REASONS FOR A CMC REFERRAL

- **DIAGNOSIS** - Clarification and confirmation of a diagnosis.
- **CAUSATION** – Exposure and medical documentation to render an opinion on causation.
- **IMPAIRMENT** – Percentage of permanent impairment to the whole person for an accepted illness.
- **ONSET DATE** – Onset and period of illness relating to reported wage loss.
- **CONSEQUENTIAL INJURIES** – Determination of consequential injury/illness due to an accepted illness or treatment of the illness.
- **TREATMENT** – Medical necessity of medical care, durable medical equipment or home/AUT modification.
- **CLARIFICATION** – Interpretation of medical reports, test or other medical evidence.
- **CONFLICT** – Resolve conflict of medical opinions.
CMC REVIEW NOT NECESSARY

- TREATING PHYSICIAN PROVIDES A WELL-RATIONALIZED OPINION IN RESPONSE TO A CLAIM QUESTION.

- WHEN THERE IS PRESUMPTION OF CAUSATION EXISTS, OR CIRCUMSTANCES OF CASE DEVELOPMENT DOES NOT NECESSITATE A MEDICAL OPINION, SUCH AS THERE IS NO EVIDENCE OF EXPOSURE TO A TOXIC SUBSTANCE OR PAUSIBLE SCIENTIFIC ASSOCIATION BETWEEN A TOXIN AND A DIAGNOSED ILLNESS.
CMC REVIEW IS NECESSARY

- The CE is unable to conclude whether pre-1993 medical evidence is sufficient to diagnose chronic beryllium disease.
- Medical tests are submitted which do not provide clear diagnosis or interpretation (e.g., a BeLPT that does not clearly state that the test is positive or negative).
- It is unclear whether a medical condition, unlisted on a death certificate, was a significant factor in causing, contributing to or aggravating an employee's death. For example, an employee dies of a heart condition, but the covered condition is asbestosis.
CMC REVIEW IS NECESSARY

- It is unclear whether the confirmed exposure to a toxic substance is linked to the illness claimed by the employee.

- A treating physician has offered a speculative, or vague opinion, or one that is not substantiated by reasonable medical rationale, and the CE has undertaken reasonable steps identifying the defects to the physician, but he or she has not responded or responded unsatisfactorily.

Questions:

CE: Choose from options below or add your own

1. **Impairment** Please provide a whole body impairment rating for the accepted conditions listed above in accordance with the 5th edition of the American Medical Association’s *Guides to the Evaluation of Permanent Impairment* with specific page and table references included in your report. If additional medical records would result in a better evaluation, please so state and identify the needed medical records. Please provide the rationale and objective findings to support your conclusions.

2. **Impairment** If it is not possible to complete an impairment rating based on the medical evidence we provided, please advise us what medical records and/or testing is required to complete the rating.

3. **Diagnosis** In your opinion, do the medical records support a diagnosis of medical condition? If so, please provide the first date of diagnosis, diagnosis, and the ICD-9 code.

4. **Causation** If medical condition was diagnosed, in your opinion is it at least as likely as not that exposure to toxic substances during the course of employment at covered facility was a significant factor in aggravating, contributing to, or causing the employee’s medical condition?

5. **Causation** Does the employee’s work and exposure history make it at least as likely as not that the exposure to the toxic substances was a significant factor in causing, contributing to or aggravating the employee’s medical condition?

6. **Causation** If so, please provide the earliest date of diagnosis(es) and ICD-9 code of the condition you believe is related. Please provide the rationale and objective findings to support your conclusion that the condition(s) are related to the work exposure.

Dear Claimant:

This letter is in reference to your claim under the Energy Employees Occupational Illness Compensation Program Act (EEOICPA).

Under our regulations, the Division of Energy Employees Occupational Illness Compensation (DEEOIC) has the authority to refer an employee for a physical examination by a second opinion physician when it considers such a referral to be reasonably necessary.

Because it considers such a referral to be reasonably necessary for the proper adjudication of your claim, DEEOIC has arranged for you to be examined by a second opinion physician. Please review the attached letter for the time, date, and location of your scheduled appointment. DEEOIC will pay the out-of-pocket costs you incur in connection with the examination or any diagnostic testing. Travel costs to attend the examination are reimbursable upon submission of Form OWCP-957 (Attached).

DEEOIC recommends that you call QTC Medical Services ahead of time, at the number provided in the attached QTC Appointment Notification Letter, to confirm the appointment. Ensuring that you provide QTC Medical Services with your name, file number, and any contact information when you call will make the process run as smoothly as possible.

Rescheduling the appointment is strongly discouraged and you should only do so in emergencies. Altering an appointment schedule can hinder our ability to take substantive action on your claim and promptly deliver services to you. If you are unavoidably prevented from keeping your appointment, you must immediately call your assigned claims examiner at the district office at XXX-XXX-XXXX. DEEOIC will evaluate any request to reschedule your appointment.

If you do not attend the scheduled appointment, or cannot establish good cause for your failure to appear, DEEOIC will suspend claim adjudication and administratively close your claim. Reopening of the claim record will not occur until you agree to and attend a DEEOIC scheduled medical examination.

Should someone accompanying you disrupt the scheduled medical examination, DEEOIC will reschedule the exam with a different qualified physician. You will not be entitled to have anyone else present at the subsequent examination unless DEEOIC determines that exceptional circumstances exist.

We appreciate your cooperation in this matter. If you have any questions regarding the scheduled examination, please contact me at the address listed above or call XXX-XXX-XXXX.

Sincerely,

Claims Examiner
