To Whom It May Concern:

We are writing today to strongly ask that you rescind the unjust and coercive mandate that all "contraceptives" and sterilization procedures be covered by private health insurance with no co-pay to patients. If you do not reverse course we ask you to expand conscience protections for any organizations that provide individual and group insurance and have moral or religious objections. We strongly oppose the government forcing free insurance coverage on Americans especially for drugs and devices that can cause an abortion (such as ella and Plan B).

We also ask you to reconsider your definition of religious employer and offer an authentic conscience protection for any organization and business that has moral or religious objection to providing such insurance to their employees. T

Thank you.

Sincerely,
Dr. and Mrs. Frank Kraft
