---

Dear Secretary Sebelius:

I urge you to please realize that contraception is part preventive care for women, and access to wide-ranging contraceptive care is in the best interest of women's health, children, and our communities.

Support cost-sharing for preventive care services like contraception.

We will not accept anymore unnecessary and unreasonable delays in access to contraceptive care as preventative health services.

We need your help to ensure access to family planning services in the dawn of health care reform for women, families and communities.

Thank you

Annie Larson
