I just wanted to make my opinion heard in regards to health care plans being forced to providing services that viotate their morals.

"The current definition of religious employer does not provide true conscience protection for those committed to preserving life. Health care plans should not be forced to violate the moral and religious convictions of providers or employees in order to participate in the health care system. Requiring such an unacceptable demand threatens both universal access to health care and religious freedom of conscience."

Thank you.
