General Comment

I agree with the mental health parity act. I suggest:

1. that biofeedback be included as a treatment in all policies if provided by a licensed provider.
2. that all requirements for preauthorization be equal .
3. I request that the Final Rules clarify that benefits for MH/SUD must be comparable in scope to the benefits provided in medical/surgical care both across and within each classification. Unless parity in scope of services is required in the final regulations, the intent of the Act will not be achieved.
