Hi Phyllis C. Borzi and others,

Please do not appropriate my 401(K) and IRAs into your annuity scheme. I manage my accounts very well and appreciate being able to do it my way. Like you, I have worked hard to add to my retirement accounts by your current rules and to manage them. I do not want more government control over my money. My careful planning will allow my earnings to last my lifetime and beyond. If I become destitute, I do not expect the government to take care of me. Please read your early American history. You'll find that that was not the role intended for the federal government by the signers of the U.S. Constitution.

Regards,  
Candace Lee
