Hello,

This is a comment on the proposed lifetime income options for participants and beneficiaries in retirement plans. I am opposed to any mandatory participation in said options. This is just the beginning of the gradual takeover of the citizens personal retirement accounts by the U.S. government. The last thing I need or want is the government running my personal retirement plans. The government runs Social Security and we all know how that has turned out. It is bankrupt. Do not take my money to be spent on other government programs like you have done with Social Security. Do not make any mandatory requirement that I invest my personal retirement accounts in lifetime income options. I am the best judge of where I should invest my money.

Sincerely,
Larry Prokop
Rochester, MN
