**Subject:** regulations disregarding Conscience  
**Date:** Thursday, August 11, 2011 12:24:43 AM

---

Please consider that the new regulations over contraceptive coverage that disregard the protection of conscience is not consistent with a just society and our great country.

Please note that pregnancy is not a disease. An embryo is human life and is not the enemy.

Please make sure that the regulations are adjusted to include a robust conscience protection for all employers, insurers, and policy issuers with moral, ethical, or religious objections.

Sincerely,  
Ken Bossung
