General Comment

I am disabled due to massive seizures, ocd, panic attacks, post dramatic stress, etc. and I can't get health insurance through disability for 24 months. My seizure medicine alone is almost \$300. per month and I have no idea how much it will be next month because they still haven't found one to control them. Plan and simple I need help. I can't even go to a Family Dr. to get the breathing medicines I need because I can't afford it. My husband just lost his job and is on unemployment, he brings in \$290./week and my disability is \$706./month. We are having to move because we can't afford our home and all I need is help, can you guide me in the right direction? I have been putting in for grants and all with no response. I have never been in this type situation and so it is pushing me over the edge, please help!!!!!!!

Desperate,
DeeAnna
