## ADF Desktop Integrator
Workforce Compensation
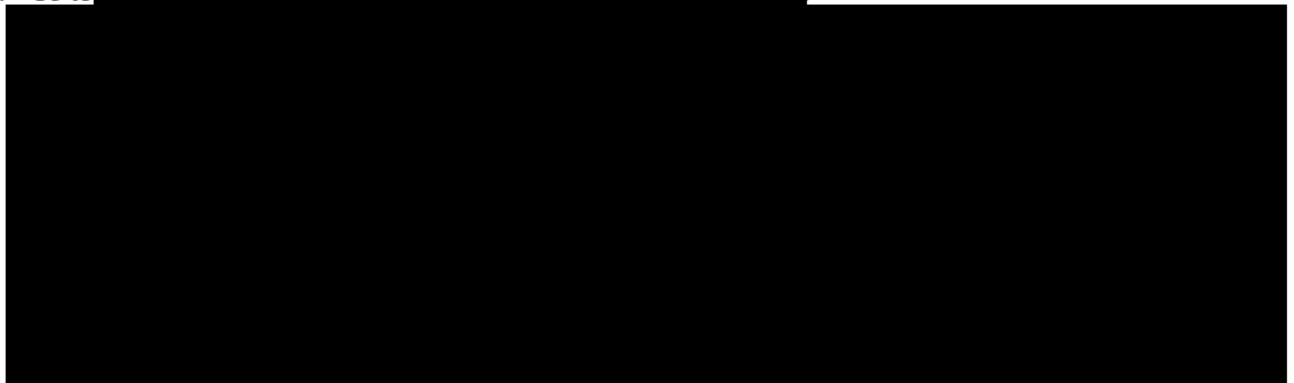

The ███████████████ function is a two-way process for optional Compensation worksheet download and upload. Allocations can be made in an ███████████ offline (optional) and uploaded to Workforce Compensation. The exported file will be a macro based file.

Installation of the █████████████████████ and configuration of ████████████ is required before using the ███████████████ function which is accessed from the ██████████ toolbar.

Having issues?
Here are some items to check.

Set Internet Trusted Site options and check the Trusted Site settings.
- Go to *Internet Options > Security*. Select *Local Intranet* zone
- Click the *Sites* button
- You should have *Automatically detect intranet network* checked
  - Click the *Advanced* button
  - Insure the box for *Require server verification (https) for all sites in this zone* is unchecked

▮▮▮▮▮▮▮▮▮▮▮▮▮▮

- If the ▮▮▮▮ does not work, consider running the ▮▮▮▮▮▮▮▮▮▮▮▮▮▮ a simple diagnostic tool to help identify basic setup issues.
