Cooperative Agreement No. XX

In their joint interest to prevent and eliminate child labor in XXCOUNTRY, the Grantor and Grantee have agreed as follows:

SPECIAL PROVISIONS
GRANTS AND COOPERATIVE AGREEMENTS

I. STATEMENT OF WORK

Cooperative Agreement Scope of Work: XXPROJECT in XXCOUNTRY

The overall purpose of this USDOL Cooperative Agreement is to support a reduction in child labor in XX Industry in XXCOUNTRY by increasing children’s access to quality education and training opportunities, promoting sustainable livelihoods for their households, and increasing beneficiaries’ access to national social protection programs that help households overcome dependence on the labor of children to meet basic needs. Accordingly, the Grantee must implement a project in XXCOUNTRY that incorporates these strategies, in accordance with the terms of this agreement. USDOL funded projects must be implemented in accordance with international standards, even if the host-country government is not a party to those standards.

A. Program Requirements

1. Program Goals

The Grantee must implement the strategies and interventions as described in their application in response to SCA 13-XX, as modified by all applicable agreements reached during negotiations between the Grantor and the Grantee, to achieve the goals of the Grantor as listed in the SCA.

2. Project Implementation Requirements

The Grantee is responsible for adhering to all requirements as described in the FY2013 MPG and the Solicitation for Cooperative Agreement Applications (SCA 13-XX). These requirements include the following:

- Project Document
- Comprehensive Monitoring and Evaluation Plan/Performance Monitoring Plan
- Direct Beneficiary Monitoring System
- Baseline Survey and Endline Survey
- Safe and Healthy Learning Environments
- Sustainability Strategy
Cooperative Agreement No. XX

- Government Subaward Matrix
- Technical Progress and Financial Reports
- Research

3. Coordination and Collaboration

In order to avoid duplication, enhance collaboration, expand impact, and develop synergies, the Grantee is expected to work cooperatively with government stakeholders at the national and/or local level, including the Ministries or Departments of Labor, Education, and other relevant government bodies in implementing project interventions.

The Grantee is also expected to work with, and for its project to complement, existing efforts of other key stakeholders, including (as applicable): international organizations; non-governmental organizations; national steering/advisory committees on child labor and education; faith and community-based organizations; trade unions, workers’, employers’ and teachers’ organizations; private sector and industry; and children engaged in child labor and their families. The Grantee must coordinate with existing projects in the target country, particularly those funded by USDOL, including other child labor elimination projects. The Grantee is expected, when applicable, to coordinate with projects funded by other U.S. Government agencies, such the U.S. Agency for International Development, the U.S. Department of State’s Office to Monitor and Combat Trafficking in Persons, and the U.S. Embassy in the target country.

4. Microfinance Services

Whether the Grantee provides microfinance services directly or refers project beneficiaries to such services, the Grantee must take steps to safeguard project beneficiaries (individuals or households) and ensure partnership with only responsible and appropriate microfinance institutions. The MPG discusses the necessary steps in detail.

B. Special Program Requirements

In addition to the program requirements outlined in this Cooperative Agreement and the MPG, the Grantee is subject to the administrative requirements and provisions outlined in the Solicitation for Cooperative Agreement Applications under which the project was awarded.

1. Country Presence

The Grantee must be formally recognized by the host government using the appropriate mechanism (i.e., Memorandum of Understanding or local registration of the organization), within 60 days of signing the Cooperative Agreement, unless receiving prior approval of an extension on this deadline from the Grant Officer’s Representative.

2. Key Personnel
Cooperative Agreement No. XX

Individuals who have been designated as key personnel (e.g., Project Director, Education Specialist, Livelihoods Specialist, and Monitoring and Evaluation Officer), must begin work on the project no later than 45 calendar days after Cooperative Agreement award. For technical assistance projects, all key personnel must allocate 100 percent of their time to the project and live in the target country. Key personnel positions may not be combined. The Grantee’s Project Director must be employed by the Grantee. Other key personnel may be employed by the Grantee or a subrecipient.

The Grantee must inform the Grant Officer’s Representative (GOR) in the event key personnel cannot continue to work on the project as planned. In such cases, the Grantee is expected to nominate, through the submission of a formal Project Revision, new personnel. The Grantee must obtain prior approval from the Grant Officer before any change to key personnel is formalized. If the Grantee is unable to propose a replacement for a key personnel position that both meets the requirements of the position as outlined in the Solicitation for Cooperative Agreement Applications and is acceptable to the Grant Officer, the Grant Officer reserves the right to terminate the Cooperative Agreement or disallow costs.

3. Program Income

Grantee activities that result in the generation of program income must conform to CFR Title 29 Part 95, including the following language in 29 CFR 95.24:

(a) Except as provided in paragraph (e) of this section, program income earned during the project period shall be retained by the recipient and added to funds committed to the project by the Grantor and recipient, and used to further eligible project or program objectives.

(b) Recipients shall have no obligation to the Federal Government regarding program income earned after the end of the project period.

(c) Costs incident to the generation of program income may be deducted from gross income to determine program income, provided these costs have not been charged to the award.

(d) Proceeds from the sale of property are not program income and shall be handled in accordance with the requirements of the Property Standards (See §§95.30 through 95.37).

(e) Unless the Grantor’s regulations or the terms and condition of the award provide otherwise, recipients shall have no obligation to the Federal Government with respect to program income earned from license fees and royalties for copyrighted material, patents, patent applications, trademarks, and inventions produced under an award. However, Patent and Trademark Amendments (35 U.S.C. 18) apply to inventions made under an experimental, developmental, or research award.

This provision must be included in all subawards issued under this Cooperative Agreement.

4. Funds to Host Country Governments

USDOL funds are not intended to duplicate existing foreign government efforts or substitute for activities that are the responsibility of such governments. The Grantee may not provide any of the funds obligated under this Cooperative Agreement to a foreign government or entities that are agencies of, or operated by or for, a foreign state or government, ministries, officials, or political
parties to carry out project activities. Exceptions may be made in cases where: (1) the Grantee has conducted a competitive procurement process to select the awardee and has determined that no other entity in the country is able to provide services or undertake project activities, (2) funding of such activities would not duplicate existing foreign government efforts or substitute for activities that are the responsibility of such governments; and (3) the Grantee has received prior USDOL approval.

5. **Value Added Tax (VAT) Exemption**

The Grantee and subrecipients shall make every effort to apply for and receive VAT exemption in the country or countries in which the project operates. The Grantee will report on the progress of its application for VAT exemption in its Technical Progress Reports. USDOL-funding cannot be used for VAT costs that were not included in the approved project budget.

6. **Information Dissemination and Intellectual Property**

The Grantee shall make select project materials and research outputs available to the public via the Grantee’s web site or other means within 45 days of availability of project materials or completion of each output. At the same time, the Grantee will inform the GOR of the dissemination via email. Select materials and research outputs include but are not limited to 1) project abstracts; 2) baseline studies; and 3) rapid assessments.

The Grantee retains copyright ownership of works created or purchased with USDOL funds, however the Grantor reserves a royalty-free non-exclusive and irrevocable right to obtain, copy, publish, or otherwise use such works for Federal purposes and to authorize others to do so. See 29 CFR 95.36.

7. **Implementation of the Federal Funding Accountability and Transparency Act**

USDOL fund recipients are required to comply with the regulations implementing the Federal Funding Accountability and Transparency Act, Pub. L. 109-282. These requirements are found in Appendix A to 2 CFR Part 170 – Award term (located at Annex A of this Cooperative Agreement).

8. **Transparency**

The Grantor is committed to conducting a transparent grant award process and publicizing information about program outcomes. Posting grant applications on public web sites is a means of promoting and sharing innovative ideas. For this grant competition, we will publish the Executive Summary as required by this solicitation for all applications on the Department’s web site or similar location. Additionally, we will publish a version of the Technical Proposal required by this solicitation, for all those applications that are awarded grants, on the Department’s Web site or a similar location. No other parts of or attachments to the application will be published. The Technical Proposals and Executive Summaries will not be published until
after the grants are awarded. In addition, information about grant progress and results may also be made publicly available.

The Grantor recognizes that grant applications sometimes contain information that an applicant may consider proprietary or business confidential information, or may contain personally identifiable information. Information is considered proprietary or confidential commercial/business information when it is not usually disclosed outside your organization and when its disclosure is likely to cause you substantial competitive harm. Personally identifiable information is information that can be used to distinguish or trace an individual’s identity, such as name, social security number, date and place of birth, mother’s maiden name, or biometric records, or other information that is linked or linkable to an individual, such as medical, educational, financial, and employment information.

Executive Summaries will be published in the form originally submitted, without any redactions. However, in order to ensure that confidential information is properly protected from disclosure when the Grantor posts the winning Technical Proposals, applicants whose technical proposals will be posted will be asked to submit a second redacted version of their Technical Proposal, with proprietary, confidential commercial/business, and personally identifiable information redacted. All non-public information about the applicant’s staff should be removed as well. The Department will contact the applicants whose technical proposals will be published by letter or email, and provide further directions about how and when to submit the redacted version of the Technical Proposal. Submission of a redacted version of the Technical Proposal will constitute permission by the applicant for the Grantor to post that redacted version. If an applicant fails to provide a redacted version of the Technical Proposal, the Grantor will publish the original Technical Proposal in full, after redacting personally identifiable information. (Note that the original, unredacted version of the Technical Proposal will remain part of the complete application package, including an applicant’s proprietary and confidential information and any personally identifiable information.)

Applicants are encouraged to maximize the grant application information that will be publicly disclosed, and to exercise restraint and redact only information that truly is proprietary, confidential commercial/business information, or capable of identifying a person. The redaction of entire pages or sections of the Technical Proposal is not appropriate, and will not be allowed, unless the entire portion merits such protection. Should a dispute arise about whether redactions are appropriate, the Grantor will follow the procedures outlined in the Department’s Freedom of Information Act (FOIA) regulations (29 CFR part 70).

Redacted information in grant applications will be protected by the Grantor from public disclosure in accordance with federal law, including the Trade Secrets Act (18 U.S.C. § 1905), FOIA, and the Privacy Act (5 U.S.C. § 552a). If the Grantor receives a FOIA request for your application, the procedures in the Grantor’s FOIA regulations for responding to requests for commercial/business information submitted to the government will be followed, as well as all FOIA exemptions and procedures. 29 CFR § 70.26. Consequently, it is possible that application of FOIA rules may result in release of information in response to a FOIA request that an
Cooperative Agreement No. XX

applicant redacted in its “redacted copy.”

9. **Project Audits and External Auditing Arrangements**

U.S.-based non-profit Grantees whose total annual expenditure of Federal awards is more than USD 500,000 must have an organization-wide audit conducted in accordance with 29 CFR Parts 96 and 99, which codify the requirements of the Single Audit Act and OMB Circular A-133, and must comply with the timeframes established in those regulations for the submission of their audits to the Federal Audit Clearinghouse. Grantees must send a copy of each single audit conducted within the timeframe of the USDOL-funded project to their assigned GOR at the time it is submitted to the Federal Audit Clearinghouse.

In accordance with 29 CFR Parts 96 and 99, the Grantor has also contracted with an independent auditor to conduct project-specific attestation engagements at USDOL’s expense. All Grantees, including foreign-based and private for-profit grantees, are subject to attestation engagements during the life of the Cooperative Agreement and must cooperate with USDOL’s contract auditor if selected for examination. The attestation engagements will be conducted in accordance with *U.S. Government Auditing Standards*, and include the auditor’s opinions on 1) compliance with USDOL regulations and the provisions of the Cooperative Agreement and 2) the reliability of the Grantee’s financial and performance reports. For those Grantees that are subject to the requirements of the Single Audit Act, the attestation engagements will supplement, not duplicate, the coverage provided by the Single Audits. Grantees scheduled for examination by USDOL’s contractor will be notified approximately 2 to 4 weeks prior to the start of the engagement.

United Nations Organizations will be subject to project level audits conducted by their external auditors on financial reporting, compliance with U.S. Federal laws and USDOL regulations, and Government Performance and Results Modernization Act (GPMRA) performance data.

10. **Inherently Religious Activities**

The Grantee and subrecipients may work with and subaward with religious institutions; however, Federal funds provided under this USDOL-funded Cooperative Agreement may not be used for religious instruction, worship, prayer, proselytizing or other inherently religious activities, or the purchase of religious materials. Neutral, non-religious criteria that neither favor nor disfavor religion must be employed by the Grantee in the selection of subrecipients. This provision must be included in all subawards issued under this Cooperative Agreement.

Any inherently religious activities conducted by the Grantee must be clearly separated in time or physical space from activities funded by USDOL. Grantees must segregate from Federal and matching funds (neither of which may be used to fund inherently religious activities), and account for separately, any non-Federal and non-matching funds (or allocable portion of those funds) used for inherently religious activities.

Additionally, direct beneficiaries of the project must have a clear understanding that their
Cooperative Agreement No. XX

enrollment in a USDOL-funded project is not conditioned on their participation in any religious activities. Direct beneficiaries must have a clear understanding that a decision not to participate in any inherently religious activity will in no way impact, or result in any negative consequences to their standing, participation in or receipt of benefits from a USDOL-funded project.

If the Grantee is unclear whether a given project activity may involve an inherently religious activity, the Grantee should consult with the Grantor prior to implementing the activity.

This provision must be included in all subawards issued under this Cooperative Agreement.

11. Lobbying and Fundraising

Funds provided by USDOL for project expenditures under this Cooperative Agreement may not be used with the intent to influence a member of the U.S. Congress, a member of any U.S. Congressional staff, or any official of any Federal, state, or local government in the United States (hereinafter “government official(s)”), to favor, adopt, or oppose, by vote or otherwise, any U.S. legislation, law, ratification, policy or appropriation, or to influence in any way the outcome of a political election in the United States, or to contribute to any political party or campaign in the United States, or for activities carried out for the purpose of supporting or knowingly preparing for such efforts. This includes awareness raising and advocacy activities that include fund-raising or lobbying of U.S. Federal, State, or Local Governments. (See OMB Circular A-122, as codified at 2 CFR Part 230). This does not include communications for the purpose of providing information about the Grantee or its subrecipients and their programs or activities, in response to a request by any government official, or for consideration or action on the merits of a Federally-sponsored agreement or relevant regulatory matter by a government official.

Grantees classified under revenue code as a 501(c)(4) entity [see 26 U.S.C. 501(c)(4)] may not engage in any lobbying activities. According to the Lobbying Disclosure Act of 1995, as codified at 2 U.S.C. 1611, an organization, as described in Section 501(c)(4) of the Internal Revenue Code of 1986, that engages in lobbying activities directed toward the U.S. Government is not eligible for the receipt of Federal funds constituting an award, grant, Cooperative Agreement, or loan.

12. Trafficking in Persons, Commercial Sex Acts, and Forced Labor

a. The following provisions are applicable to the Grantee, if it is a private entity:

1. The Grantee, its employees, subrecipients under this award, and subrecipients' employees may not i) engage in severe forms of trafficking in persons during the period of time that the award is in effect, ii) procure a commercial sex act during the period of time that the award is in effect; or iii) use forced labor in the performance of the award or subawards under the award.

2. The Grantor may unilaterally terminate this award, without penalty, if the Grantee or a subrecipient that is a private entity i) is determined to have violated a prohibition in paragraph I.B.4.a.1 of this award; or ii) has an employee who is determined by the agency
Cooperative Agreement No. XX

official authorized to terminate the award to have violated a prohibition in paragraph I.B.4.a.1 of this award through conduct that is either associated with performance under this award; or imputed to the Grantee or the subrecipient using the standards and due process for imputing the conduct of an individual to an organization that are provided in 29 CFR Part 98, "Governmentwide Debarment and Suspension (Nonprocurement)."

b. The following provision is applicable to the Grantee if it is other than a private entity:

1. The Grantor may unilaterally terminate this award, without penalty, if a subrecipient that is a private entity i) is determined to have violated a prohibition in paragraph I.B.4.a.1 of this award; or ii) has an employee who is determined by the agency official authorized to terminate the award to have violated an applicable prohibition in paragraph I.B.4.a.1 of this award through conduct that is either associated with performance under this award; or imputed to the Grantee or the subrecipient using the standards and due process for imputing the conduct of an individual to an organization that are provided in 29 CFR Part 98, "Governmentwide Debarment and Suspension (Nonprocurement)."

c. The following provisions are applicable to the Grantee regardless of whether it is or is not a private entity:

1. The Grantee must inform the Grantor immediately of any information the Grantee receives from any source alleging a violation of a prohibition in paragraph I.B.4.a.1 of this award.
2. The Grantor’s right to terminate unilaterally that is described in paragraph I.B.4.a.2 or b.1 of this award implements section 106(g) of the Trafficking Victims Protection Act of 2000 (TVPA), as amended (22 U.S.C. 7104(g)), and is in addition to all other remedies for noncompliance that are available under this award.
3. The Grantee must include the requirements of paragraph I.B.4.a.1 of this award in any subaward it makes to a private entity using USDOL funds.

d. Definitions

For purposes of the above provisions:

“Employee” means either i) an individual employed by the recipient or a subrecipient who is engaged in the performance of the project or program under this award; or ii) an individual engaged in the performance of the project or program under this award and not compensated by the recipient including, but not limited to, a volunteer or individual whose services are contributed by a third party as an in-kind contribution toward cost-sharing or matching requirements.

“Forced labor” means labor obtained by any of the following methods: the recruitment, harboring, transportation, provision, or obtaining of a person for labor or services, through the use of force, fraud, or coercion for the purpose of subjection to involuntary servitude, peonage, debt bondage, or slavery.

“Private entity” i) Means any entity other than a State, local government, Indian tribe, or foreign public entity, as those terms are defined in 2 CFR 175.25 and ii) Includes a) a nonprofit organization, including any nonprofit institution of higher education, hospital, or tribal organization other than one included in the definition of Indian tribe at 2 CFR 175.25 (b) a

Cooperative Agreement No. XX

for-profit organization.

“Severe forms of trafficking in persons,” “commercial sex act,” and “coercion” have the meanings given at section 103 of the TVPA, as amended (22 USC 7102).

13. Prostitution

The U.S. Government is opposed to prostitution and related activities, which are inherently harmful and dehumanizing, and contribute to the phenomenon of trafficking in persons. U.S. NGOs, corporations and their subrecipients cannot use funds provided by USDOL to lobby for, promote, or advocate the legalization or regulation of prostitution as a legitimate form of work. Foreign-based non-governmental organizations (NGO) and their funded entities that receive USDOL funds cannot lobby for, promote, or advocate the legalization or regulation of prostitution as a legitimate form of work while acting as a funded entity on a USDOL-funded project. It is the responsibility of the Grantee to ensure that all subrecipients meet these criteria.

This provision must be included in any applicable subaward agreement that is awarded using USDOL funds, and the Grantee must obtain a written declaration to such an effect from the subrecipients concerned.

14. Terrorism

The Grantee is reminded that U.S. Executive Orders and U.S. law prohibit transactions with, and the provision of resources and support to, individuals and organizations associated with terrorism. It is the legal responsibility of the Grantee to ensure compliance with these Executive Orders and laws. It is the policy of the Grantor to seek to ensure that none of its funds are used, directly or indirectly, to provide support to individuals or entities associated with terrorism. The Grantee must check the following Web site to assess available information on parties that are excluded from receiving Federal financial and nonfinancial assistance and benefits. See http://www.treas.gov/offices/enforcement/ofac/sdn/t11sdn.pdf.

This provision must be included in all subawards and issued under this Cooperative Agreement.

II. PAYMENTS UNDER THE COOPERATIVE AGREEMENT

Advances/reimbursements must be drawn down by the Grantee through the Health and Human Services Payment Management System (HHS-PMS) via computer with SMARTLINK capability. When approved, requests for funds may be transferred electronically to the Grantee's financial institution as arranged with HHS. A revised direct deposit form must be submitted whenever there are changes in financial institutions and/or approved signatures.

---

2 For the purposes of this Agreement, the term “subaward” includes the provision of USDOL funds under this Agreement by sub-contract, sub-grant or by other arrangement.
Cooperative Agreement No. XX

A. Advance payments are authorized provided that the financial management system of the Grantee meets the following requirements (as described in 29 CFR Part 95):

1) Accurate, current, and complete disclosure of the financial results of each federally-sponsored project or program in accordance with the reporting requirements set forth in Section I.C. of this Cooperative Agreement. Though USDOL requires reporting on an accrual basis, the Grantee may not be required to establish an accrual accounting system. The Grantee may develop such accrual data for its reports on the basis of an analysis of the documentation on hand.

2) Records that identify adequately the source and application of funds for Federally-sponsored activities. These records must contain information pertaining to Federal awards, authorizations, obligations, unobligated balances, assets, outlays, income, and interest.

3) Effective control over and accountability for all funds, property, and other assets. The Grantee must adequately safeguard all such assets and assure they are used solely for authorized purposes.

4) Comparison of outlays with budget amounts for each award. Whenever appropriate, financial information should be related to performance and unit cost data.

5) Written procedures to minimize the time elapsing between the transfer of funds to the Grantee from the U.S. Treasury and the issuance or redemption of checks, warrants or payments by other means for program purposes by the Grantee.

6) Written procedures for determining the reasonableness, allocability, and allowability of costs in accordance with the provisions of the applicable Federal cost principles and the terms and conditions of the award.

7) Accounting records including cost accounting records that are supported by source documentation.

B. The amount of advances requested must be based on actual and immediate cash needs in order to minimize federal cash on hand in accordance with policies established in Treasury Department Circular 1075 and 29 CFR Part 95. In the event that the Grantee accrues interest above $250 per year on funds from this Cooperative Agreement, such interest must be returned to the Grantor.

C. The timing and amount of advances must be as close as administratively feasible to actual disbursements by the Grantee for all direct and allowable indirect program costs.

In addition, the Grantee may not exceed budget line-items outlined in SF 424 and SF 424A without prior approval by the Grant Officer, unless within acceptable parameters outlined by the MPG. In the case that a Grantee anticipates exceeding a budget line-item in an amount more than the acceptable parameters outlined by the MPG, a Project Revision request should be submitted.
Cooperative Agreement No. XX

to USDOL/ILAB following the guidelines in the MPG.

D. The Grant Officer may, after providing due notice to the Grantee, discontinue the advance payment method and allow payments only by reimbursement, when a Grantee receiving advance payments demonstrates unwillingness or inability to establish procedures to minimize the time elapsing between the receipt of the cash advance and the disbursement thereof. See 29 CFR 95.22(f).

E. Please note that the funds under this agreement expire on September 30, 2018 and all drawdowns for funds expended under this agreement must be completed before that time.

III. COOPERATIVE AGREEMENT ADMINISTRATION

A. Grant Officer’s Representative (GOR)
  XXName of GOR, Tel. 202-693-XXXX, Email: XX@dol.gov, and XXSecondGOR, Tel. 202-693-XXXX, Email: XX@dol.gov, shall serve as the GOR and will monitor performance by the Grantee. The GOR is authorized to approve:
  • Technical matters not involving a change in the scope, cost, or conditions of this effort.
  • Technical and financial progress reports, and the performance monitoring plan.

The GOR is authorized to review and recommend approval of requests for payment.

The GOR is not authorized to direct any action that results in a change in scope, cost, terms or conditions of this Cooperative Agreement.

B. Grant Officer
  Requests for actions requiring Grant Officer approval, such as requests for budget revisions, modifications, and purchases of equipment and capital expenditures, shall be submitted by the Grantee to the GOR, who shall include recommendations with the request and forward them both to the Grant Officer.

IV. ACKNOWLEDGMENT OF THE GRANTOR’S ROLE

Unless otherwise agreed upon by the Grantor and the Grantee, all publicly disseminated print or electronic materials prepared with USDOL/ILAB Cooperative Agreement funds must contain an acknowledgment of such funding through the following language: “Funding provided by the United States Department of Labor under Cooperative Agreement number IL-XX. These statements do not necessarily reflect the views or policies of United States Department of Labor, nor does mention of trade names, commercial products, or organizations imply endorsement by the United States Government.”

Prior to using the USDOL seal, the Grantee must submit a request to the Grantor and receive written permission for the specific use of the seal from the Grantor. The Grantor will consider

V. SUBAWARDS

Subawards awarded after the Cooperative Agreement is signed, and not proposed in the application, must be awarded through a formal competitive bidding process. See 29 CFR 95.40-48; General Provisions Sec. XX (below). Subawards are subject to audit, in accordance with the requirements of 29 CFR 95.26(d).

The debarment and suspension rule, as outlined in 29 CFR 95.13 and 29 CFR Part 98, applies to all subawards issued under the Cooperative Agreement. The Grantee is responsible for ensuring that all subrecipients are eligible for participation in Federal assistance programs. The Grantee must check the following Web site to assess available information on parties that are excluded from receiving Federal financial and nonfinancial assistance and benefits, pursuant to the provisions of 31 U.S.C. 6101, note, E.O. 12549, E.O. 12689, 48 CFR 9.404: [http://www.epls.gov/](http://www.epls.gov/).

VI. INDIRECT CHARGES

A. Indirect Cost Rate Agreements

This clause is applicable to all organizations (non-profit, for-profit commercial organizations, international organizations, and State and local organizations, etc.) receiving this Federal cost reimbursable cooperative agreement.

According to Federal regulations, indirect costs are those that have been incurred for common or joint objectives and cannot be readily identified with a particular final cost objective. Indirect cost charges should be based on allowable, allocable, and reasonable costs based on the applicable cost principles. For more information about indirect costs, please see the Indirect Cost Form, available at [http://www.dol.gov/ilab/grants/SGAguidelines.htm](http://www.dol.gov/ilab/grants/SGAguidelines.htm).

Indirect cost support is validated using a federally approved Negotiated Indirect Cost Rate Agreement (NICRA). The NICRA is issued by the Federal Cognizant Agency (FCA), typically the agency providing the preponderance of direct federal funds to the organization. The NICRAs are based on annual indirect cost proposal submissions due six months after the end of the organization’s fiscal year. These annual submissions must be submitted to FCA for the life of the

grant.

Those entities with no approved or current indirect cost rates must submit indirect cost proposals within 90 days of the grant award to the FCA. If USDOL is the FCA, please contact Victor M. Lopez, Chief, Division of Cost Determination (DCD) at 202-693-4106 for more information on the review and approval process for indirect cost rates. DCD’s main phone number is 202-693-4100. For more information, visit DCD’s Web site at http://www.dol.gov/oasam/boc/dcd/.

B. Indirect Cost Rate for the Cooperative Agreement

1. Temporary Billing Rates – Applicable to those organizations with no approved or current NICRAs claiming reimbursement of indirect costs:

   Based on the Grant Officer or their representative’s review, the following “temporary billing rate” (TBR) is established for 90 days: XX % using XX as the allocation base.

2. Indirect cost ceilings applicable to those organizations with an approved, current, NICRA claiming reimbursement of indirect costs

   An indirect cost rate ceiling of XX %, based on XX, has been applied under this agreement based on the Grantee’s budget and written documentation received. If a ceiling indirect cost amount was established, instead, indicate ceiling amount here: $ XX.

V. PROPERTY ACQUISITION AND MANAGEMENT
Cooperative Agreement No. XX

29 CFR Part 95 must be followed in the acquisition of, accounting for, and disposition of property.

VI. COOPERATIVE AGREEMENT CLOSEOUT PROCEDURES

A. Definitions

1. Cooperative Agreement closeout. The closeout of a Cooperative Agreement is the process by which a Federal grantor agency determines that all applicable administrative actions and all required work of the Cooperative Agreement have been completed by the Grantee and the Grantor.

2. Disallowed costs. Disallowed costs are those charges to a Cooperative Agreement that the grantor agency or its representative determines to be unallowable in accordance with the applicable Federal Cost Principles or other conditions contained in the Cooperative Agreement.

B. Closeout Procedures

Cooperative Agreements must be closed out in accordance with the following procedures:

1. The Grantee must account for any property acquired with Cooperative Agreement funds, or received from the Government in accordance with the provisions of 29 CFR Part 95. No later than the 120 days before the completion of the project, the Grantee should submit a Government Property Inventory Disposition Request for all real property, equipment, and intangible property, and an inventory list of supplies, if unused supplies exceed USD 5,000 in total aggregate value at the time of closeout.

2. The Grantee must immediately refund to the Grantor any balance of unobligated (unencumbered) cash advanced to the Grantee that is not authorized to be retained by the Grantee for use on other grants or Cooperative Agreements.

3. Within 90 days after completion of the Cooperative Agreement period, the Grantee shall submit a Final Technical Report, Financial Status Report, Final FFR/SF-425, a copy of the approved Government Property Inventory Disposition Request. The Grant Officer may authorize extensions when requested by the Grantee.

4. The Grant Officer must make a settlement for any upward or downward adjustments to the Federal share of costs after these reports are received.

5. In the case of Cooperative Agreements that include match/in-kind contributions, the Grantee has a legal requirement to provide the total amount of match/in-kind contribution indicated on the face sheet of the agreement, as amended. Failure to provide this level of match/in-kind contribution shall result in the disallowance of all or part of otherwise allowable Federal
Cooperative Agreement No. XX

share costs, equal to the total match/in-kind share committed to, less the share actually provided.

6. In the event a final audit has not been performed prior to the closeout of the Cooperative Agreement, the Grantor shall retain the right to recover an appropriate amount after fully considering the recommendations on disallowed costs resulting from the final audit.

7. Final closeout of the Cooperative Agreement is not affected when a provisional NICRA exists at the time of closeout, in accordance with the provisions of 29 CFR Part 95.72 (a) (1).

VII. TERMINATION

Please refer to 29 CFR 95.60 – 95.62.

Such encumbrances or obligations shall involve only specified commitments for which a need existed during the Cooperative Agreement period and that are supported by approved contracts, purchase orders, requisitions, invoices, bills, or other evidence of liability consistent with the Grantee's purchasing procedures and incurred within the Cooperative Agreement period. All encumbrances/obligations incurred during the Cooperative Agreement period shall be liquidated no later than 90 days after the end of the Cooperative Agreement period or prior to the expiration of the Cooperative Agreement funds, whichever is sooner.

The Grantor intends to make every effort to notify the Grantee at least two weeks in advance of any trip to the USDOL-funded project site. If the Grantor makes any site visit on the premises of a Grantee or a subrecipient(s) under the Cooperative Agreement, the Grantee must provide and must require its subrecipients to provide, all reasonable facilities and assistance for the safety and convenience of government officials in the performance of their duties.
