## General Comment

Please uphold the Affordable Health Care Act and keep religion out of health care, health care advice and health care funding. According to the US 2010 census nearly 30,000,000 American adults are non-religious. The best health care and health care advice should be the right of every human being (not a privilege) without being discriminated against by narrow-minded, self-serving and self-interested religious groups. Thank You.
