Dear Department of Treasury, Labor:

I understand that you are interested in input concerning the changing of the rules on the 401K and possibly other retirement plans. Among these changes are those which would allow the federal government to seize a citizens retirement nest egg and give them a monthly payment.

These changes, if they are to be made, should only be allowed voluntarily or not at all. The federal government has a history of financial blunders, waste, and corruption with our money and SHOULD NOT VIOLATE THE ORIGINAL INTENT OF OUR RETIREMENT ACCOUNTS.

This means do not change the policy, especially for those who are at or near retirement age.

Regards,

Daniel Leonik
