# TechCheck

A powerful tool to help employers assess their technology accessibility practices

About to take a leap into an accessible workplace technology effort? While many employers don't know where to begin, getting started is simple. It means taking stock of your workplace information technology (IT) so that you can pinpoint how to ensure it's accessible to all employees—including those with disabilities.

Enter *TechCheck*, a powerful but simple tool to help employers assess their technology accessibility practices. Whether you have a formal accessible technology effort or not, *TechCheck* delivers:

- A benchmarking accessibility "snapshot" of the current state of your technology;

- The accessibility goals you want to reach; and
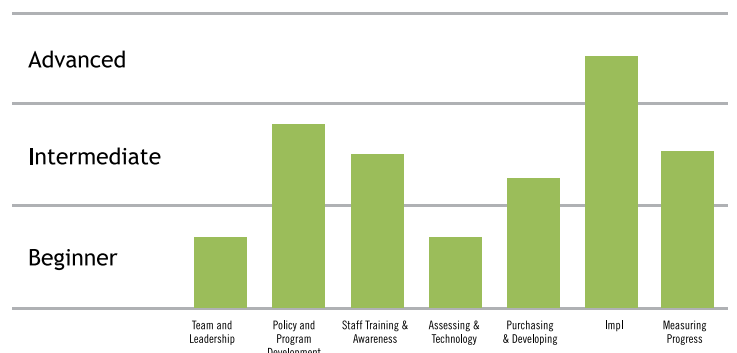

- Steps you can take to achieve them.

Join the over 100 companies that have used *TechCheck* to improve the accessibility of their organization.

TechCheck Features:

- **Designed for everybody.** Intended for U.S. employers of all types—public or private sector, large or small.

- **Quick and easy.** *TechCheck* takes about 10-15 minutes to complete.

- **Instant feedback.** After completing the questions, you'll receive a readout evaluation of where you stand across several dimensions, from internal accessibility training efforts to IT procurement policies.

- **Free and completely confidential.** PEAT does not retain your answers except to create your customized readout.

- **The first step toward a more accessible workplace.** *TechCheck* provides formal documentation that you can use to win support from management to develop your accessible technology efforts further.

Your TechCheck Results

Thank you for participating in TechCheck. Your informal results are available in the chart below. If some sections are incomplete or you would like to change your answers, you can Update your submission. This benchmarking "snapshot" of the current state of your technology can help you determine the places in your program that need the most work

Make Workplace Technology More Accessible

The Partnership on Employment & Accessible Technology (PEAT) is a multi-faceted initiative to foster collaboration and action around accessible technology in the workplace. Guided by a consortium of policy and technology leaders, PEAT works to help employers, IT companies, and others to understand why it pays to build and buy accessible technology, and how to do so.

PEAT resources are always free to everyone, everywhere.

Employer Tools

Buy IT!
Learn how to work with vendors to build accessibility and usability into your company's information technology (IT) procurement processes.

TechCheck
This interactive benchmarking tool helps companies and organizations evaluate the maturity of their accessible workplace technology efforts and find tools to develop them further.

TalentWorks
Typical eRecruiting practices may exclude 1 out of every 5 job candidates from consideration. This series of tools, resources, and leading practices helps employers use accessible technology to recruit and hire the best talent.

Policy Matters
Follow policy analysis and news regarding laws and regulations, court decisions, and government resources related to accessibility and employment, from the Americans with Disabilities Act (ADA) to the Workforce Innovation and Opportunity Act (WIOA).
