To Whom It May Concern:

I am writing today to ask in the strongest way possible that you proceed without delay to implement your mandate that all "contraceptives" and sterilization procedures be covered by private health insurance with no co-pay to patients. I strongly support the government requiring free insurance coverage for Americans especially for drugs and devices that help women and families control their reproductive lives (such as ella and Plan B).

I also think that your definition of religious employer is defensible and appropriate. This legal mandate clearly complies with the spirit of conscience laws which prohibit government discrimination against those who object to various health services on moral or religious grounds. The definition of "religious employer" in the regulation is completely appropriate.

Please do not shrink from well-founded principles just because narrow-minded zealots insist on imposing their misguided mythology on the entire society.

Sincerely,
Thom Kuhn
