General Comment

I think that each individual should be able to plan for their own retirement. It should not be up to anyone else on how I spend my money that I have saved over many working years. I think it is terrible what is going on with the government and that the government should not try to run my life. I am a law abiding citizen and I feel this violates my personal rights to invest and save for my future as well as my family's future. It's bad enough that I am paying for others that choose not to work and that are capable of working please don't tell me how I should manage my money for my own retirement if that every occurs in my lifetime.
