Dear Secretary Kathleen Sebelius,

I'm writing to urge you to please incorporate contraception into preventative health care service. Contraception is part preventive care for women, and access to wide-ranging contraceptive care is in the best interest of women's health, children, and our communities. You have the power to support cost-sharing for preventive care services like contraception.

We need your help to ensure access to family planning services in the dawn of health care reform for women, families and communities.

Sincerely,

Laura Vargas
