Dear Advisory Committee Members:

Please find attached a consensus recommendation from National Federation of the Blind (NFB), National Industries for the Blind (NIB), TASH and SourceAmerica. This group began meeting in early 2016 with the goal of finding common ground and providing recommendations to the Advisory Committee on strategies to increase employment opportunities for people with disabilities in competitive integrated employment.

We are pleased to make recommendations to you with regard to Social Security Reform and we are continuing to work together toward actionable recommendations in other areas.

Should you have any questions or if we can provide further information, please do not hesitate to contact any of us.

Thank you for your continued work on behalf of individuals with disabilities.
