## General Comment

I am really not certain this matters, my comment that is, but it should. You, the government, should really downsize. You can start by dropping the idea with even discussing my money I've invested. My family has planned and will continue to do so. This may seem a surprise to you, but we don't need you or want you to manage any aspect of our retirement. We are doing just fine and we are the ones to control our retirement monies.
