Subject: RIN 1210-AB33 is not your right!

To Whom It May Concern:

My "HARD" earned retirement 401K or other retirement savings are for my benefit and not for you to determine that you should take or have the right to some of those monies for distribution to others!

If you or others do not have the desire to work hard and save to enjoy your retirement then it is your actions and irresponsibility and therefore you shall reap what you sow!

George Ardoin
