---

To Whom It May Concern:

Although the government now has the legal right to mandate that all "contraceptives" and sterilization procedures be covered by private health insurance, it does not have the moral right to impose that all Americans pay for drugs and devices they morally oppose.

At minimum, you need to modify your narrow definition of religious employer and offer an authentic conscience protection for any organization and business that has moral or religious objection to providing such insurance to their employees.

Sincerely,  
David Blaeser  
Lakeville, MN 55044
