Individual Coverage HRA Model Attestations

Instructions for Individual Coverage HRAs

The Departments of the Treasury, Labor, and Health and Human Services (the Departments) have issued final regulations allowing plan sponsors to offer individual coverage health reimbursement arrangements (HRAs), subject to certain requirements. Among other requirements, individual coverage HRAs must implement, and comply with, reasonable procedures to satisfy two substantiation requirements:

- The annual coverage substantiation requirement: The HRA must substantiate that participants and each dependent covered by the HRA are, or will be, enrolled in individual health insurance coverage or Medicare Part A and B or Medicare Part C for the plan year (or for the portion of the plan year the individual is covered by the HRA, if applicable).
- The ongoing substantiation requirement: The HRA may not reimburse a medical care expense unless, prior to the reimbursement, the participant substantiates that the individual on whose behalf the reimbursement is requested is (or was) enrolled in individual health insurance coverage or Medicare Part A and B or Medicare Part C for the month during which the medical care expense was incurred.

Each of these substantiation requirements may be satisfied by a participant attestation, among other permissible methods. Other methods include providing a third party document or, for the ongoing substantiation requirement, direct payment of insurance premiums, which the Departments expect will be a method some HRAs prefer.² The Departments have developed the attached model attestations for HRAs that choose to use attestation to satisfy either the annual coverage substantiation requirement or the ongoing substantiation requirement.

To use the model attestations properly, the HRA must fill in the additional information specific to the HRA, such as contact information, which is indicated by *italicized* prompts in brackets. The Departments consider the use of the model attestations to constitute reasonable procedures that satisfy the annual coverage substantiation requirement and the ongoing substantiation requirement, as applicable. Use of the model attestations is not required, and the models may be combined with other documents, such as the form the HRA otherwise uses to confirm that expenses sought to be reimbursed under an HRA are for medical care. The model attestations also may be modified to reflect the terms of the particular HRA, for example, to remove the attestations that relate to family members, if the HRA does not cover family members.

NOTE: Individual coverage HRAs should *not* include this instructions page with the individual coverage HRA attestation forms provided to participants.
