Application Executive Summary

This application to request FY2021 Tribal Transit Formula ARP Act apportioned to North Fork Rancheria of Mono Indians of California in the amount of \$16,068.

Purpose:

The funding in this application will be used to support operations of North Fork Rancheria Tribal Transit Program related to the COVID-19 Pandemic.

Activities to be Performed:

Activities to be performed include all related operating costs associated with the North Fork Rancheria Tribal Transit Program. Costs include payroll and benefits of the transportation service manager and drivers, office expenses, phones, fuel, and related maintenance costs.

Expected Outcomes:

NFRTTP has the following objectives and benefits:

Improve Mobility and Access: Mobility and access between North Fork and the surrounding communities, including Madera, Chowchilla, and Fresno is limited. There are only two major roadways through North Fork that provide access to other parts of the County and transit services are limited for people living in remote areas. The NFRTTP will address these issues by developing a set of transportation alternatives that enhance the existing transportation system by providing more travel choices and better connectivity.

Stimulate the Economy: The unemployment rate in the project area is higher than the national average, with many residents living in surrounding areas commuting up to 40-50 miles each way for work in the cities of Madera, Chowchilla, and Fresno. The NFRTTP will address this issue by improving the transportation options and network connectivity. Additionally, the Tribe has proposed a casino pending federal approval; it is expected to stimulate the economy for the tribe and entire region by providing more jobs, investment, and opportunities. Future transit plans include a fixed route service for tribal members to employment opportunities at the proposed casino and other employment destinations.

Enhance Public Safety and Security: Enhanced transit operations and other transportation modes will ensure the safety and security of travel for people, goods, services, and information.

Reflect Community Values: Tribal members have strong community values and a rich cultural history that is deeply embedded in the area. It is essential that transit service balance and integrate tribal values through public outreach efforts and coordination with tribal members.

Enhance the Environment: A unique characteristic of the project area is its environmental features, it is essential that the growth and economic development of the region does not affect the environment. The tribal transit program will promote sustainable transportation alternatives that meet the needs of the residents as well as the environment.

Intended Beneficiaries:

The Tribes investment in transit has aided in serving mobility to healthcare and other essential services. Overall, NFRTTPs service has enhanced the communitys viability by providing transportation to essential services, improving self-sufficiency, and the quality of life for the community members. The service has improved access and filled gaps to important destinations and services that were not previously served by any other public transportation service. NFRTTP also allows for connection to other regional transportation services. The combination aims to increase access to jobs, education, health care, and other essential services. The requested funds will maintain services that have been very impactful for the Tribe. The service targets qualitative benefits of increased income, health, mobility and access to

essential services, with an ancillary positive outcome such as decreased substance abuse, improved child welfare, increased self-sufficiency for families and an overall improved quality of life.

The North Fork Rancheria Tribal Transit Program (NFRTP) serves the North Fork Rancheria Community. NFRTP provides service to eligible community members living within a fifty (50) mile radius of the North Fork Rancheria Tribal Government Office, and will transport to destinations within a 50 mile radius of the North Fork Rancheria Tribal Government Office. This service extends into Fresno, Madera, and Mariposa Counties. NFRTP also services all persons residing on tribal trust land and public domain allotments in the North Fork Area, which were not previously served by any public transportation service. Destinations exceeding the fifty (50) mile service radius may be approved by the Transportation Services Manager and will be granted based on the priority of the trip and on service availability.

The current areas served consists of the land owned by the North Fork Rancheria of Mono Indians of California and surrounding areas where tribal members live and work, including the roadways that lead in and out of tribal and non-tribal trust land.

Subrecipient Activities:
None.

North Fork Rancheria agrees that if it receives Federal funding from the Federal Emergency Management Agency (FEMA) or through a pass-through entity through the Robert T. Stafford Disaster Relief and Emergency Assistance Act, a different Federal agency, or insurance proceeds for any portion of a project activity approved for FTA funding under this Grant Agreement, it will provide written notification to FTA and reimburse FTA for any Federal share that duplicates funding provided by FEMA, another federal agency, or an insurance company.

Federal Funds: FY2021 Tribal Transit Formula ARP Act, operating assistance apportioned North Fork Rancheria of Mono Indians of California in the amount of \$16,068.
Local Match: \$0 Local Sales Tax
Total Project Cost: \$16,068.

Activities to be performed include all related operating costs associated with the North Fork Rancheria Tribal Transit Program. Costs include payroll and benefits of the transportation service manager and drivers, office expenses, phones, fuel, and related maintenance costs.

Project Environmental Findings

Finding: Class II(c) - Categorical Exclusions (C-List)

Class Level Description

Class II(c) consists of projects that do not have a significant environmental impact on the human or natural environment and are therefore categorically excluded from the requirement to prepare an environmental assessment or an environmental impact statement. FTA requires a sufficient project description to support a CE determination. The project may require additional documentation to comply with other environmental laws.

Categorical Exclusion Description

Type 04: Planning and administrative activities which do not involve or lead directly to construction, such as: training, technical assistance and research; promulgation of rules, regulations, directives, or program guidance; approval of project concepts; engineering; and operating assistance to transit authorities to continue existing service or increase service to meet routine demand.

Date Description	Date
