We demand that any government regulations on health care allow for the protection of conscience.

We are aware of this administration's utter disregard for conscience, exhibited in the final regulations which implement the rules for group health plans and health insurance coverage under the Patient Protection and Affordable Care Act (Health Care Reform).

We are actively opposing and broadly publicizing your uncaring and vicious attack on religion through your mandates on the citizens of this free country. We will not end our efforts until you subsist or are removed (voted out) of office!!!!
