

For many Americans, planning for retirement is a mystery. **Join the U.S. Department of Labor for a workshop on September 21 and learn how to unravel the mystery and discover changes you can make for a financially secure future.**

The workshop, designed for people who are 10 to 15 years from retirement, offers a simplified, bottom-line approach to figuring out how much you need when you retire. You'll learn how to track down and understand:

- Your savings, 401(k) plans, home equity, and other assets
- Your Social Security benefit - and how to decide when to start drawing benefits
- Your spending and expenses now and in retirement
- Filling the gap in your retirement savings
