General Comment

I worked hard and I saved all of the money in my IRA, not the government.

The only thing they did was make it exceedingly difficult for me to save for my retirement.

The data is out there, the 55 to 64 age group has, on average, less than \$15,000 saved for retirement.

There are three reasons for this: FEDERAL deficit spending, fractional reserve banking, and Federal Reserve money printing!

Clean up this mess, and leave my hard earned funds alone so that I can enjoy MY fruits of my working life.
