Subject: ZRIN 1210-ZA25 New regulations change the client-advisor relationship in an entirely negative way with no compensating benefits

I have dozens of clients who have benefited from my professional expertise in retirement income advice and upon polling, they have no interest in the new model and feel it will be to their detriment, depriving them of assistance in selecting appropriate ways to save for retirement.

Please reconsider this harmful action.

Thank you on behalf of my clients. Thanks very much.
