Subject: Federal Funding for Planned Parenthood
Date: Saturday, September 10, 2011 3:46:28 PM

What happened to President Obama's pledge not to provide federal funds for abortions?????
In New Hampshire the people voted not to provide funds for Planned Parenthood and NOW the administration is planning to provide that support that the majority of voters in New Hampshire voted down. Planned Parenthood is our nation's largest provider of abortions!!! Millions and millions of citizens of our nation are offended and affronted by this disregard for life at its most defenseless period and tens of millions of children are losing their lives. America is seeking ways to reduce spending but we can spend it on killing unborn children. What a travesty that our Nation's highest office enables this catastrophe. What's next, disabled "useless" people or some other minority!!
Look at Germany in the 1930s and 1940s of the last century. Are we so blind and calloused!
Please stop this before our country slides further into disintegration.
Rev. S. J. Culotta
