2013	Sergio Guzman	Driver	Riverside MSA (Indio, CA)	$20.95	40	$838.00	$500.00	$338.00	
2/25/2013-3/3/2013	Sergio Guzman	Driver	Maricopa MSA (El Mirage, AZ)	$20.92	40	$836.80	$500.00	$336.80	
3/4/2013-3/10/2013	Sergio Guzman	Driver	Maricopa MSA (Chandler, AZ)	$20.92	40	$836.80	$500.00	$336.80	
3/11/2013-3/17/2013	Sergio Guzman	Driver	Maricopa MSA (Desert Sky)	$20.92	40	$836.80	$500.00	$336.80

UNITED STATES DEPARTMENT OF LABOR
ADMINISTRATIVE REVIEW BOARD

In the Matter of:	*	
ADMINISTRATOR, WAGE AND HOUR DIVISION	*	
Plaintiff	*	**Case No.: 2018-TNE-00019**
v.	*	Hon. Richard M. Clark Administrative Law Judge
BUTLER AMUSEMENTS, INC. AND MICHAEL BRAJEVICH	*	
Respondent	*	

* * * * * * * * * * * * * *

RESPONDENT'S PETITION FOR REVIEW

Pursuant to 20 C.F.R. § 655.76 (2009), Butler Amusements, Inc., and Michael Brajevich, Respondents, petition for review of **Exhibit 1**, Decision and Order dated August 6, 2019 (**copy attached**), and says:

For the reasons stated in **Exhibit 2**, Respondent's post-hearing brief dated July 23, 2019 (**copy attached**), Respondents seek review of the following issues:

1. Whether appeal of this case is governed by the now-vacated 20 C.F.R. § 655.76 (2015) or the retroactively-applied 29 C.F.R. § 503.54.

2. Whether this enforcement action may be maintained in light of the *vacatur* of 20 C.F.R. § 655.

3. Whether Butler substantially failed to comply with 20 C.F.R. § 655.22 (n) (2009) by willfully misrepresenting its temporary need for 9 specified H-2B workers?

4. Whether Butler is liable for back wages of $26,786 and civil money penalties of $10,000?

5. Whether this enforcement action should be dismissed for violating the statute of limitations and laches.

CONCLUSION

Wherefore, Respondent prays that this petition be granted and the cause remanded for immediate dismissal with prejudice.

CASE NO.: 2018-TNE-00019

In the Matter of:

ADMINISTRATOR, WAGE & HOUR DIVISION,
Prosecuting Party,

v.

BUTLER AMUSEMENTS, INC. AND
MICHAEL BRAJEVICH, an individual,
Respondents.

DECISION AND ORDER

This matter arises under the H-2B provisions of the Immigration and Nationality Act (INA), as amended, 8 U.S.C. §§ 1101(a)(15)(H)(ii)(b) *et seq*., 1184(c)(14), and 20 C.F.R. Part 655, subpart A (2008), and the applicable procedural regulations at 29 C.F.R. Part 503 (2015). Attorney Jeannie Gorman represented Administrator, Wage and Hour Division, U.S. Department of Labor ("Administrator"). Attorney P. Wayne Pierce represented Butler Amusements, Inc. ("Butler" or "Employer") and Michael Brajevich (collectively "Respondents").

On February 6, 2018, the Administrator, Wage and Hour Division of the U.S. Department of Labor, ("Administrator") issued a Determination Letter finding that Butler Amusements, Inc. and Michael Brajevich ("Respondents") substantially failed to comply with the proper job classification requirements of the H-2B program. The Administrator sought unpaid wages and assessed a civil monetary penalty (CMP). Respondents subsequently requested a hearing on the Administrator's determination. *See* 29 C.F.R. § 503.43.

A hearing was held May 8 and 9, 2019, in San Francisco, CA. Administrator's Exhibits A through Q were admitted into evidence, and Respondents' Exhibits 1 to 24, 26 to 71, and 73 to 106 were also admitted. Respondents' Exhibits 25 and 72 were withdrawn.[1] HT 12-13.[2] At the hearing, the Administrator and Respondents agreed the amount of back wages in RX 19 should read $26,955.40. At the hearing, the Administrator made an oral motion for reconsideration on the inclusion of Ms. Zepeda, which I denied. HT 5 at 22-24; HT 8 at 15-17.

[1] I cite to Administrator's Exhibits AX (letter) at (page) and Respondent's Exhibits RX (number) at (page). Additionally, I cite to Administrator's post-hearing brief as APB (page) at (line) and Respondents' post-hearing brief as RPB (page).
[2] I cite to the hearing transcript HT (page) at (line).

For the reasons discussed below, Employer is ordered to pay $26,786.00 in back wages and pay the amount of $10,000 in civil money penalties.

Background

An H-2B employee is defined as "having a residence in a foreign country which he has no intention of abandoning who is coming temporarily to the United States to perform other temporary service or labor if unemployed persons capable of performing such service or labor cannot be found in this country…." 8 U.S.C. § 1101(a)(15)(H)(ii)(b). The H-2B program permits employers to hire such nonimmigrant workers to perform temporary nonagricultural work within the United States on a one-time occurrence, seasonal, peak load, or intermittent basis, as defined by the Department of Homeland Security ("DHS"). 8 C.F.R. § 214.2(h)(6)(ii)(B).

DHS requires that employers petitioning for H-2B visas obtain a labor certification from the Department of Labor ("DOL") before applying for H-2B visas through DHS. 8 C.F.R. § 214.2(h)(6)(iii)(A). To obtain the labor certification, employers first obtain a prevailing wage determination for the job opportunity from DOL's Employment and Training Administration ("ETA") by submitting ETA Form 9141. 20 C.F.R. § 655.10 (2009).[3, 4] Employers must offer and pay the H-2B workers the highest of the prevailing wage or the applicable federal, state, or local minimum wage. 20 C.F.R. § 655.22(e). After obtaining the prevailing wage determination, the employer submits an Application for Temporary Employment Certification ("ETA Form 9142B") and recruitment report to the ETA. 20 C.F.R § 655.20. In ETA Form 9142B, the employer must certify under penalty of perjury that the information contained on the application is true and accurate, and the employer's signature constitutes its acknowledgment and acceptance of the obligations of the H-2B program. 20 C.F.R. § 655.65(f); AX C-9.

Section 214(c)(l4) of the INA gives DHS the authority to impose administrative remedies where the Secretary of DHS finds "a substantial failure to meet any of the conditions of the petition to admit…a nonimmigrant worker under [8 U.S.C. § 1101(a)(l5)(H)(ii)(b)] or…a willful misrepresentation of a material fact in such petition." 8 U.S.C. § 1184(c)(14)(A). The DHS is authorized to delegate this enforcement authority to the Secretary of Labor, 8 U.S.C. § 1184(c)(14)(B), and has delegated to the Secretary of Labor its authority "to enforce compliance with the conditions of a petition and Department of Labor approved temporary labor certification to admit or otherwise provide status to an H-2B worker." 8 C.F.R. 214.2(h)(6)(ix). This enforcement authority has been further delegated within DOL to the Administrator of the Wage and Hour Division. *See* Secretary's Order 01-2014, 79 FR 77527-01 (Dec. 19, 2014).

Factual Findings

Respondents, Butler Amusements, Inc. and former CEO, Michael Brajevich, operated a traveling amusement carnival that provided rides, games, and concessions to fairs in California,

[3] The 2008 H-2B regulations were promulgated on December 19, 2008, effective on January 18, 2009, and codified into the Code of Federal Regulations in 2009. *Labor Certification Process and Enforcement for Temporary Employment in Occupations Other Than Agriculture or Registered Nursing in the United States (H-2B Workers), and Other Technical Changes*, 73 Fed. Reg. No. 245, 78,020 (Dec. 19, 2008).

[4] References to 20 C.F.R. § 655 refer to the 2009 regulations unless otherwise specified.

Oregon, Washington, Idaho, Arizona, and Nevada. RX 20, AX C, APB 2 at 12-14. Butler Amusements is exempt from the Fair Labor Standards Act under § 13(a)(3). RX 13; RX 20-21; 29 U.S.C. § 213. Butler Amusements has participated in the H-2B program since 2000. HT 274 at 6. In October 2012, Butler Amusements initiated the process to request 246 workers to work as "Amusement and Recreation Attendants." RX 7. Respondents' agent, James Kendrick Judkins, filled out and submitted an ETA Form 9141 Application for a Prevailing Wage Determination (ETA Form 9141) and an ETA Form 9142B H-2B Application for Temporary Employment Certification (ETA Form 9142) on Respondents' behalf. RX 7 at 1. Mr. Brajevich and Mr. Judkins both promised that the information on the application was true and accurate. AX C-8 and C-9.

ETA Form 9141

ETA Form 9141 included instructions for describing the job opportunity. RX 4 at 3. To enable ETA to make a prevailing wage determination (PWD), Respondents were to "[d]escribe the job duties, in detail, to be performed by any worker filling the job opportunity. Specify field(s) and/or product(s)/industry(ies) involved, any equipment to be used, and pertinent work conditions. The duties provided must be specific enough to be classified under a relevant SOC pursuant to the O*Net publication." *Id.* The instructions also directed Employer to enter a Standard Occupational Code (SOC)/Occupational Net (ONET) code and job title for the occupation, which "most clearly describes the work to be performed." ETA stated Respondents' selection of an SOC might guide the determination; "however, the SOC issued with the determination may differ." RX 4 at 3. The instructions also directed Employer to indicate the number of employees the H2-B workers would supervise and whether the supervised workers would be subordinates or peers. *Id.*

The SOC code system had an occupation search engine called O*NET, which permitted employers to determine which SOC code applied to any given job duties. APB 8 at 16-20. O*NET provided extensive information about any occupation, including ratings of how important certain tasks were to the position. APB 8 at 21-23.

On ETA Form 9141, Respondents entered "Amusement and Recreation Attendants – Traveling Carnival" as the job title, 39-3091 as the Suggested SOC (ONET/OES) code, and Amusement and Recreation Attendants as the Suggested SOC (ONET/OES) occupation title. RX 5 at 1. Under job duties, Respondents represented the H-2B workers would, "[p]erform a variety of attending duties at amusement facility (traveling carnival). Set up, tear down, operate amusement rides, food concessions and/or games." *Id.* The attendants would work 40 hours per week from 1:00 pm to 10:00 pm and receive no overtime. *Id.* Respondents stated no experience, education, training, specific skills, or special licenses were required for the job, except for a drug and criminal background check. RX 5 at 2-3. Additionally, workers in the position would not supervise any other employees and would travel to multiple worksites. RX 5 at 2-3.

On October 18, 2012, Respondents posted a job advertisement online with Work Source that advertised 250 open positions for Carnival and Amusement and Recreation Attendants from February 1, 2013, to October 31, 2013. RX 1 at 1. The advertised job entailed performing "a variety of attending duties" at amusement facility, listed as, "[S]et up, tear down, operate amusement rides, food concessions and/or games." *Id.* Workers would work typically 40 hours per week, Wednesday through Sunday, from 1:00 pm to 10:00 pm, make a weekly wage ranging from $323.60 to 368.40 per week, and must travel with the carnival to Washington, California, Arizona, Nevada, Oregon, and Idaho. *Id.* Employer would pay the weekly wage for each week the worker was

employed, and make "available mobile housing valued at $125.00 per week" and "transportation from venue to venue and scheduled transportation to laundry, shopping valued at $25.00 per week." *Id.* The advertisement also indicated the Employer was exempt from the Fair Labor Standards Act (FLSA) and not subject to Federal hourly wage, overtime, or recordkeeping requirements. *Id.* Respondents posted an identical advertisement with the Yakima Herald on October 21 and 24, 2012. RX 2 and 3.

In November 2012, the Department of Labor ETA issued a PWD of $8.98 hourly, which was valid from November 2, 2012, to February 3, 2013, and based on SOC (O*NET/OES) code 39-3091 and Occupational Employment Statistics (OES) wage data. RX 5 at 4.

ETA Form 9142B

The instructions and information needed for ETA Form 9142B were similar to Form 9141 and its instructions. ETA Form 9142B instructions directed Respondents to enter the SOC/O*NET code for the occupation which most clearly described the work to be performed. RX 6 at 1. In Section F, Box 5, the instructions directed Respondents to "[d]escribe the job duties, in detail, to be performed by any worker filling the job opportunity and specify any equipment to be used and pertinent working conditions." *Id.* at 5. The instructions and form also directed Respondents to indicate the hours, daily work schedule, and whether the workers would supervise any other employees. *Id.*

On ETA Form 9142B, Respondents represented a temporary need for 246 full-time seasonal "Amusement and Recreation Attendants" beginning on February 1, 2013, and ending on October 31, 2013. AX C-1.[5] Under job duties, Respondents again described the position as "[p]erform variety of attending duties at amusement facility (traveling carnival). Set-up, tear-down, operate amusement rides, food concessions and/or games." AX C-3. Respondents stated H2-B workers would work 40 hours per week for a weekly wage ranging from $323.60 to $368.40. AX C-3, C-5. The position required "no special skills, licenses/certifications" and the H-2B workers would not supervise the work of other employees. AX C-3 to C-4. In Section G, Box 3, Respondents stated, "FLSA exemption 13(a)(3) applies to this employer in State and Local venues that respect the FLSA exemption 13(a)(3). Employer follows prevailing practices for Traveling Amusement Industry in regards to housing, transportation and weekly salary for workers." *Id.*

An Addendum to ETA Form 9142B contained additional information regarding the weekly wage, hourly work schedule, variable prevailing wage, housing and transportation credits, and worksites for the carnival. AX C-10 to C-29. In the Addendum, Respondents clarified that the "weekly wage [was] calculated based upon a standard 40-hour week using the methodology detailed in Section G.1." AX C-10. Additionally, Respondents stated "the work schedule varies widely" and Employer would pay a "variable prevailing wage ($323.60 to $368.40, Average $347.88)" in accordance with the ETA Form 9141 Determination "for each week the worker is employed." AX

[5] The exhibit also appears as RX 8 at 4. For ease of reference I cite only to AX C-1. Another version of ETA Form 9142B with attachments appears as RX 7. It is marked with the watermark "Not an Official DOL Labor Certification Document;" there is no table of contents explaining the significance of this document or a corresponding explanation, thus I did not consider it in my decision.

C-10, C-11. Respondents attached an addendum listing 71 worksites[6] and stated if there were changes to the work locations, they would obtain a prevailing wage determination. AX C-7, C-11.

Finally, Employer again stated it "makes available mobile housing valued at $125.00 per week" and transportation from venue to venue and scheduled transportation to laundry, shopping valued at $25.00 per week." AX C-12. At the time of certification DOL's H-2B Wage Methodology was "subject to litigation" and Employer stated "[i]f the wage to be paid is higher than the Variable Prevailing Wage Determination, the employer reserves the right to charge a fee for housing and transportation, but effective rate of pay will not be lower that the Variable Prevailing Wage Determination." AX C-12.

On ETA Form 9142 an employer must attest that it will abide by certain terms, assurances, and obligations as a condition for receiving a temporary labor certification. AX C-6. In Section I, Declaration of Employer and Attorney/Agent, Respondents checked "Yes" confirming they had read and agreed to all applicable terms, assurances, and obligations in Appendix B.1 of ETA Form 9142. *Id.* Mr. Judkins signed Appendix B.1 Section A, and Butler Amusements CEO, Michael Brajevich, signed Appendix B.1 Section B for Employer. AX C-8. By signing the Employer's Declaration, Mr. Brajevich certified the job opportunity was a full-time temporary position and that "[t]he dates of temporary need, reason(s) for temporary need, and number of worker positions being requested for certification has been truly and accurately stated on the application" (Attestation #13). AX C-9. Mr. Brajevich took full responsibility for the accuracy of any representations made by his agent or attorney and declared under penalty of perjury that he read and reviewed the application and that to the best of his knowledge it was true and accurate. *Id.*

On December 14, 2012, based on the attestations and documentation that Respondents provided, ETA certified Respondents' application seeking temporary labor certification under the H-2B program. RX 8 at 1.[7] In the Final Determination Certification Letter issued on December 14, 2012, the certifying officer (CO) directed Respondents to submit a Department of Homeland Security (DHS) Form I-129 and all required documentation. RX 8 at 1. The certification letter included an "Important Note" which stated—in part—regarding the "offered wage guarantee, this certification assumes that the employer will pay the certified weekly wage for 40 hours of work per week, as indicated in Section G of the employer's ETA Form 9142" for the entire approved certification period. *Id.* at 2.

The Final Determination cited the relevant regulations at 20 C.F.R. § 655.22 (e) and continued "[p]lease remember…the employer is required to pay the H-2B workers…recruited in connection with an H-2B application the certified offered wage during the entire period of the approved H-2B labor certification. AX B-2. Finally, the requirement to pay is independent of any applicable exemption from the provisions of Fair Labor Standards Act (FLSA). AX B-2.

On December 17, 2012, Respondents submitted DHS Form I-129 requesting H-2B visas for 246 unnamed workers to be employed, full-time as "Amusement and Recreation Attendants." AX D-3, D-4, D-8, D-12. By signing the I-129 Mr. Brajevich declared Employer would pay the variable

[6] The 71st worksite location is cutoff on the copy and illegible.
[7] The exhibit also appears as AX B-1. For ease of reference, I cite only to RX 8.

prevailing wage per 'ETA 9142…and the itemized itinerary." AX D-6; AX D-14. DHS approved the application on January 4, 2013. RX 11 at 1.

Wage and Hour Division Investigation

The Administrator subsequently opened an investigation for the period from February 1 to April 24, 2013. AX A-1. On April 23 and 24, 2013, Wage and Hour Division (WHD) and Wage and Hour Investigator (WHI) Carrie Aguilar visited Butler Amusements onsite in Santa Barbara, CA. AX F. Ms. Aguilar and her WHD team observed Employer's operations and interviewed employees. HT 63.

Determination Letter

On November 11, 2013, WHD found that nine H-2B workers were employed outside of the approved job title of Amusement and Recreation Attendants (ARA); the investigator determined that these workers had worked as drivers, maintenance workers, and supervisors. These positions have different SOC codes and a different prevailing wage. Based on the investigation, WHD sent Employer a Summary of Unpaid Wages which listed ten employees with varying amounts of unpaid wages for the period from February 2, 2013, to April 27, 2013, totaling $25,946.80. RX 14 at 1. On February 25, 2014, WHD recalculated the back wages for nine employees to be $24,987.60. RX 16 at 3. On February 6, 2018, WHD issued the Determination Letter finding that Respondents substantially failed to comply with Attestation #13—which requires the Employer to accurately state the dates of temporary need, reason for temporary need, and number of workers for temporary need. RX 19. WHD found Respondents owed $26,955.40[8] in back wages and $10,000 in CMPs. RX 19.

Respondents disputed the findings of the investigation on multiple grounds, including that that the identified workers only worked outside the approved job code for a few hours each week and that they worked "substantially less than 40 hours per week" during the investigation period. RX 15 at 1-2.

Butler Amusements' Employment Practices

Butler Amusements runs several units of workers contemporaneously at different fairgrounds and carnival sites. HT 270-71. The nine employees involved in this case were part of Butch's Unit. AX E-1. On April 23 and 24, 2013, WHD took written statements from 24 Butler employees and interviewed four applicants by phone. AX F. Additionally, WHD collected field notes from Bill Truax (manager), Gina Tuttle (payroll clerk), and Kurt Vomberg (general manager). *Id.*

Respondents' pay slips were not contemporaneously recorded time cards and did not include time spent driving. In the past, Employer gave workers timecards to record their hours, but in 2013 the employees did not record their own hours.[9] AX F-135;[10] AX F-096; AX F-114. Instead,

[8] The original amount cited in the February 6, 2018 Determination Letter was $24,987.20 in unpaid wages to nine H-2B workers, and $10,000 in CMPs. RX 19. This Court's May 2, 2019 Order amended the unpaid wages to $26,955.40.
[9] The employees reported they did not have timecards. *See* AX F.

carnival supervisors would record and report employees' hours to Gina Tuttle, Employer's payroll clerk. AX F-002; AX F-135; F-003;[11] F-021. Ms. Tuttle maintained a spreadsheet with hours for each employee and would report to supervisors if someone was approaching the cap (38-39 hours). *Id.* Each week, employees countersigned a pay slip that noted their hours and their weekly pay—which they received in cash and did not vary by location or hours worked. AX F-003; AX F-009; AX F-135; AX F-046; AX F-101. Ms. Tuttle then sent summaries of hours and the countersigned pay slips to headquarters. AX F-135.

The hours on Respondents' pay slips did not always reflect the hours H-2B employees worked because Employer did not report time spent driving. Employer paid the employees who drove the vans extra,[12] but did not record hours spent driving.[13,14,15] AX F-135. The undocumented driving time depended on the distance between fairs—but could be two to eight hours. AX F-049.[16]

Employees' weekly hours varied depending on the distance between the fairs and the hours of the various fairs; employees credibly reported working an average of slightly over 40 hours a week.[17, 18] The hours and days varied—some weeks employees would work two days and other weeks they would work every day.[19] AX F-027, AX F-108.

When the fair was open, employees started working one hour before the fair opened and stopped working when it closed, and when the fair was closed, hours were based on the time of the "work call."[20] AX F-135. Typically, employees worked a six-hour day over 12 hours.[21] For

[10] AX F-135 is a statement from Gina Tuttle taken by Wage and Hour Investigator Carrie Aguilar on April 23, 2013.
[11] "They write the hours on the inspection sheet when we begin and end…Someone comes to check how many people are working on a ride and they write down the hours of work." AX F-003.
[12] "Last year I received $200…They give me the bonus for driving." AX F-054.
[13] "They do get paid extra for driving, but the drive time hours are not on the timecards I didn't know we had to do that, but we probably should." AX F-135 (Gina Tuttle's statement.)
[14] "I receive an envelope, and everyone signs for them and the hours worked are there but it does not include the time for driving, just the time for operating the rides." AX F-054.
[15] One employee did remark that the pay slips were accurate, "…the manager writes down the hours we work…up until now it has always been correct…." AX F-021. However, the majority of employees reported working more hours and one employee explicitly stated his hours were underreported, "They put the hours worked on the paper and we sign that it is correct. That I have seen, sometime she [sic] hours are less than what we have worked in reality." AX F-003.
[16] "I just drove two times, first: 1.5 hours and second: 8 hours." AX F-049.
[17] Employees reported working: 38-40 hours (AX F-003); 36-42 hours (AX F-8, AX F-101); 40-60 hours (AX F-0017); 60-70 hours (AX F-027); 40-42 hours (AX F-063); 40 to 45 hours (AX F-086); 40-50 hours (AX F-092); average of 40 hours, but sometimes as little as two hours (AX F-107); 40-42 hours per week (AX F-063); "Normally I am working 40 to 45 hours each week. The workers who are working with me work the same hours." (AX F-086).
[18] Although employees reported working a range of hours from 36-70 hours per week, the higher numbers likely included break times. *See* AX F. For example, an employee reported working up to 70 hours a week, but also explained that he worked from 10 am until 10 pm or 12 noon until 12 midnight with 2 hour breaks every two hours. Thus, a typical workday (without set-up, tear down, or driving) would be six hours. *See* AX F-027-028.
[19] One H-2B worker reported working 17 days straight in Sacramento, but this was in a prior year. AX F-108. Another reported working for 12 days with one day off during the period of investigation. AX F-114. The length of these workdays was not specified and likely varied. *See generally* AX F.
[20] Weekdays were sometimes shorter shifts because some fairs were open to the public for fewer hours on weekdays. *See generally* AX F.
[21] "On the days when the fair is open, I work 6-8 hours per day. I also work 6-8 hours the day before the first day of the fair to prepare everything." (AX F-045); "When the fair is open we usually work 5-10 hours." (AX F-053); "…maximum six hours in one shift…" (AX F-008); "I work six hours during my work shift each day." (AX F-101).

example, during a workday, employees usually worked one or two hours, took a break for one or two hours, returned to work for one or two hours, and so on until the carnival closed. AX F-007.

On the last day in a location, employees would typically disassemble rides immediately after the fair closed. AX F-117. Assembling and disassembling the rides took two to eight hours, depending on the ride and whether they were assembling or disassembling it.[22,23] For example, one ride took six hours to set up but only two hours to tear down. AX F-035. Whereas another took six hours to take down. AX F-053. Employees worked long hours on the last day of the fair because they would work a full shift and then disassemble the rides.[24] AX F-008. On Mondays, the fair would typically travel to the next location, and employees would be given the rest of the day off. AX F-086; AX F-092. On the days they assembled rides, employees would "start at 8 am …leave for lunch at 12:00 pm….return at 1 pm and …work until 5 pm." AX F-092.

Employer provided free housing in trailers, transportation from venue to venue, and local transportation to run errands. AX F-009; AX F-022; AX F-028; AX F-035; AX F-046. No employee reported deductions for housing, transportation between fair venues, or local transportation to run errands. *See* AX F. The only deductions were cash advances. AX F-135.

The occupancy of the trailers varied; some employees shared with four people, some had one roommate, and some had private rooms. AX F-002; AX F-022; AX F-054. Not all of the employees stayed in the provided trailers. For example, one H-2B employee had worked for Employer since 2007; she traveled with the fair in her personal vehicle and stayed in an RV she purchased. AX F-129. Saul Estadillo Herrera—one of the nine employees who the Administrator alleged was working outside of the job certification—slept in "a big space in the back" of his truck. AX F-041. Jose Ivan Ortega—another H-2B worker employed outside of the job classification—also lived and slept in his "semi;" Employer did not charge him for his living accommodations. AX F-079. Employees pooled their money together to make communal meals; this was optional. AX F-028.

There was no evidence that employees who did not stay in the Employer-provided lodging received higher wages for not using the trailers. *See* RX 26. Employer provided a payroll spreadsheet listing the location, date, employee name, social security number, and date of birth. It included columns named: gross, draws, uniforms, ID, bunk, and net. AX E. None of the employees had a deduction for "bunk." *Id.* Likewise, the employee who traveled with the carnival in an RV that she owns, and thus did not live in the employer-provided housing, did not have a

---

[22] "The days of tearing down are long days. It can take four hours to tear down a ride." (AX F-016); "We take about six hours to disassemble the ride, it takes a lot less to disassemble." (AX F-068); "When we arrive to a new city and we are setting up the rides, I usually work 8 hours." (AX F-053); "It takes about 5 or 6 hours to tear down the 'Fireball.' Maybe an entire day to put up the 'Fireball' and sometimes I help on the other rides as well…[t]he time tearing down the ride I have no rest breaks." AX F-085.

[23] One employee stated he did receive breaks on the day of tearing down. However it is unclear whether he was referring to his shift during the fair or his shift and the "tearing down" time. "Maybe the day of tearing down and travel is lot hours—but still I have two hours of work and then two hours of rest and two more hours of work, etc." AX F-092.

[24] An employee estimated the last day of a fair they would typically work 12 hours. AX F-008. This was accurate in light of other employee statements estimating 6 hour shifts and 2-8 hours for disassembling rides.

credit under "bunk." AX E-3. Similarly, Mr. Estadillo and Mr. Ortega did not have a credit under "bunk." *Id.*

The workers who drove the rides from venue to venue had time cards and kept Department of Transportation log books. AX F-135. Some would stay with the fair, but others drove rides to other units operating on other fairgrounds. AX F-129; *see also* AX F-131.

Butler Employee Duties/Classifications

Every spring, the general manager, Mr. Vomberg, interviewed employees to determine their work history and how to place them. AX F-134.[25]

Supervisors

Butler employed Antonio Mendez and Omar Lopez as supervisors. A roll sheet listing which employee worked each ride, listed both Mr. Mendez and Mr. Lopez as supervisors. AX G-4. In 2013, Butler had employed Mr. Mendez for 12 years, and Mr. Mendez had been a supervisor for six years. AX F-137; AX F-075. Multiple employees stated they reported to their supervisor—Mr. Mendez. AX F-009; AX F-016; AX F-086. In that role, he walked around to make sure employees were doing their jobs, dealt with customer complaints, responded to ride operators when something was broken, and filled out the ride roster. AX F-075. Mr. Mendez was the general manager's "left hand," and a supervisor.[26] Antonio Mendez gave WHIs the tour, a roll which, in Ms. Aguilar's experience, supervisors typically assume. HT 61.

Butler also employed Omar Lopez as a supervisor. Mr. Lopez worked under Benny Hill—who was in charge of Kiddie Land. AX F-137. Like Mr. Mendez, Mr. Lopez filled out the ride roster. AX F-075. Mr. Lopez supervised 16 employees, and in their statements multiple employees confirmed Mr. Lopez was their supervisor and told them when to start each day. AX F-059; AX F-028; AX F-101; AX F-114.

Shop workers

Butler employed Jaime Hernandez and Felipe Villegas as shop workers. These employees exclusively worked in the "shop" (or "spare parts trailer") cleaning parts and supplies, welding, doing inspections, and repairing rides. AX G-3, AX F-137[27], AX F-123, AX F-134, and AX F-022. Ms. Aguilar visited the shop—an enclosed area, with parts and grease, like a repair shop—where Mr. Hernandez and Mr. Villegas indicated they worked all day. HT 60 at 18-22. Previously Mr. Villegas operated rides, but for the last two years he had exclusively worked in the shop. AX F-123. He worked when the fair was open—on average 38 to 40 hours for $395 a week. *Id.*[28] He did not have a timecard, but Mr. Mendez recorded his hours. *Id.* To receive his pay, he signed the pay slip which

[25] WHI Miljoner's notes from a meeting with Bill Truax and Antonio Mendez on April 23, 2013.
[26] "My left hand I guess would be Antonio Mendez. He's been coming here for 12 years. He's in charge of the spectaculars; he's the supervisor." AX F-137
[27] Carrie Aguilar's notes from a meeting with Kurt Vomberg's on April 23, 2013.
[28] Mr. Villegas' first day working in 2013 was February 2, 2013. RX 26 at 20. The following week he worked 38 hours, but was only paid $320 dollars. RX 26 at 56. For the rest of the time in question, he was paid $395 weekly. RX 26.

the office kept. *Id.* Mr. Villegas had a company shirt, but stated "for me it is not necessary to have a company shirt."[29] *Id.* Based on Jamie's [Jaime] work history, the general manager placed him as a machinist. AX F-134.

Drivers

Butler employed Saul Estadillo,[30] Sergio Guzman, Jose Ivan Ortega,[31] Gustavo Gamero, and Fernando Preza as truck drivers. The CDL [Commercial Driver's License] drivers only drove tractor trailers; they did not operate rides. AX F-137. Ms. Aguilar observed the semi-trucks arriving and other WHIs interviewed the drivers and confirmed the trucks were "semi-trucks." HT 60 at 22-25.

Multiple records refer to these H-2B employees as drivers. For example, two handwritten notes in Butler's payroll records list: Jose Ivan [Ortega], Sergio Guzman, and Fernando Preza as drivers who were all paid $500 for the week ending April 7, 2013, in Yuma.[32] RX 26 at 771 and 792. A payroll spreadsheet for "Butch's Unit" lists Jose Ivan, Fernando Preza, and Sergio Guzman as drivers. RX 26 at 793. While Saul Estadillo and Gustavo Gamero are not listed as drivers, the pay slips regularly showed that they did not work on weekends—which were the longest and busiest days for ride operators, and also typically days the drivers would not transport rides. *See* RX 26. When the fair stopped for longer periods, the drivers would do maintenance. AX F-130.

Saul Estadillo worked for Employer as a driver for three years and drove the trailers[33] with rides, but not the vans. AX F-041. Due to Department of Transportation regulations, he did not drive more than 10 hours per shift and kept a transportation logbook of his hours, which ranged from 20-60 hours per week. *Id.* His pay was the same regardless of his hours, and he did not wear a uniform. *Id.* When he was not driving, he inspected the trailer truck and was on standby for whatever the manager needed. *Id.*

Jose Ivan Ortega drove semi-trucks to transport the rides; he did not drive the vans to transport people. AX F-078. He drove a maximum of 10 hours per shift, and his hours varied—sometimes he worked up to 60 hours a week, and sometimes he only worked two days. AX F-078. He kept his hours driving in a logbook, which he submitted to Butler. *Id.* Employer provided the truck and paid for "diesel, tires, etc." *Id.* He lived and slept in his semi and the company did not charge him for his living accommodations." AX F-079.

Unreliability of Employer's Payroll Records

Employer argued the Administrator ignored evidence that the nine employees worked fewer than 40 hours per week during the period under investigation, and that the Administrator should

[29] Mr. Villegas did not need to wear the company uniform, which strongly suggests that he had few or no interactions with the public as a Recreation Attendant. Rather his duties were exclusively related to working in the repair shop as a mechanic.
[30] His name is sometimes spelled Estudillo.
[31] He is sometimes referred to as Jose Ivan.
[32] The note did not include the year 2013, but is reasonable to assume it was 2013 because Butch's unit was in Yuma during that time period in 2013.
[33] Mr. Estadillo referred to the vehicles he drove as trailers. It is not clear whether these are distinct from the "semi-trucks" to which Mr. Ortega referred.

have calculated back wages based on actual hours worked. The Administrator found Employer's payroll records did not represent the hours H-2B workers actually worked, and concluded the dollar amounts on the pay slips were likely accurate, but the documented hours were unreliable.

Employer submitted 1,132 pages of payroll records and photocopied pay slips. RX 26. Accompanying these records Respondents submitted their own summary of the hours that each of the nine employees worked.[34] RX 45 and 46.

The errors in Respondents' payroll records (as well as errors in the summary exhibit, RX 45) make both documents unreliable. The submitted pay slips omitted amounts paid, contained duplicate pay slips for the same person for the same period, and were inexplicably missing records for some employees. For example, for the week of February 24 to March 3, Respondents recorded that Fernando Preza worked 37 hours, but no pay was documented. RX 26 at 313. Additionally, records are missing for several of the nine employees. For example, Mr. Gamero, Mr. Guzman, Mr. Preza, Mr. Ortega, and Mr. Estadillo had no pay slip with hours for April 1 to April 7.

There were also duplicate pay slips that could not be reconciled.[35] For example, for March 25 to March 31, there were duplicate pay slips for Mr. Estadillo.[36] The first pay slip indicated Mr. Estadillo worked 17.5 hours and the second indicated he worked 38.5 hours. RX 26 at 798 and 816. The pay slips show different hours and breaks for the same days. *Id.* Both records show that on Wednesday, March 27, he worked from 9 am to 5 pm. *Id.* On the first timesheet, during that period he worked for 6 hours and took 2 breaks. RX 26 at 798. On the second timesheet during that same time period he worked 5.5 hours and took 2.5 breaks. RX 26 816. These records cannot be reconciled; one is accurate and the other is not, but we have no means of determining which is accurate. Additionally, it is unclear which—if any—of the hours on other days are duplicative.

During the same period, March 25 to March 31, there are duplicate pay slips for Mr. Gamero. The first pay slip indicated Mr. Gamero worked 17.5 hours and the second indicated he worked 17 hours. RX 26 at 811 and 820. While the discrepancy is small, again there is an irreconcilable error. Both records show that on Tuesday, March 26, he worked from 9 am to 5 pm. *Id.* On the first timesheet, during that period he worked for 6.5 hours and took 1.5 breaks. RX 26 at 811. On the second timesheet during that same time period he worked 6 hours and took 2 breaks. RX 26 820. Again, there is no way of determining which pay slip is accurate.

---

[34] RX 45 cites page numbers above 1132 (for example: 001216, 001217, 001218) unfortunately, these pages were not included in any exhibit. RX 26 ends at 001132 and RX 1 begins at 001236. Additionally, the last 21 pages of RX 26 are spreadsheets with cut-off names and locations. Because the pages are cut-off it is unclear how the names fit with locations and dates.

[35] For the week of March 11 to March 18, there were duplicate pay slips for Mr. Villegas, but both pay slips indicated the same number of hours and it was likely an inadvertent duplicate photocopy. RX 26 at 480, 490.

[36] Respondents' summary of the hours lists them under the wrong week (March 18-24). RX 45. Respondents' counsel argued the Administrator could have gone through the pay slip records and used this reference guide with citations to look up the actual hours worked. Unfortunately, this error—as well as references to records that were not included in the RX 26—appears to occur for all nine employees. Given the shortcomings of the reference exhibit (RX 45) combined with the actual errors in the pay slips and missing records (RX 26), the Administrator reasonably decided to calculate back wages using a 40-hour week the Employer attested to in ETA 9142B. AX C.

Finally there are conflicting records for Mr. Lopez from April 1 to 7. RX 26 at 836 and 849. A payroll spreadsheet summarizing employee hours shows that Mr. Lopez worked 38 hours for the week ending April 7, 2013. RX 26 at 849. Yet his pay slip for that same period shows that he worked 35.5 hours. RX 26 at 836. Again, there is no way of determining which record is accurate.

In the summary exhibit, RX 45, Respondents referred to pages that were not included in the exhibit, attributed hours to the wrong pay periods, and made questionable conclusions regarding employee duties. For example, RX 45 attributes 19 hours and 17.5 hours to Mr. Preza for the week of March 18 to March 24, but Mr. Preza actually worked 17.5 hours the week of March 25 to March 31. Additionally, without any supporting evidence, the summary stated during March 18 to 24, Mr. Preza and Mr. Ortega did not work as drivers. RX 45 at 1. The payroll summary that Respondents reference is actually for April 1 to 7, and it does not reference Mr. Preza or Mr. Ortega at all. RX 26 at 847. The omission of these workers on one payroll spreadsheet among a disorganized selection of payroll records is not sufficient to show they were not working as drivers that week. Additionally, Respondents state Mr. Gamero and Mr. Estadillo did not work as drivers the week of April 8 to 14 because on the payroll sheet it does not say "driver" next to their names. RX 45 at 2; RX 26 at 1036. I find the mere absence of a "driver" annotation insufficient to prove Mr. Gamero and Mr. Estadillo were not working as drivers that week.

Finally, although it is outside of the period of investigation, a payroll summary for late April says "see log" for the hours for drivers. RX 26 at 1091. Employees who drove the trucks could not drive more than 10 hours per shift and kept driver logs. AX F-135. These logs might have shown an accurate accounting of the time spent driving, but Respondents did not produce them.

Administrator did not credit the hours documented on Respondents' pay slips because it suspected the hours were inaccurate. Based on my review of the employee interviews and the pay slips, I find this decision reasonable. Administrator reasonably reconstructed hours worked based on the attestation in ETA Form 9142B rather than relying on incomplete and questionably accurate pay slips.

Weekly Wages Paid the Nine Employees

According to the payroll records for Butch's Unit, Respondents paid the nine H-2B workers as follows for the week ending on April 14, 2013, in Maricopa (AX E):

H-2B Employee Name	**"Gross"**
Saul Estudillo (Estadillo)	$500
Jaime Hernandez	$475
Gustavo Gamero	$500
Sergio Guzman	$500
Omar Lopez	$525 (minus $40 in "draws")
Antonio Mendez	$745 (minus $100 in "draws")
Jose Ortega (Jose Ivan Ortega)	$500
Fernando Preza	$500
Felipe Villegas	$395

All nine employees except Mr. Jose Ivan Ortega arrived by February 2, 2013. RX 24. Mr. Ortega arrived February 11, 2013. *Id.* at 3. All nine employees received a consistent weekly wage during the period of investigation, with the exception of Mr. Felipe Villegas and Mr. Hernandez. *See generally* RX 26. A pay slip for the pay period from February 4, 2013, to February 10, 2013, shows that Mr. Villegas worked every day for a total of 38 hours, but only received $320 dollars for the week, and a paystub for Mr. Hernandez during the same time period shows he worked 38.5 hours, but only received $320. RX 26 at 53, 56. In subsequent weeks, Mr. Villegas and Mr. Hernandez were consistently paid a weekly wage of $395 per week. *See generally* RX 26. To calculate the back wages, the Administrator credited Respondents as having paid $395 and $475 for 11 weeks for both workers; however, Respondents owe Mr. Villegas and Mr. Hernandez an additional $75 and $155, respectively, for the pay period from February 4, 2013, to February 10, 2013.[37] AX I-3.

Location of the Employees

Based on the pay slips it is reasonable to conclude that during the period of investigation all nine employees traveled from Riverside County, to Maricopa County, to Yuma County, to Santa Barbara County. RX 26 and 27.

WHD Determination

On February 6, 2018, the Administrator issued the Determination Letter finding that Respondents substantially failed to comply with the requirement to provide proper job classification information on the Form 9142 and DHS Form I-129. RX 19. Specifically, the Administrator found that Respondents "placed workers in occupation(s) other than listed on the I-129 Petition or the 9142 Application." *Id.* The Administrator based the finding on the substantive provisions of the 2008 H-2B regulations and the procedural provisions of the 2015 H-2B regulations, and determined that Respondents violated Attestation #13 and 20 C.F.R. § 655.22(n) (2009) as well as the Form I-129's part 5, question 1. *Id.* The Administrator asserted that $24,987.60 in back wages were due, and assessed $10,000 in civil money penalties. *Id.* On February 28, 2018, Respondents contested finding and remedies of the Determination Letter and requested administrative review. AX K

Regulatory Framework

On March 4, 2015, the United States District Court for the Northern District of Florida vacated the DOL's 2008 H-2B regulations and enjoined the DOL from enforcing these regulations. *Perez v. Perez*, No. 3:14-cv-00682, slip op. at 7-8 (N.D. Fla. Mar. 4, 2015). On April 29, 2015, DOL and DHS jointly issued an Interim Final Rule ("the 2015 H-2B regulations"). *Temporary Non-Agricultural Employment of H-2B Aliens in the United States*, 80 Fed. Reg. 24,042 (Apr. 29, 2015). The effective date of the district court's injunction was April 30, 2015. On August 28, 2015, the plaintiff in *Perez* filed an unopposed motion to clarify that the *Perez* injunction "was not intended to deprive DOL of its authority to enforce compliance with the substantive work terms contained in labor certifications issued pursuant to the 2008 Regulation prior to the entry of the Court's permanent injunction." The plaintiff argued that "[a]n injunction invalidating the work terms of previously issued labor certifications would be tantamount to giving employers *carte blanche* to mistreat U.S. and foreign workers and to ignore the sworn promises they made in order to obtain the right to import

[37] $395 - $320 = $75 (Mr. Villegas) and $475 - $320 = $155 (Mr. Hernandez).

foreign workers … ." The court granted the plaintiff's motion and clarified that "the permanent injunction was not intended to, and does not, apply retroactively." ("*Perez* Clarifying Order").

In other words, the *Perez* injunction does not apply retroactively to preclude enforcement actions of labor certifications that were issued pursuant to the 2008 H-2B regulations prior to the injunction's effective date of April 30, 2015. *See also Adm'r v. Drew's Lawn & Snow Serv., Inc.,* No. 2017-TNE-00001, slip op. at 3 (ALJ Apr. 10, 2018) ("DOL may enforce the [2008 H-2B regulations] for labor certifications issued before the injunction took effect…."). Here, Respondents' labor certification was issued before April 29, 2015, and therefore the *Perez* injunction does not preclude enforcement of the 2008 H-2B regulations. *See Order Denying Summary Decision*, November 14, 2018.

The 2015 H-2B regulations provide that with respect to determinations to enforce provisions of the job order or provisions under 8 U.S.C. § 1184(c), the procedures and rules contained in 29 C.F.R. § 503, Subpart C "will apply regardless of the date of violation." 29 C.F.R. § 503.40(b).

Legal Standard

This matter is governed by the Rules of Practice and Procedure for Administrative Hearings Before the Office of Administrative Law Judges, found at 29 C.F.R. Part 18. 29 C.F.R. § 503.44(a). The standard of review for this matter is de novo as stated in this Court's May 2, 2019 Order Following Prehearing Conference.

I. ISSUES IN DISPUTE

The matter presents the following disputed issues:

1. **Does the doctrine of laches preclude liability if the Administrator unjustifiably delayed filing the determination letter to the prejudice of Respondents?**

Respondents' argument that the equitable doctrine of laches precludes liability fails. Respondents contend the enforcement action should be dismissed because the Administrator's delayed prosecution substantially prejudiced Respondents. RPB 24. Respondents allege the Administrator allowed the case to languish for well over five years without explanation before filing a determination letter. *Id.* 24-25. Respondents claim they no longer employ anyone from the management team for the implicated Butch's Unit, and thus could not refute the Administrator's case. *Id.* at 25. Although Ms. Aguilar interviewed one of the managers, Respondent's claim without a witness statement, the manager's statements are "filtered through Ms. Aguilar's bias." *Id.* Additionally, Respondent's argue that six of the nine nonimmigrant employees no longer work for Employer. *Id.* Finally, Respondents' claim they lost many of their files during a move, and the 2008 H-2B regulations only require them to retain files for three years. *Id.*

Administrator—citing *United States v. Ruby Co.*, 588 F.2d 697, 705, n.10 (9th Cir. 1978)—argued that traditionally the doctrine of laches is not available against the government, but even if it were, Respondents must meet the standard for estoppel and make a showing of affirmative

misconduct. *See* Administrator's Opposition to Respondents' Amended Motion for Summary Judgment, July 25, 2018; *see also Ruby*, 588 F.2d at 705, n.10.[38]

Discussion

Laches is an equitable defense that may apply when a plaintiff "unreasonably delays in filing a suit and as a result harms the defendant." *Nat'l R.R. Passenger Corp. v. Morgan*, 536 U.S. 101, 122 (2002). The doctrine "requires proof of (1) lack of diligence by the party against whom the defense is asserted, and (2) prejudice to the party asserting the defense." *Costello v. United States*, 365 U.S. 265, 282 (1961). Further, "laches is not a doctrine concerned solely with timing. Rather, it is primarily concerned with prejudice." *In re Beaty*, 306 F.3d 914, 924 (9th Cir. 2002).

The traditional rule is that the doctrine of laches is not available against the government in a suit to enforce a public right or protect a public interest. *United States v. Ruby Co.*, 588 F.2d 697, 705, n.10 (9th Cir. 1978); *but cf. Occidental Life Ins. Co. of California v. E.E.O.C.,* 432 U.S. 355, 383 (1977), (noting in dicta, "discretionary power to locate a just result in light of the circumstances peculiar to the case can also be exercised when the EEOC is the plaintiff.") Courts have applied the doctrine of laches against the government in three limited circumstances: (1) "only the most egregious instances;" (2) when there is no statute of limitations to confine suits; and (3) to distinguish cases in which the government is suing on behalf of private parties for private rights. *See Cayuga Indian Nation of N.Y. v. Pataki*, 413 F.3d 266, 279 (2d Cir. 2005).

In dicta, the Ninth Circuit stated if the doctrine were to apply against the government, like the "analogous estoppel situation," the party asserting the defense must show "affirmative misconduct." *Id.* Affirmative misconduct in the context of estoppel "must be more than negligence" and "mere unexplained delays." *Jaa v. U.S. I.N.S.*, 779 F.2d 569, 572 (9th Cir. 1986).

Here, on March 22, 2013, Wage and Hour Inspector—Ms. Carrie Aguilar—notified Respondents she would inspect their operations to determine compliance with the H-2B program. AX A-1. WHD investigated Respondents' on-site operations in Santa Barbara, California on April 23 and 24, 2013. AX F. On November 22, 2013, Ms. Aguilar made a recommendation assessing back wages and CMP to remedy Respondents noncompliance with the H-2B program. RX 14 at 1; HT 75-77. Between February 2014 and early 2018 there was no communication between WHD and Respondents. *See* HT 94. On February 6, 2018, WHD issued a final determination letter alleging Respondents' noncompliance with the H-2B program and assessing back wages and CMP. RX 19.

Here, none of the circumstances to apply laches to the government exist, and Respondents did not show affirmative misconduct. First, a delay of approximately four to five years was not egregious. *Cf. Cayuga Indian Nation of N.Y.*, 413 F.3d at 279 (holding that a suit based on events that occurred 200 years ago was egregious). In its 2008 H-2B regulations, the Department of Labor initially contemplated a document retention period of five years before adopting a three-year policy to avoid unnecessarily burdening small businesses; finding an "unnecessary burden" falls far short of egregious.[39] Second, the government issued the final determination within the applicable catch-all statute of limitations—while adhering to a statute of limitations is not dispositive, the applicability of

[38] Administrator did not address the issue in its post hearing brief. *See* Administrator's Post Hearing Brief, July 23, 2019.
[39] 73 Fed. Reg. 245, 78,023.

a statute of limitations removes the justification for imposing the doctrine against the government. 28 U.S.C. § 2462; *See Cayuga Indian Nation of N.Y.*, 413 F.3d at 279. Third, the Administrator acted to protect the public interest and certify compliance with the H-2B program—which aims to ensure that employing foreign workers will not adversely affect the wages and working conditions of similarly employed U.S. workers. *See Cayuga Indian Nation of N.Y.* at 279; *see also* 8 U.S.C. 1101(a)(15)(H)(ii)(b); 8 U.S.C. 1184(c)(1). Although Respondents would owe back wages to individual employees, the U.S. intervenes in the public interest to enforce compliance.

Finally, Respondents did not show affirmative misconduct, which must be more than mere negligence or unexplained delay. *See Jaa*, 779 F.2d at 572. As stated at the hearing, WHD did not communicate with Respondents for four years and delayed issuing the Final Determination because the H-2B program was in an unsettled state. HT 166-167. The H-2B program enforcement was interrupted by various court cases outside of WHD's control. HT 167 at 9-11. The Administrator did not engage in misconduct, but rather an understandable delay due to pending litigation.

Furthermore, even if the standard rule for the doctrine of laches defense applied, Respondents still would not prevail because they failed to show unreasonable delay due to lack of diligence and prejudice. *See Costello*, 365 U.S. at 282. As stated above, the Administrator delayed because of pending litigation outside of its control. Respondents argue they were prejudiced because (1) they no longer employ anyone from the 2013 management team and six of the nine employees are no longer with Butler; (2) the manager's statements are "filtered through Ms. Aguilar's bias" because they could not take witness statements; and (3) they claim they lost many of their files during a move. RPB at 24.

Regarding Respondents' first and second objections, the witness statements that WHI took are primarily dictated, neutral notes describing Employer's operations. Based on the recorded language there was very little editorializing. For example, Kurt Vomberg's witness statement is written in the first person and states, "my right hand is Bill Truax…my left hand I guess would be Antonio Mendez. He's been coming back for 12 years." Mr. Vomburg's voice and straightforward answers to WHI's questions come through. AX F-137. There is no evidence of argumentation or editorializing in the witness statements. Additionally, WHD asked the H-2B employees to give written statements, which were later translated. AX F. Thus, the statements were not filtered through WHI's "biases." Generally, the Administrator was similarly prejudiced by its inability to follow up with employees to clarify their responses. Regarding Respondents' third objection, they made a vague assertion that they lost documents in a move but did not state which documents were lost. Furthermore, the Administrator gave Respondents no reason to believe that they had dropped the case. After corresponding with WHD and receiving notice of potential back wages and CMPs due, Respondents had a responsibility to maintain their own records for their defense at least until the statute of limitations passed. *See* 28 U.S.C. § 2462.

Finally, Respondents cite to *Logan v. Zimmerman Brush Co.*, 455 U.S 422 (1982) for support. RPB 24. In *Logan*, the appellant was fired and filed a timely state employment discrimination complaint. *Logan*, 455 U.S. 426. After the responsible state agency failed to convene a fact-finding conference within the statutorily-mandated time-frame, the Illinois Supreme Court held that the state agency could not convene a conference because it failed to do so within the allotted time, thus denying appellant an opportunity to be heard. *See Logan*, 455 U.S. 426. The Supreme Court reversed stating "the Due Process Clause grants the aggrieved party the opportunity to present his case and have its merits fairly judged." *Id.* at 433. The Court held the 14th Amendment required the state to

grant appellant a hearing "appropriate to the nature of the case" at a meaningful time and in a meaningful manner. *Id.* at 437. Here, unlike *Logan* where the appellant was denied a hearing, Respondents have been heard. Furthermore, the hearing is still within a "meaningful time" because nothing has occurred that would render the outcome of the hearing irrelevant. *Logan* provides no additional support for Respondents' argument that the doctrine of laches precludes liability.

Respondents did not show that the doctrine of laches should apply to the government in this case. Furthermore, Respondents failed to show the Administrator engaged in an unreasonable delay, or that they have been prejudiced the delay. Thus, I rule the doctrine of laches does not preclude liability here.

2. Did Respondents violate 20 C.F.R. § 655.22(n) (2009) when they compensated nine nonimmigrant workers as recreation and amusement attendants who were not performing recreation and amusement attendant job duties during the 2013 season?

For the reasons stated in this Court's November 14, 2018 Order Denying Summary Decision, the Department of Labor's 2008 H-2B regulations apply substantively, and the 2015 H-2B regulations apply procedurally. Respondents submitted the operative labor certification application under the 2008 H-2B regulations, and the enforcement of Respondents' obligations under those regulations is not foreclosed by the promulgation of new regulations or the *Perez v. Perez,* No. 3:14-cv-00682, slip op. at 7-8 (N.D. Fla. Mar. 4, 2015) injunction. The 2015 H-2B regulations provide that with respect to determinations to enforce provisions of the job order or provisions under 8 U.S.C. § 1184(c), the procedures and rules contained in 29 C.F.R. § 503, Subpart C "will apply regardless of the date of violation." 29 C.F.R. § 503.40(b). Thus, the 2008 H-2B regulations apply substantively, and the 2015 rules apply to procedural issues.

Did Respondents substantially fail to comply with the 2008 Rules?[40]

In 2008, the DOL proposed and instituted an attestation-based filing system for the H-2B program to reduce application "processing times while maintaining program integrity."[41] RX 76 at 17. The "information and attestations on the application form" were to provide the Department with "the necessary assurances … to initially verify program compliance." *Id.* The Department would further confirm compliance with audits. *See* 20 C.F.R. § 655.24.

An audit can identify three types of violations: (1) a willful misrepresentation of a material fact on a petition, (2) a substantial failure to meet any conditions of the labor certification or DHS Form I-129, or (3) a misrepresentation of a material fact to the State Department on a visa application. *See* 20 C.F.R. § 655.60. Here, the Administrator alleged that Butler substantially failed to meet conditions of the labor certification application. *See* APB 14 at 15-20. For this type of

[40] In the prehearing conference call, Respondents presented for hearing the questions: *Did Respondents willfully misrepresent its application or substantially fail to comply with the 2008 Rules?* And *"Did Respondents willfully misclassify certain H-2B workers in knowing and substantial violation of the 2008 rules?"* Because the Administrator did not allege a willful misrepresentation of a material fact on Respondents' petition under 20 C.F.R. § 655.60(a), I do not address the misrepresentation issues.
[41] *Lab. Certification Process and Enf't for Temp. Em't in Occupations Other Than Agric. or Registered Nursing in the US (H-2B Workers); Final Rule*, 73 Fed. Reg. 245, 78,035. (December 19, 2008) (Codified at 20 C.F.R. §§ 655 and 656.)

violation, the Administrator determines whether the employer has "substantially failed to meet any of the conditions of the labor certification application attested to as listed in § 655.22, or any of the conditions of the DHS I-129, Petition for a Nonimmigrant Worker for an H-2B worker in 8 CFR 214.2(h). 20 C.F.R. § 655.60(b).

Substantial failure in the context of the 2008 H-2B regulations means a knowing failure or reckless disregard whether conduct was contrary to Section 214(c) of the INA, or this subpart [20 C.F.R. 655 Subpart A], which results in a significant deviation from the terms and conditions of the labor condition application or the DHS I-129. *See* 20 C.F.R. § 655.65(d)-(e); *see also* 8 U.S.C. § 1184(c)(14)(A)). A substantial failure violation occurs after the workers are in the U.S. RX 40 at 18.

The INA defines substantial failure as "the willful failure to comply" [with this section which] constitutes a significant deviation from the terms and conditions of a petition."[42] 8 U.S.C. § 1184(c)(14)(D). The 2008 H-2B regulations define "willful failure" as a "knowing failure or a reckless disregard with respect to whether the conduct was contrary to sec. 214(c) of the INA, or this subpart. See *McLaughlin v. Richland Shoe Co.*, 486 U.S. 128 (1988); see also *Trans World Airlines v. Thurston*, 469 U.S. 111 (1985)."[43] *See* 20 C.F.R. § 655.65(e).

Section 655.65(e) references *McLaughlin v. Richland Shoe Co.*, 486 U.S. 128 (1988) and *Trans World Airlines v. Thurston*, 469 U.S. 111 (1985) for guidance on "willful failure." Under this standard, "willful" refers to conduct that is "voluntary," "deliberate," or "intentional," and "not merely negligent." *McLaughlin v. Richland Shoe Co.*, 486 U.S. at 133. A violation is willful if the employer "either knew or showed reckless disregard for the matter of whether its conduct was prohibited." *Id.* An act is not "willful" if the employer simply knew potential violations were "in the picture." *Trans World Airlines, Inc. v. Thurston*, 469 U.S. at 127.

---

[42] Section 214(c)(l4) of the INA states that if DHS finds "a substantial failure to meet any of the conditions of the petition to admit . . . a nonimmigrant worker under [8 U.S.C. § 1101(a)(l5)(H)(ii)(b)] or . . . a willful misrepresentation of a material fact in such petition," it may impose such administrative remedies, including civil monetary penalties, as it determines to be appropriate. 8 U.S.C. § 1184(c)(14)(A). The statute continues: "In this paragraph, the term 'substantial failure' means the willful failure to comply with the requirements of this section that constitutes a significant deviation from the terms and conditions of a petition." 8 U.S.C. § 1184(c)(14)(D). In addition, "the highest penalties shall be reserved for willful failure to meet any of the conditions of the petition that involve harm to United States workers." 8 U.S.C. § 1184(c)(14)(C).

[43] Although the definition of "substantial failure" is unclear from merely examining the regulations, it is logical to assume that Section 655.65(d)-(e) defines "substantial failure" in Section 655.60(b). Section 655.65, "Remedies for Violations," define "substantial violation" and "willful" as follows:

> (d) Substantial failure in paragraph (b) of this section shall mean a willful failure that constitutes a significant deviation from the terms and conditions of the labor condition application or the DHS Form I–129, Petition for a Nonimmigrant Worker for an H–2B worker or successor form.
> (e) For purposes of this subpart, "willful failure" means a knowing failure or a reckless disregard with respect to whether the conduct was contrary to sec. 214(c) of the INA, or this subpart. See *McLaughlin v. Richland Shoe Co.*, 486 U.S. 128 (1988); see also *Trans World Airlines v. Thurston*, 469 U.S. 111 (1985).

20 C.F.R. § 655.65 (2009). Section 655.65(d), states that "substantial failure in paragraph (b) of *this section* shall mean . . ." but paragraph (b) of "this section" does not mention "substantial failure." *See* 20 C.F.R. § 655.65(b) (2009) (discussing the remedies for termination by layoff). However, because no other definition is provided, it is logical to assume Section 655.65(d)-(e) defines "substantial failure" for Section 655.60(b), which is within the same subpart.

In *Thurston*, the record showed that the airline acted reasonably and in good faith. *Trans World Airlines v. Thurston*, 469 U.S. at 113. Airline officials met with lawyers, determined that their existing policy violated the Age Discrimination in Employment Act (ADEA), and proposed and adopted a new policy. *Id.* at 129. The Court held that the airline did not show willful or reckless disregard for whether its conduct violated the ADEA. *Id.*

Here, I find the Administrator established that Butler Amusements substantially failed to comply with the 2008 H-2B regulations by employing nine H-2B workers as amusement and recreation attendants (ARA) who did not perform recreation and amusement attendant job duties. These employees were instead employed as drivers, shop workers, and supervisors of amusement and recreation attendants. AX F.

Respondents Showed Reckless Disregard for Whether They Were in Compliance with the INA

Employer acted with reckless disregard for whether it was in compliance with the INA and its implementing regulations by ignoring the regulations and instructions accompanying the temporary employment certification application and employing nine H-2B workers outside of its job certification. At the hearing, Mr. Brajevich admitted he had never read or referenced the 2008 H-2B rules. HT 347.

As stated above, Employer has participated in the H-2B program since 2000. HT 274 at 6. On December 17, 2012, Employer submitted an Application for Temporary Employment for 246 nonimmigrant employees to work as "Recreation and Amusement Attendants. AX C-1. Employer stated it had a temporary need for employees from February 1, 2013, to October 31, 2013 to "perform a variety of attending duties at amusement facility (traveling carnival). Set up, tear down operate amusement rides, food concessions and/or games." AX C-3. During a WHD investigation in the spring of 2013, WHD found Respondents substantially failed to meet conditions of the labor certification application by employing five H-2B workers as drivers, two H-2B workers as shop workers, and two H-2B workers as supervisors.

The Administrator argued "[t]he H-2B program does not permit an employer to advertise and solicit for one job but actually employ nonimmigrant workers to perform a different job." APB 15 at 11-13. Respondents countered that given the lack of guidance, the Administrator failed to show that Respondents willfully or recklessly disregarded its obligations under the H-2B program. RPB 14.

Respondents Ignored Regulatory Guidance

Respondents' arguments that they did the best they could in the absence of a clear directive and guidance are unconvincing. Respondents' counsel argued that the 2008 H-2B regulations "say nothing about what an Employer must do to stay within their job code." HT 124. Counsel inquired whether there is a "regulatory requirement for how many job tasks…need to be identified" and how Employer could comply when there was not an established rule dictating what it should do. HT 127-129. The regulations and instructions accompanying the certification application provided ample notice and guidance for Employer to comply with the INA and the terms of its certification.

An agency must provide notice of its interpretation of what is prohibited before it may impose penalties. *Gen. Elec. Co. v. U.S. EPA*, 53 F.3d 1324, 1328–29 (D.C. Cir. 1995). But "[i]f, by

reviewing the regulations and other public statements issued by the agency, a regulated party acting in good faith would be able to identify, with 'ascertainable certainty,' the standards with which the agency expects parties to conform," the agency has provided notice. *Gen. Elec. Co.*, 53 F.3d at 1329.

Here, several sections of the 2008 H-2B regulations would have given Employer notice of its obligations. Most importantly, the 2008 H-2B regulations dictated that the employer must truly and accurately state, "the dates of temporary need, reason for temporary need, and number of positions being requested for labor certification…on the application." 20 C.F.R. § 655.22(n). Employer thus should have known that it was supposed to employ the number of ARA workers it had truly and accurately requested.

The content and purpose of the advertising requirements also should have given Respondents notice of the level of specificity required for the job description. Before receiving a temporary labor certification for H-2B workers, an employer must ensure that there are not enough interested and able US workers to fill the positions. *See* 20 C.F.R. § 655.17. Employers must advertise the job with enough specificity "to apprise applicants … where [they] will likely have to reside to perform the services or labor" and describe the "opportunity (including the job duties) … with sufficient detail to apprise applicants of services or labor to be performed …" as well as, "[t]he job opportunity's minimum education and experience requirements…." 20 C.F.R. § 655.17. Furthermore, the job description in the advertisement and the temporary employment certification application had to be similar because employers cannot place "less favorable" job requirements on U.S. workers. 20 C.F.R. § 655.17.

Employer stated workers would "perform a variety of attending duties at amusement facility (traveling carnival). Set up, tear down operate amusement rides, food concessions and/or games." AX C-3. Employer should have known it was to describe the job duties with enough specificity to apprise workers of the labor to be performed, but despite its representations on the temporary employment certification, it placed workers in positions where they were supervising other employees, exclusively driving semi-trucks, or working in a repair shop—all duties which were not listed on ETA Form 9141, 9142B, or the I-129.

Sections 655.20 and 655.34(b) also should have put Employer on notice that its strategy of concentrating duties to promote efficiency violated the 2008 H2-B regulations. *See* HT 353. Section 655.20 (d) allows "certification of more than one position on the application as long as all H–2B workers will perform the *same services or labor* on the *same terms and conditions,* in the *same occupation*…." (italics added). Section 655.34(b) states "[a] temporary labor certification is only valid for the …specific services or labor to be performed…." 20 C.F.R. § 655.34(b).

Had Mr. Brajevich read the regulations, these requirements would have put Employer on notice that all workers within a certification should perform the same labor, under the same conditions, and in the same occupations and that the certification was only valid for the services or labor specified in the application. Employer's strategy to "just put [workers] wherever we can get them to be efficient," was expedient, but clearly violated this explicit requirement. HT 353. Employer took advantage of this provision by submitting a temporary employment certification for 246 workers, and then showed reckless disregard for complying with the statute and regulations when it did not review the implementing regulations and employed some of its certified H-2B workers exclusively in occupations outside of the certification.

Respondents ignored instructions on the temporary employment certification application

Even though Mr. Brajevich did not read the 2008 H-2B rules, the instructions accompanying ETA Form 9141, 9142B, and the I-129 also informed Respondents of their obligations. Respondents argued the regulations do not specify how a FLSA-exempt employer is to complete ETA Form 9142 of the I-129. RPB at 19. They contend the Administrator has abandoned the practice of issuing opinion letters and prohibited investigators from giving advice in writing. RPB 14. But Respondents seemingly ignored the instructions they did receive with their temporary employment certification.

For example, to enable ETA to make a prevailing wage determination (PWD), Respondents were to "[d]escribe the job duties, in detail, to be performed by any worker filling the job opportunity." RX-4. The instructions stated, "specify field(s) and/or product(s)/industry(ies) involved, any equipment to be used, and pertinent work conditions." *Id.* The duties provided must be specific enough to be classified under a relevant SOC pursuant to the O*Net publication." *Id.* The instructions also directed Employer to indicate the number of employees the H-2B workers would supervise and whether the supervised workers would be subordinates or peers. *Id.* The ETA Form 9142B has similar instructions. RX 6 at 1.

Despite this guidance, Respondents did not include in the description any mention of needing a commercial driver's license, driving a semi-truck to transport rides, working in a repair shop, or supervising other employees. Despite this guidance, Respondents employed H-2B workers in positions dramatically different from the job description used to generate a prevailing wage determination, the position advertised to U.S. workers, and certified for H-2B workers.

Respondents should have submitted separate applications for the various jobs they sought to fill. Instead, Employer exerted minimal effort to comply with the INA and the 2008 H-2B regulations, which demonstrated more than mere negligence, but a reckless disregard for whether its actions violated the statute and regulations. If Respondents had reviewed the regulations and other documents in good faith, they could have ascertained what actions to take to comply. *See Gen. Elec. Co.*, 53 F.3d at 1329.

Did Respondents reasonably or in good faith rely upon professional counsel? Did Respondents reasonably or in good faith believe that they had committed no violation?

Respondents argue that because they relied on an agent with expertise in the H-2B program, they could not have willfully violated the regulations. *See* RPB 8. Respondents cite *McLaughlin* and *Trans World* to support their contention that "employers are entitled to rely upon legal advice and professional agents to properly handle H-2B applications." RPB 8.

This argument is a nonstarter. In the Notice of Proposed Rulemaking, the Department confirmed "[i]n the H-2B program, the agent simply represents the employer in the labor certification process. The employer is ultimately responsible for its obligations under the program…." RX 76 at 17; 73 Fed. Reg. 245, 78035 (December 19, 2008). By signing the Employer's Declaration on ETA Form 9142B, Mr. Brajevich certified the job opportunity was a full-time temporary position and that "[t]he dates of temporary need, reason(s) for temporary need, and number of worker positions being requested for certification has been truly and accurately stated on the application" (Attestation #13). AX C-9. Mr. Brajevich took full responsibility for the accuracy

of any representations made by his agent or attorney and declared under penalty of perjury that he read and reviewed the application and that to the best of his knowledge it was true and accurate. *Id.*

Additionally, Mr. Brajevich testified that Mr. Judkins acted on Butler's authority. HT 276. The RESTATEMENT (THIRD) OF AGENCY, § 2.01 (2006) states "[a]n agent acts with actual authority when at the time of taking action that has legal consequences for the principal, the agent reasonably, in accordance with the principal's manifestations to the agent, that the principal wishes the agent so to act." Thus, Mr. Judkins acted with actual authority and Butler Amusements is bound to the legal consequences of his actions. APB 27.

Unlike the airline in *Thurston*, Respondents did not act reasonably and in good faith. *See Trans World Airlines v. Thurston*, 469 U.S. at 113. Despite adequate notice of their obligations, Butler Amusement made convenient decisions and exerted minimal effort to comply. In *Thurston*, the airline did not just consult counsel, they engaged with the process, and changed their plan of action based on counsel's advice. *Id.* at 129. Consulting counsel is not sufficient to show that one acted in good faith nor is pleading ignorance.

Respondents also argue "an employer may legitimately rely upon the [WHD] agency's affirmative advice or interpretations, as well as failure to issue citations in similar circumstances. RPB 8. Respondents, however, did not cite any advice, interpretations, or a pattern a failure to issue citations to support its argument. I conclude that Respondents did not reasonably rely on counsel and believe they had not committed a violation.

Respondents' reckless disregard resulted in a significant deviation from the terms and conditions of their petition

Respondents' reckless disregard for the regulations and their lack of a good faith effort resulted in a substantial failure to meet conditions of the labor certification. Furthermore, their failure to place workers in ARA positions was a significant deviation from the conditions of the labor certification. On ETA Form 9141 and 9142B, Respondents entered "Amusement and Recreation Attendants – Traveling Carnival" as the job title, 39-3091 as the Suggested SOC (O*NET/OES) code, and Amusement and Recreation Attendants (ARA) as the Suggested SOC (O*NET/OES) occupation title. RX 5 at 1. Under job duties, Respondents represented the H-2B workers would, "[p]erform a variety of attending duties at amusement facility (traveling carnival). Set up, tear down, operate amusement rides, food concessions and/or games." *Id.* Respondents stated no experience, education, training, specific skills, or special licenses were required for the job. RX 5 at 2-3. Additionally, workers in the position would not supervise any other employees and would travel to multiple worksites. RX 5 at 2-3. Employer advertised 250 open Amusement and Recreation Attendants positions, and ETA certified a temporary employment certification for 246 ARA. AX C-1.

As stated above O*NET provided extensive information about any occupation, including ratings of how important certain tasks are to the position. APB 8 at 21-23. For ARA positions the core tasks are: selling tickets; collecting fees; selling refreshments; recording details of attendance, sales, receipts, reservations, or repairs; providing information about facilities; directing patrons, monitoring safety; cleaning rides; staying informed of safety measures. RX 51 at 1.

Respondents insisted that employing workers exclusively in supplemental activities was not a significant deviation from the job certification. HT 134. The O*NET description lists: inspecting

equipment to detect wear and tear and making minor repairs as a supplemental activity. RX 51 at 2. Similarly, an ARA might spend some time maintaining inventories of equipment and assembling and disassembling equipment. *Id.* According to Respondents, because cargo trucks are listed in O*NET as a tool of ARA workers, employing workers to drive semi-trucks was not a significant deviation. RX 51 at 2. Respondents claimed their strategy of concentrating approved duties in a small number of H-2B workers made them more efficient and was acceptable under the H-2B regulations. HT 303-304, 318-319. This argument is unconvincing because none of the nine employees performed the core duties associated with an ARA position, and they rarely performed the supplemental duties. *See* AX F.

The five drivers spent their time almost exclusively transporting rides on semi-trucks. They self-identified as drivers and were listed as drivers.[44] Additionally they slept in their trucks, had commercial drivers' licenses, and kept logbooks to comply with US Department of Transportation regulations. AX F-41, 54, 78, 135. The two shop workers labored solely in the maintenance shop cleaning parts and supplies, welding, doing inspections, and repairing rides. AX G-3, AX F-137, AX F-123, AX F-134, and AX F-022. Mr. Villegas did not need his company shirt because he spent so little time working with the public. *See* AX F-123. Finally the supervisors described themselves as supervisors, and other employees, as well as Butler Amusements' management, corroborated this. AX F-137. The supervisors walked around to make sure employees were doing their jobs, dealt with customer complaints, responded to ride operators when something was broken, and filled out the ride roster. AX F-075. The nine employees did not perform core ARA duties and only minimally performed supplemental ARA duties. RX 51 at 2.

At the hearing, Respondents' counsel asserted that the 2008 H-2B Regulations did not require an Employer to employ H-2B workers only in the job code that was requested. HT 115 at 21-25. This argument seems disingenuous; to allow employers to select a job code, receive a prevailing wage determination, advertise the job to US workers, hire H-2B workers after certifying that no US workers wanted the position, and then employ H-2B workers to perform a different job entirely, undermines the purpose of the INA to protect U.S. workers.

Respondents also argued that new language in the 2012 and 2015 regulations prohibiting placing workers outside of the certified job classification demonstrated that the 2008 regulations did not prohibit the practice. Specifically, counsel questioned Ms. Aguilar, "did you know that 2012 and 2015 [H-2B regulations] actually inserted the language that the Employer may not place someone in a job opportunity not listed on the 9142 application." HT 119 at 14-18. He continued, "[i]f I took the time to show you the preamble language associated with that change, did you know that it was proposed because it didn't exist in the 2008 regulations?" The preambles for the 2012 and 2015 H-2B regulations actually say, the modification "clarif[ies] that an H–2B worker is only permitted to work in the job and in the location that OFLC approves unless the employer obtains a new labor certification. Clarifying language indicates that the requirement existed, but was not explicit. Thus, contrary to Respondents' claim, the requirement is not new. Additionally, language added to clarify the requirement does not excuse Respondents' noncompliance due to ignorance. As shown above, there was ample language in the regulations and guidance to put Respondents on notice of their obligations.

[44] RX 26 at 792, 1036 (Guzman, Ortega, and Preza); RX 26 at 793 (Guzman and Ortega and Preza); RX 26 at 823 (Preza and Ortega).

Respondents failed to advertise the nine positions to US workers and adequately compensate the nine employees. Drivers, shop workers, and supervisors all have different SOC codes and corresponding prevailing wage rates, which are higher than the PWR for ARA. *See* AX J. Because Employer placed these nine employees outside of ARA positions, but paid them as if they were ARA employees, Employer significantly deviated from its certification and owes back wages. RPB 12. Their reckless disregard resulted in a significant deviation from the terms and conditions of their petition. 8 U.S.C. § 1184(c)(14)(D). Thus, Respondents violated 20 C.F.R. § 655.22(n) (2009).

Does the Administrator have an enforceable regulation advising Fair Labor Standards Act-exempt employers how to complete Form ETA 9142 or I-129?

Neither party cited an enforceable regulation specific to FLSA-exempt employers. However, the 2008 H-2B rules apply to all employers whether or not the employer is FLSA-exempt. Furthermore, Employer's FLSA-exempt status does not come into play here. Employer put H-2B workers in jobs outside of the job description on its temporary employment certification. *Compare* AX B *with* AX E and F. Due to its inconsistent and inaccurate timekeeping, WHD had to reconstruct wages based on the 40-hour week Employer described in its ETA Form 9142B and I-129. AX B and D. Employer is exempt from the FLSA under Section 13(a)(3) and thus is not required to maintain timekeeping records. In this case, a lack of reliable time-keeping records disadvantaged Employer. As Ms. Aguilar stated, if Respondents wanted to show the actual hours that employees worked, they needed to keep better records. HT 169. The lack of instructions or guidance for FLSA-exempt employees did not influence Respondents decision to place workers outside of its job certification.

3. To remedy the violations, should Respondents pay $26,955.40 in back wages as calculated by the Administrator?

Respondents owe back wages to the nine employees; however, the Administrator should have used the information in RX 26 and 27 to infer the actual pay and location of the employees. The recalculated back wages are included below.

If the Administrator finds that an employer has not paid wages at the wage level required by § 655.22(e), the Administrator may require the employer to pay back wages. 20 C.F.R. § 655.65(i). Back wages further the purposes of the H-2B program because it reduces the employer's incentive to bypass US workers to hire H-2B workers who are more easily exploited. 73 Fed. Reg. 78,020, 78,047 (Dec. 19, 2008). The Administrative Review Board acknowledges the necessity and authority of the WHD to reconstruct hours worked and payments to determine back wages when the employer's records are unreliable. *Administrator v. Peter's Fine Greek Food, Inc.*, 2014 WL 4966168, *4 (ARB September 17, 2014.)

WHD reconstructed the back wages based on a 40 hours week (temporary employment certification), the itinerary in the temporary employment certification, and SOC job codes for drivers, first-line supervisors, and maintenance and repair workers. AX J; AX I. Respondents argued that the nonimmigrant workers employed as drivers were only drivers for a few hours each week and that the two supervisors and the two machine shop mechanics did not work 40 hours per week in these roles. RX 15 at 2. Additionally, Respondents stated they gave WHD the location information; WHD just had to do the work to reconstruct each employees' location. HT 187.

The Administrator did not rely on Respondents' pay slips because it found the weekly wages on Employer's pay slips credible, but not the hours worked. HT 110; HT 40. Ms. Aguilar opined typed timecards are less reliable than handwritten timecards because the employee does not contemporaneously document when he or she starts and stops working. HT 40. Furthermore, the hours listed on the pay slips did not align with employee accounts. HT 71. For the reasons stated above, I find the pay slip hours were unreliable and could not have been used to reconstruct employee back wages.

Regarding the location of the workers, however, I find that the data in RX 26 is reasonably reliable. To calculate back wages, Ms. Aguilar gave Respondents credit for the weekly salaries documented on various spreadsheets and pay slips. HT 49-51. Butch's Unit traveled from Riverside County, to Maricopa County, and then to Santa Barbara County. RX 27. Three employees—Mr. Ortega, Mr. Preza, and Mr. Villegas—likely traveled to Yuma County and then returned to Maricopa County, while the others remained in Maricopa County. *See* RX 26. Although Ms. Aguilar could have inferred the actual location for most of the nine H-2B workers during the period of investigation, she used the locations listed in the carnival itinerary included in the temporary employment certification. AX C-13; HT 65; HT 99; RX 27. During the hearing, Ms. Aguilar acknowledged the PWR could have been based on just the four counties where Butch's Unit traveled. HT 100. Using SOCs that described the work H-2B workers were actually performing, she used FLC data to determine the rate of pay in each locality. HT 63-64. Ms. Aguilar then averaged the "mean wage (H-2B) values for each of the localities on the itinerary to determine a PWR. HT 69. Based on the hours per week the Employer listed on the temporary employment certification, she then multiplied that wage by 40 hours of work. HT 68. Ms. Aguilar's method for calculating the back wages is sound with the exception of using the projected itinerary to determine the average of the mean H-2B wages. She found Respondents owed the following:

Name	Occupation	Amount Due
Gustavo Gamero	Driver	$3,229.60
Sergio Guzman	Driver	$3,229.60
Jaime Hernandez	Shop Worker	$3,297.80
Saul Estadillo Herrera	Driver	$3,229.60
Omar Lopez	Supervisor	$3,051.40
Antonio Mendez	Supervisor	$574.00
Jose Ivan Ortega	Driver	$2,936.00
Fernando Preza	Driver	$3,229.60
Felipe Villegas Quijano	Shop Worker	$4,177.80
Total Back Wages		$26,955.40

Based on my recalculation of back wages using the mean H-2B wage for each worker as it could be best determined from the locations available in RX 26, I find Employer owes $26,786.00 in back wages. To calculate the back wages, I relied on data from RX 26, AX H, and AX J. I inferred the location and the weekly rate paid from pay slips in RX 26. I based the hourly wage rate on the

FLC wage data in AX J, specifically the mean (H-2B) rate, for the respective location and occupation of the H-2B worker. Table 1 summarizes the back wages Employer owes each employee, and Tables 2 through 10, attached as an Appendix to this Decision, show the calculations for each employee.

Table 1: Summary of Back Wages Owed

Saul Estadillo Herrera	Driver	$3,621.60
Gustavo Gamero	Driver	$3,621.60
Jose Ivan Ortega	Driver	$3,108.00
Fernando Preza	Driver	$3,446.00
Sergio Guzman	Driver	$3,446.00
Omar Lopez	Supervisor	$2,728.60
Antonio Mendez	Supervisor	$308.60
Felipe Villegas Quijano	Shop Worker	$3652.80
Jaime Hernandez	Shop Worker	$2,852.80
	TOTAL:	**$26,786.00**

Does the Administrator have an enforceable regulation that precludes the Respondents from meeting its prevailing wage obligations through non-cash value or facilities? Did the Administrator improperly calculate back wages by failing to include full-value credit for non-cash value or facilities provided to the employees, such as bunkhouses, local convenience travel, in and out of country travel, income taxes, a prepayment plan, variations in the prevailing wage from one location to another, bonuses, reimbursement of employee expenses, and food?

In the 2008 H-2B regulations, "[t]he Department [continued] to permit employers, consistent with the Fair Labor Standards Act (FLSA), to make deductions from a worker's pay for the reasonable cost of furnishing housing and transportation, as well as worker expenses such as passport and visa fees…." RX 76 at 21. Regarding deductions, the 2008 H-2B regulations stated, "[t]he employer must make all deductions from the worker's paychecks that are required by law. The job offer must specify all deductions not required by law that the employer will make from the worker's paycheck. All deductions must be reasonable." 20 C.F.R. § 655.22(g)(1). This regulation applies regardless of FLSA exemptions. *See id.*

Respondents claim they are entitled to credits for providing housing ($1290 to $1555 per employee), local transportation ($581.46 per employee), relocation expenses ($200 per employee), employee taxes ($356 to $1198 per employee), and reimbursement for a prepayment plan because employees did not reach 40 hours a week during the period of investigation. RPB 21; RX 47. Respondents claimed the average value of the mobile housing provided was $134.39 per week and the incidental travel offset was $52.25 per week. RX 31 at 6; RX 35 and 36. Respondents only seek credits for the nine employees to whom they owe back wages. RX 47 at 1; APB 25 at 12-13; HT 331-32.

Respondents cite no authority in support of these credits. Instead they submitted a joint statement signed by employees in 2019 who worked for Employer in 2013. RX 39 at 1. The letter stated the employees received "valuable benefits" such as housing, transportation, food, relocation, visa processing fees, "and so on." *Id.* The letter continues, "I knew that the value of these benefits

meant I receiving more than the prevailing wage and that Butler Amusements would be entitled to receive a credit for paying those expenses because they were paying more than they had agreed to pay." *Id.* I give this statement no weight as I have no context for the circumstances in which it was signed. Notably, there are inconsistencies between this letter, employee statements in 2013, and Respondents' claims for credits. For example, Respondents do not mention taxes or the prepayment plan in the letter, but claim a credit for them for 2013 in RX 47 (Respondents Recalculation of Back Wages with Credits Applied). Additionally, all employee statements in 2013 stated that housing was free and they independently pooled their money for food. *See generally* AX F. Finally "and so on" does not pass muster as a specific valuable benefit to deduct. *See* 20 C.F.R. § 655.22(g)(1)

Respondents are not entitled to any credits. In Respondents' job offer it stated, Employer would make "available mobile housing valued at $125.00 per week" and "transportation from venue to venue and scheduled transportation to laundry, shopping valued at $25.00 per week." RX-1. This language is ambiguous; it is not clear whether employer is deducting this benefit from the worker's pay or providing a free perk. In 2013, all of the employees who lived in the trailers stated that housing was free. AX F. Respondents' temporary employment certification application stated "Employer follows prevailing practices for Traveling Amusement Industry in regards to housing, transportation and weekly salary for workers." AX-C. This statement is also vague; it does not clearly specify all, or any, of the deductions the employer will make. *See* 20 C.F.R. § 655.22(g)(1). Finally, Employer inserted language in an addendum to its ETA Form 9142B "reserving the right to charge a fee for housing and transportation," but this attempt to reserve a deduction just in case fails to comply with § 655.22(g)(1). AX C-12.

Finally, WHD documented that at least two of the drivers did not live in the trailers. AX F. A deduction of $1290 to $1555 per employee for sleeping in a semi-truck cab is unreasonable. *See* 20 C.F.R. § 655.22(g)(1).

4. Should Respondents be ordered to pay $10,000 in civil money penalties for violating 20 C.F.R. § 655.22(n) (2009)?[45]

The implementing regulations contemplate three different bases to assess CMPs. The first concerns an employer's willful failure to pay an employee's wages or willful requirement that an employee pay fees or prohibited expenses, where the Administrator may assess CMPs that are equal to the difference between the amount that should have been paid and the amount actually paid to the worker(s), up to $10,000. 20 C.F.R. § 655.65(a). The second contemplates that the Administrator may make an assessment of up to $10,000 in CMPs for an employer's termination or layoff of an H-2B worker within the designated work period. 20 C.F.R. § 655.65(b). The third dictates that the Administrator may assess CMPs of up to $10,000 for an employer's substantial failure to meet a condition of the Temporary Employment Certification or the DHS Form I-129, a willful misrepresentation in the application, or a failure to cooperate with a Department of Labor ("DOL") investigation. 20 C.F.R. § 655.65(c).

The Administrator's CMP determination shall set forth the reasons for its findings. 20 C.F.R. § 655.70(c)(1). To determine an appropriate CMP, the Administrator "shall consider the type

[45] The Administrator is not seeking debarment.

of violation committed and other relevant factors." 20 C.F.R. § 655.65(g). "[T]he highest penalties shall be reserved for willful failures to meet any of the conditions of the petition that involve harm to United States workers." 8 U.S.C. § 1184(c)(14)(C); 20 C.F.R. § 655.65(g). Under the INA, a "willful failure" means a knowing failure or a reckless disregard with respect to whether the conduct was contrary to Section 214(c) of the INA. 20 C.F.R. § 655.65(e); *see McLaughlin v. Richland Shoe Co.*, 486 U.S. 128, 133 (1988).

In addition to considering the willfulness of the violation, the Administrator may also consider other discretionary factors to determine the CMP, which include but are not limited to the following:

> (1) Previous history of violation, or violations, by the employer under the INA and this subpart, and 8 CFR 214.2;
>
> (2) The number of U.S. or H-2B workers employed by the employer and affected by the violation or violations;
>
> (3) The gravity of the violation or violations;
>
> (4) Efforts made by the employer in good faith to comply with the INA and regulatory provisions of this subpart and at 8 CFR 214.2(h);
>
> (5) The employer's explanation of the violation or violations;
>
> (6) The employer's commitment to future compliance; and
>
> (7) The extent to which the employer achieved a financial gain due to the violation, or the potential financial loss to the employer's workers.

20 C.F.R. § 655.65(g). After the Administrator assesses CMPs, a party may seek an administrative law judge's ("ALJ's") review of the assessment of CMPs. 20 C.F.R. § 655.71(a). The ALJ "may affirm, deny, reverse, or modify, in whole or in part, the determination of the Administrator," with the "reason or reasons for such order" to be stated in the decision. 20 C.F.R. § 655.75(b). This includes independently weighing the mandatory or discretionary factors used to assess CMPs. *Admin. v. Prism Enters. of Cent. Fl.*, ALJ No. 2001-LCA-00008, slip op. at 13 (ALJ June 22, 2001), *aff'd*, ARB Case No. 01-080 (ARB Nov. 25, 2003).

Here, the Administrator assessed a $10,000 CMP for the substantial failure to pay employees for the work they actually performed. RX 19 at 5. Where an employer willfully fails to pay wages, the Administrator may assess CMPs equal to the difference between the amount that should have been paid and the amount of wages actually paid up to $10,000. 20 C.F.R. § 655.65(a). As Administrator found that back wages in excess of $26,000 were owed, per the regulations, it had authority to levy a CMP of up to $10,000.

Based on the mitigating factors, I find that Administrator's assessment of a $10,000 CMP was reasonable. First, although Butler Amusement does not have a history of violations, in its brief, the Administrator convincingly cited other ways in which Employer likely failed to comply with its certification, including incorrect entry and departure dates as well as nearly 400 individuals returning

to Mexico at the end of the season, even though only 187 workers entered. RPB 6 at fn. 3; RPB 15 at fn. 10. Although the Administrator did not charge Employer with these violations, they were documented in Respondents' records and evince a broader lack of adherence to H-2B rules. *See* RX 24 at 1-4; *see also* RX 33 and 34. Thus, the first factor weighs against Respondents.

Although the violation affected just nine employees, the second factor does not mitigate the assessed CMP because the Administrator convincingly argued that the violations were likely not limited to the nine employees in this case. APB 7 at fn. 4. WHD only audited one Butler Amusement crew and the Administrator reasoned that the same practices were used throughout Respondents' operation. *See id.* The Administrator highlighted an additional H-2B employee who Respondents employed as a driver. *Id.* It is likely Butler Amusements committed more similar violations in 2013; however, because these additional violations were not investigated or charged this factor does not weigh for or against Respondents.

Respondents' violation undermined objectives of the INA, thus the third factor favors assessing a large CMP. The Administrator charged Respondents with a substantial failure to comply with their obligations, not a deliberate misclassification. While the Administrator did not allege that Respondents had a history of lying or deliberately misleading the government and is not seeking debarment, the violation is serious. Respondents hired a large number of H-2B workers and through their substantial failure, H-2B workers lost wages and U.S. workers were denied an opportunity to apply to positions as supervisors, shop workers, or drivers. Thus, although the violation was not a willful misclassification, the violation was serious and undermined the objectives of the INA.

The fourth and fifth factors weigh against Respondents. Although they hired a consultant, Respondents put minimal effort into compliance as described above. The fifth factor also weighs against Respondents. Respondents maintain they are not in violation (HT 366 9-16). They seem to believe they should be able to "agree to comply with a scheme, receive the benefit of that scheme, fail to comply with it, and then blame someone else for their noncompliance." RPB 27. The H-2B system relies on employers promising to follow the rules. *Id.* Respondents argued they did not have to employ workers within their job certification and that regulations and guidance do not apply to them because they are FLSA-exempt. Butler Amusements' explanation of its violation is wanting, and its delegation of work to a consultant is insufficient to show a good faith effort.

The sixth factor does not weigh for or against Respondents. Respondents refused to state they would comply in the future because they were unwilling to admit they were out of compliance. HT 364-365. Additionally, based on Mr. Brajevich's testimony, it seemed likely that they not have changed their business practices in response to the Administrator's finding that they committed a violation. *See* HT 363-365. Respondents indicated they would "know how to go forward" based on my ruling, and they would follow the regulations "as spelled out." HT 363 at 8-10. Despite Respondents' ability to find ambiguity where little or none exists, I find it is likely they will comply.

Finally, the last factor weighs against Respondents because they gained financially by using ARA classifications that have lower prevailing wages than the other classifications. Contrary to Respondents' claim, the nine H-2B workers were not "handsomely overpaid." RPB 24. Instead, by placing H-2B workers outside of their job classification, Respondents were able to maintain their operations while paying H-2B workers less than their job duties warranted.

On balance, the discretionary factors favor imposing a high CMP. Only two factors neither weigh for or against Respondents. Because Respondents owe more than $26,000 in back wages, the Administrator had the authority to impose a CMP up to $10,000. *See* 20 C.F.R. § 655.65(a). Therefore, given the back wages owed and my assessment of the discretionary factors, the assessed $10,000 CMP is appropriate in this instance.

5. Was Respondent Michael Brajevich properly charged in his individual capacity and therefore liable for any violations in his individual capacity?

"A basic tenet of American corporate law is that the corporation and its shareholders are distinct entities." *Dole Food Co. v. Patrickson*, 538 U.S. 468, 474 (2003). The corporate veil shields individual shareholders from liability for the corporation's debt; to hold a shareholder personally liable for corporate debt, a court must pierce the corporate veil. *See Laborers Clean-Up Contract Admin. Trust Fund v. Uriarte Clean-Up Serv., Inc.*, 736 F.2d 516, 523 (9th Cir. 1984). In appropriate cases, courts may pierce the corporate veil and hold an individual responsible for violations of the INA committed by the employer corporation. *See United States v. Bestfoods*, 524 U.S. 51, 62 (1998); *Administrator v. Kutty*, ARB No. 03-022, 2005 WL 1359123, at *13-14 (May 31, 2005) (holding a shareholder personally liable for violations of H-1B visa program provisions committed by corporations), *aff'd sub nom., Kutty v. US Dep't of Labor*, 764 F.3d 540, 551 (6th Cir. 2014), *cert. denied* 135 S. Ct. 1162 (2015). The INA is silent on personal and corporate liability, so common law principles apply. *Kutty*, 764 F.3d at 550 (*citing Bestfoods*, 524 U.S. at 63).

In deciding whether to pierce the corporate veil, the court should apply federal law but may look to state law for guidance. *Board of Trustees of Mill Cabinet Pension Trust Fund for Northern Cal. v. Valley Cabinet & Mfg. Co.*, 877 F.2d 769, 772 (9th Cir. 1989)(*quoting Uriarte*, 736 F.2d at 523). "The traditional rule demands that individuals incorporate in good faith, with adequate capital, and observe a minimum of corporate formalities." *Seymour v. Hull & Moreland Eng'g*, 605 F.2d 1105, 1111 (9th Cir. 1979). In the Ninth Circuit, the test for whether shareholders are personally liable for corporate conduct rests on three factors: "the amount of respect given to the separate identity of the corporation by its shareholders, the fraudulent intent of the incorporators, and the degree of injustice visited on litigants by the recognition of the corporate entity." *Uriarte*, 736 F.2d at 524. The moving party must demonstrate the first threshold factor of separate identity and then one of the other two factors. *UA Local 343 United Ass'n of Journeymen & Apprentices of Plumbing & Pipefitting Indus. v. Nor-Cal Plumbing, Inc.*, 48 F.3d 1465, 1475 (9th Cir. 1994).

Here, Ms. Aguilar stated WHD named Mr. Brajevich personally because he signed the ETA Form 9142B. HT 181 at 24. The Administrator did not address the issue of Mr. Brajevich's personal liability in its post-hearing brief, and presented no evidence that Mr. Brajevich did not respect the separate identity of Butler Amusement, Inc. Thus, I do not reach the question whether Mr. Brajevich acted with fraudulent intent or whether the parties would suffer injustice if the corporate veil is not pierced. *See Uriarte*, 736 F.2d at 52. I hold Mr. Brajevich is not personally liable for Butler Amusement, Inc.'s corporate debts.

6. **Should a non-retaliation order be included if the Administrator prevails in this matter?**

The Administrator seeks a non-retaliation order for any employee who receives back wages or who contacts the Administrator to discuss their rights under the H-2B program. Three of the

nine employees were still working for Respondents in 2019. RX 37. Respondents have no objection to a non-retaliation provision. HT 357-58. Thus, I find a non-retaliation provision is warranted.

7. ORDER

For the reasons stated above, the following order is made:

1. Butler Amusements, Inc. substantially failed to comply with the H-2B program. For its violation of 20 C.F.R. § 655.22(n) (2009), Butler Amusements, Inc. shall pay reduced back wages the nine affected workers in the amount of $26,786.00. Specifically, Respondent shall pay the nine H-2B workers as follows:

1. Saul Estadillo Herrera	$3,621.60
2. Gustavo Gamero	$3,621.60
3. Jose Ivan Ortega	$3,108.00
4. Fernando Preza	$3,446.00
5. Sergio Guzman	$3,446.00
6. Omar Lopez	$2,728.60
7. Antonio Mendez	$308.60
8. Felipe Villegas Quijano	$3652.80
9. Jaime Hernandez	$2,852.80
TOTAL	$26,786.00

2. For the substantiated violations of the H-2B program, Butler Amusements, Inc. is assessed civil money penalties in the amount of $10,000, which must be paid to the Administrator.

3. The allegations against Michael Brajevich in his individual capacity are dismissed.

4. The Administrator shall verify all calculations and make any changes, including calculating interest owed and any required deductions, necessary to implement this order and repay the monies owed to the affected workers.

5. The parties shall promptly notify this Office if an appeal is filed in this matter.

SO ORDERED.

Richard M. Clark
Administrative Law Judge

NOTICE OF APPEAL RIGHTS: Any party seeking review of this decision and order, including judicial review, shall file a Petition for Review (§Petition§) with the Administrative Review Board (§ARB§). The ARB must receive the Petition within 30 calendar days of the date of this decision and order. 20 C.F.R. § 76(a). The Board's address is: Administrative Review Board, U.S. Department of Labor, Suite S-5220, 200 Constitution Avenue, NW, Washington DC 20210, for traditional paper filing. Alternatively, the Board offers an Electronic File and Service Request (EFSR) system. The EFSR for electronic filing (eFile) permits the submission of forms and documents to the Board through the Internet instead of using postal mail and fax. The EFSR portal allows parties to file new appeals electronically, receive electronic service of Board issuances, file briefs and motions electronically, and check the status of existing appeals via a web-based interface accessible 24 hours every day. No paper copies need be filed.

An e-Filer must register as a user, by filing an online registration form. To register, the e-Filer must have a valid e-mail address. The Board must validate the e-Filer before he or she may file any e-Filed document. After the Board has accepted an e-Filing, it is handled just as it would be had it been filed in a more traditional manner. e-Filers will also have access to electronic service (eService), which is simply a way to receive documents, issued by the Board, through the Internet instead of mailing paper notices/documents.

Information regarding registration for access to the EFSR system, as well as a step by step user guide and FAQs can be found at: https://dol-appeals.entellitrak.com. If you have any questions or comments, please contact: Boards-EFSR-Help@dol.gov

Copies of the Petition should be served on all parties and on the undersigned Administrative Law Judge. No particular form is prescribed for the Petition; however, any such petition shall:

(1) Be dated;
(2) Be typewritten or legibly written;
(3) Specify the issue or issues stated in the administrative law judge decision and order giving rise to such petition;
(4) State the specific reason or reasons why the party petitioning for review believes such decision and order are in error;
(5) Be signed by the party filing the petition or by an authorized representative of such party;
(6) Include the address at which such party or authorized representative desires to receive further communications relating thereto; and
(7) Attach copies of the administrative law judge's decision and order, and any other record documents which would assist the ARB in determining whether review is warranted.

If filing paper copies, you must file an original and four copies of the petition for review with the Board. If you e-File your petition, only one copy need be uploaded.

20 C.F.R. § 655.76(b). If the ARB determines that it will review this decision and order, it will issue a notice specifying the issue or issues to be reviewed; the form in which submissions shall be made by the parties (e.g., briefs); and the time within which such submissions shall be made. 20 C.F.R. § 655.76(e). When filing any document with the ARB, the party must file an original and two copies of the document. 20 C.F.R. § 655.76(f).

APPENDIX

Table 2: Saul Estadillo (Estudillo) Herrera Back Wages Due

Work Week	Employee Name	Job Performed	Location	Wage rate[46]	Hours	PWR Due	Weekly Rate Paid	Total Owed for Each Week	Total Back Wages
2/4/2013-2/10/2013	Saul Estadillo Herrera	Driver	Riverside MSA (Indio, CA)[47]	$20.95	40	$838.00	$500.00	$338.00	
2/11/2013-2/17/2013	Saul Estadillo Herrera	Driver	Riverside MSA (Indio, CA)	$20.95	40	$838.00	$500.00	$338.00	
2/18/2013-2/24/2013	Saul Estadillo Herrera	Driver	Riverside MSA (Indio, CA)	$20.95	40	$838.00	$500.00	$338.00	
2/25/2013-3/3/2013	Saul Estadillo Herrera	Driver	Maricopa MSA (El Mirage, AZ)	$20.92	40	$836.80	$500.00	$336.80

STATEMENT OF ISSUES

The following issues were submitted for hearing. *Order Following Prehearing Conference* 2-3 (May 2, 2019).

1. Whether Butler substantially failed to comply with 20 C.F.R. § 655.22 (n) (2009) by misrepresenting its temporary need for 9 specified H-2B workers?

2. Whether Butler is liable for back wages of $26,955.40 and civil money penalties of $10,000.

3. Whether the Administrator is barred by the doctrine of laches from pursuing this action.

4. Whether Mr. Michael Brajevich is liable for violations in his individual capacity.

I. CONCLUSIONS OF LAW

A. Statutory and Regulatory Framework

This case involves the H-2B visa program under the Immigration and Nationality Act, 8 U.S.C. § 1101 (a) (15) (H) (ii) (b). Under the INA, Congress vested all enforcement authority in the Secretary of Homeland Security. 8 U.S.C. § 1103 (a) (1). In the H-2B program, violations consist of "a substantial failure to meet any of the conditions of the petition to admit … or a willful misrepresentation of a material fact in such petition." *Id.* § 1184 (c) (14) (A). A "substantial failure" occurs when there is a "willful failure to comply with the requirements of [§ 1184] that constitutes a significant deviation from the terms and conditions of a petition." *Id.* § 1184 (c) (14) (D). If the Secretary of Homeland Security finds such a violation after a hearing, the Secretary may impose appropriate administrative remedies, including civil money penalties of up to $10,000 per violation. *Id.* § 1184 (c) (14) (A) (i). The Secretary has redelegated this authority to the Secretary of Labor.

During the relevant time frame in 2013, the Department of Labor was operating under the 2008 Rules. 20 C.F.R. § 655, subpart A (2009). This action is based exclusively on a purported violation of the 2008 Rules. Tr. 85 (testimony of Ms. Aguilar); R. Exh. 40, at 50 and 55 (corporate rep deposition of Ms. Aguilar). There are no allegations that the 2015 Rules were violated, nor were there any FLSA or I-129 violations, nor were any sub-regulatory guidance documents violated. Tr. 86, 100 and 115 (testimony of Ms. Aguilar). The Administrator does not enforce USCIS's regulations. Tr. 175 (testimony of Ms. Aguilar).

Responsibility for determining willful misrepresentations and substantial failures is subdelegated to the Administrator. *Id.* § 655.60. The substantive provisions at issue in this case are found in § 655.22 (n). Tr. 16 (opening statement of Administrator) (this is a misclassification case); Tr. 32 and 114 (testimony of Ms. Aguilar) (there was a single violation). In pertinent part,

- **Misrepresentation of need**. The employer must attest that "The dates of temporary need, reason for temporary need, and number of positions being requested for labor certification have been truly and accurately stated on the application." R. Exh. 76, at 42 (the "misrepresentation-of-need clause").

Further, the Administrator has adopted a practice that it enforces only the attestations in the ETA Form 9142, Tr. 26, 177 (testimony of Ms. Aguilar) (compliance is determined based upon the attestations); Tr. 34 (DOL does not enforce any other obligations other than the attestations); Tr. 77-78 (testimony of Ms. Aguilar) (violation was of attestation #13), and this practice alone is itself a valid and enforceable rule, 5 U.S.C. § 551 (4) (a "rule" is an "agency statement … describing … practice requirements of an agency"); *Associated Dry*

Goods Corp. v. Equal Employment Opportunity Comm'n, 543 F. Supp. 950, 965 (E.D. Va. 1982), *rev'd on other grounds*, 720 F.2d 804 (4th Cir. 1983) (agency's informal "practice" of notifying other carriers when a railroad requested an emergency exemption was still a rule subject to notice and comment). The misrepresentation-of-need clause appears *in pari materia* in attestation #13 of ETA Form 9142. R. Exh. 7, at 11.

In pertinent part, there are 2 remedies at issue in this case. In the event that Butler fails to pay wages at the level "specified under the application *and* required by § 655.22 (e)," then the Administrator may require back wages "to comply with *§ 655.22 (e)*," a section *not at issue* in this case. § 655.65 (i) (emphasis added).

In addition, the Administrator may assess civil money penalties under 2 mechanisms.[1] When dealing with back wages under the offered-wage obligation, CMP's are determined according to a fixed formula: They are "equal to the difference between the amount that should have been paid and the amount that actually was paid" to the workers, up to $10,000. § 655.65 (a). Alternatively, CMP's up to $10,000 per violation are available for "any substantial failure." § 655.65 (c). Under this alternative formulation, the Administrator "*shall* consider the type of violation committed and *other relevant factors*." § 655.65 (g) (emphasis added). When relevant, these mandatory "[o]ther factors" include 7 specified factors: the employer's history of prior violations, the number of workers employed and affected by the violations, the gravity of the violations, the employer's good faith efforts to comply, the employer's explanation of the violations, the employer's commitment to future compliance, and the employer's financial gain. *Id*. *See also* 8 U.S.C. § 1184 (c) (14)

[1] The Administrator introduced *no* evidence that CMP's were properly determined under either of these alternative mechanisms. *See, e.g.*, Tr. 162-164 (testimony of Ms. Aguilar).

(C) ("the highest [civil money] penalties shall be reserved for willful failures to meet any of the conditions of the petition that involve harm to United States workers.").

After the hearing, the A.L.J. is charged with issuing "findings and conclusions, with reasons and basis therefore, upon each material issue presented on the record." 20 C.F.R. § 655.75 (b). The A.L.J. reviews the Administrator's actions *de novo* without deference to the Administrator's determinations, *Administrator v. John Peroulis & Sons Sheep, Inc.*, No. 14-076, 2016 Westlaw 4942416, at *7 (Admin. Rev. Bd. Sept. 12, 2016) (construing comparable H-2A regulatory language); *Order Following Prehearing Conference* at 3 (May 2, 2019), decides "findings and conclusions, with reasons and basis therefore, upon each material issue presented on the record," 20 C.F.R. § 655.75 (b) (2009), and is authorized to "affirm, deny, reverse, or modify, in whole or in part," provided that the reasons for doing so are stated in the decision, § 655.75 (b).

B. Burden of Proof

To establish a violation, the Administrator bears the burden of proof by a preponderance of the evidence for each of the elements. 5 U.S.C. § 556 (d), *cited in Industrial Union Dep't v. American Petroleum Inst.*, 448 U.S. 607, 653 (1980). "**[N]o agency is entitled to presume** that the conduct of any person … is unlawful or improper." House Comm. on the Judiciary, *Administrative Procedure Act: Report on S. 7*, H.R. Rep. No. 79-1980, at *36 (May 3, 1946) (emphasis added), *quoted in Director v. Greenwich Collieries Director*, 512 U.S. 267, 279 (1994). Further, it is well recognized that a party's "credible and credited evidence **must be accepted as true** except as the contrary has been shown or such evidence has been rebutted or impeached by duly credited evidence or by facts officially noticed and stated …. No

agency is authorized to stand mute and arbitrarily disbelieve credible evidence." H.R. Rep. No. 79-1980, at *36 (emphasis added), *quoted in Director*, 512 U.S. at 279.

C. The Administrator Is Bound by the Testimony of the Corporate Representative

Ms. Aguilar was nominated and deposed as the corporate representative for the Administrator. Tr. 83 (testimony of Ms. Aguilar). Ms. Aguilar served as the corporate representative on the topics of:

- The basis for calculating back wages and civil money penalties,
- The basis for all purported willful misrepresentations of material fact,
- The basis for all purported substantial failures to meet any legal requirement or condition under the H-2B program, and
- Any credits owed to Butler.

R. Exh. 41, at 3 (corporate rep deposition of Ms. Aguilar) (original pp. 6, 8, and 9).

As the corporate representative, Ms. Aguilar was obligated to use reasonable care to gather all information "known or reasonably available" to the entity. 29 C.F.R. § 18.64 (b) (6); *Advisory Comm. Notes* (1971); Jeffrey W. Stempel, *Depositions by Oral Examination*, in 7 James W. Moore, *Moore's Federal Practice* § 30.25 [3], at 30- 67 to -68 (3d ed. 2018); Tr. 83-84 (testimony of Ms. Aguilar). Ms. Aguilar's testimony "binds the entity with its testimony. This means that a corporation generally cannot present a theory of the facts that differs from that articulated by the designated Rule 30 (b) (6) representative." Stempel, § 30.25 [3], at 30-71. As such, Ms. Aguilar's testimony was the Administrator's testimony. *Sigmund v. Starwood Urban Retail VI, LLC*, 236 F.R.D. 43, 45 (D.D.C. 2006). The entity's theory of the case cannot contradict the testimony of the corporate representative. *Diamond Triumph Auto Glass, Inc. v. Safelite Glass Corp.*, 441 F. Supp. 2d 695, 722 n. 17 (M.D. Pa. 2006); *Rainey v.*

American Forest & Paper Ass'n, Inc., 26 F. Supp. 2d 82, 87 (D.D.C. 1998) (unless the entity can prove that the information was not known or accessible, the entity cannot later proffer a new or different version that could have been presented at the deposition of the corporate representative).

D. Elements of a Violation

The Administrator's burden is to prove each of the elements for a violation.

1. Duty. The first element is that a statute or regulation imposed a duty on Butler. Tr. 115 (testimony of Ms. Aguilar) (there must have been a statutory or regulatory duty). *See Administrator v. Camo Technologies, Inc.*, No. 11-026, 2012 Westlaw 4321026, at *6 (Admin. Rev. Bd. Aug. 31, 2012) (employer's conduct of attempting to comply showed a duty); *Morello Bros. Constr., Inc.*, No. 85-DBA-116, 1987 Westlaw 247058, at *7 (OALJ Apr. 16, 1987) ("willfully simply means a voluntary intentional violation of a known legal duty") (*quoting United States v. Drape*, 668 F.2d 22, 26 (1st Cir. 1982)). Further, attestations are not enforceable, only the contents of regulatory requirements. *Island Holdings LLC*, No. 2013-PWD-00002, at *8, 11 (BALCA Dec. 3, 2013) (*en banc*) (employer incurs no obligation unless contained in the codified regulations contained in the Code of Federal Regulations).

2. Knowledge. Second, the Administrator must show that Butler knew the statutory or regulatory duty applied to its conduct. *See McLaughlin v. Richland Shoe Co.*, 486 U.S. 128, 134 (1988) (rejecting a willfulness standard that required nothing more than the employer's awareness that the statute possibly applied to it); *Morello Bros. Constr., Inc.*, No. 85-DBA-116, 1987 Westlaw 247058, at *8 (OALJ Apr. 16, 1987) (employer's ignorance was no defense because others in the company knew of the statutory duty). Thus, an agency with enforcement authority must provide notice of its interpretation of what is prohibited

before it may impose penalties. *General Elec. Co. v. United States Env'tl Protection Agency*, 53 F.3d 1324, 1330-32 (D.C. Cir. 1995); *Satellite Broadcasting Co. v. Federal Communications Comm'n*, 824 F.2d 1, 3-4 (D.C. Cir. 1987) (agency may not penalize for a violation without first providing notice of its interpretation).

3. Breach. Third, Butler must violate the statutory or regulatory duty. Tr. 115 (testimony of Ms. Aguilar) (there must have been a statutory or regulatory duty that was violated). *See Trans World Airlines v. Thurston*, 469 U.S. 111, 128 n. 22 (1985) (rejecting as "harsh" a willfulness standard that called for nothing more than showing a statutory violation).

4. Willfulness. Fourth, Butler must commit a "'willful failure,'" which means "a knowing failure or a reckless disregard with respect to whether the conduct was contrary" to 8 U.S.C. § 1184 (c) or the 2008 Rules. § 655.65 (e). DOL adopted this standard by expressly relying upon *McLaughlin v. Richland Shoe Co.*, 486 U.S. 128 (1988) and *Trans World Airlines v. Thurston*, 469 U.S. 111 (1985). § 655.65 (e). *McLaughlin* noted that "willful" is synonymous with voluntary, deliberate, and intentional, and held that it means the employer "either knew or showed reckless disregard for the matter of whether its conduct was prohibited by the statute." *McLaughlin*, 486 U.S. at 133. Willfulness is not established by conduct that is "merely negligent" but not reckless, such as the absence of a reasonable belief that the employer was complying with the statute, or a good-faith but incorrect "assumption" that the employer was complying. *McLaughlin*, 486 U.S. at 133, 134, 135 & n. 13. Willfulness is not shown when the employer "simply knew of the potential applicability" of the statute. *Trans World*, 469 U.S. at 127. *See also Wayne J. Griffin Elec., Inc.*, No. 93-05, 1993 Westlaw 537380, at *4 (W.A.B. Oct. 29, 1993) (Where the employer "has

explicit knowledge of violative wage payment practices" and "takes no action to correct the wrong, and violations continue," employer has acted willfully). Nor is willfulness shown through inadvertence, *A. Vento Constr.*, No. 87-51, 1990 Westlaw 484312, at *3 (W.A.B. Oct. 17, 1990), or "inaccurate," but not falsified, records that omitted several employees' names, *Gaines Elec. Serv. Co.*, No. 87-48, 1991 Westlaw 494684, at *3 (W.A.B. Feb. 12, 1991).

To show a knowing or reckless violation, both the *McLaughlin* and *Trans World Airlines* cases illustrate that employers are entitled to rely upon legal advice and professional agents to properly handle H-2B applications. *McLaughlin*, 486 U.S. at 134 (seeking legal advice shows the employer's reasonableness, not recklessness); *Trans World*, 469 U.S. at 129 (employer sought legal advice whether its conduct violated the statute and modified its policy based on that advice, even though the union disagreed with the new policy and the employer believed that the revised action was unnecessary; no evidence that employer was told by counsel that its new policy was discriminatory). Further, the Supreme Court has firmly established in both of those cases that the Administrator must establish that Butler's interpretation was so baseless as to be reckless. *Trans World*, 469 U.S. at 129-30. Similarly, an employer may legitimately rely upon the agency's affirmative advice or interpretations, as well as the failure to issue citations in similar circumstances. Wage and Hour Division, *Field Operations Handbook* § 53a01 (Feb. 5, 1993); *Dalheim v. KDFW-TV*, 712 F. Supp. 533, 539 (N.D. Tex. 1989) (employer relied upon prior WHD audit and advice from legal counsel).

5. Substantiality. Fifth, Butler's violation must be a significant deviation from the terms and conditions of its petition. 8 U.S.C. § 1184 (c) (14) (D). The "petition" within the

meaning of the statute is the I-129 submitted to USCIS, 8 U.S.C. § 1571 (b) (H-2B petition "should be processed not later than 30 days after the filing of the petition"), not the 2008 Rules or the WHD's enforcement policies. *See Administrator v. Camo Technologies, Inc.*, No. 11-026, 2012 Westlaw 4321026, at *2 (Admin. Rev. Bd. Aug. 31, 2012) (compliance with the essential requirements of a statute or regulation can show there was no substantial failure).

II. BUTLER DID NOT SUBSTANTIALLY FAIL TO COMPLY BY MISREPRESENTING ITS TEMPORARY NEED FOR 9 SPECIFIED H-2B WORKERS

A. Proposed Findings of Fact

1. Regulatory preconditions. The Administrator has failed to meet the pre-conditions for alleging a violation of 20 C.F.R. § 655.22 (n) (2009). Despite the formulation of the issues submitted for hearing, *Order Following Prehearing Conference* 2 (May 2, 2019), the misrepresentation-of-need clause says nothing at all about the impropriety of compensating workers at the approved wage rate when they were not performing the job duties for the approved job code. This formulation of the issue also elides an important pre-condition for violating that clause, which requires that specified information must be "truly and accurately stated *on the application*." R. Exh. 76, at 42. This is the very definition of a "misrepresentation." Tr. 113 (testimony of Ms. Aguilar) (misrepresentation occurs in the application when submitted); *id*. at 125-126 (the 2008 Rule required a misstatement in the #9142 itself). The Secretary of Labor acknowledged as much by indicating that the only method within the 2008 Rule for charging employers when H-2B workers served outside of the approved job duties was through willful misrepresentations in the application. R. Exh. 96, at 3; R. Exh. 101, at 5; Tr. 117-118 (testimony of Ms. Aguilar) (interpreting Exhs. 96

and 101). The Administrator's shortcoming is that he never charged a misrepresentation in the application. *Id.* Instead, the Administrator only charged a "substantial failure," which occurs when the employer fails to perform the terms and conditions of the ETA Form 9142 during the following season. *Id.* at 113-114.[2] The fact that Ms. Aguilar was unable to answer the most basic questions merely underscores that the 2008 Rule did not have a misclassification regulation.

2. Regulatory duty. Although the Administrator conceded that he must prove that Butler had a relevant statutory or regulatory duty, Tr. 115 (testimony of Ms. Aguilar), the Administrator was unable to do so.

- **Job description.** During the application process, Ms. Aguilar admitted that the 2008 Rule said nothing at all about how to request a job code. Tr. 119-120 (testimony of Ms. Aguilar). She further admitted that the 2008 Rule said nothing as to how much detail to provide when submitting the job code, and that she did not know if there was a requirement for how many job tasks to provide, *id.* at 127, how to complete the #9142, *id.* at 144, or the correct test to determine a job code, *id.* at 143-144. She also testified that she had never seen instructions for describing job duties, and she did not know whether DOL provided such instructions. *Id.* at 142. Because the 2008 Rule did not specify the relevant test, Ms. Aguilar did not know how employers were to fill out the #9142. R. Exh. 40, at 123 (corporate rep depo of Ms. Aguilar).
- **Limitations on job duties.** Once the season begins, the Administrator's corporate representative frankly conceded that the 2008 Rule did not limit the employer's

[2] Needless to say, the Administrator's omission is highly prejudicial. If the Administrator had complied with the pre-condition and properly charged a misrepresentation in the #9142 that was submitted on November 7, 2012, R. Exh. 7, at 1, and approved on December 14, 2012, R. Exh. 8, at 1, this case should be dismissed pursuant to the statute of limitations.

assigned job duties to the job code requested. R. Exh. 40, at 81-82, 87 and 102. At trial, Ms. Aguilar alternatively professed that the 2008 Rule said "absolutely nothing" about what must be done for an H-2B worker to stay within the assigned job code, Tr. 123-124 (testimony of Ms. Aguilar), but she also testified that she did not know whether the 2008 Rule required H-2B workers to stay within the requested job code, Tr. 116 (testimony of Ms. Aguilar).

Under these circumstances, attempting to impose a regulatory duty would seriously undermine the public's ability to understand the rules that must be followed.

Ms. Aguilar also conceded that she was completely unaware that OFLC permitted the combination of job tasks outside of the norm for a single occupation by compensating with "an additional point." Tr. 145-146 (testimony of Ms. Aguilar) (interpreting R. Exh. 98, at 4). To overcome this deficiency, Ms. Aguilar claimed that an H-2B worker must receive the job code that "more closely aligns" with his "primary duties" performed, Tr. 178-180 (testimony of Ms. Aguilar), but then acknowledged that the 2008 Rule did not require those specific tests to determine a job code, *id*. at 189, or any other tests, *id*. at 143-144. In fact, the only staffing requirement for H-2B employers in 2013 was to "offer terms and conditions of employment which are consistent with the nature of the occupation … and industry …." R. Exh. 77, at 4 (8 C.F.R. § 214.2 (h) (6) (iii) (B)).

3. Knowledge. Given that the Administrator was completely unable to establish any regulatory provisions for describing jobs or limiting job duties, it is not surprising that the Administrator was unable to establish that Butler knew of any such restrictions. Mr. Brajevich testified consistently that

- He was not aware of any 2008 regulatory restrictions or tests for describing or limiting job duties or concentrating job duties to promote efficiency, Tr. 279, 304-305, 308, 310, 320 (testimony of Mr. Brajevich), and he denied that the "primary duty" rule or the "most closely aligned" tests were found in the 2008 Rule, *id*. at 309.
- He was not aware of any 2008 regulations governing FLSA-exempt employers. *Id*. at 294.
- He had never heard of SOC codes or how OFLC performed job coding. *Id*. at 304.
- He had never reviewed the O*Net job descriptions for amusement ride attendants. *Id*. at 305.

He did establish his belief that he satisfied his obligation under R. Exh. 98, at 1, to provide sufficient detail to generate a relevant job code. Tr. 307-308 (testimony of Mr. Brajevich). And he testified that he thought his company was complying in 2013. *Id*. at 359, 363-364.

4. Violation. Because the Administrator was unable to establish a relevant duty that was known to Butler, the Administrator was never able to establish a violation. Ms. Aguilar readily admitted that she could not say how to show a violation when there were no rules for how to describe the job. *Id*. at 129 (testimony of Ms. Aguilar). Ms. Aguilar testified that she did not know whether the 2008 Rule even required the Administrator to establish that the #9142 was false, *id*. at 124, even though the misrepresentation-of-need clause expressly requires as much. Ms. Aguilar testified that the citation was for failing to state the reasons for temporary need. *Id*. at 77-78, 124. Ms. Aguilar was completely unable to establish any affirmative falsity. According to Ms. Aguilar, such falsity was determined "solely" by the statement of temporary need, *id*. at 126, but she readily conceded that there was not a single falsity in the statement of temporary need, *id*. at 127. Even if an omission

of facts could be construed as a violation of the misrepresentation-of-need clause, which it plainly cannot, Ms. Aguilar was unable to establish any material omission without establishing an obligation to describe the job in a particular manner.

Nor was the Administrator able to show that any of Butler's H-2B workers were assigned outside of their job code. Applying for the job code begins by choosing a job title, R. Exh. 86, at 9, but Ms. Aguilar did not know this simple fact, Tr. 132 (testimony of Ms. Aguilar), and was not even aware that the OFLC website allowed job title searches until she was deposed in this case, Tr. 131 (testimony of Ms. Aguilar). Ms. Aguilar conceded that Butler was free to search any job title it wanted. *Id*. at 132. Under the job title test, the best match for "amusement mechanics," "amusement drivers," and "amusement supervisors"[3] was the very job code that Butler used, 39-3091. *Id*. at 131-132. Although Ms. Aguilar had concerns regarding specific duties, *id*. at 47, 60, every single one of those duties was listed as an approved job duty for the carnival attendant selected by Butler, *id*. at 133-141. In light of this, even Ms. Aguilar conceded that it was "possible" that all of these workers had served entirely within their assigned job code. R. Exh. 40, at 121 (corporate rep depo of Ms. Aguilar). Nor did the Administrator rebut Butler's testimony that it was merely being efficient by concentrating approved duties in a small number of H-2B workers. Tr. at 303-304, 318-319 (testimony of Mr. Brajevich).

Needless to say, Butler satisfied the only regulatory staffing requirement, which was to comply with industry practice. This follows because the Butler carnival is staffed just like other carnivals. Tr. 280, 307 (testimony of Mr. Brajevich).

[3] Butler reasonably searched these job titles because all H-2B workers performed carnival work. Tr. 352 (testimony of Mr. Brajevich).

5. Willfulness. The Administrator was also unable to establish that Butler had proceeded willfully or in reckless disregard of its obligation to comply. Ms. Aguilar spent well over 100 hours working this case, Tr. 146 (testimony of Ms. Aguilar), yet there were dozens and dozens of basic issues she was unable to address. Even though the Secretary of Labor claims that the entire application process only takes one hour, 20 min., Ms. Aguilar spent many hours just researching the job-code issue, *id.* at 146-147, and was still unable to answer numerous basic questions. Even Ms. Aguilar conceded that she did not know whether Butler was obligated to exert more effort than she herself had done with unlimited time during the past 6 years, an effort which she readily admitted was "very reasonable." *Id.* at 150. The Administrator has foreclosed common devices by which employers could promote compliance, such as forbidding investigators to put advice to employers in writing or abandoning opinion letters. *Id.* at 149-150. Because the 2008 Rule does not specify any particular tests, Butler did the best that it could under the circumstances. Tr. 309 (testimony of Mr. Brajevich).

Butler also reasonably relied upon the most knowledgeable and experienced consultant in the industry, Mr. James Judkins. Mr. Judkins is well recognized for his expertise and he has served Butler without incident for nearly 2 decades. *Id.* at 274-275. Mr. Judkins was "crucial" because Mr. Brajevich had never applied to the H-2B program previously. *Id.* Mr. Judkins advised that it was proper to use carnival workers in these ways to make the company more efficient. *Id.* at 279. Mr. Brajevich did, and was entitled to, rely upon a professional consultant such as Mr. Judkins. *Id.* at 305-306. Given that there was nothing to indicate that the company was acting improperly, *id.* at 279, and that the OFLC had specifically approved Butler to follow industry practice and operate the company

efficiently, *id*. at 292-293, it was quite reasonable – and certainly not reckless – for Butler to pursue this course of action.

6. Substantiality. Finally, the Administrator failed to carry his burden to establish a "significant deviation." Even Ms. Aguilar conceded that she was not aware of any evidence of a significant deviation. Tr. 152 (testimony of Ms. Aguilar).

Nor was any purported violation "substantial." 29 C.F.R. § 655.60 (b). The H-2A program has long recognized the "incidental-duty" rule. Under the H-2A program, "incidental activities" for agricultural labor include operating roadside retail stands, managing pick-your-own activities, and driving a tractor for a hay ride. 73 Fed. Reg. 77110, 77117 (Dec. 18, 2008). It would be difficult or impossible to list all potential "minor and incidental" job responsibilities. *Id*. at 78118. This provision is relevant under the rule from *GT Trans, Inc.*, 2016-TLN-29, at *6 (BALCA Apr. 15, 2016) (borrowing the H-1B definition of "place of employment" to define the interchangeable term, "worksite") and *Brook Ledge, Inc.*, 2016-TLN-00033, at *5-6 (BALCA May 10, 2016) (same).

B. Specific Conclusions of Law

The Administrator failed to show an enforceable regulation that Butler knowingly or recklessly disregarded when assigning its H-2B workers to job duties.

III. BUTLER IS NOT LIABLE FOR BACK WAGES OR CIVIL MONEY PENALTIES

A. Proposed Findings of Fact

Even if the Administrator could establish a regulatory violation, the Administrator would still not be entitled to back wages or civil money penalties. As indicated in the opening section, the 2008 Rule simply does not allow back wages as a remedy for this purported violation. R. Exh. 76, at 46 (§ 655.65 (i)).

1. Back wage calculations. The Administrator's back wage calculations have been strikingly inconsistent. The Administrator has calculated back wages 6 different ways. R. Exh. 14, at 1 (original calculation); R. Exh. 16 (revised calculation); R. Exh. 19, at 1 (original determination letter); R. Exh. 106, at 2 (initial disclosures); *Administrator's Motion to Amend* and *Prehearing Statement* (Apr. 8, 2019); R. Exh. 19, at 5 (amended determination letter). These endless revisions have been borne by such elementary mistakes as limiting the prevailing wage rate to a single locality, Tr. 90, 92, 95 (testimony of Ms. Aguilar), a lack of awareness for the special procedures governing carnival workers, *id.*; R. Exh. 79 (carnival worker special procedures); R. Exh. 85 (same), relying upon localities where these workers never performed, Tr. 97 (testimony of Ms. Aguilar), relying upon the wrong year of data, *id.* at 165, and a striking inability to explain differences from one calculation to the next, *id.* at 93, 165.

The major difference in the parties' calculation of back wages is the Administrator's wholesale disregard of Butler's *countersigned* time records. Although the Administrator claimed that there were no timekeeping records at all, Tr. 17 (opening statement), this was plainly not true. Ms. Aguilar testified that Butler's contemporaneous time records were provided to her, *id.* at 108 (testimony of Ms. Aguilar), and that she knew they were countersigned each week by each worker, *id.* at 108. Ms. Aguilar completely rejected these time records because

- It was "difficult to get a lot of information from these." *Id.* at 39.
- The time records would have been "more credible" if they had been handwritten, "more contemporaneous," or the workers had "interact[ed] with the document" rather than office personnel re-typing them. *Id.* at 40, 71, 154.

- Unknown and unspecified workers claimed that the timesheets did not include pre-opening work. *Id*. at 45, 71.
- The time records were "just a random document." *Id*. at 158.

Once she dismissed the time records out of hand, Ms. Aguilar testified that she now had license to "reconstruct" based upon the most reasonable estimate of hours worked. *Id*.

Ms. Aguilar's disregard of countersigned time records should itself be rejected. She admits that FLSA-exempt employers such as Butler were not required to keep any time records. *Id*. at 100, 106-107, 169; R. Exh. 20 & 21 (calculation of FLSA exemption). Inexplicably, she rejected *countersigned* time records without any further investigation why they were countersigned, something that she admits she should have done. Tr. 109 (testimony of Ms. Aguilar). If she had investigated, she would have determined that the time records recorded actual hours worked. *Id*. at 314 (testimony of Mr. Brajevich). Ultimately, Ms. Aguilar rejected Butler's business records without any authority or regulatory basis under the H-2B program, which does not require any particular timekeeping method. *Id*. at 156 (testimony of Ms. Aguilar). Butler has been audited nearly every year for more than a dozen years, and no other state agency has ever challenged the reliability of Butler's timekeeping. *Id*. at 291-292 (testimony of Mr. Brajevich).

The rest of Butler's disputes with the Administrator's back wage calculation is captured in the evidence summary marked as R. Exh. 47. As reflected in that exhibit, along with the numerous source documents identified in the column headings,

- **Work weeks**. Butler accepted the number of work weeks that the Administrator had calculated pre-hearing.

- **Average hours per week.** Butler rejected the Administrator's "reconstructed" average hours of work per week of 40 (based on the claimed timekeeping deficiency), Tr. 68, 153, 159 (testimony of Ms. Aguilar), and relied upon countersigned timesheets produced each week and found in designated pages within the payroll records marked as R. Exh. 26.
- **Pay rate.** Unlike the Administrator, Butler determined the hourly pay range based on the alternative job codes proposed by the Administrator.
- **Average pay per hour.** Butler agreed with the Administrator to use the average pay rate for the alternative job codes, Tr. 70 (testimony of Ms. Aguilar), but limited it to the 4 areas of intended employment where these individuals actually worked rather than the Administrator's largely-irrelevant list of 35 locations worked by all other units, *id*. at 97, 157, 183-186 (Ms. Aguilar did not know whether the worksites, which were plainly grouped within the payroll, had been provided to her, or where the specific workers had worked); *id*. at 187 (Ms. Aguilar admitted that she would have made the same calculation if she believed that the entire payroll – including where the workers were employed – was credible). Butler also relied upon skill level I wages,[4] rather than the "mean" (or average) wages that Ms. Aguilar used.
- **Back wage claim.** Butler calculated total pay based upon these figures, which were substantially lower than the Administrator's figures.

[4] Butler requested skill level I wages, *id*. at 314-315 (testimony of Mr. Brajevich), and OFLC issued them, R. Exh. 5, at 4, but this was a factor with which Ms. Aguilar was completely unfamiliar, Tr. 120-123, 160-161 (testimony of Ms. Aguilar),

- **Wages paid.** Butler juxtaposed the wages that were actually paid, which established that 4 of the individuals were overpaid and 5 of them had nominal "shortages" if entitled to the Administrator's alternative job codes.

2. Credits. Butler also claimed a series of credits. A credit is an amount that is used to offset legal obligations. Tr. 101 (testimony of Ms. Aguilar). The 2008 Rule did not say what rules apply when employers such as Butler were FLSA exempt. *Id.* Ms. Aguilar acknowledged that H-2B employers can have credits as offsets. *Id.* at 169. None of the near-annual state wage and hour audits had ever challenged any of Butler's credits. *Id.* at 291 (testimony of Mr. Brajevich).

The major dispute concerned the "primary benefit rule." Ms. Aguilar conceded that FLSA-exempt employers such as Butler were also exempt from the primary benefit rule, and that the 2008 Rule did not independently apply the primary benefit rule to Butler. Tr. 102 (testimony of Ms. Aguilar). *Accord Administrator v. Wade Shows, Inc.*, No. 2013-TNE-1, at *8 (OALJ Apr. 10, 2015), *aff'd in part & dismissed*, No. 15-052 (ARB June 20, 2017), *modified on other grounds*, No. 15-052 (ARB Sept. 11, 2017) (attached as R. Exh. 100). Despite having correctly conceded the point, Ms. Aguilar belatedly attempted to inject primary benefit arguments, which should be rejected because not regulatorily required.

Ms. Aguilar also acknowledged that she did not know the significance of OFLC approving Butler to follow industry practice related to weekly salaries, housing, and transportation. Because she was unfamiliar with carnival practices, she was unable to address whether Butler had complied with prevailing practice. Id. at 101. Thus, it was uncontested that Butler was following industry practice on these and other issues. *Id.* at 287, 292-293 (testimony of Mr. Brajevich).

The Administrator also never challenged, much less charged, that Butler satisfied the threshold requirements under the 2008 Rule for claiming "deductions" as credits. *See* R. Exh. 76, at 41 (§ 655.22 (g) (1)). Thus, it was undisputed that the H-2B workers were well aware of these credits. More than 90% of the workers were returning from the prior year, so they already knew the Butler system. Tr. 282 (testimony of Mr. Brajevich). Mr. Judkins and his staff were also responsible for educating all workers on these issues so that they could get approved at the consulate. *Id*. at 280-282. The same information was then reinforced as part of Butler's orientation upon arrival at the beginning of the season. *Id*. at 284. And the workers themselves have affirmed their knowledge directly to Mr. Brajevich, *id*. at 283, and signed a witness statement to the same effect, R. Exh. 39, at 1. This witness statement included 3 of the 9 specified individuals who continue to work for Butler. Tr. 283-284 (testimony of Mr. Brajevich).

These credits were also "reasonable." Although that term is not defined for FLSA-exempt employers within the 2008 Rule, the credits were "reasonable" because they were based upon Butler's cost basis and did not include any profit. They were also reasonable because the parties agreed to them. R. Exh. 39, at 1.

Turning now to the calculation of credits as reflected in R. Exh. 47.

- **Income tax**. It is undisputed that Butler paid the employee's obligation for income taxes. Tr. 111 (testimony of Ms. Aguilar); Tr. 246, 248, 262, 264 (testimony of Mr. Tom Shobaken); Tr. 300 (testimony of Mr. Brajevich). It is undisputed that there are no regulatory restrictions on an employer claiming a credit for paying the worker's portion of the income tax. Tr. 111 (testimony of Ms. Aguilar); Tr. 300 (testimony of

Mr. Brajevich). The source documents for the payment of income taxes are gathered in R. Exh. 37 and calculated in R. Exh. 47.

- **Housing.** It is undisputed that housing is a normal expense of living and it has value. Tr. 104 (testimony of Ms. Aguilar). It is also undisputed that carnivals could take a housing credit in 2013.[5] Tr. 105, 188 (testimony of Ms. Aguilar); R. Exh. 83 (guidance letter from DOL). OFLC approved Butler to provide housing consistent with industry practice, and that is exactly what Butler did. Tr. 287, 288, 294-295 (testimony of Mr. Brajevich). Butler's bunkhouses included valuable, modern living conveniences. Tr. 295 (testimony of Mr. Brajevich). The source documents for the cost of housing are gathered in R. Exh. 31 and calculated in R. Exh. 31, at 1, and R. Exh. 47.
- **Relocation travel.** It is undisputed that relocation travel is available for credit to FLSA-exempt employers. Tr. 111 (testimony of Ms. Aguilar). OFLC approved Butler to provide relocation travel consistent with industry practice, and that is exactly what Butler did. Tr. 287, 288 (testimony of Mr. Brajevich). It was reasonable to divide total relocation cost by all workers. Tr. 112 (testimony of Ms.

[5] Ms. Aguilar implied, without actually contending, that there might be issues relating to primary benefit, cost basis, voluntariness, and health and safety standards. Tr. 174 (testimony of Ms. Aguilar). Even if the primary benefit rule applies to FLSA-exempt employers, Butler never benefited from having workers near the worksite and had no way to call them back to work during off hours. Tr. 373-374 (testimony of Mr. Brajevich). Mr. Brajevich recited at great length a list of reasons why employees primarily benefit from mobile housing, *id*. at 296-299, 372-374, and that testimony was undisputed. All of Butler's housing credit was determined solely by cost basis. Tr. 201-211 (testimony of Mr. Nittler). Bunkhouses were always provided voluntarily, and Butler's bunkhouses were frequently inspected and approved under local health and safety ordinances. Tr. 299 (testimony of Mr. Brajevich).

Aguilar). The source documents for the cost of in-and-out-of-country travel are gathered in R. Exh. 33 and calculated in R. Exh. 34, at 1, and R. Exh. 47.

- **Local convenience travel**. It is undisputed that local convenience travel is a classic benefit for workers. Tr. 113 (testimony of Ms. Aguilar). OFLC approved Butler to provide local convenience travel consistent with industry practice, and that is exactly what Butler did. Tr. 287, 288 (testimony of Mr. Brajevich). The source documents for the cost of local convenience travel are gathered in R. Exh. 35 and calculated in R. Exh. 36, at 1, and R. Exh. 47.
- **Prepayment plan**. It is undisputed that an employer can pay wages in advance and take a credit toward future obligations. Tr. 103 (testimony of Ms. Aguilar). DOL has long recognized that employers may prepay for work to be performed later in the season, then recoup that credit later, and that this allows employees the benefit of a fairly stable wage rate even as weekly hours fluctuate. *E.g.*, *Wage-And-Hour Opinion Letter* (May 21, 1971); *Wage-And-Hour Opinion Letter No. FLSA 2005-3*, at ¶ 4 (Jan. 7, 2005) < http://www.dol.gov/whd/opinion/FLSA/2005/2005_01_07_3_FLSA_PrepaymentPlan.pdf >; U.S. Department of Labor, Wage & Hour Division, *Field Operations Handbook* ¶ 32j16c (2016) < http://www.dol.gov/whd/FOH/FOH_Ch32.pdf >. OFLC approved Butler to provide a weekly salary consistent with industry practice, and that is exactly what Butler did. Tr. 287, 288-289, 293 (testimony of Mr. Brajevich). This benefits employees because it averages out and they get paid for what they are owed. *Id.* at 290. Butler is audited nearly every year and no state officials have ever suggested there was a problem with their prepayment plan. *Id.* at

291. This amount is available as a credit because Butler's prepayment plan was based upon 40 hours per week, even though the workers never reached that amount during the early season at issue in this case.

The very purpose of taking these credits for benefits conferred is restitutionary: to put the parties in the position that they would have been in, the Administrator's purported goal in this case, Tr. 52 (testimony of Ms. Aguilar). *See, e.g.*, *Wage-And-Hour Opinion Letter No. FLSA 2005-3*, at ¶ 4 (Jan. 7, 2005) (discussing the purpose of a prepayment plan) < http://www.dol.gov/whd/opinion/FLSA/2005/2005_01_07_3_FLSA_PrepaymentPlan.pdf >; U.S. Department of Labor, Wage & Hour Division, *Field Operations Handbook* ¶ 32j16c (2016) (same) < http://www.dol.gov/whd/FOH/FOH_Ch32.pdf >. As long as the benefit was conferred, then Butler's restitutionary interest must be satisfied, regardless of when the benefit occurred. As demonstrated with the calculations in R. Exh. 47, "total compensation," which includes "wages paid" and Butler's credits, far exceeds the Administrator's "back wage claim" for all 9 individuals. Thus, none of these individuals are entitled to back wages.

3. CMP's. There are 2 methods for determining CMP's. To the extent that the Administrator based that determination on the hefty back wage claim, Tr. 162 (testimony of Ms. Aguilar), the corresponding CMP's must similarly fall.

To the extent that the Administrator may belatedly claim to invoke consideration of the mandatory 7 factors, those similarly point to no CMP's. It is undisputed that Butler has a clean enforcement history, and that only a small portion of Butler's large workforce was affected. Tr. 162-163 (testimony of Ms. Aguilar); Tr. 315 (testimony of Mr. Brajevich). Ms. Aguilar was unable to recall any conclusions she may have reached as to the remaining

factors, which constitutes a failure of the Administrator's burden of proof. Even in this void, Butler still established without dispute that it takes extensive efforts to maintain compliance. *Id*. at 316-317. Further, Butler did not obtain any financial gain; to the contrary, all of these workers were handsomely overpaid. R. Exh. 47. The Administrator attempted to suggest that Butler should have changed course during the intervening 6 years, Tr. 363-364 (testimony of Mr. Brajevich), but that would have been interpreted as acknowledging a violation that does not exist in fact. *See Administrator v. Camo Technologies, Inc.*, No. 11-026, 2012 Westlaw 4321026, at *6 (Admin. Rev. Bd. Aug. 31, 2012) (employer's conduct of attempting to comply showed a duty)

B. Specific Conclusions of Law

The Administrator has failed to show that Butler is liable for back wage remedies or CMP's.

IV. THE ADMINISTRATOR IS BARRED BY THE DOCTRINE OF LACHES FROM PURSUING THIS ACTION

A. Proposed Findings of Fact

This enforcement action should be dismissed because the Administrator's dilatory actions substantially prejudiced Butler. Agency delay that causes a loss of the case raises due process and equal protection violations. *Logan v. Zimmerman Brush Co.*, 455 U.S. 422 (1982). Although summary adjudication was entered on the assumption that this case was properly alleged as a substantial failure, that has now been disproven and the case should have been pled as a misrepresentation.

Under the doctrine of laches, the 2008 Rule applied once R. Exh. 8 was certified on December 14, 2012, Tr. 87 (testimony of Ms. Aguilar); R. Exh. 76, at 46 (§ 655.65 (f)), yet the Administrator – without explanation – allowed this case to languish for well over 5 years

before the determination letter was finally filed. There was no contact whatsoever from February 25, 2014, until 4 years later when the determination letter was finally filed. Tr. 94 (testimony of Ms. Aguilar). During this time, the Administrator did not signal that the case was still active or offer any other explanation for the delay. *Id*. at 94, 95.

This inordinate delay caused real-world prejudice to Butler.

- Butler's *entire* management team for the implicated Butch's Unit have now departed and can no longer be found. These managers are not bit players; not surprisingly, they were in the best position to refute the Administrator's version of the facts. At least one of them was interviewed by Ms. Aguilar, but did not even provide a witness statement, so the only evidence from that manager is filtered through Ms. Aguilar's bias. *Id*. at 324-326.
- A large number of Butler's 2013 employees no longer work for the company and are presumably dispersed throughout Mexico. Most critically, 6 of the 9 specified individuals are long gone. *Id*. at 324.
- Butler's records have also been seriously impaired. The company underwent a major move after several decades, which caused their paper records to be lost to them. *Id*. at 324. Even the Secretary of Labor has recognized that carnivals in particular cannot be expected to maintain records for 5 years, which is why the H-2B record retention is set at 3 years. R. Exh. 76, at 5 and 25.

B. Specific Conclusions of Law

The Administrator's dilatory actions severely prejudiced Butler such that the case should be dismissed under the doctrine of laches.

V. MR. MICHAEL BRAJEVICH IS NOT LIABLE FOR VIOLATIONS IN HIS INDIVIDUAL CAPACITY

A. Proposed Findings of Fact

The allegations against Mr. Brajevich personally should be dismissed for several additional reasons. First, only the "employer" may be held liable. R. Exh. 76, at 46 (§ 655.60). According to the regulations, a qualifying "employer" must have a "place of business," have an "employer relationship" with the H-2B workers, and possess a valid FEIN. *Id*. at 36 (§ 655.4). The Administrator completely failed to meet its burden to prove any of these elements.

Second, the Administrator failed to make out a *prima facie* case as to all of the necessary elements to establish Mr. Brajevich's regulatory violation. The evidence has already been recounted that Butler as a corporate entity had no knowledge of any duty that it willfully or recklessly violated. To a large extent, that evidence similarly applies to Mr. Brajevich. Nothing proves the sheer collapse of the Administrator's case than when Ms. Aguilar testified that there was no evidence that Mr. Brajevich knew these H-2B workers were working outside of the job code, Tr. 147-148 (testimony of Ms. Aguilar), and that Mr. Brajevich was joined personally "simply" because he signed the 9142, *id*. at 181. This is all the more true because this was literally the 1st time that Mr. Brajevich had signed an H-2B application or interacted with the H-2B program. *Id*. At 273-274 (testimony of Mr. Brajevich). There is no provision within the H-2B regulations for vicarious liability for the acts of others, and this the Administrator's abject failure of proof. Effectively, the Administrator has improperly presumed that Mr. Brajevich's actions were improper.

Finally, there was no evidence that the Administrator intended to put Mr. Brajevich on notice that he was personally liable for the actions of a corporate entity. The

determination letter makes Mr. Brajevich an afterthought rather than a responsible party. R. Exh. 19

B. Specific Conclusions of Law

The Administrator failed to show that Mr. Brajevich individually was liable for willfully failing to comply with the misrepresentation-of-need clause.

VI. SPECIFIC RELIEF SOUGHT

For these reasons, Butler prays that the Administrator's determination be reversed and that all requested remedies be denied.

PROSECUTING PARTY,

v.

BUTLER AMUSEMENTS, INC. and MICHAEL BRAJEVICH, an individual,

RESPONDENTS.

ARB CASE NO. 2021-0007

ALJ CASE NO. 2018-TNE-00019

DATE: November 3, 2020

NOTICE OF APPEAL AND ORDER ESTABLISHING BRIEFING SCHEDULE

On October 30, 2020, Respondent filed a petition for review of Administrative Law Judge Richard M. Clark's Decision and Order issued September 30, 2020. This notice constitutes acceptance of the petition for review by the Administrative Review Board (Board or ARB).

The Board offers an Electronic File and Service Request (EFSR) system. The EFSR for electronic filing (eFile) permits the submission of forms and documents to the Board through the Internet instead of using postal mail and fax. The EFSR portal allows parties to file new appeals electronically, receive electronic service of Board issuances, file briefs and motions electronically, and check the status of existing appeals via a web-based interface accessible 24 hours every day. No paper copies need be filed.

PARTIES REPRESENTED BY COUNSEL MUST USE E-FILING ABSENT GOOD CAUSE SHOWN.

An e-Filer must register as a user by filing an online registration form. To register, the e-Filer must have a valid e-mail address. The Board must validate the e-Filer before electronically filing any document. After the Board has accepted an e-

Filing, it is handled just as it would be had it been filed in a more traditional manner.

e-Filers will also have access to electronic service (eService), which is simply a way to receive documents, issued by the Board, through the Internet instead of mailing paper notices/documents. Information regarding registration for access to the EFSR system, as well as a step-by-step user guide and FAQs can be found at https://dol-appeals.entellitrak.com. Please send any procedural questions or comments to Boards-EFSR-Help@dol.gov.

Mail or deliver paper copies (if e-Filing is not used) of pleadings, including briefs, appendices, motion, and other supporting documentation to the Administrative Review Board, U.S. Department of Labor, 200 Constitution Avenue, N.W., Room S-5220, Washington, D.C., 20210.

This is the briefing schedule for this case:

OPENING BRIEF: Within twenty-eight (28) days of the issuance of this Order, the petitioner must file with the Board a supporting legal brief of points and authorities.

RESPONSE BRIEF: The opposing party must file any response in opposition to the supporting legal brief with the Board within twenty-eight (28) calendar days from the date of service of the petitioner's principal legal brief.

REPLY BRIEF: Within fourteen (14) calendar days of the service of a legal brief in opposition to the petitioner's opening brief, the petitioner may file a reply brief.

ALL BRIEFS: No further briefs may be filed without the permission of the Board. The filer must concurrently serve a copy of the any brief upon the opposing party and file a certification of such service with the Board. Service is effective upon mailing or hand delivery. Except as otherwise specified in this Order, the form of all briefs and other filings shall comply with Federal Rule of Appellate Procedure (FRAP) 32(a). The content of all briefs must comply to the extent practicable with FRAP 28.

OTHER FILINGS

No appendix may be filed without permission of the Board. Any appendix must be efiled electronically unless good cause is shown by a pro se party why filing an electronic version is impossible or impracticable.

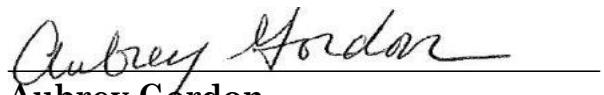
All motions and other requests for extraordinary action by the Board (including, but not limited to, requests for extensions of time or expansion of page limitations) shall be in the form of a motion appropriately captioned, titled, formatted and signed, consistent with FRAP 27(d).

OTHER MATTERS

All pleadings should include the ARB case number as it appears in this Order.

The Administrative Review Board encourages the parties to consider the alternative dispute resolution (ADR) program administered by the Office of Administrative Law Judges (OALJ). The OALJ offers two types of court-sponsored alternative dispute resolution: settlement judges and mediation services. If all parties agree to use the OALJ ADR program, they should jointly notify the Board of their intention, and the Chair of the Board will refer the matter to the Chief Administrative Law Judge for the limited purpose of appointing a mediator or settlement judge (other than a judge previously involved in the case). Unless the Chief Administrative Law Judge directs otherwise, settlement discussions must be completed within 56 days of the date of referral or the case will be automatically returned to the Board for the issuance of a new briefing schedule on the original grant of the petition for review. If the matter is settled, any agreement or consent findings will be reviewed and approved by the Board.

FOR THE ADMINISTRATIVE REVIEW BOARD:



Aubrey Gordon
General Counsel

NOTE: Questions regarding any case pending before the Board should be directed to the Board's staff. Telephone: (202) 693-6200; Facsimile (202) 693-6220

* * * * * * * * * * * * *

JOINT MOTION FOR ENLARGEMENT OF TIME

Pursuant to Fed. R. App. Proc. 26 (b) and Fed. R. Civ. Proc. 6 (b) (1) (A), the Respondent moves for an enlargement of time to file its reply brief . In support, the Respondent states as follows:

1. Under the scheduling order, the following briefing schedule applies:

December 1, 2020 – Respondent's opening brief

December 29, 2020 – Administrator's response brief

January 12, 2021 – Administrator's reply brief

2. The parties request that the following briefing schedule be adopted:

December 31, 2020 – Respondent's opening brief

February 1, 2021 – Administrator's response brief

February 22, 2021 – Administrator's reply brief

3. Good cause exists for these brief extensions. The global pandemic caused by the coronavirus has created unforeseeable problems complying with the current schedule. Respondent's counsel relies on the research support and services at the Maryland Court of Appeals law library in Annapolis, but they have drastically reduced operating hours and access is by appointment only. Further, the Library of Congress remains closed to the public. This means that any work product would be entirely deficient and would lack the quality that this case deserves and which would assist the Board. We have not located a comparable library with public access. The Administrator's counsel and the additional reviewers of the Administrator's brief have previously scheduled leave during the holidays that would interfere with the current deadlines.

Conclusion

For these reasons, the parties pray that the amended briefing schedule be adopted.

ALJ CASE NO. 2018-TNE-00019

DATE: December 2, 2020

ORDER GRANTING EXTENSION OF TIME AND AMENDING BRIEFING SCHEDULE

The Administrative Review Board has received a Joint Motion for an Extension of Time. For good cause shown the Motion is **GRANTED.** The briefing schedule has been amended as follows:

On or before December 31, 2020, Respondent shall file the opening brief.

On or before February 1, 2021, the Administrator may file a response brief.

On or before February 22, 2021, Respondent may file a reply brief.

In all other respects, the Notice of Appeal and Order Establishing Briefing Schedule issued November 3, 2020, remains in effect.

JURISDICTION

This is an administrative appeal of a Wage and Hour Division enforcement action under the H-2B visa program as provided in the H-2B clause, 8 U.S.C. § 1101(a)(15)(H)(ii)(b). Although Employer-Respondent disputes the legality of such efforts, the Secretary of Labor purported to extend jurisdiction over the original OALJ proceeding under the 2008 DOL Rule, 20 C.F.R. § 655.71 (2009). This Board's jurisdiction is based upon 20 C.F.R. § 655.76 (2009). The Decision and Order was entered as final on September 30, 2020. This appeal was timely filed on October 30, 2020.

ISSUES

1. Whether this action is time-barred by the statute of limitations.

2. Whether Employer-Respondent substantially failed to comply with 20 C.F.R. § 655.22 (n) (2009) by misrepresenting its temporary need for 9 specified H-2B workers.

3. Whether Employer-Respondent is liable for back wages of $26,786 and civil money penalties of $10,000.

4. Whether the 2008 DOL Rule is legally enforceable.

STATEMENT OF CASE

I. COURSE OF PROCEEDINGS

This enforcement action is based exclusively on purported violations of the 2008 DOL Rule. D&O 1 & 17. There are no allegations that the 2015 IFR was violated. D&O 17. Employer-Respondent filed a motion for summary judgment based in part on the statute of limitations, which the A.L.J. denied. Order (Nov. 14, 2018). The factual hearing occurred on May 8-9, 2019. D&O 1. Both parties submitted post-hearing briefs on July 23, 2019. On September 30, 2020, the A.L.J. filed a Decision & Order, ruling in favor of the Employer-Respondent on several issues, but ruling that the Employer-Respondent violated 20 C.F.R. § 655.22 (n) (2009) because nine H-2B employees worked outside of their job classification, and assessing back wages of $26,786 and CMP's of $10,000. D&O 31.

II. RULINGS PRESENTED FOR REVIEW

A. Statute of Limitations

The timeline relevant to the statute of limitations is straightforward.

- November 7, 2012 – Employer-Respondent applied for a labor certification by submitting ETA Form #9142. R. Exh. 7, p. 1, 13; R. Exh. 8, p. 1.
- December 14, 2012 – DOL approved Employer-Respondent's #9142. R. Exh. 9, p. 1-2.
- December 17, 2012 – Employer-Respondent submitted its I-129 to USCIS. R. Exh. 11, p. 1, 7.
- January 4, 2013 – USCIS approved Employer-Respondent's I-129. R. Exh. 13, p. 1.
- February 1, 2013 – Employer-Respondent's season began. R. Exh. 7, p. 2; R. Exh. 51, pp. 8-17. D&O 13 (relevant workers had

arrived by Feb. 2, 2013, and payslips show them getting paid by Feb. 4, 2013).

- February 6, 2018 – Administrator mailed the determination letter. D&O 13.

Based on these undisputed facts, Employer-Respondent moved for summary dismissal because the case was time-barred by the statute of limitations. The A.L.J. determined as a matter of law that the 5-year statute of limitations contained in 28 U.S.C. § 2462 governed, then determined as a matter of law that the case was not barred by the statute of limitations. According to the ALJ,

> the limitations period began to accrue upon Respondents' alleged violations of the regulations, which the Administrator describes as "employing H-2B workers in jobs not identified in the work order." [Citing the Administrator's concession on this point.] Respondents' alleged violation ran from the period of February 1, 2013, through April 24, 2013. Therefore, since the Determination Letter was issued before April 24, 2018, this proceeding was timely commenced and is not time-barred.

Order at *18 (Nov. 14, 2018).

B. Violation of 20 C.F.R. § 655.22 (n)

The evidence showed that the pertinent regulatory provision can only be violated through a misrepresentation in the application, not through substantial failure to comply as the Administrator charged. Moreover, the Administrator failed to establish that there was a regulatory duty imposed on Respondent-Employer that required it to provide a different job description, or

that Respondent-Employer was aware of any such duty. It turns out that all of the duties purportedly performed by these H-2B workers fall neatly within the standard job description that the Respondent-Employer utilized. And in making its description of the job, Respondent-Employer relied on the professional advice of its retained consultant. All of these and other facts are elaborated further at the pertinent analysis in the argument section *infra*.

C. Enforceability of the 2008 Rules

On motion for summary judgment, the Employer-Respondent contended that the 2008 Rules were vacated and unenforceable. On this purely legal issue, the A.L.J. ruled as a matter of law that the 2008 Rules were enforceable. Order p. 4 (Nov. 14, 2018).

ARGUMENT

I. STANDARD OF REVIEW

Review of this APA case is premised on the A.L.J. stating "the reasons or basis" for each finding and conclusion "on all the material issues of fact, law, or discretion presented on the record …." 5 U.S.C. § 557 (c). As long as the A.L.J. is forthcoming, then the standard of review is

> Where the statute and regulations provide no expressed standard of review, … we defer to the A.L.J.'s fact findings if they are reasonable, and we make reasonable inferences permitted by the A.L.J.'s findings and/or the undisputed record. … The ARB has plenary power to review

> an A.L.J.'s legal conclusions de novo, including whether a party has failed to prove a required element as a matter of law.

Administrator v. Sirsai, Inc., No. 12-102 (ARB Jan. 28, 2015) (H-1B appeal). Review of statutory interpretation issues is *de novo*. *King v. Burwell*, 759 F.3d 358, 367 (4th Cir. 2014), *aff'd*, 135 S. Ct. 2480 (2015). The Board reviews procedural rulings for abuse of discretion. *Administrator v. Strates Shows, Inc.*, No. 15-069, at*3 (ARB Aug. 16, 2017).

II. THIS ACTION IS TIME-BARRED BY THE STATUTE OF LIMITATIONS

Just as the ALJ determined, Order at *18 (Nov. 14, 2018), it is now abundantly clear that this case is governed, at a minimum, by the 5-year statute of limitations contained in 28 U.S.C. § 2462. *Administrator v. Graham & Rollins, Inc.*, No. 2019-0009, at *2 (ARB Nov. 16, 2020), *aff'g* No. 2018-TNE-00022 (OALJ June 26, 2018) *and* No. 2018-TNE-00022 (OALJ Oct. 25, 2018). The ALJ also determined as a matter of law that the seasonal work, including for the nine H-2B workers at issue in this case, began on February 1, 2013, Order at *18 (Nov. 14, 2018), and that the determination letter was issued on February 6, 2018, D&O 13.

A. Any Violation Accrued at Its Inception, Not Its Conclusion

Thus, the issue in the appeal is precisely framed as to whether the statute of limitations under this particular statute accrued when the violation began or

when it concluded on April 24, 2013, which is what the ALJ determined. Order at *18 (Nov. 14, 2018). The ALJ's view appears to be based on *Administrator v. Hotelmacher, LLC*, No. 2017-TNE-00010, slip op at *4 (OALJ May 17, 2018), which, without any supporting authority, concluded that the cause of action did not accrue until the workers were employed and the Administrator had the opportunity to investigate. *Id*. at *6. In doing so, the *Hotelmacher* decision created its own definition of "accrual." *Id*. (cause of action did not accrue until "the violation had … *manifested in [a] discernible manner*.") (emphasis added).

As the ARB has determined, the test for when a claim accrues "'has been settled for more than a century': 'a claim accrues *at the moment a violation occurs*.'" *Graham & Rollins*, at *11 (June 26, 2018) (*quoting 3M Co. v. Browner*, 17 F.3d 1453, 1461-62 (D.C. Cir. 1994)) (emphasis added). *See also Gabelli v. Security Exch. Comm'n*, 568 U.S. 442, 454 (2013) (a claim accrues "when the plaintiff has a complete and present cause of action."). And once the statute of limitations accrues, it continues unabated from that moment in time for the next 5 years. *Securities & Exch. Comm'n v. Cohen*, 332 F. Supp. 3d 575, 588 n. 6 (E.D.N.Y. 2018) (the statute of limitations is complete and continues to run regardless of whether there was "evidence of subsequent misconduct.").

In *Graham & Rollins*, the violation was "based on alleged failures by Employer when H-2B workers were terminated before the end of the period of intended employment," so the ALJ focused on the last possible date of "early termination" to determine the inception of accrual. *Graham & Rollins*, at *11 (June 26, 2018). In contrast, the instant case involves a violation that began no later than the moment of employment,[1] which the Administrator conceded and the ALJ determined as a matter of law was February 1, 2013. Thus, the determination letter on February 6, 2018, was barred because it was more than 5 years after the moment of accrual.

The fact that the purported violations may have continued until April 24, 2013, has no bearing on the statute of limitations' accrual. In all events, the Administrator was extended the full 5 years to investigate and conclude an

[1] Although not necessary to resolve this case, Respondent-Employer also contends that the Administrator could have charged – and as discussed in § III.D.1 *infra* was **required** to charge – this case as a willful misrepresentation once the Respondent-Employer submitted its application for labor certification on November 7, 2012, or even when that application was approved on December 14, 2012. *See* 20 C.F.R. § 655.65 (f) (willful misrepresentation occurs when the application or petition is submitted); *Kersten v. Lagard, Inc.*, No. 06-111, 2008 Westlaw 4820115, at *5 (Admin. Rev. Bd. Oct. 17, 2008) (the statute of limitations accrues on the date when the employer misrepresented a material fact in the labor certification). This follows because Respondent-Employer was exposed to a potential investigation and citations for misrepresentation from the moment of submission, regardless of whether the Administrator availed himself of that opportunity. Merely because the Administrator made a choice does not diminish the fact that the moment of such a violation occurred several months earlier.

inquiry, regardless of whether he chose to pursue the opportunity until sometime after inception. That was the very purpose of extending a period of 5 years to the Administrator.

B. This Case Is Governed by the Catchall 4-Year Statute Of Limitations

Although not necessary to resolve this appeal, Respondent-Employer argues in the alternative for the statutes of limitations that were not decided in *Graham & Rollins*. *Graham & Rollins,* No. 2018-TNE-00022, at *9, n. 7 (June 26, 2018) (reserving the question of whether the FLSA's statute of limitations may be appropriately "borrowed" in an H-2B enforcement action). The A.L.J. committed an error of law by ignoring the application of alternative and applicable statutes of limitations. Not only were they applicable on their face, but they were more specific and, when harmonized with the statute selected by the A.L.J., should have been chosen for application.

Congress attempted to simplify the process by enacting a "catchall 4-year statute of limitations for actions arising under federal statutes" enacted after 1990. *Jones v. R.R. Donnelley & Sons Co.*, 541 U.S. 369, 371 (2004). Unless otherwise provided by law, "a civil action arising under an act of Congress enacted after [1990] may not be commenced later than 4 years after the cause of action accrues." 28 U.S.C. § 1658 (a). Under this statute, a cause of action "aris[es] under" a congressional act "if the plaintiff's claim against the

defendant was made possible by a post-1990 enactment." *Jones*, 541 U.S. at 382. An amendment of an existing statute is sufficient to trigger this catchall statute of limitations. *Id*. at 381. For statute of limitations purposes, a claim accrues "when the plaintiff has a complete and present cause of action." *Gabelli v. Security Exch. Comm'n*, 568 U.S. 442, 454 (2013). *Accord 3M*, 17 F.3d at 1460-1462.

Before 1990, there was no mechanism for imposing back wages or civil monetary penalties under the H-2B program. *See* 8 U.S.C. §§ 1101 (a) (15) (H) (ii) (b) & 1184 (c); 73 Fed. Reg. 29942, 29943, 29946, 29955 (May 22, 2008) (DOL currently had no authority to determine compliance with H-2B certification requirements or to order back wages). This enforcement action "aris[es] under" the REAL ID Act, Pub. L. No. 109-13, §404, 119 Stat. 302, 309 (May 11, 2005), *codified at* 8 U.S.C. § 1184 (c) (14). This statute authorized the Secretary of Homeland Security to pursue civil monetary penalties and "other remed[ies] authorized by law," 8 U.S. C § 1184 (c) (14) (A), and it authorized the Secretary of Homeland Security to redelegate this authority to the Secretary of Labor, *id*. § 1184 (c) (14) (B). In every sense, this post-1990 enactment "made possible" the current enforcement action by authorizing DHS to redelegate and DOL to adopt implementing regulations in 2008. *See*

29 C.F.R. § 503.1 (c) ("Role" of the Administrator is based on DHS's redelegated authority to DOL).

It is equally obvious that more than 4 years elapsed after the cause of action accrued. In this case, all of the employer-generated submissions and agency approvals in late 2012 and early 2013 were far more than 4 years before the determination letter in early 2018. To the extent that the Administrator might contend that the workers needed to have arrived for the cause of action to accrue, that occurred in February, 2013, also well outside of the 4-year limitations. As a result, the Administrator had a complete and present cause of action for the 2013 season that was ignored for more than 4 years.

This enforcement action qualifies as a "civil action" under § 1658 (a). This is certainly not a "criminal" action. *See 3M*, 17 F.3d at 1456-57. "Civil" means "pertaining to the private rights of individuals and to legal proceedings connected with these (distinguished from *criminal*)." *Webster's Encyclopedic Unabridged Dictionary of the English Language* 270 (1989) (emphasis in original). "Criminal" means "of or pertaining to crime or its punishment (distinguished from *civil*)." *Id*. at 343 (emphasis in original). All of the INA's criminal provisions are found in its "General Penalty Provisions" covered at 8 U.S.C. § 1321-1330.

Congress explicitly acknowledged that this enforcement action is a "civil action" by authorizing the imposition of "*civil* monetary penalties." 8 U.S.C. § 1184 (c) (14) (A) (i) (emphasis added). Further, the legislative history is rich with illustrations that administrative proceedings qualify as "civil actions." *See, e.g.*, Senate Comm. on the Judiciary, S. 7, 79th Cong., at 13 (Comm. Print June 29, 1945), *reprinted in* Sen. Pat McCarran, *Administrative Procedure Act: Legislative History, 79th Congress, 1944-46* (July 26, 1946) ("All departments may, and often do, exercise civil and regulatory powers which should be subject to an administrative procedure statute."); United States Department of Justice, *Attorney General's Manual on the Administrative Procedure Act* at 99 (1947) (an appropriate method to challenge the validity of "agency action" is to set up the alleged invalidity as a defense in a "civil or criminal enforcement proceeding."); *Report of the Special Committee on Administrative Law*, 61 Annu. Rep. A.B.A. 720, 746-48 (1936) (distinguishing between administrative orders that are equivalent to money judgments in "civil cases," orders awarding "civil damages" to individuals, and orders equivalent to "criminal penalties"). *See also* 29 C.F.R. § 18.10 (b) (enforcement proceedings "follow the Administrative Procedure Act").

The agencies have similarly acknowledged that this enforcement action is a "civil action." According to DHS, DOL's enforcement actions constitute a

civil "action." 73 Fed. Reg. 78104, 78116 (Dec. 19, 2008) (H-2B employer violations are subject to "enforcement action by DHS and other government agencies"). The Administrator referred to this proceeding as an "enforcement action." R. Exh. 19, *Determination Letter* at 3 (February 6, 2018).

DOL has also cloaked this enforcement action with all the trappings of a "civil action." As was true under the statute analyzed by the D.C. Circuit,

> Civil penalty proceedings … emulate judicial proceedings: a complaint is brought, the defendant answers, motions and affidavits are filed, depositions are taken, other discovery pursued, a hearing is held, evidence is introduced, findings are rendered and an order assessing a civil penalty is issued. When that sequence of events takes place in a court, we have no trouble calling it a ["civil action"] ….

3M, 17 F.3d at 1456. The rules of procedure are carefully patterned after the Federal Rules of Civil Procedure, *see* 29 C.F.R. § 18.10 (a), and the federal rules expressly apply to "all suits of a civil nature," Fed. R. Civ. Proc. 1.

C. "Borrowed" Statutes of Limitations Have Also Long Expired

The A.L.J. also erred by ignoring the application of "borrowed" statutes of limitations. Even if it was possible for the Administrator to defeat the catchall § 1658 (a), there are other candidates, all of which were applicable and more specific to the needs of the case.

Long before § 1658 began simplifying the issue, the Rules of Decision Act provided that "The laws of the several states … shall be regarded as rules

of decision in civil actions in the courts of the United States, in cases where they apply." 28 U.S.C. § 1652. Under this statute, the Supreme Court "has 'borrowed' what it considered to be the most analogous state statute of limitations to bar tardily commenced proceedings." *Board of Regents v. Tomanio*, 446 U.S. 478, 488 (1980).

Although the usual rule is to borrow from state law, courts have sometimes borrowed from federal law when it "clearly provides a closer analogy than available state statutes, and when the federal policies at stake and the practicalities of litigation make that rule a significantly more appropriate vehicle for interstitial lawmaking." *Lampf v. Gilbertson*, 501 U.S. 350, 356 (1991). Federal law might be regarded as sufficiently superior because there is no corresponding state-law visa program. *Compare Administrator v. Alden Mgmt. Serv.*, 1996-ARN-3, slip op. at *6-7 (OALJ Nov. 3, 1998) (finding statute of limitations from H-1B program, rather than the Fair Labor Standards Act, should be applied to the H-1A program) *with Administrator v. Hotelmacher, LLC*, No. 2017-TNE-00010, slip op at *4 (OALJ May 17, 2018) (declining to apply state wage-and-hour law to H-2B enforcement action, which was regarded as a "federal immigration" matter). Alternatively, to the extent that the Administrator is pursuing back wages, especially as a compensatory or make-whole remedy, then the appropriate analogy is the Administrator's authority to

pursue back wages under the Fair Labor Standards Act. *See* 29 U.S.C. § 216 (c) (Administrator may pursue back wages for minimum wage or overtime violations).

In this instance, it would be appropriate to borrow the statute of limitations from the H-2A program. The H-2A program has a 2-year statute of limitations. 8 U.S.C. § 1188 (b) (2). DOL itself has often analogized to the similarities between the H-2A and H-2B programs. *See, e.g.*, 73 Fed. Reg. 78020, 78043 (Dec. 19, 2008). Under the 2008 DOL Rule, the most severe penalty, debarment from the H-2B program, must occur within 2 years, 20 C.F.R. § 655.31 (a) (2), and that date was chosen because of DOL's professed interest in tracking the H-2A program, 73 Fed. Reg. at 78043. Needless to say, it would be anomalous if less-severe penalties had a longer statute of limitations than the most-severe penalty. The analogy to federal immigration law is also strengthened because DOL has established a 3-year record retention requirement, 20 C.F.R. § 655.21 (c), after expressly considering and rejecting a 5-year retention that "would impose an unnecessary burden on small employers, especially those that are mobile or have a mobile component [such as Respondent-Employer]," 73 Fed. Reg. at 78023.

It is also appropriate to borrow the statute of limitations from the FLSA. The FLSA requires that less-than-willful violations must be filed within 2

years, and willful violations must be charged within 3 years. 29 U.S.C. § 255 (a). DOL has often analogized obligations under the H-2B program to the federal FLSA. *See, e.g.,* 80 Fed. Reg. 24042, 24062 (Apr. 29, 2015).

Respondent has already addressed that this enforcement action qualifies as a "civil action." This proceeding is also pending in a "court of the United States" within the meaning of the borrowing statute. A "court" is "a place where justice is administered," or "a judicial tribunal duly constituted for the hearing and determination of cases." *Webster's Dictionary* at 335. This proceeding emulates Article III courts: In addition to all of the similar procedures and purposes noted previously, there are admissions standards for representatives, 29 C.F.R. § 18.22 (b); hearings are held in "courtrooms," *id*. § 18.86; and the customary assortment of accoutrements are used, such as judicial robes, gavels, and the respectful expressions of "Your Honor."

III. RESPONDENT-EMPLOYER DID NOT SUBSTANTIALLY FAIL TO COMPLY BY MISREPRESENTING ITS TEMPORARY NEED FOR 9 SPECIFIED H-2B WORKERS

A. Statutory and Regulatory Framework

This case involves the H-2B visa program under the Immigration and Nationality Act, 8 U.S.C. § 1101 (a) (15) (H) (ii) (b). Under the INA, Congress vested all enforcement authority in the Secretary of Homeland Security. 8 U.S.C. § 1103 (a) (1). In the H-2B program, violations consist of "a substantial

failure to meet any of the conditions of the petition to admit … or a willful misrepresentation of a material fact in such petition." *Id.* § 1184 (c) (14) (A). A "substantial failure" occurs when there is a "willful failure to comply with the requirements of [§ 1184] that constitutes a significant deviation from the terms and conditions of a petition." *Id.* § 1184 (c) (14) (D). If the Secretary of Homeland Security finds such a violation after a hearing, the Secretary may impose appropriate administrative remedies, including civil money penalties of up to $10,000 per violation. *Id.* § 1184 (c) (14) (A) (i). The Secretary has redelegated this authority to the Secretary of Labor.

During the relevant time frame in 2013, the Department of Labor was operating under the 2008 Rules. 20 C.F.R. § 655, subpart A (2009). This action is based exclusively on a purported violation of the 2008 Rules. Tr. 85 (testimony of Ms. Aguilar); R. Exh. 40, at 50 and 55 (corporate rep deposition of Ms. Aguilar). There are no allegations that the 2015 Rules were violated, nor were there any FLSA or I-129 violations, nor were any sub-regulatory guidance documents violated. Tr. 86, 100 and 115 (testimony of Ms. Aguilar). The Administrator does not enforce USCIS's regulations. Tr. 175 (testimony of Ms. Aguilar).

Responsibility for determining willful misrepresentations and substantial failures is subdelegated to the Administrator. *Id.* § 655.60. The substantive

provisions at issue in this case are found in § 655.22 (n). Tr. 16 (opening statement of Administrator) (this is a misclassification case); Tr. 32 and 114 (testimony of Ms. Aguilar) (there was a single violation). In pertinent part,

- **Misrepresentation of need**. The employer must attest that "The dates of temporary need, reason for temporary need, and number of positions being requested for labor certification have been truly and accurately stated on the application." R. Exh. 76, at 42 (the "misrepresentation-of-need clause").

Further, the Administrator has adopted a practice that it enforces only the attestations in the ETA Form 9142, Tr. 26, 177 (testimony of Ms. Aguilar) (compliance is determined based upon the attestations); Tr. 34 (DOL does not enforce any other obligations other than the attestations); Tr. 77-78 (testimony of Ms. Aguilar) (violation was of attestation #13), and this practice alone is itself a valid and enforceable rule, 5 U.S.C. § 551 (4) (a "rule" is an "agency statement … describing … practice requirements of an agency"); *Associated Dry Goods Corp. v. Equal Employment Opportunity Comm'n*, 543 F. Supp. 950, 965 (E.D. Va. 1982), *rev'd on other grounds*, 720 F.2d 804 (4th Cir. 1983) (agency's informal "practice" of notifying other carriers when a railroad requested an emergency exemption was still a rule subject to notice and comment). The

misrepresentation-of-need clause appears *in pari materia* in attestation #13 of ETA Form 9142. R. Exh. 7, at 11.

In pertinent part, there are 2 remedies at issue in this case. In the event that Respondent-Employer fails to pay wages at the level "specified under the application *and* required by § 655.22 (e)," then the Administrator may require back wages "to comply with *§ 655.22 (e)*," a section *not at issue* in this case. § 655.65 (i) (emphasis added).

In addition, the Administrator may assess civil money penalties under 2 mechanisms.[2] When dealing with back wages under the offered-wage obligation, CMP's are determined according to a fixed formula: They are "equal to the difference between the amount that should have been paid and the amount that actually was paid" to the workers, up to $10,000. § 655.65 (a). Alternatively, CMP's up to $10,000 per violation are available for "any substantial failure." § 655.65 (c). Under this alternative formulation, the Administrator "*shall* consider the type of violation committed and *other relevant factors*." § 655.65 (g) (emphasis added). When relevant, these mandatory "[o]ther factors" include 7 specified factors: the employer's history of prior violations, the number of workers employed and affected by the violations, the

[2] The Administrator introduced *no* evidence that CMP's were properly determined under either of these alternative mechanisms. *See, e.g.*, Tr. 162-164 (testimony of Ms. Aguilar).

gravity of the violations, the employer's good faith efforts to comply, the employer's explanation of the violations, the employer's commitment to future compliance, and the employer's financial gain. *Id*. *See also* 8 U.S.C. § 1184 (c) (14) (C) ("the highest [civil money] penalties shall be reserved for willful failures to meet any of the conditions of the petition that involve harm to United States workers.").

B. Burden of Proof

To establish a violation, the Administrator bears the burden of proof by a preponderance of the evidence for each of the elements. 5 U.S.C. § 556 (d), *cited in Industrial Union Dep't v. American Petroleum Inst*., 448 U.S. 607, 653 (1980). "**[N]o agency is entitled to presume** that the conduct of any person … is unlawful or improper." House Comm. on the Judiciary, *Administrative Procedure Act: Report on S. 7*, H.R. Rep. No. 79-1980, at *36 (May 3, 1946) (emphasis added), *quoted in Director v. Greenwich Collieries Director*, 512 U.S. 267, 279 (1994). Further, it is well recognized that a party's "credible and credited evidence **must be accepted as true** except as the contrary has been shown or such evidence has been rebutted or impeached by duly credited evidence or by facts officially noticed and stated …. No agency is authorized to stand mute and arbitrarily disbelieve credible evidence." H.R. Rep. No. 79-1980, at *36 (emphasis added), *quoted in Director*, 512 U.S. at 279.

C. Elements of a Violation

The Administrator's burden is to prove each of the elements for a violation.

1. Duty. The first element is that a statute or regulation imposed a duty on Respondent-Employer. Tr. 115 (testimony of Ms. Aguilar) (there must have been a statutory or regulatory duty). *See Administrator v. Camo Technologies, Inc.*, No. 11-026, 2012 Westlaw 4321026, at *6 (Admin. Rev. Bd. Aug. 31, 2012) (employer's conduct of attempting to comply showed a duty); *Morello Bros. Constr., Inc.*, No. 85-DBA-116, 1987 Westlaw 247058, at *7 (OALJ Apr. 16, 1987) ("willfully simply means a voluntary intentional violation of a known legal duty") (*quoting United States v. Drape*, 668 F.2d 22, 26 (1st Cir. 1982)). Further, attestations are not enforceable, only the contents of regulatory requirements. *Island Holdings LLC*, No. 2013-PWD-00002, at *8, 11 (BALCA Dec. 3, 2013) (*en banc*) (employer incurs no obligation unless contained in the codified regulations contained in the Code of Federal Regulations).

2. Knowledge. Second, the Administrator must show that Respondent-Employer knew the statutory or regulatory duty applied to its conduct. *See McLaughlin v. Richland Shoe Co.*, 486 U.S. 128, 134 (1988) (rejecting a willfulness standard that required nothing more than the employer's awareness

that the statute possibly applied to it); *Morello Bros. Constr., Inc.*, No. 85-DBA-116, 1987 Westlaw 247058, at *8 (OALJ Apr. 16, 1987) (employer's ignorance was no defense because others in the company knew of the statutory duty). Thus, an agency with enforcement authority must provide notice of its interpretation of what is prohibited before it may impose penalties. *General Elec. Co. v. United States Env'tl Protection Agency*, 53 F.3d 1324, 1330-32 (D.C. Cir. 1995); *Satellite Broadcasting Co. v. Federal Communications Comm'n*, 824 F.2d 1, 3-4 (D.C. Cir. 1987) (agency may not penalize for a violation without first providing notice of its interpretation).

3. Breach. Third, Respondent-Employer must violate the statutory or regulatory duty. Tr. 115 (testimony of Ms. Aguilar) (there must have been a statutory or regulatory duty that was violated). *See Trans World Airlines v. Thurston*, 469 U.S. 111, 128 n. 22 (1985) (rejecting as "harsh" a willfulness standard that called for nothing more than showing a statutory violation).

4. Willfulness. Fourth, Respondent-Employer must commit a "'willful failure,'" which means "a knowing failure or a reckless disregard with respect to whether the conduct was contrary" to 8 U.S.C. § 1184 (c) or the 2008 Rules. § 655.65 (e). DOL adopted this standard by expressly relying upon *McLaughlin v. Richland Shoe Co.*, 486 U.S. 128 (1988) and *Trans World Airlines v. Thurston*, 469 U.S. 111 (1985). § 655.65 (e). *McLaughlin* noted that "willful" is

synonymous with voluntary, deliberate, and intentional, and held that it means the employer "either knew or showed reckless disregard for the matter of whether its conduct was prohibited by the statute." *McLaughlin*, 486 U.S. at 133. Willfulness is not established by conduct that is "merely negligent" but not reckless, such as the absence of a reasonable belief that the employer was complying with the statute, or a good-faith but incorrect "assumption" that the employer was complying. *McLaughlin*, 486 U.S. at 133, 134, 135 & n. 13. Willfulness is not shown when the employer "simply knew of the potential applicability" of the statute. *Trans World*, 469 U.S. at 127. *See also Wayne J. Griffin Elec., Inc.*, No. 93-05, 1993 Westlaw 537380, at *4 (W.A.B. Oct. 29, 1993) (Where the employer "has explicit knowledge of violative wage payment practices" and "takes no action to correct the wrong, and violations continue," employer has acted willfully). Nor is willfulness shown through inadvertence, *A. Vento Constr.*, No. 87-51, 1990 Westlaw 484312, at *3 (W.A.B. Oct. 17, 1990), or "inaccurate," but not falsified, records that omitted several employees' names, *Gaines Elec. Serv. Co.*, No. 87-48, 1991 Westlaw 494684, at *3 (W.A.B. Feb. 12, 1991).

To show a knowing or reckless violation, both the *McLaughlin* and *Trans World Airlines* cases illustrate that employers are entitled to rely upon legal advice and professional agents to properly handle H-2B applications.

McLaughlin, 486 U.S. at 134 (seeking legal advice shows the employer's reasonableness, not recklessness); *Trans World*, 469 U.S. at 129 (employer sought legal advice whether its conduct violated the statute and modified its policy based on that advice, even though the union disagreed with the new policy and the employer believed that the revised action was unnecessary; no evidence that employer was told by counsel that its new policy was discriminatory). Further, the Supreme Court has firmly established in both of those cases that the Administrator must establish that Respondent-Employer's interpretation was so baseless as to be reckless. *Trans World*, 469 U.S. at 129-30. Similarly, an employer may legitimately rely upon the agency's affirmative advice or interpretations, as well as the failure to issue citations in similar circumstances. Wage and Hour Division, *Field Operations Handbook* § 53a01 (Feb. 5, 1993); *Dalheim v. KDFW-TV*, 712 F. Supp. 533, 539 (N.D. Tex. 1989) (employer relied upon prior WHD audit and advice from legal counsel).

5. Substantiality. Fifth, Respondent-Employer's violation must be a significant deviation from the terms and conditions of its petition. 8 U.S.C. § 1184 (c) (14) (D). The "petition" within the meaning of the statute is the I-129 submitted to USCIS, 8 U.S.C. § 1571 (b) (H-2B petition "should be processed not later than 30 days after the filing of the petition"), not the 2008 Rules or the WHD's enforcement policies. *See Administrator v. Camo Technologies, Inc.*, No.

11-026, 2012 Westlaw 4321026, at *2 (Admin. Rev. Bd. Aug. 31, 2012) (compliance with the essential requirements of a statute or regulation can show there was no substantial failure).

D. The Administrator Failed to Show a Willful Violation of 20 C.F.R. § 655.22 (n) (2009)

The Administrator failed to show that the Respondent-Employer willfully violated the misrepresentation-of-need clause.

1. Regulatory preconditions. The Administrator failed to meet the pre-conditions for alleging a violation of 20 C.F.R. § 655.22 (n) (2009). The misrepresentation-of-need clause says nothing at all about the impropriety of compensating workers at the approved wage rate when they were not performing the job duties for the approved job code. The ALJ did not address this issue, but instead created a remedy out of whole cloth.

The ALJ also elided an important pre-condition for violating that clause, which on its face requires that specified information must be "truly and accurately stated *on the application*." This is the very definition of a "misrepresentation." Tr. 113 (testimony of Ms. Aguilar) (misrepresentation occurs in the application when submitted); *id*. at 125-126 (the 2008 Rule required a misstatement in the #9142 itself). The Secretary of Labor admitted as much by indicating that the only method within the 2008 Rule for charging

employers when H-2B workers served outside of the approved job duties was through willful misrepresentations in the application. R. Exh. 96, at 3; R. Exh. 101, at 5; Tr. 117-118 (testimony of Ms. Aguilar) (interpreting Exhs. 96 and 101).[3] The Administrator's shortcoming is that he never charged a misrepresentation in the application. *Id.* Instead, the Administrator only charged a "substantial failure," which occurs when the employer fails to perform the terms and conditions of the ETA Form 9142 during the following season. *Id.* at 113-114.[4] The fact that Ms. Aguilar was unable to answer the most basic questions merely underscores that the 2008 Rule did not have a misclassification regulation. The trial court erred by failing to address that the Respondent-Employer was never charged with violating the misrepresentation-of-need clause as it is written.

---

[3] The ALJ attempted to avoid such irrefutable evidence by pointing to DOL's label that these subsequent revisions were "clarifying," which the ALJ claimed conveyed that the requirement was always there. Not only was the absence of this requirement from the 2008 Rule apparent on its face, but even the Administrator's witness disagreed. Tr. 117-118 (testimony of Ms. Aguilar).

[4] Needless to say, the Administrator's omission is highly prejudicial. If the Administrator had complied with the pre-condition and properly charged a misrepresentation in the #9142 that was submitted on November 7, 2012, R. Exh. 7, at 1, and approved on December 14, 2012, R. Exh. 8, at 1, this case would have been dismissed pursuant to the statute of limitations. The ALJ declined to address the misrepresentation issue solely because the Administrator voluntarily chose not to charge it, D&O 17 n. 40, but ignored the fact that the only way to charge this violation was as a misrepresentation.

2. Regulatory duty. Although the Administrator conceded that he must prove that Respondent-Employer had a relevant statutory or regulatory duty, Tr. 115 (testimony of Ms. Aguilar), the Administrator was unable to do so.

- **Job description.** Ms. Aguilar admitted that the 2008 Rule said nothing at all about how to request a job code during the application process. Tr. 119-120 (testimony of Ms. Aguilar). She further admitted that the 2008 Rule said nothing as to how much detail to provide when submitting the job code, and that she did not know if there was a requirement for how many job tasks to provide, *id*. at 127, how to complete the #9142, *id*. at 144, or the correct test to determine a job code, *id*. at 143-144. She also testified that she had never seen instructions for describing job duties, and she did not know whether DOL provided such instructions. *Id*. at 142. Because the 2008 Rule did not specify the relevant test, Ms. Aguilar did not know how employers were to fill out the #9142. R. Exh. 40, at 123 (corporate rep depo of Ms. Aguilar).
- **Limitations on job duties.** Once the season begins, the Administrator's corporate representative frankly conceded that the 2008 Rule did not limit the employer's assigned job duties to the job code requested. R. Exh. 40, at 81-82, 87 and 102. At trial, Ms. Aguilar alternatively professed that the 2008 Rule said "absolutely nothing" about what must

be done for an H-2B worker to stay within the assigned job code, Tr. 123-124 (testimony of Ms. Aguilar), but she also testified that she did not know whether the 2008 Rule required H-2B workers to stay within the requested job code, Tr. 116 (testimony of Ms. Aguilar).

Under these circumstances, attempting to impose a regulatory duty would seriously undermine the public's ability to understand the rules that must be followed.

Ms. Aguilar also conceded that she was completely unaware that OFLC permitted the combination of job tasks outside of the norm for a single occupation by compensating with "an additional point." Tr. 145-146 (testimony of Ms. Aguilar) (interpreting R. Exh. 98, at 4). To overcome this deficiency, Ms. Aguilar claimed that an H-2B worker must receive the job code that "more closely aligns" with his "primary duties" performed, Tr. 178-180 (testimony of Ms. Aguilar), but then acknowledged that the 2008 Rule did not require those specific tests to determine a job code, *id*. at 189, or any other tests, *id*. at 143-144. In fact, the only staffing requirement for H-2B employers in 2013 was to "offer terms and conditions of employment which are consistent with the nature of the occupation … and industry …." 8 C.F.R. § 214.2 (h) (6) (iii) (B).

In the face of such glaring evidentiary deficiencies, the ALJ erred by failing to identify a regulatory duty that identified what the Respondent-Employer failed to do. The ALJ points to other provisions, such as advertising requirements, regulations governing the combination of job codes in a single application, and instructions when applying for a prevailing wage determination. D&O 4 & 20-21. Not only were these ancillary provisions never charged as the basis for any violations, but even the Administrator's corporate representative never claimed that any of them had a bearing on showing a violation of the misrepresentation-of-need clause precisely because they were not relevant for that purpose.

3. Knowledge. Given that the Administrator was completely unable to establish any regulatory provisions for describing jobs or limiting job duties, it is not surprising that the Administrator was unable to establish that Butler knew of any such restrictions. Mr. Brajevich testified consistently that

- He was not aware of any 2008 regulatory restrictions or tests for describing or limiting job duties or concentrating job duties to promote efficiency, Tr. 279, 304-305, 308, 310, 320 (testimony of Mr. Brajevich), and he denied that Ms. Aguilar's "primary-duty" rule or the "most-closely-aligned" tests were found in the 2008 Rule, *id*. at 309.

- He was not aware of any 2008 regulations governing FLSA-exempt employers. *Id*. at 294.
- He had never heard of SOC codes or how OFLC performed job coding. *Id*. at 304.
- He had never reviewed the O*Net job descriptions for amusement ride attendants. *Id*. at 305.

He did establish his belief that he satisfied his obligation under R. Exh. 98, at 1, to provide sufficient detail to generate a relevant job code. Tr. 307-308 (testimony of Mr. Brajevich). And he testified that he thought his company was complying in 2013. *Id*. at 359, 363-364.

Because the ALJ never identified any pertinent regulatory duty, the ALJ erred by failing to identify an evidentiary basis that Respondent-Employer knew of any particular regulation.

4. Violation. Because the Administrator was unable to establish a relevant duty that was known to Respondent-Employer, the Administrator was never able to establish a violation. Ms. Aguilar readily admitted that she could not say how to show a violation when there were no rules for how to describe the job. *Id*. at 129 (testimony of Ms. Aguilar). Ms. Aguilar testified that she did not know whether the 2008 Rule even required the Administrator to establish that the #9142 was false, *id*. at 124, even though the

misrepresentation-of-need clause expressly requires as much. Ms. Aguilar testified that the citation was for failing to state the reasons for temporary need, *id*. at 77-78, 124, but the duty to identify temporary need has nothing to do with the misrepresentation-of-need clause.

Ms. Aguilar was completely unable to establish any affirmative falsity in Respondent-Employer's submission. According to Ms. Aguilar, such falsity was determined "solely" by the statement of temporary need, *id*. at 126, but she readily conceded that there was not a single falsity in the statement of temporary need, *id*. at 127. Even if an omission of facts could be construed as a violation of the misrepresentation-of-need clause, which it plainly cannot, Ms. Aguilar was unable to establish any material omission without establishing a regulatory obligation to describe the job in a particular manner.

Nor was the Administrator able to show that any of Respondent-Employer's H-2B workers were assigned outside of their job code. Applying for the job code begins by choosing a job title, R. Exh. 86, at 9, but Ms. Aguilar did not know this simple fact, Tr. 132 (testimony of Ms. Aguilar), and was not even aware that the OFLC website allowed job title searches until she was deposed in this case, Tr. 131 (testimony of Ms. Aguilar). Ms. Aguilar conceded that Butler was free to search any job title it wanted. *Id*. at 132. Under the job title test, the best match for "amusement mechanics,"

"amusement drivers," and "amusement supervisors"[5] was the very job code that Butler used, 39-3091. *Id*. at 131-132. Although Ms. Aguilar had concerns regarding specific duties assigned to these 9 H-2B workers, *id*. at 47, 60**, every single one of those duties** was listed as an approved job duty for the carnival attendant selected by Butler, *id*. at 133-141. In light of this, even Ms. Aguilar conceded that it was "possible" that all of these workers had served entirely within their assigned job code. R. Exh. 40, at 121 (corporate representative deposition of Ms. Aguilar). Nor did the Administrator rebut Butler's testimony that it was merely being efficient by concentrating approved duties in a small number of H-2B workers. Tr. at 303-304, 318-319 (testimony of Mr. Brajevich).

Needless to say, Respondent-Employer satisfied the only regulatory staffing requirement, which was to comply with industry practice. This follows because the Respondent-Employer's carnival is staffed just like other carnivals. Tr. 280, 307 (testimony of Mr. Brajevich). Despite all of this evidence that Respondent-Employer properly chose its job code, the ALJ erred by failing to identify any regulatory violation.

5. Willfulness. The Administrator was also unable to establish that Respondent-Employer had proceeded willfully or in reckless disregard of its

[5] Butler reasonably searched these job titles because all H-2B workers performed carnival work. Tr. 352 (testimony of Mr. Brajevich).

obligation to comply. Ms. Aguilar spent well over 100 hours working this case, Tr. 146 (testimony of Ms. Aguilar), yet there were dozens and dozens of basic issues she was unable to address. Even though the Secretary of Labor claims that the entire application process only takes one hour, 20 minutes, Ms. Aguilar spent many hours just researching the job-code issue, *id*. at 146-147, and was still unable to answer numerous basic questions. Even Ms. Aguilar conceded that she did not know whether Respondent-Employer was obligated to exert more effort than she herself had done with unlimited time during the past 6 years, an effort which she readily admitted was "very reasonable." *Id*. at 150. The Administrator has foreclosed common devices by which employers could promote compliance, such as forbidding investigators to put advice to employers in writing or abandoning opinion letters. *Id*. at 149-150. Because the 2008 Rule does not specify any particular tests, Respondent-Employer did the best that it could under the circumstances. Tr. 309 (testimony of Mr. Brajevich).

Respondent-Employer also reasonably relied upon the most knowledgeable and experienced consultant in the industry, Mr. James Judkins. Mr. Judkins is well recognized for his expertise and he has served Respondent-Employer without incident for nearly 2 decades. *Id*. at 274-275. Mr. Judkins was "crucial" because Mr. Brajevich was recently promoted and had never

applied to the H-2B program previously. *Id.* Mr. Judkins advised that it was proper to use carnival workers in these ways to make the company more efficient. *Id.* at 279. Mr. Brajevich did, and was entitled to, rely upon a professional consultant such as Mr. Judkins. *Id.* at 305-306. Given that there was nothing to indicate that the company was acting improperly, *id.* at 279, and that the OFLC had specifically approved Respondent-Employer to follow industry practice and operate the company efficiently, *id.* at 292-293, it was quite reasonable – and certainly not reckless – for Butler to pursue this course of action.

The ALJ erred by imposing what amounted to strict liability under agency law for relying on an erroneous professional consultant. D&O 21-22. The ALJ admitted as much by concluding that Respondent-Employer had not "reasonably" relied on the professional consultant, D&O 22, but reasonableness may show negligence but does not show the required willfulness. The ALJ also erred by extensively elaborating on a purported distinction between "core" and "supplemental" tasks. D&O 22-23. Not only was Respondent-Employer unaware of any such distinction, but so was the Administrator's witness.

Finally, the ALJ admitted that this was not a case of "deliberate" or "willful misclassification." D&O 29. Having made back in session, the entire violation must fall.

6. Substantiality. Finally, the Administrator failed to carry his burden to establish a "significant deviation." Even Ms. Aguilar conceded that she was not aware of any evidence of a significant deviation. Tr. 152 (testimony of Ms. Aguilar).

Nor was any purported violation "substantial." 29 C.F.R. § 655.60 (b). The H-2A program has long recognized the "incidental-duty" rule. Under the H-2A program, "incidental activities" for agricultural labor include operating roadside retail stands, managing pick-your-own activities, and driving a tractor for a hay ride. 73 Fed. Reg. 77110, 77117 (Dec. 18, 2008). It would be difficult or impossible to list all potential "minor and incidental" job responsibilities. *Id*. at 78118. This provision is relevant under the rule from *GT Trans, Inc.*, 2016-TLN-29, at *6 (BALCA Apr. 15, 2016) (borrowing the H-1B definition of "place of employment" to define the interchangeable term, "worksite") and *Brook Ledge, Inc.*, 2016-TLN-00033, at *5-6 (BALCA May 10, 2016) (same), and the ALJ erred by failing to adopt it.

IV. EMPLOYER-RESPONDENT IS NOT LIABLE FOR BACK WAGES OR CIVIL MONEY PENALTIES

Even assuming that the Administrator successfully proved the alleged regulatory violation, there were still fatal shortcomings in the ALJ's determination of back wages and CMP's.

A. The ALJ Erred in Calculating Back Wages

1. Back Wages Were Not Available As a Remedy for This Violation. Even if the Administrator could establish a regulatory violation, the Administrator would still not be entitled to back wages or civil money penalties. As indicated in the opening section, the 2008 Rule simply does not allow back wages as a remedy for this purported violation. 20 C.F.R. § 655.65 (i). As a matter of law, the ALJ erred to find a back wages remedy for this purported violation.

2. The ALJ Erred by Imposing a *De Facto* Timekeeping Duty With Strict Liability. Even though the ALJ acknowledged that Respondent-Employer was not obligated to generate timekeeping records, D&O 11-12, the ALJ effectively imposed a *de facto* timekeeping obligation by pointing to perceived deficiencies in Respondent-Employer's extensive, *countersigned* time records. Ms. Aguilar testified that Respondent-Employer's contemporaneous time records were provided to her early in her investigation, *id*. at 108 (testimony of Ms. Aguilar), and that she knew they were countersigned each week by the relevant H-2B workers, *id*. at 108. The ALJ refused to give *any*

weight whatsoever to any of the more than 1000 pages of contemporaneous time records because of nitpicking over duplicate or missing entries. D&O 11-12. This went beyond a *de facto* timekeeping duty and amounted to a strict liability standard for this latest deviation. Nor was this rejection limited to purported examples of duplicate or missing entries, but it was even extended to uncontested entries, which were the overwhelming majority of those entries. Once the ALJ dismissed the time records out of hand, he proceeded to use a license to "reconstruct" based on disputed evidence.

The ALJ's disregard of countersigned time records should itself be rejected. Even Ms. Aguilar admitted that FLSA-exempt employers such as Respondent-Employer were not required to keep any time records. *Id*. at 100, 106-107, 169; R. Exh. 20 & 21 (calculation of FLSA exemption). Inexplicably, she (and ultimately the ALJ) rejected *countersigned* time records without any further investigation why they were countersigned, something that Ms. Aguilar admits she should have done. Tr. 109 (testimony of Ms. Aguilar). If she had investigated, she would have determined that the time records recorded actual hours worked. *Id*. at 314 (testimony of Mr. Brajevich). Ultimately, Ms. Aguilar and the ALJ rejected Respondent-Employer's business records without any authority or regulatory basis under the H-2B program, which does not require any particular timekeeping method. *Id*. at 156 (testimony of Ms.

Aguilar). Respondent-Employer has been audited nearly every year for more than a dozen years, and no other state agency has ever challenged the reliability of Respondent-Employer's timekeeping. *Id*. at 291-292 (testimony of Mr. Brajevich).

The ALJ perpetuated the timekeeping error by relying upon a case in which an employer refused to produce purported, contemporaneous time records until the day of trial, D&O 24, whereas Employer-Respondent produced its *countersigned* time records when it passed during the investigation. Certainly, there was no regulatory obligation to maintain flawless timekeeping records, and the ALJ erred by requiring as much.

Ultimately, the ALJ erred by improperly shifting the burden of proof from the Administrator to the Employer-Respondent. In doing so, the Administrator not only failed to meet his burden, but the Administrator benefited from an extra-regulatory, burden-shifting presumption. The A.L.J.'s error in finding a "silent" timekeeping duty was compounded by "silently" adopting without providing any "reasons or basis" the burden-shifting presumptions under *Anderson v. Mt. Clemens Pottery Co.*, 328 U.S. 680 (1946). On its face, *Mt. Clemens* does not apply to FLSA-exempt employers lacking a statutorily-imposed timekeeping duty. Without imposing an express timekeeping obligation, the A.L.J.'s newly-minted interpretation requiring

flawless records shifted the burden of proof that Congress expressly placed upon the Administrator. This was an error of law.

3. The ALJ Improperly Used the Mean H-2B Wage Rate. The ALJ also erred as a matter of law by adopting the "mean" or average H-2B wage rate, D&O 26, even though that calculation did not exist under the 2008 DOL Rule. Rather, it was the Administrator's burden to prove which of 4 skill levels applied under 20 C.F.R. § 655.10 (2009), an issue on which no evidence was presented. Butler requested skill level I wages, Tr. at 314-315 (testimony of Mr. Brajevich), and OFLC issued them, R. Exh. 5, at 4, but this was an evidentiary issue with which Ms. Aguilar was completely unfamiliar, Tr. 120-123, 160-161 (testimony of Ms. Aguilar).

4. The ALJ Improperly Rejected Respondent-Employer's Extensive Credits. The ALJ also erred by rejecting Employer-Respondent's extensive proof of credits. A credit is an amount that is used to offset legal obligations. Tr. 101 (testimony of Ms. Aguilar). Ms. Aguilar acknowledged that H-2B employers can have credits as offsets. *Id*. at 169. None of the near-annual state wage and hour audits had ever challenged any of Butler's credits. *Id*. at 291 (testimony of Mr. Brajevich). It is far from clear why this occurred. D&O 27.

Ms. Aguilar acknowledged that she did not know the significance of OFLC approving Employer-Respondent to follow industry practice related to weekly salaries, housing, and transportation. Because she was unfamiliar with carnival practices, she was unable to address whether Employer-Respondent had complied with prevailing practice. Id. at 101. Thus, it was uncontested that Employer-Respondent was following industry practice on the issue of credits. *Id*. at 287, 292-293 (testimony of Mr. Brajevich).

There is a vague reference (without any evidentiary basis) that the ALJ may have concluded that Respondent-Employer failed to disclose the credits as required by 20 C.F.R. § 655.22 (g) (1). D&O 27. It was *undisputed* that the H-2B workers were well aware of these credits. More than 90% of the workers were returning from the prior year, so they already knew the Respondent-Employer's system. Tr. 282 (testimony of Mr. Brajevich). Mr. Judkins and his staff were also responsible for educating all workers on these issues so that they could get approved at the consulate. *Id*. at 280-282. The same information was then reinforced as part of Respondent-Employer's orientation upon arrival at the beginning of the season. *Id*. at 284. And the workers themselves affirmed their knowledge directly to Mr. Brajevich, *id*. at 283, and signed a witness statement to the same effect, R. Exh. 39, at 1. This witness statement

included 3 of the 9 specified individuals who continue to work for Butler. Tr. 283-284 (testimony of Mr. Brajevich).

This is yet another classic example of dueling interpretations. Regardless of the merits supporting the A.L.J.'s conclusion, there is simply no evidence that the Employer-Respondent's interpretation was so baseless as to be reckless. The A.L.J. could not cite to a single reference supporting the vague position that deductions must be disclosed in the #9142. In fact, the Employer-Respondent very reasonably concluded that deductions could be disclosed right up until the workers' arrival at the worksite. This interpretation was eminently reasonable, given that the preamble expressly relied upon the H-2A practice, and those regulations had just adopted that definition the day before. According to DOL, the disclosure obligation was taken verbatim from the H-2A regulations, 73 Fed. Reg. 78020, 78037 (Dec. 19, 2008), and those H-2A regulations expressly approved of disclosures up through the start of the employment at the worksite, 73 Fed. Reg. 77110, 77155 (Dec. 18, 2008) (disclosures "must be provided to the worker no later than the date the work commences").

In dueling-interpretation cases, the law is clear that there is no knowing violation unless the employer *knew* that its interpretation was wrong. To show a knowing or reckless violation, both the *McLaughlin* and *Trans World Airlines*

cases illustrate that employers are entitled to rely upon legal advice and professional agents to properly handle H-2B applications. *McLaughlin*, 486 U.S. at 134 (seeking legal advice shows the employer's reasonableness, not recklessness); *Trans World*, 469 U.S. at 129 (employer sought legal advice whether its conduct violated the statute and modified its policy based on that advice, even though the union disagreed with the new policy and the employer believed that the revised action was unnecessary; no evidence that employer was told by counsel that its new policy was discriminatory). Further, the Supreme Court has firmly established in both of those cases that the Administrator must establish that Employer-Respondent's interpretation was so baseless as to be reckless. *Trans World*, 469 U.S. at 129-30. Thus, the supposition that the ALJ may have reached a different conclusion, *see* Order at 29, does not undercut Employer-Respondent's ability to rely on professional advice as well as OFLC's approval of its application without exposing it to the hazard of a knowing violation.

Turning now to the calculation of credits, the issue should be remanded for the ALJ's determination in the first instance. Nevertheless, here is the undisputed evidence corroborating the figures reflected in R. Exh. 47.

- **Income tax**. It is undisputed that Butler paid the employee's obligation for income taxes. Tr. 111 (testimony of Ms. Aguilar); Tr. 246, 248, 262,

264 (testimony of Mr. Tom Shobaken); Tr. 300 (testimony of Mr. Brajevich). It is undisputed that there are no regulatory restrictions on an employer claiming a credit for paying the worker's portion of the income tax. Tr. 111 (testimony of Ms. Aguilar); Tr. 300 (testimony of Mr. Brajevich). The source documents for the payment of income taxes are gathered in R. Exh. 37 and calculated in R. Exh. 47.

- **Housing.** It is undisputed that housing is a normal expense of living and it has value. Tr. 104 (testimony of Ms. Aguilar). It is also undisputed that carnivals could take a housing credit in 2013.[6] Tr. 105, 188 (testimony of Ms. Aguilar); R. Exh. 83 (guidance letter from DOL). OFLC approved Employer-Respondent to provide housing consistent with industry practice, and that is exactly what Employer-Respondent did. Tr. 287, 288, 294-295 (testimony of Mr. Brajevich). Employer-Respondent's bunkhouses included valuable, modern living conveniences. Tr. 295 (testimony of Mr. Brajevich). The source

[6] Ms. Aguilar implied, without actually contending, that there might be issues relating to primary benefit, cost basis, voluntariness, and health and safety standards. Tr. 174 (testimony of Ms. Aguilar). Even if the primary benefit rule applies to FLSA-exempt employers, Butler never benefited from having workers near the worksite and had no way to call them back to work during off hours. Tr. 373-374 (testimony of Mr. Brajevich). Mr. Brajevich recited at great length a list of reasons why employees primarily benefit from mobile housing, *id*. at 296-299, 372-374, and that testimony was undisputed. All of Butler's housing credit was determined solely by cost basis. Tr. 201-211 (testimony of Mr. Nittler). Bunkhouses were always provided voluntarily, and Butler's bunkhouses were frequently inspected and approved under local health and safety ordinances. Tr. 299 (testimony of Mr. Brajevich).

documents for the cost of housing are gathered in R. Exh. 31 and calculated in R. Exh. 31, at 1, and R. Exh. 47.

- **Relocation travel.** It is undisputed that relocation travel is available for credit to FLSA-exempt employers. Tr. 111 (testimony of Ms. Aguilar). OFLC approved Employer-Respondent to provide relocation travel consistent with industry practice, and that is exactly what Employer-Respondent did. Tr. 287, 288 (testimony of Mr. Brajevich). It was reasonable to divide total relocation cost by all workers. Tr. 112 (testimony of Ms. Aguilar). The source documents for the cost of in-and-out-of-country travel are gathered in R. Exh. 33 and calculated in R. Exh. 34, at 1, and R. Exh. 47.
- **Local convenience travel**. It is undisputed that local convenience travel is a classic benefit for workers. Tr. 113 (testimony of Ms. Aguilar). OFLC approved Employer-Respondent to provide local convenience travel consistent with industry practice, and that is exactly what Employer-Respondent did. Tr. 287, 288 (testimony of Mr. Brajevich). The source documents for the cost of local convenience travel are gathered in R. Exh. 35 and calculated in R. Exh. 36, at 1, and R. Exh. 47.

- **Prepayment plan**. It is undisputed that an employer can pay wages in advance and take a credit toward future obligations. Tr. 103 (testimony of Ms. Aguilar). DOL has long recognized that employers may prepay for work to be performed later in the season, then recoup that credit later, and that this allows employees the benefit of a fairly stable wage rate even as weekly hours fluctuate. *E.g.*, *Wage-And-Hour Opinion Letter* (May 21, 1971); *Wage-And-Hour Opinion Letter No. FLSA 2005-3*, at ¶ 4 (Jan. 7, 2005) < http://www.dol.gov/whd/opinion/FLSA/2005/2005_01_07_3_FLSA_PrepaymentPlan.pdf >; U.S. Department of Labor, Wage & Hour Division, *Field Operations Handbook* ¶ 32j16c (2016) < http://www.dol.gov/whd/FOH/FOH_Ch32.pdf >. OFLC approved Employer-Respondent to provide a weekly salary consistent with industry practice, and that is exactly what Butler did. Tr. 287, 288-289, 293 (testimony of Mr. Brajevich). This benefits employees because it averages out and they get paid for what they are owed. *Id*. at 290. Employer-Respondent is audited nearly every year and no state officials have ever suggested there was a problem with their prepayment plan. *Id*. at 291. This amount is available as a credit because Employer-Respondent prepayment plan was based upon 40 hours per week, even

though the workers never reached that amount during the early season at issue in this case.

The very purpose of taking these credits for benefits conferred is restitutionary: to put the parties in the position that they would have been in, the Administrator's purported goal in this case, Tr. 52 (testimony of Ms. Aguilar). *See, e.g.*, *Wage-And-Hour Opinion Letter No. FLSA 2005-3*, at ¶ 4 (Jan. 7, 2005) (discussing the purpose of a prepayment plan) < http://www.dol.gov/whd/opinion/FLSA/2005/2005_01_07_3_FLSA_PrepaymentPlan.pdf >; U.S. Department of Labor, Wage & Hour Division, *Field Operations Handbook* ¶ 32j16c (2016) (same) < http://www.dol.gov/whd/FOH/FOH_Ch32.pdf >. As long as the benefit was conferred, then Employer-Respondent's restitutionary interest must be satisfied, regardless of when the benefit occurred. As demonstrated with the calculations in R. Exh. 47, "total compensation," which includes "wages paid" and Employer-Respondent's credits, far exceeds the Administrator's "back wage claim" for all 9 individuals. Thus, none of these individuals are entitled to back wages.

B. The ALJ Improperly Determined CMP's

There are 2 methods for determining CMP's. To the extent that the ALJ based that determination of CMP's on the hefty back wage claim, D&O 27-28,

Respondent-Employer has already demonstrated that the regulations expressly prohibited any such remedy for this particular violation. Thus, the corresponding CMP's must similarly fall.

Alternatively, CMP's up to $10,000 per violation are available for "any substantial failure." § 655.65 (c). Under this alternative formulation, the Administrator "*shall* consider the type of violation committed and *other relevant factors*." § 655.65 (g) (emphasis added). When relevant, these mandatory "[o]ther factors" include 7 specified factors: the employer's history of prior violations, the number of workers employed and affected by the violations, the gravity of the violations, the employer's good faith efforts to comply, the employer's explanation of the violations, the employer's commitment to future compliance, and the employer's financial gain. *Id*. *See also* 8 U.S.C. § 1184 (c) (14) (C) ("the highest [civil money] penalties shall be reserved for willful failures to meet any of the conditions of the petition that involve harm to United States workers.").

To the extent that the Administrator may belatedly claim to invoke consideration of the mandatory 7 factors, those similarly point to no CMP's.

- It was undisputed that Employer-Respondent has a clean enforcement history, and that only a small portion of Employer-Respondent's large workforce was affected. D&O 28; Tr. 162-163 (testimony of Ms.

Aguilar); Tr. 315 (testimony of Mr. Brajevich). Even though the Respondent-Employer had a sterling enforcement history, the ALJ erred by relying on uncharged conduct and depriving Respondent-employer of its due process rights rebut the allegations against it.

- Ms. Aguilar was unable to recall any conclusions she may have reached as to the remaining factors, which constitutes a failure of the Administrator's burden of proof. The ALJ erred as a matter of law by improperly shifting the burden of proof to Respondent-Employer.
- The violations were limited to 9 out of 246 H-2B workers, or an extremely low 3.7%. The ALJ erred by failing to give credit to Respondent-Employer because of sheer speculation that there may have been other, uncharged misconduct, once again improperly shifting the burden of proof to Respondent-Employer.
- The ALJ erred by concluding that the Respondent-Employer's violation of the misrepresentation-of-need clause undermined the objectives of the immigration statute, but without citing any basis in light of the specific prohibitions of that clause.
- It was undisputed that Respondent-Employer takes extensive efforts to maintain compliance, which included hiring a professional. *Id*. at 316-

317. The ALJ erred by concluding that Respondent-Employer needed to repeat that expertise rather than rely upon it.

- The ALJ erred by discounting or ignoring virtually every piece of favorable evidence to show the justification for Respondent-Employer's explanation.
- The ALJ erred by concluding that Respondent-Employer is "likely" to comply in the future, but gave no credit for that conclusion. D&O 29. To have changed course as a result of the Administrator's allegations would have been interpreted as acknowledging a violation that does not exist in fact. *See Administrator v. Camo Technologies, Inc.*, No. 11-026, 2012 Westlaw 4321026, at *6 (ARB Aug. 31, 2012) (employer's conduct of attempting to comply showed a duty).
- The ALJ erred by ignoring that Respondent-Employer substantially overpaid each of these workers in light of the various credits that were claimed to and approved by OFLC.

V. THE 2008 DOL RULE IS LEGALLY UNENFORCEABLE

Employer wishes to preserve the issue that the 2008 Regulations are unenforceable. Tr. 22. This issue was previously briefed and addressed by the Board. *Compare Administrator v. Strates Shows, Inc.*, No. 15-069, slip op. at *6 (ARB June 30, 2017) ("vacatur of the 2008 H-2B regulations rendered the

Administrator's legal authority for pursuing the present action null and void."), *vacated*, *id.*, slip op. at *2 (ARB Aug. 16, 2017), *with id.*, slip op at *2 (ARB Aug. 16, 2017) ("omitting the characterization of the 2008 H-2B regulations as unenforceable"). Despite its later tentativeness, the ARB's original ruling that the 2008 regulations were not enforceable – without reversing the prior decision – were correct and remain persuasive law. *County of Los Angeles v. Davis*, 440 U.S. 625, 646 n. 10 (1979) ("Although a decision vacating a judgment necessarily prevents the opinion of the lower court from being the law of the case, … the expressions of the court below on the merits, **if not reversed**, will continue to have precedential weight and, until contrary authority is decided, are likely to be viewed as persuasive authority if not the governing law of the [lower appellate court].") (emphasis added).

Even if the ARB has not persuasively determined that the 2008 regulations are unenforceable, the issue remains viable despite the most recent ruling from the Northern District of Florida. D&O 14. For this reason, Employer-Respondent wishes to preserve the issue.

CONCLUSION

The ALJ's opinion should be reversed and the case dismissed. Once the statute of limitations and the merits of the violation, if necessary, are properly addressed, there is no basis for the back wages or civil monetary penalties.

ADMINISTRATIVE REVIEW BOARD
U.S. DEPARTMENT OF LABOR
WASHINGTON, DC

In the Matter of:	)	
	)	ARB Case No. 2021-0007
ADMINISTRATOR, WAGE & HOUR DIVISION,	)	ALJ Case No. 2018-TNE-00019
Prosecuting Party,	)	
v.	)	
BUTLER AMUSEMENTS, INC.,	)	
Respondent.	)	

ADMINISTRATOR'S UNOPPOSED MOTION FOR EXTENSION OF TIME TO FILE RESPONSE BRIEF

The Administrator of the Wage and Hour Division, U.S. Department of Labor ("Administrator"), requests an extension of time of thirty (30) days, up to and including March 3, 2021, to file the response brief in the above-captioned case. In support of this request, counsel for the Administrator states the following:

1. Pursuant to the Administrative Review Board's ("Board") Order of December 2, 2020, the Administrator's response brief is currently due on or before February 1, 2021.

2. The Administrator is requesting an extension of time because of competing deadlines. In particular, the Counsel for Appellate Litigation, who is responsible for the first-line review of this case, faces upcoming deadlines on a variety of litigation and legal advice projects, including review of the Secretary's response brief in *Scalia v. Vickram Bedi and Datalink Computer Products, Inc.*, No. 20-1955, which is due to be filed with the Second Circuit on January 25,

2021, and helping to prepare for oral argument on behalf of the Secretary in *Scalia v. Arizona Logistics, Inc.*, No. 20-15765, to be presented before the Ninth Circuit on February 5, 2021.

3. Counsel for the Administrator has conferred with counsel for Respondent, who consents to the Administrator's request for an extension of time. The Administrator also requests that the Board extend Respondent's reply deadline to March 24, 2021.

For the foregoing reasons, the Administrator respectfully requests that the Board grant her an extension of time of thirty (30) days, up to and including March 3, 2021, to file the opening brief in this case, and that the Board extend Respondent's deadline to file a reply until March 24, 2021.

Respectfully submitted,

KATE S. O'SCANNLAIN

ALJ CASE NO. 2018-TNE-00019

DATE: January 22, 2021

ORDER GRANTING EXTENSION OF TIME

The Administrative Review Board has received the Administrator's motion for an extension of time in which to file a response brief. Administrator has also requested that the Respondents be allowed an extension to file the reply brief. For good cause shown, the extensions are **GRANTED.** The Administrator may file a response brief on or before **March 3, 2021.** Respondents may file a reply brief on or before **March 24, 2021.**

In all other respects, the Board's November 3, 2020, Notice of Appeal and Order Establishing Briefing Schedule remains in effect.

IV. The ALJ's Decisions 15

SUMMARY OF ARGUMENT 20

ARGUMENT 24

I. THE ADMINISTRATOR'S CASE IS NOT TIME BARRED 24

A. The Administrator Timely Issued the Determination Letter 24

B. 28 U.S.C. 1658(a) Does Not Apply to This Case Because It Does Not Apply to Administrative Actions 28

C. Statutes of Limitations Should Not Be Borrowed from Other Statutes in Suits Brought by the Government 30

II. THE ALJ CORRECTLY CONCLUDED THAT RESPONDENT VIOLATED THE INA AND THE H-2B REGULATIONS 32

Page

A. Respondent Violated the Temporary Need Requirement in the H-2B Regulations by Employing H-2B Workers in Jobs Outside the Job Classification on Respondent's Application for Temporary Labor Certification....32

B. The ALJ Properly Concluded that Respondent's Violation of the Temporary Need Requirement Was a Substantial Failure to Comply....36

1. Respondent recklessly disregarded whether its conduct was contrary to the H-2B program requirements....37

2. Responent's reckless disregard constituted a significant deviation from the terms and conditions of the TEC....40

III. THE ALJ PROPERLY DETERMINED THAT RESPONDENT OWED BACK WAGES AND THE AMOUNT OF BACK OWED....43

A. The ALJ Correctly Determined that the Administrator Can Assess Back Wages for Violations of the Temporary Need Requirement....43

B. The Back Wages Assessed by the ALJ Are Appropriate....45

C. The ALJ Properly Rejected Respondent's Arguments for Offsets....47

IV. THE ALJ'S CIVIL MONEY PENALTY ASSESSMENT WAS REASONABLE....48

CONCLUSION....52

Restatement (Third) of Agency
Rule § 2.01 (2006).....40

JURISDICTIONAL STATEMENT

This matter arises under the H-2B temporary foreign worker program of the Immigration and Nationality Act ("INA"). 8 U.S.C. 1101(a)(15)(H)(ii)(b), 1184(c)(14); U.S. Department of Labor's ("Department") H-2B regulations, 20 C.F.R. Part 655, subpart A (2009) (and applicable procedural regulations in 29 C.F.R. Part 503 (2015)). In 2018, the Administrator ("Administrator")[1] of the Wage and Hour Division ("WHD") brought an H-2B enforcement action against Butler Amusements, Inc. ("Respondent" or "Butler"). Respondent sought review of the Administrator's determination, and requested a hearing before an Administrative Law Judge ("ALJ"). The ALJ issued an Order Denying Summary Decision on November 14, 2018. A hearing was held in May 2019, and the ALJ issued his decision on September 30, 2020.

The Administrative Review Board ("Board" or "ARB") has jurisdiction to review an ALJ's decision and issue the final determination of the Secretary of Labor ("Secretary") under the H-2B program. U.S. Dep't of Labor, Sec'y's Order 01-2020, *Delegation of Auth. & Assignment of Responsibility to the Admin. Review Bd.* (Feb. 21, 2020), 85 Fed. Reg. 13,186, 2020 WL 1065013 (Mar. 6, 2020); *see also* 29 C.F.R. 503.51 (2015). The Board reviews an ALJ's decision de novo and

[1] As of January 20, 2021, the Principal Deputy Administrator is the ranking official responsible for the U.S. Department of Labor's Wage and Hour Division.

acts with "all the powers [the Secretary] would have in making the initial decision." 5 U.S.C. 557(b); *see Adm'r v. Am. Truss*, ARB Case No. 05-032, slip op. at 2-3 (ARB Feb. 28, 2007) (citing *Talukdar v. U.S. Dep't of Veterans Affairs*, ARB Case No. 04-100, slip op. at 8 (ARB Jan. 31, 2007) for proposition that "ARB applies de novo review in INA cases"); *see also Adm'r v. Elderkin Farm*, ARB Case Nos. 99-033, 99-048, slip op. at 12 (ARB June 30, 2000) (clarifying that de novo review means the Board may substitute its judgment for the ALJ's on civil money penalties).

STATEMENT OF THE ISSUES

1. Whether the ALJ correctly determined that the Administrator's enforcement action was not time-barred.

2. Whether the ALJ appropriately held that, by employing nine H-2B workers in positions outside the certified job classification, Respondent substantially failed to comply with the requirement in the applicable H-2B regulations to accurately represent its temporary need for H-2B workers.

3. Whether the ALJ correctly concluded that awarding back wages was an appropriate remedy for the violation at issue and correctly calculated the back wages due to nine H-2B workers who worked outside the certified job classification.

4. Whether the ALJ correctly assessed civil money penalties for Respondent's violation.

STATEMENT OF THE CASE

I. Statutory and Regulatory Framework

The H-2B program permits the employment of nonimmigrants to perform temporary, non-agricultural labor or services, but only if "unemployed persons capable of performing such service or labor cannot be found in this country." 8 U.S.C. 1101(a)(15)(H)(ii)(b). In order to ensure this, the Department of Labor must certify to the Department of Homeland Security ("DHS") "whether or not United States workers capable of performing the temporary services or labor are available and whether or not the alien's employment will adversely affect the wages and working conditions of similarly employed United States workers." 8 C.F.R. 214.2(h)(6)(iii)(A).

Thus, employers seeking to employ H-2B workers must obtain a certification from the Department of Labor before they petition DHS to employ H-2B workers. 20 C.F.R. 655.1(b) (2009).[2] As part of the certification process, an

[2] All references to 20 C.F.R. Part 655 in this brief are to the regulations as codified by the Final Rule published on December 19, 2008, which became effective on January 18, 2009. U.S. Dep't of Labor, Emp't & Training Admin., *Labor Certification Process and Enf't for Temp. Emp't in Occupations Other Than Agric. or Registered Nursing in the U.S. (H–2B Workers), & Other Tech. Changes*, 73 Fed. Reg. 78,020, 78,047, 2008 WL 5262663 (Dec. 19, 2008) (hereinafter "2008 Rule"). The 2008 Rule was superseded by the Interim Final Rule that was

employer must first obtain a prevailing wage determination for the job position or positions for which the employer seeks to employ H-2B workers by submitting ETA Form 9141, Application for a Prevailing Wage Determination ("9141") to the Department's Office of Foreign Labor Certification ("OFLC"). 20 C.F.R. 655.10. The 9141 instructs H-2B employers to "describe the job duties, in detail, to be performed by any worker filling the job opportunity" and to include a "Standard Occupational Classification"[3] or Occupational Net (O*NET) code[4] for the requested occupation. Decision and Order ("D&O") 3 (Sept. 30, 2020).

After obtaining a prevailing wage determination, the employer must file ETA Form 9142, the Application for Temporary Employment Certification ("TEC" or "9142") with OFLC. 20 C.F.R. 655.20.[5] On the TEC, an employer must

published and took effect on April 29, 2015, but this case involves only violations of the 2008 Rule.

[3] The Standard Occupational Classification ("SOC") system is a federal statistical standard used by federal agencies to classify workers into occupational categories for the purpose of collecting, calculating, or disseminating data.

[4] O*NET is a database of descriptive occupational information maintained by the Department's Employment and Training Administration. O*NET's comprehensive database includes job characteristics and tasks, as well as worker attributes, and can be searched using SOC codes for specific occupations.

[5] As part of the certification process, an employer must take certain actions to recruit U.S. workers for the job opportunity, including submitting a job order to the state workforce agency, advertising the job, and including in the job order and advertisement a description of the job duties and the wage offered. 20 C.F.R. 655.15, 655.17.

attest that it will abide by the terms and conditions set by the H-2B regulations and the obligations on its TEC. 20 C.F.R. 655.20(a), 655.22. The employer must certify, under penalty of perjury, that the information contained on the TEC is true and accurate, and it must acknowledge and accept each obligation of the H-2B program. 20 C.F.R. 655.65(f). Those obligations include, among others, the requirement to accurately represent the employer's "dates of temporary need, reason for temporary need, and number of positions being requested." 20 C.F.R. 655.22(n) (hereinafter referred to as the "temporary need requirement"). A TEC is "valid only for the number of H-2B positions, the area of intended employment, the specific services or labor to be performed, and the employer certified . . . ." 20 C.F.R. 655.34(b). The requirements that H-2B employers not advertise to U.S. workers a different position or different working conditions than those offered to H-2B workers, not bring in more H-2B workers than are needed, and not place H-2B workers in locations or jobs that were not advertised to U.S. workers ensure that employers using the H-2B program do not adversely affect the wages or working conditions of U.S. workers, as required by 8 C.F.R. 214.2(h)(6)(iii)(A) and 20 C.F.R. 655.1(b). After the Department certifies the TEC, the employer is required to submit the approved TEC along with its petition to DHS to employ H-2B workers. 8 C.F.R. 214.2(h)(6)(iv).

Pursuant to 8 U.S.C. 1184(c)(14)(B), effective in 2009, DHS delegated to the Department of Labor its investigative and enforcement authority to assure compliance with the terms and conditions of employment under the H-2B program. *See* 2008 Rule, 73 Fed. Reg. at 78,046. The statute permits DHS to delegate the authority to "impose such administrative remedies . . . as the Secretary of [DHS] . . . determines to be appropriate." 8 U.S.C. 1184(c)(14)(A)(i). This authority was delegated within the Department to the WHD Administrator. 20 C.F.R. 655.50. In accordance with the delegation of enforcement authority, the Department's 2008 Rule set forth employer obligations under the H-2B program, 20 C.F.R. 655.22, as well as a WHD enforcement process, 20 C.F.R. 655.50.[6]

[6] In 2015, the Department's 2008 Rule was vacated and permanently enjoined by the U.S. District Court for the Northern District of Florida. *Perez v. Perez*, No. 14-cv-682, Doc. 14, slip op. at 7-8 (N.D. Fla. Mar. 4, 2015). However, the *Perez* court later clarified this order, stating that "the permanent injunction was not intended to, and does not, apply retroactively." *Perez v. Perez*, No. 14-cv-682, Doc. 62 (N.D. Fla. Sept. 4, 2015). In 2018, an H-2B employer brought a contempt action in the same court, seeking sanctions against the Department for violating the *Perez* injunction by continuing to enforce the 2008 Rule. *Drew's Lawn & Snow Serv., Inc.*, No. 18-cv-979, Doc. 14 (N.D. Fla. Feb. 11, 2019). The court dismissed the case with prejudice, and stated, "based on the Court's clarification, the permanent injunction in *Perez* does not apply retroactively to prevent [the Department] from enforcing the conditions of labor certifications issued under the 2008 Regulations prior to the entry of the injunction." *Id.*, slip op. at 6.

Therefore, in accordance with the *Perez* clarification, the Department still enforces compliance with the 2008 Rule for labor certifications issued pursuant to that rule before the district court's permanent injunction took effect on April 30, 2015, such as the certification in this case. The Board has approved this approach. *Adm'r v. Strates Shows, Inc.*, ARB Case No. 15-069, Amended Final Decision & Order, slip

After conducting an investigation, WHD determines whether a violation has occurred: whether the employer willfully misrepresented a material fact, or substantially failed to meet the conditions attested to, on the TEC or the petition. 8 U.S.C. 1184(c)(14)(A); 20 C.F.R. 655.60. A substantial failure is defined in the INA as a "willful failure to comply with the [H-2B provisions] that constitutes a significant deviation from the terms and conditions of the petition." 8 U.S.C. 1184(c)(14)(D). The H-2B regulations define a "willful failure" as "a knowing failure or reckless disregard with respect to whether the conduct was contrary" to the INA and its regulations. 20 C.F.R. 655.65(e).

After determining that an employer has violated the requirements of the H-2B program, WHD may assess the following remedies for violations: civil money

---

op. at 2-3 (ARB Aug. 16, 2017) (reconsidering decision characterizing 2008 H-2B Rule as unenforceable and noting that the district court in *Perez* "held that the permanent injunction did not apply retroactively—did not apply to past labor certifications approved under the 2008 [Rule] before the injunction").

Respondent argues that the Board's earlier, vacated order in *Strates Shows* "remain[s] persuasive," Resp't Br. 49. As the ALJ correctly noted, the Board in *Strates Shows* vacated its earlier order in its entirety and thus it "does not reflect the ARB's current view on the enforceability of" the 2008 Rule. Order Denying Summary Decision Order ("Summ. Decision Order") 6 (Nov. 14, 2018).

In light of the rulings of both the U.S. District Court for the Northern District of Florida and the ARB in favor of the Department's continued authority to enforce the 2008 Rule, Respondent's continued attempts to argue – or even to preserve the argument – that the 2008 Rule is unenforceable, Resp't Br. 48-49, borders on frivolous.

penalties, reinstatement of displaced U.S. workers, back wages, or other appropriate legal or equitable remedies. 20 C.F.R. 655.65. The Department has explained that awarding back wages for failure to pay the correct prevailing wage "further[s] the purposes of the H-2B program because it will reduce employers' incentives to bypass U.S. workers in order to hire and exploit H-2B foreign workers, and guard against depressing U.S. workers' wage rates." 2008 Rule, 73 Fed. Reg. at 78,047.

For civil money penalties, WHD may assess penalties "in an amount not to exceed $10,000 per violation for any substantial failure to meet the conditions provided" in the TEC Application. 20 C.F.R. 655.65(c). When determining the amount of penalties, WHD is required to consider the type of violation committed and other relevant factors including: 1) the previous history of H-2B violations by the employer; 2) the number of workers affected by the violation; 3) the gravity of the violation; 4) the good faith efforts by the employer to comply; 5) the employer's explanation of the violation; 6) the employer's commitment to future compliance; and 7) the extent to which the employer achieved a financial gain as a result of the violation. 20 C.F.R. 655.65(g). The "highest penalties" shall be for violations that "involve harm to [U.S.] workers." 8 U.S.C. 1184(c)(14)(C); 20 C.F.R. 655.65(g).

II. Statement of Facts

Butler Amusements operates a traveling amusement carnival that provides rides, games, and concessions to fairs in Arizona, California, Idaho, Nevada, Oregon, and Washington. D&O 2-3. Michael Brajevich was Butler's president and chief executive officer. *Id.* at 2; Tr. 268:11-13.[7] Respondent is a longtime participant in the H-2B program, and claims that it is exempt from the minimum wage and overtime requirements of the Fair Labor Standards Act under 29 U.S.C. 213(a)(3). D&O 3. Butler Amusements has used James K. Judkins, an agent, to file applications for H-2B workers since 2000. Tr. 274:2-10. Respondent's participation in the H-2B program was based on its asserted need for workers to fill Amusement and Recreation Attendant positions. D&O 3.

In 2012, Judkins filled out Butler's Application for a Prevailing Wage Determination (the 9141) for "Amusement and Recreation Attendants – Traveling Carnival" for Butler's 2013 season. D&O 3. On the 9141, Respondent entered "Amusement and Recreation Attendants" as the Standard Occupation Code/O*NET job title. *Id.* Respondent listed the job duties as "[p]erform a variety of attending duties at amusement facility (traveling carnival). Set up, tear down,

[7] Brajevich was included in the caption in the case below, but the ALJ determined that he was not personally or individually liable. D&O 30. Because the Administrator did not appeal and that determination thus became final, the Administrator has removed Brajevich from the caption on appeal.

operate amusement rides, food concessions, and/or games." *Id.* Respondent also stated that no experience, education, training, specific skills, or special licenses were required for the job, and that the workers would not supervise other employees. *Id.*

In October 2012, Respondent posted job advertisements with the Yakima Herald and online seeking 250 Carnival and Amusement and Recreation Attendants. D&O 3. The ads, which stated that Butler would pay $323.60 to $368.40 per week, listed the job duties as "a variety" of tasks including "set up, tear down, operate amusement rides, food concessions and/or games," and stated the job would typically be 40 hours per week. *Id.*

In December 2012, Judkins filed an Application for Temporary Employment Certification (the 9142) on Butler's behalf, seeking to employ 246 H-2B workers as Amusement and Recreation Attendants for a period from February 1, 2013, through October 31, 2013. D&O 4. Respondent listed the same job duties as it had listed on the 9141, and again indicated that no special skills or licenses were required, and that the workers would not supervise others. *Id.* Again, Respondent stated that the job opportunity was for 40 hours a week and would pay $323.60 to $368.40 per week. *Id.* The 9142 included a proposed itinerary for the carnival. *Id.* at 5.

Respondent checked the box on the 9142 confirming that it had read and agreed to all applicable terms, assurances, and obligations on Appendix B.1. D&O 5. One of those assurances, Attestation 13, requires an H-2B employer to attest that "the dates of temporary need, reason(s) for temporary need, and number of worker positions being requested for certification have been truly and accurately stated on the application." *Id.* Both Judkins and Brajevich, as Respondent's representative, signed the 9142. *Id.* Brajevich attested that Respondent took "full responsibility" for the accuracy of any representations made by its agent, that Butler would comply with the conditions of the H-2B program, and that the information contained on the TEC was true and accurate. *Id.*

On December 14, 2012, the Department certified Respondent to employ 246 H-2B workers as Amusement and Recreation Attendants. D&O 5. Eight of the nine relevant H-2B workers arrived by February 2, 2013, while one arrived on February 11. *Id.* at 13.

In 2013, WHD conducted an investigation of Butler's location in Santa Barbara, California covering the period from February 1, 2013 through April 24, 2013. D&O 6. Employees reported working slightly over 40 hours in a workweek, with most employees working at the fair and assembling and disassembling the rides. *Id.* at 7-8. WHD determined that Butler committed a violation of the H-2B program: specifically, that Respondent employed nine H-2B workers outside the

approved job classification of Amusement and Recreation Attendants, and instead employed two of them as supervisors, two as maintenance shop workers, and five as drivers. *Id.* at 6; Tr. 47:17-48:8.

WHD determined that Butler employed two H-2B workers, Antonio Mendez and Omar Lopez, as supervisors. D&O 9; Tr. 47:15-23; 60:24-61:4. Respondent's roll sheet listed Mendez and Lopez as supervisors, and multiple employees stated that they reported to either Mendez or Lopez. D&O 9; Tr. 37:24-38:4; 44:25-45:3; 46:18-24. The supervisors walked around to ensure that other employees were doing their job, addressed customer complaints, responded to ride operators when something was broken, and filled out the ride roster. D&O at 23. Two other H-2B workers, Jaime Hernandez and Felipe Villegas, worked solely in the "shop" or spare parts trailer, cleaning parts and supplies, welding, repairing rides, and doing inspections. *Id.* at 9, 23; Tr. 37:19-23; 47:6-9; 60:18-21.

WHD determined that Butler employed five H-2B workers, Jose Ivan Ortega, Sergio Guzman, Saul Estadillo, Gustavo Gamero, and Fernando Preza, as drivers. D&O 10. The drivers did not operate rides or provide concessions; they exclusively drove tractor-trailers to transport the rides between fair locations. *Id.*; Tr. 37:2-5; 45:4; 47:6-9; 60:18-21. These drivers performed commercial truck driving duties requiring a commercial driver's license and compliance with U.S. Department of Transportation requirements. D&O 10. Some of the drivers reported

keeping a transportation logbook of their hours, consistent with Department of Transportation regulations. *Id.* Respondent listed some of these H-2B workers as "driver" in its payroll records. *Id.*; Tr. 36:24-37:12. Two drivers were not listed as a "driver," but Respondent's pay records showed that they rarely worked on weekends, when the fairs were in operation, which was typical for drivers. D&O 10.

All three occupations – first-line supervisor, maintenance shop worker, and driver – command a higher prevailing wage than is paid to Amusement and Recreation Attendants. D&O 24. Butler did not pay these nine H-2B workers the correct prevailing wage for the job classification in which they actually worked, although they were paid more than the prevailing wage required for Amusement and Recreation Attendants. *Id.* at 12, 24.

On February 6, 2018, after a delay caused primarily by litigation challenging the Department's authority to issue and enforce the 2008 Rule, *see supra* at 6-7 n.6, WHD issued a determination letter charging Respondent with a substantial failure to comply with the proper job classification requirement and citing 20 C.F.R. 655.22(n). D&O 6. The determination letter and the enclosed Summary of Violations and Remedies stated that WHD had assessed back wages[8] and $10,000

[8] WHD originally calculated that Respondent owed $24,987.60 in back wages, but that was amended to $26,955.50 pursuant to the ALJ's May 2, 2019 Order. D&O 6 n.8.

in civil money penalties against Respondent. *Id.* To calculate the back wages owed to each of the nine improperly classified H-2B workers, WHD calculated the prevailing wage that Butler should have paid the workers for the job classification in which each worker actually worked. *Id.* at 24-25. WHD then calculated the difference between the prevailing wage classification that should have applied for each worker and the wage that the worker was actually paid, and multiplied that by the hours worked. *Id.* In determining the number of hours each worker worked, WHD found that Respondent's payroll did not accurately represent the hours actually worked, and therefore WHD reconstructed the hours worked based on the 40 hours per week that Butler attested its employees would work on its 9142. *Id.* at 12, 25.

III. Course of Proceedings

Butler timely sought review of WHD's determination by an ALJ. Respondent filed a Motion for Summary Judgment in June 2018, contending, among other arguments, that the Administrator lacked the authority to enforce the 2008 Rule and that the Administrator's determination was barred by the statute of limitations. The ALJ denied that motion on November 14, 2018. Summ. Decision Order. A hearing was held on May 8 and 9, 2019. The ALJ issued his Decision and Order on September 30, 2020. D&O.

On October 30, Butler petitioned the Board for review of the ALJ's September 30 Decision. The Board accepted the petition on November 3, 2020, and issued a Notice of Appeal and Order Establishing Briefing Schedule. Respondent filed its opening brief on December 31, 2020.

IV. The ALJ's Decisions

In its Summary Decision Order, the ALJ concluded, among other things, that that the five-year statute of limitations in 28 U.S.C. 2462 for actions to enforce a civil fine or penalty was applicable to this case, and that the Administrator had timely filed its determination letter within the five-year limitations period. Summ. Decision Order 14-18. Specifically, the ALJ concluded that 28 U.S.C. 2462 applied to H-2B actions for back wages, as well as those for civil money penalties, based on his view that unpaid wages sought in an H-2B enforcement action are a penalty because both public and private interests are at issue in violations of the H-2B program. Summ. Decision Order 17. The ALJ rejected Respondent's argument that the statute of limitations accrued on the date that the Department approved Respondent's TEC, which was outside of the five-year limitations period. *Id.* at 18. The ALJ explained that the limitations period began to accrue when Respondent allegedly violated the regulations by employing H-2B workers in jobs not identified in the TEC and ran through April 24, 2013 (the close of WHD's investigation period), which was within the five-year limitations period. *Id.* The

ALJ also concluded that back wages were an appropriate remedy under 20 C.F.R. 655.65(i) for the violations alleged in this case. *Id.* at 12-13.

After a hearing, the ALJ issued a Decision & Order holding that Respondent substantially failed to comply with the H-2B program by employing nine H-2B workers outside the job classification of Amusement and Recreation Attendant. D&O 19. Respondent instead employed the workers as drivers, maintenance shop workers, and supervisors. *Id.*

To reach that conclusion, the ALJ determined that Butler "acted with reckless disregard for whether it was in compliance . . . by ignoring the regulations and instructions accompanying the temporary employment certification application and employing nine H-2B workers outside of its job certification." D&O 19. The ALJ found that the regulations and instructions "provided ample notice and guidance" for H-2B employers in how to comply with the H-2B program requirements. *Id.* As relevant here, the ALJ noted that 20 C.F.R. 655.22(n) requires an employer to truly and accurately state the dates of temporary need, the "reason for temporary need" and the number of positions requested on the TEC, which notified Respondent of the requirement that an H-2B employer must accurately represent its temporary need and cannot place H-2B workers outside the classification approved on the TEC. *Id.* at 20. The ALJ further pointed to the "level of specificity required for the job description" in advertisements, which must

match the job description on the TEC. *Id.* at 20. Additionally, the instructions on the 9141 and the 9142 directed Respondent to describe the job duties in detail, including the equipment to be used and whether the H-2B worker would supervise others. *Id.* at 21. The ALJ found that Respondent "seemingly ignored" these instructions. *Id.*

The ALJ reasoned that Respondent "should have submitted separate applications for the various jobs [it] sought to fill" but instead "exerted minimal effort to comply," and concluded that this demonstrated a reckless disregard for the H-2B program requirements. *Id.* at 21. The ALJ also dismissed Respondent's arguments that it had relied on its agent, Judkins, who had experience in the H-2B program, because Judkins was acting with Butler's authority and Butler, as the employer, is ultimately responsible for its obligations under the H-2B program. *Id.* at 21-22.

The ALJ further concluded that Butler's reckless disregard resulted in a significant deviation from the conditions listed on the labor certification. D&O 23-24. The ALJ rejected Respondent's arguments that H-2B employers were not actually required by the 2008 Rule to employ H-2B workers only in the certified job, noting that those arguments "seemed disingenuous." *Id.* at 23. The ALJ also rejected Respondent's arguments that some of the tasks that the nine workers engaged in were listed as "supplemental" tasks under O*NET for Amusement and

Recreation Attendants and therefore Respondent had not substantially failed to comply with the terms and conditions on the TEC. *Id.* at 22-23. The ALJ found that "none of the nine employees performed the core duties associated with an [Amusement and Recreation Attendant] position and they rarely performed the supplemental duties." *Id.* at 23. Ultimately, the ALJ concluded that Butler's "strategy to 'just put [workers] wherever we can get them to be efficient' was expedient, but clearly violated [the] explicit requirement" that H-2B employees must only perform the jobs that the Department has certified their employer for. *Id.* at 20.

The ALJ then addressed the Administrator's back wage calculations. After careful review of the employer's payroll records and employee interview statements, the ALJ found that Respondent's pay slip hours were "unreliable and could not have been used to reconstruct employee back wages." D&O 25. Specifically, the ALJ reviewed the payroll records and determined that they "omitted amounts paid, contained duplicate pay slips for the same person for the same period," including many that could not be reconciled, and "were inexplicably missing records for some employees." *Id.* at 11-12. The ALJ concluded that the Administrator's reconstruction of hours using the 40 hours per week that Respondent attested on its 9142 was reasonable given Respondent's "incomplete and questionably accurate pay slips." *Id.* at 12, 25. The Administrator

reconstructed the back wages owed to the nine H-2B workers using the prevailing wage for the job that each worker actually performed, based on that job's average wage of the localities listed on the itinerary submitted by Respondent. *Id.* at 25. The ALJ concluded that WHD's method of reconstruction was appropriate, except that he recalculated using specific locations rather than an average. *Id.* Therefore, the ALJ lowered the back wages owed from $26,955.40 to $26,786. *Id.* at 25-26.

The ALJ rejected Respondent's claim that it was entitled to credits for providing housing, local transportation, relocation expenses, employee taxes, and reimbursement for a prepayment plan for weeks that employees did not work 40 hours. D&O 26-27. The ALJ noted that Respondent had not cited any authority in support of the credits and relied solely on a statement signed by H-2B workers in 2019 who worked during the 2013 season. *Id.* at 26. The ALJ gave no weight to the statement because there were inconsistencies between the statement, employee statements in 2013, and the credits Respondent attempted to claim. *Id.* at 27.

Finally, the ALJ held that the Administrator's assessment of a $10,000 civil money penalty was reasonable. D&O 28. The ALJ independently reviewed the factors set forth in the H-2B regulations at 20 C.F.R. 655.65(g), determined that

the factors "favor[ed] imposing a high" civil money penalty, and concluded that an assessment of $10,000 in civil money penalties was appropriate. *Id.* at 28-30.[9]

SUMMARY OF ARGUMENT

1. The Administrator timely brought this action for H-2B back wages and civil money penalties against Respondent. The Administrator charged Respondent with a substantial failure to comply with the requirements of the H-2B program through April 24, 2013. Given the ALJ's conclusion that the five-year statute of limitations in 28 U.S.C. 2462 applied to this case and the fact that the Administrator issued its determination on February 6, 2018, which is less than five years after the violations occurred, the action is not time-barred.

Contrary to Respondent's argument, neither the INA nor the H-2B regulations required WHD to cite Respondent's violation as a willful misrepresentation (which would have occurred earlier and outside the limitations period). Instead, the Administrator properly cited a substantial failure to comply with the temporary need requirement (which did fall within the limitations period).

[9] The ALJ also concluded that Respondent could not show that the doctrine of laches should apply, that Michael Brajevich was not individually or personally liable for Butler's violations, and that an anti-retaliation order for any H-2B worker owed back wages was warranted. D&O 15-17, 30-31. Aside from a perfunctory reference to laches in Respondent's Petition for Review, none of these issues have been presented to the Board for appeal, and thus the ALJ's decision on these matters is final.

Nothing in the statute or regulations prevents WHD from choosing to charge the violation in that manner.

Respondent attempts to find other shorter limitations periods to apply to this action, but none of Respondents' arguments are supported by the facts or the law. Shortening the limitations period as Respondent tries to do would undermine the Administrator's ability to appropriately enforce the requirements of the H-2B program and would frustrate the purpose of the requirements of the H-2B program: to reduce employers' incentives to bypass American workers in favor of H-2B workers and to guard against depressing U.S. workers' wages.

2. The ALJ correctly concluded that Respondent violated the H-2B provisions of the INA and the applicable regulations. H-2B employers commit a violation of the H-2B regulations when they place H-2B workers in job classifications that the Department did not certify. If an employer places its H-2B workers in a job classification outside the one the employer listed on the TEC and for which did it not advertise, the Department cannot accurately determine whether the H-2B worker's employment will adversely affect U.S. workers, and U.S. workers are deprived of the opportunity to apply for the actual jobs for which the employer seeks to hire H-2B workers. This is consistent with the Board's decision in *Adm'r v. 5 Star Forestry*, which recognized that an employer's failure to accurately state the areas of intended employment for H-2B workers violated the

regulations, precisely because it hampered the Department's ability to determine the impact of the position on U.S. workers. ARB Case No. 13-056, slip op. at 2 (ARB Nov. 6, 2014). The requirement that H-2B employers accurately represent their temporary need is essential to upholding the INA's purpose of protecting U.S. workers. Respondent violated this temporary need requirement by employing at least nine H-2B workers outside the Amusement and Recreation Attendant job classification for which it was certified.

Respondent's violation was a substantial failure to comply because Respondent recklessly disregarded whether its conduct was contrary to the H-2B program's temporary need requirement. The ALJ properly concluded that Respondent had notice of the H-2B program requirements, including the temporary need requirement, but was reckless in its disregard of those requirements. And its reckless disregard resulted in a significant deviation from the terms and conditions in its TEC and petition. The jobs in which Butler employed the H-2B workers – driver, maintenance shop worker, and supervisor – required Respondent to pay higher wages than Amusement and Recreation Attendant. But Respondent never advertised those higher-paying jobs to U.S. workers. Therefore, the ALJ properly held Respondent's actions substantially failed to comply with the H-2B regulation's requirement that employers accurately represent their temporary need on the TEC. The Board should not reward such a substantial failure to comply with

the requirements and obligations of the H-2B program by overturning the ALJ's decision.

3. The ALJ correctly concluded that back wages were an appropriate remedy for Respondent's violation and that the back wage calculation, with minor adjustments, was reasonable. The ALJ carefully reviewed Respondent's incomplete and unreliable records and properly found that WHD had reasonably declined to rely on the hours listed on those records and instead relied on the Respondent's own representation of the number of hours that its H-2B workers would work. Respondent's belated attempt to seek offsets for alleged benefits without providing credible supporting evidence was properly rejected.

4. Finally, the ALJ's assessment of $10,000 in civil money penalties against Respondent was reasonable. The ALJ's independent analysis of the factors relevant in determining the amount of civil money penalties was thorough and detailed. His conclusion that the factors weighed in favor of imposing a high amount of penalties was well supported.

For all of these reasons, the Board should affirm the ALJ's holding that Respondent violated the temporary provision of the H-2B regulations and uphold his back wage and civil money penalty assessments.

ARGUMENT

I. THE ADMINISTRATOR'S CASE IS NOT TIME BARRED

A. The Administrator Timely Issued the Determination Letter

The Administrator issued the determination letter to Butler within the five-year statute of limitations period that the ALJ determined applied in this case. The ALJ concluded that 28 U.S.C. 2462, which sets a five-year limitations period for actions or proceedings to enforce a civil fine or penalty, applied to both the civil money penalties and the back wages owed in this case. Summ. Decision Order 16-17.[10] On February 6, 2018, WHD issued its determination letter, which covered the

[10] The Administrative Review Board recently adopted and affirmed a decision by an ALJ that section 2462's five-year statute of limitations applies to H-2B proceedings where the Administrator seeks to recover penalties, including for violations of the employer's requirement to pay outbound transportation costs. *Adm'r v. Graham & Rollins*, ARB Case No. 19-009, slip op. at 2 (ARB Nov. 16, 2020). *Graham & Rollins* did not address the statute of limitations for back wages. *Adm'r v. Graham & Rollins*, ALJ Case No. 2018-TNE-022, slip op. at 8-9 (OALJ June 26, 2018).

While the Administrator did not agree that the five-year statute of limitations in section 2462 applied to the back wages sought in this case, Summ. Decision Order 14, the Administrator did not appeal the ALJ's decision that the five-year statute of limitations applied to the back wages here because it was not determinative. The application of the five-year limitations period in the ALJ's Summary Decision Order did not eliminate any period of time for which the Administrator sought back wages, and thus any petition for review on that issue filed by the Administrator would not have sought to change the outcome, but merely to request an advisory opinion. The Board has a "well-established policy against issuing advisory opinions." *Hoffman v. NetJets Aviation, Inc.*, ARB Case No. 09-021, slip op. at 17-18 n.85 (ARB March 24, 2011) (listing cases).

period from February 1, 2013 through April 24, 2013, in which it concluded that Butler substantially failed to comply with the temporary need requirement of the H-2B regulations during the 2013 season and assessed both back wages and civil money penalties against Respondent. D&O 6. Therefore, because the determination letter was issued before April 24, 2018 and within the five-year limitations period, the ALJ correctly determined that it was timely. Summ. Decision Order at 18.

Respondent argues that the cause of action for this case occurred no later than February 1, 2013, when the H-2B workers arrived, and therefore the determination letter was time-barred. Resp't Br. 5-8. Respondent's argument is that there was one discrete violation that occurred at a single definitive point in time that provided the Administrator's cause of action. *Id.* at 6-7.

Respondent's argument is unavailing because Butler's violation was not a single discrete event, but instead recurring failures to comply with the H-2B program requirements. During the entire three-month period that WHD investigated, Respondent employed at least nine H-2B workers outside the certified job classification, and therefore, Butler substantially failed to comply with the terms and conditions of the TEC throughout that same period. In this way, it is like an action under the FLSA where there is "a series of repeated violations of an identical nature" such that "each failure to pay . . . begins a new statute of

limitations period as to that particular event." *Figueroa v. D.C. Metro. Police Dept.*, 633 F.3d 1129, 1135 (D.C. Cir. 2011) (internal quotation marks omitted); *see also Knight v. Columbus, Ga.*, 19 F.3d 579, 581 (11th Cir. 1994).[11] Regarding FLSA overtime violations, the U.S. Court of Appeals for the District of Columbia Circuit stated that "the underpayment is not the 'effect' of a prior violation; it is the violation itself." *Figueroa*, 633 F.3d at 1135. As noted above, an employer violates the INA when it willfully fails to comply with the H-2B requirements and that failure constitutes a "significant deviation" from the terms and conditions of the employer's petition. 8 U.S.C. 1184(c)(14). Each significant deviation from the terms and conditions of the H-2B petition and accompanying labor certification is the violation itself, and thus begins a new statute of limitations. Treating Butler's repeated significant deviations as one discrete event, as Respondent argues, would result in Butler not being held to account for the repeated misconduct of employing these nine H-2B workers for a three-month period in job classifications for which Butler was not certified.

[11] The Supreme Court in *Ledbetter v. Goodyear Tire & Rubber Co.* distinguished FLSA claims from Title VII claims by noting that "an FLSA minimum wage or overtime claim does not require proof of a specific intent to discriminate." 550 U.S. 618, 641 (2007). Although H-2B violations require proof of willfulness, this is not like specific discriminatory intent because willfulness includes a reckless disregard with respect to whether the conduct was contrary to the H-2B requirements, 20 C.F.R. 655.65(e), which does not require specific intent.

Respondent also claims that the Administrator was required to charge this violation as a willful misrepresentation, rather than a substantial failure to comply (and that any willful misrepresentation would have occurred when Respondent filed its TEC, which is outside the five-year limitations period). Resp't Br. at 7 n.1, 24-25. Specifically, Respondent contends that, because 20 C.F.R. 655.22(n) states that an employer must "accurately state[] on the application" the "dates of temporary need, reason for temporary need, and number of positions being requested," the only way that this regulatory provision can be violated is via a willful misrepresentation on the application itself. Resp't Br. 24-25. The Board should reject this argument. It is entirely possible for an employer to willfully misrepresent facts on its TEC *or* to substantially fail to comply with the statements it made on its TEC regarding its temporary need for H-2B workers. The INA clearly permits the Administrator to charge employers with either a willful misrepresentation or a substantial failure to comply, and does not limit either of those to certain specific violations. 8 U.S.C. 1184(c)(14)(A).

Here, Butler substantially failed to comply. It filed its application seeking Amusement and Recreation Attendants in November 2012. But until it actually acted with reckless disregard of the H-2B program requirements by employing nine H-2B workers in job classifications other than Amusement and Recreation Attendant, it had not substantially failed to comply with the requirement in 20

C.F.R. 655.22(n). Therefore, the Secretary's claim could not have begun to accrue until February 2013. And Butler repeatedly substantially failed to comply throughout the period that WHD investigated, to April 2013. Therefore the Administrator's February 6, 2018 determination letter was timely filed within the five-year limitations period.

B. 28 U.S.C. 1658(a) Does Not Apply to This Case Because It Does Not Apply to Administrative Actions

Respondent also argues that the Board should apply the four-year limitations period set forth in 28 U.S.C. 1658(a), which governs "civil action[s] arising under an Act of Congress enacted after" 1990. Resp't Br. at 8-12. However, as the Federal Communications Commission recently recognized, "[t]he text, context, purpose, and history of Section 1658(a) make clear that it governs court actions, not agency proceedings . . . ." *Sandwich Isles Comms., Inc.*, FCC18-172, 2019 WL 105385, at *39 (F.C.C. Jan. 3, 2019); *see also Garvey v. Hale*, 1997 WL 566262, at *1 (N.T.S.B. Aug. 29, 1997) (stating that section 1658(a) applies to "certain civil actions in federal court" and not to proceedings before National Transportation Safety Board).

The term "action," as used in federal statutory provisions, most frequently refers to judicial proceedings. Analyzing 28 U.S.C. 2415(a), another federal limitations statute, the Supreme Court stated that the term "action" is "ordinarily used in connection with judicial, not administrative, proceedings." *BP Am. Prod.*

Co. v. Burton, 549 U.S. 84, 91 (2006). The Fourth Circuit analyzed the term "civil action" in 28 U.S.C 1658(a) and held that it did not apply to a civil commitment hearing, noting that such a proceeding was distinct from a civil action, which is one that "seek[s] to enforce or protect a private civil right." *United States v. Searcy*, 880 F.3d 116, 124 (4th Cir. 2018). An administrative enforcement action such as this does not seek to enforce or protect a private civil right.

Respondent's purported examples of the term "civil action" being applied to administrative proceedings, Resp't Br. 10-12, do not support Respondent's claims. Instead, the reports and manuals that Respondent cites mainly discuss the Administrative Procedure Act, a federal statute that provides a cause of action for review of administrative actions *in federal court*, and thus involves a judicial proceeding. *Id.*

Finally, the FCC's analysis of the legislative history of section 1658(a) clarifies that it applies only to suits brought in federal court:

> Section 1658 was enacted as part of the Judicial Improvements Act of 1990. Title III of that Act, in which Section 1658 was enacted, is the Federal Courts Study Implementation Act of 1990. As those names would suggest, where the term "action" appears in the enacting law, it refers to formal judicial proceedings or other action by the judiciary . . . . 'The primary goals of [the Judicial Improvements] Act [were] to decrease delays in the federal court system . . . .' The purpose of Section 1658 specifically was to eliminate the need for federal courts to "borrow" the most analogous state or federal law limitations period for federal claims that lacked their own designated limitations period. . . . In other words, the legislative concerns that animated the enactment of Section 1658, and the goals of Judicial

> Improvements Act of 1990 as a whole, related to proceedings in federal court, not administrative proceedings.

Sandwich Isles Comms., Inc., 2019 WL 105385, at *39. The FCC concluded by noting that it could find no instance of case where section 1658(a) was used to set the limitations period for an administrative proceeding. *Id.* at *40. Therefore, it is clear that the limitations period set forth in 28 U.S.C. 1658(a) does not apply to this administrative enforcement action.

C. Statutes of Limitations Should Not Be Borrowed from Other Statutes in Suits Brought by the Government

Respondent further argues that the ALJ erred by failing to "borrow" a statute of limitations from either the Fair Labor Standards Act or the H-2A program.[12] Resp't Br. 12-15. However, in cases brought by the government, such borrowing principles do not apply. *See, e.g., Alden Mgmt. Servs., Inc. v. Chao*, 532 F.3d 578, 581-82 (7th Cir. 2008) (noting that "nothing in the [INA] establishes a period of limitations for the Secretary's proceeding" and stating that "a borrowing approach . . . does not apply to administrative proceedings initiated by the national government"); *Dole v. Local 427*, 894 F.2d 607, 614-15 (3d Cir. 1990) (rejecting

[12] Respondent claims that the H-2A program has a two-year statute of limitations. Resp't Br. 14. However, the two-year limitations period in the INA only applies to H-2A debarment actions; otherwise the INA sets no limitations period for H-2A enforcement actions. 8 U.S.C. 1188(b); *see also, e.g.*, *Three D Farms, LLC*, slip op. at 25-26, ALJ Case No. 2016-TAE-003 (OALJ Aug. 18, 2016); *Three Chimneys Farm, LLC*, slip op. at 6 n.10, ALJ Case No. 2013-TAE-011 (OALJ Feb. 2, 2015).

argument that an analogous federal statute of limitations should apply to Secretary of Labor's suit brought under the Labor Management Reporting and Disclosures Act); *Marshall v. Intermountain Elec. Co.*, 614 F.2d 260, 263 (10th Cir. 1980) (refusing to apply state statute of limitations to Secretary of Labor's action under the Occupational Safety and Health Act).

Indeed, the borrowing principles relied upon by Respondent apply to private actions brought under a federal statute that does not itself specify a statute of limitations – not, as here, where the enforcement action is brought by the government itself. *See, e.g.*, *Lampf v. Gilbertson*, 501 U.S. 350, 356 (1991) (discussing borrowing principles in the context of a private action); *Bd. of Regents v. Tomanio*, 446 U.S. 478, 488 (1980) (same).

Applying any of the shorter limitations periods that Respondent seeks to the Administrator's enforcement would frustrate the purpose of the H-2B provisions of the INA. In particular, importing a short, two-year statute of limitations into a statutory scheme involving temporary foreign workers would interfere with the Administrator's ability to ensure that employers pay their H-2B workers properly, which is necessary to prevent adverse effects on the wages and working conditions of similarly employed U.S. workers. For this reason, as well as those above, the Board should reject all of Respondent's arguments that this action is time-barred.

II. THE ALJ CORRECTLY CONCLUDED THAT RESPONDENT VIOLATED THE INA AND THE H-2B REGULATIONS

A. Respondent Violated the Temporary Need Requirement in the H-2B Regulations by Employing H-2B Workers in Jobs Outside the Job Classification on Respondent's Application for Temporary Labor Certification

Butler Amusements was only certified to employ H-2B workers as Amusement and Recreation Attendants, but employed at least nine H-2B workers outside that classification. Because of this, the ALJ properly concluded that Respondent violated 20 C.F.R. 655.22(n), the requirement that an H-2B employer must accurately represent, among other things, the "reason" for its need for temporary workers.

This requirement is a crucial part of the temporary labor certification process necessary to advance one of the central tenets of the H-2B program. The H-2B program permits employers to employ temporary nonimmigrant workers only "if unemployed persons capable of performing such service or labor cannot be found in this country." 8 U.S.C. 1101(a)(15)(H)(ii)(b). In order to ensure that this statutory requirement is met, DHS has directed the Department to advise it "that qualified workers in the United States are not available and that the [H-2B worker's] employment will not adversely affect the wages and working conditions of similarly employed United States workers." 8 C.F.R. 214.2(h)(6)(iv)(A). The Department accomplishes this through the temporary labor certification process, in

which the Department necessarily relies on the H-2B employer's attestations "to ensure adherence to program requirements." 2008 Rule, 73 Fed. Reg. at 78023.

One of those attestations is the reason for the employer's temporary need to hire H-2B workers. 20 C.F.R. 655.22(n). If, during the certification process, the Department is not aware of the true nature of the reason for the employer's temporary need to hire H-2B workers – such as the job opportunity in which H-2B employers will ultimately employ their H-2B workers – the Department cannot accurately determine whether the H-2B workers' employment will adversely affect U.S. workers. Similarly, U.S. workers that are unaware of the true nature of a job opportunity (and its potentially higher pay) cannot accurately evaluate whether to apply for such jobs. Therefore, the requirement that H-2B employers accurately represent their temporary need is vital to supporting the INA's goal of protecting U.S. workers.

The Board has previously held that a failure to accurately represent the terms and conditions of a job opportunity is a violation of the H-2B regulations, precisely because it prevents the Department from being able to fully determine the impact on U.S. workers of the potential employment of a foreign workers in that position. In *5 Star Forestry*, the Board upheld the Administrator's assessment of four separate civil money penalties for an H-2B employer's failure to identify or advertise four different locations at which the employer ultimately placed H-2B

workers. *5 Star Forestry*, ARB Case No. 13-056, slip op. at 2. The employer argued that this constituted only a single violation, but the Board disagreed. The Board stated the employer "failed to undertake any of these [required] recruitment measures at each of the four locations where it placed its H-2B workers. Consequently, no assessment of the impact of H-2B employment on U.S. workers was conducted at any location." *Id.* at 6. The Board held that these failures constituted "four substantive deviations" from the requirements of the H-2B regulations. *Id.*[13]

In *5 Star Forestry*, the H-2B employer placed H-2B workers outside the intended area of employment, which rendered the Department entirely unable to assess whether U.S. workers were available to fill the applicable positions in each location, or whether the employment of those H-2B workers would affect the wages and working conditions of similarly employed workers in those areas. Similarly, Butler Amusements placed H-2B workers in job classifications other than the one it attested it had a need for and advertised to U.S. workers. Butler's failure to comply had the same effect as the employer's violations in *5 Star*

[13] The Board noted that neither the INA nor the H-2B regulations explicitly address whether separate penalties could be assessed for each location that was not disclosed, but held that WHD's policy of making such assessments "advances the INA's goals to protect both domestic and foreign workers by assuring proper enforcement of the INA's H-2B provisions." *5 Star Forestry*, ARB Case No. 13-056, slip op. at 6-7.

Forestry in that it prevented the Department from being able to accurately determine whether Butler's employment of H-2B workers would adversely impact U.S. workers. Therefore, the Board should apply the same analysis in this case and conclude that Butler violated the temporary need requirement in the H-2B regulations by employing H-2B workers in jobs not included in its approved TEC.

Butler argues that the H-2B regulations do not prohibit employing H-2B workers outside the job classification listed on the TEC for which Butler was certified. Resp't Br. 24-27. Respondent's contention is belied by the regulatory language. Section 655.22(n) requires employers to "accurately" state their "reason for temporary need." An employer that places H-2B workers in job classifications that it did not include on its Application for Temporary Labor Certification – exactly as Respondent did – has failed to accurately state the reason that it needs H-2B workers.[14] As discussed above, an employer's adherence to this regulation serves to protect U.S. workers from being adversely impacted by the employment of the H-2B workers. And the regulations further provide that, once the Department certifies the TEC, the certification "is valid only for," among other

[14] *See Adm'r v. JML Landscape Mgmt.*, ALJ Case No. 2017-TNE-008, slip op. at 10-13 (OALJ Oct. 22, 2018) (granting summary decision against H-2B employer for a violation of the temporary need requirement in 20 C.F.R. 655.22(n) in which "H-2B workers performed work outside of the work for which they were certified").

things, "the specific services or labor to be performed . . . specified on" the TEC. 20 C.F.R. 655.34(b). This regulation makes clear that the obligation to employ the H-2B workers in the job classification on the TEC continues throughout the entire period for which the certification applies.

B. The ALJ Properly Concluded that Respondent's Violation of the Temporary Need Requirement Was a Substantial Failure to Comply

The ALJ properly determined that Butler's violation of the temporary need requirement was a substantial failure to comply with the H-2B regulations and requirements. D&O 19; *see also* 8 U.S.C. 1184(c)(14)(A) (employer violates the H-2B provisions of the INA if it substantially fails to meet the conditions of the petition).[15] A substantial failure is defined as a willful failure – that is, a knowing failure or reckless disregard with respect to whether the conduct is contrary to the H-2B program requirements – that constitutes a significant deviation from the terms and conditions certified on the TEC or H-2B petition. 8 U.S.C. 1184(c)(14)(D); 20 C.F.R. 655.65(d), (e). Respondent recklessly disregarded the H-2B program's requirements, and its violation constituted a significant deviation from the terms and conditions that it certified, under penalty of perjury, that it would offer to its H-2B workers.

[15] As explained above, there is no requirement that the Administrator must cite a willful misrepresentation for this violation. *See supra* at 27-28.

1. *Respondent recklessly disregarded whether its conduct was contrary to the H-2B program requirements.*

The ALJ correctly concluded that Respondent acted with reckless disregard with respect to whether its actions were in compliance with H-2B program requirements or not. D&O 19-22. Respondent argues that it did not act with reckless disregard because it did not have proper notice or knowledge of its obligations under the H-2B program. Resp't Br. 24-29. Respondent contends that 20 C.F.R. 655.22(n) "says nothing at all about the impropriety of compensating workers at the approved job rate if they were not performing the job duties for the approved job code." Resp't Br. 24. Similarly, Respondent claims that it is not liable because it did not know of the requirement to employ H-2B workers in only the job classifications for which it was certified to employ such workers. *Id.* at 28-29. There is no merit to Respondent's contention.

The ALJ properly rejected that argument and found that Respondent ignored both regulatory guidance and the instructions on the relevant forms that provided information to H-2B employers such as Respondent concerning their obligations under the program. D&O 19-21. In addition to the requirement in 20 C.F.R. 655.22(n) that an H-2B employer "accurately" represent the "reason" for its need for temporary workers, the ALJ correctly noted that the H-2B regulations require employers to advertise the job opportunity, which specifically includes identifying the job duties and requirements, to U.S. workers. D&O 20; 20 C.F.R. 655.17. The

ALJ likewise noted that the H-2B regulations clearly state that a temporary labor certification "is valid only for . . . the specific services or labor to be performed [that] the employer specified on the certified Application . . . ." D&O 20; 20 C.F.R. 655.34(b). The ALJ also determined that the instructions on the 9141 and the 9142 "informed Respondent[] of [its] obligations" but found that Respondent "seemingly ignored" those instructions. D&O 21.[16]

While Respondent may have failed to educate itself regarding its H-2B obligations, it certainly had notice of those obligations, as the ALJ properly found, and recklessly disregarded them. Respondent's CEO Brajevich admitted that he signed the TEC Application on behalf of Butler Amusements, but that he had not read – or even looked at – the H-2B regulations prior to this case. Tr. 275:12-19; 347:12-348:4. An employer's failure to read the terms of the forms submitted on its behalf to the Department or to become educated concerning program requirements prior to signing or submitting an application is conduct that exhibits "a 'reckless disregard' for which penalties and disqualification are warranted."

[16] Respondent appears to argue that because the Department's H-2B regulations did not incorporate every instruction for filling out every necessary form, Resp't Br. 26, an H-2B employer cannot be held responsible for not following those instructions. This is absurd on its face. Respondent's violation consisted of substantially failing to comply with the H-2B regulation's temporary need requirement, not the instructions on the forms. The instructions are relevant because they demonstrated that Respondent had notice of the relevant H-2B requirements.

Adm'r v. Home Mortg. Co. of Am., ALJ Case No. 2004-LCA-040, slip op. at 15 (OALJ Mar. 6, 2006) (employer's failure to investigate H-1B program responsibilities constitutes reckless disregard); *see also Adm'r v. Prism Enters. of Cent. Fla.*, ALJ Case No. 2001-LCA-008, slip op. at 13 (OALJ June 22, 2001) (H-1B employer's failure to "consult anyone as to the H-1B wage requirements" or to do research "constitutes reckless disregard of the program requirements"); *see also* 20 C.F.R. 655.65(e).

Respondent also argues that it did not act with reckless disregard because it acted upon the advice of an experienced consultant in the carnival industry when filling out the 9142. Resp't Br. 32-33. The ALJ properly dismissed these arguments as "a nonstarter." D&O 21. First, the preamble to the 2008 Rule is clear that even if an agent represents an employer during the H-2B certification process, "[t]he employer is ultimately responsible for its obligations under the program," noting that it is the employer "who signs the application form, and attests to the veracity of the information provided and that it will meet all obligations." 2008 Rule, 73 Fed. Reg. at 78,035-36. Brajevich signed the TEC Application on behalf of Butler and attested that it would comply with its obligations under penalty of perjury. D&O 5, 21-22. Furthermore, Brajevich testified that he relied on Judkins to fill out the paperwork. Tr. 274:16-18. Therefore, Judkins, who had experience with and knowledge of the H-2B program and its requirements, was acting with

actual authority, binding Butler Amusements to the legal consequences of his actions. *See* Restatement (Third) of Agency § 2.01 (2006) ("An agent acts with actual authority when, at the time of taking action that has legal consequences for the principal, the agent reasonably believes, in accordance with the principal's manifestations to the agent, that the principal wishes the agent so to act.").

Brajevich admitted that Respondent used H-2B workers in the manner it did in order to be efficient: "when we need 25 guys, we just get 25 guys and we put them wherever they are that makes the carnival business the most efficient that we can to operate." Tr. 303:25-304:3. The protections of the H-2B program cannot be ignored simply to make a carnival more "efficient." Rather than submitting separate TEC Applications for the different job categories it needed, as it should have done, the ALJ found that Respondent "exerted minimal effort to comply" with the statute and regulations and therefore properly concluded that this "demonstrated more than mere negligence, but a reckless disregard for whether its actions violated the statute and regulations." D&O 21.

2. *Respondent's reckless disregard constituted a significant deviation from the terms and conditions of its TEC.*

The ALJ properly concluded that Respondent's reckless disregard of the H-2B program requirements by employing H-2B workers in jobs other than the Amusement and Recreation Attendant job classification for which it received certification "was a significant deviation from the conditions of the labor

certification." D&O 22. Butler employed at least nine H-2B workers outside the Amusement and Recreation Attendant occupation. Those nine H-2B workers did not perform the duties that Respondent listed on the 9141 or the TEC to describe the job opportunity for which it sought H-2B workers. None of those workers operated any of the amusement equipment, games, or concessions to "attend" to customers. Instead, the Respondent's own records and interviews with Respondent's employees demonstrated that these workers were employed as drivers, maintenance shop workers, and supervisors. After carefully reviewing the evidence presented at trial, the ALJ found that the five drivers spent their time "almost exclusively" transporting rides on semi-trucks; that the two shop workers "labored solely in the maintenance shop;" and that the employer's records and employee statements corroborated that the two supervisors supervised other employees. D&O 23.

Employing these H-2B workers in job positions not certified on the TEC constituted a significant deviation from the terms and conditions that Butler itself listed on its TEC. Butler never advertised to U.S. workers any jobs other than Amusement and Recreation Attendant or jobs with duties other than those listed on the TEC. Butler never indicated on the TEC that it would employ individuals to perform job duties beyond those listed on the TEC, even though separate SOC codes are available for drivers, maintenance shop workers, and first-line

supervisors. D&O 24. The ALJ specifically emphasized that the 9141 and 9142 require employers to describe the job opportunity in detail, including equipment to be used, special skills or licenses that are required for the job, and whether the H-2B workers would supervise others, but that Respondent failed to include information on the TEC about the job duties that the nine H-2B workers actually performed, such as the need for a commercial driver's license, driving a semi-truck, working in a repair shop, or supervising other employees. *Id.* at 21-22. The job classifications of drivers, maintenance shop workers, and supervisors all require payment of a higher prevailing wage than Amusement and Recreation Attendants. Respondent's practice of employing H-2B workers in these job classifications, not the Amusement and Recreation Attendant classification for which it was certified, was a significant deviation.

To dispute that it significantly deviated from the terms and conditions on the TEC, Respondent claims that the job duties performed by the nine H-2B workers were all listed, in one way or another, under the Amusement and Recreation Attendants classification on O*NET, and thus these workers were not working outside their job classification. Resp't Br. 31. But as the ALJ properly determined, the nine H-2B workers did not perform any of the job duties that Respondent listed on the TEC. D&O 22-23. Likewise, none of these workers performed the core duties listed on O*NET for Amusement and Recreation Attendants. *Id.* at 23.

While they may have engaged in limited supplemental duties that are listed on O*NET for this classification, such as inspecting equipment and making minor repairs, the ALJ found that they did so only "rarely." *Id.* This was not, and still is not, sufficient to refute the ALJ's finding that Respondent's violation constituted a significant deviation from the terms and conditions of the TEC.

The purpose of the Department's temporary labor certification process is to determine that there are no qualified U.S. workers available for the positions and that employment of the H-2B workers will not adversely affect the wages and working conditions of U.S. workers. When employers place H-2B workers in job classifications outside the one listed on the TEC, the Department's certification becomes meaningless. As the ALJ aptly recognized, "to allow employers to select a job code, receive a prevailing wage determination, advertise the job to U.S. workers, hire H-2B workers after certifying that no U.S. workers wanted the position, and then employ H-2B workers to perform a different job entirely, undermines the purpose of the INA to protect U.S. workers." D&O 23.

III. THE ALJ PROPERLY DETERMINED THAT RESPONDENT OWED BACK WAGES AND THE AMOUNT OF BACK WAGES OWED

A. The ALJ Correctly Determined that the Administrator Can Assess Back Wages for Violations of the Temporary Need Requirement

The ALJ properly concluded that the Administrator may assess back wages when employers place H-2B workers in job classifications not certified on the

employer's TEC. D&O 24; Summ. Decision Order 12-13. Respondent argues that back wages are not available as a remedy under the 2008 Rule for this violation. Resp't Br. 35. There is no merit to this argument because it stems from a misunderstanding of 20 C.F.R. 655.65(i). The Administrator has broad authority to impose appropriate remedies. The relevant provision states:

> If the WHD Administrator finds a violation of the provisions specified in this subpart, the Administrator may impose such other administrative remedies as the Administrator determines to be appropriate, including reinstatement of displaced U.S. workers, or other appropriate legal or equitable remedies. If the WHD Administrator finds that an employer has not paid wages at the wage level specified under the application and required by § 655.22(e), the Administrator may require the employer to provide for payment of such amounts of back pay as may be required to comply with the requirements of § 655.22(e).

20 C.F.R. 655.65(i). Contrary to Respondent's suggestion otherwise, the ALJ correctly interpreted this regulatory language to not limit back wages as a remedy solely for a violation of 20 C.F.R. 655.22(e). Summ. Decision Order 13. Here, the Administrator is seeking back wages for H-2B workers that represent the amount they should have been paid, had Respondent complied with the H-2B program requirements and submitted separate 9142s for maintenance shop workers, truck drivers, and supervisors. Thus, the ALJ properly concluded that the Administrator can require Respondent to pay back wages.

B. The Back Wages Assessed by the ALJ Are Appropriate

In order to review WHD's back wage calculations, the ALJ carefully reviewed Respondent's pay records. D&O 11-12. He found them to be "unreliable." *Id.* at 11. In particular, the ALJ emphasized that there were conflicting pay slips for the same employee and same pay period that could not be reconciled, meaning "one is accurate and the other is not, but we have no means of determining which is accurate." *Id.* The ALJ also considered missing and incomplete records provided by Respondent and Respondent's failure to produce the driver logs for those H-2B workers employed as drivers. *Id.* at 11-12. Based on his finding that Respondent's records were "unreliable," the ALJ concluded that it was reasonable for the Administrator to not credit the hours documented on Respondent's records but instead to use the hours that Respondent certified on the TEC that its H-2B workers would work. *Id.* at 12.

Respondent certified to the Department on the TEC that its H-2B workers would work 40 hours per week.[17] Using that figure, along with the itinerary provided by Respondent, the Administrator calculated the back wages due to the nine H-2B workers. D&O 24-25. WHD calculated the difference between what Respondent actually paid each of the nine workers and what each should have been paid for the correct job classification, based on the average wage for the locations

[17] Employees reported working slightly over 40 hours in a workweek. D&O 7.

on Respondent's itinerary. *Id.* at 24-25. The ALJ approved of the Administrator's method of calculating back wages with one small exception regarding locations that lowered the back wage calculation slightly, from $26,955.40 to $26,786.00. *Id.* at 25-26.

Respondent argues that the ALJ's decision to disregard its pay records "effectively imposed a de facto timekeeping obligation" on the employer. Resp't Br. 35. This is incorrect. The ALJ did not impose a timekeeping requirement on Respondent; it simply engaged in fact finding. The ALJ reviewed the records created by Respondent and provided to the Department; took into account incomplete, missing, and conflicting timesheets; and made a factual finding that those records were unreliable. The ALJ's factual finding did not rest on an inference or implicit requirement that H-2B employers must keep records of hours worked, but on his review of the records actually provided by Respondent. And ultimately, the hours the Administrator used in the back wage reconstruction were those provided by Respondent to the Department (i.e., on its TEC).

The Board has acknowledged the necessity and authority of WHD to reconstruct hours worked and payments to determine back wages when the employer's records are missing or unreliable. *See Adm'r v. Peter's Fine Greek Foods, Inc.*, ARB Case No. 14-003, slip op. at 6 (ARB Sept. 17, 2014); *cf. Adm'r v. Advanced Prof. Mktg.*, ARB Case No. 12-069, slip op. at 12. (ARB June 3,

2014) (upholding, in an H-1B case, reconstructed back wages as a result of missing and incorrect records). The reconstruction of the wages owed to the nine H-2B workers here was reasonable and based exclusively on information gathered by WHD during the investigation, provided by Respondent, or certified by Respondent to the Department. Therefore, the Board should uphold the ALJ's back wage calculation.

C. The ALJ Properly Rejected Respondent's Arguments for Offsets

Respondent claims that it is entitled to significant credits that would offset its back wage liability. Resp't Br. 38-45. The ALJ properly found that Respondent was entitled to no credits because the evidence that Respondent submitted in support of these credits deserved "no weight." D&O 27. Respondent submitted a purported "joint statement" signed by employees in 2019 who worked for Respondent in 2013. *Id.* at 26. The statement claimed that these workers had received "valuable benefits" such as housing, transportation, food, relocation, visa processing fees, "and so on." *Id.* The ALJ noted inconsistencies between the statement and employee statements made in 2013, which indicated that no employees were charged for housing, and that employees themselves pooled their money to pay for food. *Id.* at 27.

Additionally, Respondent provided no evidence to demonstrate that the 2019 statement was not coerced. "[A]n employer is prohibited from obtaining, under

coercive circumstances, employee declarations, particularly declarations that are relevant to and go to the heart of a pending claim that the employer failed to fully compensate employees." *Acosta v. Austin Elec. Servs.*, 322 F. Supp. 3d 951, 958 (D. Ariz. 2018); *see also Acosta v. Sw. Fuel Mgmt.*, No. 16-cv-4547, 2018 WL 2207997, at *2 (C.D. Cal. Feb. 20, 2018) (gathering declarations from employees during the course of litigation over wages is inherently coercive). For that reason alone, the ALJ was correct to give the statement no weight.[18] Therefore, the ALJ properly determined that Butler is not eligible to take any offset for wages due.

IV. THE ALJ'S CIVIL MONEY PENALTY ASSESSMENT WAS REASONABLE

The ALJ properly held that the Administrator's assessment of a $10,000 civil money penalties was appropriate. D&O 28-30. The ALJ independently reviewed the factors set forth in the H-2B regulations and concluded that "the discretionary factors favor imposing a high [civil money penalty]." *Id.* at 30. Although the Board can review an ALJ's assessment of civil money penalties de novo, in the past the Board has accepted the ALJ's findings when it determines

[18] A further illustration that Respondent's argument is baseless is the fact that, as the ALJ noted, WHD determined that two of the nine H-2B workers did not live in the housing that Respondent provided. Respondent is not entitled to a credit for housing that workers did not live in. D&O 27.

they are reasonable. *Peter's Fine Greek Foods*, ARB Case No. 14-003, slip op. at 2.

The ALJ carefully considered all of the regulatory factors[19] and reasonably concluded that all but two weighed against Respondents. D&O 28-30. First, the ALJ noted that although Respondent did not have a history of violations, the Administrator presented evidence that Butler had committed other violations that the Administrator did not charge because WHD conducted a limited investigation. These included substantial failures to accurately represent the dates of need on the TEC, as documented by the arrival and departure dates of the H-2B workers. D&O 28-29.[20] The ALJ found that this demonstrated a "broader lack of adherence to H-2B rules" and concluded that the first factor weighed against Respondent. *Id.*

Second, the ALJ recognized that although WHD's determination limited recovery to only nine H-2B workers, this was due to the investigation being limited to only one crew at one location. D&O 29; Tr. 74:15-75:1; 97:21-98:8; 271:5-17

[19] The factors set forth in the H-2B regulations include: 1) the previous history of H-2B violations by the employer; 2) the number of workers affected by the violation; 3) the gravity of the violation; 4) the good faith efforts by the employer to comply; 5) the employer's explanation of the violation; 6) the employer's commitment to future compliance; and 7) the extent to which the employer achieved a financial gain as a result of the violation. 20 C.F.R. 655.65(g).

[20] The ALJ also noted that although only 187 H-2B workers (of 246 requested) crossed the border from Mexico to enter the country at the beginning of the period of need, Respondent transported nearly 400 workers back to Mexico at the end of the season. D&O 28-29.

(explaining WHD limited its investigation and that Butler splits its H-2B workers into multiple smaller units). The ALJ also noted that Respondent's own records listed at least other one additional H-2B employee as a "driver." D&O 29. Therefore, the ALJ found that the second factor, the number of workers affected, did "not mitigate" the civil money penalty assessment. *Id.*

The ALJ found that the third factor, the gravity of the violation, weighed in favor of the assessment of a large civil money penalty. As a result of Respondent's violations, "H-2B workers lost wages and U.S. workers were denied an opportunity to apply to positions as supervisors, shop workers, or drivers" at a higher wage than was advertised for Amusement and Recreation Attendants and therefore this violation "undermined the objectives of the INA." D&O 29.
The ALJ also found that the fourth and fifth factors, good faith efforts to comply and the employer's explanation of the violation, weighed against Respondent because Respondent "put minimal effort into compliance" with the H-2B regulations, and "its delegation of work to a consultant is insufficient to show a good faith effort." D&O 29; *see also supra* at 39-40. The ALJ found the employer's explanation of its violations to be "wanting" and stated that Respondent seems "to believe [it] should be able to agree to comply with a scheme, receive the benefit of that scheme, fail to comply with it, and then blame someone else for [its] noncompliance." D&O 29.

With regard to the sixth factor, commitment to future compliance, the ALJ noted that Respondent refused to state whether it would comply in the future because it refused to admit to being out of compliance, and therefore the ALJ found that the factor weighed neither for nor against Respondent. D&O 29. And finally, the ALJ concluded that the seventh factor weighed against Respondent because Respondent financially gained from its violations by failing to properly compensate H-2B workers at the rates it would have been required to, had it properly requested certification for all job classifications that it needed. *Id.*

Therefore, finding that the majority of the factors counseled in favor of the assessment of a high civil money penalty, the ALJ agreed with the Administrator's assessment of $10,000 in penalties. *See Peter's Fine Greek Foods*, ARB Case No. 14-003, slip op. at 5-7 (upholding Administrator's assessment of $10,000 penalty where five factors weighed against employer). The ALJ's assessment of the factors was thorough and reasoned, and the ARB should affirm.

CONCLUSION

For the foregoing reasons, the Administrator respectfully requests that the Board affirm the decision of the ALJ, including the ALJ's award of back wages and civil money penalties for Respondent's violation of the requirement that H-2B employers accurately represent their temporary need.

ARGUMENT

I. THIS ACTION IS TIME-BARRED BY THE STATUTE OF LIMITATIONS

A. The Case Should Be Dismissed in Its Entirety Based upon the Statute of Limitations Governing Penalties

The Administrator has largely conceded that this case is governed by the 5-year statute of limitations contained in 28 U.S.C. § 2462. WHD Br. 20-26. Employer-Respondent now responds to the omissions in the Administrator's argument.

1. Any Violation Accrued When Employer-Respondent Submitted Its Application. Employer-Respondent contended that it was, at most, subject to a citation for willful misrepresentation on November 7, 2012, when it applied for a labor certification. E'r-Resp. Br. at 2, 7 n. 1, 24-25. In response, the Administrator appears to concede that he loses in the event that the statute of limitations accrued by virtue of a willful misrepresentation. *See* WHD Br. at 20, 27. The Administrator's only substantive response is that the Administrator had the discretion to pursue a citation based upon either willful misrepresentation or substantial failure. *Id*. This argument fails.

To begin, the Administrator has continued to ignore the fact that a citation for violating 20 C.F.R. § 655.22 (n) (2009) can *only be pursued as a willful misrepresentation*, so the Administrator did not have the discretion to

issue a citation for substantial failure. This is the only interpretation of § 655.22 (n), which can be violated only if specified information is not "truly and accurately stated *on the application*." (Emphasis added). Necessarily, the only relevant moment in time occurred on November 7, 2012, when the application was submitted. Whether the Employer-Respondent arguably failed substantially to comply with this particular language months later has no evidentiary bearing on whether the Employer-Respondent misrepresented the contents "on the application." *See* 8 U.S.C. § 1184 (c) (14) (D) (a "substantial failure" occurs when there is a "willful failure to comply with the requirements of [§ 1184] that constitutes a significant deviation from the terms and conditions of a petition."). The Administrator already conceded this point, and it was reinforced by DOL's backfilling in subsequent regulatory amendments, *see* E'r-Resp. Br. at 24-25, and the Administrator has not disputed these points.

Even more telling, the Administrator chose to ignore the compelling text in § 2462, under which a proceeding must be brought within 5 years "from the date when the claim *first accrued* …." 28 U.S.C. § 2462 (emphasis added). It is widely recognized that the proper application of the statute of limitations necessitates considering the elements of each claim. *E.g.*, *DLS Precision Fab LLC v. U.S. Immigration & Customs Enforcement*, 867 F.3d 1079, 1085 (9th Cir.

2017) ("The date of accrual depends on the type of claim asserted."); *Clinic v. Hamann*, 808 N.W.2d 828, 836 (Minn. 2011) (must consider nature of conduct to determine accrual); *Hamer v. City of Trinidad*, 924 F.3d 1093, 1096-97 (10th Cir. 2019) (how a violation occurs affects the statute of limitations).

The misrepresentation-of-need clause required the Administrator to show that the reasons for temporary need and the number of positions requested in the application were inaccurate. 20 C.F.R. § 655.22 (n) ("The dates of temporary need, reason for temporary need, and number of positions being requested for labor certification have been truly and accurately stated on the application."). *Accord* R. Exh. 8, at 12 (attestation #13). The Administrator has conceded the elements of this claim. E'r-Resp. Br. at 24-25.

Modern case law has now established beyond dispute when a claim such as this one "first accrues." This Board's decision in *Graham & Rollins* established that, for more than a century, claims have accrued "'at the moment a violation occurs.'" *Administrator v. Graham & Rollins, Inc.*, No. 2019-0009, at *2 (ARB Nov. 16, 2020), *aff'g* No. 2018-TNE-00022, at *11 (OALJ June 26, 2018) (*quoting 3M Co. v. Browner*, 17 F.3d 1453, 1461-62 (D.C. Cir. 1994)). This reflects the most recent Supreme Court rulings and their progeny. "A claim accrues 'when the plaintiff has a complete and present cause of action.'" *Gabelli v. Securities & Exch. Comm'n*, 568 U.S. 442, 448 (2013) (*quoting Wallace v. Kato*,

549 U.S. 384, 388 (2007)). A claim accrues as soon as the plaintiff can sue and obtain some relief. *Sierra Club v. Oklahoma Gas & Elec. Co.*, 816 F.3d 666, 673 (10th Cir. 2016).

Thus, the accrual issue is easily resolved. The Administrator has frankly admitted that the violation occurred when the application was submitted. *See* Resp.-E'r Br. at 24-25.

2. The Accrual of the Claim Was Not Delayed by a Continuing or Repeated Violation. To be sure, the Administrator's concession is sufficient to determine accrual of the claim as a matter of law. Nevertheless, Employer-Respondent does not rest there. There are certain analogous cases that point the way. First, because of the *scienter* requirement, the discrimination cases are illustrative.[1] *Ledbetter v. Goodyear Tire & Rubber Co.*, 550 U.S. 618, 624-25 (2007) (when the only acts of discrimination preceded the statute of limitations, the fact that the discrimination had an adverse impact on

[1] The Administrator attempts to distinguish this line of cases on the basis that recklessness does not require specific intent. WHD Br. at 26 n. 11. This argument misstates the relevant standard. A violation is not based on a finding of objective recklessness, but on the subjective state of mind of recklessly disregarding whether the employer's conduct was prohibited by the statute. E'r-Resp. Br. at 21-23. This is the very point of creating a "penalty" that imposes punishment for either willfulness or reckless disregard. *See* the discussion of "penalty" in § I.A.3 *infra*. And even if the subjective reckless-disregard standard could be contorted into objective recklessness (*i.e.*, gross negligence), it would change nothing because the willfulness prong would still determine the date of "first accrual."

subsequent paychecks did not give rise to new violations with each paycheck). The impact on subsequent paychecks is handled differently than FLSA claims because FLSA claims do "not require proof of specific intent to discriminate." *Id*. at 641. *See also Lewis v. Chicago*, 130 S. Ct. 2191, 2199-200 (2010) (distinguishing between Title VII disparate-treatment and disparate-impact claims for the same reason). Another useful analogy is breach of contract cases. *See, e.g., Clinic v. Hamann*, 808 N.W.2d 828, 836 (Minn. 2011) (breach of contract when employer revoked a policy was a single violation even though it had continuing consequences on subsequent paychecks) (extensive discussion of accrual case law). These breach of contract cases are relevant because the Administrator is attempting to enforce the misrepresentation of need in the 9142 application as if it was contractual. Finally, construction cases under the Clean Air Act are also relevant. *See, e.g., Sierra Club v. Oklahoma Gas & Elec. Co*., 816 F.3d 666, 671-74 (10th Cir. 2016) (under § 2462, construction of facility was a single, ongoing project or act, not a disjointed series of discrete acts). These construction cases are relevant because, once the owner begins construction, the violation has accrued and each day of further construction does not represent a new violation.

This case law lends itself to a fairly simple analogy. Consider a carpenter who breaches of contract and fails to repair a house roof. This is a

single violation, even though there is new harm every time it rains. Nevertheless, there is no new violation every time it rains. The homeowner could sue even without it raining (and might even be obligated to do so under a duty to mitigate), but that does not mean that the rain is necessary to perfect the claim. Similarly, the alleged misrepresentation of need first accrued on November 7, 2012, when the application was submitted, at which point the Administrator could have brought an enforcement action, and once the Employer-Respondent misrepresented its need, the violation had occurred and there was no reason to wait for the next payday. See 20 C.F.R. § 655.65 (f) (2009) (the 2008 Rule attaches when the 9142 application is certified or the employment begins, *whichever is earlier*).

Despite the modern case law as to when a cause of action accrues, the Administrator's telling concessions, and relevant analogous case law, the Administrator implies but never overtly argues for a "continuing violation" running continuously before as well as after February 6, 2013. Such an argument has no merit. A continuing violation, such as a hostile work environment, is based on the cumulative effect of individual acts into a single unlawful act. *National Railroad Passenger Corp. v. Morgan*, 536 U.S. 101, 117 (2002). There is no such element to the Administrator's claim.

Alternatively, the Administrator argues that there were repeated violations or separate accruals, each of which started a new statute of limitations. WHD Br. 25-26.[2] This argument also lacks merit. The "repeated violations" doctrine is frequently raised under other statutes, but it has no application under § 2462. The penalty statute has unique text immediately rendering those other statutes inapplicable. Under the penalty statute, a claim accrues "from the date when the claim *first* accrued." *See Sierra Club*, 816 F.3d at 671 (under § 2462, any later violation is best viewed as a continuing rather than repeated violation). The repeated violation doctrine fails to address when the claim first accrued, regardless of whether it reaccrues, and that it accrues only once or else "first accrues" has no meaning. *Id*. at 671, 673. Moreover, those other statutes, such as the Fair Labor Standards Act, do not have a *scienter* requirement, which precludes each subsequent paycheck from triggering its own violation merely because the amount is deficient. *See, e.g.*, *Figueroa v. District of Columbia Metropolitan Police Dep't*, 633 F.3d 1129, 1134-35 (D.C. Cir. 2011) (FLSA is a strict liability offense that only requires a showing that work was performed and the pay was improper). Next, the repeated

[2] If the Administrator is correct that each violation started a new statute of limitations, then any violations (and the resulting back wages and CMP's) before February 6, 2013, would be barred and the case would still need to be remanded. *See, e.g.*, *Sierra Club v. Oklahoma Gas & Elec. Co.*, 816 F.3d 666, 671-73 (10th Cir. 2016).

violation doctrine fails to account for modern accrual case law. *Securities & Exch. Comm'n v. Cohen*, 332 F. Supp. 3d 575, 588 n. 6 (E.D.N.Y. 2018) (subsequent misconduct does not change the date on which a complete and present cause of action existed). Finally, the determination letter framed the sole count as a single violation and did not seek separate or repeated redress. The series of separate paychecks were collectively and adversely affected by one unlawful act of knowing or reckless disregard, *see Sierra Club*, 816 F.3d at 672, just as the citation reads. And all of the paychecks were tied together as an ongoing project by virtue of Employer-Respondent's prepayment plan.[3] *See* E'r-Resp. Br. at 44-45.

3. Back Wages Are a "Penalty." The Administrator appears to have conceded that the ALJ correctly determined that back wages are, indeed, a

[3] DOL has long recognized that employers may prepay for work to be performed later in the season, then recoup that credit later, and that this allows employees the benefit of a fairly stable wage rate even as weekly hours fluctuate. *E.g.*, Wage and Hour Division, *Constant Wage Plan*, Inspection Field Letter No. 26, at *1 (June 25, 1940); Wage and Hour Division, *Maximum Hours and Overtime Compensation*, Interpretative Bull. No. 4, at *14 (July, 1940); Wage and Hour Division, *Maximum Hours and Overtime Compensation*, Interpretative Bull. No. 4, at *14 (Nov., 1940); *Wage-And-Hour Opinion Letter* (May 21, 1971); *Wage-And-Hour Opinion Letter No. FLSA 2005-3*, at ¶ 4 (Jan. 7, 2005) < http://www.dol.gov/whd/opinion/FLSA/2005/2005_01_07_3_FLSA_PrepaymentPlan.pdf >; U.S. Department of Labor, Wage & Hour Division, *Field Operations Handbook* ¶ 32j16c (2016) < http://www.dol.gov/whd/FOH/FOH_Ch32.pdf >.

"penalty" under § 2462. WHD Br. at 24 n. 10. This section addresses any ambiguity in the Administrator's concession.

A unanimous Supreme Court recently established a two-part test for identifying when a remedy is a "penalty." *Kokesh v. Securities & Exch. Comm'n*, 137 S. Ct. 1635 (2017). In *Kokesh*, the SEC sought disgorgement from the wrongdoer to deprive him of the profit from violating the law. *Id*. at 1640. The Supreme Court held that a "sanction" is a "penalty" under § 2462 when (1) the wrong is to the public, not an individual, and (2) the remedy is sought for the purpose of punishment and deterrence of others, not compensation. *Id*. at 1642. The Supreme Court starkly indicated that the remedy is compensatory, not a penalty, if the liability is imposed "solely" to redress a private injury and paid "entirely" to a private plaintiff. *Id*. at 1643. Labeling a defendant as a wrongdoer showed the remedy was punitive. *Id*. The Supreme Court had no problem determining that the disgorgement was a penalty: It was pursued as a violation of public law against the United States, not an individual; It was done for the purpose of punishment and deterrence; and it was not compensatory because some of the funds went to the victims and some went to the U.S. Treasury, and there was no mandate to pay the victims. *Id*. at 1643-44.

Graham & Rollins reached the same conclusion. In that case, the Administrator sought "back wages" as reimbursement for outbound travel costs. *Graham & Rollins*, at *1 & 8 (June 26, 2018). After determining that the Administrator had incorrectly labeled the remedy as "back wages" instead of "other remedies," *id*. at *8, the ALJ had no problem determining that the remedy was a "penalty." The H-2B attestations to the Government showed that it was a "public wrong." *Id*. at *10. Nor was the remedy "purely" compensatory because the varying amount of the remedy bore no relation to the loss sustained. *Id*. at *9-11. *See also Graham & Rollins*, at *6 (Oct. 25, 2018) (Administrator failed to show that a "set amount" was owed).

The evidence is overwhelming that the back wages claimed in this case are not "solely" or "purely" compensatory. First, DOL long ago determined that the immigration statute authorized "sanctions" *in globo*. 73 Fed. Reg. 29942, 29945 n. 4 (May 22, 2008); 73 Fed. Reg. at 78020, 78023 n. 4 (Dec. 19, 2008). Backpay was just one of various available "penalties." 73 Fed. Reg. at 29955 & 29970; 73 Fed. Reg. at 78022, 78023. DOL specifically noted that backpay is a "sanction" because it reduces the *incentive to bypass U.S. workers and prevents wage depression* – classic punitive objectives. *See* 73 Fed. Reg. at 78047. *See also* WHD Br. at 8 (endorsing the punitive rationale for back wages). DOL noted that willfulness was the "standard for the severity of wage violations,"

and favorably noted that backpay was a "penalty" under the H-1B program. *Id*. Backpay was just the beginning: DOL had the prerogative of referring violations to the Department of Justice, 73 Fed. Reg. at 78043, and the failure to pay "sanctions" could result in debarment, *id*. at 78061.[4]

Second, the punitive nature of backpay is further apparent when the statute and regulations are considered in context. To begin, violating a DOL regulation, including the obligation to pay backpay, is a *crime*; the INA criminalizes hiring an alien who DHS has not authorized to be so employed. 8 U.S.C. §1324a(h)(3). This has resulted in more than 70 criminal investigations for failing to comply with DOL's regulations. Office of Inspector General, *Recommendations for Enhancing Forms Used for H-2B Non-Agricultural Temporary Workers*, Rep. No. 50-19-001-03-321, at 2 (2019). Next, the *scienter* requirement

[4] Every supporting case that DOL's rulemaking relied upon similarly recognized that backpay serves a dual purpose of punishment and compensation. *Albemarle Paper Co. v. Moody*, 422 U.S. 405, 417-18, 421, 422 (1975) ("the reasonably certain prospect of a backpay award … provides the spur or catalyst which causes employers and unions to self-examine and to self-evaluate their employment practices ….") (a statutory purpose of backpay is eradicating discrimination) (backpay award based on a showing of bad faith is "a punishment for moral turpitude rather than a compensation for workers' injuries"); *id*. at 451 (Burger, C.J., concurring in part and dissenting in part) (backpay based on bad faith provides incentive to eliminate marginal practices); *Commonwealth v. Donovan*, 704 F.2d 288, 294 (6th Cir. 1983) (back wages are "sanctions"); *City of Philadelphia v. U.S. Dep't of Labor*, 723 F.2d 330 (3d Cir. 1983) (same); *United States v. Duquesne Light Co*., 423 F. Supp. 507, 509 (W.D. Pa. 1976) (backpay provides incentive not to discriminate).

of a knowing or reckless-disregard violation is necessarily a penalty. *United States v. Searcy*, 965 F.3d 287, 299 (4th Cir. 2020). Further, a finding of back wage liability is an escalator for future penalties, 29 C.F.R. § 655 .31 (d) (1) (i) & (d) (4), as well as a multiplier of civil monetary penalties, *id*. § 655.65 (g) (1 & 7). Moreover, DOL's regulations and agency practice are riddled with discretion, which, as was true in *Graham & Rollins*, at *9-11, is a hallmark of a penalty. *See Gonzalez v. Sessions*, 894 F.3d 131, 139 (4th Cir. 2018). DOL has the discretion to determine

- Whether to impose back wages. 73 Fed. Reg. at 78064 (if wages are not paid, DOL "may" require back wages to comply).

- How back wages are paid. *Id*. at 78065 (payment of back wages must follow WHD's procedures).

- To whom back wages are paid. There is no statutory or even regulatory requirement to pay employees, nor are back wages paid to U.S. workers.

- The amount imposed. The Administrator testified at length regarding the phenomenal discretion to calculate back wages based on reasons not found in the 2008 regulations, including a burden-shifting presumption, disregarding uncontested timekeeping records, picking and choosing sources of evidence to determine hours worked, picking and choosing a method for reconstructing workhours, assuming that employee statements were 100% accurate, and calculating back wages based on a standard that did not exist under the 2008 DOL Rule. E'r-Resp. Br. at 35-45.

Third, WHD's agency practices further underscore that back wages are penalties. There is a significant opportunity for back wages to be retained by

the U.S. Treasury, which is a telltale sign of a penalty. *See Kokesh*, 137 S. Ct. at 1643-44. WHD retains H-2B back wages for 3 years, after which time, "if we remain unable to find the [employee], we are required to send the money to the U.S. Treasury." Wage and Hour Division, *Workers Owed Wages* (visited Feb. 20, 2021) < https://webapps.dol.gov/wow/ >. *See also Administrator v. Cantele Tent Rentals, LLC*, No. 2019-TNE-00033, at ¶ 4 (OALJ Oct. 22, 2020) (if former H-2B workers cannot be located or refuse back wages, the money is deposited in the U.S. Treasury and the employer remains responsible for the employee's share of income taxes for the back wages and the employer was perpetually barred from recovering any of the payments). The results of audits are compiled and any back wage calculations are publicized (along with the employer's name) to the world as "violations." U.S. Department of Labor, *Data Enforcement* (visited Feb. 20, 2021) (click "search form"; select "WHD Cases" dataset; search by "Year" (enter 2009-2021); search by "Violation" (enter "Show records with violations"); search by "Violation by Act" (enter "H-2B Non-Immigrant Workers"); search by "Back Wages Agreed to Pay") < https://enforcedata.dol.gov/views/searchChooser.php >. *See also* US Department of Labor, Employment & Training Admin. *Program Debarments* (Visited Feb. 20, 2021) < https://www.dol.gov/sites/dolgov/files/ETA/oflc/pdfs/Debarment_List.pdf

> (list of employers debarred from submitting applications to OFLC because of "violations"). This publicity is a warning to others, which is a classic penalty. *Gonzalez*, 894 F.3d at 138. It is also a penalty because it forces employers to confront the harm caused, *United States v. Zukerman*, 897 F.3d 423, 432 (2d Cir. 2018), and it labels them as wrongdoers, *Kokesh*, 137 S. Ct. at 1643.

Fourth, the punitive nature of back wages is also apparent when the statutory purposes are considered. It is well-established that Congress created all H visas to promote the national interests, H.R. Rep. No. 82-1365, at 52 (1952); INS Comm'r Argyle R. Mackey, *The New Immigration and Nationality Act and Regulations*, 1 I.&N. Rptr. 29, 29 (Jan., 1953), and alleviate U.S. labor shortages for temporary positions by providing nonimmigrant alien labor, *see* H.R. Rep. 82-1365, at 44-45; INS, *Annual Report of the INS* 31 (1953). The H-2B program accomplishes these goals by balancing the interests of employers and U.S. workers. *See, e.g., Virginia Agric. Growers' Ass'n v. DOL*, 756 F.2d 1025, 1027, 1031 (4th Cir. 1985); *Louisiana Forestry Ass'n, Inc. v. Secretary of Labor*, 745 F.3d 653, 667 (3d Cir. 2014); *A.F.L.-C.I.O. v. Dole*, 923 F.2d 182, 187 (D.C. Cir. 1991). In this case, H-2B workers are not even a protected class, but merely a conduit to safeguard the true protected class by reducing the incentive to bypass U.S. workers and avoid wage depression. 73 Fed. Reg. at 78047.

4. Equity Does Not Aid a Penalty. It is important to note that back wages are an equitable remedy. *Porter v. Warner Holding Co.*, 328 U.S. 395, 398-99 (1946); *FTC v. Abbvie, Inc.*, 329 F. Supp. 3d 98, 137 (E.D. Pa. 2018). Equity does not aid a penalty. *Liu v. Securities & Exch. Comm'n*, 140 S. Ct. 1936, 1941 (2020). As a result, equitable remedies apply the same statute of limitations that were available at law. 1 John Norton Pomeroy, *A Treatise on Equity Jurisprudence* § 419, at 785 (4th ed. 1918).

B. This Case Is Governed by the Catchall 4-Year Statute Of Limitations

Several of the Administrator's arguments directed to the 4-year catchall statute of limitations need to be rebutted. The Employer-Respondent cited to a series of authorities related to the legislative history for the Administrative Procedures Act to show that agency actions qualify as "civil actions." E'r-Resp. Br. at 11. The Administrator attempted to distinguish all of them on the basis that agency actions are eventually subject to judicial review. WHD Br. at 29. Not only does this argument point out the futility of refusing to acknowledge agency actions qualify as "civil actions" (meaning that the Administrator concedes that the statute of limitations will apply on its face in the future), but the Administrator's single objection does not fairly meet the significance of those authorities.

The Administrator also adopted an unnecessarily restricted view of the legislative history for § 1658 (a). The Administrator points to the title of the statute, WHD Br. at 29, but it is well-established that a title cannot limit the plain textual meaning, *Alli v. Decker*, 650 F.3d 1007, 1012 (3d Cir. 2011). This is particularly true when the title does not even appear in the U.S. Code. *See Mead Corp. v. Tilley*, 490 U.S. 714, 723 (1989).

Far more insightful is the drafting history indicating that § 1658 (a) applies to this enforcement action. According to the committee responsible for developing the bill, the statute was intended to apply to "*any* … federal claim not specifically covered by a limitations provision." *Report of the Federal Courts Study Committee* at 93 (Apr. 2, 1990) (emphasis added) < https://www.fjc.gov/sites/default/files/2012/RepFCSC.pdf >.

II. RESPONDENT-EMPLOYER DID NOT SUBSTANTIALLY FAIL TO COMPLY BY MISREPRESENTING ITS TEMPORARY NEED FOR 9 SPECIFIED H-2B WORKERS

To a striking extent, the Administrator has not disputed the Employer-Respondent's major points why there was no willful or reckless disregard. Thus, the Administrator has not disputed that there is no regulation specifying how to request a job code or how much detail must be provided. *See* WHD Br. 37-38 (referencing sub-regulatory documents). The Administrator has not disputed that every duty performed by these workers was listed on the

approved O*Net classification for this particular job code. *See* WHD Br. 42-43. Nor has the Administrator disputed that Employer-Respondent complied with industry practice, which was the only regulatory requirement. *See* WHD Br. at 32-43.

Instead, the Administrator relies on an assortment of miscellaneous provisions to determine the regulatory "requirement[s]." *Id*. at 37-38. This is done in an apparent effort to establish that the Employer-Respondent's actions produced "the same effect" as the violation that was actually cited. *Id*. at 34-35. The obvious deficiency with the Administrator's argument is that none of these miscellaneous provisions were actually charged as misconduct. And if the Administrator had sought to amend the determination letter to include them, this would have triggered a new statute of limitations that would have resulted in dismissal.

The Administrator also seeks to substantially rewrite the statutory and regulatory requirements to show a willful or reckless disregard. The Administrator concluded that Employer-Respondent was guilty of "fail[ing] to educate itself," *id*. at 38, but that is merely non-actionable negligence, *see* E'r-Resp. Br. at 21-23. This case presents another example of dueling interpretations, *id*. at 40-41, but the Administrator never responded to why Employer-Respondent acted with reckless disregard when assigning job duties

– every one of which was on the approved O*Net list – in the manner selected. The Administrator's position appears to be that it was the Employer-Respondent's, not the Administrator's, burden to show a good faith basis to rely upon a consultant. WHD Br. at 50.. The Administrator even argues to abandon 3 decades of Supreme Court case law entrenching the reliance defense, which is inseparable from the regulatory obligation to show a willful or reckless disregard, *id*. at 22-23, and replace it with strict liability under agency law when resorting to a consultant, WHD Br. at 39-40.

The Administrator also relies upon the decision in *Administrator v. JML Landscape Mgmt*., No. 2017-TNE-00008 (OALJ Oct. 22, 2018). That case is easily distinguished because the employer failed to challenge the interpretation or enforceability of § 655.22 (n), or otherwise present any willfulness defense. *Id*. at 12.

III. EMPLOYER-RESPONDENT IS NOT LIABLE FOR BACK WAGES OR CIVIL MONEY PENALTIES

To a large extent, the Administrator does not argue the propriety of the back wages or civil money penalties, but merely recounts what the ALJ stated. WHD Br. 45-51. Thus, the Administrator offers no rebuttal to the fact that the ALJ based his back wage calculations on the mean H-2B wage rate, a wage

rate that did not even exist under the 2008 Rule. *See* E'r-Resp. Br. at 38. This fact alone compels remand for a proper calculation.

Although the Administrator quotes from 20 C.F.R. § 655.65 (i), the Administrator never actually establishes that back wages are authorized for a violation of § 655.22 (n). In 2008, there was substantial uncertainty as to whether back wages were authorized under any circumstances, and DOL discussed at length the propriety of that remedy. 73 Fed. Reg. 78020, 78046-47 (Dec. 19, 2008). DOL eventually concluded that it had the discretion to "seek back pay … in cases where the employer has *failed to pay the L[abor] C[ertification]-specified wages*," and then "modified" the final rule to reflect this conclusion. *Id*. at 78047 (emphasis added). Far from reserving sweeping power to impose back wages when "appropriate," § 655.65 (i) narrowly circumscribed that back wages were appropriate for violations under § 655.22 (e), but under no other circumstances, such as a purported violation of § 655.22 (n).

Nor does the Administrator offer any justification why the ALJ could reject the overwhelming majority of Employer-Respondent's contemporaneously-countersigned and undisputed time records. WHD Br. at 45-47. In this instance, these 9 employees were employed during the 83 days from February 1 through April 24, 2013. E'r-Resp. Br. at 3. Employer-

Respondent submitted 1132 pages of timekeeping records for all employees during those 83 days. R. Exh. 26. The time records pertinent to the 9 employees are identified in R. Exh. 45. In the great majority of instances, these individuals worked 5-7 days per week, or approximately 500 (83 x 6) relevant daily time records. R. Exh. 26. All of these relevant time records appear to have been contemporaneously countersigned by the individual employees as accurate, *see* Tr. 108 (testimony of Ms. Aguilar); R. Exh. 26, and it was undisputed that the employees countersigned for the purpose of verifying the accuracy of the reported time, *compare* Tr. 108-10, 156 & 186 (testimony of Ms. Aguilar) *with* Tr. 291-94 & 314 (testimony of Mr. Brajevich). Out of these approximately 500 relevant time records, the ALJ took issue because

- 5 individuals were missing time records during April 1-7 (approximately 30 time entries).
- 2 employees had "duplicate" time records for March 25-31 (approximately 12 time entries, although the ALJ had the option to choose the higher figure).
- one employee had a time record that conflicted with the hours reported on payroll during April 1-7 (approximately 6 time entries, although the ALJ had the option to choose the higher figure).

D & O at 11-12. Thus, even with debatable bases to challenge the veracity of these 48 time entries, the ALJ rejected out of hand the other 90% that were undisputed and contemporaneously vouchsafed as accurate by the relevant employees. This improperly shifted the burden of proof to the Employer-Respondent.

Nor has the Administrator made a good-faith effort to show that the ALJ properly rejected all credits. The Administrator perfunctorily contends that Employer-Respondent failed to cite any authority to support a claim for credits. WHD Br. at 19. Fundamentally, this is an improper attempt to shift the burden of proof to the Employer. *See* E'r-Resp. Br. at 19. This was also a complete failure to engage with the Employer-Respondent's arguments that the credits were, indeed, authorized. *Id*. at 38-41. Inexplicably, the Administrator seems to be under the impression that the only evidence to support the propriety of the credits was the joint witness statement. WHD Br. at 47-48. This was plainly not the case; the evidence that the credits were proper was undisputed, Tr. 101-13 (testimony of Ms. Aguilar) (WHD chose not to investigate the credits), and plentiful, E'r-Resp. Br. at 38-41.

As to CMP's, the Administrator's position is nothing more than the *ipse dixit* that the ALJ's decision was "thorough and reasoned." WHD Br. at 51. In doing so, the Administrator chose to completely ignore Employer-

Respondent's numerous objections establishing that the decision cherry picked evidence and then ignored any contrary evidence, no matter how strong. *See* E'r-Resp. Br. at 45-49.

CONCLUSION

The ALJ's opinion should be reversed and the case dismissed. Once the statute of limitations and the merits of the violation, if necessary, are properly addressed, there is no basis for the back wages or civil monetary penalties.

Before HARTHILL, Chief Administrative Appeals Judge, and PUST and BURRELL, Administrative Appeals Judges

DECISION AND ORDER

HARTHILL, Chief Administrative Appeals Judge:

This case arises under the H-2B provisions of the Immigration and Nationality Act (INA), as amended, and its implementing regulations.[1] The H-2B program permits employers to hire nonimmigrant workers to perform temporary nonagricultural work on a one-time, seasonal, peak load, or intermittent basis, all as defined by the Department of Homeland Security (DHS).[2] DHS requires that employers petitioning for H-2B visas obtain a labor certification from the U.S. Department of Labor (Department or DOL) before applying for H-2B visas through DHS.[3]

To obtain a labor certification, employers first obtain a prevailing wage determination for the job opportunity from DOL's Employment and Training Administration (ETA) by submitting an Application for a Prevailing Wage Determination (ETA Form 9141).[4] Employers must offer and pay H-2B workers the highest of the determined prevailing wage or the applicable federal, state, or local

---

[1] 8 U.S.C. §§ 1101(a)(15)(H)(ii)(b) et seq., 1184(c)(14), and 20 C.F.R. Part 655, subpart A (2008); 29 C.F.R. Part 503 (2015). The 2008 H-2B regulations apply to the instant case because Respondent submitted the operative labor certification application in 2012, which was approved by the Department of Homeland Security (DHS) in 2013. D. & O. at 5-6. Although the U.S. District Court for the Northern District of Florida issued an order vacating and permanently enjoining DOL from enforcing the 2008 Rule with an effective date of April 30, 2015, see *Perez v. Perez*, No. 14-cv-682, Doc. 14, slip op. at 7-8 (N.D. Fla. Mar. 4, 2015), the court later clarified that "'the permanent injunction was not intended to, and does not, apply retroactively.'" *Perez v. Perez*, No. 14-cv-682, Doc. 62 (N.D. Fla. Sept. 4, 2015). *See Adm'r, Wage and Hour Div., U.S. Dep't of Lab. v. Deggeller Attractions, Inc.*, ARB No. 2020-0004, ALJ No. 2018-TNE-00008, slip op. at 4-5 (ARB Jan. 25, 2022) (noting that the *Perez* court's clarification held that the 2008 regulations were still enforceable and thus apply to labor certifications issued before April 30, 2015). The 2015 H-2B regulations provide that with respect to determinations to enforce provisions of the job order or provisions under 8 U.S.C. § 1184(c), the procedures and rules contained in 29 C.F.R. § 503, Subpart C "will apply regardless of the date of violation." 29 C.F.R. § 503.40(b). Accordingly, the 2015 rules apply to the procedural issues in this matter.

[2] 8 C.F.R. § 214.2(h)(6)(ii)(B). An H-2B employee is defined as "having a residence in a foreign country which he has no intention of abandoning who is coming temporarily to the United States to perform other temporary service or labor if unemployed persons capable of performing such service or labor cannot be found in this country . . . ."
8 U.S.C. § 1101(a)(15)(H)(ii)(b).

[3] 8 C.F.R. § 214.2(h)(6)(iii)(A).

[4] 20 C.F.R. § 655.10 (2009). The 2008 H-2B regulations (2008 regulations) were promulgated on December 19, 2008, effective on January 18, 2009, and codified into the Code of Federal Regulations in 2009. Labor Certification Process and Enforcement for Temporary Employment in Occupations Other Than Agriculture or Registered Nursing in the United States (H-2B Workers), and Other Technical Changes, 73 Fed. Reg. No. 245, 78,020 (Dec. 19, 2008). References to 20 C.F.R. § 655 refer to the 2008 regulations unless otherwise specified.

minimum wage.[5] After obtaining a prevailing wage determination, the employer must submit an Application for Temporary Employment Certification (ETA Form 9142B) and a recruitment report to the ETA for approval.[6]

Section 214(c)(l4) of the INA gives DHS the authority to impose administrative remedies when the Secretary of DHS finds "a substantial failure to meet any of the conditions of the petition to admit . . . a nonimmigrant worker under [8 U.S.C. § 1101(a)(l5)(H)(ii)(b)] or . . . a willful misrepresentation of a material fact in such petition."[7] DHS is authorized to delegate this enforcement authority to the Secretary of Labor,[8] and has delegated to the Secretary of Labor its authority "to enforce compliance with the conditions of a petition and Department of Labor approved temporary labor certification to admit or otherwise provide status to an H-2B worker."[9] This enforcement authority has been further delegated within DOL to the Administrator, Wage and Hour Division (WHD) of the Department (Administrator).[10]

In 2013, the Administrator conducted an on-site investigation of Respondent Butler Amusements, Inc.'s (Butler Amusements or Respondent) [11] location in Santa Barbara, California.[12] On February 6, 2018, WHD issued a Determination Letter finding that Butler Amusements substantially failed to comply with certain attestations it made in its ETA Forms 9141 and 9142B and assessed back wages and civil monetary penalties (CMPs).[13] Butler Amusements contested WHD's

10 *See* Secretary's Order 01-2014, 79 Fed. Reg. 77,527-01 (Dec. 19, 2014). As of the date of this opinion, the Principal Deputy Administrator is the ranking official responsible for the U.S. Department of Labor's Wage and Hour Division.

11 Butler Amusements' former CEO, Michael Brajevich, was a named party below but the ALJ concluded that he was not individually or personally liable for Butler Amusements' violations. *Id.* at 30. Because Respondent did not appeal this determination to the Board, it has become final; accordingly, we have removed Mr. Brajevich from the case caption and refer only to Butler Amusements as the Respondent herein.

12 D. & O. at 6.

13 *Id.* The ALJ noted that the February 6, 2018 Determination Letter originally cited $24,987.20 in unpaid wages to nine H-2B workers, and $10,000 in CMPs. *Id.* at 6 n.8. The ALJ's May 2, 2019 Second Order Granting In Part Motion to Amend and Reconsidering April 12 Amendment Order (May 2, 2019 Order) amended the unpaid wages to $26,955.40. *Id.*

finding and assessed remedies and requested administrative review with the Office of Administrative Law Judges (OALJ).[14]

On September 30, 2020, a DOL Administrative Law Judge (ALJ) issued a Decision and Order (D. & O.) determining that Respondent failed to comply with the requirements of the H-2B program and ordered Respondent to pay back wages and assessed CMPs. Respondent petitioned the Administrative Review Board (ARB or Board) for review of the ALJ's decision. For the reasons set forth below, we **AFFIRM** the ALJ's D. & O.

BACKGROUND

The following facts were determined by the ALJ in the D. & O. and are not disputed on appeal.

Butler Amusements operated a traveling amusement carnival providing rides, games, and concessions to fairs in California, Oregon, Washington, Idaho, Arizona, and Nevada.[15] In October 2012, Butler Amusements requested a prevailing wage determination for the job opportunity "Amusement and Recreation Attendants" (ARAs) for 246 H-2B workers.[16] Its agent, James Kendrick Judkins (Judkins), completed and submitted ETA Forms 9141 and 9142B on its behalf.[17] On ETA Form 9142B, Michael Brajevich (Brajevich), Butler Amusements' former CEO, and Judkins both attested that the information on the application was true and accurate.[18]

1. Butler Amusements' Application and Certification for H-2B Workers

In 2012, Butler Amusements completed ETA Form 9141 and entered "Amusement and Recreation Attendants - Traveling Carnival" as the "Job Title," "39-3091" as the "*Suggested* SOC (ONET/OES) code," and "Amusement Recreation Attendants" as the "*Suggested* SOC (ONET/OES) occupation title."[19] The Standard Occupational Code (SOC) system utilized by ETA had an occupation search engine called O*NET (Occupational Net) which provided extensive information about any occupation including occupational categories and characteristics (knowledge, skills,

19 *Id.*; RX 5 at 1.

abilities, tasks and general work activities).[20] For ARA positions, O*NET identified the core tasks as: selling tickets; collecting fees; selling refreshments; recording details of attendance, sales, receipts, reservations, or repairs; providing information about facilities; directing patrons, monitoring safety; cleaning rides; and staying informed of safety measures.[21]

Under "Job duties," Butler Amusements represented that the H-2B workers would, "[p]erform [a] variety of attending duties at amusement facility (traveling carnival). Set up, tear down, operate amusement rides, food concessions and/or games."[22] The H-2B workers were to work 40 hours per week from 1:00 p.m. to 10:00 p.m., travel to multiple worksites, and receive no overtime.[23] No experience, education, training, specific skills, or special licenses were required for the job, except for a drug and criminal background check.[24] Butler Amusements indicated that H-2B workers in this position would not supervise any other employees.[25]

In October 2012, Butler Amusements posted job advertisements for 250 open positions for Carnival and Amusement Recreation Attendants.[26] The advertisements explained that the jobs included "a variety of attending duties" at amusement facilities, including "set up, tear down, operate amusement rides, food concessions and/or games."[27] Butler Amusements would "pay the weekly salary for each week the worker was employed," make "available mobile housing valued at $125.00 per week" and make "available transportation from venue to venue and scheduled transportation to laundry, shopping valued at $25.00 per week."[28]

In December 2012, Butler Amusements filed ETA Form 9142B and represented a temporary need for 246 full-time seasonal ARAs for Butler Amusements' 2013 season.[29] Under "job duties," Butler Amusements again

---

24 *Id.*

25 *Id.*

26 *Id.*

27 *Id.* Workers would typically work 40 hours per week, Wednesday through Sunday, from 1:00 pm to 10:00 pm, making a weekly wage ranging from $323.60 to 368.40 per week, and were required to travel with the carnival to Washington, California, Arizona, Nevada, Oregon, and Idaho. *Id.*

28 *Id.* at 3-4; RX 1 at 1.

29 *Id.* at 4.

described the position's "Job duties" as to "[p]erform [a] variety of attending duties at amusement facility (traveling carnival). Set-up, tear-down, operate amusement rides, food concessions and/or games."[30] The position required "no special skills, licenses/certifications."[31] The H-2B workers would not supervise the work of other employees.[32] Butler Amusements also noted that it would follow the prevailing practices in the Traveling Amusement Industry with regard "to housing, transportation and weekly salary for workers."[33] Butler Amusements submitted an Addendum to ETA Form 9142B, listing 71 worksites and again stated it "makes available mobile housing valued at $125.00 per week," and "transportation from venue to venue, and scheduled transportation to laundry, shopping valued at $25.00 per week."[34]

On ETA Form 9142B, an employer must attest that it will abide by certain terms, assurances, and obligations as a condition for receiving a temporary labor certification.[35] In Section I, Declaration of Employer and Attorney/Agent, Butler Amusements checked "Yes" confirming they had read and agreed to all applicable terms, assurances, and obligations in Appendix B.1 of ETA Form 9142.[36] Judkins signed Appendix B.1 Section A, and Brajevich signed Appendix B.1 Section B.[37] By signing Butler Amusements' Declaration (Attestation #13), Brajevich certified that the job opportunity was a full-time temporary position and that "[t]he dates of temporary need, reason(s) for temporary need, and number of worker positions being requested for certification has been truly and accurately stated on the application."[38] Brajevich took full responsibility for the accuracy of any representations made by his agent or attorney, in this case, Judkins, and declared under penalty of perjury that he had read and reviewed the application and that to the best of his knowledge it was true and accurate.[39]

On December 14, 2012, based on the attestations and documentation provided, ETA certified Butler Amusements' application for temporary labor

certification of 246 H-2B workers as ARAs.[40] The workers arrived in early February 2013.[41]

2. WHD Investigation and Findings

In 2013, WHD Investigator Carrie Aguilar (Aguilar) visited Butler Amusements' worksite in Santa Barbara, California.[42] Aguilar and her WHD team observed Butler Amusements' operations and interviewed employees.[43] In November 2013, WHD found that nine H-2B workers were employed outside the approved job duties of ARA.[44] The investigator determined that these workers had worked as drivers, maintenance workers, and supervisors, all of which have different SOC codes and prevailing wage determinations.[45]

A. Butler Amusements Employed H-2B Workers Outside the Approved Job Duties of ARA

WHD determined that Butler Amusements employed two H-2B workers, Antonio Mendez (Mendez) and Omar Lopez (Lopez), as supervisors as indicated by a roll sheet listing both Mendez and Lopez as supervisors.[46] Multiple employees stated they reported to either Mendez or Lopez as their supervisor.[47] In 2013, Butler Amusements had employed Mendez for 12 years, and he had been a supervisor for six years.[48] In Mendez's position as an supervisor, he checked to make sure employees were doing their jobs, dealt with customer complaints, responded to ride operators when something was broken, and filled out the ride roster.[49] Mendez was the general manager's "left hand."[50] When visiting, Mendez gave the Wage and Hour Investigators the tour, a role which, in Aguilar's experience, supervisors typically assume.[51] Lopez supervised 16 employees, and in

48 *Id.*

49 *Id.*

50 *Id.*

51 *Id.*

their statements multiple employees stated Lopez told them when to start each day.[52] Lopez also filled out the ride roster.[53]

WHD determined that Butler Amusements employed Jaime Hernandez and Felipe Villegas (Villegas) solely as shop workers, in which they exclusively worked in the "shop" or "spare parts trailer" cleaning parts and supplies, welding, doing inspections, and repairing rides.[54]

WHD further determined that Butler Amusements employed Saul Estadillo Herrera (Estadillo), Sergio Guzman (Guzman), Jose Ivan Ortega (Ortega), Gustavo Gamero (Gamero), and Fernando Preza (Preza) as truck drivers.[55] These Commercial Driver's License [CDL] drivers drove tractor trailers and semi-trucks to transport rides, but did not operate rides.[56] Multiple records referred to these H-2B employees as drivers.[57] Two handwritten notes in Butler Amusements' payroll records listed Ortega, Guzman, and Preza as drivers who were all paid $500 for the week ending April 7, 2013, in Yuma.[58] A payroll spreadsheet for "Butch's Unit" listed Ortega, Guzman, and Preza as drivers.[59] While Estadillo and Gamero were not listed as drivers, the pay slips regularly showed that they did not work on weekends which were the longest and busiest days for ride operators, and typically the days the drivers would not transport rides.[60]

Estadillo worked for Butler Amusements as a driver for three years and drove the trailers hauling rides.[61] To comply with Department of Transportation regulations, Estadillo did not drive more than 10 hours per shift and kept a transportation logbook of his hours, which ranged from 20 to 60 hours per week.[62]

---

52 *Id.*

53 *Id.*

54 *Id.*

55 *Id.* at 10.

56 *Id.*

57 *Id.*

58 *Id.* The ALJ commented that while the note did not include the year 2013, it was "reasonable to assume it was 2013 because Butch's unit was in Yuma during that time period in 2013." *Id.* at 10 n.32.

59 *Id.* at 10.

60 *Id.*

61 *Id.* The ALJ noted that Estadillo referred to the vehicles he drove as trailers, thus it is not clear whether these are distinct from the "semi-trucks" to which Ortega referred. *Id.* at 10 n.33.

62 *Id.* at 10.

His pay was the same regardless of his hours.[63] When he was not driving, he inspected the trailer truck and was on standby for whatever the manager needed.[64]

Ortega drove semi-trucks to transport rides but not to transport people.[65] He drove a maximum of 10 hours per shift, and his hours varied weekly.[66] He recorded his driving hours in a logbook, which he submitted to Butler Amusements.[67] Butler Amusements provided the semi-truck in which he lived and slept and did not charge him for his living accommodations.[68]

B. Butler Amusements' Pay Practices

Butler Amusements paid the nine workers more than the ARA prevailing wage, but less than the prevailing wage for the jobs they performed (first-line supervisors, maintenance shop workers, and drivers).[69]

Butler Amusements provided free housing in trailers, transportation from venue to venue, and local transportation to run errands.[70] No employee reported deductions for any of these items.[71] Not all of the employees stayed in the provided trailers, and there was no evidence that employees who did not stay in the provided lodging received higher wages for not using the trailers.[72] The occupancy of the trailers varied, with some employees sharing with four people or only one roommate, and some employees with private rooms.[73] Butler Amusements provided a payroll spreadsheet listing employee information, including columns titled "gross, draws, uniforms, ID, bunk, and net."[74] None of the employees had a deduction for "bunk" identified on the spreadsheet.[75]

70 *Id.* at 8.

71 *Id.* The only deductions were cash advances. *Id.*

72 *Id.*

73 *Id.*

74 *Id.*

75 *Id.*

Butler Amusements submitted 1,132 pages of payroll records and photocopied pay slips for review.[76] Butler Amusements also submitted its own summary of the hours that each of the nine employees worked.[77] The Administrator found that "Butler Amusements' payroll records did not represent the hours H-2B workers actually worked, and that the dollar amounts on the pay slips were likely accurate but the documented hours were unreliable."[78] The ALJ found that the errors in Butler Amusements' payroll records and summary exhibit (Butler Amusements' Hearing Exhibit RX 45) made both documents unreliable.[79] The ALJ noted that the submitted pay slips omitted amounts paid, contained duplicate pay slips for the same person for the same period, and were inexplicably missing records for some employees.[80] The ALJ also noted that records were missing for several of the nine employees.[81] The ALJ also found that there were duplicate pay slips for Estadillo, Gamero, and Lopez which indicated different hours worked during the same time period and so could not be reconciled to determine which pay slip record was correct.[82]

The Administrator did not credit the hours documented on Butler Amusements' pay slips because it suspected the hours were inaccurate.[83] Based on his review of the employee interviews and the pay slips, the ALJ found that this decision was reasonable, and that the Administrator reasonably reconstructed hours worked based on the attestation in ETA Form 9142B rather than by relying on incomplete and questionably accurate pay slips.[84]

---

76 *Id.* at 11.

77 *Id.* (citing RX 45 (Respondent's Summary Exhibit of Hours Worked by H-2B Workers)).

78 *Id.* Based on the pay slips, the ALJ found it was reasonable to conclude that during the period of investigation all nine employees traveled from Riverside County to Maricopa County, to Yuma County, and to Santa Barbara County. *Id.* at 13.

79 *Id.* at 11.

80 *Id.* For example, for the week of February 24 to March 3, Butler Amusements recorded that Preza worked 37 hours, but no pay was documented. *Id.*

81 *Id.* For another example, Gamero, Guzman, Preza, Ortega, and Estadillo each had no pay slip with hours from April 1 to April 7. *Id.*

82 *Id.* at 11-12. For example, there were duplicate pay slips for Estadillo for March 25 to March 31, the first indicating he worked 17.5 hours and the second indicating he worked 38.5 hours that week. *Id.* at 11. Additionally, in Butler Amusements' summary exhibit RX 45, it referred to pages that were not included in the exhibit, attributed hours to the wrong pay periods, and made questionable conclusions regarding employee duties. *Id.* at 12.

83 *Id.*

84 *Id.*

Based on the investigation, WHD sent Butler Amusements a Summary of Unpaid Wages which listed ten employees with varying amounts of unpaid wages for the period from February 2, 2013, to April 27, 2013.[85]

3. Procedural History and ALJ's Decision

On February 6, 2018, the Administrator issued a Determination Letter finding that Butler Amusements substantially failed to comply with Attestation #13—which requires the employer to accurately state the dates of temporary need, reason for temporary need, and number of workers for temporary need—or stated another way, failed to comply with the requirement to provide proper job classification information on Form 9142B and DHS Form I-129.[86] The Administrator based this finding on the substantive provisions of the 2008 H-2B regulations and the procedural provisions of the 2015 H-2B regulations, and determined that Butler Amusements "violated Attestation #13 and 20 C.F.R. § 655.22(n) (2009) as well as the Form I-129's part 5, question 1."[87] The Administrator assessed back wages totaling $24,987.20, and $10,000 in CMPs.[88] On February 28, 2018, Butler Amusements contested the Administrator's finding and remedies and requested administrative review with the OALJ.[89]

Before the ALJ, Butler Amusements filed an Opposed Motion for Summary Judgment, and the ALJ issued an Order Denying Summary Decision on November 14, 2018. In his Order, the ALJ concluded, among other things, that that the five-year statute of limitations in 28 U.S.C. 2462 for actions to enforce a civil fine or penalty was applicable to this case, and that the Administrator had timely filed its determination letter within the five-year limitations period.[90] The ALJ also concluded that back wages were an appropriate remedy under 20 C.F.R. 655.65(i) for the violations alleged in this case.[91] The ALJ's May 2, 2019 Order noted that the original amount of unpaid wages cited in the Determination Letter was $24,987.20, but amended the unpaid wages to $26,955.40 due to an inadvertent omission of one of the employees entitled to back wages.[92]

89 *Id.* at 13.

90 Order Denying Summary Decision at 14-18 (ALJ Nov. 14, 2018) (Summary Decision Order).

91 *Id.* at 12-13.

92 May 2, 2019 Order at 3; D. & O. at 6 n.8.

A hearing was held in May 2019, and the ALJ issued the D. & O. on September 30, 2020, finding that Butler Amusements substantially failed to comply with the H-2B program by employing nine H-2B workers outside the job duties of amusement and recreation attendants.[93] The ALJ found that Butler Amusements had instead employed the workers as drivers, maintenance shop workers, and supervisors.[94] The ALJ concluded that WHD's method of calculating back wages through reconstruction was appropriate, but in recalculating the back wages owed, he lowered them from $26,955.40 to $26,786.[95] The ALJ rejected Butler Amusements' claim that it was entitled to certain credits.[96] Finally, the ALJ held that the Administrator's assessment of a $10,000 CMP was reasonable.[97]

Butler Amusements timely appealed to the Board.

JURISDICTION AND STANDARD OF REVIEW

The ARB has jurisdiction to review an ALJ's decision and issue the final determination of the Secretary of Labor ("Secretary") under the H-2B program.[98]

---

93 *Id.* at 19.

94 *Id.*

95 *Id.* at 25-26.

96 *Id.* at 27.

97 *Id.* at 28. The ALJ also concluded that Respondent could not show that the doctrine of laches should apply, that Brajevich was not individually or personally liable for Butler Amusements' violations, and that an anti-retaliation order for any H-2B worker owed back wages was warranted. *Id.* at 15-17, 30-31. None of these issues have been presented to the Board for appeal, and thus the ALJ's decision on these matters is final. We note that although Butler Amusements mentioned laches in the Petition for Review, it did not brief this issue. The Board will deem an argument waived when a party asserts a conclusory proposition on appeal without providing an explanation or elaborating on the proposition as it relates to the party's argument. *See Adm'r, Wage & Hour Div., U.S. Dep't of Lab. v. Washington Farm Lab. Ass'n*, ARB No. 2021-0069, ALJ No. 2018-TAE-00013, slip op. at 29 n.113 (ARB Mar. 31, 2023) (internal citations omitted).

98 Secretary's Order No. 01-2020 (Delegation of Authority and Assignment of Responsibility to the Administrative Review Board (Secretary's discretionary review of ARB decisions)), 85 Fed. Reg. 13,186 (Mar. 6, 2020); *see also* 29 C.F.R. § 503.51.

The Board reviews an ALJ's decision de novo[99] and acts with "all the powers [the Secretary] would have in making the initial decision."[100]

DISCUSSION

Upon review of the ALJ's D. & O., the parties' arguments on appeal, and the record, the Board concludes that: (1) the current case is not time barred; (2) Butler Amusements violated the INA and H-2B regulations by employing H-2B workers outside of the job classification listed on ETA Form 9142B; (3) the ALJ's recalculation of back wages owed was properly determined; (4) Butler Amusements is not eligible for any credits under the 2008 H-2B regulations; and (5) the ALJ's affirmance of CMPs is reasonable under the facts in the current matter.

1. The Administrator's Case Is Not Time Barred

A. The Administrator Timely Issued the Determination Letter

WHD issued its determination letter on February 6, 2018, covering the period from February 1, 2013, through April 24, 2013.[101] Applying a five-year limitations period, the ALJ found that WHD's February 6, 2018 Determination Letter was timely because it was issued before April 24, 2018.[102]

Butler Amusements argues that the ALJ incorrectly determined that the statute of limitations accrued when the violation *concluded* on April 24, 2013, rather than on February 1, 2013, when the workers arrived and the violation *began.*[103] Butler Amusements further argues that the "moment of employment" (which it argues began on February 1, 2023, when the workers began working for

101 D. & O. at 6; RX 19.

102 D. & O. at 16-17; Summary Decision Order at 16-18. Although the Administrator did not agree that the five-year statute of limitations in Section 2462 applied to the back wages sought in this case, the Administrator has not appealed this aspect of the ALJ's decision on the basis that it is not determinative. We agree that the application of the five-year limitations period in the D. & O. does not eliminate any period of time for which the Administrator sought back wages, and therefore we do not need to address whether Section 2462's five-year statute of limitations applies to H-2B proceedings where the Administrator seeks to recover back wages.

103 Respondent's (Resp.) Brief (Br.) at 5-6.

Butler Amusements) was a single discrete violation that provided grounds for the Administrator's cause of action,[104] and "[t]he fact that the purported violations may have continued until April 24, 2013, has no bearing on the statute of limitations accrual."[105]

In support of its argument that the violation in this case occurred once, and that it was not continuing or repeating, Butler Amusements argues that the statute of limitations for this violation is limited by a scienter requirement, which requires a "subjective state of mind of recklessly disregarding whether its conduct was prohibited by the statute"[106] and is illustrated in discrimination cases.[107] Butler Amusements argues that "even if the subjective reckless disregard standard could be contorted into objective recklessness (i.e., gross negligence), it would change nothing because the willfulness prong would still determine the date of 'first accrual.'"[108]

In response, the Administrator argues that the violation in this case was not a single discrete event, but instead consisted of recurring failures to comply with the H-2B program requirements.[109] The Administrator points to the fact that during the February-April 2013 period which WHD investigated, Butler Amusements employed at least nine H-2B workers outside the certified job classification; therefore, Butler Amusements substantially failed to comply with the terms and conditions of ETA Form 9142B throughout that same period.[110] The Administrator analogizes this substantial failure violation to an FLSA action, where there is "a series of repeated violations of an identical nature" such that "each failure to pay . . . begins a new statute of limitations period as to that particular event."[111] Thus, "the underpayment is not the 'effect' of a prior violation; it is the violation itself."[112]

Butler Amusements counters that the accrual of an INA claim is more analogous to the situation in *Ledbetter v. Goodyear Tire & Rubber Co., Inc.*,[113] in which the Supreme Court held that the applicable limitations period did not begin anew for each paycheck reflecting a prior violation of Title VII.[114] The Court distinguished FLSA claims from Title VII claims because the latter do not require proof of specific intent to discriminate. Butler Amusements equates the H-2B provision's willfulness requirement to Title VII's specific intent requirement. This argument fails for two reasons. First, H-2B's definition of "willful" includes reckless disregard, which does not equate to specific intent.[115] Second, the Supreme Court did *not* appear to equate proof of willfulness with Title VII's specific intent requirement because it cited to FLSA's "willful violation" provision when distinguishing the FLSA from Title VII.[116]

We agree with the Administrator that each significant deviation from the terms and conditions of the H-2B petition and accompanying labor certification is the violation itself, [117] and thus begins a new statute of limitations.

Butler Amusements also argues that the Administrator was required to charge this violation as a willful misrepresentation, rather than a substantial

[114] Resp. Reply Br. at 4.

[115] 20 C.F.R. § 655.65(e) ("'[W]illful failure' means a knowing failure or a reckless disregard with respect to whether the conduct was contrary to sec. 214(c) of the INA, or this subpart.").

[116] *Ledbetter*, 550 U.S. at 641 ("Again, however, Ledbetter's argument overlooks the fact that an FLSA minimum wage or overtime claim does not require proof of a specific intent to discriminate. See 29 U.S.C. § 207 (establishing overtime rules); cf. § 255(a) (establishing 2–year statute of limitations for FLSA claims, except for claims of a "willful violation," which may be commenced within 3 years)."). In support of this proposition, Butler Amusements also cites to breach of contract cases and Clean Air Act cases, but we are unable to discern why these are analogous. Resp. Reply Br. at 4-6.

[117] *See* 8 U.S.C. 1184(c)(14) (an employer violates the INA when it willfully fails to comply with the H-2B requirements and that failure constitutes a "significant deviation" from the terms and conditions of the employer's petition). *See also Adm'r, Wage and Hour Div., U.S. Dep't of Lab. v. 5 Star Forestry*, ARB No. 2013-0056, ALJ No. 2012-TNE-00010, slip op. at 5 (ARB Nov. 6, 2014) (Final Decision and Order on Civil Money Penalty) (affirming ALJ's decision charging the employer with four separate H-2B violations, instead of a single violation, for placing H-2B workers in four different locations outside the area of the intended employment the employer listed in its application for temporary employment certification). In *5 Star Forestry,* the Board found that *each* placement was a substantive deviation from the terms and conditions of the H-2B petition (to conduct the necessary measures to confirm the absence of U.S. workers in each location it attends to place H-2B workers), and thus each deviation was a violation in itself. *Id.* at 5-6.

failure to comply, and that any willful misrepresentation would have occurred when it filed its ETA Form 9142B in 2012 (outside the limitations period).[118] However, an employer may willfully misrepresent facts on its ETA Form 9142B and be charged with willful misrepresentation, or an employer may substantially fail to comply with the statements it made on its ETA Form 9142B regarding its temporary need for H-2B workers and be charged with a substantial failure to comply.[119]

In this case, Butler Amusements had not substantially failed to comply with the requirement in 20 C.F.R. § 655.22(n) *until* it actually acted with reckless disregard of the H-2B program requirements by employing nine H-2B workers in job classifications other than ARA. Therefore, the Secretary's claim did not begin to accrue until February 2013, and Butler Amusements substantially failed to comply repeatedly throughout the period that WHD investigated, to April 2013. Therefore, the Board finds that that Administrator's February 6, 2018 Determination Letter was timely filed within the five-year limitations period.

B. The Four-Year Limitations Period in 28 U.S.C. 1658(a) Does Not Apply to Administrative Actions

Butler Amusements argues in the alternative that the statute of limitations is governed by the four-year limitations period set forth in 28 U.S.C. § 1658(a),[120] which governs "civil action[s] arising under an Act of Congress enacted after" 1990. Butler Amusements argues that DOL's enforcement actions are considered a civil matter, thus, Section 1658(a) governs the current matter.[121]

Butler Amusements is incorrect. As the Federal Communications Commission (FCC) recently recognized, "[t]he text, context, purpose, and history of Section 1658(a) make clear that it governs court actions, not agency

---

[118] Resp. Br. at 3, 7 n.1, 24-25 (Butler Amusements arguing that 20 C.F.R. § 655.22(n) "can only be violated through a misrepresentation in the application, not through substantial failure to comply," thus the only relevant moment in time occurred when it submitted the application on 11/7/2012.); *see also id.* at 6 (for Butler Amusements' argument that the violation occurred upon submission of the application because that was the moment of either willfulness or reckless disregard).

[119] The Administrator can identify different types of violations after an investigation, including a willful misrepresentation of a material fact on a petition, or a substantial failure to meet any conditions of the labor certification or DHS Form I-129. 20 C.F.R. § 655.60.

[120] Resp. Br. at 8-12; *see* 28 U.S.C. § 1658(a).

[121] Resp. Br. at 11-12.

proceedings . . . ."[122] First, as the FCC explained, the term "action," as used in federal statutory provisions, most frequently refers to judicial proceedings in civil matters and not agency proceedings. The Fourth Circuit, when analyzing the term "civil action" in 28 U.S.C § 1658(a), similarly held that it did not apply to a civil commitment hearing, noting that such a proceeding was distinct from a civil action, which is one that "seek[s] to enforce or protect a private civil right."[123] An administrative enforcement action, such as in the current case, does not seek to enforce or protect a private civil right. Similarly, the Supreme Court, when analyzing 28 U.S.C. § 2415(a), another federal limitations statute, stated that the term "action" is "ordinarily used in connection with judicial, not administrative, proceedings."[124]

The FCC's analysis of the context, purpose and history of Section 1658(a) further supports the conclusion that this section only applies to suits brought in federal court:

> Section 1658 was enacted as part of the Judicial Improvements Act of 1990. Title III of that Act, in which Section 1658 was enacted, is the Federal Courts Study Implementation Act of 1990. As those names would suggest, where the term "action" appears in the enacting law, it refers to formal judicial proceedings or other action by the judiciary or its governing bodies.
>
> ***
>
> 'The primary goals of [the Judicial Improvements] Act [were] to decrease delays in the federal court system as a result of overloaded case dockets, to increase overall efficiency, and to reduce costs and litigation expenses." The

Hale*, SE-14527, 1997 WL 566262, at *1 n.3 (N.T.S.B. Aug. 29, 1997) (stating that Section 1658(a) applies to "certain civil actions in federal court" and not to proceedings before the National Transportation Safety Board).

[123] *United States v. Searcy*, 880 F.3d 116, 124 (4th Cir. 2018), *cert. denied*, 139 S. Ct. 285 (2018).

[124] *BP Am. Prod. Co. v. Burton*, 549 U.S. 84, 91 (2006). The cases cited by Butler Amusements as examples of the term "civil action" being applied to administrative proceedings are inapposite because they apply the Administrative Procedure Act, which provides a cause of action for review of administrative actions in federal court, and thus involves a judicial proceeding not limited to administrative proceedings. *See* Resp. Br. at 10-12.

> purpose of Section 1658 specifically was to eliminate the need for federal courts to "borrow" the most analogous state or federal law limitations period for federal claims that lacked their own designated limitations period.
>
> ***
>
> In other words, the legislative concerns that animated the enactment of Section 1658, and the goals of Judicial Improvements Act of 1990 as a whole, related to proceedings in federal court, not administrative proceedings.[125]

The FCC concluded by noting that it could find no case where section 1658(a) was used to set the limitations period for an administrative proceeding.[126] The Board likewise concludes that the limitations period set forth in 28 U.S.C. § 1658(a) does not apply to this administrative enforcement action.

C. *Statutes of Limitations Should Not Be Borrowed from Other Statutes in Suits Brought by the Government*

Butler Amusements also argues that the ALJ erred by failing to "borrow" a statute of limitations from either the Fair Labor Standards Act or the H-2A program for application in this case.[127] However, the borrowing principles relied upon by Butler Amusements apply to private actions brought under a federal statute that does not itself specify a statute of limitations—not, as here, where the enforcement action is brought by the government itself.[128] Because these borrowing principles do not apply in cases brought by the government,[129] the ALJ did not err in refusing the requested action.

Local 427*, 894

2. Butler Amusements Violated the INA and the H-2B Regulations by Employing H-2B Workers Outside the Job Classification Listed on the Application for Temporary Labor Certification

The ALJ found that the Administrator had adequately established that Butler Amusements substantially failed to comply with the 2008 H-2B regulations by employing nine H-2B workers as ARAs who did not perform ARA job duties.[130] Instead, Butler Amusements employed these H-2B employees as drivers, shop workers, and supervisors of ARAs.[131] After reviewing the ALJ's finding de novo, we agree with the ALJ for the following reasons.

A. Statutory and Regulatory Background

In 2008, the DOL proposed and instituted an attestation-based filing system for the H-2B program; the employer's "information and attestations on the application form" were to provide the Department with "the necessary assurances . . . to initially verify program compliance."[132] The regulation also provided for the Department to conduct compliance audits of H-2B applications[133] and for the Administrator to conduct investigations.[134]

Following an investigation, the Administrator can identify three types of violations: (1) a willful misrepresentation of a material fact on a petition; (2) a substantial failure to meet any conditions of the labor certification or DHS Form I-

F.2d 607, 614-15 (3d Cir. 1990) (rejecting argument that an analogous federal statute of limitations should apply to Secretary of Labor's suit brought under the Labor Management Reporting and Disclosures Act); *Marshall v. Intermountain Elec. Co.*, 614 F.2d 260, 263 (10th Cir. 1980) (refusing to apply state statute of limitations to Secretary of Labor's action under the Occupational Safety and Health Act).

133 *Id.* (citing 20 C.F.R. § 655.24).

134 *Id.* at 17-18 (citing 20 C.F.R. § 655.60). The Administrator performs all of the Secretary's investigative and enforcement functions, and pursuant to a complaint or otherwise, conducts investigations and gathers information as deemed necessary by the Administrator to determine compliance with the H-2B program. 20 C.F.R. §§ 655.50(a)-(b).

129; or (3) a misrepresentation of a material fact to the State Department on a visa application.[135]

In this case, WHD's 2013 investigation found that Butler Amusements substantially failed to meet the conditions of the labor certification application attested to as listed in Section 655.22.[136] Section 655.22(n) requires the employer to attest that it truly and accurately stated the number of workers needed, the dates of need, and the reasons underlying the temporary need in its labor certification request.[137]

On ETA Form 9142B, Butler Amusements represented that it had a temporary need for 246 full-time seasonal "Amusement and Recreation Attendants" starting on February 1, 2013, and ending on October 31, 2013.[138] Butler Amusements listed the job duties that these workers would perform as a "variety of attending duties at amusement facility (traveling carnival). Set-up, tear-down, operate amusement rides, food concessions and/or games.'"[139] When Brajevich signed the Employer's Declaration in Appendix B.1 Section B on ETA Form 9142, he certified that the "job opportunity was a full-time temporary position and that 'the dates of temporary need, reason(s) for temporary need, and number of worker positions being requested for certification has been truly and accurately stated on the application[.]'"[140] However, because Butler Amusements employed nine H-2B workers as supervisors (2), shop workers (2), and drivers (5), WHD determined that Butler Amusements substantially failed to meet the conditions of the labor certification.[141] The ALJ agreed.

On appeal, Butler Amusements contends that the ALJ erred in finding that it violated 20 C.F.R. § 655.22(n) because while the statute is violated when there is a misrepresentation on the application, it is not violated when an employer compensates workers at the approved wage rate for the approved job code although

140 *Id.* at 5 (citation omitted).

141 *Id.* at 9-10, 13.

the workers may have also performed additional "incidental" job duties.[142] Butler Amusements argues its application did not contain a misrepresentation of its temporary need and therefore, it could not have violated Section 655.22(n).[143] Butler Amusements argues that, instead of charging it under 20 C.F.R. § 655.22(n) for mispresenting its temporary need for workers, the Administrator was required to charge this case as a willful misrepresentation of a material fact when Butler Amusements submitted the application in 2012 or when it was approved.[144]

Contrary to this argument, the Administrator was not required to charge this matter as a willful misrepresentation case. The Administrator may charge an employer with a willful misrepresentation or a substantial failure to comply with the conditions attested to on ETA Form 9142B,[145] and in this case chose the latter. A substantial failure violation occurs after the workers are in the U.S.[146]

We now turn to whether Butler Amusements substantially failed to comply with the temporary need requirement in 20 C.F.R. Section 655.22(n). The INA defines substantial failure as "the *willful failure* to comply [with this section which] constitutes a *significant deviation* from the terms and conditions of a petition."[147]

142 Resp. Br. at 3-4, 34.

143 *Id.* at 24-25.

144 *Id.* at 7 n.1.

145 20 C.F.R. § 655.60(a)-(b).

146 *See* RX 40 (Deposition of Carrie Aguilar) at 18-19 (Aguilar explaining the difference between a misrepresentation (occurs when "something that was known at the time of the filing to be an error or incorrect" before the workers are in the country) and a substantial failure (a failure "to comply substantially with the terms and conditions outlined in" ETA Form 9142B "[a]fter the workers are here and the terms and conditions of [ETA Form 9142B] are not complied with"); *see also Adm'r, Wage and Hour Div., U.S. Dep't of Lab. v. C.S. Lawn & Landscape, Inc.*, ARB No. 2020-0005, ALJ No. 2018-TNE-00023, slip op. at 8 (ARB Apr. 4, 2022) (in which the Board held that the employer's substantial failure to comply with Section 655.22(g)(1) did not start to accrue until the employer actually took the housing deduction from the workers' paychecks).

147 8 U.S.C. § 1184(c)(14)(D) (emphasis added). Section 214(c)(14) of the INA states that if DHS finds "a substantial failure to meet any of the conditions of the petition to admit . . . a nonimmigrant worker under [8 U.S.C. § 1101(a)(15)(H)(ii)(b)] or . . . a willful misrepresentation of a material fact in such petition," it may impose such administrative remedies, including civil monetary penalties, as it determines to be appropriate. 8 U.S.C. § 1184(c)(14)(A). The statute continues: "In this paragraph, the term 'substantial failure' means the willful failure to comply with the requirements of this section that constitutes a significant deviation from the terms and conditions of a petition." 8 U.S.C. § 1184(c)(14)(D). In addition, "the highest penalties shall be reserved for willful failures to meet any of the conditions of the petition that involve harm to United States workers." 8 U.S.C. § 1184(c)(14)(C).

Likewise, a substantial failure under the 2008 H-2B regulations means a "willful failure that constitutes a significant deviation from the terms and conditions of the labor condition application or the DHS I-129."[148]

B. *Butler Amusements Willfully Failed to Comply with the 2008 Regulations Because It Recklessly Disregarded Whether It Was in Compliance with the INA and H-2B Program Requirements*

The 2008 H-2B regulations define "willful failure" as a "knowing failure or a reckless disregard with respect to whether the conduct was contrary to sec. 214(c) of the INA, or this subpart."[149] Under this standard, the term "willful" refers to conduct that is "voluntary," "deliberate," or "intentional," and "not merely negligent."[150] A violation is willful if the employer "either knew or showed reckless disregard for the matter of whether its conduct was prohibited . . . ."[151] An act is not "willful" if the employer simply knew potential violations were "in the picture."[152]

The ALJ found Butler Amusements "acted with reckless disregard for whether it was in compliance with the INA and its implementing regulations by ignoring the regulations and instructions accompanying the temporary employment certification application and employing nine H-2B workers outside of its job certification."[153]

Butler Amusements argues that it did not act with reckless disregard because: (1) it did not have proper notice or knowledge of its obligations under the H-2B program as the 2008 Rule did not provide or explain how much detail to provide when submitting a job code, how to complete ETA Form 9142B or instructions for describing job duties, or what the correct test was to determine a job code; (2) 20 C.F.R. § 655.22(n) does not address the impropriety of compensating workers at the approved job rate if they were not performing the job duties for the approved job code but addresses misclassification on the application; and (3) that it did not know of a regulatory requirement to only employ H-2B workers in the certified job classifications, nor did the ALJ ever identify any pertinent regulatory duty.[154]

i. Butler Amusements Ignored the 2008 H-2B Regulations

Butler Amusements argues that an agency must provide notice of its interpretation of what is prohibited before it may impose penalties.[155] The agency provides notice "[i]f, by reviewing the regulations and other public statements issued by the agency, a regulated party acting in good faith would be able to identify, with 'ascertainable certainty,' the standards with which the agency expects parties to conform."[156]

Here, we agree with the ALJ that "[t]he regulations and instructions accompanying the certification application provided ample notice and guidance for Employer to comply with the INA and the terms of its certification,"[157] and that several sections of the 2008 H-2B regulations would have given Butler Amusements notice of its obligations.[158] The 2008 H-2B regulations dictated that employers must truly and accurately state, "the dates of temporary need, reason for temporary need, and number of positions being requested for labor certification . . . on the application."[159] These directions are clear, and we agree with the ALJ that Butler Amusements "should have known that it was supposed to employ the number of ARA workers it had truly and accurately requested."[160]

Butler Amusements argues on appeal that the 2008 H-2B regulations do not provide notice to employers about how to request a job code during the application process or "limit the employer's assigned job duties to the job code requested."[161] Butler Amusements argues that because of the lack of guidance from the H-2B regulations, including how much time and effort it should have spent on selecting a job code, "attempting to impose a regulatory duty would seriously undermine the public's ability to understand the rules that must be followed."[162]

We agree with the ALJ that "[t]he content and purpose of the advertising requirements should have given Respondent notice of the level of specificity

162 *Id.* at 27, 32.

required for the job description."[163] The 2008 H-2B regulations explain that "[b]efore receiving a temporary labor certification for H-2B workers, an employer must ensure that there are not enough interested and able U.S. workers to fill the positions.[164] Employers must advertise the job with enough specificity "to apprise applicants . . . where [they] will likely have to reside to perform the services or labor" and describe the "opportunity (including the job duties) . . . with sufficient detail to apprise applicants of services or labor to be performed . . ." as well as, "[t]he job opportunity's minimum education and experience requirements . . . ."[165] Furthermore, the job description in the advertisement and the temporary employment certification application have to be similar because employers cannot place "less favorable" job requirements on U.S. workers.[166] Thus, like the ALJ, we find unconvincing Respondent's arguments that it did the best it could in the absence of clear directive and guidance.

Butler Amusements also argues that workers performed a variety of job duties but that none of these job duties were assigned outside of the job code, and that it was being efficient by concentrating approved duties in a small number of H-2B workers.[167] Butler Amusements argues that when it searched the different job titles, every single one of the duties listed was an approved job duty for "Amusement and Recreation Attendants." Thus, it satisfied the only regulatory staffing requirement, which is to comply with industry practice.[168] Like the ALJ, we find that Butler Amusements should have known it was required to describe the job duties with enough specificity to inform workers of the labor to be performed. However, "despite its representations on the temporary employment certification, [Butler Amusements] placed workers in positions where they were supervising other employees, exclusively driving semi-trucks, or working in a repair shop—all duties which were not listed on ETA Form 9141, 9142B, or the I-129."[169]

We also agree with the ALJ that Sections 655.20 and 655.34(b) also provide notice that a strategy of concentrating duties to promote efficiency violates the 2008 H-2B regulations.[170] Section 655.20(d) states that "[c]ertification of more than one position may be requested on the application as long as all H-2B workers will

perform the same services or labor on the same terms and conditions, in the same occupation . . . ."[171] Section 655.34(b) states "[a] temporary labor certification is only valid for the . . . specific services or labor to be performed . . . ."[172] We find it notable that, although the company had participated in the H-2B program since 2000, CEO Brajevich admitted he had never read or referenced the 2008 H-2B rules. As the ALJ noted, if Brajevich had read the regulations, "these requirements would have put [Butler Amusements] on notice that all workers within a certification should perform the same labor, under the same conditions, and in the same occupations and that the certification was only valid for the services or labor specified in the application."[173]

Having carefully reviewed the record de novo, we see no reason to disturb the ALJ's findings.[174] We therefore conclude that Butler Amusements showed reckless disregard for complying with the statute and regulations when it submitted a temporary employment certification for 246 ARA workers, and did not review the implementing regulations, and then employed some of its certified H-2B workers exclusively in occupations outside of the certification.

ii. Butler Amusements Ignored Instructions on ETA Forms 9141, 9142B, and DHS I-129

Regardless of whether Brajevich read the 2008 H-2B rules, the instructions accompanying ETA Forms 9141, 9142B, and the DHS I-129 informed Butler Amusements of its obligations. Thus, we agree with the ALJ that Butler Amusements "seemingly ignored the instructions they did receive with their temporary employment certification."[175] The ALJ provided an example:

> [T]o enable ETA to make a prevailing wage determination (PWD), [Butler Amusements was] to '[d]escribe the job duties, in detail, to be performed by any worker filling the job opportunity.' The instructions stated, 'specify field(s) and/or product(s)/industry(ies) involved, any equipment to be used, and pertinent work conditions.' The duties provided must be specific enough to be classified under a relevant SOC pursuant to the O*Net publication.[] The

174 As stated by the ALJ, Butler Amusements' "strategy to 'just put [workers] wherever we can get them to be efficient,' was expedient, but clearly violated this explicit requirement." *Id.*

175 *Id.* at 21.

> instructions also directed [Butler Amusements] to indicate the number of employees the H-2B workers would supervise and whether the supervised workers would be subordinates or peers. The ETA Form 9142B has similar instructions.[176]

We agree with the ALJ that despite this guidance, Butler Amusements "did not include in the description any mention of needing a commercial driver's license, driving a semi-truck to transport rides, working in a repair shop, or supervising other employees."[177] Butler Amusements instead employed H-2B workers in positions dramatically different from the job description—in the positions of first-line supervisors, maintenance shop workers, and drivers—that was used to generate a prevailing wage determination, advertised to U.S. workers, and certified for H-2B workers.[178]

If Butler Amusements wished to fill positions that included supervisory roles, driving, and shop work, it "should have submitted separate applications for the various jobs they sought to fill."[179] Instead, Butler Amusements "exerted minimal effort to comply with the INA and the 2008 H-2B regulations, which demonstrated more than mere negligence, but a reckless disregard for whether its actions violated the statute and regulations."[180]

iii. Butler Amusements Did Not Act Reasonably or with a Good Faith Belief That It Had Not Committed a Violation of the 2008 H-2B Regulations

Butler Amusements argues that, because it relied on an experienced consultant when filing out the Form 9142B, it could not have willfully violated the regulations.[181] As the ALJ noted, "[i]n the Notice of Proposed Rulemaking, the Department confirmed '[i]n the H-2B program, the agent simply represents the employer in the labor certification process. The employer is ultimately responsible for its obligations under the program . . . .'"[182] By signing Butler Amusements' Declaration on ETA Form 9142B, Brajevich "certified the job opportunity was a full-

time temporary position and that '[t]he dates of temporary need, reason(s) for temporary need, and number of worker positions being requested for certification has been truly and accurately stated on the application . . . .'"[183] Brajevich "took full responsibility for the accuracy of any representations made by his agent or attorney and declared under penalty of perjury that he read and reviewed the application and that to the best of his knowledge it was true and accurate."[184]

As did the ALJ, we find the Supreme Court's *Thurston* case instructive on this issue. In *Thurston*, the record showed that the employer, an airline, acted reasonably and in good faith.[185] When airline officials met with lawyers, they determined that the airline's existing policy violated the Age Discrimination in Employment Act (ADEA), and proposed and adopted a new policy.[186] Relying on these facts, the Court held that the airline did not show willful or reckless disregard for whether its conduct violated the ADEA.[187] We agree with the ALJ's finding that, unlike the airline in *Thurston*, Butler Amusements did not act reasonably and in good faith.[188] The airline in *Thurston* "did not just consult counsel, they engaged with the process, and changed their plan of action based on counsel's advice."[189] Thus, merely "[c]onsulting counsel is not sufficient to show that one acted in good faith, nor is pleading ignorance."[190]

On appeal, Butler Amusements argues that its expert consultant advised it to pursue this course of action and that the ALJ imposed "strict liability" for relying on an erroneous professional consultant.[191] We disagree. The ALJ correctly noted that it was Butler Amusements and "Brajevich [who] took full responsibility for the accuracy of any representations made by his agent or attorney and declared under

penalty of perjury that he read and reviewed the application and that to the best of his knowledge it was true and accurate."[192] The ALJ did not impose strict liability by finding that Butler Amusements did not reasonably rely on counsel, but instead concluded it is ultimately the employer's responsibility to ensure that its application is accurate, and in this case Butler Amusements failed to do so.

Relying on counsel with expertise in the H-2B program alone is not persuasive evidence that an employer acted reasonably or in good faith with the INA and H-2B program requirements. In sum, the Board agrees with the ALJ that, despite adequate notice of its obligations, Butler Amusements made convenient decisions and exerted minimal effort to comply despite relying on and consulting with counsel.

C. *Butler Amusements Placed Nine H-2B Employees Outside of ARA Positions and Its Reckless Disregard Resulted in a Significant Deviation from the Terms and Conditions of ETA Forms 9141 and 9142B*

As set out in the Background section in detail, the core tasks for ARA positions as published in O*NET are vastly different than those represented by Butler Amusements in ETA Forms 9141 and 9142B.[193] In the face of the disparity between the O*NET core task description and the work that the nine subject H-2B workers actually performed, Butler Amusements argues that employing workers exclusively in supplemental activities was not a significant deviation from the job certification because their strategy of concentrating approved duties in a small number of H-2B workers made them more efficient and thus was acceptable under the H-2B regulations under the "incidental-duty rule."[194] This argument fails both factually and legally.

Turning first to the facts, the O*NET description for "supplemental activity" lists includes "inspecting equipment to detect wear and tear and making minor repairs," and similarly, "an ARA might spend some time maintaining inventories of

---

192 D. & O. at 21-22 (citation omitted).

193 In O*NET, the core duties for ARA positions are: selling tickets; collecting fees; selling refreshments; recording details of attendance, sales, receipts, reservations, or repairs; providing information about facilities; directing patrons, monitoring safety; cleaning rides; and staying informed of safety measures. *Id.* at 22 (citation omitted). On ETA Forms 9141 and 9142B, Butler Amusements represented that the H-2B workers it sought as ARAs would, "[p]erform a variety of attending duties at amusement facility (traveling carnival)" and they would "[s]et up, tear down, operate amusement rides, food concessions and/or games." *Id.* No experience, education, training, specific skills, or special licenses were required for the job, and though the workers would travel to different worksites they would not supervise any other employees. *Id.*

194 Resp. Br. at 34.

equipment and assembling and disassembling equipment."[195] Here, the ALJ found that none of the nine employees performed the core duties associated with an ARA position, and that they also rarely performed the supplemental duties.[196] The ALJ noted that "[t]he five drivers spent their time almost exclusively transporting rides on semi-trucks. They self-identified as drivers and were listed as drivers. Additionally they slept in their trucks, had commercial drivers' licenses, and kept logbooks to comply with [U.S.] Department of Transportation regulations."[197] As for the two shop workers, they "labored solely in the maintenance shop cleaning parts and supplies, welding, doing inspections, and repairing rides."[198] "[T]he supervisors described themselves as supervisors, and other employees, as well as Butler Amusements' management, corroborated this."[199] "The supervisors walked around to make sure employees were doing their jobs, dealt with customer complaints, responded to ride operators when something was broken, and filled out the ride roster."[200] Thus, the ALJ found that "[t]he nine employees did not perform core ARA duties and only minimally performed supplemental ARA duties."[201]

Next, we turn to the law. As an initial matter, the Board is unpersuaded by Butler Amusements' argument that the "incidental-duty rule" should be "borrowed" from H-2A regulations for application to the current case.[202] Butler Amusements is also incorrect that the 2008 H-2B Regulations did not require it to employ H-2B workers only in the job code that was requested and approved.[203] This argument

---

196 *Id.* at 23.

197 *Id.* (citations omitted).

198 *Id.* (citations omitted). The ALJ noted that Villegas did not need his company shirt because he spent so little time working with the public. *Id.* (citation omitted).

199 *Id.* (citation omitted).

200 *Id.* (citation omitted).

201 *Id.* (citation omitted).

202 The "incidental activities" argument fails because this provision is related to the type of "work activity of the type typically performed on a farm and *incident to the agricultural labor or services for which an H-2A labor certification was approved may be performed by an H-2A worker*." 73 Fed. Reg. 77,110 (Dec. 19, 2008) (emphasis added).

203 Resp. Br. at 26. Respondent also argues that the new language in the 2012 and 2015 regulations prohibiting workers outside of the certified job classifications demonstrated that the 2008 H-2B regulations did not prohibit the practice. *Id.* at 24-26. The clarifying language in those later regulations, however, indicated that the requirement existed under the 2008 H-2B regulations but was not explicit. D. & O. at 23 (noting that the 2012 and 2015 H-2B regulations added clarifying language that "'an H–2B worker is only permitted to work in the job and in the location that OFLC [Office of Foreign Labor Certification] approves unless the employer obtains a new temporary labor certification.'").

ignores and undermines the purpose of the INA and the Department's temporary labor certification process to protect U.S. workers. Butler Amusements certified that there were no qualified U.S. workers available for the positions and that employment of H-2B workers would not adversely affect the wages and working conditions of U.S. workers.[204] If the regulations did not require H-2B workers to be only employed in the job code requested, the Department's certification process would be rendered meaningless—as the ALJ succinctly stated, "to allow employers to select a job code, receive a prevailing wage determination, advertise the job to [U.S.] workers, hire H-2B workers after certifying that no [U.S.] workers wanted the position, and then employ H-2B workers to perform a different job entirely, undermines the purpose of the INA to protect U.S. workers."[205]

Accordingly, we agree with the ALJ that Butler Amusements "failed to advertise the nine positions to [U.S.] workers and adequately compensate the nine employees."[206] "Drivers, shop workers, and supervisors all have different SOC codes and corresponding prevailing wage rates, which are higher than the [prevailing wage rate] for [an] ARA."[207] As Butler Amusements "placed these nine employees outside of the ARA position but paid them as if they were ARA employees, [Butler Amusements] significantly deviated from its certification and owes back wages."[208] Butler Amusements' reckless disregard for the regulations and its lack of a good faith effort to comply with the rules resulted in a substantial failure to meet

---

204 *See* RX 2 (ETA's Certification of Butler Amusements' Application) at 21.

205 D. & O. at 23. By placing workers outside the position of ARA, Butler Amusements failed to ensure that there no qualified workers in the U.S. for the positions of drivers, shop workers, and supervisors. Butler Amusements' failure not only ignored regulatory guidance, but also undermined the labor certification process of ensuring that it had been "unsuccessful in locating sufficient numbers of qualified U.S. applicants *for the job opportunity for which labor certification is sought*." 20 C.F.R. §655.22(c) (emphasis added). *See also Outdoor Amusement Bus. Ass'n, Inc. v. U.S. Dep't of Homeland Sec.*, 983 F.3d 671, 675 (4th Cir. 2020), *cert. denied*, 142 S. Ct. 425 (2021) ("A core part of the H-2B visa program is labor certifications—the process of determining whether American workers are available and whether employment of H-2B workers would adversely affect similarly employed American workers."); *Nat'l Ass'n of Mfrs. v. U.S. Dep't of Homeland Sec.*, 491 F.Supp.3d 549, 565 (N.D. Cal. 2020), *appeal dismissed*, No. 20-17132, 2021 WL 1652546 (9th Cir. 2021) ("[A]ccording to the existing statutory scheme, the H-2B visa category requires that a visa can only be issued 'if unemployed persons capable of performing [the necessary temporary] service or labor cannot be found in this country[]' [and] [t]hat safeguard is achieved through a careful and robust certification process overseen by the Department of Labor[.]") (citations omitted).

206 D. & O. at 24.

207 *Id.* (citation omitted).

208 *Id.* (citation omitted).

conditions of the labor certification, and thus, Butler Amusements violated 20 C.F.R. § 655.22(n).

3. Remedy

If the Administrator finds that an employer has not paid wages at the wage level required by Section 655.22(e), the Administrator may require the employer to pay back wages.[209] Back wages further the purposes of the H-2B program by reducing the employer's incentive to bypass U.S. workers in order to hire H-2B workers who are more easily exploited.[210] The Board acknowledges the necessity and authority of WHD to reconstruct hours worked and payments made to determine back wages when the employer's records are unreliable.[211]

A. The ALJ's Recalculation of Back Wages Owed

WHD reconstructed the back wages owed based on a 40-hour week (per the temporary employment certification), the itinerary in the temporary employment certification, and SOC job codes for drivers, first-line supervisors, and maintenance and repair workers.[212] In finding that Butler Amusements owed $26,955.40, the Administrator did not rely on its pay slips because the Administrator found the number of hours worked recorded on the pay slips was not credible.[213] The ALJ found that the "pay slip hours were unreliable and could not have been used to reconstruct employee back wages" based on Aguilar's testimony that the typed timecards were less reliable than handwritten timecards because employees did not contemporaneously document when they started and stopped working and because the hours listed on the pay slips did not align with employee accounts.[214]

However, the ALJ found that the data in RX 26 was reasonably reliable regarding the location of the workers, and so recalculated the wages that Butler Amusements owed each worker as could be best determined from the locations

---

209 20 C.F.R. § 655.65(i).

210 73 Fed. Reg. 78,020, 78,047 (Dec. 19, 2008).

211 *See Adm'r, Wage and Hour Div., U.S. Dep't of Lab. v. Peter's Fine Greek Food, Inc.*, ARB No. 2014-0003-B, ALJ Nos. 2011-TNE-00002, 2012-PED-00001, slip op. at 6 (ARB Sept. 17, 2014). Thus, the ALJ's decision to disregard some pay records did not impose a "de facto timekeeping obligation" on Butler Amusements, Resp. Br. at 35, and its FLSA-exempt status and statutory time-keeping obligations are irrelevant.

212 D. & O. at 24 (citation omitted).

213 *Id.* at 25 (citation omitted).

214 *Id.*

available in the exhibit.[215] The ALJ based the hourly wage rate on the Foreign Labor Certification (FLC) wage data in Administrator's Hearing Exhibit (AX) J, specifically the mean (H-2B) rate, for the respective location and occupation of the H-2B worker.[216] Based on the ALJ's recalculation of back wages using the mean H-2B wage for each worker as best determined from the locations available in RX 26, the ALJ found that Butler Amusements owed $26,786 in back wages.[217]

B. The ALJ Properly Determined the Amount of Back Wages Owed

Butler Amusements first contends that the ALJ erred as a matter of law by awarding back wages because they were not available for violations of Section 655.22(n) under the 2008 Rule.[218] Butler Amusements is incorrect. The first clause of Section 655.65(i) provides that "the Administrator may impose *such other administrative remedies as the Administrator determines to be appropriate*, including reinstatement of displaced U.S. workers, or *other appropriate legal or equitable remedies*."[219] Thus, under this broad grant of authority, the ALJ properly concluded that the Administrator can require Butler Amusements to pay back wages. Back wages are "appropriate" because the workers were not paid the prevailing wages that they should have been paid for the work they performed.

With regard to hours worked, Butler Amusements next argues that the ALJ erred as a matter of law by "imposing a de facto timekeeping duty with strict liability" by disregarding pay records countersigned by the H-2B workers.[220] This argument fails because the ALJ did not impose such a duty; the record and D. & O. reflect that the ALJ carefully reviewed the Respondent's pay records and

---

215 *Id.*

216 *Id.* at 25-26. AX J contains the different SOC codes and corresponding prevailing wage rates for drivers, shop workers, and supervisors, which are higher than the prevailing wage rate for ARA. *Id.* at 24.

217 *Id.* at 25-26. The ALJ relied on data from RX 26, AX H, and AX J. *Id.* at 25. Butler Amusements summarily argues that "[t]he ALJ also erred as a matter of law by adopting the mean or average H-2B wage rate, D&O 26, even though that calculation did not exist under the 2008 DOL Rule." Resp. Br. at 38. Butler Amusements argues that the Administrator was required to present any evidence on which of 4 skill levels applied under 20 C.F.R. § 655.10 (2009) and alludes to skill level I as the appropriate wage rate. *Id.*

218 Resp. Br. at 35. Butler Amusements cites to 20 C.F.R. § 655.65(i), but appears to base this contention solely on the second clause of 655.22(i), which provides for back pay for violations of 20 C.F.R. § 655.22(e).

219 20 C.F.R. § 655.65(i) (emphasis added).

220 Resp. Br. at 35-38. Butler Amusements argues, *inter alia,* that because it was an FLSA-exempt employer and not required to keep records, the Administrator shifted the "burden of proof" to the employer. *Id.*

determined they were unreliable because some were incomplete, some were missing (including the driver logs), and some timesheets conflicted with others such that the ALJ had no way of determining which one was accurate.[221] The ALJ noted that Butler Amusements' pay slips were not contemporaneously recorded time cards and employees did not record their own hours; instead, carnival supervisors would record and report employees' hours to a payroll clerk.[222] The pay slips did not always reflect the hours H-2B employees spent driving, thus the pay slips did not always reflect accurate hours H-2B employees worked.[223] Employees who drove the vans were paid extra, but these hours were not reflected on the pay slips.[224] The unrecorded time spent driving was estimated to have been between two to eight hours, depending on the distance between fairs.[225]

Accordingly, we agree with the ALJ's conclusion that, based on these facts and not on any "de facto timekeeping duty," it was reasonable for the Administrator to use the 40 hours per week that Butler Amusements certified the H-2B workers would work, not the pay records.[226] With regard to the location of the workers, the ALJ found that the data regarding their location was reasonably reliable, and he then recalculated the wages that Butler Amusements owed each worker as could best be determined from the location evidence available.[227]

Butler Amusements also summarily argues that the ALJ erred as a matter of law by adopting the mean or average H-2B wage rate, because that calculation did not exist under the 2008 Rule.[228] We find that the ALJ reasonably looked at FLC data for mean hourly wage rates in the relevant period to determine wage rates for the jobs that the H-2B workers were actually performing.[229] Indeed, Butler Amusements agreed with the propriety of the Administrator's use of the average pay rate for the alternate job codes.[230] To the extent Butler Amusements is now

230 Resp. Post-Hearing Br. at 18.

arguing that the wage rates it requested in its application for ARAs should have been used instead, it does not explain why the ALJ should have used those other rates in a subsequent enforcement action.

In sum, we have reviewed the ALJ's calculations and methodology and discern no sufficient reason to disturb the ALJ's calculations.

C. Butler Amusements Is Not Eligible for Any Credits

Under the 2008 H-2B regulations, employers were permitted to make deductions from a worker's pay, consistent with the FLSA, for the reasonable cost of furnishing housing and transportation, as well as worker expenses such as passport and visa fees.[231] The 2008 H-2B regulations stated: "The job offer must *specify* all deductions not required by law that the employer will make from the worker's paycheck. All deductions must be reasonable."[232]

Here, Butler Amusements claimed that it was entitled to credits for providing housing, local transportation, relocation expenses, taxes, and reimbursement for a prepayment plan because employees did not reach 40 hours a week during the period of investigation.[233] Butler Amusements argues that the ALJ erred by rejecting its proof of credits to offset legal obligations.[234]

As an initial matter, the ALJ noted that the Butler Amusements did not cite to any authority in support of these requested credits.[235] Instead, Butler Amusements submitted a joint statement signed by employees in 2019 who worked for them in 2013 that stated "employees received 'valuable benefits' such as housing, transportation, food, relocation, visa processing fees, 'and so on.'"[236] The ALJ did not give this statement any weight as he had no context for the circumstances in which it was signed, and noted there were inconsistencies between this statement, employee statements in 2013, and Butler Amusements' claim for credits.[237]

---

231 D. & O. at 26 (citation omitted).

232 20 C.F.R. § 655.22(g)(1) (emphasis added). This regulation applies regardless of FLSA exemptions. *Id.*

233 D. & O. at 26-27.

234 Resp. Br. at 41-45.

235 D. & O. at 26-27.

236 *Id.* at 26.

237 *Id.* at 27. The ALJ provided examples. First, Butler Amusements did not mention taxes or the prepayment plan in the letter but claim a credit for them for 2013 in RX 47

The ALJ also gave no weight to statements in Butler Amusements' job offer, wherein it stated it would make "available mobile housing valued at $125.00 per week" and "transportation from venue to venue and scheduled transportation to laundry, shopping valued at $25.00 per week."[238] The ALJ found this language ambiguous; it was not clear whether the employer was deducting this benefit from the worker's pay or providing a free benefit.[239] Moreover, in 2013, all of the employees who lived in the trailers stated that housing was free.[240] Butler Amusements' temporary employment certification application also stated, "Employer follows prevailing practices for Traveling Amusement Industry in regards to housing, transportation and weekly salary for workers."[241] The ALJ found that "[t]his statement was also vague; it does not clearly specify all, or any, of the deductions [Butler Amusements] will make."[242]

Finally, the ALJ noted that WHD documented that at least two of the drivers did not live in the trailers.[243] The ALJ found that Butler Amusements' request for a deduction of $1,290 to $1,555 per employee for sleeping in a semi-truck cab was unreasonable.[244]

We find that, given all of the above facts, the ALJ properly determined that Butler Amusements was not entitled to take any offsets for wages due.

Butler Amusements also argues that the ALJ's interpretation that deductions must be disclosed in the ETA Form 9142B application is contrary to its reasonable interpretation that a deduction could be disclosed at any time before the workers' arrival at the worksite.[245] The ALJ concluded that the language in an addendum to the ETA Form 9142B "'reserving the right to charge a fee for housing and

transportation,'" was an attempt to reserve a deduction "just in case" and failed to comply with Section 655.22(g)(1).[246] But as explained above, the ALJ did not rely on this interpretation of the disclosure requirement to reject Respondent's credits; the ALJ based his decision on Butler Amusements' lack of reliable evidence in support of the credits requested.[247]

D. The ALJ Properly Determined the Amount of Civil Money Penalties Owed

The ALJ upheld the Administrator's assessment of a $10,000 CMP for Butler Amusements' substantial failure to pay employees for the work they actually performed.[248] We affirm the ALJ's finding for the following reasons.[249]

The Administrator may assess CMPs of up to $10,000 for an employer's substantial failure to meet a condition of the Temporary Employment Certification or the DHS Form I-129, a willful misrepresentation in the application, or a failure to cooperate with a DOL investigation.[250] To determine an appropriate CMP, the Administrator "shall consider the type of violation committed and other relevant factors."[251] In addition to considering the willfulness of the violation,[252] the Administrator may also consider other discretionary factors to determine the appropriate CMP.[253]

246 D. & O. at 27.

247 Thus, Butler Amusements' arguments regarding "dueling interpretations" are irrelevant.

248 D. & O. at 28.

249 "Regardless of whether the Board has the authority to perform a de novo review, we choose to accept the ALJ's findings if they are reasonable." *Peter's Fine Greek Food, Inc.*, ARB No. 2014-0003-B, slip op. at 2; *cf. Adm'r, Wage and Hour Div., U.S. Dep't of Lab. v. Wash. Farm Labor Ass'n*, ARB No. 2021-0069, ALJ No. 2018-TAE-00013, slip op. at 8 (ARB Mar. 31, 2023) (reviewing ALJ's CMP assessment under the H-2A program *de novo*).

250 20 C.F.R. § 655.65(c).

251 20 C.F.R. § 655.65(g).

252 "[T]he highest penalties shall be reserved for willful failures to meet any of the conditions of the petition that involve harm to United States workers." 8 U.S.C. § 1184(c)(14)(C); 20 C.F.R. § 655.65(g). Under the INA, a "willful failure" means a knowing failure or a reckless disregard with respect to whether the conduct was contrary to Section 214(c) of the INA. 20 C.F.R. § 655.65(e); *see McLaughlin*, 486 U.S. at 133.

253 The regulatory factors include: (1) the previous history of H-2B violations by the employer; (2) the number of workers affected by the violation; (3) the gravity of the violation; (4) the employer's good faith efforts to comply; (5) the employer's explanation of the violation; (6) the employer's commitment to future compliance; and (7) the extent to

The ALJ independently weighed the discretionary factors used to assess CMPs[254] and found that, based on the mitigating factors, the Administrator's assessment of a $10,000 CMP was reasonable.[255] Specifically, the ALJ determined: (1) although Butler Amusements did not have a history of violations, its records evidenced a broader lack of adherence to H-2B rules; (2) the Administrator convincingly argued that the violations were likely not limited to the nine employees in this case and reasoned that the same practices were used throughout Butler Amusements' operation but because these additional violations were not investigated or charged this factor does not weigh for or against Butler Amusements; (3) Butler Amusements' violation undermined objectives of the INA, thus the third factor favors assessing a large CMP; (4) although they hired a consultant, Butler Amusements put minimal effort into compliance; (5) Butler Amusements' explanation of its violation was wanting, and its delegation of work to a consultant was insufficient to show a good faith effort to comply; (6) although Butler Amusements refused to state that it would comply in the future because it was unwilling to admit it was out of compliance,[256] the ALJ found it likely that Butler Amusements will comply in the future; and (7) Butler Amusements gained financially by using ARA classifications that have lower prevailing wages than the other classifications.[257]

We agree with the ALJ's balancing of the above factors, only two of which neither weighed for or against Butler Amusements, and likewise conclude that the discretionary factors favored imposing the maximum CMP of $10,000 in this instance.[258]

256 *Id.* at 29.

257 *Id.* at 28-29.

258 The ALJ's finding would also have been appropriate under 29 C.F.R. § 655.65(a) given the back wages owed.

CONCLUSION

Accordingly, we **AFFIRM** the ALJ's determination that Butler Amusements violated 20 C.F.R. § 655.22(n), **AFFIRM** the WHD Administrator's assessment of back wages in the amount of $26,786.00, and **AFFIRM** the WHD Administrator's assessment of a civil money penalty of $10,000.

SO ORDERED.[259]

SUSAN HARTHILL
Chief Administrative Appeals Judge

TAMMY L. PUST
Administrative Appeals Judge

THOMAS H. BURRELL
Administrative Appeals Judge

[259] In any appeal of this Decision and Order that may be filed, we note that the appropriately named party is the Secretary, Department of Labor, and not the Administrative Review Board.
