I applaud your attempt to plug the deficit, aid the politicians/bankers and steal the 401k's and IRAs from the people. The Social Security Trust fund was formed in 1935. 74 years later it is insolvent. There is no trust and there are no funds in the fund. Greenspan increased the tax 2x to fix it and Congress looted it. If I ran Calpers and borrowed pension money I'd be sitting next to Madoff. You people are hypocritical lying buffoons. Inept and incompetent crooks. The government is insolvent. Shrink it, don't loot the peoples life savings to toss it in the next bubble.

I am strongly against stealing of money from my IRA or 401K. It may be your daylight dream to convert IRAs into annuities forcefully but it is not going to happen.

regards.
