General Comment

Every time the gov helps us with something they screw it up so please don't help us with our retirement. For example the \$15. per hour for fast food workers, this isn't about workers this is about more taxes so our gov can spend more and the same with overtime money. Do you think they are going to take this money and pay down the debt? They are going to blow it on someones pet project. I think that you had best worry about gov spending which will screw up your retirement and leave everyone else alone.
