Subject: Medical Equipment Needs

I would like to suggest that if there is a need of any type of HME/Home Medical Equipment or DME/Durable Medical Equipment to be used on a regular basis that if you would consider those items as well. I work for a DME provider & if I'm thinking correctly there was a person who was considered blind & her state insurance did not cover the cost of a cane for the blind. Those are not an inexpensive item to have to pay for out of pocket. Her case came to mind when I read this notice.

Thank you,
Sheryl Eisler
