

NOTICE TO EMPLOYEES

Executive Order 12953 dated February 27, 1995, requires all Federal agencies notify employees that the master file of delinquent obligors of each State child support enforcement agency shall be matched at least annually with payroll and/or personnel records of Federal agencies in order to determine if there are any Federal employees with child support delinquencies. Should the list produce a match, the name(s) will be forwarded to the appropriate State child support enforcement agency to determine whether wage withholding or other enforcement actions should be commended.

Any employee wishing to initiate voluntary wage withholding requests should contact their servicing payroll office.
