Subject: grants

I need your help. I need government assistance with a personal grant. I do not seem to know the website to go on. All the sites out there want you to pay money for them to tell you. Can you help me. I am a 51 year old woman, divorced, no job, no home, car does not run very good. I need help. I wish the government would give health insurance to everyone and somehow take it out of the taxes, I do not know how this could be done. I have not been to the doctor in over eight years. Thank you.
