## General Comment

We have much more government than we can tolerate. Every time the national government gets involved in any segment of the economy, everyone EXCEPT the national government suffers. We need less government, not more. I don't need nor want the national government helping me plan my retirement or manage my 401(k). Ya'll need to STOP the constant encroachment into our lives and peel the government back to those activities permitted by the Consitution - nothing more.
