## General Comment

Please do not allow exceptions in the new regulations for contraception or counseling services. Employers in a civilized society have no business discriminating against their workers (who may not share the employer's beliefs) in such a manner.

Access to preventative health care is important for everyone. Don't create loopholes for bigots to leverage against those they won't tolerate. Don't fall for the facade of employer "religious freedom", when the real freedom means giving individuals their own health choices. Thank you.
