To whomever it may concern,

I am writing to request an opportunity to testify in August 2015 regarding RIN 1210-AB32.

Specifically, I would like an opportunity to briefly describe my research projects on the causes and consequences of conflicted advice, which are cited in documents authored by the CEA and DOL. To the extent that any public comments or testimony raise material concerns about my research, I would also like an opportunity to address these concerns.

Sincerely,

Jon
