Dear Kathleen Sebelius, Secretary of Health & Human Services,

Thanks for taking the great step of making birth control and domestic-violence-screening free to all insured women (I hope that means all women soon).

One step on the road to getting women fuller access to education and good wages, and to a generation of fully wanted kids.

Let us know how we can assist you in moving things forward in future!

www.domesticproduct.net

Sincerely,

Elizabeth Gregory
