

**Notice of Endangered Status For**  
**Milwaukee Brewery Workers' Pension Plan**

09 23 11 0:41

This is to inform you that on March 27, 2009, the Plan Actuary certified to the U.S. Department of the Treasury, and also to the Plan sponsor, that the Plan is in endangered status for the Plan Year beginning January 1, 2009. Federal law requires that you receive this notice.

**Endangered Status**

The Plan is considered to be in endangered status because of its current funded position. More specifically, the Plan's Actuary determined that the Plan's funded percentage for the Plan Year ending December 31, 2008 is less than 80%.

**Funding Improvement Plan**

Federal law requires pension plans in endangered status to adopt a funding improvement plan aimed at restoring the financial health of the plan. This is the second year that the Plan has been in endangered status. A funding improvement plan consists of the actions that a plan determines are necessary in order for the plan to increase the plan's funding percentage and avoid accumulated funding deficiencies during the funding improvement period. Due to a special election under the Worker, Retiree and Employer Recovery Act of 2008, the Trustees have elected to extend the funding improvement period to thirteen years. If the Plan ceases to be in endangered or critical status during that time, the Plan does not need to continue to follow the funding improvement plan. During the funding adoption period (March 28, 2008 through December 31, 2010) and the funding improvement period (the 13-year period beginning on January 1, 2011), the Plan cannot accept a collective bargaining agreement which reduces the level of contributions, suspends contributions related to any period of service or includes new exclusions on younger or newly hired employees. In addition, federal law limits the Plan's ability to improve benefits after March 28, 2008.
