For present employees who do not choose to become members of the Union, such payments shall commence thirty (30) calendar

1. Forty (40) hours shall constitute a regular week's work; eight (8) hours shall constitute a regular workday. All hours over eight (8) hours in any one (1) day and all hours worked outside of the regularly scheduled hours per day will be considered as premium time hours and paid at the rate of time and one-half. Present shifts shall be continued for the duration of this contract. The Company shall have the right to work two (2) shifts. If conditions of work require it, an additional shift may be scheduled on mold repair work.

9. The Company shall make a reasonable attempt to give the Local Union a shutdown notice five (5) days in advance of the holiday shutdown period.

ARTICLE 6 SENIORITY-TRANSFER RIGHTS

1. When a temporary slackness of work occurs due to a temporary reduction in orders, furnace repairs, etc., the employee shall not be laid off, but the work shall be equally divided among the employees competent to perform it. Temporary shall be defined as not more than sixty (60) calendar days unless extended by mutual agreement. In the event of a temporary slackness of work, senior employees wishing to volunteer for layoff may do so provided there are enough Journeyman Mold Makers remaining who are qualified to do the work. This shall not apply when it becomes necessary to make a permanent reduction in the working force. In this latter situation, the reduction shall be according to shop seniority with employees having the least shop seniority being the first laid off, provided that the remaining employees are qualified to do the work in the shop.

2. Employees shall be recalled to work in the reverse order of their layoff, provided that they

are qualified to do the work. Recall rights shall terminate after five (5) years of continuous layoff, provided the employee has that much seniority. Recall rights of employees with less than five (5) years of seniority shall terminate when the length of their continuous layoff equals their seniority.

3. An employee with one (1) year or more of seniority who is terminated because of a permanent reduction in the working forces shall, within thirty (30) days after the date of his termination, make application to the personnel department of the plant where he was formerly employed specifying the other plants under the jurisdiction of this contract at which he wishes to be considered for employment.

Any such employee shall be considered at other plants for job openings for which he is qualified for a period of one (1) year subsequent to the date of his termination but may extend this period for a second year by requesting such extension at the personnel department of the plant where he was formerly employed within ninety (90) days prior to the end of the first year following his termination, and for a third year, fourth year, or fifth year, if applicable, by giving similar notice within ninety (90) days prior to the end of the second year, third year, or fourth year, respectively, following his termination.

If he is employed at another plant of the Company within such time, he shall retain his continuous service benefits accumulated with the Company.

The Company shall determine whether an employee meets its hiring standards and is

qualified for employment, without discrimination because of age, Union affiliation or prior Union activity.

4. Upon request of the National President of the Union, employees under the jurisdiction of this contract shall be granted a leave of absence to serve the National Union for a period of up to one (1) year and renewable yearly thereafter at the request of the National President for a total of five (5) years. No more than one (1) employee may be so chosen by the Union from each plant covered by this contract. Upon termination of such Union duties he may return to work covered by this contract, taking his position on the seniority list indicated by his years of service including time spent on such duties for which leave was granted.

5. Effective September 1, 1990, any employee under the jurisdiction of this contract transferred to a supervisory position not under this contract may be returned to a job under this contract without loss of seniority already earned in accordance with the following:

- (a) If returned within one (1) year, he will take his position on the shop seniority list indicated by his years of service, excluding time spent in the supervisory position.
- (b) If returned after one (1) year, he will initially be placed at the bottom of the shop seniority list. Upon such a return, he will not be permitted to displace a bargaining unit employee. After one (1) year, he will be permitted to use his total hourly shop seniority.

6. Job openings on shifts shall be filled on the basis of shop seniority provided that the employee is qualified to do the work and there is a qualified replacement for him on his present shift. This provision shall not supersede local agreements.

1. Any employee under the jurisdiction of this contract holding a regular position, reporting for work at his usual time, will be guaranteed at least four (4) hours' work or four (4) hours' pay at his regular rate unless he has been instructed not to report.

2. This policy will not apply during emergencies or circumstances such as floods, fires, tornadoes and other disasters beyond Company control.

3. An employee who is called into work other than during his scheduled time will be paid four (4) hours' pay at the regular rate or actual hours worked at the applicable premium time rate, whichever is greater. This policy shall apply when an employee is called in early to his regular shift and works continuously from the time of reporting to his regular shift, unless he was so requested on the preceding day to report early for his next shift.

ARTICLE 8 DUTY OF EMPLOYEES

Any employee under the jurisdiction of this contract who cannot report for work at the regular starting time must, if possible, inform his foreman or another representative designated by the Company, as early as possible, of his reason for being off duty.

ARTICLE 9 EMPLOYMENT

In the event the Company is unable to secure competent Journeyman Mold Makers, the Company shall request the shop committee to supply Journeyman Mold Makers, and if competent Journeyman Mold Makers are not furnished within thirty (30) days after the committee has been notified, then the Company shall have the privilege to draw labor from any source, and at least the minimum rate shall be paid to anyone hired and placed on a mold making job. 5. During the term of this contract, annual cost-of-living increases will be made on April 1, 2003, and on April 1, 2004, in accordance with the provisions of this section.

Cost-of-living increases, if any, will be added by using the Consumer's Price Index (1967+100), Urban Wage Earners and Clerical Workers (revised CPI-W). These returning veteran Apprentices shall not be counted against the quota of Apprentices that the shop is allowed under this Article.

7. The Company recognizes that better utilization of the working force can be attained if Apprentice Mold Makers are properly trained and agree to establish a bona fide program for Apprentices after discussion with a Union committee of not more than three (3) members,

which program will, consistent with the needs and facilities of the Manufacturer involved, provide such training. A Manufacturer that did not register an apprentice program with either the Bureau of Apprenticeship, United States Department of Labor, or a recognized state apprenticeship agency during the term of the prior contract will apply for registration prior to November 1, 2003. If a new apprentice program is established by a Manufacturer during the term of this contract, the Company will within a reasonable period of time thereafter apply for similar registration. The Union will cooperate with the Company in carrying out any such program.

8. An Apprentice shall be given up to a total of six (6) months (one hundred and eighty (180) calendar days) training credit toward his apprenticeship with his employer for time spent on layoff or leave of absence.

9. Apprentices will be paid their regular base rate per hour for time lost from work for each regular workday for attending school under the Manufacturer's apprentice training program. After the satisfactory completion of each course taken by an Apprentice in connection with a Manufacturer's apprentice training program, the Manufacturer will reimburse the Apprentice for required expenses of books and tuition in connection with each such course. Each Manufacturer will continue its present practices with respect to paying normal expenses for material incurred by Apprentices in connection with its apprentice training program. If a Manufacturer does not have any such practices, it will establish a reasonable policy for the same.

ARTICLE 16 INSURANCE PROGRAM ACTIVE EMPLOYEES

1. Effective September 1, 2002 the Company shall provide a comprehensive group life, accident, medical, dental, and health insurance program covering its employees represented by the Union at its plants under this contract. The Company shall be responsible for the administration of its program.

2. The Program under the 1999-2002 contract, as extended, shall remain in effect in its entirety through December 31, 2002. Insurance benefits and other revisions changed as a result of this Article shall be effective January 1, 2003, unless otherwise indicated. Such benefits shall become effective only for new claims which arise on or

after the effective date. Claims for benefits that arise prior to the effective date shall be payable under the provisions of a Company's program as it existed prior to the effective date.

3. Each such program shall be integrated with any program required by any federal or state law involving non-occupational sickness and accident benefits, hospital-medical, dental benefits, and any other benefits covered by this Article.

4. The medical and dental benefits of each such program are coordinated according to standard insurance procedures with benefits from other group plans and governmental health plans under which an insured member may also be covered. Any employee who waives comprehensive medical benefits and dental benefits coverage for him/herself or his/her spouse shall be paid seven hundred and fifty dollars (\$750.00) per year. In order to receive this payment, proof of coverage under another employer's plan will be required. Coverage under the Program may be reinstated upon loss of coverage under the other employer's plan or during the annual enrollment period.

5. To assure the greatest benefit for the money expended, it is a mutual responsibility of the Company and the Union to police all insurance usage.

6. The following standard provisions are included in each such program:

- (a) Full-time hourly employees, under this contract become eligible for coverage under the program upon completion of thirty (30) calendar days from their date

of employment (except dental), subject to the provisions of state disability benefit laws as they apply to disability benefits.

The term "dependents" includes the employee's spouse and unmarried children from birth to the twenty-first (21st) birthday, including legally adopted children and stepchildren and children under legal guardianship upon presentation of proof that the children are under legal guardianship of the employee and residing in the employee's household. Dependent children also includes:

- (ii) An unmarried child mentally or physically incapable of earning his own living, and who otherwise ceases to be eligible for medical and dental expense benefits due to attainment of the limiting age may continue to be eligible for benefits coverage under the program for the duration of the incapacity, provided the insurance does not terminate for any other reason. Proof of incapacity must be furnished to the insurance company within thirty-one (31) days

after the child attains the limiting age.

- (iii) A newborn child who, from date of birth, incurs charges for routine nursery care or special hospital services rendered because of disease, injury, congenital abnormality or hereditary complications, is eligible for coverage from birth under the program of medical expenses.
- (c) If husband and wife are both eligible to enroll for employee benefits, only one (1) may enroll for coverage of dependent children. Any person eligible for insurance as an employee cannot be covered as a dependent. An eligible dependent may be covered within thirty-one (31) days of eligibility; after thirty-one (31) days the eligible dependent may be enrolled upon furnishing evidence of good health. Upon renewal of this contract, there will be a thirty (30) day period of open enrollment for all dependents.
- (d) Continuation of coverage during a period of absence from work due to accident or sickness.
 - (i) Non-occupational accident or sickness.

If an employee is absent from work because of non-occupational temporary disability, his life, accidental death and dismemberment, sickness and accident, medical

and dental coverages will be continued up to six (6) months from the end of the month in which the disability occurs without contribution. Dependent coverages will also be continued for the same period without contributions. Life and accidental death and dismemberment coverages will be continued for the balance of the temporary disability period.

Such an employee may have his medical and dental coverages continued at his expense on a monthly basis for a period not to exceed an additional six (6) months upon the monthly payment of an amount equal to the Manufacturer's full cost for such coverages.

(iii) Continuation of coverage during lay-off.

If an employee is laid off, all his insurance will be continued up to six

(6) months following the end of the month in which the layoff occurs *without contribution*. Dependent coverages will also be continued for the same period without contributions. If, at the end of the six (6) month period, the layoff continues, the life and accidental death and dismemberment coverages will be continued for an additional six (6) months of the layoff without contribution. Employees returning from layoff shall be reinstated *immediately*.

Such an employee may have his medical and dental coverages continued on a monthly basis for a period not to exceed an additional six (6) months upon the monthly payment of an amount equal to the Manufacturer's full cost for such coverages.

- (iv) Any extension of coverage under the immediately preceding paragraphs (i), (ii) and (iii) will cease immediately if the employee dies, retires, becomes permanently disabled, goes to work for another employer or becomes self-employed.

(e) Termination of employment.

If employment is terminated all coverages under the plan cease thirty (30)

days after termination occurs, except as required by law.

Effective September 1, 1987, an employee whose employment is terminated as a result of a permanent plant or mold shop closing on or after September 1, 1987, will have his insurance continued for six (6) months from the date of such closing without contribution. An employee who is on layoff at the date of such closing will have his insurance continued for the remainder of the six (6) month period under Section 6 (d) (iii).

(f) Conversion privilege.

Upon termination of coverages the option of converting the life, medical and dental coverages to individual policies may be exercised by the individual according to the provisions of the individual policies made available by the insurance carrier.

(g) This Article will be administered in accordance with the Tax Equity and Fiscal Responsibility Act of 1982, as amended, and other applicable laws as to medical and related programs as to working employees age 65 or over and eligible dependent spouses age 65 or over. Payments for Part B of Medicare for such a working employee and such an eligible dependent spouse are borne by the Manufacturer only when the primary

In locations where the Company has no network, benefits under the program will be paid on the same basis as in network benefits.

All provisions under the PPO Plan will be the same as the Comprehensive Medical Plan including out of network co-insurance provisions as defined under section 4.

4. Co-payment is ninety percent/ten percent (90%/10%) in network (or seventy percent/ thirty percent (70%/30%) out of network) for all covered reasonable and customary comprehensive medical benefit expenses, except where otherwise indicated.

There is a co-payment stop-loss limit of one thousand dollars (\$1,000.00) per covered member per calendar year and three thousand dollars (\$3,000.00) per covered family per calendar year. Consultations provided before and after the employee or eligible dependent enters the hospital for the proposed surgery are covered under this benefit.

A second opinion is required for certain procedures to receive the maximum

surgical, hospital, etc. benefits. Such expenses will be covered at seventy percent (70%) if a second opinion is not obtained for such procedures. Other second opinions are voluntary. When a second opinion is obtained voluntarily and without requirement by the administrator, the expense of such a second opinion will be covered at ninety percent (90%) in network (or seventy percent (70%) out of network).

The second opinion program is maintained for the health and safety of employees and their eligible dependents.

A second opinion may be waived by the administrator if the second opinion is not medically indicated.

ARTICLE 17

INSURANCE PROGRAM RETIREES

The Company proposes that this Article read as follows, subject to an actuarial valuation acceptable to the Company and a successful application for admittance into the GMP Employers Retiree Benefits Trust, which includes, but is not limited to, appropriate Trustee approval:

The Company agrees to the principle of a jointly administered fund into which the Company will contribute seventy-five cents (\$.75) per actual man-hour worked by each of its bargaining unit employees, excluding hours paid for but not worked, for the purpose of providing retiree benefits. Such jointly administered fund shall be administered in accordance with the provisions of the present GMP Employers Retiree Benefits Trust Agreement.

1. There are two health care programs under the Company's retiree insurance policy under this contract:

- (a) Prior to April 1, 1983. The pre-April 1, 1983, health care program for those who became (and remain) eligible retirees and their eligible spouses prior to April 1, 1983, will be continued for their respective lives, subject to its terms and conditions.
- (b) On and after April 1, 1983. The present health care program for those who either became or become (and remain) eligible retirees and their eligible spouses on and after April 1, 1983, and through August 31, 2002, will be continued for their

respective lives, subject to its terms and conditions.

Effective January 1, 1991, and then each January 1 thereafter, the deductibles for each of these two health care programs will be redetermined each calendar year based on the applicable multiple of the Medicare Part B monthly premium. In the event either that a National Health Program should be enacted during the term of this contract or that the Medicare Part B monthly premiums should be eliminated during the term of this contract, the then existing deductibles, as appropriate, would then be continued for the remainder of the term of this contract as to each of these two health care programs. With the exceptions of the deductibles, each of these two health care programs will not be changed during the term of this contract except as required by law.

Effective January 1, 2000, the deductibles under the "on and after April 1, 1983" health care program for the eligible retiree and also the eligible spouse will be reduced as follows: Medicare eligible — from thirty (30) to twenty (20) times the Medicare Part B monthly premium, rounded to the nearest ten dollars (\$10.00); non-Medicare eligible — from sixty (60) to forty (40) times the Medicare Part B monthly premium, rounded to the nearest ten dollars (\$10.00).

Effective January 1, 2000, the lifetime maximum benefit under each of these two health care programs for eligible retiree and also the eligible spouse will be increased as follows: from one hundred thousand dollars (\$100,000.00) to one hundred fifty thousand dollars (\$150,000.00).

2. Under both of these two health care programs, the only eligible retiree is one who retires under the Company's pension plan (normal retirement, early retirement, or disability retirement) on or after September 1, 1963, and who is receiving those benefits under the Company's pension plan. (Deferred vested employees or those who are covered under the Company's active insurance program are not covered under either of these two health care programs.)

- (a) Effective April 1, 1983, an eligible retiree will be entitled to three thousand dollars (\$3,000.00) of life insurance coverage payable at death.

3. Under both of these two health care programs, the only eligible spouse is the spouse of the eligible retiree at the time of retirement. If an eligible retiree dies on or after September 1, 1966, the surviving eligible spouse of such retiree will be entitled to continue to participate in the program under which such spouse is covered regardless of whether claims are incurred before or after the death of such retiree. If any employee or group of employees represented by the Union should violate the intent of this paragraph, the Union will promptly notify the Company and such employee or employees of its disapproval of such violation.

3. Should a strike or cessation of work occur which is not authorized, assisted or encouraged by the Union, and such violation is disapproved as provided in Section 2 hereof, the Union will not be held liable for such strike or cessation of work.

4. The parties agree that during the term of this contract, grievances shall be handled and be subject to the grievance procedure of this contract.

ARTICLE 27 SEPARABILITY PROVISION

If any provision of this contract, or the application of such provision to any person or circumstances, shall be held invalid or is in conflict with any present or future federal or state law, the remainder of the contract or the application of such provision to persons or circumstances other than those as to which it is invalid shall not be affected thereby.

ARTICLE 28 LOCAL AGREEMENTS

1. All written local agreements that are presently recognized by the Company and a local union shall remain in effect for the duration of this contract unless changed by mutual agreement between the Company and the local union involved.

2. In mold shops which have begun operation since August 31, 1959, the Company and local union shall reduce to writing all recognized agreements covering benefits such as premium payments in excess of this contract, lunch periods, relief periods, wash-up time, coffee breaks, etc. It is understood that no Company or local union will be required to negotiate locally or grant additional or different benefits from those which were in effect prior to the execution date of this contract. Such agreements shall be completed within sixty

(60) days following the effective date of this contract and shall remain in effect for its duration. If the parties fail to agree, the unresolved issues shall be submitted to arbitration and the decision of the arbitrator shall be based upon the established practice of the shop.

ARTICLE 29 MULTIPLE WORK ASSIGNMENTS

1. Mold Makers and Apprentices shall not be assigned to operate two (2) machines simultaneously or to operate a machine and do bench work, vise work, or assembly work, etc., while the machine is in cycle, except work of a nature that machine operators have performed in the past during machine cycles, if the cycle time is sufficient. The Company shall not be required to change its present practices of assigning work.

However, Mold Makers and Apprentices may be assigned to operate no more than two (2) machines simultaneously or to operate a machine and do bench work, vice work, or assembly work, etc., on new mold work while the machine is in cycle when the machines are three-dimensional profiling machines or duplicating machines each having two (2) hours or more of unencumbered cycle time. For purposes of this paragraph only, the following will also apply:

- (a) A cycle shall be deemed to start when the tool or tools begin the cut during a specific operation and end when that particular tool completes its operation.
- (b) An employee performing work under this paragraph will do work during cycle time

which is related to or incidental to the work being performed on the equipment produced by the machine. If there is not sufficient work to be done during cycle time, additional new mold work may be brought to the employee; however, if he is operating two (2) machines, he will only be required to perform work which is required for the operation of the two (2) machines.

- (c) Preference for performing work under this paragraph will be given to the affected qualified operator presently on the machine with the greater shop seniority; if he declines such opportunity, other qualified employees will be given preference to perform it in accordance with shop seniority; if all of them decline such opportunity, the qualified operator presently assigned with the least shop seniority will be assigned to perform it. Any additional problems with respect to assignments arising under this paragraph will be treated consistently with local practices or agreements at the shop with respect to other assignments.
- (d) An employee performing work under this paragraph will receive fifty (50) minutes of paid lunch and relief during his shift.
- (e) Existing cutting speeds and feeds shall not be reduced to permit multiple work assignments under this paragraph.

The Company shall not be required to change its present practices of assigning work.

2. In lieu of the first section of this Article and of local practices and agreements, the Company, if it so elects on or after July 1, 1981, may assign Mold Makers and Apprentices to operate two (2) or more machines and to perform other assignments and other work simultaneously in a shop. For purposes of this paragraph only, the following will apply:

- (a) Employees in that shop shall perform work as required, but they shall not be required to perform unreasonable workloads.
- (b) Employees in that shop shall be paid an additional twenty-five cents (\$.25) per hour, which will be added to the base rate and will be paid for all purposes.
- (c) Employees in that shop performing additional third and fourth assignments simultaneously shall receive pay in addition to that provided in subparagraph (b) above as follows:
 - (i) three (3) machines (or two (2) machines and bench work, vice work, or assembly work, etc.)- forty cents (\$.40) per hour;
 - (ii) four (4) machines (or three (3) machines and bench work, vice work, or assembly work, etc.)- forty cents (\$.40) per hour.

Such payments will be made only for time actually worked under this subparagraph (c).

Preference for performing work under this subparagraph (c) will be given to the affected qualified operators with the greater shop seniority who volunteer for such work; if there are no such volunteers, the qualified operator with the least shop seniority will be assigned to such work. When such work has been completed, the affected qualified operator will be returned to his job. Any additional problems with respect to assignments arising under this subparagraph (c) will be discussed locally.

- (d) An additional shift may also be scheduled on new mold work in that shop. Employees scheduled on a three (3) shift basis shall be given thirty (30) minutes of lunch during an eight (8) hour shift to be apportioned in accordance with conditions in that shop.
- (e) If an employee hired after September 1, 1977, in that shop is laid off as a result of the implementation of such an election in that shop, such employee will have recall rights for a minimum of two (2) years.
- (f) If the Company makes such an election, it will remain applicable in that shop until five (5) working days' notice is given to cancel the election to the local union's

shop committee. When such cancellation is made, the first section of this Article will again be in effect in that shop.

3. Nothing herein shall be construed as placing any limitation upon the Company's right to make work assignments not involving dual or multiple operations or from introducing new processes, equipment, materials or methods of operation, from time to time as it deems desirable.

4. Both the Union and the Company recognize that new techniques in manufacturing molds which are substantially different from existing machines and methods may be developed in the future which involve dual or multiple operations. Therefore, during the term of this contract a joint meeting shall be held with the negotiating committee of the Company and the negotiating committee of the Union within thirty (30) days following a written request by either the National President of the Union or the President of the Company to the other for the purpose of exploring and making recommendations, if possible, concerning procedures to be followed, so that the introduction of such new machines or methods can be carried out in a harmonious manner, giving due consideration to the interests of both the employees and the Company. The Company will operate new substantially different equipment involving dual or multiple operations under the provisions of Section 1 until the Joint Committee has had an opportunity to meet. Failing agreement by the Joint Committee, the Company shall have the right to operate the equipment or install the new methods in such manner as they deem desirable, and any

dispute concerning same shall be referred as the Committee shall direct or to the next joint conference.

ARTICLE 30 SUBCONTRACTING

The Company shall not exercise its right to subcontract unreasonably.

ARTICLE 31 SEVERANCE PAY

1. If the Company elects to permanently close a plant or mold shop, the Company shall negotiate severance pay with the Union for terminated employees.

2. In applications of this Article only, the Company will apply a severance pay formula providing for forty (40) hours per year of credited service at the base rate of pay with a one thousand (1000) hour maximum at all future plant or mold shop closings, if any.

In addition to the severance pay in the preceding paragraph, the Company will also provide employees who have twenty-six (26) or more years of credited service a special lump sum benefit in the event of a permanent plant or mold shop closing a special lump sum benefit as follows: twenty-six (26) through thirty-five (35) years of credited service—one thousand dollars (\$1,000.00); thirty-six (36) through thirty-nine (39) years of credited service—two thousand dollars (\$2,000.00); and forty (40) or more years of credited service—three thousand dollars (\$3,000.00).

3. The Company shall notify the National Union and the Local Union ninety (90) days in advance, or as soon thereafter as possible, of any permanent plant or mold shop closing. If notification is less than ninety (90) days, an employee shall be paid for each day less than ninety (90) day notification. Such pay will be at his base rate of pay for an eight (8) hour day for each working day of his regular schedule.

4. Any disputes with respect to this Article shall be subject to Article 25 (Presentation of Grievances).

ARTICLE 32 DESTRUCTION OF TOOLS

1. The Company shall replace at its expense all tools and toolboxes owned by employees which are destroyed by fire, flood or other similar disaster on the Manufacturer's premises, up to a maximum liability of three thousand five hundred dollars (\$3,500.00) for any employee.

2. The Company will replace tools owned by employees that have been broken or worn out while being used with reasonable care in the performance of their regular jobs.

ARTICLE 33 MILITARY LEAVE

All employees who are members of the National Guard or Military Services shall be paid for time lost, not to exceed forty (40) hours per week, while in attendance at the National Guard or Military Reserves two (2) week summer camp.

The pay shall be at the employee's regular base rate for such hours lost by the employee.

ARTICLE 34 FAIR EMPLOYMENT PRACTICE AND EQUAL OPPORTUNITIES

1. The Company and Union will not discriminate against any employee or applicant for employment because of race, color, religion, sex, or national origin.

2. This contract will also be administered in accordance with those applicable laws preventing discrimination as to qualified handicapped individuals and as to qualified disabled veterans and veterans of the Vietnam era.

3. This contract will also be administered in accordance with the applicable provisions of the Americans with Disabilities Act.

ARTICLE 35 WEEKEND COVERAGE

The Union recognized the need for weekend coverage, including management's right to schedule weekend coverage. No local agreement will restrict management's right to schedule weekend coverage. The Union will cooperate with local plant management to provide reasonable weekend coverage and local plant management will furnish employees with sufficient notice. Disputes as to whether weekend coverage is reasonable are subject to the grievance procedure.

ARTICLE 36 SUCCESSORS, TRANSFEREES AND ASSIGNEES

This contract shall be binding upon the parties hereto, their successors, transferees, and assignees. In the event the Company sells or transfers any plant, this contract shall remain in full force and effect and be binding upon the purchaser of transferee, and the Company agrees it will include in the purchase agreement that this contract is binding on the purchaser or transferee.

ARTICLE 37 HEALTH AND SANITATION

1. The Company shall continue its best efforts of controlling iron dust, toxic fumes, or other harmful dust or fumes which are health hazards, along with adequate heating, lighting, and ventilating to employees.

2. The Union and the employees shall cooperate with the Company to maintain clean, orderly restrooms, washrooms, and work area throughout the plant.

3. Upon an employee's request, he will be entitled to receive one (1) chest x-ray each year at the Company's expense.

2. The Company shall compensate any employee whom it requests to conduct any

ARTICLE 39 EXPIRATION, CHANGE, RENEWAL OF CONTRACT

1. This contract shall remain in force and effect through August 31, 2005, and from year to year thereafter unless modified or terminated in accordance with the provisions of Section 2 hereof.

2. If either party desires to negotiate changes in or modifications of this contract, it shall give the other party written notice of the desired changes or modifications at least sixty (60) days prior to the expiration date of the contract. In the event notice of desired changes or modifications is given, a Joint Conference between the Union and the Company shall be held on a mutually agreeable date not later than thirty (30) days prior to the expiration date of the contract. If agreement is not reached on items in dispute by the contract expiration date, this contract shall terminate unless extended by mutual agreement.

**Re: American Flint Glass Workers
Union, AFL-CIO and Anchor
Glass Container Corporation -
Article 17, Insurance Program Retirees**

Dear President Tuttle:

The Company and the Union have been negotiating over providing alternative health benefits for retirees. The parties explored, among other things, entering the GMP Employers Retiree Trust or the Steelworkers Health and Welfare Fund. It was not, however, possible for the parties to complete negotiations and finalize an alternative benefit for retirees. Among other reasons, the parties were unable to complete those negotiations due to the amount of data to be provided the Funds in order to evaluate inclusion of the Mold Makers in those plans. Accordingly, the parties agree to continue their negotiations and will meet again in October, 2002.

The Company commits that it will provide alternative retiree health benefits so long as the costs of providing such alternatives are reasonable.

Very truly yours,
Anchor Glass Container
