**U.S. Department of Labor's Alternative Fuel Vehicle
Acquisition and Fuel Use Report for Fiscal Year 2010**

February 2011

Outcome:

As indicated by the Federal Automotive Statistical Tool (FAST) Table 1 below, the Department of Labor (DOL) exceeded the Energy Policy Act of 2005 (EPAct) 75 percent goal for FY 2010 with an EPAct compliance percentage of 153 percent.

DOL's Approach to Compliance with the EPAct, EO 13423 and EO 13514:

To meet the requirements of the EPAct, E.O. 13423 and 13514, the Department continues to use the goals and objectives that were outlined in the Compliance Strategy that was developed under the previous E.O. 13149, that specifies DOL will meet its annual EPAct requirements by mandating that a minimum of 75 percent of its new light-duty vehicle acquisitions be AFVs, and through amendments, policy documents, and agency meetings with component agency heads to continue the acquisition of AFVs and redouble efforts to decrease petroleum consumption by the required 2 percent per year and increase non-petroleum-based fuel usage by 10 percent.

DOL AFV Acquisitions for FY 2010:

Table 1 shows the number and types of FY 2010 DOL vehicle acquisitions. DOL acquired 708 light-duty vehicles, of which 236 were covered by EPAct and DOL received 361 Total EPAct Credits.

Table 2 represents the fuel usage for DOL fleets in FY 2010.

Table 2: DOL Fiscal Year 2010 Fuel Usage

Covered Petroleum Consumption	2,965,995
Alternative Fuel Consumption	289,333
Total Fuel Usage	3,255,328

Summary:

DOL continues to strive to reduce the consumption of petroleum through more fuel efficient vehicles and the increased use of alternative fuels. In addition DOL has implemented an internal policy establishing AFVs as the “vehicles of choice” for new acquisitions and directs DOL agencies to select the smallest and most fuel efficient vehicles meeting mission requirements.
