Understanding Your Fiduciary Responsibilities Under ERISA Workshop**

Strong fiduciary oversight and protecting workers' benefits are two of the highest priorities of the U.S. Department of Labor. However, we recognize that understanding and complying with DOL regulations can be challenging for any employer. This is especially so for small and medium sized employers with limited time, resources and/or access to professional assistance. The Department of Labor's Employee Benefits Security Administration (EBSA) wants to help.

EBSA is offering a free employer/service provider workshop in Boston, where we will present an introduction to the Employee Retirement Income Security Act (ERISA) and cover some of the basics of retirement plan administration. This will include an overview of the Voluntary Fiduciary Correction Program (VFCP).

Pre-registration is required and seats are allocated based on a first-come basis. We ask that you make every effort to attend the workshop once you register or send an alternate. Late registrations will be accepted based upon availability.

Attendees must bring a valid picture ID and be processed through the security entrance. Passing through security should take approximately 15 minutes.
