Subject: RIN 1210-AB33

I am not interested in the United States Govt. , US Treasury, or any other agency having access to any money in any retirement account I may have now or in the future. The government can't manage any kind of finances, I sure as hell won't trust them with any of my funds. If such legislation is passed I will close out any accounts I have so you can't access them and move out of this country.
