PENSION AND WELFARE BENEFITS ADMINISTRATION

ANNUAL REPORTING AND DISCLOSURE REQUIREMENTS; CORRECTION

AGENCY: Pension and Welfare Benefits Administration, Department of Labor.

ACTION: Correction.

SUMMARY: In notice document 96±3249 Filed 2±13±96; 8:45 am

BILLING CODE 4510±29±M

As stated in the original notice, the comment period remains open for sixty days from the date of publication, February 1, 1996.

Signed at Washington, D.C. this 8th day of February, 1996.

Alan D. Lebowitz,
Deputy Assistant Secretary for Program Operations, Pension and Welfare Benefits Administration, U.S. Department of Labor.

This notice corrects the following:

On page 3735 in the issue of February 1, 1996, the following correction was made:

"The McGuire Nuclear Station, located in Mecklenburg County, North Carolina, was required to be done separately for each unit. This would especially be important when, for a period of time, Unit 1 will have different steam generators than Unit 2."

The proposed action would facilitate Technical Specification changes when it was required to be done separately for each unit. This would especially be important when, for a period of time, Unit 1 will have different steam generators than Unit 2.

The proposed action is in accordance with the licensee's application for amendments dated July 18, 1994, as supplemented by letter dated October 9, 1995.

The Need for the Proposed Action

The proposed action would facilitate Technical Specification changes when it was required to be done separately for each unit. This would especially be important when, for a period of time, Unit 1 will have different steam generators than Unit 2.

Environmental Assessment

Identification of the Proposed Action

The proposed action would revise the current combined Technical Specifications for Unit 1 and Unit 2 by separating them into individual volumes for each unit.

The proposed action is in accordance with the licensee's application for amendments dated July 18, 1994, as supplemented by letter dated October 9, 1995.

The Need for the Proposed Action

The proposed action would facilitate Technical Specification changes when it was required to be done separately for each unit. This would especially be important when, for a period of time, Unit 1 will have different steam generators than Unit 2.

Environmental Impacts of the Proposed Action

The Commission has completed its evaluation of the proposed action and concludes that the changes proposed by the licensee are administrative in nature and have no nonradiological or radiological environmental significance.

The change will not increase the probability or consequences of accidents, no changes are being made in the types of any effluents that may be
