I am urging you to rescind the mandate that all "contraceptives" and sterilization procedures be covered by private health insurance with no co-pay to patients. In the alternative, I ask you to expand conscience protections for any organizations that provide individual and group insurance and have moral or religious objections.

I also ask you to reconsider your definition of religious employer and offer an authentic conscience protection for any organization and business that has moral or religious objection to providing such insurance to their employees. This legal mandate clearly violates the spirit of conscience laws which prohibit government discrimination against those who object to various health services on moral or religious grounds. The definition of "religious employer" in the regulation is so narrow as to only include churches, but will still mean that a host of businesses and organizations that have conscience objections will be required to choose between either violating their conscience or not being able to offer employees health insurance.

Thank you.

Sincerely,
David Sink
