

Iron Workers' Locals No. 15 and 424 Pension Plan

Notice of Plan Funding Status

October 2011

Participants, Beneficiaries, Contributing Employers and Iron Workers' Locals No. 15 & 424:

The Pension Protection Act (the "Act"), signed into law in 2006, is intended to improve the financial condition of pension plans. The Act introduced several formal safeguards and controls and added notification requirements for Trustees to share more information about a plan's financial circumstances with participants, contributing employers and others directly related to the plan.

Many of the Act's safeguard provisions relate to funding, which, in simplest terms, is how much a plan has coming in, going out, and what is in reserve (or "in the bank") for the future. The safeguards are intended to create more discipline to prevent future funding problems and correct those that have already developed.

Starting with the 2008 plan year, the Act requires us to test the Pension Plan annually to classify its funding status. Standardized measurements were established for classifying plans based on their funding issues. Plans that are in "critical" status (red zone) must notify all plan participants, beneficiaries, unions, and contributing employers of the plan's status, as well as have a plan to restore the plan's financial health. In past years, we notified you that the Pension Plan was in critical status for the plan years beginning July 1, 2008, July 1, 2009, and July 1, 2010.

Plan's Status – Red Zone – Critical Status

On September 27, 2011, our actuary certified the Pension Plan as being in critical status (the red zone) for the plan year beginning July 1, 2011. The zone certification reflects the Board of Trustees' decision to take advantage of funding relief legislation, as described in a Notice of Election of Funding Relief we sent you on June 30, 2011, and a revised forecast of hours worked. This critical status is based on the actuary's determination that the funded percentage of the Pension Plan is 65% or less as of June 30, 2011 and it had a funding deficiency in the Plan Year ending June 30, 2011. A "funding deficiency" means that contributions are not expected to be high enough to meet government standards for funding promised benefits plus those that participants are currently earning. Our actuary has projected that the Pension Plan is on track to emerge from critical status on or before June 30, 2024, which is the end of the Rehabilitation Period, assuming that work levels and investment returns develop as expected.

Rehabilitation Plan

The Act requires that a plan in the red "critical" zone adopt a Rehabilitation Plan that will enable the plan to improve its funded position to meet statutory funding requirements over time. To comply with the Act, the Pension Plan adopted a Rehabilitation Plan on October 21, 2008. Employers and unions were notified of the items covered by that Rehabilitation Plan and applicable collective bargaining agreements were amended effective November 25, 2008. That Rehabilitation Plan was reviewed by the Trustees on March 3, 2011 and the Trustees agreed to accept the Fund actuary's recommendation to elect funding relief in order to spread out investment losses the Pension Fund experienced in the plan year ended June 30, 2009.

The Act allows a Rehabilitation Plan to eliminate or change adjustable benefits, which include:

- Plan benefits, rights, and provisions, including pre-retirement death benefits (other than qualified joint and survivor annuities), ten-year guarantees, disability benefits not yet in pay status, and similar benefits; and
- Early retirement or service pension benefits or retirement-type subsidies and lump-sum payments.

If the trustees of the Pension Plan determine that additional benefit reductions are necessary, you will receive a separate notice in the future identifying and explaining the effect of those reductions. Any reduction in adjustable benefits will not reduce the level of a participant's basic benefit payable at normal retirement age.

Any reductions will apply only to participants and beneficiaries whose benefit begins after October 26, 2008. Benefits for pensioners and beneficiaries already receiving benefits on October 26, 2008 will not be affected.

While the Rehabilitation Plan is expected to be adequate to meet the standards that the Act sets for plans in the red zone, we will be re-testing the Plan's funding as appropriate and as required by law. Depending on what happens with the Pension Plan's investments, the timing of participants' retirements, the amount of covered work and other financial factors, we may need to revise the Rehabilitation Plan again in the future.

Employer Surcharge

The law requires that all contributing employers pay a contribution surcharge to a plan to help correct the plan's financial situation. The amount of the surcharge is 5% of the amount employers were otherwise required to contribute to the Plan under the applicable collective bargaining agreement, increasing after time to 10% of the negotiated contribution rate. These contribution surcharges were never imposed because the collective bargaining agreement was amended by November 25, 2008 to include terms consistent with the Rehabilitation Plan. The collective bargaining agreement was renewed for the period July 4, 2011 through June 29, 2014 and its terms continue to be consistent with the updated Rehabilitation Plan. If the Rehabilitation Plan is amended in the future, employers could be exposed to surcharges if collective bargaining agreement renewals or extensions do not include terms consistent with the amended Rehabilitation Plan.

What's Next

We understand that legally required notices like this one can create concern about the Pension Plan's future. While the critical zone label is required to be used by law, the fact is that we are working with our actuaries and consultants to address these issues and take the actions necessary to improve the Pension Plan's financial condition. However, since the Pension Plan is influenced by economic and financial variables beyond our control (such as market volatility and changes in participation and/or the number of contributing employers), unexpected developments can affect the Plan's status and any future corrective actions needed.

The Rehabilitation Plan and any benefit or other Plan provision changes will be communicated to all affected individuals and parties before any changes are made. **Please remember that no future benefit changes will apply to any retiree or beneficiary currently in pay status (with benefits started by October 26, 2008).**

For more information about this notice or a copy of the Rehabilitation Plan, contact the Plan Office at 1(800) 982-3709 (toll free) or 1(203) 238-1204 or 300 Research Parkway, P.O. Box 762, Meriden, CT 06450.

Sincerely,
Board of Trustees
