General Comment

Dear EBSA,

I am and have been very capable of planning for my retirement and have spent the last 30 years putting a portion of money away in various investments for my use when I retire. I do not need the government to tell me what I can and cannot spend my money on or how much I can save for my use when I retire. This is just another bureaucratic snafu the United States government attempting to increase its size and take away more rights of the US citizens. The federal government must start living within budget, protect the United States borders, quit dreaming up these ridiculous schemes to take more money from the people of the United States, get out of health insurance and stop getting involved in things that should be controlled by the individual states and the people that live within the borders of those states. Stay out of my 401 I have in place for my retirement. I DO NOT NEED YOUR HELP TO CONTROL MY FUTURE OR THE YOU KEEP GIVING OUT.
